**al Vote 82,432**

vote cast yesterday for candidates was 82,432, h the record total of st year, an increase of however, is not as sub- rease as appears on the he simple reason that names of about 70,000 dded to the list. The vailed themselves of f exercising the fran- first time, was decidly disappointing. This was particularly noticeable in Wards Two, Three and Four, where the vote cast was much lighter than last year.

Controller Gibbons, who headed the list of Controllers, polled a record vote of 42,629, some 6,500 more than polled by Controller Foster last year, but who yesterday had to be content with 1,582 less than twelve months ago.

The other outstanding features of yesterday's contest were the overwhelming defeat of the Single Tax question, the strong endorsation given daylight-saving saving and the marked disinclination of the people to change the date for holding the annual elections.

**Results**

The results of yesterday's voting was as follows:

Mayor—W. W. Hiltz, plurality 10,116.

Controllers—J. Gibbons, 42,629; T. Foster, 34,481; A. E. Hacker, 32,675; R. H. Cameron, 30,715.

Aldermen—Ward one, W. A. Summerville, R. Luxton, G. J. Smith; Ward Two, J. Winnett, B. S. Wemp, C. A. Risk; Ward Three, F. Denton, H. W. Hunt, A. W. Carrick; Ward Four, S. McBride, N. Phillips, C. Pearce; Ward Five, C. E. Blackburn, W. J. Stewart, B. J. Miller; Ward Six, B. Sykes, S. T. Wright, J. S. Laxton; Ward Seven, S. Ryding, F. G. I. Whetter, H. M. Davy; Ward Eight, F. M. Baker, R. G. Dibble, J. T. Turner.

By-laws and Questions—Single tax for, 6,317, against 37,072; Change of Election date for 28,950, against 42,178; Daylight Saving, for 44,605, against 31,719.

## SLIPPERY ROADWAY DITCHES MACHINE

While driving his car towards Deseronto last evening at 7 p.m., Bert Taylor, Bettes street, lost control when the car lurched on the slippery roadway, and was consequently injured when the machine turned upside down in the ditch. Taylor escaped with minor injuries, one elbow which was painfully injured and at first believed broken, being the most serious injury. The car top was badly broken, but otherwise it escaped damages.

The accident occurred at Marysville, and Taylor was the only occupant.

## COMING EVENTS

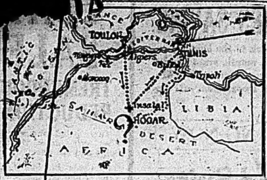
## sing Dirigible t By French



This map of northern Africa and southern Europe shows the scene of search for the Dixmude, gigantic French dirigible, missing since Dec. 23. The big army balloon flew from Toulon, France, across the Mediterranean to Insalal, in the Sahara Desert. On its return, the Dixmude was caught in a storm near Tunis. Since then no definite trace has been found.

Dec. 27 the Dixmude was reported south of Insalal, near Hogar, the supposition being that it was drifting across the Sahara, looking for a landing.

The following day, fishermen found the body of the Dixmude's commander in the Mediterranean, a few miles off Sicily. The place where the body was found is indicated with an arrow. Dotted lines show known course of the Dixmude up to the time of her disappearance near Tunis, and her probable course since the storm.

# Public Opinion Expressed On War Memorial Project By Avalanche Of Coupons

### More Than One Hundred and Fifty Replies Received — Mayor Bennett Names Committee to Pass On Opinions Expressed

Approximately one hundred and fifty coupons have been filled out and mailed to the Memorial Editor of the Intelligencer in connection with the Intelligencer's War Memorial survey. That interest in the project is keen is evidenced by the number of replies received.

**One Week More**

The coupon will be carried in the columns of the paper during the remainder of the current week and then the replies will be submitted to a committee named by Mayor Bennett to classify them and report upon the opinions expressed. The members of the committee are City Auditor H. B. Stock, City Clerk W. J. Holmes and Mayor Bennett. Mayor-elect Mikel announced to-day that, if the work of the committee is not finished when the new administration is inaugurated, he will appoint a third member to the committee if he cannot find time to serve himself. The Intelligencer will not publish a summary of the views expressed, but will leave the matter entirely in the hands of the committee.

The filling out of the coupons has been solicited merely for the purpose of making possible expression of public sentiment in the matter of a memorial and neither the signatories nor the persons passing upon the coupons are committed to any specific course as a result.

**Samples of Replies**

Space does not permit publication of all of the replies but as many as possible will be published during the week. Following are a few replies selected at random, reference is first made to style, next site and third expenditure:

Soldier's statute, with fountain, flower gore at Upper Bridge, $3,000 to $5,000, J. L. Tickell, Belleville; column similar in design to South African Memorial, University Ave., Toronto, Armouries lawn, $10,000, E. H. Tickell, 234 Church street; shaft, Armouries lawn, $20,000 (my first choice would be a fund for the unemployed returned soldiers), Miss Ida Parker, 161 Albert street; shaft, Park, $15,000, G. W. Casement; shaft, Armouries lawn on corner Pinnacle and Bridge streets, (no fixed amount), W. A. Lazier; soldier, Fireman's Park, (no fixed amount), J. L. Johnson; soldier monument, Armouries lawn, no limit, F. Symons, 43 Bleecker street; soldier, Firemen's Park, no limit, C. R. Belnap, 279½ Front street; stone column, Park at jog on Front street immediately below Fire Hall No. 1 (no fixed amount), Capt. A. Harper, Bank of Montreal; large cross with marble platform, Armouries lawn, $10,000, Mrs. I. E. Bowell, 161 Albert street, (my first choice would be a fund for unemployed returned soldiers.)

## HOME IS BURNED NEW YEAR'S NIGHT

### House Owned By Charles Losee, Burned at Rossmore

Fire on New Year's night destroyed a brick dwelling at Rossmore, Prince Edward County. At a few minutes after 7 o'clock the blaze was discovered in the upper portion of the residence, and despite the efforts of a bucket brigade, the house was burned. Mr. Charles Losee was the owner and occupant. Considerable portion of the contents were removed and the loss is partially covered by insurance. How the fire originated is not definitely known but is thought to have started near the chimney.

## WESTERN STRAW IS SHIPPED TO FRANCE

### Will Be Used in Manufacture of Pulp

Winnipeg, Jan. 2—A shipment consisting of over 200 bales of straw were put in canvas and forwarded Friday from Winnipeg to Havre, France, over the C.P.R. lines via West St. John. This shipment consists of wheat, oats and flax straw taken from straw piles in the Province of Manitoba and will be manufactured into straw pulp by the Derains Process Co., at Grenoble, France, and shipped back to Winnipeg.

The building of straw pulp mills in Western Canada, it was stated, would be beneficial to the farmers of this country because instead of burning the straw as is now the practice it would prove a source of revenue to them owing to the use that is made of straw in the manufacture of pulp.

Mr. and Mrs. E. D. Kelen entertained Monday night at their home, West Bridge St.

# Bellevillians Pay Homage To Newly Throned Prince

When the last few grains of sand had trickled through the hour glass of 1923 Monday night, Bellevillians were making merry throughout the city, and endeavouring to "Ring out the old, Ring in the new" in a real enthusiastic manner. Outside, a strong, piercing wind whistled through the slippery streets, indicating that the young Ruler of 1924 was "coming into his own like a lion." Inside the walls of the dancing academys, clubs and numerous private residences where merry New Year's Eve parties were in progress, warmth, joy and delightful comraderie reigned supreme. Old man 1923, who certainly witnessed world wide strife and discontent during his reign realized in his dying hours, the fact that it is yet possible for hearts to be light and that it is still surprisingly easy to submerge past cares in waves of unbounded faith and optimism.

**Two Public Dances**

Special and appropriate public dances were held at the Moose Auditorium and Johnstone's Academy, and the attendance was exceptionally large. At Johnstone's Academy it would have been almost impossible to comfortably accommodate many additional couples.

This academy was very prettily decorated with evergreen trees and colored paper, and a most attractive dancing programme was presented under the personal supervision of Mr. and Mrs. Albert Johnstone who did everything possible to make the New Year event a pleasure to the hundreds of guests present.

Mr. and Mrs. A. Boyle won the roulette dance prize, which was a feature of the dances held in that academy New Year's Eve and again New Year's night.

Dance music supplied by the Bon Ton orchestra was perfectly satisfactorily as the Bon Ton boys were akin to the spirit of the occasion.

Several guests were present from out of town and a dainty lunch was served before midnight. When the lights were turned off at the stroke of 12 o'clock,

(Continued on Page three)

### Gold Discovery in Madagascar Reported

(United Press Despatch)

Paris, Jan. 2—A report of an important discovery of gold in Madagascar reached Paris yesterday but the news was held up by the French press till investigations confirm the report.

## LIVELY TIME ON CEMETERY STREET

### Resident Smashes Furniture While Under the Hypnotic Influence of Liquor

While most people were "saying it with music" on New Year's eve, and fittingly observing the obsequies of Old Man 1923, Tom Irwin was "taking it out" on the furniture in his home. Infuriated by liquor, Tom had the dining room table and other articles of furniture smashed up when police officers who received a call, arrived at the residence.

With the arrival of the officers the cave man tactics ceased and the "wrecking crew captain" was removed to the station house. In New Year's day court, accused was remanded for one week, during which time he will doubtless regret the poor start which he made in 1924.

And to think that this all occurred on Cemetery street. Oh! the irony of it all.

## TRAFFIC EXPERT GETS PROMOTION

### Geo. C. Wells Named Assistant to General Passenger Traffic Manager

Montreal, Jan. 2.—In an official circular Geo. C. Wells, assistant to the passenger traffic manager, C.P.R., is appointed assistant to the general passenger traffic manager.

Mr. Wells who is the chief authority on railway passenger traffic in Canada. In 1901 he was appointed chief clerk, in 1904 assistant general passenger agent and 1910 assistant to the passenger traffic manager. In this latter capacity Mr. Wells had the supervision of all rail traffic in addition to other duties and was unofficially the head of a tariff's bureau.

Thirty-one years of service in the passenger traffic department have given him a knowledge of passenger tariffs not equalled in Canada and in his new appointment he will supervise the steamship as well as the rail rates.

## ANNUAL PARTY AT LOCAL ARMOURIES

### Major J. V. Doyle is Presented With Long Service Medal

A most delightful New Year dance and social time was spent at the armouries here yesterday afternoon between 3 p.m. and 6 o'clock, and again in the evening. Dancing was the feature of the afternoon party, and more than two hundred persons were present to enjoy the excellent dance music supplied by the orchestra of the 15th Argyl Light Infantry Regiment under the direction of Lieut. Reg. Hinchey and Al Wilson, leader of the Society Serenaders. Both functions were given under the auspices of the Argyl Light Infantry Reginment, and lunch which was served, was prepared by the ladies of Argyl Chapter I.O.D.E. Mrs. S. W. Vermilyea and Mrs. D. T. McManus poured tea.

The annual impromptu smoking concert was held in the evening at which Major J. V. Doyle was presented with the Colonial Auxiliary Forces long service decoration, by Lieut.-Col. Roscoe Vanderwater, O. C. of the 15th Regiment. Judge J. F. Wills, an old Major in the 15th in a humorous address last night, told of his military experiences as hospital sergeant.

Col. Vanderwater and Mrs. Vanderwater received during the afternoon.

## NEW YEAR RALLY IS SUCCESSFUL

The annual New Year's rally of the Sunday schools of the city held in Bridge street Methodist church, at 11 o'clock yesterday morning, was well attended. All the schools of the city were well represented. Rev. Dr. Brown, Rev. H. B. Kenny, Rev. F. E. Malott and other ministers occupied seats on the platform.

Addresses relative to Sunday school work and its importance to the church were given by Rev. H. B. Kenny and Mr. P. C. McLaurin, Principal of the High School and Superintendent of the Baptist Sunday School.

The saluting of the flag was a feature of the programme and was successfully carried out under the supervision of Capt. W. Bowie, physical director of the Y.M.C.A.

A number of hymns were rendered by the scholars.

**RETURNS FROM SESSION**

Mr. Alex Weir has returned from Toronto where he attended the Boys' Parliament. Alex is a member of the Government side of the House.

## NOMINATIONS FOR THE COUNTY ARE DULY HELD

### Return All Members of Stirling Council By Acclamation

### 2 AT CAMPBELLFORD

### W. J. Armstrong and A. J. Meyers Are Mayoralty Candidates There

Nominations were held in the various rural municipalities on Monday and much interest was manifested in the proceedings. Results so far as obtainable as follows:

**Stirling Village**

Members of Stirling village Council were on Monday elected by acclamation as follows:

Reeve—C. McQuire.
Council—T. Micklejohn, Sam Hatton, Hugh Morton, G. Bailey.
School Trustees—Dr. Ward, John Morton, H. C. Martin.

**Thurlow**

Although a number of candidates were on Monday nominated for the position of Reeve, Reputy Reeve and councillors for Thurlow Township, there will be no election, all offices being filled by acclamation. The council will be as follows:

Reeve—G. T. Sills.
Deputy Reeve—E. W. Brown.
Councillors—R. Mitchell, D. McDonnell and Wm. Tufts.

**Trenton**

If the number of nominations for Mayor and councillors for the town of Trenton for 1924 is any criterion of the fight at the polls next Monday, it will certainly be a hot one. In all 16 candidates were nominated for the mayoralty, while for councillors over 41 names were submitted.

Three men, W. Saylor, Rev. F. W. Armstrong and L. E. Roenigk were nominated for the post of utility commissioner, while for the public school board 28 citizens were nominated, out of which four are to be elected.

**Campbellford**

There will be a contest for the various municipal positions in the Town of Campbellford, the list being as follows:

Mayor—W. J. Armstrong and A. J. Meyers.
Reeve—J. A. Anderson and Charles Davidson.
Deputy Reeve—J. E. Dorie and J. A. Burke.
Water and Light Commissioner—A. E. Caddy by acclamation.
Councillors—Jas. Cassidy, John O'Sullivan, W. J. Micklejohn, G. E. Morrison, G. T. Johnston, T. D. Diamond, W. J. Aberneath, R. H. Cole, Geo. A. Kingston, R. J. Allan, Alex McDonald and Henry Redder.

**Seymour Township**

Reeve G. W. Volkenburg, of Seymour Township, and all members of the 1923 Council were re-elected by acclamation.

## MASONS INSTALL NEW OFFICERS

### Regular Convocation Held By Moira Chapter New Year's Eve

A regular convocation of Moira Chapter Royal Arch Masons was held at the Masonic Temple on the eve of New Year's, Dec. 31.

The following newly elected officers were installed and invested by the First Principal of the Grand Chapter of Canada Most Excellent Comp., R. H. Spencer.

There were present many Masons of high standing including companions of Moira and visiting companions from Quinte friendship and Madoc chapters. After a splendid installation and ceremony of inveture luncheon was served in the banquetting hall from 10.30 to 11.30 p.m.

The officers installed and invested were:

Excellent Companion—Wm. Cook, 1st Principal; Excellent Companion—J. B. Bowne, I. P. P.n.; Excellent Companion—[illegible] Hope, 2nd Principal; Excennent Companion—W. W. Anderson, 3rd Principal; Very Excellent Companion—G. B. Sainsbury, Scribe E.; Rt. Excellent Companion—J. J. Farley, treasurer; Comp. H. G. Redner, S. N.; Comp. Geo. Cornish, P. S.; Comp. W. J. Johnson, Guard; Right Ex. Companion O. R. McCurdy, Trustee; Comp. D. G. Bleecker, Auditor; Comp. F. S. Deacon, Auditor; Comp. Harold McElrath, S. S.; Comp. C. J. Lewis, T. C.; Comp. John McCarthy, Master 4th Veil; Comp. Steve Licence, Master 3rd Veil; Comp. Vic Graves, Master 2nd Veil; Master Geo. Irvine, Master 1st Veil; Comp. H. Redfern, Organist; Excellent Comp. Wm. Thompson, Director of Ceremonies; Comp. H. Dillnott, Steward; Comp. Wm. McIntosh, Stewart; Comp. C. Sherry, Organist.

A basket of choir roses, the emblem of the chapter, was presented by the Companions to Mrs. Cook, wife of the newly installed first principal.

## FLOODS IN PARIS TIE UP TRAINS

### Quay D'Orsay Railway Station Ordered Closed

(United Press Despatch)

Paris, Jan. 2.—Authorities ordered the Quay D'Orsay Railay station closed today as the angry waters from the flooded river Seine invaded the big railway terminal. Swirling torrents invaded the railway tracks outside the station, shutting off hundreds of trains which daily pass in and out of the yards.

# Urges Laboratory Facilities For Scientific Research And Analysis In Mineral Fields

The following communication has been received by The Intelligencer from County Clerk W. H. Nugent of Hastings County,—

Under the heading of "Mineral Resources" your comments on the report of the Mines Branch of the Dominion Department of Mines, appearing in the editorial column of Saturday's issue, merits special notice as it expresses an opinion uppermost in the mind of many that what is required in the development of our mineral resources is more practical research work in the mining department. It is most encouraging to receive reports from the experts who from time to time survey the surface of our mineral lands, that our country shows mineral deposits rich, varied and abundant, but it would be of far greater value to the people if, with the facilities provided in the laboratories for scientific experiment and analysis, a system was evolved by which the people would know that these minerals could be worked commercially, for after all that is the main test. Private individuals should not be expected to bear the cost of these experiments, nor risk their money in trying to perfect a system that would be of national benefit, and who often fail when on the threshold of success because they were forced to abandon their experiment for lack of sufficient capital.

**Practical Demonstration**

In mining as in all other activities practical demonstration is more convincing than theory. Hastings county shows large deposits of iron ore,

(Continued on Page Eight)

## BELLEVILLE BOY IS PROMOTED

### Aubrey Lott Now Works' Manager of Steel Plants at Gananoque

Many old friends in Belleville will be greatly gratified to learn of the important promotion that has come to their former fellow-townsman Mr. Aubrey L. Lott. Mr. Lott left Belleville a little over four years ago to take a position with the Steel Company of Canada in one of the Company's plants at Gananoque. He had had no previous experience whatever in this particular line of work. So successful has he been, however, in his new duties and so well have his efforts been appreciated at headquarters that he has now received notice of his appointment as works' manager of both plants of the Steel Company at Gananoque. Mr. Lott enters upon his more extended duties with the beginning of the present year.

### Kentucky is Rocked By Severe Earthquake Shocks

(United Press Despatch)

Hickman, Ky., Jan. 2.—An earthquake of unusual vibration for this distrct was felt here last night. The vibrtion lasted several seconds shaking houses and rattling dishes and windows.

# WAR THREAT AGAIN STIRS GOVERNMENTS OF BALKANS

### Serbian Forces Mobilized on Bulgarian Frontier Ready to Advance into Rich Bulgarian Coal District

### RUMORS RAMPANT

### Invasion of Greco-Serbian Macedonia Feared in Athens—Reports Add to Excitement in Greek Capitol

(United Press Despatch)

Athens, Jan. 1.—Jugo-Slavia is threatening to break off relations with Bulgaria and plunge the Balkans into war.

All Serbian garrison along the Bulgarian frontier were ordered last night to be ready to make an immediate advance in the direction of Pernik, the rich coal district just inside Bulgaria, which the Serbs covet.

Athens, Jan. 2.—Rumors of an impending armed conflict in the Balkans were renewed to-day. From authoritive quarters it was learned that 7,000 members of the bulgar comitadjis were concentrated in the Bulgarian districts of Radomir, Custandil and Fetritis, threatening an invasion of Greco-Serbian Macedonia. The report added to the excitement here caused by the strained relations between Greece and Roumania, following the expulsion of the Greek King and Queen.

## STEALS CASH, IS GIVEN SENTENCE

### Eugene Corron Sentenced to 4 Months in Cobourg Jail

Campbellford, Jan. 2.— Pleading guilty to the theft of $110 from his employer, Eugene Corron, a young man whose home is in Quebec, was sentenced by Police Magistrate Payne to four months in the Cobourg jail, and was at once taken to that institution by Chief Duncalfe.

Corron was working for Herbert Spencer, a farmer who resides on the tenth concession in Rawdon township. Friday morning he left the house to go, it was understood, to the bush, to work, but when Mr. Spencer went out to join him about 9 o'clock, he was not there. This aroused the suspicions of the family, and on searching the house it was found that $110, belonging to a son, Wilfrid, who had just returned from the west, where he had earned the money in the wheat fields, was missing.

Mr. Spencer notified Chief Duncalfe, who secured a description of Corron, and he telephoned the station agent at Bonar-Law, the point at which Corron would be most likely to take the train. A man answering his description was in the depot at the time and the Chief asked that he be prevented from taking the train.

Corron left the depot and purchased a mackinac coat for $8 in a neighboring store, then paid $5 to a Marmora man who was passing through the village in an auto for a ride to Campbellford.

Upon his arrival here Corron was arrested by Chief Duncalfe. All of the money except the $14 which he had spent as noted above, was recovered.

He pleaded guilty.

**UNHAPPY NEW YEAR**

Pittsburg, Pa., Jan. 2.—Joseph Polito of Stowe township was murdered the New Year dawned, the assassin's shots blending with the blare whistles and horns and the bark guns fired by celebrators. A few minutes before midnight Polito went his front porch to welcome the Year.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## THE PROGRAM OF 1924

Despite "Whispers of Death" and other propaganda, inspired by personal or factional ambitions, Canada faces a New Year with bright prospects. It cannot be denied that Canada has suffered during the past few years from industrial handicaps; thousands of her young men have crossed the border into the States, and the sluggish condition of business coupled with the burden of taxes has elicited complaints from even the most patient citizens.

While there is still a need of improvement, there should be no hint of discouragement since Canada's wonderful resources and her position as a tyro among the nations of the commercial world promise a great future. To the keen student of economic and industrial conditions in Canada, the year, 1923, was one of remarkable accomplishment, due rather to the national incentive to development than to financial assistance and encouragement on the part of the King-Gouin Government.

However, the time has come in Canada when all other interests must be subordinated to the great program of development. Canada is potentially one of the richest nations of the world. She is unable to assume the position which her riches justify for the reason that development of her vast resources has never been properly undertaken. Yet there is reason to believe that the interest manifested by the Dominion and provincial governments in immigration will serve to stimulate activity in new industrial lines and will encourage attempts to convert Canada's great wealth of raw materials into manufactured goods and exports.

During the year, 1924, rapid rides will be made in industrial progress in Canada; mines will be opened; factories will be established and highways will be constructed to form new arteries of commerce. It behooves every citizen of Canada to mploy every opportunity to assist this development program during e year, 1924.

Canada's great wealth is destined play an important part in the ernational affairs of the future. transformation of this great nal wealth into tangible and negot assets is the duty of native dians.

rthern Ontario offers an excel opportunity, and there is oppor for every native of Ontario t, in some measure, in the de nt of the resources of Nor ntario during the next year. he great promise of the New the people of Ontario.

try elevators and interior terminal points, 53,000,000 bushels. These figures are eloquent of prosperity, despite the fact that grain prices have shrunk considerably. Moreover, it has been estimated that the 1923 wheat crop in the Canadian West totalled approximately 460,000,000 bushels. This would mean that there are still approximately 150,000,000 in the farmers' granaries. The 1923 wheat yield in the Canadian West should serve to stimulate business activity and improve financial conditions throughout Canada during the coming year. Another bumper crop should usher in a boom of revolutionary proportions in the Prairie Provinces.

## EDITORIAL NOTES

How will the viaduct fare under the new administration in Toronto?

* * *

Any unusual noises heard during the next few days will be caused by the shattering of New Year's resolutions.

* * *

Accidents in Ontario during 1923 averaged 284 a day and compensation paid totalled $5,384,855.84. There is still much to be accomplished by "safty first" campaigns.

* * *

Hon. P. C. Larkin, Canadian High Commissioner in London, says Canada "has every reason to give thanks for the prosperity and happiness vouchsafed in the past year." Mr. Larkin is perhaps in a position to judge our circumstances much better than we can ourselves.

* * *

The election of W. W. Hiltz as Mayor of Toronto must have been a great surprise to one person at least—his runner-up— the redoubtable Tommy Church. Still Tommy won't find it necessary to appeal for financial assistance. He will still be able to "carry on".

## PRESS OPINIONS

### WHY EDITORS GROW BALD
(Vanceburg Sun)

To be a successful newspaper man calls for a variety of talents. An all around newspaper man should be able to write a poem, discuss the tariff and other political questions intelligently, umpire a ball game, preach the gospel, report a wedding, saw wood, describe a fire, make one dollar do the work of two, shine in high society, subscribe to charity, go without meals, sneer at snobbery, overlook scandal, wear diamonds, praise the ladies, delight the pumpkin raisers, administer to the afflicted, heal the disgruntled, fight to a finish; mould opinions, sweep the office, set type, move the world, scorn the flesh and the devil, be everything and see everything on this footstool. It's an easy job.

### IT ISN'T DONE
(London Telegraph)

The humors of the old maid have been removed from polite literature. In our youth we may have seen good ladies smile tenderly as they read in their Longfellow of the damsel who was "too fair to be left to braid St. Catharine's tresses," and the sentiment was equally approved by stern fathers of families. But one would no more dare to say a thing like that now than to read Longfellow in public. It is not done. To remark, in whatever elegant periphrasis, that a girl is so pretty she ought to marry would be to defy the spirit of the age.

### DIFFERENT MEASURES
(Province Journal)

Nearly every motor death is due to someone's carelessness, folly or inexperience, and the greater prevalence of such deaths in one community than in another eloquently bespeaks the difference in the measures taken to prevent them. Reducing the number of accidents through stringent regulation of motor traffic is one of the most pressing demands of the day.

### GENERAL EDUCATION
(London Chronicle)

Trade unions will not permit the apprenticeship of boys (in certain trades) who are over fifteen years of age. That is, in effect a ban on education. Between the years of fifteen and sixteen a boy's mind is most receptive, and he learns much that cannot but be useful to him in any calling that he may take up. It may be said that education can be continued at night schools. But experience shows that these are a poor substitute for secondary schools.

The reactionary policy of the trade unions thus disclosed is altogether in conflict with the sympathetic and encouraging attitude which Labor as a whole adopts towards working-class education. It is evident that they view the matter from the aspect of narrow sectional interests, forgetting entirely that a good general education is the best basis for all craft learning.

### BRITAIN'S AID
(London Punch)

The proposed substantial reduction of the United States income tax is said to have been made possible by British money. It is fine to feel that we have not waged the peace in vain.

on Art;
He lies await for Science and upsets he apple-cart!
Continually some devilish scheme fomeats in Cupid's bean
Till life for him is truly, just one endless Hallowe'en.
When Knowledge lamps some brainy maid, with strong determined jaw,
She tutors her in school and makes her learned in the law;
Then Cupid comes and steers the maid against some shallow simp,
And all the law that she lays down is to this little shrimp.
Another maiden Knowledge lamps and then concludes to-wit;
Domestic science is her forte and bids her master it;
She shines in it till Cupid comes and sternly orders that
She follow her profession in a 6x7 flat.
O Cupid is a mirthful wight with endless pranks and tricks!
A half of fond parental hopes, bear Cupid's label "Nix!"
Upsetting life's ambitions is his favorite little stunt,
And yet how strange that everyone forgives the little runt!
—JOHN D WELLS.

• • •

### HE COULDN'T "SEE" IT THAT WAY

New York—A "blind man" begging alms at a subway station, miraculously recovered his sight as a boy tried to rob him and kicked the thief down a flight of stairs.

• • •

### He's Easily Pleased

Paterson, N. J., Dec. 31.—Frank Madej of Bridgeport Conn., is the "happiest man in the world," he told police today after having killed his wife, the mother of his four children.

"I'm just sory I didn't kill Konstantly Gromaski, the man she ran away with," Madej said.

• • •

### SEE WHAT WILHELM STARTED

Keil, Germany, Dec. 20.—A darning needle is the basis for a lawsuit which has been carried from the Holstein District Court to a higher tribunal, because of the law providing that a district judge cannot pass on cases involving articles worth more than a half billion marks. A darning needle now costs a billion paper marks.

• • •

THE CO-EDS of Cornell University have administered a blow to intoxication by resolving to refuse to dance with men after they have been drinking. Remember the lines of the old temperance song? "Lips that touch liquor, shall never touch mine!" An excellent motive is expressed in the words, but worldly modernists misconstrue them and acquire the impression that the young lady of the song is merely declaring her determination to protect her own liquor supply. Hope that isn't the attitude of the Cornell co-eds.

• • •

### HERE'S TO HIM

We honor the names of heroes dead;
Erect big monuments over their head;
Revere their memory, sing of their fame,
And almost go nutty with wild acclaim
There's Caesar, Napolean, Grant and Lee,
Edison, Einstein and Carnegie.
Chaplin and Shakespeare, "Richard the Great,
Mah Jong and Dempsey, the heavy-weight.
We've decorations, medals and millions too,
For every hero, brave and true,
But history missed one noble soul,
Whose praises should ring from pole to pole.
He has no niche in the Hall of Fame,
We don't even know the poor bird's name,
But raise your voice and sing real hard,
For the guy that invented the Christmas card.
—Wichita (Kansas) Beacon

## Music & Drama

### "THE GREEN GODDESS" POWERFUL IN PLOT AND SWIFT IN ACTION

Powerful in plot, swift in action and with superb acting, "The Green Goddess," produced by Distinctive Pictures Corporation, is the feature attraction at Griffin's tonight. It has about everything a picture should have and perhaps a little more. Magnificent settings and wonderful costuming add to the general excellence. It is a big picture, done in a big way. Seldom has anything been done on the screen to equal the mob scenes in which several thousand people appear. Sidney Olcott, who directed "The Green Goddess," is deserving of no little praise for his deft handling of these mobs and subtle dramatic situations.

The distinguished actor, George Arliss, is the star and Alice Joyce, making her return to the screen after two years' absence, has the leading feminine role. The supporting cast includes David Powell, Harry T. Morey, Jetta Goudal, Ivan Simpson and William Worthington.

### VIOLA DANA AND JOHN BOWERS NOW AT REGENT THEATRE

Large audiences nightly, has been the rule at the Regent Theatre, this week, where, Viola Dana and John Bowers, the popular Metro stars have been appearing in the delightful, south romantic-comedy, "Crinoline and Romance."

These two popular stars are appearing at the Regent Theatre for the last time.

A funny Hal Roach Juvenile comedy Fox News, and a new chapter of "The Steel Trail" serial are being exhibited on the same program.

### FOUR PROMINENT SCREEN PLAYERS IN "CHILDREN OF JAZZ"

Embracing in its story, many situations of dramatic power and thrill, 'Children of Jazz," a Paramount picture, featuring Theodore Kosloff, Ricardo Cortez, Robert Cain and Eileen Percy, will be the feature attraction at Griffin's for three days, commencing tomorrow with the usual matinee Saturday.

The story deals with the jazz existence of Babs Watson, daughter of a financier, who becomes engaged to three men simultaneously. Richard Forestall, son of a man who maintains the social ideals and customs of the folk of the 1850's, is devoted to her, but when he hears of her escapades, he denounces and quits her.

Subsequently, Babs is induced to take a trip in a hydroplane with two of her admirers and the machine is wrecked in a storm off an island. The quartette is rescued with difficulty and they find Forestall on the island with his father and servants. Forestall is skipper of a schooner, the crew of which mutinies and many dramatic scenes follow. It is through these that the jazz-loving men and women find themselves, the climax of the picture being exceptionally strong and filled with novelty. The British News film; Gaumont Graphic, Lloyd Hamilton in a funny Mermaid comedy, titled "F. O. B.", and Ruth Roland in a new chapter of "The Timber Queen" serial are being exhibited on the same program.

### MILTON SILLS AND CLAIR ADAMS AT REGENT TOMORROW

Milton Sills, featured player in many productions directed by Cecil B. DeMille, and known as an actor with a tremendous Belleville fan following, plays the leading role of "Legally Dead," the Universal all-star production coming to the Regent Theatre tomorrow to Saturday, with a matinee daily at 2.30.

Adrenalin, the magic drug with which the scientists today are restoring life, motivates the plot, and the leading character is a man hanged for a murder of which he was not guilty, and brought back to life with adrenalin

Beautiful, Clair Adams plays opposite the star, other well known players in the cast are, Edwin Sturgess, Brandon Hurst, Charles A. Stevenson, Faye O'Neill and other well known players.

Two good comedies and Pathe News are being exhibited on the same program.

### HARRY LAUDER AND HIS VAUDEVILLE COMPANY HERE NEXT TUESDAY

"They call Harry Lauder "near", said William Collier, the comedian, presiding at a banquet tendered to the little scot in New York City; "but don't you believe it. That's newspaper talk. This canny scot has given away thousands of dollars to worthy charities, he raised a fund of half a million dollars for the scottish soldiers and sailors disabled in the world war, he gave up an entire summer's engagement to sing to the boys in the trenches at his own expense, and, despite the fact that he could add thousands of dollars to his annual income by s ing on Sunday, he has never appe on that day except for charity.

Sir Harry Lauder and his all- company of English and Europ vaudeville entertainers, and fam Lauder orchestra, considered the g est on tour, appear at Griffin's n Tuesday night, January 8th.

## Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can not possibly injure the hair.

Simply moisten your hair with water and rub it in. Two or three teaspoonfuls of Mulsified wil make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

### IMPROVED TRAIN SERVICE BETWEEN TORONTO AND WINNIPEG

The Canadian National Railways announce that effective Saturday, January 5th, 1924, improved train service via New Longlac route will be put in operation.

"The National", the Toronto, Winnipeg and Western Canada train will hereafter run by this route via Allandale, Barrie, Orillia and Washago, instead of via Beaverton, leaving Toronto, 10.45 p.m. daily, arriving Sudbury at 8.55 a.m. and Winnipeg 4.10 p.m. following day.

"The National" will carry Tourist Sleeping Car Toronto and Winnipeg, Edmonton, Compartment Observation Library Car Toronto and Winnipeg. Standard Sleeping Car Toronto and Sudbury: Dining Car serving all meals.

For tickets, reservations and full information apply to H. C. Thompson or nearest agent of the Canadian National Railways.

[illegible] "counted out", after which [illegible] hands and sang "Auld Lang Syne" and "the National Anthem".

**At Moose Auditorium**

At the Moose Auditorium the Jolly Time Social Club held their opening dance and it proved a most successful New Year venture. There was a large crowd of the younger set present and it was easily seen that they were all having a fine time. One of the features of the evening was a Tango Exhibition by Miss Marsh and Mr. Theo. Marakas of the Belleville Kiddie and Concert Troupe. This was something new for Belleville and judging from the prolonged applause which the young artists received, it can be safely said it was a great success. The dance realized a goodly sum towards helping pay for the kiddies costumes.

At midnight all joined hands and sang "Auld Lang Syne" after which light refreshments were served. Mr. James Larmer, of the Moose, made the crowd a most acceptable New Years present by allowing them to dance an extra hour. This club will run monthly dances. The committee in charge of the dance were Mr. J. C. Scott, pres.; Mr. F. C. Marsh, treas.; Mr. F. O. C. Bennett, sec. Sprague's novelty orchestra supplied snappy dancing music for the dancing.

### NOTICE!

NOTICE is hereby given that a bylaw was passed by the Municipal Council of the Township of Huntingdon on the 26 day of December, 1923, providing for the issue of debentures to the amount of $10,000 for the purpose of building a school house at Moira and that such bylaw was registered in the registry office of Belleville in the County of Hastings on the 2nd day of January, 1924. Any motion to quash or set aside the same or any part thereof must be made within three months after publication of this notice and cannot be made thereafter.

Dated the 2nd day of January, 1924

D. L. FLEMING,
J2-3td Township Clerk.
2nd Jan. 1924.

## We'll Back Vicks Against Any Cold In Belleville

We'll back a jar of Vicks Vapo-Rub against any cold in Belleville and vicinity.

Here's our liberal offer.

Get a 50c jar of Vicks at your druggist's. Use all or part of it. If you are not delighted with the results mail the top of the carton to Vick Chemical Company, 344 St. Paul St., W., Montreal, and we will gladly refund the purchase price. We make the above offer because Vicks certainly does give quick relief in the majority of cases.

Miss Amy A. Pond, Apr. 20, 50 King St., Sherbrooke, Quebec, writes: "Vicks VapoRub is one of the best remedies for colds that I have been able to get hold of. I had a very severe cold on my chest and I applied Vicks Vapo-Rub and got great results. The cold seemed to break up, and in a day or so I was almost free from a cold."

Vicks is the external, direct treatment for all cold troubles—rubbed or—absorbed like a liniment—and at the same time, inhaled as a vapor.

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

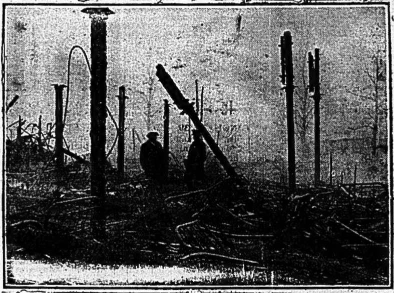
## Where 17 People Burned To Death



Ashes of the old frame building of the Chicago Hospital for the Insane at Dunning, Ill., in which 15 men, a woman and a child were burned to death just after Christmas. Investigators are shown groping among the rows of blackened iron bedsteads in the search for remains of the victims.

## No Actual Engagement Between Prince George And Lady Curzon

United Press Despatch

London, Jan. 2.—From a source close to court circles here, it is learned that no actual engagement at present exists between Prince George and Lady Alexanderia Curzon. It is said that the Prince is anxious to have a formal bethrothal and that there is no objection in principle on part of the King and Queen, but that the latter consider him too young to marry and wish him to wait a while before making a definite contract to marry.

## Eccentricities of the Gulf Stream

When the Panama Canal was being built many dismal prophets prophesied that the warm waters of the Gulf Stream would flow through the canal and leave the Eastern States and Northwestern Europe under Arctic conditions. Here is an authoritative statement by Jacques W. Redway, F.R.G.S., respecting the matter. Stories concerning the dreadful things which are to happen because of the eccentricities of the Gulf Stream come quite as regularly as epidemics of the influenza, but about thirty times as frequently. The influenza visits us only about once in a generation. The vagaries of the Gulf Stream are rehearsed every summer. In order to understand what may be the changes in warm ocean currents and their connection with the weather, one would better begin with first principles, namely, the Equatorial Current.

In equatorial regions a steady wind blows from the east-northeast and southeast in different latitudes, but always from the east. The skin friction of this great wind belt in the course of years multiplied by tens of thousands has finally dragged enough water along in a westerly direction to set in motion a feeble current, 1,000 miles or more in width, which flows westward. The Equatorial Current is the greatest of all ocean currents. There are other factors involved in the formation of ocean currents, such as the differences in temperature, differences in specific gravity—for salt water is specifically heavier than fresh water—and the earth's rotation; but the factor chiefly to be considered is the direction of the wind.

The South American continent projects a fairly sharp angle against the Equatorial Current, splitting it squarely in two, turning one part along the Brazilian coast, the other in a northerly direction. The latter finally becomes the Gulf Stream.

As a definite current the Gulf Stream has not nearly the extent with which common opinion credits it. The waters which form it gather rather broadly, but gradually concentrate at Santaren Channel and Florida Strait. At this locality they become the Gulf Stream. Years ago, common tradition had it that the Gulf Stream made a complete circuit of the Gulf of Mexico, and hence the name. As a matter of fact, a small amount of water is drawn out of the Gulf by a process akin to that of aspiration, but it is not Stream water; it differs therefrom in temperature, color and salinity.

In extent one may safely assume that the Gulf Stream begins in Florida Strait. At a point roughly between Miami and islands lying eastward—one of which is Bimini, with a stream not associated with the Gulf—the Gulf Stream is a powerful current with a maximum velocity between five and six knots, and a minimum of about three knots. At this point its flow reaches to the bottom and sweeps the ooze therefrom as far north as Cape Hatteras.

Off Cape Hatteras, at a point where the 2,000 fathom curve is nearest the coast, the velocity rarely exceeds one and one-quarter knots. Thence northeastward the velocity gradualy decrease until, at the southern limit of Grand Banks, off the Newfoundland coast, its force is lost and it becomes merely a wind drift.

The velocity of the Gulf Stream along the Florida coast varies with the season and even with the passage of the moon; that is, the variations are both seasonal and monthly.

The Gulf Stream water is saltier than the cold water which forms its banks. Off the Florida coast its waters show a strong color contrast in comparison with surrounding waters. Between the Gulf Stream and the coast is a cold water countercurrent flowing southward; and small southbound craft frequently use its flow to gain a knot or two in speed. Off Cape Hatteras an adverse undercurrent appears seasonally at the surface, meeting the Gulf Stream and throwing the surface into the rips which navigators have named rather aptly "Little Hell."

Winds may, and frequently do, disturb the surface waters of the Gulf Stream. A favorable wind may accelerate the flow; an adverse wind may not only retard it, but scatter the surface waters to the one side or the other. A strong southerly or southeasterly wind many times has blown warm surface water out of the course of the Gulf Stream and has lodged it against the coast.

The Gulf Stream has much to do with the economies of the commerce of Western Europe, but mightily little to do with its climate except in an indirect way. Its flow does not reach within two thousand miles of any part of Europe. But it does carry an enormous volume of warm water into the region of westerly winds, and these same winds drag the warm water into every nook and cranny of the west coast.

The mild climate of Western Europe has practically no relation to the Gulf Stream. The prevailing winds of western Europe are from the west and southwest. They are ocean winds and therefore moist. Chilled by their intrusion into northerly latitudes they drop their moisture in the form of rain or of snow even before reaching the coast. Now, for every pound of water condensed from the air, enough latent heat is set free to warm about half a ton of water one degree in temperature.

This enormous amount of heat is practically locked up in low latitudes, transferred to high latitudes and there set free. And even were the Gulf Stream to be put out of existence altogether, the effects would not be anywhere like those Prof. Berget describes. There might not be as much warm drift, but the climate of Western Europe would not be materially different from that of British Columbia. Possibly there might be more ice in the harbors.

### AVALANCHE IN ALPS

Bearne, Jan. 2.—Avalanches are crashing down the passes of the Alps with greater frequency than at any time within the last ten years. Many buildings have been destroyed and in some cases whole families have been buried while asleep. The forests are suffering considerably.

# If Back Hurts Begin On Salts

### Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

IT PAYS TO ADVERTISE IN THE INTELLIGENCER

## Snow I

A little matter like a links covered with snow doesn't cool the ardor of this Toronto golfer. He is one of a coterie of enthusiasts who keep in form by practicing at Sunnyside Beach, despite the snowfall.

### Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

## FRENCH MILITARISM

(Chicago Tribune)

While allowing for France government difficulties, we cannot overlook the fact that they have not prevented the making of huge loans to allies, not for productive purposes, but for military expenditure. Recently the Soir of Brussels reports, on the occasion of the visit of M. Benes, Czecho-Slovakian minister of foreign affairs, that the French government had granted credits to the Little Entente of 1,200,000,000 francs. Of this huge sum, Poland has received 400,000,000 and 800,000,000 were divided among Roumania, Serbia and Czecho-Slovakia. The credits were for wholly military objects and were to be expended in France.

leaders

of Montreal, against Church Union. The first characterized the Union as a "backward step" at every turn. This is followed by a worse turn in the disease and the Union is now said to be a series of "tragedies". Both articles are full of sentiment, showing a stubborn opposition to the Union, and especially a bitterness against and contempt for the leaders of the Union Movement. One can scarcely realize that the mind and pen that speaks through the "Church Record", edited by E. Scott, M.A.,D.D., can be the same that can conceive and put in press such extreme contempt for this forward movement, which leaders of Christian thought, in three branches of the Church of Christ, have inaugurated, and through the courts of the different Churches are carrying on to completion. We are reminded of the question of James the Apostle—"Doth a fountain send forth at the same place sweet water and bitter?"

But let us examine a few of his so-called "tragedies". The only tragedy we see in No. 1 is that of organized stubborness, and the shame that this opposition is all among our Presbyterian brethren. In No. 2 and No. 3, this is a special thrust at the "Moderator of Assembly." The tragedy we see here is in the fact that any Presbyterian can thus pour contempt upon one whom God has so honoured "in raising him to the highest honour among his brethren."

In No. 4 with respect to the vote of the members. The tragedy is again in the fact that the opposition has been for twenty years all within the Presbyterian Church. I am ashamed to think that as Presbyterians we should adopt any "holier than thou" attitude. This "eight-year-old-vote" spoken of is a long-drawn scheme to shelve the Union Movement, which should have been consummated years ago. Those who state that the soldiers have not had a chance to vote must know very well that the church member who went overseas did not come back a stickler for denominationalism. A very large part of the increase in membership spoken of are recruits from our Sunday Schools, and these we hope have not been trained to take any exclusive stand in church matters but the opposite is true, and the opposition is largely from older people.

In Nos. 5, 6 and 7, the tragedy seen is in the suspicion of our trusted leaders and those of the affiliated Churches. The effect on men outside the Church will naturally be a commonsense one, as the division of the Protestant Church has been always a source of criticism by the outside world.

No. 10 "The empty church treasury and the hindrance to mission work." It takes a very small excuse to hinder some people from contributing to missions. Christ's Church will continue, never fear. The feeble effort of these people who are diverting their money from His cause and using it to obstruct His work can never succeed in dividing His people. Why should Christian people foster such a spirit of opposition? Our Methodist brethren are engaged in similar mission work in the preaching of the Gospel, and thus carrying out Christ's last command. The people in rural charges can find plenty of room for every dollar they can give in paying the minimum stipend, and in doing all they can to help our mission schemes, and the average rural charge is glad of the prospect of union. I have driven five miles to church all my life-time, and all of this time I have driven past a Methodist Church and through a community of Methodist and Presbyterian brethren. This means more to me than it does to the town man who walks possibly across another block or two on a cement sidewalk in order that he may worship in the church of his choice, and I welcome the day of union, not that we may be nearer to church, but that this community as described may be able to get together in one church, making over rural Canada stronger churches, able to pay good stipends to ministers and saving much more of our givings for the mission schemes of our church. Every rural Presbytery has this same problem. It applies to Ont. as well as the West or the East. It is easily seen if we want to see it.

No. 13, had Dr. Scott been at the great Massey Hall Rally in Toronto, recently, he would have been condemned for such sentiment, and would have seen something of the "uplift" that came to those of us fortunate enough to be there.

No. 14, "The Last Tragedy." The Bill becoming law. The disruption of churches and W. M. Societies! Shame on such a proposition! The man who is in the spirit of the man who asked the Saviour, "What wilt thou have me to do?" will never think of disrupting His Church, but will be glad to fall in with the majority of his brethren. Don't worry about our women. They were always loyal to Christ and surely not ready to be disrupted, and should be ready to join in a larger field of labor. Besides, many a man has been saved through the influences of a godly wife, and has been saved from bitterness and opposition by the quiet good sense of that same woman. They are used to changing their name, and do not worry about it as their love goes along with the change. As an elder of our church I have been honored and helped by it, and it is my duty as such to take up no "decisive course" but to be faithful to her courts, as I have promised to do in my ordination service, to cast no reproach on our beloved leaders who are chosen of God for His service. It is plainly my duty to my church and to my master to obey the voice that so plainly speaks to me. To do otherwise and to accuse our courts and leaders of unfairness, and to call this great spiritual movement "tragedy", would to me be a tragedy indeed.

ROBERT MCCULLOUGH
Elder.

Brampton, R. R. No. 2., December 19th 1923.

## THE PULPWOOD COMMISSION

Editor, Intelligencer,—

According to press reports the Royal Commission on Pulpwood is about to resume its peregrinations about the country which came to a halt a few weeks ago.

Considering the state of Canada's finances and the fact that the Government finds itself under the necessity of imposing a new and an increased sales tax on everything the consumer has to buy, the waste of money—to say nothing of the utter futility involved in the creation and continuance of this Commission—cannot be characterized as anything less than an outrage upon the public.

Any excuse which might have existed to justify the Commission disappeared when the Government passed the now notorious secret order-in-council exempting pulpwood under contract for a period of ten years from the operations of any embargo that might be imposed under the recommendations of the Commission. This, together with the Government's pledge that wood from farm lands would also be exempt, removes the last vestige of possibility that the present Government can or will do anything to protect this great natural resource of Canada from foreign depredation, for the rate at which Canada is being depleted of her pulpwood amounts to nothing short of that. Trade returns show that for the first eleven months of this year 1,416,000 cords of pulpwood have been exported to the United States, an increase of 445,000 cords, or more than 45 per cent. over the corresponding period of last year.

The "evidence" already taken by the Commission emphasizes the farcical character of its proceedings, the great bulk of it consisting of monotonous repetitions by American pulpwood buyers and their representatives that an embargo would injure the business of exporting pulpwood—which is precisely the object and the justification for the proposed embargo. The so-called "information" which the Commission is credited with gathering consists largely of extravagant misstatements of no value and not only misleading in themselves but whose propagation is seriously injurious to Canada's best interests.

But even the agitation for an embargo has had at least one good effect. It has brought into being no less than twelve application for locations for new pulp mills in this country, which indicates beyond any doubt that if the American market for the wood is cut off there will follow a domestic demand sufficient to absorb all the reasonably available wood, and Canada will be benefited by the revenue derived from its manufacture in this country. Of course if the Government persists in its policy of allowing the free export of the wood, these new mills will not be built in Canada.

But the expense of the Commission, the members of which receive from $25 to $35 a day each, and $1[illegible] additional for travelling expenses, [illegible] an inexcusable imposition on the tax-payers. Surely a country which bears the unenviable reputation of being the only one the world, outside of Germany, whose public debt is increasing and whose national budget fails to balance, can find better uses for the tax-payers' money than in paying for the needless joy-riding about the country of a useless Government Commission.

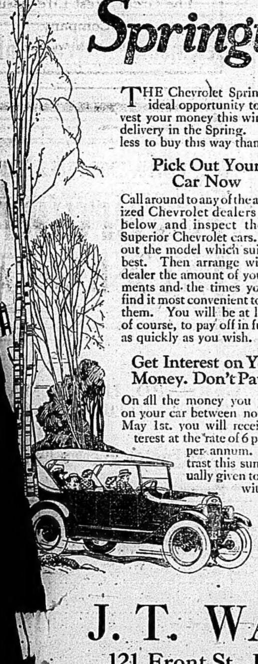
# Sulphur Soothes Ugly, Itching Skin

### The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin-specialist.

This sulphur preparation, because of its germ destroying properties seldom fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rowles Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

Join the CHEVROLET Springtime Club



THE Chevrolet Springtime Club affords you a unique and ideal opportunity to own a car. It gives you a chance to invest your money this winter in the purchase of a Chevrolet for delivery in the Spring. At the same time it actually costs you less to buy this way than to pay cash down. This is the plan:—

Pick Out Your Car Now

Call around to any of the authorized Chevrolet dealers listed below and inspect the new Superior Chevrolet cars. Pick out the model which suits you best. Then arrange with the dealer the amount of your payments and the times you will find it most convenient to make them. You will be at liberty, of course, to pay off in full just as quickly as you wish.

Get Interest on Your Money. Don't Pay It.

On all the money you pay in on your car between now and May 1st. you will receive interest at the rate of 6 per cent per annum. Contrast this sum—actually given to you—with the amount of interest you would have to *pay out* under the usual deferred payment plans. You will find it more profitable to invest at 6% in a Chevrolet than to save it, at 3 or 4% to pay out on a car next year. In other words, you would not want a car now—you will want one in the spring. You can pay before you get it and receive a generous interest on your money—or you can pay *after* you get it and *pay out* that same amount of interest.

Decide now on the car you want—

Then, On May 1st.

it is yours—a brand new Superior Chevrolet, ready for you as soon as the fine weather makes driving a pleasure. Think of the enjoyment you will get from a car next summer—the many trips to country or lakeside—the quick, cool, comfortable ride to business. You'll find a Chevrolet your best and most profitable investment.

*Let Us Give You Full Details of This New Plan*

FANNING WITH FARRELL

## TILDEN WILL BE ON DAVIS CUP TEAM

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Dec. 31 (United Press).—Bill Tilden will play with the American Olympic tennis team if he is selected by the committee of the United States Lawn Tennis Association.

Tilden will be selected as a member of the team and he will be the first and ranking player on the list.

When it was announced that the Davis Cup committee of the association had been appointed to name the ten men and women tennis stars to be sent to Paris next summer, trouble was scented.

Tilden and the Davis Cup committee are not getting on well together at the present time, because of some personal differences that arose during the doubles contest of the last cup matches at Forest Hills.

Harold B. Hackett, former Davis Cup star and one of the best doubles players in the game, tried to tell Tilden how he should play after the third set had been completed.

Tilden resented both the manner in which Hackett gave his orders and the time at which he saw fit to criticize the champion's game.

Both voiced their opinions publicly and Tilden said he was through with international competition, if the Davis Cup committee did not alter its policy of handling the players.

Tilden is somewhat of a prima donna, but it is certain that he will not allow any personal differences with the directors of the game to handicap the American Olympic team.

For the same reason, the committee named to select the players cannot refuse to give Tilden a place on the team because he is a radical.

Tilden will be appointed and, if the committee is fair minded, he should be named captain of the team.

When he is selected, Tilden will accept the appointment and will play.

• • •

Considering that Hackett was a great doubles player and qualified to criticise another player's game and that he also had a position of responsibility and the mo[illegible] right to express his opinions, it would seem that he did not make a mistake when he took it upon himself to tell Tilden that he was not playing correctly in the doubles match with the Australians.

Hackett, however, may have made a mistake in the tone of his voice and he may have been indiscreet in selecting a very delicate time to censure any player, especially a temperamental star like Tilden.

Judgment always must be exercised in criticism, as can be illustrated by the following incident.

The owner of a major league club, who was a great believer in the value of military discipline, was talking to a manager of a club in another league, who has always had great success in handling all kinds of ball players.

They were discussing what the manager of this owner's club should have done when one of his player's gave a public exhibition of insubordination by taking a swing at his manager when he was corrected for a mistake in judgment on the field.

The owner maintained that the manager should have suspended him and fined him a month's pay or fired him clear off the club.

"You're both wrong," the manager said. "The idea is to prevent such things from happening and then such disciplinary measures would not be necessary. I have found that it is always a mistake to criticize a ball player until he has had time to cool off.

In most cases a player is sore at himself for making a mistake, he is humiliated by a public bawling out and he is so worked up that he will try to take it out on the first person handy. I never bawl out a player until he has had time to think it over and then, in nine cases out of ten, he will agree with you. If he is the right kind of a player no criticism is necessary after he has had time to give it a good thought."

In any case, especially where the athlete is capable of thinking, it is far better to suggest than to command.

• • •

Although the laugh of the season followed it, Charley Ebbets, president of the Brooklyn club, insists he was sincere when he offered $275,000 for Rogers Hornsby.

The same sort of a "haw-haw' arose early in the last season when Jack Dunn said Ebbets had offered him $100,000 for Joe Boley, the Baltimore shortstop.

Ebbets insists also that this offer was made in good faith.

The efforts of Ebbets to pay fancy prices for ball players were houted because the Brooklyn magnate never had spent much money in the past and it was generally believed that the club was none too strong financially.

Brooklyn has made money since the war, and the franchise is one of the most valuable in the National League.

The property on which the ball park is located is one of the most valuable pieces of real estate in Brooklyn.

Hornsby would mean a whole lot to the Brooklyn club and $275,000 invested in him might prove just as wise a venture as the $150,000 that the Yankees p[illegible] out for Babe Ruth.

## INTERMEDIATES AT ARENA LAST NIGHT

Belleville intermediates held their initial practice of the season on New Year's night at the arena, and this morning manager Ed Thomas stated that the boys were very keen and enjoyed a good workout. Anxiously awaiting the arrival of Jack Frost for more than a month, they are now travelling with the bit in their teeth, and rarin' to go. The turnout last night was not large but when they meet for the second practice at the arena tonight at 7 p.m., a large guard is expected, including the old timers and several new recruits for intermediate company.

Manager Thomas issues a strong invitation to all old timers and new men to come down to the arena tonight and work out.

Oxford University defeated Cambridge in the annual relay races. Photograph shows the first change in the half-mile relay race.

## Will Williams Go With Baltimore?

Persistent rumors current to-day are to the effect that Jack Henry Williams will be wearing a Baltimore uniform on the big sand lots next summer. It was rumored yesterday that "Knotty" Lee would go to Ottawa and re-organize the Ottawa Valley League, and that Wiliams would go along with him, but that rumor seems to be unfounded.

Jack Ouelette with Trunks last season will likely take the mound for Trunks again next summer, and it is rumored that "Church" Jeffrey, a local boy will be developed by the local management as a hurler also.

## ST. PAUL PUGILIST PASSES SUDDENDY

Minneapolis, Minn., Jan. 2.—Billy Miske, St. Paul heavyweight pugilist, died late yesterday at a hospital after a week's illness from an acute attack of Bright's disease. He was 29 years old. Although Miske had suffered from a chronic condition of the disease for four years, he did not become seriously ill until recently. He spent Christmas with his family in St. Paul, but collapsed the next day, and was brought to a hospital here. Saturday he became unconscious, and remained so until his death.

Miske's ring career was full of action. He had engaged in 114 ring battles, and had been knocked out only once. His illness had twice forced him to retire. He began his career in 1913, engaging in a number of fights at Hudson, Wis., when Mike Collins, Minneapolis promoter, had the arena there. Among his opponents were Jack Dempsey, Tommy Gibbons, Fred Fulton, Battling Levinsky, Kid Norfolk, Billy Papke, Bill Brennan, Jack Dillon, Harry Greb, Gus Christie, Bob Moha, Gunboat Smith, Jim Flynn, Willie Meehan, Mike O'Downd, Bob Roper and others.

Jack Dempsey was the only man to put the St. Paul heavyweight down for the count. Dempsey turned the trick in three rounds at Benton Harbor, in July, 1920.

PAUL STRAND, hard-hitting fielder of Salt Lake City Club, has been acquired by Connie Mack, of the Philadelphia Athletics in exchange for three other players. Strand is said to be one of the outstanding players of the season. Like "Babe" Ruth, he started out as a pitcher, but he proved more valuable with the stick.

## "BABE" DYE JOINS TORONTO IRISH

### But St. Patrick Scouts Still Search For New Recruits

Toronto, Jan. 2.—"Babe" Dye has joined St. Patrick's hockey team, having evidently changed his plans of concentrating all efforts towards professional baseball. The management is not yet content with the addition of Dye to the squad and the scouts are working on a couple of prospects. Johnny Brackenborough of Hamilton informed the club that their offer was acceptable, but he was unable to accept it, as he could not get leave of absence from the railroad. Two or three other players who are stars in the amateur ranks are being approached, but the officers of the club stated that Langlois and Duncan of Sudbury have not been considered.

## SAFETY LEAGUE AT REGULAR MEETING

The usual monthly meeting of the Executive Committee of the Ontario Safety League was held at the King Edward Hotel recently. Those present were—Sir John M. Gibson, President; J. H. H. Ballantyne, J. P. Burke, C. A. Campbell, A. P. Costigane, W. C. Coulter, P. M. Douglas, Oliver Hezzlewood, R. B. Morley, T. A. Stevenson, J. F. H. Wyse.

Four new members were admitted to the League. The League now has hundreds of members throughout Ontario.

The Committee discussed the Accident Prevention Badge of the Boy Scouts and will co-operate in having this badge brought prominently to the attention of all Scouts in Ontario. The opinion was expressed that thousands of Boy Scouts with a knowledge of the principles of accident prevention would be a most valuable thing for the country.

The report of the General Manager, J. F. M. Wyse, showed that 1,850 drawings had been received from school children in the recent drawing contest. These drawings came from the pupils of 157 schools in 37 different towns and cities. Two hundred and thirty cash prizes totalling $320 had been divided among 92 different schools. Mr. G. A. Reid, R. C. A., of the Ontario College of Art, acted as Chairman of the committee of judges for the drawing contest.

A card entitled "Ten Commandments for Motorists" will be placed by the Safety League in the envelopes containing the 1924 automobile licenses.

The next meeting of the Committee will be held in Toronto in January.

### HIGH TONED INSTRUMENT

Midland, Dec. 31.—John Shields, pump foreman at Ocean Mine No. 1, has just finished making a violin with penknife.

The wood for the instrument came from France and was a piece of a wing of an aeroplane.

Members of all teams in Y. M. C. A. bowling league, and members of prospective teams for the winter league are requested to attend the big banquet at "Y" Assembly Hall, Thursday evening at 7 p.m. January 3rd. This includes lady members. Prizes in autumn competition will be distributed. J2-2td.

### A Real Man

It's a lead-pipe cinch for the man who smiles, when he butts into luck all day, but the man who will win is the man who can grin, when lemons are coming his way.

## May Hide Orchestra From Concert Audience

Philadelphia, Pa., Jan. 2 (United Press)—Dr. Leopold Stokowski, director of the Philadelphia Orchestra, predicts the day will soon arrive when concerts will be "given under cover."

The orchestra in the future will be concealed in a sunken stage and the audience will hear the delicate strains pouring forth without being forced to watch drummer pounding, fiddlers scrapping and trombonists shooting in and out their slides, according to Dr. Stokowski.

"If all the other senses of an audience were inactive, I believe the hearing would be much more acute and the people would enjoy music and perceive its complexities much more keenly," the leader said.

"The way the arrangement could be made would be to have a sunken stage, so that neither the musicians nor the conductor would be visible, and then just let the music flow out over the audience."

### You Tell Him

Two men were quarrelling recently. One said: "You are of so little consequence that you are not even asked to sign petitions."

### Oh, Myrtle!

She was the girl with the necklace,
  In a smile she was barely clad—
  From her finger-tips
  To her rosy-red lips,
She was "the berries," by Gad!

He was tall and graceful, too,
With a bit of the nonchalant;
  He grabbed her; he squeezed her,
  And held her tight.
You could almost hear his pant.

But before I go any further,
Let me give you the honest facts—
  He was a window-dresser
  And she was
A figure of wax!

### How Impossible

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

Mr. A. Harkness, of Toronto, spent the holiday in this city.

Mr. and Mrs. A. R. Schryver are spending a few days in Guelph.

Miss Gertrude Lloyd has returned from Toronto, where she spent New Year's.

Miss Greta Archibald has returned from an extended visit with relatives in Winnipeg.

Ald. R. J. E. Graham, Mrs. Graham and children spent New Year's at Napanee.

Mr. J. R. Hayne of Midland spent New Year's with his mother, Mrs. A. Hayne, Church street.

Mr. and Mrs. P. K. Ketcheson and family of Lindsay are visiting relatives in the city.

Mr. and Mrs. Robert Hamilton, William Street, gave a very enjoyable dance at their home last evening.

The Misses McIntosh, Hillcrest Ave. were hostesses at a very enjoyable New Year's dance, Monday evening.

Miss Marjorie Kerr is returning to St. Anne de Bellevue, Que., tonight, to resume her studies at McDonald College.

Mr. George Shortt and Miss Lillian Gathier, of Toronto, are spending New Year's with Mr. and Mrs. John Shortt, of Belleville.

Mr. and Mrs. W. H. Nugent, of this city spent New Years day with his sister, Mrs. Warren Preston, of Murray Township.

Mr. and Mrs McNartin, corner Geddes and Evans streets were host and hostess to a number of friends for New Year's supper yesterday.

Word reached the city to-day that Mr. and Mrs. R. J. Graham had just reached Orlando, Florida, where they will spend the winter months.

At Moodie Cottage, on Friday last, Mr. and Mrs. A. L. Geen entertained the young ladies who assist at the store, also a number of former assistants, who were in the city. It was a pleasing and social gathering, and the pleasure was much increased by the presence of Mr. Reginald G. Geen, who, in his able manner gave selections on the piano and sang a number of songs. It is usual for those who have spent years in Geen's to speak of them as happy days. Such feeling makes duties light and business a pleasure.

## CONSECON

Mr. and Mrs. Mont. Stapleton were guests of Mr. and Mrs. B. S. Garetsee on Christmas.

Rev. H. B. Kenny, of Belleville spent Christmas with relatives here.

Rev. and Mrs. Wolfraim spent Xmas with his father, Mr. Wolfraim, Cobourg.

Miss Annie Adams and son Charlie of Norwood spent the holiday with Mr. and Mrs. Rich. Blakely.

Mr. John McQuoid, of Toronto, is the guest of his sister, Miss Francis McQuoid.

Miss Pearl Spriggs and Mr. and Mrs. Searles of Toronto spent the Christmas holiday with Mr. and Mrs. J. H. Youngs.

Mr. and Mrs. Roy Taylor entertained a large family gathering on Xmas Day.

Miss Hazel Alyea and Miss Vivian Alyea of Toronto spent the Christmas holiday with their parents Mr. and Mrs. Horace Alyea.

Mr. Harold McConkey of Oshawa, spent the Christmas holiday with his parents, Mr. and Mrs. Jim McConkey.

### Home Still Cafe

"Drink and tobacco have wrecked homes."

"They haven't wrecked mine," protested Mr. Meekton, indignantly.

"Are you addicted to drink and tobacco?"

"No, I'm not. But my wife is very fond of tea and cigarettes."

### The Climber

Wig—What's your ambition anyhow—political, office, social position or make a million?

Wag—Some day I hope to put up such a front that a theatre box office man will treat me as an equal.

Head Stuffed By Catarrh? Use A Healing Cream

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membrances and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

## HAPPY PARTY AT BELLEVILLE CLUB

A most successful New Year's Eve party was given by Mrs. Roger Porter at the Belleville Club, which was attended by more than two hundred guests.

The naturally beautiful club rooms were most gaily and artistically decorated with colored paper and balloons and the novel dances which occurred after midnight were gay numbers, the dancers wearing fancy paper hats and carrying whistles, paper ball novelties and other appropriate oddities.

A dainty lunch was served, and the dance music which was supplied by Al Wilson and his society serenaders was of a high order.

Mrs. John F. Francisco, acclaimed world's champion woman horseshoe pitcher is training in Florida.

## MELROSE PRESBYTERIAN YOUNG PEOPLE HAD SPLENDID DRAMA

The four-act drama "The Young Country School-ma'am", given by the young people of the Melrose Presbyterian Church was a decided success and was one of the best comedies of the season. It was staged at the Presbyterian Church, Melrose on Thursday, December 27th and was largely attended although the weather was unfavorable. It was directed by Miss Jean MacFarlane and all taking part did exceptionally well for amateurs. Mr. Arthur McKinney ably acted as chairman. Between acts Miss Phyllis Stewart of Belleville gave some excellent readings and Miss Georgie Dixon of Toronto and Miss Marion Blathewick of Shannonville gave solos which were especially well rendered. The singing of God Save the King brought to a close a most successful evening's entertainment.

## That Body of Yours

By James W. Barton, M.D.

### A THOUGHT ABOUT INSULIN

That Dr. Banting is deserving of the gratitude of the entire world goes without saying.

That he should have been awarded the Nobel prize likewise pleased the civilized world.

His discovery has saved the lives of thousands of people already, and has relieved the sufferings of thousands more.

But there is just one thought that comes to me.

I refer to the adult sufferers of diabetes.

What has been the outstanding factor in the lives of the majority of them?

Their very generous appetite, and the eating of great quantities of food.

These foods were not necessarily the sugars and starches, but even the meats, eggs, and the fats.

What was the effect of all this food?

It simply was not burned up, that's all.

It put such an enormous amount of work upon all the organs of the body, that these organs got worn, or partly worn out, and were unable to do their work.

This means that the body is like a motor engine full of carbon. The gas is consumed all right, plenty of it, but you don't get the heat and energy.

And it is thus with a diabetic.

In the case of diabetic people the whole treatment is cutting down on the starches. This makes the work of the pencreas much easier.

However, don't get the idea that the original cause of diabetes is the eating of too much starchy food.

As a matter of fact, the one thing, too much food, and too little exercise is the real cause of diabetes.

So if you have a diabetic tendency, watch your diet, and cut down on your starches. If you still continue to lose weight and strength then Insulin is indicated.

But for the man who is anxious to avoid diabetes, cutting down on his ravinous appetite, and exercise or working outdoors will actually use up, or burn up his starches and sugars, and there will not be the excessive work put on the pancreas, heart, blood vessels, and kidneys.

Red Pepper Heat Quickest Relief For Rheumatism

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## WEST LAKE

Our Christmas entertainment at the church on Christmas eve passed off very pleasantly. Everybody did their parts fine and a goodly sum was realized.

Our new teacher Miss Allen will take up her duties here at the beginning of the New Year.

Mrs. Thressa Cunningham and Miss Allen, Mr. Elgin Jackson and Mrs. White were Christmas guests at F. W. Haycock's.

Mr. and Mrs. Stanley McConnel spent Christmas at Consecon.

Miss Florence Heffer came home from Rochester to spend Christmas with her parents here.

Mr. and Mrs. H. A. Mills, of Rochester, spent Christmas here with relatives.

R. S. McQuade and family spent Christmas with relatives in Picton.

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the 'Bayer Cross."

# THE PARSON O'DUMFORD

"There's no danger now," said the vicar as the ground was saturated in every direction. "Good heaven! what a diabolical attempt."

And not till now was attention drawn to Richard Glaire, who sat upon a block of metal watching the actions of those around him, as their lights feebly illumed the gloomy place. he was white as ashes, trembling as if stricken with palsy; and when spoken to stared with vacancy at the vicar.

"Are you hurt, Mr. Glaire?" he said kindly.

For answer, Richard burst into a hysterical fit of sobbing, and cried like a child.

"Fetch a little brandy, someone," said the vicar. "He will be better after this. He must have had some terrible shock. Who is this?" directing his light to where Banks lay insensible, with the blood trickling from a cut on his forehead, where he had stuck it against a rough piece of flag, in falling.

"It's Joe Banks," growled Harry as the vicar knelt down and quickly bandaged the wound.

At the moment, Daisy who had remained crouching behind the brickwork of one of the furnaces, came forward trembling.

"Daisy Banks!" cried the vicar in astonishment. "You here?"

"Don't speak to me, don't speak to me, she cried, wildly, as she threw herself sobbing beside her father to passionately raise his head, and kiss him again and again. "He's dead, he's dead, and I've killed—I've killed him."

There was silence for a few moments, which no one cared to break, and Tom Podmore stood with folded arms and heaving breast, gazing down at the weeping figure of her he so dearly loved.

"Hes not dead, my poor girl," said the vicar kindly; "only in a swoon. That bleeding will do him good. Constables, we must get him home at once, or—no, you must guard this place Harry, Podmore, two more—a stout piece of carpet from the nearest house We can carry him in that.

"Bring him home—to my place," said Richard Glaire, who had somewhat recovered.

'I think Mr. Glaire," said the vicar, "his own house will be best."

"Excuse me sir," said the chief policeman, "He's the leader, I believe; we must have him at the station. The doctor can see him there. He had laid the train, and was to fire it, Harry and Podmore here know."

Daisy uttered a shriek, and the vicar's brow knit as he turned to Richard.

"It's a lie," cried the latter sharply "I was here, and know some scoundrels put the powder here, and the train but Banks destroyed it, and saved my life."

The vicar had him by the hand in a moment and pressed it hard.

"It's a lie parson," he said in a whisper, "but I must tell it. He did save my life."

"How came he by that cut then sir?" said the policeman.

"You see," said Richard coldly, "he fell and struck himself against that piece of clinker. He did not know I was there, and that his child had come to warn him, and he was overcome."

"I will be answerable to his appearance to reply to any charge." said the vicar.

"There's no charge against him," said Richard, hastily, "I saw him destroy the train."

Daisy crept to his side, and Tom Podmore groaned as he saw her kiss Richard's hand.

"Very good, sir," said the constable; "that will do. We'll watch here sir, though there's no fear now; and the others are locked up."

A piece of carpet was then fetched and Banks was carefully lifted upon it, four men taking the corners, and bearing him hammock-fashion down the crowded street, the work-people who had been in the street having been augmented by the rest; and a strange silence brooded over the place as they talked in whispers, the story growing every instant until it was the common report that Banks and Richard Glaire had met in the foundry, that Banks had been killed, and Richard Glaire was now dying at home.

The gossiping people could not fit Daisy Banks into the story. She was walking beside her stricken father, and they saw her bent head, and heard her bitter sobs; and it was only natural that she should make her appearance at such a time, and it seemed nothing to them that she should be close to Tom Podmore, who was one of the bearers, though he, poor fellow, winced, as Daisy half-clung to his arm for protection, when the crowd pressed upon them more than once.

On reaching the cottage, the vicar hurried in first, to prepare Mrs. Banks expecting a burst of lamentation, but as soon as he had uttered his first words, Mrs. Banks was cold and firm as a stone.

"Is he dead, sir?" she whispered, "tell me true."

"No, no, and not much injured. I think it is a fit."

"I weant give way, sir." she panted; and running upstairs, she began to drag down a mattress and pillow, ready for the suffering man.

"Poor Joe, poor Joe!" she murmured, and then gave a start as she heard the word "Mother."

"Ay, lass, I'd forgot thee in this new trouble."

"But you will not send me away, mother?" whispered Daisy—"wait till you know all."

"I send thee away, lass? Nay, nay, I shouldna do that now," said Mrs. Banks, sadly.

The next minute she was putting the pillow and arranging it beneath her husband's head, as he was borne in, the men softly retiring, and giving place to the doctor, who hurried in, hot and panting.

Ah, Selwood, what's all this?" he said, "Give me a light quickly."

He was down on his knees directly, examining his patient, removing the bandage, and looking at the cut, the patient's eyes, and carefully loosening all tight clothing.

"Poor fellow! ah—yes—nasty cut—do him good. Hum! What fools people are; they told me he was killed."

"Will he live, Mr. Purley?" whispered Daisy hoarsely.

"Ah, Daisy, you come back?" said the doctor. "Live? yes, of course he will. Touch of apoplexy; but we'll bring him round."

"Oh! mother. mother!" moaned Daisy; "I thought I'd killed him;" and she threw herself, sobbing, into her mother's arms.

"Come, come, that won't do," exclaimed the doctor. "You two must help me. Selwood, you'll do me a good turn by going, and taking all the people with you. We want fresh air."

The vicar nodded, and a few words from him, coupled with the information that Banks was not seriously hurt and would soon recover, sufficed to send the little crowd away.

## Sons of Rich Men Who Have Made Their Mark In the World of Business

Charles M. Schwab, the famous steel king, remarked recently that most rich men's sons would not work as he wanted men to work for him. But while a rich man's son may not be a good employe, working for other men to their satisfaction, yet that does not say that a lot of these scions of wealthy families have not made good in business. Among those who have not failed to make good on their own account, despite the handicap of a wealthy and famous father are Louis Hill, son of J. J. Hill; the four Swift brothers, J. O. Armour, William Proctor, of soap fame; the Guggenheims, the younger Rockefellers and Pierpont Morgan. These sons of rich American families are taken for illustration, because nowhere in the world is there such individual wealth, and so much opportunity to misuse it, and make life futile because of it, as in the United States.

Often it is said that James Jerome Hill built the empire of the Northwest, but it took his son, Louis Warren, to develop it. Young Hill began working with his father upon his graduation from Yale. He started at $35 a month as switchman and worked in every department of the organization except the legal and engineering. When the time came for him to step into his father's shoes he did not find them too big. He had developed the stride of his sire. The Great Northern runs through nine states. From the time that Louis Warren Hill became associated with it, he began to make boosters for his railroad of the people in those states. Here is a pen picture of him, written in 1912: "He'll do anything, from organizing a development congress for his nine states and running a special train to it—from taking the governors of the territory on a ten thousand-mile jaunt through the east in a [illegible] Great Northern outfit, to [illegible] the Boston dip with Chief [illegible]-in-the-Wind's squaw, as he did in Montana last summer. He has no restraining dignity. Publicity is what he is after—space in the papers. And he gets it."

Chicago is the great meat-packing centre of the world. At least two of the large firms, Swifts and Armours, have been developed and expanded by the influence of the sons of the founders. Gustavus F. Swift had [illegible] sons, Louis Franklin, Charles Henry, Edward Foster and Harold [illegible]. All were taken into the business as soon as their education was completed. To-day each is an active member of the firm. Three are vice-presidents. Louis Franklin is president. A [illegible] years ago William B. Swift, youngest son of Louis Franklin Swift, was taken into the export department of the packing house, to start learning the business which he may some day be [illegible]. It has been made clear [illegible] ever, that the [illegible] will depend entirely on his efforts. J. Ogden Armour was intended to become the successor of his father, Philip D. Armour, the founder of the Armour interests. There was another son, Philip, Jr., to whom the reins were to be turned over. At the death of Philip, Jr., in 1900, Jonathan Ogden stepped into place. When he did so he was fully fitted for the job. He had been busy in his father's plants from the day he returned to Chicago after his schooling period.

A few days ago the newspapers reported that Procter and Gamble, the soap firm, had developed a plan to insure the steady employment of their workers. That is not the first industrial reform that this firm has inaugurated. Before it came pension plans, profit-sharing plans, disability fund plans, industrial conference plans, life insurance plans. The man behind this work is Col. William Cooper Proctor, son of one of the founders. Col. Proctor entered the firm in 1883, immediately after his graduation from Princeton. He began in the soap-boiling department and learned the job from the ground up. In 1907 he became president of the corporation. He is a modest figure. Twice, however, in the past fifteen years he has come into the limelight, first when he clashed with Woodrow Wilson in 1910 over the site of a graduate school toward which Col. Procter offered to contribute half a million dollars, and later, in the 1920 campaign, when he backed Major-Gen. Wood for the Presidential nomination.

For a time it was doubted whether John Pierpont Morgan could fill his father's job. That doubt seems to have been settled now. The war gave him the opportunity to show his stature. After college he entered the banking business his father had built up. That was in 1889, when he was 22 years old. He began as a clerk in the London branch of the bank. His stay in London was terminated in 1901, when he was called back to America as a member of the firm. New responsibilities were placed on his shoulders, so that when his father died and he became head of the firm he was ready for the big task.

### Conscience Money.

Conscience money totalling $15,000 has been returned to two Sligo banks by Irish raiders. The agent of the Bank of Ireland at Sligo has received anonymously a sum of $11,000. This is stated to be a portion of the money taken in the raid of February 13, 1922. At the same time the agent of the Provincial Bank at Sligo has received a sum of $4,000, a portion of the money taken from that bank on the same occasion.

## CANADA'S UNIQUE CITY

### WHEN MOVING DWELLER TAKES HIS HOME WITH HIM.

**Dominion's Only Floating City Has Attained Age of Seventeen Years—Stands at Foot of Sharp Slope In Waters of the Inland Passage of the Pacific Ocean—Blooming With Flowers.**

Although it has now attained the respectable age of seventeen years Canada's most unique town still remains comporatively unknown to nearly all but those people dwelling in the nearby region, says a British Columbian writer.

It is the Dominion's only floating city, and one of the last remaining spots on this continent that is rich in the romance of the real frontier.

This little Venice is named Simoon City, and a letter addressed thus will reach the place.

It stands at the foot of a sharp mountain slope in the waters of the Inland Passage of the Pacific Ocean on British Columbia's coast line. During the major portion of the year it contains eight buildings. Sometimes this is doubled when people from outlying districts come to town, for this is a land quite uncommon, and when a man visits he usually brings his house with him.

For a comprehension of how Simoon City came into existence an explanation of the country in the vicinity and the occupations of the scattered dwellers is necessary. The coast of British Columbia in this region is marked by long inlets, sounds and arms where the mountains' sides sheer very sharply to the water, mostly heavily timbered with merchantable fir, cedar, and hemlock.

In most of these places there is no suitable shore permitting the building of a home, and the water is so deep as to deny anchorage. To overcome this the men dwelling in the land live on float houses. The floats are stoutly built of huge cedar logs, which are very buoyant; the houses are made from "shakes" (rough boards cut from cedar with a froe, which are about three times as long as a shingle).

The population of the region consists mainly of hand loggers. These men cut down the trees on the very steep mountain sides where ordinary lumbering operations with donkey engines are impossible. The logs are then shot into the water by means of chutes, or even slid by the force of gravitation down the mountain side.

When a logger has cut all the timber on the concession he has purchased from the crown, he goes to another, often considerable distance away. Naturally a floating house to such a man saves time and labor. Even where the shore offered opportunity to build on land, the men prefer their floating homes.

When a man desires to move, he [illegible] into a rowboat and tows the float to the new anchorage, fastening the float by a rope to some trees on the shore. In recent times a large number of the owners of such dwellings [illegible] become possessed of motor [illegible]. This makes traveling easier and quicker, and some of them even move their homes merely to go deer hunting.

The method of killing deer for food (the average hand logger kills only from necessity, and then usually very sparingly) followed in some cases by certain of these men is so unique as to be worth telling about.

The hunter tows his home to some place near where the animals are numerous. His dog is then sent ashore alone into the woods. The canines are exceedingly intelligent. Presently one starts a deer, and the pursued animal, following its instinct, heads for the water to escape.

The main aim of the dog is to bring the deer out near the float house.

In many cases a clever dog does succeed in driving the deer into the sea so close that the man can shoot it without moving off his doorstep. He then cleans it and throws the waste away, saving tramping through the woods and the other labor attendant on getting the meat home. While this method is not general, it is not uncommon, and continues in spite of the fact it is contrary to the game law.

Some seventeen years ago a man with a business turn of mind saw the possibilities of a store in this region. So he opened one up in a big float house tied to the steep side of Simoon Sound. He did a flourishing business from the very first, and has done so ever since. Soon a post office was added. To-day the place has eight permanent buildings.

In slack logging seasons, the town is added to by many men coming in towing their houses. They tie up for a period of recreation and excitement in the city. On boat nights, which occur once weekly, Simoon City is a busy place, with its population swelled to perhaps a hundred to receive the news and parcels from the outside world.

Gathered in the city are loggers—bearded, great shouldered men. At times a few Indians add color or some Jap fishermen give an Oriental touch. Often the crew of a Government Forestry patrol boat spend a few hours. In recent years the guests of great pleasure yachts have come to know Simoon Sound, for these wonderful stretches of cruising waters are getting better known to wealthy Canadians and U. S. citizens.

Simoon City is not lacking in beautifying efforts. Old boats, Indian dugouts, or boxes, here and there bloom with flowers. In similar earth-filled vessels small but greatly productive vegetable gardens flourish.

Simoon City's main attraction for the visiting logger is the Bear Trap restaurant, a long room of rough log floor, which offers meals and soft drinks, with a phonograph orchestra to cheer the dweller from the wild—Montreal Herald and Weekly Star.

In making a pound of honey bees make approximately 2,700,000 visits.

## CLASSIFIED ADVERTISING

### For Sale

FOR SALE OR RENT—170 ACRE FARM IN Township of Hillier, 7 room house, barn, pig pen, hen house, 1½ miles from station and village store, ¼ mile to school. Soil—Limestone and Clay loam. Well watered. Enquire T. Noxan, Wellington. 10-1u.

### POLICEMEN FIRST

Munich, Dec. 31 (United Press).—Munich's first touch of snow this winter brought to light fur colars on its policemen's overcoats, surprising luxury in a land ringing with cries for help in its economic emergency. But the stylish Munich policemen always have boasted the distinction of being the best-dresser cops in Germany, and emergency or no emergency, they intend to preserve the regulation.

### NOTICE TO CREDITORS

In the matter of the Estate of Margaret Roe late of the city of Belleville, in the County of Hastings, widow, deceased.

Notice is hereby given pursuant to the Revised Statutes of Ontario, Chapter 121, and amendments thereto, that creditors and others having any claims or demands against the estate of the said Margaret Roe, who died on or about the eighth day of September, A. D., 1923, are hereby required on or before Friday, the 4th day of January 1924, to send by post prepaid or deliver to Messrs Ponton and Ponton, 22 Bridge Street, Belleville, solicitors for the administrator of the estate of the late Margaret Roe, their names and addresses and all particulars of their claims, and statements of their accounts, and the nature of the security, if any, held by them duly verified.

AND TAKE NOTICE that after the said 4th day of January 1924, the said administrator will proceed to distribute the estate of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said administrator will not be liable for the said estate, or any part thereof to any person or persons of whose claim they shall not then have had notice.

Dated at Belleville this 11th day of December, A. D., 1923.

# SAVED FROM AN OPERATION

## Restored to Health By Taking "Fruit-a-tives"

### Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low-down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery."

Mrs. M. J. GOSSE,
Vancouver, B.C.

50c. a box, 6 for $2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

# 20 MINUTES

That's all. Twenty minutes after taking a ZUTOO tablet your headache will be gone.

One of these little tablets—safe, reliable and harmless as soda—will stop any headache in 20 minutes.

Or, better still, taken when you feel the headache coming on, a ZUTOO tablet will ward it off—nip it in the bud.

# No Headache

### MOTHER! GIVE SICK CHILD "CALIFORNIA FIG SYRUP"

Harmless Laxative for a Bilious, Constipated Baby or Child.

Constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

# Urges

Continued from page one.

containing ingredients necessary for the production of alloy steel. The ore from any particular mine may not contain all the required properties for this particular metal, but nearly all contain some of them, and it does not seem an impossible engineering feat to blend the ores in proper proportion to produce this valuable grade of steel. At present every ounce of this product used by our manufacturers is imported. Adequate electrical power for development and refining is adjacent to the deposits or easily accessible and what applies to the iron applies to many other resources in the County of Hastings. Possessing the minerals and power it does seem as if the time was opportune for a system of practical experiment and definite program.

All progress starts with the people; beginning when its citizenship recognizes the value of their possessions, decide on their requirements, propose a definite program and make it known to representatives who are conversant with the resources and will be interested and active in making proper representation in behalf of the people to the proper source. Activity and interest exercised by a representative in the discharge of his ordinary duties, are benefits, and commendable in so far as all good intention is commendable, but the one who is really great is the representative who succeeds in securing lasting benefits that will be in the interest of all the people, and that will insure employment in which all may participate according to their readiness to give real service.

W. H. NUGENT.

## SOCIAL AND PERSONAL

Alderman and Mrs. A. H. Ketcheson have returned home after spending a few days in Toronto and Hamilton.

Mr. Stephen Flagler of Montreal, Que., and Mr. Stan Flagler, Chief Clerk for C. N. R. at Richmond, Que., spent the Christmas holidays with their mother, Mrs. P. Flagler, Bleecker Ave.

Mrs. Conwell of Junction City Kansas, has returned home after visiting Mrs P. Flagler, Bleecker Ave.

### DISTILLERY DEAL CLOSED

Toronto, Jan. 2.—It was announced yesterday that a deal had been closed whereby the Gooderham and Worts distillery is sold to H. C. Hatch, of Montreal, said to represent distillery interests in Scotland as well as in Montreal and Toronto. The price was about $1,500,000.

# PUT STOMACH IN ORDER AT ONCE

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

# TREAT ALFALFA SEED

## Nitro Culture Inoculation Will Give Good Results.

When to Apply the Culture—What it Means to a Crop—Sowing Alfalfa Alone in July—How to Kill Field Bindweed.

(Contributed by Ontario Department of Agriculture, Toronto.)

To get the best returns from the alfalfa crop the alfalfa seed should be inoculated a few hours before sowing with the alfalfa nitro culture.

When inoculated seed is sown the bacteria which constitute the culture are in position to enter the young roots of the alfalfa as they develop. On entering the roots the bacteria multiply and produce the characteristic nodules (little swellings) on the roots. The action of the bacteria when growing in the roots is to enable the plant to utilize the atmospheric nitrogen as a source of food supply. No plants other than the legumes, (i.e., alfalfa, clovers, peas and beans) can do this, and those plants cannot do it without the light bacteria being present in the roots. Different species of bacteria are necessary for the different species of legumes.

**What the Culture Means to a Crop.**

Inoculation of alfalfa seed often means the difference between a good, vigorous, growthy crop and a poor, spindly light crop. Alfalfa nitro culture (price 50c.) may be obtained on application to the Bacteriological Department of the Ontario Agricultural College, Guelph.

Extract from a letter received from G. R. Worthington, Comox, British Columbia:

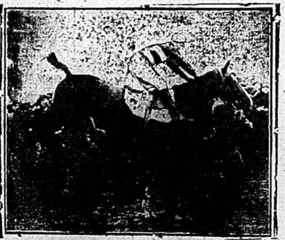
"The inoculated portion of my alfalfa crop has flourished exceedingly and is making most luxuriant growth, entirely crowding out the weeds, and showing a splendid color. The uninoculated portion has almost entirely died out, and the few plants left were small and very pale. In fact, I have now ploughed them up. I may say that about the time I sowed mine a good many neighbors did the same, but they did not inoculate. Their plots this spring, without exception, are a pitiful spectacle—weeds with a few sickly alfalfa plants left."

**Sowing Alfalfa Alone on Summer Fallow in July.**

In experiments conducted at the Agricultural College at Guelph, it has been found that excellent results have been obtained from sowing alfalfa alone on a summer fallow in the month of July. When sown at that time on a moist soil, germination is rapid, and the plants are enabled to make a good growth before winter. There is not apt to be a prolonged drouth after July. By this method, weeds are unable to produce seed in the autumn and the alfalfa has an excellent opportunity to get well established.—D. H. Jones, O. A. College, Guelph.

### Women Not Deceived.

In France Canadian soldiers were trained to use their wits. A class would be told to look at some object and then to turn their backs and tell how many things they had noticed about it. The only trouble was that they did not use women instructors. Because a woman finds out in ten minutes that the embroidery on your costume does not match, that the silk of your sleeve is frayed, that the heel of your shoe is uneven, that you trimmed your hat yourself, that the lace at your neck is only imitation. And when you part she has calculated the cost of your dress, and knows your past history, present circumstances, and future prospects.



THE PRINCE OF WALES rode his first flat race in public recently in the Sandown National Hunt events. He is shown going to the post on his mount, "Thaco."

### DAZZLING SIDELIGHTS

On Life in Halifax and Other Points In Nova Scotia.

Some dazzling sidelights on life in Halifax and other points in Nova Scotia are found in "Dyott's Diary," published in London a few years ago, and comprising the day-to-day notes of a British soldier who was stationed for a time on this side of the Atlantic toward the end of the eighteenth century. Life among the officers, especially under the stimulating company of Prince William, afterward William IV., was much given to convivial gatherings, as was common elsewhere in that century. A few paragraphs are given to the Sydney of that day, the city of coal and steel strikes of a more recent time.

Gen. William Dyott, as he afterward became, visited Sydney with the prince early in 1788. This was then the seat of government for Cape Breton, but Dyott found the "improvements have not a very propitious appearance at present." The party dined on board ship and "got pretty hearty."

"The town of Sydney," Dyott noted, "consists of about fifty houses situated on the banks of the Spanish river, and surrounded to the very sides of the buildings by an almost impenetrable wood. There is a narrow path from the barracks just to keep up a communication, and that's all the clear country I saw."

On another day the party dined at the house of Mr. Cayley, an American Loyalist. "He is Secretary to the Governor of Cape Breton. We had a good dinner, and got outrageously drunk, prince and subject. We left Sydney after having spent a very pleasant week; rather more wine than was good for our constitutions."

Life in Halifax had the same merry flavor, heavy meals and much drinking, until after three months the prince left, much to the sorrow of Dyott. In the summer of 1791 Dyott and others paid a visit to the region of Grand Pre, but although the great eviction of the Acadians had taken place it had not been rendered familiar to the world by Longfellow's "Evangeline."

"The township of Horton," he writes, "is situated in a valley, on one side of which is the Basin of Mines (Minas), and what they call the Grand Pre, or great meadow. It is the most extensive flat I ever saw, consisting of upward of 2,200 acres of dyked and salt marsh. The settlers are chiefly New Englanders and veritable Yankees. The country is pretty, though no great extent cleared, except the Grand Pre."

### Forty-Fifth Consecutive Year.

It was back in 1879, when Canada as a Dominion, was only twelve years old, that Toronto determined to establish an exhibition of its own to replace the perambulating agricultural fairs of the day. It was to be a civic institution, owned and controlled by the citizens, on a broadened, diversified scale, along the lines of a world's fair. Public-spirited citizens, selected because of their pre-eminence in various lines of effort, were chosen from time to time to guide its destinies and a striking illustration of the benefits which may radiate from a few such men of vision and enterprise, is furnished by the subsequent development of the Canadian National Exhibition. A grant of forty acres of ordnance land, and buildings erected at a cost of $120,000 by the citizens, was the original foundation for what has become the world's greatest annual exhibition. To-day there is an expanse of 300 acres of beautiful park land, valued at $5,000,000, and over four score permanent buildings, worth $6,000,000, with a replacement value considerably greater, all owned by the City of Toronto. To indicate the princely way in which the citizens support the National Exhibition it need only be mentioned that last year they voted $1,500,000 for the erection of two new buildings, the Pure Food Building, and the Coliseum. The former cost $150,000, and this year a similar amount will be spent in an extension, doubling its size to a length of 450 feet. The remainder was spent on the Coliseum, which is the most costly and the largest building ever erected on a permanent exhibition grounds. It has eight and a half acres under roof.

### Co-operation.

In co-operation lies the solution of the farmer's problem. They should be co-workers, not competitors. In helping each other they will help themselves. If our farmers will get together, work together, and play together they soon can be in a position to receive their just compensation along with the producers of other world commodities, and that happy day will be hastened when farm life will offer all the pleasures and rewards that so justly belong to the most essential workers in the world.

### Laziest Women on Earth.

The laziest women on earth must be those of Asir, the almost unknown country beyond the Red Sea. Mrs. Rosita Forbes has just returned from visiting them, says the Yorkshire Post.

"The women are in an extremely primitive state," she said," and never come out of the house except to be married or to be buried. When I asked them how they amused themselves, they replied, "We don't. For us there is no work."

"I said I quite understand, but would like to know what they did when they were tired of eating and drinking. One pretty girl looked up and said said brightly, "We sit.'"

Mrs. Forbes describes a narrow escapes from death while visiting a harem.

"I was a guest at Yemen harem," she says, "where all the women bathe together in one room. I accepted the offer of a bath, and while chatting, mentioned the word Christian. One woman said fiercely that if a Christian woman came there they would kill her. They took me, fortunately, for a Moslem, as I was disguised.

"It was only when we reached the bathroom that I recalled, to my horror, that the rest of my body was not stained dark brown, like my face and arms! Fortunately I made the excuse that I had forgotten my favorite soap, and thus escaped exposure."

### Bleached Sheetings

Extra heavy quality English sheetings, full 80 inches wide four big specials on this width at 75c., 85c. $1.10 and $1.25.

### Ginghams at 25c yd.

An opportunity for the early Spring Sewing. A very special value. Dozens of patterns and shades in checks, plaids and plain shades 27 to 32 inches wide. Regular 35c. to 50c. yd. Very special 25c. yard.

### The Eye and Ear Compared.

Describing the structure of the eye Prof. Pear, at a recent Edinburgh lecture to young people, said that both the eye and the ear might be regarded as messages received from the outside world. But whereas the ear was a gentlemanly kind of messenger, reporting the messages received with tolerable accuracy, the eye so interfered with messages by adding to them and subtracting from them that it was altogether unreliable. Prof. Pear illustrated his meaning with great force by burning carbonate of sodium, in the light of which his face, to the amusement of the audience, appeared to be as dark as that of a Malay.

### London's Underground Railway.

Last year the Underground carried 1,172,000,000 passengers, an increase of 72,000,000 over the preceding year. The tubes and 'buses ran 163,000,000 car miles, an increase of 7,500,000 miles.

### London's Women Teachers.

There are 14,020 women teachers in the service of the London County Council. Of these 3,777 are married.

# CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Caster Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature of

Chas. H. Fletcher.

### A Spanish Dickens.

Senor de Arteaga y Pereira, professor of Spanish at Oxford, who has been there for thirty years and is now seventy-five years old, has written some stories of humble life which have now a tremendous vogue in his native country, where he is hailed as the Dickens of Spain.

Senor Pereira has surpassed William de Morgan, as a story-writer, who has won a position quite late in life, for he has long been absent from his country, and his books come to it for recognition as if from a foreign land.

### DEATH OF INFANT

Mr. William Hay residing on Howard street, city, has received word of the death of his grandson aged 1 year. The little one was a son of Mr. and Mrs. Kitchener W. Hay residing at 10905 East Jefferson Avenue, Detroit. Death occurred on New Year's Day.

### CARD OF THANKS

We hereby desire to thank our friends and neighbors, also the I. O. F. Lodge members for their expressions of sympathy and kindly interest during our recent bereavement.

Mrs. William Henry Mason
and Family.

# MEIGHEN WILL SOUND BATTLE CRY AT RALLY

### Conservative Chieftain Delivers Message to Nation at London Meeting

### LEADERS TO ATTEND

### Premier Ferguson Will Tell Of Party Successes in Provinces

London, Ont., Jan. 3.—Rt. Hon. Arther Meighen's call to the people of Canada to unite with overwhelming force to establish in Ottawa a Government that will find a solution for the problems that are now distressing the Dominion and hindering her destined progress will be addressed to the nation by the Conservative Federal leader and a number of his most distinguished lieutenants at the forthcoming rally to be held in this city.

President E. R. Dennis of the Western Ontario Conservative Association announced last evening that plans are now practically complete for the banquet scheduled for January 11th at the Winter Gardens. It was announced that the ex-Premier and his party will arrive here at 11.40 on the morning of the rally. Mr. Meighen will head a notable group of his closest associates including Hon. Rodolphe Monty of Montreal, Hon. H. L. Beliey, K. C., of Quebec, Hon. Dr. [illegible] of Three Rivers, Que., Hon. Andre Fauteux of Montreal and Hon. C. C. Ballantyne of Montreal. These and other notable guests will be entertained by J. Frank White, M. P., and other Londoners at the London Club at noon, and in the afternoon Mr. Meighen will address the members of the Women's Canadian Club. He will be accompanied by Mrs. Meighen, who will renew her old acquaintanceships in Western Ontario

**More Than 540 Accept**

More than 540 acceptances, many of them from ladies, have been received from outside the City of London already and it is believed certain that the dinner, which will be informal will be attended by more than 1,000. A notable list of speakers has been arranged for. Hon. Hugh Guthrie will open the list, followed by Hon. Rodolphe Monty. Premier Ferguson will deliver his message in the light of party successes in this Province, and Mr. Meighen will conclude the evening with his call to battle.

## PROBE DEATH OF MONTREAL DOCTOR

Montreal, Jan. 3.—Because of rumors which alleged that Doctor Alfred Marcil, well known practitioner and specialist of this city, who died in his home 783 St. Denis Street on Sunday morning, had been poisoned to death and that the nature of his death had been hidden from the proper authorities, Coroner McMahon yesterday morning prohibited the cremation of the body ordered the remains to the Morgue for an autopsy. The post mortem will be performed this afternoon and a report of the finding of the two medical experts will be given to the Coroner tomorrow morning.

The late Dr. Alfred Marcil, who was in his fifty-fifth year, was prominent in medical circles in Montreal and his sudden death on Sunday morning was a great shock to his many friends and associates. Deceased had been in the best of health during the week and, according to the rumors abroad, no person had heard him complain of being ill on Saturday.

## DIES OF INJURIES AT OSHAWA

Oshawa, Ont. Jan. 3.—Archie McIntyre the Cannington man who was the companion of the late Nicholas Lonergan, of Toronto, who was killed in an auto accident at Prospect Corners, north of Myrtle, in the latter part of November, died from injuries received, in the local General Hospital and with his death the mystery of the fatality will in all probability never be revealed.

McIntyre since being admitted to the local hospital had never fully regained consciousness and while carefully attended in the hope that some statement as to the cause of the accident would be given by him, nothing definite could be learned.

### EXPECT ROYAL BIRTH

Rome, Jan. 3.—It has been disclosed that the queen has ordered a "baby trosseau," thus confirming the report that the Princess Yolanda is soon to become a mother.

## COMING EVENTS

Don't miss the Belleville Poultry Show, Market Building, Jan. 8-9-10th. Doors open day and night. J2-5td

NIGHT SCHOOL CLASSES
Winter term begins Thursday, Jan. 3rd, at 7.30 p.m. Start the year right and be present for the first evening. J2-2td.

Members of all teams in Y. M. C. A. bowling league, and members of prospective teams for the winter league are requested to attend the big banquet at "Y" Assembly Hall, Thursday evening at 7 p.m. January 3rd. This includes lady members. Prizes in autumn competition will be distributed. J2-2td.

# Mounted Police Take Drug Clerk Into Custody Here; Opium On Person, Charge

### Arrested in Local Hotel When Officers Find Tin Can Containing ¼-Ounce Powdered Opium — Remanded One Week

A young drug clerk of this city, who appeared before Police Magistrate S. Masson this morning, furnished an unusual case for this city, when he was charged with having drugs on his person. He was remanded for one week, and in the meantime, E. J. Butler, counsel for accused will attempt to arrange bail which was set at $1,000, to be furnished by accused and a $500 bond as additional surety.

**Has Been Suspected**

Surprised last night in a local hotel accused was arrested and searched by Detectives Paul H. Miller and J. Greignon, members of the narcotic squad of the R.C.M.P. at Ottawa. The young man was taken to the police station, when the officers found a small tin can in one of his pockets, which they believe contained about one quarter ounce of powdered opium. Local police officers today state that the youth had been suspected for more than one year, the officers who made the arrest stating that complaints have been received at Ottawa regarding accused. No resistance was offered when the officers seized him and the youth accompanied the officers to the station house quietly.

**Faces Serious Charge**

The charge which accused will face one week from today, is that he "did unlawfully without authority from the Minister of Public Health, have in his possession a quantity of drug, to wit, powdered opium, contrary to Part D of Section 4 of The Opium and Narcotic Act of 1923." The minimum penalty on this charge is a fine of $200 and costs and a sentence of six months in jail, and an additional six months if the fine is not paid.

The newly amended "Opium and Narcotic drug act 1923" just came into force on December 31st 1923, and that a local court is called upon to interpret the charges and penalties so early in the new year on such an unusual charge for this city, Mr. Butler asked for a remand in order that he might study the new pamphlet form of the act, and in the principles of broad justice, His Worship consented, but stated that bail would have to be substantial on such a serious charge Officer Miller was willing to grant bail, but asked that it be substantial Mr. Butler immediately left the court to arrange bail.

It was explained that the opium the accused is alleged to have had in his and is commonly used in the preparation of ointments and other synthetin drugs. Opium in this form is not commonly used as "dope."

The last case tried here under the Opium and Narcotic Act was heard by Magistrate Masson on the morning of May 24th 1923, when an addict in a pitiable condition grabbed by local police officers when he dropped off here enroute to Toronto from Montreal, and began "mouching" business men for money, appeared. This young man was sentenced to Guelph prison farm Such cases are unusual in Belleville and local police officers are determined to keep the city clean in narcotic circles.

Vicksburg, Miss., Jan. 3—Six year old Joseph Morris rescued his sister and a younger playmate when they fell into the Mississippi.

## Two Are Killed When Toboggan Slide Collapses

(United Press Despatch)
Saranac Lake, N.Y., Jan. 3.—Nathan M. Shelly and his sister-in-law, Mrs. Maude Shelly, were killed when a toboggan slide collapsed.

## Eight-Hour Law Is Labor's Remedy For Ills Of Industry

By S. P. HOLLINGSWORTH
(United Press Staff Correspondent)

Harisburg, Pa., Jan. 3 (United Press)—The labor policy in a number of the basic industries is changing.

A survey of industrial and employment conditions throughout Pennsylvania, obtained exclusively by the United Press, indicates that men and management in many instances are reaching a better understanding than has been known in the past.

This condition is reported to be having marked influence on the chances of prosperity in 1924.

The "era of good feeling" which seems to be at hand in industry has three explanations. They are:

1—Establishment of the eight-hour day, notably in the steel and anthracite industries.

2—Investment opportunities offered employes, stimulating interest in the management, and participation in the profits.

3—The shortage of skilled labor creating keen competition among employers for continued services of workers, thereby reducing labor turnover.

The effect of this condition has been noted generally in the labor situation in Pennsylvania. There is a very little unemployment, and what there is has been classed as "floating". Demand for common labor having fallen off, this element has increased.

**Industry Stabilized**

The gradual stabilization has been in process of development in building con-

Continued on Page 5.

## BELIEVE OFFICER IS WIFE KILLER

Hamilton, Jan. 3.—Local police officials have been advised that Norman Percival Bailey, a former Major in the Canadian Machine Gun Corps, who is wanted by Scotland Yard on a charge of murdering his young wife, resided here during 1920 and 1921. He is said to have been mentally unbalanced during the war and is alleged to have killed his wife as she slept. From inquiries made, Bailey left here to go to Philadelphia.

### DEAD OF HORSE'S KICK

Brockville, Ont., Jan. 3.—Kicked on the head by a horse ten days ago, A. Lappan, a farmer belonging to Front of Leeds and Lansdowne Townships, is dead of his injuries.

### POST OFFICE ROBBED

Niagara Falls, Ont., Jan. 3.—The Post Office at the Centre was broken into at an early hour yesterday and seven dollars in cash and $18 of stamps stolen from the safe.

Birmingham, Eng., Jan. 3.—A large metal corporation formed here has only women for officers and directors.

### I.O.O.F. OFFICIAL WILL INITIATE WELLINGTON OFFICERS

Mr. G. G. Way, of this city, D. D. G.M., of the Oddfellows Society for this district will this evening visit Wellington and initiate the officers of the lodge there The installing officer will be accompanied by the following brethren who will assist him as D.D. G.M. officers.

Bro. Isaac Sills, D. D. Grand Marshall

Bro. Percy Ransom, D.D. Grand Warden.

Bro. H. C. Ransom, D.D. Grand Fin. Secretary.

Bro. F. C. Fairman, D. D. Grand Rec. Secretary.

Bro. H. W. Lindstrom, DD. Grand Treasurer.

# Rev. G. S. Wood Today Accepts Call To the North Gower Congregation

In the absence of Rev. R. Cranston, Moderator of Presbytery, Rev. D. C. Ramsay was called to the chair at a special meeting of the Presbytery, held in John St., Presbyterian Church this afternoon. The only business before the court was the dealing with the call which had been extended to Rev. G. S. Wood of Melrose, from North Gower congregation. The stipend promised is $1,800 per year, free manse and one month's holidays. Rev. David Smith of Manotick and Mr. S. H. Ferguson, Osgoode station, were present to support the call and Messrs. James and Harold McCullough of Lonsdale appeared in opposition. After all parties had been heard, Mr. Wood accepted. The pulpit at Melrose will be declared vacant next Sunday and Rev. D. C. Ramsay was appointed pro tem.

### WAINWRIGHT OIL GOOD

Calgary, Alta., Jan. 3.—J. O. Williams, geologist, claims that the oil struck at Wainwright is equal in content value to the best Pennsylvania product.

Spalding, Eng., Jan. 3.—Potatoes of a pink, mauve and deep blue color were exhibited at the annual agricultural fair.

# LONDON TORY GROUP WARS ON LABORITES

(United Press Despatch)

London, Jan. 3.—The City of London Conservative Association which has been trying to bring about some sort of Liberal-Tory fusion to keep the Labor Party out of office met yesterday and passed a resolution urging either a Conservative government with Liberal support or a Liberal government with Conservative support.

## Crucifix

A crucifix about two inches long, shown above in X-ray photo, was removed recently from the throat of a woman patient of a Boston hospital. Dr. Edward Monahan (shown above also) removed it, where it had been imbedded for 10 days.

# TORONTO MAN IS STABBED BY WIFE

### Is Critically Injured in Accident While "Fooling" With Wife

Toronto, Jan. 3.—Stabbed in the stomach while indulging in a practical joke with his wife in their home about 7 o'clock yesterday morning, Frank Ferguson, aged 34, of 1 Dentonia Park Avenue, is now in the General Hospital. His condition is critical.

Ferguson, when seen at the hospital by Detective-Sergts. Nicholls and Hazlewood, related how the accident happened, but exonerated his wife from all blame in the matter. He stated that he had crept upon his wife while she was cutting up his lunch in their home yesterday morning, and she, thinking that he was about to indulge in his usual trick of flicking her on the back of the neck with a wet towel, flung the hand containing a long bread knife backwards, with the intention of warding off the attack. But, contrary to his usual custom, instead of flinging the towel, Ferguson sought to catch his wife by the shoulders, with the result that the keen point of the knife penetrated his stomach, inflicting a wound seven inches long and very deep.

# Canada Leads In Goods Sold To U.S.

Washington, Jan. 3.—Canada sold more goods to U.S. than any other nation and was the United States second best customer during November last, according to trade figures made public yesterday. Imports from Canada show an increase for the month as compared with the month of November, 1922. The figures are $38,452,037, as compared with $34,453,986 for November, 1922. Imports from the United Kingdom, second in the list, were $27,768,887 for November, 1923, against $33,665,362 for November, 1922. Exports to the Dominion for November last were $15,743,430, against $55,989,870 for the corresponding period 1922. Exports to the United Kingdom were $99,731,714, against $89,681,457.

## MEMORIAL SERVICE FOR DECEASED PRIEST

Gananoque, Jan. 3.—A memorial service was held at Christ Church, Anglica, to the Rev. J. P. Kehoe, who died Monday night, and was for seventeen years pastor of St. John's Roman Catholic Church, coming here from St. Mary's Cathedral, Kingston. The service was held at the same hour at the Requiem Mass for the deceased was being held. Dean Kehoe's highminded devotion to work for the uplift of humanity took no account of party or creed, although his first thought was his own loved people, by whom he was beloved.

# JUGO-SLAVIA OPPOSES RETURN OF FERDINAND

(United Press Despatch)

Athens, Jan. 3.—Jugo-Slavia last night sent an ultimatum to Bulgaria against the return of King Ferdinand, secret increases in the Burgarian army and the Bulgarian menace to Aegean ports.

The new Greek government is much troubled by the situation.

Athens, Jan. 3.—Bulgarian Government yesterday gave King Ferdinand permission to return to Sofia. The former King was responsible for plunging Bulgaria into the world war on the German side.

**Assembly Meets**

Athens, Jan. 3.—Greek National Asembly had its first meeting yesterday in same large salon which housed the trial of six politicians who were executed in 1922.

## To U.S.

Sir Esme Howard, present British ambassador to Spain, will succeed Sir Auckland Geddes as British envoy to the United States. His appointment has been officially confirmed.

# LETTER FROM IDAHO REVEALS WIDE PUBLICITY ACCORDED TO PLANS FOR U.E.L. CELEBRATION

A high official of Camas Prairie Railroad Company, Lewiston, in the State of Idaho, has heard of the Belleville celebration, and plans to come to it. The following letter received by Mr. Mikel illustrates the wide range of publicity which the celebration is getting.

My brother, Hame, now at Prince Albert, Sask., tells me there is to be a celebration next summer, and I want to know all about it. It is now 40 years since I left the old haunts, visiting there once in '91 and it is the one big wish that I might be given the opportunity to participate in such a grand event. Have not come in contact with many of the old boys since leaving "home" and want to meet up with Billy Robertson, son of the shoe man, Alex Robertson, the original delivery boy for Reid, the dry goods merchant, Geo. Elworthy who was the crack pitcher for the young "Troubles" Charlie Hambly who played the flute, Lukie Curtis the young architect, Billy Hoggart, Charlie Kyle, etc.

I have followed the railroad game since starting with the old Grand Junction as clerk in the old Church depot on Pinnacle, and am now chief clerk to the manager of this company. Give me a line-up at your convenience.

Very truly,
Lin Wolever

Another instance of the widespread publicity which has been accorded the proposed celebration is furnished by the receipt by Mayor-elect Mikel of a letter from Sir Campbell Stewart, managing director of the London Times, London England, requesting information about the project and offering to co-operate in insuring its success.

# BUILDING PERMITS IN CITY FOR YEAR, 1923, TOTAL $42,325.00

According to the records of City Engineer Campbell, only twenty-five permits for new buildings were taken out during the year 1923, totalling $42,325. The largest amount involved in one permit of $1,500 for a residence. Five of the permits were for the building of garages, entailing limited expenditures. This is the smallest number of permits for some years.

### PRETTY POLLY BORN

Chicago, Jan. 3.—The first African gray parrot born in the United States has been hatched out here. Its mother is 21 years old and its father 34.

# NEW SALES TAX NOW IN FORCE

### Effect on Customs Returns Not Known Until End of January

From customs officials it was learned that the new sales tax became effective yesterday and its effect on customs returns for the port of Belleville will not be apparent until the February returns are made. On goods manufactured in Canada the 6 per cent sale tax only applies to goods manufactured and sold after December 31st, or on goods manufactured previous to December 31, and sold after January 1st, 1924.

### LITTLE ONES ARE GUESTS

A very pleasant event took place last evening, when Miss Kathleen Collins, Dundas street, entertained about twenty of her little friends to tea. The tea table was prettily decorated with streamers and tiny Union Jacks, the evening was spent in games and music and at nine o'clock the little guests departed for home each one having spent a most enjoyable evening.

### HUNT CHILD'S ASSAILANT

Buffalo, Jan. 3.—Search is being made by police for a man who attempted to attack 13-year-old Anna Schmidt, No. 31 Kermit street, in the rear of an automobile plant at East Delavan Avenue and the Erie Railroad tracks. The man stuck a handkerchief in the child's mouth, but she managed to cry for help and he fled

## FOREIGN OFFICES IN PARIS ARE FLOODED

United Press Despatch

Paris, Jan. 3.—Three feet of water filled the foreign office cellars to-day as the flooded river Seine continued to overflow its banks and inundate Paris and its environs. Many valuable documents were destroyed.

### NAVIGATION SCHOOL OPENED

Kingston, Ont., Jan. 3.—The school of navigation opened at Queen's University yesterday morning with Captain A. Barrett in charge. It is expected that by the middle of the month there will be about forty marine men taking advantage of the course.

# ROYALISTS SEEK THRONE FOR CYRIL

### Followers of Old Order Form Secret Body

United Press Despatch

London, Jan. 3.—A secret Royalist organization has been formed for the object of re-establishing Russian Monarchy and placing the former Grand Duke Cyril on the Throne. Grand Duke Cyril directs operations from his office in Paris or from his Villa at Nice.

# Gasoline Tank Of Ill-fated Dixmude Found Near Bizerta

(United Press Despatch)

Paris, Jan. 3.—A wireless message from the Prefect of Marine at Bizerta, the most northerly town in Africa, 38 miles from Tunis, intercepted at Toulon last night, stated that the gasoline tank of the giant airship Dixmude was picked up at sea yesterday. The tank bore chalk mark inscriptions.

# LARGE GAINS IN 1923 REVENUE OF DOMINION

### Excise and Sales Tax Show Increase of $32,341,607 Over 1922

### CUSTOMS LARGER

### Total Revenue Receipts Reach $301,473,813 For Past Year

Ottawa, Jan. 3.—Customs and excise revenue of the Dominion was nearly $40,000,000 greater in 1923 than in 1922. During the past year total revenues derived from these sources amounted to $301,473,813, as compared with $262,377,468 in the calendar year 1922. The increase, therefore, was $39,096,345.

**Excise Provides Most**

Examination of the figures which were made public this evening by the Department of Customs and Excise, show that by far the greatest proportion of the increase was in excise tax collections, chiefly derived from the sales tax.

From excise taxes the Dominion derived a revenue of $126,684,825 during 1923, which was $32,341,607 more than in 1922, when the total collections were $94,343,218. Customs revenue accounted for $5,739,158 of the increase, the total revenue during the past year amounting to $135,860,374, as compared with $130,121,216 in 1922.

The amount of $37,561,227 was derived from excise duties, as compared with $36,767,640, in 1922, or an increase of $793,587. Sundry collections, from which $1,367,385 was received last year were more than $200,000 greater than in 1922.

**The Gain By Customs**

For the month of December alone customs import duties amounted to $9,551,016, or a decrease of $636,105 from December, 1922. Excise taxes were collected to the amount of $10,444,596, an increase of $500,590 over the 1922 figures, and excise duties yielded $3,481,630, or slightly less than in December, 1922.

The amount from sundry collections was $262,130, an increase of $152,151 over the figures for December, 1922.

## STRANGLE INFANT WITH CORD, CHARGE

Montreal, Jan. 3.—Strangled to death and then thrown on to the street, was the fate of a new born baby girl whose naked body, wrapped in a towel was discovered on Versailles street early on the morning of the 23rd. At the inquest at which a verdict of infanticide against some unknown person or persons was returned, the medical evidence showed that the infant had been choked to death by means of a cord passed around its neck.

## SUCCESSFUL DANCE AT PARISH HOUSE

More than two hundred persons attended the enjoyable dance and social evening at St. Thomas Church Parish house last night, which was given under the auspices of the Girls' Guild of that church. A most pleasant evening is reported, the excellent dance music supplied by a three piece orchestra, led by Professor Wheatly, adding much to the success of the function. The splendid hardwood floor of the Parish house makes an ideal dancing space. Dainty refreshments were served and the dance terminated at midnight.

### NICKLE IS 54

Hon. W. F. Nickle, Attorney General of Ontario, celebrated his fifty-fourth birthday anniversary on Monday last, and he spent it at work.

## FINAL MEETING OF CIVIC COMMITTEES

The final meeting of the various civic committees will be held this evening. On Monday evening next, the final meeting of the council will be held to conclude the business of the year.

On Monday morning, January 14, the newly elected council will hold its inaugural meeting.

## BELLEVILLE RECORD IS HEALTHY ONE

During the past year the city of Belleville was generally immune from dangerous infectious diseases. There was considerable scarlet fever among the children, but the death rate was exceptionally small. During but ten weeks out of the fifty-two, were no cases reported. There was not a case of small pox in the city and only two cases of typhoid fever reported.

With the exception of the scarlet fever cases, the weekly reports supplied to the department were exceptionally good.

London, Jan. 3.—Misses Esther and Anne Malvern, sisters have applied for special sanction to get married as they are under age, and cannot get the consent of their father, who disappeared two years ago.

### LIKE FATHER, LIKE SON

Chicago, Jan. 3.—Walter Baxter, 55, was sentenced to prison for burglary on the same day that his son, Samuel, aged 25, was sent up for robbery. They were tried in different courts.

Edmonton, Alta.—Methods in use in Europe for the extraction of oil from tar sands may be applied to the tar sand deposits in Alberta.

## THE COUPON SURVEY

Response to the request by The Intelligencer for expressions of opinion regarding a war memorial to be erected in honor of Belleville's Heroes of the Great War, living and dead, indicates a widespread interest in the project, despite the fact that the views expressed are in many instances widely dissimilar.

The Intelligencer's survey was undertaken merely with the purpose of assisting in the effort to determine public sentiment in the matter.

When the replies received by the Memorial Editor are submitted to the committee appointed by Mayor Bennett, that body will be able to ascertain the relative popularity of the various styles and sites which have been suggested and also will be in a position to form an approximate estimate of the expenditure favored.

Of coures, 300 or 400 persons do not necessarily represent the views of a city of this size, but their opinions may be accepted as a fair criterion. Those who desire to express their views in the matter are invited to mail in coupons during the remainder of this week. Those who desire more coupons may secure them by notifying The Intelligencer office.

## THE PERFECT GENTLEMAN

Mr. Glenn Frank, writing for the January issue of the Century Magazine, seeks to hasten the advent of the millenium by providing the United States with a perfect president. Mr. Frank denounces the professional politicians of both parties "who have denuded the voter of his independence and his courage." He would have the voters concentrate on the ideal of a perfect president. By doing this, he says, they would create an atmosphere in which conventions would have to consider the "ability" as well as the "availability" of a candidate.

There are five qualifications which Mr. Frank says should be essential to the man elected president of the United States in November, 1924. Briefly they are:

First, the next president should be a man of courage. He puts this quality at the forefront of his discussion of the next president because "the whole political system of America is an organized conspiracy against courage in political leadership."

Second, the next president must not be a man whose mind has "set" on the issue of the attitude of the U.S. in world affairs. He should be a man whose mind is realistic enough to enable him to scrap even the vocabulary with which American politicians have been discussing foreign policy and to approach the formulation of American foreign policy in the spirit of the engineer rather than in the spirit of the party politician.

Third, the next president should be a man who understands the forces that are to-day changing the system of representative government as definitely as if it were being changed by constitutional amendment.

Fourth, the next president should be a man who will know how to stimulate sustained political thinking among the people by taking the country into his confidence. Mr. Frank suggests that it would be a salutary thing if the next president would voluntarily submit to frank questioning by fairly frequent joint sessions of the senate and the house of representatives, and should keep the whole country informed by frequent "messages" addressed to the people and released through the press.

Fifth, the next president should be a man who can give the nation what may be broadly termed spiritual as well as political leadership.

Such a president could give the whole world a new spiritual lead by the simple device of putting the prestige and publicity value of his office back of the ideas that have been thrown up by the sciences, philosophies and the adventures of the human mind.

Unfortunately, the United States cannot secure a president who even closely approaches this ideal under the present political conditions below the border, but the goal is worth striving for in a Canadian premier as well as in a United States president.

## EDITORIAL NOTES

Wonder if it will be possible to place the first resolutions adopted by the new City Council in the category of New Year's resolutions?

—o—

The year's fiscal record of the average Belleville citizen should offer an interesting study. However, it might be difficult to find the amount of the balance after the taxes and other "overhead" expenses have been deducted.

—o—

The report of a gold discovery in Madagar should not interest residents of Ontario. We have a potential Klondyke and gold-mining, like charity, should begin at home.

—o—

Winter appears to have arrived at last, but there are optimistic persons who believe that the snow will disappear shortly to be succeeded by mild weather. A gloomy prospect for hockey players and fans, which proves that it is impossible to please everyone.

—o—

The investigation of the activities of guards at Portsmouth prison, Kingston, and revelations made are reminiscent of other inquiries of a similar nature at other penal institutions. There have been instances wherein guard shave found themselves "on the inside looking out."

## PRESS OPINIONS

### COMING TO THEIR SENSES

(Woodstock Sentinel Review)

Many of the younger generation in Moscow and other centres of population refuse to celebrate Christmas on any date; at least they refuse to give any religious significance to the festival. Last year there were distinctly anti-religious demonstrations in mockery of Christian beliefs and customs. This year the Communists contented themselves with secular lectures.

No doubt the discovery was made by the older heads that it was necessary to make at least a show of moderation even in attacks upon religion, so that the Christian sentiment of the world might not be too grievously outraged.

### SOME TALKFEST!

(Brantford Expositor)

When Alexander Graham Bell discovered the telephone he had no idea what a talkfest he was starting. Last year in the United States alone telephone talks, it is estimated by the U. S. census bureau, numbered 24,738,758,738!

There was an increase of 4,893,036,401 talks, amounting to 13 per cent. over 1917. Of the number of cuss words which were uttered or unexpressed during the same twelve months there is unfortunately no record.

### KNOWLEDGE AND HUMILITY

(London Morning Past)

The chances are that the man who has delved most deeply into life is the man who is most impressed with its mysteries, that the scientist who has labored most is the most humble of his craft, and that he who has adventured furthest into the realms of knowledge has the most honest conception of the illimitable and obscure country which stretches around us on all sides.

A wise Providence has hedged vain and presumptuous man with so much darkness that there can in all probability be no end to his search for the light. We labor for years, and in the end we are bound to confess, in accordance with the beautiful but perplexing truths of Christianity, that only a little child can enter the Kingdom of Heaven.

## By The Side Of The Road

### COMPANIONSHIP

(From the Kansas City Star)

There is a close companionship
  In grass—
And summer lies in the fields
  I daily pass.
And fragrant clover, red and white;
  Alfalfa blue;
The lovely things that live by brooks
  Are merry comrades too.
The little tinkling, twinkling leaves
  Of cottonwoods—
The company of all the trees,
  They fit my moods.
There's a potency in fragile things;
  In buds and blooms;
They fill my soul with happiness
  And heal its wounds.
There's solace in a hillside mute
  'Neath winter's will—
Life's seared and mute and blighted forms
  Speak to me still.
When doors and hearts are closed to me,
  Companionship I find
Within the clean wide out of doors,
  So intimate and kind.
—Mabel F. Blakeslee.

## MONTHLY PARTY IS VERY SUCCESSFUL

The second monthly euchre and dancing party held under the auspices of the I. O. O. F. took place last evening in the Temple and was well attended. In the early part of the evening a thirty table euchre party was the feature and much interested was manifested, the prize winners being as follows:

Ladies
First Prize—Mrs. A. Demosley.
Second Prize—Sevilla Johnston.
Consolation Prize—Mrs. A. Sprague.
Gentlemen
First Prize—Jimmie Donovan.
Second Prize—R. J. Johnson.
Consolation Prize W. A. Charlton.

At the conclusion of the contest and after the prizes had been awarded, dainty refreshments were served. Dancing was enjoyed, suitable music being furnished by Sill's Orchestra. The affair throughout was most enjoyable.

## RECEIVES LETTER OF APPRECIATION

Mrs. Alexander Ray, C.S.C. for C. W. C. A. of this city, has received the following letter of appreciation from Miss Elinor Armitage, Conven of Sailors' comforts at Halifax, N S.

Halifax, N. S. Dec. 18th 1923

My Dear Mrs. Ray—

This morning I started getting things ready for our Sailors for Christmas, and your lovely parcel you sent some time ago I would not open, as I expressly wanted it for Xmas, I knew how carefully your Society always made their sweaters and socks and the men will be proud, geting a gift from your Society, they are all splendid and look so fresh and nice.

Remember me kindly to all the Society, and thank them for their fine gifts.

Wishing you all a Merry Christmas and Happy New Year.

Yours sincerely,
Elinor M. Armitage.

## THE PARSON O'DUMFORD

They followed him, though, at a distance, Tom Podmore and Harry acting as his rearguard, as he made as if to go straight to the House.

He had to pass the Bull though, and seeing a group of people there, he made his way through them to where Robinson, the landlord, was standing, discussing the events of the evening.

"Robinson," said the vicar aloud, and his words were listened to eagerly, "I'm afraid this atrocious outrage was hatched here in your house."

"Strike me, as I stand here, sir," cried the landlord eagerly, "I knowed nowt of it."

"But you knew that secret meetings were held here?"

"I knowed theyd their meetings, and a lot o' flags and nonsense, sir, but I niver thowt it was but foolery, or they shouldn't hev had it here."

"I ask you as a man, Robinson, did you know they meant to blow up the works?"

"No, Mr. Belwood," cried Robinson, indignantly; "and if I had knowed I'd have come and telled you directly."

"I believe you," said the vicar.

"I knowed they talked big air," continued Robinson; "but when men do that ower a pipe and a gill o' ale, it's on'y so much blowing-off steam like, and does em good. But look here, sir, there's about a dozen of them up in big room now. Come on up, and we'll drift 'em."

He led the way to the club-room, to find it locked on the inside, and on knocking he was asked the pass-word.

"Dal thee silly foolery," cried the landlord, in a passion, "there it is;" and, stepping back a few paces, he ran furiously at the door and dashed it off its hinges; entering, followed by the vicar, Harry and Tom, who kept close to protect them him from harm.

There were about fourteen men present, and they rose with more of dread than menace in their aspect, half expecting to see the police.

"Look here, lads," began the landlord—

"Allow me, Mr. Robinson," said the vicar, stepping forward and looking straight before him. "My men, I look at no man here; I recognize no man as I say this. Smarting under injury as you thought—

"Real injury, parson," cried Stockton.

"Faults on both sides, my man," continued the vicar. "Some among you destroyed Mr. Glaire's property. I say, smarting under your injuries, and led away by some foolish mouthing demagogues, you conspired to take the law into your own hands, and, not content with making two cruel assaults on your employer—"

"Which he deserved, parson,' '

"I can not enter into that," said the vicar. "If one man does wrong, it is no excuse for the wrong of others. Our salutary laws will protect even a murderer, and then punish him according to his deserts. But listen—in a few words, you have been led away to conspire to the accomplishment of a most dastardly outrage. I have just come from the works, and I tell you, as man, that if the scheme had succeeded, they would have been destroyed."

"Serve him right," growled a voice.

"All the houses round would have been injured, and the loss of life would have been frightful."

"Nay, nay, parson," said Stockton.

"I am giving you my honest conviction, my men," continued the vicar, "A hundred pounds of powder in a confined space is sufficient to commit awful ravages; and you forget what would have followed if that tremendous chimney had fallen. But I have not told you all. If the powder had been fired, three people in the works would have been killed. Those people were Mr. Richard Glaire—"

"Weer he theer, sir?" exclaimed Stockton.

"He was,' said the vicar; "he has been in hiding there from your violence for days. I knew some plot was hatching, and, to save both him and you, I advised his staying in the works, so that you might think he had left the town."

"Which e did," muttered two or three.

"I shudder when I think of the consequence of my advice. But listen—there would have been two more horribly mutilated and shattered corpses at this moment—the remains of your foreman and his poor child, Daisy Banks."

"Oh, coom parson," said Stockton.

"I tell you man, as I rushed in they were all three there. How they came there together I do not know, I do not want to know. All I know is that it has pleased God to spare us from a sin for which we should never have forgiven ourselves."

"I don't see as yow had much to do wi' it parson," said a voice, sneeringly.

"My men, my men," cried the vicar in a deeply moved voice, "do you think that I live here among you without feeling that your joys and sorrows are mine? and your sins are mine as well, for I ought to have taught you better. For God's sake let us have no more of these wretched meetings; break up your society, and act as man to man. Suffer to be strong. Have forebearance and try to end these dreadful strikes which fall not on you, but on your wives and children."

"But what call hev you got to in-

"But what call hev you got to interfere?" cried a surly voice.

"Howd hard theer," cried Stockton; "parson's in the right. He's spent three hundred pounds if hes spent a penny, over them as was 'most pined to death."

"That's right,' cried several voices.

"Never mind that my men, it was my duty, even as it is to be the friend and brother of all who are here. But listen—"

"I didn't come here to hear parson preach,' cried a voice.

"One word—listen to me for your own sakes," cried the vicar, in impassioned tones. "Suppose yo uhad succeeded without the horrible loss of life that must have occurred through your ignorance of the force of powder—suppose the works had been, with all the costly machinery, turned into a heap of ruins?"

"It would have sarved Richard Glaire raight," said someone.

"Grant that it would, but what then my lads? For Heaven's sake look a little further than the satisfaction of a paltry, unmanly desire for revenge."

"It would have ruined Dicky Glaire,' cried Stockton.

"Yes, my men; but it would have ruined you as well, Those works could not have been restored for years; perhaps never; the trade would have gone elsewhere and, as I take it, over two hundred men and their wives and children must have gone elsewhere for bread.'

(to be continued)

## GILEAD

The recent snow storm has improved our roads considerably.

Rev. Mr. Butler, of Foxboro, occupied the pulpit here on Sunday last.

One of our oldest residents in the person of Mrs. R. Sheffield passed away on Christmas night. A num- from this vicinity attended the funeral on Thursday.

Mr. Howard Badgely, of Toronto, spent Christmas at the home of his parents here, Mr. and Mrs. W. C. Badgeley.

Mr. and Mrs. W. Hutchinson have moved into Mr. C. W. Badgeley's vacant house.

Our Christmas tre oen Tuesday eve last was a decided success. Proceeds amounting to thirty-five dollars.

Mr. and Mrs. F. M. Yorke and Mrs. J. E. Chappell spent Sunday evening last at the home of Mr. W. Clare.

Mr. and Mrs. W. Clare spent Sunday with Mr. Robert Rutledge of Lodgeroom.

Mr. and Mrs. E. P. Yorke spent Xmas at Campbellford with the former's sister, Mrs. D. A. Montgomery.

Mr. and Mrs. Earle Carter took dinner on Sunday with Mr. and Mrs. E. P. Yorke.

Miss Mae Badgeley is spending her holidays under the parental roof.

The coming municipal election is the principal topic of the day on our line.

Woman's Statement Will Help Belleville

"I hated cooking because all I ate turned sour and formed gas. I drank hot water and olive oil by the gallon. Nothing helped until I used Odlerika." Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gas and poisons. Excellent for obstinate constipation. Helps any case gas on the stomach in TEN minutes. J. S. McKeown, Druggist.

The Children's Cough Remedy
MINTINE
Its Soothing Balsams give quick relief.

## SOCIAL and PERSONAL

Mrs. W. A. Reid and Miss Mildred Reid have returned from Toronto, where Miss Mildred Reid spent six weeks in a Toronto hospital but is now muck improved in health.

Miss Anna Baker, of Warkworth visited Mr. and Mrs. R. E. Reid, Albert St., over the holiday.

Mr. Russell Cole and Miss Laura Cole returned to Toronto today after spending the holidays with their parents.

Mr. and Mrs. Harold Izzard and son, residing on Grier street, city, spent New Year's with relatives in Toronto.

Mrs. A. Y. Snider and children are the guests of Mr. and Mrs. G. H. Gillespie at Madoc.

Mr. M. Dunsford, of Toronto, is the newly appointed accountant at the local branch of the Bank of Commerce, replacing Mr. Len Crook who was moved to Toronto recently.

### BEST SUBSTITUTE

(Boston Globe)

Rewards to hard workers in business are going more than ever to those who, in addition to hard work, do a good deal of hard study. The ladder to success has many rungs, which are formed by knowledge gained in classes which meet after hours. The best substitute for the day school is the night school.

### IMPROVED TRAIN SERVICE BETWEEN TORONTO AND WINNIPEG

The Canadian National Railways announce that effective Saturday, January 5th, 1924, improved train service via New Longlac route will be put in operation.

"The National", the Toronto, Winnipeg and Western Canada train will hereafter run by this route via Allandale, Barrie, Orillia and Washago, instead of via Beaverton, leaving Toronto, 10.45 p.m. daily, arriving Sudbury at 8.55 a.m. and Winnipeg 4.10 p.m. following day.

"The National" will carry Tourist Sleeping Car Toronto and Winnipeg, Edmonton, Compartment Observation Library Car Toronto and Winnipeg, Standard Sleeping Car Toronto and Sudbury: Dining Car serving all meals.

For tickets, reservations and full information apply to H. C. Thompson or nearest agent of the Canadian National Railways.

SINCLAIR'S

## NORTH LAKESIDE

Two homes on our line are saddened by the messenger of death.

Miss Caroline Bush, age 70, a life long and most highly esteemed member of the community has gone to her eternal reward.

Mrs. Jackson, formerly of Wellington, died on the 22nd, inst., at the home of her daughter, Mrs. Dave Robinson, with whom she has made her home for a number of years.

Mr. and Mrs. Thos. Mikel and little daughters spent Xmas with his sister, Mrs. Roy Harry, of Sidney.

Mrs. Wm. Zufelt entertained a family gathering to Christmas dinner.

The Lakeside Xmas tree had a good attendance and was a splendid success.

Mr. and Mrs. L. Irving and Phyllis, spent Christmas with Mr. Bruce Wood, Murray Canal.

Our popular school teacher, Mrs. Wm. Zufelt, has been re-engaged.

Mr. and Mrs. B. Bush and family held Christmas at the home of Mr. and Mrs. Ross Bush.

We regret to report the illness of Miss Agnes Huycke with la grippe.

Mr. and Mrs. Russell McCurdy spent Christmas in Belleville.

The weather indicator is popular on our road these days.

## FOURTH OF SIDNEY

Service next Sunday evening of 7 p.m., Rev. E. Honey, pastor.

Mrs. W. Phillips and daughter, Maud, spent Christmas with Mrs. O. Reddick, of Belleville.

Mr. Fred Wood and daughters, of New York City, are visiting relatives on this line.

Mr. and Mrs. W. Lott and family spent Christmas with Mr. and Mrs. Wannamaker, of Rossmore.

Mr. and Mrs. F. Harris spent Christmas with Mr. and Mrs. Geo. Bacon, of Belleville.

Mr. and Mrs. F. Rikley and family spent Christmas with Mr. and Mrs. B. A. Lucas, of Belleville.

Mr. and Mrs. J. McPherson entertained Mr. and Mrs. J. McPherson, Mrs. J. McPherson, Mr. R. McPherson and Mr. and Mrs. S. Denyes, of Odessa on Christmas day.

Miss Pearl Tucker and Miss Luella Waldron have returned home having spent the week-end with the Misses Hilda and Elsie Wallace, of Newtonville.

Mr. and Mrs. S. Weatherall, of Oshawa, Mr. and Mrs. J. McRae, of Sarnia, Mrs. R. Logan and family, of Hamilton were holidays guests of Mr. and Mrs. F. Harris.

Mr. and Mrs. A. Wood and family spent Christmas with the latters parents, Mr. and Mrs. Geo. Beer, of Thurlow.

## VICTORIA

Church next Sunday at 2.30. Sunday School 1.30.

Mr. and Mrs. Harold Adams and Mr. and Mrs. John Palmer, Consecon, spent Wednesday at Mr. Ray Fox's.

Mr. and Mrs. Stanley Wetherall, of Oshawa, has been spending a few days with her parents, Mr. and Mrs. W. Pope.

Mr. and Mrs. Henry Rathburn and Earl spent Wednesday at Mr. W. S. Foxs.

A very large crowd attended the sale at Mr. Amos Wannamaker's on Wednesday.

Mr. and Mrs. Earl Bonter spent Wednesday at Mr. Henry Lamb's.

Mr. and Mrs. Burr spent Wednesday at Mr. Will Fox's.

Mr. and Mrs. H. Lamb and Mrs. Kennedy and daughter motored to Thomasburg on Thursday. Mrs. Kennedy and daughter returning home after spending Christmas with her daughter, Mrs. Lamb.

Mr. Ralph Honey left Monday morning for Fort Steward to spend the winter.

Mr. and Mrs. Stanley Wetherall spent the week end at Mr. L. Brickman's.

Mrs. S. Bush, Wellington, spent a few days with her daughter, Mrs. Ray Fox.

Mrs. B. L. Redner spent a few days with her parent, Mr. Phillip Pearsall's, Bloomfield.

Mr. and Mrs. Everett Brickman and Mrs. W. Elliott motored to Madoc on Sunday.

Mrs. Elliott returned home after spending a few days with her mother, Mrs. N. M. Wilson. We are glad to report Mrs. Wilson is improving after her bad fall on Wednesday.

Mr. and B. L. Redner spent Sunday at Mr. Frank Bedell's Belleville.

Mr. and Mrs. Everett Brickman and boys and Mr. and Mrs. J. F. Weese and Beryl spent Friday at Mr. N. M. Wilson's.

Mr. and Mrs. Ray Fox and girls and Mrs. Bush motored to Wellington on Friday. Mrs. Bush returning home after spending a few days with her daughters, Mrs. Fox and Mrs. McCurdy, West Huntington.

### RELATIVE SALARIES

(Indianapolis News)

Big crowds at sport contests and large gate receipts have influenced some colleges in the wrong direction. They still would be serving their principal purpose if they had competent faculties and no varsity teams. They hardly would be doing that if they had varsity teams but no classroom work. Putting the emphasis on athletics by the payment of salaries to coaches that are much larger than [illegible] salaries is not a good sign.

# City And District

### COMPLETES 93rd YEAR

The Picton Gazette, a weekly, has just completed its ninety-third year of continuous publication. The first issue was published on Dec. 30th, 1830, in what was then known as the village of Hallowell. It was called the Hallowell Free Press and was the first paper published between Kingston and what was then known as York, now Toronto.

# WEDDINGS

### McINDLISS—BARROW

A quiet but pretty wedding was solemnized on Wednesday, Jan. 2, 1924, at 11 a.m. at St. George's Rectory Oshawa, when Katherine Irene, youngest daughter of Mr. and Mrs. John Barrow, 70 Burk Street, Oshawa, became the bride of George Elvin, son of Mr. and Mrs. Geo. McIndliss of Brock street, Oshawa. The ceremony was performed by Rev. Armstrong of Trenton.

The bride was charmingly attired in a gown of grey satin de chine with hat and shoes to match and carried a bouquet of roses and carnations. The bridesmaid, Miss Eves of Belleville wore a gown of black velvet with fur trimming and the groom's gift a string of pearls and also carried a bouquet of roses and carnations. Mr. Murdock McIndliss, brother of the groom was best man. The groom's gift to the bride was a Victrola and to the best man a gold tie pin set with pearls.

After the ceremony a dainty buffet luncheon was served at the home of the bride's parents to about 35 guests. The happy couple left on the 2-50 train for Belleville and other eastern points and upon their return will reside in Oshawa.

# OBITUARY

### WILLIAM CHAMBERS

On Sunday December 16th, Mr. Wm. Chambers a well known and much respected resident of Stirling village, passed away. Deceased was a son of Mr. and Mrs. Robert Chambers and was born in Madoc Township, on August 6th, 1852. The greater portion of his life was spent in Huntingdon Township. For the past 3 months deceased had resided in Stirling with his son, Mr. W. H. Chambers. An attack of pneumonia was the cause of death. A widow, four sons and three daughters survive. The sons are John, of Eldorado; Robt., of Winnipeg; William and James, of Stirling; and the daughters are Mrs. H. M. Wood and Mrs. A. H. Jones, of Ivanhoe; and Miss May at home. Three brothers and three sisters are living, namely, Joseph, James and Ella, of Toronto; Robert H., of Stirling; Hannah, Alberta; and Lizzie, Manitoba.

The funeral service was held at Bethesda conducted by Rev. Mr. Seal, assisted by Rev. Swayne and Rev. Lindsay. Interment at White Lake Cemetery.

### DIED

JARVIS—On Dec. 25th, 1923, at Birkendale, Lake of Bays, Ont., Hamilton Beaumont, only son of Beaumont Jarvis in his nineteenth year, died of pneumonia, after a short illness.

# Mere Male Scribe Pained By Peterboro Sob Sister's Style

Miss Margery Wilson, movie actress who is visiting Peterboro with the motion picture, "Insinuation", became ill from ptomaine poisoning, but is recovering nicely at her hotel there.

Appropriately enough, she was "bothered" by a Peterboro sob sister who interviewed her recently, and when Miss Wilson reads the review in the Examiner, she will likely suffer a relapse, for it is sufficient to disturb the sensibilities of normal persons.

Here for instance is the "peaches and cream description" of the actress (those with weak hearts sit down.)

"Miss Wilson is pretty; the thin slender vital type, with pointed features, lovely white teeth, brilliant dark eyes and dark brown, curly hair. She talks animatedly, even when ill, and has an atmosphere of refinement. A cluster of deep pink rose buds from an unknown "Miss Peterboro" elicited her admiration, and she talked enthusiastically about the merits of "Mah Jong," the Chinese game, a beautiful ivory set of which had been sent her for Christmas, Louis Hemon's "Maria de Chandelaine," the appealing French-Canadian story, lay on her dressing-table.

Then in the matter of dress, Miss Wilson is quoted as saying that "No woman can be lovely or graceful in a short skirt," she considers this year's styles as being more attractive than those of many a season past. Her own clothes, some of which were visible in a half-opened wardrobe, were dainty in the extreme. A dark fur coat, with big, snuggly collar; a gold brocade with slippers and stockings to match, a henna crepe with rose point collar and cuffs, an embroidered crepe with bouffant hips and dark fur trimming at neck and hem, an orchid dressing gown and the flare of a length of cerise velvet, peeped out above a pile of pale pink lingerie. "Clothes," declared Miss Wilson, "do not bother me at all. I never think of them unless I have some particular use for them in my work.'

Hot coffee! And they killed women like Joan of Arc.

# YANKS AND REDS LOOK STRONG IN 1924

New York, Jan. 3. (United Press).—Unless John McGraw is able to get a reliable pitcher and another experienced infielder, the Cincinnati Reds will get away next April as the favorite in the National League pennant race.

The Reds turned out to be the strongest rival of the Giants in the race last year and on the form shown in the late season, they stood as the prospective runners-up or better in 1924.

Since then the Reds have undoubtedly been strengthened by the deal which brought Carl Mays to Cincinnati from the New York Yankees. They also may find Tom Sheehan, American Association pitcher, of great help to them.

Carl Mays is a peculiar type. He is unfortunate in having a disposition that made him few friends, and he always has been a poor loser. He is young, as ball players go; is a very strong man, and with new surroundings he ought to win a lot of games for the Reds.

If any manager is able to handle Mays, Pat Moran is the one

So far, the Cubs and the Pirates have not been strengthened. The Cubs being a young ball club, might expect there is no reason why the Pirates be more of a factor in the next pennant race than they were this year.

The Giants will have to be strengthened if they are to win another pennant, figuring that their competition will be just as strong in 1924. McGraw is sadly in need of pitchers, and no one figures that his infield will be as strong and as reliable with young Travis Jackson taking Bancroft's place at shortstop.

It is still believed that Rogers Hornsby may be playing second base for McGraw when the season starts and it would knock anyone dead if Eddie Roush should be in centerfield.

George Kelly is a good piece of trading material, and McGraw would not hurt the team seriously if he decided to part with his tall first baseman. Pat Moran is sweet on Kelly and the Red leader may need a first baseman, as it is understood that Jake Daubert might not be available next year.

It stands to reason that the present champions would be no weaker than they are now, if they are able to get Hornsby and Roush, and yet McGraw would be worried continuously by that weak pitching staff. Roush would cut off a lot of runs and Hornsby would contribute many scores, but McGraw will have to have at least one winning pitcher.

The Yankees without any change look like another runaway in the American League. If any deals are completed during the winter they certainly will be made with the idea of strengthening the club and it doesn't need much more power as it stands.

Cleveland is desperate for a first baseman, and Detroit is facing a necessity just a scritical for a second baseman. If it is at all possible, Tris Speaker will make some kind of a trade and so will Ty Cob, but to put over such deals they will have to remove strength from some department.

Connie Mack, spending money right and left for the best players in the minor leagues, ought to have a contender next year. The arrival of the Athletics has been expected for five years, and it is due next year, if at all.

Frank Chance, may have better luck with the White Sox, but it can hardly be figured that the disappointing showing of the White Sox last year was the result of inefficient management, because Kid Gleason is one of the best in the business.

Many deals are expected in the American League before the next season opens, but it is hardly within reason that any club will be successful enough in a reorganization to seriously threaten the regime of the Yankees.

### GIANTS REPORT IN FEBRUARY

New York, Jan. 3.—Spring training for the New York Giants will get into full swing on March 1 at the National League champions' new camp, Sarasota, Fla., according to announcement of the club's plans yesterday. The main body of recruits and regulars has been ordered by Manager John McGraw to report at New York, February 28, but a squad of battery men will be South probably a week earlier under the direction of Coach Cosey Dolan.

### Soccer Team To Tour

Winnipeg, Jan. 3.—A Canadian soccer team has been invited to tour New Zealand, according to Secretary Sam Davidson, of the Dominion Football Association. Mr. Davidson had asked for names of any high-class players in Canada who wish to make the jaunt this Winter.

# SENATORS TRIM ST. PATRICK'S 4-3

### Dye tallies One for Irish and Smylie Gets First For Visitors—14 Penalties

DIED.

Toronto, Jan. 3.—The world's champion Ottawa Senators made their position on the top rung of the National League's standing for the time being when they defeated the St. Patrick's by 4 goals to 3 at the Arena last evening in the presence of another capacity house and in widening the gap between themselves and the other teams, the champions showed that despite the fact that they are minus Eddie Gerard and Jack Darragh, they still are the aggregation to beat for the mythical pennant in Frank Calder's league. The winners were always in front and soon after the last period started were leading by 4 to 1, but Babe Dye signalized his return to the fold by snapping one past Benedict from close range and then Bert Corbeau notched a counter on a long shot with eight minutes to play.

It was a hectic struggle and there was lots of infringements of the rules and while fourteen penalties were handed out, Art Ross, who officiated, did not overwork himself in beckoning players to the penalty bench. It was one of the most strenuous games played on local ice in some years and some may be inclined to classify the game by a more severe adjective. However, both sides soon showed a willingness to give and their opponents lost little time in handing back receipts and at times more attention was paid to the man than to the play. Ottawa outpenalized the local by nine to five, but none of the goals came when one team had an advantage on the other.

# C. N. R. WOLVES DEFEAT MOGULS

### First Hockey Game of Season on Bailey's Rink Ends 5-3 for Wolves

Last night at Bailey's rink on St. Charles St. the lid was pried off the local hockey season when the "Moguls" of the Canadian National Railroad met the "Wolves" of the senior city league in an exhibition game which was well contested. The final score was 5 to 3 in favour of the "Wolves".

Both teams showed mid-season form in both individual and team play. Strachan and Jeffery were the outstanding players for the "Wolves" and Mathews and Wardough stood out for the "Moguls". Mr. Bailey is to be congratulated for the fine sheet of ice he had for the opening game which was all that could be desired.

The line-up was as follows:

Wolves—Goal, T. Jeffrey; defence, Strachan and C. Jeffrey; centre, F. Miles; wings, R. Miles and Townsend; subs., W. Wilbur and N. Wilbur.

Moguls—Goal, Murry; defence, Buskard and Gerow; centre, Wardough, wings, R. Buskard and Mathews, subs., Follwell, Riggs and Carmichael.

Timekeeper—Jock Miles.

Referee—"Chick" Folwell.

# LEWIS' HEAD-LOCK BEATS JIU-JITSU

Chicago, Jan. 3.—Ed. (Strangler) Lewis, world's heavyweight wrestling champion, on Tuesday defeated Taro Myaki, Japanese champion at Jiu Jitsu in a mixed match in which the American and Japanese styles of wrestling were employed.

Lewis won the first fall in the second period after a total wrestling time of 35.46 minutes, with a head lock. The first bout was the Jiu Jitsu method or 20 minutes wrestling with five minute rest. The Japanese wrestler was hurt in the final bout and the second fall was obtained by Lewis in easy fashion with a head lock after two minutes and 17 seconds.

# 'Y' Bowlers Will Banquet Tonight

Ladies and gentlemen bowlers of the Y. M. C. A. will tonight make merry around the festive board when the first annual banquet under the auspices of the bowlers will be held in the auditorium of the building.

An interesting programme is being prepared for the occasion and it is anticipated that many will be in attendance. The banquet is being prepared by the Ladies Auxiliary of the institution.

Mr. W. B. Riggs will preside and Mr. R. Woodley will present the prizes to teams who were successful in the fall series of games.

Judge G. E. Deroche will give an address relative to Y. M. C. A. work and sports.

JANUARY SALES AT EARLE & COOK CO.

# Frontenac Intermediates All Set For O.H.A. Opener Here Friday

Organized Intermediate hockey will officially open in this city tomorrow evening when Kingston Frontenacs meet Belleville Intermediates in the first Intermediate O.H.A. game to be played at the arena here this season.

Fans have long known this opening date, and the mild winter weather has caused much anxiety to players, fans and officials alike, who realize that in towns where natural ice is still in vogue, teams have been badly handicapped in not being able to practice. Kingston have been in the same difficulties at Jock Harty arena however, and only recently began chasing the disc in earnest. Local devotees of the strenuous game have certainly taken advantage of the opportunity of practicing since ice has been ready, for the boys have ben out during the past two or three nights.

Last night some twelve players were out, and had a regular work out at the arena between 7 and 8 p.m. and by all appearances the locals will give the Kingstonian outfit a chase here when the puck is faced off at 8-15 p.m. to-morrow evening.

### Kingston All Set

On Friday at noon the Frontenacs leave for this city for the big opener. While little has been said about the Frontenacs thus far, their workings being somewhat obscure for various reasons, the lid is off. Kingston has a team and a sight better one than most people thought they would have. The Frontenacs have come along well in a very short time and they now stand ready to face the Belleville team on Friday night in the Quinte town. This has been the result of hard work in getting a team together and the work of a few has been well done.

The workout held by the team on Saturday night was well attended and the Brown brothers were both in harness with Harry McNeill adorning the posts. Panet, Lanoe, Pur[illegible] and a few others were on hand and it is hoped that even more will turn out.

## Canadian Champions—1923

Seniors, Rugby—Queen's University, Kingston.
Soccer—Nanaimo, B. C.

# NEW MOTOR ACT NOW IN EFFECT TO BE ENFORCED

### "Highway Traffic Act of 1923" Became Law on December 31st

### IN FORCE NOW

### Chief Constable Kidd states That the Act Will be Strictly Enforced

Among the newest regulations which Prince Charming 1924 will inaugurate in his active new year campaign is "The Highway Traffic Act of 1923", an act which has been passed, and which simplifies, co-ordinates and consolidates the provisions of the Motor Vehicles, Highway Travel and Load of Vehicles Acts in Ontario. The new Act came into force December 31st, 1923.

Everyone who owns or operates a motor vehicle should give his or her strict attention to the new regulations as they will be strictly enforced here. When seen this morning, Chief Constable Kidd stated that the Act would certainly be enforced in this city, and he asked that the newspapers do their share of educational work by giving publicity to the new Act.

**Many Important Changes**

There are many important changes from the old Acts governing the use and operation of motor vehicles, and the Ontario Motor League, in order to fully inform motorists and thereby save them much inconvenience and possibly a few fines, outlines a few of the more important revisions and additions:

The Ontario Motor League points out that in a general sense the whole code of laws which regulates the operation of motor vehicles on the highway, will be found in one sentence of the Highway Traffic Act.

By Section 25, it is enacted that any person "who drives a motor vehicle on the highway....at a speed or in a manner dangerous to the public, having regard to all the circumstances, shall incur a penalty."

One principle underlies this whole subject. The law imposes upon everyone who uses the highway, the duty of exercising at all times, that degree of care for the safety and convenience of others which a reasonable person would exercise under the circumstances. The rules of law which serve as a guide to conduct under all circumstances of travel, are known as the rules of the road.

**Bicycles and Parking**

Whenever on the highway after dusk and before dawn, every bicycle and tricycle shall carry on the back thereof a red lighted lamp or red reflector so placed as to be clearly visible to drivers of vehicles approaching from the rear.

A motor vehicle while standing upon any highway at such times as lights are required, by the provisions of this section for such vehicle may, in lieu of the lighting equipment specified in this section, show one light carried on the left side of the car in such a manner as to be clearly visible to the front and rear for a distance of at least two hundred feet and to show white to the front and red to the rear of the vehicle, provided, however, that such light shall not be displayed while the motor vehicle is in motion.

It is unlawful to carry on any motor vehicle on a highway any lamp which revolves upon a pivot or other device so that the rays of such light may be projected in different directions by an occupant of the vehicle.

Spotlights or searchlights shall be affixed to the left side of the vehicle only and the ray of light therefrom shall be directed to the extreme right of the travelled portion of the highway in such a manner that the beam of light shall strike the extreme right of the travelled portion of the highway within seventy-five feet of the said vehicle.

Every motor vehicle shall be equipped with at least two brakes in good working order, and any police constable or any officer appointed for carrying out the provisions of the act may at any time inspect or cause an inspection to be made of the brakes of any motor vehicle on the highway, and may, if such brakes are not in good working order, require the driver of such motor vehicle to proceed forthwith to put or have such brakes put in good working order.

**Law in the City**

No motor vehicle shall be driven upon any highway within a city, town or village at a greater rate of speed than 20 miles per hour; nor at a street intersection or curve where the driver of the vehicle has not a clear view of any approaching traffic at a greater rate of speed than 10 miles per hour in a city, town or village, or 12½ miles per hour outside a city, town or village.

**On The Highways**

No motor vehicle shall be driven upon any highway outside of a city, town or village at a greater rate of speed than 25 miles per hour. Penalty—Any person who violates any of the provisions of this section shall incur, for the first offence, a penalty of not less than $5 and not more than $50; for the second offence a penalty of not less than $10 and not more $100, and in addition his license or permit may be suspended for any period not exceeding 3 months; and for any subsequent offence shall incur a penalty of not less than $20 and not more than $200, and in addition his license or permit may be suspended for any period not exceeding six months.

Notwithstanding the provision of the above section any person who drives a motor vehicle on a highway at a greater rate of speed than 40 miles per hour or who drives a motor vehicle on a highway recklessly or negligently, or at a speed or in a manner dangerous to the public, having regard to all the circumstances shall incur a penalty of less than $10.00 and not more than $200.00 and shall also be liable to imprisonment for any term not exceeding 60 days, and in addition his license or permit shall be suspended for any period not exceeding six months.

Any person who removes, defaces or in any manner interferes with any notice or obstruction lawfully placed on a highway shall incur, for the first offence, a penalty of not less than $25 and not more than $100, and shall also be liable to imprisonment for any term not exceeding 30 days and for any subsequent offence shall incur a penalty of not less than $100 and not more than $500 and shall also be liable to imprisonment for any term not exceeding six months.

No person in charge of a vehicle shall pass, or attempt to pass, another vehicle going in the same direction on a highway, unless and until, the travelled portion of the highway in front of, and to the left of the vehicle to be passed is safely free from approaching traffic.

**Intoxicated Persons**

No intoxicated person shall drive a motor vehicle. Penalty—The license or permit or, in the case where licensee is also the owner of the motor vehicle, then both the license and permit of a person who is convicted of driving a motor vehicle while intoxicated shall be suspended by the Minister upon report to the Police Magistrate or Justice of the Peace who makes the conviction, for a period—

(a) not exceedings three months for the first offence:

(b) not less than three months and not exceeding six months for the second offence:

and for the third or any subsequent offence his license or permit or both, as the case may be, shall be cancelled and he shall be declared by such Police Magistrate or Justice of the Peace to be disqualified from holding a license or permit for a period of not less than one year and not exceeding two years.

Any by-law passed by any municipal corporation or board of police commissioners or police trustees for regulating traffic on the highways which are inconsistent with the provisions of this Act, shall be deemed to be repealed and hereafter all by-laws regulating traffic on highways shall be submitted to the Department for approval and shall not become operative until the Department shall have approved of same.

A summons issued for a violation of any of the provisions of this Act shall be served within 10 days of the alleged offence, provided, however, that the time for serving such summons may be extended by the presiding Magistrate on sufficient evidence being adduced to show that the person summoned could not be served within the time specified.

No action shall be brought against a person for the recovery of damages occasioned by a motor vehicle after the expiration of six months from the time when the damages were sustained.

**Production of License**

A person convicted of an offence under this Act if he holds a chauffeur's license shall forthwith produce the license for the purpose of endorsement, and if he does not hold a chauffeur's license, the owner of the vehicle with, os in, which the offence was committed shall forthwith produce his permit for the purpose of endorsement.

Where a penalty is provided in the Act for a first, second, third or subsequent offence, the words "first" "second" or "subsequent" shall relate only to offences committed in the same calendar year; but this shall not apply to offences of persons driving a motor car while in an intoxicated condition.

## Help Kidneys By Drinking More Water

### Take Salts To Flush Kidneys and Help Neutralize Irritating Acids

Kidneys and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

### The Angler's Preyer

Lord, suffer me to catch a fish
So large that even I,
When talking of it afterwards,
May have no need to lie.

### Wretch

Mr.—(after quarrel over the usual thing)—Of course you wouldn't care to come to the theatre in that gown you've been complaining about?

Mrs.—Oh, you dear! So you've bought me a new one?

Mr.—No. I just bought one ticket for myself.

## That Body of Yours

By James W. Barton, M.D.

### "RUN DOWN"

I often wonder just what the words "run down" mean when applied to the human body.

You enquire about a certain person's illness and are told that there is really nothing the matter, he is just simply a bit "run down". Now why is he "run down"?

If your motor car is not working well you say that some carbon is on the valves or pistons, that perhaps the gas is of poor quality, or has some dirt in it. It may possibly be due to lack of water, or to the oil being too heavy.

You expect a certain standard of efficiency from it, and if you are not getting it, you know there must be a reason.

Accordingly, you have learned so much about your car that you can often go directly to the root of the trouble and correct it, with the result that you get full efficiency from it.

But what about that body of yours?

You go about from day to day with no real delight in life. You don't feel like eating, working, or even playing. You feel miserable. Did it ever occur to you that just as in the case of the car, there must be some reason for that body of yours not functioning right, not feeling real good?

Did you ever stop to think that with a little care and thought, you might be able to locate the trouble just as you do with your car?

How?

Just think back a bit, and try to remember how you've been treating your body.

Have you been eating the right kind of food, the right amount? Have you been overeating or undereating?

Are you making your body work at all?

It was meant for work, your legs meant for walking, your back and chest muscles for lifting, your abdominal and lower back muscles for bending. Have you been making them work?

Does your skin, lungs, intestines, and kidneys carry off your wastes?

Do you get enough sleep?

Does your mind get a chance to see and do new things?

Are you using your eyes too much?

You could ask yourself a hundred questions, couldn't you?

I wonder if you could answer them as well as you could the questions about your car.

---

Bernard Baruch, the noted financier, said at a luncheon in Washington.

"Germany's declaration that she is too poor to pay her war reparations is—well, it's a little naive. It reminds me of the drafted man.

"A drafted man told the army doctor that he couldn't serve.

"'Why not?' the army doctor inquired.

"'Short-sighted,' said the drafted man.

"Prove it,' said the doctor, 'Show me.'

"'Well, do you see that nail up there in the ceiling, doc?' said the drafted man.

"'Yes, said the doctor.

"'I don't,' said the drafted man."

## MOVIES ARE LURE TO "MISSING" GIRLS

Los Angeles, Jan. 3. (United Press).—The lure of the movies is given by the National Association of Travelers' Aid Societies as the reason for more than twice as many women and girls dropping out of sight in Los Angeles than in any other large city in the country in proportion to population in the annual compilation of statistics.

In Los Angeles alone, according to their figures, 1,120 women, mostly under the age of 21, were reported missing in 1922. All but 900, however, had been located, either dead or alive, up to Dec. 31.

Reports from thirty-seven other cities give a total of 31,638 men, women and children who disappeared, of whom 2,500 were never found.

Among individual reports of cities, the statement said, police reports show that 2,446 girls and women were reported missing during the year in New York; 1,549 in Chicago; Philadelphia, 1,006; St. Louis, 798; San Francisco, 471, and Detroit, 311. About 92 per cent. of the missing were finally located.

### BROCKVILLE INTERMEDIATES FAST

Brockville, Jan. 3.—The practices of the O.H.A. intermediate and junior teams held yesterday proved most gratifying to all having the interests of the local teams at heart. The intermediates are showing good form. The intermediates showed much speed in the opening workouts of the season. The squad will practice again between 7 and 8 o'clock this evening. On Friday night they have their first game of the season, against Cornwall in the factory town.

## INVENTS DREDGE TO SEEK SEA TREASURE

Los Angeles, Dec. 31 (United Press).—The refusal of the seven seas to surrender ships that have been battered to pieces in the shallow depths may be defeated if the plans of John A. De Vito of Los Angeles materialize

De Vito has invented a device, which is really nothing except a gigantic dredge, which he states will restore 85 per cent of the now sunken ships to the service.

"The law of the sea is that to the finder goes the spoils," he asserts. "The total value of the treasures in sunken ships will never be known, but a fortune of $6,500,000,000 is known to have gone down in only eighteen of the many thousand boats that have been lost in the past century."

## Music & Drama

### NOVEL PICTURE IS "CHILDREN OF JAZZ"

The manners, dress and customs of the folk of the 1850's, are admirably shown in "Childrens of Jazz" a new Paramount picture, based on Harold Brighouse's play, "Other Times", which will be on view at Griffin's Theatre for three days beginning to-night, with the usual matinee Saturday at 2-30.

Theodore Kosloff, Ricardo Cortez, Robert Cain and Eileen Percy, all well-known players, are featured.

Richard Forestall, an adventurer, is the son of a queer man living on an island with a score or more of dependents, all of whom seemingly belong to the era of the fifties. Their dress, manners and social customs are so radically different from those of to-day, as to render them racially distinct. It is these folk in the story that makes "Children of Jazz" as different from the ordinary photoplay as day is from night.

It happens that Richard Forestall loves Babe Weston, daughter of a man of wealth. She is a modern jazz girl and when she engages herself to three men, Forestall renounces her in despair. She comes to the island with her jazz-loving friends in a hydroplane which is all but wrecked in a storm, and then things begin to happen. Thrill after thrill ensues until the climax, which is one of the most novel ever pictured.

The picture was directed by Jerome Storm, who directed Charles Ray's most famous pictures. The adaption was made by Beulah Marie Dix. The supporting cast is exceptionally artistic.

A funny Hamilton comedy titled "F.O.B.", the British News Film, "Gaumont Graphic" and Ruth Roland in a thrilling chapter of Pathe's popular continued play "The Timber Queen", have been arranged for exhibition on the same program with the above feature offering.

### PAYS PENALTY ON GALLOWS, BUT STILL LIVES

The mysterious properties of adrenalin, the strange chemical that has brought the dead to life again, form the central factor of the action of "Legally Dead", astounding Universal picture play now at the Regent Theatre.

It depicts the use of the miraculous drug in detail, using this latest discovery of science as the basis for its plot. Milton Sills, noted photoplay actor, is seen as a newspaperman who, through circumstantial evidence, is hanged. His body, claimed by a scientist, is then restored to life by the use of the strange chemical. The result is that he finds himself "legally dead," but still alive.

The actual operation of using adrenalin and the pulmotor to bring back the spark of existence is shown in detail. The delicate electrical apparatus by which the faintest heart beat is registered, the various appliances used in the battle Science wages to drive back death, are all parts of a dramatic and gripping scene.

Every point in the operation scene was directed and checked by scientists. George C. Frolich, of Boston, nationally-known chemist, and the man who sold the first ounce of adrenalin in America, Dr. Rose Moore, physician and criminologist, and others equally well known assisted Willian Parke, the director, in preparing these scenes.

Two good comedies and Pathe News are announced for exhibition on the same program.

### SIR HARRY LAUDER AND HIS ALL-STAR VAUDEVILLE COMPANY HERE TUESDAY

Sir Harry Lauder, the internationally-famous singing comedian, who comes back to America with a new record of successes abroad, will appear at Griffin's next Tuesday night, January 8th, for one night only.

Sir Harry is undoubtedly the world's most unique stage figure. Hitherto his popularity has been based more on the light heart than the serious mind. People have looked to Harry Lauder to lighten the burden of life for an hour or two and to send them away from the theatre with merry melodies ringing in their ears. Without stint he has ministered, and continues to minister, to this very great need in human life. The rich, resonant voice, the inimitable laugh, the grotesque movements, the simple, unrestrained human fun, makes such a quaint and rare combination as to give Lauder a place which he holds without challenge.

There is, however, another side to the Scottish comedian, Lauder's contact with the realities of war put a new note into his work—a heart note, which, however, does not interfere in any way with the persistency of his droll humor.

Coincident with his return to America, Lauder is offering a quota of new songs—the kind which first established him in the hearts of his admirers—and in this kind of comic descriptive song he is without a peer. Lauder's engagement will be a great occasion for those who enjoy droll song characterizations, with a bit of heart interest thrown in for good measure.

As in other years, the comedian will be assisted in the performance by a number of internationally-famous entertainers, including Gaudsmith Brothers, famous Londo Hippodromo clowns, Olga Morselli, violinist virtuoso, first prize winner Paris National conservatoire, Edna Maude, in "The Spirit of the Dance", Gintaro, Oriental top spinner, and Marion Vallance, the famous Australian nightingale, and the famous Lauder orchestra, the greatest on tour under the able direction of Frederick Quintelle. The seat sale opens at Griffin's to-morrow morning at 930 a.m.

---

"Most women have a great deal of curiosity," said the husband.

"I haven't a bit," replied the wife.

[illegible]

## PRUNE TREES AND LET SUNSHINE IN

### Pruning Will Provide Well Balanced Fruit Trees

It is generally conceded by both scientific investigators and commercial growers that fruit trees should be pruned during the first two or three years of their life. This pruning is designed to produce heavy crops as the tree grows older. Experiments have shown that as a rule, unpruned trees come into bearing earlier than those which are pruned. Failure to prune trees when they are small, however, commonly results in serious trouble in later years. Such trees frequently develop too many main branches, bad crotches are formed, and the percentage of breakage is heavy.

When the tree has passed the formative period the necessity for pruning is not quite obvious but most authorities are agreed that even after the tree reaches the bearing age it is still advisable to pay it an annual visit with the pruning shears. The object of this is to remove all interfering branches and to open out the tree so that the sunlight can penetrate to each fruit spur. The labour thus expended is fully paid for by the improvement in the grade of fruit produced.

The dormant season is the logical time for pruning, although when the wood is frozen the work may not be very agreeable to the grower. Where young trees or stone fruits are concerned it is probably advisable to delay the pruning until late winter or early spring, but bearing apple trees can be pruned in zero weather without apparent injury. Pruning is the one major orchard operation which can be performed to advantage during the winter months. At this time there are no leaves to interfere with the vision of the pruner and consequently he is better able to judge which branches should be removed. Furthermore, it is only during the winter that the grower has the time to give to this work.

Consistent and systematic annual pruning aid in producng more extra fancy fruit.

### Oh, Quite!

Miss Fluff Fighty was making a great fuss. She was playing lead in that successful revue, "Toodle-oo!" and while she was on the stage, during the second scene someone had entered her dressing-room and stolen her diamond tiara. At ager. At last the latter gentleman manager. At last the later gentleman managed to calm down his excited "star."

"Where did you keep this piece of jewellery?" he asked, when her loud bursts of hysterical weeping had somewhat subsided.

"In the box with the rest of my jewellery?" was the reply.

"What's it worth?" asked the manager rather coldly. He had seen some of her other jewellery.

"Oh," was the enthusiastic reply, "at least a column and a half!"

Toronto Montreal Winnipeg

The nurse, the doctor, the judge—all agree

HEALTH authorities throughout Canada unanimously recommend rubbers and overshoes for fall and winter foot protection.

School nurses everywhere urge the children to wear their rubbers to and from school, and for out-door play.

In a Montreal court it was held that a person who had slipped on the ice and sued for damages, had not taken reasonable precaution because rubbers were not worn.

Active, scuffling, heedless little feet of boys and girls give rubber footwear its hardest test. All DOMINION brand rubber footwear is made with the wear quality and durability to withstand the hardest kind of wear and tear—to protect the feet and health of children and grownups.

Because of their splendid wearing quality DOMINION brand rubbers are the most economical to buy.

Wear Dominion Rubbers

They are not Dominion Brand unless they carry this trade-mark

## Eight Hour Law Is

(Continued from page one)

struction, the steel industry and transportation. Coal mining is making a desperate effort to stabilize itself.

The building industry, on the other hand, has made marked progress, especially in Pennsylvania. As a seasonal industry, dependent upon weather condition, building was one of the few large industries with labor turnover the invariable rule. Now, it appears, contractors are going ahead with inside work and are retaining their most competent men, principally because they do not want other contractors to get them when operations are resumed in the Spring.

There is more building work going on in Pennsylvania today than ever has been known in the previous history of the commonwealth.

The eight-hour day in the steel industry, according to reliable reports, has attracted the better type of men, with the result that more are retained in employment and there is less turnover. The men acquire proficiency and their services are cultivated by the management. This condition prevails in spite of dull activity in iron and steel.

The transportation companies, especially the Pennsylvania Railroad, in their recent layoff revealed a decided labor policy. It was regarded as a definite move toward stabilization. The strategy of the Pennsylvania system was said to be to effect closer co-operation between men and management. Many of those who were laid off will never return, while some will come back to find a totally different attitude on the part of the management.

Coal mining, the industry for which Pennsylvania is noted, is less static than any other, but a desperate effort is being made on the part of operators and the mine leaders to obtain more even and steady production as a matter of self-preservation.

### FISH HATCHERIES.

#### Annual Report Recites Their Beneficial Results.

Much evidence of the beneficial results of fish hatcheries is recited in the annual report of the Dominion Superintendent of Fish Culture.

"From a state approaching depletion," says the report, "the whitefish fishery in Lake Winnipeg was brought back to a point where it compares favorably with what it was in the earliest days, and in one recent year the catch of whitefish, per net operated, was higher than it ever was in the history of the lake.

"Thirty-five years ago the whitefish fishery of Lake Erie was regarded as a thing of the past, but with intensive fish cultural operations on both sides of the line it has been brought back to a most remunerative condition."

The president of the Lambton Fisheries Association is quoted as to the beneficial effect on the Point Edward hatchery on whitefish in Lake Huron. Prior to the establishment of that hatchery the president of the Lambton Association had depended "wholly on pickerel and sturgeon to meet expenses"; but after its construction "whitefish reappeared and increased yearly until now he depends on them and not on pickerel and sturgeon for his season's profits."

"The Lake Ontario whitefish fishery was practically gone twenty-five years ago," the report goes on, "but it is now in an excellent condition, as is indicated by the catch. The department undertook to stock the lake at first with fry from the whitefish hatchery that was then at Sandwich. The results soon manifested themselves, and the fishery became so built up that in 1916 it was found feasible to establish on the Bay of Quinte one of the largest whitefish hatcheries in the province.

"When the collection of such eggs were first undertaken the department was satisfied with a take of thirty million; this collection has steadily increased in each of several successive years. New records have been established, and the collection of eggs was better than in preceding seasons. The collection in 1922 was over two hundred and eight million, and we are now able to ship large quantities of eggs from the Bay of Quinte to other less productive waters.

"Lake Ontario is now a close second as a whitefish producer to Lake Erie. The catch in Lake Ontario in 1921, the last year for which figures are yet available, was 31,885 hundredweights as compared with only 1,266 hundredweights in 1895. This improvement has been brought about notwithstanding the fact that there has been no close season in the Great Lakes for years."

---

The laziest women on earth must be those of Asir, the almost unknown country beyond the Red Sea. Mrs. Rosita Forbes has just returned from visiting them, says the Yorkshire Post.

"The women are in an extremely primitive state," she said," and never come out of the house except to be married or to be buried. When I asked them how they amused themselves, they replied, "We don't. For us there is no work."

"I said I quite understand, but would like to know what they did when they were tired of eating and drinking. One pretty girl looked up and said said brightly, "We sit.'"

Mrs. Forbes describes a narrow escapes from death while visiting a harem.

"I was a guest at Yemen harem," she says, "where all the women bathe together in one room. I accepted the offer of a bath, and while chatting, mentioned the word Christian. One woman said fiercely that if a Christian woman came there they would kill her. They took me, fortunately, for a Moslem, as I was disguised.

"It was only when we reached the bathroom that I recalled, to my horror, that the rest of my body was not stained dark brown, like my face and arms! Fortunately I made the excuse that I had forgotten my favorite soap, and thus escaped exposure."

# NAME 'METHODIST' TO VANISH SOON

## Past Year Was Period of Research, Centenaries and Feasts

Now that the Methodist name is about to vanish from Canada under Church Union, the erstwhile adherents to the Wesleyan system are disciples of the Wesleyan system are discovering their own history. Some discoveries were quite unanticipated. One of the events of the past year was the 150th anniversary of the church at Liverpool, Nova Scotia. Research has revealed that in 1793 the Methodists there paid their workmen partially in rum.

Queen Square church, St. John, N.B., made a celebration during the year because of its 132nd anniversary without uncovering an alcoholic scandal. Slightly more infantile are the years of the Hay Bay church in Ontario, built 130 years ago and in use today only for the annual observance of its origin.

**Four Centuries**

The year that has just gone, possibly the last of the Methodist regime, has witnessed three centenaries in Ontario and one in Quebec, according to information received at church offices in Toronto. Odelltown, in the Eastern Townships, recalled the erection in 1823 of a Methodist Church which received its baptism of fire as a fort in a battle of the Papineau Rebellion.

**Eloquence and Feasting**

What feastings were interlarded with recitals of historical records! Chickens and pumpkin pie vanished as clerical orators told how West Oxford gave birth to Ingersoll and Woodstock Methodism. At Hastings, Ontario, on the 60th anniversary of the first brick church, the diners had to adjourn to the town hall to find room for sufficient tables.

Family reunions colored many such events. Descendants of the Way and Hart families who brought Methodist ideals into Brock township, Ontario country, ninety years ago, gathered into the Wilfrid Church Anniversary. Uxbridge town traced its Methodism past the 70 years of its own organized church to the class meetings held in the homes of the Beasingthwaite settlement.

**In Barn and Depot**

Boasts of humble beginnings were made by Grace Church, St. Thomas, first assembled in a railway station; by First Church, Hamilton, harking back to services in Richard Springer's barn in Yorktown; by Grace Church, Port Dover, which was at first too poor to finish the church it had started and was rescued through a Presbyterian offer of co-operation, and by Central Church, Calgary, which began in a store in 1874.

**Splendid Archives**

Thorold has a church which from the earliest days has its records of growth. In 1832 the Trustees bought an acre of land from one George Keefer for five shillings and built the first frame church. Lord Metcalfe's gift of £10 in 1845 to the building of the present stone church is recorded with thanks to His Excellency, the Governor-General. In 1851 the Presbyterians worshipped there. In 1855 a melodeon was purchased and four years later, the furnace. Among the pastors were Drs. Egerton Ryerson, Lachlan Taylor, Edmund Sheppard, S. P. Rose, John Potts, Alexander Sutherland and E. Ryerson Young. In 1923 twenty memorial windows were installed.

**Professor Searches**

Bowmanville, a Methodist stronghold, does not know when or where its Methodism began. In 1902 an old townsman said that it was in 1829 in a building on the site of a certain hotel. It is history that Egerton Ryerson opened a Wesleyan chapel there in August 25,1839. Prof. John Squair of the University of Toronto has investigated but can not verify the location of either of the buildings. In 1848 Dr. Ryerson was back for the opening of another church. Lightning damaged the new building just before service, but Ryerson preached as if nothing had happened. And still there is no record of the site!

**Rural Tragedy**

On the third line East of Chinguacousy township, Peel County, stands silent the Mount Olivet Church, noted for the devotion of Squire Crawford, but his generosity failed to perpetuate its services and last year at the final closing an attempt was made to work up its story. Rural depopulation is no negligible thing in Ontario. Every county has an abandoned Bethel or Ebenezer or Sion or Salems, as the evangelists of old loved to name their rude sanctuaries.

Nearly a century ago the settlers from County Monaghan began to worship in the little Mount Olivet clearing. Some survive who remember the snuffing of the candles three-quarters of a century ago, but now the circuit is "reorganized", the appointment eliminated, and Methodism itself will soon be nameless forever.

**Forgotten Struggles**

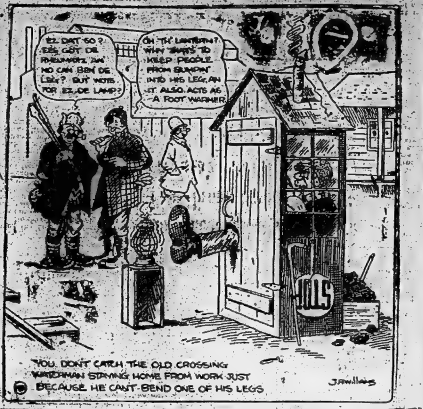
Characteristic bits of the social and industrial life of the pioneers of the mother province have been rescued by Col. W. L. Smith, Prof. Watson Kirkconnell, M.A., has included the religious and church life in his account of pioneer life in Victoria County, but who still similarly redeem the fading record of early religious triumphs and struggles of the pioneers of all denominations throughout Ontario?

---

**The Supreme Optimist**

He—I know Janie has been engaged to Jim for fifteen years, but why does this make her the greatest optimist in the world?

She—Well, he's 40 now and earning $30 a week, and she swears she'll never marry a man unless he's making $20,000 a year.



EZ, DAT SO? EES GOT DE RHEUMATIZ AN' NO CAN BEN' DE LEG? BUT WOT'S FOR EZ DE LAMP?
OH TH' LANTERN? WHY THAT'S TO KEEP PEOPLE FROM BUMPIN' INTO HIS LEG AN' IT ALSO ACTS AS A FOOT WARMER

# VILLAGE GOSSIP AFTER MURDER FORCES ARRESTS —STAND TRIAL

### CHAPTER 1

Mound City, Kans., Jan. 3 (United Press).—Village scandal, gossip, circumstantial evidence and suspicion are interwoven in the accusations of murdering Elenore Scott for which her husband, John Ellison Scott, and her niece, Arlene Scott, must stand trial during the February term of court.

It will be the second time Scott's fate has rested in a jury's hands for the same crime. The first jury disagreed. However, since that time, sensational gossip which spread throughout Linn County following the slaying of Mrs. Scott last June 19 has been brought to light by the arrest of Arlene, an attractive 19-year-old school teacher, on joint charges of murder with John Scott.

Seldom has a murder aroused such bitterness in a country community as the slaying of "Ella" Scott.

**All Are Wealthy**

All of the principals in the strange case are descendants of early settlers of Linn County. They are members of the leading and wealthy farmer families. When the murdered woman, then Ella Holt, married John Scott in 1911, the match was considered an attractive one, as it united two influential families Scott was given sufficient money by his parents to start a merchandising business in LaCygne. In 1919, Arlene Scott, a daughter of Mrs. Scott's favorite sister came to LaCygne to make her home with her aunt and attend high school. At that time Arlene was 15. She lived with Mrs. Scott during the school year. Although of the same name, she was of no blood relationship to John Scott

Last May, when Arlene had completed her high school term, she left LaCygne and went to Pittsburg, Kans. to attend normal school. A month later Mrs. Scott was shot to death. She and her husband had just returned to their home from attending a "tent" show which was appearing in the little village. It was shortly before midnight A few minutes before they had left a group of friends at an ice cream parlor, and apparently were happy.

**No Revolver Found**

Two shots rang out. Scott rushed down the street for two blocks crying for help. A doctor hurried to the house and found Mrs. Scott lying on the floor. She died within a few minutes without regaining consciousness or speaking. Two chests were lying on the floor with silverware strewn about as though robbers had been at work. Two empty cartridges were found, although no revolver was ever discovered.

A superficial investigation resulted in the supposition that the murder had been committed by robbers, caught at work when Mrs. Scott returned home. However, gossip connecting Scott's name with Arlene in an intimate friendship, which it was contended had caused friction in the Scott home, would not down.

Trade at Scott's store fell off. He was finally forced to sell at a sacrifice about a month after the murder.

The Holt family, of which the murdered woman was a member, was not satisfied with the results of the investigation. Every move made by Scott was closely watched. A fund of $1,200 was raised by friends of the family to carry on a more thorough investigation. When Scott went to Pittsburg, Kans., on July 18, just a month after the murder, he was shadowed.

**Jury Disagreed**

On reaching the town he phoned Arlene, met her and they went to a hotel and registered as man and wife. They spent an afternoon in the hotel room. A few days later Scott was arrested on a charge of murder. The jury at his first trial was unable to agree. Friends of Mrs. Scott then called on Charles B. Griffith, attorney general for Kansas, and asked him to take charge of the prosecution.

After a few days investigation, the attorney general ordered the arrest of Arlene Scott. She was taken into custody by Sheriff A. J. Ellington. He placed her under arrest as she stood before her little country school class explaining with diagrams on a blackboard the meaning of a "triangle."

(END CHAPTER 1.)

# CANAL COMPETITION HURTING RAILROADS OF THE NORTHWEST

Portland, Ore., Jan. 3.—Unless transcontinental railroads serving the Northwest are given so-called "fourth section" relief to permit them to meet the intercoastal water competition, or unless some unforeseen circumstances arise whereby greater railroad traffic is developed, a curtailment in activities of roads in the territory will come in the near future, according to traffic men who have been reviewing the situation developing in railroad transportation.

Because of water competition, railroads of the Northwest are probably the hardest hit in the entire country.

One railroad official complained that during the first eight months of this year Northwestern railroads would not have earned more than 1 per cent. on their valuation without the support of branch lines or main lines in other territories.

Eighty per cent. of the westbound transcontinental business has been diverted from rail lines to intercoastal steamship lines, he pointed out.

Prior to the opening of the Panama Canal, approximately 25 per cent. of equipment moved west for east-bound loading. However, at the present time it is running 65 to 70 per cent.

All-rail lumber business has been fairly good until the last sixty days, but within that time it has dropped off approximately 50 per cent., according to authorities of one leading road.

Fourth section relief, in effect for thirty years prior to the taking over of the railroads by the Government during the war, would permit the making of a lesser rate terminal points than to intermediate territories, and enable transportation lines to obtain a larger amount of westbound traffic for competition with the steamship lines, according to the contention of the railroads.

They also argue that intercoastal and coastwise vessels should be placed under the jurisdiction of the Interstate Commerce Commission, as they have an advantage in the matter of rates, unrestricted as they are at present.

The railroad chiefs also point out that there is a vast amount of territory in the Northwest awaiting development with the expansion of railroads. Expansion, however, is beyond consideration when the roads are not prosperous.

While development of steamship transportation has been the primary cause of the railroads' present distress, auto transportation has been a factor in cutting down profits of branch lines.

**Rub Rheumatism Pain From Sore, Aching Joints**

What is rheumatism? Pain only. St. Jacobs Oil will stop any pain so quit drugging.

Not one case in fifty requires internal treatment. Rub soothing, penetrating St. Jacobs Oil directly upon the tender spot and relief comes instantly. St. Jacobs Oil is a harmless rheumatism and sciatica liniment, which never disappoints and cannot burn the skin.

Limber up! Quit complaining! Get a small trial bottle from your druggist and in just a moment you'll be free from rheumatic and sciatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. Old, honest St. Jacobs Oil has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

# Romances of Married Life

The centenary of the birth of a Victorian poet who immortalized his wife in the most widely read poem of its time, "The Angel in the House," occurred on July 23rd.

Love had been the theme of poetry from time immemorial, but it had not always been the love of husband and wife. In fact, until Coventry Patmore set himself to write a great poem on married lovers, the romance of matrimony, no poet of much importance in the world had ever taken that for his theme.

Coventry Patmore was always annoyed when people identified Honoria Churchill and Felix Vaughan, the fictitious characters of the poem, with Emily Augusta Andrews and himself, for Honoria was the daughter of a dean and lived in a deanery in a cathedral city, whilst Emily Andrews, who became Emily Patmore, was the daughter of a Congregational minister and lived at Wandsworth.

That seemed sufficient. Yet the poem has the following inscription: "This poem is inscribed to the memory of her by whom and for whom I became a poet," and it is quite certain that one of the most idyllic marriages a poet ever made was the true source of "The Angel in the House."

By common consent Patmore's Emily was an "angel," both "in the house" and out of it. Millais, then a young man, but destined to become president of the Royal Academy, painted her portrait. Thomas Woolner, the finest sculptor of his day, made a medallion of her lovely head, and Robert Browning wrote a poem about her, and, best of all, her husband, out of the experience of her daily love and service, wrote a poem which became a "best seller," running into a quarter of a million copies.

Tennyson, who had his own taste in feminine charm, was captivated by Patmore's wife, and Ruskin and Carlyle were among her outspoken admirers. She died after fifteen perfect years of married life.

The Pre-Raphaelite room at the Tate Gallery is dotted all over with the face and features of Elizabeth Eleanor Siddall, who, being exceedingly beautiful, was constantly painted and drawn by Dante Gabriel Rossetti, who eventually married her. She was a favorite model of many other painters, and it is she who is floating down the stream among scattered flowers in Millais' famous picture "Ophelia."

She enjoyed only two years of married life, and the poet-painter was so inconsolable at her loss that he had all his manuscript poems, which he said she had inspired, buried in her grave, and it was not for many years, and then at the continued solicitation of his friends, that he would consent to their recovery.

Burns has immortalized Jean Armour, his wife, in several of his wonderful songs, and chiefly the most natural and beautiful of all his love lyrics, written, not before, but after marriage:—

Of a' the airts the wind can blaw
I dearly like the west,
For there the bonnie lassie lives,
The lassie I lo'e best.

It was at a time when he was temporarily at a distance from his wife, and the west wind came from her to him. She had, too, a good singing voice, and thus Burns says:—

There's not a bonnie bird that sings
But minds me o' my Jean.

Milton also immortalized his second wife, who appears to have won all his love. Their married life lasted only a year. To Katherine Woodcock the great sonnet was written which resembles the famous one of Petrarch to his dead Laura.

Methought I saw my late espoused
saint
Brought to me like Alcestis from the
grave.

It was probably this great sonnet of dreaming of the return of a dead wife which Millais had in mind when he painted his great picture "Speak"

# RITCHIE'S ALTERATION SALE

## Tremendous Savings in Staples--Buy Now During this Sale!

**TOWELLING**

Pure Linen Roller Towelling, suitable for hand or dish Towels, comes in plain and fancy border, full 17 inches wide, a wonderful quality. Alteration Sale Special 25c. yard.

**TOWELS**

Huckaback Towels, fully bleached, extra quality, size 31 x 17 inches. Hemstitched. Alteration Sale Special 29c. each.

**Linen Huck Towels**

Pure Linen, full bleached Huckaback Towels, neatly hemmed, size 18 x 31 inches. Alteration Sale Extra Special 75c. pair.

**Colored Bath Towels**

Heavy quality colored Bath Towels in natural shade with red and blue stripes, size 20 x 40 inches. Alteration Sale Special 37½c. Each.

**Colored Towels**

Colored Bath Towels, an extra heavy quality Turkish Crash Towelling, size 20 x 40, finished with fringed ends in natural shade with red or blue stripe. Alteration Sale Special 80c. each.

**Colored Towels**

Extra large size Bath Towels in Heavy Turkish Crash quality with fringed ends, in natural shade with fancy colored striped, 46 x 24 inches, an exrta large Towel Alteration Sale Special 75c. each.

**BED COMFORTERS at 20% DISCOUNT**

Our complete stock of Bed Comforters, English down and cotton filled qualities, Satin, Silk and Figured Chintz covered, all clearing at 20% DISCOUNT.

**FLANNELETTE at 19c yd.**

English quality Flannelette, lovely soft quality, free from dressing, 27 inches wide in Plain White and striped patterns, in dark and light shades, very special for Alteration Sale 19c. yard.

**Madapolam**

Fine quality English Madapolam, makes lovely lingerie, full 35 inches wide, free from dressing. Alteration Sale Special 30c. yard.

An opportunity for the early Spring Sewing. A very special value. Dozens of patterns and shades in checks, plaids and plain shades 27 to 32 inches wide. Regular 35c. to 50c. yd. Very special 25c. yard.

## 6TH LINE SIDNEY

Mr. Earl Dafoe, Trenton, is spending a few weeks with his brother, Mr. Lloyd Dafoe, who had the misfortune to break his wrist.

Harry and Wilbur Scott spent Sunday with their Uncle and Aunt, Mr. and Mrs. Hilton Shorey, of the 4th Con.

Rev. W. E. Honey spent the tea hour on Sunday at Mr. J. A. Lotts.

Miss Ida Scott has returned to Toronto after spending the Christmas holidays with her parents.

Mr. and Mrs. W. L. Moon, Mr. and Mrs. Lloyd Dafoe spent New Year's in Murray, guests of Mr. and Mrs. Roy Ross.

Mrs. Horace Yateman, of Thurlow, spent over Sunday with her parents, Mr. and Mrs. Geo. Bell.

## AMELIASBURG

Mr. and Mrs. Claude Wannamaker and family spent Christmas at Consecon with the latter's parents, Mr. and Mrs. C. Fox.

Mr. and Mrs. Percy Caturike, of Burrs, visited his parents, Mr. and Mrs. C. L. Caturike on Sunday.

Mr. and Mrs. John L. Parliament, of Oshawa, spent Christmas with his sister, Mrs. Chas. Ferguson.

Mr. and Mrs. James Morton, of Melville, were guests of Mr. and Mrs. Milton Wood, on Sunday.

Mr. and Mrs. Ed. Wannamaker, of Trenton, and Mr. and Mrs. Egerton Wannamaker were entertained at the home of Mr. John Wannamaker, for Christmas.

Mr. and Mrs. Chas. Sager and Mr. and Mrs. Thos. Price were at Wellington with Mr. and Mrs. Herman Murphy for Christmas.

Mr. and Mrs. Everett Wood, of Mountain View, were guests of his grandparents, Mr. and Mrs. John Gibson on Sunday.

Mr. and Mrs. Burton Fox and Mr. Thos. Wood, of Wellington, spent Thursday at Mr. Milton Wood's.

Mr. and Mrs. Walter Cunningham were guests of Mr. and Mrs. Morley Dempsey on Thursday.

Mr. and Mrs. Neville Gooding and Madge spent Christmas with Mr. and Mrs. J. H. Parliament at Wellington.

Mr. Ray Ferguson spent a recent Sunday with friends at Big Island.

Mr. and Mrs. Chas. Sager and Mr. and Mrs. Thos. Price spent Friday at the home of Mr. John Wannamaker.

## THIRD LINE THURLOW

Mr. and Mrs. J. E. Cooley are visiting their daughter, Mrs. (Dr.) Tagalog, of New York City.

Mr. Fred Weaver spent the Xmas holidays at the home of Mr. E. W. Brown.

Mr. and Mrs. P. Casey are visiting relatives in Chicago.

Miss Margaret Brown, New York City, and Mrs. Wm. Brown, of Belleville, spent Xmas with Mr. E. W. Brown.

Mr. and Mrs. J. Snare, Rawdon, and Mrs. Myrtle Cox, of Toronto, spent Xmas at the home of Mr. Geo. Hamilton.

The Xmas Tree at Bethany given on Christmas Eve was a great success. The cantata "Christmas Ahoy" was played splendidly by the young people of the community.

Miss Viola Handley, of Belleville, was a week-end visitor at Mr. E. W. Brown's.

---

**Dangerous Sense of Humor**

"Lost your job as a caddy?" said one boy.

"Yep," replied the other. "I could do the work all right, but I couldn't learn not to laugh.

# DRIFT TOWARD REVOLT IN BRITAIN, WARNING SOUNDED BY LABORITE

### Frank Hodges, Prominent Figure in Trades' Union Circles Declares Disaster May Result if King George Seeks to Aid Old Parties to Cripple Power of Labor—No Working Agreement Evolved

(United Press Despatch)

London, Jan. 4.—A drift toward revolution in Britain if King George links hands with old parties to stem power of Labor is predicted by Frank Hodges, Labor leader and important in trades union organization here.

London, Jan. 3.—Lord Hunsdon's attempt to arrange a working agreement between the Conservatives and Liberals to prevent Labor from forming a Government is now regarded as a dead issue, having failed to gain Premier Baldwin's support. It is understood that the Prime Minister replied to Lord Hunsdon, who, as president of the City of London Unionist Association, addressed a letter to Mr. Baldwin urging a serious effort against Labor governmental control, that Mr. Asquith's attitude prevented the suggestion from being usefully considered.

Many of the Ministers are still out of town, but the Premier gathered all his available colleagues in Council at Downing Street to-day and had a long discussion on the framing of the Speech from the Throne for the re-opening of Parliament and other matters of policy. There will, however, be another Cabinet Council for final decisions.

## SEEK BODIES IN RUINS OF PLANT

### Hundreds of Men Strive Frantically to Penetrate Debris

Pekin, Ills, Jan. 4.—Mammoth cranes and hundreds of men with picks, crow bars and shovels hacked and strained to-day at the ice sheathed ruins of the Dry Starch Plant of the Corn Products Company here, in the belief, that the bodies of many of the men reported missing since yesterday's explosion, are buried in the debris.

## STAYS IN CUSTODY THREE MORE DAYS

James Kelly, who was remanded to jail for one week on December 29th last, when he pleaded guilty to a drunkenness charge, re-appeared this morning before Magistrate Masson, and is again a sober and fully recovered citizen. When arrested he was under the influence of "script" alcohol and gin. This morning he was assessed $10 and costs of $9 or ten days, the minimum. Kelly had but $3 so be accepted the option, which dates from the 29th inst. James will consequently be liberated on Monday next, and has a job to go to.

An excellent horseman, and a good worker, the unfortunate man fell prey to his old weakness during the Christmas season, but now declares that he will "lay off" liquor for sure.

"They are using me very well up there, but I know better places to be", commented the unfortunate man, and everyone felt sorry for him, but the O.T.A. is a definite act and like Nature, must take its course.

## COMING EVENTS

Don't forget—Weekly Assembly, Moose Auditorium. Teas-gue dance with prizes, Saturday night. Al. Wilson's Society Serenaders, six pieces. Good time assured. D28-e. f&s.

Don't miss the Belleville Poultry Show, Market Building, Jan. 8-9-10th. Doors open day and night. J2-5td

DANCE
To be held in School House, Point Anne on Tuesday evening, January 8th. Dancing 8.30 to 2.00. Refreshments. Admission $1.00 per couple, extra lady 25cts. First class Orchestra. Everybody welcome. A good time assured. J4-3td

Don't miss coming to the Tabernacle Church, Sunday night, January 6th, when the Rev. Cap. H. B. Kenny will commence a series of sermons. He will be assisted by a male choir of twenty two of Belleville's best male talent. The music will consist of two male choruses. Selection by Quinte male quartette. Baritone solo by Mr. Sanford Burrows and a tenor solo by Dr. A. B. Haffner. The choir will be under the leadership of Mrs. M. P. Duff, assisted by Lieut. Bandmaster Hinchey, conducting the choruses. J4-1td.

COME! COME AND HEAR.
Dr. Sara Detwiler, Dominion Traveller-Aid Superintendent, will address the W. C. T. U. on Jan. 11th in the Y. M. C. A. at 3 o'clock. J4-2td.

A card party will be held at "Willowbank," 211 Pinnacle Street on Monday evening, Jan. 7 at 8 o'clock under auspices of Catholic Women's League. Bridge five hundred and euchre. Admission 50c.

## LIFE INSURANCE MEN ADDRESSED BY MAYOR-ELECT

### W. C. Mikel, K.C., Discloses Interesting Facts concerning Wills and Estates

### CITES OLD LAWS

### Many Restrictions Provided to Safeguard Interests of British Citizens

Interesting facts concerning wills and estates were revealed in an address by Mayor-elect W. C. Mikel, K.C., before the Life Underwriters of Belleville at its regular monthly meeting at the New Queen's Hotel today.

Mr. Mikel informed his audience that Will sof Realty (involving land) date from the statutes enacting during the reign of Henry, the Eighth. It was not however, until Statute 12 of Charles, the Second, was passed in 1650, converting the various tenures of land into fee simple that the power to will lands became general.

By the Statute passed at the first session of the first Parliament of Upper Canada 1792, the law of England to wills was introduced into Upper Canada.

Prior to 1874 there was no special legislation in Ontario as to Wills of personal property.

**Dower.**

In case of real property the dower of a wife cannot be willed away from her without her consent.

Dower consists of one-third of all real estate which the husband owned at any time during marriage and is for the use of the widow for her life only.

A widow is entitled to live in the family home for 40 days after her husband's death and have food and and fuel for that time. After that she must be prepared to move out unless by Will or otherwise she has become entitled to the home.

**General Provision as to Wills.**

All kinds of property may be disposed of by Will.

A will cannot be made by a person under 21 years of age.

The signature of Testator must be made or acknowledged by him in presence of two witnesses who must also sign the will as witness.

A witness or the husband or wife of a witness to a Will cannot take a gift under a Will even though he or she did not know that there was a gift for him or her in the Will. This does not apply to debts. An Executor may be a witness to a Will.

There is a popular belief that a Will should be read before the family of the deceased. This is not at all necessary. If a person believes he is entitled to a benefit under a Will a method is provided by which he may have an opportunity to inspect the Will.

Marriage after a will is made revokes the will with certain exceptions

A will may be revoked by another will or by burning, tearing or destroying with the intention of revocation.

A lost will may be admitted to probate if the contents can be proved.

All wills speak or operate from the moment of death unless the will itself contains a contrary provision.

**Mental Capacity.**

A person must be of sound mind to make a valid will. Mental testamentary capacity has been the subject of a great deal of litigation, but the Courts have laid down the following proposition.

"If a testator is able to understand the nature of the act and its effects, the extent of the property he is disposing of, to comprehend and appreciate the claims to which he should give effect and no insane delusions bring about a disposition of it which if the mind were sound would not have been made, then he is competent to make a will."

Some Judges have laid down the proposition that a greater scope of general capacity is needed where the whole of a man's property is being dealt with (i.e. by a will) than when he deals with a single piece by way of contract or deed.

(Continued on Page 3).

## Campbellford Agog Over Coming Election Contests

### Liveliest Election in Eighteen Years Predicted—Many Close Finishes Expected

Campbellford, Jan. 4 (Special).—Old-timers here predict that the coming election here will be one of the liveliest in Campbellford in the last eighteen years. There were twenty-six nominations for the City Council, out of which twelve nominees qualified. A glance over the list of aspirants will reveal that this old Trent valley town is beginning to wake up.

**Reeveship Fight.**

The real contest will develop in the reeveship race. J. A. Anderson and Charles Davidson are the candidates and a neck-and-neck finish is expected. Considerable interest also being manifested in the mayoralty contest between A. J. Meyers and W. J. Armstrong. Each man is known to have a strong following and the result probably will be in doubt until the last ballot is counted.

Three members of the Board of Education are to be elected from the following list of nominees: J. C. Birmingham, B. W. Douglas, J. A. Hall, and Dr. H. O. Richardson. This fight promises to be exciting for the reason that school administration problems have long been important issues in local politics. Since only three members of the 1923 council have filed for re-election there will be many new faces in the new body.

## POLICE ARREST TWEED RESIDENT AND 6 "GALLONS"

### Arrest Frank Renaud Last Evening—Remand Him For One Week

### BLAMES BOOTLEGGER

### Does Not Know Name of "Wholesaler"—Charge Kept Liquor For Sale

Frank Renaud, 40, left his wife and seven children at his home at Tweed last night when Sergeant of Provincial Police T. Atkins and an O.T.A. operative arrested him and brought him to police headquarters here. Renaud was accompanied by the evidence, one 4 gallon "crock" of liquor and another two-gallon "crock."

Today in police court before Police Magistrate Masson accused was remanded to jail for one week, and an effort will be made to find the man higher up.

Renaud, attired in a vari-colored sweater, leggings and mackinaw, appeared as though he were operating in too close proximity to civilized centres. He is alleged to have been a bootlegger for some time. This he denies, and states that this was his first purchase since he bought a Montreal supply before the prohibition law prohibited its importation. Renaud may be charged with two serious charges. First he will be charged with keeping liquor for sale, to which charge he has pleaded guilty, and he may also be charged with having illegally manufactured liquor for sale, the officers were of the opinion that the liquor was manufactured in the hills of North Hastings, and that it is corn whisky.

**The Supreme Test.**

"I wish first to see this liquor," exclaimed the Bench when accused said the man who sold him the liquor told him he was from Montreal. A quantity of the colorless liquor was spilled on the floor and set afire. It burned with a steady flame and heavy fumes were given off.

"It will make excellent anti-freeze," volunteered Chief Constable Kidd. The liquor is in large brown crocks

(Continued on Page three)

## J.O. HERITY PROPOSES MONUMENT OF HASTINGS COUNTY BOULDERS, ROUGHLY DRESSED—COST $5,000

An entirely new suggestion for a war memorial is contained in the following letter from Mr. J. O. Herity, Industrial Commissioner of Belleville:

Editor, Inteingencer,—

In response to the request you so kindly extended in recent issues of your paper I desire to offer a new suggestion in reference to a memorial to commemorate the deeds of those who defended us during the period of the Great War.

"My suggestion would be for the memorial to take the form of a monument; that monument to be composed of boulders with faces roughly dressed such as are plentifully distributed over Hastings County. The base of the monument or plinth I would have composed of limestone; the upper part, of Hastings County boulders. These could be erected in the form of a solid monumet, four-square, and cemented together by attractive mason work such as is now commonly seen in the pillars and the masonry of modern bungalows. The sides of the monument could rise at a angle of about eighty-five degrees until the lines approached the apex which would be pyramidal in form. The monument should be of impressive height, say thirty or forty feet. Bronze tablets on the sides would be a suitable position for the names of those who sacrificed their lives during the conflict while the base might carry inscriptions commemorative or inspirational in their character.

**One in Ohio**

"I have see a monument of this description at Ashland, Ohio, and the simplicity of its lines and its unique character made it far more effective than the much more pretentious and vastly more expensive memorials to be seen in such cities as Cleveland and Indianapolis. The National Park at Grand Pre, Nova Scotia, also has a monument, in memory of the Acadians, that is composed of native boulders and it also is beautiful in its simplicity.

"It seems to me that we should get away from the conventional lines of the monuments that have been erected up and down the Province of Ontario with the figure of a soldier on a low and unimpressive pedestal.

"If Belleville were to erect a monument of this kind it would be most appropriate on account of the local material of which it was composed.

Continued on page seven.

## LINDSAY SCHOOL MA'AM KILLED AT BRAMPTON

Brampton, Ont., Jan. 4.—A fatal accident occurred on the level crossing of the C.N.R. on Queen street east yesterday afternoon, as the west bound train was coming in, Miss Tena Smoth, of Lindsay, a member of the public school staff for the past year, being struck by the locomotive and killed almost instantly.

## NO FATAL STREET ACCIDENTS IN PORT ARTHUR LAST YEAR

(United Press Despatch)

Port Arthur, Ont., Jan. 4.—No fatal street accidents have occurred in this city during the past year owing to the campaign of carefulness waged by citizens. This is the first time since 1907 that no fatal stree accidents have occurred.

## INSTALL OFFICERS AT WELLINGTON

### Local I.O.O.F. Officials Assist in Ceremonies

Officers of Prince Edward Lodge I.O.O.F. No. 412 at Wellington were installed last night, the installing officer was Bro. G. G. Way, of this city, who is D. D. G. M. for this district. He was assisted by a number of brethren from here as district deputy Grand Lodge officers.

The officers installed were as follows:

P. G.—J. S. Christy.
N. G.—H. A. Jolly.
V. G.—E. B. Wiltse.
Rec. Secy.—E. L. Hubbs.
Fin. Secy.—J. McDonald.
Treas.—W. D. Bedell.
Warden—A. Tait.
Conductor—R. Pyne.
Chaplain—D. S. Ainsworth.
R. S. N. G.—E. Fritz.
L.S.N.G.—P. Archard.
R.S.V.G.—C. Peters.
R.S.S.—A. M. Haight.
L.S.S.—W. Monaghan.
I.G.—G. Ryckman.
O.G.—A. Morrison.

At the conclusion of the lodge business, the visitors were entertained at a banquet. Short addresses were given by a number present, being interspersed with phonograph selections.

### HONOR LAVAL UNIVERSITY

Quebec City, Jan. 4.—The French Academy Prize for faithful service in the cause of the French language is awarded to Laval University Quebec.

## EXECUTIVE SETTLES BASKETBALL TROUBLES

When the executive of the Sunday School Basketball league met last evening at the Y.M.C.A. the protested game between Bridge street Voyageurs and Christ Church team was ordered re-played on January 30th. The Bridge street team used an unregistered player in the disputed game. The postponed game between Holloway Street Church and Bridge Street team will be played on January 11th. Seventy-seven players are registered in this league and the standing to date is as follows.

| Juniors | Won | lost |
|---|---|---|
| John St. Church | 1 | 2 |
| St. Andrews | 2 | 1 |
| Voyaeurs | 3 | 0 |
| Christ Church | 0 | 3 |
| Qui Vives | 1 | 1 |
| **Intermediates** | | |
| Victoria Baptist | 3 | 1 |
| Bridge Street | 3 | 1 |
| St. Andrews | 2 | 2 |
| Holloway | 2 | 0 |
| Christ Church | 1 | 2 |
| Tabernacle | 1 | 2 |
| John St. | 0 | 4 |

### BABY TRAVELS ALONE

New York, Jan. 4.—The youngest unaccompanied trans-Atlantic voyager on record arrived here yesterday abroad the steamer Minnkahta from Hamburg in the person of Master Ferdinand Gluck, aged nine months.

## MILL EMPLOYE IS KILLED AT CAMPBELLFORD

### John G. O'Leary Meets Death in Hydro-Electric Pulp Mill

### STRUCK BY TIMBER

### Other Workmen Find Body —Physician Finds Life Extinct

Campbellford, Jan. 4.—John J. O'Leary, 49 years old, a resident of Campbellford, and an employee at the Hydro-electric pulp mill here, was almost instantly killed at 4.30 yesterday afternoon when struck on the head by a piece of timber while at work in the "rosser house" of the mill.

The bark is stripped from the timber in the "rosser house" and O'Leary was employed at this task when a large piece of timber apparently become dislodged from it proper position and was catapulted against his head.

**No Witness.**

There were no witnesses of the accident and it is believed that life was extinct when other workmen discovered O'Leary's body lying on the floor of the building. Dr. H. B. Longmore, of Campbellford was immediately summoned, but he found the victim beyond medical aid. Coroner Loucks after viewing the body decided that an inquest was unnecessary.

O'Leary was born in Perry township and had resided in Stirling, coming to Campbellford 11 months ago. He is survived by a widow. The couple had no children. Funeral services will be held at 9 o'clock to-morrow morning from the late residence here to the Catholic church cemetery. Rev. Father Phealen will officiate. It is reported that an investigation will be initiated to determine the responsibility of the mill operators under the Workmen's Compensation Act.

## UNUSUAL FINALE OF 1923 COUNCIL

For the first time in the history of the 1923 Council the Civic Committees met and adjourned without making one recommendation to the Council. This occurred last evening, when the only business transacted was the passing of a number of accounts. This was the final meeting of the 1923 committee and the last meeting of the 1923 Council will be held on Monday evening next.

## NEW YORK BANKER COMPARES WAGES

### Claims That Our Grandfathers Had Harder Row to Hoe Than We

New York, Jan. 4 (United Press).—Our grandfathers, or at least that portion of them who earned their bread by the sweat of their brow, whether that sweat was the product of manual or clerkly labor, had none of the luxuries which today form an almost indispensable part of the life of the average workingman or man in moderate circumstances.

A comparison of the history of wages with the cost of living for the last eighty years, compiled by Cheney Brothers, New York bankers, from their wage records and from figures of the United States Bureau of Labor Statistics, show that the high cost of living was a far greater problem in 1843 than now, or, to put it differently, while living undoubtedly comes high to-day, we have the means to pay for it, whereas eighty years ago the struggle to make ends meet resulted in a lowering of standards of living to the bare necessities.

The figures issued show that while the cost of such commodities as the workingman buys with his wages has increased 75 per cent. since 1843, during the same time the weekly wage earned has increased 85 per cent., or in other words, the weekly wage today will purchase in such things as clothing, food, heat, shelter, etc., six and one-half times as much as it could in 1843. From this it is apparent that a very large part of the community life in those days was reduced to the fundamentals of existence—enough food to live on; enough clothing to keep from freezing; sufficient shelter to keep out of the rain; and people went without many of the things which we have come to consider not as luxuries, but necessities.

## Former Warden Walsh Drops Out Out Of Race

In Tyendinaga Township on Monday next there will be a contest for the Deputy Reeveship, the candidates being James A. McKinney and William Ross, both young men. McKinney was a member of the Council last year, but this is Mr. Ross's first appearance for municipal honors. Warden J. V. Walsh was nominated but retired.

Mr. John G. Campbell is Reeve, and the Councillors are J. S. Meagher, J Enright and Jay Emmerson.

# PARLIAMENT MAY NOT CONVENE UNTIL FEBRUARY 15

## SIR LOMER'S MANTLE MAY DESCEND UPON LAPOINTE, IS BELIEF AT CAPITAL

### Minister of Justice in King Cabinet Surrenders Portfolio Because of Ill Health—Will Retain Seat in House of Commons—Active Public Career

## MAY BE LIEUT.-GOVERNOR OF QUEBEC

### Not Expected to Accept Senate Berth—Will Go South in Effort to Improve Health Shattered by Years of Service—Attendance at Conference Taxed Strength

(United Press Despatch)

**Ottawa, Jan. 4.—Sir Lomer Gouin resigned because of poor health. He had not been well since he represented Canada at Geneva. In some circles it is believed Ernest Lapointe may succeed to the portfolio of Justice.**

**It is believed here to-day that Parliament will not convene before February 15.**

Ottawa, Jan. 4.—The resignation of Sir Lomer Gouin from the King Cabinet is regarded here as an event of great political importance and was not unexpected in quarters where the state of his health was known despite denials. During the recent Imperial Conference it was apparent to those in London that the strain of an active public career extending over twenty-five years was having its effect upon Sir Lomer's health.

It is indicated that Sir Lomer will retain his seat in the House of Commons, though it is rumored to-night that in the near future he may become Lieutenant-Governor of Quebec, succeeding the late Hon. Mr. Brodeur. There is a vacancy in the Senate, and if Sir Lomer wishes to remain in politics, which is doubtful, he might be appointed to the Upper Chamber. It is understood that Sir Lomer will shortly leave for the South to escape the winter and regain something of his health.

**Effective At Once.**

Ottawa, Jan. 4.—Sir Lomer Gouin, Minister of Justice, has resigned from the Government because of ill health. Following yesterday's meeting of the Cabinet Council, Premier King announced that the resignation had been accepted to take effect immediately. No announcement with regard to his successor has yet been made.

Sir Lomer's resignation follows a considerable period of ill-health. Shortly after the close of last session, in company with Hon. G. P. Graham, Minister of Railways, Sir Lomer went to Geneva to represent Canada at the Asembly of the League of Nations. His health then was notgood. When the Assembly concluded its labors, the two Canadian delegates left Geneva for London to join Premier King, as Canadian representatives at the Imperial Conference. But, on the way, Sir Lomer stayed over in Paris for several days, detained by the conditions. His health then was not good. London till the Conference was well under way.

**Rest in France.**

Sir Lomer took part in the proceedings of the Conference and sat on several committees, but evidently had not fully recovered his health. He returner to Paris before the Conference had ended, and, it is understood, consulted specialists there. A couple of weeks' rest in France before leaving again for Canada seemed to result in improvement and on his arrival at New York Sir Lomer denied rumors of his impending resignation. The improvement, however, was not maintained and, following medical advice, Sir Lomer has resigned that he may be able to take a complete rest.

**Letter of Resignation**

The following letter of resignation was sent by Sir Lomer to Premier King:

"My Dear Prime Minister:

"As I have had occasion to mention to you in the course of our recent interview, I feel that the state of my health does not allow of my continuing to administer the Department which you entrusted to me at the time of the formation of your Cabinet.

"You will, I understand, have to call

(Continued on Page 7.)

## SLIPPERY STREETS CAUSE FATAL CRASH

Sarnia, Jan. 4.—An automobile driven by Joseph Skwara, a Russian of Courtright, crashed headlong into the engine of a Canadian National passenger train at the level crossing two miles south of this city at 2 o'clock yesterday afternoon. The driver and his two companions, Negisser Porschanuk and Jos. Dunoz, of Sarnia, were instantly killed and the automobile smashed to splinters Lack of chains on the slippery pavement is believed to have been the cause of the accident.

### Mayor Bennett to Be Host at Banquet To-night

At the New Queen's Hotel this evening Mayor G. A. Bennett will entertain the members of the City Council, City officials and a few prominent citizens at a banquet. An interesting programme has been prepared for the occasion.

## WOMAN OUTDOORS IN NIGHT ATTIRE

### Church Street Resident Removed to General Hospital at 2-30 a.m.

When Mrs. W. Cousens, who lives at 59 South Church Street, missed her mother who lives with her, at 2.20 a.m. this morning, she called the police to begin a search.

Sergeant A. Harman and P. C. Wm. Evans immediately began the search for the woman, and found her wandering aimlessly about in night attire at the corner of Dundas and Church streets. The unforunate woman who 's subject to fits it is believed, was under the influence of one at that time. The officers removed the woman to the General Hospital, where Dr. J. L. Tower, who was on duty rendered every medical assistance, and no serious results are anticipated.

## ANOTHER WOMAN NOW INVOLVED IN KILLING

(United Press Despatch)

**Los Angeles, Jan. 4.—Confession of Horace A. Greer, who shot Courtlad S. Dines, to-day involved another in the mystery surrounding the assault which took place while the Denver oil man was entertaining Elina Purviane and Mabel Normand, Greers' employer.**

### PRINCE LEAVES IN MAY.

London, an. 4.—Prince of Wales will start on his South African tour in May 2nd next.

### REURN RYAN TO KINGSTON, IS OTTAWA'S DESIRE NOW

Toronto, an. 4.—It is likely that Norman "Red" Ryan, Toronto bank robber now under arrest in Minneapolis will be deported from United States and returned direct to Kingston penitentiary to finish the 25-year term instead of being brought to Toronto to stand trial for robbing the Bank of Nova Scotia branch, Oakwood and St. Clair avenue.

It was learned to-day the matter is in the hands of the federal authorities who are trying double barrel proceedings—deportation or extradition.

## CHOIR PRESENTS RETIRING LEADER

Last evening at the close of the regular choir meeting at John street Presbyterian church, a social half hour was enjoyed by the large number who were preset and Mr. James Booth, choir leader of John street church was presented with a fine leather club bag and best wishes for his continued success in his new home at Boston, Mass., for which city he will leave on Monday next.

The presentation was made by Mr. Hill, the pastor Rev. D. C. Ramsay making a complimentary address previously. Next Sunday will be Mr. Booth's last official Sunday here as choir leader in the church.

### HON. MR. M'CREA BEREAVED

Vancouver, Jan. 4.—Mrs. May Caffrey, widow of the late Lieut. Lawrence Caffrey, and a sister of Hon. Charles McCrea, minister of mines, of Ontario, died in hospital here last night from injuries sustained when she fell from the verandah of her apartment.

## TREATING WITH THE SOVIET

The Soviet Government is anxious to establish relations of trust and confidence and trade with the new government of Britain. Prominent Labor leaders in Britain, chiefly those rated as extremists, stoutly champion the Soviet plans. But official recognition by the Dominion Government is not necessary. If any Canadian citizen wishes to go to Russia to enjoy the benefits of the peculiar form of government which prevails in Russia, there is nothing on this side of the ocean to prevent him and if any Canadian citizen wishes to invest his money in Russian enterprises, the way is open. Our government interposes no bar. If one wishes to take his chances with the Soviet government either in person or in property, he is at liberty to do so.

But the Canadian government cannot consistently meet the present Russian government on terms of friendship and confidence nor talk business with a neighbor who played the part of the pickpocket, the highwayman and the murderer, whose hands are red with the blood of his victims and whose pockets are bulging with the loot which he has taken from them, and which he refuses to disgorge.

One step which would be of some assistance in establishing the trustworthiness of the Soviet's present protestations of virtue would be its restoration of the property which it has stolen and which it now has in its possession. That would not be a conclusive test but it would be a very useful one, and exceedingly simple.

The Soviet leaders make no secret of the fact that attempts at practical demonstration of certain socialistic theories resulted in miserable failure.

Common property interests and common food supplies were rejected after a brief experience by even the most enthusiastic supporters of the Soviet regime. Those who were able to procure more than their allotment of food supplies by bribery or theft promptly forgot their pledges of loyalty to the new creed and abandoned that distorted idealism which was once a fetish among them.

Russia is struggling to get back to solid political ground. Lenine has openly cast aside the wonderful Soviet program which was to have rehabilitated Russia. The Soviet government has little to offer the outside world in return for what it asks. Millions of Russians are menaced by the spectre of famine, filth is everywhere and epidemics are rampant. There is a frantic scramble to return to any sort of government which will bring a semblance of order and relief.

Russia cannot expect to propose trade treaties to governments who are feeding her starving millions. The overtures of the Soviet government to Britain and to other nations should be made in a spirit of humility and repentance. Political atheism is a dangerous practise.

## THE COMMITTEE CONFERENCE

During the last session of the County Council a special committee was appointed from that body to confer with a similar committee appointed from the City Council on the matter of rural roadways and suburban areas. The City Council committee has been named, but there has been no meeting of the two special bodies.

Since the need of a definite policy in dealing with rural roadways and suburban areas is imperative, and since cooperation between the county and city councils is essential to the success of any policy adopted, it would seem advisable that the committees meet and at least prepare some sort of a report to be submitted to the 1924 council.

The new city and county councils will be inaugurated within a short time and a report containing recommendations and perhaps a tentative program to be followed in initiating joint administration of these affairs would be of material assistance. It is reasonable to assume that the men who form the personnel of the special committees are peculiarly fitted to act in the matter of rural roadways and suburban areas. Moreover, they have had opportunity as council members to become acquainted with the various features of these problems.

Hence, if they fail to act and ground must be broken again by the 1924 councils further delay will result in a matter which demands prompt attention. There is still time, however, for the conference of 1923 committees.

## EDITORIAL NOTES

There is too much water in Paris, too much beer in Berlin and not enough beer to suit some people in Canada. And none is satisfied.

—o—

Perhaps those stranded British harvesters will fare better in Canada after all than they would in the Home land in its present disturbed economic condition.

—o—

The Toronto Star refers to T. L. Church as a Jonah. The Star, however, overlooks the fact Jonah owes his Biblical prominence to the fact that he was sent forth upon his fateful trip to warn a wicked city.

—o—

Mr. Ramsay MacDonald should employ his time during the next few weeks in practical relief of the unemployed. That's what he's there for, as they say below the border.

—o—

Referring to the amalgamation of the Guelph Herald with the Guelph Mercury, the London Free Press observes that "another Western Ontario daily newspaper has fallen by the wayside." Rather uncomplimentary to the Mercury.

## That Body of Yours

*By James W. Barton, M.D.*

### THAT SALT SOLUTION

A railroad accident has occured and before help arrives the victim has lost a lot of blood.

He is rushed to the hospital and you read in the paper that they administered a saline or salt solution.

What is this

Just what its name implies—a solution of ordinary table salt in water—about a teaspoonful to the pint.

What is its effect?

Why it seems to exactly take the place of the blood and thus fills up all the blood vessels.

You know how poorly a pump works where the water is insufficient in quantity. The heart is exactly the same, and does not contract down on the blood as well, when the vessels are not full enough to give resistance.

So then in a purely mechanical way this ordinary water with salt in it, so fills the vessels that the heart pumps with its proper strength, and sends the blood—a little thinner of course—to all parts of the body to do its proper work.

Thus a person who has lost a lot of blood due to an accident as above, to dysentery, or the result of poisoning of the intestine with some decay food, can get the necessary strength back in a shorter time if the salt solution is administered to him.

Where there is no immediate hurry the simplest method is by allowing the solution to flow up into the lower bowel in the same manner as in an injection.

Where there is more need for haste the solution is allowed to flow through large needles right into some part of the muscular system. Where the need is urgent—a case of life and death—such as gas poisoning or any severe poisoning of the blood, the vein in the arm at the bend of the elbow is usually opened and the solution allowed to flow in. Many lives have been brought back by this simple mechanical means of stimulating the heart to pump the blood through the body with more force.

As you know ordinary salt and water is used by nose and throat specialists for cleansing purposes. It is effective yet harmless.

### PARENTAL OUTRAGE.

Irate Parent—"I'll have no more of this, sir! You are wasting your life. You'll start at my office to-morrow at eight."

Son (aghast)—"W-what, in the morning?"

## By The Side Of The Road

### BELATED APPRECIATION.

"Singin' Jim" we used to call him—
Called him that because he had
Blamedest habit—spite o' dingin'
He was allus singin'—SINGIN'!
Work or play or loaf or hurry,
First time 'round or final flurry,
If the weather's good or bad.

Sung in mornin', sung at noontime
Sung an extra lick at night,
Sung whilst diskin', draggin', plowin',
Loadin' hay or mebbe mowin'—
Sung awake an' sung a-sleepin',
"'Till he wasn't worth his keepin'"
Mother said—an' she was right!

Why, I've seen him plowin' yonder,
A mile or two, an' on my word,
Singin' like an oprey trooper—
Ketch his breath; an' then he'd whoop 'er
Up again—a high or low one—
Way out yonder there, where no one
'Ceptin' God an' Jim, that heard!

Music? No, not really music—
Just a croonin' sort o' sof';
Said his MOTIFS wa'nt related,
An' allowed that he was crazy;
Wen he died the folks at Swazy,
Mostly said "He's better off.

Still it's more than usual quiet
'Round the place these days, an' grim;
Somethin' that's beyond explainin',
Specially, when it's night or rainin'
Sundays, too, I set an 'listen,
But it seems there's somethin' missin';
An' I've figured out it's Jim!

JOHN D. WELLS.

### ONE MAN'S IDEA OF AN IDEAL WIFE.

She is feminine,
She knows football, baseball and golf.
She never nags and always forgives.
She understands,
She plays fair.
She mothers me
She is cute, and petite and blonde,
She doesn't let marriage age her, and
She keeps her figure!
She is clever and accomplished.
She can cook.
She doesn't come to breakfast in negligee.
She knows how to dress and does.
She is ready on time,
She doesn't like to hear or tell risque stories.
She doesn't drink or smoke.
She wears well—and thinks I do.
She isn't a spendthrift, but she does like pretty things.
She isn't a gadabout, but minds her own business.
She likes the things I like.
She's all there is—there isn't any other like her.
She loves me.

# Samuel Gompers Now Hails Labor's New Year Outlook

By SAMUEL GOMPERS.
(President American Federation of Labor).

The year 1924 presents us with tremendous issues. During 1923 we have met great issues and many of them have been successfully met.

The coming year presents great political issues, among others. As labor sees the outlook, the following is a partial enumeration of the political issues.

The injunction abuse; the child labor amendment to the constitution, made necessary by the adverse decisions of the United States Supreme Court on two child labor laws; the railroad question, involving the railroad labor board; the usurpation of power by judges in contempt cases, as well as in injunction cases; the question of whether laws may continue to be killed by court decisions; efforts to enact anti-strike and compulsory arbitration laws.

### Labor in Politics

In addition to these legislative issues there is in the political field the overshadowing matter of the national election. Labor confronts this great struggle with the determination to carry forward the banner of progress justice and democracy and to record in broader terms a victory such as was won last year. Labor will participate not only in the final election, but in the selection of candidates in the primary elections everywhere.

On the industrial field there will be great issues. We look back upon 1923 with gratification. We have achieved much for which all wage earners may be thankful; much that means for greater freedom and a better life in the future. But the future is not the past and the future brings its fresh struggles.

So long as there are men who think and act only in terms of profit, labor must be vigilant. And while there is a wage earner unorganized labor must organize. Rights that have been won must be held. American labor has abundantly justified its organized existence.

The wage earners of America enjoy higher standards of living than those of any other country. They have a fuller, better life in every respect. They labor with the mighty machinery of our land and produce more per man and in the aggregate than the toilers of any other land; they come nearer to being masters of the machines with which they work than do the workers in any other land.

And, in addition, they do not have their hands at the throat of their government, as is the unhappy case in so many other countries.

### The Program for 1924.

During 1924 we shall seek to perfect our organizations, to increase our solidarity, to improve our standards, to come one step nearer to our ideal.

We shall seek to carry forward our great concept of industrial democracy, which means freedom of mankind in industry through the exercise of an effective voice in the councils of industry—the building of an indestructible and glorious industrial life that shall make America great beyond dreams.

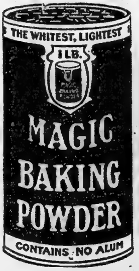
But in going forward we shall, as in the past, keep our feet upon the ground, having before us the facts of life as they present themselves.

Finally, the labor movement—the American Federation of Labor—extends to all the sincere greetings of the season; may there be for all Americans a happy New Year, a better 1924, and may it be so for all the world.

## CONSULTING WITH FRED NIBLO

CONSULTING WITH FRED NIBLO

A group of famous movie people who appear in Fred Niblo's new production for Metro, "Thy Name Is Woman." Reading from left to right are Wallace MacDonald, Bess Meredyth, noted scenario writer holding a script of "Thy Name Is Woman"; Mr. Niblo, Barbara La Marr, who plays the role made famous on the stage by Mary Nash, and William V. Mong, who plays the part created on the stage by Jose Rubens. One other famous player, who does not appear in this picture, is Ramon Novarro, now in Paris with Rex Ingram.



## NEW METHOD OF REMAKING COAL

### Russian Professor Successfully Mixes Mineral Oil With Low Grade Coal

Moscow (By mail to United Press).—Russia has discovered a method by which it is claimed that coal of high grade fuel.

Heretofore the coal of Northern European Russia, Siberia, Turkestan and Transcaucasia was almost useless because it gave 38 per cent ashes.

Professor L. N. Kuznetzoff has invented the following method: The coal is being washed on moving platforms, then mixed with a quantity of mineral oil—the mixture of which Kuznetzoff keeps secret—and finally brought to a heat of 460 degrees.

Regina, Jan. 4.—Sale of 500,000 pounds has been consummated of Western Canadian graded fleece wools for Bradford England.

A long step toward peace was taken when French and German teams played on the gridiron for the first time since the war and ended the game by exchanging bouquets.

## Fiery Itchy, Skin Quickly Soothed With Sulphur

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

## CANNIFTON

Mr. Royal Mason and family, Mr. Dan Mason attended the funeral of their brother, the late Henry Mason.

Mr. and Mrs. Gilbert Frederick were Xmas visitors at Mr. J. Archibald.

Mr. Will Archibald was home during the holidays.

Miss Nellie Martin, Picton, Miss Mildred Kerr, Belleville, spent the week-end at their aunts, Mrs. T. Smith.

Mr. Ralph Campney spent Sunday at the parsonage.

Mr. and Mrs. Winsor, Stirling, spent the week with their daughter, Mrs. Holgate.

Miss W. Farnsworth has gone back to Guelph to finish her course at the McDonald College.

Mr. Wood and two daughters, Wyoming, N. Y., are visiting his sister, Mrs. C. Mills.

Mr. and Mrs. Will Brown, Trenton, spent Tuesday at Mr. W. Gilberts.

School will not re-open here until Monday as electric lights are being installed and the work is not completed.

## Sir Lomer's Mantle

Continued from page one.

"It will perhaps remove the possibility of any uncertainty in the public mind if I do not defer the date of acting upon your request, and accordingly I have decided not to delay the acceptance of your resignation. I cannot accept your resignation, however, as I do now, without saying how much I feel our country is indebted to you for the public services you have rendered during the period you have been a member of the administration; and how earnestly I hope that with freedom from the strain and cares of office, you may be permitted to enjoy many years of health fully restored.

"May I again say to you how sincerely grateful I am for your most helpful and loyal co-operation at all times in the work of the Government and towards myself, and for your personal friendship and good wishes.

"Reciprocating in fullest measure your kind personal regards and greetings for the New Year."

the members of Parliament in assembly at a comparatively early date and, in order that my successor himself with the great lines of the administration of the Department, I beg leave to tender you my resignation as a member of the Government, leaving it to you to decide as to the date that it should be accepted.

"I realise the importance of the work that you have accomplished and, regretting my inability to further collaborate with you, I offer you my very best wishes for success in your great task.

"May I, also, extend to you and to my colleagues, my thanks for the courtesy that has so kindly been shown to me during my term of office.

"With kindest personal regards and sincere greetings for the New Year.

### Premier's Reply.

Premier King's reply, follows:

"My Dear Sir Lomer: I have just received your letter of New Year's Eve, in which you tender your resignation as a member of the Government. To our colleagues in the Cabinet the word that the state of your health will not permit of your continuing to hold the portfolio of Minister of Justice, and compels your resignation, will be received with a regret second only to that which I myself experienced at the time of your first mention to me of this possibility. I can only repeat what I then said, that it is with feelings of the deepest regret I find, in the circumstances you have mentioned, no alternative other than that of meeting your wishes with respect to a respite from the exacting duties of the work of administration.

## Police Arrest

(Continued from page one)

similar to those in which physicians receive their medicinal liquids.

### Who is The Bootlegger?

A wide and varied discussion as to the identity of the bootlegger occurred between accused and County Attorney B. C. Donnan, in which Renaud remained firm. "I would tell you who he was if I knew, but I do not know him. I never saw him before," he exclaimed. "The man came to my place at 1 a.m. and I was awakened. When I went down to the end of the barn, he had the load off, and asked me if I wanted a drink."

"And he left 6 gallons," broke in the Magistrate.

"Yes."

"Why that is enough for a reporter's drink," jocularly opined the Bench glancing at the ever present representatives of the public.

Continuing, Renaud stated that he paid the man $10 per gallon, and then the wholesaler drove off in his automobile. This was three weeks before Christmas, so doubtless this was the Christmas supply. Accused states that he bought the "stuff" for good liquor but he believes it is moonshine.

### Vivid Description.

When further questioned as to the appearance of the bootlegger who supplied him, accused stated that he was a very dark man and might have been a Jew as he talked like one. He was a big man with a black moustache and would weigh about 160 or 175 pounds., and would be about 40 years of age. He said he was from Montreal.

Officers scout the story, however, and County Attorney Donnan asked accused if he bought the liquor from a man named Fred Cornyea. Renaud denied that he did, but it is believed that a relative of his wife, who was a widow with five children when he married her, sold him the "dynamite" and that he is shielding him.

"You are good and have your nerve right with you," stated Mr. Donnan when he heard the story. "I believe you are continuously insulting the intelligence of His Worship, and displaying "nerve colossal."

Magistrate Masson did not appear to believe the tale, but regretted that he would have to send Renaud down, when he should be out working for his wife and family. In the meantime the big bootlegger who sold the alcohol, will ride about the country, enjoying himself and polluting others probably. "It is foolish of you to shield a 'scalawag' like him," concluded His Worship.

### Provides Stiff Penalty.

On the charge of keeping for sale under which accused has pleaded guilty, a fine of $2,000 may be imposed plus three months imprisonment for the first offence, and on the charge of handling liquor, not legally manufactured under Government supervision, he may be sentenced to jail for one year.

## Life Insurance

(Continued from page one)

Birth of child after will does not revoke will.

Revocation by an ineffectual will may not revoke the former will.

### Estates.

No person shall settle any property so that the income shall be accumulated for a longer period than a life or lives in being and a further period of 21 years.

Under the Devolution of Estates Act all property where there is a will goes in the first place to the Executor, not to the beneficiary, and where there is no will, to the Administrator. The object being to protect creditors. If the property or money went directly to the beneficiary, a creditor might get nothing.

The Executor or Administrator should advertise for creditors at least once a week for four weeks, after which he may proceed to pay such claims as have been sent in, and afterwards he may transfer the estate to those entitled. The Executor or Administrator will then be relieved personally from paying any claims that may come in later, but a creditor may follow the estate into the hands of any person to whom it has been transferred.

### Entailed Estates.

Estates may be entailed, that is given to a man and the heirs of his body, or to the heirs of his body male or the heirs of his body female, remainder in fee to his heirs. By that form of settlement the property will descend, without will or deed, to such heirs in perpetuity so long as there exists any heirs who can trace directly to the body of the original tenant. Before primogeniture was abolished, 1852, the estate tail went to the eldest and the issue of his body in each generation till all such issue failed, then back to the second child and his issue, and so on. When all the heirs failed it went back to the original grantor or his heirs in fee or to the person and his heirs in fee if any to whom it was directed to go by the original settler.

Formerly an estate tail could not be barred once it was granted. Now it can be barred by any tenant in tail and turned into an ordinary estate in fee.

### Life Insurance.

In Policies or Contracts of Insurance of the person "heirs" "legal heirs" or "lawful heirs" mean and include all lawful surviving children, also wife or husband if surviving.

In ordinary contracts these words would not include the husband or wife and grandchildren would take in place of deceased parents who were children.

There are 30 days brace for the payment of life insurance premiums and in case of payment by registered letter the payment dates from the date the letter is registered, not from the date it is received.

An action for insurance money may be commenced any time within one year after it becomes payable, but not after.

If the death of the person on whose life the insurance is effected, is not at the time known to the person entitled to the money, he may bring his action within one year and six months after the death becomes known to him, but not after.

### Presumed Dead After Seven Years.

Where the person on whose life the insurance has been effected has not been heard of for seven years, death may be presumed and the person entitled may bring his action within one year and six months after the expiration of the seven years.

The Insurance Company shall be deemed to have admitted the age as stated in the application to be correct unless the company gives a notice within one month after the contract and each year thereafter stating that the age is material and that proof of age is required.

Suicide is not a bar to payment in an indisputable or non-contestable terms of the application and the policy.

### Insurable Interest.

It is necessary to the validity of a contract of insurance that the beneficiary shall have a pecuniary interest in the duration of the life of insured unless the beneficiary is the person whose life is insured or is the parent, bona fide donee, grantee or assignee or person entitled under the will of such person or by operation of law.

Any adult may insure his own life to any extent for the benefit of his estate or anyone else.

If the premiums were paid to defraud the creditors of the assured, the creditors may recover the amount of the premiums so paid with interest out of the insurance money.

### Preferred Beneficiaries

The assured may designate his beneficiary by the contract or by a writing or by his will.

He may from time to time change the beneficiary but not so as to deprive a beneficiary for value or where it is in favor of a beneficiary of the preferred class not so as to deprive the whole preferred class.

### Wife and Children.

Preferred beneficiaries include husband, wife, child, grandchild and mother.

"Wife" shall mean wife living at maturity of policy. If she is designated by name, and is not living but there is another wife, then the other wife takes half the named wife's share and the rest goes as on a direction to children.

"Children" include children living at maturity of policy. The living children of a deceased child take the deceased child's share.

A person under 21 years of age but over 15 may enter into a life insurance contract and surrender same.

David Ketcheson, President of the Association, presided at the luncheon and there was a full attendance, with much enthusiasm. Following Mayor-elect Mikel's speech, routine business was discussed.

## J.O. Herity

(Continued from page one)

The unique design of the monument itself, which would probably be the only one of its kind in the entire Dominion, and one that could be of large dimensions without being burdensome in cost.

### Fire Hall Park

"The best site in my estimation would be in the little park near Number One Fire Hall. The monument should be placed where a line drawn down the centre of Front street would intersect a line drawn down the centre of Dundas street East. In this position the monument would have the most conspicuous position in the city. It would be in full view of our two main thoroughfares, Front Street and the Provincial Highway from the east up Dundas street, the two lines of railway, the Canadian National and the Canadian Pacific, and also Belleville harbor.

"As to the cost a total of $5,000 would erect a monument of fine proporions but $10,000 would probably come nearer to the proper amount. The latter figure would provide us a monument of imposing height and impressive size and one that would reach the ideal of what we think such a monument should be as we look back and bear in mind the noble deeds and sacrifices of those who are gone.

## IT STILL PAYS TO ADVERTISE

### Belleville Industrial Exhibits at C.N.E. Bring Excellent Results

The important results achieved by the manufacturers of Belleville and the district at the Canadian National Exhibition at Toronto, last September continue to be reported. In addition to the multitudes of prospects interviewed and numerous orders for large amounts that were booked by the manufacturers at the time, they continue to receive many enquiries as a result of the favorable publicity and the connection established there. Just this week the manager of the Chamber of Commerce received the following letter from Mr. G. E. Sanders, General Manager of the Deloro Chemical Co., Limited, Deloro Ontario.

"Dear Sir:—

You may be interested in knowing that as a result of your kindness in placing an exhibit of our materials at the Canadian National Exhibition we secured a good wholesale customer last week. In giving us his order he told us that he had first gotten in touch with us through your booth. We are now going to impose further on you and ask if you know of any traveller who covers the upper end of Peterborough, Hastings, Haliburton, Victoria, Lennox & Addington and Frontenac."

## VENIZELOS COMES BACK IN TRIUMPH

### Returns on Same Road by Which He Left in Banishment 3 Years Ago

(United Press Despatch)

Athens, Jan. 4.—Former Premier Venizelos returned today to the country that once banished him. Along the same road he traversed, guarded by armed followers, when he departed from Greece, in 1920, he today came back in triumph.

## Believe Dirigible Crashed In Storm

(United Press Despatch)

Toulon, Jan. 4.—Dixmude crashed, burning and exploding into the Mediterranean sea off Cape Sanmario, near Sciacca, Sicily, during a storm on night of Dec. 21. This is the theory announced yesterday by Admiral Clement.

## LAMP EXPLODES IN HOME CHILDREN FATALLY BURN

Orillia, Jan. 4.—Two children are dead and two more are in a critical condition the result of burns received when the home of Mrs. Enoch Nanigishking, at the Rama India Reserve, was destroyed by fire in the early morning.

The mother and her four children were occupying a newly built frame shack and left the lamp burning when they retired. The lamp exploded and set the building on fire before the inmates could be rescued.

## IN MEMORIAM

WEESE—In sad and loving memory of my dear husband who passed away Jan. 4th, 1921.

Three sad and lonely years have passed
Since Flay was called away,
To join the white robed throng above
Where all is perfect day.

His smiling face no more we see
No more his loving words to cheer,
Oh, Daddy how we pine for you
We are so lonely here.

He was the one we needed most
To cheer life's dreary way.
But if we follow in his footsteps
We'll meet again another day.

Only those who have loved and lost
Can realize the bitter cost.

# Megan Lloyd George to Write U.S. Up!

## She Doesn't Affirm Or Deny She'll Give Impressions of Recent Visit

BY WANDA VON KETTLER

LONDON, Jan. 3.—Megan Lloyd George is going to write a book about us. Yes—all about skyscrapers and candy and American boys and girls and things.

This isn't official. It's just "Megan-official."

Ever since the 21-year-old daughter of Britain's most famous statesman returned home from her trip to America with her distinguished father and pal, she has been dodging reporters who have been trying to put this question to her.

"I haven't said I am going to write a book," she protested to me.

"Oh," said I, "shall I contradict the report in America?"

"Oh, no, put in Megan with speed. "Don't do that. I haven't said I'm not going to write a book. I just haven't officially said that I am."

That settled it. Remained for me to find out what she was going to put into that book. I cautiously queried her.

**Office Buildings**

"You're an American girl,' she said, "and you've been in my country just a little while. Well, things here are different to you, no doubt. In the same way, things over there were different to me.

"What impressed me the most? Let's see—. Oh, I know—the New York skyscrapers and the candy."

That made us both laugh.

Miss Megan is small of stature and small of build. When she laughs her face, softened by light brown locks, rounds out. It grew round now and her gray eyes twinkled a bit.

"Quite a difference in the two, isn't there?" she said. "But I will never forget either. Those skyscrapers, with their tremendous up-and-downness. You notice, we don't have them in England?"

"Yes, I noticed that. But you do have candy. Only you call it 'sweets.' Why the candy?"

**She Likes It**

"I don't know," came the reply. "It's just—well, it's so distinctly American. Everywhere you go your girl friends offer you candy. And you have so many kinds that we never even saw or heard of over here. Like American candy? Umm!"

No American matinee girl could have put more soul into that "Umm."

Of our boys and girls, the future authoress said:

"They seem to have the frankness that is typical of the age. But I didn't notice them to be any more frank than the young people of England and other countries, despite the fact that Americans are reputed to be extremely outspoken.

"American girls know exceptionally well how to wear their clothes. They know how to adopt styles that are becoming. We must say adopt, because all of us seem to let Paris do the creating. Rather deplorable, but convenient, isn't it?

"Now about American boys—" Megan laughed. "I know! They dance delightfully! That's the thing about them that I remember best."

### ALBERTA'S MOTOR FLEET

Calgary, Jan. 4.—For the first time in the history of the Province, the number of auto licenses issued has passed the 40,000 mark.

### W.C.T.U. NOTES

The Moderation League in Canada is bound to convince the electorate of Canada that Government control pays with a vengeance but wise voters will do a little "figgering" on their own account. The Daily Province, B. C., on November 27th, 1923 published the following interesting item:

"On every four dollars paid by a purchaser for liquor at a Government store, $1.25 stays in the Province, one dollar goes to Scotland, while $1.67 goes to the Federal Government. This was an estimate given the public accounts committee this morning by Archie Johnson, head of the liquor board.

The Scotch distillers will have great faith in Government sale of liquor as a liquor-revenue producer. Yes, it pays the distiller but it puts a discreditable crutch under the Federal Government that is in danger of making that Government a confirmed cripple lacking all moral power to fight the encroachments of the liquor traffic. At the moment Government control of liquor is the deadliest enemy in the path toward the goal of Dominion-wide Prohibition.

# MEDICAL FEUDS DATE BACK AGES

### Investigator Recalls Middle Ages When Barbers Practised Surgery in London

Chicago, Jan. 4 (United Press):— Professional feuds of medical practitioners date back centuries, says Louis G. Caldwell of the Chicago Bar Association, writing in the Illinois Law Review. The modern controversy between physicians, chiropractors, osteopaths and naturopaths is nothing new, he asserts.

"The feuds today is only a repetition of the feud between the regular and the homeopath, electric, physio-medic and botanic physicians of fifty and one hundred years ago," Caldwell writes. "Still more ancient feuds raged during preceding centuries between the physician, the apathocary, surgeon and briber."

Galen, writing more than 2,000 years
This was the beginning of the medi-
ago said: "The public does not call into requisition the best physicians, but those who flatter their whims. Nobody takes into consideration qualification in the choice of a physician, but the skillful and the ignorant are estimated alike, then each one of them will have in view what yields income with the least exertion."

Galen was a physician himself.

Surgery was practiced by barbers in the late middle ages, Caldwell records. In 1461 King Edward IV. issued a carter to the barbers and in 1540 the profession was incorporated and given the exclusive right to practice surgery in London and its suburbs.

Later it was enacted in England that barbers should confine their activities to blood letting, drawing teeth and other minor operations, while "surgeons" were prohibited from "barbery or shaving."
cal profession as it exists to-day, Caldwell says, and also the beginning of legal regulation of the vocation.

Almost anyone with a little training could practice medicine in this country until the time of the revolution, he says.

### Line-Breeding.

Line-breeding consists in following a single line down, breeding a sire or dam to the progeny and such closely related individuals as brother and sister and cousins. It is inbreeding along a certain line. The objections to it are that it intensifies any defects in the blood of the family that is inbred. The value of it is that it intensifies any good traits also. If, by selection, the bad traits can be minimized, while the good are perpetuated and made more prominent, line, or inbreeding, is a valuable means of improvement. If proper selections are not made, however, the bad that always wants to crop out in breeding will get the upper hand and spoil the progeny of line-bred animals. Line-breeding is practised by skillful breeders, and is one of the chief means of securing improvement in a flock or herd.

More farm machinery is put on the junk pile by neglect than by use.

FANNING WITH FARRELL

## THIRD MAJOR LEAGUE TALK REVIVED

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 4 (United Press).—Prediction that a third major league is sure to be organized at a time not very far in the future has come again from sources of qualified authority.

Nothing beyond an opinion, which is a very good one, however, has been found to substantiate a belief that the field is becoming too large for the National and American Leagues to supply.

Since it is an established fact that organized baseball is too well fortified, financially and geographically, to make it possible for an outlaw league to intrude, it is logical that organized baseball will form a third league when the investment assumes the size of a sound business proposition.

If Boston and St. Louis are able to support two major league ball clubs, it would seem reasonable to figure that Cleveland and Detroit would be good fields for continuous baseball, and Cincinnati with such a good territory to draw from, might be interested in another club to divide affection with the Reds.

Baltimore has been pretending major league proportions for several years, and Kansas City is looked upon as a fertile spot for some of the big major league money that is figuring on the future.

Another, 'Federal League' would not go, because the sad experience of that last venture would restrain the investment of any capital in another attempt to test the strength of organized baseball.

The tremendous expense of organising an independent league, represented in build-ball parks, is nothing compared to the problem that would arise in getting the players for six or eight new clubs.

The major leagues, however, would encounter no such insurmountable obstacles as only a few new parks would be necessary and the National and American Leagues might be able to spare enough players to form the nucleus for the new clubs.

* * *

Seems to us that the writer of the following letter to the United Press sports department should get what he wants:

"Dear Sir:

"I wish to announce that I, Soldier Buck, middleweight champion boxer of the south and west, have arrived in New York to stay with my relatives here and that any enterprising promoter can address me at 354 West Twenty-ninth Street, New York. I knocked amongst the many, Mexican Joe or Jack Rivers, out in three rounds—and I was matched at the Brooklyn rink with Lou Bogash, who run out of it the last minute. I also was matched this summer with Battling Siki in Europe—but I feel sorry that I did not go abroad and lick him. Harry Fay, Greb's sparring partner told me that if I should meet Greb at the Garden—would knock holes in the Garden ring with him.

"Respectifully yours,
(Signed) "SOLDIER BUCK".

Jim Tracey, the Australian heavyweight, who let Louis Firpo walk up his back on the way to Dempsey, is still at it, according to the Seattle Star, to wit:

"Jim Tracey, the much-knocked-out Australian, took one on the chin in the first round from Rocco Stramagalia in Portland recently, and it took four bluecoats to hoist him over the ropes, he was that goofy.

"When they got him in the dressing room Tracey became hysterical and, with tears streaming down his face, he cried:

"'I'm the worst fighter in the world.'"

Page Joe Beckett, George!

* * *

George Sisler, from reliable reports, has not recovered sufficiently from the eye trouble that had him in the stands all last season, to play first base for the Brown next year.

The "Sizzler" wants to do something more than manager his club from the bench, and it has been hinted recently that he might take a shot at pitching.

He was pitching for the University of Michigan when he first began to attract attention, and it was only because his stick was too valuable for occasional use that experiments were tried which brought out his versatility.

The Babe, you remember, also started as a pitcher.

If Sisler does get into the game next season as a pitcher, he will not be the only star-player who may be in a trick position in the line-up.

Tris Speaker may play first base for the Cleveland Indians, as it seems he will be unable to get another first-sacker.

Also, New York is speculating that if Rogers Hornsby comes to the Giants from the Cards he will be used at first base by McGraw.

Hornsby has a yen for first base, and it is understood that his differences with the St. Louis management started when Branch Rickey refused to move him over to first base when the post was vacant.

It would be no shock, likewise, to see Bill Cunningham, who was traded to the Braves as an outfielder by the Giants get a crack at an infield position with the Boston club.

Luis Vicenti the Chilean lightweight is a promising boxer and if he is handled properly he may cut a figure in the class.

He will never make as much money in a short time as his fellow South American, Firpo, but he will earn enough to satisfy him.

Vicenti is being rushed just as Firpo was and the same thing will happen to him as happened to Firpo, if he is hurried into a fight with Benny Leonard.

He ought to have at least another year of experience with the trial horses and then he might have developed enough to give Leonard a good fight.

It is too much to expect him to beat Leonard until Time has begun to take a sock at the present champion, but as far as giving Leonard a fight is concerned, Vicenti could do as well now as any contender in the class.

Leonard is just as secure in the possession of his title as Dempsey is in the heavyweight class.

## "KNOTTY" LEE IS STILL UNDECIDED

### Torontonians Believe He May Father Proposed Pro. League

Toronto, Jan. 4.—There is no rest for the wicked or the baseball magnate, sorrow is their portion and trouble a daily diet. Now the International League owners, who have just worried through a stressful season, are threatened with an outlaw invasion, and though they profess to treat the menace lightly, it is well known that they are badly worried. Joe Vila, the prominent New York sport writer, predicted some time ago that something of the sort was on the tapis, and also that the backers of the proposed third major league would handle the situation a little differently than did the men who sponsored the ill-fater Federal League. His tip-off was that the out-laws would not make a move until they had lined up good substantial men in the several cities interested to finance the clubs, and that nothing would be done until the players wanted were under contract. As usual when a league of this kind is contemplated Toronto is one of the first cities named. This occasion is no exception, and the promise is held out that if the project goes through that the club will play in a park on the city side. It is hinted that the local men in the "know" are members of the syndicate who attempted to purchase the Boston Red Sox franchise last spring. They are all good practical baseballers with plenty of money to swing such an undertaking as the one proposed.

The league as planned will embrace Toronto, Cleveland, Buffalo, Detroit, Baltimore, Pittsburg, Cincinnati, Philadelphia and New York. In the latter city the club will probably be located in the Bronx, which not so long ago was mentioned as being ripe for a berth in the International League. According to all accounts the one doubtful city is Buffalo, which may be replaced by Kansas City. Montreal is also a possibility.

In connection with the Toronto end of the league, it is regarded as significant that Knotty Lee should resign from the business management of the Leafs just at this time. It was through his efforts that the Mint League came into existence, and if there is any man locally who can handle a proposition as large as this he is the individual. Lee, when asked about the matter Thursday morning would not commit himself in any way, although he intimated that he would have some announcement to make shortly.

Robert Quinn, once identified with the St. Louis and Boston clubs, is at the head of the syndicate controlling the Boston territory.

It is said that many star players have already been approached.

### NO SORDID LIMITATIONS.

"Rafferty," exclaimed Mr. Dolan, "your boy threw a lump of coal at my boy!"

"That's a Rafferty for you! When he feels there's a principle at stake, he doesn't think of expense."

## BOWLING CHAMPS RECEIVE AWARDS AT "Y" BANQUET

### High School Team Receives Riggs' Trophy and Cash Prizes

### PRESENT LADIES' TEAM

### Excelsiors Win and Are Presented With Fine Shield and Replicas

It was a jolly crowd of ladies and gentlemen, girls and boys who assembled last evening in the Y.M.C.A. Assembly Hall, the occasion being the first annual banquet of the members of the various bowling teams. The distribution of prizes won in the Autumn league occurred at this function.

The Ladies Auxiliary of the Y.M.C.A. provided the banquet and it was very satisfactory. During the supper community singing was enjoyed, led by Mr. Harold Holton with Miss Margaret Goyer presiding at the piano.

Mr. W. B. Riggs was toastmaster and filled that position in a most acceptable manner.

**Strong Leagues.**

In the fall league there were eight teams of lady bowlers and an equal number of male teams. The lady teams were the Excelsiors, O.S.D., Teachers of the High School, Pupils of the High School, Income Tax Office Ritchie's, Bowlers and Intelligencer Office. The men's league was composed of teams from the High School, Bowlers, Excelsiors, Printers, Upstreamers, Bankers, "Y" Reds and Alberts.

**Present Prizes Won.**

At the conclusion of the supper the prizes were awarded.

The lady Excelsior team composed of Mrs. G. Lee, (Capt.), Mrs. E. Thomas, Mrs. J. White, Mrs. A. Goyer, Mrs. B. Bottum, Mrs. G. H. Strachan and Mrs. J. Beal, won the shield presented by Mr. W. B. Riggs for the winner of the lady's league and it was presented by Mr. R. Wray to Mrs. G. Lee, who suitably acknowledged the presentation. Individual shield replicas of the larger shield were presented to each member of the team the presentation being made by P. Harrison.

The boys High School team captured the beautiful silver cup presented by Mr. W. B. Riggs and Mr. C. Bateman, captain accepted same from Mr. R. Woodley, who made the presentation. The members of this team are as follows: Alex Weir, C. Bateman, Geo. Faulkner, Wm. Gilbert, Murray Hall and Archie Buck. Accompanying the cup were cash prizes to each member of the team.

The members of the Bowlers team, the runners up in the league were presented with cash prizes. Other prize winners were G. Ynych, L. McLean, L. Cook, J. Alexander, L. Hill, A. Veir, A. R. Symons, F. Miles and C. Bryant. These prizes were awarded by Mr. H. Bryant.

**Strikes and Spares.**

Judge G. E. Derocho gave an interesting address, the subject assigned him being strikes and spares. In his opening remarks His Honor asked if all appreciated the Y.M.C.A., and the good work the institution was doing.

"The man who never learned to play makes a mistake, as play should be mixed with life," asserted the speaker. "Play makes a better boy and a better man. The Y.M.C.A. helps to develop the boy physically and morally. The Association did a grand work during the war as it had previously done and since done. All should aim high, and the pleasure of life is attaining that which is sought after. Get the best thing in life and above all develop a clean moral character. Character is the basis of life and we should strive to make good characters.

**Local Secretary Speaks.**

The work generally of the Y. M. C. A. was referred to by Mr. R. C. Sidenius, Secretary of the local Association. The Y. M. C. A. is a wonderful organization with a membership in Canada and the United States of over one million and owns property valued at $147,000,000. The operating expenses was $4,000,000 per month. It is by no means a close organization as all classes can become members. It may be termed as laymen's organization. The speaker referred eulogistically to the officers of the local Association and the splendid co-operation which existed between the various departments of the building. There is at present a membership of 593 here and the objective is 750. It is anticipated that this number would be reached by May 1st of the present year.

Mr. James Alexander announced that the winter league would be formed immediately and play will start in a few days. He requested that all teams who contemplated entering should do so at once as a schedule of games had to be arranged.

### AID TO MEMORY.

Smith is a young lawyer, clever in many respects but very forgetful. He had been sent to a distant town to interview an important client when the head of his firm received this telegram: Have forgotten name of client. Please wire at once."

The reply he received was "Client's name Jenkins. Your name Smith."

## BATTERY BOYS ARE STEPPING FAST

The cold overnight weather "jacked up" the ice at the arena, and snappy practices were held there by the junior and Intermediate O.H.A. teams and the 34th Battery team of the Bay of Quinte Hockey League. The soldier boys had about 15 men out, and their manager "Stub" Barrett sent them the full limit of one hour.

The O.H.A. squads also had stiff workouts.

### HIS TROUBLE.

Minister—Come, come, my friend, try to lead a better life. Why, you are continually breaking one of the commandments."

His Friend—Nope, parson, I don't have any trouble with a single one of the commandments. It's the amendments that I simply can't keep.

## NOTICE! Lady Bowlers

There will be a meeting of lady bowlers at the Recreation Parlors on Mon. Jan. 7th, at 7.30 for the purpose of forming new league. We kindly request ladies that have teams entered to have a representative at the meeting. We can also accommodate 4 more teams. For further particulars enquire Leo Barrett or call up alleys. Recreation Parlors. F. Domenico Mgr. 4-3t

### KNEW HIS BUSINESS.

The elevator boy was green at the job. Two passengers a man and a woman, got on at the street floor. "Ninth," said the latter once they were fairly started. "Sixth," said the man. The car sped by the sixth floor and stopped at the ninth. On the way back the man said: "Why in thunder didn't you stop at the sixth floor? The sixth is lower than the ninth." "I know that," said the elevator boy, "but the lady said 'Ninth' first."

### PALM BEACH REGATTA

New York, Jan. 4 (United Press)—The annual Palm Beach Regatta will be held Feb. 21-22 and a number of fast motor boats will be sent south after the motorboat show here Jan. 4-12. The second big event will be the meet on the Flamingo Course at Miami Beach and Miami, March 7 and 8. Boating enthusiasts will then sail for Havana for the races there on March 15 and 16. Early in the spring, New Orleans has racing dates which will attract large numbers of fans. The summer racing season will open June 20 with the New York to Atlantic City and return race.

### MOSTLY TRUTH.

"Miss Prim insists upon calling herself a girl." "Well, why shouln't she? New York still calls itself 'new.'"

PROMINENT FIGURES IN THE 1923 SPORT ARENA: At top, left to right: Gene Sarazen, U. S. professional golf champion; Miss Edith Cummings, U. S. woman golf champion; Bobby Jones, amateur and national open champion. Centre (in circle): Willie Spencer, of Toronto, professional cycling champion; Benny Leonard, world's lightweight boxing champion; Pancho Villa, world's flyweight boxing champion; Jack Dempsey, world's heavyweight boxing champion. Second row, left to right: Miss Helen Wills, U. S., women's tennis champion; Bill Tilden, world's tennis champion; Mlle. Suzanne Lenglen, of France, world's women's tennis champion. In small circle Babe Ruth, champion all-round baseball player. Lower centre: Miss Gladys Robinson, of Toronto, world's champion lady skater; at right centre, Charlie Paddock, sprint record holder; Willie Weismuller, champion swimmer. Right bottom, "Stran gler" Lewis, world's heavyweight wrestling champion; Paul Costello, U. S. singles rowing champion.

### NOT THE SAME MAKE.

Robert went to visit a friend. He was only there a few minutes when a collie dog bounded around the corner of the house.

"That your dog?" asked Robert.

The other child said: "Yes," then asked, "Have you got one?"

"O, I got a dog," answered Robert, "but he is not the same make as yours."

### HAME'S BEST.

The story comes from Scotland of an American who was looking over a shooting-box there with the intention of hiring it for the season. In the old-fashioned gunroom of the place was the inscription "East, West, Hame's best," observing which the American exclaimed: "Say! If I take this little place of yours, that advertisement for Hame will have to come down—whatever it is."

**MADAME ZEDDA**
Scientific Palmist arriving January 8th for 14 days, will be at the old Hastings House. Fee One Dollar. Hours 10 to 10 p.m. 41-6d

Dr. J. A. Faulkner and Mrs. Faulkner, Bridge Street East, gave an enjoyable party to a number of their friends last evening.

Mr. Frank B. Foley, 232 George St. was called to his home at Ontario, N.Y., owing to the sudden death of his father.

Mrs. B. Little, Frankford is spending the week with her daughter, Mrs. G. F. Cole, W. Bridge Street.

Miss Mary Davison, daughter of Mr. and Mrs. Robt. Davison, 132 Moira street East, was last evening the recipient of a shower tendered her by a number of her young friends in this city. The young lady whose marriage is approaching was presented with a large number of beautiful and useful gifts. A most enjoyable evening was spent by all who were in attendance.

Mr. and Mrs. P. G. Deníke and family of this city, Mrs. Thos. Barnard of Toronto and Miss Howard of Brockville, spent New Year with Mr. and Mrs. John M. Bond of Thurlow.

Miss Violet Morris, Station Street gave an enjoyable party to about thirty of her young friends last evening, when games were played and dancing was enjoyed. A dainty lunch was served at midnight. Miss Evelyn Reed supplied the piano music for dancing.

[illegible]

The laziest women on earth must be those of Asir, the almost unknown country beyond the Red Sea. Mrs. Rosita Forbes has just returned from visiting them, says the Yorkshire Post.

"The women are in an extremely primitive state," she said, "and never come out of the house except to be married or to be buried. When I asked them how they amused themselves, they replied, "We don't. For us there is no work."

"I said I quite understand, but would like to know what they did when they were tired of eating and drinking. One pretty girl looked up and said said brightly, "We sit.""

Mrs. Forbes described a narrow escape from death while visiting a harem.

"I was a guest at Yemen harem," she says, "where all the women bathe together in one room. I accepted the offer of a bath, and while chatting, mentioned the word Christian. One woman said fiercely that if a Christian woman came there they would kill her. They took me, fortunately, for a Moslem, as I was disguised.

"It was only when we reached the bathroom that I recalled, to my horror, that the rest of my body was not stained dark brown, like my face and arms! Fortunately I made the excuse that I had forgotten my favorite soap, and thus escaped exposure."

## Bobbed-Haired Maiden Is Not Popular In New York

A girl with bobbed hair walked into a hair-dressing parlor in New York the other day, after losing two situations because of her short locks, and said she would lose the third unless her hair grew long overnight, or was made to look as if it had. When she came out she had a "transformation."

This girl's case emphasized the plight of the bobbed-haired girl. Almost all employment agents say short hair means increased difficulties for girls out of work. Mainy employment offices have closed their lists to girls with bobbed hair or have placed such girls as a last resort only.

A large downtown bank refuses to consider a girl, regardless of her qualifications, if her hair has been cut. A big insurance company will take no more girls with bobbed hair. Other commercial institutions adhere to a strong preference for young women with long tresses.

* * *

The case against the bobbed haired girl rests upon several points. Business men say she spends too much time combing her hair in public. It is said also that clerks with bobbed hair do not present the dignified business like appearance that women with long hair present. Another charge is that bobbed hair often brings frivolities of dress not intended for an office.

"There is a growing opposition among business men to bobbed hair," said Miss Owens, of the Elizabeth E. Owens Agency, 165 Fulton street. "The first thing employment managers say is 'no bobbed hair,' and nine out of ten of them are against it: Many make it a hard and fast rule. Business men say a stenographer looks more efficient with long hair, and that it gives an appearance of neatness and responsibility that is detracted from by short hair.

"As a whole, there is a wide sentiment against bobbed haired girls in offices. Some say chewing gum and bobs are about equally bad. I have had girls tell me frequently of having had their hair cut Saturday night and losing their jobs on Monday morning when they went to work. They find it much harder to get jobs when they have bobbed hair. When they can't get work for that reason many girls are forced to buy artificial hair."

**Hair Nets Are Required.**

One agent said some firms required hair nets if their employes already had short hair. A fourth said only one client discriminated against bobbed hair. This was a downtown bank. Some agents said the protests were not as numerous as they had been because there are fewer bobbed haired girls and also because some business men are neutral toward short locks. Many girls put their hair up in knots so the men in the office won't know it is bobbed.

Hairdressers agree with the employment agents. Mme. Fannette of 17 West Forty-second street said that girls applying for switches, transformation and what-nots for their bobbed hair all have the same story. The business world wants long hair.

* * *

One source of embarrassment to companies opposed to bobbed hair is the "summer vacation bob." Girls will bob their hair in hot weather, and when they come back to their offices nothing could be done about it. A manager does not like to dismiss a girl who has proved her capability. This accounts for the fact that even the institutions most antagonistic have some bobbed haired girls in their employ. But they are veteran employees who get away with it.

## SAYING GOOD-BY TO NEW YORK

LAURETTE TAYLOR AND J. HARTLEY MANNERS

Miss Taylor and her author-husband, Mr. Manners, snapped just before they got on the train, west-bound, for Hollywood where Miss Taylor was to make a picture version for Metro of her great stage success, "Happiness," written by Mr. Manners. This makes the second time this noted stage star has appeared before the camera—her first one being in "Peg O' My Heart"—also for Metro—and another of her sensational successes.

## Movie Folks Await 'Action' While Profits Are Checked

By HAROLD E. SWISHER.
(United Press Staff Correspondent)

HOLLYWOOD, Jan. 4 (United Press).—The new year dawns in Hollywood with assurance of prosperity. Actors and actresses of high and low degree, imbued with the undying optimism of their profession, are waiting the call for "action," which studios generally promised would be sounded shortly.

The close of every year finds a general let-down in picture production, while the business office checks over its books, figures up the profits of the season just ended, and plans the program for the new year.

The biggest studio in Hollywood, in point of important players employed and annual payroll, at least, is the Famous Players-Lasky. It is sort of a thermometer by which production in other film canneries is measured, and Hollywood is turned to Lasky's with expectant eye, awaiting the resumption of the camera's grind.

Right now the Vine street plant is silent. Director Sam Wood has finished "The Next Corner," with Lon Chaney, Conway Tearle and Dorothy Mackaill and the big studio, which normally sees from six to ten companies working at once, is practically deserted.

But Lasky's is scheduled to reopen early this month, with a strenuous schedule ahead, and many big features to be turned out during the spring and summer. Other studios will follow suit, and production of pictures for the film lovers of the world will soon be in full swing again.

* * *

Carmel Myers isn't worrying about any studio shutdowns. She signed a contract a few days ago with B. P. Schulberg to portray one of the featured parts in Robert W. Service's "Persian Paradise." She will start on the new characterization within a few days.

* * *

A regulation size boxing ring has been built at the United Studios by President M. C. Levee and boxing matches will be held every Saturday afternoon during the winter for entertainment of the employees. Jack Dempsey officiated at one of the opening programs and refereed the bouts.

Long-term contracts are ruining the careers of popular players and have been largely responsible for the professional death of many stars during the past two years in the opinion of Conway Tearle, one of Hollywood's "free lance" players. Tearle says that "unless the player has definite say as to what parts he or she should portray, there is little hope for the artist who becomes a member of a stock company and signs away his or her services for more than a year."

* * *

That shorter feature productions will come back into favor among producers as a result of the present condition of the production industry is the contention of Maurice Tourneur, well known director, following a recent survey of the producing and exhibiting conditions. "The present slump in the producing industry has proved to film executives that it is a fallacy to make a so-called big production for the sake of achieving a physically big picture," said Tourneur "Many of the 'big' pictures released in recent months in nine, ten or more reels could not only have been told as effectively in six or seven reels, but better."

* * *

Lieutant Winson Hitt, one of the nerviest airplane stunt flyers in the business, is working in Richard Walton Tully's production of "Flowing Gold," from Rex Beach's story. Hitt was badly shot up during the war while an ace in the British Flying Corps. At Plessis Bellville, in France he was shot five times and suffered 27 flesh wounds. He also carries a silver plate trepanned over a skull fracture as a memento of a fall from a plane during the war.

That Mary Pickford and Douglas Fairbanks will leave some time in the spring for an extensive tour of Europe has been announced. Twice in the last year the couple endeavored to slip away from the studio, but on account of engagements have been forced to cancel reservations. This time it is going to be a success, states Mary.

Just to where they will go and how long they will stay is still an uncertainty. "While it is primarily a pleasure trip," said Miss Pickford, "if we should chance to find a story over there, which suits us both, we will make a co-starring production, a thing that we have long wanted to do."

## WOMAN IS SUCCESS AS COTTON BROKER

Philadelphia, Jan. 4 (United Press) —Miss May A. Davis of Philadelphia is believed to be the only woman cotton broker in the United States.

Miss Davis started business for herself four months ago and in that short time has disposed of 20,000 bales. Miss Davis, whose name in private life is Mrs. Hoffman, was a stenographer in the office of a cotton firm until last July. When the firm was absorbed by a larger corpodation Miss Davis entered business herself. Her office force consists of a stenographer who acts as office manager, while the head of the firm is the salesman.

"Any woman can make a success in any business she desires to enter if she will put herself on the same basis as a man and not try to make sales through sympathetic channels," is the view of Miss Davis.

"I believe my success is due to the fact that I have worked hard and kept my head down to my work."

Miss Davis plans to make a large organization out of her enterprise.

## Telltale Symptoms Of Woman's Ills

Every woman who suffers from backache, headaches, dragging-down pains, nervousness, irregularities, displacements, irritability, or despondency should recognise in such symptoms some derangement of her system which should have attention before some more serious ailment develops. These conditions are often evidenced by a sallow complexion, dark circles under the eyes, lassitude and sleeplessness. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been pre-eminently successful in overcoming such conditions and it is now recognized everywhere as the standard remedy for woman's ills.

## WEDDINGS

### LANDER—MARVIN

A quiet but pretty wedding was solemnized on Wednesday, January 2nd at the home of Mr. Jesse Marvin Front of Sidney, when his eldest daughter, Mildred, became the bride of Earl Lander of Brighton, the Rev. Mr. Batstone officiating.

At 11 o'clock the bridal party took their places under an arch of evergreens and white ribbon to the strains of Mendelssohn's Wedding March, played by Mr. Harold Cornell of Belleville.

The bride who wore a dainty frock of peach georgette and carried a bouquet of ophelia roses was assisted by her cousin, Miss Edith Ketcheson. The groom was supported by Mr. Clinton Sager, of Roblin's Mills.

After the usual congratulations, the guests were served a dainty buffet luncheon.

The bride was the recipient of many useful and pretty gifts, the groom's gift being a sunburst of pearls. The groom's gift to the bridesmaid was a rope of pearls, and a pair of gold cuff links to both groomsman and pianist.

The happy couple left on the 2.50 p.m. train for Toronto, Battle Creek, Mich., and other western points and on their return will reside at Smithfield.

**Preservation of the Binder.**

With some men the grain binder is ready for the scrap heap in five years, with other farmers it will last thirty years. A canvas cover large enough to protect the machine from sun and rain should be part of the grain binder equipment. At the close of the harvest season the harvester should be cleaned thoroughly and all moving parts oiled. The needle and the guides through which the twine travels should be greased. The knife should be taken out, dried and wiped over with a cloth soaked in oil, and then put away. The canvas conveyors should be thoroughly dried, rolled up and put away in dry storage. The binder should be packed away in the barn or implement shed out of the way. Do not let the chickens use it as a hen roost. A few poles would be cheaper and would serve the hens just as well.—L. Stevenson, O. A. C., Guelph.

**Teeth Tell Age of Sheep.**

A lamb has eight small first-teeth on the lower jaw. When the animal reaches the age of about one year, the middle pair are replaced by two permanent teeth; at the age of about two, the teeth on either side of these permanent teeth, are also replaced by a permanent pair; at the age of three, the next tooth on either side gives way to a permanent tooth; and at about the age of four, the last or back teeth are replaced in like manner.

Sheep with one pair of permanent teeth is a yearling; a sheep with two pairs is a two-year-old; with three pairs, a three-year-old, and with four pairs, a four-year-old. After a sheep is four years old, one cannot tell by the teeth about the age. However, one who is purchasing a sheep should see to it that it has not lost any teeth, or that the teeth have not become long and shoe-peggy in appearance.

**Collar Sores.**

The best way to relieve the pressure while working the horse is to remove the stuffing from the collar side of a pad, over the sore, leaving the shoulder side smooth. Paint the sore with dilute iodine after removing the collar, first bathing off sweat and dirt. Dust sore with talcum powder before harnessing. Whenever possible, lay off the horse a few days when trying to heal sore shoulders as it will hasten matters.

Cow testing separates the good from the poor and lays the foundation for a good herd.

Sows that habitually starve their pigs should be discarded and none of their descendants kept in the breeding herd.

## THE PARSON O'DUMFORD

"That's raight enew, parson," cried Stockton; "but all the same, if some cursed, cowardly spy hadn't betrayed us the wucks would have been down."

"That betrayal of four evil plans came about more strangely than you can imagine," said the vicar. "I have suspected something, and been constantly on the watch."

"Strange and kind of you, too, parson," said Stockton, with a laugh.

"You will think so some day, my man."

"But I know who it weer," said Stockton. "Theer he stands; it were Tom Podmore. He weer not sweared in."

"Then he did not betray you," said the vicar, as a menacing growl arose; but Tom stood perfectly firm.

"No, it weern't Tom Podmore," cried Big Harry, stalking forward one big shoulder at a time. "If you want to know who did it, here he is —I did; and I'm glad on it. Dal me! I'm glad as th'owd wucks ain't down, and I'll fight any two o' you as don't like it; so now then."

There was another growl, but no one took up the challenge.

"See here lads," cried Harry. "I went away so as to hev now't to do wi' it, and I didn't tell anybody; only telled parson to give Dicky Glaire the word to look out."

"And you was sweered in, Harry" cried Stockton.

"So I weer," said the big fellow; "and as I sid afore, I'll faight any man as don't like it. Well, I goes on to Sheffle to get wuck, and there I happened o' Daisy Banks, and when the poor little lass got how'd o' me, and begged me to tell all about her owd man, why dal me., I weer obliged to tell her how he was a-going to—dal it, parson, don't slap a man o' the mooth that how."

"You've said enough, Harry," cried the vicar. "We want to know no more. I answer for you that you did quite right, and some day these men will thank you, as I do now, for saving us all from this horror. Now my men, you know that Slee and Barker, that stranger, are in the station."

"Oh, aye, we know that," said Stockton. "and I vote, lads, we hev 'em out."

"No, no, let them get the punishment they deserve," cried the vicar.

"Well, lookye here, parson," cried Stockton; "the game's up, I s'pose and you've got the police outside. I was in it, and I'm not gong to turn tail. Here I am."

"My man, I will not know your name, nor the name of any man here. I will not recognize anybody I came here as your friend, not as a spy. I came to ask you to break up your wretched bond of union, and to go forth home as honest men. Where a union is made for the fair protection of workman's rights, I can respect it; but a brotherhood that blasphemes its own name by engaging in what may prove wholesale murder, is a monster that you yourselves must crush. I have no more to say. Go home."

"Parson's raight, lads!" said Stockton, throwing off his defiant air. "Let's go. Parson, it was a d——d cowardly trick, but Dicky Glaire had made us strange and mad

"It weer owd Simmy Slee as made it wuss. wi' cootting o' them bands," said Big Harry. "We should ha' been at wuck again if it hadn't been for that."

"Quick lads!" cried a man, running in. "Sim Slee and Barker's broke out o' th'owd shop, and the police are coming down here."

"Theer parson," said Stockton, with a bitter smile; "th' game's oop."

For answer the vicar pointed to the windows, and in less than a minute, the room was empty though there would have been time to escape by the door; for the one policeman coming on the mission to see if Slee had made for the meeting-place of his party, did not hurry his footsteps, partly from reasons of dignity and partly because he was alone.

### CHAPTER LII

### A Faithful Lover

The announcement was quite correct. Sim Slee and his companions had broken away through the ceiling dislodge the tiles, and escaped; and when the vicar reached home, he found Mrs. Slee waiting up for him, trembling and pale, while her eyes were red with weeping. She clung to him hysterically, and asked if the news was true, and that her husband was in prison.

"They came and told me the police

# KITCHEN SINK SERVICE

## Where and How to Place This Very Necessary Article.

### Hot Water For the Farm Sink—Have One of Generous Size—Location and Height Important—How to Combat Scours In Calves—Lubricants for Farm Machinery.

(Contributed by Ontario Department of Agriculture, Toronto.)

The simplest arrangement for a kitchen sink service that supplies cold water only is a small pitcher pump mounted at the edge of a sink. This is the first step in improvement over the outdoor pump and cistern. For the hot water service at the sink, it is necessary to have a heating arrangement which is best supplied by a water front in the range, a water reservoir and a supply of cold water under pressure. The water under pressure may be furnished through the use of a pressure tank system, an attic tank or a gravity supply.

**Place the Sink at the Proper Height.**

The height of the kitchen sink is of great importance. The location of the most flexible joint in one person's backbone is not a standard for all. The correct height of the sink is a matter that must be determined by the person who is required to work over that particular sink. Every woman knows that working over a low sink is anything but pleasant.

Watch the man who installs the sink, and see that the height is satisfactory. The bottom of the sink should be just six inches below the point of your elbow. Such little attention to detail while the work is being done may save you many a backache. If you do not issue any instructions to those installing the sink, it will, in all probability, be installed at a height of thirty inches, which is correct for a woman only four feet, eight inches tall. You may be taller than that.

**Have One of Generous Proportions.**

Considerable choice can be had in size, design and material in kitchen sinks — the shape, weight of metal and quality of enamel largely determine the price. If the size of the kitchen will permit it, a sink of generous proportions is to be recommended. The drain board is important and generally desirable, but sometimes a movable flat wire basket or rack suspended over the sink is more desirable. Taps, faucets, or bibcocks of various types and quality are offered by the trade. The ordinary brass or nickel finish compression faucet is generally satisfactory. These may be had in either screw joint or solder joint.

**The Location Is Very Important.**

The kitchen sink should be located at a convenient point beneath a window or on a wall opposite a large window, so that the lighting may be good. Do not build the sink in with shelving, cupboards or closets unless you are prepared to cover all woodwork that is likely to be splashed with greasy water with copper sheeting. Open plumbing for the sink is to be preferred on the score of accessibility and cleanliness. The cockroach loves wet woodwork and grease. So try to avoid conditions that attract such insects. Locate the sink, if possible, on a wall on which there are no cupboards or cabinets, and do not consider anything but a high back type of sink. It may cost a little more but it is worth it when we consider the added service that such will give.—L. Stevenson, Dept. Extension, O. A. College, Guelph.

### Alcohol From Acorns.

It has recently been stated that alcohol can be made from acorns. When shelled they contain about 40 per cent. of starch, which can be readily saccharified and then converted into alcohol. The alcohol, it is suggested, can then be used as a motor fuel.

### How to K[illegible] [illegible]weed.

Get on the field just as soon as the land is dry enough to permit of cultivation. Do not give the bindweed a chance to make any early spring growth. If the field is in sod, plow shallow. If the land was plowed last fall it will not be necessary to plow again this spring. Cultivate every week or ten days with a cultivator with broad points, that will cut all the plants off an inch or two below the ground without bringing the creeping root-stalks to the surface. Continue cultivation until the 24th of May or 1st of June. Then plant corn in hills 42 inches apart each way so that it can be cultivated both ways. As soon as the corn is up, cultivate it with a corn cultivator at least every two weeks, oftener if possible. Just as soon as the corn is cut plow out the stalks and cultivate every ten days or two weeks with the broad-shared cultivator. It is very important to cultivate again as soon after the corn is cut as possible, so that the bindweed will not have a chance to get started into growth.

The last thing in the fall rib up the land into drills, and allow to stand over winter. The frost in all probability will render material assistance in the eradication. The following spring start cultivation with the broad-shared cultivator as soon as you can get on the land. Repeat frequently enough to prevent the bindweed making any growth above the ground, until the first or middle of June. Then sow pasture rape (Dwarf Essex variety) or turnips, in drills 26 to 30 inches apart, at the rate of about 1½ pounds per acre. As soon as the crop is up, cultivate every week or ten days until it occupies all the ground and makes further cultivation impossible. If the bindweed should get started in the rows, hoe it out as completely as possible. This, however, should not be necessary if the previous cultivation has been frequent and thorough. This plan requires two years to complete, but it is worth doing.—J. E. Howitt, O. A. College, Guelph.

### A Record of Service.

After serving on the Windsor police force 52 years, a record believed unsurpassed in Canada, Patrolman Joseph Langlois died at his home in that city on June 17th. He was 71 years old, a native of Windsor and had been a policeman since he was 18 years old. He joined the force at the time of the magistracy of Judge Caron. In all his long years of service, Patrolman Langlois never missed a day off duty until he completed his half-century of service, then he was prevailed upon to take fourteen days' leave.

Recently he was placed on the retired list with a pension, but news that he would no longer walk a beat brought no joy to "Joe." Instead, his friends say he began to develop the disease which ultimately caused his death.

### No Gold In Labrador.

W. Morley Ogilvie, mining engineer, has returned from Labrador, where he was sent by the Labrador Goldfields Limited, to ascertain what prospects there were of finding gold in the leases sold by this company.

Mr. Ogilvie says that he found no gold. There is no gold as far as he can ascertain in the district. In a report to the company he states that the assumption of the geological department as to the probable action of glaciers at Stag Bay was not sustained by his investigations.

Mr J. Lambert Payne, the vice-president of the company, says:

"This is to me a bitter disappointment. I believed in the thing, and, to the extent that I influenced some of my personal friends, I feel humiliated and discredited. This simply means, however, that I was deceived along with many others, and I am a loser as well as they.

"I have but one consolation. In all our advertising, we presented the proposition as an absolute gamble. No one could have been misled into the belief they were taking up a sure thing."

LOOKING INTO THE FUTURE
HYDRO POWER

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps admittedly combine the qualities which embody all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Train No. 27 will leave Montreal 9.45 p.m. daily except Saturday (instead of 9.45 p.m. daily) arrive Toronto 6.40 a.m. daily except Sunday (instead of 6.40 a.m. daily). Leave Belleville 2.30 a.m. daily except Sunday.

### ATTENTION, MR. NEW!

Plymouth, Eng.—A letter, tossed about in the Atlantic for three weeks has been received by a man here. His son, an engineer on a steamer bound for Vancouver, put the epistle in a sealed tin with a tiny flag attached, and cast it overboard. A fisherman found the can along one of the shores of the Azores Islands and forwarded the letter by post.

## ADDITIONAL SPORTS

### O.H.A. OPENER AT ARENA TONIGHT

### Belleville Intermediates and Frontenacs Clash at 8-15 p.m., Dr. Jerry Laflamme Officiats

Everything is in readiness for the opening of the Intermediate O. H. A. opener here to-night at the Arena. At 8.15 this evening Dr. W. J. Laflamme, of Toronto, will sound the bell, calling the Belleville squad on the ice to combat the Frontenacs of Kingston. It will no doubt be a battle royal and there is every prospect that a large crowd will be present to encourage the boys along. It will be the first game to be played in this district.

Owing to continued mild weather the latter part of December, ice was not available for practice, but in this respect both team are on the same footing. Since ice has been available members of the local team have been hard at work preparing themselves for the initial game. That they will give a good account of themselves goes without saying. The ice is in first class condition for the event and fans should have the opportunity of witnessing a fast game.

The Frontenac team arrived in the city at noon to-day and are reported to be in good condition for the struggle.

The locals will be represented by a team chosen from the following line-up so Manager Ed. Thomas stated at 1.30 p.m.

Goal, Pat Boland; defence, Bill Green and Bill Finkle; forwards, Vern Weir, Frank "Soup" Goyer, Stan. Hagerman, Clayton, "Bunny" Frechette, Doug. "Daw" Whalen, Harry MacNeill, Sammy Symons, Jack Buckley and Bill Canning.

### OLYMPIC TEAM EASY WINNERS

### Many Prominent O.H.A. Officials Present at Contest

Niagara Falls, Jan. 4.—The Canadian Olympics playing some remarkable hockey, defeated the Niagara Falls intermediates O. H. A. team, 10 to 1, in an exhibition game here last night, the contest featuring the opening of Niagara Falls' new artificial ice rink. Mayor Newman officially declared the Arena opened while the occasion was graced by the presence of President W. A. Fry, of the O. H. A., Treasurer Sheriff J. F. Paxton, Secretary W. A. Hewitt, Chairman of the Canadian Olympic Committee, P. J. Mulqueen and Allan German of the O. H. A. Executive.

The Olympic team was at full strength with the exception of defence player, Beattie Ramsay, who was unable to accompany his team-mates. Charlie Dinsmore of Aura Lee and Ross Paul of St. Andrew's College were brought along as substitutes. Harold McMunn, the Winnipeg boy, and Sig Slater of Montreal who will go to France with the team, were on hand and played splendid hockey. Harry Watson was at his best, while Dunc Munro and Hooley Smith made a great pair defensively and on the attack. Bert McCaffery was used at right wing and on the defence, and was always dangerous.

#### MORE EXPERT WITH COLORS

"Madge's portrait makes her prettier than she really looks."

"That's not surprising. The artist paints better than she does."

### VARSITY TEAM DEFEATS BOSTON

### Overtime Necessary to Determine Winner of Game

Boston, Jan. 4.—In a fast hockey match at the Arena last night, the University of Toronto defeated Harvard University by 2 to 1. The Cambridge players were much faster than in earlier games and made the Toronto stars extend themselves particularly in the third period in which the Crimson played finely on the attack.

The Canadians got one goal in the opening period in which, Hudson made a fine backhand lift, after receiving a pass from Wright. Hudson made Toronto's goal in the second period, whipping off a long shot from Westman's pass out. Beals scored in the third period for Harvard after taking a pass from Hill. Harvard did a lot of shooting after that but could not get the puck past Thompson.

#### VOLLEY BALL LEAGUE

A city volley ball league will be formed next week, competition in which wil be for a permanent trophy and individual trophies for players on the winning teams. Teams already to join are Y Business men, Albert College, High School and Y Leaders' Corps.

#### TRI-COLOR COMMENCES TOUR

Kingston, Jan. 4.—The Queen's baske ball team left yesterday for its series of games across the border. The trip should put the squad in good shape for their first senior intercollegiate battle.

### Few Folks Have Gray Hair Now

#### DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by using at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

### RICH AT CONCERTS POOR ARE STARVING

By GUS OEHM
(United Press Staff Correspondent)

Berlin, Jan. 4.—(By mail to United Press).—Fritz Kreisler, famous violinist, this year played to standing room only at a benefit concert in Berlin—undesirable seats on the platform costing $2.00, with others in accordance.

Last year Kreisler played a similar benefit with the best box seats costing the equivalent of 7 cents. This tells in a word the difference between the Berlin of 1923 and the Berlin of 1922.

Battistini, Caruso's old rival for favor in Berlin, recently played to a crowded house a the State Opera on Under Den Linden for prices which averaged about $1.00 higher than Caruso ever received here. Yet the public fills the Opera when old Battistini appears—no matter what the price may be.

And across the Spree, behind the museum which was once the castle of Wilhelm II., hundreds of unemployed are at the point of starvation. It is one of the paradoxes of German life which, as one observer put it, makes everything one says about Germany true.

This adver[illegible] London Public Adviser just fifteen years after Montreal was founded: "That excellent and by all Physitians approved China Drink, called by the Chinese Tcha, by other nations Tay, alias Tee, is sold at the Sultaness Head, a cophee-house in Sweetings Rents, by the Royal Exchange.

#### Co-operation.

In co-operation lies the solution of the farmer's problem. They should be co-workers, not competitors. In helping each other they will help themselves. If our farmers will get together, work together, and play together they soon can be in a position to receive their just compensation along with the producers of other world commodities, and that happy day will be hastened when farm life will offer all the pleasures and rewards that so justly belong to the most essential workers in the world.

#### $7,335 In Old Bureau.

A combined Sheraton bureau and bookcase, which was brought from a dealer recently by the wife of a Manchester corporation official for $100, has yielded up from secret drawers several bonds and probate of a will relating to property of the value of $7,335.

The dealer had indicated the location of two secret drawers, but investigation by the purchaser brought to light three more secret recesses.

The will is dated November, 1908, and is drawn up by Mrs. Sarah Kershaw, No. 16 Meadow street, Moss Side, Manchester. A Manchester corporation bond for $100, redeemable next month, and a Stockport corporation bond for $500 was discovered.

# RETIRING MAYOR IS HONORED AT FAREWELL FEAST

### Speakers Pay Tribute to Record of Geo. A. Bennett

### MANY GUESTS

### Numerous Municipal Issues Are Discussed in Response to Toasts

Co-operation of all citizens in supporting the City Council of 1924, to advance the city's interest was especially urged by several speakers at the banquet at Queen's hotel last night given by Mayor Bennett, to the members of the City Council, city officials and others. There was much praise to Mayor Bennett for the ecicient manner in which he had discharged his duty as the presiding officer of the city for 1923.

The affair was one of the most pleasant functions which has taken place in the city for some time.

Col. E. D. O'Flynn presided over the gathering and those present were as follows:

Mayor-elect Mikel; Warden J. V. Walsh, J. E. Elliott, Wm. Harden; Ald. A. Robinson; Jesse Harris, Ex-Mayor Ketcheson, R. Tannahill, B. C. Donnan, Ald. G. E. Foster, Ald. W. R. McCreary, Ald. R. Gardiner, Ald. W. Patterson, Chief A. Kidd, J. W. Holmes, H. B. Stock, Ad.-elect D. V. Ketcheson, Ald. H. Thompson, E. T. Austin, C. Mott, L. P. Hughes, W. H. Pantry, J. O. Herity, H. J. Clarke, Fire Chief Brown, E. P. Frederick, Ald. R. Adams, Mayor Bennett, E. G. Porter, K.C., M.P., Judge Wills, E. T. Ketcheson, J. Henderson, S. R. Burrows, J. Youdale, Col. E. D. O'Flynn and press representatives.

The toast list and those responding were as follows:

"The King"—National Anthem by the Company.

"Canada and the Empire"—Judge F. J. Wills proposed the toast in a most appropriate manner and in his opening remarks said he was pleased to see such a representative gathering at the Mayor's banquet. We can feel proud of Canada as part of the British Empire, the greatest of all Empires. It should be the aim of all to work together as one man for the Empire, Canada, and our fair city.

Song—"O Canada."

In responding Ex-Mayor H. F. Ketcheson first thanked Mayor Bennett for inviting him, and also stated His Worship was one of the best mayors we ever had. Citizens generally owed Mayor Bennett a debt of gratitude for the energy he had displayed whilst the chief magistracy of the city. He, (the speaker) was proud of the fact that he was a Canadian and belonged to the British Empire. We have risen from the ashes of the great war and many countries were looking to Great Britain to help extricate them from the difficulties they are in. Today Germany realizes that the Britishers are their best friend, despite the fact that the British troops fought them hard during the war. We are proud that we belong to such a race of people and the British Empire. There are no people so happy as those who

(Continued on Page Six)

# ATTENDANCE AT MARKET LIGHT

### Few Changes in Prices of Products Offered

Owing to the snow strom prevailing today the attendance at the local market was light this morning. There were but few changes to note in prices of products offered for sale.

Dressed fowls, chiefly chickens, were quite plentiful and brought good prices. A few turkeys were sold at $4 and $5 each, equalling about 35 cents a pound. Ducks sold at $1.40 to $1.50 each and chickens at $1.25 to $2 a pair.

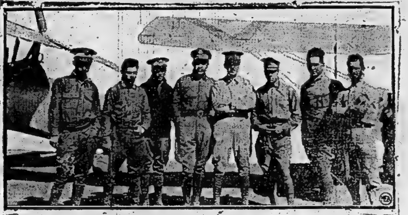
## A Rare Sight



A photograph of federal aviators of Mexica is an unusual sight indeed. Many persons do not even know Mexico has aviators. This exclusive photograph shows eight of them.

# NEW DIRECTORS OF COMMERCE CHAMBER NAMED

### Ackerman, Bone, Deacon, Fairfield and Moffat Are Chosen

### DEACON, NEW MAN

### Robertson and McGie Retire After Splendid Records of Service

In the final election for directors of the Belleville Chamber of Commerce which concluded at four o'clock yesterday afternoon the following five gentlemen were elected for a two-year term: H. W. Ackerman, Jamieson Bone, F. S. Deacon, H. E. Fairfield, J. G. Moffat.

Mr. Ackerman is Vice-President of the organization and has been a director continuously since the Chamber of Commerce was first organized in 1919. He has been one of the most faithful and enthusiastic workers on the Board and his re-election by a handsome vote yesterday is a tribute to the energetic manner in which he has carried out his duties.

Mr. Jamieson Bone has also been continuously a director since the first organization of the Chamber. He is a member of the firm The Patterson Construction Company which during the year just closed has carried out very important building contracts in connection with railway and highway construction. Mr. Bone has been most energetic in the promotion of Chamber of Commerce interests and was its president during the first two years.

Deacon, New Man

Mr. F. S. Deacon is now introduced to the Board for the first time but he needs no introduction to the citizens of Belleville. He has been for many years a valued member of the Board of Edu-

### DEMONSTRATIONS AT HARDING'S TOMBSTONE

Marion, O., Jan. 5.—Lieut. Roswell B. Harriman, in charge of a detail guarding the cemetery containing the tomb of the late President Harding, issued orders Thursday to his men to shoot to wound any persons trespassing near the tomb.

The order followed reports by privates on duty there that on several occasions recently rocks had been thrown at the tomb of the late president.

Soldiers have been startled on other occasions by the mysterious blowing of bugles at midnight.

Miss Kindler and Miss Janet McCoy have returned to Simcoe to resume their duties after having spent their Christmas holidays at home.

# MAJOR R.D. PONTON MAKES EXCELLENT SUGGESTIONS FOR BELLEVILLE'S WAR MEMORIAL

The following communication in which excellent suggestions are made in connection with the War Memorial project has been received from Major R. D. Ponton, who is a veteran of the Great War:

-Belleville Jan. 3. 1921

The "Memorial" Editor,

Daily Intelligencer.

I have been particularly interested in the many excellent suggestions that have been made regarding the erection of a suitable "Memorial" commemorating the valor and memory of those of our comrades who made the supreme sacrifice and paid the supreme price during the Great War. I have been greatly impressed with the excellent suggestion of Ex-Mayor J. E. Walmsley. Very soon the City of Belleville will be obliged to erect a new bridge over the River Moira owing to its dilapidated condition, and narrowness, and owing to the greatly increased traffic over it by reason of the Provincial Highways and the enormous increase in this mode of transportation due to the perfecting of the Highways.

Bridges in France.

In France, and particularly over the River Seine, there are magnificent memorial bridges, whose architecture is beautiful. I believe that a one-arch span over the River Moira, the full width of Bridge Street, made entirely of cement and marble, both obtainable in our own County of Hastings, designed by MacKenzie Waters, the Architect, a Belleville boy and a returned soldier, and the whole structure built by men who served in the Great War, would be a fitting, suitable and permanent Memorial to those whose memory we do not forget. Such a Memorial could not escape the eyes of all tourists passing through Belleville East and West as they would be obliged to pass over it. I am sure that our local contractors would be only too delighted to render co-operation and assistance for such an object, forgoing profit, and I am sure that all our citizens would welcome the opportunity of doing some act towards the erection of the Bridge whereby it would be a gift from ALL the citizens rather than the money being raised from a few; even the children in our schools would be glad of the privilege of giving a modest penny for such a worthy cause. The names of our honoured dead would of course be in-

(Continued on Page 3).

# TWO HYDRO EXPERTS SERIOUSLY BURNED

### Wilfred Vandervoort and Walter Hutchison of This City Burned About Face and Hands at Bowmanville Sub-Station at 5-15 p.m. Yesterday — Their Condition is Not Serious

While wiring the Goodyear sub station at the Hydor Electric Power Commission at Bowmanville yesterday afternoon Wilfred B. Vandervoort and Walter Hutchison of this city were severely burned about the face and hands when there was a short circuit on the wires, and an arch of flame burst forth with a sudden flash. The accident occurred about 5.15 p.m. and workmen who noticed the arc of light, rushed into the room where the Belleville men were at work, and immediately summoned physicians who hurried the men to Bowmanville hospital, where their injuries while painful are not regarded as serious.

How the short circuit, if it was a short circuit, occurred, baffles Hydro employees here, as both men are expert wire men, who were sent to Bowmanville to do this important piece of work. Another most unusual feature of the unfortunate occurrence, is the fact that neither Vandervoort nor Hutchison received an electric shock, though they came in direct contact with the electric arc flame. When the accident occurred, the switches in the power house there were automatically tripped. Both men had been up at Bowmanville for two days on the work.

# LABOR CAN RULE IN BRITAIN WITH OTHER PARTIES' CONSENT

By J. W. T. MASON

(Written for the United Press)

New York, Jan. 5 (United Press).—If a Labor Government is formed in Great Britain this month, in succession to Premier Baldwin's ministry, no important labor legislation can be passed. Ramsay Macdonald, the Labor candidate for the Premiership, will not have a majority in the Commons, and can carry on only with the benevolent consent of the Liberals. Liberal approval will be withdrawn immediately labor attempts to bring in legislation affecting any of its major contentious projects.

In home affairs, the Laborites desire to nationalize the railways and mines. They would find the necessary money for the purchase by issuing Government bonds, based on the value of the properties. They would use the accruing profits from mine and railway operation to pay the interest on the bonds and to create a sinking fund for retiring all the bonds within a period of years.

Forsee Deficits.

The Liberal and Conservative objection to this policy is that no Labor Government could make the mines and railways pay. There would be too much pressure from the trades unions for raising wages and reducing fares and the price of coal. So, instead of the properties creating profits, there would be annual deficits that would have to be taken care of by increased taxation.

The Labor policy for curing the unemployed evil is very vague. The labor leaders say unemployment is linked with British foreign trade and can never be overcome until Britain finds more markets abroad. This is the basic reason why a Labor Government would immediately recognize the Soviet Government of Russia. Labor believes recognition would be followed by establishing confidence in Russia among financiers and would result in Russia successfully floating foreign loans. With the proceeds of these loans, Russia could buy abroad.

There would thus be the necessary stimulus for a general European trade revivals, and British unemployment

(continued on page five)

### HOCKEYIST IS FINED.

Calgary, Jan. 5.—A fine of $50 has been imposed on Duke Keats, of the Edmonton Eskimos by E. L. Richardson, president of the Western Canada Hockey for his misconduct in the New Year's Day game at Edmonton, when he climbed into the stands and threatened to attack a spectator. The president, in his statement yesterday warned all players on the Prairie circuit that they would be severely dealt with in the event of any further attempts at rowdyism.

Frank Sparrow also of the Eskimos has been suspended until Jan. 6 for his interference with Referee Poulin during the game New Year's Day at Edmonton.

## To Hear Insects?

Top photo shows the delicate "ultra-audible" instrument, invented by Dr. Phillips Thomas (lower photo) of Westinghouse Electric Company. Dr. Thomas believes it will be possible to hear insects with the new device.

### LABOR TO TAKE OVER REINS IN BRITAIN, JAN. 17

(United Press Despatch)

London, Jan. 5.—Labor's "Red Dawn" when for the first time the workers of Britain will take over the Government, has now been fixed at January 17.

# ONE DEATH IN HOSPITAL FIRE AT MONTREAL

### Hundreds of Helpless Patients are Rushed from $100,000 Fire

### CATHOLIC HOSPITAL

### Heroic Work of Sisters and Firemen a Feature—Cause Unknown

Montreal, Jan. 5.—Another Catholic institution fell prey to fire of mysterious origin yesterday morning, when the main building of the Hospic Gamelin, on St. Catherine street, at the corner of Dufresne street, which harbored two hundred and fifty aged and crippled men and women, was badly damaged by flames which swept the roof and top storey from one end of the huge building to the other. One victim was claimed a totally crippled man of sixty-four years of age, who died from shock, the remaining two hundred and forty nine helpless inmates having been rescued by the combined efforts of the sisters, firemen and citizens. No estimate of the damage suffered could be made this morning as the building was in such a condition that no person but the firemen could enter, but it was admitted by authorities that the figures would reach about $100,000. Firemen of three divisions worked for over three hours before the outbreak was controlled. The blaze broke out in the northern corner of the roof in the main building at 7.30 while the patients were at breakfast and had eaten its way some distance before it was noticed. An alarm was immediately turned in and before the firemen of the eastern division arrived the sisters had begun the work of bringing their charges to a place of safety.

The cause of the fire is unknown.

At one time during the height of the outbreak, the Mother House of the Sisters of Providence which adjoins the ruined building, was in deadly peril, but the firemen threw a solid wall of water which barred the flames from leaping the intervening space. The patients had been conveyed to the Mother House and if this building had caught fire the death list would have been appalling.

# THREE MORE BODIES OF CREW OF DIXMUDE ARE FOUND BY DREDGES

United Press Despatch

Paris, Jan. 5.—An anchor and telephone wires believed to have belonged to the ill-fated French dirigible, Dixmude, have been found by dredgers, according to despatches form Sciacca. A wireless despatch from Toulon announces the finding of three bodies, supposedly of the Dixmude's crew, also by dredges.

### THREE TRUSTEES TO BE APPOINTED

At the inaugural meeting of the 1924 City Council on Monday morning the 14th inst. there will be considerable business to be transacted. Three High School Trustees will have to be appointed to the school board, those retiring being Mr. J. Elliott and Dr. O. A. Marshall, and Mr. Thos. Marshall, who resigned. The two former will in all probability be reappointed, but it is not known who the third representative will be.

At the meeting members of the Board of Health, members of the Court of Revision and a member of the Corby Public Library will be named.

Berlin, Jan. 5 (By Mail to United Press).—About 25 per cent more automobiles today travel the streets and roads of Germany than in 1922.

And this despite the unfavorable conditions generally reported in almost all branches of industry.

The number of motor propelled cars according to federal automobile industry 923, as compared with 126,403 on July 1, 1922.

This means an increase of 25 per cent. in passenger cars and about 20 per cent in trucks.

# DEMAND VENIZELOS ABOLISH DYNASTY OF GREEK NATION

## Shot

Courtland S. Dines (above), Denver society man, was shot by Horace A. Greer, chauffeur for Mabel Normand. The shooting took place in Hollywood at Dines' home.

# Railway Workers Reject Wage Cut

United Press Despatch, Exclusive To The Intelligencer

London, Jan. 5.—Incomplete returns indicate that 60,000 locomotive engineers and firemen who balloted on the railway wage board award have emphatically rejected the proposed reduction of wages.

### CHILD FLOGGED BY IRATE PARENT, DIES

United Press Despatch, Exclusive To The Intelligencer.

Calgary, Jan. 5.—Because his two children hid the key to his violin case and refused to tell its whereabouts, William Sillsabeck, a farmer at Hanna, whipped them so badly that Willie, six-year-old, died and Mary, ten-years-old, is in a serious condition.

### EXPRESS APPRECIATION.

Mr. and Mrs. F. Guay who suffered the loss of their home recently by fire desire to express their appreciation of the kindness shown them by friends of the surrounding community.

### OUTBREAK OF FEVER.

There is a serious outbreak of scarlet fever at Sulphide. The school has been closed and all public gatherings forbidden for the time being.

### NEW NOMINATION NECESSARY.

A new nomination meting will have to be held at Wellington, Prince Edward County owing to the fact that only two Councillors were selected at the recent nomination. It will be necessary to elect two more Councillors. Those elected were Fletcher Gualf and Clare Platt.

### PETER THE HERMIT LOSING HIS HOME

Hollywood, Cal. (United Press).—Peter the Hermit, who, ever since Hollywood's sudden rise to fame as the home of movie celebrities, scandals and "sypathetic" gin, has been one of the landmarks pointed out to the visitor, along with the home of Mary Pickford, is being crowded further and further into the foothills by civilization. In fact there is some doubt that he is a hermit any more.

For 16 years, Peter has been a familiar figure on the streets of the city. Bareheaded and bare-footed, with his faithful dog, Dixie, and his donkey Lizzie, as his only companions he has roamed at will. But now, the energetic real estate subdividers are encroaching on his kingdom. His hillside hut is no more a place of seclusion.

Any day now the natives are expecting the Hermit to pack his tent, take his dog and donkey and steal silently over the hill, where he will no longer be bothered by the worry, love, hate and excitement of the present day.

# THIEVES SEEK TO ROB GOVERNMENT'S BANK

Toronto, Jan. 5.—Daring thieves were discovered yesterday to have made a bold attempt upon the Government Building in Queen's Park which houses the head offices of the Provincial Savings' Bank; to have succeeded in entering it and to have cracked one of the safes inside it. Provincial and city police are devoting all their energies to an endeavor to trace the robbers, but so far no clue has been discovered to suggest their identity.

### Former Greek Premier finds Self Between "Devil and Deep Sea" on Return to Native Land.

### TO RECOGNIZE RUSSIA

### King George Cannot Return to Greece Until Plebiscite Decides Future Status of the Nation

United Press Despatch, Exclusive To The Intelligencer.

Athens, Jan. 5.—Former Premier Venizelos found himself between 'the devil and the deep blue sea' when he awoke at noon here today. The same committee which forced the departure of King George and Queen Elizabeth two weeks ago, on behalf 1700 Republican army officers today called on him and presented an ultimatum that the new govenment must declare the Glucksbourg dynasty abolished in Greece.

Athens, Jan. 5.—Greek Government learns that the little Entente has decided to recognize Russia. M. Curza, Greek Secretary of Foreign Affairs arrived at Belgrade last night to work out with M. Mintishitch the formula of recognition which will be sumitted to the little Entente Conference in January.

Athens, Jan. 5.—King George will be allowed to return to Greece until there shall have been an impartial plebscibe in which the nation shall vote for a kingdom or a republic, Eleutherios Venizelos said today.

### FRANKFORD LODGE INSTALS OFFICERS

Officers of Frankford Lodge I. O. O. F. No. 283 were last night installed in office. The installing officer was Bro. G. G. Way, D.D.G.M., of this city, who was assisted by several of the brethren from the local lodges. After the ceremony a banquet was given at which addresses were given by the D. D.G.M., and other visiting brethren.

### CHAMPION ARGYLLS MAKE READY AGAIN

The Argyll rifle Association of this city, Dominion champions in the Gallery rifle competition for the years 1922-23 have entered their team for the third years' competition, so Major D. T. McManus stated this morning. If the team wins the cup this year, they retain it permanently. The first shoot for the championship will be held at the armouries here on January 28th.

With a view to winning the valued trophy again, the Argyll rifle men will commence to practice next Monday evening, and will continue practicing Monday ad Friday evenings of each week. Cadets will hold their practices on Saturday afternoons.

### QUACK PHYSICIANS IN ARGENTINE, DISCOVERY

Buenos Aires Jan. 5 (United Press).—The police have started an energetic campaign against the many irregular practitioners of medicine in the Argentine, who, by means of advertisements with promises of marvelous curative treatments for all diseases, have for a long time carried on a lucrative and fraudulent trade. Many deaths have been proved to be caused by the intervention of these medicine quacks although peasant people have' more faith in them than in a certified doctor.

Mr. G. H. Holton has rented his house on Albert St. to Mr. R. A. Carman who has returned from Regina, Sask., where he has been practising law for the past 18 years. Mr. Holton is now residing in the old Holton Homestead on Charles St.

### BELLEVILLE LODGE INSTALS OFFICERS

Installation of officers of the Belleville Lodge A. F. & A. M. No. 123 occurred in the Masonic Temple on Thursday, January 3rd. The installation ceremony was in charge of Rt. Wor. Bro. H. J. Clarke who was assisted by M. Wor. Bro. W. N. Ponton, Rt. Wor. Bro. Adams, Rt. Wor. Bro. Backus, M Wor. Bro. McOie and others.

Following is the list of officers for the ensuing year, 1924.

W. M.—Wor. Bro. I. Stephenson.
I. P. M.—Wor. Bro. F. H. Chesher.
S. W.—Bro. J. B. Boyce.
J. W.—Bro. C. A. W. Thompson.
Chap. Bro. T. D. Ruskin.
Treas.—Rt. Wor. Bro. R. A. Backus.
Sect.—V. Wor. Bro. John McCarthy.
S. D.—Bro. V. H. Graves.
J. D.—Bro. A. F. Stillman.
I. G.—Bro. W. J. Reed.
Tyler—Bro. W. J. Johnson.
D. of C.—Rt. Wor. Bro. W. O. Adams.
Organist—Bro. W. E. Wheatley.
S. S.—Bro. H. W. Dillnut.
J. S.—Bro. H. G. Belsay.
Auditors—Rt. Wor. Bro. H. J. Clarke, Rt. Wor. Bro. R. A. Backus.
Aud. of Trustees Book—Rt. Wor. Bro. W. O. Adams.

After the business of the evening the brethern enjoyed a bounteous banquet and the toast list was presided over by Wor. Bro. F. H. Chesher and the musical director Bro. W. E. Wheatly. Bro. Rev. F. E. Malott was the speaker of the evening and in a splendid address told the story of St. John the Evangelist which was enjoyed by all.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### GOUIN'S RESIGNATION

Students of Roman history, especially as it is interpreted by William Shakespeare, will recall that disaster befell the rebel forces of Brutus and Cassius on the plains of Phillippi only after the famous Brutus-Cassius combination had been "jimmied" by Marc Antony, the "father of political propaganda."

Skipping a short interval, as time is reckoned by profound students of world history, we find a situation analogous in many respects to the Brutus-Cassius affair. The King-Gouin partnership has been dissolved by the resignation of Sir Lomer Gouin from the King cabinet.

There could never have been a doubt in the mind of any keen student of national politics as to Sir Lomer's actual relationship to the administration of Mackenzie King since the latter's induction into office Gouin has been a sort of a combination of Cardinal Richelieu and another Marcus—Mark Hanna, the shrewd Yankee propagandist and "fixer" of the McKinley administration.

However, the King-Gouin combination apparently has been "jimmied" by fate. While one might reasonably view the resignation of the Minister of Justice as a diplomatic gesture and suspect an esoteric arrangement calculated to promote factional interests, the conclusion that ill-health was the motivating influence and that the combination has at least been effectually vitiated appears to be the most logical one.

Sir Lomer Gouin, as the Laurier of a powerful Liberal group in Quebec was not welcomed with open arms into the inner councils of the Government by Mackenzie King and his intimates. in the genesis of the administration a left handed coalition with the radical wing of the Western Progressive party was recognized as a strategic move.

Since that time the influence of Sir Lomer Gouin and his Liberal faction has been clearly evident and at times shockingly obvious. This influence will undoubtedly be lacking hereafter, since there is no available man fitted by circumstance and qualifications to succeed Gouin as the aggressive champion of the Quebec Liberal faction. Nor is there any man within the administration or close to Government circles peculiarly equipped to fill the eminent position occupied by Sir Lomer.

Sir Ernest Lapointe because of his political antecedents and his present position could not, as Minister of Justice, fill the void created by Gouin's resignation. Even conceding that he possesses Gouin's ability, he could not carry forward the standard of the man to whom a portfolio was merely an open sesame to the inner circle—similar, in a relative sense, to a seat on a stock exchange.

It appears that Sir Lomer Gouin's active career is ended and that until the Government bark is dashed to pieces on the rocks of an adverse election, a different course will be steered. As Lieut. Governor of Quebec or a member of the Upper Chamber, Sir Lomer will be a political Sampson shorn of his locks. The Gouin-King combination has gone by the board.

## EDITORIAL NOTES

Well, after all a little snow at this time of year seems more natural.

—o—

They appear to be determined to "get at" something in the Portsmouth prison probe. Like Samuel Weller, we expected they would learn something at last.

—o—

It is difficult to determine the identity of a bootlegger. They are so "retiring" in certain circumstances and are so adverse to publicity. And then they are so numerous that searching for them is like hunting for a needle in a strawstack.

—o—

It seems strange that the names of movie actresses are so frequently involved in murder cases. These hard-working women who devote their lives to the public seem to be unfortunate. Perhaps if they watched their steps a little more closely they would achieve less notoriety.

## PRESS OPINIONS

### SMOKE NUISANCE.
(Border City Star)

Of course the problem will never be entirely solved until the movements to abolish the burning of raw coal becomes universal. That will be a broad economic departure, involving among other things the electrification of our railroads and the construction of numerous coke ovens, where smoke will be saved and put at work. But until then such measures of smoke prevention as are possible should be taken. Let's have our city as clean as it is possible to make it.

• • •

### MORALITY UP TO DATE
(Woodstock Sentinel-Review)

The truth is there is need for men and women to bring their morality up to date Everybody knows that it is wrong to cheat; yet in practice few people stop to think that it is wrong to cheat their own country.

They will stand up for their country, they will fight for it and if necessary die for it; but they will rob it, if they get a chance, and do it with a clear conscience. People have acquired a knowledge of some of the duties of patriotism; they forget some of the elemental principles of morality.

• • •

### PLANNING DEVILTRY.
(London Advertiser)

A prisoner wanted in Toronto and Hamilton for robbery on several occasions is now held in Minneapolis.

He escaped from a Canadian prison, and says he would rather take a life term in the States than to complete his sentence in Canada.

The man who thinks it is excellent business to use a gun on others is afraid of getting hurt himself. If the lash is the one thing that gunmen fear, then why not use it?

A term in jail seems to mean only a breathing spell in which to plan for more deviltry.

### NOT A LUXURY.
(Detroit News)

There is only one way in which the future supply of teachers can be provided and safeguarded, and that is by raising salaries. Country districts and small towns in particular must come to a realization of the fact that good teaching is not a luxury which perhaps cannot be afforded, but a necessity.

The state primary school law already relieves the rural and small town taxpayer to a considerable extent in providing teachers' salaries. It is a niggardly and costly policy which fails to furnish the money for good teaching.

• • •

### FIGHTING LABOR
(London Herald)

Tories and Liberals are merely two wings of one party. They pretend to fight each other. They are really in earnest, both of them, about fighting Labor. If anyone doubted this before the present contest has proved beyond all cavil that it is the fundamental truth. Honest Tories and Liberals admit it themselves. As one of them said a few days ago: "In this election party labels don't count."

• • •

### LEGISLATION NEEDED
(Brantford Expositor)

Talk about the slaughter of the innocents! Fifty thousand Christmas trees are said to have been sold in Toronto alone this year, and another 50,000 were left over. By Christmas Eve they could scarcely be given away. Restrictive legislation seems to be in order, but most governments will hesitate at curtailing one of the sacred institutions of Christmas.

### Neck

The most beautiful neck in France is owned by Collette Lulli. At least that is the story reaching this country following a unique contest in Paris. How do you think it compares with American necks?

## By The Side Of The Road

### A MID-WINTER REVERIE

As wintry winds with dismal sigh
Sweep around my humble shack,
My thoughts revert to days gone by—
Days just a few months back.
The cold sifts in, I know not how,
To swell my discontent,
Methinks I'll raise an awful row,
When comes the man for rent,
I'm chilled through—neck, hip and thigh,
My feet are blamed near frozen;
It's three to one the furnace guy
Is playing cards, or doin'
The sun peeps in my dreary room,
When I am most down-hearted,
But, ere he drives away the gloom,
Again he hath departed.
The coin that I had left from coal,
I've handed to the plumber,
Say, won't I be a happy soul
When comes the good old summer?

• • •

### DRANK FROM SAUCER—FINED

Kansas City, Mo. Jan. 4.—"Bill" Dorsey made so much noise drinking his coffee from a saucer in Wolf's Cafe here that patrons complained and the boss ejected him rather forcefully.

Bill retaliated by heaving a brick through the window.

He was arrested and fined $50.

• • •

### CONTINUAL LEAP YEAR IS ADVISED. BY WOMAN

Spokane, Wash., Jan. 1.— Woman's right to propose marriage, theoretically hers during 1924, should be accorded her in fact at all times, Mrs. W. E. Barnhart, President of Spokane Women's Club, declared.

The reason many girls who would build up wonderful homes go through life without marrying is that they are not able to make their love known to the right man," she said.

• • •

### SHE LIKES 'EM WILD

London.—Miss Gladys Callow, a Fellow of the Zoological Society, often goes to the London Zoo to play with a wolf in its cage. The young woman is said to have a secret power over wild animals.

Wait until she gets married.

### HERE'S A WOMAN AFTER THE EX-KAISER'S OWN HEART

Berlin, Jan. 1.—With a view of solving the servant problem, Fraulein Helena Schamburg, of Weimar, who has an independent income, has resorted to newspaper advertising to find herself a good husband who can also cook and act as housemaid.

Helena proposed to provide a furnished apartment and everything. She thinks that women servants eat too much and that many of them are unreliable. Her advertisement reads in part:

UP-to-date, good-looking woman with profitable business desires the acquaintance of a strong man who is educated in domestic science and willing to do housework, as well as look after the kitchen."

### WINTER LOG DRIVE

Saranac Lake, N. Y., Jan. 5. (United Press).—As the result of the warmest December on record and some heavy rains, river drivers have completed the driving of 80,000 cords of pulp wood down the Schroon River to its mouth at Thurman on the Upper Hudson. River driving during the winter months is almost unheard of in the Adirondacks. The pulp logs were to have been driven in the spring.

IF CONSTIPATED, SICK, BILIOUS

Feel fine! No griping or inconvenience follows a gentle liver and bowel cleansing with "Cascarets." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. For Men, Women and Children—10c boxes, also 25 and 50c sizes, any drug store.

## THE PARSON O'DUMFORD

a bad one sometimes, but he's my maister, sir, he's my maister."

"He was taken, Mrs. Slee," said the vicar. "I'm sorry to say. I was present. You know I went out tonight for I was in dread of some outrage; and after being about a time, I found that something was wrong, for the men were all waiting as in expectation."

"He always would mix himself up with these troubles i'stead o' wucking," sobbed the poor woman.

"Fortunately I met two of the men I could trust and found that an attempt was to be made to blow up the works."

"Ah, Sim wouldn't do that sir," sobbed Mrs. Slee. "but some one else was to fire it."

I'm sorry to say, Mrs. Slee, that one of the policemen had watched him and seen him help to carry a barrel of powder to the works."

"Just like him—just like him," sobbed Mrs. Slee. "but some one else was to fire it."

"How did you know that," said the vicar sharply.

"I only know as he dursen't hev done it hissen," sobbed the poor woman. "Poor lad, poor lad, there was nowt again him but the drink."

"The men I met were in search of Daisy Banks," continued the vicar "and we joined hands with the police who took your husband and that man from London, and afterward we reached the works, and they are safe."

"I'm strange and glad they took that London man," sobbed Mrs. Slee "but poor Sim! Poor, poor Sim! But I must go and say a word o' comfort to him. Smith, at station, is a good, kind man."

"Who'll ever say that woman is not faithful?" said the vicar to himself, as Mrs. Slee hurried away to get her print hood, and, late as it was, to make her way to the station: but as she came back sobbing bitterly he laid his hand on her arm.

"You need not go, Mrs. Slee; your husband and his confederate have escaped."

"Escaped got away" cried Mrs. Slee. "Yes."

"Gone out o' the town?"

"Undoubtedly."

"Then," cried Mrs. Slee, wiping her eyes with a hasty snatch or two of her apron. "I'm glad on it. A bad villian to go and try to do such a thing by the place he made his bread by. I hope to goodness he'll niver come back." she cried, in her old sharp vinegary tone "I hope I may niver set eyes upon him again. But I don't want him to go to prison. But you're not going out again tonight sir?" she said, imploringly.

"I must go up to the House and see that all is well there, Mrs. Slee," he replied; "and call and see how poor Banks is."

"Bud is it true sir, that Daisy has come back"

"Yes," said the vicar sadly. "Poor girl she has returned."

"Bud you weant go now sir; it's close upon two o'clock."

"Lie down on the sofa, Mrs. Slee, I shall be able to wake you when I come back."

"Theer niver was such a man." muttered Mrs. Slee, as she let him out; "and as for that Sim, well, I'm onmost sorry he did get away."

As the vicar approached the foreman's cottage he saw someone cross the lighted window and on getting nearer he recognised the figure.

"Is that you, Podmore?" he said in a low voice.

"Yes, sir, yes," was the reply. "I only thought I'd like to know how poor Joe Banks is getting on."

"I'm going in, and if you wait I'll tell you."

Thank ye, sir, kindly," said the young man. "I'll wait."

"Poor fellow" thought the vicar, with a sigh; "even now, when she comes back stained and hopeless to the old home, his love clings to her still. It's a strange thing, this love! Shall she, then, and in spite of all, find that I can not root up a foolish passion that makes me weak—weak even as that poor fellow there?"

A low knock brought Daisy to the door, and on entering, it was to find Mrs. Banks on her knees by her husband, who seemed in a heavy sleep. The doctor had been again, and had only left half an hour before.

"He says there's nowt to fear, sir," whispered Mrs. Banks; "but oh, sir, will he live"

"We are in His hands, Mrs. Banks," was the reply. "I hope and pray he may."

Daisy was looking on with dilated eyes and pale drawn face, and as after some little time during which he had sought with homely, friendly words to comfort the trembling wife, he rose to go, Daisy approached to let him out, when fancying that he shrunk from her, the poor girl's face became convulsed, and she tried hard, but could not stifle a low wail.

She opened the door as he kindy said "Good night," but as the faint light shone out across the garden and onto the low hedge, Daisy caught him by the arm.

"Don't go sir." she whispered in a frightened voice; "it mayn't be safe. Look: there's a man watching you."

"You are unnerved," he said kindly; and then without thinking—"It is only Podmore; he was waiting as I came in.

"Tom!" the poor girl ejaculated, catching his arm. "Is it Tom? Oh, sir, for the lope of God, tell him I'm not the wicked girl he thinks."

"My poor girl."

"I was very wicked and weak, sir, in behaving as I did; but tell him—I must speak now—tell him it was Mrs. Glaire sent me away."

"Mrs. Glaire sent you away?" exclaimed the vicar.

"Yes, yes, yes," sobbed Daisy; "so that—her son—"

"To get you away from Richard Glaire?"

"Yes, sir, yes. I wish—I wish I'd never seen him."

"How came you at the foundry tonight? he said sharply.

"I went to tell him of the danger, sir, I went to the House first, and they told me he was there, I hate him, I hate him," she cried passionately, heedless of the apparent incongruity of her words "and everybody thinks me wicked and bad."

"Is this true, Daisy Banks?" exclaimed the vicar.

"She couldn't tell a lie sir," cried a hoarse voice. "Daisy, my poor bairn, I don't think it no more."

"Tom," sobbed Daisy, with a hysterical cry; and the next moment she was sobbing on his breast, while the vicar softly withdrew, to turn, however, when he was fifty yards away, and see that the cottage door opened, and that two figures entered together before it was closed.

"Thank God!" he said, softly—"thank God!"

Lights were burning at the House as he reached the door, and, under the circumstances, he knocked and was admitted by the white-faced, trembling servant, who had been sitting with one of the policemen in the hall, the other guarding the works.

"Don't be alarmed my girl, there is no bad news," he said; and with a sigh of relief, the girl showed him into where Richard, Eve, and Mrs. Glaire were seated, all watchful pale, and ready to take alarm at the least sound.

"I am glad you have come, Mr. Selwood," exclaimed Mrs. Glaire; while Richard gave him a sulky nod, Eve trying to rise, but sinking back trembling.

"I should have been here sooner," he said, "but I have had much to do."

"Is there any fresh danger?"

"None, whatever," said the vicar. "I think the storm is over—I hope for good."

Mrs. Glaire gave a sigh of relief, and then wondered, as she saw the vicar cross the room; but the next minute a faint flush came into her cheeks, and she tottered to where Eve was sitting, and buried her face on her shoulder.

"Mr. Glaire," said the vicar, firmly, as he nerved himself for what he had to say determined as he was, to leave nothing undone in what he looked upon as his duty—"Mr. Glaire, I have done you a grievous wrong; I humbly ask your pardon."

"What do you mean" asked Richard, starting, and wondering, with his customary distrust in human nature, whether it was some trap.

"I mean that in common with others, I believed you guilty of inveigling Daisy Banks away."

"It don't matter to me what people think," said Richard roughly.

"I am sorry I misjudged you," continued the vicar; "and once more I ask your pardon."

"It don't matter," said Richard.

"Mrs. Glaire," the vicar continued, kindly, as he drew a chair to her side, and took her hand. "you did a foolish, cruel thing in this."

"Then you know all," she sobbed.

"Yes, all—from the lips of Daisy herself. I will not blame you, though, for the act has recoiled upon yourself, and it is only by great mercy that, imbittered as these men were through it, a horrible crime has not been committed."

"I did it—I did it to save him," sobbed Mrs. Glaire. "I am a mother and he is my only boy."

"Poor stricken Banks is a father, and Daisy is his only child. Mrs. Glaire you did him a cruel wrong. Why did you not trust me?"

"I was mad and foolish," she sobbed. "I dared not trust any one, even Daisy; and I thought it would be best for all—that it would save her, and it has been all in vain. Look at him," she cried, angrily; "after all, he defies me, insults his cousin's love, and, when the poor foolish girl comes back, his first act is to seek her, to the forgetting of his every promise to us both."

Eve had covered her face with her hands.

"Daisy is as bad as he," continued Mrs. Glaire, angrily.

"There you are mistaken," said the vicar; "her act tonight was to warn your son of his dreadful danger. She went to save him from a dreadful death."

"Pray say no more," said Mrs. Glaire shuddering; and Richard turned a sallow yellow.

"It has been a terrible affair," said the vicar; "but I sincerely hope that all is over, for your act has borne fruits Mrs. Glaire, and Daisy has seen the folly of the past."

Richard looked up wonderingly, but refused to meet their visitor's eyes.

"I have spoken hastily, and I owe you an apology, Miss Pelly," continued the vicar, rising; "but it was better to be plain, even before you. I was only too glad, though to come and apologize to Mr. Glaire for the wrong I had done."

"But poor Joe Banks!" exclaimed Mrs. Glaire.

"He seems to have been struck down by an apoplectic fit. He was shocked no doubt, at finding that so dastardly an attempt had been made, and at the sight of your son and his child in such imminent peril. I hope, however, and sincerely believe, that he will recover. I have just come from there. Good night."

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even a bilious, constipated feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

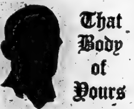
## Memories

### By Charles Hanna

This was read at Mayor Bennett's banquet last night by ex-Mayor Charles Hanna, who is also the author.

We're gathered here tonight around the festive board,
Memories of which I hope each one of us will hoard,
Of His Worship, Mayor Bennett, a great deal may be said,
After Council or Committee, he seldom went to bed.
He had a mighty dozen, who were men of fame,
And on records of our City, they surely carved their name.
Walt Patterson, I sometimes thought would go down to defeat,
If in picking Belleville's beauty, he would judge them by their feet.
Harry Thompson, sometimes thought a Mayor he would be,
But the H.E.P. Commission said about that we will see.
Bob Gardner for his seat, put up an extra fight,
And then got down to business and worked with all his might.
George Foster was the guardian of Belleville's Labor cause,
And on every contract he got a fair wage clause.
Harry Greenleaf had a mighty undertaking,
And has a lot of beauty spots well on in the making.
About our old friend Robinson, I'd like to write a book,
Economy is his password and he detests a crook.
The City Council sat on him, put a pavement on his street,
And when he gets the bill, t'will take him off his feet.
Bill Donahue of Coleman ward is full of Irish wit,
As chairman of the Public works, he surely made a hit.
McCreary has the name of having lots to say,
On how they joined his sewer and did not have to pay.
Mike Lynch, he did his duty, the public did not fear,
On election day they told him to stay home another year.
Gill French a real old veteran, and chairman of Finance,
Thought he'd beter get out while the seat was in his pants.
Sam Treverton, he sure did sputter and talk,
When on West Moira Street they built a concrete walk,
When Station Street pavement was on the way,
Bob Adams, he had lots to say.
Of our new members, I'll not speak here,
But "wait" until they've had a year.
Now don't think you get the credit for all that has been done
As Councils gone before you have a little credit won.
Though your spirit may be noble, and your deeds be deeds of worth,
Though your life may be devoted to the best there is on earth,
You may live for the sake of others, and deny yourself instead,
But they seldom seem to know it till after you are dead.
Boost for every forward movement,
Boost for every new improvement,
Boost the city for whom you labor,
Boost the stranger and the neighbor.
Cease to be a cronic knocker,
Cease to be a progress blocker.
If you make your City better,
Boost it to the final letter.

IN THE INTELLIGENCER IT PAYS TO ADVERTISE



## That Body of Yours

### By James W. Barton, M.D.

### THOSE LUMPS ON THE HEAD

I have reference of course to those lumps you see on the heads of acquaintances, that have been there for years.

They may be on the neck or cheek, and are often found on the back. What are they?

Well, you will remember that your skin is covered with little glands that pour oil out on the surface to keep it pliable. This oily substance keeps the hair soft also, but if too much is poured out we speak of the hair as being oily.

Likewise the skin with some people has the same appearance.

Now this oil sometimes becomes too thick, almost like soft cheese, and does not "pour" out on the skin properly.

The little opening out to the surface becomes blocked and this oily cheesy material gets damned back. It continues to accumulate however, and soon you find a little lump not as large as a pea. It may grow to be as large or larger than an egg.

Is it dangerous?

No; You see it is really on the surface practically of the skin, and away from the inside works of the body, as it were.

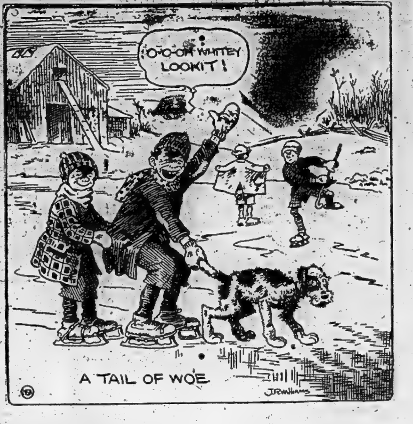
Sometimes they disappear gradually without any attention whatever. Where one is anxious for appearance sake to have one removed, it is done very simply by cutting down to the little bag of cheesy material and removing the complete sack with its contents. The covering of the sack must be removed or it will fill up again.

Many investigators are of the opinion that some article or articles of diet are responsible for the 'thickening" of this oily material. Rich starchy foods are blamed most frequently.

Many physicians urge their removal because of the possibility of injuring these lumps.

Injury might cause the tissues immediately beneath to become inflamed, and a nasty ulcer or even more serious condition might arise.

The blackheads seen on the face at times are the openings (filled with dust) into these small glands. Here also the material is too thick to pour out properly, due to the action of certain kinds of food in that particular person.



A TAIL OF WOE

## GIRLS! LOTS OF BEAUTIFUL HAIR

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating—not sticky or greasy! Any drugstore.

### SUPPRESSED.

Mrs. Johnes—"Yes, John, as I was saying, Miss Blank has no manners. Why, while I was talking to her this morning, she yawned eleven times."

Old Jones—"Perhaps, my dear, she wasn't yawning—she might have wanted to say something.

## WEDDINGS

### GREENE—BROWN

A quiet wedding took place at high noon Tuesday, when Rev. T. A. Seale, of Crookston united in marriage Mr. William Harry Green, of Madoc, and Miss Naomia, youngest daughter of Mr. and Mrs. H. Brown, of this city. The couple were unattended.

After the ceremony a dainty luncheon was served. Mr. and Mrs. Greene left latter for points east and on their return they will reside in this city.

## INDIGESTION, GAS, UPSET STUMACH

INSTANTLY, "PAPE'S DIAPEPSIN" CORRECTS STOMACH SO MEALS DIGEST

The moment you eat a tablet of "Pape's Diapepsin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery-making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

## Healing Cream Stops Catarrh

CLOGGED AIR PASSAGES OPEN AT ONCE—NOSE AND THROAT CLEAR.

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.

## Major Ponton

(Continued from page one)

scribed on the pillars or arch of the Bridge.

### Second Choice Monument.

If on the other hand it is the wish of the majority of our citizens to erect a monument rather than the above suggestion then, I think, such a monument should be erected near the corner of Bridge and Pinnacle Streets in the Armouries' lawn, and constructed of granite, marble and the many other rocks and minerals of Hastings County. I feel sure that the owners of the many quarries throughout this County would be glad of the privilege and opportunity of contributing the best samples of rock in their quarry for such a cause and I am sure the Monument makers, Stone Masons and Artizans would be glad to contribute their skill and work for such a cause.

It is now over five years since the Great War was finished and this City is one of the few Municipalities that has not erected some Memorial to the immortal "Fallen". Frankford, Bancroft and many other small Municipalities deserve the great credit for their activities along this line. There are, at least, at the present time, in the City of Belleville, between 900 and 1,000 men who served in the Great War, and there is no reason, that I can see, why any further delay should be had in this matter. Let us all get together and see to it that a suitable Memorial is erected and unveiled during the year 1924.

Yours very truly,
RICHARD D. PONTON

## OBITUARY

### FRANCIS LAWRENCE.

In the passing this week of Mrs. Francis Lawrence the village of Tweed lost its oldest resident and one highly respected. Deceased was in his 93rd year and was born in England For over half a century Mr. Lawrence had resided in Tweed. Deceased was a member of the Methodist Church and in politics a Conservative. His wife predeceased him four years ago. A family of three sons and four daughter survive, the members being James and Edmund, of Tweed; and Frank of Copenhagen, N.Y; and four daughters, Mrs. Geo. Francis, Mrs. Carpenter and Mrs. W. K. McCaw of Tweed, and Mrs. R. J. Stewart, of Toronto, all o fwhom wer epresent at the obsequies.

### JAMES R. FORBES.

Whilst partaking of Christmas dinner at the residence of his daughter, Mrs. Leo Ketcheson, 8 Warham St., City, Mr. James R. Forbes was the victim of a stroke, which terminated fatally. At an early hour this morning he passed away. Deceased was 81 years of age and was born at Fitzroy, Carleton County, being a son of the late Mr Andrew Forbes. With the exception of twelve years spent in this city Mr. Forbes made his home in Carleton County. By occupation he was a mason and builder. Deceased was a man much respected by all who knew him. He was a member of St. Andrews' Presbyterian Church and was a widower. Two daughters survive, namely, Mrs. Lee Ketcheson of this city and Mrs. J. H. Gillespie of Parrsboro, U.S. The body will be taken to Packenham, Ont., for interment.

### THOMAS C. MILLS.

After a brief illness Mr. Thomas C. Mills passed away last night at the family residence, Wallbridge, Sidney Township. An attack of pneumonia was the cause of death. Deceased was born in Sidney in 1865 and with the exception of 5 years living in Thurlow had resided all his life in Sidney where he was well known and highly respected.

Mr. Mills was tax collector of the Township. In religion he was a Methodist and was a member of the A.O.U.W., and Orange Societies. An aged mother, a widow and two daughters survive. The daughters are Mrs. Wm. Coon of Frankford and Mrs. Floyd Bartlett of Foxboro.

### NEW MANAGER HERE

Mr. Norman Clintz has arrived in this city to take charge of the Griffin Theatres here; succeeding Mr. George Forhan, who has left for St. Thomas, Ont., where he purchased the Princess Theatre.

## WOMAN SICK TWO YEARS

Caused by Troubles Women Often Have—Relieved by Lydia E. Pinkham's Vegetable Compound

Medina, New York.—"I had a great deal of trouble such as women often have, and this affected my nerves. For over two years I suffered this way, then I read in the 'Buffalo Times' about Lydia E. Pinkham's Vegetable Compound and have taken it with very good results. I am very much better and feel justified in praising the Vegetable Compound to my friends and neighbors who suffer from anything of the kind."—Mrs. Wm. H. Adkins, 311 Erin Road, Medina, N. Y.

### Feels Like Girl Sixteen

Rochester, N. Y.—"After my twin girls were born I was all run-down. My neighbors thought I was going to die. I saw your advertisement in the paper and bought Lydia E. Pinkham's Vegetable Compound. The first bottle helped me and I kept on taking it. I only weighed ninety pounds when I began taking it, and I have gained in weight and feel like a girl of sixteen. I never can say enough for Lydia E. Pinkham's Vegetable Compound."—Mrs. Nellie Dorey, 16 Skuse Park, Rochester, N.Y.

# LOCAL HOCKEY SQUAD MAKE BIG START IN O.H.A. RACE

## BELLEVILLE INTERMEDIATES WIN FROM FRONTENACS 4-3

### "Bunny" Frechette's "Long Shot" on the "Home Stretch" of the First Big Race of the Season is a Knock-out—Should Pay Heavy Odds

Completely changing the tactics of the local forward line of boring into the goal mouth before shooting, "Bunny" Frechette, in the dying stages of the third period, lifted a long swift shot from less than fifteen feet from the Belleville goal, mystified goaler MacNeill, and scored the goal which broke the 3-3 tie, winning the first and opening Intermediate O.H.A. game here this winter for Belleville from their old rivals, Kingston Frontenacs. It was a lovely shot, with equally lovely results which completely but piquantly surprised the 600 fans who stepped out to see the boys go at the Arena last night.

The game was surprisingly satisfactory taking into consideration the fact the locals had had but two practices together prior to the opening game, and Frontennacs had fared but little better. Both teams need plenty of practice yet, both for condition and experience. Combination was very shaky, especially in the early stages, although both squads tried it continuously, visitors being more successful until the last period when they were outplayed in most every department, and the great wonder is that Belleville did not pile up a score.

Goalers On Hop.

Both Pat Boland and Harry MacNeill between the respective goal posts turned in good exhibitions, Boland saving Belleville from more than one dangerous onslaught in the earlier stages. MacNeill was cool also, and squated on the disc when matters were dangerous. The first stanza resembled a get acquainted workout, when both aggregations sallied about easily, some players being apparently none too sure of their feet so recently re-introduced to the steel blades, and the attempts at combination were to say the least, unsuccessful. Panet had the first shot at Boland, which he turned, and Weir went down for a peck at MacNeill. Frechette supplied the first variety, and incidentally drew the first penalty, when after taking it down, and being checked by Lloyd Brown, took 2 minutes for a chop at the hefty defence man.

Both Score in First.

Subs were thrown in indiscriminately, an dthey were needed as badly as they all needed the practice. Frechette and Weir gradually worked up a combination, and went down in dangerous fashion, but failed to score. Play accelerated, and Boland was called upon to display his wares between the posts especially on the dangerous shot which Joe Smith bored in at him. In a scramble a few feet from enemy territory, Weir bulged the twine for the first tally of the game, scooping it in amid a sea of legs. The throttle opened a bit further, and speed was again noted, end to end rushes featuring in which Frochette, Panet, Goyer and Finkle figured, Finkle possibly coming the closest to the objective of any. Finally the wily Joe Smith secured the rubber, and rushing down his wing, passed to Fred Brown who batted it by Boland. End to end rushes with plenty shots on each goal, and the goalers on their toes all the time, saw no. 1 end a tie 1-1.

Kingston Have Edge.

Visitors took the second round, when they set the pace and worked two and three men combination which was certainly superior to the locals unselfish and honest endeavours, although the pair of goals which they secured in this frame, against locals one, which sent them into the final frame one up, were not the result of spectacular plays by any manner of means. In the early minutes Belleville held their own and then some, for after 4 minutes play Vern Weir, hustled the rubber down along the boards and side swiped to Goyer who bulged the twine. Kingston extended themselves, plenty shooting, and universal puck chasing were the features until Frechette, after serving his second penalty, had a real run in with Lloyd Brown, both being banished. Time and again the Indians broke through, and continuously using an improved combination which was really dangerous, found it impossible to elude the local defence pair, Bill Green especially using his body check with great and "spilling" effect as he stepped into the big fellows. It fell to Joe Smith, however to wiggle one past Boland from short range, and Fred Brown with a shifty shot from the boards and at close range, shortly notched Kingston's third and last tally of the fray.

Belleville Finish Strong.

Going into the third with the score 3-2 against them, the locals who were growing to understand themselves, used combination, speed and checking tactics, which outplayed the Limetone outfit, and incidentally took the last ounce of energy out of the visiting players who lacked condition at the best. It looked like Kingston's turn to call for "condition powders". How Belleville did not pile a larger score is due largely to the work of MacNeill, in goal, partly to Kingston luck, and also to the evident unsuccessful tactics of the Belleville forward line, Frechette being the worst offender, who bored in lone handed until the goaler checked before shooting on goal. Golden opportunities were turned into what might appear to Kingstonians to be beautiful saves by MacNeill. Finkle had a tough example when he went through every body, and with but MacNeill to beat snapped a swift one which went a trifle high an dglanced over the goaler's head. Weir grabbed a rebound and slapped it in however for the tieing tally, and again with Frechette on a com. rush came within an ace of tallying while big Lloyd Brown was serving time for chopping Hagerman down. Brown and Green exchanged terrific body checks, which obviously engendered bad feeling, and when referee La Flame caught Brown shoving his foot in for a deliberate trip, he banished him again later giving Green a trip for a body check which made Murray feel "sleepy" temporarily. Then came the surprise packet, Frechette's long shot, and the winning goal which the visitors tried hard to even up playing against time. They never got dangerously close to Pat Boland's citadel afterwards, and the 60 minutes ended 4-3 for the locals.

For the locals Weir and Frechette looked the best, with plenty of credit coming for goaler Boland. For the visitors Lloyd Brown was effective but spent too much time in the "pen" for his "bad man" tactics. Joe Smith is as good as ever, and was also dangerous, and MacNeill their net guardian deserves a liberal share of any credit going to the enemy camp.

Rink Manager Garfield Arnott had a nice sheet of ice for the boys, and popular airs were dispersed by bandsmen during the evening.

The lineups:

Subs, S. Hagerman and S. Symons.

Frontenacs—Goal H. MacNeill, Left Defence, Lieut. Panet; Right Defence L. Brown; Centre F. Brown; Left Wing, F. Bellringer; Subs. F. Gaulin and P. Murray.

Belleville—Goal, P. Boland; Left Defence, W. Green, Right Defence, W. Finkle, Centre, F. Goyer, Left Wing C. Frechette; Right Wing, V. Weir; Referee—Dr. Jerry La Flamme.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot calluses, without soreness or irritation.

## HERE THERE AND MOST EVERYWHERE

### Pitcher Jack Williams' Future Would Puzzle a Crystal Gazer.

Friday's issue of Toronto Daily Star carired the following short story under the picture of Jack Williams.

The star Indian pitcher of the Belleville Grand Trunks for the past couple of years, is now a resident of St. Thomas. The Indian last Saturday informed the Belleville management that he would not be there for the 1924 baseball season, and then disappeared from that locality. Monday noon he stepped off a train at St. Thomas, just in time to qualify for the St. Thomas club. Williams, a southpaw, will take the place of Danny McPhee, who goes to the Brooklyn Dodgers.

The Intelligencer was informed late yesterday afternoon that there was no truth in this statement, and where the Star garnered the information was more or less of a mystery to our informant. Jack has three or four good propositions all of which stand good until as late as next Tuesday, January 8th, and he has until then to think the matter over to the best of his a dvantage. Both amateur and professional offers have been made him.

In the meantime great pressure is being brought to bear upon him to remain on the shores of the Quinte for at least another season by the hundreds of fans who have seen him go so often and so succesfully. And the jury is still out.

Secretary of Agriculture Wallace more than qualified for his job when he won a milking contest from Magnus Johnson, senator from Minnesota, famed as a farmer. Note Secretary Wallace's smile of triumph.

## WILL REFEREE AT MONTREAL GAME

### Dr. Jerry Laflamme Will Make His Bow as N.H.L. Official—Goes Overseas With Olympics Too

Montreal, Jan. 5.—As a means of "breaking in" two officials new to National Hockey League circles, the double refereeing system will be in ferce here at both the scheduled games.

Dr. Jerry Laflamme, well-known Toronto player and referee, who goes overseas with Canada's Olympic team this month, and who has proven a very capable official, will make his initial appearance in Montreal, as referee-in-chief for the Hamilton-Canadien game at the Arena. He will be assisted by a new official, Col. 'Baldy' Spittall, old-time Ottawa player, who has been living in Winnipeg, but lately moved east. Spittal will be remembered as a game, hard piece of stuff by old-time followers of hockey.

In Ottawa, Art Ross will be the chief referee, and will be assisted by Ernie Garon, of Montreal Garon has been living i nNew York for some years, and refereed many important games in the United States Hockey Association. He recently returned to Montreal to reside, and will be tried out.

There in something of a referee shortage in the N. H. L. due to the retirement of Cooper Smeaton and Harvey Pulford and Pres. Calder is taking this method of breaking in new officials. It does not forecast, however, a permanent double referee system.

### PLAYED SAFE.

"And you allowed that young man to kiss you How indiscreet!" "Not at all. I had looked up his financial standing."

## BATTLING SENEGALESE TO FIGHT AT WINDSOR

Detroit, Jan. 5.—Battling Siki and Joe Lohman of Toledo have been matched for a 1[illegible] round bout to a decision January 19 at Windsor Ont., it was announced yesterday by E. N. Kernahan. Kernahan is promoter for the Great War Veterans Association under whose auspices the bout will be held.

Lohman and the Sengalese were matched to fight at Grand Rapids, Mich., on new years but the bout was prevented by Louis W. Pike, state boxing commissioner who announced that Siki would not be allowed to fight in Michigan.

Siki is now in Detroit appearing at a moving picture theatre.

Finds Relief From Neuralgia

NOVA SCOTIA LADY USES VICKS WITH EXCELLENT RESULTS.

Mrs. Edward Troke, of Little Lorraine, Nova Scotia, says: "I have used Vicks VapoRub for neuralgia and colds and have obtained excellent results. I cannot speak too highly of Vicks and gladly recommend it to my friends as a valuable household remedy.

Vicks VapoRub, the discovery of a Southern druggist, is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme, Turpentine, etc.

Absorbed through the skin and at the same time inhaled as a vapor, Vicks reaches immediately inflamed, congested air passages.

It is the modern direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds Vicks gives remarkably quick results and also avoids nauseating internal dosing. Just as good for adults and for skin inflammations, such as cuts, burns, bruises, bites, stings, etc.

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Company, 344 St. Paul St., W. Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## INSTALL OFFICERS OF EASTERN STAR

### Mrs. H. A. Morgan Inducted Into Office of Worthy Matron

A social evening and installation of officers of the Eastern Star lodge was held last evening.

The following officers were elected:—

Worthy Matron—Mrs. H. A. Morgan
Worthy Patron—William McIntosh.
Assistant Matron—Mrs. N. Kerr.
Marshall—Mrs. A. Boyes.
Conductress—Mrs. Quintana Boyd.
Chaplain—Mrs. J. Hurst.
Assistant Conductress—Mrs. Frank Chesher.
Star Points Adah Sister Belle Rockwell; Ruth, Irene Rankin; Ester, Irene Baker; Martha, Miss Ackerman; Fifth Mrs. R. Wensley.
Secretary—Mrs. E. Ormond.
Treasurer—Mrs. C. Green.
Sentinel—Mr. Jesse Barlow.
Warden—Mrs. Redfern.
Pianist—Mrs. Bessie Reid.

The Installing Deputy was present from Wellington and several visitors from Colborne and Kingston.

After the officers were installed a pleasant social evening was held at Johnstone's Academy.

Pieces of cut glass were presented to the Installing Deputy, Mrs. Hubbs, of Wellington, the Marshall, Mrs. William Taylor and the retiring pianist, Mrs. Wilson.

## New Directors

(Continued from page one)

cation from which body he is now retiring. He is also a member of the directorate of the Belleville Y.M.C.A. and has capably discharged a number of other public duties. He will make a fine addition to the Board.

Mr. H. E. Fairfield returns to the Board after an absence of twelve months. He was elected in 1922 to fill out the uncompleted term occasioned by the death of Mr. D. V. Sinclair. His long business experience and level-headed judgment made him one of the most valuable members of the Board and his return will be welcomed by all.

Mr. J. G. Moffat, well known as the manager of the Belleville branch of the Union Bank, is another who has served on the directorate since the first organization and has also served continuously as its treasurer. Mr. Moffat's geniality and enthusiasm for civic progress makes him not only popular but a real contribution to the success of modern chamber of commerce work.

### McGie Retires

The retirement of Mr. Arthur McGie at the end of his two year period of service is deeply regretted by his fellow directors as well as by the general membership. He intimated to his friends that he did not desire re-election owing to business reasons, but would continue as he has in the past to be one of the best friends of the Chamber of Commerce. Mr. McGie's long experience in public affairs as well as in business and his clear-headed views on all matters pertaining to the public interest made his advice of great value in connection with the work. Notwithstanding his campaigning against himself he had a narrow escape from being re-elected.

Universal regret is also expresed because of the resignation and retirement from the Board of Directors of Mr. Mackenzie Robertson who has efficiently served the past year as its president. Mr. Robertson, notwithstanding the fact that he had inserted advertisements in both papers that he was not a candidate for renomination, was strongly supported and actually nominated in the primary election. But being strongly of the opinion that honors of this nature should be passed around he resigned his candidacy and the one ranking next highest in the primary vote was placed on the ballot in his stead.

### Other Candidates

Of the other candidates on the list were Mr. John Elliott, manager of the Standard Bank, ex-Ald. Geo. F. Ostrom, Mr. W. C. Springer, president of The Springer Lock Mfg. Co., and Mr. Norman L. Turner, president of National Castings Limited, it may be said that all were strongly supported and all had narrow escapes from being elected. Three of the unelected candidates were indeed separated by a margin of only one vote.

It has been a sort of unwritten law that canvassing for either the primary nomination or the subsequent election was not good form. The nominations and elections that have come to those who have been returned have, therefore, had all the value and compliment of a spontaneous tribute on the part of their fellow members who are indeed the leading and most influential citizens of Belleville.

## Labor Can Rule

(continued from page one)

would be greatly lessened, if it wouldn't vanish completely.

Ramsay Macdonald might secure Liberal support for such a program. The Liberals and Laborities jointly attacked Premier Boldwin's tariff program as the solution of the unemployed problem. It is therefore incumbent on them to put forth their own plan. The Russian trade revival idea presents the best possibilities in this direction and might be made to operate quickly.

### Strengthen Labor.

If by recognition of Russia, British trade were to bound upward and by the same miracle British unemployment were to fall to any considerable extent, the Laborites would be in a very favorable position to dissolve Parliament and have another election. They could point to their success, where all others failed, and could demand the nation send a Labor majority to the Commons so that the plans for nationalizing the railways and mines could be made operative.

Ramsay Macdonald, therefore, has everything to gain and nothing to lose by accepting the Premiership. Even if Russian recognition has no effect upon international trade, Macdonald will be no worse off than now. He can always plead that enough time has not been given the trial for success. Though that plea would scarcely win him a British election, nevertheless, there is nothing to indicate that either Conservatives or Liberals could win by default. Therefore, by mutual agreement, Macdonald might continue in office for a considerable period, all sides jockeying for position with the electorate.

## After Breakfast

Diplomats of the Washington corps gathered at the Pan-American Union for a breakfast recently. Photo shows the Belgian minister, Baron de Cartier de Marchienne (left), leaving.

### RETORT.

One of th best things ever said by a witness to a counsel was the reply given to Missing, the barrister, who was at the time leader of his circuit.

He was defending a prisoner charged with stealing a donkey. The prosecutor had left the animal tied to a gate. When he returned it had vanished.

Missing was very severe in his examination.

"Do you mean to say, witness, that the donkey was stolen from the gate?"

"I mean to say, sir," giving the judge and jury a sly look, 'the ass was Missing."

LOOKING INTO THE FUTURE
THE HYDRO Electric Shop
HYDRO POWER

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

End Rheumatism With Red Pepper

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

Free to Asthma and Hay Fever Sufferers

Free Trial of Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a Free Trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma or Hay Fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it Today—you even do not pay postage.

Would not be Without Zutoo Tablets At Any Cost

Mr. A. O. Norton, the millionaire Silk Manufacturer, of Boston, who recently died, was a great "booster" for Zutoo Tablets.

He suffered from headaches from childhood and when he found Zutoo Tablets stopped these headaches in a few minutes and left no bad effect, he began recommending them to his family and friends. In an unsolicited letter, Mr. Norton says in closing:

"My family use them when ever needed with equally good results. I have frequently given them to friends who were suffering from Headache and they never failed to give quick relief. I always carry Zutoo Tablets in my grip on the road and WOULD NOT BE WITHOUT THEM AT ANY COST."

25 cents per box—at all dealers.

# Retiring Mayor

Continued from page one.

live under the Union Jack. In Canada we have the utmost confidence in our judges an dthose in authority over us.

"The Army and Navy"—This toast was proposed by Mr. R. Tannahill who in hi sopening remarks stated that the toast was a large subject to deal with. The British navy was established one thousand years ago and has ever proved to be the bulwark of the British Empire. The gallantry displayed by the navy during the war was well known to all. We are all proud of the British army and their achievements.

Capt. B. C. Donnan replied to the toast and confined his remarks to the Canadian Army. In 1912, how many thought of the use and service of the Canadian Army? None took it as a serious organization. In 1914 the Canadian Army showed what it could do when it left Canadian shores and went to assist the Empire in the great struggle for democracy. The war is over, the army has been disbanded. Our statemen look to the future when they are providing means for the training of Canadians in case of emergency.

The militia has a definite object and if necessity arose you will see a greater response then in the great war, for we have a great heritage in this respect.

### Industrious Bees.

In a unique manner Mr. J. O. Herity the Industrial Commissioner of the city proposed the toast to the City of Belleville. He exhibited a section of honey and explained minutely the time and labor employed by the bees in producing the section. Bees never work alone but in community. What a beautiful piece of work the honey comb is. In every hive there is about 100 shirkers, who even trample over the sentry. but after a time these shirkers are stung to death and thrown out of the hive.. If we desire result we must have co operation and work as the bees do.

We must have co-operation and work as the bees do. If we think for Belleville we will bring about progress and if we talk and advertise Belleville results will follow. Co-operation is what is needed in this city. Knockers are the enemy of progress. Throw away your hammers and buy a horn and boost Belleville was his closing remarks.

### Build in Belleville

Mayor-elect Mikel. K. C., responded to the toast of the city. All who reside in the city must be convinced that there is no reason why it should not be a large commercial centre. It has many natural and acquired advantages. The 12,000 citizens should unite in making this city such a city as it should be. Belleville will be a great city when all citizens are interested in its progress. Let us all take the lesson given us by Mr. Herity. We should do all we can to bring Belleville to the front. The U. E. Loyalists did not leave the country to the south to come here to improve their condition financially, but rather to help build up this country. Canada has great natural advantages and Canadians should unite in making this a greater country than it is. We should develop a Belleville conviction to assist the city in the U. E. L. celebration which will do much to advertise this city. Muskoka has no more beautiful spots than are found in this county and vicinity. Mayor Mikel spoke of the necessity of developing the power in the river St. Lawrence and the suburban area proposition should also be well considered. In conclusion he asked all to unite in making the U. E. L. celebration a success.

### Municipal Institution

Mr. H. J. Clarke, school inspector in a few well chosen remarks proposed the toast to our municipal institutions.

### Porter Speaks

Where would our Empire be today if it were not for our municipal institutions, which are the foundation of its stability, declared Mr. E. Guss Porter K. C., M. P., in his opening remarks in reply to the toast. All should have the interest of our community at heart and if this were the case we would be better off. Our community should be considered as our households are and governed accordingly. Many prominent citizens will not offer themselves for municipal positions owing to the fact that they are discouraged by remarks made and fault finding of the public generally. We should not knock and find fault but rather encourage and boost. Stand by those who are connected with municipal institutions and if we cannot be generous towards them we can at least be fair. Let all be actuated by a spirit of action as action counts.

### New Legislation

Legislation to protect municipalities from heavy damages on account of accidents on roads should be sought after and obtained said Warden J. V. Walsh. who also spoke to the toast. More accidents he declared occured on the Provincial highways than on County roads but the Government cannot be sued. There was harmony between the County and City Councils and this is as it should be.

Hastings County and its mineral resources were refered to by His Honor.

### A Good Mayor

Mayor Benett was eulogized by Mr. J. Elliott for the manner he had discharged his duties. He had proven to be a fearless and capable Mayor. No doubt, Mayor-elect Mikel will do all he can for the city's interest. In refering to educational matters the speaker said a new High School was necessary and all members of the Board were unanimous on the matter. The Board expends annually a large sum of money but it is judicially expended.

Ex-Mayor W. H. Panter, also briefly spoke to the toast urging all to co-operate for the best interest of the city.

Improvements made to buildings which are the property of the Government in connection with the harbor here, was referred to by Mr. L. P. Hughes, chairman of the Harbor Commissioners. At present the commissioners had $2500 on hand and at least $1500 would be expended in cleaning up the river and doing other necessary improvements.

### Officials Not Asleep

City Officials are not asleep but awake to the city's interest, and have a desire to make Belleville a bigger and better city, declared Mr. H. B. Stock, city auditor. They are also endeavoring to make our tax rate lower. This year the large expenditures were undertaken namely the improvements to the Waterworks system and to the Gas plant. The latter had been a losing proposition but with the introduction of the Tulley system it was hoped to place the plant on a paying basis. Mayor Benett would be missed about the city building but the officials would be behind Mayor-elect Mikel.

In a few wellchosen words, ex-Mayor [illegible] F. Ketcheson proposed the toast to "The Host" Mayor Bennett.

### Present To The Mayor

Before the Mayor replied, Mr. E. T. Austin manager of the waterworks department refered to his department stating that the cost of improvements would be paid out of current revenue. He presented to Mayor Bennett a gold valve to commemorate the opening of the new intake pipe at the pump house.

The past year had been a most pleasant one and all members of the Council and city officials had done their duty declared His Worship. In refering to the city utilities, the Mayor stated that better gas would be provided to the citizens and the plant will be a paying proposition. The expenditure on the waterworks was a large item but will be met by the revenue from water consumers in the city. We should have in the city of Belleville one of the best lot of officials that can be found in any city. Through cooperation, the tax rate this year was reduced 1 mill and an overdraught was paid. This year there will be a surplus rather than a deficit. The council of 192 will have to finish the improvement to the waterworks plant, including a filtering plant which must be installed soon. The reations between the city and county of Hastings had been most pleasant. He (the speaker) would be behind Mayor Mikel and the council of 1924.

The banquet was brought to a close by the singing of Auld Lang Syne.

# Music & Drama

### PATHOS AND COMEDY IN FILM

A photoplay based on the play which a few years ago was one of the hits of Broadway, is "Success," scheduled for presentation on Monday Tuesday and Wednesday at the Regent Theatre, with Brandon Tynan, the stage star, in the role which he originally created in the spoken play. The dramatic interest in the story and the excellence of the cast which interprets the various roles should make the presentation a distinct hit.

"Success" is a story of the theatre, but unlike many of the type, this is said to have been written by persons familiar with the intimate details of life behind the footlights. Its authors have managed to capture the spirit and atmosphere of the playhouse and the characters which they have introduced are all faithful, actual types.

In addition to Mr. Tynan, the cast includes the delightful screen actress Mary Astor ,as the talented daughter, Naomi Childers as her mother; and Dore Davidson; Lionel Adams, Stanley Ridges, Robert Lee Keiling, Billy Quirk and others. The photoplay is presented by Murray W. Grasson, and released by Metro Pictures Corporation. It is a Ralph Ince production, written and adapted by Adeline Leitzbach and Theodore A. Liebler, Jr. George V. Hobart wrote the titles.

### CAST SMALL, YET BIG

Merely Physical in Reference to Players in "Only 38."

The smallest cast ever engaged for a regular motion picture of featured length was for William de Mille's Paramount production of "Only 38," in which May McAvoy, Lois Wilson, Elliott Dexter and George Fawcett are featured, and which will be on view at the Griffin's Theatre next Monday and Tuesday.

Not small in the number of people engaged, but in the size of the various persons taking part, however. May McAvoy is one of the tiniest actresses on the screen. She is less than five feet tall and does not tip the scales to one hundred pounds. Lois Wilson is about average. Taylor Graves, another member of the cast, is only three inches taller than Miss McAvoy, and Robert Agnew, another player, ranges only three more inches above Taylor. Lillian Leighton is less than five feet three inches in height. George Fawcett is only about average height. Ann Cornwall could double for May in size, their height and weight being exact.

The only tall member of the cast is Elliott Dexter, who is well over the average height.

## 2ND OF THURLOW

A large number attended the Xmas Tree in Shannonville on Saturday night.

Miss Dorothy and Neva Sine have returned to Toronto having spent the holidays with their parents.

Miss Helena McDonnell, of Belleville spent New Year's with her parents.

Miss Iva Barlow, of Belleville, spent New Year's with her parents.

Mrs. Wm. Gray entertained company

### NOT SO RASH.

Flubb—"Did you ever speculate?"
Dubb—"No; I never bought a second-hand car in my life."

Dear Peggy,
Horrors! I wonder who Ruthie is taking after now. To-day, after I had given her a wee bit of a spanking, she said "just a little while ago you wished me a Happy New Year, and now you're doing your best to make it disagreeable"!

The poor child has been having such trouble with rough skin lately. So I presented her with a bottle of Campana's Italian Balm.

I find it a real food for the skin. Red, chapped skin becomes white and velvety with its magic touch.

Marie.

For the Aged
SCOTT'S EMULSION
The food that sustains

## MASSASSAGA

Mr. and Mrs. Hilman and family spent New Year's day with Mr. and Mrs. M. Tempsey, Ameliasburg.

Mrs. Harris, of Madoc, returned home on Wednesday after spending the past week with her mother, Mrs. J. Broad.

Mr. F. Juby and sister were guests of W. Past on New Year's day.

Mr. and Mrs. Parliament and daughter were Sunday guests of Mr. and Mrs. G. Wannamaker, Mountain View.

Mr. and Mrs. Floyd Lent and baby girl, of Toronto, returned home Xmas week.

Mr. and Mrs. H. Walbridge spent Monday evening with G. Sprague and family.

Mrs. M. Clark, Newcastle, spent the Xmas holidays with the former's mother, Mrs. J. Broad.

Mr. Roy Jose left Wednesday to attend Dairy School, Kingston.

Mr. T. Nightingale and wife spent New Year's day at Mr. Tom Nightingale's, Huffs Island.

Mrs. Vermilyea has gone to Belleville to spent a few days with friends.

Mrs. Lattimer, of Shatham, was the guest of her daughter, Mrs. J. Weese, for the holidays.

Mr. Bell, of Kingston, spent New Year's day with Mr. D. Davidson and family.

Dr. Davidson, Hamilton, arrived home on Saturday to spend the New Year the guest of his parents.

Mrs. Jose, Newcastle, spent the past week with her sister, Mrs. J. Board.

Price Changes of Dr. Chase's Medicines

By increasing the contents of the boxes the cost to the user remains unchanged

THIS revision of prices affects only three of Dr. Chase's Medicines—the Kidney-Liver Pills, Nerve Food and Catarrh Powder.

In spite of the constantly increasing cost of doing business ever since Dr. Chase's Medicines were placed on the market many years ago there has been no change in the prices of these three medicines to the consumer.

It has now become absolutely necessary to make some changes, but this has been worked out in such a way that the cost to the user remains the same.

The slogan for Dr. Chase's Kidney-Liver Pills will therefore remain "One pill a dose—One cent a dose," for while the price will be 35 cents instead of 25, the contents of the box will be 35 instead of 25 pills as formerly.

The same applies to Dr. Chase's Nerve Food, which will sell at 60 cents a box instead of 50 cents, since the contents of the box is now 60 pills instead of 50.

With the exception of Dr. Chase's Catarrh Powder, which is now 35 cents a box, the prices of Dr. Chase's other medicines remain unchanged.

Dr. Chase's Almanac has now been mailed and distributed to practically every home in Canada, 1,550,000 copies, if you did not receive yours kindly advise us and we shall mail you a copy free of charge. Edmanson Bates & Co., Limited, Dr. Chase Building, Toronto.

# MEN'S CHOIR AT TABERNACLE IS BIG FEATURE

### Solo and Quartette Numbers With Male Choir, Novel Idea

### PASTOR SPEAKS

### Despite Storm, Large Congregation Hear Splendid Sermon

In spite of the terrific storm last evening, the Tabernacle Methodist Church special service, one of six, brought out a congregation far surpassing the most sanguine expectation.

Rev. Capt. H. B. Kenny's text was Gen. 17: 1. "I am God Almighty". To the question what is the business of a sermon he said. It is not a literary product, though possessing literary form. Since Christ came and went, a sermon is God's way of getting God's thoughts prevalent among the people. I am anxious that this may be accomplished, in a measure this evening. The marginal reading of the Revised Version will assist us, "I am El Shaddai." That is the God who is enough. He is all sufficient. Some men do not know Gods remedy for Sin.

The Real Saviour.

Jesus is master of the art of making men over. The experience of the personal presence of Christ is the best of life. We need to put ourselves in touch with El Shaddai who pours forth his blessings. Here is gentleness. Gentleness is might grown tender. The strong hands of the God who is enough, will clasp your hands my brother. Your life may be stained, bruised, shattered, but God's grace is enough. Grace like magnetism is a drawing power. God is holding on to you and on to me. If you have a broken purpose say, "Thou who are the sufficient One, touch my weakness, that I may know thy strength." The people with the mutilated heart, the people with the broken purpose, and the people with the shamed history, need to learn of the El Shaddai, "the God who is enough." May this truth become prevalent in this church and throughout this city.

Feature Bright Music

The music was specially good. A male choir of twenty-four voices, of Belleville's best talent, sang two choruses, unaccompanied, under the direction of Lieut.-Bandmaster R. Hinchey. The choruses were considered the best ever rendered in the Tabernacle Church. The choir was under perfect control of the conductor as was shown by the balance, shading, and blending of voices.

Mr. Sandford Burrows was never heard to better advantage than in "The Lord is My Light". His big, full, baritone voice being suited in bringing out the portions of the excellent song.

Dr. A. B. Haffner sang "Consider and Hear Me", by Wooler, and is a most pleasing and popular tenor singer. He has an excellent quality of voice, under splendid control. Never was he heard with greater delight than last evening. Dr. Haffner's tones lost none of the deeper quality and his high lyric tones were clear and sweet.

The Quinte Male Quartette, composed of Dr. A. B. Haffner, A. F. Stillman, H. R. Moorman and Fred Burk, sang "Glorious Things". Seldom do you find a quartette whose voices blend so splendidly. The Tabernacle has been fortunate in securing men who can do such excellent work.

Leaders Deserve Credit

Much credit is due Mrs. M. P. Duff, the choir leader in getting together such a male choir. Lieut. Hinchey showed himself quite as capable in directing a choir, as he is in directing a band.

In two weeks the men's choir will by request, repeat the music, when those who were prevented from coming by the storm, will have a chance to hear them.

## KIWANIS BEGINS BUSY YEARS 1924

At tomorrow noon-day luncheon, of the Kiwanis Club the members are to hear the inaugural address of the club's new president, P. C. McLaurin While no meetings have been held during the holiday season, the club members have been active, and at the Christmas season, several dozen baskets were distributed to the needy families about the city. Kiwanis is looking forward to a big year in Beelleville.

## TEN HOMELESS IN FIRE AT WINDSOR

Windsor, Jan. 7—Fire early Saturday morning in [illegible] Variety Store left ten families and caused damage [illegible] tent of $100,000. The fire [illegible] controlled after ten hours' hard work by the fire department.

# WAR MEMORIAL SUGGESTIONS SHOW MORE VARIETY AS SURVEY'S SCOPE INCREASES

### Gateway at Entrance of Victoria Park, and Ward for Hospital, New Proposals—"Wrangel Island Park" Suggested as Site—Assistant City Engineer C. A. Mott Submits Excellent Design for Monument on Armouries' Lawn

As was announced last week, publication of the War Memorial coupon ceased with Saturday's issue. Allowance will be made for filling out and mailing coupons clipped from the issues of last week and then the suggestions will be submitted to the municipal committee named by Mayor Bennett for that purpose.

Proposes Gateway

Introduction of new ideas continues as interest in the survey increases in scope. Alderman H. W. Greenleaf proposes a gateway with railings at the entrance of Victoria Park. A diagram of his suggestion looks very attractive and Mr. Greenleaf proposes an expenditure of between $5,000 and $10,000.

Ward in Hospital

Mr. R. J. Wray suggests the equipment of a ward in the Belleville General Hospital at a cost of $10,000.

Assistant Postmaster J. H. C. Truaisch recommends the use of Hastings county marble "to advertise the county". Mr. Truaisch favors No. 1 Fire Hall park as a site and an expenditure of $15,000.

"Wrangel Island"

Ex-Mayor Charles Hanna proposes the erection of a monument surmounted by the statue of a soldier in "Wrangel Island Park" near the upper bridge at an expenditure of $5,000. The views of Mr. C. Cooke and Mr. C. A. Carter coincide, their plan being the erection of a memorial bridge, replacing the bridge over the Kingston-Toronto highway. Mrs. J. A. McFee suggests a "suitable monument" erected on the Armouries lawn at a cost of "possibly" $20,000.

Since space will not permit publication of more than a very small percentage of the replies received, common courtesy demands that the views of the ladies be given first consideration in the list. Three other suggestions from ladies recently received are: arch, over lower bridge, $2,500, Miss Helen Kemp, cenotaph of granite or marble from Hastings county, Armouries law, expenditure sufficient to erect a cenotaph of first quality and for future generations, Frances Casswell Ray, 223 William Street; monument Armouries lawn, no fixed cost, Marguerite D. Allen.

Design By C. A. Mott.

Considerable interest has been evinced in a very attractive design submitted by Assistant City Engineer Chas. A. Mott, which has been on display in a window of the Intelligencer business office. Mr. Mott's deign is that of a monument of cut stone, with a square base surmounted by a smaller and deeper block, upon which rests a still smaller and higher block. The entire structure forms a base for a life-size statue of a soldier and the upper block bears a bronze plate in front, while the other three faces bear bronze panels. On the front plate is the legend:

"DEDICATED TO THE HONOR OF THE SOLDIERS, SAILORS AND NURSES OF BELLEVILLE, WHO TOOK PART IN THE GREAT EUROPEAN CONFLICT—1914-1918."

On the other three sides would be printed the names of those honored below the legend, "Died that we might live." Above the panels on all four sides are the words in gold letters, "In Memoriam" and below, "Lest We Forget."

Armouries Lawn.

Location—Fence to be broken away for 15 feet each way at the corner of Pinnacle and East Bridge streets, and built back on the Armouries lawn so as to form a square in which the monument could be built with concrete sidewalk all around it. The greatest dimension of the base of the monument is seven feet. If built of granite, the monument designed by Mr. Mott would cost approximately $5,000, according to the designer's estimate. Readers of The Intelligencer are familiar with the views of Mr. J. O. Herity, Major R. D. Ponton and others who have submitted letters on the subject. Other suggestions will be published during the week.

# POULTRY SHOW TO BE OPENED TOMORROW

### Large Number of Entries Received — Sixty-Two Prizes Offered for Various Classes of Birds Exhibited

The twelth annual exhibition of the Belleville Poultry Association will open in this city tomorrow morning and continue until the close on Thursday night. The display will be in the market building and from the number of entries already received it will no doubt be one of the best exhibitions held in the city. Officers of the Association headed by Col. E. D. O'Flynn as President are striving to make the affair a success. No less than 62 special prizes for birds exhibited are being offered, including eighteen from the President.

Mr. Richard Oke of London, Ont., and Mr. Wm. Reid of Kingston will be the official judges and both are experienced poultrymen.

## ROYAL ARCH MASONS TO INSTAL OFFICERS

It is expected that many Masons will be present this evening at the Masonic Temple here when the officers of Quinte Friendship Chapter No. 227, Royal Arch Masons, will be installed. Bro. R. H. Spencer, of Trenton, First Grand Principal of the Grand Chapter of Canada, will be the installing officer. At the conclusion of the lodge business a banquet will be held at which a toast list will be carried out. A musical programme has also been arranged for the occasion.

## MOTOR CAR RACES WITH STEAMSHIP

### Taxi Driver in Role of John Gilpin Makes Connection and is Rewarded

Victoria, B.C., Jan. 5.—The 'Around America' cruise of two attractive young women from Helena, Mont., had a thrilling prelude tonight when the Canadian Pacific S.S. Empress of Canada bound for New York on the first lap of her 30,000 mile trip around the world was held for one hour and thirty minutes while Mrs. J. O. Vollner and Miss Rose Peterson raced by motor car from Nanaimo to Victoria.

The southern travellers missed the ship when she sailed promptly at noon today from Vancouver and crossed the gulf by a Canadian Pacific coast steamer during the afternoon. Eighty miles of mountain road still lay between them and the palatial liner which was to take them around America.

A taxi driver of Nanaimo, however, was willing to play the role of a modern John Gilpin and in a high-powered McLaughlin car proceeded to rush his fair passengers over the famous Malahat drive. Three hours later two very pale, but grateful, young ladies climbed out of his car at the ship's side and were bundled hastily on board to be quickly followed by two huge wardrobe trunks and the gang plank itself. The taxi driver mopped his brow and grinned broadly as he pocketed a wad of American five dollar bills.

## GETS MONTH ON FORGERY CHARGE

Elmer Haynes, farm laborer of Corbyville, who was found guilty on December 31st of forging a check during the month of October was to-day sentenced to one month in the county jail by Magistrate S. Masson. The sentence to commence December 31st.

R. D. Ponton, counsel for the accused, made a strong plea for leniency, but as the accused is addicted to this habit the Crown asked that a jail sentence be imposed.

## MUSICAL UNION ELECTS OFFICERS

### Elect Mr. Albert Wannacott President of Belleville Association

At the annual meeting of the local Musicians' Association officers were elected for the ensuing year. The annual meeting of the American Association which includes Canada will be held this year at Colorado Springs, Colorado, and ex-Mayor Hanna has been selected as a delegate.

The officers of the Belleville Association are as follows:

President—A. Wannacott.
Vice-President—J. Deschand.
Sec.-Treas.—Chas. Hanna.
Executive committee—H. Dranley, Z. Ayling, Fred Clarke, Reg. Hinchey, Wm. Grant and S. Sword.
Marshals—W. Wannacott, E. Harkins.
Examining Committee—A. Rowlands, R. Hinchey, Mr. Young.
Sergt.-at-Arms—H. Hawley.
Auditors—A. Rowlands, L. Walmsley.
Delegate to annual meeting—C. Hanna.

### AMERICANS HELD

United Press Despatch Exclusive to The Intelligencer

Peking, Jan. 7.—Several Americans are surrounded by Tibetian bandits near the city of Batang in western Sze Churan and are in imminent peril of starvation, according to reports from the American legation here.

## Mme Mustapha Kemel Wounded By Grenade

(United Press Despatch)

Athens, Jan. 7.—Mme. Mustapha was wounded by a hand grenade thrown at her husband by an unknown assailant, according to a despatch from Smyrna. Kemal himself was not injured. The assailant escaped.

# NO MOVEMENT MADE TO FILL CABINET BERTHS

### Lieut.-Governor of Quebec May Be Appointed

### PLANS UNCERTAIN

### Progressives Gain By Situation—Parliament May Not Open till March

Ottawa, Jan. 7.—With the Prime Minister and most of his collegues absent in Quebec at the funeral of the late Lieutenant-Governor Brodeur, Saturday, there has been nothing done either in appointing new ministers to the Cabinet, or filling vacancies in the Senate, or the Supreme Court. It is expected that at the Cabinet Council to-morrow a new Lieutenant-Governor will be named for Quebec, and a French-Canadian appointed to the Supreme Court. Among those mentioned for the Lieutenant-Governmentship are Chief Justice Lemieux, Sir George Garneau, Hon. George Amyot and Senators Beique, Thibaudeau and Tessier. Justice Carroll of Quebec City, is most prominently mentioned for the Supreme Court vacancy.

For some days at least there are no Cabinet appointments expected. Hon. Ernest Lapointe appears certain of the Justice Department, and Pierre Cardin, Richelieu, is yet the only name mentioned in connection with the Marine and Fisheries Department, which will be vacant if Mr. Lapointe becomes Minister of Justice. It is not anticipated that Hon. Rodolphe Lemieux, Speaker of the Commons, will accept any appointment, but will retain his present position.

No Re-organization Now.

There can be no general Cabinet reorganization based on a Liberal-Progressive alliance until Hon. W. S. Fielding retires from the Finance Department.

While such retirement may come at any time, yet it may be delayed for some months.

The Progressives have Premier King at their mercy and will exact the harshest terms as the price of their support.

There appears now little prospect of Parliament meeting before March. With the chaotic condition that exists in the Government, no sessional program can be formulated and prepared. The sales tax muddle grows worse, and the various international problems are all held in abeyance until the Cabinet can agree among themselves on these and practically every other current issue.

## U.S. Battleship Lost In Atlantic

(United Press Despatch)

Washington, Jan. 7.—In Atlantic waters off the coast of Delaware, the United States battleship, Louisiana, is being sought by minesweeps and coast guard cutters.

# SNOW STORM IS WORST IN YEARS, OLD-TIMERS SAY

### Newly Fallen Snow Swirled in Clouds by Stiff West Wind

### TRAFFIC DELAYED

### Railways Suffer Slightly From Drifts in Cuts On Sunday

From the peaceful sunshine of a typical January morning after a heavy fall of snow a stiff west wind puffed its first on Sunday shortly after twelve o'clock, noon and blew up one of the most realistic Ontario snow storms which the oldest residents of this fair city have ever witnessed here. The light snow fall of Saturday night, was swirled about all afternoon, and almost until dawn today, and was finally piled in snow banks here, leaving other spaces drear and bare, there.

Walking was very heavy throughout the day, and most everyone who did not have to venture forth, confined themselves to the comfortable quarters of their respective homes. It was indeed surprising however, to see the faithful churchgoers ploughing homeward through the snow, after service last evening.

Early this morning the snow shovels were ringing right merrily, and the united efforts of the city folk rendered walking a pleasure once more and again made possible the movement of traffic with ease. The wheels of industry began to move slowly but surely once more after the weekly "seventh day lull."

Railways Suffer.

Cuts along the railway lines naturally suffered from the effects of the storm, but not seriously for the snow was so light that it required a great deal of it to stall the powerful locomotive with a train in tow. Flanges on the locomotives were practically all that was necessary to clear the way, although the ploughs have been out on some of the less travelled lines. A number of the trains travelled just a bit behind their schedule time yesterday number 20 on Sunday being about the latest train of the lot. Number 29 was one hour and a half late, having developed engine trouble at Shannonville. Number 2 C. N. R., due here today at 7.45 a.m was also running late. The system will be operating on time today, however, for the road is now clear.

The three stages from Frankford Tweed and Ameliasburg had not arrived in this city at 11 a.m. today and may not be able to make the trip as the north and south roads are reported to be full of snow. East and west roads are not so badly affected however, as the storm came almost directly from the west.

(continued on page five)

## "Red" Ryan Now Back In Toronto

Toronto, Jan. 7.—Norman "Red" Ryan, bank robber and jail-breaker arrived in the city from Minneapolis at 8.20 yesterday morning, in charge of Dominion Inspector Duncan, Warden Tucker, of Kingston Penitentiary and Detective Meehan and Marran, of the Minneapolis Police Department Ryan, in view of his desperate character, was shackled hand and foot and manacled to the two detectives After he had been questioned by Inspector of Detectives Guthrie at detective headquarters, Ryan was driven to the Jail, and there placed in the care of Governor Rasbor until this afternoon at 2 o'clock, when he will appear in the Police Court probably before Chief Magistrate Denton, on a charge of committing robbery under arms, namely, the holding up and robbing of the Oakwood branch of the Bank of Nova Scotia. Ryan will be under the supervision of special guards.

## CITY IS READY TO CO-OPERATE IN NEW IMMIGRATION PROGRAMME

### Belleville is One of the Provincial Zones of Immigration, and Great Interest is Naturally Manifested Here

Mr. J. O. Herity, Industrial Commissioner of this city, when seen this morning regarding the newly planned immigration policy of the Provincial Government, stated that he had received no advices recently concerning the immigration policy.

Belleville it will be recalled has been selected as one of the immigration zones in the Province fixed for handling the newcomers to this country from the Motherland, as planned by Minister of Agriculture J. S. Martin, and interest in the scheme is keen here. City Council members as well as County Councillors and members of other civic bodies plan to co-operate in the vigorous efforts of Minister Martin, to bring to this country, stout-hearted Scotchmen and other old countrymen who are accustomed, and willing to work on the land here.

It is expected that zone activities will not be launched until the first consignments of immigrants secured by the Ontario representatives arrive in Canada. In the meantime Belleville is prepared for the task devolving upon its citizens.

### BAPTISMAL TRAGEDY.

Chicago—As her infant was being baptized, Mrs. Herbert Layton discovered the child had died in her arms. It was apparently in good health when taken to the church.

### NOVEL FEATURE.

Banff, Alta.—A grizzly bear barbecue will be a feature of the Winter carnival to be held here in February.

### PEACEMAKER DROPS DEAD.

Chicago—Trying to stop a quarrel between her two sons, Mrs. John T. Morton dropped dead.

### TO WINTER AT CAPITAL.

Washington, Jan. 7.—Mrs. Florence Kling Harding arrived in Washington today to spend the remainder of the winter. Since Mr. Harding's death she has been in Marion.

# VENIZELOS IS FORCED TO ABANDON HIS ROLE OF SAVIOR OF COUNTRY

## Cold Wave Causes 23 Deaths in U.S.

(United Press Despatch)

New York, Jan. 7.—Intense cold wave in the United States over the last week end caused 23 deaths and millions of dollars damage. Many negroes in the northern states are rushing home to the southland on all trains.

# CHURCH TODAY CAN SUPPLY NEED ASSERTS DIVINE

### Rotarians Hear Rev. C. E. Clarke Give Excellent Address To-day

### COMPETITION

### Divine Believes that Friendly Competition Necessary Even in Church

Urging that business men, churchmen fathers and mothers of Canada realize the necessity of friendly competition in their lives, Rev. C. E. Clarke, M.A. Rector of Christ Church struck the right note in his excellent talk before Rotarians today on the subject of "Business methods in salesmanship."

The successful salesman today must abide by a code of ethics in salesmanship, as the watchword of to-day is not as it used to be, "Purchaser watch out," exclaimed the speaker. Service first in the mind of the salesman who uses a series of ethics which he has built up, is the modern method.

As pointed out by Rev. Clarke, it is necessary for the saleman to study his goods and know them, thoroughly, then study his customer and feel that he may supply his customer's real, legitimate need. "Of course," explained the speaker, "The need must be a just one, not a need as satisfied by a bootlegger for instance, but rather the idea of selling a man a snow shovel on a morning like this."

"It is then also necessary that the salesman show that the customer really needs the article, and how he may be able to pay for it."

The competitors must be studied also, not in an ugly sense, but from a friendly businesslike manner, for competition is the making of any large business and any big man. It leads to man's highest development. Ill service, exhorbitant prices and the practice of sinking into lethargy are, this applies the same in the church as direct results of no competition, and in any other phase or walk of life, for "security is dangerous and causes inefficiency due to the lack of the spur of necessity."

Competition in Churches.

Speaking of competition in the church, Rev. Clarke stated that he would not like to be the Rector of the only church in any town, as the competition in the city churches causes each one to put forth its greatest effort in order to keep pace. Speaking of endowment funds in church, the speaker asserted that they would be better thrown into the sea sometimes as they were the cause of men remaining in important offices after their career of usefulness had ended, and were again the cause of young men elected to office in the church, failing in their appointment by not putting forth the effort which they otherwise would have.

"Fathers today should not make the future of their childrens' lives too safe either," stated the divine. "They should make them feel that unless they make good, their parents will not stand behind them."

Church Strong To-day.

The church today must face competition, unflinchingly and supply a moral or ethical need. Speaking of the church, the Rector referred to the pessimistic views taken with regard to the church today, and also emphasized that there was no need for such feeling.

Taking into consideration the fact that two generations ago, people went to church because they had no other place to go, compared to the great rival attractions, today the attendance in churches is very good, and "I believe" said Rev. Clarke, "that the church today can show the best way of living to give the ultimate satisfaction and happiness, and that is the life of service—the unselfish life which terminates in happiness not misery."

Appoint Committee

Harold Saunders was chosen chairman of a committee appointed to make preliminary preparations for the annual Rotarian Minstrel Show, for the benefit of the Crippled Children's Fund Other members of the committee are Jack Lil, Al Stilman, Charlie Dolan and Sandford Burrows.

Guests to-day were Kiwanians R. D. Ponton and Harry Bryant and Mr. G. B. Smith.

Rotarian H. W. Ackerman gave the educational talk to-day on "Business principles and Rotary."

Rotarian C. M. Reid introduced the speaker, and President O. Scott presided. Rotarian J. O. Herity expressed the appreciation of the club to the speaker of the day.

### Ill Health Causes "Strong Man" to Relinquish Plans For Composing Affairs of Greece

### TROUBLES MOUNT

### Former Premier Obliged to Withdraw In Face of Trying Situation — National Assembly in Session

(United Press Despatch)

**Athens, Jan. 7.—Ill health has forced former Premier Venizelos to resign the leadership of Greek affairs. After returning in triumph to his native land, hailed as the "strong man" of his country, Venizelos was no sooner elected President of the National Assembly than his troublesome heart forced him to retire.**

Athens, Jan. 7.—Former Premier Eleutherios Venizelos, who suffered a heart attack during Saturday's session of the National Asembly, of which he was elected president, became worse after reaching his home, and a consultation of four physicians including a heart specialist was called Saturday evening.

## OPPOSE INFLUX OF GERMAN SETTLERS

### St. Catharines Chamber of Commerce Protests Against Immigration Scheme

St. Catharines, Jan. 7.—St. Catharines Chamber of Commerce has launched a strenuous protest against the proposal to bring 3,000 German families to settle in Saskatchewan Province, and has asked other Canadian Chambers to join with it.

The resolution sent out goes on to say: "That, while war is over and every encouragement should be given for the rehabilitation of our late adversaries economically, it is not part of the duty of the people of Canada to assume into their national life and indigestible mass of Teutonic culture.

"The Scandinavian and Dannish fields are suggested instead, and that the agricultural field in Scotland, England and Ireland be more intensively worked for settlers, and that the breed which will most likely secure the maintenance of the Empire be located here.

"We are opposed to the introduction of any further Teutonic peoples for a lengthy period. We feel it is a non-constructive and unsound move from a people who desire this Dominion to remain British and Canadian forever."

### SYDNEY MURRELL ON OPERATING TABLE

London, Ont., Jan. 7.— Stricken with an acute attack of appendicitis, Sydney Murrell, who has been confined in Middlesex County Jail awaiting trial for the murder of Russell Campbell at Melbourne two years ago, was rushed to an operating table in Victoria Hospital and operated upon. It is said his condition is fairly satisfactory, but that he is as yet by no means out of danger.

The strictest secrecy was maintained by the authorities as to where Murrell was being treated, but it was admitted that he is being guarded by several well-armed officers, the fear being entertained that friends of Murrell might seek to attempt a raid to liberate him.

## COLD SATURDAY COLDER IN 1923

### Thermometer Registered 12 Degrees Below on Jan. 6th, 1923

As predicted in the weather probabilities of Saturday, temperature took a decided drop Saturday evening registering 5 degrees below zero and at an early hour Sunday morning it was 8 degrees below zero. The record for a year ago showed that it was exceptionally cold on the 6th and 7th of January. On the 6th of January, 1922 the thermometer registered 12 degrees below zero and on the 7th 11 degrees below zero.

### IS ACTING CROWN ATTORNEY

Oshawa, Jan. 7.—Lieut.-Col. J. [illegible] Grierson, of this town, has been appointed Acting Crown Attorney [illegible] the County of Ontario, to carry the duties of the late J. E. Fa[illegible] K.C., whose death occurred [illegible] week, until a permanent [illegible] ment is made.

Daily Intelligencer
BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

## CO-OPERATION IN BRITAIN

The Laborites predict revolt in Britain if King George joins hands with the Liberals and Conservatives in an effort to stem the rising tide of Labor, and leaders of the old parties express grave fears as to the future welfare of the Empire if the Labor party is permitted to function unrestricted.

Surely, this is not a time for experiments in radicalism in Britain. A crisis is impending an only time-tried, conservative measures can be applied [illegible]. The fallacy of seeking to cure industrial and governmental ills with schemes, which are purely theoretical, has been clearly demonstrated by the Soviet administration in Russia.

Party lines are forgotten in war-time, and in any crisis there should not be meticulous regard for party differences. Only political co-operation can bring solution of Britain's problems.

## THE C. OF C. DIRECTORATE

The result of the election last week of five directors of the Chamber of Commerce should be gratifying to everyone interested in the progress of the city and community. This gratification should not be due alone to the fact that the five men elected are particularly qualified for the duties of the directorate but also to the realization that every member of the Board and every man nominated for a directorship represent the best type of citizenship.

Belleville is especially fortunate in that those identified with its Chamber of Commerce activities, both as officials and as members, are men who have been successful in their undertakings and are unselfishly interested in the [illegible] to advance municipal and community affairs.

The men chosen in the election last week, H. W. Ackerman, Jamieson Bone, F. S. Deacon, H. E. Fairchild and J. G. Moffat are splendidly equipped for service on the Board. Mr. Deacon is the only tyro among them from the standpoint of experience on the Chamber of Commerce directorate, but as a member of the Board of Education, which position he recently resigned, as a director of the Y.M.C.A. and in other capacities, he has been active in municipal affairs for a great many years. The other four men have already ably demonstrated their capabilities and their profound interest in the welfare of the community by their service on the Chamber of Commerce Board as well as by other activities.

Mayor-elect Mikel and the members of the 1924 City Council have unreservedly committed themselves to a policy of sustained co-operation with the Chamber of Commerce and since the primary object of both bodies is civic and community progress and since a tentative program of industrial advancement for the first part of the New Year, has already been evolved, the records of previous years should be eclipsed in 1924.

Selection of Belleville as one of the nine headquarters in the great immigration scheme of the Province is a significant gesture and Belleville's activity in this work should react advantageously to the community in various ways.

During the past year there has been criticism of the activities of the Chamber of Commerce as well as of the City Council. Criticism voiced in a spirit of helpfulness, prompted by a sincere and [illegible] in the common welfare is highly [illegible]ble, but disparagement of the [illegible] loyal, energetic citizens, born of personal dissatisfaction or sheer "cantankerousness" is a serious menace to progress.

The future of Belleville and the surrounding community depends upon the foresight and ambition of her citizens; there is no lack of opportunity. Those who have faith in the future of the nation, of the Province and of their own city should co-operate wholeheartedly in the constructive efforts of the City Council, the Chamber of Commerce and other organizations dedicated to municipal and community development.

## EDITORIAL NOTES

Old Man Winter is likely to cheat a few residents of the northern part of the county out of their votes to-day.

—o—

It is quite probable that the world will continue to move in its same old orbit even after Labor takes over the government in Britain on January 17.

—o—

There apears to be a belief in administration circles at Ottawa that by taking T. A. Crerar and his Western Progressive stragglers under their wing, the Government may postpone the deluge. They are building upon political sands.

—o—

It is to be hoped that the method adopted by Venizelos for ending the dynasty of Greece will not be so drastic as that employed by the "Reds" of Russia.

—o—

The winner of Edward W. Bok's Peace Plan prize will probably appear in the movies. Still, the recipient of $100,000 may elect to retire to a life of ease and luxury.

## PRESS OPINIONS

### NIL DESPERANDUM

(Providence Journal)

The British are traditionally ingenious when it comes to honorable compromises. They can put up with the inconvenience of almost any system or situation for the sake of the larger good. They can adapt themselves to practically any circumstances, and while they know that business would move more smoothly in the House of Commons if there were not a triple division into approximately equal forces, hey expect these forces to proceed somehow with the government of the nation.

### LIKELY TO LAST

(London Times)

The "unexampled unemployment" from which we suffer is not to be cured by temporary measures such as successive Governments have applied to it. These were emergency measures; but it is now plain that the root cause of unemployment, which is the European chaos wrought by the war, is more than an emergency. It seems certain to last for years, and we must resort to a policy of providing us with a remedy so long as it lasts.

### A HOUSE DIVIDED

(Baltimore Sun)

To those who feel that it (religion) is the only bulwark against moral chaos, desolation and degradation, the spectacle some of its representatives present today is almost calculated to produce a feeling of despair. Preacher is arrayed against preacher, church against church. Religion is seemingly bertayed in the house of its freinds. This inter-religious, inter-church war, these revolts against authority, these insurrections in the cause of so-called truth, are not new manifestations of human nature, but they are none the less humiliating and profoundly melachoty. They come just at a great crisis when the world more than ever before needs the tremendous and upholding strength of saving religious conviction.

### EARNING POWER

(Oshawa Ontario Reformer)

Statistics compiled from many sources show that the earnings of the boy or girl who is absolutely illiterate is at the bottom of the ladder. Such a person must always remain a "hewer of wood and a drawer of water." Above him is the boy or girl who starts out with only a public school education. Still above that stage in earning powers is the boy equipped with a high school education, while at the top of the ladder is the man or woman who has a college trained mind. There are, of course, exceptions to this statement, but the law of average holds good. Careful investigations indicate that the better the education the greater the earning power.

## Ameliasburg Woman Strong Candidate

Rednersville, Jan. 7.—The ratepayers of School Section No. 2, Ameliasburg, had a little bit of awakening, when the annual school meeting was held in the school house of the section. The ladies of the neighborhood felt for some time past that a few things in the way of comfort and attraction for the children were needed, they secured an organ and placed it in the school house and at the meeting held recently attended in large numbers after introducing some matters of importance that was carried. A vote of thanks being tendered them for the interest they manifested, thought they would go one step farther and when it came to elect a Trustee put up one lady for the office in the person of Mrs. Raymond Roblin, formerly a teacher and a very fine adv. Mr. Ralph Stafford was nominated in opposition. A vote being taken Mr. Stafford had one majority. Then a poll was demanded and Ralph won out, but the ladies gave him a good race. They hope, however, to do better another year.

## By The Side Of The Road

### BILL BROWN.

Bill Brown made a million, Bill Brown, think of that,
A boy, you remember, as poor as a rat,
Who hoed for the neighbors, did jobs by the day;
Well, Bill's made a million, or near it, they say.
You can't understand it? Well, neither could I.
And then I remembered, and now I know why:
The bell might be ringing, the dinner-horn blow,
But Bill always hoed to the end of the row.

Bill worked for my father, you maybe recall.
He wasn't a wonder, not that, not at all.
He couldn't out-hoe me, or cover more ground,
Or hoe any cleaner, or beat me around;
In fact I was better one way that I know—
Getting back to the house when the dinner-horn blew.
One toot from the kitchen and home I would go;
But Bill always hoed to the end of the row.

We used to get hungry out there in the corn.
You talk about music, what equals a horn,
A horn yelling dinner, tomatoes and beans,
And pork and potatoes and gravy and greens?
I ain't blaming no one for quitting on time;
To stop with the whistle, that ain't any crime.
But, as for that million—well, this much I know,
That Bill always hoed to the end of the row.

**Gee! They Must Know How to Make it with a Real Kick at Lindsay.**

Lindsay, Jan. 7.—On Friday afternoon Chief Umphrey took into custody a resident of Manvers Township, and a familiar figure on the streets of Lindsay. He had been about town for several days and claimed he was "the wizard of the world," having a scheme whereby he could harness the lightning and thus supply electrical energy for all time. At noon hour he appeared on the street with a high-powered army rifle. He visited the office of the Post and said he was going to dig a well with the weapon. When taken to the police station the unfortunate man fell on his knees and prayed for some time. He is at present in the county jail.

IF HE WERE A MALTESE HE WOULD HAVE BEEN CROSS

A citizen reports this morning that on his way down town at 8 p.m. Friday he saw a huge gray tom cat walking about in a circle on west Moira street, along the boulevard. It seemed uncommon, but when he returned one hour and a half later the same cat was still doing the "tread mill" step. The citizen was flabbergasted, so touched "Tommy" up with a piece of ice. Arising after having been struck by the missle, the cat shook himself, then continued the circular motion.

Our informant believes that Tommy had a date and as he was being kept waiting as is usually the case, he was warming up by walkin' in circles.

If the man was not an employe of the office, the staff would have believed he had been drinking.

The office cat says it was not she, and further adds that she is not that kind of a cat.

It is a wonder some genius did not take Tom home, harness him up, and put him to work.

## FATALLY BURNED SINGEING GOOSE

Wiarton, Jan. 7.—A fatal accident occurred yesterday morning at the Arlington Hotel here. Mrs. J. W. Loney, a widow, 60 years of age, who was employed in the establishment as cook, was singeing a goose in the kitchen, using lighted paper for this purpose. Her clothing by some means caught fire and in a moment she was enveloped in flames.

Mr. Geo. Thompson is spending this week visiting the annual Furniture Exhibits at Toronto, Kitchener and Stratford.

# THE PARSON O'DUMFORD

He pressed Mrs. Glaire's hand and held that of Eve's for a few moments, saying to himself, Poor girl, I have lightened her heart of some of its load. I have somewhat cleared the man she loves."

"Good night Mr. Glaire," he said, turning to Richard.

"I'll see you out," said Richard, and he followed him to the now vacant hall.

"What do you mean," he said roughly, "about Daisy?"

"I mean," said the vicar, laying his hand upon the young man's shoulder, "that she has awakened to the folly and weakness of her dealings with you, sir, and to the truth honesty, and faith of the man who has loved her for so long."

"Podmore?" hissed Richard.

"Yes, Podmore. Now Mr. Glaire your course is open."

"What do you mean?" cried Richard, angrily.

"Act as a man of honor."

"I don't understand you."

"And all will be forgiven. Good night."

"Curse him!" cried Richard, with an impatient stamp; and he stood gnawing his fair mustache. Then with a smile of triumph, damped by a hasty glance of fear up and down the street, he hurriedly closed the door.

### CHAPTER LIII

Daisy's Letter.

The weeks slipped rapidly by and a great change had come over Dumford The sky was blackened once more with smoke, the furnaces roared, there was the loud clink of metal heard and the hiss of steam while the engines thudded and clanked, while at dinner-time the great gates gave forth their troops of grimy workman

Homes looked brighter once more and "my maister" was not seen with lowering brow leaning against the door post all day long, but tired and hearty, ready to play with the bairns or busy himself in his bit of garden

The trade, too, had brightened up and one and all thanked goodness that their troubles were over, and prayed that they might be long in coming again.

Something of a search had been made for Sim Slee, and the police authorities had been pretty active but Slim and the "leppitation" managed to keep out of sight; and Richard Glaire was in nowise anxious to have the matter too closely investigated.

He kept his story that he found the train laid in the foundry, and Banks the foreman destroyed it, and the place was saved. This he opened at once, and the men gladly resumed work, the vicar's influence telling upon them, and one and all being ready to ignore the past, and try to condone it by regular attendance at the time keeper's wicket.

Banks recovered rapidly, and, on learning the truth, sent for Richard who, however, refused to go to the house to see him, while on his part the foreman declined to resume his position at the foundry.

"No sir," he said to the vicar; "I weer in the wrong, and I shouldn't feel it were raight to go back theer again. I'm sorry I misjudged him as I did, and I weer too hard upon him but he hasn't used me well, neither has Mrs. Glaire. But theer, let bygones be by-gones. I shan't starve and I'm only too happy to hev my poor lass back again, safe and sound—safe and sound, while the missus is in high feather to find that Daisy and her fav'rite, Tom Podmore, hev come together after all."

Mrs. Glaire called at the cottage, with Eve Pelly, and while the former talked with her old foreman, Eve went into the little garden with Daisy

"I've called to ask you to come back, Joe Banks, at my son's wish," said Mrs. Glaire. "He desires that we bury the past, and that you resume your post, for the place is not the same without you."

"Nay, Mrs. Glaire, nay," said Banks shaking his head; "that can never be again. I should hev had to give it up some day so let it be now. And, as you say, ma'am, let bygones be by-gones. We were both in the wrong."

"Both, Joe," said Mrs. Glaire, sadly; "but you will forgive me. I did what I did for the best."

"Ay, I believe thee, but it wear very hard to bear. I deserved it, though, for I might hev knowed that he niver meant to wed my poor lass. Bud theer, that's all past and gone—past and gone. Hey, ma'am, look at them two i' the garden. They seem good friends enew now. And so she's to be married to Master Dick to-morrow?"

"Yes, Joe," said Mrs. Glaire, hastily, "it will be for the best. My son is all that I could wish for now; and they sat looking out at the two young girls as they stood talking.

Their conversation had been on indifferent things for some time, but Daisy felt a guilty knowledge of something she ought to tell, for Eve was so sweet and gentle with her; not one word or look of reproach had been said, but there had so far been no word of the future.

At length Daisy spoke out.

"Do you forgive me, Miss Eve" she said. "I could not help it then though I fought against it, and was wretched all the time."

"Yes, Daisy, yes," cried Eve, eagerly; and she took the other's hand; "but tell me truly—do you—do you—oh, I can not say it."

"Do I care for Mr. Richard Glaire?" said Daisy, with a strange smile. "Do I feel hurt because you will be married to him tomorrow? Not a bit Don't think that, dear Miss Eve, for I love poor Tom with all my heart and only wish I could make him a better wife."

"And you will be married soon, too," exclaimed Eve.

"Maybe in a month or two," said Daisy, looking sadly at her visitor "we do not want to hurry it on. I wish you every happiness, Miss Eve."

"And I you Daisy," said Eve, looking at her with a wondering, wistful look, and asking herself how it was that Richard should have conceived so mad a passion for this girl, while for her his attentions had been of the coldest type.

"Mr. Selwood is going to marry you then?" said Daisy, quietly, for want of something to carry on the conversation.. "But what ails you Miss Eve are you ill?"

"No, no, nothing," said Eve, hastily. "It is hot today, that's all."

And then the two girls stood silent for a while, Eve thinking that the vicar came so seldom now, and then his visits were so quiet and formal while Daisy kept asking herself one question, and that was—

"Shall I tell her?"

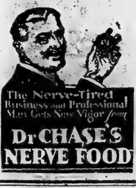
And the answer—

"No it would be cruel now, and once they and I are married, all that will be over."

When the visitors had gone, Daisy went up to her bedroom, and took from a little drawer a note which she had received the previous night. It ran as follows:

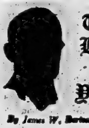
"You know how I love you and how I have watched for weeks for a chance to speak to you. I have been night after night at the old place, believing you would come, but not one glance have I had of you not one word. Dearest Daisy, by all our old meetings, I ask you to give me one more. Don't heed the chatter of the place, but come to the old spot as soon as you receive this, for I am obliged to write. If too late I will be there tomorrow night. Only come and say one loving word to me and all you have heard shall be as nothing. I cannot live without you so come; and if you will, I am ready to take you anywhere—far away, as I have promised you before."

(to be continued.)



The Nerve-Tired Business and Professional Man Gets New Vigor from
DR CHASE'S NERVE FOOD

## That Body of Yours



By James W. Barton, M.D.

THAT MUSCULAR BELT

In a former article I recommended corsets for everybody, having in mind of course the corsets made of muscle with which Nature has provided everyone of us.

They are the muscles of the abdomen which run across, vertically, and obliquely over the abdomen.

Nature intended that we should develop these by the everyday work of life, and so everyone who does much bending would have these muscular corsets developed naturally.

When well developed they will withstand a blow that might even break the ribs.

A boxer gives special attention to these muscles as a blow in the abdominal region might reach the solar plexus of nerves and the victim would be counted out owing to complete temporary paralysis.

However, I had in mind the number of people who wonder why their digestion is bad, why they have pain in the abdominal region so often, and why they are so constipated.

And the reason often?

That they are so weak muscularly that all the organs in the abdomen have actually sagged.

The ligaments that hold the organs in position share in the general weakness and these abdominal organs are allowed to fall forward. Then as the muscles of the abdominal wall are weak they allow the organs to fall further forwards.

Thus the stomach, intestines, liver, and spleen are all out of their normal positions, and cannot do their work properly.

The symptoms vary to some extent, but you can readily see that where the ligaments are weak generally, and the abdominal muscles also, that all the organs will be affected more or less.

There will be a general feeling of weakness, unrest of the stomach, and of intestines.

That many cases of stomach, liver, and intestinal trouble are cleared up by an abdominal support has been amply proven.

The pity of it is that such an artificial aid is needed. The simple exercise of bending over and endeavoring to touch the toes twenty times a day will give you a belt of muscle sufficient to hold your organs in place.

## Campbellford Doctor Suffers From Stroke

Campbellford, Jan. 7.—Dr. John Macoun suffered a paralytic stroke while in his office Friday afternoon and was removed to his residence close by where he was attended by Dr. M. F. Loucks. He was in a semi-conscious condition at the time and had lost the power of speech, one of his sides being completely paralyzed. About 8 o'clock in the evening he rallied and was able to talk a little. A large number of friends called during the evening to inquire as to his condition and to extend their sympathy. It is hoped that he will recover as he is possessed of natural vigor for a man of his years.

SINCLAIR'S

Stock-Reducing Sale

Many real bargains are offered in every department during this sale.

DRESSES—$6.95

There are many outstanding bargains in the rack of dresses in sizes 14 to 18 years. Materials include tricotine, serge, flannel and jersey. Formerly up to $16.50. Sale Price $6.95.

This sleeper may be occupied at Toronto at 9 p.m. and passengers may remain in the sleeper at Sudbury until 8.30 a.m.

Any Canadian Pacific Agent will arrange reservation. J7-10-14-17-21-24

# OLYMPICS WIN IN LAST PERIOD 5-3

### Soo Greyhounds hold Olympics Scoreless for Two Periods

Toronto, Jan. 7.—The Soo Greyhounds held the Canadian Olympics even for two periods of their exhibition game at the Arena on Saturday night, and when the teams skated out for the final twenty minutes of play the score was one to one. But the Olympics threw the throttle wide open as soon as the puck dropped on the ice. They skated the tiring Northern champions dizzy, baffled them with some sensational combination, and inside of four minutes had scored three goals. The final was 5 to 3, P[illegible] Campbell's team winning the round, [illegible] the count in the Soo being 2 [illegible] vor of the Greyhounds. Alb[illegible] ffery, the daddy of the team [illegible] hero of the brilliant rally. H[illegible] all three goals, two of them [illegible] passes by Hoolie Smith, the [illegible] mpic youthful centre player, but [illegible] e's team-mates were just as wonde[illegible] as he in the terrific onslaught on the "Hounds'" goal. Dunc Munro opened the period by ripping through from end to end, but with Fat Walsh flopped on the ice. McCaffery lifted Dunc's wide of the goal. Olympics came right back with another brilliant rush, and following a shot which Walsh stopped, McCaffery poked the puck into the cage when the Soo net-guardian was slow in getting it away from the danger zone.

**Smith to McCaffery.**

Olympics followed with their second goal of the period one minute later, a three-man dash finishing with the puck behind Walsh when Smith shot a pass out to McCaffery. And the same pair got through again, with Mac taking Hoolie's toss and shooting the puck between the poles. And still the Olympics came on, smothering the Greyhounds at every turn. Harry Watson and Smith combined for what appeared to be a sure goal, but Walsh saved on Watson's shot from close in. The Olympic left-winger crossed over back of Smith, and taking the pass, skated in on the Soo's goal with only Walsh to beat. Watson and Beattie Ramsay followed with another attack, but Walsh again saved brilliantly, and Watson skated in alone only to have Walsh come a mile out and flop into the shot just as Harry fired. Olympics kept up their wonderful pace for twelve minutes or more just to show the large crowd that packed the Orena to its capacity what they could do when going at the top of their form. It was a wonderful display of how hockey should be played.

The Greyhounds got into the game again when Johnny Woodruff drilled the puck by Eric Collett after taking the pass from a face-off near the east rail and well out. Hoolie Smith was accidentally injured when he received a bad toss, and Coach Frank Rankin pulled him out of the game, sending in "Sig" Slater to centre, and the Montreal boy immediately after started on attack with Watson, the latter taking a pass and shooting the puck by Walsh. Freddie Cook, from a face-off near the Olympics' cage, battled the puck in for the final goal of the night.

## OBITUARY

### SARAH JANE THOMPSON

When the late Sarah Jane Thompson, aged 89 years passed away at the home of her daughter, Mrs. George W. Pymer, 3rd Concession of Ameliasburg township near Mountain View, on Sunday morning, January 6th, the breach in five living generations of that family occurred.

Deceased who was the widow of the late Charles Thompson, was born on February 22nd, 1834 in Adolphustown, and was of United Empire Loyalist stock. She lived in Prince Edward county almost the whole of her life.

Two daughters and one son survive. They are Mrs. James Shoebridge of Bloomfield, and Mrs. George Pymer at whose home she died, also the son, Emmerson, of Seattle.

### JAMES R. FORBES

The body of the late Mr. James R. Forbes who passed away in this city was last night shipped to Packenham for interment. At the home of Mrs. Lee Ketcheson, daughter of the deceased, a service was held on Sunday evening at 8-30 conducted by Rev. A. S. Kerr, Pastor of St. Andrews Church, after which the body was taken to the station for shipment on a C.P.R. train.

### THOMAS C. MILLS.

Despite the inclement weather conditions on Sunday many attended the funeral of the late Thomas C. Mills, tax collector of Sidney Township. At the Methodist Church, Wallbridge. Rev. T. Honey conducted an impressive service and referred feelingly to the deceased and the loss which the church and community had sustained by his passing. Interment took place at Frankford cemetery. A number of floral tributes were evidences of sympathy. Bearers were Messrs. H. Jeffrey, W. Horner, B. Ketcheson, W. J. Wood, C. Bower and H. Bower

### JOHN YOUNG

Mr. John Young an aged and much respected citizen passed away this afternoon at his late home College Hill. Deceased was 85 years of age and was born in England. For over half a century Mr. Young had resided in Belleville and for many years was a faithful employee. He was a member of Oxford Lodge Sons of England. Deceased was a widower.

### KILLED BY STREET CAR

Sarnia, Jan. 7.—John McArthur, 66 North Christina street, died in a few minutes after he was struck by a street car on St. Clair avenue, Point Edward, about 7-45 last evening.

# SEVEN COUNTY COUNCIL MEMBERS TO BE NAMED IN ELECTIONS TODAY

Thurlow.
Reeve—G. L. Sills.
Deputy Reeve—E. W. Brown.
Sidney.
Reeve—W. A. Reid.
Deputy Reeve—Clem H. Ketcheson
Tyendinaga.
Reeve—J. G. Campbell.
Deputy Reeve—To be elected.
Hungerford.
Reeve—J. L. Newton.
Deputy Reeve—Jos. Taylor.
Huntingdon.
Reeve—Jas. Haggerty.
Elezevir.
Reeve—Jas. Moore
Deloro Village.
Reeve—S. B. Wright.
Faraday.
Reeve—W. E. Wiggins.
Councillors—Wm. Plumley, W. E. Young, M. Vader and D. McLellan.
Wollaston.
Reeve—C. S. Rollins, (accla.)
Councillors—Alex. Ferguson, W. N. Gilroy, Leo Gordon, D. Henderson and Herb Moore.
Tudor & Cashel.
Reeve—W. A. McMurray.
Councillors—Joseph Blackburn, Jas. Hogan, Harry Lummis and Harvey Gunter.
Bangor, Wicklow & McClure.
Reeve—Chas. Burlanyett.
Councillors—J. J. Gannon, J. A. Barry, Alex. Cairns, and John H. Boyle.
Mayo.
Reeve—F. White.
Councillors—Jas. Wannamaker, Geo Adams, Wm. Pamabottom and Chas McPherson.
Carlow.
Reeve—Jas. Douglas.
Councillors—Alex. Taylor, John Whyte, John Allison, and Peter J. Stringer.
Limerick.
Reeve—Alex. McKenzie.
Councillors—Thad Gunter, Alfred Ham, W. J. Morton, Geo. Parks and Anson Reid.
Bancroft Village.
Reeve—Dr. A. T. Embury.
Councillors—E. L. Reid, J. D. Wilson, John Kelusky and D. L. Kavanagh.
Deloro.
Reeve—S. B. Wright.
Councillors—F. A. Bapty, R. A. Elliott, I. Hemphill, H. A. McNally.
Deseronto.
Reeve—E. T. Metcalfe.
Stirling.
Reeve—C. R. McGuire.
Huntingdon.
Reeve—Jas. Haggerty.
Elzevir.
Reeve—Jas. Moore.
Councillors—Wm. Greatrix, Ed. Groves, Neal Reavie and Ed. Nolan.
Madoc Township.
Reeve—C. W. Thompson.
Madoc Village.
Reeve—Walter Whytock and John Robertson.
Councillors—J. English, B. Embury R. C. Fair, D. A. Morecroft, W. A. Roberts, Fred Thompson and C. D. Wallbridge, four to be elected.
School Trustees—Mrs. J. F. Jenkins Mrs. E. Tumelty and John K. Armstrong.

**Two Contests in North.**

In only two of the several municipalties in the northern part of Hastings County i sthere a contest to-day for the position of Reeve and Councillors. These tw otownships are Dungannon and Monteagle and Herschel. In Dungannon Township Mr. M. McLean is opposing the present Reeve Mr. Thos. Turriff. In Monteagle and Herschel Township there are three aspirants for the Reeveship, namely, E. A. Wootten, present Reeve, Thos. Robinson and Jas. Bartlett.

# PICTON JUNIORS HERE TO-NIGHT

To-night at 8.15 p.m. Picton Junior O.H.A. squad will cross sticks with Belleville Juniors at the arena, and will incidentally open the junior season here, besides supplying the second game of the season for the fans of Quinteville.

Manager Ed. Thomas states that he has a nifty little team of juniors with almost all of last-years' squad who are still eligible to play this year, as well as a number of newcomers who are being schooled in the winter pastime.

Interest should be manifested in the juniors who are the feeders of the Intermediates in the years to come,

The line-up of Belleville juniors will be chosen from the following players Goal, Lloyd; defence Jim Hunter and Bill Strachan; forward line, Bill Scott, Jack Arnott and Jack Cummins.

### SUSPEND LALONDE.

Calgary, Jan. 7.—The suspension of "Neway" Lalonde, captain and centre ice star of the Saskatoon Crescents for one game was announced by F. L. Richardson, president of the Western Canada Hockey League, Saturday night. This action follows the rough play participated in by Lalonde at Saskatoon on New Year's Day, when McQuaker, Regina's goal tender, was injured.

# HAMS GO DOWN TO CANADIANS

### Youthful Forward Line Send Frenchmen to 5-1 Victory

Montreal, Jan. 7.—Canadiens atoned for the drubbing they received at Hamilton last Wednesday, when they swamped the Tigers in a scheduled N.H.L. fixture at the Mount Royal Arena on Saturday night 5 to 1. About 5,500 the largest crowd that has witnessed a local match here this season, attended the game, in which the Montrealers clearly demonstrated their superiority in speed, stick-handling, shooting and hockey generalship.

Seldom in N.H.L. games locally has such fast hockey been seen as that which marked the first period on Saturday night. The teams started with a rush that was maintained throughout the first 20 minutes without let-up, the puck going from end to end in lightning-like rushes, but with Canadiens having the margin. The pace told, and in the second period the players were content to take it more easy. Canadiens played a waiting game in this session, having the advantage of a two-goal lead, and they allowed the Tigers to bring the play to them. It proved a clever move, for the visitors tired under the grind, and in the final period, although there were flashes of brilliant play by both sides, the locals had an edge and held a safe margin.

Canadiens—Goal, Vezina; defence, S. Cleghorn and Coutu; centre, Morenz; wings, Joliat and Boucher; subs., O. Cleghorn, Cameron and Mantha.

Hamilton—Goal, Forbes; defence, Randall and Spring; centre, Burch; wings, Roach and Prodger; subs., 'Red' Green, 'Shorty' Green, Bouchard and C. Dennenay.

Referees—Col. Spittall and Dr. Jerry Laflamme.

# ST. PATS EASY FOR SENATORS

### Champions Hold St. Pats Scorless Until Final Period—Score 7-3.

Ottawa, Jan. 7.—Toronto St. Pats were no match for the Ottawa Senators in the National Hockey League fixture played here Saturday night, and were decisively beaten by seven goals to three. The locals retained command of the situation throughout, and only good goal tending by Roach kept the score down. Senators jumped into a four-goal lead in the first period, and added two more in the second. Their margin of six goals at the second rest was well earned, and represented the difference between the two teams.

Jack Adams was the outstanding star of the visitors. Jackson turned in a creditable effort, with Corbeau also in the limelight. Andrews showed plenty of speed and worked hard, but was closely checked. "Babe" Dye was used frequently, but confined his efforts to shooting, in which respect he was held comparatively safe. His single tally was a slow shot on a rebound.

Cy Denneny again turned in a spectacular game for the locals. His shooting was deadly, and he carried the play to the Irish consistently. Nighbor played well, and George Boucher was in his best form of the season. Hitchman and Clancy alternated with Boucher and did splendidly, while both Campbell and Smylie, the latest acquisitions of the Senators, made good. Art Ross handled an easy game satisfactorily, only two or three minor penalties being inflicted. Ernie Carson, in the role of judge of play, was an able assistant. The line-up:—

St. Pats—Goal, Roach, defence, Corbeau and Stuart; centre, Adams; left wing Noble; right wing, Arbour, subs. Dy, Andrews and Jackson.

Ottawa—Goal, Benedict; defence, Boucher and Hitchman; centre, Nighbor; left wing, Dennenay; right wing, Broadbent; subs, Smylie, Helman, Clancy and Campbell.

Referee—Art Ross, Montreal.

Judge of play—E. Garon, Montreal.

### BAY OF QUINTE LEAGUE.

Napanee, Jan. 6.—At a meeting of the Bay of Quinte Hockey League the following schedule was drafted for the first half of the series:

Jan. 11—Napanee at Belleville.
Jan. 12—Point Anne at Kingston.
Jan. 15—Belleville at Point Anne.
Jan. 18—Point Anne at Napanee.
Jan. 18—Kingston at Belleville.
Jan. 23—Point Anne at Belleville.
Jan. 25—Napanee at Point Anne.
Jan. 25—Belleville at Kingston.
Jan. 30—Kingston at Point Anne.
Jan. 30—Belleville at Napanee.
Feb. 4—Kingston at Napanee.
Napanee at Kingston (open date).

**34th Battery**

The 34th Battery hockey team will practice at the arena on Tuesday, from 6 to 7 p.m. First game Friday night. All players will please attend these practices. J7-2td

# A $26,000,000 Investment in Canadian Prosperity

With the dawn of the New Year, another momentous chapter in the annals of Canadian industry starts its unfolding as the Ford Motor Company of Canada Limited, takes over possession of the new $12,000,000 plant at Ford, Ontario.

Only a few thousand people will witness the first turning of the wheels and see the awakening of this great industrial giant; but the influence of that awakening will be felt in every city, town and village in Canada and in the far corners of the earth, for the Ford industry is wide as the British Empire.

In Canada, the Ford industry is a very intimate part of the national life. It provides a livelihood for some 30,000, Ford workers and their dependents. It gives total or partial employment to an equal number of workers in Canadian factories supplying it with goods. It brought last year over $17,000,000 to Canada in export trade and it paid over $4,000,000 into the national treasury in the form of revenue.

The total Canadian Ford investment is now over $26,000,000—a huge investment based on an abiding faith in Canada's loyalty to Canadian industry—

Built to serve the transportation needs of Canada and the British possessions overseas.

FORD MOTOR COMPANY of Canada Limited
Ford, Ontario

## Special Services Bridge St. Church

### Appropriate Serman by Pastor With Special Music By Choir

There was a special New Year's service at the Bridge Street Methodist church yesterday. Rev. Dr. E. N. Baker, Principal of Albert College, spoke in the morning. His subject "The Cloud of Witnesses". A New Year's communion service followed Dr. Baker's address.

Rev. Malott, the pastor, delivered the evening sermon, his subject being "How to Get a Fresh Start". The sermon was based on Ephesians 4th chapter, 22nd to 24 verses. The divine spoke of how New Year's was observed in all lands. He referred to the time in the reign of a Roman Emperor when ten months was considered a year and later when two months were added namely, January and February. January derived its name from the God Janus which had two faces, one of which looked back upon the past and the other looked forward into the future. This naturally is a time when people look backward and forward and had become a time for making good resolutions. He then recalled the teaching of the Apostle St. Paul, in which he gave advice to the people to begin to throw off the old man by which he meant to put away all wrong and sin and put on the new man, thereby letting the better nature of mankind assert itself and gain control. This the divine said was something for every day and not just for the new year.

Special music was rendered by the choir at both services. In the morning Mrs. G. Stobie sang the solo of the anthem entitled "No Shadows Yonder" from God's Holy City. Mr. Fred Sprague rendered the solo part of a solo entitled "Nazareth", by Goundod. In the evening Mrs. Mary Yeomans Donald sang a solo and Mr. Snelgrove sang the solo part of a chorus entitled "Now the Day is Over."

## Canadian Citizens of all Churches
## BE WARNED

### If the Proposed Church Union Bill Becomes Law

1. Canada will lead the way in coercive uniformity.
2. Thousands will be prevented by Parliament from worshipping God according to their conscience.
3. Thousands will be forbidden the use of trust funds legally and morally their own.
4. Will the people of Canada allow Parliament such power over the religious freedom of all its citizens?
5. What happens to Presbyterians, may happen to members of any other Church, if this bill becomes law.
6. The Presbyterians are fighting the battle of religious freedom for all the Churches of Canada.

## Snowstorm

(Continued from page one)

**Street Cars Stalled**

Toronto Jan. 7.—Toronto's street car system was hard hit by yesterday's storm, although there were no really long tie-ups. "Somewhat erratic, but all told, quite steady." was the way transportation officials described the service. Drifting snow caused most of the trouble, though a power interuption of 8 minutes at about 7.30 p.m. aggravated things a little further. Bloor Street probably suffered most, though even there the situation was not really serious.

Trains were arriving late at the Union Station yesterday owing to the snow.

**May Interfere With Elections**

Three inches of snow fell in Northern Ontario Saturday night and yesterday morning, accompanied by high winds, but no great damage is reported. Train service has been interfered with only slightly. Temperatures dropped to from 15 to 35 below Hornepayne being the coldest, last night, but the weather is warmer tomorrow.

The storm may interfere considerably with the turnout of voters at the elections tomorow.

**Blizzard at London**

London, Jan. 7.—From early yesterday morning until the present writing a blizzard that was borne on a high and piping wind has prevailed. The temperature too, was not very far from zero. Hamilton clung fondly to its firesides, its slippers and its overstuffed chairs. Very few braved the elements to venture outdoors to night.

**St. Thomas Cars Tied Up**

St. Thomas, Jan. 7.—This district was in the grip of real winter weather throughout yesterday, the thermometer hovering around zero and a cold southwest wind carying snow with it. The storm took the aspect of a blizzard and the street railway was tied up for some time. Little trouble is reported by the railroads operating through here.

**Ottawa Cold Place**

Ottawa, Jan. 7.—The coldest weather of this winter was felt here early yesterday morning when the mercury dropped to 11 degres below zero. The intense cold was accompanid by a biting wind which turnd into a heavy snowstorm last night.

**42 Below.**

Port Arthur, Jan. 7.—Those who predicted an open winter this year have another guess coming, so far as the Herd of the Lakes is concerned for at 4 o'clock on Saturday the thermometer registered 42 below zero Throughout the city all thermometers registered 30 below or lower.

## BRODEUR'S FUNERAL
### LARGELY ATTENDED

Quebec, Jan. 7.—Ecclesiastic and military pomp united here Saturday to pay the last tributes to the late Louis Philippe Brodeur, Lieutenant-Governor of Quebec. Dignitaries of the Church, luminaries of the Bar, heads and representatives of the Federal and Provincial Governments and of the Governor-General of Canada, members of all professions, delegates and bodies from societies, joined together to render the last respects to the distinguished jurist, who for short a time filled the Lieutenant-Governorship of the Province, and who was laid to rest today in the cemetery at Beloeil.

## AUNT MARTHA'S OWN COLUMN

One Woman writes:—
"Dear Aunt Martha:—
"I have taken your advice, "and am now a regular patron "of the Dominion Store here "in my town. I have been surprised, and gratified, at how "a few cents saved here and "and few cents saved there' "mounts up. I figure that I "am saving 10 or 15 dollars a "month on my groceries. Of "course, I have a large family "but that is all the more reason "for saving, isn't it?"

Indeed it is, good woman. How growing, chubby youngsters do *eat*. It is a pleasure, though, to watch them, but what of the expense? This is such a good argument for us—the Dominion Stores. We *do* help you save—a few cents here and a few cents there—but it means a new pair of shoes or a cunning little dress, perhaps.

We *help*—we promote thrift—and that's why I like our business. We are doing, I think, a real service. The man with the little store is going his best, too, but his purchases are only one three-hundredth of ours, and he can't hope to match our prices regularly.

Aunt Martha

SATISFACTION

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

## APPROACHING FOREST EXHAUSTION

Editor, Intelligencer,—Despite the great amount of publicity devoted by the press the past year or two, to the subject of forestry and forest depletion, very few yet fully realize how critical the situation really is that is confronting Canada to-day. Even were the Government to adopt every wise measure that has been suggested for forest conservation, which, of course, is entirely improbable, Canada will still be faced with a wood famine within ten years, regardless of whether fire is kept out of the remaining young growth and regardless of how many seedlings we may plant in the meantime. A new crop cannot be produced in time to provide for the enormous and increasingly heavy demand that is being made on our small remaining wooded area. Our forest fire losses are away beyond any figures given to the public.

It is useless for propagandists for American interests to endeavor to hoodwink the people. The cold facts are perfectly apparent to everyone who travels across Canada, either by train, steamer or automobile. As far as the eye can reach the devastation and lack of forest growth is perfectly obvious to the most casual observer. As for the remote sections where railroads do not penetrate, the fact that mere poles are being cut in these areas at such great distances that it takes two and three years to make the drive to the mills, proves conclusively that we are now largely operating along the very fringe of our last stand of wood.

The fact that governmental statistics in regard to the forest wealth of Canada, compiled in the past, are practically worthless, being at best little more than guesses, is frankly conceded by the Government officials themselves. A set of such statistics, issued this year by the Forestry Branch of the Department of the Interior, for the information of the Empire Forestry Conference, differs materially from a similar set of statistics issued only two years earlier by the Officials of the Conservation Commission of Canada. Neither of these statements is based, except to a small degree, upon actual inventories of the standing timber and neither takes sufficient account of the wood lost through fires and other destructive agencies. Many past estimates have fallen down very materially when the areas have been actually cut out, some areas producing only twenty-five per cent. of the amount estimated. Consequently, I have said and I repeat that one is obliged to ignore these statistics if one wishes to arrive at an accurate understanding of just how little timber, commercially available remains in Canada.

Timber, unlike minerals, is all above ground. There is no mystery or secret about it. It does not require an expert to determine between burned-over, scrub, muskeg and stump land and green pulpwood areas. Take a trip along any railway in Canada and travel any river as far as its upper reaches, then plot in on your map the land devoid of any timber and see what you have left. Then figure up the total cut for home consumption, not of five years ago but to-day, then take your exports, not for a year ago but for 1923. Next take your insect, fungi and fire losses and offset your annual growth with the loss from wind and you will be appalled at the result. Bear in mind in figuring how long the remaining stand will last. You must also add the average annual increase in consumption as well as the average increase in destruction for just so long as we continue present methods of operating and exploiting our forests, just so long will our alarming losses continue to increase in an adverse ratio.

In a statement "Canada's Pulpwood Resources", issued by the Canadian Pulp and Paper Association, it is estimated that the annual average increase in consumption of pulpwood in Canada is 15.4%, which in ten years' time will mean an annual consumption of over nine million cords, or three times the quantity consumed in 1922, without taking the volume exported into account.

The ridiculously childish prattle concerning interference with "vested rights" in connection with making the best use of our forest resources is pure balderdash. The time is not only here, but is long since past when we should have limited the cutting to the amount of the net annual increment even for our own industry. This ploicy is being practised in practically every other country, dependent in any measure on forest resources, except Canada. Even in the United States, which is notoriously profligate in the use of its forests, cutting on all publicly owned lands is under Government regulation, while in New York State, cutting for any purpose whetever in State forests has been totally prohibited.

No cry of "vested rights" is heard except where American monied interests are concerned. Apparently no one in our Government is constrained to speak for the "vested rights" of the Canadian people. The Government over all the water powers belonging to the people of that Province without compensation. No cry of confiscation or the invasion of "vested rights" was raised in their behalf, even by those Nova Scotians who are now so vociferous in their appeals for protection for the so-called interests of foreign despoilers of our forests.

Stipulating that wood must be manufactured in the country where it was grown in the interests of the whole people is not confiscation but merely sound [illegible] which is amply justified by Canadian precedent and by universal practice. Any one acquiring property realizes that as an owner he must submit to such laws and regulations as may be deemed necessary for the public welfare. There are American Court decisions to the effect that the State may prescribe that a land owner cannot cut any tree on his privately owned land except by permission of the State and that, too is not only the law, but the practice in Swden and the other Scandinavian countries.

There is no "confiscation" involved in the proposal to require all pulpwood grown in Canada to be put through at least one process of manufacture before being exported. Such a regulation would not dispossess any forest owner of his holdings; it would only regulate their utilization, and any owner of timberlands in Canada today who is not willing to utilize the wood in Canada could dispose of his holdings at a handsome profit.

Now that the erection of a sufficient number of new pulp mills is assured to provide a market for all available pulpwood in Canada the people will demand the reason for any further compelling the manufacture of all of this, the most rapidly-increasing raw material supply in Canada, so that the Canadian people may at least derive the full benefit of their own devastation.

As I have repeatedly stated and now reiterate, the loss of our forests will not only involve the practical stoppage of our pulp and paper and all other wood-using industries, but seriously affect our agriculture as well, since crops cannot be grown in a country devoid of trees. Wheat cannot be raised in a desert, a truth emphasized by the fact that some of the world's greatest deserts today were once richly forested areas and yielded rich crops, but are now incapable of bearing crops of any kind, a condition towards which Canada is inevitably heading as rapidly as possible. Due to the same cause, the too rapid depletion of our forests, our water powers are also decreasing in efficiency from year to year, while the navigation of our rivers is becoming more difficult every season.

The entire great pulp and paper industry of Canada is based on the embargo on Crown land wood. If such wonderful results followed from this wise legislation, why such hesitation on the part of the Government to go a step further and prohibit the export of free-land wood.

I ask the reader to pause when he reads these incontrovertible facts. Of what use is it for our best forest authorities to keep calling the attention of the public to these alarming facts if it results in no action? Pages of written warnings do not plant one tree nor extinguish one forest fire. What Canada needs today is action, and no action is possible until those in authority can be made to realize their responsibility and to give the country the lead it now lacks.

# NEW PLAYER ON G.T.R. TEAM

## Hugh Keon, of Tweed, a Pitcher and Outfielder is Secured

Hugh Keon of Tweed will this season wear a uniform of the G. T. R. baseball team of this city. Keon is a pitcher and an outfielder and is regarded as a valuable acquisition to the local team. He will be employed at the Canadian Industrial Alcohol plant commencing his duties immediately.

## PRINCE EDWARD BOY SUCCESSFUL

Rednersville, Jan. 7.—William Binton Anderson, grand son of the late Capt. James Anderson and third son of the late William Edward Anderson, has just passed his final examination as chartered accountant. Brint as he is better known, was a keen student attending Belleville High School for a time, then taking a business course at the Ontario Business College, he then went to the West and was in the employ of Armor and Swift Packing Company, when the war broke out he at once offered his service for overseas was accepted and spent one year on the firing line, but being quite seriously injured after convalescence returned home and joined his brother, Dorland in business at Bamff, for one year; when he went to Montreal and joined the firm of Messrs. George A. Touche and Company chartered accountants. He attended to his duties and studied hard and now has succeeded in passing his final examination as F. C. A. and has become one of the firm of the largest chartered accountants in the world. The head quarters being in London, England, Canada, United States and South America.

# Korean Plots Worry Japan

Tokio, Jan. 7.—Japanese Government is evincing anxiety over widespread anti-Japanese plots among Koreans here. Extreme police measures are being taken to avert further trouble following the arrest of a 23-year-old Korean who threw bombs at the main entrance of the palace grounds Saturday.

## JUNIOR INTER COLLEGIATE.

Kingston, Ont., Jan. 7.—At a meeting at the Collegiate Institute it was decided to enter a team in the junior Inter-Collegiate hockey series. Arrangements are under way to play home and home games with Belleville Napanee, Gananoque and Brockville High School teams. A good season is looked for. The following were elected officers:—Hon. President, E. O. Sliter, principal; President, W. P. Hedley; Vice-President, J. W. Kelly; Secretary-Treasurer, Van Mills; Coach, G. S. Otto.

## U. S. OLYMPICS DEFEATED.

Boston, Jan. 6.—The Boston Hockey Club of the United States Amateur League last night defeated the 1924 U.S. Olympic hockey team in an exhibition game here, 3 goals to 1.

Gauntlet style with elastic woven fitted wrist, long cuffs in shades of Grey, Cardinal, Brown, White and Castor. Very special at 75c.

# ACCEPT PLAN TO BAR OPIUM TRADE

## Swiss Parliament Will Apply American Program of Suppression

By HENRY WOOD
(United Press Staff Correspondent)

Geneva, Jan. 5 (By mail to United Press).—The decision just taken by the Swiss parliament and the Swiss Federal Council to satisy before the end of the parliamentary session next June and Hague convention for the control of the opium and harmful drugs traffic renders virtually certain the eventual world-wide adoption and application of the American program for the suppression of the drug traffic.

This program which has been officially adopted through the exorts of Congressman Porter, chairman of the House of Representatives Commission on Foreign Affairs, as the basis of the League of Nations program, provides not only for the limitation of the manufacture of prepared opium, cocaine, morphine and heroin to the world's actual medical and scientific needs, but a similar limitation also to the production of raw opium an dcoca leaves.

To render the application of this program possible the League has summoned two international conventions for July of 1924. The first of these will either limit or suppress entirely the production and use of raw opium for smoking in Pacific countries and which is still held as legal under the Hague convention.

### A Second Conference

The second conference which will meet as soon as the above limitation to the production of raw opium has been attained, will draft an international convention amongst all the great producing and manufacturing countries limiting the production of the manufactured or derivative products to the world's actual necessities.

To date the greatest obstacle to the above program or even to the successful application of the present Hague convention has been the failure of several very important countries to ratify and enforce the latter. Of these outsiders, Switzerland, which is not only one of the biggest drug manufacturing countries but also a center for the unlawful commerce in these drugs to surrounding and other states together with Turkey and Persia as big opium growing countries, have been the biggest thorns in the flesh of those who are trying to control the traffic.

Under the Treaty of Lausanne the new Turkey agreed to accept the Hague Anti-Opium convention and to undertake its rigid enforcement.

### Persia Yields.

Persia has also notified the League of Nations that opium growing which, in Persia, is regarded merely as a means of livelihood will be reduced and abolished just as fast as western nations help the country to replace it with other forms of agriculture and means of livelihood.

As a consequence, Switzerland remained virtually the last important outsider in the world-wide effort to limit or suppress the harmful drugs traffic.

# BOK PEACE PLAN PRIZE AWARDED

## Identity of Author to be Disclosed After Referendum

New York, Jan. 7.—The American Peace Award Committee last announced that plan No. 1469 had been adjudged the best of 22,165 entered in competition for the $100,000 offered by Edward Bok, Philadelphia publicist, for the best practical plan by which the United States might co-operate with other nations to prevent war.

In its essence this plan proposes that the United States immediately should enter the Permanent Court of International Justice endorsed by the late President Harding, and, second, without becoming a member of the League of Nations as at present constituted, should offer to co-operate with the League, under certain conditions, as a body of mutual counsel.

The identity of the author is unknown to the Jury of Award and Policy Committee, except one delegated member. The authorship will not be disclosed until a nation-wide referendum has been taken to determine whether the plan meets with the support of United States citizens. This probably will not be until early next month.

Fifty thousand dollars is awarded the winner immediately. The rest of the prize goes to him if the country gives the plan its support.

# RESCUES INDIAN AND HORSES IN RAGING STORM

### Farmer Pinned Underneath Horses Which Were Entangled in Runaway

### NEAR MARYSVILLE

### Thrilling Rescue By Belleville Man Who Refuses to Divulge Name

His suspicions aroused by a cloud of flying snow as he motored towards Belleville on the Kingston hoghway Saturday night, a Bellevillian returning to see what caused the disturbance found a team of horses down in the ditch and an Indian pinned underneath one of the animals.

It is believed that the accident was the result of a runaway, the horses finally becoming entangled and falling in the ditch upon the driver, who was obviously thrown from his seat on the bob sleigh. It is also believed that on such a night as Saturday, the man could not have withstood the severe winter weather longer than an hour. The accident was discovered at 11.30 p.m. in the cut just west of Deseronto on the road towards Marysville.

After extricating the Indian from his position, the Belleville man, who modestly asked that his name not be used, placed the injured man in his sleigh, where he covered him with a blanket in the sleigh and his own automobile robe.

Leaving the man in the sleigh he hurried to an eighboring farm house, and secured the services of the Indian farmer and members of his family. Returning to the scene of the accident, it required over two hours time to free the horses so that they could scramble to the roadway again. The ditch at this particular point is very deep.

The injured Indian was taken home and is recuperating.

## WEEK OF PRAYER AT HOLLOWAY ST. CHURCH

The week of prayer services, conducted by the Ministerial Association had an auspicious beginning at Holloway St. Methodist Church last evening. There was a good audience in which various congregations were represented led by the choir, stirring hymns were sung, and the "Ninety and Nine" was feelingly rendered by Mrs. Leuty. The topic was "Our Children and Young People." Rev. George Marshall delivered a timely and forcible address, urging young people to seek the best things, and admonishing parents to bring their children into the fellowship and activities of the Church. A growing interest in these services is assured.

# HASTINGS COUNTY BAR RECOMMENDS REPEAL OF INCOME TAX LAW

### Mayor-Elect W. C. Mikel, K.C., is Elected Head of County Bar Association

Last year, an Act was passed thru the Dominion Parliament at Ottawa which made unpaid income tax, a first charge on Real Estate in priority to mortgages and subsequent incumberances.

Last night at the annual meeting of the Bar Association of Hastings here, it was unanimously resolved that the Association place on record its opinion that the ammendmant should be repealed, and that a copy of the resolution be forwarded to the Right Honourable W. L. MacKenzie King, Prime Minister of Canada, Right Honourable W. S. Fielding, Minister of Finance, and the members representing Hastings County in the House of Commons.

**Hinders Investment**

The unanimous opinion of the meeting was that such an act would seriously prejudice the interests of the investing public owing to the fact that no method exists for securing that the income tax has ben paid. In addition, it was felt that such an act would prevent the flow into the country of capital for investment in land security owing to the fact that the mortgagee or the purchaser would not have the sense of security formerly afforded. The existing plan involves the expenditure of additional dollars in each and every sale or mortgage of real estate.

The question of validity of the act was also discussed at length, as the amendment to the Income Tax act referred to, cut down the authority of the Provincial legislature in the matter of property and civil rights, delegated to it by the British North America Act.

**Officers Are Elected**

The meeting was very largely attended and was presided over by the past president, R. D. Ponton.

This was the only noteworthy discussion of the meeting. Following are the officers elected for this year:

Hon. President, R. D. Ponton; President, W. C. Mikel, K. C.; First Vice Pres., E. D. O'Flynn; Treasurer M. Wright; Secretary, R. J. E. Graham; Curator, A. B. Colins.

Trustees—His Honor, Judge Deroche, His Honor Judge Wills, His Honor, Judge Fraleck, Colonel Lazier, E. Gus Porter, K. C., M. P., W. N. Ponton, K. C., S. Masson, K. C., E. J. Butler, F. E. O'Flynn, H. J. Smith of Trenton and Crown Attorney B. C. Donnan.

Librarian—Miss L. McCrae.

Purchasing Committee—F. E. O'Flynn, M. Wright, E. J. Butler and C. A. Payne.

Mayor-elect W. C. Mikel K.C., Elected President of the Hastings County Bar Association last night.

# CITY COUNCIL'S LAST MEETING IS HARMONIOUS

### Aldermen, City Officials and Others Express Views

### MAYOR LAUDED

### Reviews Record—Expresses Desire to Co-operate With 1924 Body

At the valedictary meeting of the 1923 City Council last night a feeling of harmony and good will prevailed and the proceedings wound up by the singing of "Auld Lang Syne". This was after complimentary remarks in regard to Mayor Bennett and City Officials had been made by the several Alderman present. Even the press representatives were called upon to speak.

When the orders of the day were reached, which means the adjourning of the Council Mayor Bennett referred to the year's record of the Council of 1923 had concluded its duties. It had been a pleasant year to him. There had been on certain matters some differences of of opinion amongst the members, but citizens had not suffered. The council of 1923 was to be congratulated on the work it had accomplished. His Worship stressed the improvements at the pump house and the installation of the new intake pipe. Improvements at the pump house and other works undertaken.

**Tax Rate Reduced**

The general tax rate was reduced 1 mill and the Council was going out with a surplus. The Belleville exhibit made at the Toronto exhibition was referred to by the Mayor who stated that it had proved a profitable move for some of the industries in the city. The action of the Council in conferring the assessment of 1923 as the assessment of 1924 would have the effect of allowing the incoming Council to bring down their estimates early in the year and thus effect a saving. Mayor Bennett declared he was behind the 1924 Council and would do what he could for the city's interest. In conclusion His Worship complimented the city officials whom he classed as a body of faithful servants working for the interest of the city.

**Alderman Speak.**

Alderman G. E. Foster, W. R. McCreary, H. W. Greenleaf, S. H. Treverton, W. H. Patterson, M. J. Lynch and R. Gardiner, all the members present, spoke briefly praising Mayor Bennett for the efficient manner in which he had performed his duties as mayor for 1923.

Ald. M. J. Lynch in his remarks said that he hoped to be a candidate next year and would endeavor to come back to the Council.

City Engineer C. Campbell, City Treasurer, E. P. Frederick; and City Clerk Holmes thanked the members of the Council for their kindly expressions of confidence in them.

Mr. Russell Carman, barrister has returned to his native city. Mr. Carman has secured a two-year lease of Mr. Harold Holton's house on Albert street. Mrs. Holton and Mr. and Mrs. Harold Holton having moved to Mrs. Charles Holton's home on Charles street.

## Lord Curzon Assails Franco-Belgian Move

(United Press Despatch)

London, Jan. 8.—Foreign Secretary Curzon, has sent two stiff notes to Paris and Brussels protesting against the France-Belgian encouragement of the Rhineland Separatist movement.

# QUINTE CHAPTER INSTALLATION HAPPY EVENT

### Most Ex.-Comp. R. H. Spencer is Chief Installing Officer

### PRESENTATION

### Retiring First Principal J. O. Herity Presented with Gold Badge

The installation and investiture of officers of Quinte Friendship Chapter, No. 227, R.A.M., G.R.C., took place at the Masonic Temple last night and was more varied and enjoyable than such formal events usually are.

The Chapter was specially favored and honored by having as its chief installing officer, Most Ex-Comp. R. W. Spencer, Grand First Principal of the Grand Chapter of Canada, assisting him were Past Principals V. Ex.-Comp. F. C. H. Chesher, and Ex.-Comps. A. R. Schry and W. A. Harden.

The officers installed were:

First Prin.—John McIntosh,
F. Past Prin.—J. O. Herity,
Second Prin.—H. J. Clarke,
Third Prin.—Dr. J. W. Kinnear,
Scribe E.—H. A. Thompson,
Scribe N.—R. D. Ponton,
Treas.—F. D. Diamond,
Prin. G.—W. J. Cole,
Sen. G.—J. B. Findlay,
Jr. S.—W. M. Barlow,
M. of 4th V.—W. A. Walshe,
M. of 3rd V.—R. D. Adams,
M. of 2nd V.—J. A. McIntosh,
M. of 1st V.—J. Stephenson,
Pir. of C.—F. H. Chesher,
Sen. G.—A. C. Wilkin,
Jr. S.—G. H. McArthur,
Jan.—C. A. Hulley.

**Pleasant Event**

Following the installation ceremony, several interesting and pleasant events took place. The retiring First Principal, J. O. Herity was presented with a beautiful, gold past principal's badge, suitably engraved. The presentation was made by M. Ex.-Comp. Spencer in an appreciative address and was fittingly acknowledged by the recipient.

Past Principal Herity then, on behalf of the Chapter presented Grand Principal Spencer with a seven-piece water set of cut glass to give evidence of the esteem in which M. Ex.-Comp Spencer is held by the members and as a small acknowledgement of his services as installing officer. Following this Ex.-Comp. John McIntosh as a further token of appreciation presented Comp. Spencer with two tickets for the Sir

Continued on page three.

# FRASER WINS TRENTON FIGHT

### Defeats N. J. McNair by Vote of 847 to 479

Trenton, Jan. 8.—In the city of Trenton considerable interest was manifested in the civic election which took place yesterday. There were contests for Mayor, Councillors and School Trustees.

Mayor L. Roenigk retired from the mayoralty contest leaving the field to W. A. Fraser and N. J. McNair. The former won out by a majority of 368, the vote being: W. A. Fraser, 847, and N. J. McNair 479.

For Councillors there were ten contestants six of whom were to be elected. Those in the field were: F. Abbott, H. J. Hodgson, J. H. Jones, H. LeFleur, E. A. McQuade, H. E. Maynew, J. J. Macnab, W. E. Milne, J. W. McMaster, H. O'Rourke, Geo. Sprentall, E. J. Wilson, R. J. Whitley.

Geo. Sprentall headed the polls with 847 votes which is the largest number ever given to a candidate in that town. The other successful candidates and the votes recorded for them were H. E. Mayhew 790, F. Abbott 642, E. A. McQuade 640, E. J. Wilson 548 and J. J. MacNab 509.

For School Trustees, James Redick was elected for one year, A. Neilson, H. Graham and J. Goodwill for two years. Rev. Canon E. W. Armstrong was elected by acclamation to the Utility Commission.

# $250,000 WAS 1923 OUTLAY IN PUBLIC WORKS

### City Engineer's Report Shows $23,362 on Concrete Sidewalks

### $62,801 ON SEWERS

### Other Improvements Bring Total up to Appreciable Figure

During the year 1923, approximately a quarter of a millions of dollars was expended by the public works department of this city, namely, $23,362 on concrete sidewalks, $62,801, on sewers, $12,991 on concrete curbs, $19,975 on storm drains, $98,285 on pavements and $7,564 on road oiling. This was shown by the annual report presented at last evening's council meeting by Mr. Charlie Campbell, city engineer. The public works appropriation for the year was $20,000, which the engineer stated had been exceeded by $663.82, but there was some material used which was charged to the department, but which should have been charged to local improvement. When this is adjusted the appropriation will not be exceeded.

**Few Building Permits**

The engineer referred to the small number of building permits taken out during the year, namely thirty, entailing an expenditure of $52,000. It was his intention of looking into this matter and see that permits are taken out for all buildings erected in the city.

The estimated cost of the pavement constructed on Highland Avenue and Station Street was $135,470.

A new truck for the public works department was necessary to be procured during the present year.

The report in detail is as follows:

To His Worship Mayor Bennett & Members of the City Council,
Belleville, Ont.
Gentlemen:—

At the conclusion of another year of Municipal activity, may I be permitted to submit on behalf of my Department a brief synopsis of the works which have been completed during the year which has just closed.

Approximately a quarter of a million dollars was expended by this Department on the various constructions that the Council authorized, and in order that you may better understand the extent of each class of work, I have tabulated in round figures the amount of the works constructed and the expenditure thereon. It is as follows:—

| Class of Work | Extent of Work | Cost | Comparison 1922 Extent | Cost |
|---|---|---|---|---|
| Concrete Sidewalks | 55,606 sq. ft. | $23,302.00 | 41,312 sq. ft. | $15,530.00 |
| Sewers | 21,209 lin. ft. | 63,501.00 | 8,079 lin. ft. | 20,730.00 |
| Concrete Curbs | 12,991 lin. ft. | 12,991.00 | | |
| Storm Drains | 7,089 lin. ft. | 19,975.00 | 2,180 lin. ft. | 6,200.00 |
| Pavements | 22,246 sq. yds. | 98,285.00 | | |
| Road Oiling | 91,364 sq. yds. | 7,564.00 | | 1,359.00 |
| Public Works Appropriation | | 20,663.00 | | 29,961.00 |
| | | $245,581.00 | | $73,730.00 |

In addition to the carrying out of the works as recorded in the above table, we were able to carry out to completion the preparation of the Special Assessment Roll on all outstanding local improvement works, some of which were on the books since 1919, and represented nearly $172,000.00

The marked activity in construction work did not permit of my preparing records of the old work as yet; but my work is now in such a shape that it will commence my records during this Winter, immediately have prepared the Special Assessment for the 1923 construction.

In the matter of new work for 1924 I might say that I have made surveys and have everything in good form to

(Continued on page five.)

# SIX NEW MEMBERS SECURE BERTHS ON COUNTY COUNCIL

### Several Exciting Contests Held Yesterday in County for Reeveships and Council Berths

### VOTE IS LIGHT

### Twenty-five Members of Last Year's Council Will Sit on New Body

Six new faces will grace the Hastings County Council as a result of the election which took place in the County yesterday. The new members are Reeve W. W. Dracup and Deputy Reeve J. McInroy of Rawdon Township; Deputy Reeve J. A. McKinney of Tyendinaga Township; Reeve Richard Bonter of Marmora Township; Deputy Reeve E. W. Brown of Thurlow Township and Reeve Walter Whytock of Madoc Village.

Owing to the retirement of Warden Walsh from municipal politics, Mr. J. G. Campbell, who was Deputy Reeve last year, was elevated to the Reeveship by acclamation.

Mr. Joseph Taylor, Deputy Reeve of Hungerford Township, occupied that position for half of last year. Mr. J. L. Newton, who was deputy reeve, was elevated to the reeveship when Reeve J. H. Clare resigned to become Sheriff of Hastings County.

**Elections for Reeve.**

Elections for reeve were held in Rawdon Township, Marmora township Madoc village, Frankford village, Dungannon township and Monteagle and Herschel township. In Tyendinaga township the only contest was for deputy reeve.

Councillors were elected in Rawdon Monteagle and Herschel and Dungannon townships, Frankford village and Madoc village. The vote generally was light throughout the county, although average votes were polled in some municipalities. The vote for councillors in Marmora Village was heavy.

In Rawdon township the rate was light notwithstanding the fact that there was a contest for reeve, deputy reeve and councillors. The vote was one of the smallest polled in Tyendinaga township where there was a contest for deputy reeve. The vote was also small in Monteagle and Herschel township where a contest was staged for reeve and councillors

A good vote was recorded in Frankford and Madoc villages.

The results in the various municipalities in the county where elections were held were as follows:—

**Rawdon.**

In Rawdon township, Mr. C. W. Thompson, who has been Reeve for some time went down to defeat at the hands of Mr. W. W. Dracup. The vote was 434 for Mr. Draycup and 426 for Mr. Thompson.

Mr. George A. Bailey was elected deputy reeve by a vote of 490 as against 354 recorded for Mr. Wm. Mc Inroy.

Councillors elected and votes given same were Ernest Brown 555, John Johnson 410 and Wm. Stiles 358. School trustees elected by acclamation were Dr .C. F. Walsh, J. S. Morton and H. C. Martin.

**Tyendinaga.**

In the township of Tyendinaga there was a contest for deputy reeve

(Continued on Page 3)

## Personnel of 1924 County Council

The personnel of the Hastings County Council for 1924 will be as follows:

Thurlow—J. G. Sills, E. W. Brown Sidney, W. A. Reid, Clem H. Ketcheson.

Tyendinaga—J. G. Campbell, J. A. McKinney; Hungerford, J. L. Newton, Jos. Taylor; Huntington, Jas. Haggerty; Elzivir, Jas. Moore; Deloro Village, S. B. Wright; Faraday W. E. Wiggins; Wollaston, C. S. Rollins; Tudor & Cashel, W. A. McMurray; Bangor, Wicklow and McClure, Chas. Burlanyete; Mayo, F. White; Carlow, James Douglas; Limerick, Alex. McKenzie; Bancroft Village, Dr. A. T. Southampton—C. E. Short.
Sudbury—J. Gill.
Strathroy—W. W. Wright.
Thornbury—M. Snetsinger.
Thorold—J. J. Broderick.
Tilbury—F. Sawyer.
Trenton—W. A. Fraser.
Uxbridge—King.
Whitby—R. N. Bassett.

## Sydney Murrell In Critical Condition

London, Ont., Jan. 8.—Sidney Murrell, the county jail prisoner who was seized with an attack of appendicitis and operated on by Dr. John Wishart on Sunday, is reported to be very ill in Victoria Hospital, but Dr. Wishart stated that he expects the patient will recover. Hospital opinion is that he is having a real battle for his life.

Murrell was taken ill twelve days ago, and attempts were made by the jail physician, Dr. James D. Wilson, to dissipate the pain by means of hot applications. On Sunday, however, the prisoner's condition became alarming, and it was then decided, after a hasty consultation, to have Murrell operated on in Victoria Hospital.

# EXCITING CONTEST AT CAMPBELLFORD

### Large Vote Polled—Small Majority for Mayor Elect

Campbellford, Jan. 8.—One of the most exciting municipal contests which has ever taken place in the town of Campbellford was that of yesterday when a large vote was polled. Much interest was especially manifested in the contest for Mayor and the successful candidate was elected by the small majority of 5 votes. The contestants were Mr. A. J. Meyers, who received 563 votes as against 558 for his opponent Mr. W. J. Armstrong.

For the Reeveship the contestants were Messrs. Chas. Davidson and J. A. Anderson, and the former was the victor. The vote was C. Davidson 572, J. A. Anderson 517.

Mr. James A. Dorie was elected deputy reeve by a vote of 678 as against a vote of 350 recorded for his opponent Mr. John A. Burke.

Councillors elected were W. J. Abernethy, Geo. Kingston, Samuel Johnston, R. H. Cole, Alexander McDonald and Henry Redden.

Members of the school board elected were Dr. H. O. Nicholson; Don. W. Douglas and John Hall.

The Women's Home Nursing classes held in Pine street school will be resumed on Wednesday at 3 p. This work is being carried on free charge, and any one interested welcome.

# PROPOSES MEMORIAL BRIDGE AS MOST PRACTICAL PLAN FOR HONORING VETERANS

### Writer Explains That Great War Veterans Took Practical Step in Choosing Memorial Building

The following letter regarding the proposed War Memorial presents the writer's an especially attractive manner:—

The "Memorial Editor" Intelligencer.

When the veterans were deciding what type of Memorial Home to build or buy they very wisely took the practical course and located in a building that would serve their purpose and also serve to bring them in an income, in other words they chose the practical and useful thing.

The writer thinks that if the majority of the Veterans would voice their opinion about a suitable memorial they would be just as practical and choose a Memorial Bridge.

There is only one city in a hundred so admirably situated and adaptable to a Memorial Bridge as Belleville. Its one main thoroughfare from east to west Belleville and on the main approach to our city, any person travelling from east to west or west to east must cross it.

You will travel from city to city and from town to town to see monuments. Beautiful pieces of art reared up to commemorate the deeds of both living and dead. But if you were to look farther you will note that they had no opportunity of rearing up a beautiful memorial bridge when such ideal and (needy) circumstances as in Belleville at the present time.

A properly designed bridge would be a perpetual testimony to the boys who fought and died for us.

Yours very truly,
F. R. WOTTEN.

## GOT MONEY FOR PRISONERS GUARD TWIGG IS CONVICTED

Kingston, Ont., Jan. 8.—Late this afternoon Arthur Twigg was found "guilty" on one charge of trafficking with convicts and fined $100 and costs or one month. On the second charge he withdrew his plea of "not guilty" and on this charge he was remanded until called on.

Twigg is an ex-guard of the Provincial Penitentiary. Police Magistrate Farrell found that he had received money from Windsor for the purchase of tobacco for a convict.

## COMING EVENTS

Emmanuel Church Sunday School Christmas Tree and prize distribution takes place on Thursday (next) Jan. 10th at 8 o'clock. J7-3td

Come to the Community Club Concert Prince of Wales School, College Hill January 10th, 1924. Eight p.m. Everybody welcome. J8-3td.

The second meeting of the week of prayer under the auspices of the Belleville Ministerial Association will be held in St. Andrew's Presbyterian Church at eight o'clock tonight. Subject "Our Church and our Neighborhood." Speaker Rev. A. Brown, D. D. J8-1td

Madame Zodda, Scientific Palmist has arrived. Is at the Hastings House. No questions answered unless written. J8-5td.

W. S. Herrington will address Women's Canadian Club, Wednesday January 9th at eight o'clock in lecture room in Armouries. Subject, "The Evolution of the Loyalist Homestead." J8-1d

## MAY REPEAL DRY LAW IN NORWAY

United Press Despatch

Christiana, Jan. 8.—The Storthing will begin its meetings on January 12 amid great excitement because it is expected that the Government will propose the abolition of prohibition.

Oklahoma City, Okla.—Alleging her husband "delighted in removing his false teeth while eating his meals," Mrs. Etta Krumtum filed suit for divorce.

# B.C. Attorney General Raps Ministers On Liquor Issue

(United Press Despatch)

Vancouver, Jan., 8.—Attorney General Manson called members of the Ministerial Association a "Bunch of Pikers" while addressing them. He said they didn't come to his aid when he attempted to secure control of liquor sales for the Provincial Government. Later he withdrew his objectionable remarks. He said women helped but the ministers of the gospel flunked.

## WOMAN CAPTIVE OF CHINESE DISAPPEARS

(United Press Despatch)

Peking, Jan. 8.—Major John Magruder, and Captain Woodrow Woodbridge proceeded to-day to the Honan Province to seek the whereabouts of Julide Kilen, woman captive of Chinese bandits, who has completely disappeared.

# "Day" Dawns For Labor In Britain

(United Press Despatch)

London, Jan. 8—Britain's Parliament reassembles this afternoon for a session which will be undoubtedly marked by the ascension to Government control of the first Labor administration.

# ATTEMPTS TO SUBPOENA DINES AND MABEL NORMAND BLOCKED

(United Press Despatch)

Los Angeles, Jan. 8.—Authorities were blocked Monday in an attempt to subpoena Mabel Normand and Courtland S. Dines to appear at the preliminary hearing of Horace A. Greer, Miss Normand's chauffeur, who shot Dines on New Year's night. Doctors refused to permit officers to enter the hospital.

## OTTAWA CHOOSES DRUGGIST MAYOR

United Press Despatch, Exclusive to The Intelligencer.

Ottawa, Jan. 8.—Henry Watters, druggist was elected mayor over Frank Plant by a huge majority estimated close to 5,000. This is Watter's first time in politics. Extension of the street railway and purchase of new rolling stock was approved 2 to 1.

# Statute Hampers 11th Hour Activities Of City Council

The legislative powers of any municipal Council are curtailed by statute when that Council holds its valedictory meeting after the new year. This was demonstrated at last evening's session of the City Council, when a by-law and some accounts had to be sent on to the 1924 Council.

The statute states distinctly that at a Council meeting after the new year no by-law involving money, or in which money is implied can be passed by the Council and no accounts which have been incurred since the new year.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## GERMAN IMMIGRANTS

The protest registered by the St. Catharines Chamber of Commerce against the proposal to establish 3,000 families from Germany in the Province of Saskatchewan, while it will receive wide endorsation, will also undoubtedly provoke considerable criticism. Statesmen and others prominent in world affairs who are more or less familiar with the philosophy and psychology of humankind agree that that the characteristics of the individual vary but slightly throughout civilized countries, despite racial differences or geographical position.

Soldiers have proven this time and again in war-time, and it was demonstrated on a larger scale in the Great War perhaps than at any time in history. Soldiers who were with the armies of occupation in Germany established friendly relations with their former foes, (individually, of course) and many of them returned home with German brides. Moreover, there have been many post-war tales of celebrations of the First Armistice Day by Allied and enemy troops on the front lines, soldiers of both sides mingling freely.

Upon this hypothesis, the objection voiced by the St. Catharines Chamber of Commerce seems at once unwise and unjust. However, there is another angle from which the matter appears in an entirely different light. For generations, and especially since the confederation of the German states, the people of Germany have been taught to look down upon and in some instances to despise the people of other nations. So thoroughly were they imbued with the idea of German superiority that a large percentage of them even after a lifetime in an adopted country in which they have prospered mightily, still retain their German viewpoint and consider the "Vaterland", its people, its ideals, its customs and its "kultur" vastly superior to the similar attributes of any other land.

This fact was clearly evident during the Great War, and it became a perplexing problem to Allied statesmen. If the 3,000 Germans whom it is proposed to bring into Canada would tranfer their fealty to their adopted country and would cease to look upon Germany as "their country"—superior to all others, and still holding a claim upon them—they would become valuable citizens.

But the experiment possesses an unmistakeable element of danger, because of the condition involved.

In fairness to the German as an individual, however, it must be conceded that there are millions of German citizens in the former "Vaterland" to-day who are eminently qualified to become loyal and highly desirable Canadian citizens. Their industry and perseverance is well-known. But, because of the success of the efforts to "Prussianize" the entire German populace by a shrewdly calculated and super-imposed national training, there is a tendency among the peoples of other lands to look askance upon German immigrants when they seek to establish themselves in groups in a new land. Past experiences, naturally, strength on this feeling of distrust.

In view of these facts it would seem advisable to carefully investigate the antecendents of all prospective German immigrants and to subject them to a rigid examination. Moreover, group settlements should be discouraged. Canada does not want to become a nation of groups, each with different home ties, different ideals and a different attitude toward their adopted country. On the contrary Canada should be a great crucible in which the peoples of all other lands are merged and moulded into the one pattern—true Canadian citizenship. An affection for the land of one's nativity is natural and by no means objectionable so long as one's obligations to his adopted country are not slighted.

However, we should not overlook the fact that there are thousands of loyal Britishers in the British Isles—ideal immigrant material. It may be advisable at present to concentrate upon these when seeking citizenship timber.

## EDITORIAL NOTES

The city plans to institute suits to collect deliquent income taxes. There is humor in this for some people at least.

—o—

Some attractive chickens may be seen in the city to-day—at the Poultry Show in the Market Building.

—o—

Mme. Mustapha Kemel will probably consider her husband's political prominence as somewhat inconvenient to say the least.

The city council sang its swan song last night and pyrotechnics seem to have been absent at the last foregathering of the City Fathers A good omen.

—o—

Premier King's patched up Cabinet promises to be a house divided against itself. Still, the King Cabinet has always been more or less at loggerheads.

## PRESS OPINIONS

### RESULTS NOT SATISFACTORY.
(Toronto Register)

Prohibition seems to be in a bad way in the States. It is losing its effectiveness and slipping backward. On December 26 the New York department of public welfare made public a report covering hospitals, prisons and police courts. The figures show that in the pre-prohibition year of 1918 police department arrests for drunkenness cases attended by the department of correction and those treated in public welfare hospitals and in Bellevue and allied hospitals, totalled 12,536. The number was 17,828 in 1922; there were 10,568 in 1919; 11,129 in 1920, and 12,031 in 1921.

Public welfare hospitals treated 1,145 cases of alcoholism in 1918. Up to October 31 last year they had treated 2,078, an increase of 154 cases over the total number in the year previous Bellevue Hospital and allied hospitals had 2,596 cases of alcoholism in 1918, and 4,502 in 1922. The figures for last year have not been compiled.

Arrests for drunkenness were 8,795 in 1918, and 11,402 in 1922. The ratio of alcoholic cases per 1,000 patients in public welfare hospitals was 27 in 1918. Up to October 21, last year, it was 54, or just double. The ratio in Bellevue and allied hospitals was 40 in 1918 and 87 in 1922. Apparently prohibition does not prohibit.

• • •

### DIVERGENT OPINIONS.
(Manchester Guardian)

The first consignment of Russian grain since the armistice is due to arrive at Hull this week. Others will follow. But it is impossible to hope that normal trade, even on a small scale, can be established between the two countries so long as their political relations remain on the existing and highly precarious footing.

The connection between politics and trade is not, perhaps, obvious, but it is none the less real. Signor Mussolini, who is at least a realist, has proclaimed it by anouncing his readiness to accord full recognition, to the Soviet government as an indispensable part of an effective trade agreement.

### LABOR OPINION
(London Herald)

It is an appallin gthought that by far the greater number of workers in the country's main industries are worse off now than they were before the war. That is the reason for this new movement towards an advance in wages, and it may be added that only by such advance can anything immediate be done to restore industry.

Industry is depressed because too little money is being spent by the mass of the nation and because our foreign markets are not what they were. These will take a long time to restore, but the other evil can be remedied at once. Rises in wages would mean greater prosperity all round.

• • •

### MECHANICAL REMEDIES.
(London Chronicle)

Men and women who affect to believe that all the evils of unemployment and of distress arising out of the war can be cured by a single merchanical remedy—by the mechanical application of a tax on imports—cannot be expected to see how much deeper the evil lies; that it is an affection of spirit and body alike; that you must have faith, you must have belief, that it is no use to apply the cut-and-dried remedies of legislation unless the spirit and will to reform are at the back of them.

## By The Side Of The Road

### THE MASTERPIECE.

There was a weaver, centuries ago
Who sat beside his idle loom all day
Waiting for inspiration; some design
So beautiful and rare that it would be
The masterpiece of his loved artistry
At evening, when the blue mist kissed the hills
And wrapt the valley in soft embrace
The weaver lifted up his eyes and saw
The sun dip low and flush the earth with rose—
As ever sunset does before it goes!

"I will weave that into my rug," cried he,
"Then all who look at it will understand,
For into it I'll weave the mist's soft blue,
The lotus flower, the cherry-blossom pale."

He wove the priceless rug with loving care,
And when men saw it they were wont to say
"Here is true beauty; simple, homely things—
The woodland birds, the flowers, the sunset's glow—
Only a master could have planned it so!"

ELEANOR G. R. YOUNG.

### THE CHANGING SEASONS.

In the spring she sings in songlets
That inspire him to tear
Fifty fivers off his bank roll
For a blinding solitaire.

In summer she confesses
To a longing for a flat,
And he quickly jumps and guesses
He can attend to that.

In the autumn when the leaflets
Turn to read and gold and brown,
She gets busy with new carpets
And buys six—a dollar down

In the winter, after Xmas—
How they like its joy and fun—
Then they settle down to business
And heave coal, $13 a ton!

STUB.

### THE ADVANTAGES OF BEEKEEPING
(Experimental Farms Note)

Bees can be kept in town or country, by young or old, rich or poor. For one entering the business on a large scale, with more than one apiary, the country, of course, is necessary where larger sources of nectar are available. A few colonies can, however, be kept on a small town lot or even on the roof of a house for the bees will fly a distance of two or three miles for nectar. Bees can be kept in situations which are useless for any other enterprise.

There is scarcely a spot in Canada where a few colonies of bees cannot be kept profitably. An abundance of nectar secreting flowers with a high average of favorable weather for the secretion and gathering of nectar makes Canada an excellent country for beekeeping.

Almost anyone can keep bees, and without investing in land or expensive equipment a man or woman who has aptitude can learn to produce an article of food that is unsurpassed for quality and which will keep in good marketable condition even from year to year. It is difficult to state the amount of honey that will be obtained from an apiary, as this will vary in different locations and seasons. Most localities, however, will be covered if it is put at from 50 to 150 pounds per colony in an average season. With proper management one or two colonies will yield enough honey for the average family.

Beekeeping affords a pleasant out door occupation during the best season of the year. As a hobby for office men it provides a profitable and interesting recreation. For teachers and students it offers an occupation for the summer vacation, which is educational and remunerative. Many students have paid their way through college by keeping bees during the summer. Many are finding it a profitable auxiliary to other lines of work. As an exclusive business, many find it well worth while.

Beekeeping not only gives one a crop of honey and a little wax, but fruit and seed growers are also benefitted by having bees in the vicinity of their orchards and fields. Larger crops of fruit and seed are obtained by cross pollination of the blossoms, and honey bees are important agents in this work.

C. B. GOODERHAM,
Dominion Apiarist.

# THE PARSON O'DUMFORD

Daisy sat looking at the letter and read it again and again.

"Only to think," she said at last; "a few months ago I should have sighed and sobbed over that note and been almost ready to be dragged by him where he would, while now—it makes me almost sick. What could I have seen in his soft boyish face to make me feel as I did? But what shall I do? It seems cruel to let that poor girl go to the church with such a man, only that she might save him. And suppose he makes her miserable for life."

Daisy turned pale and sat thinking till she heard her father's call, and then she hastily thrust the letter into her bosom, her face grew radiant and she hurried down, for her father's words had been—

"Daisy, lass, here's Tom."

### CHAPTER LIV
### The Eve of the Wedding

That same evening Eve Pelly was in the garden with Mrs. Glaire—the old familiar garden where she had spent so many happy hours, while now she was sad with a sadness that made the tear rise and fill her eyes.

The old place, with its abundant flowers, its roses climbing the old red-brick wall, the well-shaven lawn, with its quaint rustic vases and flower-beds, and the seats where she had read and worked as a child. It was her dear old home, and she was not going to leave it, but all the same on this the eve of her marriage, it seemed to her that the end had come, and that she was about to bid it al farewell.

It had been an anxious day, for many friends had called and present after present had been brought, all of which, in spite of herself, she had received with tears, and gladly escaped afterward to the solitude of her own room.

Even the workman had clubbed together, and—in spite of past hard times, bought a handsome silver tea pot which came "With the men's dooty to Miss Eve."

For they recalled her sweet gentle face, patiently watching by, or bringing flowers to many a sick wife or child; and it was said that every man in the works, with all his belongings was to be at the church next morning

Mrs. Glaire was with Eve but at last she said she would go in, the latter pleading that she would like to stay a little longer in the soft glow of the evening sun; and so it happened that at last she was left, and feeling glad at heart that Richard had been away all day, she sat down alone to think.

It was so strange she could hardly realize it, and yet this was the last day, and tomorrow she would be Richard's wife.

The warm glow of the setting sun was around her, but a deadly pallor was upon her face, and she began to tremble.

"Am I going to be ill?" she asked herself, and then making an effort, she tried to shake off the feeling.

"Richard's wife," she mused, "May I have strength to make him love me dearly, and to be to him the best of wives."

It was a fervent wish, but as it passed her trembling lips, the tears began to flow, and though she fought against it, the thoughts would come rushing through her brain of what might have been had some one else known her sooner, and not looked down upon her as a poor wak, simple girl.

"Oh, but this is dreadful!" she moaned; "disloyal to poor Dick—cruel to myself. What shall I do?"

She was hastily drying her eyes, when a step on the gravel startled her, and Jacky Budd appeared, red-nosed, as of old, and bearing a small round basket and a packet.

"From Master Selwood, Miss Eve. Parson said I was to gi'e 'em to yow so I brote 'em down the garden mysen and my dooty to you, miss, and may you be very happy, and I'd take it kindly if yow'd let me drink your health, and long life to you."

Eve smiled her thanks as she placed a shilling in his hand, sending Jacky away a happy man, as he calculated that that shilling contained eight gills of ale, and to him what he called comfort for his sorrows.

As the gardener went away, Eve's agitation became excessive, and she hardly dared to lift the lid of the basket.

But a short time since, and she had mentally reproached him for forgetting so, as no token had arrived, only a formal note to her aunt, saying that he would be at the church at ten the next morning while all the time his thoughts had been of her, for here was the token.

A glad flush overspread her cheeks as at last she took the basket and raised the lid, to find within a large bouquet of costly white exotics, the stephanotis amongst which sent forth its sweet perfume, mingled with that of orange blossoms—a gift to the bride.

"A gift to the bride," she whispered, and the flush faded even as the sunbeams were fading fast in the trees above her head.

A bitter sigh escaped her lips—a sigh that was almost a moan, and as she raised the bouquet and kissed it, the tears fell fast, and lay glistening like rain amidst the petals.

If he knew; if he knew," she whispered, "it would be cruel; but he does not know—he never will know, dream."

Almost mechanically she took the little square white packet that lay on the garden seat by her side, and breaking the seal, on which was the vicar's crest, she found a small morocco case and when at last her trembling fingers had pressed the snap and raised the lid, there upon the pale blue velvet, lay a large oval locket, crusted with diamonds and and pearls, a costly gift that glistened in the fading light, and beside it a scrap of paper with the words,—

"God bles you! May you be very happy."

Eve sat with one hand laid upon her bosom to still its throbbings, and, then her lips were pressed to the locket—longer still to the scrap of paper, before the case was shut, and she sat gazing up at the first stars in the pale, soft sky.

A low deep sigh escaped her lips and then she sat and then with a weary look round—

"I am stronger now," she said, and rose to go, but only shrank back in her seat as she heard a rustling noise jumped from the wall, while before she could recover herself, Tom Podmore stood before her.

"Is—is anything wrong?" she gasped; for in her nervous state this sudden aparition suggested untold horrors to her excited brain.

"It's only me, Miss Eve. I wanted just a word."

"Why—why did you not come to the house?" she faltered.

"Don't be scared, miss. I only wanted to be sure of seeing you alone I just wanted to ask you something."

"Yes," she said, composing herself.

"I want to ask you to forgive me, miss if I hurt your feelings, and do something as'll make you feel bitter again me."

"You would not hurt me, Tom?" said Eve, rising and laying her hand upon his arm.

"God knows I wouldn't miss, any more than I would one of His angels said the young fellow excitedly; "and that's why I've come, I couldn't feel as it weer raight not to come, and even though you may think it spiteful, it isn't, but on'y for your sake alone."

"Yes," said Eve, who felt giddy. "You have something dreadful to tell me."

"No, miss," said the young man solemnly, "not to tell you, on'y a note to gi'e you."

"A note from Mr. Selwood?"

"No, miss," said Tom, not seeing the warm flush in the girl's face, "a note as weer sent last night to my Daisy, and which she give to me an hour ago."

"A note?" faltered Eve again.

"Yes, miss, a note. Daisy talked it ower w' me, and I said as you ought to see it; and even if it hurts you sore, I felt I must gi'e to you, and there it is."

(to be continued.)

## SOCIAL and PERSONAL

Mr. Asa Yeomans left Belleville for Montreal, Que., where he will reside in future.

Mr. Ira Simmons, who has been on the staff of the Dominion Bank here for the past two years, left to-day for Uxbridge to which branch he has been promoted.

Mr. James Booth left yesterday for Boston, Mas., where he will permanently reside.

Mr. W. H. Nugent, County Clerk, is in Toronto to-day to atend a meeting of the Executive ofthe Municipal Association of which he is a member.

Mrs. J. A. Shand, of Boston, Mass., is visitiing her parents, Mr. and Mrs. R. O. Mackie, Church St.

## GRAND MASTER HAS BUSY TIME HERE

Last evening at the Oddfellows Temple, District Deputy Grand Master, G. G. Way paid his official visit to the local Lodges for the purpose of installing officers for 1924.

The following officers were installed:

**Belleville Lodge No. 81**

G. F. Youker, N. G., P. Ranson, J. P. G., H. G. Thompson, V. G., H. D. Ranson, Rec. Sec., C. F. Frost, Fin. Sec., J. Coon, Treas., W. Taylor, Warden, N. Thompson, Conductor, G. S. Kerr, Chaplain, G. W. Kerr, R. S. N. G., R. Thompson, L. S. N. G., P. Belnap, R. S. V. G., R. Woodley, L. S. V. G., W. Kelly, R. S. S. I. Sills, L. S. S., J. Hill, I. G., E. M. Juby, O. G.

**Mizpah Lodge No. 127**

W. E. Edmondson, N. G., H. W. Lindstrom, J. P. G., W. MacIntosh, V. G., R. H. Ketcheson, Rec. Sec., G. H. Cochrane, Fin. Sec., G. R. Brower, Treas., F. Andrews, Warden, R. L. Johnston, Conductor, A. Bennett, Chaplain, J. Duckworth, R. S. N. G., A. Allison, L. S. N. G., W. Hall, R. S. V. G., W. Green, L. S. V. G., W. A. Lazier, R. S. S. P. Cavanagh, L. S. S., G. H. Thompson, I. G., W. H. Ralls, O. G.

After the installation, D. D. G. M. Way addressed the Lodges on matters of interest to the District. Congratulation was expressed to the D. D. G. M. and staff for the efficient manner in which they conducted the ceremony. Arrangements are being made for the visit of Argylle Lodge No. 212 of Napanee, who will confer the first degree in Belleville on Jan. 21.

### MARVELLOUS.

He was telling the young woman about his fine cows, and called her attention to a calf grazing not far away. "That calf is only six weeks old," he said. "Isn't he a beauty?"

"Only six weeks old," questioned the young lady in amasement, "and walking so soon?"

## RHODE ISLAND REDS PLENTIFUL AT SHOW

### More Than 1,000 Entries—More to Arrive—Competition Will Be Close Says Secretary

The twelfth annual exhibition of the Belleville Poultry Association was opened to-day and will continue tomorrow and Thursday. There were more than one thousand entries at noon and many others will be added before tonight.

Rhode Island Reds entries led the field. There are also large numbers of exhibits representing each of the other types of fowl. To an unwitting visitor at the City Hall to-day the crowing of the birds would indicate a relay crowing contest. The birds are all of a high standard and even to those who are not connoisseurs in poultry-raising, are an interesting sight.

The entries this year cover a large territory; they are exhibits from as far east as Ottawa, as far west as Bowmanville and as far north as Campbellford.

There would doubtless have been an even larger entry list than there is, but the condition of the roads caused many intended participants to cancel their entries as they were unable to reach Belleville in time for the exhibition. Mr. A. S. Large, Secretary of the Association, explained today.

"The class of poultry shown in Belleville is of a superior class and much improved over previous years" said Mr. Large, and the competition for the prizes will be close," he added.

The officers of the Association are:
President—Col. E. D. O'Flynn.
Vice-Pres.—B. Burnham.
Treasurer—R. H. Ketcheson.
Secretary—A. S. Large.
Directors:—S. Minnings, W. Turner S. Sinfield, J. B. Archibald, J. Bean, F. Kennedy, J. C. Waddel, J. McNulty and W. Harvey.
Judges—Oak and Reid.

## TREASURER AUTHORIZED TO SUE FOR DELINQUENT INCOME TAXES

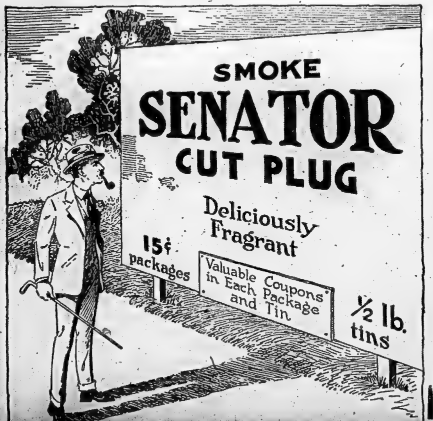
### Action Taken By City Council Upon Recommendation of City Treasurer Fredericks—Many Neglect to Pay

A recommendation passed the Council last night instructing the City Treasurer to sue to collect income taxes from parties in the city who had neglected to pay.

This action was taken as a result of a communication from Mr. E. P. Frederick, City Treasurer, which stated that there were some citizens who had neglected to pay their income tax and he desired to know what action was necessary to be taken.

Mayor Bennett—There was a time when the tax collector or treasurer could not sue for income tax but legislation had recently been passed giving power to sue.

City Treasurer, E. P. Frederick, who was present, stated that some of the parties had left the city and their names were on the 1922 rolls.



## Saved From Pneumonia By Vicks

### Nova Scotia Lady Secures Relief Overnight

Mrs. Charles Dernier, of 2 Ext. Queen Street, Amherst, Nova Scotia, writes: "I had pneumonia for the last two winters and was on the verge of having it again when I thought I would try Vicks VapoRub. Before retiring for the night I rubbed it thoroughly on my chest and back and went to sleep, although I hadn't slept for nights. In the morning I got up feeling like a new woman."

Dr. Osler says pneumonia has taken the place of tuberculosis as "Captain of the Men of Death," to use a phrase coined by old John Bunyan. And Influenza is not far behind. The germs of both of these diseases are constantly with us. The only reliable protection against them is the resisting power which comes from good health. To avoid these dangerous diseases in winter, don't let yourself get run down and above all never neglect a cold. Break it up in its early stages with Vicks Vapo Rub, the external vaporizing treatment for colds.

At all drug stores, 50c a jar. For a free test size package, write Vick Chemical Co, 344 St. Paul St., W., Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## KIWANIS STARTS NEW YEAR WORK

### President Peter McLaurin Gives Address at Inaugural Meeting

The 1924 inaugural luncheon of the Kiwanis brought out the practically one hundred per cent. of the membership. President Peter MacLaurin gave a brief talk on the principles of Kiwanis and what it should mean to be a member of the club. Vice President Bill Lattimor also introduced himself for a two minute talk.

The chairman of the various committees were announced and each of them spoke, giving the names of the members of their respective committees. The chairmen are: Attendance, Herb Fish; Business Standards and Methods, Geo. Cole; Classification, Fred Deacon; Education, Dick Ponton; Finance, Ed. O'Flynn; Grievance, Jack O'Brien; House, Tom Powers; Inter Club elations, Chas. Hanna; Laws and Regulations, Geo. Griffin; Membership, Dick Philbin; Program, Bob Gorman; Public Affairs Allan Schryvor; Publicity, Rus. Wotten; Reception, Geo. Lee.

Chairman Herb Fish said that he would give a prize for the member who attended every meeting for the first six months of 1924 and was promptly threatened with the possibility of having to give somewhere around one hundred prizes.

## HOLD CARD PARTY AT "WILLOWBANK"

Another of a series of "At Homes" given by the Catholic Women's League was held at "Willowbank" last evening.

There was a large attendance and the euchre, five hundred and bridge games were keenly contested. A dainty luncheon was served at the conclusion of card playing after which the prizes were awarded to the following winners:

ship between J. A. McKinney and Wm. Rose. Mr. McKinney was the victor, polling 438 votes against 338 for Mr. Ross.

Frankford Village.

In Frankford village Mr. J. E. Finnegan was re-elected Reeve by a substantial majority the vote being Finnegan 225 and G. N. Spencer 49.

The vote for Councillors was as follows:

H. T. Miller 245, Geo. Pollard 165, J. M. Bell 145, Jesse Snider 143, Charles P. Rose 129 and George Pollard 121.

The school trustees selected were Chas. F. Herman, Darcy Ketcheson, and Thos. Sweetman.

Madoc Village.

A lively contest took place in Madoc village for Reeve, Councillors and school trustee. Mr. Walter Whytock was elected reeve, his vote being 296 against 163 recorded for his opponent Mr. J. R. Robertson.

Councillors elected were Gavin Wallbridge, Bruce Embury, Robt. Fair and James English.

School trustees selected were Mrs. W. H. Jenkins, Mrs. W. F. Connor and J. R. Armstrong.

Marmora & Lake.

In the township of Marmora & Lake Mr. John W. Richardson, former reeve was defeated by Mr. Richard Bonter. vote was Bonter 223, Richardson 115.

Councillors elected by acclamation namely, Lindsay Neal, John E. Maloney and W. D. Nickle.

Marmora Village.

Reeve—G. B. Airhart by acclamation.

Six candidates were aspiring for councillors the result being as follows: John Read 199, Frank Merritt, 169, Fred Johnson 163, T. A. Neal 127 D. E. Bell 125, James Mearn 120. The first four are elected.

School trustees were elected by acclamation namely Mrs. C. A. Bleecker Thos. Warren and Walter Donnelly.

Dungannon.

Mr. Thos. Turic, Reeve of Dungannon township was relected by a majority of 32 votes over his opponent Matthew McLean: A light vote was polled, Mr. Turriff secured 88 votes and Mr. McLean 56. At L'Amable poll Mr. Turriff secured 54 votes, Mr. McLean 48, at Bronson Mr. Turriff had 34 votes against Mr. McLean's 8.

Councillors elected by acclamation were John Harkins, Fred Rupnow, R. J. Arden and John Churchill.

Monteagle & Herschel.

In Monteagle & Herschel township there were three candidates for the Reeveship, namely E. A. Wooten, Reeve of last year, Thomas Robinson and James Bartlett, Mr. Wooten was re-elected by a majority of 26 over his nearest opponent. The vote was as follows: Wooten 120, Robinson 94 and Bartlett 31.

Councillors selected were John Anderson, Frank Pumbley George Woodcock and Joseph Davis.

## Quinte Chapter

Continued from page one.

Harry Lauder concert at Griffin's this evening. The Grand Principal expressed his sincere gratitude for these unexpected expressions of good will.

The banquet following the installation was also notable for its interesting and impressive program.

The Chapter had the unique honor of the presence of both the Grand First Principal and the Immediate Past Grand Principal, M. Ex.-Comp. W. N. Ponton. The latter proposed a toast to the Grand Chapter of Canada in one of those masterpieces of eloquence characteristic of one whose reputation for oratory has become international. The response by M. Ex.-Comp Spencer was a brief but comprehensive resume of Royal Arch Masonary activities in Canada and throughout the world.

Comp. Rev. A. S. Kerr proposed a toast to the "Visiting Companions" and there were appropriate responses by Rt. Ex.-Comp. J. O. R. McCurdy, V. Ex.-Comp. C. B. Scantlebury, Ex.-Comp W. C. Mikel and Ex.-Comp. Wm. Nugent.

A toast to the "newly installed officers" proposed by Comp. John Elliott was acknowledged most successfully by the three principals, Ex.-Comps. McIntosh, Clarke and Kinnear.

The musical program was also an excellent one. In addition to the community songs there was a much appreciated solo by Comp. J. D. Bankier, "The Lament of the Irish Immigrant" and lively instrumental selections by the Eureka Orchestra. Comp. W. P. Youdale presided at the piano.

## Itchinge Eczma Dried Right Up With Sulphur

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

New York, Jan. 8.—Charged with being a fugitive from Hamilton, Ont., Omar Macklem, aged 40, who says he was a Colonel in the Canadian overseas forces, was arrested yesterday in an office building at Wall street and Broadway.

A description, with instructions that Col. Macklem was wanted on a warrant charging larceny of $2,500 and attempt to defraud, was received here four months ago. Detective Mintern learned that Col. Macklem was a stock sales- George Tice.

## LOCAL JUNIOR O.H.A. SQUAD DOWN PICTON IN OVERTIME

### Rushing Two Goals in Quick Succession in the Second Period of Overtime, Al. Wardhaugh Sent Locals Over the Top to Victory—Final Score Was 5-3.

Al Wardhaugh settled the matter of which team would win supremacy last night, when in the second period of overtime, in the opening Junior O. H. A. game, he slifted a clean short shot from the wing position into Picton net and broke the 3-3 deadlock, winning the game for the Belleville squad against their old Picton rivals. Then again but two minutes before the gong at the end of the second session of overtime, Wardaugh again grabbed the disc, and after winding his way through the defence and with no one but goalkeeper Yanover to beat sent in Belleville's last tally, the game ending 5-3 for the locals.

It was a fast game and it wasn't. That is, the kids "stepped right into town" all the way, but they all left the scientific part of the game to George. It was a game of follow the puck, with wierd attempts at combination indicated at times. Other times (few and far between) both aggregations would pull a com. run that was rather prety to watch. No one ever saw any aggregation work more sincerely however. They waded right without a whimper, and were relieved when tuckered out. Both squads need some more work as they lack condition, although their condition was remarkable for the short practice season which preceded their O. H. A. debut.

**Belleville Weakness**

Belleville had plenty of chances to score against a goal minder who certainly had no bells on, but their painfully weak shooting made them helpless, and placed them in a position at least once during the fray, where it looked like Picton for the honors. Hibbard and Scott were very weak on the shot although strong on the offensive and it was left almost entirely to Al Wardhaugh to tally the counters. Jimmy Hunter packs a wicked shot, but relies on this virtue too much, and being on the defence did not have the glorious opportunities that both Hibbard and Scott had up in the front line to score Hunter was a decided asset however especially in the early stage, for he used his weight with wonderful results and went down with numerous rushes also. Toward the dying stages however, he appeared to lay off. Al Wardaugh was the most useful man on the squad, his brother Gord being much too light to be useful, although he will get good experience for next year. Cummins, the other sub is shaky on the skates and his effectiveness is misled. Strachan held up his half of the defence very well and Lloyd in goal turned in a very good performance despite the fact that he missed a "doosey" when Boyle ripped in a clean high one for a goal in the first frame.

For the visitors, Boyle at centre, the team goal getter, and the hefty defence pair, Gord Henry and Alec Fillmore were the best.

**One Hard Battle**

Both squads battled for nearly ten minutes in the first period before the twine was tickled, when Strachan in a wild scramble dangerously close to the goal mouth, bated one in. Just before the bell in the first, Boyle, from well out, shot a swift high one just where Lloyd should have grabbed it in his right hand. It was a perfect goal.

Period number two also saw a battle before the next tally or the period was well spent when Strachan packed one into the boards Al Wardaugh batting in the rebound before goalkeeper Yanover knew what was on. About three minutes afterwards Boyle poked one in between someone's stilts in a scramble, tying up the game again. In the third frame, the locals poked one in about one minute after play commenced and it looked like a victory but Henry left defence for the visitors with a clean shot from the right boards, beat Lloyd for the tying goal again. In the overtime, Wardaugh showed his class by racing two in in quick order, and placed the game in the ice box beside the Intermediate win of Friday night last.

The lineups:

**Belleville**

Goal, C. Lloyd, L. Defence, W. Strachan, R. Defence, J. Hunter, Centre, A. Wardaugh, L. Wing, W. Scott, R. Wing, J. Hibbard, Subs. J. Cumming, G. Wardaugh.

**Picton**

Goal, Jake Yanover, L. Defence, G. Henry, R. Defence A. Fillmore, Centre, Boyle, L. Wing, F. Stafford, R. Wing, R. Brooks, Subs. Bill Rorke Bart Reid.

Referee—Tod Leo of Trenton.

## LADIES' LEAGUE AT RECREATION ROOM

At a well attended meeting at the Recreation Parlors last night the new ladies five pin league was formed, twelve teams being entered with several more to hear from and judging by the interest taken it is going to be a successful venture. Miss Helen Nafin was elected President and Mrs. White, Secretary. Bowling will commence on Monday next all games to start at 7 p.m.

## OSHAWA WINS FROM BOWMANVILLE 5-2

Oshawa, Ont., Jan. 8.—Ginger Edger and his Bowmanville crew of intermediate puck-chasers, fresh from their victory over Whitby, came up here last night for the local opening game of group 3, and a capacity house was out to see the locals perform against the Eastern Hosiery crew. Referee Bob Armstrong, of Toronto, got the teams away well on time, and after five minutes Avery slipped the puck in the nets when Dick Smith left the nets. Hefferman evened it up shortly after, and the first period ended with the score 1-1. In the second period Oshawa added four goals, Low being responsible for one, Williams two and Morrison, while J. Piper notched one for Bowmanville. The third period went scoreless, neither team being able to locate the nets, although both had chances to register, and the game ended 5 to 2 in favor of Oshawa.

**NOTICE.**

There will be a meeting at the Recreation Alleys on Wednesday night at 8 o'clock for the senior and junior league. All those that have teams entered kindly have a representative at meeting as it will be very important. We would like to hear from about three more teams or any individual bowlers that would like to play in the junior league. 2t

RECREATION PARLORS, Bridge St.

## OLYMPICS WIN AT KINGSTON

### Defeat All Stars 7-0 After a Fine Exhibition of Hockey

Kingston, Jan. 8.—By staging one of the best exhibitions of hockey seen in Kingston for years, the Olympics defeated an all-star team made up of Frontenacs, Queen's and R.M.C. by a score of 7 to 0. The Olympics are rightly termed Canada's best hockey team, and the players skate, backcheck and play a combination game better than any other organization which has visited Kingston in a long time.

It would be impossible to pick the stars in the winning team. Smith at centre ice and Dunc Munro were very prominent. Ewart Lindsay was the best man on the All-Stars. Slater of Montreal and McMunn of Winnipeg, which recently joined the team, clearly showed by their play that the committee which selected the team made no mistake in picking them. Both these men were on the wing positions most of the game.

**Joe Smith Leaves.**

Just as the game was ready to commence, Joe Smith, a member of the Frontenac hockey team, who was ready to take part in the contest, was notified that his four-year-old son, who has been in the hospital for some time, was lying. Smith left the rink for the bedside of his son.

The first period showed that the winners had the best of the argument. Their backchecking and skating was wonderful. Smith of All-Stars was the only man who was penalized and he served a time penalty for a slight trip. The game was under way ten minutes when McMunn, the Winnipeg hockey star, made the nets ring for a close shot. A few minutes later Smith scored but it was not allowed, as the referee claimed the player was offside when he shot.

The second period was only underway a couple of minutes when Karl Quinn, the All-Star goaltender, was carried off the ice with a sprained ankle. Harry McNeill, Frontenac's net guardian, replaced him. After seven and a half minutes of play Smith got a pass from the corner and shot dead on, McNeill letting the puck through his pads, making the score 2 to 0 in favor of the Olympics.

The teams:—

Olympics—Goal, Collett; defence, Beattrie Ramsay and Dunc Munro; centre, Smith; right wing, McMunn; left wing, Slater; subs, Watson, McCaffery.

All-Stars—Goal, Quinn; defence, Reynolds and Smith; centre, Fred Brown; right wing, D. Brown; left wing, Carr Harris; subs, Lindsay, McKelvey, Bond, Rooney, Carr Harris, McDonald and Belfringers.

Referee—Bouncer Brouse.

## CURLERS ORGANIZE AND PLAY GAMES

Twenty club skips of Belleville Curling club were duly appointed along with their respective rinks at the curling rink here last night, at a well attended meeting there.

The President and vice-President's games will be played on Wednesday and Thursday nights of this week. Practice games will be played on Practice games were staged last night and the devotees of the roarin' game are rounding into shape for the season's activities. There was a fair sized crowd, and the ice was in ideal condition, chairman of the ice committee Edward Gartley proving himself to be the right man in the right place.

## Taxes Delinquent, City Takes Rent

Miss E. Farley, tax collector of the city was authorized by the Council to follow out the instructions of City Solicitor, Mr. S. Masson, K.C., in regard to the collection of back taxes. It appears that there were delinquent back taxes on a house on Gordon Street owned by Mr. J. Fitzgerald upon which the late Mr. J. W. Seeley held a mortgage which was foreclosed before his death. The instructions of the City Solicitor are to collect rent from the tenant until the taxes are covered. A legal firm in the city threatened action if this course was pursued, but the Council stood by the solicitors opinion in the matter.

**34th Battery**

The 34th Battery hockey team will practice at the arena on Tuesday, from 6 to 7 p.m. First game Friday night. All players will please attend these practices. J7-2td

## Quien Sabe?

**JACK HENRY WILLIAMS**

Widely-known curve-ball southpaw, who has been the mainstay for Belleville Grand Trunks in the hurling department for the past two seasons, and whose future now is as uncertain as income tax is certain. Next year Jack may be a pro. Then again he may still be an amateur. He is reported to be going to St. Thomas to replace Danny McFee who made the jump. He is reported to be going to Ottawa, Port Dalhousie, Toronto Leafs, Baltimore Orioles. On the other hand it is faintly reported that he may still receive his letters at Belleville next summer. To-day Jack was to have definitely decided where he would hang his hat, but he is being given additional time until the end of the week to make his final decision. Jack is in Belleville today, which is situated on the Bay of Quinte (between the devil and the deep blue sea). The gods of Allah do not even know the ultimate outcome, because Jack does not know himself.

**COBOURG IN OVERTIME**

Port Hope, Jan. 7.—In an O. H. A. junior game here last night Cobourg defeated Whitby by a score of 5 to 4. It took 20 minutes overtime to decide the winner. The game was very fast and very few penalties were handed out. Both teams gave a splendid exhibition of hockey. A large crowd witnessed the game. The line-up was as follows:

Whitby—Goal, Hawes; defence, Smith and Rogers; centre, Leigtholm; wings, Mair and Wates; subs., Rowlton and Hall.

Cobourg—Goal, Lloyd; defence, Cavanagh and Hargraft; centre, Gibson, Moore and Brinning; subs, Niles and Rollings.

Referee—J. Carmichael, Toronto.

LEO REISE, defense player of the Hamilton pros., has been sold to Saskatoon, of the Western Canada League. The Hamilton club will receive a player from the western club later.

**FOXES GOT THE KILL**

Saranac Lake, N.Y., Jan. 8.—(United Press)—Clark Hayes, State game protector, while passing through a cedar swamp near here, noted in the snow the tracks of many foxes, all heading toward one point. Following the tracks he came upon the body of a fine tenpoint buck, which had been furnishing food for the foxes and other woods creatures. It was evident the buck had been wounded during the deer hunting season and had staggered deep into the swamp to die, after having distanced the man who wounded it.

**NOTICED SOMETHING FUNNY.**

An English golfer, a beginner after watching another man play, turned to his caddie and said: "Why couldn't that fellow get his ball into the hole?"

* * *

"He was stymied, sir."

"Oh, was he?" replied the dub. "I thought he looked rather funny at lunch."

Tea and Carnation

YOUR favorite cup of tea will be greatly improved when served with Carnation Milk. Use it diluted—one part Carnation, three parts water. Then you will always keep Carnation handy for "tea-time".

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Not only safe but convenient and economical. Order several tall (16 oz.) cans or a case of 48 cans from your grocer. Write for a free copy of Carnation Recipe Book.

How to use Carnation Milk in Tea and Coffee

In Tea: To retain the full, fine flavour of the tea, dilute Carnation Milk with three parts water.

In Coffee: To give your cup of coffee an appetizing flavor with a golden brown color, use Carnation undiluted as it comes from the container. A teaspoonful is enough—use more if desired.

The label is Red and White

KITCHEN ACCIDENTS

How often have you cut or burned yourself, and because of the pain and smarting have been almost unable to continue your household duties? Are you aware that if you would apply Zam-Buk immediately after such an accident it would prevent all that pain and inconvenience?

Zam-Buk quickly takes the fiery pain out of a burn or scald, the sting out of a cut or scratch, and the soreness and tenderness out of a bruise. Besides, it is an unfailing healer and prevents festering, blood-poisoning, etc. Try Zam-Buk the next time you meet with an accident and prove its merits for yourself. Get a box to-day and have it ready for the moment you need it. Zam-Buk is equally good for all sores, eczema, ulcers, salt rheum, blood-poisoning and piles. All dealers 50c. box.

FREE—Try Zam-Buk at our expense. Cut out this advertisement and send it with name of paper and 1c. stamp (for return postage) to Zam-Buk Co., Toronto, and free trial box will be sent you.

## STUDENT TYPIST AWARDED HONORS

### Miss Annie E. Mason Captures Underwood Bronze Medal

Miss Annie E. Mason, of Belleville, has been awarded the Underwood Bronze Medal for speed and accuracy in typewriting. Miss Mason is a student in the Commercial Department of the Industrial Night Classes.

Miss Pearl Adams, a student in the regular classes at the High School, has been awarded her commercial diploma in the Christmas supplimental examinations. Miss Pearl Adams and Miss Olive Adams won proficiency certificates in the Underwood December tests and Miss Kathleen Murphy in the Remington tests.

## IMPROVEMENTS AT CITY GAS PLANT

### Council Adopts Resolution Providing For Elevating Standard

At the Council meeting last night a recommendation was adopted providing that the following urgent necessaries for the gas plant be procured to bring the works up to the required standard:

A recording colorimeter is required to record the B. T. U's going out from the works and to enable the manager to keep the quality of the gas up before it goes out in the district.

Charts to be taken from some weekly and sent to headquarters.

Pressure gauges should be installed so as to enable gas makers to locate any blockage that may occur.

New parts required for exhausters, oil lubricators for pumps; a first aid outfit required for men who may be overcome by gas.

All roofs to be repaired on works and windows.

POTATO SPECIAL

We have just received a shipment of choice, large, mealy potatoes which we are offering at the special price of

$1.50 Per Bag

A REAL BARGAIN IN POTATOES

## $25,000 Was

(Continued from page one)

commence these works which have already been ordered by this Council with regard to sidewalks and sewers. I might say that we have five (5) new sewers and three (3) new sidewalks on order.

The largest expenditure of the year, of course, represented the construction of the pavements, and in that connection I made an examination of the estimates and costs. The estimated cost of the two works was $135,075.00 and the cost, to date, is $138,470,000 including expenditures which I had not considered of approximately $1,800.00, and the interest on the borrowed money, which I also neglected to consider in making my estimates, and which amounts to, now approximately $800.00 per month.

The Public Works expenditure, as you will note, has exceeded the appropiation by $663.82, but, I might say that on examining the expenditures, I find that inadvertantly, materials have been charged to the appropriation which should properly have been chargeable to Local Improvements to the extent of $1,088.000, and I intend to take up with the Treasurer the matter of re-adjusting this account so that these charges will be allocated to their proper account.

The activities of the Public Works Committee, through their very capable Chairman, Alderman Donahue, have consisted amongst other things of the following items:—

| | |
|---|---|
| Loads of wood deliverd for relief | 90 |
| Private Sewer Blockades cleaned or cleared away . . . . . . . . | 15 |
| New catch basins installed . . . . | 15 |
| Miscellaneous complains attended to . . . . . . . . . . . . . . | 246 |
| Total | 453 |
| Storm drains installed . . . . | 2,200 ft. |

These 453 complaints or requests have been sent in by citizens, generally, to this office and our Superintendent, Mr. Henderson, or myself, personally, looked after each one in addition to carrying on all the Local Improvement Work during the season and while I am speaking of the activity of Mr. Henderson, may I call your attention to the condition of the truck, which is the property of the Public Works. The expenditure on this machine during 1923 was nearly $700.00 and it is in a very poor state now and I would recommend that the incoming Council keep in mind the purchase of a new machine. It is absolutely essential to our work that we should have a car on hand at all times, and certainly the present truck is not giving us the best service.

During this present season, the matter of building permits has been rather neglected by the citizens, and I have not been able in the multiplicity of duties to follow up the builders to see that they had their permits. As a result, only 30 permits were issued through this office, having a value of $54,825, as compared with 1922 when there were 40 issued having a value of $255,000. The big difference in the value is to some extent accounted for in the 1922 item by the inclusion of a permit for the King George School which was valued at $130,000.00. I certainly intend, during the coming year to insist on a much more attentive attitude being paid to the Building By-Law by those who are contemplating the erection of buildings within the City Limits.

During 1924 it is my hope that the incoming Council will consider and put into action the substance of my letter to this Council, with regard to the construction of concrete curbs on streets throughout the city which have not been paved. The application of Tarvia has certainly been very satisfactory, but it is impossible to render effective treatment to our roadways, which are not paved, unless we have a good curbing to hold the roadway together, and to drain off the surplus water into proper storm drains. This question of storm drains is an extensive one and we in Belleville must needs consider the building of a storm drainage system, and so relieve our sewerage system from an unfair demand that is now being made upon it in the matter of relieving surface waters.

I trust that the information contained in the above report is of sufficien clearness to be fully appreciated by the Council and the citizens, generally, and in concluding the report, the two items which I would like to stress for 1924 activity are the treatment of our existing good roads on residential streets not paved, with proper storm drains, and the construction of curbing to enable us to keep these roads in good condition.

I would extend my words of appreciation to the members of the 1923 Council for their kindness towards me, and assure them and the members of the 1924 Council of my hearty support and co-operaion in any activity in which I can be of any service to them.

Yours respectfully,
CHAS. D. CAMPBELL
City Engineer.

### IMPROVED TRAIN SERVICE BETWEEN TORONTO AND WINNIPEG.

Improved train service via new Longlac Route between Toronto and Winnipeg has been inaugurated by the Canadian National Railways. "The National" the Toronto—Winnipeg and Western Canada train leaving Toronto 10.45 p.m. daily, arrives Sudbury at 8.55 a.m. first day and Winnipeg 4.10 p.m. second day. ### MOTHER! GIVE SICK CHILD "CALIFORNIA FIG SYRUP"

**Harmless Laxative for a Bilious, Constipated Baby or Child.**

Constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It Sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

# WOMAN'S HEALTH RESTORED

## She Claims Lydia E. Pinkham's Vegetable Compound Did It After Everything Else Failed

Milwaukee, Wis.—"I feel that I ought to let you know about my case.

I was ailing and could barely do my housework and washing I was so run-down, just from having one child. I took a lot of medicines and had doctors. Then I gave them all up and took Lydia E. Pinkham's Vegetable Compound and I feel wonderfully good now. I do every thing that comes along, and we all take your medicine as a tonic when we don't feel just so. I am thankful for what the Vegetable Compound has done for my health and for my family."—Mrs. MARY SAIECHECK, 944 28th St., Milwaukee, Wisconsin.

Letters like these testify to the value of the Vegetable Compound. These women speak from the fullness of their hearts. They describe as correctly as they can their conditions: First, those symptoms that affected them most conspicuously; and later the disappearance of those symptoms. They are sincere expressions of gratitude. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.

## ONTARIO DEPARTMENT OF AGRICULTURE—REPORT OF FARM CONDITIONS

The following is a summary of returns made by the Agricultural Representatives to the Ontario Department of Agriculture:

Fall wheat is now covered by a few inches of snow in most localities and was looking well when blanketed. The general opinión is that with an ordinary season the crop ought to winter in good shape.

Several Representatives express the opinion that live stock were on the grass too long this fall, and that cattle are only now getting into fit form for wintering. There is a good supply of fodders, generally speaking, to carry all classes of live stock over the winter.

During December there was more demand than usual for help on the farm, and men were hard to procure. Farmers, generally speaking, are not now asking much assistance, being willing to pull through in almost any way until the spring rush comes on. Farmers in Prince Edward County are offering $200 to $300 for single men and $400 with house, milk, fuel and garden for married men. Very few will give $500 per year, unless it is for especially good men.

Prince Edward—Several farmers were noticed plowing sod on December 26th, and in the opinion of the oldest farmers, never has so much fall plowing been completed as was the case this fall.

Kent—This has been a very bad fall for husking corn. There has been a heavy rainfall which has not given the corn a chance to get completely dried. The season for corn was rather short this year, due to the backward weather in the spring planting time, and early frost which injured the corn about the 17th of September. A great deal of it did not mature. The percentage of moisture in the corn is very high this year, and corn that is intended for seed and is left in the field after we have had severe frosts, will naturally give a low germination test. We expect to see seed corn prices very high next spring.

Lennox & Addington—The season has been very favorable for cutting brush around the fences and cleaning up the farm generally, and as a result, considerable of this work has been done by farmers, in various parts of the country. A large quantity of wood has been prepared for market and farmers report a very busy time.

Elgin—More tile than usual is being put in this fall. The work on the farm was done up early, and the help turned to putting in tile drains.

Bruce—A car load of common work horses, weighing from 1,300 to 1,600 pounds, which were purchased for the bush, some of which were not yet broken, were shipped recently. It is understood that the owners realized from $85 to $160 each. Some good heavy horses are for sale but there does not seem to be much demand for this type of horse at present. There has been very little movement in live stock lines during the week. The slump in dressed poultry prices has caused the holding of a considerable quantity of poultry, which will be marketed later in January. There is, however, a stronger undertone in the dressed poultry toward the end of this week. Turkeys have advanced from 22c. per pound to 25c. and 28c. Chickens are somewhat stronger while geese and ducks remain approximately the same.

Prince Edward—New milk cows and springers are in keen demand and drovers from Western Ontario have been buying cows for shipment.

Leeds—Considerable demand for good milch cows due to freshen in a few weeks' time at prices from $60 to $70.

Victoria—Feeders claim that at present prices for fat cattle there is no money in the business.

Carleton—A number of farmers have stated they are cutting down on the numbers of brood sows as they are losing money at present prices of hogs. Some prefer to sell them instead of feeding.

Kenora—So far this winter there has been very little teaming done owing to the scarcity of snow and frost, muskegs are still unfrozen. In some localities the lakes have a thin coating of ice which holds up the work greatly.

### DAMAGED, BUT REPARABLE.

The tin roof of a Kansas store was torn off and rolled into a compact bundle by a cyclone. Having a sense of humor, the owner wrapped a few strands of baling wire around the ruin and shipped it to Henry Ford. In due time came a communication saying:

"It will cost you $48.50 to have your car repaired. For heaven's sake, tell us what hit you."

### GOING UP.

Student—In a thermometer.

# Music & Drama

### ONLY 38 BEAUTIFUL PICTURE WELL RECEIVED AT GRIFFINS LAST NIGHT.

Wm. de Milles picturization of the Legimate play ONLY 38 was the feature on the bill which opened at the Griffin Theatre last night.

Featured in the cast of this splendid comedy are Lois Wilson as Mrs. Stanley a widow of 38; May McAvoy as her daughter, Elliott Dexter as Prof Giddings courting Mrs. Stanley and George Fawcett in a strong character role. The story embraces two romances that of Mrs. Stanley and her daughter. The Emphasis being laid on the former, this being a feature which makes ONLY 38 vastly different from the ordinary screen story.

A comedy Western and Travelogue rounds out a nice evenings entertainment.

### "SUCCESS" A SPLENDID PICTURE AT THE REGENT.

Another stage play which lends itself to unusualy fine adaption as a motion picture is SUCCESS which under the same title was seen for the first time yesterday at the Regent Theatre. The film has a dramatic story which is especially acted and it has humor and pathos combined in splendid measure, in all it has very near all a good picture should have.

To those who are in the world of the theatre, the photo play affords a very intimate view of back stage scenes hence the whole action centers about the life of an actor, almost every body in the film and nearly all the characters are of the stage, scenes and types are especially well chosen, and a great deal of the fascination which is exerted by the film can be explained through this theatrical atmosphere. Brandon Tyann one of the most interesting personalities of the American theatre is seen to advantage in the leading role.

A comedy news and the usual thrills in the Steel Trail rounds out the evenings program.

Sir Harry Lauder, whose remarkable popularity will be demonstrated when he appears with his company of entertainers at the Griffin Theatre to-night struggled long and hard before his abilities were recognized. For years he "barnstormed" through the English provinces and in the little towns of Scotland because the London managers, who had no faith in him, refused to give him a hearing. Finally he went up to London determined to get an opening. In speaking of his experiences, Sir Harry said, recently:

"None of the managers would have anything to do with me. One rather friendly fellow advised me to 'hurry home to the kail-yards,' where, he intimated, I probably would be understood. Perhaps there was a bit more bu-r-r to my speech than there is to-day. Another one declared that no London manager would even look at my work. 'And even if ye did get a walk-on the audience would boo ye off in two minutes, he insisted.

"A day or two later Mr. Tom Tinsley, the manager of Gatti's, agreed to temporarily substitute me for an absent artist. I don't remember much about the actual performance, because I was near scared out o' me kilts. I sang 'Tobermory', 'Calligan' and 'Th' Lass o' Killiecrankie', and before the end of the week I was signing contracts covering a lot of years. I went from there to the Tivoli, and from that time the way was easy. I kept creating new songs and characters, and when William Morris introduced me to America I was prepared to give the public any kind of a program. But don't think I wasn't scairt the first time I appeared in New York. I was. I didn't admit it then; but I do now. But it didn't last. The public made friends wi' me at once. That's seventeen years ago. The American public has been friendly wi' me ever since; and coming to America is now like visiting my ain people. And I'm coming again and again—aye, as long as I can sing the songs I love, and which, I feel, I have made the American people love!"

### Don't Spoil Your Child's Hair By Washing It

When you wash children's hair, be careful what you use. Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use in Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces.

Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. You can get Mulsified cocoanut oil shampoo at any drug store, and a few ounces will last for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

### YES, ISN'T IT?

I love a girl, I have been going with her for five years and I have reason to believe she loves me.

# MEIGHEN RAPS KING POLICIES, CITES FAILURES

### Conservative Leader is Ironical in Address at Three Rivers

### TREATY-MAKING

### Cannot Act Independently, Speaker Declares—Plan is "Wild Gibberish"

Three Rivers, Que., Jan. 9.—Right Hon. Arthur Meighen, leader of the Opposition in the House of Commons, spoke to the Conservative Club at a banquet tendered him here Monday night. In the chair was Dr. L. P. Normand and present were Hon. Messrs. Ballantyne, Fauteaux, Bailey and Rodolphe Monty. The Opposition leader spoke in French. In the course of his address he attacked the present administration and dwelt ironically on their record of government.

Canada, he said, was a country not indeed, in despair, but suffering from serious wounds and to a certain extent in distress. There was too much importation. There was also quite a lot of export of Canadian goods, but not enough. The people are leaving the country in alarming numbers, trekking southwards where conditions were seemingly better.

"This," said Mr. Meighen, "if I remember correctly is not what the men of the King Government promised."

The recent by-elections at Halifax and Kent were only the dark clouds to announce the sweeping thunderstorm of Liberal defeat, he declared.

For the greater part of the two years during which Mr. Mackenzie King and his followers had been in office, he said, they had spent their time in an "ingenious struggle to shirk their duties." They had, however, ventured to do certain things. First they tackled treaty-making.

**Treaty-Making Expeditions.**

"They have ben on treaty-making expeditions," said Mr. Meighen. "The Premier started out with the intention, apparently, of being father to all treaties all over the world. First of all there was the Great Lakes Treaty, twenty-two months ago. I am sure you have all forgotten it long ago, but, nevertheless, it is interesting too see to what wonderful matters he applies himself. We always thought that the Rush-Bagot Treaty of 1818 was good enough for us all. There was no trouble between Canada and the United States, still Mr. King thought that the King-Harding Treaty would sound better.

"Apparently this treaty died before its birth. It was abandoned and there was a great effort wasted.

"Then came the great triumph of what is called the Halibut Treaty. The Minister of Marine and Fisheries came to the inspired conclusion that the halibut should be given more peace. He went to Washington and came back with plenty of feathers in his cap. The treaty was unadorned and unaccompanied. Mr. Lapointe elbowed the British Ambassador out of the door, and now Mr. Mackenzie King comes back to Canada after having attended the Imperial Conference and proclaims the great triumph, the winning of the Halibut Treaty.

"Before I go any further," said Mr. Meighen, "I want to tell you that there is no such thing as a halibut treaty. As there was only one signature, the United States Senate declined to ratify it, and this had the effect of cancelling it.

**Negotiations Futile**

"There may be a change and there may not be a change; but until the Senate of the United States chooses to affirm the treaty, the halibut may be chased for twelve months every year."

Mr. Meighen explained the understanding between Dominions that every treaty must be agreed upon even before being submitted to the

# THRIFT WEEK MEANS SUCCESS AND HAPPINESS

### Its Aims and Objects Outlined by Those Interested in the Movement

### CITY WILL CONCUR

### Prizes to be Awarded to Pupils of School For Best Essays—Organizations to Co-operate

In regard to commemorating a thrift week in Belleville, at a meeting held last evening at the Y.M.C.A. build Commerce building it was decided that so far as this year was concerned the pupils of the High and Public Schools will be advised relative to the matter and prizes offered for essays on thrift. The pupils and press will also be asked to co-operate and the subject spoken to at the Rotary and Kiwanis Clubs.

**National Thrift.**

A National thrift week is an economic movement which was inaugurated in the United states and is now in vogue yearly in some cities in Canada. Success, prosperity and happiness are the fundamental principles of the movement.

The movement has the backing of President Coolidge of the United States, and is taking a hold in Canada stated Mr. J. O. Herity, Secretary of the Chamber of Commerce. The object is a good one and has proven of great benefit where it has been inaugurated.

**Plan of Campaign.**

The plan of campaign where a thrift week is held was minutely explained by Mr. R. C. Sidenius, Secretary of the local Y.M.C.A. The seven days are designated as thrift day, budget day, pay bills day, share with other days, life insurance day, own your own home day and make a will day. Forty-seven different organizations are behind the movement in the two countries where the weeks program is carried out. The question was what could we do in Belleville in regard to the movement.

Undoubtedly this was a most important matter and a large question. If we could in some way inaugurate a thrift week in Belleville it would be a grand thing and especially in the schools with the rising generation. This was a suggestion bought out by Mr. J. Elliott.

If we cannot go into the homes of the city we can go into the schools with this thrift scheme said Mr. H. W. Ackerman, Chairman of the School Board. We can educate the children to be thrifty and by so doing can reach the homes.

Thrift touches life in all of its phases and has for one of its objects the increasing of our earnings. It is an educational matter in every respect were remarks made by Mr. Geo. F. Ostrom.

Some of those present offered to contribute means to provide prizes for essays prepared by the school children.

## NEW WITNESS FOR DELORME TRIAL

Montreal, Jan. 9.—Just two years ago Monday, the body of Raoul Delorme, young Montreal student, was found murdered, and now, less than a month prior to the third trial of Abbe Adelarde Delorme on a charge dealing with the murder, it is learned that two new witnesses have been found by the Crown.

These will appear at the forthcoming Court of King's Bench trial. It was stated on good authority yesterday that one of the men, Arthur Leclaire, who, it will be remembered was missing at the second trial and who is wanted to explain some occurrences at the Delorme home, has been located in a U. S. Penitentiary where he is serving a jail term. He will be brought to Montreal for the trial. He was furnaceman at the residence.

# Rousseos Named Greek Premier

(United Press Despatch)

**Athens, Jan. 9.—George Rousseos, former Greek Ambasador to the United States, will be Premier, and Venizelos will be Foreign Minister in the new Greek Government. Practically all of the new ministers were selected last night.**

## AMERICAN PRISONS FILLED WITH BOYS

Lincoln Neb., Jan. 9. (United Press).—Breaking down and letting up of home influence nowadays is responsible for the major portion of our crimes, C. E. Matson, county attorney said.

"If I were in the Legislature, I would repeal the entire code of criminal and pardon laws, and let these young roosteres know that when they stuck their fingers on a redhot stove they would get burned," Matson said.

"A vast majority of the prisoners now serving time in the State's prison here are under 30 and the number under 18 has vastly increased, said Matson. Forty-four and six-tenths per cent. of the prisoners in State penal institutions today were sentenced when under 19 years of age.

"No other civilized country has more crime than the United States," Matson said. "The laws in other countries operate to protect the citizen and his property."

## TWO SHIPS ASHORE IN VIOLENT STORM

(United Press Despatch)

Paris, Jan. 9.—Two ships are ashore in a violent storm sweeping the coast from the English channel to the Bay of Biscay.

MONTREAL—Interest is keen here in the government plans for dealing with the liquor traffic.

# "RED" RYAN NOW IN PRISON CELL AT PORTSMOUTH

### Bandit Placed in Regular Cell—No Mishaps on Journey

### PRISONER SILENT

### Appears Down-Hearted as Cell Door Again Closes Upon Him

Kingston, Jan. 9.—"Red" Ryan arrived here at 5.30 yesterday afternoon in custody ofInspector Duncan and Deputy Warden Tucker of the Kingston Penitentiary.

When the party reached Kingston there were three automobiles awaiting their arrival at the station. Ryan and the two constables were placed in one car and another carrying detectives led the way to the penitentiary, a third following the car in which the prisoner was riding.

Upon his arrival at the "pen" he was subjected to regular procedure and was given his uniform. He seemed down-hearted and did not have anything to say. He gave no trouble to his guards on the train from Toronto.

Oshawa, Jan. 9.—Faced with spending the remainder of his natural life in jail and thirty lashes to be received during the next three months in Kingston Peitentiary, Norman "Red" Ryan departed from Toronto with a sigh of relief.

"Well, I supose that's the last I'll see of Toronto for a long, long time" he murmured as the Canadian National train drew from the station. "That's what I expected I'd get and it's no surprise," he said, "I'll not be here again," and he hung his head. He regretted that his brother Russell had not come on the train to see him, but he felt it was just as well in leaving the city without farewell under the circumstances.

While he waited, sitting in the coach in the station with Inspector Duncan, Deputy Warden Tucker, and Detectives Dawn and Greenlee, discussing some of his experiences at Kingston. A curious crowd outside on the platform stood looking in at the bandit, but their gaze was cut short by the officers drawing the blinds. Ryan sat beside Warden Tucker with Dawn and Greenlee facing him and turned his head around to nod to an official who entered the car.

I went down to Kingston with that man before," he said. The official inquired if the officers would like to have Ryan in a more secluded spot than the ordinary day coach, in which a score of men and women sat eagerly scanning the arch-criminal. Ryan accepted the looks without dropping his eyes.

**Sir Harry Aboard.**

Ryan's departure from Toronto was under rather distinguished auspices, for the train carried Sir Harry Lauder and his theatrical troupe, who were proceeding to Belleville.

When Danforth station was reached Mr. Duncan escorted Ryan into the diner, for the prisoner had had only a light breakfast. So with his ankles again clanking with the shackles and his handcuffs on he toddled back to the next coach. A dozen or so people were at dinner, but Ryan was placed at a table near the door with Warden Tucker and Mr. Duncan beside him. The passengers continued their dinner with a very few of them knowing in whose presence they were having dinner. Ryan's back was to the rest of the car and he sat beside a window.

"Here," said Mr. Duncan, "let me undo those," and reaching over he undid the handcuffs. Ryan then slipped his coat from his shoulders and looked over the menu.

"Chicken pie looks good to me," he said, and chicken pie formed part of the last meal before he returns to prison.

# MAYOR TURNS VALVE RELEASING GAS AT NEW BELLEVILLE PLANT

### Said To Be First Of Its Kind on American Continent—Will Be in Operation in Two Weeks

Test will be made of the service of the new Belleville gas plant at 3.30 this afternoon. Mayor Bennett will turn the valve releasing the gas. The new plant which is located on the site of the old one was installed by the firm of Tully and Company of England and is the first of its kind to be established on the American Continent.

Mr. T. W. Tully, of Newark-on-the Trent, Nottingham, England, has been in this city since the latter part of August supervising the work of the installation. "I would not have been so long installing this plant, but for the fact that I am trying to work in as much of the old plant as possible" said Mr. Tully today.

The capacity of the new plant will be about double that of the old one. It will be controlled from one central machine and coal will be used chiefly as fuel. Approximately fifty per cent. of the old plant is being utilized in the installation of the new one.

"The new plant will be in actual operation in about two weeks."

## Ireland Would Curtail Commerce With Britain

(United Press Despatch)

**Dublin, Jan. 9.—Ireland is eager to trade directly with America and other nations, thereby reducing classes of its commerce with England.**

# PEACE, LABOR'S CHIEF OBJECT SAYS McDONALD

### Labor Leader's Platform Provides For Recognition of Russia

### INTERNAL REFORM

### Britain is Less Fearful of Results After Plans Are Made Known

(United Press Despatch)

London, Jan. 9.—Launching a Labor platform which includes recognition of Russia, co-operation with the League of Nations, and drastic internal reform, Ramsay MacDonald, who will be premier if Labor rules Britain, has dedicated his party to task of "establishing peace and creating conditions of peace."

London, Jan. 9.—Ramsay MacDonald has spoken out a program of a forthcoming Labor government—and, for the moment at least, England finds itself considerably less frightened.

**Tories Meet**

London, Jan. 9.—The doomed Tory government met in the new House of Commons to-day but only business transacted was the unanimous re-election of Speaker J. B. Whiteley, with complimentary speeches from party leaders.

**Antis Assemble**

London, Jan. 9.—While thousands of Laborites, men and women, cheered MacDonald's victory address at Albert Hall, a group of old-line reactionaries were meeting in an anti-serralist demonstration to offset Labor's triumph.

# JUDGING BEGUN AT POULTRY EXHIBIT

### Imposing Array of Birds Form Exhibit in Market Building—Many Excellent Types Shown.

Judging of the entries at the Belleville Poultry Show Exhibition, which opened in the Market building yesterday morning, began at 11 a.m. to-day. The judges are Mr. J. W. Reid, of Kingston, and Mr. Richard Oak, of London.

Placing of entries has been completed, and the entries now total more than 1,900 Mr. A. S. Large, Secretary of the Association announced this morning. Judging from the din created by the birds one would be inclined to believe that the number of entries was larger.

Rhode Island Reds are present in the greatest numbers by a large margin, two or three other varieties being almost equal for second place the bantam family being possibly second in numbers. Exhibitors are here from as far west as Waubaushene, and as far east as Ottawa. Bowmanville is also well represented.

**One Freak Entry.**

One outstanding feature of the big sideshow is a one legged S. C. White Leghorn Cockerel, apparently healthy and normal except for the fact that it has but one leg. He does not need a crutch either but hops about in a very sprightly manner. The freak bird is the property of Joseph McNulty, Hillcrest Avenue.

Other unusual exhibits are a racoon and a pair of Golden Antherst pheasants. The racoon is one of the six owned by William B. Vassaw R.R. No. 3, two of which he captured but last week in a tree on his farm. "I just brought one down for fear they might get away," the owner stated this morning. "I can capture her if she gets away, for she has a collar and chain around her neck."

In the meantime the beady eyed coon gazed through the bars and shot out her paw through for "alms" whenever a curious spectator approached closely.

The beautiful pair of Golden Amherst pheasants owned by Father Killeen, presented an attractive picture in their roomy home which faced the eastern sunshine this morning.

Mr. James Cook also has an un-

Continued on page seven

## Exhibitors

The exhibitors and the birds entered for competition are as follows:

Pine Grove Pigeon Loft, Ottawa—Pigeons of various breeds.

A. C. Rook, Napanee—Rhode Island Reds.

James Nokes, Bowmanville—Heavy Rhode Island Reds.

Cora J. Vallentine, Hillon—Rhode Island Reds.

B. D. Ketcheson, Trenton—Pet Game Chickens.

W. Deshane, Trenton—Leghorns Barred Rocks.

Thos. Bottrell & Son, Bowmanville—Pigeons and Bantams.

Chouinard Bros., Trenton—Anconas.

W. J. Jamieson, Colborne—Varied exhibit of Geese, Turkeys, Ducks and Chickens.

Ralph McColl, Waubaushene, Ont.—Bantams.

Dr. J. E. Alyea, Colborne—Water Fowls, Ducks and Geese.

H. L. Vanallen, Stirling—An exhibit of 140 birds, consisting of Chickens, Geese, Ducks and Turkeys, Chickens predominating.

W. K. Kerr, Belleville—White Orphingtons.

Cecil Sinfield, Belleville—Pigeons.

C. McBride and Robt. Santer—Rabbits and Belgium Hares.

Gerald Vance, Belleville—Langshan Chickens.

W. H. Govier, Belleville—Light Brahamas.

Chas. Briant, Belleville—Light Brahamas and Langshans.

Alice Stapley, Belleville—Silver Spangled Hamburgs.

Chas. Saunders, Belleville—Bantams, White Leghorns, White Minorcas and Polish.

C. B. Burnham, Belleville—Bantam and White Orphingtons.

Wm. J. Harris—Back Spanish, Chickens.

E. S. White & Son, Belleville—Chickens, Geese and Turkeys.

Mrs. S. Juby, Cannifton—Rhode Island Reds.

E. Pope, Belleville—Anconas, Compines and Rhode Island Reds.

W. D. Vassaw, Sidney—Light Brahams and Rhode Island Reds.

E. D. O'Flynn and Fred Kennedy

(Continued on Page 7.)

# CAPTAIN OF BRITISH SHIP IS MURDERED

(United Press Despatch)

**Shanghai, Jan. 9.—Capt. F. J. Brandt, British master of the steamer Tzecuj, was shot and killed by Chinese bandits on the Upper Yangtze. His body was thrown in the river. Three Chinese Officers of the ship were also killed.**

# SEEK DRASTIC CUTS IN TARIFF SCHEDULE

### Saskatchewan Premier Believed to be Prepared to Join T. A. Crerar in Demand For 50 Per Cent. Reduction on Farm Machinery

### KING FAVORABLE

### Government Expected to Accede to Demands as Means of Enlisting Support of Progressives in West in Government Program

(United Press Despatch)

**Ottawa, Jan. 9.—Premier Dunning of Saskatchewan is believed to be ready with T. A. Crerar to demand cutting in half, of the tariff on farm machinery. It is understood here that the proposition will be favorably considered by Premier King and the cabinet, as a plan to gain the support of Crerar and other Progressives from the West.**

Ottawa, Jan. 8.—With Premier Dunning and Hon. T. A. Crear in Ottawa to discuss terms on which they will enter the King Government, it is evident that Hon. W. S. Fielding's resignation is neither in the hands of the Prime Minister or is available at any time. With Sir Lomer Gouin and Hon. W. S. Fielding out of the Government, the way is open for Premier King to consummate the alliance atempted after the last election, which was so abruptly terminated by the emphatic orders of Sir Lomer and Senator Dandurand. The presence of Premier Dunning and Mr. Crerar here does not necessarily mean their entrance into the Ministry. They will demand harsher terms than in 1921, but, as the Prime Minister is in more desperate straits now than then, he may capitulate. They must get better terms now than then, as the West is in a more resentful mood against the Government after two years of office than it was before it went back on the platform of 1919, which was closely copied from the Agrarian proposals. That Premier King is in doubt as to the possibility of agreement was shown yesterday when he stated that Messrs. Dunning and Crerar were here solely in a consultative capacity.

As things now stand here, there is but little difference from the position of two years ago, when there was a family fight over the Cabinet personnel. Parliament should be in session, but Cabinet difficulties make its meeting for another six or eight weeks impossible. Yesterday all the Quebec Ministers waited on the Prime Minister and demanded that Quebec Cabinet representation of seven, as compared with Ontario's five, must be maintained. Hon. E. M. MacDonald wants the Marine and Fisheries Department if Hon. Ernest Lapointe becomes Minister of Justice. But there is no one to take the portfolio of Defence unless the Prime Minister himself becomes an honorary colonel and head of our army and navy.

The situation is extremely injurious to the moral of the Government and the business of the country. Except to give conflicting interpretations of the sales tax there is no Government business being transacted. It is even found impossible to agree on a judge for the Supreme Court or a director for the Canadian National Railways. No sessional program is being prepared nor have even the departmental estimates been compiled.

## FROZEN INTO ICE MEETS HARD DEATH

Montreal, Jan. 9.—Frozen into the ice with only his head and shoulders above the surface, the body of Alfred Ricard, 25, of 74 Turgeon Street was discovered in the river opposite Nuns' Island yesterday morning. It is thought that the victim who apparently struggled hard to free himself from the ice trap judging by the manner in which he was found, fell onto the ice and went through while walking along the edge of the Point St. Charles dump at the foot of Dublin Street. He was frozen rigid with his arms outflung as if he had died while trying to clamber from the icy water.

The body was discovered by Victor Lalumiere, who saw what he thought was a piece of cloth on the ice, but when he went to pick it up found that it was the victim's coat which was drawn up about his head.

# King Dollar is At Last Dethroned

By GUS M. OEHM.

(United Press Staff Correspondent)

Berlin (By mail to United Press.—King Dollar has been dethroned in Germany. At least temporarily.

The German people, always great relievers in the German mark, now value their own money as high and in some cases, more highly than American dollars which, until recently were at a premium.

The so-called Black Bourse, where money changed hands at values far different from those set by law, is dead, and with it died the pulling power not only of dollars but of pounds, gulden, Swiss francs, Austrian crowns and all the array of so-called stable monies which retained treir buying power while German marks crashed.

How long this will last depends on how long the German government is able to keep its money from somersaulting into the abyss again. This is a mooted question—some say for weeks, some say for years and some say forever.

## PRINCE OF WALES JOURNEYS TO PARIS

(United Press Despatch)

London, Jan. 9.—Travelling as an ordinary passenger, the Prince of Wales departed to-day for Paris for a short visit.

## ERUPTS CONSANTLY FOR FORTY YEARS

Wilkes-Barre, Pa., Jan. 8 (United Press).—At the edge of the city of Wilkes-Barre, within sight of the central buisness section, is a territory of several square miles that looks worse than the devasted regions of France and the Japanese earthquake area combined.

A mine fire, starting deep down in the earth forty years ago, is now raging just under the surface over the entire west side of Georgetown mountain, searing and destroying every growing thing and giving off gases that has driven every living thing from the vicinity.

Mine caves that look like super shell holes, burned trees and seared vegetation, giant rocks bursting into a million pieces from the terrific heat and the low-lying cloud of sulphur and coal gases seeping from every rock and crevice, make the mountain side look as if Satan were trying to move Hell to the surface of the earth.

It is estimated that the loss from this fire has been more than $10,000,000 and eight lives and it is only one of nineteen such fires now blazing underground in the anthracite region. Some of these coal fires have been burning for ninety years.

At a recent meeting of mining en-

### A BANKER'S DIAGNOSIS

Sir Frederick Williams-Taylor, General Manager of the Bank of Montreal, in a recent statement concerning Canada's financial position says:

"It (the year 1923) has been a trying year for Canadian bankers, probably as trying as any year since Confederation in 1867. In Canada, as elsewhere, as a consequence of the loss and distress resulting from the disorganization of business and industry a spirit of unrest has developed among groups of individuals, inclining them to listen to the vain pretensions of agitators promising quick relief from ills which only time and adherence to sound business principles can cure. Nevertheless, we are better off in this respect than is the case with others in many countries; it is a passing phase, nothing more."

This is at once a concise, comprehensive and illuminating diagnosis of the situation in Canada. It is evident that the trouble in financial circles in Canada is not deep-rooted, but is simply the result of reaction to temporary financial confusion caused, indirectly at least, by disturbed international conditions.

Sir Frederick explains that we are handicapped in three distinct respects, two of which are common to all countries engaged in the war from the beginning and at present endeavoring to balance their budgets, viz., high cost of living and high taxation. The third handicap is lack of adequate population.

Canada's economic position will not be satisfactory, says Sir Frederick, until we succeed in balancing our public revenue and expenditure, including railways. He points out that prosperity in full measure cannot return to this country until our chief industry agriculture, becomes more profitable. The hard lot of the farmer during the past few years he attributes to low prices for products and high cost of requirements, the result, he explains, of worldwide, not local conditions.

Frankly conceding that business on the whole has not been good, Sir Frederick calls attention to the fact that there has been a measure of prosperity in some directions. He cites the figures covering bank failures in Canada and Newfoundland during the 24-month period ending October 1, last. During the twelve months preceding October 1, there were 3,482 bank failures with total liabilities of $71,500,000 as compared with 3,571 failures with liabilities of $73,500,000 during the previous twelve months.

Sir Frederick reiterates the assertion he made a year ago that "Canada cannot progress as she should until our cost of living and our taxation are less than across the line." This means economy and conservation; it means protection of our natural resources and judicious development of these resources, according to a carefully prepared program. It also means intelligent and business-like promotion of immigration.

Sir Frederick Williams-Taylor, like all other experienced, far-sighted financial and industrial leaders of Canada, visualizes a wonderful career for the nation, the beginning of which is not in the remote future, but in immediate prospect. It is the obvious duty of the people of Canada to put their shoulders to the wheel of industry and thus to prepare themselves for an era of substantial, healthy prosperity already dawning.

### EDITORIAL NOTES

Lord Curzon has sent two more "stiff" notes to Germany. He apparently doesn't believe that "a soft answer turneth away wrath" in the reparations matter.

Ottawa has elected a druggist as mayor. This appears suspicious in view of the proximity of Hull.

The government is expected to seek repeal of the prohibition law in Norway. Moonshining is apparently not very profitable in Norway.

Scientists plan to seek the pirate Morgan's buried loot on Cocos Island. According to tradition, Morgan cached $40,000,000 on the island. There should be no difficulty in securing a crew for the expedition.

Edward W. Bok is just nine years too late in his quest for a world peace scheme. He should have sent one over to Europe with Henry Ford when the latter made his memorable trip during the war.

## PRESS OPINIONS

### BEST JOKE IN BRITISH HISTORY

(Manchester Guardian)

It is one of the undignified facts of our history no doubt very properly suppressed in our school and text books that the Habeas Corpus Act, that palladium of our liberties recently invoked in the case of the Irish deportees, came upon the statute-book by way of a jest. Not even Macaulay mentioned it (though he must have read it in a footnote of Bishop Burnet,) but his brilliant grand-nephew, Mr. G. M. Trevelyan, has too unerring an eye for the picturesque to let it slip.

At a critical moment the bill only just passed the House of Lords because the tellers, as a jest, had counted a certain fat lord who voted for the bill as ten votes, and in their mirth over this excellent witticism had failed to rectify their figures until it was too late. A fitting origin for the one good measure of the Merry Monarch's reign!

"It was," says Trevelyan, "the best joke ever made in England. The fat lord's vote secured that even James II. could not imprison his subjects at pleasure."

### THE NEED OF COMMENCING

(Flint Journal)

The wisest who have lived have not made the world what it ought to be. The job has not been very well done. Take a chance on the "commencers". There is much that needs commencing.

We need better cities and better farms, better governments and better citizens; better business and better recreation, better industries and better arts—in the whole category of what has been accomplished there is nothing that could be better.

Turn the graduates loose without too much hampering. After all, each must create his word for himself.

### THE BETTER WAY

(Springfield Union)

What the people of Great Britain seem to have accomplished in a rational way through the force of moral suasion we seem not to have accomplished nearly so well with our irrational attempt to legislate the individual into a state of complete sobriety.

### PREPARED FOR LIFE

(Natal Advertiser)

Employment is the final flourish of the school career, and it should be the object of education authorities not only to bring scholars along the line of their own bent, but also to have at their command the vacancies in the lines of life most likely to absorb them when they are prepared for it.

They should even go further and have the right to employ lads, with the consent of the parents, straight from school to the serious work of life. That interim between school and "some sort of work," is the curse of our system to-day.

### ENOUGH OF WAR

(London Daily Express)

There will be no war with Russia. The country would not tolerate it over matters such as are in dispute at present. Has the present generation not had enough of war to outlast its life? The very talk of war is absurd.

## By The Side Of The Road

### SELECTION

(Apologies to Reginald Hardy in Ottawa Evening Journal).

The Mayor, is out, long live the Mayor!
So ring the voters through the day;
The smoke of battle clears away
Step back, my friends, and give them air.

At last the course of things must turn,
And Belleville may rest again.
Assured it has elected men
Who shall toil hard for what they earn.

If all their promises come true,
Our taxes by the neck will swing,
Should they who grace the council ring
But start the half they said they'd do.

The order changed day by day,
Each man seems better than the last;
The bands of office are made fast
And shaped by what the people say.
The candidates repress a sigh,
The battle royal is lost and won;
The gentle speech-making is done,
Election day has passed us by.

So, busy voters, do not fear,
You've done the very best you could
And if your choice was bad or good,
Be quiet for another year.

### THERE'LL BE ANGELS PRESENT, ALRIGHT.

Dear Side of the Road—

I went to hear Sir Harry Lauder last night and was greatly impressed by the interest he manifested in our U. E. L. celebration. After I had retired (after having a club sandwich at a cafe contrary to my usual custom) I dreamed that by special arrangement (with the C.P.R. no doubt) I was granted the privilege of visiting Heaven. On my arrival within the pearly gates I saw Mayor Mikel talking earnestly with St. Peter, and I'll be jiggered if St. Peter didn't get up and make a nice little speech about the celebration. I shouldn't be surprised if a few angels steal away to be present.

### MYSTERY MAKES A NEW GRIFFITH FILM

"One Exciting Night" Contains About All Ingredients, Plus A Storm Scene

For his motion picture sensation, "One Exciting Night," which has been announced as the feature attraction for Thursday, Friday and Saturday at the Griffin's Theatre, D. W. Griffith, master-maker of photoplays, has taken for his cue the increasing popularity of the last two or three years of the stage melodrama and has produced a mystery picture par excellence.

In this newest of Griffith films, the great director gives five of the six elements that go to make up effective mystery—secreted treasure, personal disappearance, puzzling homicide, hidden identity, and the return of the avenging spirit. And with it all he gives the spectator an altogether marvellous assortment in the way of actual entertainment.

There is as sweet and dainty a love story as ever was filmed; there is audience gets breathless—and then comes relief from the suspense in the form of the most delightful and Romeo Washington, wonderful black face character who finds himself torn between love of a husky maid and fear of the peering eyes and stealthy figures that creep in and out are seen everywhere.

In this picture Mr. Griffith has departed entirely from the heavy and spectacular and gone in purely for audience entertainment in the way of love, laughter, mystery, thrills and thrills. There are no great mob scenes, no historical motif to be picturized, no mass of costumes.

But there is entertainment—a full two hours of it. There is a missing and much sought satchel containing half a million dollars in bills that lies for a time submerged in a flour barrel in the kitchen while the amorous Romeo makes love to the choice of his heart. And all the time there is uppermost in the minds of everybody the query—"Who murdered Johnson?"

Of course no Griffith picture would be truly Griffithesque without its great climax scene. And "One Exciting Night" has it. This time it is a storm, that type of midsummer thunder-storm with which everybody everywhere is familiar—a torrential downpour of rain coupled with hurricane winds, low-sweeping clouds, split asunder every second by bolts of tree shredding lightning. Trees are uprooted and flung about like matches before an airplane propeller; houses are unroofed, demolished, and crumble beneath the tempest. And in the midst of the Boy and Girl find their love story come true; the villain is captured; the mystery of the half million dollars cleared.

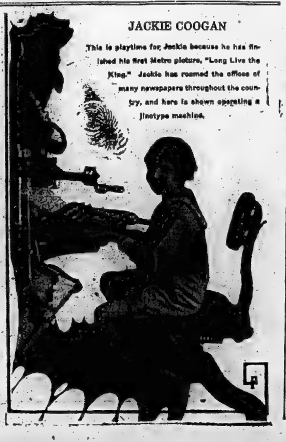
Carol Dempster has the feminine role and seldom does a theatregoer see a sweeter or dainter characterization than she gives. Other players in the cast are all of widely known popularity and ability.

### The Symptons

Husband (after first round of the holiday) "Absolutely putrid course. Wish we'd never come to this rotten hole."

Wife—"How many did you lose by dear?"—London Opinion.

### JACKIE COOGAN



This is playtime for Jackie because he has finished his first Metro picture, "Long Live the King." Jackie has roamed the offices of many newspapers throughout the country, and here is shown operating a linotype machine.

## That Body of Yours

By James W. Barton, M.D.

### IS NOSE BLEED SERIOUS?

You have been doing some heavy work and your nose starts to bleed. Perhaps you have been blowing your nose very hard, and the bleeding starts.

Sometimes you may have a heavy feeling in the head, almost an ache, your nose starts to bleed, and the heaviness departs.

And again this bleeding from the nose may be something peculiar to your family.

Now in any of the above cases there is really nothing to worry about. The cause is evident and it is not serious.

But nose bleed may be one of the first symptoms of some serious illness and where you cannot locate the cause, as one of the above mentioned it would be well to be careful.

It is often a symptom of heart or kidney trouble.

The first thing to do is to lie down and be quiet for awhile. Don't blow your nose if you can possibly avoid it.

You can then await developments. However if the nose bleed occurs often and you are a thin individual, you would be wise to consult your doctor.

Don't wait until you have become weak from loss of blood.

If there is a feeling of being tired all the time, your pulse weak, and a feeling of dizziness at times, the loss of blood is making serious inroads on your health.

Frequently there is some condition in the nose itself that requires attention. Thus many people with bleeding from the back part of the nose allow the blood to go down into the stomach. This is then vomited and they have an idea that they have serious stomach trouble, even cancer.

The usual methods of stopping the bleeding, cold applications to bridge is often effective. The application of adrenalin in the proportion usually sold by the druggist, 1 to 1000, is like wise a good method. Where the bleeding is obstinate, pushing a rubber finger still with the open end outward up into the nostril and plugging the wall up with absorbent cotton will press against the small bleeding point and stop the bleeding.

The removal of the finger stall with the cotton inside it, does not start up the bleeding again as does the raw cotton against the bleeding point.

STOP IT!

Why Cough Your Head Off

Make Your Own Cough Mixture For the Whole Family and Save Money. It's Easy.

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrance of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

### CONSECON

Mr. and Mrs. J. Thompson and Marjorie returned home on Wednesday after spending New Year's with Mr. and Mrs. Harold Walters.

AUNT MARTHA'S OWN COLUMN

One Woman writes:—
"Dear Aunt Martha:—
"I have taken your advice, "and am now a regular patron "of the Dominion Store here "in my town. I have been sur-"prised, and gratified, at how "'a few cents saved here and "and few cents saved there' "mounts up. I figure that I "am saving 10 or 15 dollars a "month on my groceries. Of "course, I have a large family "but that is all the more reason "for saving, isn't it?"

Indeed it is, good woman. How growing, chubby youngsters do eat. It is a pleasure, though, to watch them, but what of the expense? This is such a good argument for us—the Dominion Stores. We do help you save—a few cents here and a few cents there—but it means a new pair of shoes or a cunning little dress, perhaps.

We help—we promote thrift—and that's why I like our business. We are doing, I think, a real service. The man with the little store is going his best, too, but his purchases are only one three-hundredth of ours, and he can't hope to match our prices regularly.

Aunt Martha

J.R.WILLIAMS

# PARLIAMENT NOW IN SESSION EXPECT FALL OF BALDWIN

By P. M. SARL

(United Press Staff Correspondent)

London, Jan. 8 (United Press).—Parliament reassembled today under conditions almost without parallel in British legislative history.

The defeat of the Conservative Party at the recent general election leaves Premier Baldwin, while heading the largest party in the House of Commons, without a working majority and with no possibility of the Labor and Liberal opposition combining, everybody is in the same boat. That Premier Baldwin will be defeated on the first important vote is practically a foregone conclusion, and the only alternative government must be supplied by Labor, the second party in point of numbers, which is also in a minority.

To-day's proceedings were formal, being confined to swearing-in of new members and the election of a Speaker. Speaker J. H. Whitley (a Liberal), is practically assured of re-election, since British parliamentarians rarely make a fight over the Speakership. In view of Labor's prospects of being asked to form a government during the next few weeks, there was a possibility of a Labor candidate being introduced at the last moment, and Conservatives and Liberals can unite to secure Whitley's re-election.

Labor is expected to make a bid for the posts of Deputy Speaker and Chairman of Committees, but as another election during the Spring or early Summer is practically inevitable. Labor would not unduly press claims, preferring to wait to see if they can obtain a majority at the next election.

After the election of a Speaker, the choice of the House of Commons must be confirmed by King George, and about three days will be occupied by the swearing-in of members and organization.

The state opening by King George is scheduled for Jan. 15, when, after the speech from the throne, the main political battle will begin. It is customary for Parliament to debate and pass a formal address in reply to the speech from the throne. This address is of the most formal and stereotyped kind and merely thanks the Sovereign for his gracious message and promises to carry out his wishes (or those of his ministers) as expressed in the speech from the throne.

**Opposition Regrets**

For the purpose of raising a debate the Opposition usually introduces various amendments, regretting that his majesty made no mention of some subject, or dissenting from the views expressed and measures projected on various subjects of national importance. With the existing Government in a majority, these amendments are always voted down and no amendments are allowed, since such would be tantamount to a vote of censure on the crown and a rejection of the program outlined by the Government.

According to British constitutional procedure any government defeated on the address must resign and the leader of the party responsible for the defeat should be asked to form a government. It is regarded as practically impossible for Premier Baldwin to carry his address without amendment, and as Labor is the second largest party in the House, and hence the official opposition, Ramsay MacDaanold will have the opportunity of moving the amendment which is expected to wreck the government.

The wording of the amendments to be introduced by Labor and Liberals has not yet been decided upon, and an intense battle of tactics is proceeding behind the scenes. Labor is seeking to frame a form of words which will ensure Liberal support in their vote of censure on the government, and Conservatives are trying to, sidestep or frame counter amendments nullifying the Labor attack.

**Labor's Amendment.**

The general impression is that Labor will offer an amendment "regretting" that the King took Premier Baldwin's advice about dissolving Parliament and calling an election. Such an amendment would normally be fatal to the Conservatives, since it is bound to be carried by the combined Labor-Liberal vote, and, according to Parliamentary practice, would entail the government's resignation.

It is suggested in some quarters, however, that even after the passage of such an amendment, Baldwin might still refuse to resign and ask the King to dissolve Parliament again and call a fresh election. This course would probably react unfavorably on the Conservatives at the next election. Elections held within a few months of each other rarely show any great change of electoral opinion, and any suspicion that the Conservatives were trying to gum the cards for their political opponents would probably be resented by the voters.

**Give Labor a Chance.**

The course more generally favored is to allow King George to summon Ramsay Macdonald, acquiesce in the formation of a Labor Government, allow it to formulate a program and then stage a parliementary defeat, which would compel Labor to ask for a dissolution. The issues would then be clean-cut:—either for or against Labor.

The new Parliament, consisting of 615 members, is divided as follows:

Conservatives, 256; Labor, 192; Liberals, 159; others, 8.

## NEED NOT BOIL CITY WATER NOW

"It is not necessary for the citizens of Belleville to boil the city water now as it is now fit for use without said Dr. G. S. Cronk, Medical Health Officer to-day.

It is now two months since the citizens were advised to boil the water during operations on the new intake pipe which is now completed. "This announcement will be welcomed by Bellevillians generally.

## Sage Tea Keeps Your Hair Dark

### When Mixed With Sulphur It Brings Back Its Beautiful Luster at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't say gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound" which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Saranac Lake, N. Y., Jan. 9.—The heaviest snow storm of the season, thus far, raged here the first of the week. The snow drifted somewhat, but did not interfere with traffic.

## Meighen Raps

(Continued from page one)

British Government.

"As long as we are part of the British Empire," declared Mr. Meighen, "we cannot act independently. If we want to act independently it would be the honest thing to step away openly. This sort of thing is only wild gibberish."

The treaty with France, Mr. Meighen admitted, was successful, in so far as it was actually made with Messrs. Fielding and Lapointe as the Canadian signatories. He thought, however, that it would have been better for Canada had the ambassadors stayed at home. When Sir Wilfrid Laurier submitted the treaty of 1909, Mr. Meighen, against the interest of his own party, voted for it, adjudging that it was for the advantage of the country. In this case, however, the concessions to France have been very considerable. The duties on champagne, wines, lace, silks and other articles of super-luxury have been reduced to the tune of $500,000, which, Mr. Meighen declared, the taxpayers of Canada will have to pay fifty times over in added sales tax.

The articles at present exported to France, on the other hand, have been taxed with an increase of from 30 to 50 per cent. higher tariff; the only articles which may be shipped at a lower cost are intricate fancy drugs with unintelligible Latin names.

"As a consequence," observed the speaker, "the Canadian trade with France has been dealt an almost mortal blow. I do not," he added, "attribute this to Mr. Fielding's intelligence. I never taxed him with being dull or with lack of patriotism; but he went over there bound and shackled with pre-election promises and he had no alternative but to bow to the French terms."

"The Premier," declared Mr. Meighen, "is casting his eyes westward now that his right arm is torn off by the resignation of Sir Lomer Gouin. The final pretense at tariff protection, it would seem, has at last been done away with, and the only hope of the Liberals to-day is for coalition with Progressives. But remember, all this at the expense of the Province of Quebec, of yourselves."

The former Prime Minister spoke of the numerous Commissions and Royal Commissions functioning at the moment. He dealt in particular with the Pulpwood Commission, declaring that all their action is completely futile, as a secret order-in-Council had it that all contracts for pulpwood were to be protected for the next ten years and the Government was, therefore, quite unable to act.

"The tariff of next Spring," declared Mr. Meighen, "is not going to be built on any principle, but on a bargain made between Mr. King and Mr. Crerar to get the votes of the Progressives. Mr. King does not dare to utter the word protection for then he loses the Progressive vote.

The name of the Government, he declared, was a stench throughout the West to-day, and the concessions they were fishing for were at the price of the rest of Canada, of Canadian industries and Canadian trade.

## WEDDINGS

**STOKES—DAVISON**

On Tuesday, January 8th, at St. Michael's Church the Rev. Father Killeen united in the holy bonds of matrimony, Miss Mary Agnes Davison, youngest daughter of Mr. and Mrs. Robert Davison, of this city, to Mr. Thomas J. Stokes, of Rochester, N. Y. The bride was attended by Miss Catharine Stokes, sister of the groom and Mr. Robert Davison, brother of the bride did honors for the groom. After congratulations a breakfast was served at the home of the bride's parents to the immediate friends of both parties. The happy couple left on the fast train for Niagara Falls, Buffalo and Rochester. Mr. and Mrs. Stokes will reside in Rochester, N. Y.

# LAUDER DELIGHTS CROWDED HOUSE

### World-Famous Comedian Still Premier Eentertainer

Although Sir Harry Lauder made his first appearance in Belleville last night, Griffin's theatre was packed to the doors with "old friends". A great many in the audience had never seen Sir Harry, but they were acquainted with most of the numbers in his repertoire and even the inimitable drolleries with which his songs are interpolated, through the medium of the phonograph.

Because of the popularity of Lauder records, those who had not previously witnessed a performance by Lauder in person were familiar, not only with the words of most of the songs, but also the famous Scot's enunciation and the inflections of his voice.

Sir Harry was vociferously welcomed here last night, not because of his fame and prestige, but because of the appeal of his homely, humorous philosophy. Because of his own quaint views of life and his almost uncanny knowledge of human emotions and esoteric marital relations, his antics on the stage and his peculiar humor brings immediate response from the average audience for the simple reason that he explores a field familiar to the average person.

Moreover, Lauder's utterances not only are at least apparently spontaneous, sincere, but their dominant notes are optimism and cheerfulness.

Sir Harry Lauder is a genius. He is an artist of parts and a pyschoanylist of sorts. The fund of his experiences has become greater with the passing years and it is but reasonable to assume that his artistry has been improved by the miseries and vicissitudes of the great world catacysm in which a son of Lauder died in the service of his country. It is to be hoped that Sir Harry, as he himself suggested last night, will visit Canada and Belleville annually for a great many y ears to come.

The performance of other members of Lauder's company was of good quality judged from the stand-point of average vaudeville offerings. The singing of Marian Vallance and the work of Olga Morselli, violinists vituoso, were particularly well received.

---

**PASSES THROUGH BELLEVILLE**

Norman "Red" Ryan passed through Belleville yesterday afternoon en route to Kingston Penitentiary, where he was sentenced at Toronto yesterday morning, to life imprisonment with thirty strokes of the strap.

Ryan was riding in the smoker car of the Ottawa train which passes through Belleville at 3.08 p.m. He was closely guarded and was shackled at the hands, feet and knees.

In the cast (pick them out) are Hobart Bosworth, Cullen Landis, Percy Marmont, Jane and Eva Novak, and a host of other equally well-known actors. Victor Schertzinger directed it from the story he wrote with Winifred Dunn.

# "PHANTOM MAJOR," SUSPECTED OF MURDER, AND "THE LAUGHER" BAFFLE SCOTLAND YARD

BY MILTON BRONNER
NEA Service Staff Correspondent

LONDON, Jan. 9.—Scotland Yard—scorned by Sherlock Holmes, plu-perfect detective, and evaded by Raffles, the master thief, through thousands of pages of fiction—yet conquered by the Old World, at least, as the most famous and efficient crime detecting agency—is baffled.

Two men are the reason. Both are wanted for murder. One is in a cell—the other is at large.

Major Norman Bailey, war figure, whose wife was found murdered, has been reported seen at Ramsgate, a fashionable English seaside resort, in several London hotels, in Manchester, on a train bound for Paris, in the French capital, at Bordeaux and in Brussels—he has been sought even in the United States. But he has not been apprehended.

THE "PHANTOM MAJOR"

The "Phantom Major," as he is known for his seeming ability to condense his much-sought being into thin air, constantly writes Scotland Yard, stating how sorry he is for the murder of his wife, whose body was found in bed in their apartment, with a bullet hole through her head and a five-inch knife blade thrust into her breast.

Pinned to her night garments was this note: "I have parted with my dearest possession. I hated to do it. She knew nothing. I did not do it for jealousy nor cowardice—but love. Look for me by the sea."

It was thought he might have drowned himself until his letters began to pour into the office of the London police. He also wrote his wife's parents and mailed a servant's pay to her

Bailey, only 28, is an expert in disguise—and amateur actor who sometimes has taken female parts. It is possible that he has not left London, but is enjoying temporary safety—in skirts and bonnet.

Motive for the crime is just as baffling as the "phantom major's" whereabouts, for there is neither another man nor woman in the case, the police believe.

Then there is Ronald True, laughing murderer of Gertrude Yates. Condemned to death, his mad-man chuckle has laughed him out of hanging. He is now confined to an insane ward.

He laughed when he was locked up by the police; he laughed when the trial judge sentenced him to be hung by the neck until dead; he laughed when he was in the cell of the condemned.

"I TOLD YOU SO"

When he was reprieved and sent to Broadmoor Asylum he laughed once more and merely said:

"I told you so."

At Broadmoor he has been the life of the party. He has taken part in amateur theatricals and composed words and music for rollicking songs josing the prison, the keepers and the government.

Gertrude Yates, a beautiful girl who lived alone in an apartment, was found brutally beaten to death. She had been robbed. True was proven to be one of her closest friends. He had her stolen jewelry—and was promptly convicted.

He, too, has been an officer in the army.

There is a clear definition in Britain that a person should not be executed when he is not in a position to make his peace with God and not in a mental condition to put forward any reasons why he should not be hung.

Some day the medical officers may certify to the government that True is once more sane—as they believe he was when he committed the crime—and liable to hanging.

The question that will then confront the officers is, whether after True has lived in an asylum for years shall he be taken out and hung or have his sentence commuted to life imprisonment?

In the meantime, True continues to laugh.

Bailey, the "phantom major", is poor, while True, the "laughing murderer," is well connected.

Are their strange plights a result of the war in which they both served?

(TOP) NORMAN BAILEY, "THE PHANTOM MAJOR," AND HIS WIFE, WHO WAS MURDERED. (LOWER LEFT) GERTRUDE YATES, WHO ALSO WAS KILLED, AND RONALD TRUE, "THE LAUGHING MURDERER."

### TIPS ON HOW TO DRESS YOUR DOG

Paris, (United Press).—Winter styles for the well-dressed dog in Paris are out. When J. Welington Fido strolls down the Champs Elysees on the end of his leash, he should wear a camel's hair sweater of a fashionable cut and the same color as the gown of his mistress. In the pocket of the sweater or jacket should be a tiny handkerchief bearing the canine aristocrat's initials.

If the weather is wet the Beau Brummels of dogdom should sports a quartet of fur-lined galoshes, with a striped or doted patern to match the coat. A dog outfitting shop on the Faubourg St. Honore is having a special sale of these.

### FREE PORT FOR CHILE

Santiago, Jan. 9.—(United Press)—Unofficial negotiations are now going on between Portugal and Chile by which Chile would be granted a free port in the Atlantic to use as a distributing centre for nirtates. In return Chile would be asked to admit Portuguese wines and preserved foods free. According to the plan under consideration, Portugal would grant to Chile the right to use a port in Madeira, the Cape Verde islands, or some other similarly located possession of Portugal.

IT PAYS TO ADVERTISE IN THE INTELLIGENCER

## LYDFORD LODGE INSTALS OFICERS

Officers of Lydford Lodge No. 184, Sons of England, in this city were last night installed in office. The installing official was Bro. A. Strickland, of Picton, District Deputy Grand President. The officers are as follows:

Past President—S. J. Wedden.
President—H. Gorham.
Vice President—W. R. Vallance.
Chaplain—A. N. Cousins.
Secy-Treas—T. G. Wells.
First Committeeman—A. Harman.
Second Committeeman—S. Holmes.
Third Committeeman—W. H. Vallance.
Fourth Committeeman—S. Sinfield.
Inside Guard—G. R. Brown.
Physician—Dr. G. S. Cronk.
Trustees—S. J. Wedden and Geo. R. Brown.
Auditors—A. Harman, R. H. Ketcheson and W. R. Vallance.

At the conclusion of the ceremony refreshments were served and some time spent in community singing and brief addresses. Bro. A. Harman was the pianist for the occasion.

## COLLYER ATTACKS OFFICIALS CHARGES A.A.U., HOLD SPITE

Chicago, Ill., Jan. 7.—Recalling the bitterness of the old days when Canada's great athletes were refused recognition by the ruling athletic authorities in the United States, Bert E. Collyer this week delivered a broad-side attack on the Amateur Athletic Union and demanded the removal of its officials. While the immediate provocation of Mr. Collyer's sizzling attack was the Charles Paddock case, back of that was his loyalty to his native Canada and the resentment, pent up for many years, of the barring of Canadian athletes—among them Lally Collyer, a brother—because of a jurisdictional dispute.

Mr. Collyer's article, as it appeared in The Referee and his other publications, and which is of special interest to Canadians, follows:

"In behalf of all fair-minded people on both sides of the border we urgently call for a revision of the narrow policies of the Amateur Athletic Union and a general cleaning out of personnel that appears guided solely by small personalities in pretending to speak for the hundreds of thousands of red-blooded sport lovers of the United States.

"Spite work has no place in the broad world of sport, and the A.A.U. officials have only themselves to blame for the storm that has descended on their heads over the apparently unfair barring of Paddock from representing the United States in the forthcoming Olympiad. Paddock, a college runner, with the consent of his school and the sanction of the intercollegiate association, participated in a college meet at Paris, France. On his return he is alleged to have made some uncomplimentary remarks about the A. A. U. and its officials. For this—and without the slightest reflection on his amateur standing or his integrity—the A. A. U. ruled him out of the Olympic games. With equal logic they might have declared him ineligible because of the color of his eyes or the style of his necktie.

"While we hold a brief for neither Paddock nor the A.A.U., we are interested in fair play on the one side and necessary discipline on the other. We think our readers will agree that some governing board is essential if amateur athletics are to prosper and to progress. As far as we know and believe, the A. A. U. has rendered good service in guarding the simon-pures from the invasion of masquerading professionals and conniving gamblers.

"This service is not to be forgotten even in the heat of the present controversy. It cannot excuse, however, a pettiness carried to the extreme that, in an individual, would make him an outcast from decent society.

"Our readers across the line have good reason to remember the A.A.U. with anything but affection. Some years ago, when Canada produced as brilliant a generation of runners and walkers as the world has ever known, the A.A.U. refused to permit them to compete in meets in the United States, or to honor their records, because of a jurisdictional dispute with the Canadian Athletic Association. Search, through all the records of the A.A.U. to-day—after the lapse of the years—and you will find no mention of Dick Grant and his brother George, Billy Sherring, William Cafferty, the Pierce brothers and Fred Meadows, not to mention George Goulding, perhaps the greatest walker that ever lived. Yet these men were among the wonder athletes of their day.

"Harking back to the Paddock incident, we do not like to believe that at the bottom of all the mud and dirt the reason for the A.A.U. action was to favor four or five secondary runners—"pets" of the powers that be—who wished to have Paddock eliminated to enhance their own chances. But where spite and pettiness prevail, anything is possible. Either the officials responsible for this outrage must go—or the Amateur Athletic Union.

### MOVIE ACTOR DEAD

Los Angeles, Jan. 9.—Forrest Robson, 65 years of age, for many years an actor in motion pictures, and on the stage, died at his home as the result of an operation.

James A. Stillman of banking and divorce fame is enjoying himself these days golfing at Pinehurst, N. C., as this exclusive photo shows.

### THE VALUE OF MANURE PER TON

(Experimental Farms Note)

Manure is worth exactly what it will give in net return from the increased crops produced. This amount varies widely depending upon the quality of the soil, the season, the crop and other factors but it is interesting to learn in a general way its money value per ton.

On the Central Experimental Farm, Ottawa, where a four-year rotation of mangels, oats, clover and timothy was manured once every four years at the rate of fifteen tons per acre, the manure was worth gross, figuring the farm products at pre-war prices, $3.89 per ton. This is the average gross value of each ton of manure by crediting the application of fifteen tons of manure with the entire value of the increased crop produced over unmanured land during the thirteen years of the experiment. This figure is not, of course, the real net value of the manure; the net value can be secured only when account is taken of the cost of handling the increased crop, the cost of applying the manure to the land, the interest charges and the share of the machinery charges per acre. When these factors are considered the average value of the manure is $1.28 per ton. It should be remembered, however, that the larger cost of handling the increased crop and the cost of applying the manure are largely labour costs which, in many cases, may be done by the farm help by working additional hours, but without additional cash outlay. The larger yields per acre, produce results equivalent to owning a larger farm and if the larger crops can be handled without extra help, practically all of the gross value of the manure will be secured as increased net income. These labour charges, the machinery charge and the interest are used only in exact accounting to learn what to credit the live stock for each ton of manure or to know how much to pay for manure in the event it is purchased off the farm.

Other methods of evaluating manure than that of reckoning the value of the increased crops produced are sometimes suggested. Some suggest multiplying the standard analysis of manure by the market price of the fertilizer constituents as found in commercial fertilizers. Others suggest basing the value of the manure on the fertilizer value of the feed used, assuming that one-half of the nitrogen, three-quarters of the phosphorus and all the potash contained in the feed will appear in the excrement. There methods, however, overlook the variations in soils which may give increased crops from manure in some instances several times as much as in others. Such being the case the Ottawa figures should be accepted only as a general guide until actual trials show the real value on different soils.

In any case, the value of the manure per ton will be increased by uniform spreading, by using a light to medium application of ten to fifteen tons per acre rather than a heavy application, and by applying the manure to root crops, corn, potatoes, and hay rather than to grain crops. Where bad weeds are not present, unrotted manure will prove more economical than rotted.

E. S. HOPKINS,
Dominion Field Husbandman.

### PRINCE A SUICIDE

Berlin, Gerany, Jan. 9 (United Press).—Failure to get a position in one of the big banks in Berlin is ascribed by his friends as the reason for the "sudden death" of Prince Alexander zu Schaumburg Lippe, distant relative of the Kaiser. Lippe, according to the press notices, "departed this life unexpectedly," which was a polite way of saying the young man went the suicide route.

## NEPTUNE TO VISIT WORLD CRUISERS

CANADIAN PACIFIC

The certificate as shown above will be issued to all passengers aboard the Empress of Canada who appear before Neptune, as did those passengers on the Empress of France last year, who are shown in pictures 1 and 2.

When to travel upon the sea was to venture in great danger it was usually thought wise by the voyagers to propitiate the god of the waters by making gifts to him before setting sail, and oftentimes, when Neptune displayed his wrath at sea, human sacrifices were made to him. To our superstitious ancestors the son of Saturn and Ops had great power over the waves, especially those of the sea, and had, therefore, in his hands the welfare of all vessels and their human and other freight. The worship of Neptune was early introduced into Rome, and July 23rd, "Neptunalia," was his feast.

As science reduced the terrors of the sea, and education and higher civilization erased the sometimes terrible superstitions from the minds of the world, so the worship of and sacrifices to Neptune ceased, but even to this day he is venerated by many Latin and Scandinavian sailors and no ship crosses the equator without some recognition being made of him. Usually this takes the form of a burlesque performance in which those who are making their first "crossing of the line" are initiated into the mysteries of the deep.

The unique photograph reproduced above was taken aboard the Canadian Pacific "Empress of France," while on a "Round the World" cruise last year. Neptune boarded the great liner in the early morning of the day on which the "line" was crossed, and held court. He was attended by the Royal Barber and other high officials who assisted in the initiation ceremony. Most of the passengers were summoned to his august presence and were tried for their misdemeanour, punishment or praise being awarded without favor. Those who produced evidence of having been "initiated" before were of course, exempt from trial.

This year, when Neptune boards the Empress of Canada, which leaves New York on a Round the World cruise on January 30th, his secretary will issue to all those who pass before the God of the Waters, certificates to that effect, which will be countersigned by Captain S. Robinson, R.N.R., who commands the vessel, and which, besides being valuable souvenirs of the trip, will exempt the holder from further trial.

Healing Cream Is Quick Relief For Head Colds

Colds and catarrh yield like magic to soothing, healing antiseptic cream that penetrates through every air passage and relieves swollen, inflamed membrances of nose and throat. Your clogged nostrils open right up and you can breathe freely. Hawking and snuffing stop. Don't stay stuffed up and miserable.

Get a small bottle of Ely's Cream Balm from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.

FANNING WITH FARRELL

## COACHES WANT MORE BRAINY PLAYERS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 8 (United Press).—Two prominent football coaches of big eastern teams were discussing players who had distinguished themselves during the past season and the conversation led up to what they considered the most desired faculty in a player.

"I'll take the player with a brain," one said. "If he can think he can be taught, considering, of course, that he had fair ability or he wouldn't be on the squad."

In elaborating, he went on:

"I saw a quarterback last season who should have been the outstanding player of years. He could run, pass, receive, kick and tackle, but he had no idea what it was all about when the occasion arose for him to think."

It is no new theory that you can't teach an athletic to think and many examples keep popping up from time to time to prove it.

Bugler Lake lost the British bantamweight championship in London recently on a decision to Johnny Brown.

Two nights before he was to defend his title, Lake took part in an exhibition show and he fought 20 three-minut rounds against 10 lightweights and welterweights, who were thrown into the ring, one after another, for two rounds against him.

No one can accuse that boy of thinking beyond the speed of common horse sense.

Another example from London:

Jack Bloomfield, British heavyweight had the British title practically cinched in a recent bout with Frank Goddard, a fighter who couldn't get a job as a sparring partner for a third-rate fighter in this country.

Goddard had been on the floor severa times and he was out on his feet. He couldn't have gone 20 rounds if Bloomfield didn't put another glove on him. It would have been impossible for Bloomfield to lose the decision, yet—

Bloomfield rushed him as he was getting up off the floor, hit him a mild slap while he was down, technically, and lost the contest and the title on a foul.

Johnny Dundee, rated as one of the smartest fighters in the business, has mental slips along with the rest of them.

Dundee thought he was smart enough and brainy enough to get along without a manager. He signed articles for a fight with Benny Leonard last summer and his end would have been at least $35,000.

Just a week or so before the date scheduled for the fight, Dundee went into Philadelphia for an 'easy workout" fight with Kid Wagner.

Wagner beat him all over the place, Dundee hurt his hand a long with it and the promoters called off the Leonard fight.

* * *

There are possibilities for a long, long story and material for some good sport sermons in these two incidents:

In the first quarter of a game with Boston College in Boston, just a while back, "Red" Dunne, captain of the Marquette football, broke an arm. He remained in the game and won it with a kick in the last few minutes of play.

Babe Herman, professional prizefighter, fighting against Kid Sullivan in Madison Square Garden on the night of Dec. 17, sustained a fractured rib and quit. Several newspapers said he was carried from the ring to the dressing room, "screaming with pain."

* * *

While all-American football teams are current topics, it might be interesting to quote the opinion of the Notre Dame players on the best players they had seen all season.

The Notre Dame squad is qualified to speak with almost national authority as the team played Army, Princeton, Georgia Tech, Carnegie Tech, Nebraska, Purdue and St. Louis.

The players, at the end of the season were asked to vote on the best players they had played against and the following team was nominated:

Straton, Georgia Tech, and Swanson Lombard, ends; Weir, Nebraska, and Mulligan, Army, tackles; Dummenhaver, Butler, and Farwick, Army, guards; Claypool, Purdue, center; Robertson, Carnegie Tech, quarterback; Noble, Nebraska, and Snively, Princeton halfbacks; Wyckoff, Georgia Tech, fullback.

No writer in the country is qualified to question the judgment of these boys who actually played against the above men.

It is interesting to note that the Notre Dame players didn't give a tumble to Smythe, the Army quarterback, who was regarded as one of the best in the east and that Snively, who was not mentioned on any teams, was the only Princeton player who impressed them.

Stout, the Princeton end, was regarded by all the eastern writers as a wow of a player, but playing and writing football are different—quite different—recalling the Mr. Dunne mentioned above.

## PASTOR HONORED BY PARISHIONERS

Melrose, Jan. 9.—On Friday evening Dec. 28, their friends from the congregations of Melrose, Lonsdale and Shannonville Presbyterian Church met at the Manse, Melrose to express their retiring pastor Rev. G. S. Wood and Mrs. Wood, appreciation of their services, also to bid them farewell before they leave for their new field at Osgoode, Kars and North Gower where Mr. Wood has been given a unaimous call.

During Mr. Woods stay here his work has been one untiring ecort and sterling qualities he has many friends among all denominations who regret to know of his departure from their midst. After all had gathered they were called to order and an appropriate address was read after which a well filled purse was presented.

Dear Mr. and Mrs. Wood:

A group of your friends and parishioners have met here in your home tonight feeling we could not allow you to leave our midst without some tangable evidence of the high esteem in which you are held by us. We have recognized in some degree your high character as a minister and of your great ambition to see the church move forward.

We shall long remember your messages given from the pulpit in earnestness and sympathy, of your ministrations in times of sickness and bereavement, ever ready to respond to the call of the shut in and anxious ones.

We are sorry you are leaving us, but hope in your new field you may have greater opportunity of doing your good work.

We ask you to accept this purse—with the assurance that we shall long remember the pleasant months spent with us here. This is a united gift from your friends of Melrose, Lonsdale and Shannonville congregations, and we ask you to spend it as seemeth best to yourselves.

(Signed) William English, Frank McCullough, Ferg. MacFarlane.

Rev. and Mrs. Wood who were much touched gave a very suitable reply, thanking them for their kindness and help which they had received.

### NOTICE.

There will be a meeting at the Recreation Alleys on Wednesday night at 8 o'clock for the senior and junior league. All those that have teams entered kindly have a representative at meeting as it will be very important. We would like to hear from about three more teams or any individual bowlers that would like to play in the junior league. 2t

RECREATION PARLORS, Bridge St.
F. Domenico Mgr.

## 34th WILL OPEN SEASON FRIDAY

### Battery Hockey Team Will Oppose Napanee

The 34th Battery Hockey team open their season in the Bay of Quinte Hockey League, on Friday evening, at the Arena at 8.15, when they take on the representatives of Napanee. It should be an excellent game, as Napanee have reinforced their weak spots, and the Gunners can always be relied on to give a good exhibition of hockey. Many local favourites will be seen in action, as the Battery have an excellent supply of players to call on, among whom are goalers Scott and Hibbard and LaPorte, defence players L. Goyer, W. Finkle, J. Williams; forwards, Ted Whalen, Sammie Symons, Bill Canning, A. Armstrong, Gar. Arnott, Cummins, Hay, and many others.

Many fans remember with pleasure the hockey displayed last year in this league, and no doubt will get the same satisfaction again as the locals are out to win the cup which was awarded to Point Anne last year.

The Bay of Quinte League consists of the Gunners of Belleville, Napanee, Point Anne, and Young Irishmen of Kingston. All teams have strengthened so the brand of hockey should be even better than ever.

MOLLA BJURSTEDT MALLORY, former U. S. woman tennis champion, decuares she will compete in the Olympic games as a member of the Norwegian team, if she is not allowed to play for the U.S.

IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

### WANTED SUPERB STRING OF PEARLS.

Geneva, (By mail to United Press).—Wanted: a pearl fisherman who can find a complete string of superb gems at one dive.

It has been revealed that a necklace of inestimable value, once the property of the assassinated Empress Elizabeth of Austria, lies at the bottom of the Mediterranean. It was submerged on the empress' instruction in order to regain its lustre.

A few days before her assassination an expert advised Empress Elizabeth to bury the necklace under the sea. The expert said this was the only plan by which it could regain its brilliancy.

The necklace was a wedding gift of the emperor to his bride, and among the most prized of all her possessions.

So she sent to a Corfu monk, with instructions to hide it in the deep blue waters of the Mediterranean.

Aided by an old fisherman, the monk carefully buried the pearls in sand in a deep excavation near the shore. He took every precaution that none but the old fisherman and himself should know the hiding place. This took place in June, 1898. At the end of that year both the monk and the old fisherman died. It was long believed that their secret had perished with them.

It is now reported that the fisherman told a comrade where the pearls were buried and that eventually the necklace may be recovered from the sea.

## That Body of Yours

*By James W. Barton, M.D.*

### YOUR RAINY DAY

An insurance company's advertisement the other day depicted an umbrella with the following words underneath it "Is this all you have saved for a rainy day?"

I passed a rocky piece of country recently where some cattle were grazing. In the centre of the field was a pile of hay with a fence around it. It was being saved the winter, when the grass would not be available.

I just thought how much attention is given these days to the needs of the future. That is generally speaking.

And yet I could not help but realize that often no thought is given to the future needs of that body of yours.

Your common sense tells you that you will go up grade for one half of your life, and down grade for the second half.

And yet what are you doing about it?

You know less about your body than perhaps any other thing about you.

You ignore the things, the ordinary everyday things, that you actually know should be done or left undone.

Why?

Because your body is so wonderful. It goes along day after day, year after year, doing its daily work, notwithstanding all your lack of thought and care.

But what about your rainy day?

What about your winter?

Your rainy day, or winter, may be a severe illness, or it may mean the latter half of your life.

Practical, farsighted people are not talking about medicines much these days. Osler, our greatest physician, stated before he died that he expected to soon have his drugs down to three.

What is my thought?

That you should be so caring for your body by using the ordinary laws of health and common sense, that you will lengthen out the first part, the youthful part of your life. Your body will remain resilient years longer if you do so.

And the latter part of life? It should not be one of misery, of aches, and of pains.

If you live the first part right, you'll not depart from it during the second part. Your habit of life will be fixed. It will be an actual part of you.

The patient afflicted with tuberculosis who has learned how to live during his treatment in a sanitatium, seldom dies if he follows the habit of life he learned at the sanitatium.

In a former article I said that insofar as the care of your body was concerned it required no special knowledge.

All you needed was some of the fresh air and sunshine, enough but not too much food, and enough exercise to use up the food and keep your body strong.

### Perfect Freedom

Mother—Now, Harold, what would you do if you didn't have mamma any more?

Harold—Then I'd do just what I wanted to do.

### Ecstasy at the Ball

He (enthusiastically)—I have that feeling of walking on roses!

She—I think it was one of my corns you stepped on! —From Associated Newspapers.

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the 'Bayer Cross' on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

| | |
|---|---|
| Colds | Headache |
| Toothache | Lumbago |
| Neuritis | Rheumatism |
| Neuralgia | Pain, Pain |

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of salicylicacid. While it is well known that Aspirn means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Here and There

A grizzly bear barbecue will be one of the features of the Winter Carnival at Banff in February.

Ten Canadian and three United States teams have already entered for the Eastern International Dog Derby, which will be run during the Winter Carnival in Quebec, February 21, 22 and 23.

Progress and bright prospects in the development of sodium sulphate in Saskatchewan is reported by the Bureau of Labor and Industries. Sodium sulphate recovered from Saskatchewan deposits is now being used in the manufacture of glass at Redcliff.

A report of the British Columbia Industrial Commission Department shows loans to industries amounting to $1,176,894 embracing 60 plants. Repayments have been made on principal by 55 industries. Total repayments amount to $151,428, of which $71,245 was interest.

For the purpose of extending Canadian trade in Greece, Turkey and the Eastern Mediterranean, W. McL. Clarke, Canadian Trade Commissioner at Milan, Italy, has been instructed to visit these countries and report on the opportunities for the sale of Canadian goods.

E. D. Calvert, noted guide and sportsman of Rainy River, who has done much towards bringing tourists from all parts of the United States to the Lake of the Woods, states that the tourist traffic this year has greatly exceeded all previous years and anticipates a greater increase next season.

United States grain shipped from Canadian ports during the crop year, September 1, 1922 to August 31, 1923, totalled 55,000,000 bushels. This meant total handlings of approximately 110,000,000 bushels, as it was necessary for the grain to pass through the elevators at lake ports and at ports of exit.

Miss Marion Towne, of Berlin, N.H., who in three years since she first put on a ski, has achieved fame through her daring and graceful jumping, has expressed her desire to compete with Canada's best girl ski jumpers at the winter sports carnival in Quebec on February 21, 22, 23 and 24th, during which time she will make exhibition jumps.

Further indications that the year 1923 will create a record in ocean traffic are shown by figures given out at the headquarters of the Canadian Pacific Steamships. Bookings for westbound sailings were exceptionally large, while those for sailings to the Old Country for Christmas and the New Year were in advance of the traffic of any previous year.

The Calgary Board of Trade is taking interest in the proposal of large British interests, which involves the utilisation of western straw for the manufacture of paper and other products, and is getting all possible information with respect to the development of industries. Hundreds of thousands of tons of straw are burned in the prairies every year, which it is claimed has a commercial value.

St. Jovite, Quebec, has been chosen once more as a movie location, and arrangements have been made by Conrad Nagle and Alma Rubens for the transportation of themselves, party of 17 and equipment to that place during the early winter. Last winter Lionel Barrymore and Seena Owen located at St. Jovite for the filming of "Snow Blind" prior to taking other parts of the picture around the Chateau Frontenac, Quebec, and Windermere, British Columbia.

Traffic through the Lachine Canal in 1923 showed an increase over that of 1922 in almost every particular, the total grain carried being 88,285,270 bushels, as compared with 87,831,212 in 1922, the best previous year; coal receipts totalling 813,591 tons, compared with 884,575 tons; the ship tonnage operated being 5,462,200, against 4,786,543; shipments of pulpwood totalling 356,930 tons, against 313,124 last year; the cargo tonnage being 4,411,183, compared with 4,360,328; and the number of passengers carried totalling 78,097, against 69,392 in 1922.

## Day-time Frocks Will Grace Awkward Age

THE growing girl of 14 to 16 is naturally self-conscious; therefore, anything which will give her ease and confidence is most earnestly to be desired. And everyone knows that the first essential to poise at any age is good dressing. Not that correct dressing means elaborate or expensive costumes; far from it. The girl who has not yet learned to take care of her clothes or to avoid frequent mishaps would do well to have a number of well-cut frocks of inexpensive materials, rather than one high-priced affair, which is likely to succumb early to youthful wear and tear.

**Golden Rule of Simplicity.**

Simplicity is the golden rule for the wardrobe of the very young girl. Any exaggeration of line, any efforts to follow the dernier cri of the mode, is an error of taste. Manufacturers who specialize in clothes for the girl of this age have long recognized this fact, and many of them resign their models accordingly. Fortunately, she wishes to look as other girls of her own age do, since she usually lacks the poise to carry off eccentric effects or an individuality developed to permit emphasis. This imitative instinct makes her problem an easier one. But she also has a more lamentable tendency to try to appear older than she is. In this way she hopes to hurdle the gap between engaging childhood and comparative maturity, little realizing that she loses her chief charm in doing anything that detracts from the natural freshness of youth.

If her hair is long, she tries to add to her age by putting it up too soon. She sees no reason why she should not attempted to wear the clothes of her debutante sister, which may be both unbecoming and inappropriate. She often emphasizes such incongruity by imitating the make-up of the debutante. Make-up is absolutely forbidden to the very young girl, except for the very discreet use of rice powder on the nose. In this respect, at least, the French idea of the jeune fille persists in American life.

The girl who enters early into the question of a suitable wardrobe receives valuable aesthetic and economic training for the future. One can hardly expect a girl of 14 to have good judgment about concealing her bad points in youth; this must be accomplished with the importance of a correct ensemble of choosing hat, shoes and gloves with the rest of her costume in mind. She should learn that high necklines and Peter Pan collars are more graceful than a display of an underdeveloped neck and shoulders; that pockets at statogic points often afford refuge for superfluous hands in times of stress. And shoes—! If the greatest assurance of manner can be demolished by a steadfast gaze at the feet, what hope is there for any youthful person not conservatively shod?

Silhouettes are another problem. The young girl almost always grows more rapidly in one direction than in the other, which results in a division into abnormally long and slender figures and rather short and stocky ones.

One might think that, in these days of glorified slimness, when every fashion magazine exploits its models on sinuous individuals, that the very young and slim girl would be admirably suited to the latest modes. Such is not the case. Extreme slenderness is affective only when the figure is sufficiently rounded to be graceful. When the older sister exults in an absence of waistlines, the younger one, if she be wise, breaks the lines of her frocks with slightly flaring tiers and other horizontal effects.

In the opposite case, every rule which is anxiously noted by fair, fat and forty holds good for her daughter. Vertical, rather than horizontal or plaid effects are in order; long, slender lines must be observed; simplicity reigns supreme.

**Choosing the Right Hat.**

Hats present few difficulties as long as the cloche is universally worn, for it is both youthful and becoming. A very few persons with deep-set eyes will discover a brim pulled low over the nose obliterates them completely; for these, care must be taken to secure either a very small brim or a rather wide one which recedes fairly high in front, poke fashion. Hats in light colors or having light facings are likely to be more becoming to youthful complexions than the unrelieved severity of dark colors. The return of the beret, or tam shape, will be a welcome one, for it lends a piquant note to any costume, can be adjusted at any desired angle, and is all but indestructible. School girls have long known this; the fact that Paris is giving this shape mature attention makes it wholly satisfactory. Hats that turn up all the way round have only one drawback; they are designed for youth exclusively.

Choice of colors is practically unlimited. Time was when certain hues, such as violet and yellow, were taboo until middle age grew on apace, but modern modes draw no such fine distinction. Tiny tots promenade in the Bois in black frocks brilliant with bizarre embroideries; juveniles scorn the pink-and-blue fetish in favor of any color which happens to strike their fancy. On the street, of course, subdued colors are in best taste, and, if adolescent complexions prohibit the light, neutral shades, such as beige or gray, navy blues, dark greens, or brown, and tan shades are always admirable. Plaided fabrics combined with plain are very smart for sports costumes this season. Coral is effective for kasha or duvetine frocks or country suits; for the matinee, shades of green, yellow, pink, or henna are good.

Wool jersey and piquetine for plain dresses; wool velours and velvetine for suits; crepe de chine, velvet, or velvetine for the afternoon are suggested. Beige caracal for a tiny cape or a modish short jacket is the most practical fur for town wear, while a school coat destined for hard usage may be of baby leopard or raccoon in three-quarter length.

### MONSTER RADISHES

Kigston, N. C., Jan. 9. (United Press)—Arturi Suzuki, artist, has promised to revolutionize the radish industry in this part of the country. Suzuki claims he will produce radishes three feet in length from imported seed. The radishes the painter plans to grow are of Japanese varieties.

# THE PARSON O'DUMFORD

Eve felt the paper, and was aware of the fact that her visitor had scrambled over the wall, and was gone, and still she stood clutching the paper tightly, till a voice made her start and thrust the paper into her bosom.

"Eve, my child, it's damp and late," picking up her presents, Eve slowly went up the garden, feeling like one in a dream, till she entered through the open window, where Mrs. Glaire was waiting.

"Why, you are quite cold, my child," said Mrs. Glaire tenderly, as she closed the windows and led the trembling girl to an easy-chair by the tea-table the shaded lamp shedding a pleasant glow upon the steaming urn.

"It is getting cold, aunt," said Eve with a shiver; and she drank the tea poured ready for her, with avidity.

"More presents, my darling?" said Mrs. Glaire, leaning over and kissing her. "Eve child, you are making me very happy."

Eve's arms were around her neck and she sobbed there in silence for a few moments.

"Don't cry, my darling; try and think it is for the best. It is—you know it is, and the past must be all forgotten. But where is Dick? He must be buying presents, or arranging something, or he would be here," she said, cheerfully. "By the way, Eve, what are those? Did Richard send them?"

"No, aunt," said Eve, hoarsely; "they are from Mr. Selwood."

"Always a kind, good friend," said Mrs. Glaire, whose voice shook a little as she looked at the gifts. "Make Richard think better of him. Eve, for he is a true, good friend."

Eve did not answer, for her hand was upon her breast, and beneath that hand she could feel the paper. Her great dread was that Richard should come back, and she prayed that he might not return.

Ten o'clock sounded and then eleven from the little pendule on the chimney-piece, and still he did not come and Mrs. Glaire, noticing the poor girl's agitation, proposed rest.

"I will sit up for Dick, Eve," she said, cheerfully. "He is preparing some surprise," but, as soon as her niece had kissed her lovingly, and left the room, a haggard look came over the mother's countenance, and she knelt down for a few moments beside the couch.

She started up, though, for she heard her son's step in the hall, and he entered directly, looking hot and flushed.

"Where's Eve?" he asked.

"Gone to bed, my boy," replied Mrs. Glaire. "Dick, you should have stayed home tonight."

"Oh, all right," he said, lightly, and with a bitter sneer; "it's the last night, and I thought I might have a run."

"I'm not blaming you, dear," said Mrs. Glaire, kissing his forehead; "only poor Eve looked so sad and ill tonight."

Had she seen her then, she would have cried out in fear, for, with an open paper in her hand, Eve was pacing up and down her room, to throw herself at last upon her knees in agony, and after many hours sob herself to sleep.

CHAPTER LV.

The Happy Day

It was gala day in Dumford. The past bitter times were forgotten, and the men were in the best, and gardens had been stripped of their flowers. Half the town had been twice to the Bull to see the barouche and the four greys that had been ordered from Ranby, and the post-boys, in their white beaver hats, had been asked to drink more times than was safe for those they had to drive.

The church, too, was decorated and new gravel laid down from porch to gate. The ringers were there, and the singers, and the musicians making their way to the loft; while the various pews and sittings were filled to a degree "not knowed," Jacky Budd said, "for years an' years."

The school-children were ready, armed with baskets of flowers, and had been well tutored by the schoolmistress to throw them as the bride and bridegroom came out. This lady sighed as she saw the preparations, and told Jacky Budd to open more windows, because the bodies smelled so bad, and Jacky said they did, and it gave him quite a sinking; but the hint was not taken.

In the vicarage, Murray Selwood sat looking pale and stern, beside his untasted breakfast, and it was not till, with affectionate earnestness and the tears in her eyes, Mrs. Slee had begged him to take a cup of tea, that he yielded, and eaten also a slice of toast.

"I know thou'rt ill, sir," she said. "Let me send for Mr. Purley."

"No, no, Mrs. Slee," he said, shaking off his air of gloom; "only a bit of low spirits. I shall be better soon."

Mrs. Slee shook her head as she went back to the kitchen.

"He wean't, he's been getting worse for weeks and weeks, and it makes me wretched to see him look so wankle."

Meanwhile, at the House, all was excitement. Eve had risen at daybreak to sit and watch the rising sun and ask herself what she should do. She had promised to be Richard's wife. Her aunt's happiness, perhaps her life, depended upon it, and it was to save her cousin. She was to redeem him, offering herself as a sacrifice to bring him back to better ways, to make him a good and faithful husband, and yet in her bosom lay those damning lines, telling of his infidelity in spirit—of his passion for another, and again and again she wailed—

"He never loved me and he never will."

Should she go—could she fly somewhere far away, where she might work and gain her own living, anywhere, in any humble station, in peace?

And Richard—her aunt?

No, no, it was impossible; and think how she would, the bitter feeling came back to her that she had promised her aunt, and she must keep her word.

And besides, if Richard was like this now, what would he be if she refused him at the eleventh hour, and cast him off. She shuddered at the thought, and at last grew calmer and more resigned.

In this way the hours passed on, till in a quiet mechanical manner she was dressed by the maid, who was enthusiastic in her praises of dress, jewels, flowers, everything.

Mr. Glaire was very pale, but bright and active, and in a supercilious, half-sneering way, Richard watched till all was ready, and the guests who had been invited had arrived.

to be continued)

## Grain Movement Over The Canadian Pacific Railway

### Sept. 1 - Dec. 12, 1923

Clickety-click, clickety-click... It is the sound of car wheels passing over the railroad tracks, and you could stand and listen to the same clickety-click for 44 hours on end, if you were to watch that part of the magnificent crop of Canada grown in districts served by the Canadian Pacific railway and moved from the harvest fields by that company. Imagine, if you can, a train 881 miles long, or as far as from Winnipeg to the upper reaches of the Rocky Mountains. That is how many freight cars there would be. But cars alone cannot make a train. There are the engines, as well, and the road has kept in the neighborhood of 670 freight engines tugging grain trains east and west day and night throughout the season and in addition to these there are 171 switch engines employed at terminals. The season, be it understood, is taken as the period from the opening of the Canadian crop year, Sept. 1 to the official close of navigation with regard to shipping insurance on the Great Lakes, which falls Dec. 12.

So much for computation trains. In point of fact however, the longest train which was made up during the season consisted of 125 cars and was approximately 1 mile in length. It was operated from Stoughton to rcola, Saskatchewan, on October 5th. The weight of the train not including the engine totalled 7,946 tons, of this 5,556 tons being freight. The train handled 155,000 bushels of wheat.

Now during the season, there were 88 days on which cars could be loaded, for Sundays are excluded. During those 88 days there were trains operated on an average every 50 minutes day and night, trains carrying nothing but grain mind you, for passenger traffic and other freight business were conducted at the same time, and on uninterrupted schedules too, be it noted. These trains were on an average [illegible]5 cars long.

In all, from Sept. 1 to Dec. 12, 1923, there were marketed in districts served by the Canadian Pacific Railway more than 200,000,000 bushels of all grains the largest quantity ever reported since the inception of the road. Taking the cars loaded as more truly representative of the activities of the company in the matter of grain movement, these have been reported at 116,282 for the period, representing 169,931,184 bushels. Suppose for a moment that all that grain were to be dumped into a river bed 100 feet wide and five feet deep, and that the new 'river' were able to flow at an average rate for water, say a mile an hour, then he who stood on the bank and had the patience to watch, might pitch his tent and picnic for three and one half days before this stream would be dried up.

A second trip into the land of imagination and one might put mountains in the background, and might make those mountains up of all the grains kernels which had been taken from the freight cars engaged in their transportation. If the grain were heaped up on acre lots of ground, there might well be three mountains, and each one of them would tower 5,000 feet into the heavens. The Canadian Pacific railway station at Lake Louise, one of the highest in the Rocky Mountains, is 5,044 feet above sea level. In the three mountains would be included oats, rye, barley, flax—all the coarse grains commonly grown in the Dominion as well as wheat, but if the latter were to be sorted out and put into mountains by itself, supposing there were still to be three mountains then each of these would rise 4,200 feet from the ground Banff itself is only 4,500 feet above the sea.

But after all, wheat is of little use in imaginary rivers or even mountains, however high or picturesque they may be. Let us consider what would happen if all the wheat were made into flour (leaving coarse grains aside) and kneaded up and baked into bread. If this were done there would be approximately 104,700 miles of regulation size, 16 ounce loaves, if they were placed end to end. This tremendous string of loaves would stretch back and forth across Canada, from Montreal to Vancouver 36 times. If the loaves were laid side by side and end to end, they would form a solid belt across the Dominion wider than the height of a city lamp post. Again if they were piled in a trans-Canada wall one loaf deep, the height of the wall would be 12 feet.

A particularly interesting feature of the grain movement of the present season according to company officials is the increase which had been reported in the amount of grain sent by Canadian Pacific to Vancouver for export. In all there were 5,532 cars received representing 8,087,784 bushels, or a very large percentage of the total exports from Vancouver which aggregated 8,910,966 bushels to the United Kingdom, and 80,300 mostly to South America. Last season for the corresponding period there were 3,548 cars received at Vancouver and 4,397,019 bushels exported.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising there from, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates. The genuine bears signature of

Chas. H. Fletcher.

MANY WOMEN AVOID OPERATIONS

Through the Use of Lydia E. Pinkham's Vegetable Compound

Two Interesting Cases

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the common ailments are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Mrs. Edwards Avoids Operation

Wilson, N. C.—"For about a year I was not able to do anything, not even my housework, because of the pains in my sides and the bearing-down pains. I could only lie around the house. The doctor said nothing but an operation would help me, but I tried different medicines which did no good, until my sister insisted on my trying Lydia E. Pinkham's Vegetable Compound. She said there was nothing like it. I know that she was right, for I began to improve with the first bottle and it has done me more good than anything else. I am able now to do anything on the farm or in my home and I recommend it to my friends."—LILLIE EDWARDS, R. F. D. 3, Box 44, Wilson, N. C.

Another Operation Avoided

Akron, Ohio.—"I can never praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I had such pains and weakness that the doctor told me nothing but an operation would help me. But my mother had taken the Vegetable Compound and she told me what it had done for her, and so I took it and I am glad to tell every one that it made me a strong woman, and I have had two children since then."—Mrs. R. G. WESTOVER, 325 Grant Street, Akron, Ohio.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. This book contains valuable information.

The laziest women on earth must be those of Asir, the almost unknown country beyond the Red Sea. Mrs. Rosita Forbes has just returned from visiting them, says the Yorkshire Post.

"The women are in an extremely primitive state," she said," and never come out of the house except to be married or to be buried. When I asked them how they amused themselves, they replied, "We don't. For us there is no work."

"I said I quite understand, but would like to know what they did when they were tired of eating and drinking. One pretty girl looked up and said said brightly, "We sit." "

Mrs. Forbes describes a narrow escape from death while visiting a harem.

"I was a guest at Yemen harem," she says, "where all the women bathe together in one room. I accepted the offer of a bath, and while chatting, mentioned the word Christian. One woman said fiercely that if a Christian woman came there they would kill her. They took me, fortunately, for a Moslem, as I was disguised.

"It was only when we reached the bathroom that I recalled, to my horror, that the rest of my body was not stained dark brown, like my face and arms! Fortunately I made the excuse that I had forgotten my favorite soap, and thus escaped exposure."

## Erupts Constantly

Continued from page One

gineers here, Joseph J. Walsh, chief of the State Department of Mines, estimated that these nineteen fires collectively cost the operators $10,000,000 each year, and no practical way has ever been [illegible] to control them.

The fire on Georget[illegible] Mountain—locally it's called the [illegible]d Ash" fire—is one of the worst in the region because it is close to other valuable coal lands and to several communities. Several years ago four persons were found dead in a house near the fire, asphyxiated by the deadly gases while they slept. Later a tramp, who tried to sleep on the mountain because it was warm, was found dead near a "gas pocket," and the workmen rave lost their lives trying to control the blaze.

Millions of tons of the finest quality anthracite coal have been consumed by the flames since the fire started. To the east a force of men continually play a hose on the ground to prevent spread of the fire to the workings of the Hudson Coal Company, and on the south the Lehigh and Wilkes-Barre Coal Company engineers are building huge concrete in sets to keep the flames from their mines.

Various attempts to conquer the fire have failed. Concrete, culm, water, chemicals, and every known methods of fighting fire has been employed by engineers without success. It still burns, spreading its ruin and desolation over the valley and causing the foreign mine labor to strictly avoid what they now call 'Devil's Mountain.'"

## Judging Begun

(Continued from page one)

usual entry, a pair of White Silkies They are of the chicken species, but their plumage is snow white and resembles fur more than feathers. They are "Chickens in rabbit's clothing" so to speak.

### Heavy Entry List

Mr. H. L. VanAllen of Stirling has the largest entry list of any exhibitor with 13[illegible] entries of almost all varieties of poultry. Mr. VanAllen is a well-known poultry fancier.

The heavyweights in the poultry Brahams, Plymouth Rocks, Buff Orpingtons, W. O. B. Polish, White Caps and others, making up their number. Then the bantams are their in full strength, there being one whole avenue of bantam crates. Turkeys, geese and ducks are included in the exhibits, but the water fowl display is not extensive. Five rabbits, two of which are huge gray fellows, are to be judged today also. Then there are the guinea hens and pigeons. There is an interesting exhibit of the latter, outstanding varieties being rollers carriers, toplers, magpies, squab, wallow, homers and owl pigeons.

Poultry foods are on display at the east side of the building

### A Large Sized Cod.

The largest cod ever landed at an east coast port was recently brought into Lockport, N.S., aboard schooner Jellicoe. They docked with the largest sized cod ever landed at that port, some weighing seventy pounds. On the three days trip the crew shared over $34 net. Fishermen are making big hauls of herring.

## If Rheumatic Eat No Sweets

Says glass of Salts help to overcome Rheumatism acid.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kind.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

# Lauder Records

# FOUR BOXERS IN RING, SAYS M'AULIFFE

NEW YORK, Jan. 5 (United Press).—"Boxers? Bah! There's no such a bird any more. Not a half dozen fighters in the business today know the first principal of boxing and not a fan of the new school has the slightest idea of the real art of boxing."

Jack McAuliffe, the retired, undefeated champion, unburdened himself of some weight off his chest, recently after he had taken an evening off from pinochle to venture down to Madison Square Garden.

Sammy Mandell and Sid Terris are working up there tonight. Jack [illegible] in the way of an [illegible] for a ticket. "The boys are saying that they are the two greatest boxers to come up in years. Give me a ticket and I'll give you the low down."

The only [illegible] champion doesn't show up for several days.

"I didn't have the heart to give you the word and break up a good story. They're the [illegible] boxers I ever saw. They're both [illegible] pers. [illegible] them out. They're just like the rest. Lot of fast footwork, lot of thrown punches, but it means nothing."

Only four boxers in the last ten years have known what it is all about, according to McAuliffe.

"Of all the bunch of champions there are only three real god boxers," he said, "Jack Dempsey, Benny Leonard and Jack Britton are real boxers. They know that the first principle of boxing is to lead and counter. They know what they are doing every time they make a move. That's the reason they became champions.

"Johnny Dundee, although he is not as skilled as Dempsey, Leonard and Britton, is also a good boxer, but he fell for a trick style that removed the effectiveness from his punches.

"Dempsey is the best boxer I have ever seen among the heavyweight champions. He can fight along with it and he certainly can take it. Leonard also can box, hit and take it.

"Britton was not a great puncher, but he is perhaps the greatest boxer of all the modern fighters."

• • •

Much has been said and printed recently about the necessity of cleaning up boxing. It ha salways been said boxing needed a broom. But how can it be done?

More than a year ago the National Sports Alliance was formed in New York. Managers, fighters and seconds were asked to join hands in doing something to get the game out of the mud.

Several benefit fights were staged to raise funds. A big banquet was held at which speakers from the organization blew the horn and sounded off that it was their sacred duty to remove from the business all causes for complaint and censure.

The National Sports Alliance is temporarily suspended.

Someone forged a check and removed the $7,500 that was stored away in the club's treasury.

Clean up boxing ? ?

• • •

"If you want to make a good soldier test him with fire and blood. If you want to make a good football team, put it through a schedule. A mushy schedule makes a soft team."—Bob Zuppke, Illinois coach.

Wonder what purpose inspires the Cornell football schedule!

• • •

Wails that were perhaps justified in a few instances, have been raised recently about the decisions given by the judges after boxing bouts in New York. "Pleasing the majority with any verdict is impossible, especially in connection with professional fights, upon which bets have been made."

Criticism of officials even extends to amateur fights.

During the recent finals for the Atlantic Fleet championships, held by the Navy in Madison Square Garden, a spectator was abusive about one of the referees, a man in the uniform of a United States Army captain.

"Who is that fat head. Why doesn't he step in and break 'em? What's he know about the rules?" he howled.

It was remarked to him that the referee was Captain Frederick Hall Thomas.

"What's that mean? Who's he?" he replied.

"He's Freddy Welch, former lightweight champion of the world," he was told.

And he shut up.

• • •

From evidence recently at hand it appears that Harry Wills, the colored challenger for the heavyweight championship, is in need of some defense to get a square deal.

Despite evasive answers intended to deny statements that the New York commission is at least trying to discourage mixed bouts, it seems that Wills is being side-tracked for that reason.

Batting Siki, Pancho Villa, Luis Firpo and Luis Vicentini were allowed to work in New York.

Roland Todd, Ted Moore and Frank Mooney were allowed to come over from England and pick up money.

Wills is an American citizen, and a first-class one.

He should be allowed the privileges of one!

## DETLOR

Our new teacher, Miss Burgess, from Tweed has arrived to take up her duties.

Rev. J. J. Ferguson, a former resident pastor visited a number of people and held service on Sunday morning last.

Little Bella Thompson is spending her holidays with her little friends Laura and Ruth Edwards at their mothers, Mrs. L. Edwards, Bancroft.

We are pleased to learn Mrs. Edwards is much improved in health.

Master Milton Edwards spent his Christmas holidays at Mr. Lorne Thompson's.

Miss Gladys Foster who is working for Mrs. Albert Wheeler at Belleville is spending her holidays under the parental roof.

All the boys were home from the camps for Christmas and New Years.

Miss Trulah Mason who with her parents and brother were former residents, now of Belleville, spent Christmas with her grandmother, Mrs. S. Kingyens and other relatives and friends of the vicinity.

Mr. Alex Moore who recently underwent a serious operation at Peterboro General Hospital has recovered sufficiently to return to his home, although in a convalescent state as yet.

Mr. W. H. Bradshaw is so far recovered to be able to be up and dressed part of the day and is slowly improving.

Mr. and Mrs. George Watson spent Christmas with Mrs. Watson's sister, Mrs. Rickett, Mr. Rickett and Master Eric.

Mr. and Mrs. Williams, nee Miss Esther Smith, spent the holidays with her old friend and teacher, Mrs. Moore, and Mr. Moore.

Mrs. Fred Rupnow entertained a number of the young people to a dance one night last week and a very pleasant time was spent.

Mr. and Mrs. F. Adams, Sr., Mrs. J. S. Adams and Miss G. Childs, visited Hermon friends for Christmas time.

When some others were enjoying cheer to the fullest extent it was a sad enough message brought to Mr. Alex Barr and Mrs. W. Tice that of the death in the far away West of their aged father, who until recently was a resident of Waynooth district, for a period of over forty years. He leaves to mourn his demise a large family of grown-ups and his aged widow.

## Dreco Astounds Her

**Mrs. Gibson Enjoys Better Health Than for Years, After Taking two Bottles of new Herbal remedy. Had Spent Hundreds of Dollars in Vain Before Finding Dreco.**

"For three years I have suffered from stomach trouble and indigestion," says Mrs. J. B. Gibson, of Alfred St., Kingston, Ont. "Gas would form on my stomach after eating and make me misrable and my food would sour, causing belching, which was so bad sometimes that I thought it would choke me. My appetite was very poor and I was restless and would be awake for hours after going to bed. My kidneys were bad too and gave me pains across the back. Constipation was chronic with me and I was continually forced to take harsh laxatives. I tried everything and spent hundreds of dollars seeking relief, but nothing did me any good.

"About a month ago I heard of Dreco and decided to give it a trial. I have only taken two bottles, but it is astounding what this wonderful medicine has done for me. I feel like a new woman and can eat just about anything now without feeling the least bit distressed. My appetite is splendid and I sleep like a child all night long. My kidneys are also much stronger and I no longer have pains in the back, nor am I troubled with constipation.

"Dreco is certainly a grand medicine and nobody could think higher of it than I do."

Here is relief for every sufferer, in Kingston—a thoroughly reliable herbal remedy that aids digestion, relieves constipation, strengthens weak kidneys, arouses a sluggish liver and purifies the blood. Put your digestive system in proper working order by taking Dreco. It is made from herbs, roots, bark and leaves and contains no mercury, potash or habit forming drugs.

DRECO IS BEING SPECIALLY INTRODUCED IN BELLEVILLE BY THE BELLEVILLE PHARMACY. IT IS ALSO SOLD IN STIRLING BY J. S. MORTON, AND BY A GOOD DRUGGIST EVERYWHERE.

# Mail Robber Figures in Sensational Prison Escape

Four prisoners of the federal penitentiary at Atlanta, Ga., two of them tubercular, escaped after building a tunnel 50 feet long from the center of the prison courtyard under the outer wall. Photo shows tools used in excavating. The box was used in removing dirt, but officials are at a loss to understand where the convicts put the dirt.

George Anderson of New York City is believed to have directed the escape. He was serving a 25-year sentence in connection with a million dollar mail robbery. Anderson, who escaped, was the partner of Gerald Chapman, who fled from the prison last March.

RITCHIE'S RITCHIE'S

Gauntlet style with elastic woven fitted wrist, long cuffs in shades of Grey, Cardinal, Brown, White and Castor. Very special at 75c.

# CO-OPERATION IN POSTAL SERVICE

**Unnecessary Enquiries Regarding Parcels May be Avoided**

In the Post Office Weekly Bulletin issued at Ottawa the following item relative to co-operation and enquiries as to holiday mailing is of timely interest.

"During the holiday season just past, you co-operated with the Post Office in the matter of early mailing and we are glad to say that this co-operation helped to a considerable extent to reduce the last minute rush.

"There is still another way in which you can co-operate and that is, by avoiding unnecessary enquiries. Just because your friend doesn't receive that gift when you thought he would, or neglects to acknowledge it, is not proof that it is lost. Perhaps it wasn't posted—it may still be in someone's pocket or tucked away in a corner. First be sure it was actually posted and correctly addressed, then remember that some persons will insist on bringing their mail to the post office at the last minute and there is certain to be at least some congestion and delay. For this reason, you must allow more than the usual time for delivery. Lastly, be sure that the addressee did not receive the article—if possible, get a definite statement covering this.

"If you neglect the above points and rush in with your enquiry, in many cases you cause unnecessary work and expense to the Post Office and delay legitimate enquiries or hold up other mail—perhaps your own or a friend's. You do not want to do that, we feel sure, so please co-operate by avoiding hasty enquiries."

# Break A Chest Cold With Heat Of Red Peppers

Ease your tight aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles".

## THIS MAN TRAVELS IN BIG "PILLBOX"

Travelling in a "pill box" is the unique experience of S. S. Holmes, of Toronto, who is in Belleville in the interests of The Dr. A. W. Chase Medicine Co. But while this statement should not be taken literally, it is interesting to note that Mr. Holmes' motor conveyance is a faithful replica of those pill-boxes in which are carried to so many homes Dr. Chase's well-known remedies for kidney and other ailments to which the human body is subject.

Painted yellow, the aluminum body of this striking ring displays on its two sides the benign and bewhiskered countenance of Dr. Chase himself, with appropriate publicity lettering in dead black.

One of Mr. Holmes' objectives here, as wherever he calls, is to see that Dr. Chase's handy recipe books are distributed in Belleville homes. These books, while naturally advertising the doctor's proprietary medicines, also offer housewives quite a few "first aids" in the curative recipes for many minor ills which arise from time to time in most families and from which dangerous developments follow unless checked in their incipiency. Other useful household recipes are also found within its covers.

## TWEED COUPLE ARE SIXTY YEARS WED

On Sunday last Mr. and Mrs. James Holdcroft, of Tweed, attended the 60th anniversary of their marriage.

At the close of the evening service of St. Andrews Church, of which Mr. Holdcroft has been an elder for many years, Dr. McTavish, on behalf of the congregation, presented Mr. Holdcroft with a copy of Patterson Smyth's "Life of Christ". Mr. S. B. Rollins, Reeve of Tweed, also spoke of Mr. Holdcroft's long service to the congregation, and of the esteem in which he is held by the whole community. Mr. Holdcroft replied briefly and fittingly.

# SUFFERINGS OF U.E.L. PIONEERS ARE PORTRAYED

## W. S. Herrington, K.C., Addresses Woman's Canadian Club

## MANY HARDSHIPS

## Speaker urges Co-operation to Make Celebration Next Year, Success

"We are British by contract not by settlement and for the most part Britishers were the first settlers in th country south of us," was the opening sentence uttered by Mr. W. S. Herrington, K.C., of Napanee, when last night he addressed the members of the Women's Canadian Club of this city. The subject of the address was "United Empire Loyalists" and it was handled in a most interesting manner. The leaving of the United States by a band of Loyalists who came to Canada, the prevations they endured were vividly portrayed by the speaker who is well versed in the subject. In 1774 there was a rebellion in the States caused chiefly by taxes being levied without restrictions. There were two camps, one camp was that of the rebels who were in favor of armed force, the other camp were the Loyalists who did not desire to be estranged from Great Britain.

Suffer Greatly

The Loyalists suffered great prosecution and indignities were heaped upon their families. New York the headquarters of the Loyalists had to be evacuated and as a result they left for various parts, some to Canada and some to Bermuda and twenty-six thousands went to Nova Scotia. A party of Loyalists were despatched to the head of Lake Ontario and on the shores of the Bay of Quinte they settled. This was in 1784, and it took 19 days to come over. At Adolphustown a number of Loyalists landed. It is hard to picture what this country looked like 140 years ago. It has changed its environment to a great extent. Some where in this vicinity near the head at Hay Bay, a band of quante Indians was at this time making their headquarters. The Bay of Quinte the speaker said owed its name to the quante band of Indians. The landing of twelve ships laden with Loyalists at Adolphustown was graphically described by Mr. Herrington. The leaders were addressed in military style and when the roll was called foreign names were in evidence. The task of alloting townships to the various groups of Loyalists was by no means easy. The only weapon they had was a huge axe and with this they started out to hew their homes from the forest. The houses were log cabin, for doors a blanket was used until later saw mills were erected and doors made. There was at first a distinction between Loyalists and

(Continued on Page Eight)

# Couple Honored On Wedding Anniversary

Last evening the home of Mr. and Mrs. W. Ashley, 117 Victoria Ave., was the scene of a happy event when about 30 members of the I.O.O.S.U. gathered at their home to commemorate with them their 42nd anniversary Mr. Ashley, master of ceremonies, displayed his usual precision in the welfare of the Club. The program consisted of games and music. Mrs. F. Miller, Mr. Brooks and Mr. H. J. Gibson carried away the prizes of the evening. Mr. and Mrs. Ashley and Miss Cunningham was asked to stand while Mrs. S. Vandervoort read an address and Mrs. J. Thrasher on behalf of the club presented them with two beautiful pieces of cut glass. Miss Cunningham's attention was called to listen to an address read by Mrs. Geo. Kerr, while Miss Buchanan presented her with a gold pencil and chain. Although taken by surprise, both host and hostess made replies of thanks. After singing "Blest be the tie that binds" Miss Gladys Vandervoort entertained with solos and recitations after which a dainty luncheon was served. The guests departed wishing Mr. and Mrs. Ashley many years of happiness and Miss Cunningham received the birthday returns.

# COMING EVENTS

Madame Zedda. Scientific Palmist has arrived. Is at the Hastings House. No questions answered unless written. J8 5td.

Come to the Community Club Concert Prince of Wales School College Hill, January 18th, 1924. Eight p.m. Everbody welcome. J10-1td.

## Fewer Canadians Take Leap Into Matrimony

(United Press Despatch.)

Ottawa Jan. 10.—Fewer persons are taking chances on matrimony in Canada according to reports for March of last year when 2591 took the leap as against 2807 in March 1922, and 3,781 in March 1921.

# FOUND GUILTY APPEALS CASE

## Drunken Man Removed From His Home at Wife's Request, Found Guilty

If a man is intoxicated in his own home, creates a disturbance and frightens his wife and children, is arrested at the request of the wife, taken into custody and later charged with being intoxicated in a public place, when the officers take him out in the street, is he guilty? That was the problem before Police Magistrate Masson this morning, and he quickly decided that accused was guilty, and fined him $15 and $9 costs.

E. J. Butler counsel for accused, immediately appealed the case, and arranged bond to cover the fine until the new trial.

"I do not believe that a man is guilty of that charge after he has been taken from his house by officers as Sergeant of Police Harman has testified," exclaimed counsel.

"I hold that he is," responded the Bench, "but another judge may not. If this man was a nuisance to the other members of the family, and his wife askde that he be removed it would be wiser to remove him than leave him, as the family would probably have to move out later, and of course when he is removed to the street, he is liable under the O. T. A."

At 12-30 noon when court was adjourned, E. J. Butler, counsel for accused was given the consent of Crown-Attorney Donnan to ask that the fine be withdrawn if accused paid court costs of $14. Magistrate Masson withdrew the charge accordingly, and accused hustled out of court to get the money which spelled freedom for him once more.

# HOLD OSHAWA MAN FOR NON-SUPPORT

Arrested at Oshawa yesterday by Detective J. Truaisch on a warrant issued here by his wife, who charges non-support, a man who has been in the Canadian west during the summer, and who is now stranded, appeared in court this morning for trial.

At request of Crown Attorney Donnan the court was cleared as the matter, being domestic trouble was not of interest to the public. E. D. O'Flynn appeared for accused who was remanded for one week.

# $15 REBATE ON OCEAN PASSAGE FOR SETTLERS

## Arrangement Expected to Greatly Stimulate Immigration From Britain

## ONLY BRITISHERS

## Look to Great Britain For Greater Movement of Immigrants

Ottawa, Jan. 10.—The announcement made by the Immigration Department that an arrangement has been made with the steamship companies whereby every immigrant from the British Isles arriving in Canada and declaring his intention to settle in the country is to receive a rebate of $15 on a third-class fare, is expected to impart to immigration the strongest impetus it has received for many years.

The arrangement applies to British settlers sailing to Canada from a British port and as it means a 20 per cent. reduction in the fare across the Atlantic, will go a long way towards removing the obstacle to immigration since the war, resulting from higher fares and depreciated currency. At a conference here two months ago, Col. J. S. Dennis, of the Canadian Pacific Railway, came out strongly for a reduction in the cost passage, and the Immigration officials for some time have been convinced that Canada would not get the number of immigrants she had a right to expect until this was done.

May Bring 200,000

It would occasion no surprise if as a result of this arrangement nearly 200,000 immigrants came to Canada during the next fiscal year. The Immigration officials are convinced that there is a very large number coming, but for obvious reasons they decline to state their belief in figures.

As the quota of British settlers that may enter the United States during a year is only 77,000, and as it is filled before the end of the twelve months, there should be little difficulty to diverting northward some of the overflow. As it is the new policy will give the St. Lawrence route the biggest boost it has had for years.

Immigration authorities are convinced that it is to the British Isles, rather than to the United States that Canada must look for the greater part of her immigration during the next few years. United States farmers might be better off in Canada, but the trouble is that, for the most part they can't move across the line until they have sold their holdings over there, and farm land is rather a drug on the market just now.

# MACDONALD RE-ELECTED LABOR PARTY'S LEADER

**(United Press Despatch)**

**London, Jan. 10.—Ramsay MacDonald was re-elected leader of the Labor party and all other officers were returned provisionally. J. R. Clines remain as deputy leader and Arthur Henderson as chief whip.**

**London, Jan. 10.—As Labor government in Great Britain draws nearer day by day, the question of governmental representation in the House of Lords is arousing lengthy discussion**

## VOLCANO ERUPTS IN NEW ZEALAND

(United Press Despatch.)

Auckland, New Zealand, Jan. 10.—Ngaruhoe volcano has suddenly erupted a great volume of smoke rising from its crater. At sunset the smoking mountain against a visibly colored sky made a memorable sight.

## GREEK MONARCHS IN ROME UNNOTICED

(United Press Despatch.)

Rome, Jan. 10.—King George and Queen Elizabeth of Greece arrived in Rome yesterday and remained for three hours. Although they are still the legally reigning soverigns of Greece they were not greeted by as much as a sub-assistant stationmaster.

## Engagement of Prince to Be Announced Soon?

(United Press Despatch.)

London. Jan. 10.—There is a persistent rumor that the engagement will be soon announced of Prince George, the King's youngest son, to Lady Irene Curzon, daughter of the Marquis of Curzon and Mary Leiter of Chicago.

# PROPOSES MEMORIAL MONUMENT SURMOUNTED BY THREE FIGURES

## William Wheeler of Rural Route No. 3, Belleville Offers New Suggestion

The following communication received from William Wheeler of Rural Route No. 3, Belleville, offers an entirely new suggestion for a War Memorial and one that is worthy of profound consideration:

Memorial Editor Belleville Intelligencer:—

I would suggest a concrete base with a block of granite about 4 feet by 8 feet by 6 feet high with three statues on the top, first, a soldier, second a nurse, and third a sailor. On one side have inscribed, "LEST WE FORGET," "THEY CARRIED ON." On the other side the names of the men and women who left our city to take part in the Great War.

WM. WHEELER,
R. R. 3, Belleville

# DEATH OF HEINTZ BRINGS TENSION

## Feelings Between Government Followers and Separatists High

(United Press Despatch.)

Speyer, Rhenish Prusia, Jan. 10.—Feeling between Germans loyal to the Reich Government and Separatists is high here today as troops patrol the streets to prevent possible outbreaks, following the assasination of Herr Heintz, so-called "president of the Autonomous State of the Palatinate."

## MAN SWALLOWED BY ALLIGATOR, BUT BODY RECOVERED

(United Press Despatch)

Sydney, Australia, Jan. 10.—An alligator seized and swallowed a man named League while he was bathing in Five-mile Creek, near Cardwell, North of Queensland. The party searched the banks, found the monster and shot it. They dragged the alligator ashore and cut it open, recovering League's body.

# CHARGED WITH HAVING DRUG

## Trial of Local Youth Continues at Police Court Today

Holding that the onus being upon the Crown to prove beyond a reasonable shadow of a doubt that accused was guilty, and finding that they had not done so, Magistrate Masson dismissed the case against the young drug clerk charged with being in possession of a narcotic drug on January 2nd, contrary to the Narcotic and Drug Act 1923. The case was dismissed at 3.35 p.m. this afternoon. Leo Riddell, Special Agent for the Narcotic Squad of the R.C.M.P. testified that accused brought the drug to the Quinte Hotel for him on that night. Accused swore positively that he did not, but that it was on the table when he arrived, and in order to get it into accused's possesion told him to pocket it for fear a bell boy should walk in and see it. When accused pocketed it he was arrested by the other two detectives who entered the room by signal from their confederate. It was a straight denial and it was up to the Crown to co-orborate which they failed to do.

Court adjourned at 12.30 noon to-day and was resumed at 2.30 p.m. the case of interest being the trial of a local drug clerk charged with being in the possession of a drug under the Narcotic and Drug act 1923. Accused was arrested on January 2nd.

On the stand this morning, Detective Paul Miller of the R.C.M.P. narcotic squad, told of the Department at Ottawa having received a complaint from Belleville stating that accused was trafficking in drugs. Immediately afterwards, witness, together with Detective Alfred Grignon and special agent Leo. Riddell known in this city by the alias D. H. Fuller, came to Belleville where Fuller engaged room 70 at Hotel Quinte. Miller and Gragnon arrived on January 2nd at 7.45 p.m.

Tells of Arrest.

Witness then told of the arrest of accused youth in the hotel in his room, although all four had first been in Fuller's room just previously. After warning accused, the charge was laid, and the tin can which contained the brown powder was duly taken to the Dominion analyist at Ottawa where it was analyzed. The tin contained opium powder according to the analysis, there being 1-5 ounce.

Milelr acts as counsel also, and when Detective Gragnon took the stand he was examined by Miller. Grignon told of the arrest of accused and of grabbing accused's hand which was in his outside coat pocket and clasped about the tin. The officers feared that accused would toss the tin into the nearby cuspidor when his suspicions were aroused.

Council's Objection.

In cross examination, E. J. Butler, counsel for accused stressed the fact that from the time the tin (which has a very loose lid or top) was seized by the officers until it was personally returned to Grignon by the analyist and later handed to Miller, there had been no seal over the top, and it would have been possible to interfere with the tin without anyone knowing of it. Magistrate Masson also believes that the Narcotic Drug act should be at least as particular as the Pure Food Act restrictions which insist upon the seal check.

## MANY LOADS WOOD ON LOCAL MARKET

The first real wood market of the winter occurred this morning when some loads were offered for sale, although the buyers rather chose to quote prices rather than purchase.

One load of short soft wood with which a small quantity of hard wood was mixed, was held at $10 for the load of one and an eighth cords. Dry hard maple split and ready for the stove, sold at $8 a load of three-quarters of a cord.

Three loads of hard wood, 4-foot cord wood sold at $10 per load, there apparently being quite a demand for hard wood.

Excellent quality clover hay brought $12 per ton.

## ENGLISH PHEASANTS PARISH IN CANADIAN BLIZZARDS

St. Catharines, Jan. 9.—The English pheasants in Niagara district are having a hard time keeping alive now with so much snow on the ground, which cuts off their food supply numbers of birds perished in the recent blizzard. Many farmers are feeding the pheasants grain; otherwise they would starve to death. It is suggested that the Government might provide rookeries for the birds in winter, where food could also be provided.

# 7 MORE BIRTHS 7 LESS DEATHS IN PAST YEAR

## Total Deaths for 1923 Were 218, Against 225 For 1922

## BIRTHS, 362

## Statistics for Marriages Show Increase of 21 Over Last Year

It is a coincidence that the vital statistics of the city for 1923, as prepared by Mr. J. W. Holmes, City Clerk, shows that there was a decrease of seven in the number of deaths as compared with 1922, and and increase of seven births over those of 1922. In 1923 the total number of deaths were 218, as against 225 for 1922. Births in 1923 totalled 362 as compared with 355 for 1922. Marriages in 1923 were increased by 21 over that of 1922, the figures showing that in 1923 there were 163 as compared with 142 for the year 1922. The report which follows indicates that the health conditions in the city for 1923 were improved over those of 1922.

# LOCAL EXHIBITORS ARE PRIZE WINNERS

## R. Zufelt of Sidney awarded Cup For Four Best Birds Exhibited

Judges at the Belleville Poultry Exhibition were busily engaged yesterday and a portion of to-day in making award for the special prizes offered for fowls displayed. In addition to forty-three prizes offered by merchants and others in the city. Col. E. D. O'Flynn, President of the Belleville Poultry Association donated $25 in cash for the best birds exhibited of $2 and $1 prize money.

Some of the special prize winners were as follows:

Cup Prizes

Cup, valued $25.00, donated by Walker Hardware Co., Belleville, for best collection of Rhode Island Reds. Points to count. To be won three times—Won by Jas. Nokes, of Baw.

Cup valued $35.00, donated by Western Flour Mills Co., for best Cock, Hen, Cockerel and Pullet of any one variety. To be won three times.—Won by R. Zufelt of Sidney.

Col. O'Flynn's Prizes

Best male bird, heavy, $2.00—W. H. Covier, Belleville.

Best male bird, light, $2.00—R. Zufelt, Sidney.

Best male Bantan, $2.00—T. Batterell & Son, Bowmanville.

Best female bird, heavy, $2.00—W. K. Kerr, Belleville.

White Crested Black Polish, best pair, $1.00—C. Saunders, Belleville.

Best pair Emden Geese, $1.00—J. W. Jamieson, Colborne.

Best Pair Tulouse Geese, $1.00—Dr. Alyea, Colbourne.

Best pair Bronze Turkeys, $1.00—T. Batterell & Son, Bowmanville.

Best pair Pyle Game Bantams, $1—C. Saunders, Belleville.

Police-Sergt. J. M. Truiasch won first prize for male bird in Rose Comb Red variety, and second prize for the best pen of birds shown.

# $10,000 GRANT TO AID DR. COLLIP IN INSULIN RESEARCH

## Carnegie Corporation makes Gift to University of Alberta to Promote Undertaking

## ASSISTANT NAMED

## Dr. Collip is Former Belleville Boy, Well-Known for Work with Dr. Banting

Edmonton, Jan. 10.—Officials of the University of Alberta have announced that a gift of $10,000 has been received from the Carnegie Corporation of New York, to assist Prof. J. Collip to carry on his investigations of insulin, of which he is one of the co-discoverers. Dr. O. H. Gabler, Ph. D., of the University of Toronto, has been appointed research assistant, and is already at work in the insulin laboratory.

Dr. Collip will be remembered as a former Belleville boy who gained considerable prominence as an assistant of Dr. Banting in his researches which resulted in the discovery of insulin.

# Fire Destroys Stock In Store

## Considerable Damage Sustained to Front Street Building

Members of the local fire brigade were at 2.40 this morning aroused from their peaceful slumbers by an alarm of fire. A blaze was discovered in a store on the west side of Front Street occupied by Mr. Benjamin Sopher, whose stock consisted of new and second-hand goods. When the brigade arrived upon the scene the interior of the store was a mass of flames and it proved to be a rather stubborn fight, but the flames were confined to the building in which they originated. Much damage was sustained to the building, the exterior of which is cement and the stock was virtually destroyed. Mr. Sopher estimates his loss as upwards of $4,000 with insurance of less than half the amount.

The building which is located just north of the Belvedire Hotel and in front of the Fruit Machinery premises is owned by Mr. R. J. Graham. The loss sustained to the building is covered by insurance. The heat was so intense as to break the plate glass windows, also the plate glass in the front door. How the fire originated is not known but may possibly have been from the stove which was used to heat the building.

The fire brigade under the direction of Chief W. J. Brown did good work after their arrival upon the scene.

## ANTI-MUSSOLINI MOVE LAUNCHED

(United Press Despatch.)

Rome, Jan. 10.—First move to oppose the power of Mussolini and the Fascisti Party has been begun in Italy. It is a practically futile attempt however, due to the Italian Electoral System under which Mussolini can be overthrown by his own party.

## FIVE ARE ARRESTED ON O.T.A. CHARGES

Inspector F. Naphan and Provincial Constable N Maker arrested five men in Thurlow township last night on charges under the O.T.A. and to-day all are in custody awaiting trial by Magistrate Masson. Lorne Wilder, Bruce Richardson, Jack and Edward Titterson are all charged with drinking liquor in a public place, and the fifth man Arthur Lawrence may be charged with selling liquor.

The arrests are the result of an alleged drinking party just outside the city on Saturday last and also on December 22nd, 1923.

## FIRE APPARATUS SKIDS INTO CANAL

Albany, N.Y., Jan. 10.—Eight firemen answering an alarm in Waterford were hurled into a canal when their apparatus skidded on an icy pavement and plunged into the waterways The firemen escaped with slight injuries.

## The Canadian Bible Society

In 1804 the British and Foreign Bible Society was organized in London, England. In the same year that Society published their first translation, being a Mohawk-English version of St. John. Work for Europeans was begun in Nova Scotia in 1807. Auxiliaries were first Society is a federation of all the Auxiliaries, sixteen in number, in Canada and Newfoundland. It was formed in 1904 and for many years N. W. Hoyles, Esq., C., LL.D., was president. Last year A. M. Denovan, Esq., B.A., was appointed president.

The General Secretary is the Rev. W. B. Cooper, D.D., sent out by the British and Foreign and under him in the various provinces are District Secretaries.

Finances are raised by the various Auxiliaries, and after all local expenses are paid the balance is sent in to the parent Society in London, Eng., to help in the world work of spreading the Scriptures in the various languages now translated. Up to date, the Parent Society has published over 330,000,000 copies of Scriptures in over 560 tongues.

We feel sure that many of the readers will be interested and possibly astounded to learn that in Canada the Scriptures have been distributed in over Toronto last year they were sold in forty-nine. One of the most important forms in which the Scriptures are handled in this country is what is known as the 'Diglot". In this form we have a Gospel printed in English and some other language side by side. This serves as a text-book for many of our newcomers and proves a great help, in some cases the only help, to learn the English tongue.

One of the important features of Canadian Bible Society work is the meeting of incoming people with at least a portion of the Word, each in his own tongue. At St. John and Quebec in the East and Vancouver in the West this is done. Add to this the work of Colportage carried on throughout the Provinces and one will see the wide-reaching influence will follow this short one featuring phases of Bible Society work in different parts of the world.

## Plumber is Decapitated When Tank Explodes

St. Catharines, Ont., Jan. 10.—John Humphries, a local plumber, met instant death here yesterday afternoon as a result of a peculiar explosion in a tank which he was installing in an oil-burning heating system at the home of Dr. Colgan, Chestnut Street. One end of the tank was blown out, striking the unfortunate man and decapitating him.

# CHEAPER GAS FOR CITY PREDICTED

## Mayor Bennett Explains Improvement Will Not Increase General Tax Rate

Better gas, and no doubt cheaper gas, in the no distant future will be the result of the introduction of the Tulley system of making this lighting and heating product at the city gas plant. It is the only plant of its kind in Canada.

In the early part of September of last year, Mr. T. W. Tulley, of Newark-on-the-Trent, Nottingham England a member of the Tulley Company, noted gas apparatus manufacturers has been in this city installing this plant and his labors are about completed.

Yesterday afternoon, Mayor Bennett, acompanied by some of the Aldermen and city officials visited the plant and His Worship had the honor of turning a valve which released the gas from the new retort where it is generated from. Some of the old plant will be used as an auxiliary plant in case of necessity.

Mayor Bennett stated that the estimate made at the proposed expenditure was a conservative one and it had been kept well within the estimate. Not a cent will be the increase in the tax rate generally on account of the improvement made. In a few years the debt of $36,000 to $39,000 will have been wiped off the slate and the quality of gas provided will be much better. To the 1923 Council, His Worship said, was due the credit of making these improvements at the gas plant, in addition to the improvements at the pump house.

Mr. Tully in explaining the new system, said it would be an easy plant to maintain and no doubt the city would be saved a considerable sum by its instalation. The old plant was obsolete. There would be no tar, no coke or any other residue from the new plant. Every pound of coal utilized will be converted into gas. With the old system 8 to 9 gallons of tar was procured from a few tons of coal consumed With the installation of the new plant much of the old plant would be removed from the building. The capacity of the Tully plant is about double of the old plant and it does not by any means require much space.

A great saving can also be effected in labor. In eight hour shifts one or at most two men can do what it now takes at least three men to do and more gas will be produced.

From a ton of coal, 5,000 cubic feet of gas and more can be produced by the new system.

Those who viewed the plant and watched its operation were convinced that it is in every respect up to date and will no doubt do all it is represented to do.

**Daily Intelligencer.**

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Entered and published every afternoon except Sundays and holidays for The Intelligencer Printing and Publishing House Limited, in the City of Belleville, County of Hastings, Province of Ontario, at their office, 22 Front Street.

The Daily Intelligencer has a larger circulation than any other paper published in Hastings or Prince Edward Counties. Sworn circulation statement furnished on request.

## TARIFF REDUCTIONS

Tariff policies have become traditions in Canadian politics. In early days they were a fundamental principle of the Conservative and Liberal parties. A quarter of a century ago the positions of the two parties on the tariff question were fairly clear-cut. Since the obtrusion of the reciprocity issue, however, there has been considerable confusion in the matter of tariff policies. The Conservative party has stood foursquare for protection but the Liberal party course has been inconsistent. No tangible Liberal policies have been advanced in connection with trade regulations and the party's post-war tariff program has been noticeably "wabbly".

It is common property in political circles that Mackenzie King originally planned to co-operate thoroughly with the Western Progressives and, in fact, King accepted the tariff planks of the Progressives without reservations. The Quebec Liberal contingent under the leadership of Sir Lomer Gouin, interrupted the new Premier's plans and the result was a vacillating attitude toward trade problems which has seriously hampered Canada's commercial development.

Virtual elimination of Sir Lomer and Hon. W. S. Fielding, Minister of Finance, from the cabinet has reduced the King Government to a position tantamount to that of 1921. It appears probable that Hon. T. A. Crerar, erstwhile Progressive leader, and perhaps Premier Dunning of Saskatchewan will be offered portfolios. This move will mean resurrection of the radical tariff platform of the Western Progressive group. It has been intimated that Dunning will support Crerar in his demand for drastic reductions in tariff schedules; a fifty per cent. cut in tariffs on farm machinery must be exacted if he is to make his position tenable, as the "Moses" of the Western farmers.

Premier King will accept the terms and welcome Crerar and Dunning into the cabinet, but there is still the Quebec faction to be considered. This group is no longer as formidable as before Gouin's retirement, but the friction which existed then may yet become so intensified as to cause a hopeless impasse within the administration. Quebec ministers demand a cabinet representation of seven and are not disposed to become parties to any compromise arrangements.

The situation is an extremely delicate one for Premier King. Because of Crerar's precarious position as a Progressive leader, the reward in the event he casts his lot with the Progressives may not compensate him for further disaffection in Liberal ranks which would surely be the result of such a move.

It is evident that the protean policies of the King administration have induced an anomalous situation which now threatens to develop into a stalemate of disastrous proportions.

## EDITORIAL NOTES

Proper disposition of the reward for capturing "Red" Ryan must now be made. Whoever receives the reward will undoubtedly deserve it.

—o—

Trial of the Home Bank case will be delayed until April. The indicted officials would undoubtely be willing to have the case delayed until April, 1934.

—o—

Now that the excitement in Mexico has subsided temporarily, China, India and the Phillipines continue to sustain the interest.

—o—

Hon. J. S. Martin, minister of agriculture, and the "Wyandotte King" of Canada, has furnished an excellent example to Canadian poultry fanciers by the honors he has captured below the border, at exhibitions.

—o—

Ramsay Macdonald apparently believes in being prepared for emergencies. He has a tentative cabinet practically complete and is evidently all ready to carry on, in the event Labor assumes control in Britain.

## PRESS OPINIONS

### LABOR'S LITTLE GAME.

(London Morning Post)

Under the existing franchise, when three parties take the field, it is pure chance if any one of them is returned with a substantial majority over the others. The socialists, recognizing that fact, quite logically desire to restore the two-party system, upon which that majestic unwritten code, the British Constitution, is based.

If there are to be only two parties, then the socialists intend to be one of the two; and as there must be a second party, they prefer the Conservatives before the Liberals. Moreover, the socialists cannot coalesce with the Conservatives, and dare not combine with the Liberals.

The alternative is plain. The socialists propose either to reduce the Liberal party to a negligible quantity, or to force the Liberals to become one with the Conservatives.

• • •

### HAVE SEEN THE WORST.

(Providence Journal)

An analysis of conditions show that the situation in most of the countries of Europe is measurably brighter today than it has been since the war ended. There is reason to believe that a majority of the continental countries have seen the worst of an unprecedented economic upheaval. Conditions afford hope that, if entire recovery is still far distant, the process of dissolution has been arrested.

• • •

(Flint Journal)

You perhaps can recall to mind some friends or acquaintances who deviated from the narrow path. They have undergone some penalty of misfortune as the reaction to contempt for the spiritual code. Some of them died comparatively young; some started out in favorable circumstances, notwithstanding their breaches, but flourished only a short time, and then went down to levels which seemed to be lower than their real selves; others who appeared to thrive, by marked countenances or eccentric habits of deportment gave the impression of secret unhappiness.

One writer claims that next to criminologists, moralists are more familiar with the operation of this equalizing law than others. They learn it from the confidences which are whispered or moaned to them, from the anguish and misery which they see. The wisest among them try to warn the erring from the danger, not alone by depicting the beauties of ideals; but also and principally by appealing to selfishness by describing the pains and sorrows of retribution.

### PROMISING OUTLOOK.

(Montreal Le Canada)

We can look to the future with confidence and composure since Canada is a young and immensely rich country, which has just been blessed with an excellent harvest, which rejoices in a satisfactory financial situation, and which, thanks to an industrious people can undertake with success the development of its innumerable natural resources.

• • •

### BLISSFUL IGNORANCE.

(London Morning Post)

The Labor Party have never yet taken the trouble to understand what Capital is, or what service it renders to the community. As they regard it as an evil and an expolitation, it is logical that they should see no harm in draining it away from the trade it finances and the industries of which it is the driving force. That capital is to the industrial and commercial machinery exactly what steam or oil or electrical power is to an engine would seem to be a simple enough proposition, yet it is plainly beyond the power of the intelligentsia of the Labor Party to understand it.

Canvasser—"Can I see the lady of the house?"

Mrs. Wilks—"Yes you can."

Canvasser—"Well, madam, I am selling a can-opener which cannot be beaten. It opens any can that can be opened by a can-opener, and any can can be opened by this can-opener that can be opened by any can-opener. If you can show me a can, I can—"

But the door had shut.

## By The Side Of The Road

### WISDOM.

King Solomon, the story goes, had many, many wives—
He married them in bargain lots of twos and threes and fives;
He lavished costly gems on them and fed them spices sweet,
And showered priceless violets, with singing, at their feet.

The story says that Solomon was wise beyond his age—
A match for all designing maids or ladies in a rage;
He kept a perfect, even keel upon the Nuptial Sea,
And that was going some, my friend you grab it straight from me.

The story says he built a house—a most magnolious place—
And not a woman interefered or dared to show her face,
Or ordered changes in the stairs, the linen chests or shelves—
(The married men who've built a house will have to pinch themselves.)
The story says that Solomon got softening of the bean,
And write a bunch of lyrics that would shame our Laura eJan;
Nor did he hide, the burning lines as you or I would do,
But published them and not a wife asked wro the lines were to!

The story says—but why go on to publish and revamp
The wonder things that filled the life of this pinch-hitting champ?
The story tells the bigger things that made his biggest hits,
But when it comes to smaller things, why, there th estory quits.

The Home Precepts of Solomon do scarce apply to me—
I've but a single wife against his nineteen sixty-three;
I long to get the simple truths about this famous guy,
And learn how he explained it when his envelope was shy.

—JOHN D. WELLS.

### CERTAINLY.

Several complaints as to the high cost of tickets for the performance of Sir Harry Lauder and in his company here by President Scott of the Rotary Club. Complainants assume that the company appeared under the auspices of the Rotary Club. They did not. But then most of us would have been willing to pay even more to hear Sir Harry.

## Wonderful Help For Lloyd Foley

Kingston Junction Man Finds Dreco The Ideal Tonic and Corrective,—Gains Five Pounds and Feels Better in Every Way.

Mr. Lloyd Foley, of Kingston Junction, Ont., is another who has learned that good health is simply a matter of keeping the digestive organs fit and active. Dreco is the safest, surest way to accomplish this result as thousands have discovered to their lasting benefit. Mr. Foley tells how this grand remedy acted in his case.

"For a number of years I had suffered from stomach and kidney trouble," says Mr. Foley. "Everything I ate would form a gas on my stomach that felt like a lump of lead. I was subject to terrible dizzy spells and spots would float before my eyes so that I would have to hold on to something to keep from falling. My kidneys were out of order and I would get pains across the small of my back. My appetite was very poor too and I was troubled so badly with constipation that I had to take a laxative every night.

"I tried a lot of different medicines, but nothing did me any good till I started taking Dreco. This splendid medicine surely has put me right in shape. I have taken four bottles only, but feel like a new man. I can eat anything I want now and never have any trouble with my stomach. My appetite is great; my kidneys are in fine shape and I am no longer troubled with dizzy spells or floating spots. My bowels are regular every day. In fact, so great is my all around relief that I gladly recommend Dreco to all who suffer as I did."

Dreco's action is simple and natural because it is made from the purest extracts of Nature's own herbs, roots, bark and leaves. These medicinal juices cleanse the stomach, liver, bowels and kidneys and induce them to healthy action. Dreco contains no mercury, potash or habit forming drugs.

DRECO IS BEING SPECIALLY INTRODUCED IN BELLEVILLE BY THE BELLEVILLE PHARMACY. IT IS ALSO SOLD IN STIRLING BY J. S. MORTON, AND BY A GOOD DRUGGIST EVERYWHERE.

## Music & Drama

### GREAT STORM SCENE IN GRIFFITH PICTURE

Most Wonderful Climax in "One Exciting Night," Producer's New Mystery Photoplay.

"We certainly did play 'rough' in the storm scenes," said Carol Dempster ruefully discussing the much talked of climax to D. W. Griffith's new picture, "One Exciting Night," a United Artists release at Griffin Theatre to-night, Friday and Saturday.

"With a 90-mile gale to fight against and a drenching rain driving in our faces we could scarcely even breathe in the most violent scenes. Spiked shoes, such as baseball players wear, helped to keep us from slipping."

The storm scene is the greatest thing of its kind ever put on the screen. Eleven weeks were occupied in making it and as many as 500 men were used at one time in constructing the mechanical properties. Stout old trees crash to the ground, young saplings are bent almost in two, houses are torn apart and borne up in the high wind, while over all play weird flashes of lightning.

"A funny thing happened to Porter Strong when we were making this scene," continued Miss Dempster. "You know he plays Romeo Washington, the Negro boy, who comes back to the haunted house to stay with his lady-love, the maid. After things got too bad in the house for even a gentleman with a borrowed war medal, Romeo chose the storm. Porter wears big floppy shoes and did not reckon with the furies Mr. Griffith had called up. He got out of the house all right but came to grief in the mud at the bottom of the steps. While he tried to scramble to his feet again a particularly strong gust of wind came along and off went Porter's shoe. This was not included in the scenario and so the look of amazement on poor Romeo's face is the real thing."

### BACK TO THE SCREEN.

Madge Kennedy Seen in Picture, "The Purple Highway"

Madge Kennedy, stage and screen favorite, is facing the camera again for the first time in more than two years. After her temporary retirement from the screen she starred on the stage in "Twin Beds," "Fair and Warmer" and "Cornered." The Paramount picture, "The Purple Highway," which is the feature at the Regent theatre to-day Fri-Sat. is Miss Kennedy's first motion picture vehicle since that time.

It is believed that this production will prove a revelation to audiences who have seen Miss Kennedy in her recent stage attractions in which she appeared as a comedienne. In this picture the star is given an opportunity for emotional acting which has previously never fallen to her lot on stage or screen. But at the same time, there are many bright spots of humor of the sort that Miss Kennedy is known to interpret so well.

## A Noted Family

This is believed to be the first photo ever made of Otto H. Kahn, the banker, and three members of his family. It was snapped on Fifth Avenue, New York. Photo shows: Gilbert W., Margaret D. and Otto H. Kahn.

## That Body of Yours

By James W. Barton, M.D.

### A SIMPLE LESSON.

There was an interesting article in the paper the other day regarding a new industry in Holland.

Some experimentor had discovered that by use of heat and pressure he could transform soft wood into hard wood.

The fibre in the wood which enclosed the air and water spaces, were thus brought closer together making a beautiful grain, just like hardwood.

I could not help but think that the very same processes, heat and pressure, so exactly what is used to make hard firm muscle out of soft fat flesh in the human body.

And so a well developed man will show the same beautiful grain—muscle—as is shown in the wood. Both are objects of strength and beauty. Now what do I mean by heat and pressure as applied to the body?

Well the actual heating up of the body uses up the little fat globules, fat cover, and are in around the muscles, and the muscles emerge in its natural form—fibres.

This heating up can be done by the extreme heat of a Turkish bath and more efficient method of exercise.

When you exercise, the first thing you notice is the increase in the heat of the body.

But exercise goes further. It actually supplies the pressure to that part of your body robed in fat and squeezes the little fat globules out of existence.

I have known many cases where the simple exercise of lying on the back and raising both legs slowly—knees straight—to a height almost at right angles to the body a dozen times, twice a day, has reduced the waist line two to three inches in one month.

Where the exercise is kept up for some weeks the hard abdominal muscles underneath can be felt by the hand, and in a few months the actual muscles themselves will show through the skin.

These muscles show up as three distinct ridges across the abdomen, and resemble the corrugations on a wash board.

This same squeezing or exercising of any part of the body will give the same results.

Simply bending or squeezing the forearm, or upper arm will take the fat off the arms.

Sitting down on the heels and rising again, will remove the surplus fat from the thighs.

Bending, twisting, or squeezing the neck will remove double chins.

It is all very simple and will bring results every time.

Will you do it?

## Real Estaters To Discuss Better Living Conditions At A Conference

Augusta, Ga., Jan. 9. (United Press).—Better living conditions will be a major subject considered by the will attend the meeting to discuss Association of Real Estate Boards which opens a three-day session here Jan. 17.

Representatives of 450 real estate boards of United States and Canada will attend the meeting to discuss clarification of real estate values; rental conditions, real estate utilization, city building and rebuilding and real estate and general taxation.

The session will be the principal gathering of real estate men of the country to be held this year for the formulation of policies.

L. F. Eppich of Denver, president of the association, will present to the meeting the program for the association as recommended by the directors. This program includes gathering a comprehensive body of real estate data and principles, developing real estate education and advancing real estate developmet through state and national legislation.

Directors and officers of the association, forming the advisory board will hold sessions Jan. 16 and Jan. 20 preceding the sessions of the national committee.

The subject of taxation will be presented to the meeting by Charles T. Moffet of Minneapolis, chairman of the taxation committee, which has made an extensive study of the question. He is expected to recommend support of the Mellon tax plan in congress.

A series of advertisements for use in newspapers has been worked out by a committee headed by Ogden A. Confer of Minneapolis and will be submitted.

Frank Ryan of Los Angeles, E. W. Chaille of Indianapolis, L. L. Oeland of Madison Wis., Batholomew O'Toole of Chicago; William E. Shannon of Washington, D. C.; H. R. Brigham, of Boston, B. R. Hastings of Omaha and J. L. Weaver of Washington are others who will offer reports.

The teacher had been impressing upon her pupils the dire fate of Tyre and Sidon; after which she inaugurated a cross-examination.

"What became of Sidon?" she asked Bobby Barns.

"It was destroyed," answered Bobby.

"And what became of Tyre?"

Bobby hesitated, and then replied, decisively, "Punctured, miss."

Fire Bargain Hunter—"It's had to find exactly what you want."

Second Bargain Hunter—"Yes, especially when you don't know what it is."

### OCTOGENARIAN VOTES

Mr. Samuel Anderson, aged 84 years, father of Mr. F. S. Anderson, coal merchant of this city, on Monday journeyed to Hillier Township, Prince Edward County, to record his vote for Reeve and Councillors. All the candidates for whom Mr. Anderson voted were successful.

### U. S. TEACHER AWARDED
### 50,000 FRANCS IN SUIT

Paris, Jan. 10.—To Miss Lillian Eggleston, a teacher of Elizabeth, N. J., was awarded 50,000 francs by the Tribunal of Commerce in her suit against the owner of an automobile that knocked her down in the Place de la Concorde last July.

This amount, which the French courts usually award only in case of death, was allowed the plaintiff because her face was scarred by the accident.

### Collar Sores.

The best way to relieve the pressure while working the horse is to remove the stuffing from the collar side of a pad, over the sore, leaving the shoulder side smooth. Paint the sore with dilute iodine after removing the collar, first bathing off sweat and dirt. Dust sore with talcum powder before harnessing. Whenever possible, lay off the horse a few days when trying to heal sore shoulders as it will hasten matters.

### Teeth Tell Age of Sheep.

A lamb has eight small first-teeth on the lower jaw. When the animal reaches the age of about one year, the middle pair are replaced by two permanent teeth; at the age of about two, the teeth on either side of these permanent teeth, are also replaced by a permanent pair; at the age of three, the next tooth on either side gives way to a permanent tooth; and at about the age of four, the last or back teeth are replaced in like manner.

## INSTITUTE NEW BELLEVILLE LODGE

Last evening in the True Blue hall Front Street, a new lodge was opened in connection with the Daughters and Maids of England and Benevolent Society Grand President Sister Farrants of Toonto, Bro. Wm. Miller and Grand Treasurer Bro. F. Revall, of Hamilton, and Sister Johnston of Toronto officiated in the opening ceremonies and thirty-five Charter Members were initiated into Lodge Pride of Belleville, No. 87. The Grand Officers addressed the Lodge briefly, giving high appreciation to those who had been instrumental in getting together such a fine number of members who, it is to be hoped will work for the interest of the Society and for the welfare of all those concerned.

The results of the election of officers was as follows:

W. Pres. Sister Follwell, W. V. Pres Sister Savage, Secretary, Bro. W. J. Savage, Treasurer Sister M. E. Stapley, Chaplain Sister M. Robinson, 1st Guide Sister E. Pulker, 2nd Guide Sister Belsey, 3rd Guide Sister A. Stapley, 4th Guide Sister Buckley, Ins. Guard Sister Rainbird, Outside Guard Bro. W. H. Buckley, Physician Dr. G. S. Cronk Auditors Bro. H. A. Pulker, Bro. E. J. Follwell, Sister Looker, Trustees Sister Carter, Bro. E. Stapley.

The newly-elected officers in a few well-chosen words thanked the members for placing them in the position a officers of the new Lodge and all intimated their willingness to endeavor to make Lodge Pride of Belleville No. 87 one of the biggest and finest Lodges in our Dominion. The evening was brought to a close by singing the National Anthem.

## Missionary Work Is World Wide

### As an adjunct to the Church to Open up Path to Commerce

"All the World and its Peoples," was the subject spoken to at Bridge Street Church last evening by Rev. W. S. MacTavish, D.D., in connection with the week of prayer meetings. Rev. F. E. Malott, Pastor presided and assisted in the service as did also Rev. H. B. Kenny, Rev. Geo. Marshall, Rev. N. S. McKechnie, Rev. Dr. E. N. Baker and Rev. Dr. A. Brown. Rev. Dr. MacTavish in his address referred to the duplex value of the missionary society with other church work. Countries the world over are now open to missionaries. As David Livingstone the noted African explorer and missionary said, "I go back to Africa to open up a path for commerce christianity. After that path had been opened up by Livingstone, George Grenfell another missionary sailed up the Congo river in the first steamboat that ever penetrated that territory. To-day the trade of the Congo amounts to $ 0,000annually.

Missionary work and the goo dthat wasbeing accomplished by the missionaries was referred to by Dr. MacTavish.

## OBITUARY

### MRS. SARAH TAYLOR

The death occurred on Tuesday evening at the hospital here of Mrs. Sarah Taylor wife of the late Mr. James McD. Taylor of this city. Deceased was born in England, 69 years ago and had resided in Belleville 41 years. She was a member of St. Thomas Church. Some years ago her hus-
Auckland, New Zealand, Jan. 10.—
band predeceased her. Mrs. J. C. Palmer residing on Burnham Street, city is a daughter of deceased and Mr. Frank Colley living in Victoria B. C. is a brother.

### MRS. PETER DELONG

Mrs. Peter Delong who had been but a short time a resident of the city passed away yesterday at her late home. 16 Murney Street. In 1862 Mrs. Delong was born in Ameliasburg Township and for some time resided at Foxboro. She was a member of the Methodist Church. Besides her husband, one son, Ross Delong, of Oshawa, and three daughters, Mrs. C. Brown and Miss Hazel Sager of Trenton, survive.

### JOHN YOUNG

Under the auspices of the Sons of England of which Society deceased was a member the funeral of the late Mr. John Young took place Wednesday afternoon. At the family residence 65 College street, Rev. N. S. McKechnie, pastor of the Baptist church conducted service and officiated at the interment at Belleville cemetery. Rev. Bro. A. L. Geen and Bro. H. A. Pulker conducted the committal service for the Society. Bearers were Sons of England, namely Bros. Capt. Ruston, W. J. Savage, W. Hamer, Thos. Hallam, R. G. H. Barlow and H. A. Pulker.

### MARGARET JANE SPENCER

An aged resident of the city in the person of Mrs. Margaret Jane Spencer passed away this morning at the residence of her daughter, Mrs. T. McKim, 27 Grier Street. Deceased was in her 85th year and was born in this country. She was the daughter of the late Mr. and Mrs. Wm. Thompson, of Thurlow. For many years Mrs. Spencer had been a member of the Methodist hurch. A family of three sons and four daughters survive. The sons are Almon in Alberta, Wm. A., of Beleville, and A. F., of Oshawa. The daughters are Mrs. Thos. McKim, city; Mrs. J. L. Nicholson, of Thurlow; Mrs. Allen Moynes, of P. E. County, and Mrs. Robt. Currie, of Toronto. The body will be taken to Moira, Huntingdon Township for interment.

Vancouver—The mild winter weather has served to stimulate interest in the north and it is predicted here that ships plying northward in the spring will carry many soldiers of fortune bound for the Eldorado of the northland.

THE BEEHIVE
CHAS. N. SULMAN

A new maid was being engaged.

"Can you be left to run the whole house in case of need " asked the prospective employer of the applicant

'Oh, yes, mum!' was the reply. "I'm used to that!"

'And another thing,' continued the mistress. 'the maid I have must be very economical!'

'Oh, I'm very much that way, mum! My last mistress discharged me for that very reason, mum!"

'What!' asked the lady, in astonishment. "Discharged you for being economical?'

"Yes, mum," answered the applicant, who, by the way, was not engaged this time. "I used to wear her clothes to save mine!'

### REDNERSVILLE

Mr. and Mrs. M. Giles of Centre, were the guest of Mr. of Mrs. G. McMurter on Friday.

Mr. and Mrs. Elyah Brickman visited Mrs Peter Delong at Belleville who is seriously ill.

Miss Lillian Russell spent a few days last week with relatives in Thurlow.

BARGAINS IN EVERY DEPARTMENT

**Wet feet — sickness**
**Dry feet — health**

WET or damp feet are the cause of most winter ills. Frequently through wet and damp feet health is undermined and the disease is developed which will cause years of suffering.

School nurses and other health authorities say that warm, dry feet are necessary to robust health as well as comfort, and that rubbers are the best protection in snow and slush.

Active, scuffling, heedless little feet of boys and girls give rubber footwear its hardest test. All DOMINION brand rubber footwear is made with the wear quality and durability to withstand the hardest kind of wear and tear—to protect the feet and health of children and grownups.

Because of their splendid wearing quality DOMINION brand rubbers are the most economical to buy.

**Wear Dominion Rubbers**

They are not Dominion Brand unless they carry this trade-mark

# WHAT'S WRONG WITH BOXING GAME?

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 9. (United Press).—When a major league umpire makes a decision on a play that may decide the game against the home team, the customers do not have the park murmuring: "We'll have the law on this game. It ought to be stopped."

Demonstrations have been made against football referees who allowed questionable plays that decided big games, but no public demand was made that the sport be ruled off the field.

Even high-brow tennis fans have been known to make undignified protests against the decision of a judge on the court but human errors of judgment have never been upheld as a sufficient cause to stop the game.

When a boxing referee or set of judges make an error of judgment, even though it manifestly was an honest mistake, the cry invariably goes up: "Boxing should be ruled out of business. It isn't on the level."

Such a turmoil as raised in New York recently after two judges had rendered a verdict that Johnny Dundee outpointed Jack Bernstein in a contest for the junior lightweight champion that general alarm spread and fear was expressed that the sport would be punched in the nose at Albany.

There wasn't even an intimation that the two judges did not give an honest opinion and there were three qualified newspapers critics who backed up the judges in expressing the opinion that Dundee had won.

In comparing boxing with other sports, it would seem that the biggest handicap boxing has to carry comes from the mob that follows and supports boxing.

Bernstein, who was really the only one entitled to a legitimate protest, didn't say a word beyond a mild and gentlemanly worded statement: "I thought I won."

The two-dollar bettors and the sure-thing pikers, who like to be pointed out as gamblers in the set where a gambler has some rating, were responsible for the cry raised that boxing should be stopped.

As long as the spokesmen for boxing consist almost exclusively of such riff-raff, boxing always will be in trouble. As long as boxing is looked upon by that element only as afield for the employment of betting, it cannot endure because its fickle friends and supporters always will be the first to turn on it and use the knife when they do not find it respecting the wisdom of their judgment in placing bets.

• • •

Baseball has a high-class following, the interest of which is inspired by a love of the game. If baseball depended upon a lot of shallow minds and had to be supported by a pack of cheap sports and bad losers, the game never would have survived the crisis of 1919.

Football thrives on the patronage of the finest type of citizenship that can be found in the nation. Football is supported by the same class that follows tennis and polo and by the best of what might be regarded as the middle class.

The type of athlete that can be found on the football field and the type of citizen that gets hoarse rooting along the sidelines are a safeguard against any of the dangers that some of the alarmists feel that football faces.

Disregarding all the evidence that can be drawn up against it, boxing must be classed as a sport and as such it is the least respected of all the means and methods of getting exercise and providing entertainment.

It is constantly being asked: "What is the matter with boxing?"

One trouble with boxing is that the factor of sport, as the term is applied to general athletics, has been reduced to a minimum. The boxers, their managers and promoters are responsible for this. Boxing has become a business and sportsmanship has no argument against the dollar.

Another contributing cause to boxing's lack of health can be found, as said above, in the mob that does all the shouting.

Go to a boxing bout and look over the birds who are making all the noise. Give a careful "once over" to the customer who is razzing the boxers, insulting the referee and bothering all the spectators near him. Listen to the comments as you are leaving the arena. Pick out the ones who howl boisterously that it was a rotten show, that the decision was terrible and that boxing should be stopped. Compare them to the fans who sat quietly in their chairs, applauded boxers who were trying their best and expressed the opinion that they thought the other fellow had won, but the judges were in a better position to see.

If you are in a comparatively small city you know the ones who shout, howl and rave about the show and you know the regulars who go to be entertained and enjoy themselves and who keep quiet when they are not satisfied.

Whenever you want to know what is wrong with boxing, you will find the solution in the loud-mouths.

It is unfortunate that those loud-mouths can make so much noise and it is the grief of boxing that those squalkers are allowed to be accepted as the jury of the sport.

# Slide of the Mark Set New Records

By GUS M. OEHM
(United Press Staff Corespondent)

CHAPTER II

Berlin (By mail to United Press).—Starting in 1919, the German mark began its ever-continuing slide into nothingness—on through the years until to-day it has reached an apparently stable level at 4,200,000,000,000 marks to the dollar.

The mark was arbitrarily halted at thois point by stopping the presses. It makes reckoning comparatively simple. One so-called gold mark—on whose basis all prices are calculated in Germany now—is worth exactly one trillion (1,000,000,000,000) marks in paper.

An odd feeling comes over one as he hands the bus conductor one of the new mark) and gets back a fistful of paper marks totaling eight hundred billions of paper marks in change. The carfare is either twenty gold or renten pfenuigs or 200,000,000,000 paper marks.

### Many Kinds of Money.

The other numerous interchanges of stable moneys such as schatz money, Prussian emergency dollars, etc., involve even more mysterious and confusing calculations. If the government hadn't halted the mark slide at exactly 1,000,000,000,000 to the gold mark, it is questionable if the people could have ever made change at all. It's bad enough as it is.

On January 1, 1919, the German mark was officially quoted at 7.95 to the dollar. The par value during normal times had always been approximately 4.20 marks to the dollar. So that by the end of 1918 the German money had not yet fallen 100 per cent. To-day it has reached a value-lessness of one-trillionth its peacetime worth.

Statistics for 1919 show that on the first of each month the mark had slid just a little on its way to nothingness. On February 1st it had jumped down to 8.57. The average value in February, 1919, was 9.13 as compared with 8.20 in January. The quotation on December 31, 1919, was 48.43—a drop of more than 40 during the year.

Between Jan. 1 and Dec. 31, 1920, the story was much the same—from 48.20 to 73.37. From Jan. 1 to Dec. 31, 1921, it dropped from 74.50 to 184 to the dollar. In 1922 it started the toboggan which carried it far beyond redemption—from Jan. 1 at 186.75 it crashed to 7,350.

### The Final Slide.

But even in January, 1923, when, following the occupation of the Ruhr and as a result of other contributing factors, the mark sank rapidly from day to day, nobody in Germany ever dreamed it would overtake and pass the Austrian crown. Shortly after the French occupied further German territory, the mark crashed to 49,000 to the dollar. On Jan. 1, before the occupation, it was only 7,260. On Jan. 31 it was 49,000. But through artificial means the mark was forced up so that on Feb. 1 it averaged only 27,190 for the month. In April it started slipping again as the government found itself unable to furnish more stable foreign money for stabilizing purposes.

The April average was 24,457, May 47,670, June 109,996, July 348,819, August 4,620,500, Sept. 98,800,000,000, Oct. 25,538,000,000, Nov. 2,193,600,000,000 with 4,200,000,000,000 the daily quotation all through December.

In a short time most of the paper money will be replaced by rentenmarks and these in turn will be replaced by something else—the German people hope it will be something stable.

(END CHAPTER II.)

# Large Deficit In Chicago Grand Opera; Is Declared Success

Chicago, Jan. 10.—(United Press).—Ordinarily, one would hardly claim success for a business that spends $1.54 for every dollar taken in and that finished the season with a deficit of $350,000. Yet that is the record of the Chicago Civic Opera Company and its sponsors feel they have achieved a success.

The difference between the opera company and the ordinary enterprise is that former subordinates profit to art.

Opera has been struggling for a foothold in Chicago for many years. This is the fourteenth grand opera for Chicago. Up to two years ago Harold P. McCormick and Mrs. Rockefeller McCormick and a small group of backers paid the annual deficits.

McCormick and Mrs. McCormick decided that grand opera would gain a bigger following if more people had a financial interest in the company. So they turned over their holdings to a group of public-spirited Chicagoans and the Chicago Civic Opera Company was formed.

Twenty-two hundred citizens made pledges of from $5 to $1,000 per year for a period of five years to pay the deficit in the cost of operation. Samuel Insull, one of the most successful business men of the state, was selected president. Brig.-Gen. Charles G. Dawes was selected first vice-president, and L. B. Kuppenheimer, second vice-president. Charles L. Hutchinson was made treasurer, and Stanley Field, secretary. They are leading business men and serve without pay.

Other business men serve with the foregoing on the various committees. The opera company is managed on many of the principles of a big business corporation.

Last season the deficit amounted to $350,000, or 70 per cent of the guarantee. The guarantors were assessed and paid promptly. This season the company has approximately 30 per cent more subscribers, or regular patrons. The subscribers are those who buy the same seat or seats for subscription series performances throughout the season.

When the company passed the half-way point of the eleven and one-half week season this year, 41 performances of 26 operas had been given. This is twice as many as are given abroad in any one season.

The managers are trying to reduce the cost of grand opera to encourage the less well-to-do to patronize it. A large number of foreign-born, particularly Italians, are in evidence at the performances. Prices range from $1 to $6. Subscription tickets average from 91 cents to $5.36 per seat.

Among the internationally known grand opera stars engaged to sing here are Mary Garden, Amelita Galli-Curci, Rosa Raisa, Caludia Muzio, Edith Mason, Louise Homer, Florence MacBeth, Claire Dux, Graziella Pareto, Feodor Chaliapin, Charles Marshall, Fernand Ansseau, Charles Hackett, Alfred Piccaver, Giulio Crimi, Georges Baklanoff, Alexander Kipnis, Tito Schipa, Forrest Lamont and Angelo Minghetti. Giorgio Polacco, famous musical director, is conductor, and knows 200 operas by heart.

**Salts Fine For Aching Kidneys**

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juices, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, this helping to relieve bladder disorders.

[illegible] delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.

# The Letter Box

## WITH LONG LIFE WILL I HONOR HIM

Mr. Editor:

This is my seventieth birthday. I am apparently as healthy as at fifty. I contracted life insurance this year with a better examination than I did then. Fifty-two years ago I came to Belleville. I came as a servant and have given steady service ever since. I have centred all my interests in this place, fought a good fight but not finished yet.

Since Belleville became a city there has been a steady loyal endeavor on the part of all councils to make a bigger Belleville. Building the railways running north from here was supposed to be the maximum effort. Instead of benefitting at that [illegible] they landed the city in debt, and diverted trade. Many a heartache followed as our best young men departed this city for a chance in life elsewhere.

Men are in their graves who gave their best life to lift this city upwards when the lumbering days were over. Let us praise instead of depreciating their memory.

From lumber we went to grain, from grain to railways, from railways to dairy products—probably our best hope.

Railways have not induced factories as supposed. They have made easy access to larger places; and their doubtful claim to trading privileges.

I have faith in Belleville. It is founded on the principle that growth makes growth, that capital makes money. Since 1870 there has been a steady flow of Belleville money into outside enterprises. If this can be stopped and invested at home something beneficial will have been accomplished.

If not much bigger during these fifty years there are many things better about Belleville. In former days we had an aristocracy, then came democracy, now we have diplomacy, every man wanting to act for and advise his neighbor.

We are thankful for the private citizen that has improved the stores and homes of Belleville. And the public official that has improved the schools, colleges and hospitals.

Level heads, true hearts and patience will bring the accomplishment of our desires.

Yours very truly,

J. E. Walmsley.

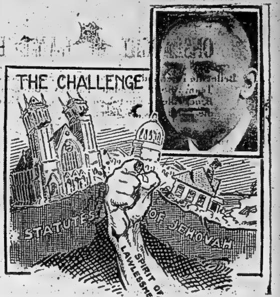
# CARTOONING PASTOR "DRAWS" SOULS TO SALVATION

Once was newspaperman who abandoned calling to work for God; used pictures to illustrate Sermons.



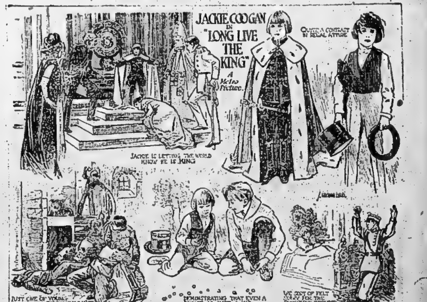
Rev. Ernest J. Pace (Above) and a specimen of one of his Cartoon Sermonettes.

Canton, O., Jan. 9.—Rev. Ernest J. Pace here literally is drawing souls to salvation. Folks hereabouts call him the "cartooning minister."

Once a newspaperman, Rev. Pace abandoned journalism to work for God. But his old training as an artist on publications in Chicago and other cities continues to stand him in good stead.

His Sunday sermons are illustrated with magic lantern slides made from cartoons of his own creations. These are thrown on a screen near the pulpit in First United Brethren Church of which he has charge. Bible lessons for little folks in Sunday School are similarly portrayed. "Once I drew pictures of murder scenes and political aspirants in the old day of newspaper work when there were no photographs to handle assignments," he says. "But after meeting a righteous man in Chicago who was living happily in the ways of God, I decided to follow in his footsteps and entered the ministry. "That was in 1899. Since then I have employed my talents for the Master alone. "I am very happy. I would have no other calling."

What is said to be the largest petition ever submitted to Congress is shown here. It contains names of 245,545 persons who want taxes reduced. Representative George P. Darrow, of Pennsylvania made the presentation. Left to right: Speaker Gillette, Representative Darrow, and Charles F. Jenkins, editor of the Farm Journal, who collected the signatures.



JACKIE COOGAN IN "LONG LIVE THE KING" A Metro Picture

## BROCKVILLE BOWS LOW BEFORE ONSLAUGHT OF GAME LOCALS

### Belleville Intermediates Too Strong For Brockville's New Team Built Around Holway Brothers—Outplay Brockville in First Two Periods, and Hold Them in the Third to a 2-1 Score

(By STAFF REPORTER)

Playing an almost superhuman game, Belleville Intermediates defeated Brockville's widely advertised, and much "tooted" all new O.H.A. squad by the close score of 2-1 at the Brockville Arena last night. It was a grand game, in the form of a concentrated surprise packet, Bellevillians, being among the "surprisees."

Belleville notched their first goal after 8 minutes of strenuous play, their second after the second twenty minute go had been two minutes spent, and Brockville tallied their loner after six minutes play which went at a terrific speed in the last chapter of the story.

The game was very fast and strenuously fought from the face off, in which much heavy body checking was featured by both aggregations. Despite the terrific body checking tactics however, the game was not rough, there being but four penalties handed out during the sixty minutes by referee Brouser, who at all times had the game well in hand. Belleville got a pair of the four penalties. The ice was heavy, although it did not become too slushy to prevent the speed. It seriously hindered combination, however and in the first stanza was so rough on the surface that it prevented the successful carrying of the disc. Considerable slugging and much batting was a direct result of ice conditions.

**Hard to Pick 'Em.**

To select the star of the evening's performance on the Quinteville sextette would be like choosing a wife from a Turkish harem. They were there, subs et al, all the way, playing "pretty" and "delivering the goods" right to the front door. Speaking of condition, the locals had that quality by the barrelful, despite the fact that they have had but a half dozen practices and one O.H.A. game since the coronation of Jack Frost. They made the gymnasium trained Brockville outfit look like a procession. and how they did it, the Gods of Allah may explain.

**Nurse a Wonder.**

Stan Nurse, old time wizard of the goal with the Belleville Juniors of yesteryear, played goal, playing one of the most remarkable games and incidentally making one of the greatest come-backs that would be possible During the past eight years, Nurse has never had a goaler's pads on. He skated once during that time, and had five minutes practice at Belleville on Tuesday night for last night's game. Nurse was set to qualify however, and permission for him to play in the Brockville game last night, was received by Manager Ed. Thomas at the Garbutt hotel in Brockville, three hours before the battle began. Nurse certainly turned in a stellar game and his work was one of the few great factors which stood between his team and defeat.

Bill Green and Bill Finkle on the bulwarks, were towers of strength, using their weight with withering effectiveness, and forcing themselves to almost the limit for the team's sake. Green was marked earl and was given a terrible razzing. Bodied down by one player, another would wade into him when he attempted to rise. Finkle also took much punishment.

On the forward line possibly Vern Weir was the brighter star of the five (counting subs.) taking his performance for the sixty minutes. He had speed, stick handled well, checked like a demon, and like Johnny Walker was still going strong when the final gong sounded.

Hagerman also played a whale of a game, improving, and accelerating speed every minute. He scored one of the two goals. Frechette also played a fine game, but was the marked target for some terrific body checking. The rough stuff appeared to tell on Bunny, who eased up slightly as did Green under the mile a minute clip in the last period. "Daw" Whalen and Bill Canning made their 1924 debut last night as subs, and were used considerably. Whalen scored the other goal for the locals, and with Canning played a useful game, though he is away off condition.

**Holways Good.**

Holway brothers, last year's Belleville defence pair now with Brockville opened up with barrels of speed, and stood out prominently. They were ably taken care of however, and in second frame, Big "Bouncer" was so visibly affected by the terrific pace and the rough legitimate punishment which he received that he could scarcely stand up if given the least bump. "Toots" weathered the Belleville cyclone somewhat better, however, and 'Bouncer' made a good come back in the last stanza. They were two of Brockville's best, and with Kinghorn, the speedy, and clever stick handling left wing man, were the stars for the losers.

Brockville showed every indication of being well able to work dangerous combination play had the ice been keen, although the Belleville players believe that they would have won by a wider margin, had the ice been hard and they were enabled to cut loose with their hard ice tactics.

**Play Opens Fast.**

Right from the opening gong, it was clearly shown to the most skeptical fan that the contest would be a "hummer." Apparently depending almost entirely upon the Holways to carry them through to victory, the players handed every opportunity to them and the thousands of fans cried out continuously for the Holways to save the situation. In the dying moments of the last frame, both Holways were called to the boards, and urged to throw their last ounce of energy at the enemy, for Brockville had the Quinte outfit just about where they wanted them when the final bell rang out with its "silver lovliness." Apparently the only pair on the team who Belleville were after were the Holways, so the idea worked out famously. In the early stages of the first twenty minutes the Holway brothers certainly did appear dangerous with their speed, and lone rushes but they were sandwitched from the outset and their usefulness was soon reduced to the minimum. After six minutes of play in the first, Burt and Kinghorn went through with a pretty combination play, Kinghorn snapping one at Nurse who made a really spectacular save. Time and again, Frechette banged the old disc at the enemy citadel from his position on the boards time and again. Some of them went wild but the majority were deflected from Murray's pads. After eight minutes play, however Whalen made a monkey of "Bouncer" Holway for the first tally, when he crept around in front of Brockville net as 'Bouncer' took the puck from behind slowly for a rush, checked him at the corner and poked the rubber in before Murray "wised up" to the idea. Weir was banished, and while off, Kinghorn made a rush which was pretty and appeared dangerous. Thanks to the work of Nurse, however, the shot was cleared. Green drew a trip for a stiff check which he handed out after he had received one just as stiff, and "Bouncer Holway" also drew a penalty before the gong, for a trip.

**The Surprise Tally.**

Before fans had rightly settled themselves in the second frame, Belleville had netted the tally which was to decide the contest and be their last, when Hagerman with a nice clean shot, at short range and from well in front of the net, bulged the twine for number 2. Belleville set the pace and had the edge in this frame, with the opposition throwing in subs every few minutes in a dying effort to break through for a tally. "Bouncer" Holway supplied one of the best rushes of the evening, going from end to end and around the net for a shot. It was futile. Bill Green pulled the prettiest rush of the evening however, in this session when he stick handled through the whole outfit with them on his trail like hornets. He drew out the defence, and had a great shot at goal but Murray saved. Hagerman also supplied a brilliant rush in this frame, and came as close to scoring as possible.

**The Final Effort.**

Brockville used every means to win in the last period, and the pace which they set was faster than anything yet attempted. After six minutes of desperate fighting, Kinghorn with a clean shot which was travelling low, netted their first, last and only tally. The crowd went wild, and from then until the end, Brockville had the edge if there was an edge to the play. Brockville bombarded the Belleville end for a few minutes and it appeared as though the score would be tied. Terrific checking by the locals who threw in subs to keep up the attack, staved them off and the hour glass kept right on moving ahead. With "Toots" Holway serving time, Guest made a beautiful rush and only the wonderful save by Nurse who blocked him, kept the opposition score down to one. This occurred with three minutes yet to go., and from that time on, Belleville stalled them to a fare thee well., drawing threatening wails from the angry fans when they lifted the disc the whole length, just to see it rushed back and the player checked. The period stalled out, and Brockville were vanquished.

A wonderful crowd witnessed the game, it being the first home intermediate O.H.A. game of the season at Brockville.

The line-up:—

Belleville—Gial, S. Nurse, Left Defence, W. Green; Right Defence W. Finkle; Centre, S. Hagerman; Left Wing, C. Frechette; Right Wing, V. Weir. Subs, D. Whalen, W. Canning.

Brockville—Goal, Murray; Left Defence, A. Holway; Right Defence, H. Holway; Centre Guest; Left Wing, Kinghorn; Right Wing, Sheldon Burt Sub. Miller MacLaren. Sub Goaler, Ellis.

Brockville is a fine town. It is a winter resort so to speak. At least it seems so. It is rumored that there is not one member of their Intermediate hockey team who are Brockville boys.

The two Holways are from this city Burt is from Toronto, and it is believed that Murray and Guest are also newcomers.

## MIDGETS BEAT WOLVES, 4-2

### Both Teams Present Good Exhibition of Hockey

A very exciting game of hockey took place last evening in Arnott's ice palace between the "Wolves" and "Canadian National Midgets" resulting in a win for the Midgets by a score 4 to 2. The game was fast throughout. Mr. F. Arnott handled the game to the satisfaction of both teams. For the Midgets Riggs scored twice, and Gerow also scored twice. For the Wolves Jefferies scored them both. The ice was a little soft or the Midgets would have piled up a much larger score.

The line up was as follows.

Midgets—Goal, J. Murray; R. defence, R. Buskard; L. defence, H. Buskard; centre, C. Gerow; R. wing, J. Riggs; L wing M. Matthews; sub., W. Follwell.

Wolves—Goal, Carmicheal; R. defence, F. Miles; L defence P. Townsley; centre, C. Jeffries; R. wing, H Townsend; L wing, M. Wilbur; subs., B. Mills.

## S.S. Basket Ball League Renewed

### Two Interesting Games Are Played at Y.M.C.A. Gymnasium

The Sunday School Basketball League renewed activities last night following the holidays and two games were on the card. The first, a junior fixture was played by the two Bridge St. aggregations, the Voyageurs and the Qui Vive. Voyageurs won out by the score of 30 to 11 but this score is not indicative of the play throughout the game as in the first period the lighter Qui Vive Five if anything had the better of the play but could not stand up under the heavy checking they were subjected to as the game progressed. For the Voyageurs, Ketcheson and Holloway were the whole team and former scored nine of their fifteen baskets.

The line-up:

Voyageurs—Holloway and Ketcheson forwards; Sills, centre; Robertson and Pearsall defence, Wells spare.

Qui Vive—Gilbert and Ridley, forwards, Skinner, centre; Allen and Dalrymple defence, VanTassel and Grills spares.

The second game of the evening was Christ Church vs. Holloway. The former were only able to produce four players when the game was called and although the Holloway Captain had a full team out with spares, he agreed to play four men only. The game throughout was a hard checking affair with a considerable number of infringements on the rules of the rules of the game. However no accidents occurred and no hard feeling resulted. The half time score was 9-3 for Holloway and the full time score 23-11.

The line-up:

Christ Church—Croft, Brown, Symons and Barrlage.

Holloway—Herity, Walters, J. Hibbard, Andrews, Marshall, Wills and Woodley.

Following the Sunday School League games the Intermediate O.A.B.A., team turned out on the floor for a brisk practice. The boys are getting down to regular practice and as a result are rapidly wipping into form. They should be able to make a good showing when the Intermediate series for this district, commences.

## GREEK CABINET NOW COMPLETE

(United Press Despatch.)

Athens, Jan. 10.—Organization of the new cabinet under Premier Rousseos picked as the head of the Government by M. Venizelos was completed today.

## PLAN CITY LEAGUE

At the arena this evening, a meeting is to be held by all those interested in city hockey league. A big attendance is anticipated and a live league is planned for this winter season.

## Germany Now Has Money 'Bootleggers' Confusion Rampant

Berlin, Jan. 10.—The collapse of the dollar in Germany is generally accepted, but how long its low state will remain is uncertain.

**Fall of the Mark.**

At any rate, be it for long or no, it is here. A few weeks ago the dollar was the most sought-for, bought and sold piece of merchandise in Germany With an artificial mark rate instituted and the printing presses still grinding out trillions upon trillions daily, the value of foreign money continued to increase so that when the dollar "officially" reached 4,200,000,000,000 marks, traders on the Black Bourse were obtaining between 7 and 10 trillions. This was in Berlin. In Danzig and Cologne they obtained 38 trillions.

Express passenger trains between Berlin and these points were loaded with so-called money "bootleggers," who bought up the dollars and pounds and what not in Berlin at double the value set by the government and then sold them in Cologne at four times what they paid for them. Then they rushed back to Berlin and sold their marks—at the same time giving the Berlin buyer 100 per cent more than the banks would pay. Naturally prices immediately adjusted themselves and far surpassed the Black Bourse rate.

Banks which had done almost exclusive foreign exchange business, changing checks, money orders, drafts express orders, etc., were deserted. Everybody furnished himself with actual dollar notes, obtained by mail or courier from London or Paris. These the bootleggers bought without question, though they fought shy of ordinary checks.

**The One Question**

When the Black Bourse operated, every hotel, cafe and street corner was a bit of the general illegal stock exchange. Money changing was in the air. Everywhere one went the eternal question was: "What did you get?"

Now the trains to Danzig and Cologne are empty. The printing presses have stopped. Unless one has a good butcher friend who still buys his meats in foreign markets and who must have foreign money every day, one is out of luck as far as getting anything more than the official rate for one's dollar.

The German paper mark at this writing stands 4,200,000,000,000 to the dollar, of course, but the government is buying them up with its new rented-marks, etc. The only question now worrying the German people is how long will the few rentenmarks last and—then what?

Many see a repetition of the mark devaluation process —rentenmarks and their successors plunging from one value today to another tomorrow. Others see the carrying through of a new tax and budget policy which will maintain the new mark and its followers at their printed value. Which set of speculators is right, time will tell. Meantime, the mark has dethroned the dollar and the Black Bourse is no more.

## A Proven Artist

The immigration quota from Rumania has been filled just before Regina Kohn, 38, came to New York City. Officials at Ellis Island were about to send her back. Then she played "Die Traumerei" on her violin, and was admitted as an artist.

TWO CANADIAN CHAMPIONS—Miller, of Sussex, N.B. the Canadian running, high and standing broad jump champion; and Cameron, of Picton, N. S., the Canadian broad jump champion. Miller did 5 feet 11¼ inches in the high jump, while Cameron reached 21 feet 11¼ inches in the board leap at the recent Canadian championships.

## LADY BOWLERS POLL HIGH SCORE

### Excelsior Team Sets a Record in the Ladies' Mid-Winter League

The Ladies Mid-Winter League got away to a start on the alleys yesterday afternoon when the Staff team from the O.S.D. were matched against the Excelsiors. Although the former rolled their usual steady game they were left far behind, being 650 points down at the end of the fray.

By rolling 528 in her three strings Mrs. Goyer established a new alley record for lady bowlers. Mrs. Lee was not very far in the rear with a total of 503 and her 235 was the high single game score. The Excelsiors' Total 2253 is the Alley record for the Ladies for three games.

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

Mrs. W. W. Wilson and family of Desbarats, Ont., who have been spending the Christmas holidays the guests of Mr. and Mrs. S. S. Finkle, are leaving for home on Friday.

Mrs. K. W. Scott, 216 Charles street, was the hostess of a delightful tea yesterday afternoon. Mrs. Gemmill Shaw poured coffee, Mrs. Jamieson Bone cut the ice cream, Miss Bowerman had charge of the tea room. Those serving were Mrs. Harry E. Elvidge, Mrs. Jack Williams, Miss Alice Fargy and Miss Mastin.

Col. E. D. O'Flynn was host to the officials of Belleville Poultry Association and fanciers at his home last evening, where a most enjoyable time was spent. His Honor Judge Oke, of London was speaker of the evening, and gave the poultry fanciers some very valuable advice as to methods of even yet improving upon the annual poultry show here. Col. O'Flynn, who is president of the association is greatly pleased with the results, exhibits and attendance of the show which closes to-night.

Mr. Jack Mason, of 68 Great St. James Street, is confined in the General Hospital suffering from blood poisoning.

W. H. Merry, Manager of the Marchmont Home, gratefully acknowledges Christmas and New Year cheer from the following.

### GIFTS TO HOME.

West Belleville Mission Band, Basket of candies and fruit; Miss Nicholson's Class, Chocolate, fruit and apples; Mrs. Gordon's Class, Baptist Church, Basket of fruit and candies; The Beginner's Class, Baptist S. S., One dollar and ten cents; Mrs. Springer, Mince pies; Green and Co. Joint of Beef; West Belleville Church, 2 dozen oranges; Mrs. Keefer, 3 jars preserved fruit; Mrs. Tarlington, Doughnuts; Rev. G. Marshall, Oranges Jennings and Shetry, Toys; Miss I. Morris, Chocolates; Miss L. Vey, Candies and nuts; Wallbridge and Co., Oranges; Mrs. Harris, Oranges; Mr. S. Whiley, Nuts.

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."—Mrs. J. R. McMahon, 153 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

## That Body of Yours

By James W. Barton, M.D.

### PAIN IN THE CHEST.

You feel a sudden sharp pain in the side ,and as you take a long breath the pain increases.

If it be near the heart you jump to the conclusion that something is wrong with your heart.

Perhaps you have heard that if you feel pain on the side with each breath ,that it meant pleurisy.

Now what is likely the matter?

Of course their are twenty different things that might cause the pain, from actual pleurisy and heart disease, to cancer or tuberculosis, nevertheless in the majority of cases it is a very simple ailment. You see you are not sick and have no temperature, so the trouble can't be serious.

The most frequent cause of pain is just a little inflammation in the muscle due to cold or some light infection from intestine or elsewhere.

Physicians have been hurriedly called to cases of supposed heart disease or pleurisy, only to find this simple muscular pain, which is often called muscular rheumatism.

I'm not trying to make light of it as far as the pain is concerned because it is very often severe, but there is absolutely no danger whatever.

Some people have only to sit in a draught to develop this pain. A man will often get out on the road to fix a tire. There is the natural heat of the exercise, and as he drives away he attempts to make up a little time.

This sudden cooling of the body after violent effort will bring on the pain.

And the treatment?

Tre old family treatment of hot water bags, mustard plasters, and other forms of heat is really the simplest and most effective.

Where there is any slight infection in the body from teeth, tonsils, or intestines, the removal of the cause is your first consideration. So when you get the pain in the side, try and take a day or two off and get heat and massage to the part.

Sometimes where one is careless and allows the pain to continue without getting after it, the attacks will last some time and become more frequent.

Remember, it is not serious, but it can be very painful and cause much inconvenience.

Pain Gone! Rub Sore, Rheumatic Aching Joints

Stop "dosing" rheumatism.

It's pain only. St. Jacobs Oil will stop any pain, and not one rheumatism case in fifty requires internal treatment Rub soothing, penetrating St. Jacobs Oil right on the tender spot, and by the time you say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial battle of old-time, honest St. Jacobs Oil from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

## Women Already Planning Hats For The Springtime

By HELEN ROSS
(Written for the United Press)

New York, Jan. 9, (United Press) —Becoming things have a way of remaining in fashion long after the hour has struck for them to pass on.

Witness the cloche. The little head-fitting hats that smart women have been wearing since early Fall are still the hats most in favor.

The only variation in sight for spring is a smaller cloche than ever —a cloche with the rim knocked off so to speak, or disguised with a small rolling brim.

Small turbans, with dangling metal trimmings, and the tri-corn hat—which inevitably followed the trend toward directoire frocks—are making a strong bid to transplant the cloche however.

• • •

Hideous fashions, likewise, seldom remain "in" for any length of time, any more. The style that is merely finding its tenure of life growing shorter and shorter.

One happy instance of this I witnessed on Fifth Avenue in the early stripes, in violent brown and yellows filled the streets a short time ago. Every third woman in New York, looked like a sack of meal or an overfed "potato bug."

Now you hardly see one. The horrid things vanished as by a conspiracy for their suppression, in which even the Weather Man, dealing out balmy summer days, joined.

• • •

For all that, fashion has been pointing back to the directoire, what with gored flounces and drapes and one thing and another, women just will not return to fussy flouncy styles.

Paris' ruling for 1924 is severe simplicity. American women have already taken it up.

Simple, three-pieced tailored suits made of summer fabrics, as plainly cut as if for boarding school miss or a business girl, are being worn now at all the resorts in the South.

Long, brilliant scarfs brighten the costume.

## Lady Diana Won!

Lady Diana Manners and Princess Matchibelli were engaged to alternate as "Madonna" in "The Miracle." To decide which would play the part opening night the two stars drew lots. And Lady Diana (left) won.

Son—Dad, why is a horse the most curious feeder in the world? Dad—Don't know. Why is it? Son—He eats best when he has not a 'bit' in his mouth!

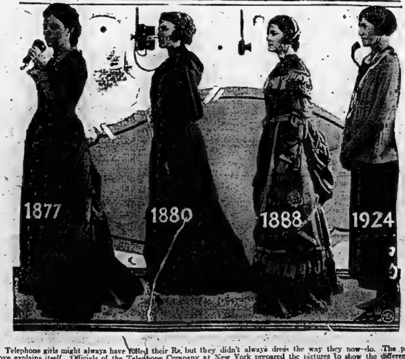
### QUALIFIED.

(Boston Transcript)

Professor—If a person in good health, but who imagined himself sick, should send for you, what would you do?

Medical Student—Give him something to make him sick and then administer antidote.

Professor—Don't waste any more time here. Hang out your shingle.



Telephone girls might always have rolled their Rs, but they didn't always dress the way they now do. The picture above explains itself. Officials of the Telephone Company at New York prepared the pictures to show the difference in styles between 1877 and 1924.

## THE PARSON O'DUMFORD

"Didst put a bit more waxey band round her Billy?"

"Ay, lads, and she's got a new reed."

"Don't split parson's ears, Billy."

"Hey, here's Tommy Johnson and Johnny Buffam. Tak care lads."

"Where's the brass?" shouted somebody.

"Hey," cried another, "stop 'em—big goons ain't allowed i' the pooblic street."

The two musicians hugged the French horn and ophecleide to their sides, and tried to smile.

"Don't 'em blow paarson's brains out wi' that thing, Johnny Buffam."

"Dost a make a dead rise wi' it, Tommy lad?" cried another.

"Soy, Tammy," said another, "keep thee fist tight i' the bell; or thee'll do some un a mischief."

The appearance of Robinson, the landlord, and his wife, in gorgeous array, saved the brass instrument players from further banter, for the landlord had to be cheered. Then came Church-Warden Buititude, with, close behind Jessie and John Maine and this party had to be cheered.

"Say church-warden, why don't y give parson a job for them two?" shouted some one; and, with scarlet checks, poor Jessie hurried into the church, where her eyes met Jonn Maine's with no disfavor.

"Wheer's Tom Podmore? Why don't he bring his lass?" shouted a workman.

But neither Daisy, Tom nor Banks in an appearance; and the crowd were on the lookout for some one else to banter, when the vicar appeared, to be received with deafening cheers, the men pressing forward to shake hands as he went slowly up the path.

"Say, mum, paarson looks straange and wankle," said one.

"Ay, but he is pasty-faced, he's been wucking too hard."

"Wucking?" said another, "why he's nowt to do."

"Nowt to do lad! why he does as much i' one week as thou dost i' a month."

"Say," said another, "I'm getting strang and hungry."

"Theer'll be plenty to yeat, by and by," said another. "Hey, here's owd Ransome and Tomson, the man as neither liked gristle or swarth, but was very fond o' pig's feet."

"It warn't he, but the servant gell as they had. Say, owd Ransome, has' got a new gell yet?"

"What weer it about t'owd one?" said another.

"Why they most pined her to dead."

"Hey, I thought they lived well theer."

"She towd my missus that she should leave, for she had beef and mutton and pigeon-pie till she was sick to dead on 'em."

"Poor lass! said another. "That weer her as see owd Ransome's wife makking the pie."

"Hey, and what weer that?"

"Ah," she says, "Sugarmum and buttermum, it'll be a straange dear pie, mum."

"Here's Dicky Glaire!" now was shouted, and plenty of cheers arose but the men talked critically about his personal appearance as he got out of the carriage and went up the path with a supercilious smile upon his face.

"He's another pasty-faced 'un." said one of the chief speakers. "Dick isn't half the man his father were."

"Hearken to owd Mother Cakebread said one of the men; "she says she'd sooner marry tawn's poump."

"Here's owd Satan comin' to chutch cried a voice, as Primgeon, the lawyer, a tall, smooth-faced, sallow man got out of the next carriage, but they cheered him well, and the guests in the next two carriages, when the cry arose:

Here's the missus!"

"Gi'e the owd gell a good un lads Hats off."

"Three cheers for the doctor."

"Gie's a ride i' the chay, doctor."

"Hooray."

The cheers were hearty enough, as Purley handed out Mrs. Glaire and the bride and began to move slowly up the path, for the excitement was such that the crowd pressed forward upon them in the midst of the deafening cries, while a faint flush came upon Eve Pelly's face, as she raised her eyes, and the icy look upon her face passed off, thawed by the sunshine of the warm greetings.

"God bless you, Miss Eve—hooray for Miss Eve!"

"Hurray," shouted one of the leaders of the strike. "May all her bairns be gells."

"Like their moother," shouted another.

"Hooray, lads! Gi'e her another out your showthers into it."

A look from his mother brought him a little more to his senses, and he went to and kissed Eve, to find her lips like fire, while her hands were like ice, and at last he sat there feverish and impatient.

"I want it over," he said, angrily to Mrs. Glaire. "I hate being made such an exhibition of. Will the carriages never come?"

An end was put to his impatience by the arrival of the first, in which he took his departure with his best man, his appearance being the signal for a volley of cheers.

Mrs. Glaire went last, in the same carriage with Mr. Purley, the doctor, and Eve, the stout old fellow trying to keep up the bride's spirits by jokes of his ordinary caliber, the principal one being that he hoped the carriage would not break down under his weight, a witticism at which he laughed heartily, as he responded with bows and hand-waving to the cheers of the people who lined the High Street of the little town.

Everything looked bright and gay the sun shone brilliantly; ropes laden with streamers were stretched across the street, while flags hung here and there, where satisfactory places could be found; and in front of the Bull, a party of the workmen had arranged a little battery of rough cast guns, sufficiently strong and large to give a good report when loaded with powder the landlord having arranged to have a red-hot poker ready for discharging the pieces as soon as the wedding was over.

### CHAPTER LVI.

### "Wilt Thou—?"

The old troubles of the strike were over and forgotten, and the town's intent on this day was to give itself up to feasting, with its ordinary accompaniment of more drink than was good for those who partook.

Down by the church-yard the crowd had long secured to itself the best positions, the favorite places for viewing the coming and departing of the bridal party being the church-yard wall and the two railed tombs; but the boys put up with tombstones and hurrahed till they were hoarse.

Jacky Budd got the first cheer, as he went up solemnly to the church door, evidently feeling his own importance, but he was checked halfway along the path by someone saying in a quiet remonstrating tone—

"Say, Jacky, wean't yow stop an' hev a drain?"

He looked sharply round, and his hand went to his mouth, while a roar of laughter rose up from the merry crowd, and hastened his steps into the porch.

Trappy Pape was the next to be joked as he came up hugging the green baize bag containing his violincello.

"Say, Trappy, hast thee fed thee beast?" said one.

"Hast giv' the poor owd fiddle its possum?" cried another.

"Trappy lad," shouted another, "does ta sleep inside that owd thing?"

The violincello player hurried into the church, and Joey South came into view, to the great delight of the crowd.

"Here comes owd Poll Pry," cried one.

"Look at his owd umbrella," cried another.

"Why don't ta put th' umbrella up?" cried another voice, "it's going to wean next week."

Here there was another roar of laughter.

"Look at his leather breeches."

"Say, Joey, wast ta sewed in them when they weer made?"

"Ay, lad, they weer made on him i' the year one, and niver been off since."

"Mind you goon don't go off," cried one of the chief jokers, as the boy came by gearing Joey's bassoon.

"Is sho loaded, Joey?"

"Ay, lad, he rams her full wi' kitchen poker," cried another.

Joey South escaped into the porch grinning angrily, for a fresh minstrel appeared in the shape of "Owd Billy Stocks" with his clarionet.

"Hey lads, here's owd Billy. How's the clarinet, Billy?"

(to be continued)

"I reckon I'm the unluckiest individual under the sun," remarked a clerk with a gloomy countenance, to his nearest neighbour.

"What's the trouble now?"

"I got two medical certificates from two different doctors yesterday," explained the gloomy one. "One was a certificate of good health for a life insurance company, and the other was a certificate of illness to be sent to the chief with a petition for two weeks' holiday."

"Oh that's nothing!" replied his fellow clerk. "I've done that myself."

"Yes," continued the other; "but I put the certificates in the wrong envelopes. The ill-health one went to the life insurance company and the certificate of good health went to the chief."

Over a Million People trade with us each week

MOST of them are women—thrifty housewives who "set a good table" but buy where they get the most for their money.

They trade at Dominion Stores.

Here in these stores, each a part of the greatest retail grocery organization in Canada, they shop—and save. Many are wives of poor men. Others are well-to-do. Yet, one and all, they are guided by a sturdy sense of thrift.

If you, too, would save on your grocery bill, shop at a Dominion Store, as these women do. The same high standard quality, the same goods, the same nationally known brands as elsewhere, but the price tag tells the story of Dominion Stores' economies and savings.

Three Hundred Stores! "There's One Near *You!*"

And whichever one you shop at—you'll save money.

FOR EXAMPLE, FRIDAY and SATURDAY:—

| | | |
|---|---|---|
| Thompson's Seedless Raisins | 2 lbs. | 25c |

### GEORGE BERNARD SHOWS AN EVENT

By ALICE ROHE.

(Written for the United Press)

New York, (United Press).—When a George Bernard Shaw drama is presented for the first time on any stage and in any country it is naturally an event of unusual interest. But when this drama is known to be a Shavian satire with Joan of Arc as the inspiration, interest mounts toward the sensational. This is what the Theatre Guild has achieved in presenting "Saint Joan."

That Bernard Shaw would find ample scope for satirical comment in the subject of the Maid who was condemned by the church burned by the secular powers, then canonized and sainted four hundred years later, was a foregone conclusion. But as to just how he would develop his favorite pastime throwing light on hypocrisy and bigotry was the sustaining interest.

In the Chronicle play as it is called there are moments of great beauty, of moving pathos, of deep emotion. One's soul weeps at the trial of this helpless girl of great faith—caught in the machinery of the church in heresy baiting with her unwavering belief in God and her God—sent voices.

The central figure is one of universal appeal. Shaw's scathing satire and bitter irony against bigotry and autocracy cannot fail to get a response from theatre audiences. There is the basis of a great play. And yet interesting as the play is, it is at times so discursive as to verge on boredom. With generous pruning of dialogue and long speeches "Saint Joan" would be a shavian creation of power.

The scenic production which the Theatre Guild has given the play is of great beauty and effectiveness. The "chronicle" is in four acts and an epilogue. In the last Shaw has opportunity for a characteristic gibe. All the spirits connected with her trial return and all offer obeisance. Then comes a messenger from Rome to announce that the maid has been canonized—sainted. But when she asks if they would like her back again, each one makes an excuse—all except the rude soldier who had offered the two bits of wood as a cross when she was dying.

The play abounds, of course, in keen lines. "Must Christ perish in every generation to save those who have no imagination?" demands a character.

"Oh do your best for her if you are quite sure it will not avail," says Warwick to the bishop.

England as usual comes in for caustic comment.

"How can what an Englishman believes be heresy?" asks the Chaplain.

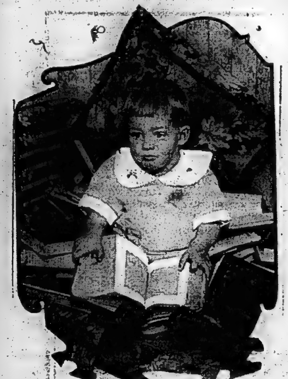
And again, 'We were not fairly beaten—no Englishman is ever fairly beaten.'"

While the production is up to the theatre Guild's finest standards, the choice of "Winifred Lenithan is unfortunate. She is not heavy enough physically or histrionically for the soldier maid of Domremy.

## HOW DOES THE HIPPO GO?

### ASK HAROLD, INFANT PRODIGY, HE KNOWS

## INTO THE WATER, SMARTY



HAROLD LEVIN, 21-MONTH-OLD PRODIGY

By Josephine Van de Grift
NEA Service Staff Writer

NEW York, Jan. 10.—Although he's only 21 months old, Baby Harold Levin, most recent infant prodigy, possesses both poetry and a sense of humor.

As a witness this following conversation which took place in Harold's home up in the Bronx.

"Where's the moon, baby?" we queried putting on the benevolent smile which always assume toward youngsters.

"In the sky," said Harold, "but", he added, "moon's asleep."

Then Harold looked out on the street where a dull drizzle was coming down. "Sun's asleep, too," he offered.

So much for the poetry.

"How does the cow go, baby?" we queried, having heard that that was what one always said to children.

"Moo-moo," said Harold obediently.

"And the kitty?"

"Meow," said Harold.

"And the doggie?"

"Woof-woof," said Harold.

"Well, then," we said grandly—"how does the hippopotamus go?"

Harold gave signs of being bored.

"In the water," he said shortly and started to rip out pages of the Encyclopedia Brittanica.

Books have always been a passion with Harold and it was from them, the pictures variety, that he learned the 73 or so different animals and birds that established him as an infant prodigy.

"I can't remember when he started to talk," said his mother. "He never would let us talk baby talk to him. If we ever used any baby words to him he'd always answer the other way around."

Harold can count and add numbers together up to the sum of nine.

Harold's father, a mail carrier with a love of books, is taking charge of his son's education.

## WINTER SCHOOL OPENS MONDAY

### Third Annual Session District School to be Held at Cobourg

Cobourg, Jan. 10.—Monday Jan. 14, 1924 is the opening day of the Bay of Quinte Winter School, which holds its third annual session in the Cobourg Methodist Church beginning on the above date. A large delegation of young people is looked for. At least two hundred are expected, and judging by the success which has attended the efforts put forth by the executive for the past two sessions we believe the above to be a very conservative estimate. And Cobourg eagerly awaits their arrival to welcome them to her most hospitable homes. Plans and preparations are completed for the carrying thro' of a very comprehensive program, beginning on Monday evening at eight o'clock and closing with the covenant service the following Sunday evening.

Specialists Secured.

Those interested in the matter of securing training for leadership in the various lines of Christian work should take advantage of the opportunities offered in this school. It is well, further, to bear in mind that the leaders whose services have been secured for this school are specialists in their various lines. Just take a look over this list:—

Rev. W. Harold Young, M.A.B.D., Peterboro; Rev. Prof. S. F. Maine, M.A.B.D. Albert College, Belleville; Rev. Manson Doyle, B.A., Assistant Secretary of Young Peoples Work for the Methodist Church of Canada; Mr Taylor Statten and Miss Mary Allison Boys' and Girls' Work Secretaries for Ontario. Add to this list the names of Miss Jessie B. Tuite, of Albert College and Rev. J. T. Woodie Stafford, D.D., of Toronto together with the officers of the Conference Young Peoples League and you will be convinced that what is offered to you in this school is something you can ill afford to miss.

### PETLURA'S MEN DIE.

Moscow, Jan. 10.—Six followers of Petlura, chief of the band charged with engineering pogroms in the Ukraine in 1919-20 have been sentenced to death after trial at Zhitomir.

A number of others were sentenced to prison.

The bandit Peraluk confessed on the stand to leading the massacre, in the village of Chernikow, in which scores were murdered, maimed or assaulted.

Goitre

Dorland's dictionary tells us that Goitre is a great enlargement of the Thyroid gland but does not tell us what causes this enlargement. If you have a Goitre, you should consult a Chiropractor and he will tell you why you have this abnormal condition, and locate the cause of it and by a few Chiropractic adjustments remove this cause and Nature will remove the Goitre

Chiropractic proves its statements by results.

Consult—

### JUDICIAL SALE

Under and by virtue of two judgements dated the 31st day of March, 1923, and order consolidating the same and made in an action in the Supreme Court of Ontario of Bogie vs. Finnegan, there will be sold by Public Auction with the approbation of the Local Master of this Court at Belleville at his Chambers in the Court House in the City of Belleville on Monday the 7th day of January, 1924, the following valuable city properties:

PARCEL NO. 1. The north half of lot no. 23 on the west side of Foster Avenue in the said City of Belleville in the County of Hastings.

PARCEL NO. 2 The north half of lot no. 16 on the east side of Chatham Street in the said City of Belleville.

PARCEL NO. 3 The south 36 feet 6 inches of the north 51 feet of lot no. 21 on the west side of Foster Avenue in the said City of Belleville particularly described by metes and bounds in the mortgage made by the Defendants to the Plaintiff on the 28th day of October, 1919, and registered in the Registry Office for the County of Hastings on the 30th day of October, 1919.

Upon parcel no. 1 is erected a two-storey brick and frame dwelling house with all modern improvements.

Upon parcel no. 2 is erected a one and a half storey frame house with all modern improvements.

Upon parcel no. 3 is erected a two storey brick dwelling house with all the modern improvements and a frame garage.

The property will be sold subject to a reserve bid fixed by the master.

TERMS OF SALE Ten per cent. down and the balance within one month thereafter without interest.

In all other respects the terms and conditions of sale will be the standing conditions of sale of the said Court.

For further particulars apply at the Law Offices of Donnan and Macaulay, and Porter Butler and Payne.

Dated at Belleville the 29th day of November, 1923.

Donnan and Macaulay, Plaintiff's solicitor.

S. S. LAZIER,
Master

W. Morley Ogilvie, mining engineer, has returned from Labrador, where he was sent by the Labrador Goldfields Limited, to ascertain what prospects there were of finding gold in the leases sold by this company.

Mr. Ogilvie says that he found no gold. There is no gold as far as he can ascertain in the district. In a report to the company he states that the assumption of the geological department as to the probable action of glaciers at Stag Bay was not sustained by his investigations.

Mr J. Lambert Payne, the vice-president of the company, says:

"This is to me a bitter disappointment. I believed in the thing, and, to the extent that I influenced some of my personal friends, I feel humiliated and discredited. This simply means, however, that I was deceived along with many others, and I am a loser as well as they.

"I have but one consolation. In all our advertising, we presented the proposition as an absolute gamble. No one could have been misled into the belief they were taking up a sure thing."

### Wanted

EARN UPWARDS OF $25 WEEKLY, GROWING mushrooms for us. Experience unnecessary, but frost proof cellar essential. Material for beds easily obtainable all Winter. Illustrated booklet and particulars for stamp. Canada Mushroom Co., Dept. 60, Garden Ave., Toronto. J10-s-4

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

### DENIED NEW TRIAL

Halifax, N. S., Jan. 10.—James B. MacLachlan, deposed secretary of the United Mine Workers of America, district 26, has been denied a new trial by the Supreme Court of Nova Scotia, and will be required to serve the sentence of two years in Dorchester Penitentiary, passed upon him following his conviction in October last on the charge of having published a seditious libel.

The offence took place at the becoal strike in the latter part of June, which occasioned the sending to Cape Breton Island about 1500 militia.

FANNING WITH FARRELL

# M'AULIFFE TALKS OF DEMPSEY'S FUTURE

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 9 (United Press).—Since Jack Dempsey took a smacking from Luis Firpo that almost knocked him out, Jack McAuliffe is wondering if the heavyweight champion will be the same reckless, dashing, chance-taking fighter that he was before the fight with the South American.

Up to the time he elected to swap punches with one of the most dangerous hitters hitters of all times, Dempsey's most valuable asset was his conviction that the was invincible and that he couldn't even be knocked off his feet.

Dempsey had such a narrow escape in finding out that he was not punch-proof that the veteran retired light weight champion is not alone in having the hunch that the heavyweight champion may have lost some of that valuable confidence in himself.

As far as the factor of confidence itself is concerned, the theory might be advanced that Dempsey, after his experience with Firpo, should have more faith in himself than ever before. He found out that he could "take it" from the hardest right-hand hitter in the business, and that should not reduce his reliance.

"My idea," McAuliffe says, "is not that Dempsey will be less courageous in the future, but that he will be more cautious. Certainly, caution has been no part of the champion's makeup and, in fact, it was apparent indifference toward danger in the ring that made him the great fighter he is.

"Next to man, I have always felt that a thoroughbred horse is the most human thing in existence. The horse and the athlete have several faculties in common that can be picked out when we study them a little.

"On the track you can find the front runner; the horse goes well when he is in the lead and then falters when he is challenged. We can find the same type among human athletes, runners and boxers. We have the game, stout-hearted animal that takes a delight in coming from behind and winning on a heart more than anything else, and there are athletes of the same type.

"To get down to my point about Dempsey and the possible effect that the Firpo fight might have had on him, I want to use the horse again for a simile.

"Several years ago there was a corking jumper at the Brighton track named James McGowan, as I recall it. In one race he got a bad fall at one of the jumps, and he was never any good after that at that track. He always refused that jump when he came to it in later races. He was game, but he had developed what might be referred to as a mental hazard at that spot where he had been hurt.

"Another example of the same kind can be found in another thoroughbred named Barnum, who stepped in a hole on the far turn at the same Brighton track and went down. Ever after that he went wide around that identical spot and all the pull in the world could not get him near it.

"Those two examples, of course, were the result of instinct, but with fighters, instinct plays a most important and vital part. Dempsey, I feel sure, was knocked dizzy by the first punch of Firpo and he put up one of the greatest fights of all times on instinct alone.

"I had an experience of the same kind, way back in 1886. I was fighting Jack Hopper at the New York Athletic Club and I ran into a right-hand punch early in the first round, just as Dempsey did. It landed high on my cheek-bone, and I fought for four rounds completely bewildered. I did not remember a thing from the start of the fight until I was ready to go out for the fifth round.

"The important point I wish to make is that, ever after that, I was very cautious about a right-hand punch. I found myself time after time pulling away when I saw a right hand starting. I tried to correct it, but I simply could not control the impulse to flinch. It became so serious with me at one time that I questioned my own gameness, and it was not until after the Gilmore fight that I became sure of myself.

"I wonder if the same thing will happen to Dempsey. Admitting that the personal factor is seldom the same in any two cases, I still can't see how Dempsey can avoid being cautious and if he does start to watch even a little, his efficiency will be reduced in a very important degree."

* * *

McAuliffe is not one of the admirers of Dempsey who have advanced the theory that the champion went out with the deliberate intention of proving how good he was by throwing aside all science that he might have had to beat Firpo at his own game.

"Dempsey is no fool," McAuliffe said, "and anyone who would take any such a chance with a million dollars at stake would be worse than a fool. Dempsey fought the way he did because his mind was put out of commission by a punch and his instinct kept the machinery going.

"If Dempsey ever gets knocked groggy with a punch, the latent fear of a right-hand punch will assert itself and he is liable to get his ears knocked off with a left hand."

If Ruptured
Try This Free

Apply It to Any Rupture, Old or Recent, Large or Small, and You are on the Road That Has Convinced Thousands

Sent Free to Prove This

Anybody ruptured, man, woman or child, should write at once to W. S. Rice, 501-c Main St., Adams, N.Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance. Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Free for Rupture
W. S. Rice, Inc.,
501-c Main St., Adams, N. Y.
You may send me entirely free a Sample Treatment of your stimulating application for Rupture.

## Sufferings

Continued from page one.

United Empire Loyalists. By a decree the Loyalists became known as United Empire Loyalists. How differences which arose between neighbors were settled was explained by the speaker. The courts in those days were conducted something like our county and municipal councils are to-day conducted.

Settle in Hastings

Some Loyalists settled in Hastings County and they endured great hardships often suffering from hunger. The Loyalists brought scanty furniture with them, many had none, but ingeniously was furniture made. In order to secure flour it was necessary to hollow out a large stump and pound the wheat into flour by aid of a stone. Bread was baked in a tin reflector and meat roasted upon a stick with a pan beneath to catch the drippings. Light for the home was first pine knots and latter tallow dips which were flexible and held in position by a slit in a stick. Home-made clothing was the order of the day. They grew their own flax and by a device would spin it and make a rough cloth. They cured their own leather for the making of boots.

In concluding his address Mr. Herrington spoke of how elections were conducted for a week by the open vote. According to records there is a minute book of records of Sidney Township bearing the date of 1791 but it was possibly a later date as paper was not made in this country then.

The approaching U. E. L. celebration in Belleville this year was spoken of and co-operation of all was desired to make it a success. The mayor-elect of this city was e nthusiastic in this regard this city was enthusiastic in this regard and should be encouraged in his efforts.

Mrs. Judge J. F. Wills who presided on behalf of all present tendered a hearty vote of thanks to Mr. Herrington for his capable and interesting address.

The singing of the National Anthem closed the proceedings.

Decrease of deaths for 1923 of 7.

The increase of 7 births for the year 1923, the increase of 21 marriages for the year 1923 and the decrease of 7 deaths for the year 1923 all go to prove that 1923 has been a very successful one, and the health conditions are improved over the year 1922.

## PRESENTATION TO RETIRING PRESIDENT

The Women's Misionary Society of John St. Presbyterian Church held their first meeting of the year at the home of Mrs. J. W. Cook, 7 Forin Street, yesterday afternoon with a good attendance. The president, Mrs. S. Hodkinson was in the chair.

At the close of the metting Mrs. A. Morrice read the following address.

Dear Mrs. Russell.

Comparatively few societies enjoy the distinction of having the same president for 17 years, and we are proud to be numbered among the few.

By your efficient and self-sacrificing services, you have won our confidence and sincere appreciation.

Your influence has inspired in us a deeper interest in Missions and from the excellent courses of study you arranged, we have gained much knowledge of the work and workers.

It is gratifying to know that the exceedingly pleasant relations that have always existed between us, will be continued.

We trust that during the year upon which we have just entered and the succeeding years, health and happiness will be yours in rich measure.

We ask your acceptance of this token of our love and gratitude.

Signed on behalf of the Auxiliary.
A. M. MORRICE
G. A. MacGREGGOR

Mrs. MacGreggor made the presentation of a suede purse. Mrs. Russell who was greatly surprised, in a few well chosen words, thanked the society.

Mrs. Cook served refreshments and a very pleasant meeting was brought to a close.

### Air Craft Carriers.

One reason why Great Britain's fleet of airships was saved was their use as air craft carriers. It has been proved by secret experiments that an airplane can be launched with safety from, and picked up by an airship when in flight. Other countries have carried out successful tests, and a giant semi-rigid ship is under construction for the United States Army Air Service to accommodate twelve fighting airplanes. To the upper plane of the fighter a huge ring is attached, and a large hook is suspended from the basket of the airship. When it is in flight the airplane pilot flies beneath it. His speed is adjusted to that of the parent craft and the effect is as if both were standing still. The picking up of the plane is then easy.

### Line-Breeding.

Line-breeding consists in following a single line down, breeding a sire or dam to the progeny and such closely related individuals as brother and sister and cousins. It is inbreeding along a certain line. The objections to it are that it intensifies any defects in the blood of the family that is inbred. The value of it is that it intensifies any good traits also. If, by selection, the bad traits can be minimized, while the good are perpetuated and made more prominent, line, or inbreeding, is a valuable means of improvement. If proper selections are not made, however, the bad that always wants to crop out in breeding will get the upper hand and spoil the progeny of line-bred animals. Line-breeding is practised by skillful breeders, and is one of the chief means of securing improvement in a flock or herd.

More farm machinery is put on the junk pile by neglect than by use.

### A Large Sized Cod.

The largest cod ever landed at an east coast port was recently brought into Lockport, N.S., aboard schooner Jellicoe. They docked with the largest sized cod ever landed at that port, some weighing seventy pounds. On the three days trip the crew shared over $34 net. Fishermen are making big hauls of herring.

### Dairy Cows Bring Good Prices.

Good prices marked a recent sale at St. Thomas, Ont., held by Ernest Siple, dairyman, who sold 40 head of pure-bred Holstein and Jersey cattle. The cows, which were all tuberculin tested, produced keen bidding, the majority of the animals bringing from $125 to $160 each. Buyers were present from London, Bridgeburg, Ingersoll and several other dairying districts. The proceeds of the sale amounted to $5,167.

Toronto—Interest in recent developments in connection with the prohibition law is slight here.

## Engaged

Photo shows Miss Mary Peck (above), daughter of Mr. and Mrs. Horace D. Peck, now spending the winter at Miami, Fla., whose engagement to Gene Sarasen, gold star, has been announced, it is reported. The recent report of Sarasen's engagement to Miss Pauline Garon, film star, proved false, it is said.

# HEAVY FOG CAUSES SMASH AT LOWER UNION STATION; FOUR PERSONS ARE INJURED

### Canadian National Express Piles Into C. P. Passenger Train at early Hour

### CAR COMPLETE WRECK

### Occupants of Rear Coach Escape Death by Narrow Margin

When a Canadian National express train pulling into Belleville, piled into the rear coach of a standing Canadian Pacific pasenger train, while the train was taking on passengers at 3-15 a.m. to-day, at the lower Union depot, four passengers in the rear car, the sole occupants of the car, were badly shaken up, and one man painfully injured. After receiving attention, all four men were able to proceed to Toronto on the same train.

**Fog Causes Trouble**

The C.N.R. tracks meet the main line tracks to the depot just east of the depot near George street, and all trains swing in there to come into the depot. As the C.P.R. train stood at the depot, the last coach, an observation car, "Mount Yoho", was obstructing the track at the junction of the tracks which led the C.N.R. locomotive head on into the coach. A heavy fog made it impossible for the train crew to see the obstruction.

The "Mount Yoho' was thrown clear off the track and turned right over on its side, the end of it being stove in and all windows shattered by the impact. The front of the engine was also visibly affected by the impact.

The Police ambulance was rushed to the scene but was not needed. Police officers who were at the scene after the wreck express, wonder that anyone could have come out of the wreck ale alive and believe that it was only due to the fact that there were few passengers in the coach that the casualty list was not longer and of more serious nature.

No serious delays resulted and the wrecking crew had derricked the wrecked coach back to the rails by noon. The engine which crashed continued the journey to Toronto.

# YULETIDE ECHOES HEARD ONCE MORE

### Five Men Face O.T.A. Charges arising from pre-Christmas Celebration

Loran Wilder, 82 Station St., Bruce Richardson, Canifton Road, John Titterson, Foxboro and Edward Titterson, appeared in afternoon police court yesterday before Magistrate Masson, and all pleaded guilty to a charge of having been intoxicated in a public place, the Belleville Paper Mills Limited, Thurlow Township, on December 22nd, near midnight. All were remanded one week for sentence on their own recognizance, a bond for $100 each having been taken in open court.

Arthur Lawrence, fifth and youngest member of the quintette, was charged with selling the liquor which caused their intoxication, and was remanded for one week in jail. In the meanwhile he will retain counsel.

**Christmas Rehearsal**

All are employees of the Belleville Paper Mills and according to the statements signed by three of the accused men, it appears as though the affair was a rehearsal for the Christmas festivities, it being prearranged that each man supply one dollar to Lawrence, who was gone half an hour and returned with two "crocks" of good potent liquor, which was quickly and quietly consumed. One "crock" fell to the floor and "broke its neck." but the "gang" soon salvaged what was left of its contents.

All five men were arrested by Inspector F. Naphan and Constable N. Maker of the Provincial Police on Wednesday night or Thursday morning.

### THE WEATHER

Strong northwest winds, becoming colder with snow flurries.

Saturday—Fair and moderately cold.

## COMING EVENTS

Madame Zodda, Scientific Palmist has arrived. Is at the Hastings House. No questions answered unless written. J8-5td.

### HUSBAND TRIES TO DYNAMITE SPOUSE

Moteyido Jan. 11.—Annals of crime bear the records of many men who have beaten their wives to death or poisoned or shot them but a Monteido man, Samuel Ginnaene is belieed to have established a precedent when he tried to dynamite his spouse, who was rescued fore her husband set thezz..z.... from a circle of twelve bombs, just before her husband set them off.

# DRUG VICTIMS IN THOUSANDS OVER DOMINION

### Department of Health Wages War against Traffickers in Drugs

### USERS ALL YOUNG

### Dr. Amyot Says Growth of Habit Not Outcome of Prohibition

Toronto, Jan. 11—Canada has from ten to fifteen thousand drug addicts and the traffickers who are carrying on and encouraging the business are more evil in their effects than the worst of bootleggers. That was the statement of Dr. J. A. Amyot, Deputy Minister of Health for the Dominion, in the course of an address at the Mining Building in Toronto, last night. One of the duties of the Department of Health, Dr. Amyot pointed out, was to keep as close check as possible upon the drug traffickers in order that the objectionable drugs may be kept out of Canada. He stated that the officials, through co-operation with the international police, were able to check up a large number of traffickers; and as an illustration of the way they had the dealers catalogued, he told of one man who recently left Canada for Europe to pick up a fresh supply of his wares. But the European police had been kept in such close touch that the only country in which that person would be permitted to land was Finland, and what Finland would do with him was more than Dr. Amyot could say. The popular impression with regard to the drug habit was that it was the outcome of prohibition, but that, he declared, was not the case. For the most of the addicts range from 2 to 30 years ofage. There were no old addicts, such as confirmed drinkers who were cut off by prohibition; for all the old addicts were dead. The drugs had done their work.

# REMAND YOUTH FOR ONE WEEK

### Story Told by Arthur Lawrence, Guilty of Selling Liquor is Not Believed

"I hate a man who commits perjury", exclaimed Magistrate Masson when he remanded Arthur Lawrence, 19 year old Canifton youth to jail for one week this morning, to think the matter over.

Lawrence pleaded guilty to a charge of selling two bottles of liquor to men at $4 per bottle.

When placed on his oath and asked where he secured the liquor, Lawrence told of having seen "some fellows" walking towards a bush along the Canifton road as he walked home from work after 6 p.m. one evening.

"I walked over to the bush through curiosity", explained the youth "and found two bottles of liquor."

The fellows had the bottles in a bag

"Now do not tell us any story about a dark man with red hair," cautioned Crown Attorney Donnan.

"I will ask for the maximum fine of $2000 and any additional penalty which there may be, "This is a case of perjury I believe.

"Well I hate to send such a young man up, so I will remand him one week to think the matter over."

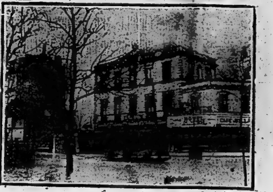
### Revise Constitution Of French Senate

Paris Jan. 11.—In the Chamber of Deputies today, M. Bonnet introduced a bill for a revision of the constitution. The bill would withdraw from the Senate attributes now belonging to the highest tribunal in the country, which would be turned over to a special high court. It also would limit the budgetary and executive powers of the Upper House.

The bill calls for the appointments of Premiers without portfolios, the formation of monogenous Cabinets, not necessarily recruited from among members of the Chamber, and would give the President greater powers in the negotiation of treaties.

The bill was referred to the Committee on Universal Suffrage for report.

## Paris Flooded!



One of the first photos taken during the most recent flood that is making canals of Parisian streets. It is typical of the entire section of the city that is under water.

# PHARAOH'S TOMB REFUSES TO YIELD GOLDEN TREASURE

### Excavators' Hopes Lowered as Inner Shrines are Opened—Funeral Pall of Ancient King Found

Luxor, Egypt, Jan. 11.—The anticipation of the excavators that another cache of treasure, notably jewelry, might be disclosed between the second and third shrines of Tutankhamen's canopic sepulchre have not been realized. After one of the most arduous pieces of work he has undertaken since the discovery of the tomb, Howard Carter yesterday afternoon succeeded in diamantling the front section of the lid of the second shrine, thereby revealing a greater part of the third casket and affording a glimpse into the space between the second and third shrines. It is understood nothing was found in this space.

The third shrine stands revealed as one of the most beautiful of those surrounding the Pharaoh's sarcophagus. It is brightly gilded, and, like the rest, abundantly inscribed with hieroglyphics, with golden ornamentation running around the cornice, and a roof of brilliant, shining red. The inside of the roof of the second casket is painted with figures of the gods, representations of the protective device of hawks' wings outspread, and the cartouches of the King.

The front section of the roof was deposited in the ante-chamber of the tomb and the other section will be attacked to-morrow.

During the course of the morning the remaining portion of the linen pall, swathed in cotton wool, was removed to the laboratory, together with a cardboard box containing the more than 400 gilded rosettes with which the pall was bespangled.

Mrs. Percy Newberry, head of the Embroiderers' Guild and wife of the eminent archaelogist, who is aiding in the work at the tomb, has undertaken to reconstruct the pall.

# BOYS THROW EGGS MUST PAY FINE

### Farmer Boys' Fun at Threshing Proves Expensive

Campbelford, Jan. 11.—The police court was jammed to capacity even standing room being at a premium, by Rawdon township farmers recently when the charges of assault against two young boys were disposed of, the defendants being Alfred Simpson, aged 15 and James Trotter, 17 years old. The complainant was Robert Cleugh.

The case arose out of an incident at a threshing on August 25 last. While work was in progress the four hands in the grain mow, pitching sheeves to the machine, came upon a nest of eggs with which two of the boys pelted other men in the barn, according to his sworn testimony. Last week he met Alfred Simpson on the road and recalling the affair of last August, took the law in his own hands and cuffed the boy soundly. For this he was fined $15 and costs. He retaliated by laying complaints against Simpson, Trotter, Harold Simpson and Bert Hay. The charges against the two latter were withdrawn yesterday for lack of evidence. T. A. Humphries appeared for Mr. Cleugh and J. D. Lynch for the defendants.

Anyone familiar with agricultural affairs knows that at a threshing the gang automatically divide into two parties just as soon as the men take their alloted places. The men in the grain mow profess disdain for those who merely stow away the straw.

When the mow men found the eggs they looked for a target and Robert Cleugh, who was working in the straw, was made the victim. When the supply of eggs gave out, crab-apples were thrown until Mr. Bedford interfered in the interests of harmony.

### BRIGHTON LODGE OFFICERS INSTALLED

Mr. G. G. Way of this city, D. D. G. M. of the I. O. O. F. Society, last night installed the officers of Brighton Lodge. The District Deputy was accompanied by a number of the brethren of Belleville and Mizpah Lodges in this city. At the conclusion of the lodge work, the visitors were entertained to a banquet.

### COUNCIL TO ASSEMBLE

On Tuesday afternoon the 22nd inst. the members of Hastings County Council will assemble at the Council Chamber, in this city for the first session of the year. The principal business at the opening will be the selection of a Warden and it is confidently expected that Mr. C. S. Rollins of Coe Hill, the popular Reeve of Wollaston Township will be elevated to that position.

Various committees and chairmen of same will be named and business of a routine nature will be transacted.

# 2-YEAR OLD BABES LABOR IN SLUMS

### Work Brought Home From New York "Beggar Industries"

New York, Jan. 11.—Children as young as two and three years of age, laboring in tenement homes at work brought from the factories of what were branded "beggar industries" were indicated at a public hearing of the New York State Welfare Commission conducted at the City Hall.

Almost a score of social workers testified regarding conditions in 15,000 dwellings licensed for home work in greater New York. Child labor, they said, was one of the chief evils of the present system which brought also juvenile delinquency, disease low wages and a deplorable standard of living. Many of those who took the witness stand today asked that immediate steps be taken to wipe out tenement house work, now officially sanctioned and licensed in New York State.

George A. Hall, secretary of the Commission, told of a survey made in the congested districts of New York in which more than 2,000 families were visited. In nearly all of these boys and girls were at work. He said that 79 per cent. of the children were under fourteen years of age and that 35 per cent. were under 10. The state law regarding work in stores and factories places 14 as the age limit.

A number of visiting school teachers told of conditions they had found in the tenements and said, that children worked whenever work was brought into the home from the factories. Mrs. Margaret McGroarty, one of the teachers, said that dresses which were finished for $2 in east side tenements sold on Fifth Avenue for $49.

### DANES TO SETTLE LAND.

United Press Despatch, Exclusive To The Intelligencer.

Port Arthur, Jan. 11.—Crown lands agent Wilson announced that Thunder Bay section is being settled and 169 families went on land during 1923 and a party of thirty-five Danes made reservations and will occupy holdings by Spring.

### FRENCH POLICY RUINOUS

(United Press Despatch)

London, Jan. 11.—Its stated in financial circles here that the British delegates reparations inquiry have made up their minds that the French policy in Ruhr is ruinous to Europe and it will take a lot to convince them otherwise.

### RUSSO-GREEK PEACE.

United Press Despatch

Athens, Jan. 11.—Admiral Cacoulidis has returned from a special Mission to Moscow. He declared that the resumption of Russo-Greek Diplomatic relations was imminent.

### TIDAL WAVE TAKES TOLL OF MANY LIVES

(United Press Despatch).

Paris, Jan. 11.—Death list from tidal wave which inundated many towns along the coast of France early Wednesday, stood at 17 today with crews of many ships still to be heard from.

# TWEED MAN IS ASSESSED $300, O.T.A. CHARGE

### Frank Renaud Narrowly Escapes Maximum Penalty of $2,000

### WILL PAY FINE

### Wife, Seven Children and Hard Work Await His Return

Frank Renaud, 40, of Tweed, who pleaded guilty to a charge of having liquor for sale, was fined $300 and cost of $25.50 by Police Magistrate Masson this morning. Renaud narrowly escaped the maximum of $2,000, but after the convincing pleas of counsel for accused, C. A. Payne, the magistrate first doubled the minimum of $200 then split the difference of the $200 and made it $300.

Inspector William Nugent who was successful in trapping Renaud, whom officers have endeavored to "catch" for two years, stated that he was not as innocent as he appeared, and also stated that he would not be satisfied with the minimum. Inspector F. Naphan's thoughts were for the wife and seven children, and finally the officers agreed to abide with what the Magistrate believed was a fair penalty.

**Tells Same Story**

On oath, Renaud told the same story as he did the day following his arrest, and related the story of the arrival in his yard of a stranger between 12 and 1 o'clock at night. The stranger drove a car, and when Renaud who was in bed, dressed hurriedly and went out in the yard, the man had unloaded six gallons of liquor against the fence at the corner of the barn.

"He introduced himself," explained accused, "and asked me if I would take a drink. I said I would, but made him take a sip first. Then he told me the price was $10 per gallon, and I took it paying him $60. The vendor was described as being a short, thick set dark man with a moustache. He would weigh about 165 pounds, accused believed, and he said he came from that oasis of Quebec, Montreal.

Accused's explanation of a total stranger driving into his yard at mid night, was that he had told the boys downtown that he would like to get some liquor, and they told him that if they saw any vendors they would send them up to the house.

"It was a peculiar story in the opinion of the Bench, but C. A. Payne enlightened the court with statement that, "those mysterious men who move in the night do not even cast a shadow."

"Yes, and Renaud was not only a brave man to marry a woman with five children, bue he was also brave to tackle six gallons at midnight," opined the Bench.

**Renaud Busy Man**

Renaud is a wodocutter and liveryman. He buys a piece of woodland in the Fall, cuts the wood and delivers, and then he drives the travellers. "I have 35 cords of wood to haul five miles, and the horses are in the stable sharp shod," pathetically explained the accused.

His Worship thought that the maximum might loosen up the valves of righteousness, as he did not believe that Renaud had come all the way across with story.

"Well, the tragedies of a lifetime occur in livery barns and garages," explained Mr. Payne.

"This man is having a late start for New Year resolutions, but he can make up for lost time by speeding. If he turns his face to the sun, he may yet put into effect, many good resolutions"? "He had only disposed of one gallon in two weeks, and has not been caught in two years. Besides the O.T.A. will not be in effect longer than six months they tell me," so I would ask that every consideration be given to the circumstances.

"You have been pleading charity, now do not make your fee too high" entreated the Bench after imposing the fine.

"I suppose I will receive a note for my fee," retorted counsel. The fine will be paid by Renaud.

### BOURSE EXCLUSIVE

(United Press Despatch)

Paris, Jan. 11.—Paris Bourse may be closed to all foreigners, only French citizens being permitted trade because of the depreciation of France.

### NOT TO WEAR PANTS

(United Press Despatch)

London, Jan. 11.— Ambassador Frank B. Kellogg will present his credentials to the King at 11 o'clock Monday morning. Mr. Kellogg, unlike some recent American Ambassadors, will not wear knee pants.

# ACCUSED YOUTH STARTLES COURT WITH TESTIMONY ON "DOPE" AGENTS ACTION

# CHAIRMEN NAMED FOR 1924 COUNCIL

### Members Present Not Unanimous in Selections Made

Members of the 1924 City Council met in caucus last night for the purpose of selecting chairmen of the various civic committees. There are nine chairmanships and of this number four went to new members. It is understood that the selection of some chairmen was by no means unanimous. At the inaugural council meeting on Monday morning next the slate as prepared may be changed. The slate as adopted last night is as follows:

Executive—Ald. W. R. McCreary.
Public Works—Ald. A. E. La Roche.
Water—Ald. W. H. Patterson.
Fire—Ald. E. Gardiner.
Industries—Ald. J. E. R. Graham.
Light—Ald. R. P. White.
Market and City Property—Ald. S. H. Treverton.
Gas—Ald. G. E. Foster.
Printoing and Stationery—Ald. A. H. Ketcheson.

### JUDGMENT GIVEN IN LOCAL CASE

At the recent sittings here of the High Court, non-jury, a case of McColl Bros. vs. Watkins was tried before His Lordship Justice Mowat and judgment was reserved. Yesterday judgement was given as follows:

McColl Brothers v. Watkins—R. D. Ponton (Belleville) for plaintiff, F. E. O'Flynn and E. D. O'Flynn (Belleville), for defendant. Action for an injunction and for $1,200 damages for alleged trespass. Judgment: Let judgment be entered by plaintiff continuing perpetually the interim injunction restraining trespass complained of in pleadings with costs and dismissing counter claim with costs.

# MANY DAIRY MEN AT ANNUAL MEET

### Forty-Seventh Annual Meeting Being Held in Limestone City

Minutes of the first convention of the Eastern Ontario Dairymen's Association, which was held at Belleville on February 21st and 22nd 1878 are on exhibition at the annual convention being held at Kingston this week. The President at the above date was Mr. K. Graham, of Sidney Township.

Mr. Wm. Newman, of Lorneville, is the presiding officer at the convention which is largely attended. In his address the President reviewed the work of the past year and the bright prospects in the future for the dairy interest.

At Thursday's afternoon session the speakers and subjects discussed by them were as follows:

Mr. W. J. Bell, B.S.A., of Kemptville Agricultural School, on "Economy in Production." Prof. G. B. Reed of Queen's University on "Care of Milk," and by Prof. A. Leitch, Agricultural College, Guelph, on "The Business Side of Manufacturing."

At the evening session Mayor Angrove, of Kingston, gave an address of welcome on behalf of the city. Warden J. S. Sibbitt, of the County of Frontenac; Principal R. Bruce Taylor, of. A. Zufelt, Superintendent of the Queen's University; Prof. Lindsay Dairy School; Mr. W. A. Wilson and other members of the School Staff, in addition to which Mr. J. A. Ruddick, Dominion Dairy Commissioner, delivered a lecture illustrated by lantern slides on 'Dairying in New Zealand and Australia.

### Queen of Greece Is Auto Wreck Victim

United Press Despatch

London, Jan. 11.—A dispatch from Bucharest states that the Greek King and Queen were in an automobile accident. The King was uninjured but the Queen is believed to be seriously hurt.

### Hope Against Hope For Sailors' Lives

United Press Despatch

London, Jan. 11.—Dragging for the submarine L-24, sunk after she was struck by the warship resolution was continued to-day as the naval officials hoped against hope that some of the men might still be alive in watertight compartment of the undersea craft.

### COOLIDGE DOUBTS PLAN.

Washington, Jan. 11.—President Coolidge does not believe that the tax reduction plan formulated by Democrats in Congress contains the essential requirements deemed necessary by the administration, it was declared officially at the White House today.

### Drug Apprentice Tells Astonishing Story of Injections Taken by Officer to Gain Confidence of Suspect

### "BIG TOWN" WOMEN

### Fuller Plans Introduction of Ottawa Girls to Accused Here—Interesting "Parties" to Result in Belleville

Startling evidence of the methods employed by special agents of the narcotic squad of the R.C.M.P., in their endeavours to get evidence on persons suspected of trafficking in drugs, was disclosed at the trial of the local drug clerk, arrested on January 2nd in a hotel room here, and charged in police court yesterday afternoon under the Narcotic and Drug Act 1923. The case was ultimately dismissed, accused having been found not guilty.

When court resumed at 2.30 p.m. E. J. Butler called accused to the stand, where he told the whole story of his experiences with Fuller until his arrest in Quinte Hotel on the evening of January 2nd.

**Accused on Stand.**

Accused told of having been introduced to Fuller by a local young man on the Friday previous to his arrest, and told of his visit to the drug store on the 2nd of January. Fuller told accused that he lived by his wits, that he was a crook and did not work, and he was waiting in Belleville for a friend from the east. He further added that he was a gambler by profession and was a drug addict.

Continuing, accused told of accepting his invitation to visit Fuller at his room in the Queen's hotel, where be saw Fuller inject two charges of what he believed to be morphine into his body with a hypodermic needle.

"He had the morphine in a box in the form of cubes,' continued witness, "and taking one cube, he placed it in a spoon which also contained water, and lighted a match under the spoon. This warm solution he placed in the apparatus, and injected it into his body."

According to the testimony of accused, Fuller also stated that he had been an opium smoker for a period of two years or more, having "laid off" morphine. Owing to the fact that opium required considerable preparation for smoking and that "cracks" in a room had to "chinked" by wet cloths to prevent the fumes of the smoke escaping and giving him away, Fuller had reverted to the use of morphine.

'Do you know how to prepare opium for smoking?' Fuller asked witness.

'No,' was the reply.

"Would you like to learn how it is done?" he persisted.

"Well I believe it might be an interesting process, so I would not mind seeing it done."

"Then bring some opium to my room and I will show you how." That is alleged to be the conversation to which accused answered "no".

**Their Meeting.**

Narrating the occurences in Fuller's room at Hotel Quinte to which hotel he moved from the Queen's, accused told of Fuller's welcome reception, where he enquired for his health and the prevailing weather conditions.

"On the table there was a small tin box," continued accused, "and when I looked at it, Fuller said, "that is opium." Suddenly Fuller said, "Get rid of that box quickly, a bell boy may come into the room and see it and it is bad stuff to have around."

Accused told of picking up the tin, placing it in his coat pocket, and then Fuller signalled Detectives Paul Miller and Alfred Grignon by a movement of the window shade, whereupon they rushed to the room, where Grignon found accused holding the tin in his hand in his coat pocket. He was then arested by Miller.

**Denies Accusations.**

In cross examination by detective Miller, witness gave the name of the man who introduced Fuller to him on December 28th, and told of having supper with Fuller that night, in a cafe. On the following Sunday morning accused visited the Queen's, but denied having taken heroine tablets to him, and denied having ever supplied anyone in Belleville or anyone outside the city with heroine tablets. On Sunday, after Fuller had taken two injections in his room, he dressed and had dinner and supper with accused that evening. That night accused admitted having secured liquor at a drug store on a "scrip", but denied having purchased any drug or having any drug on his person when

(Continued on page eight).

### J. J. B. FLINT REACHES EIGHTY-FIFTH YEAR

A very pleasant evening was spent at 244 S. Olive Street, Los Angeles, on Friday the fourth day of January, 1924, to commemorate the arrival of Mr. J. J. B. Flint at the mature age of eighty-five years. Mr. Flint appears to be well, and enjoys his residence in California. Among those present were Mr. and Mrs. Finkle, Mrs. Lailey, Mr. Stuart Lailey, Mr. and Mrs. Orr (nee Ella Lambley), Miss Carrie Lambley and Miss Annie Tomblin.

## SEINE FLOODS

In the overflow of the Seine River, which is causing so much distress in Paris, news readers recognize an acute manifestation of a recurrent species of disaster.

Floods of the Seine have been about as familiar a topic of late as landslides interfering with the Panama Canal used to be for some time after the Isthmian work had presumably attained completion.

On this occasion the rising of the Seine has caused widespread trouble and even wider apprehension. It has compelled ouster from their homes of 25,000 residents in the Parisian suburbs. Thousands of buildings, including many factories have been emptied of their occupants.

The story of consternation, flight and rescue on the Ile St. Pierre suggests the imagery of a shipwreck or of a besieged city. With the help of firemen, police and soldiers, 3,000 people made their exit from that locality.

It is no wonder that with accounts of the flood are mingled intimations of popular complaint. The Parisians, often singularly patient for so temperamental a populace, have had their patience tried to the limit by this new ebullition of the Seine. They feel that the failure to curb the river is a discredit to the authorities, and are calling upon the Government to remedy the condition.

There is, however, something to be said in excuse for the apparent apathy in dealing with the situation. France, during four years of war and five more years of reconstruction, has had scant opportunity to address herself to the solution even of so urgent a problem as flood prevention for Paris.

Disturbed finances, the struggle for rehabilitation, efforts to restore conditions to the normal, all have diverted attention from the Seine question.

## "GANG" CONTAMINATION

The confessions of "Red" Ryan, bandit and general desperado, whose career of crime has been abruptly ended by his return to Portsmouth penitentiary, has disclosed, when stripped of the glamour given by publicity, a fact that can never be too strongly emphasized, the need of protecting our youth and future builders of our Dominion from the contamination of "gang" influences.

Ryan, though little more than a boy in years, must spend a lifetime behind gray walls, suffer the lash, and die a convict. One misstep led to another, "easy" money was obtained, until crime became a part of his existence. How different would his story have read had he been guided by the helping influence of older men and led away from "gang" contamination.

A survey of the careers of many notorious law-breakers is a sermon in itself. Always hunted and usually spending their time gazing between bars, it is found that usually "gang" influence and idleness has been the cause of the first slip.

Ryan needs no sympathy; he is now paying the price he must have known he would eventually pay, but his life story may aid in bringing fathers in closer touch with their sons and aid young feet to keep the straight road, ignoring the glamor of "easy" money.

## PRESS OPINIONS

### OBNOXIOUS MIDDLEMEN

(Westminster Gazette)

The middleman is a veritable Old Man of the Sea on the shoulders of agriculture. In almost every branch of the industry he seems to have established himself, to his own great profit and with most disagreeable consequences both to the consumer and to the producer.

Clearly the middlemen need to be circumvented. Their numbers are excessive, and their rates of profit far too high. And in order to circumvent them the farmers need to get together and organise some more efficient and less expensive method of distributing their produce to the consumer.

### SOCIETY OF NATIONS

(Springfield Republican)

The only permanent substitute for the balance of power maintained by rival combinations of states is a society of nations to preserve peace and guarantee the security of the weak. That is still the choice which Europe has to make, and the emergence of any powerfully armed bloc that threatens to dominate the continent must automatically lead to counter organisation to restore the balance of power.

That is why the new military league which Premier Poincare is organising in Europe is watched with such concern and distrust; it is to just such developments that Europe has owed so many of its misfortunes in the past.

### THE VISION GLORIOUS

(Montreal Star)

In this year of grace when the intellectual and spiritual world is in a state of unrest; when doctrines that once made heroes, are lightly esteemed; when foreign cults are coming like a flood, and when the veneer of materialism is over all, there should be intellectual honesty and thoroughness; unwillingness to be satisfied with any sham until there break upon the vision such a revelation as is given only to those who reverently and patiently knock at the door of truth.

### EVASIONS OF WEALTH

(Louisville Courier-Journal)

Nothing is better established than that the rich usually find a way to evade what they consider excessive taxation. In the present case they pass the excess taxes on to the small taxpayers and to the purchasers of commodities.

The man in business who is required to hand over half of his income to the tax collector, recoups himself by extracting higher prices for his products or merchandise. The small taxpayers and the consumers foot the bills.

### COMMON DANGER

(London Mail)

Both Conservatives and Liberals have at heart the determination to protect individual freedom and resist a tyrannical system of socialisation and nationalization which would reproduce all the worst scandals of government control of industries during the Great War.

Meantime they will risk all the liberties of man and the very existence of their country to make faces at one another instead of joining hands against the common danger.

### OUNCE OF PREVENTION

(Philadelphia Public Ledger)

If all the precautions laid down — the doctors and sanitarians against the spread of infection could be observed, the health records of the community would be vastly better than they are. One of these upon which especial stress is being laid at this season is directed against the spread of "colds"

Not every one can follow the advice to stay in bed to tide over the worst stages of a cold, but ventilation of workrooms and offices is one precaution for the neglect of which there can be no reasonable excuse.

**Use Sulphur To Heal Your Skin**

For unsightly skin eruptions, rash or blotches on face, neck, arms or body you do not have to wait for relief from torture or embarrassment, declares noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

### BIG UNIT TUNED IN

Niagara Falls—Premier Ferguson, surrounded by almost the entire Cabinet, turned on the sixth fifty-five thousand horsepower unit of the greatest power plant in the world at Chippewa.

## Music & Drama

### GRIFFITH'S MYSTERY PICTURE A TREAT

"One Exciting Night" Gives That "Something New" Always Sought in Photoplay Production.

Something new—ever the cry in motion pictures— has come with D. W. Griffith's latest film, "One Exciting Night," a United Artists release, which began a 3 days showing at the Griffin Theatre last night.

Here is a treat. In the past years, many an innovation has come to the screen, but this latest handiwork of Griffith different; it is new; and it is refreshing. Griffith alone seems to have the power of bringing new things; but the public will wonder why this amazing man has neglected mystery so long.

For sheer delight of entertainment, one pauses to recall when there has been its equal on the screen.

Romance!—It trembles with it. And it shakes with laughter. There is a lift of suspense throughout that grows keener and keener. And with the close comes a rush of excitement with quick surprising action that stirs the audience to a tumult. It has everything that makes for entertainment; and only those will be disappointed who think they are going to see a Griffith picture of the type of "Orphans of the Storm," an historical spectacle.

The story concerns a young girl, played by Miss Carol Dempster. She is the most recent of the Griffith stars, and perhaps the loveliest. Certainly he has a beauty that is wonderous on the screen, and there is an eloquent leftness to her acting.

The first of the series of Jazz nights opened at the Griffin Theatre last night and was received splendidly by a packed house.

Next Friday night the second Jazz [illegible] will be offered, when all new jazz numbers will be rendered.

### "THE PURPLE HIGHWAY" THRILLS

Madge Kennedy's new Paramount picture, "The Purple Highway," which was shown at the Regent theatre, marks the return of this popular stage and screen stair to the silent drama. The picture is an appealing drama with several moments of genuine comedy to offset the more dramatic scenes. It tells of how a girl, April Blair, played by Miss Kennedy, is the means of the regeneration of many inmates of a Home for Artistic Failures. She fires them all with ambition with the result that all find new objects in life worth striving for.

The water scenes in "The Purple Highway" are perhaps the most beautiful ever seen here. The picture is at once novel, appealing and entertaining. The supporting cast is excellent and includes, among others, Monte Blue, Vincent Coleman, Pedro de Coroba and Dore Davidson.

### POOR KID

Just a wee small lad in ragged britches,
Lots of patches, lots of stitches,
Shoes worn down at heel and toe,
Without a mother or place to go.
Tears in his eyes and hungry heart,
Poor Kid. Life gave him a poor start.
Early in the morning at five o'clock
Poor Kid hustles papers by the dock,
Makes a few pennies here and there,
Hardly believe life treats him fair.
Poor Kid, with such lonesome smile,
Don't seem fair that for a long, long while
This young lad must sweat and toil,
Don't seem right, 'cording to Hoyle.
Sure seems queer how tricks of fate
Turn young souls to a life of hate.
Poor Kid, his heart is clean and pure,
Of good fortune he seems so sure,
Starts out bright and eager every day,
Good little Kid sure earns his pay.
Never kicks about his feed,
In his heart there is no greed.
With lusty yell he calls his wares,
For the nickles that pay for his many cares.
But, Poor Kid, when night comes on
And all the travellin' folks have gone,
He pulls his cap down on his head
And hurries away to his little bed,
And there on his knees with head upraised,
'Twas the good Lord he nightly praised,
And then from his heart there came a prayer,
It was to his mother a way up there.
Poor Kid, his mother had died, alone was he
Cast adrift on life's great sea,
To struggle and strive up the ladder of fame,
And there on the top to place his name.
Poor Kid, his heart was kind and true,
Yes, he's a friend to me and you.
On the busy corners all day long
Stands the Kid, 'tis tough, but still a song,
A melody or some sweet refrain,
Takes away the gloom of the day of rain,
And this poor Kid without a home
Many a night has had to roam
Footsore, tired and weary of heart,
Poor Little News Kid, all alone.
Poor Kid, I'd love to give him a start.
Some time I'll take him for my own,

### DOMINION BUTTER AND CHEESE EDUCATIONAL CONTESTS

In the report prepared by Mr. George H. Barr on the Butter Cheese scoring contests conducted by the Dominion Dairy and Cold Storage branch, forty-nine creameries and fifty-six cheese factories competed. Similar rules to those of previous years governed the contests. The butter had to be made between the first and fifteenth of each month and shiped to cold storage at Montreal where after a few days the scoring took place. The oustanding feature of the butter scoring contest of 1923, which covered the six months from May to October inclusive, was that the number of specials was 23.40 per cent, greater than it was in 1922, showing plainly, Mr. Barr says, that the creamery buttermakers in Canada are improving their methods. Alberta, Saskatchewan, Manitoba, Ontario, Quebec, and Nova Scotia each had six samples passed upon, British Columbia and New Brunswick each had five, and Prince Edward Island three All Manitoba's and Nova Scotia's samples were special grade, while Saskatchewan and Quebec each had five, Alberta and Ontario each four, New Brunswick three, British Columbia two, and Prince Edward Island one. All the other samples were first grade excepting one each from Quebec and Prince Edward Island, which were second grade.

Relative to cheese, of 22 samples from Ontario, 4 were special grade, 17 first grade, and one second grade. Of 21 samples from Quebec, 9 were special grade, 9 first grade and 3 second grade. Of Alberta's three samples one was first grade and two second grade. Of six samples from New Brunswick four were first grade and two second. Of four samples from Prince Edward Island all were first grade. Statistics given in the report show that Quebec rather excellent in flavor with Ontario coming next, and then Prince Edward Island, New Brunswick and Alberta. In workmanship the order is Quebec, New Brunswick Prince Edward Island, Ontario and Alberta. In texture, colour and finish Ontario and Quebec are equal; in closeness Quebec stands 14 to Ontario's 6, and the other provinces run in all these qualities New Brunswick, Alberta, and Prince Edward Island. In rescoring for flavour after four months of the May and June samples, Quebec's score was 39.60, Ontario's 39.57, Alberta's 39.00 and New Brunswick's and Prince Edward Island's each 38. The cheese contest covered the same six months as that of butter.

### FIRE-PROOFING WOOD

Wood is such a convenient material, on account of the ease with which it is worked, its relative strength, its low lost, and attractive appearance that if it could be rendered fire-proof it would be almost ideal for many purposes. The Forest Products Laboratories of the Forestry Branch, Department of the Interior, are investigating various processes for rendering wood resistant to fire. The Laboratories point out that it is possible, by impregnation with certain salts, to render wood fire-retardant, that is to decrease its natural inflammability very considerably. It can thus be made extremely difficult to ignite and the persistence of glowing embers can be prevented. This is an important step in the desired direction and in view of the progress already made, it is hoped that the processes may be made even more efficient.

Laboratory service for seed testing is provided for at five points in Canada by the Department of Agriculture, namely, Calgary, Winnipeg, Toronto, Ottawa, and Quebec

## WETS TO LAUNCH BIG PROHI FIGHT

Philadelphia, Jan. 10.—United Press—A nation-wide drive against dry laws will be inaugurated in Washington on Jan. 21, at a national conference of the Association Against Prohibition Amendment, according to Charles W. Wood of Philadelphia, executive secretary of the association.

The conference will present to the administration and to Congress the demand of the "best elements of American citizenship from all over the country that the government 'face the facts' of the prohibition issue," Wood said.

Delegates from every state in the Union will attend the conference according to Wood. Plans are now under way for the association to charter a special train to cross the country from coast to coast, picking up delegates.

"The aim of the association for 1924 is to obtain what immediate relief is possible from the dangerous situation in which the American people find themselves," Wood said. "The conference in Washington is being held with a view to throwing every possible influence behind a demand upon Congress for immediate legislation which will return to the people of the individual states much of the power which Congress usurped by the passage of the Volstead Act.

**Hope, Says Wood**

"There is hope that the popular revolt against this iniquitous measure will swing sufficient of the doubtful Congressmen over to the side of sanity and that remedial legislation can be obtained the life of the present Congress.

"Whether this hope proves well founded or not the association will strain every effort to make certain beyond doubt the election next November of a Congress pledged to a liberal modification of the law, whether it be through the votes of the Republicans or Democrats, or both combined.

"When the Volstead Act is modified the efforts of the state divisions of the association will be directed toward securing thorough revision of state laws on the subject which will bring them as nearly as local conditions permit into conformity with the system in operation in Quebec and in many other parts of Canada."

**"Wet Victories**

In reviewing 1923, Wood declared that the advocates of a reform in the prohibition laws have every reason to be encouraged. He touched upon the "wet" victories in Maryland and Kentucky and spoke of the big wet vote in the Republican primaries of Vermont.

In Pennsylvania, he declared, that Governor Pinchot has suffered a sharp decline in prestige because his "unpopular" stand on the matter of prohibition and "to popular indignation at his willingness to sacrifice the state police and to violate other vital portions of the constitution in his efforts to enforce the prohibition laws by the methods which savor of the time of King George the Third.

### OFFICERS FOR 1924.

The inaugural meeting of the Directors of the Belleville Chamber of Commerce and the annual election of officers took place at the Chamber of Commerce Building Wednesday afternoon.

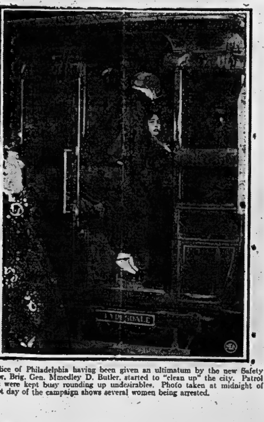
Mr. Ackerman, the Vice-President, presided and Rev. D. C. Ramsay and Mr. J. D. McMillan, Divisional Superintendent, Canadian National Railways, acted as scrutineers. The election was carried out under the same primary and final election as is used in the election of directors. The following were declared elected:

President—Mr. H. W. Ackerman.
Vice-President—Mr. C. M. Reid.
Vice-President—Mr. O. H. Scott.
Treasurer—Mr. J. G. Moffat.

After the officers were declared elected brief inaugural addresses of a felicitous nature were made by the successful candidates. Under such able and experienced guidance the Chamber enters upon what it is confidently expected will be a successful and prosperous year.

The annual meeting of members will be held at an early date.

## All Through The Night



Police of Philadelphia having been given an ultimatum by the new Safety Director, Brig. Gen. Smedley D. Butler, started to "clean up" the city. Patrol wagons were kept busy rounding up undesirables. Photo taken at midnight of the first day of the campaign shows several women being arrested.

### JOURNALIST KNIGHT.

Vancouver, B.C., Jan. 11.—The destinguished Zoreastrian patriot, Sir Kothari, O.B.E. of Karachi, India was among the passengers reaching Vancouver on Wednesday night on board the Canadian Pacific S. S. Empress of Austria. H. L. Carton, correspondent for the London Times at Tokio told an amusing story of the strange predicament in which foreing newspaper men were found when the great earthquake occurred. It was impossible to file copy as the first building to go down had been the post office containing the telegraph headquarters The story was two days old before they were able to send out any details. Mr. Carton expected to continue east from vancouver and sail at an early date for England but on his arrival here received a cable from London to return at once to Tokio. He will therefore be a passenger on the S. S. Empress of Australia when she sails for the Orient on January 17th.

### LORD SHAUGHNESSY IN HIS LEGAL TOGA

Montreal, Jan. 11.—For the first time in Canadian history a member of the House of Lords donned the legal toga and appeared in court to plead. This precedent was established yesterday morning by Lord Shaughnessy, who appeared before Mr. Justice Loranger in Superior Court, acting as attorney for the Canadian Pacific Railway. The presence of the peer in court had the unwonted effect of having both the bench and attorney address each other as "my lord."

### TALK "PUBLIC RELATIONS"

New York, Jan. 11.—(United Press).—The 13th annual convention of the National Retail Dry Goods Association will be held Feb. 5-8 at the Hotel Astor, New York City. It is announced that the chief topic in the four-day meeting will be "Public Relations." Discussions will centre around the following factors: Finding practical methods for lowering the cost of distribution; showing how efficient, constructive service can be given without extravagance; encouraging by better methods greater public confidence in retail operations.

### DISQUALIFIED BY AN EARTHQUAKE

Los Angeles.(United Press)—G. S. Clark, automobile salesman in Peru, visiting here tells a story of pranks played by a recent quake upon one Estaban Alvarez.

"Estaban went to bed after completing the harvesting of his corn field. Looking out the window next morning, instead of seeing a bare, well harvested field, rows of waving corn stalks met his astonished gaze. An earthquake had moved a neighboring corn field upon his premises.

"Not questioning the workings of Providence, Estaban went out and harvested again. With his accumulated wealth, he decided to run for the legislature. On the day of election, Estaban was disqualified. During the night another earthquake had moved his residence into the next

## Survey Shows Farm Progress

The following is a summary of returns made by the Agricultural Representatives to the Ontario Department of Agriculture:

Fall wheat has been still further protected by snow during the week, and reports are to the effect that everything so far is favorable for the crop.

Marketing, which has been quiet owing to the holiday season, is becoming more active, although more or less influenced by local conditions.

Brant: Wheat is still selling at $1.00 per bushel. There is very little movement with oats or barley as yet. What little hay is sold in this district has brought about $10 per ton at the barn, or $12.00 delivered. Turnips are selling at 20c. per bushel. Potatoes are still running at $1.00 per bag on the market, the stores paying about 80c. per bag.

Peterborough: Fairly heavy shipments of whole milk and cream are being made every day. Whole milk is bringing $2.00 per cwt. and cream 42c. During the holiday season, practically all the geese and turkeys in the district were disposed of.

Leeds: Where cheese factories have shut down, many of the patrons are shipping milk or cream to condensaries or creameries, as the demand is good for any kind of diary produce. Cheese 16c. per lb.; cream 48c., per lb.; creamery butter, 50c. whey butter, 40c.

Kenora: At present there is quite a scarcity of milk owing to the cold snap and the supply is being supplemented by the use of canned milk, a state of affairs which should not be in a district like this where dairying the year round could be profitably carried on if a proper outlet was provided, in the form of a creamery.

Leeds: Very hard to secure help of any kind. Farmers are offering from $300 to $400 per year for married men, with cottage, wood, milk found, also garden stuff. Live stock are now being fed a little better, especially dairy cattle in prospect of freshening.

Brant: Pogs have been selling at $8.75 for smooth fats to Club members and little pigs still run about $8 per pair. There have been few sales during the past month consequently little movement in live stock outside of the regular butcher trade.

Dufferin: A large number of animals marketed this week with a good percentage in very much better condition than usual. Lambs appear to be nearly all marketed, and hogs are coming forward very freely. Prices were stronger during the week.

Middlesex: A number of hogs are being marketed this week due to the increase in price to around $8.50 to $8.75.

Victoria: Hogs sold during the week at $8.50 on the thick smooth basis f.o.b. Horses are a drug on the market.

Frontenac: Livestock throughout the country are in good condition and are wintering well. On account of low hog prices, few pigs are being wintered as grain is more practicable to sell than to feed to live stock at present prices.

Timiskaming: Live Stock that is getting any kind of attention or chance at all, are holding their flesh fairly well, and promise to come through the winter in very good condition. Hogs and lambs are in fairly good demand. Lambs bring as high as $10 to $12 each. Dressed beef is not selling very well, and is bringing from 6 to 8 and 9 cents per lb. by the carcass or half carcass.

# STRONGEST LIVING MAN "DOES THE DISHES" AND MAKES CLOTHES FOR THE BABY

BY STEVE HANNAGAN
NEA Service Staff Writer.

NEW york, Jan. 10.—Sigmund Breitbart, said to be the strongest living man, is but a servant to his wife in their home.

He cooks, sews, darns hose, washes dishes and often puts his six-year-old son to bed.

"Sigmund is so handy around the house," says his wife. "He is as gentle as he is strong and takes a delight in doing the little things that most men despise."

Probably the strong man's neatest fireside accomplishment is sewing.

"Sigmund is very dainty with needle and thread", says Mrs. Brietbart. "And he is very original. Sometimes he has a unique idea for a garment for the baby. Then he cuts out the goods and sews it into the finished product. He might have been an excellent tailor."

"The Polish Apollo," as he is known in his native land, bends steel bars into various shapes that would require long work at a forge. He chews links of chains apart with the nonchalance of a stenographer snapping her cud of gum. He drives nails into heavy timber with his bare hand easier than an artist pushes a thumb tack into a drawing board. He supports a motodrome on which two men ride motorcycles at a rapid gait. The motodrome, riders and motorcycles weigh 3500 pounds.

Breitbart came to this country to make a vaudeville tour. Now he is featured at the gigantic Hippodrome Theater.

Born in Lodz, Poland the son of the village blacksmith, Brietbart's childhood toys were horseshoes and nails. Of a studious turn of mind he learned to bend them in such a way as to make it easy.

Breitbart is 36 years old and doesn't look at all like a strong man. He has a kindly face, wears glasses, is subject to head colds and melancholia—even as you and I. He loves children, and is a persistent reader, his particular interest centering in the histories of the ancient Roman Empire when strength was an object of worship.

Probably this modern Sandow gets a kick from that sort of literature, dreaming of the stir he could have created by skipping past Nero's palace with a leather bit in his teeth pulling a train of chariots.

Breitbart works 40 minutes a day at his profession of strong man. The other day his manager asked him to give a special exhibition for some visiting notables.

"No, I can't do it," he answered. "My work is killing me now."

SIGMUND BREITBART, WHO CLAIMS TO BE STRONGEST MAN IN WORLD, HIS WIFE, WHOM HE ASSISTS WITH HOUSEWORK, AND THEIR SIX-YEAR-OLD SON.

# FRANCE CLAIMS THE VICTORY

(United Press Staff Correspondent)

Paris, Jan. 11.—(United Press).—One year after France, with her Belgian ally, went into the Ruhr to compel Germany to pay her reparations bill according to the terms of the Treaty of Versailles, an operation which England officially denounced as illegal and likely to lead to disaster. France is receiving coal and coke to the extent of several thousands of tons daily toward the reparations account.

It cost France about $50,000,000 to force Germany to her knees. It cost Germany untold trillions of paper marks, actually representing, however, many millions of dollars and brought the country to the verge of revolution and economic collapse.

When 50,000 French and Belgian troops, infantry, cavalry, artillery and tanks, advanced into the great industrial and mining region on Jan. 11, 1923, the inspired press of England cried, "The end of the entente!"

**Germany Surrendered**

But, in spirt of the pessimistic predictions of the British press, Germany capitulated. She carried on a losing fight of about nine months, subsidizing the unemployed workers of the Ruhr by printing millions, billions, trillions of marks until the point of exhaustion arrived and she could do no more.

The occupation was military only in a limited sense. The troops were there because the French and Belgians had decided that the mining, industrial, customs and other administrative employees needed protection. Just as soon as the occupation became effective there began a series of manoeuvres since entitled "passive resistance," which the Berlin government has represented as spontaneous, but which Poincare has often called direct German propaganda, paid by funds which should have been paid over to the Reparations Commission.

Isolated French and Melgian posts were attacked. The Germans who remained in the mines and on the trains systematically "sabotaged" both services. Train wrecks, in which the victims were not always allied citizens, were numerous. One German, named Schlagetter, was convicted and shot by a firing squad for such a crime. He is now the hero of the ultra-nationalists of the Ruhr.

**Cash Not Expected**

Poincare admitted in the French chamber that he did not expect to get actual cash towards the reparations account out of the operation. He said what he desired was to create in Germany "the will to pay". He succeeded in the sense that the Berlin government capitulated, practically washing its hands of the whole affair. It left the actual terms of settlement to be worked out between the representatives of the allies and the big group of Ruhr industrial barons, headed by Krupp and Hugo Stinnes.

When Berlin realized in October, 1923, that would be impossible to continue the financial war, it practically admitted that it had been supplying the funds for the so-called passive resistance. It gave carte blanche to Stinnes and company. The result was that, on Nov. 23, after the negotiations had been called off by the allies on account of Berlin's interference, the "barons" signed an agreement, whereby the chief industrial and mining men of the occupied region consented to the following conditions:

1.—Immediate payment of $15,000,000 (the figures were given in dollars, not in marks) as arrears of the coal tax, which the Germans had refused to pay from the date of the of the occupation.

2.—Payment of ten francs (paper—or about 50 cents) a ton on all coal extracted sold in unoccupied territory or sent thereto.

3.—Handing over to the Reparations Commission of 21 per cent. of all the production of the Ruhr mines.

According to the statistics of the French engineers, France is now getting about 7,000 tons of coke and 12,000 tons of coal a day. In Jan., 1923, before the occupation the Ruhr mines delivered to the allies 532,000 tons. In the month of February, the first after the occupation, the deliveries fell to 95,000 tons and in the following month only 82,000 tons were handed over. French factories had to buy coal and coke in England.

FANNING WITH FARRELL

## SHORTSTOP AN IMPORTANT POSITION

By HENRY L. FARRELL
(United Press Sports Editor)

New York, aJn. 10 (United Press)—Hans Wagner ,one of the best authorities on baseball, voices the opinion that no baseball club can win a pennant without an experienced and intelligent shortstop.

Other good authorities are responsible for the same opinion and, as evidence in support of the theory, it might be recalled that no team ever went to a championship with a hole between second and third.

Without any desire to question the opinion of a player and a student of the game who has forgotten more baseball than a lot of experts ever will know, it would not be impertinent to ask what period of service is required to make a shortstop experienced.

It must be readily admitted that there are exceptions to every rule and in presenting the case of Joie Sewell it is admitted that his was an exceptional case and perhaps the only one of his kind in modern years, at least.

Sewell was called from a southern college diamond in the middle of the 1920 season to play shortstop for the Cleveland Indians after Ray Chapman had been killed.

With Sewell playing an unusual and an exceptional game, the Indians won the pennant and the world's championship.

That case was one of a great emergency, however, and Sewell was of the game, courageous type that was capable of rising to the occasion. Without the desperation of his teammates that was forced upon them by tragedy to inspire him, Sewell perhaps might not have responded as heroically and as egiciently as he did.

It might have been ,and it is probable also, that if Chapman had only been permanently disabled for the year in the early part of the season, Sewell would not have had an urge beyond ordinary ambition to carry him over such heavy handicap.

If the word of John McGraw can be taken and if he is not throwing out smoke to hide a deal, the Giants will attempt the winning of their fourth straight National League championship with a shortstop who, in a liberal way of looking at it, has not had much experience.

Travis Jackson had a season in the minor leagues after being plucked from a southern college by the Giants and he played in sixty games during the most critical part of the battle for the pennant last season, when Dave Bancroft was out of the game.

It was during the time that Jackson was substituting for the captain of the champions that they played their most brilliant ball and practically won the pennant by a magnificent sweep through the west.

Young Jackson was tried and found true under the most exacting test that could be required and perhaps in that short space of time he gained years of ordinary experience.

McGraw insists that the boy is his regular shortstop and he predicts for him a future that will make him rate along with the best of his predecessors Jackson was one of the three players McGraw said he would not trade under any circumstances. Frisch and Young were the other two.

* * *

Handicapped by a policy that apparently requires at least four years of 'varsity experience before a player can make the team, the United States Military Academy is becoming more liberal.

It is understood that George Pfann, all-American quarterback and star at Cornell for only three years is to get an appointment to West Point and that he will be eligible to play with the Cadets for four years.

From reliable sources it is also reported that Welch, the great Colgate guard, and Harry Wilson, all-American back of Penn State, will be at the academy next fall.

If Harold Grange, the sensational Illinois half-back, who made every all-American team this fall, had more experience, the Army might find that he would like to become a soldier.

Grange, unfortunately, good as he is, has had only one year of 'varsity experience, and as soon as he develops sufficiently he may fall for the romance of an army career.

* * *

Jim Jeffries, former world's champion, does not agree with the critics who regard Jack Dempsey as being such a great champion.

"Dempsey," Jeffries said recently, "is on the decline. There is too much sentiment in the praise the newspapers give him. The fact that the light Tom Gibbons wasn't even knocked off his feet in fifteen rounds with Dempsey and that Firpo knocked Dempsey clear out of the ring goes to show that his days as champion are numbered.

"If Tom Gibbons could step fifteen rounds with Dempsey and never show any signs of it, what could Jim Corbett have done to the present champion in fifteen rounds.

"I just say this to bring to the minds of the present generation the capabilities of men like Corbett and Fitz—just remember these two when you hear all the propaganda written about Dempsey being the greatest of all champions."

## NO ICE TONIGHT BIG GAME HERE

### Opening Game in Bay of Quinte Hockey League, is Cancelled

The Belleville Napanee Bay of Quinte fixture scheduled for tonight at the Arena has been called off owing to lack of ice as the rink after this mild weather resembles a swimming tank. The Gunners will open their season Tuesday at Point Anne where they take on Pat Boland's squad and it will be some game if rumours are to be believed. Belleville will have their first home game next Friday night when the Kingston team are the guests of the Battery. The locals will practice at the Arena Monday from 6 to 7 in preparation for their opening list on Tuesday. The team is working hard and developing into a smooth machine which should show good results when they get under way and carry them a long way towards the cup.

## PICTON JUNIORS WIN AT PICTON

Picton Junior O. H. A. squad defeated their Trenton rivals at Picton last night in a hard fought battle which went overtime ten minutes, the final score being 5-4.

It was a ding dong struggle all the way, neither squad bulging the twine in the first period. At the end of the second period it stood 2-0 for Picton but in the third, although the homesters got two more, running their score up to 4 the Trentonians netted 4 and tied the score. In the second five minutes of overtime, the Picton boys netted the winning goal. Leo Barrett of Belleville handled the game to the mutual satisfaction of the players and fans alike.

## BOWMANVILLE WINS AWAY FROM HOME

Whitby, Jan. 11.—On very heavy ice the junior O.H.A. season was opened here last night when "Ginger" Edgerds' kids from Bowmanville pulled out a 2 to 1 win over the Whitby juniors. The soft ice prevented any kind of brilliant playing, but the close score kept up the excitement. Both goalkeepers were the shining lights of the game, although Sleightholm and Charlban also played well. Bowmanville scored the only goal of the first period, and then in the third Whitby opened up. However, the game was put on ice when Charlban slipped his second goal between Hawes' pads five minutes later.

## OLYMPICS TRIM MARITIME CHAMPS

### Win Hard Game by 4-1 Score—Are Banquetted, and Fancy Skaters Perform

St. John, N.B., Jan. 11—Playing a brand of hockey hardly expected from a team in its first game of the season, Charlottetown Abegweitz, hockey champions of the Maritime Provinces answered the question 'How does amateur Maritime hockey compare with the best in Canada' in convincing fashion this evening at the Arena before fully 3,500 cheering fans, when they were opponents in the Canadian Olympic hockey team in their final game in Canadian ice for Canada's representatives. The Abies lost 4 to 1, but they were great in defeat. The Olympics scored three goals in the opening period. After that it was ding-dong struggle with the battle raging furiously up and down the rink. The second period, the Island team more than held its own and scored its only goal in a mix-up in front of the nets, MacEachern playing out from behind to Chick Williams, former Abbie and now of Boston, who amid tremendous applause, poked the puck past Collett. In the final period, St. John fans witnessed the fastest hockey seen here in twenty years. The Olympics scored once.

Between the second and final periods the spectators were treated to a marvellous exhibition of fancy and figure skating by Miss Cecile Smith, of Toronto and Melville Rogers, of Ottawa. Miss Smith and Mr. Rogers are sailing this afternoon on the Montcalm along with the Olympic hockey team to represent Canada at the figure skating competition. Miss Smith, a girl in her teens' was given an ovation for her fine exhibition.

The players were introduced to the fans by H. R. McLellan, while Premier Veniot gracefully extended best wishes on behalf of the Province of New Brunswick, to Charlie Gorman, of St. John, Canada's lone representative in the Olympic speed skating contests, and the other Olympic contestants.

**A Farewell Banquet.**

Following the game, a farewell banquet was tendered to the Olympics and Gorman, where speeches were made by Premier Veniot, P. J. Mulqueen, chairman of the Canadian Olympic Committee; A. W. Covey, president of the M.P.B.A.A.U. of Canada; A. C. Millie, of Halifax, vice-president; G. Bolton, president of the Maritime Amateur Hockey Association; A. M. Belding and others. The teams:

Olympics— Goal, Collett; defence, Munro and Ramsay; centre, Smith; forwards, McMunn and Watson; sub. Slater.

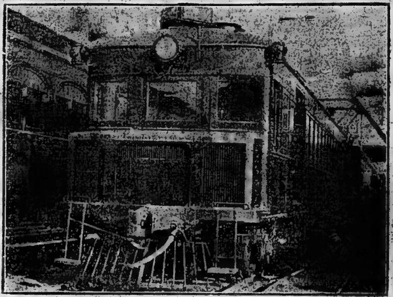
Abbies— Goal, Morgan; defence, Kelly and Moore; centre McEachren; forwards, Gordon and Prowse; subs., Williams' and Galton.

### The Way it Looked

Elizabeth was not accustomed to the saying of grace.

One night she went for supper to the next door neighbors.

"Daddy," said she the next morning, "what was that Mr. Pumpton read off his plate?"



This new gasoline car, operating on the Canadian National Railways between Toronto and Hamilton is declared to be the last word interurban equipment. The car seats 52 and makes one round trip daily.

## Willie Hoppe Sues For Divorce Now

New York, Jan. 11.William T. Hoppe 18.2 balk line billard champion of the world, is suing for divorce, it was learned yesterday. An application by Mrs. Hoppe, who is a sister of George Walsh, the movie actor, for $125 a week alimony and $5,000 counsel fee, was argued before Supreme Court Justice Guy on Monday, and decision was reserved. Among the co-respondents named by Hoppe, is Norman Bensinger, of Chicago, said to be a relative of Benjamin F. Bensinger, president of the Brunswick-Balke Collender Company.

The Hoppes have two children, Alice, 12 and William 4. Hoppe's action recently in taking the boy away with him caused his wife to start habeas corpus proceedigs, which she subsequently dropped.

Mrs. Chatts—I make it a rule never to ask another to do what I would not do myself.

Mrs. Quibble—But you would not go to the door yourself and tell a caller you were not at home.—London

## READING OUR FATES IS CENTURIES-OLD CUSTOM

### Lucky or Unlucky Signs Abound in Everyday Life—Popular Beliefs Borrowed From the Teachings of Early Seers—Teacup Messages, Christmas Cookery

FROM the earliest times poor human nature has been superstitious; it is so even in the present day, and a collection of the lucky and unlucky omens which are familiar to many of us, although we do not believe in them, will not be without interest.

The first view of the new moon is considered lucky, if seen over the right shoulder, unlucky over the left, and whatever the state of your finances may be when you first see the Lady Luna, so they will continue throughout the month. To bow three times to the new moon was supposed to avert all evil during eight days; indeed her influence had been considered to operate even after life was instinct—for farmers believed that if an animal was slaughtered during the decrease of the moon the meat would shrival when boiling, whereas one killed at the increase would "plump in the pot."

A black cat who chooses to take up his abode with you, uninvited, should be welcomed most heartily; he brings luck, and should he wish to scratch the legs of your table, do not interfere with him, he is only making your luck more secure.

A dog following you is a good omen and strange to say, the darker the dog the greater the luck. Though puss is a benefit to you when uninvited, yet beware of taking her with you when you move; if you do your stay will be short; so also if you move on a Wednesday, but never forget to take your dog BEFORE THE LAST load of furniture.

The first spring lamb brings luck to the seer, if he happens to see the head first. Put it on the head if you can catch it; but should you chance to meet its tail first, keep as far away as you possibly can.

So the first sight of spring birds augurs good if they fly towards you, bad if the reverse. No matter how much you dislike a fly in your room or food at other times, yet give the FIRST one a warm welcome for—

"He brings you health,
Or untold wealth."

A stalk of tea swimming on the surface of a fragrant beverage, foretells a visitor; if tough it is a gentleman, if soft a lady. Laid on the back of the left hand, and tapped smartly with the right, you can fix the time of the visit, each slap represents a day, and the process much be continued till the stalk moves. Two spoons in the same cup betoken a wedding, and the quantity of "grounds" in that same cup, determine the wealth of poverty of the future partner.

But the arrival of visitors is not foretold in the tea cup only; the cat brings them when she washes her face OVER HER EARS; so does the rooster when he crows upon your doorstep, or marches majestically through the barnyard with a straw in his tail feathers. Drop your fork, or a pin, or indeed anything pointed, and the visitor will surely arrive that day, if the point of the fallen article sticks in the floor. A sneeze before breakfast is equally efficicacious, but in each case the circumstances must be accidental.

Never pass a pin that lies with the head toward you—be sure to pick it up, even if it lies on the muddy sidewalk and you have on a new pair of gloves; but if the point is toward you, leave it there, no matter how much you may need it. So also pick up and carry home all old iron—the heavier and ruster it is the better—and should you be so fortunate as to find an old horseshoe your fortune is made all you have to do is to hang it up over your bed, and after that you may retire from business if you will, for your wealth will surely pour in upon you unsought.

To have your front teeth wide apart is a sign of riches; so also is a mole on the neck—"you'll surely measure money by the peck,"—"but a mole on the arm brings only harm."

Strange, how in these silly superstitions, the right is always for good, the left for bad. The right cheek flushes or the right ear burns, if an absent one speaks well of you, the left when they speak ill. The palm of the right hand itches when you are to receive money, the left when you are to pay it away. Itching sole of the right foot signfies that you will tread on strange ground to your advantage; itching of the left shows that you will go somewhere or other to your loss. If the right elbow itches, it is for some good to happen to you, but the reverse if the left. As the nose combines both right and left, so if it itches you will be "kissed, cursed or blessed" before night. Another meaning is that you will "kiss" a fool."

You need never suffer from cramps if you will only carry around with you a small bone of the leg of a sheep known to many as the "cramp bone." A hare's foot prevents rheumatism; the extreme tip of a salted tongue is a sure prevention of indigestion, and a raw potato in the pocket frightens away gout.

Be very careful about weddings, never wear the smallest piece of green, be very careful to have nothing black but your shoes, if a lady—your hat, boots and coat, if a gentleman. Avoid throwing a new shoe at the bride, and let the old one belong to the right foot. Above all things avoid the possibility of a dog crossing the path of the bride BEFORE the knot is tied or a cat AFTER.

### STORK'S VISITS LESS FREQUENT IN CANADA

Ottawa, Jan. 11.—Birth returns for Canada, exclusive of Quebec, show a decline in March, 1923, as compared with the figures for the corresponding periods of 1922, 21 and 20, according to vital statistics compiled by the Government Statistical Bureau.

During the month under consideration birth returns numbered 13,996; 7,175 males and 6,821 females, as against 15,129 in March 1922; 15,261 in March, 1921, and 15,406 in March, 1920. During March, 1923, 179 pairs of twins and two sets of triplets were born. Ontario gets the credit for both sets of triplets, and for 73 of the 179 pairs of twins.

### Hundred Families Given Aid By W.C.A.

The W. C. A. at its monthly meeting provided names and addresses of one hundred families, who were sent united efforts of all the churches, of the Rotary Club and by Miss Tuite's class at Albert College.

In addition to this, ninety-five families received fuel from the Corby Order.

Mrs. W. A. Woodley was appointed in charge of the Home for the Aged in January.

The president, Mrs. Mikel, was in the chair, and minutes were read by Sec. Mrs. Hill. A gratifying report was read by Treas. Mrs. Holmes.

List of donations were as follows:

Boys Bible Society of Christ Church, sandwiches. Mrs. Leach, pair of chickens, honey, roast pork. Ladies Benevolent Society of St. Michael's Church, pair of chickens. Mrs. W. C. Mikel, rocking chair. Mrs. McGregor 2 lbs grapes, candy. Mrs. Dr. Tennent, literature. Mrs. M. Gilbert 2 lbs. butter. Mrs. Fleming, literature, clothing. Mrs. G. Lloyd, 3 sealers of fruit. Miss MacIntosh's 1st and 2nd classes, Queen Victoria School, basket to each, containing candy, raisins and apples. Dr. Farley, 1 bushel choice spie apples. Mr. and Mrs Waddell, 1 pair chickens. Mrs. W. J. Mills, 1 pair chickens. Mrs. Geo. Carr, can of fruit, mince pie. Mrs. Alex Ray, cash $1.00. Mrs. Harry Thompson, plum pudding. Mrs. Priory can of tomatoes. Mrs. Geo. Teal, 1 doz. oranges. Miss Bowen, 1 doz. oranges, 1 can corn, 1 can peas. Mrs. M. G. Gilbert, potted plant. Mrs. Terrill, 2 cans fruit, 1 doz. oranges. Mrs. G. H. French, mince pie. Mrs. O'Flynn, mince pie. Miss M. B. Falkiner, records fruit knitted wraps. Girl Guides (Mrs. Dr. Branscombe) box of candy to each. Miss Lynch, plum pudding. Miss G. Nightingale, 1 doz. oranges. Mrs. Robt. Gibson, Christmas fruit cake. Mrs. Dr. Dolan, tea, nuts, oranges. Mrs. M. A. Connors, bag of potatoes. Mrs. J. W. Johnson, candy. Mrs. G. F. Stewart, Christmas Cards "In Memory of the Late Senator H. Corby." bag of potatoes, bag of turnips, 1 bushel sweet apples, 1 bushel spie aples, turkey. Mrs. A. W. Dickens, box of chocolates, pepper-mints, box of candy to each, mince pie, currant loaf, 1 doz. rolls, 1 doz. fried cakes. Miss Beatrice Jones potted plant. Mrs. Brown, Catherine St., 2 doz. oranges, 2 lbs. peppermints. Mrs Shorey, literature. St. Julien Chapter Daughters of the Empire, stocking to each containing candy, nuts, grapes pipes, tobacco, stationery, apron. Mrs Hitchon and Class, stocking to each containing apron to women, handkerchiefs, candy oranges, nuts and 25c. to each. Mrs. Kelso, literature. Miss Diamond apples, oranges, grapes, candy and popcorn. Green and Co., roast of beef, roast of pork. Mrs. T. G. Bell can of fruit, box of candy and other gifts. A friend, cash $2.00. Mrs. Geo. Collins, layer raisins, mints, peppermints, grapes, 2 doz. oranges, 1 doz. pkgs. Senator tobacco. Mrs. H. Corby plant. Mrs. Dilmutt, 1 doz. oranges, nuts. Mr. D. M. Waters, cash, $5.00. Mr. W. J. Dinmore, cash, $10.00. Belleville Lodge A. F. & A. M. per Mr. A. McGie, cash, $10.00. Mrs. H. J. Warren, cash, $1.00. Miss McCrea cash $2.00. Mrs. H. Corby, bathroom fixture, sponge basket. Mrs. Johnstone, cake. Mrs. E. B. Harris, crate of oranges.

## That Body of Yours

By James W. Barton, M.D.

### HIGH BLOOD PRESSURE REALLY A BLESSING

In a former article I questioned the wisdom of carrying a clinical thermometer about, and constantly taking one's temperature.

I pointed out that a little temperature simply showed that your body had some extra work on hand, due to a slight invasion by some harmful substance, and the temperature was a sign that Nature was putting up a fight for you.

Similary with high blood pressure.

Now high blood pressures seems to be a natural condition in some people just as is a high pulse rate. There does not seem to be anything wrong with the general health in either condition.

But of course in the majority of cases of high blood pressure there is something wrong with the blood vessels and kidneys.

The walls of the vessels are not elastic but are actually hard, with a deposit resembling lime.

You can see then that in order to pump blood through hard resisting tubes like this, that extra pressure would be required.

And so in these cases the extra pressure is found, and instead of being a dangerous thing is really a blessing.

What would happen in a case of hardened arteries if the blood pressure were not so high?

Why the wastes would not get out of the body properly.

The lungs would become congested and the breathing difficult.

Then the kidneys would not be able to get rid of the waste poisons of the system, and these poisons would get into the blood.

So you see the high blood pressure which means that the heart is pumping the blood through the system at a good rate, under high pressure, is really Nature's way of trying to bring the waste poisons of the system to the organs that throw them out of the body.

Thus the skin with its perspiration, the intestine with its waste, the lungs with its breath, and the kidneys with its waste are all encouraged to act with more strength and speed, to the great benefit of the whole body.

So if you have a high blood pressure, your doctor will tell you whether or not it is due to an abnormal condition of the vessels.

If it isn't there is no need to worry.

If it is, the need then is not worry, but obedience to the plan your doctor outlines for you in the matter of diet and exercise.

It will add years to your life.

### Comb Sage Tea Into Gray Hair

#### Darkens Beautifully and Restores Its Natural Color and Lustre at Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxurient. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

### SWEDISH SHIP TO HALIFAX

Halifax, N. S., Jan. 11.—Inaugurating the new Swedish-American steamship service to Halifax and New York, the steamer Stockholm, 22,000 tons, sailed from Gothenburg for Halifax on Saturday, January 5.

### Figuring

Madge—What are you thinking about, dear?

Marjorie—I hope bobbed hair won't go out of style before mine grows again.

Everybody Praises
Beecham's Pills after a fair trial. Those praise loudest who have used them longest. The great merit of Beecham's Pills has been proved all over the world.
There is nothing but praise everywhere for
BEECHAM'S PILLS
Sold everywhere in Canada.

## THE PARSON O'DUMFORD

There was a deafening roar from a couple of hundred throats, and then the poor schoolmistress's arrangements were overset, for a voice shouted:

"Fling thee flowers now, bairns," and the bride went up to the church on a floral carpet, and with a shower falling upon her from all around.

"What a shame!" cried the schoolmistress, as the party disappeared through the porch, and she was carried after them by the crowd which followed.

"Niver mind, owd lass, the bairns can pick 'em up, and fling 'em again."

Poor flowers, they looked crushed and drooping now, though, as Eve Pelly walked up the damp old aisle, feeling as if it were all some dream and beginning to tremble now as she approached the altar, where the rest of the party were assembled; from among whom came Richard, who had cast off his supercilious air, and was trying to play his part of bridegroom as became his position.

The young fellow was flushed now with the excitement of the scene, and somewhat carried away by the interest displayed by the town on the occasion of his marriage. He hardly heeded his mother's words as she clung to his hand for a moment, and whispered:

"You see, my son, now take your position that your father won for you of the first man in Dumford."

"I will, mother," he exclaimed proudly; and he glanced round the church, to see it crowded, even the aisles being densely packed, a low, murmuring buzz arising, which was checked, though, as the vicar, in his white surplus, moved from behind the great tomb, looking white almost as the linen he wore, and took his place inside the low wooden altar rails which Jacky Budd officiously closed giving his lips a smack as if he scented the feasting that generally followed this operation, and hastened to replace the hassocks in front of the little gates.

Eve's eyes rested upon the vicar's for a moment as she was led by some one, she could not tell whom, and told to stand in a particular position there was a strange whirring sound in her head, and the place was alternately swimming round her, and then coming to a dead stand, and beginning to recede, till the whole of the chancel seemed to be reproduced with photographic minuteness far away as seen through the wrong end of a telescope.

Then the mutterings of the crowd in the church reached her; Mrs. Glaire whispered, "Be strong for my sake," and Richard Glaire, dimly seen, stood beside her; and before her calm and motionless, divided from her by the quaint old wooden barrier, soon to be divided from her by bars that were a thousand times as strong, stood the man that she knew and owned now, with a kind of desperation that she loved.

It was a blasphemy, she told herself, to stand there as she did, ready to lie before her Maker; but as she mentally said his she prayed that her sin might be forgiven, and the act looked upon as a sacrifice to save her who had been to her as a mother, and Richard Glaire from a downward career; and as this prayer was repeated she heard the deep, sad voice of the vicar speaking.

The words came slowly, and the utterance grew deeper as hardly able to bear the bitter agony he experienced, Murray Selwood addressed the first solemn words of the service to those before him, going on to "I require and charge you both," while the silence in the church was almost painful.

Then turning to Richard, with his voice rising, he asked the question—

"Wilt thou have this woman to thy wedded wife, to live together after God's ordinance in the holy estate of matrimony? Wilt thou love her" (a pause), "comfort her" (another pause) "honor, and keep her in sickness and in health; and forsaking all other, keep thee only unto her" (a long and painful pause, during which Richard Glaire winced as he tried to meet the questioning eyes fixed on his, and failed), "so long as ye both shall live?"

"I will," answered Richard, once more trying to meet the eyes that were fixed upon him in solemn question, and failing miserably.

Those who watched the service from close by remembered afterward that trembling as, turning to Eve, he asked her—

"Wilt thou have this man to thy wedded husband, to live together after God's ordinance in the holy estate of matrimony? Wilt thou obey him, and serve him, love, honor, and keep him in sickness and in health; and forsaking all other, keep thee only unto him so long as ye both shall live?"

There was a dead silence and Richard Glaire felt his breath catch, as if a hand was at his throat as he saw Eve look wildly round from face to face and at last rest with a horrified expression upon those of the man who had asked her that solemn question. So deep was the silence, that a whisper would have been plainly heard and the voice of the clerk sounded painful and strange, as he said in a low voice—

"Answer 'I will.'"

There was another painful pause, iandado-ou cro(orlel2ns and then throwing herself on her knees and clutching the altar rail as one might have sought sanctuary in days of old, Eve shrieked out—

"No, no, no, no—God forgive me—I do not love him and I never can!"

Richard Glaire muttered an oath between his teeth and stooped to raise her, but the book was dropped, and the vicar's strong arm thrust him away.

"Stand back sir," he exclaimed; "this marriage can not proceed. Mr. Purley."

The doctor forward, raised, and laid the fainting girl upon the cushions hastily spread upon the stones of the chancel; and, tearing off his surplice, the vicar was the first to bring wine, and take one of the cold thin hands, as he knelt beside her, while Richard trembling with fury, sought to be heard.

"It's no use," said the doctor firmly. "Poor girl, over-excitement—nerves unstrung. We shall have brain fever if there is not the greatest care."

"It's all nonsense," cried Richard passionately. "A mere whim—a girl's silly fainting fit. Bring her to, doctor, and the marriage shall go on."

"I told you sir," said the vicar, sternly, "that it could not go on. Poor girl; she could bear no more."

"But," shrieked Richard, "it shall go on. Do you think I'll be made such a fool of before the town? Curse you; this is your doings, and—"

"Silence, sir," thundered the vicar. "You are in God's house. Leave it this instant."

Richard clinched his fist menacingly, but the stern eyes upon him made him drop them, and he fell back, the crowd opening to let him pass, when Mrs. Glaire tottered to his side.

"My son, my son," she faltered, clinging to his hand, but he flung her off and strode out at the little chancel door, ran hastily round to where the carriage with its four grays was in waiting, and as the wondering crowd closed round, he whispered to the nearest post-boy:

"Quick—to the station. Gallop!"

The crowd parted, and the boys raised a cheer; and, as if to make the mocking sounds more painful, a man ran out from the Bull with a red-hot poker and applied it to one of the little rough cannon.

There was a deafening explosion, and a tremendous jerk, as the frightened horses tore off at a full gallop along the High Street, the chariot swaying from side to side on its tall springs, while all the postboys could do was to keep their seats.

(to be continued.)

### Women of Three Generations

The daughter, mother, and grandmother have all proved from personal experience the remarkable strengthening and tonic properties of Lydia E. Pinkham's Vegetable Compound in overcoming the ills of women. It was first made from roots and herbs in 1873 by Lydia E. Pinkham of Cobourg, Ont., for her neighbors and friends. Its fame has spread from shore to shore until it is now looked upon by women everywhere as the standard remedy for woman's ills. It has been proved that it benefits 98 out of every 100 women who try it, which is a marvelous record for any remedy to hold.

# THE MARKET REPORTS

ON PAGE THREE MARKET QUOT.

Toronto, Jan. 11.—There was a very light market yesterday morning, with only 184 fresh cattle in, and practically the whole of the week's offerings cleaned up. A few milch cows and springers were unsold, as there seems to be very little demand in this section right now, except for anything of extra choice quality. For everything else there was a ready demand at good steady prices. A few steers around 1,150 to 1,200 pound sold at $7.50. General run of good to choice butcher steers and heifers $6.25 to $6.75; fair, $5.75 to $6; medium $5.50 to $6.25; common, $3.50 to $4.50; canners and cutters, $1.50 to $2.50.

Calves steady, $1 to $13.

Lambs steady, $12.50 to $13.50.

Hogs steady at $7.75 f.o.b. yesterday's deliveries, but market weak and packers bidding 50c lower for Saturday's loadings, $7.25 f.o.b. and $7 to farmer.

### Receipts

Union Stock Yards—Receipts yesterday, 16 cars, 184 cattle, 43 calves, 57 hogs, 142 sheep and lambs.

Straw, car lots $9.

## FOUND AFTER 15 YEARS WOMAN LEGALLY DEAD

New York, Jan. 11.—Mary Weller, who disappeared fifteen years ago and was declared legally dead, December 19th, by Surrogate Isherwood in Newark is alive and living with her husband and two daughters in Detroit, the Surrogate was informed. John E. Sofield, brother-in-law of the woman, said she had married Samuel Nole. Surrogate Isherwood withdrew his order.

## BLAMES CAESAR FOR TRAFFIC CONFUSION

London, Jan. 11.—Julius Caesar is to blame for the present chaotic condition of London's traffic, according to H. H. Gordon of London's municipal government.

Gordon blames Julius Caesar because the main streets of London were laid out by the Romans during Julius' time, with the result, according to Gordon, that in no other city in the world are the highways so chaotic.

## FIVE RACE RIOTS DURING 1923

New York, Jan. 11—Five race riots occurred during 1923, according to a report made to the annual meeting of the National Association for the Advancement of Colored People.

The most serious clash took place at Rosewood, Fla., where rioting lasted four days, seven persons—five negroes and two white—were killed, and the negro section of the town was desrtoyed by fire, it was stated.

Other riots occurred at Los Angeles, Blanford, Ind.; Braddock and Philadelphia, Pa.

## SUSPENDS MAGAZINE FOR RAPPING POLICY

## You Can't Keep Them Out!

Radio waves will penetrate just about everything! A test was made recently 90 feet below the surface of the Hudson River at New York City, in the steel tube of the new tunnel now under construction. Almost perfect reception was recorded. Major Gleim (extreme left) is chief engineer of the new tunnel, an engineering marvel.

# LIGHT IS THROWN ON PULPWOOD PLAN

## Barnjum Offers Suggestion For Stabilizing Market

In all the concern expressed for the so-called rights of farmers and settlers to dispose of their pulpwood how and where they please, no practical proposal has been offered which might really benefit farmers and land owners with pulpwood for sale. May I, therefore, offer the suggestion that the farmers and settlers in each of the provinces could very readily ensure themselves of a stable market for their wood and obtain a good fair price for it if they would adopt the co-operative marketing plan.

Farmers with pulpwood for sale are not very numerous in any of the provinces. It would be a comparatively simple matter for them to organize in each province a co-operative selling agency to dispose of their pulpwood. Under such an arrangement the pulp mills would have only one seller in each province to deal with and he would have control of the entire pulp wood cut for each season. This would guard against over-cutting as the requirements of the mills could be ascertained in advance and would also ensure that the farmer would obtain a fair price for his wood.

It would probably be necessary to employ a sub-agent or buyer for each separate county who would report to a central or general agent just how much wood was being cut in his particular county each season. The chief agent would then have control of the sale of the entire cut of the province and there would be no one to break the price or do any underselling.

A fair stable market would thus obtain and instead of the farmer selling his wood, as he now does in numerous instances for just about the value of the labour employed in cutting and hauling, he would receive reasonable compensation for the trees that either he or his predecessors have been protecting for forty to a hundred and fifty years, as well as a fair return for his labor.

A small commission, say, possibly up to 25 cents per cord, would recompense the agents and provide for contingent expenses. This charge would be compensated for many times over by the increased price the farmer would receive for his pulpwood.

This method of selling would also help to conserve the wood supply as it would avoid wasteful cutting, while the enhanced price the owner obtained for his wood would give him a better idea of its real value and lead him to take greater precaution to protect his woodlot from fire and to practice other conservation measures.

It is not necessary to wait for the actual application of an embargo on the exportation of pulpwood which, by the way, I am positive will be brought into effect during the present year, despite the efforts of the American interests and the machinations of some of our own politicans to prevent it, as it is a measure that should have been adopted long before this.

Let those who express to much concern for the farmer wood-owner, as well as the farmer himself, consider this proposal with the end in view that the necessary steps may be taken to give it effect. I stand ready to contribute my share.

FRANK J. D. BARNJUM.

# TRIAL IS FORCED UPON DIRECTORS OF DEFUNCT BANK

Toronto, Jan. 11.—Recent legal developments in the case in the form of the judgment by Hon. Mr. Justice Ferguson will not affect, according to Premier Ferguson's statement yesterday, the Ontario Government's determination to have the Home Bank directors stand their trial for conspiracy before a jury. "The government," the Premier stated, "will see that the Home Bank directors and officials are tried by a jury of their peers. We have the power, so that no matter what else happens, that will be done."

Hon. W. F. Nickle, K.C., stated that Mr. Justice Ferguson's judgment had only the effect of preventing action by the defence or the prosecution until ten days after the decision of the Appeal Court upon the question which he has laid before it. It did not mean, he added, that the new charge of conspiracy which the Government laid when a trial by judge was ordered for the accused was thrown out of court, but simply that action upon it was delayed.

The Appeal Court is considering the mandamus which was granted to the accused for a trial by judge and which Hon. Mr. Nickle appealed insofar as it related to charges laid under the Bank Act. The recent judgment which Hon. Mr. Justice Ferguson has delivered, prevents action upon any new charges laid by the prosecution until ten days after the verdict has been given upon this point. The Attorney-General has already laid new charges of conspiracy, in which he has the right to order trial by jury, but the order of the Justice will prevent their immediate prosecution.

### Appeal at Ottawa

Premier King has named January [illegible] as the date when the Dominion Cabinet will hear representatives of the depositors of the Home Bank on the alleged partial responsibility of the Government for the wreck of the Bank.

Whether or not Miss Agnes Campbell, of Melbourne, Ont., will be penalized for her courage some time ago in foiling would-be robbers who came to loot the Home Bank branch at that place, remains to be decided. The directors made her a gift of three Home Bank shares, and the Bank's liquidators, though unwilling, may have to proceed against her to recover $300 under the double liability provision. Although Miss Campbell did not actually get delivery of the stock, the Bank's books show that dividends were paid to her.

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

## Accused Youth

(Continued from page one)

entering the store. That night accused saw Fuller to the Ottawa train, and when he left Fuller (he Fuller) had said, "I'll be back shortly, and I am going to bring two ladies from Ottawa who are nice, and who you would like to meet." Witness denied that he had on that occasion said to Fuller, "You supply the ladies, and I will supply the drugs." On January 2nd, when Fuller returned, he entered the drug store where accused was employed, and purchased a tube of Pepsodent tooth paste and invited accused to visit his room at the Quinte and to bring the opium.

"I will not bring any opium but I will come over," answered accused. Witness positively denied having said that he had powdered opium at his home.

### Agent Takes Stand.

Leo Riddell alias Daniel Fuller, special agent for the R.C.M.P., was then called in rebuttal. When Detective Grignon attempted to go down the stair after Fuller, E. J. Butler objected.

"Knowing what I do about this man, I will not trust this officer to go down for him," explained counsel whereupon a local police officer escorted Fuller to the stand. Fuller, a rather smooth appearing young man took the stand, and told of his mission to this city where he was sent by his superior, Sergt. Sims to secure evidence on accused.

"I visited the drug store, and cashed a scrip for liquor first of all," he said.

"Do special officers for the R.C.M.P. drink whiskey," jocularly remarked the Bench.

"When the young man handed me the bottle, he said something to this effect, 'That is the stuff, whisky, women and something to sniff makes the world go round.'

"I naturally drew him out further," continued Fuller by stating that I could not snuff this, and asked if he could fix me up with something to sniff. He backed into the dispensary and returning stated, "No, I am above board and cannot supply you."

"Persisting I said, "I have some friends here who if you knew them, you might fix me up. Then it was that Fuller went out and met the young Belleville man who later introduced Fuller to accused, after Fuller had told the young man that he was acquainted in the underworld and knew his brother. This introduction occurred on the street on the night of December 28th. The three men then went down to the Queen's and had a few drinks in Fuller's room. Fuller told of leaving for Ottawa on the night of December 30th, and returning here on New Year's day. On his return he went to the drug store, told accused that the women were coming up, and for him to come over to the hotel at 7 p.m. and to bring something with him. Accordingly at 7.15 accused duly arrived at the room, where Fuller showed him a "fake" telegram supposed to be from "Evelyn" one of the girls, but which was in reality from Sergt. Sims of the R.C.M.P. Shortly afterwards the arrest occurred.

### A Rough Passage.

In cross examination, witness was badly tangled up by E. J. Butler, he having admitted that almost everything he had told accused was a series of lies, and admitting that apart from murder or almost equally sordid crimes, he would, "go the limit," in gaining the confidence of one who as he explained "was ruining the lives of others." Fuller has been living at Ottawa for six months but his home is Arnprior. He has worked in the west as an electrician and in British Columbia as a trainman for the C.P.R. Fuller admitted having been a drug user for some seven years, but stated that he was not now an addict. He was subjected to embarrassing cross fire from Mr. Butler for his false statements to accused and his passing himself off as an ordinary crook.

"I told him," continued Fuller that if I were to remain in Belleville I should have to have drugs to tide me over, as I was a user, and he promised to get me plenty to tide me over." accused also said he would like to meet some "big town" girls as he was sick of the "small time" girls.

"Is it a fact that the reason that you do not remember the exact date on which you returned to Belleville the second time, was due to the fact that you had been drinking with the boys here and were drunk."

"Did you drink much here?" persisted counsel for accused.

"Well I found that I certainly had to in order to keep up with the boys around here," answered Fuller with a smile.

### Case is Dismissed.

In summing up, Magistrate Masson told Fuller that doubtless he had been over anxious to make out a case against the young drug apprentice. "As for the accused," continued His Worship, "He gave his evidence very clearly and concisely, as I watched him in the box and at no time showed evidence of not telling the truth, and had not evidently attempted to swear himself clear. Fuller has cast a shadow against himself in planning to throw the boy off the track, continued the Bench, for though detectives must use plans to secure evidence, they should not use plans which are liable to permanently ruin a young man's life. Accused has certainly been a very foolish boy, but his whole career is at stake today. It is not a matter of a five dollar fine.

Accused swears that he did not bring the tin box containing 1-5 ounce of opium powder to room 70. Fuller swears that accused did bring it to room 70.

It is a direct denial. The accused is by law given the benefit of the doubt, and the onus is on the Crown to corroborate the evidence of Fuller, in order to satisfy my mind beyond the shadow of a reasonable doubt that he did bring that opium to the room. Unless the Crown can introduce corroborative evidence, their case must fail and I must discharge the accused, dismissing the case.

## Thousands Seek Canadian Homes

Montreal, Jan. 11.—Considerable activity in immigration from Europe to Canada is announced by Mr. J. Morrison, General Passenger Agent of Steamship Traffic for the Canadian National Railways. Mr. Morrison pointed out that boats arriving in Halifax this week will bring into Canada approximately 1000 new settlers from various European countries, and that the announcement on policy by the colonization department of the Canadian National Railways, together with that of the Federal Government relative to a preferential trans-atlantic steamship rate to immigrants from Great Britain, will undoubtedly give decided impetus to immigration with the approach of spring.

A part of 225 passengers from the White Star steamship "Lapland" and the Cunarder "Laconia" arrived in Montreal from Halifax Wednesday morning. Many of these, bound for points in Ontario, left on The International Limited and the remainder destined for points in Western Canada will leave Montreal to-night by The Continental Limited over the Canadian National Railways.

The Cunarder "Antonia" is expected at Halifax to-day with 200 passengers among whom there are a number of Russian Jewish refugees who will proceed to Western Ontario points.

The Anchor-Donaldson "Columbia" is due at Halifax on Sunday with 100 passengers for Canada and on the same day or early on Monday the Swedish-American liner "Stockholm" will make dock at Halifax.

This will be the first call of a boat of this line under the new service which calls for docking at Halifax on the way to New York. The "Stockholm" which is outward bound from Gottenburg, Sweden, carries 180 Canadian passengers, mostly of Scandinavian birth. The Canadian destinations of these passengers is not known yet, but it is thought that the most of them will be settled in Western Canada where there are already large Scandinavian communities.

## CANNIFTON

Mrs. Rose and her daughter Mrs. Blecker, Belleville spent Monday with Mrs. S. Boyce.

In spite of the great storm the stork called Sunday night and presented Mrs. Burton Lemon with a little daughter.

Mr. and Mrs. Black spent Tuesday at Mr. Harry Twiddy's.

Mr. Cole, Mr. and Mrs. Jones, Mr. and Mrs. Black spent Thursday evening at Mrs. M. Vanderwater's.

Mrs. Alice Kellar, Belleville is visiting her sister Mrs. Brady and several other old friends.

Mrs. Charles Mills is confined to her bed with grip.

Mrs. George Mills is in a very serious condition ever since the death of her son Thomas Mills.

Mrs. Gilbert Mason is home from Oshawa after spending New Years with her sister, Mrs. Frank Palmer.

The stork left a little boy at the home of Mr. Dan Vanderwaters on Thursday.

Winnipeg, Man., Jan. 11.—December, 1923, has smashed all mild weather records of December of the past ten years, officials of the Dominion Meteorological Office say.

MEN'S SWEATER COATS
Heavy All-Wool qualities in Brown and Navy. Regular value $5.00. Sale price $3.95

## DISAPPROVE OF CADET TRAINING

Winnipeg, Jan. 11.—Disapproval of any training or influence upon boys and girls in Manitoba savoring of militarism was expressed by members of the United Farmer women at the final session of their convention here to-day.

Two resolutions, one endorsing the Boy Scout movement and disapproving of the cadet movement, "or any movement which savors of militarism," and an other protesting against the hanging of war pictures in school room, and urging substitution of "peace pictures," were adopted unanimously.

One delegate declared: "The cadet movement is nothing but militaristic one," and another asked: "How can we foster ideals of peace when all around our school rooms are pictures of war?"

A resolution was endorsed urging that legislation be enacted making it necessary for parties contracting marriage to have a clean bill of health.

### FAMILY OF TWENTY.

Saskatoon, Sask., Jan. 11.—Mrs. Peter Thauberger, wife of a Dilke, Sask., farmer gave birth to her 20th child yesterday. Nine children are living.

### LACK OF GREAT MEN.

Whatever the cause, the nation today has fewer outstanding men in public life than at any time in generations. In the days when the total number of men conspicuous in public service was much smaller, the number of really great minds and courageous spirits was relatively much larger. Was it because in earlier times, when education was harder to get, when systematic propaganda was in its infancy, when collective through more nearly represented individual sense, there was a higher development of character an dconscience in things political and civic

There were times when great men could point to their followings rather than to what they followed. That was because they were thinkers, appealing to an age of thinking people.

# RAREST SONG BIRD OF THE AIR WARBLES HIS PRACTICE OPERA NOTES WHILE ON THE WING

BY ALEXANDER HERMAN

NEA Service Staff Writer.

INEOLA, N. Y., Jan. 11.—Discovered: A real rara a vis—an honest-to-goodness rare bird. It's habitant? A half a mile, or higher, up in the air between Long Island and Cleveland, and most points west.

And it's the funniest looking bird you ever did see. For it doesn't look like a bird at all.

Yet it's a songster, the like of which has never sung in these parts before. As it soars above the clouds it bursts into song, more powerful and mellow than any ever sung so high.

It's name? Wesley L. Smith.

You've heard it before. For it's the name of the dare-devil pilot that battled the elements and rode through a storm to scoop the world with the news pictures of the Dempsey-Gibbons fight in Shelby, Mont., last summer, which were published in The Intelligencer. And later repeated the performance with a daring night flight westward directly after the Firpo-Dempsey fight in New York.

He flies to develop his powers as a songster.

### HOPES TO BECOME AN OPERA STAR

"In time," he said when he came to earth, after a hard fight, "I hope to become an opera star.

"But that won't be for many years, for the training is much stiffer than any I had to undergo to become a flyer."

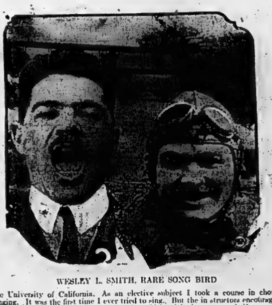
If ever he becomes as good a singer, as he is flyer, his friends on the airfield and in musical circles say that he will be at the top of the lists. For Smith has a record that is the envy of every flyer.

He hasn't had a forced landing in the past two years of his flying in the U. S. Air Mail Service. Yet he flies at least two times a week, and usually more, over the Alleghenies, and very often further.

Whenever there is a special commercial flight, such as carrying news pictures for NEA Service, he is the first to get the job, and usually the first to come through.

"I began singing," says Smith, "while I was studying electrical engineering at the University of California. As an elective subject I took a course in choral singing. It was the first time I ever tried to sing. But the in structors encouraged me. They told me I had a singing voice which might become good, if properly trained.

"At first I thought they were kidding. But I followed their advice, and am still following it.



WESLEY L. SMITH, RARE SONG BIRD

"I spend more than half the money I make flying preparing for the opera and concert stage. I take lessons in singing, French, piano, sight-reading and all the other kindred subjects that have to be mastered before one can try to qualify for professional work.

"My coach is Luckstone, who helped coach Melba, Nordica, Lambert Murphy and others. But I bet he is having a harder time with me than he ever had with them.

"Music is a big book. And I didn't start to master it when I was a kid.

"So I have to learn the fundamentals that most of the singers get as youngsters.

### SINGS LESSONS IN THE AIR

"But I'm not losing any time getting them now. While flying I sing my lesson in the air.

"It's hard work trying to outsing the hum of the motor, but I try it, anyhow. For the mere singing of a melody or thinking it in the mind is some exercise.

"And I always carry a French book with me. I take it to Cleveland and study it between hops."

Just what does he try to sing a thousand feet above the clouds, while he is racing along at a hundred miles an hour or more?

### FAR AWAY FROM THEE, I LANGUISH

"Lungi's 'Dal Caro Bene' is my favorite," says Smith. It means: Far away from thee, I languiish.

"And believe me, I sure am far away from home, most of the time.

"I like Italian airs best.

"But of the other melodies I prefer 'Myself When Young,' and, of course, Kipling's 'Mandalay.'

"But I'm not that far along in the art to make any comparative valuation of these songs. I only can say which I like best.

"But in time I hope to make singing my vocation and flying my avocation. As it is now the two are reversed.

"But I never expect to travel on trains. I hope to have a plane which will take me wherever I want to go."

Except for the suburban train which he uses to get to the flying field from his home in Manhattan, Smith rarely ever enters a train.

"I don't feel comfortable in 'em, they are too risky," he says.

So he covers the country by airplane!

# COUNCIL READY TO START NEW YEARS' WORK MONDAY AT INAUGURAL SESSION

### First Public Municipal Meeting of Importance To Many Citizens

### CEREMONY PLANNED

### Members of Board of Health Yet To Be Selected—Many Interested

At 11 o'clock on Monday morning in the Council Chamber, City Building, the inaugural meeting of the 1924 City Council will be held. The personnel of the Council is as follows:

Mayor—W. C. Mikel K.C.

Alderman—S. H. Treverton, W. R. McCreary, H. W. Greenleaf, A. Robinson, G. E. Foster, W. H. Patterson, R. Gardiner, R. J. E. Graham, A. E. LaRoche, R. P. White, D. V. Ketcheson and A. H. Ketcheson.

After City Clerk Holmes has announced the result of the composition of the Council Mayor Mikel will be escorted to the chair and invested with the insigna of office, namely the gold chain.

The business to be transacted is considerable. Chairmen of the various civic committees will be selected and possibly the slate prepared may not be carried out.

Three High School trustees have to be appointed to take the place of Mr. J. Elliott and Dr. O. A. Marshall whose terms of office expire, and one to take the place of Mr. Thomas Marshall who resigned.

Members of the Board of Health have to be selected, also a representative on the Corby Library Board.

In addition there will no doubt be some general business to transact. The session will be one of interest and will be attended by many citizens who take an interest in municipal matters.

## Trotsky Gets Sword Engraved in Gold

Moscow, Jan. 12.—The Russian dictator, Trotsky, has just been presented with a sword of honor, manufactured by the artisans of Dagbestan, celebrated for centuries in the Islam world.

The blade of the sword is richly engraved in gold and silver and covered with inscriptions, one of which is:

"When you brandish this sword in the light of the sun, its luminous rays will spread throughout the Mohammedan world and all Islam will unite with Russian to attack and destroy the white capitalists."

## BIG CARGO OF HORSES ARRIVES FROM ENGLAND

New York, Jan. 12.—A shipment of 94 thoroughbreds, representing one of the largest and most valuable ever imported by U. S. breeders, arrived to-day on the Mississippi from Great Britain. The ship had an unusually rough voyage and was six days late, but it was said none of the horses was injured.

The thoroughbreds are consigned to fifteen breeds. The most valuable of the lot is Craingangower, a five-year-old chestnut stallion, for which Johnson N. Camden, of the Hartland Farm, Versailles, Ky., was said to have paid $50,000.

Eighteen head will go to the stud of Commander J. K. L. Ross, Canadian turfman, at Laurel, Md.

## THE WEATHER

Moderate winds mostly cloudy and moderately cold today, and on Sunday. Light local snow falls.

## COMING EVENTS

Madame Zodda, Scientific Palmist has arrived. Is at the Hastings House. No questions answered unless written. J8-5td.

Concert Tabernacle Church, Auspices W. M. S. Thursday evening January 24th Marion Wood Alyea, Reader, assisted by best musical talent. Program 8 p.m. Tickets 35c. J11-2td

Don't forget—Weekly Assembly, Moose Auditorium, Saturday night Al. Wilson's Society Serenaders, six pieces. Good time assured. Price per couple 75c. Extra lady 35c. J11-e 1ta.

NOTICE

A meeting of the property owners and others will be held Tuesday, Jan. 15th for the purpose of talking over civic matters, election of officers, receiving of memberships and other business.

WM. PANTER, President
ALF HUNTER, Secretary.
J12-2td

All interested in the preservation of the Presbyterian Church in Canada are asked to attend a meeting at the Y. M. C. A. on Monday Jan. 14th, at 8 p.m., held to organize a branch in Belleville of the Presbyterian Church Association. J12-2td.

Mr. and Mrs. Johnstone's Social Assemblies are held every Saturday evening. Private lessons given. Time arranged to suit pupils. J12-1td

## "HOT DOG" SOCIAL HAS ODD EFFECT

### Intelligencer Readers writes Of Apparition Near Midnight Hour

Editor Intelligencer:—
Dear Sir:

I have read a lot about psychic and spiritualism recently and do not adhere let alone think of becoming a member of the fratenity, but a curious phenomena occurred about 2 a.m. this Saturday when an elongation of a piece of furniture in my bed-room presented a white rose to a figure on the window curtain and the angelic apparition gracefully retired with the coveted treasure. I can only explain it by the fact that I was one of many to attend the A. L. I. Band's periodical "hot-dog social."

I am sure sir you will allow me to reminisce. I remember the U. E. L. celebration at Adolphustown in 1884 when our city battalion in command of S. S. Lazier and I as a full private in the rear rank and Captain W. N. Fonton, (now Lieut. Col.) No. 1 Co., sojourned to Adolphustown to commemorate the event. We were too young at that period to realize the significance of the event, but now, that the U. E. L. has come to the front again, we begin to realize what it means and must have meant 100 years ago to the pioneers of this district. I am glad that his worship Mayor Mikel will soon assume the reins of municipal government, when no doubt we will receive more enlightment as to the forth-coming program. It goes unquestioned that the many dignitaries anticipated will be received in a manner befitting the occasion. Let us all look forward, and boost for success of the celebration which will undoubtedly have far-reaching results.

Yours gratefully,
A. W. ROLLINS.

## "CITY BEAUTIFUL" IS PLANNERS' AIM

During the year 1923 two of Belleville main streets have been paved, Highland Avenue and Station Street. It is also the intention of the council to make Station and Mill Streets into one street with a new name.

After agitating for several years for the pavement of Station Street it was accomplished during 1923. The property on this thoroughfare has been greatly increased in value and houses which were on the market for years have been sold since its completion.

Before this street was paved it conveyed a bad "first impression" to anyone coming to the city as they drove down Station Street from the upper depot. The road was bumpy, its borders were lined with obnoxious weeds and the dust caused by so much traffic was blinding.

A beautiful little boulevard has been built at the upper bridge in the centre of the road and next year the beauty of this spot will be enhanced with shrubbery, flowers and grass.

There is an old adage that "there is bad in everything" and the bad spot in this street is the old watering trough at the junction of Station and Foundry Street, just north of the new boulevard. This trough has given service at this particular spot for nearly two generations. It is a very old type of fountain, similar to those used in small towns and villages. This old trough will depreciate the beauty of the new gore, and to the stranger in town will cheapen the impression he has formed of Station St. in its present improved condition.

A soldier' memorial is now being agitated by the majority of citizens and a large number of them have suggested this new boulevard at the upper bridge as a suitable place for its erection. Why not design a style which could be erected at the site of this foundation where it could serve as a foundation as well as a memorial

### RIOTS IN PEKING

Peking, Jan. 12.—Storming down upon Supu, the first division of regular Hunan troops plundered the village, attacked the American Mission of Passionist Fathers—a Catholic Order—fired upon two American Missionaries and riddled the American flag, according to reports made to the American Legation here.

## "SHE NEVER GOT USED TO BIG AUTOMOBILES"

"She has never got used to them big cars", said a man named Knight who resides just outside of Foxboro to the Intelligencer, as he arose from the road after being hurled against a telephone pole at the eastern approach of the upper bridge.

Knight was driving his horse up Front street about 9-30 this morning when he lost control of it and the horse continued running up the street and turned sharp at the Upper Bridge. In turning to go over the bridge the sleigh skidded and struck the pole. The man was thrown from his sleigh, but apart from being a little shaken up he was not seriously injured. The harness and sleigh were damaged to a considerable extent and the horse was cut at the hoofs.

## BOY PRODIGY NOW WORKS AS TYPIST

New York, Jan. 12.—William J. Sidis, who at the age of two could read and write, at seven passed the Harvard medical school examinations in anatomy, and at eleven astonished professors of mathematics at Harvard with a lecture on the fourth dimension, to-day is a twenty three dollar a week clerk, punching an adding machine, having decided on work which required no thinking.

## BIBLE SOCIETY OF INVALUABLE AID TO NATIONS

### Rev. C. E. Clarke, M.A., Outlines World-wide Scope of Society

### MORE FUNDS NEEDED

### Officers Elected For Ensuing Year—Vote of Thanks Made

"The scope and work of the British and Foreign Bible Society in having the bible printed in over 600 different languages and seven tenths of the world now reading portions of it in their own language are some of the society's grand achievements," declared Rev. C. E. Clarke, M.A., Rector of Christ Church in an address delivered last evening. "Christ died for all mankind and He loves all mankind. As followers of the divine master we must assist in having the scriptures translated in all the languages of the world. The scriptures must be in all languages for propoganda purposes. The work of the Society is enormous and great resources of money is necessary to carry on the work. Scholarly minds are engaged in this great work and they are consecrated men. How missionaries have been baffled in the past on account of the scriptures not being in the language of the people they are ministering to one of the great opportunities today in China which is becoming a great literate country owing to its symbols of language being revised and reduced in numbers. Now all in that great country are beginning to read and write and the missionaries have a great field opening up to them. What will it mean to have millions of copies of the Bible in that country and in its languages.

"It will require larger sums of money. Today the bible society was selling many editions at one-third of the cost of production. Last year twenty-five million copies were produced and then the supply did not meet the demand."

The Divine in his closing remarks appealed to all denominations to assist in the work of the Bible Society, a society which was accomplishing so much for the bringing of the world to Christ.

At the close of the address a hearty vote of thanks moved by Rev. H. B. Kenny and seconded by Mr. R. Templeton was accorded Rev. C. E. Clarke for his address.

The occasion was the annual meeting of the Belleville Bible Society and it took place in Christ Church Parish Hall and was well attended.

Rev. A. L. Geen, President of the local society was chairman and a number of clergymen of the city were present. Ven. Archdeacon Beamish and Rev. H. B. Kenny assisted in the the devotional exercises.

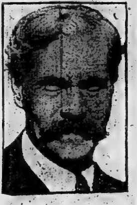
The President in opening the meeting referred to the good works done by the collectors who had collected some $300 the past year for the society.

Mr. J. W. Cook, treasurer, presented the annual report which showed that the collectors last year collected $305, of which amount $250 had been sent to the head office of the Bible Society. The treasurer also referred to Rev. A. L. Geen as a live resident and a real worker for the Society.

(Continued on page eight)

### U. S. MONEY IN CHILE

Santiago (United Press).—The United States has close to three hundred million dollars at the present exchange invested in Chile, according to the American Ambassador, William M. Collier. The larger part of these investments are in mining and nitrate industries. No other South American country has this much American capital.



RAMSAY MacDONALD.

## HEAVILY FINED FOR MAKING 'BOOZE'

Oshawa, Jan. 12.—William Szewezuk pleaded guilty to being the proprietor of a still for the illegal manufacture of liquor, and to having a quantity of liquor, in the Oshawwa Police Court yesterday morning before Magistrate Hind.

For having the still he will pay $400 and costs and for B.O.T.A. it will cost him $200 and costs, a total of $630. The plant and product were confiscated.

## LABOR RADICALS SEEKING CHANCE TO PICK 'PLUMS'

### Angry at Its Lack of Representation in Proposed MacDonald Cabinet

### SLATE OF MAIN PLUMS

### Strong Efforts to Have Sidney Webb Chosen For the Exchequer

London, Jan. 12.—Ramsay MacDonald has been conferring with leaders of the Labor party regarding the Cabinet posts and enough gossip based on these interviews has become available to make possible a tentative slate of the main plums of the first Labor Cabinet should the Conservative be defeated:

MacDONALD—Prime Minister and Secretary of State for Foreign Affairs.

PHILIP SNOWDEN—Chancellor of the Exchequer.

J. R. CLYNES—Lord of the Privy Seal, and leader of the House of Commons.

ARTHUR HENDERSON — Home Office.

J. H. THOMAS—Either Secretary of the Board of Trade or War Minister

SIDNEY WEBB — Minister of Health (which includes the old Local Government Board and all controlling mechanism of local Government).

VISOUNT HALDANE—First Lord of the Admiralty.

ARTHUR GREENWOOD—Minister of Education.

LORD PARMOOR—Lord Chancellor.

PATRICK HASTINGS— Attorney-General.

MISS MARGARET BONDFIELD—Minister of Labor.

Of these appointments that of Lord Haldone at the Admiralty is doubtful because it is not known if he will accept. He has already refused to be Lord Chancellor.

Labor's deliberations are shrouded with secrecy, but it is apparent that the left wing of the party, composed of the Glasgow members of the House, is and the Independent Labor party, is angry at its lack of representation in the new Cabinet. Philip Snowden is the real head of this left wing and his appointment to the Exchequer post is MacDonald's sop to his more extreme faction.

Strong efforts are still being made by the moderate and intellectuals to have Sidney Webb appointed to the Exchequer, but such a move with Snowden left out, would be the certain cause of an immediate split in the party.

### OPPOSE GERMANS

Regina, Jan. 12.—Replying to the protest voiced by the St. Catharines, Ont., Chamber of Commerce, following the announcement that 3,000 Germans were likely to immigrate to Saskatchewan, the Regina board of trade last night passed a resolution favoring unrestricted German immigration.

The Regina branch of the Great War Veterans Association has decided to investigate the authenticity of the report that Germans were immigrating to this province. Strong disapproval of the scheme was expressed.

### GIVE FAMILY MONEY

Montreal, Jan. 12.—One hundred dollars a month to support the wife and nine children of J. B. MacLachlan, Nova Scotia miners' strike leader now serving a two year sentence for seditious libel, has been pledged by the Canadian Pacific Railway system federation local council in Montreal, the money to be subscribed as long as McLachlan remains in jail.

## BOLD THUGS "FARES" "SLUG" TAXI DRIVER

Toronto, Jan. 12.—Dealt a severe blow on the head from behind by one of two men he was driving north on York Mills road at 12.25 a.m. Friday, A. J. Williams, 116 Seaton St., taxi driver for the Dollar Taxi Limited, was rendered unconscious, recovering a few minutes later alone in his car, which was still moving forward slowly under its own power.

## FLAMES DESTROY BUSINESS SECTION OF KAPUSKASING

### Eleven Buildings In Kapuskasing Are Wiped Out By Fire

### IN EARLY MORNING

### Fire Could Not be Controlled, Because of Lack of Water

Kapuskasing, Ont., Jan. 12.—Eleven buildings were totally destroyed by fire early Friday morning. The damage is estimated at $100,000. Persons had to jump from the second storey windows of the Ontario Hotel, one of the burned buildings, and sustained slight injuries.

The fire, which originated in one of the rooms at the Ontario Hotel, was discovered a few minutes after two and in the course of twenty minutes the fire had broken through the roof and walls of the Ontario Hotel and had communicated to the Riverview Hotel on one side and the Montreal store on the other. As there are no waterworks in this part of the town, the fire could not be controlled.

Owing to the distance it was 2.45 o'clock before an alarm could reach the Spruce Falls mill and by that time most of the damage was done. The Spruce Falls Company immediately rushed their locomotive and hoses to be connected to the C.N.R. water tank but by the time they reached the scene of the fire it was under control with eleven buildings burnt to the ground.

The fire originated at the Ontario Hotel which is the second building at the east end of Main street, spread to the Riverview Hotel and to the Montreal Store, and from there every building up to Mayor J. A. Stewart's residence was destroyed. The following places were burnt: Ontario Hotel, proprietor, O. Gelimas; Riverview Hotel; the Montreal Store; the Forest Cafe; J. A. Lacroix, general merchant; A. Lafleur, shoemaker; O. Morel, butchers; C. Ellis, druggist; The Kapuskasing Cafe, owned by Chinese; the Roman Catholic church and Mr. B. H. Wright's cafe.

In many cases insurance had been cancelled in that part of the town some six weeks ago. A new townsite was built up last summer on the east side of the river and the Canadian Natoinal Railway station was transferred to the new townsite the first part of December and the part of the city which was destroyed this morning was to automotically be a thing of the past next spring, owing to having no hotels on the new townsite. This portion of the town, however, was still the important business centre.

Only through strenuous work was the private residence of Mayor J. Albert Stewart saved and if this residence had burned it would have spread further to the remaining portion of the business section of the town and probably would have wiped out the whole west side of Kapuskasing as a wind was blowing in that direc.

# STRANDED WORKERS' DILEMMA UNDECIDED ON ACCEPTANCE OF GOVERNMENT OFFER

### British Workmen Express Strong Disapproval of Taking Places on Farms—Would Stick to Preferred Trades

### SUPPORTED BY LABOR

### Toronto Secretary Quotes Promise Declared Made Before Bringing Men to Harvest Fields

Toronto, Jan. 12.—The British harvesters stranded here are going to take several days to decide whether or not they will accept the dominion government's offer of jobs on the farms and transportation, and Rev. D. N. Morden who has been placing the harvesters case before the churches, will make their decision known at the beginning of the week.

Friday Albert Chamberlain, president of the British Welcome and Welfare League, who presented the harvesters' case before the government, and who was given the promise of farm jobs, conferred with Mr. Morden and officials of the harvesters group. It was decided to make a statement to the group outlining the situation. Mr. Chamberlain told the harvesters that the farm jobs would tide them over to the summer but to consider the matter from all angles before they decided. He promised that whatever they did, whether they took the farm jobs or not the British Welcome and Welfare League would stand behind them. He told how the Church of England was going to look after eighty harvesters, how St. Andrew's Society had sent $200 to the league for food and beds for the Scotsmen how the St. George's society was going to help the Englishmen and Welshmen, and how the proceeds of a lecture were to be used for their support.

#### Are in a Dilemma

The harvesters will consider the fact that all these local organizations are offering to support them and that even if they turn down the government's offer the league has promised to support them.

The harvesters are apparently in a dilemma. At their meeting they expressed themselves as being against farm jobs, saying that they wanted work according to their trades. Several of the harvesters interviewed when the news of the government offer was made known stated that while farm work would solve the single man's problem, it didn't help those with dependents in the old country for they couldn't make enough on the farm to support the dependents.

Rev. Mr. Morden told the men today that they shouldn't make known their discussion or their decision outside the group, telling them "The less that is said the better off it is going to be for you." Then he told them he would give out a statement on the situation in a few days.

#### Are Worthy Cases

The Toronto District Labor Council urges Torontoians to support the harvesters. James Watt the council secretary in a letter states: "The opportunity given the citizens of Toronto to support the efforts of the British Welcome and Welfare League in sustaining the British harvesters now stranded in this city will surely not be neglected, especially during this season when most of our people readily respond to the call of the more unfortunate.

"These men were brought here un-

(Continued on page eight).

## DOCTOR'S SCRIPT FEES ARE SCORED

### Registration of Private Stocks Also Asked For in Temperance Resolution

Toronto, Jan. 12.—Requests that legislation be passed making it illegal for doctors to charge a fee for issuing liquor prescriptions, and also that the law compel private owners of liquor to register their stock so that any quantity found in excess of the amount registered be subject to a penalty under the Ontario Temperance Act, will be embodied in resolutions to be submitted at the 75th anniversary of the Sons of Temperance in Ontario in Willard Hall on January 23 and 24.

Aother resolution will ask the Government, if it submits a referendum on the liquor question, to submit also the question of prohibiting the manufacture and sale for beverages purposes of native wine.

## To Pay Heavy Fine; Bench Speaks Mind

Toronto, Jan. 12.—Morris Borenstein met County Constables Myers and Taverne while transporting a load of liquor in an Oakland sedan through Etobicoke township.

"I have no more consideration for this man than I have for a rattlesnake. I have sympathy for a poor devil caught with a bottle of liquor but not for a man making money out of this vile stuff," declared his worship emphatically.

Borenstein was fined $1,000 and costs or six months.

## GOOD PRICES HOLD AT LOCAL MARKET

### Butter, Eggs, Cheese, Chickens and Meat Sell in Quantity

The market today was not largely attended there being a number of vacant spaces in the interior. Prices obtained for all products offered for sale were good.

Fresh dairy butter sold at 43c and 45c per pound, fresh eggs 60c per dozen.

Dressed chickens were offered for sale in considerable quantities and sold well, mostly from $1.50 to $2.50 per pair. A few pairs of ducks were sold at $3.00 per pair. Geese and turkeys there were none.

Potatoes sold at $1.50 and $1.60 per bag and were not much in evidence.

Many loads of wood were offered for sale and purchasers for same were found. Hard wood sold at $6 to $7 per sleigh loads and soft wood at $4 to $5 a load. A few cord lots of hard wood were sold at 13 and $13 a cord.

### CAPITAL LEAVES FRANCE

Paris, Jan. 12—The flight of capital from France has already begun, increasing with the fall of France, Deputy Moue, Socialist, warned the Government in the Chamber of Deputies last night.

## CONVULSIONS OF EARTH'S CRUST CAUSE OF DAMP, COLD WEATHER

### Sir Bertram Windle Explains How Inner Movements of World Affects Animal and Plant Life

Toronto, Jan. 12.—A series of illustrated lectures on "The Races of the World" was given in the Physics building Friday afternoon by Sir Bertram Windle, LL.D., F.R.S., lecturer on ethnology in the University of Toronto.

The lecture, which dealt with the relation between physical geography and climate on the one hand and ethnology on the other, opened with a statement as to the continual unrest of the continents, the land at times sinking and again fresh lands re-emerging from the sea, whilst mountains—always the most recent objects in the landscape—were piled up. In addition to this, there were minor oscillations like those which cause the occasional lowerings and raisings of the water in the great lakes.

#### Effect of Basalt

In times past it appeared that the continental masses had altered their position with regard to the earth, a fact rendered possible by the existence some 25 miles beneath the surface of a sea of more or less molten basalt on which the crust floated like a kind of pontoon. Basalt melted at a temperature of about 1,200 degrees, and when it burst it was lava, yet flew about 50 or 60 miles before cooling. At one period of the earth's history there was a huge continent called Gondwanaland, which extended from the east coast of South America to the west coast of Australia, taking in India and Africa. By some great convulsion Africa and North America were turned apart, but a glance at the map would show how the northwest corner of Africa fitted into the Gulf of Mexico.

#### Division of Lakes

Sir Bertram then went on to discuss the glacial period and its effects on the earth, including the temporary division of the Mediterranean into two great lakes cut off from the Atlantic at the straits of Gibraltar and otherwise separated on the line of Sicily and the toe of Italy. The effect of this upon the Sahara was pointed out and how the subsequent change of modern conditions had rendered large areas of that desert (once densely populated) uninhabitable. Further changes in connection with the Baltic were mentioned, related to which was the legendary Norse period of the twilight of the gods.

The lecturer then pointed out that there were weather cycles, short and long. The minor cycles seemed to last about 15 years and it would appear that we were now about to enter on a cold damp period of that duration. The longer periods may extend over some hundreds of years.

## 10,000 PHYSICIANS PLAN CONVENTION

Chicago, Jan. 12. (United Press)—More than 10,000 physicians and surgeons are expected to attend the annual convention of the America Medical Association here June 9 to 13, 1924.

The convention will occupy the second tier of the municipal pier. It will be subdivided into lecture halls, exhibition rooms and an auditorium.

Most recent discoveries in medicine, newly developed apparatus, instruments and other devices used in medical practice, will be exhibited.

Motion pictures will illustrate advanced medical methods.

Convention plans were made at a meeting attended by Drs. J. Sheldon Horsley, chairman, Richmond, Va.; E. J Judd, Mayo Clinic; F. Gengenbach, Denver; John E. Lane, professor of diseases of the skin, Yale University, and Roger Morris, professor of medicine, University of Cincinnati.

## VENIZELOS FORMS HIS NEW CABINET

(United Press Despatch)

Athens, Jan. 12—M. Venizelos, last night formed his cabinet. He will be premier without portfolio and George Roussos, former Greek Ambassador to the United States wil ble Foreign Minister in his cabinet which will be composed of members of Venizelist faction.

Athens, Jan. 12.—Greek people demand "a just and fair administration and settlement of their future government" Premier Venizelos said in his address to his newly formed cabinet.

### A ROMANCE OF INDUSTRY

Scarcely a century and a half ago one of the foremost of the international men of his time urged his country to exchange Canada for a small tropical island, rich in its exports of rum. To-day the name of that island is known to school children and a section of export houses only. And the country that was then the "waste of snows" stands forth as the world's second greatest per capita exporter, and fourth greatest foreign trader. She has just emerged from a devastating war in which she played a heroic part among the nations of the world, and into which she sent on her armies almost one-twelfth of the total population. Within the years of the war she increased her national debt practically eight-fold and yet to-day the per capita national debt compares most favorably with that of all her allies.

This same country is now the world's greatest exporter of wheat and ranks high in mineral and forest production, in live stock and dairy exports, in fishery products and in manufactured goods.

And yet her achievement is that of a Dominion, whose youngest provinces are not yet twenty-one years of age, whose population is only nine million and only one-sixth of whose arable land is under cultivation. There are few romances in modern development to compare with her expansion and the rapid expansion of her foregin trade proves most unique in contemporary records of commerce.

### WATCH THE CROSSINGS

In many cases accidents at highway crossings are due to the negligence of those driving cars and other vehicles, and of pedestrians. This negligence is found both at unprotected and protected crossings. Railways from January 8 to December 1, 1923, show 55 cases where there was danger at protected crossings due to the negligence of those using the crossings. The Toronto, Hamilton and Buffalo lines, from June 6 to November 18, show 8 cases.

Notwithstanding safety devices and cautionary signals, people take chances and disregard safety. Motor accidents are becoming more frequent. Every sane motorist deplores this. If accidents are to be lessened ,the sane motorist must educate the culpably negligent motorists.

## WILL TRAIN SOLDIERS FOR LIFE IN CANADA

London, Jan. 12.—It is officially stated that soldiers who have onyl six months service to complete their military engagements are eligible for the overseas settlement training course during their last six months in the service, provided accomodation is available for them at the training station at Catterick, Yorkshire.

"Raw feet can make war," says Lord Curzon—"and that is the reason why wise men have to arm themselves," adds the Boston Transcript.

## PRESS OPINIONS

### PANTOMIMIC CODE

(Los Angeles Times)

A system of pantomime brought from Montreal is being introduced in the police department in New York. By means of it detectives and others may converse with one another in the presence of criminals. A suspect may be interrogated by an officer with questions suggested by a dozen different persons and without the knowledge of the one under suspicion.

There is a regular code, which covers and interprets all ordinary movements. Thumb-twirling or trifling with a pencil or pocket-knife may be expanded into a serial story to the eyes of the trained observer. In a social way the art is entertaining, but it has a positive value in police practice. Charlie Chaplin could get some sport out of this.

• • •

### UNWARRANTED INTRUSION

(Detroit News)

It is one of our peculiar follies that as soon as a man's name becomes generally known we begin to pester him with questions concerning things that he is no more fitted to discuss than the first chance pedestrian encountered on the street. In other countries such a practice is considered an unwarranted intrusion into a man's privacy.

The opinion of an expert on his own subject is valuable; but his hit-or-miss conjectures on other matters are none of the public's business, and should be left the private and secret property of the man who holds them.

• • •

### THAT PRIZE PEACE!

(Montreal Star)

"The United States proposes that moral judgment and public opinion be substituted for 'force,' unless the Monroe Doctrine is infringed upon, when, presumably, the full power of the army and navy will be at the disposal of the United States government. The United States will not send a soldier to Europe for war, says the prize-winning classic in effect, but the world must know that when it comes to the settlement of questions in the New World its will is law and it will enforce it.

Of course the world will go on just the same, the Hague Conference, the League of Nations and the Peace Prize of Mr. Bok notwithstanding, and men will defend their nation's honor as they do their private honor. However, the prize will do no one any harm and the winner will at least benefit.

## WIT AND HUMOR

Miss Sweet—It must be glorious to be able to write as you do.

Novelist—Yes; I have got so that I can tip back in my chair, with my feet on the desk, and dictate by the hour.

### SUPERFLUOUS.

Would you paint the lily?
Senseless thing to do.
And to rouge the two-lips,
That is foolish, too.

### HEARING.

"You can't believe everything you hear."

"No," answered Granny Bilem. "If you could, I'd want to grow deaf as rapidly as possible."

### MISSED HER OPPORTUNITY.

Mrs. Blowitt—I could have married four of the wealthiest men in town.

Her husband—Why didn't you? The whole four might have been able to pay your dress bills.

### THE REASON.

"Fortune frowned on him."

"What did he expect. If you wait to get a smile out of fortune you've got to do something more than just try to flirt with her."

### WELL VERSED.

"Pop, what's a synonym?"

"It's one of them places where you get a big salary and no work to do. Always come to your father, my boy, when you want to know anything."

### THE USUAL WAY.

"What is that string around your finger for?"

"That is to remind me that I forgot something my wife tied it there for me to remember."

### PAIN EVIDENCE.

"The young writer we met the other day told me he looks into his heart and writes."

"Yes, it is evident he does not look into his head."

### HE KNEW.

Bridegroom—Just look at that young wife. Doesn't she look queenly?

Friend—Yes, she does; but wait until she begins to rule.

A small man may be a big nuisance.

### AFTER THE ELOPEMENT.

She—I am telegraphing papa asking forgiveness.

He (broke)—Better make it "forgiveness and funds."

Future generations will regard this era as unspeakably stupid because of the many automobile killings—provided there are future generations.

### QUITE WILLING.

"It's a shame," cried the young wife, "not a thing in the house fit to eat. I'm going straight home to mama."

"If you don't mind, dear," said the husband, reaching for his hat, "I'll go with you."

## Music & Drama

### "THE FOG" A FILM OF RARE

Coming Photoplay Full of Thrilling Moments.

Nathan Forge, born a poet and dreamer, is enveloped in the fog of harshness and brutality which threatens to crush his spirit. In another town, Madelaine Theddon is fighting her way through the fog of whispered remarks that she is a girl without a name—and finds herself the object of Gordon Ruggle's desire. But one day she is touched by one of Nathan's poems and traces him, only to find that he has found solace in the love of a girl unworthy of him and has married her. She returns home, broken-hearted. Later Nathan's wife proves untrue.

Nathan and Madelaine go on through the fog, searching for each other, but never knowing what they seek. After a series of thrilling adventures, however, they find themselves in Russia during the war. And it is there the threads of their lives cross, and there ends the quest for happiness.

Such is the bare outline of "The Fog," a Metro picture which comes to the Regent Theatre, Monday to Wednesday. It is one of the most appealing, thrilling and powerful stories ever screened. It is a story that will appeal to those who love adventure in strange places. And all will delight in the unusual love story. In it [illegible] is that vital romance which develops conflicts and triumphs over them. The highly diversified situations have been developed and coordinated by the master hand of Director Paul Powell, under the personal supervision of Max Graf.

The difficult roles are played by one of the most notable casts ever assembled for a single picture. Among the players are Mildred Harris, Cullen Landis, Louise Fazenda, Ethel Grey Terry, Louise Dresser, Marjorie Prevost, Ann May, Ralph Lewis, David Butler, Frank Currier and Edward Phillips—a cast that insures the highest type of screen acting.

### MARY PICKFORD IN NEW-OLD PHOTOPLAY

Will Be Seen in Her Own 1922 Production of "Tess of the Storm Country."

An artistic triumph of several years ago, "Tess of the Storm Country" has been revived in a new production by Mary Pickford. It is the first instance in which a great star has rebuilt from the past a motion picture which won for the foremost place in the heart of the screen worshipping public.

"Tess of the Storm Country," in its new form—all old prints of the original production having been withdrawn from circulation—deals with the human drama arising in an humble community of fishermen—squatters on the shore of a lake belonging to a wealthy and greedy owner. Stern efforts to evict the fisherfolk are centred on Tess, daughter of a mild old waterman. It is her winsome beauty and sweetness which inspire the son of the wealthy man to intercede for the squatters.

There is a conflict between this young man and a villianous rough who persecutes the girl with unwelcome attentions. A heart touching sacrifice on the part of Tess saves the rich man's daughter from disgrace, and there is powerful situation added by the fisher lass going through the agonies of having her father arrested and tried for murder.

This most appealing story is from a best seller of a decade ago by Grace Miller White, and its happy conclusion is reached after tremendous suspense such as Mary Pickford alone can build up with her renowned gifts of mimicry.

This production of "Tess of the Storm Country," produced by Miss Pickford for United Artists' release, has been booked as the feature attraction for Mon. Tues. and Wed. by the management of the Griffin The-

## Red Pepper For Rheumatic Pain

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops the old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and sickness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## Cream Clears A Stuffed Up Head

Instantly Opens Every Air Passage—Clears Throat, Too

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or snuffling. Count fifty. All the stuffness, dryness, struggling for breath is gone. You feel fine.

"I could not walk"

Headaches, dizzy spells, pains in the back, swelling of feet and ankles, suppressed, scalding or painful urination—are all indications of kidney trouble. Read how Gin Pills relieved one sufferer:—

"I am seventy-eight years old and have suffered from kidney trouble for over two years. I had swollen feet and hands, sleeplessness and dizziness so that I could not walk. I began taking Gin Pills and now the swelling has left and I do not have any dizziness, and sleep well. I can recommend Gin Pills."

(Signed) Esther J. Odell.

Gin Pills will relieve you, too. Order a fifty-cent box from your druggist to-day.

National Drug & Chemical Co. of Canada, Limited
Toronto, Ontario.

Gin Pills in U.S.A. are the same as Gin Pills in Canada.

## This Referee Handy With His Fists, Too

Miami, Fla., Jan. 11—Young Stribling, Macon high school boy, knocked out Mike Nestor, of New York, in the sixth round of a rough fight here last night. Stribling showed his superiority in every round, flooring Nestor in the third for a count of eight and again in the sixth for nine and the knockout.

Stribling wasted little time, and when Nestor roughed it he found his lighter opponent giving him all he could handle.

The knockout blow came after Stribling had punished Nestor with lefts and rights to head and body. The heavier man tried to reach his feet but was unable to do so.

In the fourth round Referee Harry Graham was tosed to the ropes by Nestor after he had warned Mike repeatedly for rough tatics. Again in the fourth Nestor swung at Graham who retaliated with a solid left to Nestor's head. As a climax, Nestor threw Stribling to the floor in this round and fell on top of him.

Graham pulled Nestor off as a pop bottle was thrown into the ring at Nestor. The crowd milled about and was on the verge of storming the ring as police leaped into the arena. Quiet was restored and Stribling said he was willing to go on with the fight.

In the sixth Nestor went to the floor for a count of nine from a right to the jaw. As he rose a left to the heart and a right to the jaw sent him down for the final count.

Stribling weighed 167 and Nestor 176

GLASSES!

Well becoming to your features, yet filling your every Optical need. This is the place to get them.

So, if your eyes trouble you at all, don't neglect them another day. Let us give them an examination and advise you as to just what kind of Glasses will do you the most good. Our prices and service will please you.

## CHAMPION BUTTER MAKER IS HONORED

### Prize-Winner in British Empire Competition Presented With Gift

Kingston, Ont., Jan. 11.—A prominent feature of the Eastern Dairymen's convention was the official opening Thursday of the Eastern Dairy School, which was the occasion for brief addresses by the principal, L. A. Zufelt, members of the teaching staff, and ex-students, in addition to the speech of welcome to new students of the institution, delivered by His Worship Mayor Thos. B. Angrove, who said that the fine building recently completed had compensated the Eastern Ontario dairymen and citizens of Kingston for the loss sustained in the destruction of the old dairy school building by fire a year ago. He expresed the appreciation of the citizens of the action of the Dairymen's Association in holding their annual convention at this important centre of the dairy industry. The Eastern dairymen, especially those of Frontenac, deserved great credit for winning in the competition with the Empire at London.

For his winning first prise in butter making competition open to the British Empire, a silver piece donated by the citizens of Kingston was presented by Mayor Angrove to Joseph Cray's of the Kingston Dairy School, who, in reply to the Mayor's remarks of congratulation, gave a share in the credit for his success to the milk producers who had provided him with raw material of superior quality. Further congratulations to the winner were made by L. A. Zufelt, who also expressed regret at the unavoidable absence of the Hon. John S. Martin, Minister of Agriculture, who was expected to have delivered the principal address of the evening. Others who congratulated the winning buttermaker in the course of short addresses were, Warden J. S. Sibbert, G. G. Publow and John Echlin.

**Declared School Open**

The honor of declaring the new dairy school officially open devolved on director of dairying in Ontario, Geo. A. Putnam in the absence of Hon. John S. Martin. He recalled the planning and erection of the original Eastern Ontario Dairy School more than twenty years ago. The purpose of the Dairy School, he declared, was broad, including the supervision of inspection of factories, and other activities, in addition to instruction of prospective cheese and butter makers. The location of the school in Kingston was a happy selection in view of the great help in providing instruction available in the University of Queen's. To the producers, Mr. Putnam made a plea for more strict attention to quality in the raw product of the dairy industry and he congratulated those responsible for the supply of milk that had gone to make products that proved winners at the London Dairy Show last year.

A most entertaining feature was the account given by Dairy Commissioner Ruddick, of his recent visit to New Zealand and Australia to investigate the industry as carried on there. His talk was given in accompaniment of colored illustrations showing, in addition to activities and buildings in connection with dairying, a number of city, country and native life scenes in the Antipodes. Explaining the real basis of the wonderful advance in dairy production in New Zealand within the past 25 years, Mr. Ruddick pointed out that cleared but unplowed lands in parts of that country will support 100 cows to 100 acres as against 10 cows to 100 acres, the average in Canada. The largest factory in New Zealand, which last year turned out 1,000 tons of cheese in addition to a great amount of butter, received all the milk utilized from 63 patrons located within three miles of the factory.

## Headaches For Weeks

They Soon Disappeared After Using Dr. Williams' Pink Pills

Every woman, at times, finds the routine of housework irksome. But how much more difficult are the daily tasks of the home to the woman who is nervous and rundown? She prepares meals for the family, but has no appetite for food. What she does eat distresses her, headaches and dizziness follow, there is a fluttering of the heart, and the complexion becomes pale. In cases of debility of this kind building up the blood is generally effective. By improving the quality of the blood and increasing its quantity, nourishment is carried to the shattered nerves. The appetite invariably improves and gradually the exhausted system is toned up and the whole outlook of life is brightened. Mrs. Geo. Grant, R.R. No. 1, Markdale, Ont., tells for the benefit of others the great benefit Dr. Williams' Pink Pills were to her in a run down condition. She says:—"If anyone can strongly recommend Dr. Williams' Pink Pills I feel I can. For over four years I had been troubled with my nerves, and for weeks at a time I would suffer terribly with headaches. My blood was very thin, I had no appetite, could hardly go about. I was afraid to stay alone in the house as I feared something more happen me. Finally I decided to try Dr. Williams' Pink Pills and they have made me a new woman as I am now the picture of health. I have increased in weight, the headaches come no more, and my nerves are as good as ever they were. Before I began taking Dr Williams' Pink Pills life was a burden; now I enjoy living, and I hope some other woman will take courage from my experience, for I feel sure that what this medicine did for me it can do for others."

You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ADVERTISE IN THE INTELLIGENCER

### PRACTISING

At the piano seated down,
His brows contracted in a frown,
With shoulders bent and eyes that look
First at his fingers, then the book,
A youth is striving, might and main,
His music lesson to attain.
With audible monotony,
He's droning out, "it's one, two three,
It's one, two, three," but there he sticks;
He cannot get the "four, five, six."
He writhes and twists, then starts once more,
But comes out worse than e'er before;
Sharps, flats and naturals, conspire
His fingers, and his brain, to tire.
While discords come so thick and fast,
That, sore perplexed, he sits aghast.
His friend, meanwhile, the music ( ?) hears,
And tries to close his tortured ears,
But all in vain, John won't give o'er,
"It's one, two, three; it's two, three, four."
His mother sighs, Oh! woe's the day
On which John said, "I'll learn to play."
Alas! alas! his sister wails.
"He's going to try the minor scales!
We can't stand that! Their dismal tones,
Will quite distract us, with their moans."
So, off she quickly runs, to say:
"You've practiced well—now go and play."
Well pleased, the youth turns with a start,
And says, "I'll have them soon," by heart
My fingers ache just now, but soon
I'll play for you another tune."

# FALLING FRANC MARKS GRAVE DANGER TO FRENCH GOVERNMENT

By J. W. T. MASON

(Written for the United Press)

New York, Jan. 12. (United Press). —The French government is twenty billion francs poorer at the beginning of this year than it was a year ago, but in dollars it is about $2,800,000,000 richer. This paradox is due to the drop in French exchange during the past twelve months. Last January, France owed 380 billion francs, which equaled approximately $22,800,000,000. This January the debt has been increased to 400,000,000,000 francs, but the approximate value is only $20,000,000,000.

The situation shows the grave danger to French finances. A complete collapse like Germany's is not possible for a long time to come. Nevertheless, the persistent decline in the franc is very disquieting to French financial experts. The decrease in the French debt during the past year, despite the additional borrowing of a billion dollars, means that the cost of living has risen throughout the country in reverse proportion to the fall of the franc.

### Attacked Through Franc

The French people owe the creditors of the government less on a paper basis, than a year ago, but it will cost them more in commodities to make the payment. The franc has now become the centre of Germany's counter attack against the Poincare government. The Germans cannot, of course, go into outside markets and intentionally depress the franc. But, by continuing to hold reparations payments down to the minimum, they can force France to return again and again to the market to borrow money. It is this borrowing without end that makes the franc go down. The Germans intend to make less reparations payments during 1924 than they did in 1923. If they can hold to that intention, France will still further be involved in financial peril.

The French government has balanced its ordinary budget during the past year. This is the first balance struck since the ending of the war. But the extraordinary budget, which provides for war pensions and for reconstruction, is still facing an increasing deficit. It is this extraordinary budget which Germany theoretically is supposed to meet with her reparations payments. The Germans, therefore have it in their power to keep piling up the French deficit by holding out against the indemnity demands.

### Only Alternative

The longer Germany is allowed to put off making payments the more cy of taxation. France is not paying ing the heavy arrears. The only alternative is to increase the taxation of the French people, in order to keep France solvent.

There is no doubt at all but that the prosperity of France warrants greatly increased taxation. But the French people have always rebelled against the taxgatherers, and no government since the French Revolution has had the courage to tax the people to the limit. The prosperity of France during the past year has been far greater than during any other period since the ending of the war. No unemployment has existed and wages have been high.

Nevertheless, lack of unemployment is not always a healthy sign. There has been no unemployment of any amount in Germany sice the ending of the war. Yet German finances have gone down with a crash. Unemployment has reached record heights in England, but the British financial condition is the best in Europe.

It is, therefore, not the state of the labor market that is the real barometer in France. The real measure of domestic solvency is the stringency of tayation. Franco is not paying her way because taxes aren't sufficiently high. If this situation continues, a momentous crash is certain.

### McGILL IS CONFIDENT OF DEFEATING VARSITY

Montreal Jan 12.— Montreal followers of hockey will have their first opportunity of viewing this year's collegiate teams in action when Toronto Varsity and McGill come together this evening at Mount Royal Arena. Following their victory of Thursday night, the local university representatives expres themselves as being in good condition for their aproaching trial with their rivals from Ontario. With each appearanct, the combination work of the Red and White players is improving, and to such a degree that what might at first have been characterized as a weakness is fast becoming their strength. The matches in the City League have done much to bolster them up on this department of the game.

McGerrigle, MaNaughton and Dineen, on the forward line, are three men that have been showing up well, McGerrigle and Dineen being chosen for places on the recent Montreal all-star team. On the defence, Dempsey and McMahon, with Morris between the goal-posts, will prove a hard proposition for the fast-skating visitors. In the mater of substitutes, Coach Shaughnessy is exceptionally well situated, and on the bench there will be no dearth of ability. McGill's return engagement with Varsity in Toronto will take place on the second of February.

The Beautiful Mary Pickford

As a girl again—More beautiful than ever—with the sunny curls and tawdry tatters, roguish smile, quaint impudence, of the inimitable Tess. An entirely new picture—as new as it is beautiful—so gripping that it hurts—so superb that it awes. The crowning achievement of Mary Pickford's career.

Not an old scene in the whole film.

## THE VALUE OF.

A bred-to-lay male bird should have four things, each of almost equal importance, because the lack of any of them will adversely affect the offspring. The four characters are breed type, bred-to-lay breeding, constitution and vigour.

The male bird should be fairly typical of the breed he represents. If he does not possess breed type, the general type of the flock will not be uniform and the sale of his progeny, especially the male progeny, will be very limited. No good poultry breeder purchases male birds simply because they are male birds. Breed type in the male either sets or scatters type in the poultry flock.

That the male should be of the right breeding is of the greatest importance if high egg production is the desired object. There is no surer way to failure than to introduce a male bird of a poor producing line. The degree of success met with in the egg production of his daughters depends almost entirely on the amount of high producing ancestors has had. Certainly his dam should have produced 200 eggs or over in her pullet year, and if his granddam has laid 200 eggs or over her pullet year, so much the better. His sire should be the son of a high producing female, and the more high producing females the male side of his pedigree carries, the greater are his chances of passing on that desirable character to his progeny. So important is this one character that a good bred-to-lay strain can be ruined in one season by an inferior male.

Constitution is very necessary if the stamina of a high producing flock is to be maintained. To improve the laying ability of a flock is wasted time unless the birds have the constitution to withstand the strain of high production. A male of poor constitution seldom if ever passes on rugged constitutions to his offspring. The right male bird is one well grown for his age, and that sands straight for his age, and that stands straight full breast, good depth of body, and above all, a good masculine head.

Vigor is also very important for without vigor the hatchings from the matings would necessarily be limited. Vigor in the male bird will give good fertile eggs that will hatch strong chicks, the kind that can kick the shell to the other side of the incubator, dry off rapidly, become fluffy, and get well along the way to maturity with a low death rate and the least trouble and greatest profit to their owner.

Her Quinsy Yields to Vicks

The Direct Action of A Vaporizing Salve is Best

Mr. Joseph Haley of 139 West Milk Street, Brantford, Ont., says: "My wife has suffered with quisy for years, but Vicks VapoRub must have prevented it for she got through the winter without a single attack. We sent part of a jar to a neighbor, whose boy was very sick with a cold or grip. He also got relief. Vicks surely should be in every home.

They used to treat cold troubles externally with tallow, goos grease and camphor. Recently, internal dosing has been the habit and people naturally doubt the value of salve.

For this reason Canadian druggists introduced Vicks VapoRub, the vaporizing salve for all cold troubles, by giving away dozens of samples to responsible families and every jar sold was on 30-day trial

The above report is just one of the great many received from enthusiastic Canadian families. With such endorsement and a positive money-back gurantee, every household ought to give Vicks a thorough trial as the home remedy for croup, colds, sore throat, bronchitis, catarrh, neuralgia, cuts, burns, bruises and sores.

At all drug stores, 50c a jar. For a free test size package write Vick Chemical Co. 314 St. Paul St. W., Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## PADDOCK MESS A FIGHT FOR CONTROL

(United Press Sports Editor)

New York, Jan. 11 (United Press).—Several young men who were sitting high and handsome this time last year as ring champions are now members in good standing of that widely represented "Once Was" club.

Several of the young men who are now out in front have been proposed for membership in the 'Has Beens" and they'll be eligible for admission before another year rolls around.

If for no other reason than there is a potent law of average that does tricks, five and maybe more champions will pass out in 1924.

This is only a guess, and it's worth more than any guess.

Five world's champions slipped away in 1923 and the same number are dangerously near the slide this year, because they seem to lack the class to hold them up against stiff competition.

Jack Dempsey, Benny Leonard and Mickey Walker will not lose their titles this year.

Dempsey and Leonard are too good to be in danger from any opponent they may have to meet, and Walker is safe because he will not take a chance.

Mike McTigue is sure to lose the light-heavyweight championship the first time he meets a good contender.

Harry Greb is slipping and he will have more trouble making the middleweight limit as he grows older.

Johnny Dundee will lose the featherweight championship because he has gone back greatly and age is beginning to show on him.

Joe Lynch, the worst of all the title holders, will lose the bantamweight championship, if he can be forced to a good contender.

Pancho Villa will drop the flyweight championship because he is getting too heavy for the class and he is none too safe as he is now.

Dempsey will not defend his title more than two times because the purses that he would receive in three big fights would put him in a class in the income tax law where he would have to turn over the government practically all of the purse of his third fight.

It was this little tax difficulty that forced Dempsey to call off the year's activity last year after the Firpo fight. victim for his 1924 campaign.

Dempsey will make a choice of Firpo, Wills or Gibbons when he selects the victim fo his 1924 campaign.

Gibbons probably will be left out of consideration, because promoters feel that he would not draw as well as Firpo or Wills, and because Dempsey is not anxious to have any more of the St. Paul fighter.

Gibbons lacks only weight and size to make a real contender for the heavy weight championship, and while Dempsey probably would defeat him if they met again, there is no assurance that the champion would win by a knockout. Dempsey cannot fight well against a smaller and faster man, and he would gain no prestige, because Gibbons would stand him off for more rounds than Dempsey likes to go.

Dempsey will stop Firpo if they meet again, because the champion never will be enough of a sap to fight again as he fought against the South American last summer.

As far as the priority right to a chance at the title is concerned, Harry Wills is the outstanding contender and deserves the first crack at Dempsey this year.

Wills is not only stronger and bigger than any of the contenders, but he has never had a chance, while Firpo and Gibbons both have been defeated by the champion.

Many smart boxing men believe that the colored challenger would be a cinch for Dempsey and would be easier than Firpo or Gibbons, but the fact remains that this should be proved by a fight, as it is the only way it can be proven.

There is not one good reason why Wills should be deprived of a fight with Dempsey. It is the bunk to have any fear that serious race troubles would result if Wills should happen to win.

Dempsey is not the hero of the white race by any means, and he is not a popular champion with the general public. Far more danger of race disturbances can result from a feeling of discontent among the colored population when it is felt that a representative of their race is barred from making an honest living because of his color than would come from an actual test of the fighting ability of the two races.

The champion, it is sincerely believed is not responsible for the conditions that have kept Wills on a sidetrack for three years; while less deserving fighters have had their cut at the big money.

If the word is given, Dempsey will fight Will this year.

Leonard is in a more impregnable position than Dempsey. There isn't a fighter in the lightweight class who has a chance with the champion, and if Benny wants to postpone the retirement that seems sure for him, he will have to fight as a welterweight.

Mickey Walker is a good fighter. It is unfortunate that he should give the impression that he doesn't want to defend his welterweight championship. He could beat any of the contenders in his class if he would only take them. No one has offered an explaination why he refuses to do it.

---

The pessimist says it's a job put up by the storekeepers.

The optimist says it's the best time of the year.

The newlywed says that now he can get rid of some of his wedding presents.

## ORIGONALS WIN AT Y. ALLEYS

### Win Handily From Intell. Girls in Winter League Game

Although ably led by Skipper Ford, the Intelligencer Five were not able to ring up a win from their opponents of the evening, the Origonals, at the Y alleys last night. The latter aggregation were rolling them down like old timers, at the game, and were never in grave danger of being headed off at any time during the play, Miss Blaind with a single game score of 169 and an aggregate of 413 was the outstanding performer.

| INTELLIGENCER— | | | | |

## TRENTON IS BEATEN BY BOWMANVILLE

Trenton, aJn. 12.—The local hockey season opened in Trenton Friday with the Bowmanville intermediates meeting and defeating the local sextet by 5 to 4. Although the ice was heavy, the play was fairly fast. Bowmanville scored two goals in the first period, while the best the home team could do was to bulge the net for one.

In the second period Trenton scored three to Bowmanville's one. The third period brought fast hockey. Aften ten minutes of play, Bowmanville tallied, and when but two minutes of the period remained the visitors scored the winning goal.

Trenton—Gcal, Newton; right defence, Allore; left, Anderson; centre, Shohiker; left wing, Barr; right wing Shensel; subs, Dafoe and Bohan.

Bowmanville—Goal, Spry; left defence, Piper; right defence, Densen; centre, L. Piper; left wing, Avery, tight wing, Moyer, subs, Hooper and Crossby.

Referee—Jerry Laflamme

## CURRENT SPORTS AFAR AND AFIELD

Harold Mitchell, the Toronto boy who refereed the Niagara Falls-Grimsby game at Niagara Falls, which Grimsby players and supporters claim was a "slaughter house" affair, says that there wasn't anything particularly hectic about the game. He says that Bill Carson was hurt accidentally when Rice's stick slid up Carson's blade during a legitimate check, and he laughs at the story that McVicar was deliberately cut down by Gene Fraser, of the Falls team. He says that McVicar did not leave the ice except when he penalized him, and that if he received any head injury requiring seven stitches, he is much surprised, for he saw no traces of blood on his face or head.

## TO INVESTIGATE STOCK HOLDINGS

### Toronto Hockey Club to Examine Action Against C. L. Querrie and others

Tornto, Jan. 12.—Paul Ciceri, a director, and Percy Hambly, treasurer of the St. Patrick's professional hockey club, will attend for examination, and solicitors for the Toronto hockey club will ask them concerning Charles L. Querrie's holdings of St. Patrick's stock, and whether Querrie has transferred them to Mrs. Querrie.

Counsel came to this agreement before Mr. Justice Lennox yesterday in the action brought by the Toronto hockey club against Charles L. Querrie, Mrs. Querrie and St. Patrick's hockey club. In this suit the Toronto hockey club wants it declared that shares in St. Patrick's club held by Mrs Querrie are held in trust for Charles L., and an injunction is sougth to restrain St. Patrick's club from paying Charles L. Querrie as an employee or from paying dividends to Mrs. Querrie.

Mr. Justic Lennox was informed yesterday that a motion for an interim injuncton was pending.

It was stated yesterday that the two officers of the St. Patrick's had been subpoenaed to appear for examination, and did not appear.

Mr. Justice Lennox suggested that there had been contempt.

His lordship was told that they had been advised by counsel not to attend.

"It was a fishing expedition, my lord."

"Although the rink was frozen."

The judge observed that there was such a thing as committal.

But it all ended amicably the examination arrangements to be made by counsel.

## POSES AS "NURSE" AND SECURES "DOPE"

Toronto, Jan. 12.—Operating in the guise of a nurse, a woman has been obtaining quantities of morphine from druggists throughout the eastern section of the city, and to date has successfully avoided the police. A warning has been sent to all local druggists concerning her.

Entering a store the woman would state she was a nurse on a case at such and such an address. She wanted a hot water bottle or other goods sent over within an hour, but having parcels to carry, would take a dozen morphine tablets with her at once. She presented a regular prescription with her order, and was in each case given the drug asked for. Only when the balance of the "order" was delivered was the fraud discovered.

## HOLLOWAY SQUAD WIN PLAY-OFF

### Defeat Bridge Street Aggregation by 13-5 at Y. M. C. A. Gym.

Holloway and Bridge St. intermediates met on the Gym floor last night at 9.15 to play off a postponed fixture of the Sunday School League. Previous to this game these two teams were tied, each having won four games with no losses.

When the game was called last night, Holloway had the heavy end of a 13-5 score as well as leading at half time 9-5. The game could scarcely be called a good exhibition of basketball, both teams were away off in their shooting, their combination was very erratic and there was too much willingness to mix it up shown on the part of both teams.

Line Up:—Bridge St. Townsend, Cole, Deroche, Kerr, Moffat and Cawthrone Holloway, Herity, Walters, Marshall, Andrews, Hibbard and Wills.

## Hoppe Increases Lead on Cochran

### World's Champion Has 157-Point Margin, With One Block To Play

Boston, Mass., Jan. 12.—Playing with consistent brilliance, Willie Hoppe, world's champion 18.2 balk line billiard player, last night held Welker Cochran, of Los Angeles, challenger, in the second block of their 1,500 point match. Hoppe reached 1,000 points with an unfinished run of 24, the score for two nights of play being 1,000 to 843.

Beginning play last night with the balls in good position from an unfinished run of 42, and with a lead over his opponent of 124, the champion ran his nineteenth innnig to 81. The breaks seemed to go badly for Welker, and at the end of the twenty-fourth inning he was 240 points down. The champion's judgment of distance and speed was perfect.

It was not until the twenty-eighth inning that Cochran found himself and the balls in good form. He clicked off 101, but Hoppe immediately followed by making 124. In the thirty-third inning Cochran was again away to a long run counting 135 before the referee ruled that he had pushed the ball. At the end of this session the count stood—Hoppe, 850; Cochran, 768. Welker began to play cautiously, leaving Hoppe few chances, but the champion resorted to open table efforts brought off his one thousandth point. The last block of 500 points will be played to-night.

January Bargains

## CORNWALL TRIMS QUEEN'S EASILY

Cornwall, Jan. 12.—Cornwall last night scored their first win of the season when they completely outclassed the Queen's team, winning by 7 to 2. The collegians were never dangerous but put up a stubborn fight. There were no outstanding stars on the locals, but Jamieson was perhaps the best, his backchecking a feature.

Cornwall started early when Art Constant scored in one minute and thirty seconds. Cornwall apparently scored another, but the umpire did not put up his hand, although the Queen's goaler admitted that the puck went in. A new umpire was appointed. Cornwall had this period all the way, the collegians only twice getting near Cornwall's danger zone.

Cornwall—Gallingher, Lane, E. Contant, Art Contant, Larin, Larose, Subs.—Jamieson and James.

Queen's—Quinn, Ritchie, Cleland, Legon, Johnston, Stewart. Subs.—Grimes and Young.

## Home Made Cough Mixture Considered Best

### Spreads Over Membrane, Soothes Heals and Stops Cough Almost Instantly.

### Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best.

Simple coughs, or stubborn coughs it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

I'ts fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

And remember—any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

## Soo Greyhounds Get a Big Surprise

Toronto, Jan, 12.—The Northern Ontario Hockey Association had better luck than the O.H.A. last night. They had no postponed games. Up in Iroquois Falls, with a blizzard raging Iroquois Falls, with a team which consisted mostly of Ottawa players, handed that swell Soo team a surprise package. They just beat the Soo 6-4 and it was a battle all the way. There were plenty of penalties. Currie, Fahey, Ross and Byrne, formerly of Ottawa, played on the winning team. The home team took the early lead, but weakened considerably in the last period, but the Soo were unable to overcome the lead. Referee Rodden had his hands full keeping the game under control, but he was boss all the way.

Soo—Walsh, goal; Brown, Donnelly defence; Phillips, Lessard and Woodruff, forwards; Campbell, Cook subs

Falls—Bryne, goal; Roos, Fournier, defence; Fahey, Bellefeuille, Chircoski, forwards; Boucher, Lafrance, subs.

Referee—Mike Rodden, Toronto.

Sudbury Won.

At Chapleau the opening game of the southern intermediate group of the N.O.H.A. was played before a record crowd, Sudbury Wolves defeated Chapleau by 5 to 3. Langlois and Quenneville were used by Sudbury on the defence and Ironstone in goal played a great game. Gerald Green and Bill Duncan starred on the forward line for Sudbury. Even the severe snowstorm did not keep the fans away, and the rebuilt rink was crowded to capacity.

Rough at New Liskeard.

At New Liskeard, in a rough game featured by numerous penalties, New Liskeard intermediates defeated North Bay, 10-3. The home team led throughout, and at no time did the visitors give any indication of making even a close fight of it

## LEN CROOK QUITS HOCKEY FOR KEEPS

Toronto, Jan. 12—Len Crook, well-known O.H.A. and Bank League goalkeeper, has retired for good. Crook who played in Belleville last season has been moved back to Toronto, and is now with the Gerrard and Pape Avenue branch of the Bank of Nova Scotia, but he came back too late to get in the game here. Crook broke into the game in Galt at the age of 16 years, and has since played with Hamilton Centennials, Port Colborne, St. Patrick's amateurs, Argos and Aura Lee. Last year in Belleville he stopped a fast one with his "Charlie Chaplin," and finished the season with a headgear and mask. He says the Canadian Amateur Hockey Association should make it compulsory for every goalkeeper to wear a mask and head gear.

"The way players drive that puck nowadays makes it dangerous," said Crook, today. "Some day some one will stop one with his temple and you know flowers are dear in the winter time."

RUPTURE SUFFERERS

A representative of Thompson & Huyck, Napanee, Ont., sole proprietors of Thompson's Renowned Rupture Remedy has agreed to come to this locality and will be at the

CRYSTAL HOTEL, Belleville
TUES., JAN. 15, (one day only)

for consultation and to give free advice to all Rupture Sufferers. Arrange to see him. Thompson's Renowned Rupture Remedy is unconditionally guaranteed.

Here is what one man writes:

"Our son was ruptured, and the bowel became strangulated so bad that it was impossible to replace the protruded part, the doctor advised an immediate operation."

"When you advised us an operation was unnecessary we were very much in doubt."

"However, we were guided by your advice and we are exceedingly glad for the rupture was replaced almost immediately without pain. By the use of THOMPSON'S RENOWNED RUPTURE REMEDY the rupture has completely disappeared leaving no opening whatever."

"Besides saving the cost of an operation we have also saved the wages of a hired man as the boy has worked steady since he commenced your treatment. We strongly recommend THOMPSON'S RENOWNED RUPTURE REMEDY to anyone suffering from rupture."

BERT. McCOY,

# OF INTEREST TO WOMEN

## Radio Brings Cheer To Penitentiary Cell

"Four walls do not a prison make, nor iron bars a cell." The line from the old poem has been applied to many situations since it was written. Now comes its application to radio.

WTAM, the broadcasting station of the Willard Storage Battery Company Cleveland, Ohio, received Christmas greetings from three prisoners in acknowledgement of radio programs received by them.

Two of these were prisoners of sickness. The third is actually confined in a state prison.

Mrs. Harold N. Pember of 14 Goshen St., Hartford, Conn., sent a disinfected letter saying she was quarantined with her daughter who has scarlet fever. "You will never realize what a boon the radio has been on these long lonely evenings," she wrote in appreciation of WTAM programs.

Robert H. Bean of Manitowoc, Wis., sent the season's greetings saying there is no station in the United States he enjoys more than WTAM. Bean was a marine engineer on the Great Lakes before an accident left him paralyzed. Cleveland, the home of WTAM is familiar ground, he says and the concerts bring back the good times he has had in port there.

The third letter was from Ernest Graham, prisoner in Virginia State Penitentiary, Richmond.

Graham is allowed a radio receiving set in his cell through the kindness of the prison superintendent. He says there are 24 head phones attached to his receiver and that his companions in near-by cells listen in to concerts after the lights are out.

"The radio helps us to pass the long nights as well as to keep up our courage and to appreciate what freedom means once we get it again," he writes.

Mr. Bruce Barry of Brighton was a visitor in Belleville on Friday.

### THIRD VICTORY IN ROW SCORED BY BRANTFORD

Brantford, Jan. 11.—In an O. H. A. intermediate fixture here tonight Brantford made it three in a row by defeating Simcoe 9 to 1, thus putting them well up in group 10. The Simcoe sextet put up a strong defense in the first period, but Brantford uncorked a rush in the second period that took them off their feet.

O'Connor scored the only goal of the first period. Hass opened the scoring in the second; Johnson than scored three in a row. Ramey contributed another. Balkwell, Hass and Balkwell scored the first when he took O'Connor's pass, and made it 7 to 0.

Bell, a goaler from Collingwood, got his initial tryout with the locals, and played well. Hass and Balkwell scored the first goal of the third period when Balkwell took Hass' pass. Combination was responsible for the next goal. Osborne finally found the net for Simcoe on a lone rush.

Brantford— Goal, Summerhayes; defense, O'Connor and Johnson; centre, Hass; wings, Speck and George; subs, Balkwell and Baird.

Simcoe—Goal, Watts; defense, Whiteside and Ramey, centre, Osborne; wings, Smith and Armstrong; subs., Berry and Evans.

A SAFE RELIEF FOR WOMEN'S DISORDERS
10 DAYS' TREATMENT FREE.

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A free trial treatment, enough for 10 days, worth 75c., will be sent free to any suffering woman who will send me her address. Enclose three stamps and address:
MRS. LYDIA W. LADD, Windsor, Ont.

## Prize Distribution

Emmanual church Sunday school annual Christmas Tree, and prize distribution took place in the Sunday school hall, on Thursday the 10th, at 8 p.m. Nothwithstanding the glassy conditions of the roads and sidewalks, th chall was crowded, chiefly by the scholars and their parents. A large platform had been erected for the occasion in the front of which, there stood a tall Christmas Tree, well laden with bags of candy, oranges and Christmas stockings. On a table near by was piles of books and other rewards for the scholars, also a number of packages from the children bearing tokens of affection and many good wishes for their various teachers. After opening the proceedings with prayer, the chairman Rev. George Marshall, gave a cordial welcome to all. He was sorry that owing to sickness, Miss L. Udders, work of training the children had been interfered with. It was owing to this that they were somewhat later with this even than had previously been arranged. Miss Y. Wheeler had kindly consented to fill her place that evening. They also missed the presence and assistance of their faithful and untiring secretary, Mr. A. S. Large, who was unavoidably and unwillingly absent. Continuing the chairman said there never was a time when Sunday teaching and Sunday school influence was as much needd as the present. Yet, he feared, there never was a time when it was so little appreciated. He regretted very much that there were still many parents, who do not insist upon their children going regularly to any Sunday schools. The children go if they want to. Children of tender age are not competent judges as to what is best for themselves, he believed that it was partly as a consequence of this indiffernece on the part of parents, that when young people reach the 'teen age they so frequently decide that they are too old for Sunday school. Continuing the rector said, it was a lamentable fact that the majority of criminals in our prisons and penitentiaries wese not hardened, unreformable old men, but comparatively young men, men in the prime of life. Many of them under 20 years of age.

The programme was splendidly carried out and reflects great credit to those who were responsible for the training of those who took part.

When the last item was reached, came the Benediction, then the warding of prizes to every scholar, with oranges, bags of candy and Christmas stockings.

Piano Solo—Ida Folwell.
Recitation—Thelma Robinson.
Song—Margaret Large.
Song—Harry Rigby.
Dialogue, Christmas Belles—Girls of Mrs. Tebbutts' class.
Shepherds of Bethlehem—Boys and girls.

## SOCIAL AND PERSONAL

Messrs. Eardley Wilmot and John Chapman are in Toronto for a few days on business.

Mr. Douglas Rowe is confined to his home, Holloway Street, through illness.

Mr. Frank Cushing, of Tweed, is spending the week-end at his home Alexander Street.

GIRLS! A GLEAMY MASS OF HAIR

35-Cent "Danderine" so Improves Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drugstore.

### CHINESE CABINET.

London, aJn. 12.—A Reuter despatch from Pecking says the Chinese cabinet, headed by Sun, Pao-Chi, as premier and minister of war, has resigned.

MOTHER!

Baby's Best Laxative is "California Fig Syrup"

When baby is constipated, has wind colic, feverish breath, coated-tongue, or diarrhea, a half-teaspoonful of genuine 'California Fig Syrup' promptly moves the poisons, gases, bile, souring food and waste right out. Never cramps or overacts. Babies love its delicious taste.

Ask your druggist for genuine 'California Fig Syrup' which has full directions for infants in arms, and children of all ages, plainly printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Marie darling:
I met the most intriguing man yesterday! He is quite young (at least at heart) and brother Bobbie says he's 'some bird'! I'll swear he uses Campana's Italian Balm to keep his hair slicked back in the approved lounge lizard style — C'est la mode! And I suppose he also knows how refreshing and soothing Campana's is when rubbed on the fac after shaving.
Toujours,
Peggy

# THE PARSON O'DUMFORD

Shrieks and cries arose as the horses tore along, gathering speed at each stride, and growing more frightened at the gathering noise.

On past the various houses, past his home and the works, and Richard clung desperately to the seat. For a moment he thought of throwing himself out, but in that moment he saw himself caught by the wheel and whirled round and beaten into a shapeless pulp, and with a cry of horror he sunk back.

On still, and on, at a wild gallop; and, to his horror, Richard saw that the horses were making straight for the great chalk pit, and in imagination he saw the carriage drawn right over the precipice, to fall crushed to atoms upon the hard masses below.

"I can not bear this," he exclaimed and turning the handle, he was about to leap out when the fore wheel of the chariot came with fearful violence against the short thick mile-stone; there was a tremendous crash as the vehicle was turned completely over, and Richard knew no more.

A dozen stout fellows who had run panting after the carriage, came up a few minutes later, to find one of the post-boys holding the trembling horses, which, after being released from the wreck, they had succeeded in stopping, and the other was striving hard to extricate Richard from where he lay, crushed and bleeding amidst the splintes of the boken chariot.

The sturdy foundry-men soon tore away the part of the carriage that held the injured man, and a gate being taken from its hinges, he was carried back to town; the doctor, who had been attending Eve at the vicarage, where she had been carried, having reached his house to fetch some medicine, which he sent on with a message to Mrs. Glaire, who was in ignorance of the catastrophe, to come home at once.

### CHAPTER LVI

#### Rest At Last

A couple of months had glided away, during which time Richard Glaire had recovered from the severe injuries he had received in the accident, and then as he said, gone on the Continent to recruit his shattered nerves though in confidence Dr. Purley told his lodger Dick Glaire's nerves were stronger than ever, in consequence of eight weeks' enforced attention to the orders of his medical man.

Richard wanted to get away, for several things had occurred to annoy him. He was only just recovering when the news reached him that Daisy Banks had become the wife of Tom Podmore and this was at the time when he was in the habit of saying bitter things to Mrs. Glaire about the disgraceful arrangement by which Eve was still at the vicarage, where she had been carried from the church, and where she had lain through her long illness which followed, during which she was for weeks delirious, and knew neither of those who watched incessantly by her side.

Daisy Banks was her most constant attendant, and had taken up her residence at the vicarage with Miss Purley, who had told the vicar she would do anything to oblige him; and when he thanked her warmly, had gone up to her room at once to prepare, and sat down, poor woman, and cried with misery, because she was forty-three, very thin, and no one ever had, and probably never would, ask her to be a wife.

So the vicar became Dr. Purley's lodger, never once crossing his own threshold, and Mrs. Glaire went down daily from her son's sick bed to see how poor Eve sped.

Days and days of anxiety and anxious watching of the doctor's face as he came home from his visits, and little hope. Days when the eminent physician from the country town came over, to give his supplementary advice; and still, though both doctors shook their heads, Eve lived on—a wavering flame, ready to be extinguished by the first rough waft of air.

"Selwood," said the doctor one night, "I've lost over a stone weight since I've been attending that poor girl, and I've done my best; everything I know or could get from others I'm going back now, for this is about the critical time, and I shall stay all night. Why, man! Come, come, I say."

He laid his hand upon the vicar's shoulder, for the strong man's head had gone down upon his hands. He had fought his grief back, and borne so much—now he had given away.

"I am weak," said the vicar, gently "Pray go."

"Yes," said the stout old fellow, with animation; and the desponding feeling seemed to have gone. "Yes, I'll go and watch while you pray; and between us, with God's help, we may save her yet."

As the night wore on, and the town grew still in sleep, the vicar rose and left the house, to go silently down the High Street, past the church to his own home, where he could lean against the gate, and watch for hour after hour the little lighted window with its drawn blind, and the one glowing spot where the candle burned.

Hour after hour, sometimes walkig up and down, but always with the prayer upon his lips that she might be spared.

Sometimes a shadow crossed the blind, and a light went through the house. Then all was still again, and the night went on, with the stars that had risen as he watched passing over his head, and at last a faint pearly light beginning to dawn in the east, and grow broader. The first chirp of a morning bird, as the pale light grew stronger, answering chirps, and the loud alarm-note of the blackbird that rose from the hedge beside him, dipped down, and skimmed rapidly along the ditch.

(to be continued.)

## That Body of Yours

By James W Barton, M.D.

### SELF CENTRED

You are listening to an amusing monologue by a comedian when a burst of laughter near you attracts your attention.

The audience laughs at the outburst, the comedian himself laughs and suggests to the audience that it might be good business to have this laughing party accompany him on his tour.

The said party continues the outbursts of laughter at frequent intervals thereafter, despite the fact that the attraction at the time on the stage may be one of deepest pathos.

What is the trouble?

Hysteria!

And what is hysteria?

No one has yet been able to describe it exactly, nor to give its cause.

In the ordinary attack there seems to be three distinct stages.

First an unusual excitement, loud talking, laughing, sometimes even crying.

Sometimes a sort of general complaining about the world in general, and the way she is treated and misunderstood.

This is followed by convulsive movements of various kinds, and so bystanders often think that she is actually having a fit.

However, the outstanding feature is that despite all the writhing on the floor, and the convulsive movements, the patient never injures herself.

This is in marked contract to a real fit or epileptic seizure.

This seizure is followed by extreme quietness, and often a little feeling of shame for the outburst.

Now what causes a person to behave in this manner?

It has been found that they are usually people who are a bit flighty anyway. Emotional kind of folks.

Another very noticeable point is that they are usually prone to think about themselves a great deal. Not exactly serfish perhaps, but their interests and their feleings are always first in their thoughts.

Later investigators are of the opinion that it is the repressing of certain emotions or desires that bring on the attacks.

It is really an affliction because they are usually cordially despised, or receive and overabundance of sympathy.

Are they often cured of this trouble?

Yes, and usually by thoughtfulness and hard common sense on the part of the physician and other members of the family.

Not correcting them harshly, nor yet being too sympathetic, but by quiet logical reasoning, and an appeal to their best selves.

Stage Hand—Did you say you wanted a window or a widow?

Show Manager—I said window, but they're both much alike. When I geat near either of them I always look out.

Cook's Regulating Compound

### SORRY HE LEFT BALTIMORE

The congressional party brought back many stories from the fighting fronts in France.

"At a camp for German prisoners member of the party in Washington, "a detail was called out for some ditch digging. None of the British guards could speak German and none of the Germans seemed to understand a word of English.

"Under the circumstances it was difficult to give orders, and the 'Tommies' had a terrible time showing the prisoners what they wanted done. For this reason they drove the diggers a little harder, perhaps, than the union rules allow.

"Finally one big German, his face aglow with perspiration, dropped his shovel, straightened up painfully and said in a tone of genuine disgust;

"Ach! Why in h—l did I ever leave Baltimore."

### WHERE SILENCE WAS BETTER.

Well-meaning Stranger—Perhaps I can help you. There are one or two things I can tell you about your make of a car.

Motorist—Well, keep them to yourself, there are ladies present.

TODAY I AM REAL WELL

So Writes Woman After Taking Lydia E. Pinkham's Vegetable Compound

Jamestown, N.Y.—"I was nervous, easily excited and discouraged and had no ambition. Part of the time I was not able to sit up as I suffered with pains in my back and with weakness. I took Lydia E. Pinkham's Vegetable Compound, both the liquid and tablet forms, and used Lydia E. Pinkham's Sanative Wash for inflammation. Today I am real well and run a rooming house and do the work. I recommend your medicine to every woman who complains, and you may use my letter to help any one else. I am passing through the Change of Life now and I keep the Vegetable Compound in the house, ready to take when I feel the need of it."—Mrs. ALICE D. DAVIS, 203 W. Second St., Jamestown, N. Y.

Often some slight derangement may cause a general upset condition of the whole system, indicated by such symptoms as nervousness, backache, lack of ambition and general weakness.

Lydia E. Pinkham's Vegetable Compound will be found a splendid medicine for such troubles. In many cases it has removed the cause of the trouble.

### YOUNG BELLEVILLE GIRL HEARD OVER THE RADIO

Another young Belleville girl has delighted radio fans throughout Canada and the United States, for on Thursday evening last. Miss Chrissie Turney, formerly of Belleville, gave several elocution numbers over the radio at the Segmore hotel broadcasting station, Rochester N. Y.

Miss Turney is well-known here as an elocutionist, and visited her parents here during the Christmas vacation period.

Saves so much Suffering

when you have ABSORBINE JR. handy in the medicine cabinet.

If the younger Children develop Toothache, Ear-ache or Sore Throat in the night, a little ABSORBINE JR. will soothe and relieve and send the sufferer off to sleep.

If accidents happen—a cut finger, burnt hand, sprained ankle, bruised arm, wrenched shoulder or bleeding cut—apply at once

Absorbine Jr.
THE ANTISEPTIC LINIMENT

It prevents infection, soothes the pain, starts healthy healing, and is a dependable "first aid" for any injury.

It does not grease or stain bandages—has a clean, aromatic odor that freshens up a sick room.

# THE MARKET REPORTS

**ON PAGE THREE MARKET QUOT.**

Toronto, Jan. 11.—There was a very light market yesterday morning, with only 184 fresh cattle in, and practically the whole of the week's offerings cleaned up. A few milch cows and springers were unsold, as there seems to be very little demand in this section right now, except for anything of extra choice quality. For everything else there was a ready demand at good steady prices. A few steers around 1,150 to 1,200 pound sold at $7.50. General run of good to choice butcher steers and heifers $6.25 to $6.75; fair, $3.75 to $6; medium $5.50 to $6.25; common, $3.50 to $4.50; canners and cutters, $1.50 to $2.50.

Calves steady, $1 to $13.

Lambs steady, $12.50 to $13.50.

Hogs steady at $7.75 f.o.b. yesterday's deliveries, but market weak and packers bidding 50c lower for Saturday's loadings, $7.25 f.o.b. and $7 to farmer.

**Receipts**

Union Stock Yards—Receipts yesterday, 16 cars, 184 cattle, 43 calves, 57 hogs, 142 sheep and lambs.

Straw, car lots $9.

# HATE STILL HOLDS RUHR

By CARL D. GROAT

(United Press Staff Correspondent)

Berlin, January 11 (United Press).—The Ruhr's hymn of hate is deadened.

The curses that greeted French occupation one year ago to-day have been stilled. Hate still burns in many a Ruhrite's heart, but the desire to live is the strongest passion that the Ruhr now shows.

And, the Ruhr, despite months of "passive resistance," followed by a hunger wave, now, believes that the path is opening to a final settlement with France which will give the Ruhr and Rhineland a chance to work.

The preliminary agreement between the German industrialists and the French "Micum" will probably be extended. And, the Ruhr and Rhineland believe that there are signs of a real adjustment—a hard bargain, perhaps, but better for Germany than trying to dodge reparations burdens and having to fight French counter actions.

**Must Pay France.**

Ruhr and Rhineland magnates are now staring facts squarely in the face—for the first time since the war. Impartial outside business men say that they must pay, and are adjusting themselves to this program.

This means that German industry is going to come back. It will be a long process, this paying. But, the terrible specter of starvation and unemployment are destined in the next months to subside according to business men's calculations.

Whether the Rhine and Ruhr fall definitely under French domination is still a question. The French willingness to reduce its occupation forces is regarded here as a slight concession. But, the plans for Rhenish currency (French-franc supported) is a nut which the Berlin government has had trouble to crack.

Sounding speeches about inseparability of Rhine and Ruhr from their mother land, Prussia, do not alter some cold facts that the French occupation plus certain Berlin government mistakes—have caused a certain estrangement.

Nor do such speeches change one iota the realization that the forthcoming reparations conditions will inevitably cause a certain alteration in the form of governmental and economic connection between the industrial region and the rest of Germany.

The Stinnes concerns are already readjusting their trust arrangements, taking into consideration the fact that there is at least an invisible, though real, barrier between occupied and unoccupied zones.

**Costly to Berlin.**

The Rhine and the Ruhr have eaten the already dilapidated Berlin treasury out of cash. Trying to support the unemployed has been a problem which no cabinet has been able to solve satisfactorily.

For a time, the government considered throwing the occupied area to the French with the demand, "You take care of those people under the Hague land-war convention." This roused a storm and the idea was abandoned.

But since then there have been hundreds of governmental conferences, wherein the question of a temporary separation or at least an alteration in relation which would free the central treasury, has been discussed.

The Rhine and Ruhr undoubtedly want to remain German.

But, they realize that financial questions make it probably impossible to retain now the old forms of governmental and economic relation which prevailed before the horizon-blue forces swept into Essen and other big cities in Germany's Pittsburghian district.

SATISFACTION
EFFICIENCY
LONG LIFE
ECONOMY

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future, when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

## FIRE IN HOLD OF RED STAR LINER

New York, Jan. 12.—The Lapland, of the Red Star Line, caught fire at her North River pier Friday while being prepared for a winter cruise in the Mediterranean. River fire boats were despatched to the steamer to aid landsmen of the fire department in fighting the blaze, which was reported to have started in a hold.

The fire appeared to be under control at 2 o'clock p.m. yesterday.

### TOO MUCH RAPIDITY

"You don't seem to have a very high regard for Zeb Spicer's piety."

"Mebbe I haven't," replied Farmer Corntossel, cautiously.

"Zeb says he has read the Bible through more than a hundred times."

"Yes, but in order to do that he must have gone so fast he couldn't stop to think much about what he was reading."

(Mildred Spain's Hollywood notes in the Sabbath W. G. N.)—

"The Writers' Club entertained a number of stars at Christmas dinner. Miss Ferguson was clad in a brown hat in cream, trimmed with a bow of garden glories."

Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

## Bible Society

(Continued from page one)

The president announced that in regard to collecting funds for the Society, a new scheme was to be inaugurated. The collection will be by Wards in the city and certain churches will be alloted certain wards to look after. By this means a better result was anticipated. One collector Mrs. Morton, had the past year collected $100.

Mr. S. C. Clapp, the secretary, presented the report of the nominating committee naming the officers for the ensuing year as folows:

President, Rev. A. L. Geen; First vice-president. H. W. Ackerman; Second vice-president, E. R. McBride. Treasurer, J. W. Cook; Secretary, S. C. Clapp.

Representatives of the various places of worship as follows:

Bridge street church—F. S. Deacon.
St. Thomas church—J. Elliott.
Tabernacle—T. G. Bell.
Holloway street—A. E. Bailey.
Baptist—C. A. Harte.
Christ church—G. M. Smith.
John Street—J. L. Moore.
St. Andrew's—Wm. McIntosh.
Salvation Army—T. D. Ruston.
Bethel Hall—J. J. Haines.
Emmanuel—J. W. Barlow.

Ministers of the churches are also officers.

A vote of thanks was tendered to the lady collectors for their work.

The meeting closed by singing of a hymn and the doxology.

### BIRDS OF A FEATHER.

From Le Petit Parisien—

London note—Last week five men happened to be on duty at a certain fire department station on Piccadilly Circus. Nothing extraordinary about that of course. Their names, however, by some freakish coincidence were Dove, Duck, Bird, Magpie and Lark.

### DIES AT THE AGE OF 101

Smith Falls, Jan. 12.—Living the 101 years of her life in Lanark county, Mrs. Annie Peters died Thursday night after a long illness. Mrs. Peters was born in Bathurst township in 1822 and moved here sixteen years ago. She is survived by Mrs. Mary Ferguson, Smith Falls, a daughter, and Thomas Peters, Tompkins, Sask, a son.

## Stranded

Continued from page one.

der gilt edged promises of plenty of employment at their trades after the harvest was over in the west. No one knows the bitterness of the disappointment of these men except those who have come in contact with them and know something of their history. Nearly all of them have rendered service in France and Flanders and surely in this city of such a fine war reputation these men shall not want food or shelter with an even chance to improve their conditions.

"The District Labor Council some weeks ago appointed a special committee to investigate and report on the of this investigated amply warrant this appeal to the citizens of Toronto to support those British born citizens in their efforts to help themselves. "Massey Hall," writes Mr. Watt, "should be filled to overflowing on the night of January the 18th to witness the travelogue under the auspices of the British Welcome and Welfare League.

**KEEP LITTLE ONES WELL IN WINTER**

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### GIVEN UP FOR LOST.

London, June 12.—"All hope of saving the sunken submarine L-24 has been abandoned," the Admiralty said today. The undersea boat, with more than 40 men aboard, was rammed by the battleship Resolution late Wednesday and Sank immediately.

## CAMPBELLFORD

The Rev. G. C. Clarke, formerly of St. Augustines' Church, Toronto was duly inducted Rector of Christs' Church, Campbellford on Friday evening.

His Lordship the Bishop of Toronto officiating, while the Rev. Cannon W. L. Baynes-Reed conducted the services

Due to water backing up, caused by anchor ice, work on the new power house below Campbellford is tied up. All the operating machinery in connection with the job being completely submerged. Sinclair Bros. of Toronto have charge of this contract.

**"My Back Aches"**

It is not much wonder that the mother in the home has backaches and headaches when you think of the multiplicity of work and worries she has from morning until night and from week to week.

But pains and aches come from poisons in the system and if the kidneys and liver were doing their duty as filters of the blood the poisoning would not remain there.

This is why it is usual to blame the kidneys and the liver for backache, headache, rheumatism etc.

The way to get rid of such pains and aches, then, is by arousing the action of the kidneys and liver and this is most promptly and most certainly done by the use of Dr. Chase's Kidney-Liver Pills.

By using this popular medicine you can usually obtain relief in a few hours.

You will realize then the advisability of using Dr. Chase's Kidney-Liver Pills once or twice a week so as to keep these vital organs active and ensure that the poisonous waste matter is promptly removed from the system.

In most homes this medicine is kept constantly on hand for use in case of emergency. Not a bad idea, is it?

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box for 50 pills. Edmanson, Bates & Co., Ltd., Toronto.

**MEN'S SWEATER COATS**

Heavy All-Wool qualiites in Brown and Navy. Regular value $5.00. Sale price **$3.95**

## Condemn Fake Schools For Movie-Struck Youth

By HAROLD E. SWISHER.
(United Press Staff Correspondent)

Hollywood, Jan. 12, (United Press).—From out of the storm of condemnation heaped upon the many motion picture schools springing up over the country has come a voice of praise for the dramatic schools that really teach

Each day there pour into Hollywood many score young men and girls trained in a few short weeks to be, according to the promises made by the fake instructors, film stars of the greatest brilliance. Disappointment naturally awaits them, and, in many cases, with their last cent paid for the teaching that doesn't teach, they face great hardships before they, if at all, do finally break into the picture players' ranks.

Estelle Taylor, whose latest success in the part of Miriam in Cecil B. De Mille's "Ten Commandments," condemns the fake schools as much as anyone, but she is strong for the legitimate dramatic courses in recognized, and well might she be, for she is a graduate of one herself.

"Motion pictures have attracted their quota of unlawful Shylocks just as any other successful industry has drawn them," Miss Taylor said. "It is, however, unfair to the honest dramatic and movie schools to allow the impression to spread that all acting schools are fakes.

"Aspiring movie actors and actresses will find that a training obtained at a real dramatic school will prove a big asset not only in getting a start but in achieving prominence as well. A genuine dramatic training at an established school is one of the biggest assets a beginner can have."

• • •

With preparations for the production almost complete, Goldwyn will soon start photographing "Ben Hur" in Italy, the film which is expected to take its place on one of the leading film offerings of 1924.

H. E. Eddington, business manager, and June Mathis, Editorial director, have already left Hollywood for Italy, where they will join Director Charles Brabin and arrange final details for starting the massive work.

George Walsh will play the much coveted role of "Ben Hur." Carmel Myers has been chosen to enact Iris, the Egyptian siren of Gen. Lew Wallace's famous novel, while Kathleen Kay will play the role of Tirzah, Ben Hur's sister.

• • •

Once more Jackie Coogan is passing up the gamin's garb in favor of wooden shoes and the commodious pantaloons of the Flemish youth. In Jackie's forthcoming picture, just launched at Metro, he plays the part of Nello, boy hero of Ouida's childhood classic, "A Dog of Flanders." The picture will be issued under the title of "A Boy of Flanders."

# RAIL AND COAL WORKERS THREATEN INDUSTRIAL UPHEAVAL IN BRITAIN

### Labor's Hopes of Power May Go Glimmering with Walkout of 59,000 Railway Employees

### MUST COMPROMISE

### Coal Miners Expected to Leave Posts—Loss of Liberal Support Hinges on Immediate Action

**London, Jan. 14.—(By United Press).—Labor leaders met to-day for a desperate effort to avert a national rail strike on the eve of the party's assumption to power.**

London, Jan. 14.—The Labor leaders planning shares of the spoils of office here were rudely shocked Sunday by the categorical announcement by John Bromley, secretary of the Associated Society of Locomotive Engineers and Firemen, that "a strike is inevitable."

This means that unless mediation is successful, 59,000 men, two-thirds of all firemen and engineers on British railways, will quit work at a time not yet announced, but probably next Saturday night.

**Refuse Wage Decision**

The men have refused the decision of the National Wages Board, making a reduction of $2 to $5 in their weekly pay. The award actually affects only long distance firemen and engineers, or 2 per cent. of all the workers in the union.

The political reactions of this strike if it takes place, may be serious—even to the point of preventing the Liberals from overthrowing the Baldwin Government and installing Labor—should most of the nation's railway system be crippled by Tuesday, January 22, when Labor's motion of "no confidence" in the Government will probably come to a vote in the House of Commons.

The National Union of Railwaymen, of which J. H. Thomas, slated for a Labor Cabinet portfolio, is president, has accepted the decision of the Wage Board, and therefore will not strike, but it contains only a third of the country's engineers and firemen.

**Skeleton Service at Best**

C. T. Cramp, industrial secretary of the union, said:

"While our men will work as usual, they will not perform the work usually done by members of the Associated Society." This means that only a skeleton service could be kept up on the principal lines.

A political crisis is likely to arise out of this situation. At the time of the last railway strike in 1919 the Government ran the railways with troops, and improvised a great motor lorry service that supplied the larger cities with milk and provisions. So the strike was broken.

The Labor Government, however, could not take any such action without causing a party split, for the trade unions, which are an organic and powerful part of organized labor, would be certain to forbid a Labor Government to crush the strike.

## Negro Was Mayor For 60 Minutes

Peterborough is the only city of its size on the continent where there is not a resident colored man.

But it was not ever thus.

The municipal inauguration on Monday recalls the time, 62 years ago, when an ebony-hued negro was Peterboro's mayor for one hour.

The negro, Crossley, who operated a barber shop on Water street, and who was reported to be exceptionally black—black, indeed, as the best advertised shoe polish—was nominated as a "joke."

Other candidates, insulted by the idea of having their names go on the ballot with the dusky aspirant, withdrew, with the result that Crossley was elected by acclamation.

An hour after the polls closed, a committee armed with strong arguments, and other persuasive powers waited on the Mayor, and asked him to resign. He acceded to the request and Peterborough has been without a negro since.

### THE WEATHER

Light winds, fair and moderately cold, today and on Tuesday.

## COMING EVENTS

**NOTICE**

A meeting of the property owners and others will be held Tuesday, Jan. 15th, for the purpose of talking over civic matters, election of officers, receiving of memberships and other business.

WM. PANTER, President   ALF HUNTER, Secretary.   J12-2t4

A class will be opened soon in a neighboring hospital, salary $15 per month, including board, room and laundry. Education equivalent to one year of New York State High School required. Address for particulars, Hospital 179 Lake Ave., Rochester, N. Y.   J10-14-17.

## Runaway Stopped In 'Nick' Of Time

While Norman Clapper and his wife walked along Front Street at 9.45 o'clock Saturday night, they were suddenly terrorized by the appearance of a maddened horse with cutter in tow. The runaway horse, which had galloped from the foot of Front street made a short turn to the east just north of Campbell Street and turned in to the sidewalk between a standing motor car and the window of Burrow's Insurance building. With great presence of mind, Clapper grabbed for the bridle, and hanging on, brought the excited pony to a standstill. No one was injured, and the harness and cutter was not damaged materially, although narrow escapes featured the race throughout.

The horse is owned and was driven by Ernest Bunnett, 139 Burham St. Clapper lives at 12 East Moira Street.

## Meighen Stresses Canadian Optimism

### Situation of Counting and Resources of People Better Than Par

Toronto, Jan. 14.—. No other country in the world, Rt. Hon. Arthur Meighen told the Executive of the Commercial Travellers' Association at a luncheon in the Prince George Hotel Saturday afternoon, has so much cause for optimism as has Canada. He admitted the many difficulties which faced the country, but followed that review with the reasoning: "We have tremendous resources, beside which the resources of any other country of like population are insignificant, while our people are comparable with the best."

Mr. Meighen had come to the city at the invitation of the Executive of the Commercial Travellers' Association, and his address followed an informal luncheon, at which Gordon R. Sheppard, of Ottawa was the host. The members of the Executive were: President J. Harry Dodgson, First Vice-President, J. Zammers, Second Vice-President H. L. Willmott, Secretary John Rutherford, and C. A. E. Colwell, R. F. Gray, R. B. Herron, George Pepper, Art Gym, W. E. Bennett, E. J. Hutchins, John Curtis, G. Francis Campbell, Alex. Cook, Ben. E. Miller, Walter Moore, Robert Hood, J. H. McClelland and W. H. Williams, Members of the Executive.

**Have to Face Heavy Debt.**

Canada's heavy national debt, said Mr. Meighen, was primarily due to the war, but it was something which, nevertheless, had to be faced. On top of this the country was faced with heavy transportation charges, due to its great distances, but a strong and vigorous Government should be able to surmount all these difficulties. In ten, or even five, years, he predicted, these conditions would be vastly improved.

"I predict that the Government which succeeds the present one, will be most unpopular, if it does its duty," he said, "because of the severe measures it will have to take to contract the public outlay. If this Dominion errs in its fiscal policy, no other act we can do could atone for that mistake. I do not mean a prohibitive tariff against any other country, but one which will prevent unfair competitions, depriving Canadian producers of a fair chance in the market that he builds up.

**Opposes Reciprocity**

"Some might call it flag waving or an appeal to the emotions, but it is the downright truth that, by a tariff ensuring an uninterrupted flow of commercial traffic east and west the very existence of the country depends. Just as soon as this country enters into reciprocal tariff with the nation to the south we will be on the road to having to grovel at the feet of the commercial despotism of that nation. Suppose a reciprocal tariff were entered into and five, ten or fifteen years hence the United States changed its mind, the utter disruption of the commerce of the country would bring a cry of despair which would be heard from coast to coast, and we would be in a position where economic mercy would be sought on any terms."

Tariff arrangements, he said, could be safely made with any other country, but not with the United States without Canada relegating itself into the power of that country. There was an uncertainty about the present tariff situation, he claimed, which was preventing expansion of business and leading to a loss of population.

### Ill-Fated Dixmude Officers

First photo to arrive in this country of the commander and officers of the ill-fated Dixmude, the lost French dirigible. Commander Plessis (second from right) was killed, it is announced. His body has been recovered. The others still are missing.

### LOCAL HOMES PREY OF WILD SHOOTERS

Some weeks ago a shot was fired through the front window of Mrs. Van Burton's home, smashing the window. If Mrs. Burton had been sitting near the window serious results might have followed. Nothing has been heard since regarding the reason for the shooting.

On Friday afternoon another shot was fired through the bay widow of the home of Mrs. R. E. Bowles who has placed the matter in the hands of the local authorities.

## Bank Shareholders Ordered To Pay Up

Toronto, Jan. 14.—Another and very important step in the legal proceedings against the shareholders of the Home Bank was taken Saturday, when a formal printed summons, with a list of the names of all the contributories attached thereto, was sent by registered mail to every one of the 1,8000 or more shareholders notifying them to show cause, either personally or through a lawyer, on or before February 13, 1924, at Osgoode Hall, Toronto, why they should not pay up the amounts unpaid on their shares, and also double the amount in addition, known as the double liability.

**Must Show Cause**

The summons further warns the shareholders that if they do not, before February 13 next, file reasons showing why they are not liable to pay, then, on February 19 their names will be settled on the list as contributories, and compelled to pay the amounts claimed in each case by the issue of an execution against their goods and property within 14 days thereafter.

**Will Fight Claims in Court**

R. A. Reid, barrister, Kent Building, Toronto, when asked about this latest phase of the proceedings, said he was taking immediate steps no behalf of his clients to bring the liquidators and bank officers before special examiners for thorough examination and inquiry into the whole financial position, resources and assets of the bank, as he contends, so far as his shareholder clients are concerned, that they are not liable to pay any money to the bank or the liquidators until all the assets and resources of the bank have been first realized upon and the shareholders then called upon for any shortage or deficiency up to the amount of their shares.

"We are prepared to carry this matter to the Privy Council, if necessary," said Mr. Reid, "in order to find out what our rights are."

### SPECIAL COUNCIL MEETING

The City Council will hold a special meeting on Thursday night of this week for the purpose of transacting general business. One of the important matters to be considered is the public liability insurance which expires on the 23rd inst.

# GAS PIPE LEAK NEARLY CAUSES TWO FATALITIES

### Employees of Gas Works Narrowly Escape Death By Asphyxiation

### QUICK FIRST AID

### Sudden Break In Old Pipe Pours Fumes In Close Space

When a decayed gas pipe collapsed under the first haul of a cord which was attached to it, in the cellar of Jennings and Sherry, Stationers at Corner Victoria Avenue and Front Street, on Saturday afternoon at 4 o'clock, two employees of the Gas Works here narrowly escaped death by asphyxiation.

William Harden, Manager of the city Gas Works, who lives at 23 Sinclair Street, and Mela Kimmerly, laborer with the same Company, who lives at 73 John Street south, are the two men who suffered from the poisonous fumes, but who have today fully recovered.

**Crashes Through Window.**

For some months there has been a leak in the gas pipe which passes through Jennings and Sherry basement to feed a shop south of their store on Front Street., and the gas works officials and employes had commenced to repair the pipe on Saturday afternoon, as the escaping gas was a source of great nuisance in the store above. After the excavation work had been completed and the pipe unearthed Manager Harden moved the cord, and the shell pipe which has been exposed to the elements along the side of the store for years, collapsed like an egg shell, the poisonous gas gushing forth under great pressure, and with deadly effect. Harden was overcome almost immediately, shouted once, and fell forward, crashing through the cellar window. Kimmerly who was in the trench, was also feeling the sudden effects of the fumes, but hearing the call for help, was successful in bringing Harden to the street above.

**Rendered Unconscious**

Both men collapsed, Harden being unconscious for several minutes. Dr. W. W. Boyce was immediately summoned, and soon both men regained consciousness. Though they could not speak, and staggered about like drunken men, but their first thoughts were to rush back into the hole and stem the flow of gas. Dr. Boyce ordered them to walk about in the brisk air, and guided by men they walked up and down Victoria avenue for some time until the poisonous fumes had gradually left their lungs an dthey regained strength.

Harden was removed to his home in a car, after he had been refused his desire, to complete his work. Kimmerly gamely stayed on the job, and even later assisted with the work before it was temporarily completed at 9 p.m.

**Work is Completed.**

Immediately the break occurred, Mr. Bert Jennings telephoned for City Engineer Charles Campbell, who hurried to the scene and took command of the situation. Workmen dug into the frozen ground until they reached the pipe, where the rusty, leaky portion was cut off, and the end plugged temporarily. The occurence was witnessed by a large Saturday crowd which congregated "on the double."

For six months, it is believed the pipe has been leaking gas as passers-by claim to have smelled the escaping gas on various occasions. About Christmas time, a sleeve was cemented on the defective pipe in an unsuccessful endeavour to correct the trouble. The heavy pressure rendered the sleeve ineffective. On Saturday, the plan was to remove the bad section of the pipe, but it collapsed at that section where it had been exposed to the elements for years when the least pressure was exerted upon it, with the results. The Jennings and Sherry store was soon so full of the gas fumes that it was well nigh impossible to live in the atmosphere. Doors were opened, and the fire in the cellar was allowed to die out the fear being that an explosion might occurr in the basement. This morning everything and every one is back to normal.

# MORGAN'S PIRATE HOARD SOUGHT IN SUNKEN CAVE

Long Beach, Cal., Jan. 14. (United Press).— Tradition says that the treasure of Sir Henry Morgan, buccaneer of the Spanish Main, is hidden in a sunken cave off the coast of Old Providence Island, in the West Indies.

Because his interest has been aroused in the old tradition by helping to get a vessel off the reef, Bernard Joachim Keegan, deep sea diver and second mate of the United States wrecking tug Favorite, will soon try to find the buried treasure.

The mouth of the cave in which the gold is supposed to have been buried was above water in Morgan's time, but it is now about 75 feet below the surface. After he has reached the mouth of the cave, Keegan expects to have to swim about 150 feet into the cave proper and then come up inside the main chambers, which are above water. It is in these chambers that he expects to find the gold.

A number of serious dangers will have to be faced in the water, because the sea around Old Providence is alive with sharks, swordfish, sawfish, poisonous sea snakes and giant devilfish. Keegan says that his Irish luck will be with him.

# STRONG POLICY OF PROGRESSIVENESS IS KEYNOTE OF ADDRESS BY MAYOR AT FIRST MEETING OF NEW COUNCIL

### Alderman W. R. McCreary is Chosen Chairman of Executive Committee — Other Leaders Named

### SELECT TRUSTEES

### Four By-laws Introduced by Alderman McCreary — Mrs. W. J. Boyes Named As High School Trustee

Many were present at the inaugural meeting of the City Council for 1924 this morning.

After City Clerk Holmes had announced the result of the municipal election he declared that the following persons were duly elected as members of the City Council for the ensuing year—

Mayor—W. C. Mikel, K.C.

Aldermen—G. E. Foster, R. J. E. Graham, H. W. Greenleaf, R. Gardiner, A. H. Ketcheson, D. V. Ketcheson, E. LaRoche, W. R. McCreary, W. H. Patterson, A. Robinson, S. H. Treverton and R. P. White.

Mayor Mikel was escorted to the chair by Aldermen R. J. E. Graham and A. H. Ketcheson and invested with the insignia of office, namely the gold chain.

An appropriate prayer was offered up by Rev. D. C. Ramsay, pastor of John street Presbyterian church.

On motion of Ald. W. R. McCreary, seconded by Ald. R. P. White, a vote of thanks was extended to Mayor Mikel for his address, which was suitably acknowledged by His Worship.

Council went into committee of the whole, Ald. Greenleaf in the chair, for the selecting of chairmen of the various committees. The chairmen selected were as follows:

Executive—Ald. W. R. McCreary.
Public Works—Ald. E. La Roche.
Water Works—Ald. W. H. Patterson.
Fire—Ald. R. Gardiner.
Market and City Property—Ald. S. H. Treverton.
Light—Ald. R. P. White
Industries—Ald. R. J. E. Graham.
Gas—Ald. G. E. Foster.
Printing and Stationery—Ald. A. H. Ketcheson.

The committee rose and reported. The report was received and adopted.

**Bylaws**

Four by-laws were introduced by Ald. McCreary as follows:

A by-law to provide for the appointments of three High School Trustees.

A by-law to provide members of the Belleville Public Library Board

A by-law to provide members of the Local Board of Health.

A by-law to appoint two members of the Park Management.

Council went into committee of the whole on by-law, Ald. H. W. Greenleaf, in the chair.

The blank, in the by-law to appoint two High School Trustees for a three year period were filled in with the names of John Elliott and G. B. Smith.

In the place of Mr. Thos. Marshall who resigned as High School trustee, Mrs. W. J. Boyes was selected.

Mr. H. F. Ketcheson was re-appointed a member of the Belleville Public Library Board.

**Local Board of Health**

Messrs. C. Hanna, S. Robertson and L. P. Hughes were re-appointed members of the Board of Health.

**Parks Board Members**

Messrs. C. J. Symons and C. Dolan were re-appointed as members of the Parks Management Board.

Report of the By-law Committee was received and adopted, and the by-laws were passed through their various stages and numbered 2561, 2562, 2563 and 2564.

**Motions**

Ald. E. La Roche moved, seconded by Ald. S. H. Treverton, that a grant of $350 be made to the W. C.A. for the indigent fund for the month of January—carried.

Ald. W. R. McCreary moved, seconded by Ald. R. J. E. Graham, that a special meeting of the council be held on Thursday evening, 17th inst. for general business.—Carried.

### HASTINGS EMPLOYEE SERIOUSLY INJURED

Hastings, Jan. 14—Mr. Gilbert Herrington, who is employed in the rolling room department of the Hastings

Mr. Herrington was attaching a belt cident about 4 o'clock, Friday afternoon.

Mr. Herrington was attachig a belt to one of the pulleys which was in motion, not knowing that the other end was wrapped around his leg, and when the belt was attached to the pulley it drew the unfortunate man to the ceiling. While being pulled up his foot came loose and he fell with his full weight on his head on the cement floor.

Mr. Herrington was badly cut about the head and face, besides hurting his arm and leg in the fall.

Dr. J. A. McDonald was called at once and had him removed to his home on Division street.

### CITY'S EXECUTIVE

**MAYOR W. C. MIKEL, K.C.,**
Whose forceful address on civic problems and their remedy was favorably received at the first meeting of the council.

## GIRL PROTECTION SPEAKER'S THEME

### Dominion President of Travellers' Aid Stresses Need of Station Aides

Mrs. Cole, W.C.T.U. President, secured a large audience on Friday, at the special meeting of the Union and the Y's, to hear Dr. Detweiler of Kitchener, Dominion President of the Travellers' Aid. This department aims to protect young women travellers from the dangers of the road, particularly from the wiles of the white slave trader, who goes about in the guise of friendship. Statistics show that in one year 60,000 girls disappeared in the U. S., 1500 of these between Chicago and New York. Hence Dr. Detweiler stresses the importance of preventative rather than remedial or rescue work.

In every R. R. Station there is a W.C.T.U. directory and badge with the local supt's. name, to whom women travellers may with confidence apply for direction or safe convoy to their destination. Mrs. Hill is the Belleville union representative.

An earnest plea was made for parents to promote a perfect confidence between mother and daughter and father and son, thereby safeguarding the physical and moral well being of youth, and avoiding heart breaks and tragedies in the home.

On motion of Miss Jacks, seconded by Mrs. M. Farley, thanks were expressed to Dr. Detweiler.

Other items on the program were scripture lesson and comment on the impartiality of the Syro-Phoenician mother—such importunate prayer being a condition of success in the Temperance cause. Reading by Mrs. Booth and solo by Mrs. Hunter.

## Music Holds Sway At Rotary Luncheon

Music held sway at the Rotary luncheon to-day when a brilliant array of Belleville artists delighted the members with a fine program. Dr. Haffner, Sandy Burrows, Fred Burke, Jimmy Bankier and Harold Barrett sang with Prof. Hunt at the piano. At the conclusion of the forty-five minute program the members heartily concurred in Chairman Scott's declartion "that Belleville is proud of the artists who have entertained us to-day."

Peter MacLaurin, president of the Kiwanis Club had one minute to tell why he was leected and Harry Ackerman, the new president of the Chamber of Commerce was also called on to speak briefly. A warm welcome was entended to Dr. Day at his first Rotary Luncheon since his recent illness.

Something good was promised for the coming Rotary Minstrel show, but it is being kept a secret as yet. There will be a regular old time minstrel parade and the committee have promised to break all records.

## Would Have Grown In Manitoba Soil

A farmer near Brockville, Ont., lost a gold watch while ploughing last spring. The other day he was plowing the same field and turned up the watch. He wound it and it ticked off as if nothing had happened. That of course is possible with the soil they have in Ontario. But out here on the prairie it would have been different, the fertility of the soil being so much greater. For instance, if a Manitoba man were to drop a gold watch into the soil while plowing in April or May, and he were to turn it up in the fall, he would find that it would have increased ten-fold and he would gather in three or four ordinary gold watches, a half-dozen wrist watches and at least three or four gold chains.

### Matters of Vital Importance To Belleville Stressed at Inaugural Session By Mayor W. C. Mikel, K.C.

### STRICT ECONOMY NEED

### U.E.L. Celebration, Paint-Up and Clean-Up Campaign — Beautifying of City Among Major Topics

A policy of progressiveness in regards to civic matters for 1924, with a due regard to economy, was outlined this morning by Mayor W. C. Mikel, K.C., in his address at the inaugural meeting of the Council. He touched upon several matters that are of vital importance to the city's welfare. The address he gave is as follows:

"Another year in Belleville's history has disappeared into the trackless ages of the past. As we stand upon the threshold of a new year it may be well to give consideration to some suggestions for the future.

**Give the Taxpayer a Rest**

"First and foremost the practice of strict economy in all matters concerning the expenditure of City money should be constantly observed. This does not mean that all public services should cease or that all demands for repairs and improvements should be denied, but it means that great care should be exercised in spending the people's money while carrying on such repairs, improvements and services as have been selected. In other words give the much burdened taxpayer a rest, so far as possible.

**Corby Baths**

"Five thousand dollars have been provided by the late Senator Corby for baths at Queen Victoria Park. The expenditure of this money does not come out of the general taxpayers. Five thousand dollars will, of course, not provide any ornate, elaborate system of baths, but that sum is sufficient to provide service, and service is more important than ornate appearance, and it will be a lesson on living within our means.

**Labor and Unemployment**

One of the principle objects of Government is to improve the conditions of the people, particularly the conditions of our less fortunate fellow citizens. Every citizen therefore should be urged to provide all the work possible, whether of small or large jobs, so that persons in our City desiring work may not go unemployed in the trying winter season, and I would recommend the appointment of a Standing Committee on Labor and Unemployment to consider ways and means each year of providing labor for our fellow citizens during times when work is not plentiful. This plan properly carried out will lighten the burdens of the taxpayer by reducing the City Council's expenditure on the poor and indigent of the City, and will also improve the character and condition of our less fortunate citizens. The Labor and Unemployment Committee could also, when requested, advise and guide poor people who get into financial difficulties with which they are unable to cope, and perhaps prevent them becoming a charge on the community. Such a Committee could render useful service by co-operation with the Indigent Committee of the Women's Christian Association and with the Provincial Labor Bureau.

**Fire Insurance Rates**

"The report of the Special Committee of the Legislature of the Province of Ontario on Fire Insurance rates, of which Committee the Hon. Howard Ferguson and Hon. Geo. S. Henry, the Minister of Public Works, were members, justifies the belief that a substantial reduction in Fire Insurance rates can be obtained, and this matter should be taken up and pressed, because it will indirectly relieve the burdens of the taxpayer.

**Provincial Highway Cost**

"An effort should also be made in conjunction with the other smaller cities of the Province to prevail upon the Government of the Province of Ontario to assume the cost of provincial highways outside the borders of cities, which cost is now by the Provincial Government charged to the cities. This will require the hearty co-operation of all citizens of the smaller cities and it is worth while as it will relieve the taxpayer from a very heavy burden.

(Continued on Page 3)

### FIRE RAZES HOME OF C. M. ANDERSON

Fire on Saturday morning shortly before the noon hour destroyed the home of Mr. C. M. Anderson, located on Lot 2, Concession 5 of Murray Township, just west of Frankford village. When discovered, the flames had gathered, considerable headway and could not be checked. The building, a frame structure was reduced to ashes. Some contents were saved. The loss sustained by Mr. Anderson is partially covered by insurance.

Ottawa, Jan. 14.—Fewer people are assuming the responsibilities of matrimony in Canada, according to vital statistics for March, 1923, prepared by Government officials.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### THRIFT WEEK

Thrift and economy are synonymous; one without the other could not be, and it is most appropriate that Mayor W. C. Mikel, K.C., in his inaugural address to the City Council, should so strongly stress these two factors. This week has been designated as Thrift Week, set aside to the practice of economy and value-buying. Starting a few years ago on a small scale, the policy of setting aside one week for the special purpose of studying thrift has grown to world-wide proportions.

There is no branch of commerce or industry so closely in touch with the industrial pulse of the world as the banking institutions. A temporary collapse in some far-away country so small as to hardly reach the news columns is immediately felt and registered, and the strong endorsement give Thrift Week by those who guide the financial helm of the masses is sufficient in itself.

Thrift has long been recognized as the greatest national asset a nation may possess, and recognition of this fact has promoted the movement to instill the policy of economy in the youth of our Dominion. The child taught to conserve, to look to the future, will eventually become that most valuable asset to country and community—a solid citizen.

### A BROAD VIEWPOINT

The following extract from the pen of the Hon. G. H. Ferguson, Premier of Ontario, throws an interesting sidelight on the future policies of the country as a whole:

"In responding to the request for a statement of the aspirations and problems of the Province of Ontario, I may be permitted to express my full concurrence in the view that a better understanding between the Provinces of our relations to each other will be of advantage to all Canadians, and will contribute to the development of a truly national spirit in the country. Obviously the subject is one that can only be approached with advantage in the broadest spirit, and apart from local or sectional considerations.

"The most cherished aspiration of the people of Ontario, as I believe of all true Canadians everywhere, is the full fruition of the hopes and plans of the founders of this Dominion of Canada, who sought to establish a free contented and prosperous democracy under British auspices on the Northern half of this Continent. We are all proud of our country, its vast resources and its substantial progress, and we desire to add to its prestige, stability and prosperity by every means in our power, believing that whatever promotes the welfare and unity of Canada is beneficial to all the Provinces and to the people of this country. I make this observation the more confidently because when we come to consider our provincial problems, we find that in these we have very much in common.

"Although we are a young country, comparatively speaking, the chief problem of the older provinces, as it will soon be of the newer Provinces, is the conservation and development of our natural resources. It is not very long ago since development was a prime consideration. With our vast areas of virgin soil and apparently unlimited forests, we took little heed of the future, believing that this source of wealth would not be appreciably diminished for many generations to come.

"It has been brought home to us all of recent years that we must take careful heed for the future of the endowment which nature has bestowed upon us. Already the forests of the neighboring Republic are approaching exhaustion, and that country has turned to Canada as a field for raw material for industries dependent upon woodland products. This demand accompanied by the requirements of our own country, have given an impetus to the inroads upon our forests, which cannot fail to give much concern to all thinking Canadians. The process of destruction is accelerated by the forest fires which constitute a heavy loss to the country. Appropriate remedies must be applied. When the lumberman harvests the crop of the forest which has been maturing during a long period of years, he finds in process of growth another generation of trees which in due time, if properly protected, will reproduce the harvest he has reaped. The adoption of measures which will ensure the natural reproduction of the forests, is therefore of prime importance to Ontario."

## PRESS OPINIONS

### PENSIONS HELP.

(Brooklyn Eagle)

France does well to pension Mme. Curie. Our American scientists have to twist their line of research toward money-making or apprehend starvation, a consideration which often deflects the compass needle of judgment. We shall know more when we are an older country.

* * *

(Guelph Herald)

A news item in the papers this week was worthy, perhaps of more than a passing notice. It told of the holding of a memorial service in an Anglican Church in Gananoque for Rev. Dean Kehoe, a Roman Catholic priest. The memorial service was timed for the same hour as the Requiem Mass in the dead priest's own church. Dean Kehoe is described as a priest whose high-minded work for humanity took no account of party or creed.

It is pleasant and inspiring to read such items in the newspapers, especially during the Christmas holiday season. They seem particularly appropriate then; but they would be welcome at any time. The pity is they are not to be found more frequently in the newspapers. It does not seem that the fault this time is with the newspapers.

* * *

### THE VISION GLORIOUS.

(Montreal Star)

In this year of grace, when the intellectual and spiritual world is in a state of unrest; when doctrines that once made heroes, are lightly esteemed; when foreign cults are coming like a flood, and when the veneer of materialism is over all, there should be intellectual honesty and thoroughness; unwillingness to be satisfied with any sham, until there break upon the vision such a revelation as is given only to those who reverently and patiently knock at the door of truth.

* * *

### EVASIONS OF WEALTH.

(Louisville Courier-Journal)

Nothing is better established than that the rich usually find a way to evade what they consider excessive taxation. In the present case they pass the excess taxes on to the small taxpayers and to the purchasers of commodities. The man in business who is required to hand over half of his income to the tax collector recoups himself by exacting higher prices for his products or merchandise. The small taxpayers and the consumers foot the bills.

## THE PARSON O'DUMFORD

The light brightened in the east, but paled in the window of the sick girl's room; and the watcher's heart sunk low, for he knew too well that this was the hour when vitality was at its lowest ebb, and that, perhaps, at this very time the gentle spirit of Eve might be winging its way to a purer realm.

"My poor love—my love!" he murmured, as he leaned upon the gate, and, if ever man prayed fervently that was a heartfelt prayer breathed from his lips, and it seemed in his weak worn state, borne upward by a winged messenger which rose from the field hard by, singing its morning song of praise.

He watched that lark as it rose higher and higher, its clear notes ringing far and wide, but growing gradually fainter and fainter, till the bird seemed lost to his gaze, as the song was to his ear but as he watched the sky turned from its pale dawn tinged with a warmer flush of one glorious damask fret of orange and gold lighting up the trees and flowers of his garden as he let his eyes fall to earth, and then, as they rested on the window, it was to see that it was blank and cold and gray.

He could not stir, only stand gazing there with a horrible sinking feeling—a terrible dread, and though the sun rose slowly, his light seemed pale and sickly to the heart-stricken man whose worst fears seemed confirmed when the door opened, and the heavy burley figure of the doctor appeared coming softly down the gravel walk.

"You here, Selwood!" he exclaimed.

The vicar bowed his head.

"You have been here all night."

"Yes but tell me. I can bear it now Does she sleep?"

"Yes," said the doctor, pausing; and as he saw the weary head sink lower, he continued. "Yes, but not the sleep you mean. The crisis is past, dear friend, and Eve Pelly lives."

It was one soft delicious afternoon when the vicarage garden was aglow with flowers, mellow with sunshine and joyous with the hum of the insect world, that in obedience to Eve's wish, the vicar went down to find her looking very thin and pale, but inexpressibly sweeter than she had ever seemed before, seated on the old rustic seat beneath the great hedge of mingled holly and yew. Daisy was with her as he entered the garden. She went into the house, and Eve, with her color rising slightly, held out one hand and pointed to the place at her side.

He did not take the seat, however but mastering his emotion, took the trembling hand between his and kissed it.

"You wished to see me?" he said

"Yes," said Eve, in a whisper; "to thank you for your great—great kindness to me. They tell me I have been here eight weeks. I have been asking Mr. Purley whether I may go home—to my aunt's—at least," she said growing agitated, "somewhere—somewhere. I must not stay here.."

He had come, meaning to be calm to command himself, knowing that she was delicate and weak; but at these words, and the visions they conjured up, the restraint of months was broken down, and, retaining her hand, he sat down beside her.

"Do you wish to go away Eve?" he said hoarsely, while his strong hand trembled like that he held.

"I can not trespass on you any longer," she said; and then in a weary helpless manner, "but I meant to go away—far from here."

"Eve," he whispered, "may I tell you of something of which you have never dreamed? I meant to keep it yet for months, but your words drive me to speak, and at the risk of losing all I must. My child, I have known you now for months; I have watched you till I have felt that I knew even the thoughts of your gentle heart, and as I learned them, knowing what I did, life has been to me one long time of agony. Eve, I have loved you with all my heart—so well that I would not give you the pain of knowing it, glad to feel that I was your friend, whom you could trust and turn to in your trouble. Have I kept to that?

"Yes, yes," she said piteously.

"Have I ever broken from the position in which fate placed me, or been traitor to your trust? Have I ever shown you the deep and passionate love that was in my heart?"

"Never, never," she moaned.

"No," he exclaimed; "I struggled and fought against it, even yielding to your wishes to perform a duty in which I felt that I was being my own executioner. But now you are free. You can not wed this man!"

"No, no, no," she whispered, with a shudder.

"Then give me some little hope—however little. My darling, I will wait for years if you will but tell me—you turn from me—am I mad in thinking that you might some day trust me with this little hand? You said you must go. Why—why leave me Oh, Eve, darling! have I kept my secret so long for this?"

He was rising from his seat when her little hands went up to his, and he sunk beside her, as they were placed upon his breast, and Eve's cheek went down upon them and nestled there.

"Is this a dream?" he exclaimed.

"One," she whispered, "that I have prayed some day might come true, but trembled, for I thought it was a sin."

"And you can love me?" he cried, drawing closer and closer to him.

"At last," she murmured; "and when I thought I was alone in the wide, wide world. Love you!" she faltered, as she hid her face in his breast, "I have loved you from the first."

THE END

7 in 10 People Have Eye Strain

TO SOME EXTENT it may be caused by different errors of vision, and no matter how slight or serious it may be there is but one method of correcting it. That is by glasses accurately prescribed and adjusted. I promise you the best possible results. Glasses also protect that form of eye strain that is caused by too steady use of the eyes for close work.

## Music & Drama

### CULLEN LANDIS HAS HAD GREAT CAREER

"The Fog" is his 4th Metro Picture in 6 Months.

"The Fog" now at the Regent Theatre in which Cullen Landis has the leading male role, is the fourth Metro picture in which this popular young screen actor has appeared in the last six months. It was produced Max Graf.

Mr. Landis played opposite Viola Dana in "Love in the Dark" and had the leading male role in "Youth to Youth." He also had an important part in the Fred Niblo production of "The Famous Mrs. Fair," a Metro Louis B. Mayer attraction.

Although still a young man, Mr. Landis has had a highly successful screen career. He started with the Goldwyn company and was featured in numerous productions. Since leaving the organization he has played in many successful pictures with various companies. Among these were "The Girl from Outside," "Watch Your Step," "Jinx", "Going Some." "The Old Nest," "Night Rose" and "Some one to Love."

### MARY PICKFORD 14 WEEKS ON

Long Seige of Continuous Work For New 'Tess of the Storm Country"

After fourteen weeks of continuous work, Mary Pickford completed her new version of "Tess of the Storm Country," the famous Grace Miller White story which established this little star's perenial fame eight years ago, when she made her first feature picture. This new "Tess of the Storm Country," is now showing at Griffin's.

The last scene was made on location near Los Angeles and showed a dog capturing the villian as he was about to grasp the fleeing Tess, that belligerent hoyden of the squatters' village so convincingly portrayed by the lovely Mary.

Owing to the popularity of "Tess of the Storm Country," every precaution has been taken with the production to make it superior to anything Miss Pickford has ever done. Direction was under the guidance of John S. Robertson, especially loaned by Jesse Lasky for this feature. Charles Roher, who has handled the camera for practically all of Miss Pickford's most famous starring vehicles, presided over the photography on this production. In the cast are such celluloid notables as Lloyd Hughes, Gloria Hope, Forrest Robinson, David Torrence, Jean Hersholt, Danny Hoy and Mme. de Bodamere.

In filming this play twenty sets were built, thirteen of which were interiors. One of the exteriors consisted of an entire fishing village and is said to be the most unique setting of its kind ever erected, Only four locations were used, thus establishing a record for Miss Pickford of the smallest number of locations ever used by her in making a photoplay.

### THE CAPITAL LEVY.

(London Daily Mail.)

There could be no better method of injuring industry and precipitating a terrible financial panic than a capital levy. The mere threat of it in Switzerland brought that country to the very edge of disaster and led to a wholesale stoppage of works and increase of unemployment. In England the fact that the British Labor party has adopted the capital levy as its plank is keeping down the rate of exchange and sending capital from this country abroad. Where there the slightest possibility of the British Labor party obtaining a majority there would be such a catastrophe as England has never known.

Parents owe SCOTT'S EMULSION to a Frail Child.

### SHOWER AT STIRLING

It was indeed a merry party, that invaded the home of Mr. and Mrs. T. H. Matthews, on Wed. evening last, to pay honor to Miss Hazel, who on the morrow was to become the bride of Mr. Clifford Baragar, of Sidney.

The Christmas happiness seemed to be still prevalent, judging by the laughter and gay talk, that resounded through the spacious rooms, but the gathering was brought to order by Mr. Montgomery, who in a few words explained the purpose of the jolly crowd.

Miss Matthews was requested to occupy the chair in the centre of the room, and an address, showing the esteem with which she is held by her many friends was read by Mrs. J. M. MaGee, and then:—it began to "shower."

This was one occasion it did not rain—"rain", but silver-ware, china, linen and many other useful gifts were showered upon Hazel, who expressed words of appreciation to all her friends, for their kind wishes, and invited them to visit her in her new home.

That old time song "For she's a jolly good fellow" was sung heartily by all and after a few short speeches, the young people indulged in singing and games.

Mr. Barager arrived at this stage bringing with him a very inviting looking chair which was the gift of the school-section in which Miss Matthews was teacher, together with half a dozen silver spoons.

The chairman called for a few words from Mr. Baragar, who responded by thanking everyone for their kind remembrances, and extended an invitation for all to visit them on their return from the honeymoon.

The games were continued, until the tinkling of china ware in the kitchen, reminded the merry-makers that something good was coming, and accordingly they sat down and enjoyed a dainty lunch.

The gathering broke up in the wee sma' hours leaving behind the good wishes of all for Hazel and Clifford throughout their wedded life; and now we're wondering who's next.

### DIED.

MURRAY—At Thurlow on Jan. 13, 1924, Salamphe Jane Kaiser, wife of Peter Murray, aged 64 years.

The funeral will take place on Tuesday, Jan. 15th, from residence 2nd. Con. Thurlow, Madoc Road at 2 p.m. Service in home at 1.30. Interment in St. George's Cemetery, Trenton.

## OUT OUR WAY

## To Get Out The Woman Vote For Presidential Year

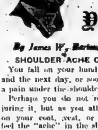
Washington, Jan. 14.—(United Press).—The National League of Women voters has issued a call for a conference in Buffalo, N. Y. April 24-29, to plan means of "getting out the vote" in 1924.

Every state is to be represented. The convention is the first step in a nation wide campaign to induce women to vote. The league has set as its goal in the president election the casting of at least 25 per cent of the eligible vote.

Mrs. Maud Wood Park, who will preside, said the 1924 election will be the test of women's work in politics.

"In 1920, for the first time in our nation's history, women throughout the United States were permitted to vote," said Mrs. Park. "Year by year since then, the league has carried on with increasing success the work of educating women for the primary duty of good citizenship—the casting of an informed and conscientious vote.

"The league calls every member. Come and enlist anew for the work before us that self government may be justified."



## That Body of Yours

By James W. Barton, M.D.

### SHOULDER ACHE OR PAIN

You fall on your hand or shoulder and the next day, or sooner, you get a pain under the shoulder cap.

Perhaps you do not remember injuring it, but as you attempt to put on your coat, vest, or blouse, you feel the "ache" in the shoulder.

This pain has been called rheumatism, neuritis, neuralgia and various other names.

What really is the matter?

Well, in various parts of the body Nature has provided a bag of water a sort of cushion, underneath the muscle. There is one at the side of the big toe joint. When it becomes inflamed it is called a bunion.

There is another just below the knee joint, and when it becomes inflamed and swells up, it is called house-maid knee.

And so there is also one beneath the big muscle that forms the shoulder cap.

Now how can you tell whether it is this bag of water that has become inflamed?

Well, if you raise the arm sideways from the body it is very painful, in fact you usually raise the whole shoulder with it.

At a certain point in raising it sideways from the body the pain disappears as the tender point slips under the shoulder cap. This is an important point to notice.

The arm can be turned inwards and even placed behind the back and causes no pain.

Sometimes the material in the sack gets thick, in fact turns into a sort of chalky substance like lime.

If it should go on this far, the chalk often has to be removed by surgical measures.

And so if you feel a pain at the point of the shoulder, not on top, get busy with it.

If the injury is recent give it two or three days rest first.

If it is of longer duration, then apply hot water for about fifteen minutes and then raise and lower your arm quietly for two or three minutes. After this, use hot water again, which will ease the pain and remove some of the products which were manufactured when you exercised your arm.

This should be done a half dozen times a day.

(United Press Despatch)

Paris, Jan. 14.—Experts Committee No. 1 which is to recommend means to restore the German Financial System and balance the German Budget, met in Hotel Astoria for its opening session. Louis Barthou presided, welcomed delegates and outlined committees jurisdiction.

(United Press Despatch).

Peking, Jan. 14.—American Minister Schurman, who returned to Peking from the South to-day, has prepared for presentation to the Chinese Government the strongest demands yet delivered on the subject of killing and kidnapping of American Missionaries by bandits, and looting of supu mission and firing upon the American flag by regular Chinese troops.

## OBITUARY

Mrs. Salampha Jane Murray died, in 2nd Con. of Thurlow on Sunday, Jan. 13, 1924. The deceased was born in Belleville about 65 years ago, was daughter of late Mr. Alfred Kaiser and had lived in Thurlow about 16 years. Mrs. Murray was a member of the Emmanuel Church. She leaves to mourn her demise, her husband, Mr. Peter Murray, four daughters, Mrs. Mary Seigler at home; Mrs. James Nerritt, Lafarge Bille, N.Y. Mrs. Robt Stewart, College Hill; and Mrs. Frank Shortt, College Hill, also four sons, Alfred B., at home; Peter E. Jr., College Hill, Harvey J., Donald St., and Raymond S. College Hill; two sisters Mrs. Mary Elizabeth Gerram, Frankford and Mrs. Ryerson Smith of Trenton.

### MRS. E. J. MILLS.

On Saturday afternoon many relatives and friends of the late Mrs. Elizabeth Mills were in attendance at her funeral. The body was taken from the residence of her son, Mr. C. Mills of Cannifton, to the Methodist Church in that village where services were held. Rev. Mr. Farnsworth conducted services assisted by Rev. Mr. Honey. Interment took place in the family plot, Lengwell's burying ground. The floral tributes were beautiful in effect. Bearers were Messrs. H. Brenton, H. Boyce, J. Tucker, S. Lloyd, F. Benedict and H. Twiddy.

### MARGARET J. SPENCER.

The funeral of the late Mrs. Margaret Jane Spencer of this city took place on Sunday afternoon from the family residence Grier Street. Rev. H. E. Kenny of the Tabernacle Church conducted services. The body was interred in the cemetery at Moira, West Huntingdon. The floral tributes mute evidences of sympathy were many. Bearers were immediate relatives of deceased.

### MARK OTTREY.

Ten days serious illness from pneumonia culminated in the death today of the late Mark Ottrey, who passed away at the late residence, front of Sidney Township.

Born in England in 1867, deceased was 56 years of age, and had lived in Canada and Sidney Township for the past 27 years. Deceased was a Methodist in religion.

A widow, here, one brother and one sister in England survive.

## Strong Policy

(Continued from page one)

### Highway Headquarters

"A new system of management of the Provincial Highways has been adopted by the Ontario Government by which three large districts will be formed in the Province with Headquarters at some central points. A number of places have been mentioned for Headquarters of this District, and prompt effort should be made to have Belleville selected as it will occasion the expenditure of considerable money in our City and afford Belleville labor a more favorable opportunity of securing employment.

### Government Laboratory

"There has been a need for a long time for a Government Laboratory at Belleville for the purpose of making analysis to aid in the treatment of disease. Specimens have to be sent to Kingston or Toronto with consequent delay and expense. In conjunction with this an outdoor or home clinic can be operated which will often save afflicted citizens of limited means the expense of Hospital service.

### St. Lawrence River Power

"The industrial progress of Belleville depends in a large measure on the development of power on the St. Lawrence River. The Hydro-Electric Power Commission of Ontario has given out the information that all the producable power in its Trent and Niagara systems will be taken up within three years at the present rate of increasing consumption. Should there be a marked revival of business there will be a serious shortage of power. If Belleville is to get any of the large power using industries from the United States and Europe it will be necessary to show that there is plenty of power available. Belleville, therefore, should join with other municipalities interested in St. Lawrence River Power and urge the Governments to proceed with the development promptly.

"I would recommend that a standing committee on Power be constituted for the purpose of keeping in continuous touch with the power situation as applied to Belleville, and improving and protecting the City's interest in that respect.

### U. E. L. Celebration

"The celebration to be held at Belleville June 16th and 17th, 1924, will commemorate one of the most important events in the history of Canada and of the British Empire, namely, the settlement of Upper Canada by the United Empire Lyoalists, because by it was made possible a British North America with its two million British homes.

"U. E. L. Celebration Corporation 1924, incorporated to carry on the celebration, is composed of persons living in various parts of Canada and England. Its business is to carry on the celebration. It is not concerned directly in benefitting Belleville. As the celebration is being held here, Belleville has the opportunity of taking advantage of the benefits that may flow from such a celebration. In the first place there is the publicity preceding the celebration, then the publicity arising out of the celebration itself. Great fortunes have been made out of publicity in the case of individuals, and publicity should also bring benefits to municipalities In the second place there is the direct financial gain arising from the money spent in the city by the visitors during the celebration. A Paint-up and Clean-up Campaign should be inaugurated so as to make every part of the City look attractive to strangers, that they may carry away a favorable impression of our City.

"U. E. L. Celebration Corporation 1924, is not specially concerned in having a large crowd of people present, its object being to put on a celebration of a dignified patriotic character that will fittingly commemorate the noble services and sacrifices of the United Empire Loyalists. Belleville, however, is specially interested in having a large crowd of people present and for that reason Belleville should adopt measures which will insure a large attendance, such as an official visit from the Governor-General.

### Co-operation Needed

"The situation of the City of Belleville, sufficiently distant from the two great cities of Toronto and Montreal, on the main lines of the three Transcontinental Railway Systems of Canada, on the great inland water system extending from the head of navigation to the sea, in the Trent and St. Lawrence Power basins, with excellent farming lands for a radius of twenty-five miles, adjacent to the abundant mineral wealth and scenic attractions of the County of Hastings, all indicate that nature destined this place for a great city. There is no place between the two above-mentioned cities, so well adapted to become a large urban community as here. As the population of Ontario increases, real co-operation on the part of our citizens will produce this result. No place can become any greater than its own people make it and any place so favorably situated as Belleville can accomplish almost any result its own people will to accomplish.

### Tourist Industry

"Tall chimneys and busy factories are an indispensable element in a prosperous city, but there is another industry of great importance, namely, the tourist industry.

"A great tourist industry could be developed for Belleville and vicinity by placing the attractions of this locality before the people of New York State and some of the other bordering States. The presence of a large number of strangers in our City next June will afford an opportunity to advertise these attractions. Belleville already possesses two important features for the development of a tourist industry, namely, natural attractions and good hotel accommodation. It has been said that the railroads made Muskoka. The County of Hastings has scenic and sporting advantages beyond those of Muskoka and an effort should be made to induce the Canadian National Railway to direct special attention to these attractions. It would be profitable for the railroad as well as for this district. An effort should be made to have the Canadian National Railway continue its Madoc branch a distance of five miles from Madoc to Eldorado on the Central Ontario, so that Belleville may have direct railway communication with the northern part of the county.

### Inaugural Meeting

Municipal Councils should be given the option of fixing the hour for holding the inaugural meeting. In many places a meeting in the evening would be more satisfactory than at 11 o'clock in the forenoon, and the Ontario Municipal Association should be asked to press for this change in the Municipal Act.

"I sincerely hope that all your deliberations will be conducted in harmony, your legislation characterized by wisdom and the business of the year 1924 redound to your honor and the benefit of the City of Belleville."

FANNING WITH FARRELL

## PUNCH THE WINNING FACTOR IN BASEBALL

By HENRY L. FARRELL.
(United Press Sports Editor)

New York, Jan. 14 (United Press). — "Inside baseball will not do it all," Connie Mack said recently, "the punch is more necessary."

The tall leader of the Philadelphia Athletics was explaining the reasons that prompted him to start buying all the young minor league stars he could afford to acquire.

Mack is one of the smartest of all baseball men and when he admits that the rock is more to be desired than brain, it is a striking indication of what Babe Ruth and the lively ball have done to the game.

Mack has had a smart baseball team and last season he started out with the Athletics as if his long-expected arrival had arrived. But the team slumped in mid-season, dropped twelve games in a row and was out for the year.

Hitting, an Hans Wanger pointed out, has almost entirely changed baseball. It has developed new ideas of fielding, rendered base stealing almost obsolute and removed pitching from the list of fine arts.

Still, with all the slugging, poor pitching and spotty fielding, it is a good old game. The fans like hitting and it is the business of the magnates to furnish, as near as possible, the kind of hitting that is most desired.

While the value of hitting has become exaggerated, it is no theory that a team needs a certain amount of slugging or consistent hitting to win a championship.

It has been a good many years since a team went through to a pennant without hitting strength. The factor that hitting has become in the modern game was demonstrated last season when the Giants clubbed their way through to a pennant with a most miserable staff of pitchers.

• • •

Out west, for good reasons, the fans are already building up the hope that one end of the world's series will be played in that section. With the Cincinnati Reds in the National League pennant race, the wish is not father to the thought that Ohio will have a part of the world's series.

All the Reds need to win the pennant is a little of what Connie Mack, and all the other managers, as far as that goes, is seeking—a little more punch.

The Reds have a good pitching staff It ought to be the best in the league, if Luque does not overdo himself during the winter in Havana.

Carl Mays will win at least ten games for Pat Moran. Donohue should have a better season. Sheehan ought to deliver. Rixey is through and Moran might be able to bring out some of his other young pitchers.

To win the pennant next year, the Reds necessarily do not have to be improved greatly over the team that did the running up in the National League pennant race last season.

Even if they are no stronger than they were in 1923, the Reds ought to make a better showing, because the Giants will not be as strong as they were last year.

Jake Daubert ought to have a better year and Pinelli and Bohne should be of more value to the team. The outfield is about the best in the league and the catching department is in good shape.

"Bubbles" Hargrafe, in the opinion of John McGraw, is the best young catcher in the league, and Wingo is a good, steady, smart catcher.

• • •

The Giants will have more competition than they have had last year and they have not been improved to meet stronger resistance.

McGraw's most vital need is for pitchers, and he will have a tough time getting any major league club to give him the best of a trade for a good pitcher.

Heinie Groh has been slowed up almost to a walk, although he can play third with the best in the business in a short series. No third basemen of any day could have done better than Groh did in the last world's series, but he can't do that through an entire season.

George Kelly will be no better than he was last year. He is a good steady fielder and a great hitter with two down and none on, but McGraw doesn't think so much of him that he wouldn't consider him as trading material.

Meusel is all slowed up in the field, but he is still a dangerous hitter. Jackson is the most promising young player in baseball, but regardless of how good he plays, the Giants will miss Dave Bancroft at shortstop.

The Giant catching staff is nothing to rave about, although it is not the worst in the league. Snyder had a good year last year, but he is slowing up and the work is telling on him.

The greatest asset of the Giants is John McGraw, but the Reds have a great asset in Pat Moran, a manager, who may not be as good as McGraw, but who is one of the smartest men in baseball.

The Pirates will be in the race again, but they are a funny outfit that persists in falling short of expectations.

If there is to be a dark horse in the pennant race, it may be the Chicago Cubs. Bill Killifer has been building strong and building well. He had a good ball club last season, and there is no reason why it should not be a better club next season.

## LEAFS T PLAY TEN GAMES WITH TYGERS

### Pretentious Spring Training Trip Mapped Out by Dan Howley

There is a possibility that the Leafs will report for training purposes early in March at the Macon camp to get into shape for the series of ten games with Ty Cobb's Tigers. While in the south Detroit will only play twenty exhibition games all told, and half of them will be with the Toronto Club. In other years the Leafs have confined their efforts to games with Italy League and Southern League clubs, and the trip next spring will be the most ambitious yet undertaken by the club.

Naturally Dan Howley is keen to make a good showing, and in order to do so his athletes will have to make an early start. The rank and file will not be asked to report until probably the latter part of the month, but the pitchers will be expected to be on the job two weeks or so before the others come along.

As a general thing the pre-season trips are nothing but a bill of expense, but President Solman is hopeful that the Leafs will at least pay their way next spring, instead of reporting a deficit ranging anywhere from seven to ten thousand dollars.

Invitations have been received from several southern league clubs, notably Atlanta and Birmingham, while Louisville of the American Association, has also asked to be concluded on the Leaf's itinerary. The jump to Kentucky is somewhat long, and the Colonels will have to give a substantial guarantee to get the Leafs to put a whole lot of mileage behind them. Last spring the Howleyites were billed to open the Louisville club's new park, but the games were not played because the park was not finished according to schedule, and a fine source of revenue was lost.

..Where Internationals Will Train

When Buck Herzog picks a training camp for the Newark Bears it probably will be in Florida or Georgia, which means that seven of the eight International clubs will train in the far south this spring. It is not expected that Jersey City will pick out a camp so far south—probably returning to some spot in North Carolina.

## KINGSTON TRIMS POINT ANNE 2-0

Napanee, Ont., Jan. 14.—The Bay of Quinte Hockey League got away to a good start Saturday night when Kingston defeated Point Anne by a score of 2 to 0. at the Arena, winning the first game of the series. A good clean game was played by each team the ice being in very poor condition. Following is the line-up of each team:

Point Anne—Goal, Boland; defence Tompkins and Allore; right wing Goyer; left wing, Brant; centre Maracle; subs., Genereaux, Gaulin and Green.

Kingston—Goal McCarthy; defence Bennett and Smith; right wing, Milar left wing, T. Angrove; centre, Lanos; subs., Purdy, Walls and Logue.

Referee—Geo. T. Walters, Napanee.

## HAM'S 'CRACK' IN OVERTIME SPELL

### Boucher Ties Count, and Broadbent Wins Game for Senators 3-2

Hamilton, Ont., Jan. 14.—For fifty-six minutes of Saturday night's N.H.L. fixture here Hamilton outplayed and outscored the fast Ottawa team by a score of 2 to 0. Then the bottom fell out of the Thompson machine and in less time than it would take to tell it, Nighbor and Boucher tied up the count. This necessitated overtime and after fourteen and a half minutes of play Broadbent bulged the twine for the leaders, giving them a 3 to 2 verdict.

It was a bitter pill to swallow, but the sixty-three hundred fans, a record crowd, that saw the performance, are consoled in the fact that it was the fastest and most interesting game staged on local ice in several years. There was not a dull moment. From the time Referee Art Ross dropped the puck between Burch and Nighbor to start proceeds, until the game was won, there was action galore. Ottawa, noted for their clean play, did not take kindly to the fact that they were being outplayed and not one member of the squad passed up an opportunity of using the body or stick to good effect. However, Hamilton handed back one for every one received, so there was little to complain about in this respect.

It all happened so quickly that those who looked away from the ice for a few seconds will be unable to tell how it happened. Hamilton was sailing along two goals in front and only four minutes of playing time left. Those who had loosened up the overcoats early in the game began to button them up. They felt certain that the Bengals would be returned winners, and Manager Thompson was of the same opinion. He pulled Burch, Roach and Prodger from the forward line and sent the Green Brothers and Corbett Dennenay in to hold the fort. They proved unequal to the task and victory was turned into defeat before one could realize just what had taken place.

## PENALTIES BAD FOR CANADIENS

### St. Patrick's Defeat Frenchmen 5-3 at Arena Saturday

Toronto, Jan. 14.—St. Patrick's terminated their losing streak in the National Hockey League on Saturday night, at the Arena, when they emerged on the long end of a 5 to 3 count in a typical professional encounter against the Canadiens, and as a result the latter are temporarily ousted from second place in the standing, which is now held solely by the locals. The crowd of standing-room proportions that witnessed the game, saw plenty of action of all kinds, and on the whole, the affair was pleasing, not only because the locals won, but because three players who have not shown much so far this season, on home ice, at least, showed great improvement. The trio were Adams, Dye and Jackson, although the latter has had but few opportunities to show anything heretofore. Both Adams and Dye turned in their best games of the season, in fact, Adams looked better than at any time since he joined the Irish squad.

In spite of this, and in justice to the Canadiens, it can hardly be said that the locals deserved a two-goal margin, everything considered. In fact, up until the last period the Canadiens were the better team, but it was finally impressed on Leo Dandurand's fire brands that games are won on the ice and not in the penalty box. The Canadiens pulled down seven penalties, including a match foul to Sprague Cleghorn and a major to Billy Boucher. This forced the visitors to play 35 minutes with a man short, and in the third period the strain on the others told, and they wilted for a time. The Irish did not believe in receiving without handing back receipts, but while they had ten visitors to the penalty box, their total was fifteen minutes shorter than that of the losers.

Have your letters typed and save time. All kinds of stenography work at the office of the BELLEVILLE LOCATORS.

## JUNIORS AT TRENTON TONIGHT CORNWALL SQUAD HERE TUESDAY

Manager Ed Thomas of the Belleville O.H.A. Intermediate and Junior hockey teams is a busy official these days, fandom having but a faint idea of the volume of work in connection with this dual position. It is just the same as operating a successful business for the detail must be attended to with despatch, if success is to be attained to any degree. In this connection Ed is playing his role each day.

Tonight the Belleville Juniors "cross checks" with the Trenton representatives in O.H.A. at Trenton, where Hudgin of Picton will handle the bell. Every preparation is being made today for the game as the youngsters are determined to take a fall out of their next door neighbors to the west. Practically the same line-up as appeared before Picton here recently will journey to Trenton.

**Intermediate Game**

Tomorrow night at the arena here, Cornwall Frenchmen will meet the locals in the Intermediate League fixture, and it promises to be a hummer.

The Cornwall outfit play a different style of hockey to the locals, adopting the lone rush and follow up tactics of the Ottawa Valley league. They have a nifty team this season, featuring at least two dangerous players, according to the story told by "Bouncer" Brouse who saw them go at Cornwall against Brockville recently, and if they ever get a lead, they go mad, it being almost impossible to overcome the margin. On the uphill fight they are not so dangerous, and that is where the Quinte braves shine.

Both aggregations have been practicing faithfully, and had most successful work-outs on Saturday evening. Tonight on the excellent sheet of hard ice they should go great guns in their final preparation for the big game tomorrow night.

"Bouncer" Brouse of Kingston, who refereed the Brockville-Belleville game at Brockville last Wednesday, and who is well known here as an old-time hockey player, will handle the the Cornwall game on Tuesday night.

## On The Alleys

The Amateurs, a new entry to the Ladies League and the High School Girls Team met at the Alleys Saturday evening in a league fixture. The Amateurs won by an even eighty points on the three games, taking each game by a small margin. Miss Donahue, with the Amateurs rolled the high score of the evening with 413 but Miss Whalen was not far in the rear with 382 for her three games.

### SENSITIVE ABOUT IT.

"What are you doing with that mongrel?"

"Hush! Don't let him hear. He thinks he is a fox terrier."

## Williams Stays

Oshawa. Jan. 14.—After reading of the wanderings of Jackie Williams, who has worked for Belleville in the Ontario Baseball Association play-offs of the last two years, reliable information was received Saturday morning that the bronze-colored curve ball artist qualified under the Central Ontario League and O.B.A.A. residence rule on or before Jan. 1 by having his midday New Year's dinner in the Quinte city at the residence of the railway official who was sponsor for the introduction of the good left-hander to the Central Ontario League two years ago.

While Jackie toasts his shins in or around Belleville, he is as elusive as the wild game in the woods around his native village of Verona, for it is well-known that he carjes tempting offers to jump to the "per month" class, but from reports, his better half, whom he promised to love and cherish, refuses to leave "the land of the Maples", and loyalty on both sides is likely to prevail in the interests of the Quinte city during the 1924 season.

This looks like the goods, for Oshawa is headquarters for the C. O. A. B. L. as secretary Jack Nott lives there.

## ALLEN ENQUIRES; COBOURG UNDECIDED

Oshawa, Jan. 14— The first application for an umpire's berth in the Central Ontario Baseball League for the season of 1924 was received Saturday morning from Charles (Chuck) Allen of Toronto, who in 1922 played with Lindsay. "Chuck" writes that, being unable to play regularly, the next best thing is umpiring, and believes he could fill the position. He expects to be located in Port Hope during the Summer months, and would be centrally located to all points in the league and available at the opening of the season.

Although no definite information has been received, Cobourg is undecided as to playing senior or intermediate baseball during the coming season and providing they decide in favor of the latter, a meeting of the Central Ontario League executive will be called in the near future to consider another application for a franchise.

### STILL GOING STRONG.

## Clean Kidneys By Drinking Lots Of Water

**Take Salts To Flush Kidneys If Bladder Bothers or Back Hurts.**

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoon in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

## HAVE AGED CHORUS GIRLS IN BERLIN

Berlin, Germany, Jan. 14. (United Press).—The Reich's cut in its top-heavy employee force has hit the state opera house. Chorus girls are being left out wholesale. But oddly enough, employers, following the letter of the law, the youngest, spryest dancers "get the gate" rather than the old and rheumatic. The law, cutting down forces, says that the newest, youngest employees shall be discharged. Hence, the state operas now have ballets that vie with an old ladies' home. Berlin is wondering what will happen now to the telephone service, since many telephonists are being discharged.

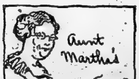
### NEW CUSTOMS COLLECTOR;

Peterboro, Jan. 14.—W. M. Lang of the Peterborough Customs House staff has been advanced to the position of Collector of Customs made vacant by the death of Robert Hall in October. Confirmation of the appointment was received Saturday morning from the Civic Service Commission.



## HOUSEWIVES COLUMN

I never knew before what a difference size makes in the grocery business. I was up in the office just now where the Dominion Stores' expert buyers talk to the salesmen from Canada's big food makers.

No wonder Dominion Store prices are low! Those salesmen knew they were talking to men who were buying for 300 stores—and a million customers a week. They were glad to cut their prices to the bone, to sell the tremendous big quantities this organization buys.

That's where size comes in. I never thought of it that way before, but those important salesmen came from all over because one sale so big as that was better than a lot of little sales at a higher price. Indeed, most of those salesmen would not even bother to go around to 300 separate grocery stores. It would have been too expensive. They would sell the "middlemen" and the middlemen would sell the little grocers, and you would pay both profits.

I'm glad I have this chance to find out all about Canada's largest grocery organization. It's interesting and surprising.

Aunt Martha

HYDRO POWER ONTARIO

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which realize all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

# Royal Bank Annual Meeting Marks Close Of Successful Year

### Sir Herbert Holt, President, Takes View that Canada has Great Deal on Which to be Congratulated—Very Large Gain in Canada's Trade with Countries Served by Bank—Urgency For Continuance of Aggressive Policy of Immigration.

### C. E. Neill, General Manager, Draws Attention to Thorough System of Supervision of Credits at All Points—Bank Has 65,000 Direct Borrowers in Canada, With Average Loan of Only $4,080—Warm Tribute to Efficiency of Staff—Fifty Million Dollar Gain in Deposits.

The fifty-fifth annual meeting of shareholders of The Royal Bank of Canada, held at the head office, not only marked the close of a particularly successful year, but was also featured by important and interesting announcements in the addresses of Sir Herbert Holt, the President, and C. E. Neill, the General Manager.

Sir Herbert, in moving the adoption of the annual report, stated that the year had been marked by what he hoped would be the final adjustments of the period of depression—adjustments in which he was glad to say the bank had not been deeply concerned. except insofar as the country's general business was affected. He pointed out that the results of Canada's foreign trade during the year had been gratifying, the surplus of exports over imports having amounted to $107,351,000.

In summing up the situation, Sir Herbert said, "I believe that increased immigration, the development and conservation of our natural resources, the protection of our industries and reduction of our excessive taxes, will within a few bear fruit in prosperity for us all, leaving the events of the past few years as experiences to guide our steps in the future."

**Growth of Bank.**

Charles E. Neill, the general manager, in his address, dealt more particularly with the growth and expansion of the bank. He submitted details of the very thorough manner in which all credits of the bank are supervised. Of special interest was a reference to the very widespread business now being handled throughout the entire ominion, as indicated by the fact that the bank now has 65,000 direct borrowers in Canada, with an average loan of only $4,080.

Reviewing the revision of the Bank Act, Mr. Neill stated that the record of banking in Canada, as compared with other countries, was undoubtedly satisfactory. He knew of no case in a well-managed bank where the directors or officers had used the bank or its resources in any way for their personal advantage. As a matter of fact, in most cases directors of Canadian banks assumed great responsibilities, giving their time and experience in the interest of the bank and the advantage of the public, without adequate remuneration or gain to themselves.

Before concluding, Mr. Neill paid a warm tribute to the officers and staff, saying, "As the executive head of the bank, I could not wish for a more efficient staff, and I desire further to place on record the statement that if I, as executive head, have achieved any measure of success in furthering your interests, it is due to the loyal support I have received from all ranks of the staff, especially those senior officers with whom I come in daily contact."

**President's Address.**

Sir Herbert Holt, president, in his address to shareholders, said in part:

"The situation in Canada has been a varied one. In the West a record wheat crop of about 450,000,000 bushels was harvested. Alberta, which perhaps stood most in need of a good crop, was fortunate in producing 160,000,000, possibly 175,000,000 bushels of high average grade. Section of Saskatchewan, and more especially of Manitoba, suffered from severe lack of rain, and the average quality of their wheat was lowered by rust. In spite of these defects and of continued low prices, the gross receipts from the crop in the West will be very large. The net return will not by any means suffice to place the farmers on their feet again, but it will assist in reducing their obligations, and is bound to result in larger purchases after years of restriction in this respect. Increased activity in western business which was expected, to follow hard on the harvest did not materialize to any extent, but since the middle of December there has been considerable sectional improvement.

"The situation of the farmers in the West clearly shows that they must adopt mixed and more scientific farming and not depend wholly on grain, principally wheat, which is so subject to rust and climatic conditions. However, until the change can be made it is to the wheat crop that we must look for prosperity. A reduction of 5,750,000 acres in the area planted to winter wheat in the United States is encouraging for Canada. Eventually I expect to see the United States producing only enough wheat to supply their domestic needs, leaving Canada, already the leading exporter of the world, as the sole exporter from North America. I am confident that before long better conditions will prevail in the West; in the meantime the farmers' troubles must have our full sympathetic consideration and assistance. The situation in regard to agricultural credits will be referred to by the general manager.

**Need for Larger Population**

"Notwithstanding the increase which has already taken place in our immigration figures, the pressing need of the country is for a larger population, and the campaign for immigrants should continue to be conducted with vigor. Fortunately the Government is adopting an aggressive immigration policy, and admirable work is being done by certain private organizations. The distress in Europe affords an opportunity of securing settlers of the best type. The newcomers should receive every encouragement and must be regarded not as competitors in our labor market, but as citizens whose requirements will stimulate employment in home industries and whose work will aid in developing our natural resources.

"Coming back again to our own Canadian situation, I cannot but feel that we have a great deal to congratulate ourselves on. We are not unduly prosperous, but it is certain that it was no poor country which subscribed so generously to the recent highly successful Dominion Government loan. We will come into our own when the tide of immigration again turns strongly towards our shores, bringing with it the long sought for country-wide development. Here is the only solution of our railroad problem and the most satisfactory solution of the taxation problem. But in the interval of marking there is no question that continued retrenchment is falled for. As a country we have discounted our earning capacity to the margin of safety and it is to be hoped that the Government will bear in mind that the situation renders imperative a rigid adherence to spending on real necessities alone, in order that our excessive taxes may be reasonably reduced in the near future. Otherwise we will regard the influx of new citizens and capital, which are so essential to our progress and which will seek other countries where taxation is less burdensome."

**Review by General Manager.**

C. E. Neill, General Manager, in reviewing the annual statement, said in part:—

"As regards our business in Canada, conditions on the whole have been reasonably satisfactory. A bountiful harvest has resulted in considerable liquidation of agricultural loans and an increase in deposits in farming communities. The demand for lumber has been good, and the heavy stocks which accumulated for several years after the war, have been cleaned out, unfortunately in many cases, at a substantial loss. However, the situation is now much healthier. The pulp and paper industry, which is such a great factor in our exports, is prospering. The mineral production of the country shows a steady growth and the outlook is most promising, especially as regards the gold mines in Northern Ontario and Quebec. Our fisheries have not shared in the general prosperity, but recently prices appear to be improving slightly. Commercial failures during the past year were less than during the previous year, and on the whole the outlook is encouraging.

"There has been another profitable sugar crop in Cuba and other West Indian Islands, and I am glad to say that the general improvement we looked for has been fully realized. I am also pleased to report a substantial increase in our deposits in Cuba, and that on the whole, our business there continues to develop to our satisfaction.

**Thorough System of Inspection.**

"With regard to our widely distributed business, we are often asked how it is possible to supervise from Montreal our branches in distant countries, and not only in these countries, but even in Canada. In the circular which each shareholder received, giving particulars of the attendance of Directors of the Bank at Board meetings, it was explained that in addition to the Directors at Montreal, there are committees of the Board at Toronto, Halifax, Winnipeg and Quebec. The directors at these points meet regularly and consider with the senior local executive officers credits originating in, and other matters pertaining to, the business of the district. For the purposes of supervision, Canada is divided into six districts, viz.: Quebec, Ontario, Maritime Provinces, Manitoba and Saskatchewan, Alberta and British Columbia. Our business in each of these districts is supervised by an executive officer of experience, assisted by a staff of competent inspectors. Credits are submitted to the Supervisors by local managers, and after proper investigation by the former, are either authorized by the local Directors, or, if in excess of a specified amount, forwarded to Montreal. All credits authorized by Local Directors are submitted to Montreal for confirmation.

"At Head Office our General Credit Department is divided into sections to correspond with the Supervisors' districts. Before submission to our Directors, every credit recommended by the Supervisors is carefully investigated by the credit officials at Head Office. and when finally passed upon, the Directors and senior executive officials have the benefit of the views of the local manager, in District Supervisor and the Head Office Credit Department.

"The organization which we consider it advisable to maintain may appear elaborate, but experience has taught us that through local supervision is the surest way to keep losses at a minimum and to ensure proper and intelligent consideration of local business.

## 5 YEARS, 20 LASHES SENTENCE OF COURT

Peterboro, Jan. 14.—"Five years in Kingston penitentiary and twenty lashes" was the sentence pronounced Saturday morning on James Shaw, charged with incest. Magistrate O. A. Langley presided and Crown Attorney G. W. Hatton, K. C., conducted the prosecution. The prisoner, who pleaded guilty to the charge, was represented by J. C. Strickland, who urged in his behalf that a man who committed an offence of this kind and pleaded guilty to it could not be mentally normal.

As is usual when salacious cases of this nature are being heard, the court room was crowded to capacity with spectators, including several women. Besides filling the seats they crowded the standing room at the back of the court, and some, unable to gain entrance, stood in the hallway.

# BANK OFFICIALS' TRIAL DELAYED FOR ONE MONTH

### Accused Directors Re-admitted to Bail in Same Amounts

### DALY LOOKS BETTER

### President Appears In Better Health Than at Last Appearance

Toronto, Jan. 15.—At the opening of the criminal Assizes before Mr. Justice Riddell Monday afternoon the trial of the ten directors and officials of the Home Bank, charged with conspiracy was upon the application of D. L. McCarthy, K.C., special crown prosecutor, adjourned for one month and the accused were re-admitted to bail in the same amounts as granted at the last assizes.

The accused having formally surrendered to their bail, which expired to-day, Mr. McCarthy informed his lordship that they were committed for trial at the last assizes but were not then arraigned, and that the case had stood over until the present term. "They now appear, and according to the judgment of Mr. Justice Middleton my hand is stayed with regard to the trial. I therefore ask that the case be adjourned for one month and accused admitted to bail."

I. F. Hellmuth, K.C., intimated that such arrangements was quite satisfactory to defendants.

**Daly Appears in Person**

Accused and their bondsmen then went forward to the clerk's desk and renewed their bail. H. J. Daly, president of the bank, was the first to step forward. Though looking somewhat pale, he appeared to be in much better health than on his previous appearance in court and had discarded the walking stick which he then used as a means of support. The other defendants then lined up in the following order with their bondsmen: J. F. M. Stewart, S. Casey Wood, A. E. Calvert, C. A. Barnard, O. G. Smith, R. P. Gough, E. J. B. Russill, Clarence F. Smith and Sydney H. Jones.

**Slight Hitch**

A slight hitch occurred in the proceedings. When Mr. Daly's bail was being taken the clerk read: "till the next assizes." After Mr. Daly and his securities had left the room Crown Attorney McRuer pointed out the error. "It is for one month," he explained.

"Then they had better come back," said Justice Riddell.

In the meantime the bail of the others was renewed and at the end of the formalities Mr. Daly and his sureties were brought back and the mistake was rectified.

The array of counsel on hand included G. H. Kilmer, K.C., P. S. Robertson, K.C.; F. Hughes, T. N. Phelan, K.C., and D. T. Symonds in addition to those named above.

## FOLLOW THE CROWD

As an indication of the widespread publicity which the U. E. L. celebration is obtaining, a letter has been received by Mayor W. C. Mikel K.C., from Ephrain A. Gee, Crown Prosecutor at Shaunavon, Sask., as follows:—

"Since the date of the celebration is about the middle of June it is my intention to arrange to be present. I also note what you say about assisting the celebration in this province and shall do what I can to interest any persons who may be making the trip east next summer to "follow the crowds to Belleville." I have never had the pleasure of seeing your city and consequently it will have an added attraction for me."

Yours truly,
"E. A. GEE."

# HEADQUARTERS FOR HIGHWAY WANTED

The important matter of having Belleville made the eastern headquarters of the Provincial highway was referred to by Mayor W. C. Mikel, K. C. at the inaugural session of the City Council. It would mean considerable for the city if the headquarters were located here.

His Worship stated that a deputation should go to Toronto to see the Minister of Highways in regard to securing Belleville as one of the headquarters. He also suggested that Hon. J. R. Cooke, M.P.P., Mr. W. H. Ireland, M.P.P., Mr. J. F. Hill, M. P.P., and other M.P.P.'s in this locality be asked to interest themselves on behalf of the headquarters being established in Belleville.

Mayor Mikel and Ald. W. H. Patterson were selected as a delegation to go to Toronto in regard to this matter.

## THE WEATHER

Light winds, fair and moderately cold, today and on Tuesday.

## COMING EVENTS

Annual meeting of the members of the Belleville Chamber of Commerce, Thursday Jan. 17th, at 8 p.m. Chamber of Commerce Building. Annual statements of Treasurer and Manager will be presented and other important business considered. A members urged to attend. H. W. Ackerman, president; J. O. Moffat, treasurer; J. O. Herity, manager. J15 3td.

Davies (in front.)

# OTTAWA IS GIVEN VIEWS OF LABOR; CLEMENCY URGED

### Trades Congress Executives Confer with Premier King and Colleagues

### PROGRAM UNFOLDED

### Abolition of Sales Tax and Senate and Bank Act Changes Requested

Ottawa, Jan. 15.—The release of James McLachlan from Dorchester Penitentiary, where he is serving a term for seditious libel was urged by members of the executive of the Trades and Labor Congress of Canada, who conferred with Premier King and other members of the Cabinet, yesterday afternoon in regard to organized labor's annual legislative program. They urged McLachlan's release upon parole pointing out that the law had been vindicated and that his continued incarceration would but add fuel to the agitation which was waged in his favor.

One of the outstanding suggestions was the abolition of the sales tax.

In the memorandum which was presented to Premier King and his colleagues a considerable number of legislative enactments and amendments favored by the Trades and Labor Congress were set forth.

"What would you substitute for the tax?" asked Mr. Bureau, Minister of Customs, of President Tom Moore, chief spokesman of the Labor deputation.

Mr. Moore said Labor representatives would be glad to take up the question with Mr. Bureau at a later date, when they had given more thought to the problem.

The Labor deputation also urged abolition of the Senate or curbing of its powers to veto legislation passed by the House of Commons. They favored such changes in the Bank Act as would ensure depositors against loss and they urged upon the Government the advisability of giving effect to many of the decisions reached by the International Labor Conference.

Speaking in support of a request for legislation setting aside one day in seven as a rest day, President Tom Moore said that many labor men were not much enamoured of the Lord's Day Act, because in some instances discrimination was shown in its enforcement, the big corporation escaping and the poor violator being punished. But he believed every man should have one day of rest out of seven, and in this country Sunday was the logical day.

Replying to the Labor deputation, Premier King thanked the Trades Congress executive for the moderate

(Continued on page eight).

# MANY KILLED AND INJURED WHEN QUAKE HITS JAPAN

### Devastated Areas Again Rocked by Earth Shocks in Stricken Country--Violence Equal to Former Great Upheaval

(United Press espatch)

Peking, Jan. 15.—Six persons were killed, 200 injured and 600 houses destroyed by an earthquake in Yokohama today, according to a wireles despatch from Osaka.

• • •

Tokio, Jan. 15—Reports reaching Tokio on extent damage by earthquake today gave rise to belief that heavy losses had been sustained in vicinity.

• • •

Osaka, Japan, Jan. 15.—City of Tokio still lying in partial ruin from devastation wrought by quakes of September, was severely shaken early today by shocks of an equally severe grade which lasted twelve minutes.

# 450 WAVE-LENGTH DROPPED BY SHIPS

### Will Abolish This Metre Length in Ship-to-Shore Communication

Ottawa, Jan. 15.—Canadian policy has succeeded internationally in promoting the interests of radio users through the elimination of one of the principal causes of interference—the use by ships in communication with the shore, of the 450 meter wave length. So declared Commander C. P. Edwards, Canadian director of radio, who returned to-day from a conference in New York where the policy of the Canadian radio administration was adopted.

The proposal of the United States government representatives at the international conference was that the ships be prohibited from using the 450meter wave length between seven and eleven o'clock at night, the broadcasting hours, except in emergency, Commander Edwards said. But when he put the Canadian view before the conference it was decided to abolish the use of the 450 meter munication entirely. Interference from this course has been the chief bugaboo of broadcasting listeners.

## MILD WEATHER IN NORTHERN ONTARIO

Provincial Constable N. Maker returned from Bancroft and district on Saturday night after having spent two days in the north country on an investigation for the department.

Constable Maker states that it is mild in he north country, the streams being open and the high wat er in the woods and swamps is not yet frozen over. This open weather in the woods makes lumbering and wood cutting almost impossible, and many gangs have ceased work, until Jack Frost makes another visitation.

## PROPERTY OWNERS TO SELECT OFFICERS

At the city hall this evening a meeting will be held under the auspices of the Property Owners Association. Officers for the year will be elected and matters appertaining to the city welfare will be considered.

# DEAF NOW HEAR THROUGH HANDS

### Newly Invented Apparatus Is Held in Hand by Person Who Then Hears

Chicago, Jan. 15. (United Press).—Professor Robert H. Gault of the psychological department of Northwestern University, is perfecting a device by which the totally deaf can receive impressions of oral speech.

The apparatus consists of a tube with an acousiticon at one end for amplifying vibrations and a small receiving disk with wires at the other.

The receiver is held in the hand. The wire, ends in a box tightly enclosed and conducts sound vibrations through the receiver to the palm of the hand.

Speech is interpreter by "tactual contact," Professor Gault said. With two assists, he has already proved the possibilities of the device, he said.

"Today," said Professor Gault, "it is safe to say that the human being can feel sound waves by touch and can clearly translate such tactful impressions into words and sentences."

Professor Gault has made tests in which he and his assistants interpreted, almost perfectly, sentences spoken into the device.

"One of my assistants has a chart, and I have a similar one," explained Professor Gault. "As he speaks into the acousticon I note by reading his statement. My hand holds the receiver which conducts the sound to my palm. That is all there is to it. When our test is ended we compare notes. The interpretation, or reading, is almost perfect," he said.

## BELLEVILLE HEALTH PROBLEMS REVIEWED

That the Kiwanis Club of Belleville is a "live" organization was ably demonstrated at the weekly luncheon today at the Queens Hotel. A program of singing was supplemented by two addresses of high order, Fred Deacon giving some interesting light on true Kiwanian spirit and what Kiwanis means, and Dr. S. Cronk Belleville Medical Health Officer speaking on Belleville's health problems.

Dr. Cronk, in placing prevention above the cure of disease placed particular stress on water supply improvement, collection of garbage, the housing problem scarlet fever isolation, and typhoid inoculation.

Pasteurization of milk was given particular attention and those present were given some interesting comparison of methods and dangers in foreign countries where these, rules are ot followed.

Four visitors were given a hearty welcome by the members present, T. D. Donohue, Sergt. R. Atkins, Norman Glintz and T. A. Robertson.

Dr. Halfner in singing the song, "That Little Irish Mother of Mine," demonstrated that good singing is still in vogue, accompanied by Kiwanian Wotten.

## DESTROYED BY FIRE

Quebec, Jan. 15.—The parish school of Lake Edward De Port Neuf has been completely destroyed by fire, according to word reaching here. The damage is estimated at $5,000. The parish church and presbytery were saved from the flames with difficulty.

## HAS PICKED UP CREW OF WRECKED SCHOONER

New York, Jan. 15.—The steamer Galileo en route from Aberdeen to New York wirelessed Monday that she had picked up the crew of the wrecked Lunenburg schooner, J. W. Comeau.

# WELL-KNOWN SPORTSMAN IS FACING PIRACY CHARGE

Boston, Mass., Jan. 15.—A charge of piracy on the high seas, the first in the memory of present Federal officials, was lodged by the United States authorities here when Ray Case, of Somerville, formerly manager of boxers, was arrested. The complaint alleged that Case and others with force of arms did piratically set upon, board, break and enter the schooner J. Scott Hankenson and assault subjects of the King of England in the peace of the United States and being, put them in fear of their lives and did steal certain money from Frank Moore, the master of the vessel.

Case entered a plea of not guilty and was held for hearing in $5,000 bail. The schooner Hankenson, sailing from Nova Scotia, was attacked last August by an armed band as she lay off Cape Ann with a cargo of liquor. Captain Moore, in resisting the attack, was shot several times through the body and Harry Harms, the cook, also was wounded. Moore was in the hospital for many weeks but recovered.

# FATEFUL SESSION OPENED IN STATE BY KING GEORGE

### Engineers Threatened to Tie Up British Transportation

### COMMITTEE NAMED

### Council of Trades Union Congress Moves Toward Settlement

(United Press Despatch)

London, Jan. 15.—Fateful session of Parliament which may seem accesion to power within a week of Britain's first Labor Government was opened in state today by King George who delivered a speech from the throne.

London, Jan. 15.—On the eve of the Royal opening of Parliament and the debate, it appears probable the threatened strike of railway engineers which, if it tied up British transport, might wreck the prospective Labor Government at the outset, will be settled.

The General Council of the Trades Union Congress to-day appointed an emergency mediation committee, which will seek to avert the walk-out threatened for next Sunday night. The issues at stake are relatively so trivil that there is little doubt in Labor circles they will succeed.

Proceeding to Westminister in a great glass coach surrounded by mediaeval splendor, the King read his Speech from the Throne, prepared by the Baldwin Cabinet. The Government's reply to the King's address will be moved in the House of Commons. Ramsay MacDonald for Labor former Premier Asquith for the Liberals, and Premier Baldwin for the Conservatives will speak.

Then MacDonald will move a vote of censure in the form of an amendment to the Government's address to the throne, probably on Wednesday. This will simply state that the Government has lost the confidence of the House.

The exact moment when the vote will be taken depends on how many members desire to speak.

## FORD "MYSTERY" IS SOLVED BY OWNER

When three men removed a Ford Coupe from the corner of Boswell and West Moira streets at 9 a.m., Monday a fourteen hour mystery was satisfactorily cleared up.

Residents of that section of the city noticed the car standing in the snow Sunday evening before 7 o'clock, and when there appeared to be no owner 10 p.m. the police department was notified. Officers who visited the scene had a difficult time to get a k out of the engine, and when once started, it went dead, and refused to co-operate longer. The machine was left there over night, but in the morning it was removed by the owner.

### CATCHES DRUGS IN HAT.

Montreal Jan. 15.—Armand Dube, aged 29, a bookkeeper pleaded guilty to a charge of possession of narcotic drugs when arraigned before Recorder Geoffrion Monday morning. Sentence will be set on Wednesday.

Dube, according to Constables Rocheleau and Belanger, who arrested him at 9 p.m. yesterday or St. Catherine Street, near St. Elizabeth, had a deck of drugs in his hat band.

# JAPANESE COOLIES AID GERMAN DRUG TRAFFIC

(United Press Despatch)

Lima, Peru, Jan. 15.—Protected from the eyes of the world by the high ranges of the Andes Mountains, barefooted Japanese Coolies are hustling about on Japanese plantations on upper headwaters of the Amazon River busily cultivating cocoaine where with Germany is supplying the worlds drug victims despite the League of Nations effort to halt the vicious traffic.

# GERMANY NEEDS HELP BEFORE PAYING DEBTS, INVESTIGATORS CLAIM

## HASTINGS JUDGES AGAIN HONORED

### Youthful Winners at Toronto Fair Leave For Ottawa Show

At Toronto Winter Fair held in December, five youthful judges from Hastings county won the highest award for swine judging from a field of all counties in this Province. Three of those five young men will be given the opportunity of winning further laurels for this county, this week at the Ottawa Winter Fair, for they left for the Capital on the early morning train today. They will not only judge swine at the Ottawa Fair but will "pick the good ones" among the dairy cattle, fat cattle, swine and horses.

Mr. Ray Atkins, Agricultural representative for Hastings county will headquarters at Stirling, is the active official who should be proud of the achievements of the representativs of his county, and who is accompanying the boys to Ottawa.

The three judges chosen are Messrs W. Hubble and D. Young of Frankford and C. Windsor of Stirling.

## Board of Education Plans First Meeting

On Friday evening the inaugural meeting of the Board of Education will be held. One of the principal items of business will be the election of a chairman for the year 1924 and who will occupy the chair is only conjecture. Committees will be formed and chairmen of same appointed. Two ladies will this year grace the proceedings with their presence, named Mrs. J. A. McFee and Mrs. Florence Boyes.

## PREACHER SCORES OTTAWA DANCES

### Declares Police had to Close Up Halls on New Year's Eve

Ottawa Jan. 15.—Society wome and girls of Ottawa were singled o for an attack by Rev. J. Calvin Rei a Methodist pastor during a serm on the modern dance. Rev. Mr. Rei ed that when the tango was introduced into Ottawa "the social clas ses of the city, the people who though they were the leaders of the elit hired dancing masters from New Yor to teach them the steps sparing ne ther time or money. Then Rideau Ha expressed disapproval of the tango an the ladies were sorry they did no get the dance to display their new quired talents."

Years eve in Ottawa, dancing w carried on in local dance halls unt the dancers began to smash the les on each other's heads and the name of decency, the police wer ced to close them up. And th was in Ottawa's best dance halls, right on Sparks street and on Bank street. The modern dance, he said.

## Local Institution Leads in Efficiency and Service

The best class of business colleges provide a superior kind of training and a special service not given elsewhere. By intensive, practical courses of study and close personal attention of teachers they bring earnest students quickly to an earning stage and assist them in securing employment. These efficient institutions are conducted by men and women of business ability and experience and they are favorably regarded in business circles.

Of leading Canadian commercial colleges, th eOntario Business College in Belleville has been in existence the longest, is the best known, draws students from the greatest distances, gives the most thorough and comprehensive courses, and has throughout the American continents the largest number of graduates engaged in successful business enterprises.

## Daughter Brings Charge

Arrested last night, Herbert Holtom of this city appeared before police Magistrate Masson this morning on a revolting charge, which was preferred by his sixteen year old daughter, and was remanded to the county jail until January 21st when he will appear for trial.

### Each Ally Must Place Common Sense Before Personal Need Asserts Chairman of Experts' Committee

### HAVE BREEZY START

### Some Doubt Expressed as to Ability of Chairman To Keep Body Working Night and Day as Proposed

Paris, Jan. 15.—Brigadier-General Charles G. Dawes, United States of America, chairman of the first committee of experts appointed by the Reparations Commission to consider the resources and capacity of Germany looking to a solution of the reparations problem, delivered a straight forward, hard-hitting speech at the opening of that body Monday.

The United States plan, as briefly outlined by the chairman, consists of stabilization of German currency and balancing the German budget, and he declared:

"As the economic processes of Germany under a stable currency and with a balanced budget are revived, there will be demonstrated the capacity of Germany to pay. Let us first help Germany to get well."

**British Comment**

A member of the British delegation of the Reparations Commission, commenting on the opening of the conference, said:

"The experts got off to a breezy start." This expresses the general sentiment in reparations and diplomatic circles on the beginning of the work of the experts.

General Dawes' "legendary energy," as M. Barthou put it, seemed to send a draft of fresh air throughout reparation headquarters, which never appeared to shelter so much activity since the Commission was organised.

"Can he keep them up to it?" was a question repeatedly asked round the buildings when it became known that General Dawes woudl propose that his colleagues work night and day until they got somewhere with the injury. Other members of the delegation are heartily with General Dawes in the desire to make as short work as possible of their task, but some of them are rather frightened at the idea of three sessions daily. The General has conceded a point by agreeing that the night meetings should be merely informal personal exchanges of views between the members.

**Augurs Well.**

The impression made by General Dawes' speech was in every way favorable inside and outside of reparation circles, excepting in extreme nationalist quarters, where his reference to "nationalistic demagogues" caused some slight emotion.

One of the British delegates said:

"The impression was most favorable; the beginning of the discussions augurs well."

In the course of his speech General Dawes asked:

"What is the question of to-day? Upon what does the success of this committee depend?" And this himself answered, saying:

"It depends chiefly upon whether in the public mind and conscience of the Allies and of the world there is an adequate conception of the great disaster which faces each ally in Europe unless common sense is crowned king."

This was the part of his speech most commented upon. A member of the French delegation, recalling United States history, compared this pronouncement with the epigram voiced at the signing of the declaration of independence: "If we don't hang together, we shall all hang separately."

"The General is right," remarked the French delegate. "If the Allies do not get together now, as they did when the Germans broke through their lines at St. Quentin, all will suffer an economic catastrophe almost equal to hanging."

It is understood that the committee hopes by holding three sessions daily to reach a point where it can leave for Berlin Saturday. After a three and a half-hour session this afternoon the meeting adjourned at three o'clock. The committee adopted a resolution providing that the records of the proceedings be kept absolutely confidential. The secretary alone is authorised to give out statements when approved by the members. The experts themselves have been pledged to give no interviews.

## Suburban Area Being Considered

Thursday afternoon of this week the matter of a suburban area in this district will be considered at a meeting of a special committee of the City Council with a like committee from the County Council. Mr Muir, chief engineer will be in the city on that day to meet the committee and explain matters. The members of the City Council on the committee are, Mayor Mikel, Alderman, H. W. Greenleaf, W. H. Patterson, S. H. Treverton and E. La Roche.

Windsor, Ont., Jan. 15.—An explosion of a coal stove at the home of Mrs. Jane Crosby, on the Grand Marias road, destroyed the house and barns.

### A LABOR ANALOGY

It is seldom that a single strike threat has caused an upheaval in the plans of a political party, and the present situation in Great Britain presents an analogy in itself. The refusal of the British firemen and engineers to accept a wage reduction affecting two per cent. of the workers in the union, has created a situation vitally affecting Labor on the eve of their assumption of power, which may cause a serious reaction.

During the railway crisis in 1919 Government troops were impressed into service on the main arteries of the nation a great motor lorry service was formed, and thus a complete tie-up and much suffering was averted. However, with the trade unions forming so powerful a part of the party in power, such preventive measures would be certain to be forbidden, and Labor Government would be powerless to crush the strike.

Should such a situation materialize, and it is already threatened, the suffering among the poorer classes in crowded slums of London and the larger cities would be beyond measure, and a prolonged tie-up in midwinter would certainly entail a great loss of life.

### HIGHWAY COST

The strong stand taken by Mayor Mikel on proportionate highway cost can not be too strongly commended. The burden of paying for highways outside the borders of cities has been a heavy one on citizens of the cities, and especially the smaller cities.

The hearty co-operation of the smaller cities is the main need in bringing pressure to bear to relieve the taxpayers from what is now a very heavy burden.

The formation of three large districts with a highway headquarters in each district, as adopted by the Ontario Government offers an opportunity for Belleville to be selected as Provincial Highway headquarters in this district, and a committee has been suggested for the purpose of making strong representation to the Minister of Highways.

Belleville as Highway headquarters would bring much additional capital to our city, as well as affording a means of placing additional labor contracts.

### UNWRITTEN LETTERS

The letters that we never write,
The things we never say,
They'll all come back some haunted night,
They'll break our hearts some day—
The letters that we never write,
The things we never say.

The praise we planned to give our friend,
Forgotten till too late,
The healing glance some hurt to mend;
That some how had to wait—
Put by for tasks that had no end,
That seemed so very great!

Where is their vast importance now?
When death has claimed the one
We'd time have found to help somehow
If we had known?—This sun
Shan't set before I speak, I vow,
Or ere that letter's done!

By Mary. Carolyn Davies.

"Smith tells me he has been graduated from an automobile school."
"[illegible] he feelingly refers to it as alma mater."

## PRESS OPINIONS

### POLITICAL REVOLUTIONISTS

(Flint Journal)

The Labor party in Great Britain is inviting public criticism before it takes charge of the government. Announcements made by its leaders and committees gives the impression of a radialism of an arbitrary type. Plainly, the leadership of the Labor party is inclined to be politically and socially revolutionary.

The British Labor party may not be so dictatorial when it does take charge of the ship of state. Responsibility may soothe its temper. However, it looks as if labor will be disappointed with direct political representation. The British situation representation. The British situation is well worth watching. It is another of the political factors with which the reparations experts will have to contend.

### TWO PARTY SYSTEM

(London Observer)

We are confident that the country will return to a two-party system, though not until after the next election, and not perhaps until much mischief has been done. If Liberalism as the smallest and the intermediate section endeavored to maintain 'rotativist" politics in this country for merely party reasons, it would more and more find itself squeezed out. The country would return to full-majority rule, and would put that instrument in the hands of either Unionism or Socialism.

### ONE SIDED BARGAIN

(Woodstock Sentinel Review)

There is very little sympathy in England with the rum-runners; in fact public sentiment is strongly against them. Still the authorities of the United States should not take too much advantage of good feeling. There is awaiting ratification by the United States a form of agreement permitting the authorities of the United States to extend the three-mile limit to twelve when dealing with British ships suspected of rum-running.

In return for this concession, British ships are to be allowed to carry stores of liquor under seal into American waters and American ports. It would scarcely be the thing for the Americans to assume that half of the agreement is already in force, and that half the one which is favorable to themselves. The other half, the concession to British ships, may never go into force.

### ENTIRELY POSSIBLE

(Montreal Star)

If M. Briand should overturn the Poincare government and come back to power while Mr. Ramsay Macdonald is at the helm in Britain there is likely to be a far closer approachment between France and Britain than there has been since the War days. Both of these statesmen belong to the same school of thought. Both are socialists of similar views. The turn of the wheel of fortune could scarcely have a stranger twist than to bring these two men coincidentally to power in Europe.

### TIMELY HINT

(London Lancet)

Do not cross your knee when you sit down, or you may find that you develop varicose veins. One of the earliest factors in the causation of varicose veins of the legs is the habit of crossing one knee over the other. I can conceive no position better calculated to retard the normal flow of blood... No wonder the valves become disorganized in the course of years.

SUFFERED TERRIBLY TILL DRECO CAME

Kingston lady gets wonderful relief from stomach and kidney trouble and praises Dreco to the skies. One bottle of this grand remedy gave splendid results

"For years I have suffered with stomach and kidney trouble," says Mrs. J. Halliwell, of 203 University Ave., Kingston, Ont. "Gas would form on my stomach like a lump of lead and cause terrible belching. I had dull pains in my stomach and across my back and my kidneys were badly out of order. I continually had a dull, tired feeling and didn't seem to have energy to do my work. Everything was an effort. Constipation was chronic with me too, and I had to take a laxative every night. I took many kinds of medicines, but nothing did me any good. Instead, I kept getting worse until I was at my wit's end. I didn't know what to do and was continually worrying about my condition until one day my husband read about Dreco and suggested that I try it.

"I have only taken one bottle, but the improvement in my condition is wonderful. My stomach hardly ever gives me any trouble now. The pains have disappeared altogether and my kidneys are in much better shape. My constipation is greatly relieved and I feel much better in every way.

"I am going to keep right on taking Dreco, as one bottle, from the immense amount of good it did me, has convinced me that here indeed is a good, reliable remedy. This one bottle did me more good than all the rest put together."

Run-down systems improve rapidly under the corrective influence of Dreco's pure herb, root, bark and leaf juices. This splendid, natural remedy soothes an irritated stomach, arouses the liver, strengthens the kidneys and relieves constipation. It purifies the blood and tones and regulates the whole system. Dreco contains no mercury, potash or habit forming drugs.

DRECO 18) BEING SPECIALLY INTRODUCED IN BELLEVILLE BY THE BELLEVILLE PHARMACY. IT IS ALSO SOLD IN STIRLING BY J. S. MORTON, AND BY A GOOD DRUGGIST EVERYWHERE.

# BALDWIN MAY FALL ON REPLY TO SPEECH FROM THE THRONE

By P. M. SARL
(United Press Staff Correspondent)

London, Jan. 15 (United Press)—Parliament was "opened in state" today by King George, and despite the political chaos in store for legislators, precedent was strictly observed and, from all outward appearances, the King might have been opening a normal five-year-term parliament under a strong government, instead of one which cannot last more than a few months.

With no party possessing a majority in the house of commons, stable government, according to British views, is impossible, and with no possibility of an arrangement or coalition between two of the contending parties, another dissolution and general election during the spring or early summer would appear inevitable.

Nevertheless, the picturesque yeomen of the guard in scarlet and gold tudor uniforms marched sedately from the tower to search the vaults under the house of lords for possible emulators of Guy Fawkes, just as has been done every year since that picturesque conspirator plotted to blow up King James the First, centuries ago. The yeomen found nothing, though it must be admitted that detectives from Scotland Yard had performed the task before their arrival.

Through streets lined by stalwart guardsmen in full gala uniforms, and escorted by glittering squadrons of life guards, King George and Queen Mary drove from Buckingham Palace in the famous state coach.

The House of Lords was packed to capacity when the royal procession entered.

The commons having arrived, Lord Chancellor Cave, bending on one knee, presented the parchment scroll containing the King's speech. The King placed his cocked hat on his head—his being the only covered head in the chamber, and proceeded to read the speech. The whole ceremony lasted but a few minutes. Immediately after the speech had been read the King and Queen left.

The first business this afternoon will be the lodging by Premier Baldwin of notice that the government will introduce "an humble address" to His Majesty, in reply to the speech from the throne. On this the Baldwin government is expected to fall.

The address is merely of a stereotyped form, thanking the monarch for his gracious words and promising to carry out his wishes in the matter of legislation foreshadowed in the speech from the throne. In the present instance the government is in a minority of 102, compared with the combined opposition forces, and there is practically no possibility of it being able to carry even such a comparatively simple matter as the address, without amendment.

According to parliamentary precedent, no amendment to the address is permitted, since it would be tantamount to a vote of censure on the sovereign. Still, for the purpose of raising a debate on vital questions, it is usual for the opposition to propose amendments "regretting" that His Majesty made no mention of something or other, or that his proposals for dealing with some questions were inadequate. In a house with a government majority these amendments are automatically voted down, but with the government in a minority, all sorts of embarrassing amendment might be passed.

Labor and Liberals intend to stage the biggest defeat they can possibly manage for the Baldwin government, so as to give the premier no excuse for retaining office.

With a hostile house, Premier Baldwin has no chance of passing a single major measure, and normally he should resign immediately the labor amendment to the address is carried, as it is fully expected it will be.

In the present situation, according to constitutional practice, the monarch automatically sends for the leader of the party encompassing the government's defeat, so that Ramsay Macdonald would undoubtedly be the first man offered the premiership. Labor will accept the task of forming a government but the rest of the session will be devoted to a struggle for position, since a Labor government could not pass its program against the combined Conservative-Liberal vote. The situation means another election soon.

### MOTOR KING WILL BUILD BIG YACHT

Los Angeles, Jan. 15. (United Press).—R. C. Durant, millionaire motor manufacturer and sportsman, has completed plans for a palatial yacht, with which he will make an extended tour of the world. The yacht, which will be a Gloucester off-shore cruiser, will cost over $100,000 and will be one of the largest pleasure vessels on the Pacific coast.

The keel has been laid in a San Francisco shipyard and it is hoped that it will be in readiness for the annual Santa Barbara to Honolulu race next July.

Certain plans, now in the making, have given rise to the belief on the part of his friends that the schooner will be a "Honeymoon ship."

LILLIAN GISH

Star of "The White Sister," which Metro will release in the near future. This picture certainly entitles Miss Gish to the position of the greatest emotional actress in America and those who have seen "The White Sister" declare that she has few peers anywhere in the world.

### RIVER VALLEY

Mrs. A. Bush and family spent Thursday at her sons Mr. Arthur Bush, Glen Miller.

The Institute held at Mrs. A. Bush's last week was well attended. The debate was very interesting. "Resolve that many of the old fashion ways are much better than the new." Negative side won.

Mr. and Mrs. Arthur Pyear and family visited at Mr. P. Utman's on Sunday last.

Miss Isabel Park is spending a couple of weeks with her aunt, Mrs. Waddell, Belleville.

Mr. G. W. Bush manager of the Union Bank, Melbourne, is spending his holidays at his home here.

A number from here attended the shower given for Mr. and Mrs. C. Barrager at their home.

Mr. and Mrs. Jared Hanna visited in the vicinity on Friday.

Mrs. M. Barragar is nursing Mrs. I. Rose at Frankford.

Miss Myrtle Spencer visited at Mr. H. Rosebush's on Sunday.

A number from here attended the dance at Mr. A. Sheridian's.

Ottawa, Ont.—Thirty-seven per cent of all automobiles in Canada are owned by farmers.

## Music & Drama

Mary Pickford's own revival of "Tess of the Storm Country," a United Artists release showing at the Griffin, is the first picture in which Lloyd Hughes and Gloria Hope who are man and wife, ever appeared in together although they have been married for a year and have known each other for three years. They became acquainted outside the realm of filmdom, being introduced by a self-appointed match maker, who decided they were ideal mates even before they had ever seen each other. Mr. and Mrs. Hughes are noted as one of the happiest married couples in the Hollywood film colony.

"The Fog" shown for the first time at the Regent Theatre yesterday, is one of the most absorbing photoplays it has ever been our good fortune to see. And it was enthusiastically received. Before we saw it, we deemed it hardly possible that so many elements of entertainment value could be crowded into one photoplay. But in this picture are adventure, pathos villainy, heroism, love, infatuation—the whole range of human action.

It is the story of how a sensitive boy finally triumphed—through love—over the tyranny and meanness of his environment. It is a story packed with thrills and rapid action, and its love theme is very unusual.

Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulsified cocoanut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package

### CONSECON

Mr. and Mrs. Ben Hickerson entertained a number of friends to tea on Friday evening.

Miss Marjorie Thompson spent Wed night with Miss Eva Hickerson Little Kingston.

Mr. and Mrs. J. D. McKean gave a party to a number of their friends on Thursday evening.

Mr. and Mrs. C. W. Morrison were tea hour guests of Mr. and Mrs. Mac French on Thursday evening.

Mr. and Mrs. Chas. Cook were tea hour guests of Mr. and Mrs. Chas. Carter on Friday evening.

Consecon young people are putting on their play, "Aaron Slick from Punkin Crick," at the Carrying on Thursday evening Jan. 17.

Mr. and Mrs. Robt. Zufelt, Mr. and Mrs. J. Thompson, Misses Marjorie Thompson and Mavis Kenny, and Mr. and Mrs. John Weeks were entertained at Mr. and Mrs. Geo. Johnson's on Thursday evening.

League was held Friday night as usual under the able management of Mrs. Rev. Wolfrain it being Missionary night. Mr. Bush was appointed delegate to attend the Winter School at Cobourg which is held Jan. 14 to 21.

Mrs. Roy Taylor and Margaret spent Wednesday with Mr. and Mrs. Wm. Blakley.

Mrs. Mary Howe and Muriel spent Thursday with Mr. and Mrs. Rufus Howe.

Mrs. Phil. Hubbs of Hillier and Mrs. Hillier and Mrs. Van Plack of Waupoose spent several days with their sister Mrs. Rufus Sowe.

Miss Annie Adams spent Saturday with her sister Mrs. Lisle Clarke, Stinson Block.

Mrs. Ross of Toronto is visiting her daughter J. D. McKean.

## OBITUARY

### ALEXANDER VANALSTYNE

Alexander Vanalstyne passed away on Saturday morning, Jan. 12th, after a long illness, at his home on Collingwood street, Kingston.

The deceased was well known to a large circle of friends throughout Canada, where he travelled from coast to coast in the interest of the Canadian Locomotive Co., in whose service twenty years of his life were spent. Prior to his service with the above firm, he followed the occupation of his forefathers, who were millers, Major Peter Vanalstyne being the first to erect and run a mill in this vicinity at Stone Mills, now Glenora, early in the 18th century. Mr. Alex Vanalstyne conducted mills at various centres on the Napanee River and many of the older generations at Newburgh, Yarker and Petworth will recall his activities along that line. Finally coming to Kingston to be associated with the Frontenac Milling Co., until its close, thence to the Canadian Locomotive Co. until his illness.

"Alex" as he was familiarly known, was a lover of horses and he was instrumental through his uncle, Mr. E. Allen, of Virgina and Kentucky, in introducing the Ethan Allen horses so favorably known to horsemen. He also possessed several horses well known to followers of the track in this district.

In religion he was a Methodist and a Liberal in politics and a Mason, belonging to Minden Lodge, Harrowsmith, and the Ancient Frontenac and Cataraquie Chapter, R. A. M., No. 1, Kingston.

Surviving are his wife and one son.

### ALBERTA TURNER

After a brief illness from an acute attack of appendicitis, Alberta Turner third daughter of Mr. and Mrs. Walter Turner, North Park street, College Hill, passed away last night at the Belleville hospital. Deceased was 13 years of age and was one of the bright pupils attending the Prince of Wales school in Thurlow Township. Alberta's demise is a distinct loss to the school as she was one of the brightest pupils and also much interested in the social events held in the school. Deceased was born here and had lived here all her life. In addition to the parents three brothers and three sisters survive. To the parents and members of the family will be extended the heartfelt sympathy of many friends.

### EVELYN SMITH

On January 6th there passed away at her home near Frankford, Evelyn Pearl, the youngest daughter of Mr. and Mrs. David Smith, aged 10 years, 9 months and 18 days.

She was much loved by all who knew her. Besides her parents, she leaves to mourn her loss, on brother Clarence of Toronto, and one sister, Hazel, at home. Much sympathy is felt for the bereaved family.

### TRADING WITH ENGLAND

Moscow (United Press)—Russia is transferring much of her trade from Germany to Great Britain. German prices are now higher than those quoted by British manufacturers and Germany cannot make prompt deliveries.

## Additional Sports

## CORNWALL SIX ARRIVE FOR GAME, LOCAL SQUAD ARE HANDICAPPED

Cornwall intermediates, Belleville's hard rivals in the big game at the arena this evening, arrived in the city this afternoon at 3.50 o'clock, and referee "Bouncer" Brouse of Kingston and formerly of this city is also here to officiate at the game. Manager G. Arnott of the arena has a good sheet of ice ready for the fray, and a top notch game is anticipated.

Belleville team is handicapped for to-night's exhibition, however and early this afternoon Manager Ed. Thomas had not definitely decided how he would line his squad up for the game tonight. Right defence player Bill Finkie, the strong 60 minute player, "who never draws a penalty" will not be in the game tonight, by reason of the unfortunate illness of Mrs. Finkie, and Bill Canning, useful utility forward is going to line up with the 34th Battery six when they meet the Point Anne crew in a Bay of Quinte league game this evening at the Point.

The crew that will face Cornwall Frenchmen tonight then, must be chosen from the following. Stan Nurse, goal, Bill Green and "Bunny" Frechette defence, with "Daw" Whalen, Stan. Hagerman and Vern Weir in the line who the subs will be, is still a matter of conjecture, as "Soup" Goyer and Pat Boland will both likely be wearing 34th Battery uniforms, at Point Anne when the warning bell tingles at 8.15 p.m. at the arena here. It appears as though it will be a six man squad which will be called upon to be 60 minute men all the time tonight.

## DEATH LURKS IN CLOSED GARAGE

Washington, Jan. 15 (United Press). —Emphatic warning to motorists against allowing automobile engines to run in closed garages is contained in a bulletin issued by the Department of the Interior.

When gasoline is burned in a motor deadly carbon monoxide gas is produced. Four tenths of one per cent of this poisonous gas will kill a man in an hour and larger percentages in a few minutes.

The practice of running the engine in the garage is more prevalent in winter because many motorists wish to "awrm up" their motor before leaving the garage. Motorists are advised to back their car from the garage before allowign the motor to run to warm the oil and water.

## ELEVATOR RAN AWAY, TWO BABIES CRUSHED

Worchester, Mass., Jan. 15.—Caught between the door and the ceiling of a runaway elevator two babies were crushed to death in the city hospital last night. The mother of one watched her baby die.

The babies, one a daughter born December 21 to Mrs. Edward Young and the other a son, born January 3 to Mrs. Harvey Currie, with seven other infants, were on their way to the nursery after having been with their mothers. The nine were placed in a long crib on a truck and wheeled on to the elevator. Officials said the elevator was slightly below the floor level and Miss Ruth Beck, nurse, gave it a slight tug to bring it up a few inches. The cage shot up and the crib slid partially out, before the lift was stopped the two babies had been crushed against the ceiling. The other seven escaped injury.

## City And District

### MOCCASIN DANCE.

Some three hundred people attended Simpson's open air rink last evening, and enjoyed the evenings fun. The Kubell orchestra supplied music much to the delight of the skaters. The ice was not the best, but with the frosty weather now prevailing, there is every promise of keen ice for Friday evening the occasion of the moccasin dance attraction at this rink.

..Watch for add in Wednesday's paper.

### WOOD DAY AGAIN

This was wood day at the market square, when some fifteen loads of wood were offered for sale.

# Inherent Talent Should Be Developed In Girl

By JULIA HOYT

I fear I do not put much faith in the education we receive as children. We retain the things in which we are interested, and these we study voluntarily. The others we do not retain and sometimes in later years we are forced to learn them, when it is more difficult to do so. As children we shut our minds to what does not interest us. At least, I know that this was the case with me. But then, with the exception of a love for music and literature, I was anything but a studious child! Just the same I still hear girls discussing "cramming" for exams; and wondering whether they can "get away with" their unlearned lesson in school next morning.

The teacher can do much toward making the study interesting to the child — hence the importance of choosing the surroundings and personalities which stimulate her interest. I received most of my education at a very small school in New York run by a woman of amazing knowledge and education. She was a brilliant woman, but almost a fanatic on certain subjects. Also, she was extremely jealous of her pupils being interested in anything outside of her school. These are not particularly good qualities for a school mistress to possess. She hated my interest and music and took every opportunity to ridicule and disparage it.

### Couldn't Force Interest.

Quite naturally, I think, this made me less anxious to study the things she wanted me to. Instead of succeeding in forcing my interest into other channels, temporarily at least her attitude antagonized me. Her influence over me would have been much greater if she had taken a more sympathetic interest in my likes and dislikes.

The choice of a school for one's daughter is a matter for serious thought. The decision should depend both upon the character and temperament of the girl, and upon the sort of life for which she is being prepared. Boarding school, for instance, is fatal to some girls and just the thing for others; strict discipline is essential in some cases and in others not necessary or wise.

The mother should closely study her child's temperament from her earliest youth, and then inquire very carefully into the methods and results of the different schools to which she might send her. I believe, however, that unless the child is extremely delicate a school of some sort is decidedly better than a private tutor or governess. The spirit of competition is an incentive to effort—and, as we have all noticed, the naturally studious child is rather rare.

### Encourage Inclination.

As soon as the child shows a very marked liking for any particular subject she should be aided and encouraged in every way. If necessary, she should be allowed to give up certain studies in order to have time to specialize, providing, of course, the essentials are not slighted.

Every girl should study dancing, even though she has no particular talent for it. It is splendid physical exercise, and cannot fail to improve the carriage, walk and way of moving—all very important things later on.

And it is not a bad idea to give every child a chance at studying music, though it is useless to force her to keep at it after it is apparent that she is not interested. I remember quite well the occasion of my first piano lesson. My mother, being very musical, was naturally anxious that her daughters should be interested in music. Consequently, she had insisted on my older sister taking piano lessons—much of their disgust. One day when we were staying at Southampton the teacher arrived to give my sister a lesson. Our mother had gone to New York, and my sister decided to "duck" the music lesson. We looked everywhere, and at last located her in the attic. She had locked herself in and flatly refused to be persuaded to come out.

### Showed Her Talent

I (being four and a half at the time) had been breathlessly interested in the hunt, and was standing close by the teacher as she pleaded through the keyhole. Finally, turning hopelessly from the door, she spied me and laughingly asked if I would like to take the lesson. I, who had already picked out tunes with one finger, nearly died of excitement. Rushing downstairs, I clambered upon the stool and received my first piano lesson.

"Wonder what an idle Telephone thinks about?"

"PERSONALLY, I don't object to smoking, but I can't do my best work while the chief has his attention divided between me and the job of keeping smoke out of his eyes.

"It's almost funny to watch his antics, trying to get close to my mouthpiece, as he knows he should, and at the same time speaking through his cigar.

"And as for my brother over in Brown's office, to whom the chief was talking—I know his telephone is going to be reported as out of order—a 'can't hear distinctly' report!

"All because the chief tries to do two things at once.

"But every cigar must end, and when he talks close to me in that confidential manner of his, then we certainly do swing the business."

**Dr. W. J. BLACK**

former Deputy Minister of Immigration and Colonization for the Dominion of Canada, who has been appointed Manager of the Department of Colonization and Development of the Canadian National Railways in London, England. Dr. Black sailed from Canada on January 6th, and on his arrival in London will commence to put into effect immediately the vigorous policy of colonization which was decided upon by the National System last month. This policy calls for the bringing to Canada of settlers of an adaptable type—particularly British-born—and of locating them in sections of the country and on land where they will be assured of success commensurate with their ability and willingness to work. This policy also calls for the aiding of new settlers, by advice and other means, until such time as they are well established towards economic independence. This policy has the full support of the great trans-Atlantic steamship companies, the Federal Government of Canada and the large manufacturers of agricultural implements.

Dr. Black is well adapted, by birth and training, for his responsible position. He was born and brought up on a farm in Dufferin County, Ontario. In 1902 he graduated from the Ontario Agricultural College, and was appointed Editor of the Farmer's Advocate, Winnipeg, Manitoba. This post he held until 1905, when he became Deputy Minister of Agriculture and Immigration for Manitoba. From 1906 to 1915, Dr. Black was President of the Manitoba Agricultural College, leaving that post in 1916 to become Commissioner of Agriculture for Canada. In 1918, on the establishment of the Soldiers' Settlement Board of Canada, he was appointed Chairman and he remained in this position until 1921, when he became Deputy Minister of Immigration and Colonization in the Federal Government.

---

# Social Life Bleak In Soviet Russia

By JOHN GRAUDENZ

(United Press Staff Correspondent)

Moscow, (By Mail to United Press)—Social life under the Soviet, is at very low ebb particularly in Moscow, once the gayest of the gay.

Before the war, the characteristic feature of social life was the famous house-parties of the minor nobility, and the middle or rather the upper strata of the middle class gave after the theatre. These have passed.

There are two reasons, both good. One is that there is no room to entertain. The average number of rooms in Moscow flats before the war was four, five and six. The flats have the same number of rooms now, but have practically one family to each room.

Also, there is no money for entertainment—food, wine, lights or fuel, to say nothing of music, etc. True, there is employment for most, but the wages and salaries are just a trifle above existence costs.

Of course there are occasional evening gatherings, but they are depressed and drab.

### For The Rich

Restaurant life is only for the rich or very well-to-do. These include the "Nepmen," members of the get-rich-quick class or profiteers; the higher class of Soviet employers, called the Soviet Bourgeois who are not members of the Soviet party, so get higher salaries for expert work and what foreigners there may be in Moscow at the time.

But the public never seems to warm up, either to the people on the stage or to the drink, which is available, and the latter includes everything except "hard" liquor.

The Empire restaurant, one of the very few good ones now operating does have a 5 o'clock tea dance, and a few of the more courageous Russians mingle with the foreigners and a few steps, but their faces are serious and their air depressed.

There are many medium-priced coffee houses, where regular meals, wine beer and 20 per cent fruit liquors are served.

These are chiefly frequented by husbands and wives who, both being employed in some institution, prefer to eat their meals there instead of cooking them at home.

### Too Busy For Pleasure

The Communist leaders are too busy to enjoy themselves. Very rarely Trotzky may be seen in the Art Theatre, but never in the Opera. Karl Radek frequently visits the beer restaurant of the Communist Internationals on the basement of the Hotel Lux. Lenin always remained inside the Kremlin.

The workmen are regularly supplied with free or cheap tickets for the theaters, mainly the radical or so-called revolutionary theaters, where socialistic plays are being given. Factories buy a whole theater for one evening. Besides this, the workmen have their clubs, where small entertainments, but chiefly lectures, are given.

On the whole, the working-class is economically worse off than before the war, but morally much better.

## OVERRIDE PROTESTS

Berlin—Despite French protests, British investigation of conditions in the Palatinate will begin today.

For Home-Made Candies

CARNATION Milk adds richness to candies, as it does to other cooking. Use it wherever the recipe calls for milk or cream. It is just pure fresh milk, evaporated to double richness, kept safe by sterilization. It keeps. It is economical because none is wasted. Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

Try this recipe and write for the Carnation Recipe Book containing many others.

CARNATION DIVINITY FUDGE.—½ cup water, 1 tsp. vanilla, 2 cups brown sugar, 1/16 tsp. cream of tartar, 1 cup nuts, 2 tbsp. butter, ¼ tsp. orange peel, ⅔ cup Carnation Milk. Put sugar, Carnation Milk, water, butter, orange peel and cream of tartar in a stew pan. Stir thoroughly until it begins to boil. Cook until it forms a soft ball when tested in water. Remove from fire; stir vigorously; add vanilla. Arrange half nut meats on a greased pan. Pour over them the fudge.

The Label is Red and White

# Sulphur Clears Rough, Red Skin

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

---

Paris—The Prince of Wales departed for London Monday afternoon with trunks bulging with presents and gifts for friends in England, which he purchased here.

---

## GIRL EVANGELIST DRAWS BIG CROWDS

Los Angeles, Calif., Jan. 15 (United Press).—A young girl evangelist who holds meetings in her own pulpit in her own church, has come into prominence here.

She is Miss Roberta Star Semple, the 13 year-old daughter of Aimee Semple McPherson, the evangelist of Angelus Temple. Hundreds of people are turned away every Sunday morning when she speaks.

As well as having her own pulpit, the girl conducts meetings for children in the huge auditorium of the Angelus Temple. Many of the children are older than she is, but she has equally as much power over them.

It is the natural thing for Roberta Semple to be an evangelist as she was born in China, where her father and mother were missionaries. She was her mother's companion in many cross country tours and early acquired a stage presence beyond her years.

---

Rusty R.—"You're afraid to fight, That's what it is."

Hooper—"No I ain't; but if I fight my father will know and lick me."

Rusty—"How will he find out?"

Hooper—"He'll see the doctor going to your house."

---

## New Device Will Give Ship Ears

Portland, Ore. Jan. 14, (United Press).—Listening to what the wild waves are saying will have a new meaning for the crew of the Guide, crack steamer of the United States coast and geodetic survey, which will begin shortly on an extensive survey in Pacific coast waters.

The Guide will be provided with a sub-aqueous range sounder, by which it can tell its exact position without having to depend on the radio compass. The device has just been perfected by the bureau of standards.

With a submarine sounding device, which determines the depth of water by the time it requires for the sound of a clapper on the hull of the vessel to be echoed back from the bottom of the ocean, survey of the banks on the Pacific coast will be made practically entirely with the aid of under water devices.

This will eliminate the necessity of doing survey work in clear weather, as fog will mean nothing to this ship which will operate with "ears."

FANNING WITH FARRELL

## U.S. LEADS SPORT WORLD IN 1924?

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 15.—(United Press).—Many upsets must come during this new year as a natural consequence in the field of sports. Some champions will be displaced and new ones will come along. Old faces will disappear to make way for youngsters. Old marks will pass and new records will go down on the books.

America's position as the leading sport nation of the world, however, is not threatened. The youngsters that are coming along promise to do even better than the veterans upon whom the burden of proof has been resting.

The position of the United States in tennis for 1924 seems to be far out of range for any foreign shots and the domestic situation does not give any promises of radical changes.

Bill Tilden should add another year to his reign as champion, and Helen Wills is in no danger. The California girl, in fact, is just starting.

Tilden is so far above all his American rivals that there is hardly room for comparison. Bill Johnston is the only American within miles of him and there is no foreign or native player within a mile of Johnston.

The great little California player, however, has reached the zenith of his career, and Tilden may not be threatened again for years.

Young, physically strong and equipped with the best all-around game of any player in history, Tilden should survive many more seasons as the champion player of the world.

Francis T. Hunter is the most promising youngster in the game, but it will be years before he develops a game that will be good enough to match with Tilden's.

The position of Miss Wills in her class is almost as pronounced as that of Tilden among the men players.

Mrs. Molla Mallory has seen her best days. It is not likely that she will be able to come back next year and regain the crown that the California miss took away from her last summer.

"Little Helen" is hardly more than a child. She plays a good game and is so strong physically that there seems to be no limit to the position she may reach in international tennis.

It might be too much to expect her to defeat Mlle. Suzanne Lenglen if they meet at Wimbledon or in the Olympic contests at Paris, but if the California girl does defeat the French star it will be no great surprise.

* * *

With Tilden and Johnston to do all the heavy work again, there is little danger that the United States will not be able to successfully defend the Davis Cup against the flock of foreign nations that are sure to challenge again.

Johnston plans to curtail his activities next summer so that he will be in good condition for the Davis Cup contests and the national championships. He regards those two classics as being so important that he will not take the time off to go to Paris with the Olympic team.

* * *

If Johnston doesn't go to Paris and if Tilden should decide that the Olympic team can get along without him, the Americans will have a job to win the Champinoship.

Dick Williams, Frank Hunter and Vinnie Richards would form a first-class team, but they would be no cinch against some of the more formidable European teams.

Tilden feels that he might go stale if he played at Wimbledon, went to Paris for the Olympics and then returned to the competition at home. He made a tour of the Pacific Coast early last summer, however, and it didn't hurt his game.

If the American Olympic committee feels that America's chances for victory in the tennis Matches would be endangered without Tilden, there is no doubt that he will change his mind and accept an appointment on the team.

With Tilden and Miss Wills at Wimbledon there is a fine chance that the United States, for the first time, might walk away with both the British championships.

Bill Johnston won the Wimbledon title last year, and Tilden won it several years ago, but it is not of record that Americans won the championship in both classes at the same time.

* * *

This year is the first time that the United States recognized the Olympic tennis matches and it is probable that the United States Lawn Tennis Association, eager to make a good showing may prevail upon Tilden to go over with the team.

### ONE WAY OUT

Latin Teacher—"If I write, what I have I give, what condition is that?"

Clement—"Contrary to fact."

ADDITIONAL SPORT PAGE 3.

## STRATFORD SQUAD WIN AT PRESTON

### Indians Win in Second Frame—Arnott is Injured But Finishes Game

Preston, Ont., Jan. 15—The Stratford Indians demonstrated their ability as a hockey team here in the senior O.H.A. fixture last night when they defeated the locals in one of the fastest games every played at the local arena. The game was bitterly fought from gong to gong, and the pace was much more even than the score of 2 to 0 would indicate. Preston had as much of the play as the Stratfords, but they shot at long range, and the shots proved easy for Dolson.

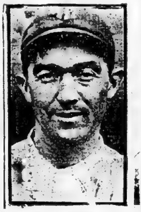
Three was no score in the first period, while the visitors scored twice in the second period, the first being on a face-off in front of the net, while the credit of the second counter goes to Carson. The locals played Stratford off their feet in the third period, but were unable to score. The game was witnessed by 1,500. Arnott was injured in the third period, but he pluckily returned to the game following a few minutes' rest.

Every man on the Stratford team played a good game, and they deserved to win. The locals all turned in a good game, there being no stars, Schmaltz was in goal for Preston, and in his first league game played wonderfully. The line-up—

Stratford—Goal, Dolson; right defence, Berger and Ashley; centre, Brickman; wings, Carson and Kelterbourne; subs., Battersby and Cook.

Preston—Goal, Schmaltz; defence Skelly and "Buck" Bowman; centre, Arnott; wings, Woodley and Clark; subs., Kreason and Roth.

Referee—Harold Farlow, of Toronto.



J. FRANKLIN BAKER., one-time home run kikng of the Philadelphia Athletics, has been handed his unconditional release by the New York Yankees.

## FRANK HALLINAN FOR CENTRAL LEAGUE GAMES

Oshawa, Ont., Jan. 15.—Secretary John Nott of the Central Ontario Amateur Baseball League received a letter yesterday morning from Frank J. Hallinan, Toronto, the umpire who made a hit with fans through his work last year, saying he is willing to officiate on Wednesdays and Saturdays during the league season. He will likely be given a berth when the umpires' schedule is drawn up.

### ROBERT DOUGLAS DEAD.

Regina, Jan. 15.—Robert Douglas, member of the Saskatchewan legislature for Cannington, died at his home in Redvers, Sask.

## ON THE ALLEYS

The new winter bowling league opened at the Recreation Alleys last night with a bang, six teams bowling on the six alleys. In the ladies league the Wanderers were victors over the Ramblers. Miss H. Blaind hitting the 200 mark for the singe game and 502 for the three strings. In the Junior league the Natural Tread and the Lucky Strikes put up a great game the latter winning out by a small margin.

The big game of the evening in the "Big Six" senior league was between the Wanderers and K. of C., the latter rolling 2606 against the Wanderers 2559. O'Callaghan being the big noise of the night with 244 and 691. The scores.

Both the Bowlers and the Upstreamers rolled a good total in their game at the Y Alleys last night. The Bowlers won out by 51 points but they were lucky to do so as the game was a regular see-saw affair and well might have been anybody's game. Upstreamers were leading at the end of the first frame but in the second they slumped badly then came back strong in the final chapter.

## COBOURG JUNIORS WIN GAME AT HOME

Cobourg, aJn. 15.—In a O.H.A. junior game here last night the Cobourg Heavies defeated Oshawa's fast junior team by a score of 4 to 3. The game was fast and was witnessed by a large crowd. Cobourg showed fine condition and came from behind in the final period. The teams:—

Cobourg—Lloyd, goal; Cavanaugh, right defence; Hargraft, left defence Gibson, centre; Moore, right wing; Brinnings, left wing; Rollings and Fardella, subs.

Oshawa—Garrison, goal; Clark, right defence; Palmer, left defence; Moore centre; Loot, right wing; Stevens, left wing; McDonald and Bontler, subs.

Referee—Lawson Whitehead, of Toronto.

ADDITIONAL SPORT PAGE 3.

## LOCAL JUNIORS WIN AT TRENTON

### Forge ahead of Trentonians in Second Period Rally—Final Score 4-2

Trenton, Jan. 15.—The old rivals, Belleville and Trenton, met here last evening in a junior O.H.A. fixture, the visitors winning py the score of 4 2. The game was featured by good and bad hockey. The first period started with both teams playing good combination. From a scrimmage in front of the Belleville goal Wells netted one for Trenton. No further scoring was seen until the second period when Belleville fooled Trenton's goalie for three tallies, while the best Trenton could do was one. The last period brought forth very ragged hockey. Belleville on several occasions had one and two men in the penalty box, but Trenton was unable to concentrate and find the Belleville net. With but five minutes to play, Wardaugh, Belleville's centre, secured the puck near centre ice, and drawing out both the local defence and the goalie shoved the rubber home for the last tally of the game. Teams:—

Belleville—Lloyd, goal; Strachan, left defence; Hunter, right defence; Wardhaugh, centre; Scott, left wing; Hilbard, right wing; Seeney and Townsend, subs.

Trenton—Lewis, goal; Hood left defence; Anderson, right defence; Bernard, centre; Wells, left wing; Lamore, right wing; Purdy and Bohan, subs.

Referee—Brock Huggins, Picton.

## BABE RUTH "FANS" IN POLICE COURT

Newton, Mass., Jan. 14.—Babe (George H.) Ruth, struck out in court here Saturday, paying three successive fines for infractions of the automobile laws. Judge Weston penalized him $50 for operating a motor vehicle after the license had been suspended $10 for the same act without registration and $10 for speeding.

Ruth's Massachusetts license was suspended in 1914 because of an accident in Cambridge and has never been restored, officials said. He admitted in court that he had not registered his car since 1920.

## Part Owner Of Giants Released Under Bail

New York, Jan. 15.—Charles A. Stoneham, former broker and part owner of the New York Giants, Monday entered a plea of not guilty when he was arraigned in federal court on an indictment charging use of the mails to defraud in connection with alleged bucket shop operations. His bail was fixed at $5,000.

Pleas of not guilty were also entered by Horace Stoneham, brother of Charles A. Stoneham; Ross Robertson, Stoneham's brother-in-law and former partner and Leo J. Bondy, Stoneham's attorney, indicted on the same charges.

Bonds for Bondy and Rorace Stoneham were fixed at $5,000 each and for Robertson at 10,000.

## 34th BATTERY AT POINT TONIGHT

### Meet Point Anne Squad in Bay of Quinte League Fixture

While Belleville Intermediate O. H. A. squad are battling for supremacy with the Cornwall aggregation at the Arena here this evening, Major R. J. Earl Graham's 34th Battery boys will be stepping into the fast Point Anne aggregation at Point Anne for tonight these two entrants in the Bay of Quinte league are trying conclusions.

The Battery boys are taking a strong team down, and among the players in the utility list is Jack Henry Williams baseball pitcher who has signed up with the soldiers, and who will take a whirl at the winter game while he meditates over the eccentricities of the great summer game at which he is so proficient.

Here is the lineup. Goal, Scott; defence, Bill Canning and "Nap" Goyer; forward line, "Abbie" Armstrong Ted Whalen and Sammy Symons; subs., J. H. Williams and G. Way.

Walters of Napanee will handle the bell.

## JEROME'S DEATH IS ACCIDENTAL

### Bud Taylor, His Boxing Opponent, is Blameless

New York, Jan. 15.—The death of Frankie Jerome, New York contender for bantamweight boxing championship honors, who died Sunday night from the effects of his knockout by Bud Taylor, of Terre Haute, Ind., last Friday night, was accidental, and will result in no criminal action against Taylor or others connected with the fight. This was made clear yesterday when Chief Medical Examiner Norris rendered a verdict of accidental death, after performing an autopsy. The autopsy revealed that Jerome died from the effects of a blow on the right side of the head, which ruptured a blood vessel and caused a hemorrhage between the skull and the base of the brain. The medical examiner said he knew of but two similar cases in the past five years.

Jerome's death aroused widespread expression of regret in ring circles. where the game and aggressive "Bronx Spider" was regarded as a logical contender for the crown held by Joe Lynch.

Taylor, who, with his bride of a few months, had intended to leave for Chicago yesterday, but when informed of Jerome's death, cancelled this plan, in order to attend the boxer's funeral, which will be held Wednesday or Thursday. Taylor was not told of his opponent's death until yesterday by Eddie Long, his manager. Visibly moved by the tragic climax to one of the most important victories of his career, Taylor visited the State Athletic Commission's office with Long, but was told that no blame was attached to him.

District Attorney Banton last night summoned Taylor to appear in the homicide bureau of his office today at the investigation into the death.

## Good Racing Seen At Florida Track

Miami Fla., Jan. 14 (United Press)—Luke Cassidy, general manager of the Laurel Md., race course, who will act in like capacity for the Miami Jockey Club, is all "smoked up" over the prospects of a successful meeting in the winter of 1925.

"When the gates are thrown open in January, one year hence," said Cassidy, "this country's most exclusive winter colony will be treated to the finest racing layout to be found either north or south of the Mason and Dixon line.

"Laurel has a reputation for beauty and efficiency, but the new Miami course, when finished will eclipse it. We will profit by the experiences of courses elsewhere throughout the country and abroad. We intend to build for the future."

The new Miami race track will be situated at Hialeah, about seven miles north of the mainland city. The course is situated on a beautiful boulevard and easily accessible by motor or bus.

Ground was broken recently. The work of construction is under the direct supervision of Charles W. Murray former consulting engineer of the City of Havana.

Pari-Mutuel Betting

Cassidy proposes to gather to Miami for the opening meeting the finest lot of thoroughbreds that ever engaged in winter racing. The pari-mutuel machine system of betting is to be in vogue. The revenues from the "iron men" always permit an association to hang up richer stakes.

The layout, according to the architects plans, will provide for no less than 1,200 stalls for the opening meeting of January, 1925. It will be possible to increase this if horsemen respond more liberally than anticipated Originally it was intended to provide a track of a mile and an eighth, patterned after Saratoga. It has since been decided to hold the oval to a mile. The grandstand plans call for a seating capacity of 10,000, with terraced lawns to accomodate twice that number. The club house will have accomodations for some 500.

With the advent of racing, America's leading winter playground, which has a population of approximately 200,000 during the season, will be able to present every conceivable form of amusement and sport, amateur and professional, both on water or land.

**PUTS HEALTH AND VIM INTO WOMEN**

**So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound**

Brantford, Ont.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." C

## Redder Than Red

By HELEN ROSS
(United Press Staff Correspondent).

New York, Jan. 14. (United Press).——The national color of Poland—have you seen it? Put on smoked glasses before you do. It's so much brighter than you ever thought a color could be.

This eye-bedazzling shade—not red, not cerise, but more blinding than either of these—will play a brilliant part in the spring color scheme, along with a Chinese shade called lacquer red.

Bathing-suits, with little abbreviated mandarin coats, will be the chief mediums of this brilliance, together with the vari-colored Russian scarfs that no spring costume will be complete without.

• • •

It's a metal age in the clothes world. Furs, jewels and metal appliques are combined in Parisian evening gowns. Hats have dangling metallic trimmings.

Shoes will be cut-out, as usual, and trimmed in metal cords, gold and silver applique, and metalized buttons and buckles of every conceivable kind. Gold and silver "piping" will be common.

Light summer hats will be decked out in tinsel, where they are not covered with hand-embroidery or applique.

• • •

Nightgowns are shrinking.

No up-to-date "nightie" has the ghost of a sleeve, and they all depend on ribbons to keep them up. Some are so brief and sketchy as to resemble the chemise.

In this one department, at least, the color invasion has made little progress. Pastel shades of pink, blue or beige are the most radical departures from the pristine white of custom.

• • •

The tube-frock, in many smart variations, is still the favorite in Paris. Belts are as if they had never existed. Side drapes or buttons sometimes indicate the waist-line, but more often they simply point the hip-joint and let the waistline take care of itself.

Ruffles in tiers are permissible, but only when the silhouette is straight and tube-like.

• • •

The matching dress and three-quarter length coat is the newest combination. Short eton jackets of last season are "out"—except when developed in the mandarin style. But there is no flare to the longer coats—worn over a frock of matching material they keep the same, unbroken tube silhouette.

• • •

Trains are coming back!

Oh, only tiny ones, dropped below the bottom flounce on the half-flounced evening models. Usually the train costume is balanced with a towering Spanish comb, and the heels worn with it, of course, are high.

## Well Baby Clinics Are Proving Worth

On any day in the week except Saturday or Sunday, baby clinics are held in various parts of Toronto. They are held under the department of health, and from two until four-thirty in the afternoon the clinical centres are like the Round Pond in Kensington Gardens, with babies streaming in from every direction—babies in arms, babies in prams, babies in go-carts, babies lolling baronially against the fat cushions of their wicker carriages.

The walls of the clinic room are hung with posters, and instructions about babies so lucid and authoritative that if parents followed them implicitly there would scarcely be any need for baby clinics left. There are public health nurses and public health doctors in attendance, and usually three volunteer workers from the junior organization.

The junior organization is a sort of V. A. D. service, doing duty in time of peace. There are one hundred and fifty volunteer workers in connection with the public health department, and they belong, for the most part, to the rapidly diminishing group of young women of leisure. They are debs and sub-debs and young married women—pretty girls in big white aprons, who weigh the babies and card index their gains and losses and histories.

"It really is a good thing for girls who have never done any work of any kind in their lives," one of them said to The Star yesterday.

**Like Old Lady in Shoe**

It began two years ago, when the public health department found itself in the trying position of the old woman in the shoe, with so many babies demanding attention that it could not handle them. So the group was organized in November, 1921. A great deal of the immense reserve of feminine energy that was left over after the signing of the armistice, has gone into this work. These are the girls who, if this was 1916 instead of 1924, would be rolling bandages and transporting supplies and driving ambulances over in Belgium or France.

They are not doing the work simply to escape the social obloquy of idleness. They are doing it partly because of the sense of social responsibility that has risen out of the war, and partly because they are nice, normal young women who like babies.

There must have been fifty babies lined up about the wall in their mothers' laps, looking a great deal more like a prize baby show than a well-baby clinic. Genevieve and Lorraine, the three-month-old twins were being weighed. eGnevieve settled down in the weighing scoop as though it were a bassinet, and went tranquilly to sleep, but Lorraine contorted herself almost double to get a glimpse of the indicator.

**Interest is Intense**

It showed a gain of six ounces apiece, and there were joyful exclamations o ftriumph. Everyone looked as gratified and though Genevieve and Lorraine had planned the surprise deliberately as an expression of appreciation to the department of public health.

"That is what makes it so interesting——watching the gains from week to week," said the weigher. "Did you see the baby just came in?"

It was a fat, serene baby, with an almost sensational appearance of health.

"And when it came here four months ago, you could have put it in a shoe-box!" said the weigher.

## That Body of Yours

By James W. Barton, M.D.

### THE THREE AGES.

We read in our early days about the seven ages of man.

I can't just remember the definite periods off hand, but in thinking of that body of yours I can think of three definite periods.

The first is the age of fifteen in a boy, or thirteen in a girl, the age of puberty. The man and woman has emerged from childhood.

The second is the mature age of twenty five to twenty seven, when both men and women have reached their full maturity. They may grow stronger or weaker, but insofar as natural growth and development is concerned nature has completed her work.

You are then at your full growth and what happens thereafter is due to natural or inherited qualities of health, and what you develop for yourself.

And the third period is that of middle age—about fifty.

I have often thought how these three periods are fraught with dangers, and also with privileges.

That the boy and girl at puberty should be taught by parents about the transformation that has taken place in their bodies and its significance.

The man and woman at twenty five and twenty seven should realize that they have reached the point of full maturity. If at this time they will take the ordinary thought as to food and exercise, they would avoid the embarrassing fat, and protruding abdomen that now ensues.

You see nature is through building you up, and so your food now is not required for that purpose. If you continue to eat it, then it should be used up by work or exercise, or otherwise you will accumulate weight. And so from twenty seven to fifty you are at your best—insofar as physical vigor is concerned.

And now the third stage—fifty years old.

Nature has maintained you well. You have been sensible as to diet and exercise. You have perhaps escaped any severe illness.

What should be your program?

Really no changes in one sense. You will still continue the care of your body by diet and exercise.

But your exercise now should not be competitive. It should be plenty of walking, or golf, and the slower more moderate forms of exercise. Because you feel strong don't go in for any endurance tests.

Because you are still strong, don't try to show up some of the younger fellows half your age.

Because you are strong, don't imagine you are just as supple as you were at thirty. Your whole thought should be to preserve what you have acquired between your second and third periods. That health and that fair measure of strength will stay by you, if you eat less, exercise a little less, particularly along strenuous lines. Remember, you should be good for another thirty years of life, with ordinary care.

## SOUTH TO UNVEIL MONUMENT TO THE LOST CAUSE

Atlanta, Ga., Jan. 14 (United Press). —Stone Mountain Memorial, the gigantic monument to the South's "Lost Cause" being carved in the massive granite rock near here, will, January 19, reach the first climax of the task which will require ten years to complete.

Governors of six states, congressmen and prominent women will be here on January 19 for the unveiling of the head of General Robert E. Lee, a part of the project.

When completed the memorial will consist of General Lee and other southern leaders, on horseback riding at the head of the phantom host. The memorial will be in relief, standing out 25 feet from the side of the mountain, and sculptors claim a pyramid of Egypt could be completely hidden behind the head of General Lee.

Among those who have accepted invitations to the unveiling ceremony which will commemorate Lee's birthday are: Governor Hardee of Florida, Governor Brandon of Alabama, Governor Peay of Tennessee, Governor McLeod of South Carolina, Governor Trinkle of Virginia and Governor Morrison of North Carolina. In addition, invitations have been sent governors of all other states, congressmen, officials of the U. D. C., U. C. V. and S. C. V.

The guests will be entertained by the Atlanta Chamber of Commerce and the Stone Mountain Memorial Association with a breakfast, a tour of the city and a dance in the evening.

## NEBRASKANS LEARN TO AID EACH OTHER

University Place, Neb. (United Press).—Neighbors here have organized an impromptu 'Americanization' club—composed of Americans.

The object is to learn how to be better citizens.

At the first meeting a judge sat beside a blacksmith. Next to the blacksmith was seated a banker. In the group were mail carriers, machinists, clerks, cleaners and pressers, contractors, teachers, a justice of the peace, preachers, students and retired business men.

There was no evidence of class distinction. The banker found that he knew little of the business and financial worries of a blacksmith, but was interested. The teacher discovered new plans of thought in talking with the clerk.

A program had been arranged. Musical selections, a speech by the judge, events of the day, a historical sketch followed by a more social program made up the evening. During the winter months the group expects to meet each month.

To join, a man or woman must only be interested in making the country a better place to live in.

### FRANCE TUMBLES

London, Jan. 15.—Frantic efforts on the part of French financiers over the week end to arrest the fall of the franc proved unavailing, and franc tumbled to a new low level, 92.60 to pound Sterling, on London Exchange Monday.

**"The Least Noise or Excitement Made Me Tremble," says Mrs. Beaulieu**

Never before in the world's history have there been so many cases of nervous collapse, with "jumpy" nerves, accompanied by fits of depression, as since the Great War. This condition applies not only to men and women but to children. These run-down conditions affect every part of the human system, bringing indigestion, headaches, weakness, insomnia, anemia and finally, if not checked, that most insidious and dreaded disease, consumption. To protect the system, there is only one thing to do, tone and build up the body with Carnol. Carnol helped Mrs. Beaulieu. She says:

"I don't know how to express my gratitude to you for all that Carnol has done for me. I was terribly depressed. I had no appetite. The least exertion tired me. I couldn't sleep. The slightest noise or excitement made me tremble. My nerves were "jumpy". I was losing weight. Finally I consulted my doctor and he told me that I was completely run down and I needed a tonic. 'The best tonic for your case,' said he, 'is Carnol.' I took Carnol for a month and I feel so well today that it is hard to realize that six weeks ago I was in such poor health."—Mrs. Frs. Beaulieu, Rivière du Loup. 3-9

*Carnol is sold by all good druggists everywhere.*

---

Winnipeg—Robert Penward, aged 78, veteran curler, died while looking on at a curling game Saturday.

**WINTER ECZEMA**
*'CHAPS' & COLD-SORES*

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure herbal Zam-Buk.

Zam-Buk instantly soothes the smarting irritation, it kills disease germs, and quickly heals all soreness, roughness and chafing which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health.

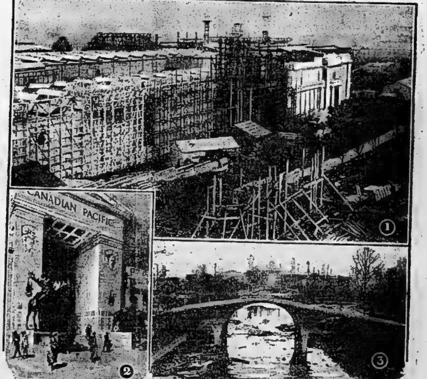
**This was an obstinate case.**

Mrs. Henry Amey, 42, Lyall Avenue, Toronto, says:—"My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medicinal Soap. In a few days these wrought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

FREE SAMPLE BOXES of this great skin remedy! Send 1c. stamp (for return postage), give name and date of paper, and address Zam-Buk Co., Dupont St., Toronto. 50c. box, all dealers.

TO SHIELD YOURSELF *Against* SKIN DISEASE APPLY Zam-Buk *TO THE FIRST ITCHY SPOT OR ERUPTION*

## Canada at British Empire Exhibition



(1) The Canadian Pavilion with the towers of the Indian building in the background. (2) Entrance to the Canadian Pacific building. (3) Showing the progress made in the building of bridges and lakes with the Malaya Pavilion in the background.

Showing the Canadian Pavilion, at Wembly, under course of construction. As portions of the Canadian space allotment have been given over to the two great railway systems, the building which will house the Government exhibits will be somewhat smaller than those of other Dominions, but a great deal of time and money has been spent on its design and decoration, with the result that it promises to be the gem of the British Empire Exhibition. The photograph shows the progress made up to the end of December.

Inset is shown the entrance to the Canadian Pacific pavilion. This building is grouped with the Canadian Government pavilion with which it has been designed to harmonize. A massive simple entrance, two stories high, deeply recessed with painted and coffered ceiling, richly colored doors and grilles of Canadian wood, approached by a broad flight of steps flanked on either side by a bronze moose and buffalo, is the centre of a facade enriched with decorated panels and columns. The strong color scheme of this entrance is emphasized at night by a unique lighting effect.

A visitor to the Canadian buildings will find displayed to good advantage examples of all Canadian natural and manufactured products, and agricultural exhibits which cannot but impress him with the magnitude of the resources of this Dominion and the vast opportunities which await the immigrant and settler.

*All of the Taste — None of the Waste — of Meat*

If you have never used Oxo in cooking, you do not know how many good things Oxo will make, and the ease and satisfaction that awaits you.

Oxo restores all the original tastiness to warmed-up dishes; gives color and flavor to soups and sauces, and makes beef tea that is appetizing, strengthening and wholesome.

Oxo Cubes will never spoil. Always ready for use.

| 2 Tomatoes | ½ oz. Butter | 1 or 2 Cubes Oxo |
| 2 Eggs | Pepper and Salt. | |

Skin and cut up the tomatoes. Put them in a lined saucepan with the butter, and the Oxo mixed with a little hot water. Season to taste. When thoroughly cooked, mash well; break in the eggs, and stir over the fire till thick. Spread on buttered toast, and garnish with parsley.

**Oxo Meat Patties**

| | |
|---|---|
| Scraps of Cold Meat or Poultry | 2 Cubes Oxo<br>A little Parsley |
| Sauce and Seasoning | Some Flour paste |

Mince the meat and make it savoury with the sauce, etc. Line some patty-pans with the paste, fill with the mixture, add the Oxo to half a cup of boiling water, and add a little to each pan. Put on the tops, and bake till pastry is done.

A little egg may be brushed over the tops, if desired.

**Oxo Sausage Pie**

| | |
|---|---|
| 1 lb. of Beef or Pork Sausages | 1 or 2 Cubes Oxo |
| 1 lb. Onions | Pepper and Salt |
| ½ pint Water | 1 oz. Dripping |

Grease a pie-dish, and lay at the bottom the sausages; sprinkle with pepper and salt. Peel and cut onions into small pieces, and lay over the sausages. Mix the Oxo with the water, which must be hot, and pour over the contents of the dish. Dot tiny pieces of dripping on the top, and bake in the oven for 2 hours.

**Oxo Onion Sauce**

| | |
|---|---|
| 1 lb. Spanish Onions | A little Flour |
| 2 Oxo Cubes | A little Dripping |

Cut the onions into thin slices; fry in dripping until a nice brown; mix the Oxo in ½ pint hot water; put into a saucepan with onions, and add 2 pints water. Simmer for 1½ hours; thicken with flour; bring to the boil, and serve.

Call and see us when in town.

**Bishops Seed Store**
172 FRONT ST.

### SNEAK THIEVES ACTIVE

Leaving his automobile on Albert street for a time last night, Everett Liddle, 16 Hillside Avenue, on returning, stumbled over the top of his coil case, and on investigation found that two of the four coils had been taken, evidently by a sneak thief. The police were notified this morning. Liddle was caused much inconvenience together with the cost of a tow home, and the value of the two coils.

## CITY ISSUE MONEY ON FOREST LANDS

Berlin, Jan. 14.—(United Press).—Darmstadt, the capital of the province Hessen, intends to eliminate its housing shortage at the expense of the great forests it owns nearby.

The city has founded a company to build these new dwellings and through the lumber from its forests may not actually go into the houses that are built, it will at least pay the bill.

The big problem, after formation of the new company, was to obtain sufficient stable money to finance the enterprise. To this end the municipal forests were mortgaged as guarantee of a new issue of stable notes of ten gold-marks value each. These were eagerly sought by towns people, anxious to obtain any sort of stable money.

Persons obtaining ten of these notes, 100 goldmarks worth, are entitled to a square meter of stove wood—mill left-overs after lumber is sawed out—every year for fifteen years. Meantime they circulate as stable money, relieving the local financial situation.

At the same tme the city is issuing another series of one mark so called gold loan notes. The entire public property of the municipality is mortgaged as security.

Both notes bear five per cent. interest.

### A NEW COMPOSER

"What is the orchestra playing," asked Mrs. Blowster.

"Er—something from Bacchanale," answered Mrs. Gadsome, after a hasty glance at her program.

SYL MacDOWELL, AND THE 475,000-MILE CAR IN WHICH HE COMPLETED THIRD COAST-TO-COAST TOUR IN SIX MONTHS.

## British Revenue Less Than Expense

New York, January 14.—British revenue in nine months of the present fiscal year (to December 31) amounted to £533,285,062. Expenditure, which included debt payments to the United States, was £594,179,083. The revenue receipts were about £52,000,000 less than for the same period of the preceding year, but as a decrease of some £92,000,000 for the full year is accounted for in the budget estimates, the actual returns are more favorable than straight comparison with last year's figures would indicate.

The Bankers Trust Company, of New York, is advised by its English Information Service that the decrease in receipts from income taxation in the nine months has been only £24,600,000 whereas a decrease of £60,900,000 for the full year was anticipated when the budget estimates were formulated. The final three months bring the heaviest revenue collections of the fiscal year into the British Treasury and these months are still ahead. In nine months the revenue receipts equalled 65.1 per cent. of the budget estimates compared to 64.3 per cent. last year.

## Here and There

Quebec city is again becoming the Mecca of winter-loving tourists. Arrangements for the forthcoming carnival are nearing completion and sports of all kinds, including toboggan sliding on the four-track chute on Dufferin Terrace, are in full swing.

The mild weather prevailing in Quebec until recently greatly hindered lumbering operations in the province. This situation, according to Mr. Piche, Chief Forester, has been adjusted, however, by late falls of snow, and the total cut has been brought up to normal.

There are 300 ports and harbors on the coasts of Canada. The majority are, of course, small affairs, the big ports not exceeding six. However, one of Canada's ports, Montreal, ranks sixth among the world's ports and third on the basis of export business done during the seven months in which it is open.

Newsprint production in Canada for the eleven months of 1923 ending in November was 1,166,225 tons, as compared with 993,988 tons for the same period in 1922, the increase being equal to 17 per cent. The estimated production for the year is 1,270,000 tons, or 189,000 tons over that for 1922.

The value of Canada's 1923 grain crop is estimated by the Dominion Bureau of Statistics at $892,572,300. Of this total approximately $450,000 is credited to the three prairie provinces. It is interesting to note that while the figures for Manitoba and Saskatchewan are below those of the year 1922, those of Alberta are above by over $45,000,000.

Grain marketed along the Canadian Pacific Railway in 1923 totalled 187,642,224 bushels, an increase of 33,324,619 bushels over any similar period in the railway's history. The increase in bushels shipped was 18,086,730, or 9.2 per cent over 1922, and 83.1 per cent of the total amount marketed had been shipped by December 3rd.

Government statistics estimate the apple crop of Canada for 1923 at 10,794,500 boxes, which, at an estimated average of $2 a box, makes the value a little over $21,000,000. By provinces the estimated production was as follows: Nova Scotia, 5,250,000 boxes; British Columbia, 3,124,000; Ontario, 2,275,000; Quebec, 110,000; and New Brunswick, 35,500.

A herd of 20 buffalo is soon to be shipped from Wainwright Park, Alta., to the Yukon, where a game preserve is to be laid out in the central part of the territory. This announcement was made here by Robert Lowe, of White Pass, Yukon Territory, on his way back from Ottawa, where he arranged for the shipment.

The Banff Winter Carnival is to be held from February 2nd to 9th, 1924, both dates inclusive, and will run concurrently with the Banff Bonspiel, which will be held from February 4th to 9th, inclusive. A widely varied and attractive programme has been arranged, culminating in a Grand Carnival dance, when the Carnival Queen for 1924 will be announced and crowned.

Among the New Year's honors for 1924 one of the most popular is the award of the C.B.E. by His Majesty the King to Captain S. Robinson, R.N.R., who, it will be recalled, so distinguished himself in command of the Canadian Pacific S.S. "Empress of Australia" during the Japanese disaster and is now commanding the Canadian Pacific S.S. "Empress of Canada" for that vessel's forthcoming world cruise.

The beauties of the Laurentian Mountains, which have already attracted the attention of moving picture producers, are continuing to draw such companies. The latest to make use of this location is the Distinctive Pictures Corporation, starring Alma Rubens and Conrad Nagle, which has been shooting at Gray Rocks Inn, Ste. Jovite over the New Year holiday period. A feature of their work has been the co-operation of the Chateau Frontenac dog team, led by Mountie, a veteran of five years service in the North.

Winnipeg, Man.— Although referred to as a prairie province, 75 per cent of Manitoba's total area is wooded.

### ENROLLMENT TRIPLED

New York Jan. 14. (United Press).—The annual enrollment at Columbia college has increased in 10 years from 12,422 to 30,619. English is studied by a greater number of students than any other subject. More students are coming to Columbia from beyond Greater New York than ever. Foreign representation is increasing. China sending the largest contingent. A striking developmet, is the growth of University Extension and the Summer Session

### THE POPLAR

You tree they call austere—
O star communing tree,
What nests you hid your leaves amid!
And can it be that none will see,
As you stand bare in the fall of the year?
Me too they called austere—
Communing with the skies,
They had not guessed at the sheltered nest;
Oh what surprise, if they sharpened their eyes,
As we stand bare in the fall of the year!

—Edith M. Thomas.

## Recommends Vicks For Baby's Colds

Nova Scotia Mother Swears By Vaporizing Salve.

Some children seem to take one cold after another never have a chance to build up any strength. This is apt to make them puny and delicate—just sets them back for months.

Every day more and more mothers are finding that they can best break up a cold with Vicks Vapo-Rub, the externally applied vaporing salve. While it acts like a liniment or plaster, it is also inhaled as a vapor, and so gets into the throat and lungs immediately. The cold is often broken up over night.

Vicks is prompt, too in croup and equally good for skin hurts and itchings.

Mrs. Sherman Black of 3 Silver St., Amherst, Nova Scotia, writes: "I tried Vicks VapoRub on my thirteen-months' old baby, who had bronchitis, it relieved his breathing when he was choked. Vicks was also good for my other little boy who had the croup. I advise anyone who has a cold of any kind to use Vicks. I think it is the very best remedy I have ever tried, and I have tried many, for bronchitis, I even sent to England to get medicine, but none is as satisfactory as Vicks."

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## FATALLY STRICKEN IN CAMPBELLFORD

### Victim of Stroke on Sunday Whilst En Route to Church

Mr. James Cassidy, a well known and much-respected resident of Campbellford passed away Monday evening after a few hours' illness.

On Sunday morning deceased was enroute to service at St. Marks, R. C. Church, when he was suddenly stricken with a stroke which proved fatal. Mr. Cassidy was in his 75th year and was born in Seymour Township. For the past 25 years he had resided in Campbellford. At the recent municipal election Mr. Cassidy was a candidate for Council but was unsuccessful. Deceased was a widower. Two sons, James in British Columbia and Harry, in Campbellford and two daughters, Misses Helen and Agnes of Rochester, N.Y., survive.

## FORMER TREASURER'S SENTENCE SUSPENDED

Cobourg Jan. 1.—In the county judges criminal court recently, Edward Doody, ex-town treasurer appeared before Judge Ward on remand. At the last session of this case Judge Ward reserved judgement to go over the auditors' report, and in finding Doody guilty yesterday and letting him off on suspended sentence on account of his physical condition. Judge Ward said he hoped that should he ever be in a position to repay the shortage he would do so. He also criticised the council for appointing such an inexperienced youth to such a responsible position, and also their action in having a cheap auditor at $25 and $50 a year. He stated the case had given him a lot of worry and he regretted that Doody had ever been appointed to a position he should never have occupied.

and concise manner in which they had presented their case. He reminded them that the Government had not been unmindful of their interests and pointed to the appointment of a Labor representative on the Canadian National board of directors and adjustment of the long-standing claim for payment of pensions to Grand Trunk employees as evidences of the administration's goodwill toward Labor. Premier King touched upon the amendments to the Industrial Disputes Act, which had been drafted, and which had met defeat in the Senate. He said the Government was again prepared to press for this legislation, but admitted the possibility of the Upper Chamber again using its veto.

In concluding the Premier informed the Labor representatives that the Cabinet had already taken up several of the matters mentioned in the memorandum, and that the other questions would receive careful consideration.

Members of the Labor Congress at the conference were: Tom Moore, president; P. M. Draper, secretary-treasurer; H. A. Crawford, Toronto; R. P. Pettypiece, Vancouver, and J. T. Foster, Montreal, vice-presidents of the organization.

## COUPLE OBSERVE GOLDEN WEDDING

### Mr. and Mrs. George Nicolson, Sidney Township Couple, are Happily Wedded Fifty Years

A very pleasant event took place Monday, January 14th, at the home of Mr. and Mrs. Geo. Nicolson, 5th Concession of Sidney, it being their 50th wedding anniversary and also the 10th anniversary of the marriage of their youngest daughter, Mrs. K. Campbell of Toronto.

At 1 o'clock about forty relatives and friends sat down to well laden tables, which were prettily decorated with daffodils and freesia. Mr. K. Campbell proposed the toast to the fifty-year bride and groom. Mr. Angus Nicolson of Madoc responded and proposed the toast to the ten-year bride and groom, Mr. and Mrs. K. Campbell.

Mr. and Mrs. Nicholson were presented with two handsome leather chairs. The following address was read by Miss Annie Tucker.

Wallbridge, Ont.,
Jan. 14, 1924.

Mr. and Mrs. Nicolson:

We, your children, grandchildren, brothers, sisters, nephews and nieces have gathered here on this, your Golden Wedding Day, to spend a few hours with you and enjoy the kind hospitality which has always been shown at your home.

We would say as the poet:
From the time the day is dawning,
Till the twilight fades away,
And the silver stars are twinkling
On your "Golden Wedding Day";
May the joys of dear olr memories
Make you happy as anew,
And bring back again the gladness
Of your wedding day to you."

We cannot separate without showing th love we have for you both. We ask you to please accept these two chairs, not for thei rvalue, but to remind you of the friends who gathered on your Golden Wedding Day, and may you be spared to enjoy them for years to come.

Mr. and Mrs. Nicolson thanked their friends and expressed their regreats that their son, Donald and family of Winnipeg could not be with them.

Mr. and Mrs. Nicolson are in fairly good health and are happy to say that all their family are living.

During the day congratulations and flowers were received from various friends among which were cards from Mr. and Mrs. D. Nicholson and Marjorie of Winnipeg.

## SHOOTS TIMBER WOLF

Brockville, Jan. 15.—A fully-grown timber wolf was shot yesterday by Elmer Poole, a young farmer in a swamp in rear of Fernbank, a summer resort two miles west of here on the St. Lawrence. It is the first to be seen in this region for many years.

## Diamond Filled Teeth

James London, of Toronto, has a genuine sunny smile. He has six diamonds set in his upper front teeth and when the Sun strikes them "Oh Boy". He took a fancy fifteen years ago to have diamond settings in his teeth. They are valued at thousands of dollars.

# LABOR CHIEF DECLARES KING'S SPEECH IS THING OF SHREDS AND TATTERS

### Ramsay MacDonald Calls For Change in Britain's Foreign Policy—Indicates Protection Abandonment

### PROBLEMS FOR HOUSE

### Prime Minister Baldwin Glad That U.S. Liquor Question Cut Out of the Way—Text of Speech

London, Jan., 16.—The House of Commons spent much time in the answering of questions and other preliminary routine. Ramsay MacDonald leader of His Majesty's opposition, the Parliamentary Labor party, was the first speaker. In the debate on the King's speech he characterized the address as a collection of odds and ends.

"I welcome the question of foreign affairs," he said. "The position becomes more and more serious. At this moment Great Britain stands toward continental Europe with no decisive or effective policy. It is time we had a change in that respect."

**Be Left To Parliament.**

"Every pledge was given by the Ministers at the Imperial conference that the matters should be brought "Whoever is in office, the proposals of the Imperial conference will be submitted and Parliament will be perfectly free to pass or reject them."

No progress could be made in European affairs without Anglo-French co-operation, declared the Labor leader. He regarded the growing difficulties in this co-operation with the gravest apprehension. The separatist movement, if not settled, would result in another Alsace-Lorraine problem. He asked Premier Baldwin whether he had definitely abandoned the policy of a protective tariff.

**New Problem For House**

Referring to the three party composition of the House of Commons, Mr. MacDonald said:

"This house will have to face a problem in constitutional government that it has not had to face before, if we are to take up the old age pensions and other items in the King's speech which no government can refuse to deal with. We must try to find a ground for common agreement whilst we maintain our party independence and principles. Whoever carries on the Government in the present circumstances is entitled to fair play."

Mr. MacDonald accused the Conservatives of stirring up class hatred against Labor. A section of the press had indulged in manical ravings, which had done Labor no harm but had done the nations' trade and credit a great deal of harm.

**Neither Side Committed**

Ex-Prime Minister Lloyd George who followed, asserted that the dominions had never claimed that the Government had a right to commit the Parliament to any policy, any more than the Imperial conference had to commit the dominions. He criticized the reference to the speech from the throne to the United States liquor question as "cryptic.".

Prime Minister Baldwin said he was glad the U. S. liquor question was cut out of the way. The proposed treaty was being submitted to the dominions for examination, he explained. He anticipated no difficulty in this process the House would have full opportunity to discuss the treaty before ratification. The treaty he considered, would eliminate the irritation of U. S. opinion which had done more to injure good relations among the people of the two countries than almost anything else.

The speech from the Throne candidly referred to the country's rejection of the tariff proposals and indicated their abandonment by the government.

**Text Of Speech**

The text of the speech is in part as follows:

"My relations with foreign powers continue to be friendly. I am glad to be able to record definite progress in the solution of questions which hitherto have blocked the pathway of mutual understanding and retarded the recovery of the world.

(Continued on Page Eight.)

## THE WEATHER

Rain and sleet today. Thursday, strong north west and west winds, much colder with snow flurries.

## COMING EVENTS

Annual meeting of the members of the Belleville Chamber of Commerce. Thursday Jan. 17th, at 8 p m. Chamber of Commerce Building. Annual statements of Treasurer and Manager will be presented and other important business considered. A members urged to attend. R. W. Ackerman, president; J. G. Moffat, treasurer; J. O. Herity, manager. J15-3td.

## JAPANESE CITY AGAIN SHAKEN

### Important Market City Is Rocked by Quakes at Early Hour

United Press Despatch

Tokio, Jan. 16.—Senda, important market city on the Bay of Sendaid, Japan, was shaken at four a.m. to-day by another violent earthquake.

Tokio —An extraordinary session of the Japanese cabinet met to-day to consider the earthquake situation. It was officially announced there has been few deaths in Tokio and Yokohama, and that about 20 persons suffered injuries in the quake of yesterday morning.

## PRISONER ESCAPES

### Escapes From Ontario Reformatory —Four Captured

Guelph, Jan. 16.—Six prisoners in the Ontario Reformatory escaped from guards here but four were recaptured before they had fone far from the farm. Posses are scouring the countryside for the other two.

## STOLEN SEDAN FOUND.

Prescott, Ont., aJn. 16.—A sedan, Ontario license number 49-688, was found abandoned at Crystal Rock, near Prescott, on the Prescott-Ottawa Highway, with a broken axle and otherwise damaged. The battery and front bumper were sold at a garage in Spencerville, and the rear bumper and spare tire were found at a garage in Prescott, where the car occupied by two men and a woman stopped en route to Ottawa. Investigation has proved that the car is a stolen one.

## Modernist Movement Is Termed "Disease"

New York, Jan. 15.—Rev. Dr. Leighton Parks, rector of St. Bartholomew's Church, who invited Bishop William T. Maning to ry him for heresy a month ago when the citation for alleged heresy of the Rev. Lee W. Heaton, of Fort Worth, Texas, became public, yesterday defended the fundamentalist position and character and the modernist movement as a "disease."

Rev. Dr. Percy Stickney Grant, explained at the Church of the Ascension that he did not think that because he was in the minority in his modernist advocacy that he should leave the church and said the demand for his ejection was a "joke." Rev. Dr. William Norman Guthrie defended the Greek dancing at festivals at St. Mark's-in-the-Bouwrie, recently criticized by Bishop Manning, as necessary to get people interested in religion.

## THREE MURDER TRIALS

### Mr. Justice Riddell to Hear London Cases

London, Jan. 16.—Hon. Mr. Justice Riddell, of Toronto, will preside at the three murder trials during the winter Assizes here. J. T. Rigney, K.C., of Kingston, will act as Crown prosecutor. The three men held for murder are Sydney Murrell and "Slim" Williams, Melbourne bank bandits, and Clarence Topping, confessed slayer of his sweetheart, Geraldine Durston.

## FIRE AT ELDORADO.

Fire broke out on Wednesday evening at Bannockburn, when the building, belonging to the late Stanley Smelting Co. was burned to the ground. In the building there were also two cows both being destroyed. The building was situated close to the C.N.R. track at the station. Cause is unknown.

## EX-WARDEN DIES.

Campbellford, Jan. 16.—Frederick Peake, Ex-Warden of the United Counties of Northumberland and Durham and one of the best known men in Seymour Township, died at his home near Campbellford early Wednesday morning at the age of 68.

## Loss By Fire $100,000

Lindsay, Ont., Jan. 16.—Loss estimated at $100,000 was caused by a spectacular fire which destroyed the three-storey brick office and the large four-storey brick harness and larrigan factory and warehouse of the R. M. Beal Leather Co. early this morning.

## A MAN HUNT IN THE EVERGLADES

While on the trail of the Florida Everglades bandits, a posse discovered a 50-gallon still which had been operated by the bandit gang that has terrorized citizens in that vicini ty for years. Photo shows how the posse destroyed the still —by fire.

# GERMAN INFLUX IS CONDEMNED BY LOCAL LABOR

### Members of Belleville Trades & Labor Council Pass Resolution

### OFFICERS ELECTED

### Go On Record as Opposed to Allowing Immigrants In Canada

Members of the Trades and Labor Council of this city have gone on record as opposed to allowing German immigrants coming into Canada. This was one of the matters considered at the annual meeting held last evening.

The officers of the Council for the year were selected, being as follows:

President—Geo. Beare.
Vice-President—A. S. Large.
Secretary—Chas. Hanna.
Treasurer—Geo. McDonald.
Sergt.-at-Arms—Wm. Parrish.
Trustees—John C. Weir, H. Yeomans, W. Thrasher.

## 1 KILLED, 1 HURT; TRAIN EXPLODES

Houston, Texas, Jan. 16.—James Bennett, engineer, was killed, and another trainman injured when a locomotive of the Gulf Coast line's freight train No. 31 exploded near Grayburg early to-day. Six cars left the tracks following the explosion.

## C. P. OFFICIAL DIES

Vancouver, B. C., Jan. 16.—Frank A. Tingley, for the past ten years superintendent of dining and parlor cars and news service of the Candian Pacific Railway at Vacouver, died at his home her Tuesday afternoon after an illness extending over a period of three months. The late Mr. Tingley was born in Sackville N. B. in 1866 and during a railroad experience of over forty years was identified with dining and sleeping cars department in various parts of Canada and the U. S. and Mexico.

## NAME CONVENTION CITY

Washington, Jan. 16.—The Democratic National committee yesterday selected New York as 1924 convention city.

## Was Adam Really First Great Wireless Inventor?

Harrison Ford, who, with Enid Bennett and Mary Alden are among the prominent players in the cast of "The Fool's Awakening," a forthcoming Metro picture adapted by Tom. J. Hopkins from William J. Locke's story "The Tale of Triona", thinks that Allan Siegler, who photographed the production, is a great cameraman but a poor comedian.

Allan's newest laugh was to ask Ford who was the first great wireless engineer.

"Marconi, of course," Harrison replied.

"Wrong, it was Adam. He made a loud speaker out of his spare parts."

And now the ladies of the company won't speak to Allan. Harold Shaw directs "The Fool's Awakening," and J. J. Hughes is art director.

## Mayor Mikel Cites High Highway Cost

His Worship Mayor W. C. Mikel, K.C., has furnished the following information as to the cost of Public Liability Insurance for the last 20 years:—

| | |
|---|---|
| 1903 | $ 675.00 |
| 1904 | 700.00 |
| 1905 | 1,000.00 |
| 1906 | 1,000.00 |
| 1907 | 1,000.00 |
| 1908 | 1,400.00 |
| 1909 | No Record |
| 1910 | 608.73 |
| 1911 | 1,830.81 |
| 1912 | 663.00 |
| 1913 | 1,250.00 |
| 1914 | 1,250.00 |
| 1915 | 1,200.00 |
| 1916 | 1,200.00 |
| 1917 | 1,440.00 |
| 1918 | 2,200.00 |
| 1919 | 2,500.00 |
| 1920 | 2,500.00 |
| 1921 | 2,500.00 |
| 1922 | 3,500.00 |
| 1923 | 3,150.00 |
| | $31,567.54 |

During that period the City has made the following expenditures for the improvement of highways.

| | |
|---|---|
| Public Works | $351,620.75 |
| Sidewalks | 219,070.96 |
| Pavements | 719,713.98 |
| | $1,290,404.79 |

The Mayor said it would seem that the more we improve our highways, the more money we expend upon them the worse our position is as to cost of Public Liability Insurance.

# UNSEAT HOMUTH; ILLEGAL VOTING

### Irregularities Found in Election of U.F.O.-Labor M. P.P.

Toronto, Jan. 16.—Karl Homuth who ran on the U.F.O.-Labor ticket, was unseated as the member for South Waterloo in the Provincial Legislature by a judgment given out at Osgoode Hall yesterday by Justices Kelly and Masten, who find his election void, owing to certain irregularities, but do not find corrupt intent and have, therefore, not disqualified him from seeking re-election. The petition against the validity of the election was made by Arthur W. Mercer, the Conservative candidate, and a by-election for that constituency will now follow. Homuth is required to pay the costs of the trial.

The court found that 21 persons had voted illegally, some of whom cast a ballot although their names were not on the voters' list and there were others who, although on the list, had not resided three months in the constituency immediately preceding election day. The court found, however, that such irregularities were not corrupt practices within the meaning of the act, but as Homuth was elected by a majority of 15 votes only, the throwing out of the 21 irregular ballots automatically unseats him.

It was further found by the court that there were the following irregularities: "Absence of the necessary provision for maintaing secrecy and permitting voting subject to observation; failure of the officers to take the prescribed oath of secrecy; omitting to keep a record of all those who had cast their ballots; accepting votes of those whose names were not on the voters' list and who undoubtedly had no right to vote, and the votes of those who, though their names were on the list, had, under the provisions of the act, no right to vote; permitting a representative of the candidate to enter, as he did, the compartment set aside for marking the ballots and conversing with and giving directions to the voter relating to the ballot; failure of the election officers to comply with the requirments of the act in respect of the taking of the vote of persons, who, through blindness or other physical incapacity, were unable to record their vote in the regular manner, and the failure to obtain from such voters the oath prescribed by section 100 (2)."

The paying for a band and professional entertainer at a U.F.O.-picnic out of Homuth's election expenses was also condemned.

# SOVIET MINISTER OF WAR MAY FACE FIRING SQUAD

United Press Despatch

Paris, Jan. 16.—Reports reaching here from Moscow say Leon Trotsky, war minister of the Soviet, has been arrested on orders from "cheka", the all-Russian extraordinary commission, which during the early days of the Soviet was an arbitrary tribunal with the power of life and death.

# TORONTO CALL GIVEN FORMER LOCAL PASTOR

### Rev. Dr. R. S. Laidlaw Asked to Succeed Late Dr. Turnbull

### IS NOTED PREACHER

### One of the Outstanding Presbyterian Ministers in Western Canada

Toronto, Jan. 16.—Three hundred members of congregation of High Park Prebyterian Church last night by a unanimous standing vote decided to invite Rev. Dr. R. S. Laidlaw, minister of Knox Church, Winnipeg, to become the pastor of the church, as successor to the late Rev. Dr. J. H. Turnbull. The congregation was one hundred per cent. unanimous in inviting Dr. Laidlaw. A stipend of $5,000 is included in the call. Rev. Stanley Owens, interim moderator of High Park Church, who presided at last night's meeting, complimented the congregation upon its happy choice. The call to Dr. Laidlaw, which was then signed by the members of the church, will be brought before the next meeting of the Toronto Presbytery, on February 5, for approval, after which a deputation representing High Park Church will go to Winnipeg to present their call to Dr. Laidlaw at the meeting of that Presbytery. The congregation decided last night that it would leave the matter of selecting the commissioners who will go to Winnipeg to the committee of the church which had recommended the call to Dr. Laidlaw.

Dr. R. S. Laidlaw, who is a native of Wilton Grove, London, Ont., is looked upon as one of the most prominent ministers in Western Canada, and is also noted as a preacher. He is a graduate of Knox College, Toronto. Following his graduation from that college, he went to Glasgow University, where he took a further course of two years, specializing in theology. Returning to Toronto he was honored with the Degree of Doctor of Divinity by Knox College. Dr. Laidlaw was at first assistant minister to Dr. McMillan, of Woodstock, afterwards holding pastorates at Belleville, Ont., and St. Paul's Church, Brandon, Manitoba. Almost eight years ago he was called to the important charge of Knox Church, Winnipeg, in succession to Rev. Dr. Du Val. It was stated at the meeting last night that Dr. Laidlaw draws such large congregations at the Sunday evening services at Knox Church, Winnipeg, that the church is often filled before seven o'clock.

## ELECTION OF OFFICERS

Premier L. O. B. A. No. 531, held its annual election of officers recently. The auditors report showed the lodge to be in a very flourishing condition. The election of officers are as follows:

W. M., Sis. L. Blue; D. M., Sis. L. Holland; Chap., Sis. B. Morgan; R. S., Sis. E. Tummon; F. S., Sis. E. Emerson; Treas., Sis. E. Wallace; D. of C., Sis. E. Carson; Lect. 1st, Sis. M. Jones; Lect. 2nd., Sis. A. Wickens; Guardian, Bro. Jis. A. Ash; Tyler, Sis. A. Geen; Outside Guard, Bro. A. R. Jones; Committee, Sis. E. Mitts. Sis. M. Mitts, Sis. M. Grough, Sis. G. Blue, Sis. M. Ash. Trustees, Sisters, L. McCreary, E. Francis, F. Adams.

# PRESIDENT OF REICHBANK TO CONFER WITH EXPERTS

United Press Despatch

Berlin, Jan. 16.—Herr Schact, president of the Reichsbank and controller of the currency in the Marx will leave for Paris to-morrow to report to experts committee No. 1.

Paris, Jan. 16.—Committee of international experts, under chairmanship of general Charles Dawes conferred for two and a half hours today on Germanys financial situation but issued no communique.

# STRONG MOVE TO HALT CIVIC EXPENSES MADE BY PROPERTY OWNERS

## FRANCE STEADILY GAINS STRENGTH

### Gain Shown In French Currency Indicates Return to Normalcy

United Press Despatch

Paris, Jan. 16.—The French franc continues on its return trip towards normalty to-day, showing a gain of 31 to 20 to the dollar or 93.50 to pound, both offered, while many speculators who had sold short of francs rushed to cover.

Paris—While the experts committee of the reparations commission is meeting here, seeking means to stabilize the mark, President Millerand yesterday convoked Premier Poincare and cabinet to Elysee Palace to devise means of stabilizing the franc.

## LEAVE SUBMARINE IN WATERY GRAVE

London, Jan. 16.—Submarine L 24 with the entire crew wil be left where it was located yesterday because of extreme depth of the water, according to an announcement of the Admiralty.

## FOR CRIPPLED KIDDIES

A portion of the proceeds derived from the Belleville Kiddies entertainment at Griffin's Opera House to-morrow night will go towards the expenses incurred of keeping two crippled children in the Sick Children's Hospital at Toronto.

## TORONTO PASTOR TO SPEAK IN BELLEVILLE

Rev. Stuart Parker, pastor of Old St. Andrew's Church, Toronto, has been invited to come to Belleville and give an address against church union. The address will be given some evening next week.

This was one of the items decided at a meeting held i nthe Y.M.C. A. building of those interested in the preservation of the Presbyterian Church in Canada. It was decided to organize a branch in the city of the Presbyterian Church Association. The officers selected were as follows:

President—W. J. Campbell.
Vice-President—C. A. Cameron.
Secretary—G. A. Reid.
Treasurer—P. M. Little.

## C. H. HULBURD DEAD

Chicago, Jan. 15.—Charles H. Hulburd, 73, president of the Elgin National Watch Company, since 1898, died suddenly at his home here Monday. Heart trouble was given as the cause.

## WOMEN IN FLAMES DASHES INTO STREET

### Early Morning Blaze Destroys Factory and Warehouse

Toronto, Jan. 16.—Screaming with fright and pain, with her clothing in flames, Mrs. Mazaris, aged 45, of 57 Dundas street, west, dashed out of her home into the street late this afternoon. She was taken to the General Hospital where she was treated for burns about her hands and body.

Herbert Paser, 107 Spadina ave., was repairing the roof and had a pot of tar boiling on the kitchen stove. The pot boiled over and caught fire. Mrs. Mazaris attempted to extinguish the flames and her clothing caught fire. Her four-year-old son, Terry, was burned about the face. Firemen who responded to an alarm, gave him first aid treatment. Damage to the house is estimated at $200 and to contents $300.

## ARREST OFFICER

Berlin, Jan. 16.—Police last night arrested former Lieut. Thorman, who had planned to murder General von Seeckt.

## SOLDIERS MUST BEWARE

Aldershot, Eng., Jan. 15.—An army regulation, probably without precedent in British military history, has been issued to the 20,000 troops quartered here. The authorities, impressed with the necessity of combatting as far as possible the spread of influenza, have warned the soldiers to beware of their comrades when they sneeze. They also urge that the men be innoculated with influenza vaccine at the military hospital.

### Curtailing of Expenditure of Money by City Council of 1924 Urged at Gathering of Taxpayers

### OFFICERS ELECTED

### Judge E. B. Fraleck Gives Strong Expression of views in Matters of Economy in Belleville

Curtailing of expenditure of money by the city council of 1924 in order to help in lowering the taxes of the city was the view expressed by some speakers at a meeting of the Property Owners' Association held in the Council chamber last evening. There was a rather small attendance of members owing no doubt to various other important gathering being held in the city.

Ex-Mayor W. H. Panter occupied the chair and in opening the proceedings stated the object of the meeting namely to elect officers and transact other business. He also expressed the vew that it was time the city called a halt in regard to expenditures.

Mr. W. A. Woodley referred to the fact that as there was one hundred in the hands of the teasurer that the members be not called upon to pay any more at present.

A resolution to that effect was unanimously adopted.

Judge E. B. Fraleck—We want members not money, and members who will do something. It was useless to ask for any more money as the expenditure of the Association was light. The speaker referred to the increasing debt of the city and high taxation. Our interest account was now over $100,000 and where is it going to stop, the Judge declared.

Every foot of land in the city is taxed to the extent of 25 to 30 per cent. of its value. We are taxed to death by our municipal Council and governments. Anywhere you turn there is a tax applied.

Our young Canadians are being driven out of this country and are assisting in building up another country. This should not be the case.

**Change of Name**

Capt. A. Hunter suggested that the name of the Association be changed and designated as the Property Owners' Association and Citizens League.

After some discussion the suggestion was taken as a notice of motion to be considered at a subsequent meeting of the Association.

**Election of Officers**

Election of officers was then proceeded with resulting as follows:

President—W. H. Panter.
Vice-President—W. B. Riggs.
Second Vice-President—Ex-Mayor G. A. Bennett.
Secretary - Treasurer — W. A. Woodley.

Votes of thanks were tendered to Ald. A. Robinson as treasurer and Capt. A. Hunter, ex-secretary for the faithful performance of their duties.

Executive Committee—S. Sprague F. S. Deacon, Wm. Donohue, Judge E. B. Fraleck, Capt. A. Hunter, C. S. Clapp, W. C. Reid, W. F. Weese and Ald. A. Robinson.

## INSTALL OFFICERS OF REBEKAH LODGE

Last evening at the Oddfellows Temple District Deputy President Sister M. Megginson, of Stirling, installed the officers of Quintens Rebekah Lodge, No. 133. The District Deputy was accompanied by P. G. Bro. J. Thompson who officiated as D. D. G. Marshall and P. N. G. Sister A. Andrews who officiated as D. D. G. Rec. Sec. P. N. G. Sisters L. Naylor, F. Nicholson, M. J. Bennett-Smith, E. Ormond and E. Neate, of Belleville also assisted. The officers for the coming year are as follows:

N. G.—Lettie Nayler.
J. P. N. G.—A. Cornish.
V. G.—J. Rowsome.
Rec. Sec.—L Cole.
Fin. Sec. —E. Asseltine.
Treas.—M. Ketcheson.
Warden—S. Johnston..
Conductor—M. Rutherford.
Chap.—E. Earshman.
R.S.N.G.—Lillie Naylor..
I.S.N.G.—M. Elliott.
R.S.V.G.—G. Bunnett
I.S.V.G.—C. Vandervoort.
I. G.—E. Sprague.
O. G—I. Aman.
Pianist—E. Turvey.

After the installation which was conducted in excellent manner the D.D.P. gave a few remarks. Under the guidance of the newly installed officers the members of Quintens Lodge look forward confidently to the most prosperous year in their history. During the meeting a cordial welcome was extended to Sister E. Scott, of Eureka Rebekah Lodge No. 58, of Unity, Sask. Sister Scott briefly replied. Refreshments were served and a social hour spent at the close.

### SAVING OUR HEALTH

Dr. Cronk, Belleville Medical Health Officer, speaking at the weekly Kiwanis luncheon, made several suggestions that if carried out, would prove of untold benefit to the present and coming generations of Belleville. Declaring that prevention of disease is the major duty of science, medicine and mankind, he stressed the need in the very near future, of improving our water supply, pasteurizing milk and an isolation hospital for contagious diseases.

In practically all epidemics on record, wherein great loss of life occurred, the causes have been traced to one of the three mentioned. While the present water supply of Belleville has been passed on by the Provincial Board by the adding of more chlorine, still, as stated by Dr. Cronk, no water which is exposed to polution can be made entirely free from deadly germs.

### COMMON SENSE

A terrible forest fire recently destroyed eight million dollars worth of timber in upper Michigan. Inspectors, prowling through the smouldering ashes, found that the fire's course was like a huge doughnut. What would correspond to the hole in the doughnut a tremendous area of fine forest land—remains untouched.

It develops that Henry Ford owns that inner circle and that he does not rely on the state to prevent fires, but has his own force of guards. The guards were ready, kept the fire out of the land. Ford is frequently credited with industrial marvels that really aren't anything but common sense. Possibly, it may be added here that common sense is getting to be a marvel.

### ANCHORS THAT HOLD

Men have been heard to say, with a shrug of the shoulders, "Religion is only a matter of opinion". Even college professors, who should know better, dismiss the subject with the intimation that the Old Testament is merely legendary lore, of no historical significance.

Whereas, the truth is that the Book of Genesis has more of actual history in it, and is being more fully corroborated by modern archaeology, than any other record of anything like the same antiquity. Herodotus and Josephus, for illustration, cannot stand up alongside of the Bible as verifiable.

Even as these lines are being penned, British excavators are at work upon the newly-determined site of Mount Zion, at the southeastern corner of modern Jerusalem, uncovering the ruins of the ancient Jebusite fortress that David captured. Down in the huge dirt heap that was once the city of "Ur" of the Chaldees, the birthplace of Abraham, a combined expedition last year unearthed priceless contributions to our history, with promise of still greater finds before the winter is over.

The spectacular discovery of Tut-Aakh-Amen's tomb in Egypt has diverted attention from others more significant finds elsewhere in Egypt, at Beisan and Gebail; all corroborating the genuineness of the Old Testament record.

## PRESS OPINIONS

### MORE FOOL THAN KNAVE.

(North American Review)

Our national history shows phenomena of a more or less identical type appearing at recurrent intervals, and with astonishing regularity. This is especially the case with the present phenomenon known as the Ku Klux Klan.

With the possible exception of masks, robes and other like paraphernalia, it is an almost complete replica of the old Know-Nothing movement of the fifties of the last century. It professes the same objects, and uses nearly the same methods. Pessimistic citizens of the present day, who look upon our country as going fast and straight to destruction, should remember this fact and take courage.

### FREE STATE BUDGET

(Flint Journal)

The Irish Free State budget for three-quarters of the first year of fiscal independence makes an encouraging showing. Expenditures have evidently been cut down with a determined hand. It is satisfactory to know that the strength of the army has shrunk from 50,000 to 20,000, and that the intention is eventually to cut these figures in two.

It is not so satisfactory to learn that large sums were saved by cutting old age pensions and wages to teachers ten percent. The Free State needs the most it can get from the best teachers it can afford.

### SPOILED BRATS.

(Vancouver Province)

It may be remarked that there are many parents who appear to direct their efforts towards augmenting in their offspring the spirit of self-esteem which has been indicated. It will be allowed that it is very easy for young fathers and mothers to fall into this practice. The very advent of a child is a wonderful thing, and its gradual assumption of human ways and qualities is very fascinating.

But it is not fair to the child to assist it to think it is the centre of the universe. A spoiled child is not only a source of annoyance to those around it, but it is the victim of treatment which will make its future life more difficult and unproductive than it would otherwise have been.

• • •

### ALREADY DEMORALIZED.

(Woodstock Sentinel-Review)

A man who was sentenced by a Toronto judge to a month in jail and a strapping, offered to accept an extra month if the strapping were omitted. The judge thought the whipping was what was needed, and he refused to make any change.

Those who object to the use of the strap on grown-up people say it is demoralizing. No doubt it is; but the people for whom it is prescribed are likely to be demoralized already. And it may have a deterring effect. There are people for whom a jail sentence has no terrors; but no body even pretends to make light of the lashes.

### FROST.

I shall have winter now, and lessening days,
Lit by a smoky sun with slanting rays
And after falling leaves, the first determined frost;
The colors of the world will all be lost
So be it; the faint buzzing of the snow
Will fill the empty boughs,
And after sleet storms I shall wake to see
A glittering glassy plume of every tree.
Nothing shall tempt me from my fire lit house,
And I shall at night find a friendly ember
And make my life of what I can remember.

—Sara Teasdale.

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds — Headache
Toothache — Lumbago
Neuritis — Rheumatism
Neuralgia — Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Music & Drama

### GIBSON IN "BLINKY" AT REGENT THEATRE.

Thrilling rides over the desert, two exciting fights and other thrills are "Blinky", Universal comedy of army life starring Hoot Gibson. Gibson plays a young lieutenant being "broken in" with the Eleventh Cavalry. His trials and tribulations are mingled with thrilling adventures on the border, the combination making something new in screen entertainment. He is supported by Esther Ralston and a large cast. "Blinky" is adapted from the famous story by Gere Markey, and will be shown for three days commencing Thursday at the Regent Theatre. Matinee daily.

### DICKENS' LONDON FILMED IN "OLIVER TWIST" FRIDAY AND SATURDAY

According to Frank Lloyd, director of "Oliver Twist" in which Sol Lesser presents little Jackie Coogan at the Griffin Theatre Frida yand Saturday the reproduction of the scenes in "Field Lane" are photographically accurate. It was in this disreputable quarter of London that Oliver Twist was held captive by Fagin and his evil band. The place still exists, though much of the wickedness rampant there in Dickens' day has been wiped out. But the landmarks remain, and any student of Charles Dicken's works, familiar, too, with the illustrations done by Cruickshank the great illustrator of Dickens' characters, may find them and identify them beyond any shadow of doubt. These will be shown (just as they were in Dickens' day and described in Dickens' books) in the massive production soon to be offered here.

A peculiarity of these evil sections of London, says Mr. Lloyd, is that they so frequently are immediately adjacent to the most staid reputable Field Lane. That is how it happens in the story and in the screen version of "Oliver Twist", that Oliver, gone only fifteen minutes from the quiet and genteel home of Mr. Brownlow, finds himself in the sordid, vile section wherein Fagin and his gang flourish.

The readers of Dickens will find everthing in his memory concerning "Oliver Twist" suddenly illumined and flashed forth again in this First National attraction.

Friday is "Jazz" night at Griffins. New jazz numbers will be introduced by a 20-piece orchestra. There is a special treat in store for those who at-

### FINE RESIDENCE GUTTED

London, Ont., Jan. 15.—The fine new home of John E. Smallman, near the Proof Line road, which was to cost $17,000 when completed, was gutted by fire Sunday morning.

## SILAGE FOR EWES

(Experimental Farms Note)

Succulent feeds, which are keenly relished by sheep, are valuable for their tonic and regulating qualities. Roots, such as turnips or mangels, are possibly the most satisfactory form of succulent feed, but they cost considerably more to grow and store than silage.

It is sometimes more convenient and profitable to feed the latter, as it has been found that good quality silage, free from moulds and low in acid, can replace roots in the ration of the pregnant ewe if proper care is taken as to the amount fed. Some good legume hay should form the main part of the roughage, this to be supplemented with not more than two to three pounds per head per day of silage.

If the silage is from a well matured crop and consequently high in dry matter, the larger quantity may be fed. If from a green, watery crop with consequent low dry matter content, then less should be fed. Mouldy silage is more injurious to sheep than to other classes of live stock, so only silage free from mould should be fed. Corn silage is the best known and therefore most recommended for sheep, but other silages, such as peas, oats and vetch, clover or sunflowers may be used, though in the latter case, much smaller quantities would be advisable, owing to the high moisture content.

Frozen silage should not be used as scouring and bloating may result. The reason that care must be taken in regulating the amount of silage or other succulent feed fed to pregnant ewes is that it is claimed that too much will cause weak, flabby lambs. The ration of silage may be increased slightly after lambing as it will assist the milk flow and there is not then any danger of affecting the lamb. Ewes which have been penned in good condition in the fall should not require any grain feed when receiving a ration of legume hay and silage.

## BRUSH GIVES LIFE TO MASTER'S WORK

### Joshua Smith, R.B.A., Seeks Out Intimate Characteristics of Those He Studies

Toronto, Jan. 15.—Joshua Smith, R.B.A., has on view in the Carroll galleries at the moment an exhibition of paintings which, as well as being magnificent examples of portaiture, are in the nature of a straight left to the jaw for that portion of artistic Toronto not yet familiar with his work.

They reveal among other things an artist who quite evidently does not consider the painting of a portrait a matter of seven or four or six or more or fewer sittings, but a man who takes infinite pains to seek out for himself intimate little characteristics of those he studies and one who has the ability to reproduce these on canvas when he has done so.

**A Portrait's Test**

After all, the real test of a portrait is not its ability to satisfactorily withstand a highly technical analysis and dissection, but its effect on the average somewhat casual observer with a fair gleam of aesthetic intelligence. Such a one suddenly confronted for the first time with this collection of Mr. Smith's work would gasp, gaze and then feel an impulse to go out and talk about it to all the passers-by on the street.

It includes a large number of portraits of prominent Torontonians, fine drawings and an exquisite group of miniatures. These last are particularly outstanding when one thinks of the pink-and-white dolliness which is too often too great a feature of this type of paintings. Perhaps the best are those of Mrs. R. Y. Eaton and Miss Doris Keane, the eminent English actress. Rather than miniatures in the ordinary sense of the word, they are portraits in miniature. Looking at them one is impressed first of all with the personality of the one who has been painted instead of the fact that they are reproductions on an approximately flat surface of some person who is of secondary consideration—an unconscious tribute which the observer pays to the excellence and masterful skill of the work.

**Individuality**

In the portraits themselves he has used color, and colors with plentiful moderation. His pictures of young girls are probably the finest section of the exhibition, but in each and every one he is showing there is a distinct individuality. No similarity of expression running through the whole group, but the impression that he has wiped the slate completely clean after the finishing of each study and started to work out everything anew from the very ground up when beginning his next.

In the portrait of "Peggy," daughter of Mr. and Mrs. Kenneth McLaren, the child is a perfect picture of carefully suppressed impish exuberance. In all his portraits of the very young he has caught something essentially youthful which his subjects will lose in the course of a few years, and which could never be recorded by the eye of a camera.

Other very fine pieces of work include his portrait of Mrs. Sheard (Iorna McLean); a study called "Languor"; the "Little Gold Lady," a head and shoulders with a flash of coppery hair slipping out from under a small dark hat; the picture of Colonel Herbert Bruce with the long ribbon of color in the academic gown, and the one of Miss Adelaide Allward.

In his drawings, hampered though he necessarily is through being confined to black and white, his likenesses are most striking. He has among those another study of Mrs. R. Y. Eaton, an exceptional charcoal portrait of the late H. Gagnier, and a bit of work called "Study of a Child," which has been creating a great deal of comment.

The paintings will be on view all of next week and a part of the week after.

### WOULD BULK THE LARGEST

Toronto, Jan. 15.—Rev. Dr. Jordan, in his sermon in Sydenham street Methodist church, Sunday evening, contrasted conditions and said that at a prize fight in New York the pugilists got as much money for one night's performance as would pay salaries to seventy professors at Queen's for a year. The trouble was the two conditions did not parallel. They could not be contrasted for one was physical, the other mental and in the long run the spiritual would bulk the largest.

ADVERTISE IN THE INTELLIGENCER

### A BOUNDLESS MOMENT.

He halted in the wind, and—what was that
Far in the maples, pale, but not a ghost?
He stood there bringing March against his thought
And yet too ready to believe the most.

"Oh, that's the Paradise-in-bloom," I said;
And truly it was fair enough for flowers
Had we but in us to assume in March
Such white luxuriance of May for ours.

We stood a moment so in a strange world,
Myself as one his own pretense deceives;
And then I said the truth (and we moved on);
A young beech clinging in its last year's leaves.

—Robert Frost in New Hampshire.

### ENGLAND HEALTHY DURING PAST YEAR

London, Jan. 15.—Whatever may be said about the English climate— and some pretty hard things have been said —it has been a healthy one for the last 12 months. Never was there a year in which the public health was so good, epidemics so few and death rates so low. In the great towns of England the death rate for 1923 was 11.5 per thousand as against 13 in 1922.

### TO FIX CONVENTION CITY

Philadelphia, Jan. 14.—(United Press).—The Executive Board of the American Bar Association convened here to-day for its regular mid-winter meeting. The principal business to come before the board will be naming of a city for the regular annual convention of the American Bar Association.

Are you considering buying a home? If so call at the office of BELLEVILLE LOCATORS and talk it over, as we can sell you a home on exceptionally easy terms of payment.

PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gases, Indigestion or Sour, Upset Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

### STARTLED THE WORLD.

Los Angeles, Cal., Jan. 15.—Dr. Albert Abraham, San Francisco physician who started the medical world three years ago with the assertion that he could determine the parentage of a child by electrical vibration of a drop of blood in a machine of his own invention, died here last night of broncho-pneumonia.

Red Pepper Heat Stops Backache

The heat of red peppers takes the "ouch" from a sore lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any drugist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## City And District

There was a splendid crowd at the regular monthly dance of the Palencia Club, held last night in Johnstone's Dancing Academy, and a thoroughly enjoyable evening of fun resulted. A lengthy and interesting dancing programme was commeced at 9 p.m. and concluded at 1 a.m. Music for dancing being supplied by Al Wilson and his Society Serenaders. A dainty lunch was served at midnight.

### PLAY AT DESERONTO.

Belleville Kiddies and concert troupe are appearing in Deseronto this evening with their newest offering of varied entertainment in the title of the piece being, "You Tell Her." The same production will be staged here Thursday evening at Griffin's Theatre.

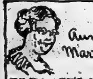
## Marriage is Held Up

Toronto, Jan. 15.—Four marriage licenses have been returned for cancellation this week. Invariably those who wish to have the five dollars returned in exchange for the license come to the office at the City Hall, where they secured it in the first place, and are referred to Spadina House. The official issuer has no authority to refund the money

In one case the lady returned the license and stated that she had found out before the ceremony took place that her prospective husband already had a wife. Meanwhile he had left the city. In another case financial difficulties had arisen that made the postponement of the marriage necessary. In the third case a foreigner's girl had changed her mind and refused to marry him. The fourth instance was the return of a license issued 18 months ago. For this no refund could be obtained as the life of the license expired at the end of three months from the date of issue.

Our object to the movies is that the seats don't have head rests to make a nap really comfortable.



HOUSEWIVES COLUMN

If you look on the wall of your Dominion Store you'll see a framed promise from us to you. It is signed by the manager of the store.

I have one right here before me as I write this. Among other things it says: "Our money-back guarantee is a real guarantee."

When I look around me here at these earnest, busy men, all doing their best to build up the business and reputation of this largest Canadian retail grocery organization—well, I wish you all could be here too. You would soon understand why that guarantee of ours is absolute protection for you. You always save money at any Dominion Store. The prices are always low and Dominion quality is so high that we can guarantee your satisfaction without limit.

I've seen how careful they are, here, to pick out high-type men for managers of the 300 Dominion Stores. Their signature on the guarantee is enough. But you are doubly safeguarded by this big, responsible organization back of them.

I understand better every day why more and more of you come to the Dominion Stores. It's because there you are sure you are safe in saving money.

Aunt Martha

## 5,000 IN CLASS

Miami, Fla., Jan. 14 (United Press).—The Tourist Bible Class, conducted by William Jennings Bryan, a feature of winter life in Miami, known from one end of the country to the other, and which attracts thousands of persons every Sunday morning during the season, has been resumed.

At times as many as 5,000 persons listen to the Commoner give the Bible lesson for the day, while Bryan declares that the class is one of the chief joys of his life. The class has been conducted for several seasons.

W. S. Witham ,an Atlanta banker, is the general director. Hamilton Hopkins acts as musical director, while Miss Jeanette Lindstrom is the organist; W. S. Brookschief, usher, and Lilburn R. Railey, chairman of the Presbyterian Church committee, under whose auspices the class was first inaugurated.

## MOTOR IS SMASHER; OCCUPANTS ESCAPE

Hamilton, Ont., Jan. 15.—John Harvat and Mike Cosinick had a remarkable escape from death Monday when their automobile was struck by a fast freight at the T. H. andB. siding on the Bench road and carried for seventy-five yards through a subway. The automobiles was smashed to pieces, but both occupants escaped uninjured.

### EXHIBIT BUILDING

The task of organizing for Canada's share in the British Empire Exhibition is proceeding satisfactorily. The beautiful being erected by the Dominion nears completion and practically all the space in it has been contracted for. When the exhibits are assembled it will be found that Canada's industries and resources will be most comprehensively represented. The Canadian Manufacturers Association is trying to arrange for a party to sail from Montreal immediately after the Association's annual meeting takes place in the first week of June.

## OBITUARY

### MRS. PETER MURRAY

The funeral of Mrs. Peter Murray took place from her late residence yesterday in Thurlow. Service was conducted by the Rev. Mr. Marshall assisted by Rev. Geen, at the home and the grave. Burial took place at St. George's Cemetery, Trenton.

Bearers: Peter Murray, Alfred B. Murray, Harvey J. Murray, Raymond S. Murray, Robert B. Stewart, Lewis Seigler.

Gone from a world of sorrow
To good for this world of sin
So God opened the gates of Heaven
And bade you enter in
Weep not that your days are over,
Weep not for your work was well done,
And you have gone to receive the reward,
Which God has for everyone
It's hard to break the tender cord
When love had bound the heart
It's hard to say "Dear Mother" we must forever part
But your loving deeds of kindness,
From our memory ne'er shall fade
And our thoughts shall always linger
Around the spot where you are laid.
Peaceful be your sleep. "Dear Mother"
In your narrow bed so low,
You no more can join our number,
Joy and sorrow never know
But some day we hope to meet you,
When the day of life is fled,
And in Heaven we hope to greet you
Where no farewell word is said.
Dearest loved one we have laid you
In the silent grave's embrace
But your memory we shall cherish.
Until we meet you face to face.
Let your gentle spirit, Mother,
Always be our guiding star,
And when we too are called
We can live up where you are

### MARK OTTREY

Tuesday afternoon the body of the late Mark Ottrey of Sidney was interred in the Belleville cemetery vault. At the family residence Front of Sidney, Rev. Mr. Batstone conducted services and officiated at the vault. Bearers were Messrs. P. Boulton, D. Rush, B. Hall and H. Rutter.

## VICE SUPPRESSED

Philadelphia, Jan. 14.—With nearly 1,00 of the city's 1,200 saloons closed, every known disorderly house and gambling establishment out of business, and the bootleggers driven to cover as a result of the intensive police campaign for the elimination of vice and crime, Brig.-Gen. Smedley D. Butler, Director of Public Safety, today turned his attention to banditry and other forms of lawlessness. General Butler said he was satisfied that at least 80 per cent. of the places where vice flourished before the drive started after he assumed office last Monday, had been wiped out.

"When I say that we are turning our efforts to attacking banditry", said the General, "I do not mean that we are going to relax our vigilance towards vice. We have most of the saloons and dives closed, and we are going to see that they stay closed. What few that continue to operate will be closed. It is my intention to institute a vice drive at least once every week, and keep it up until these places are afraid to re-open."

In outlining his plans to curb banditry, Director Butler said that armed guards and observation booths would be placed at all the entrances and exits of Philadelphia to prevent the escape of highwaymen, and to check up on persons entering the city.

Stationed at each of these outposts will be an armored motor car, detectives with sawed-off shot-guns, motorcycle policemen and a permanent sentry whose duty will be to see that no suspicious looking car passes in or out of the city without inspection. The observation booths will be equipped with telephone and radio communication connecting directly with the electrical bureau in the City Hall, where all robberies and hold-ups are first reported. When the central station receives the report of a hold up, a flash will be sent to all the outposts, giving a description of the highwayman and his automobile, if one is employed in making his get-away. From the outposts the armored cars and motorcycles will begin a simultaneous movement towards the centre of the city, combing every street on the way. A bandit car also will be placed at each of the 41 police stations.

Lieut. George W. Fritz has been placed in charge of the bandit squad, numbering 150 men, who have been give orders to "get bandits dead or alive."

## GUARD SUSPENDED

### Result of Investigation Into Charge Of Trafficking

Kingston, Jan. 15.—As a result of an investigation by the penitentiary authorities, Guard Laidlaw has been suspended for trafficking with convicts. He has been on the staff for two years.

"Can you show me where there is no harm in women, with barely enough clothing to make an apron for a mosquito, squirming and twisting in the arms of a man," he asked He also denounced the dancing masters who had named a recent step the Wesleyan step, stating it was nothing but an insult to the Methodist church and the founder of the Methodist movement.

### THE LAMB TALE

History Master—"Lang, can you tell me who succeeded Edward VI?"

Lang—"Mary."

Master—"Now Lang, who followed Mary?"

Lang—(in a haze), "Her little lamb"

### PAYS TO ADVERTISE

The codfish lays a million eggs
While the helpful hen lays one.
But the codfish does not cackle
To inform us what she's done
And so we scorn the codfish coy,
But the noisy hen we prize
Which indicates to thoughtful minds
That it pays to advertise.

# FLYING BULLETS AND BURSTING SHELLS TELL THE WILD STORY OF A BATTLE ON RUM ROW

**BY BOB DORMAN**
NEA Service Staff Writer.
(Copyright, by NEA Service Inc.)

ON BOARD U. S. S. SENECA, 10 MILES SOUTH OF LONG BEACH, N. Y., Jan. 16.—"Begin Fire!"

The calm, even voice of Captain P. F. Roach rose above the crackle of rifle fire. It was the command that marked the opening of another thrilling chapter in the Battle of Rum Row, a battle in which Captain Roach of the coast guard has been the nemesis of rum runners.

"WHAM!"

The loud roar of the 4-inch cannon jarred the bridge upon which I stood beside the captain.

"Cease Fire!"

The same calm, even voice rang out at my side.

Even as he spoke, he watched the flight of the huge projectile.

A wall of water hid the fleeing motor boat. Close upon the sight of that towering veil of water hurled into the air by the explosion of the shell, cam eits dull reverberation.

The boat went on.

"Resume Firing!"

The measured voice of Captain Roach again sounded. The crack of rifles still split the air with whip-like reports.

"WHAM!"

Again the big gun spoke.

Fair in the path of the speeding motor boat rose a geyser of water. Again the dull reverberation.

"Cease Fire!"

The alert gun crew, rapidly loading for another shot, stood at ready.

A strange quiet seemed to descend. Only the sound of the Seneca's engines turning over with forced draft, broke the stillness.

The rifles had ceased their racket. The fleeing boat had got beyond their range.

The sturdy figure of the short, stocky commander watched through his field glasses the course of events on the motor boat.

She dodged and ducked. She sped from side to side. She was keeping such vessels of the rum fleet as she encountered between her and her grim pursuer. She took the course that led into the path of the setting sun in order that the eyes of the gunners might be dazzled.

But she did not halt.

"Resume Fire."

Once more that calm, even voice rang out, as inexorable as fate.

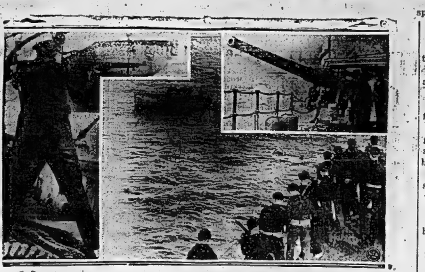
"WHAM!"

The 4-inch gun again roared its command to halt.

High over the head of the fleeing boat, a puff of fleecy white appeared where an inatant before had been but blue sky.

To the front of the target spurts of water flew high in the air.

To right—to left—to stern—the same miniature geysers sprang into being.



Picture Story of the pursuit at sea. Upper left—Lieut. L. W. Perkins, of the Seneca, Coast Guard Cutter, firing on men in fleeing motor boat along rum row, crew of the revenue craft keeping guard over the captured boat. Upper right—The four-inch cannon of the Seneca which showered two men in the K-13091 with shrapnel.
Copyright, 1924, by NEA Service, Inc., and United Newspictures.

Again the fugitives were given a lease of life.

Slowly the motor boat came about.

Like some shy thing of the wild she timidly approached the Seneca bobbing up and down on the waters of the Atlantic.

Silently, the only sound the put-put of her motor, she drew abeam.

"Come alongside aft and come aboard."

A brief, "Aye, Aye, Sir!" came from one of the bedraggled figures crouched in the cockpit of the motor boat.

Blue-clad sailors lined the rail of the Seneca. The sun glinted on the rifles in their hands. Around their waists, khaki ammunition belts contrasted strangely with the unfamiliar blue. Sly grins creased their lips.

Two dirty, unshaven, unkempt figures climbed over the stern of the Seneca. One of them had to be helped. His knees would hardly support his weight.

The other, still defiant, and grinning, remarked:

"Rotten shootin'. Youse guys couldn't hit the side of a barn. Say, whose got a pill."

Uncle Sam had collared two more illicit visitors to the rum fleet.

I had been fortunate enough to witness at first hand the work of the guardians of sea coast adjacent to New York.

Drab, official reports convey little of the inside of rum chasing.

The Seneca had been patrolling the waters just inside the 12-mile limit.

She had encountered 10 members of the rum fleet.

But in the absence of any official sanction of the new 12-mile treaty with Great Britain, the Seneca had merely passed by checking up on the position of the various boats.

It was when she came up to the Catharine Mary, a vessel of British registry, that the race of the fleeing suspects began.

The two men were aboard the Catharine Mary. Their boat was moored alongside.

With the arrival of the Seneca, two figures were seen to leap into the small craft.

Like a bullet from a rifle, they shot away, keeping the Catharine Mary between them and the Seneca. Quickly the Seneca started in pursuit.

But her 11 knots an hour made a losing race of it against the motor boat's 20.

That was why the Seneca resorted to her guns.

After the capture and arrest of the motor boat, she and the two prisoners were sent into New York, the men to tell their story to the United States commissioner, and the boat to await the outcome of her owners' troubles.

## SAYS FARM OFFER NOT LIVING WAGE

### Rev. Morden Tells How He Obtained Information From Employment offices

Toronto, Jan. 15.—Rev. D. N Morden, who has been the adviser of the British harvesters stranded here and to whom the harvesters have expressed the opinion of being opposed to work on farms thinks that the government offer of farm jobs and transportation is not a solution of their problem. Mr. Morden gave his views in the course of a sermon Sunday. He maintained that the government offer was not what it seemed on the surface, that it was not a chance for the men to get temporary employment until they got work according to their trades, but that it meant that they would have to take a year's contract at about $185 a year.

Mr. Morden told his congregation how he got his information. He chose men from the harvesters group and sent them around to employment bureaus in the city. Then they reported their experiences to him. The answer they got, said Mr. Morden in his sermon, was, "I cannot place you for a short period. Farmers applying here for men want them for a year."

"The impression has got abroad", continued Mr. Morden, "that the government can place these men on a farm for a couple of months to tide them over at $15 to $20 a month and that the men should accept the offer. I think you are pretty well convinced that the government has no such jobs to offer these men."

But H. C. Hudson, general superintendent of the Employment Service of Ontario declares that the government has temporary farm jobs to offer these men and he takes exception to statements Mr. Morden made.

"Mr. Morden's statements was misleading," said Mr. Hudson, "and one that may do considerable harm to our organization and its work.

"This offer which the men received was that they should have a trial month or two on the farms at from $10 to $15 per month. After that, they could either drop out or continue. In the event that they kept on, they would receive from $200 to $300 per year for their services, a decidedly different offer than that suggested.

"It seems to me," continued Mr. Hudson, "that if some of this sympathy being distributed to the harvesters was only given some of the hundreds of Toronto men out of work, conditions would be improved. There are just as worthy Toronto men out of work as these harvesters, and just as deserving cases, but unfortunately they receive none of the offers of helping sympathy extended to the Britishers."

While the penniless harvesters are waiting here for work according to their trades they are being both supported and entertained. Last night they were the guests of a special supper arranged by Rev. J. E. Gibson, rector of the Church of the Ascension and to-night they are to be the guests of J. F. Driscoll at a performance of "The Fool".

If a man hasn't a regular job, Sunday is just like other days except that he scatters more papers over the floor.

### C. M. A. COUNCIL.

The first meeting of the Executive Council of the Canadian Manufacturers Association for 1924 will be held in Hamilton on the afternoon of Thursday, January 24. It will be preceded by a luncheon, to be held under the auspices of the Ontario Division, at which the president of the Association, Mr. C. Howard Smith, of Montreal, will deliver an important address defining the position of the Association on several leading questions of the day. The Executive Council will have on its agenda a number of important topics, chief among which will be the consideration of a report on taxation to be prepared by the Special Taxation Committee of the Association.

## GRAIN FREIGHT RATE REDUCED BY C.P.R.

Calgary Alta., Jan. 15.—D. C. Coleman, vice-president of western lines, C. P. R., who was in Calgary Sunday informed the Herald as a measure of assistance to settlers in Peace River country the C. P. R. in conjunction with the E. D. and B. C. Railway, will, effective January 28th, cut in certain reductions in freight rates on grain. To Vancouver from Spirit River and Darwyn, the reduction will be two cents per hundred. From Grande Prairie the reduction will be two and a half cents per hundred, from Sexsmith and Clairmont three cents per hundred, to Fort William from Peace River the reduction will be two cents per hundred, from Darwyn and Spirit River the reduction will be two cents per hundred, from Sexsmith and Clairmont four and a half cents per hundred, from Grande Prairie five cents per bushel.

Easy To Darken Your Gray Hair

You can Bring Back Color and Lustre With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called, "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one smal strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger

### NO BOND OF SYMPATHY

"That woman seemed to bore you."

"Yes, I'm bald-headed, as you see. All she could talk about was the trouble she has in washing her hair."

### AMONG THE DEBUTANTES

Jane—Bess is the right girl for Jack.

Belle—Then there's not one chance in a million of his getting her.

### DECREASE IN PRISONERS

New York (United Press).—Prison population is on the decrease, according to figures announced by the National Probation Association. The decrease, it is stated, follows as a result of the increasing use of probation The Committee on Law Enforcement of the American Bar Association in its last report announced an increase of 1.7 per cent in the prison population of the entire country over the percentage of increase in general population for all states during the past 12 years. These figures, however, cover only the state prisons and adult reformatories; they do not include the juvenile reformatories or the jails where there has been a large decrease of population which, if included, would have shown a decrease in prison population for greater than the increase noted.

### BALKANS AROUSED

Belgrade, Jan. 15.—Announcement that Italy and Jugo-Slavia have agreed in principle to a settlement of the Adriatic question is causing sensation, and was immediately followed by official protest from Governor Seanella of Fiume Free State, who was driven out by Fascisti Revolution in 1922 and now living a few miles inland on Serb territory.

### CHEERING OBSERVATION

"Life is full of ups and downs."

"Yes, but they're working the right way now. The thermometer is going up and the price of eggs going down."

## COMMUTER TELLS TALES OF THREE TRIPS ACROSS COUNTRY IN 6 MONTHS

**BY STEVE HANNAGAN**
NEA Service Staff Writer

NEW York, Jan. 14.—Syl MacDowell who drove 15,000 miles in automobiles last year has just completed his third coast-to-coast drive within six months, in an automobile that has traveled 475,000 miles.

"The funniest incident I ran across in all my travels," he spoke from behind a mask of sun and wind tan, "was the one about the wealthy man from Brooklyn who was touring to Los Angeles. Having heard all the tales of the Indians of the West, he packed a loaded shotgun. As he rode along he spied what he believed to be a porcupine. Picking up the gun, he let fire—and blew a cactus plant to pieces."

The average time tourists require to cross the continent in an automobile is one month, according to MacDowell, who says most drivers average from 150 to 200 miles a day.

His best mileage in a single day was 380 miles—and the hardest and shortest day's drive was 60 miles through Missouri mud.

"New Mexico is the most picturesque state in the coast-to-coast drive," and the Mississippi river is the dividing line of roadway civilization—from St. Louis on into New York the ride is as standard as in a Pullman car," says MacDowell.

The average cost for two people to make the long drive in a small, light car, is $10 per day, which "is cheaper than standing still," according to MacDowell.

From 75 to 414 gallons of gasoline are necessary to fuel the trip.

"One day in Kansas," recounted the interesting MacDowell, who spins motoring yarns like a fisherman, "a snake ran under a tourist's automobile —and then disappeared. When the tourist could not find the snake, it worried him. The next day he found the snake—it was coiled up in his battery box.

"The drive over the desert worries most people—but it is merely legendary fear. The roads are wonderful and well posted, so that it is almost impossible to lose one's way.

"One chap I met entering Yellowstone Park was making the trip with a map torn out of his child's geography. 'There are a lot of places in this country not on this map,' he said.

"There is scarcely a day during the season of touring that one cannot count nearly every state's license plate in a day's travel. Last fall I noticed a Hawaiian plate in a snowstorm at Flagstaff, Ariz."

MacDowell's home is in Los Angeles and he is a writer touring for atmosphere. Soon, he will drive back to the motion picture city to prepare for another drive back to New York.

He is a transcontinental commuter.

Invest Your Money Now in the

CHEVROLET

Springtime Club

And Own a Car Next Spring

NO stuffy, crowded street cars and radials next summer for the owner of a Superior Chevrolet. Instead of discomfort, you can enjoy the freedom and pleasure of your own car. You can go where you want, when you want, in less time, in greater comfort and with greater enjoyment.

It is easy for you to own a Chevrolet—as a member of the Springtime Club. You are paying for the car between now and May 1st—and get a generous 6 per cent. interest on all the money you pay. Your car is delivered in the Spring, in time for the good motoring weather, and you pay the balance off as convenient. Could you make any better investment for your money than the purchase of a Superior Chevrolet? No interest charged—but 6 per cent. paid to you instead. Your car delivered on May 1st—when you need it—a brand-new Superior Chevrolet. Do not delay. Now is the time to join the Chevrolet Springtime Club.

## BELLEVILLE COMBINATION PROVES SUPERIORITY OVER LONE RUSHES OF CORNWALL

### Speed of Players of Visiting Squad Fails before Consistent Play and Stirling Co-ordination of Locals—Bill Green Stars Throughout Game

Superiority of two and three man combination with speed, over the lone rush, follow up. tactics often seen in professional hockey was demonstrated at the arena here last night, when the Belleville intermediates, possessors of the first-named virtue, had no particular difficulty in ousting the fast Cornwall six who practice the last named tactics of lightning fast lone rushes where the players do not play their positions according to cast iron rules. The final score was 7-1 for the locals, making their third successive win in the Intermediate O.H.A. race, but not indicating the play.

Speaking of lightning in connection with speed, the Cornwall squad certainly can uncork speed by the barrelful. The Contant brothers, are speed artists de luxe, and were the fastest men on the ice last night. ..ey are stickhandlers too, and were dangerous throughout the argument. Larose, though not so speedy is also an elusive stick handler, and almost every other man of the visiting team appeared to believe that speed is the only essential. Time and again. Lane and the Contant brothers came down with a sweep, only to be checked (and heavily too), or steered for the corner and often taking a pot shot at the Belleville goal, which would go wild, and failing utterly in the matter of following the shots up in the corner.

**Combination Tells**

The locals, with a fair share of speed, taken aggregately, and working a two, and at times, three man combination which mystified the Frenchmen were unable to wiggle through and beat the good and experienced net guardian, Gallinger, seven times during the evening's entertainment. The Belleville squad checked hard, and the opposition firing line found great difficulty in getting by the bulwarks as Bill Green was stepping into them and stopping shots like a goalerr, while Bill Finkle was checking hard and consistently. On the firing line "sixty minute" Weir was checking everything in sight and showing speed With him, Hagerman at centre and Frechette on the other wing played hard al the way.

The pace was a hard one on such hard keen ice, with very little body checking, although Lane and the Contants attempted it in the first frame until they were fed up by the "back fire." Condition was a factor last night, and both teams divided the honors in this important department, both still requiring much condition. Subs were thrown in the attack continuously, especially by the visitors, Finkle and Weir being the only pair on the local squad who did not require the big rest.

**Green Going Good.**

On the evening's performance, honors must go to Bill Green, right defence for the locals, the records showing that he scored three of the seven goals, Frechette and Whalen each netting one and Stan Hagerman getting a lovely brace. Green rushed repeatedly with speed, and stickhandled well. He defended his position well and bodied them when ever oportunity "knocked". He did all this in sixty minutes and scored three goals between times. Hagerman worked hard last night for honors too, his fearless checking and fast skating, together with his part in the combination which proved so effective for the victors being featured. Weir played his consistant game and though he did not break into the tally column, his work doubtless aided the ultimate. Frechette played a hard game, but lacks condition and Whalen worked the same as a hornet while he lasted. MacNeil, a new sub was not used much but played centre satisfactorily when used.

**A Word About Nurse**

In passing, waranted mention must be made of the performance of net guardian Stan Nurse who, guarding the gaping mouth of that twine citadel, fulfills a position which has often been the saviour of hockey teams. Nurse's performance last night was wonderful, for though the final score was 7-1, that by no means indicates that Belleville had a walk over. Nurse stopped dozens of real dangerous shots, and on three or four occasions he was the only man to beat, the Cornwall man in possession of the disc having time to stall for a trick shot. Nurse sailed into them each time however, and fell on the puck once when it looked "mighty like a rose."

Nurse is a heart breaker, speaking in the terms of the winter pastime, and if Belleville ever meets a team which will outclass them on the ice, Nurse will break more hearts in one period than Dan Cupid cracked during the past fiscal year.

**Cornwall Speedy.**

For Cornwal, the Contant brothers are still going strong. E. Contant, right defence and A. Contant at centre, are two of the speediest birds in the game, and with proper coaching in the delicate art of combination, the same pair who with goaler Gallinger and Lane formed the Cornwal juniors who went to the finals in 1916, ad were thrown out at the end of the season, Contants being over age, would make a woderful pair.

Gallinger in goal is a good net guardian, of experience, and "hoed his weedy foe" (last) night in real fashion. He stopped many hard shots which looke dlike goals. Lane the husky defence player had speed for a time but apparently wilted before the body checking which he invited.

**No Tally in First.**

Play had not proceeded long in the first stanza until the game was uncorked at mile a minute speed, which continued without a lapse till the gong with no score. Green and Frechette worked a combination near the beginning which was mighty close to being a tally when Green polted it at Gallinger, who saved by inches. Weir drew a trip for a trip, and A. Contant came mighty near tallying when he rushed Nurse after a rush from end to end. Nurse saved cleverly. Green and Frechette came down again in a dual combination try, but the attack was broken up by Lane and Contant. D. Whalen followed up with a dangerous shot on goal, after a wonderfully pretty com. play was worked through the Cornwall outfit, from end to end. Whalen drew a penalty, and A. Contant also got a trip for interference with goaler Nurse when he fell on the rubber to save the situation. The period ended with Cornwall pressing hard, and Nurse on his toes keeping the disc out of the forbidden territory.

**Start Scoring Early.**

After one minute of play in the second period, Frechette and Green rushed the rubber right to the goal mouth by a dazzling bit of combination, and after drawing Gallinger out, Green hopped it in for number one. Whalen and Frechette came down shortly afterwards with another combination play, Frechette rushing number two by Gallinger, for the cheers. Frechette with a shot from the side, all but tallied number three when the puck hit the top bar of the net and went over behind. Weir was banished for slashing in a check, and E. Contant in a scramble from close range wiggled a roller by Nurse for Cornwall's first, last and lonely. Then Hagerman supplied a play which helped to convince the fans they had received value for their 'mon', when he grabbed the play at centre ice, after checking, and wiggling through the whole outfit lone handed, bulged the twine for number three. From that until the end of the second, Belleville had the decided edge of the play, and literally bombarded the enemy citadel, working the combination smoothly and preparing the visitors for what was to beat them badly in the last twenty minute go. E. Contant drew a penalty near the end of this frame, and "Bunny" Frechette's brilliant rush was a fitting curtain finale," the period ending Belleville 3, Cornwall 1.

**Visitors Outclassed.**

The last go was Belleville's from gong to gong, when the Ottawa league Frenchman's style of play was shown up by the combination tactics of the locals. Finkle drew a penalty, which they claim is stranger to rotate than the fact that a giraffe has no voice. Play was fast and consistent for six minutes when Bill Green opened the Golden Gate, and sailing prettily through the whole outfit easily beating Gallinger for No. 4. Right after the face off, Whalen grabbed a pass from Weir, who checked to get possession, and wiggling his way through, sent number 5 past Gallinger. Play moved about the enemy net and the puck went to the corner. S. Hagerman stood in the goal mouth while Whalen went into the corner after the disc scooping it out to Hagerman, who scored before Gallinger had a chance to save. E. Contant came down alone at lightning speed, and had everyone beat but Green for what appeared to be a score. Green flipped him, saved the situation, but was banished. Contant was out from the fall for a few minutes. Number seven came near the end of hostilities, when Whalen and Green rushed it down the avenue in a nice combination play, Green finding a corner in the net in the wild excitement.

The line-up:—

Belleville—Goal, S. Nurse, L. Defence, W. Finkle; R. Defence, W. Green; Centre, S. Hagerman; L. Wing, C. Frechette; R. Wing, V. Weir Subs., D. Whalen, H. McNeill.

Cornwall—Goal, Gallinger; L. Defence, Lane; R. Defence, E. Contant; Centre, A. Contant; L. Wing, Larin; R. Wing, Larose; Subs., Tilton and Jamieson.

Referee—"Bouncer" Brouse, Kingston.

## ON THE ALLEYS

Excelsiors maintained their unbroken line of wins at the Y Alleys when they turned back the High School Girls yesterday afternoon, winning by 431 points on the three games. Mrs. Lee lead off player for the Excelsiors played her usual steady game and Miss McArthur showed the best returns for her efforts on the School Five.

| EXCELSIORS | | | |
|---|---|---|---|
| Mrs. Lee .. .. .. .. | 180 | 181 | 162—523 |
| Mrs. Strachan .. .. | 161 | 157 | 105—423 |

## TRENTON INTERMEDIATES LOSE TO PORT HOPERS

Port Hope, Ont., Jan. 16.—Port Hope Intermediates defeated Trenton in an O.H.A. game here last night by the score of 4 to 3. The Trenton squad made a strong finish, reducing a three-goal lead in the last period. The locals, however, had most of the play and had it not been for the extra good work of Newton, in the visitors' nets, the score would have been much different. Newton saved his team often during the game and at times it seemed a hopeless task to try and beat him. The first period ended in a one-goal tie, while the Port led by one goal at the end of the second. Penalties were frequent. Teams.

Trenton—Goal, Newton; defence, Allore and Anderson; centre, Shoniker; wings, Barr and Schenzell; subs., Bohan and Dafoe.

Port Hope—Goal, Ham; defence, arter and Jex; centre, Finnigan Hills; wings, Ware and E. Hills; subs., Harwood and K. Ware.

Referee—Mollenhaeur.

## International Soccer

London, Jan. 16.—At a meeting of the International Selection Committee of the Football Association here, correspondence was submitted concerning the visit of the South African Association football team to this country next autumn. The committee decided to play international matches, England versus South Abrica aon October 11 and November 20, South Africa to take the whole receipts from both games. The committee decided further that it would be impossible to send a team to Australasia this season, but agreed definitely to send one in the spring of 1925.

NOTICE, BOWLERS!
We want to draw the attention of all lady bowlers that beginning January 14th every night ladies are welcomed to bowl and we are reserving two alleys for the ladies after the ladies' league game which finishes about 8.30. 15-6td

## Kingston Indians Easy For Brockville

Brockville, Jan. 16.—Before a crowd of about one thousand hockey fans, the Brockville intermediates defeated Kingston Frontenacs by 9 goals to 2 in an O.H.A. fixture here last night. The game was played on a fast sheet of ice and the pace set by the Brockvilles after Frontenacs had opened the scoring in less than a half minute after play commenced was too fast for Kingston.

Bellringer commenced the scoring on a shot from the right wing just after the puck had been faced at the start. Five minutes after Guest teid the score, and Kinghorn put the locals in the lead on a solo play a minute or so after. Joe Smith, who worked all night, netted the visitors' second goal. Kinghorn scored another, putting Brockville in the lead, and from then until the finish the visitors were completely outclassed. Teams:

Frontenacs—McNeil, goal; Panet and Murray, defence; Fred Brown, centre; Joe Smith and Bellringer, wing.; Gaulin, sub.

Brockville—Murray, goal; Toots Holway and Bouncer Holway, defence; Kinghorn, centre; Guest and Higgins, wings; Miller and Burt, subs.

## Cobourg's Rough Play

### Oshawa Management to Report Actions to O.H.A. Officials

OsOhawa, Jan. 16.—Following rough tactics allowed by Referee Lawson Whitehead in Monday night's O. H. A. junior game in Cobourg between Oshawa and Cobourg, Manager Ed Donald is filing a protest with Acting Secretary Sheriff J. F. Paxton, of the O. H. A., claiming the refgree allowed illegal methods of play. Shortly after the game Defence Player Palmer, of Oshawa, collapsed in the dressing room. Medical attention showed the injured player to be suffering from two fractured ribs. Palmer is now in the Oshawa General Hospital. Corbeau, Stephen and Clark were also injured. Goaler Garrison was alleged cut in the face by being kicked by Cavanaugh's skate as he went to his knees to clear a shot. During the game two fights took place on the ice. Oshtwt will put a badly battered team on the ice to-night when they meet Bowmanville.

### PETES BLANK LAKEFIELD.

Peterboro, Ont., an. 16.—Lakefield intermediate team was blanked here last night by Peterboro intermediates in a one-sided game ending in a 10 to 0 score. The visitors lacked system, but played hard, especially in the last period, went they made a determined effort to break into the score. This is the third defeat for the Northern team, and virtually puts it out of the running in the series.

Rose starred for Peterboro, scoring the majority of the goals. Dwyer, the regular goalie, was ill, but Templett held the fort with ease against the few scattered shots of the Lakefield team.

### OSHAWA DOUBLES SCORE.

Whitby, Ont., an. 16.—Ed. Donald's Oshawa Intermediates easily won from Whitby here tonight, 8 to 4, in a game which only seemed to demonstrate the superiority of the winning team. The Whitby veterans were never in the running at any stage of the game. The score a. the end of the first period was 4 to 0 at end of the second 8 to 2, and 8 to 4 at the close of the game. In the final period Oshawa made no effort to score, and were satisfied with keeping Whitby from catching up.

## AGAIN WINNER OF DAIRY SWEEPSTAKES

Ottawa, Jan. 16.—For the second consecutive year, "Aggie Texal Canary," the six-year-old Holstein cow of W. R. Cunning, of the Gold Dollar Stock Farm, near here, won the dairy sweepstakes at the Ottawa Winter Fair, capturing the Ottawa Farm Journel Trophy and $300 prize money. "Aggie" obtained 326.70 points in a three day test.

### DENMAN FOR QUEEN'S

Hamilton, aJn. 16.—Report has it that Alex. Denman, the Tigers' young flying wing, will be wearing the red-yellow-and-blue garb of the Queen's Rugby champions next Fall. It is understood that the Hamilton boy is planning to enter the Kingston college next September. He played great Rugby for Tigers in his first senior year and, if he carries out his intentions, he will be greatly missed here.

## BAY OF QUINTE SQUAD TOO MUCH FOR RIVALS

The Belleville representatives in the Bay of Quinte Hockey League upset the dope when they played Point Anne last night on their ice, and administered a real defeat t o the home team much to the disappointment of the fans who were out in force to support Pat Baland and his gang of puck chasers.

The final score was 8-2 for the Gunners which represented the play, as the Belleville boys displaying a beautiful exhibition of combination and shooting were the best team. The game was clean throughout, and very fast, only two penalties were given and these were for minor offences. Referee Walten of Napanee, handled the game in a very satisfactory manner, to both teams.

**All Play Good.**

It would be impossible to pick any stars from the Battery team as they all played sterling hockey, and showed real team work which is the greatest factor in a winning team. They were a perfect machine, every man playing his position, and always there to receive a pass, they broke quickly going down the ice abreast, passing the puck which was too much for the Point Anne defence. Pat Boland made many sensational saves from this method of attack. Soup Goyer for the Point tried hard but was covered too well by the locals to be very effective. Jack Williams "struck out" Boland a couple of times with tricky "outdrops." The defence of Canning, Goyer and Scott was excellent, as they rushed and blocked perfectly, while the utility players played very well, and fitted into the team play just the same as the regulars. Sandy Burrows has been coaching the Gunners and they certainly showed the results of his assistance.

**Combination Wins.**

The score by periods was 1-1, 2-6,2-8. Point Anne scored the first goal in a mix up in front of the net. Belleville's first goal was the result of team play. Canning carried the puck up the ice, drew the defence, passed to Whalen, who drew the goal keeper and passed to Symons who shoved it in. The second goal came similarly Williams to Symons to Whalen. The style was the same during the whole game, back checking, and unselfish combination by Armstrong, Whalen, Symons, Williams and Hay, on the forward line, ably assisted by Canning and Goyer on the defence, and the invincible Scott in goal. Hockey of this type is a treat, and certainly effective. It will undoubtedly carry them a long way in the league race. The features of the game were the combination and accurate shooting of the Gunners.

**Play Here Friday.**

Kingston beat Point Anne in Kingston, and play Belleville here at the Arena on Friday night. The results will have an important bearing on the final result of the League, as a win by either team will put them in an enviable position. The Gunners will practice at the Arena Thursday, 6—7, in preparation for the Friday game.

The line up of players who got their revenge from Point Anne for their defeats of last year were:—Goal, Scott; defence, Canning and Goyer; R. Wing, Symons; Centre, Whalen; L. wing, Armstrong; subs., Williams, Hay and Hibbert.

## WIT AND HUMOR

Opinions are worth what they will bring.

Silence is as often a sign of stupidity as of wisdom.

### TACT REQUIRED.

The most trying period of a young lady's life is when she has to suggest to her mother that sister is still little too young to have her hair shingled.

### NOT THAT KIND.

"Dad," said the young hopeful, who was thinking of branching out in the world, "whadda you think of the chicken business for me?"

"Well," said the wise one, "I dunno, son. It costs a lot to feed 'em .And if you ever start using taxi-cabs you'll go broke."

### TALKING ADVICE.

A Yorkshire woman, coming down the garden walk, was horrified at seeing her son standing on his head against the garden wall.

"Johnnie," you wretch," she cried, "what are you doing now?"

"Standin' on my napper," gurgled Johnnie. "Didn't yer tell me to play at summat as wouldn't wear my boots aht?"

### SHEER WASTE OF EFFORT.

No, Chlorinda, my dear girl, we are not giving any time now to framing a new set of resolutions for the New year. We quit that kind of business years ago because the resolutions always fell out of the frame.

### LITERALLY.

Parson—"Well, what do you think of the new little sister at your house?"

Johnnie—"Oh, she's a scream."

### NOT SO INEXPERIENCED.

Mrs. Youngbride (very inexperienced).—And I'd like some lard, please.

Clerk—Pail?

Mrs. Youngbride—Why—er—it's all pale, isn't it

### WHY HE TOOK IT UP.

Rastus—"Feller, why for yo'all dabblin' wid dis here oysteropathy?"

Sambo—"Cause Ah done read in a book his oysteropathy done treat ob de manipulatin' ob bones, and de onliest partiality Ah's got is humorin' de gallopin' dominoes to pass in review."

### GOOD TEAM WORK.

"Yes," said the man in the ancient overcoat with bulging pockets, "Bill and me are in partnership, but we don't carry the same goods."

"What do you mean "

"Why, Bill goes around sellin' a stove polish that leaves a stain on the fingers ,and I go around next day to the same house with the only soap that'll take it off."

### KINGSTON CURLERS DEFEAT BELLEVILLE

Two rinks from the Belleville Curling Club went to Kingston yesterday and in the afternoon played with two rinks from the Kingston Club and were defeated. It was one of the group contests of the Ontario tankard competition and Kingston rinks proved the winners. Messrs. R. J. Wray and W. N. Belair were the Skips.

### A GOOD START.

"Thomas, my love," began the helpful wife. "I've quite made up my mind to economize this year. And I've made a good beginning, too. New Year's Eve I went right downtown and ordered everything I could think of and had them delivered that day. It's going to mean such a saving this year."

Critics of the modern girl seem to think that beauty is as beauty does not.

## CLEGHORN FINED; PLAYERS WARNE

Montreal, Jan. 16. — Presid Frank Calder of the National Hoc key League to-day announced Sprague Cleghorn of the Montre Canadiens was being fined fifty dollars as a penalty for the incident in the St. Patricks-Canadien game Toronto Saturday in which horn's stick struck "Red" Stuart. Cleghorn will not be further pended.

President Calder in a statement said:—"I have examined carefully all the facts surrounding the incident which led to the match foul penalty given to Sprague Cleghorn, of the Canadiens, in the St. Patrick's Canadien game of Saturday last.

"Referee Marsh stated that the cident looked worse than it really was and that in his opinion the minutes already served by Clegho should be sufficient penalty.

**Stuart Satisfied**

"Stuart, the player against wh the foul is alleged to have been co mitted, was in Montreal over week-end, and I had an opportun of seeing him in person. Stu states that Cleghorn was carry the pusck towards the St. Patric goal, and was passing him (Stua when he turned to go in the direct in which Cleghorn was going, received a blow from Cleghor stick, which made a small cut on forehead. He viewed the incident purely accidental, and one of th things which might happen in game.

"Taking into account these sta ments and the fact that the Ca dien team is already crippled thro injury to players, my opinion is further suspension would be unj to the player as well as an unm ited hardship on his club.

"Nevertheless, in view of the f that I have repeatedly caution players against carrying their stic high, or in any such manner as lead to injury to opposing playe and that in this instance the ev ence shows that Cleghorn's stic was carried high, I am imposing him a fine of $50."

Peterboro, Ont., Jan. 16.—Havelo hockeyists traveled to Stirling night to defeat the latter on home by 7 to 2. Stirling was held scorel in a fast game until the last per when the players mixed it up, and two bulges were made in the net beh the Havelock goalie. This is Hav lock's second win without a loss.

BELLEVILLE LOCATORS sell Fire, Accident and Automobile Insurance and your business will be appreciated.

January Bargains

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

A jolly sleighing party was held last evening when a number of young people of Holloway Street Church and friends journeyed to Trenton where an enjoyable evening was spent at the home of Mr. and Mrs. Harrison.

Mr. Albert Sarjean has returned to Cornwall and is spending the week with his wife and family.

Another objection to civilization is that it's against the law to eliminate people who won't mind their own business.

## The Life Of A Home

A healthy, happy, contented wife is the life and joy of the home and the greatest inspiration a man can ever see how many homes in America are blighted by the ill-health and sufferings of the wife and mother. It may be backache, headaches, the tortures of a displacement or some other ailment peculiar to her sex, which makes whole life a burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable Compound made from roots and herbs to restore her health and happiness, for statistics proves that it benefits 98 out of every 100 women who try it.

## REDNERSVILLE

Miss G. Tawkins, Carrying Place, spent a few days last week with Mrs. Bruce Russell.

Miss Lillian Russell returned home on Sunday after spending a few days in Thurlow.

Lenna Way spent Sunday with Charlie Dempsey.

Mr. and Mrs. Karrol Redner and Cecil Belnap called at Mrs. George Weese's Sunday afternoon.

Miss Mae Brickman spent Friday evening with her cousin Miss Delong at Belleville.

Mr. and Mrs. John Garbutt entertained company from Belleville.

## Many Thousands Of Children Being Fed In Berlin Schools

By GUS M. OEHM

(United Press Staff Correspondent)

Berlin, Germany (By mail to United Press).—"Anna couldn't come to school this morning—she was too hungry."

"Fritz was forced to stay at home today, because he had nothing to eat."

These and similar "excuses"—common in Berlin school circles—were becoming so numerous and so regular that measures were taken to eliminate them through group "breakfasts" in the school rooms.

Already 5,181 kiddies get a plate of hot soup and a hard roll before they are permitted to enter the classrooms.

The soup is all made in one central city-operated kitchen and brought to the various schools in thermos bottles. Many children were not coming to school at all because of hunger, others fainted in their seats, and teachers often went without breakfast, giving their bit to the hungry little ones under their care.

However, along in late November, a committee of Berlin women was organized to undertake the feeding of those most needy. It was determined that one hundred children could live six weeks if they were fed 200 pounds of meal or flour and forty pounds of fatty substances. This required 100 gold marks or less than $25 in American money. Within a few days after the first feeding, on November 25, fourteen schools were added to the initial experiment. To-day there are 58, and within a week ten more are to be added.

The actual work of distributing the soup is done by women living in the neighborhood who volunteer.

The soup kitchens were kept open during the Christmas holidays and each morning the youngsters appeared with their pans and cards.

Many a former truant now hurries to be first in line. Attendance has increased.

### HOW TO FEED A GROWING CHILD IN WINTER

To keep growing children well in winter, feed them properly

"Excess Acid" foods are "denatured" white flour, refined cereals, sweets and meats. These make the blood acid and lower the body vitality of the child. The blood gets rid of these food acids through the skin and lining of the nose, throat, lungs, stomach, etc. In winter the skin is sluggish and the linings of the nose throat, lungs, etc., have to do it all. These parts become irritated in the process and adenoids, tonsils, bronchitis, pneumonia, diptheria, ear disease, etc. find an easy victim in the child fed largely upon "Excess Acid" foods.

Feed your child richly alkaline foods, like Roman Meal, milk, eggs, nuts, beans, potatoes, leafy vegetables, and fruits. These keep the blood normally alkaline or non-acid. There will be no acids to irritate the nose throat, lungs, etc., in winter, and your child will feel better, be better and remain free from disease

Roman Meal is the most alkaline (opposite of acid) food known. It makes normal non-acid blood, nourishes beter than meat, prevents indigestion, positively relieves constipation and "Keeps the Family Fit"

Roman Meal is not only very nutritious and especially delicious, but it can be made into delightful baked products, as well as porridge, puddings, etc., and, with one exception, it is the lowest priced cereal sold, and by far the best.

Your child deserves the best and Roman Meal is the best food money can buy. At all grocers.

### SEVEN SENTENCE SERMON

Hypocrisy is the homage vice pays to virtue.—La Rochefoucauld.

• • •

To bear itso conquer our fate.—Thomas Campbell.

• • •

Prune thou thy words thy thoughts control
That o'er the swell and throng;
Thy will condense within thy soul,
And change to purpose strong.
— John Henry Newman.

• • •

There is no philosophy possible when fear of consequence is a stronger principle than love of truth.—Anon.

• • •

The Lord is long-suffering and of great mercy, forgiving iniquity and transgression.— Num. 14: 18.

• • •

If you have a friend worth loving,
Love him; yes, and let him know
That you love him, ere life's evening
Tinge his brow with sunset glow;
Of a friend—till he is dead?
Why should good words ne'er be said
—J. H. Brown.

## VICTORIA

Sunday School 10 o'clock. Missionary Sunday.

Mr. and Mrs. Ray Fox, also Mrs. Adeleade Lont spent Wednesday with Mr. Lewis Lont, Roblin's Mills. Mrs. Lont is going to remain for a short time.

The ladies turned out strong on Monday from the Gore. It takes the ladies to vote.

Mrs. J. F. Weese spent a few days with her daughter, Mrs. Everett Brickman.

Mr. and Mrs. Ray Fox spent Monday evening at Mr. Henry Rathburn's.

Mr. and Mrs. Amos Wannamaker and family spent Sunday at Mr. Wesley Loney's.

Mr. and Mrs. Lorne Brickman entertained on Thursday evening. Mr. and Mrs. W. H. Montgomery and family, Mr. James Grimmon, Mrs. W. H. Weese, Mr. and Mrs. M. B. Weese and Geraldine, Mr. and Mrs. Will Hubbs and family and Mr. and Mrs. Harve Adam.

Mr. and Mrs. Lorne Brickman and Audra attended the funeral of Mrs. P. I. Delong at Belleville and spent the evening with Mr. and Mrs. Frank Sparks.

Mr. and Mrs. Henry Rathburn and Mrs. Fhey, Utica, N. Y., spent Sunday at Mr. W. S. Fox's, also Mr. and Mrs. Ray Fox and family.

## Talks Little, Gains Much

Louisville, Ky., Jan. 15.—A well regulated tongue and neat clothes are the greatest assets of Mrs. Ora M. Ferguson, one of the most successful women bond sellers in the country.

When Mrs. Ferguson interviews a prospect she hands him a surprise by her briefness and conciseness.

"They expect a woman to be long winded," she explains.

Mrs. Ferguson's customers include men and women of all classes. Women seek her because, if the amount they wish to invest is a small one, they feel it is too trival to interest a man.

Her first sale was for Liberty bonds during the war. Her success then gave her the idea of doing the work for profit, and for profit it has been indeed.

But Mrs. Ferguson's life is not all business. When the day is over she hurries to her apartment, which she keeps attractive for her "regular husband" as she calls him.

### REFUSES TO GIVE RITE

Paris, Jan. 15.—Despatches from Speyer, Bavarian Palatinate say that Monsignor Sebastion bishop of that city, refused to permit the holding of a religious service over the body of Dr. Heintz, the separatist leader, who was assassinated there recently. The reason for the prelate's refusal, which it is said, was in accordance with instructions from Cardinal Faulhaber was that Dr. Heintz was a revolutionary. Imposing civil honors were paid to the deceased.

YES!
I can tell you
if your eyes
are normal

YOU MAY NOT THINK
This is an important
Thing to know, but
It is very
Important, indeed,
I offer you a
Competent optometrical
Service, combined

## 'FRISCO IS HIGHEST BIDDER FOR CONFAB

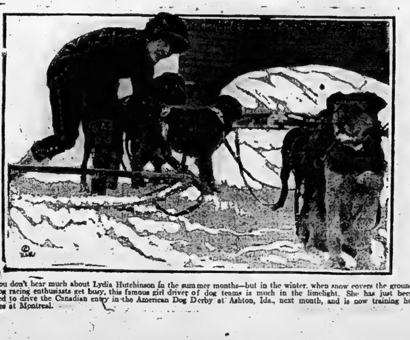
Washington, Jan. 15.—San Francisco to-day offered $300,000 cash and free use of its convention hall to the Democratic national committee as an inducement for the holding of the 1924 Democratic National convention there.

Murray Hulbert, deputy mayor of New York, and Morgan J. O'Brien, representing business men, will present New York's offer of $100,000 and expenses.

Chicago will offer $50,000 and expenses, and St. Louis $100,000, out of which expenses must be paid.

And yet the woman who won't shake hands for fear of germs will try on a hat that has been on seventeen heads.

## She'll Drive For Canada



You don't hear much about Lydia Hutchinson in the summer months—but in the winter, when snow covers the ground and dog racing enthusiasts get busy, this famous girl driver of dog teams is much in the limelight. She has just been selected to drive the Canadian entry in the American Dog Derby at Ashton, Ida., next month, and is now training her huskies at Montreal.

For the Cough That Sticks

COMMON COUGH SYRUPS WON'T HELP—YOU'VE GOT TO MAKE YOUR OWN.

Cheap and Best

For any kind of a cough, but especially for the stubborn one that persists and keeps you awake nights, this home made cough mixture will quickly loosen the phlegm, allay the inflammation and stop the cough

You can make it yourself at home in two minutes by following these instructions:

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost immediately No ordinary slow-acting cough syrup contains this expensive ingredient.

It's a mighty fine remedy for chest colds and acute nasal remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafnes.

Get Parmint and get better.

## TWINS HER HOBY, SO ADOPTS THEM

Port Huron, Mich., Jan. 10.—Twins are a blessing to any family.

Be they boys or girls, parents should rejoice in bringing them into the world.

Mixed twins, of course, are preferable, for the girl, on reaching the flapper age, isn't half so apt to indulge in 'foolish high school flirtations" as her non-twin friends.

These are observations of Mrs. J. S. Platt, who's been so interested in twins the last 20 years that she's adopted a pair.

Mrs. Platt, wife of a physician here, has studied the life histories of every pair of twins born in Port Huron and vicinity since the present century began.

She has acquainted herself with every bit of information upon the subject from the standpoint of biology as well as life experience.

Her Twin Library

If there's a famous pair of twins that have obtained public notice in America in the last score of years, Mrs. Platt almost certainly has newspaper clippings about them. Her collection seems to have omitted only the "Gold Dust" boys.

Twin girls are the most common of the species, Mrs. Platt believes. Next come twin boys, with "mixed" twins last.

Some statistics corroborate Mrs. Platt's. Others indicate mixed twins are more Common than twin brothers.

Girls sympathetic

And Mrs. Platt's researches have revealed to her that twin girls are more likely to be of the sympathetic type, most psychic bonds.

She quotes articles from medical journals reviewing instances where after years of separations, girl twins would, on comparing notes, find their experiences similar and occurring almost simultaneously. Yet all the while they probably had been miles apart.

They're haracteristics

Twins, according to this twin fan, get their pictures in the papers oftener than most folks, breaking into print even when they've done scarcely a thing to put them in the limelight.

"My observations have convinced me plural borths are family characteristics," concludes Mrs. Platt.

"In nearly every case of triplets or quadruplets on record, the parents have had sets of twins, or else their immediate relatives have had."

And fathers and mothers, Mrs. Platt thinks, ought to insure against not having twins.

## Will Command Airship On Trip to North Pole

Washington, Jan. 15.— The United States army air service board, considering the around-the-world flight, decided that the attempt would be made "on or about April 1 next" an would start from Seattle, Wash.

It is a little too early, however, to plan the expenditure of the money you will save when congress lowers taxes.

## HILLIER

Clarence Spencer and Wesley Smith have taken the contract of cutting wood for Gillum Hardy.

Our council met to-day. New men sitting around the table were Mr. William Foster and Mr. Malcolm Arthur, of Consecon.

Mr. R. McLean, of Consecon, visited at his uncles, Mr. Thomas Holmes here to-day.

Mr. Fred Clark has taken Mr. Geo. Alexander's farm to work for three years.

Mr. Ralph McDonald's sale was well on Wednesday. He has sold his farm and bought out a butcher business in Wellington.

Mr. Thompson, our cheese maker, had a car load of coal unloaded here last week. Mr. Clifford Ellis and Mr. Wannamaker did the hauling.

A few sold hogs on Friday from this place to Wellington at 8 cts per lb.

Mr. Frank Benway has taken the job of furnishing the Hillier school with hard body maple wood.

Mr. Charlie Cassidy is furnishing the kindling wood for the same school.

Mr. Alex Rattray is caretaker of the school for another year.

The dance at Mr. Simmons at the Lake shore on Friday night was a success. Some from the village were present.

Mr. and Mrs. Thomas Smith visited at Mr. Nelson Palmer's yesterday.

Mr. Geo. Hubbs, of Wellington, spent Sunday at his brother's here, Mr. Phillip Hubbs.

## That Body of Yours

By James W. Barton, M.D.

### NOT AN IMAGINARY TROUBLE

Many years ago I met a man in Baltimore who greatly aroused my sympathy.

He had clammy palms, his heart seemed to be going like a trip hammer, he seemed tired out all the time and complained of a continuous head ache. I got in touch with a couple of physicians who had treated him at various times and their only comment was—

"He only thinks he's sick. There's nothing really wrong with him."

I therefore tried to reason with him and pointed out the necessity of taking hold of himself for the sake of his family and himself.

When I returned to Baltimore some years later I enquired about him and found that he had died about a year after I had left.

"And the cause?" I asked.

Oh, he just seemed to be so tired that he died.

They have a scientific name for this now, and call it Neurasthenia.

Are the symptoms all in the man's mind?

No!

He actually has the headache which is with him all day until he goes to sleep at night. That is if he gets off to sleep, because sleeplessness is usually one of the distressing symptoms.

And the tiredness all over?

Yes he is actually tired all over, and it is not in his imagination only.

Besides this, he suffers from cold and hot feelings over different parts of his body, from indigestion, and a heart that beats over one hundred times a minute.

And his mind?

He finds it hard to concentrate on anything for any length of time.

Do these people get better?

Yes, because the cause of the trouble is very often found.

The trouble is due to actual tiredness of the nerves.

They are worn out by hard work and little sleep, hard play and little sleep, worry, grief, emotional disturbances of various kinds.

The physician to-day goes into history of the man's everyday life for months, even years back. He finds that the man has broken all the laws of health and common sense, in the care of his body.

By the simple measures of change of work and diet, and a little more of the sunlight and exercise he gets his patient into normal condition again.

Remember, over play can wear out the nerves just as easily as overwork.

### HIS WAY

"Henry VIII used a reverse way with his wives.'

"How was that?"

"He married them first and axed them afterwards."

WELL-MERITED SUCCESS

A distinguished citizen, honored politically and professionally, Dr. R. V. Pierce, whose picture appears above, made a success few have equalled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and pimples and eruptions vanish quickly. Beauty is but skin deep and good blood is beneath both. For your blood to be good, your stomach must be in condition, your liver active. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. Ask your nearest druggist for Doctor Pierce's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for trial package of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ontario.

Correct this sentence: "I am afraid she has boy on the brain," said the mother, "but she leads her class in school."

## SAVES FOR LIFETIME TO BUY TELESCOPE

Delaware, O., Jan. 15.—A real philanthropist is Prof. H. M. Perkins.

For more than half a century he skimped and saved. Every month a few dollars from this pedagogical salary—there never was a year it amounted to more than $1800—were carefully tucked away.

As they accumulated into a tidy sum, the professor began making a few investiments. All in time proved quite sound.

### Surprised 'Em

"It's nice he's laying aside a neat little nest-egg for his old age," said the folks at the bank.

But Professor Perkins fooled them. Not, however, until he had passed the ninetieth milestone in [illegible] ney.

Then his benevolence began to manifest itself. And Ohio Wesleyan University, where he had taught mathematics and astronomy for more than 50 years, benefited thereby.

### It's Big One.

A herculean 60-inch reflecting telescope is Professor Perkins' gift. It is said to be the third largest in the world. Those at Mount Wilson, Calif., and Victoria, B. C. are declared to be the only ones with greater range.

The instrument, through which Wesleyan's sons and daughters will read the stories of the stars, will be housed atop the new observatory being built upon an eminence four miles outside of town, far from traffic's dust and jar. The telescope was made by Warner & Swasey in Cleveland. The lenses are being ground in Pittsburg now. It will be six months before the glass is cool enough to set.

### No String.

"There are no strings to the gift," Professor Perkins asserts. "I want it to be used freely by the students at Wesleyan, and scientists from all over the world."

Professor Perkins forsook the classroom in 1907 to make a trip around the world. But he's been with his school in spirit ever since.

An his heart's in Wesleyan yet.

## EARACHE REMEDIES

Have you ever stopped a moment to consider that almost everything in life, customs and habits changes except the use and misuse of the old-fashioned neighborhood remedies? The cure for earache is clearly one of these. The ear plug of cotton, usually accompanied by the "droping in" of sweet oil and laudanum, in spite of all that shall ever be said or written against it will be continued. Roasted onions and hosts of similar substances will no doubt be used to the end of time.

Whatever the cause or remedy, earache requires careful treatment to afford relief. Neuralgia is rarely, if ever, the cause of earache. Careful examination by a physician can alone determine the real cause. Beware of "ear-drops" for relief. If you try a number and the last one affords relief, that's it, I mean, look out for it.

Earache is caused by scratching or irritation and infection of the auditory canal. This slight infection may produce a small boil which causes temporary pain. The scratching and infection in most cases are the result of amateur attempts to remove ear-wax. Sometimes, when this ear-wax has been tightly pressed against the drumhead of the ear, earache will result but not usually.

Again, earache may be caused by catarrhal conditions. This so-called serious catarrh is a disease of the drum-cavity. It is very common in children who are not properly cared for and sometimes is the cause of running ear and small blisters on the drumhead. Slight deafness will also result from this cause. nasal douches used improperly. Violent or improper nose blowing sometimes carries fluid where it irritates the ear.

No remedy is more useful or easy to apply in slight cases of earache than boiled water cooled down to a temperature the ear can stand, about 125 degrees Fahrenheit. The ear drops only give heat, and hot water can do it better. Protect the ear carefully from external influences. Use a night cap if you wish; it will do no harm and often does good.

Severe cases of earache are not for the layman to fuss with. Call your physician, as it may be a serious complication.

## CONVICTS' FAMILIES UNDER STATE'S CARE

Columbia, S. C., (United Press).—Greenville county legislators have announced their intention of seeking laws in the coming session of the state legislature to provide for the families of state criminals.

Pointing out that when a man is sentenced to the penitentiary, leaving a dependent family, both the state and the dependants suffer, these legislators will seek enactments similar to those in Kansas in order to prevent punishment of the innocent.

A system of compensation for relatives of convicted men to prevent them from becoming wards of the state as objects of charity will be advanced.

The legislators of Greenville point out that in many cases children of a convicted man become lawbreakers after making a grim fight for existence under their handicaps.

Another feature of the legislature session is expected to be a report of the commission headed by Former Governor Manning which has been making an extensive investigation of economic problem in an effort to secure new settlers for South Carolina's farming regions.

Glasgow, Scotland—Residents of the suburb Cathcart have been startled by the publication of an official notice imposing a levy of tenpence a pound upon the owners of freehold houses for the purpose of building a new church. The levy is authorized under a sixteenth century law, the existence of which most of the inhabitants were unaware.

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the window of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying that commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

## Labor Chief

Continued from page one.

"The Reparations Commission has set up two committees on which experts from the United States of America will co-operate with others from Great Britain, France, Italy and Belgium in examining the very serious financial questions involved in the position of Germany.

### Tangier Zone

"The future status of the Tangier zone of Morocco, which has long been an outstanding source of trouble, has been the subject of an agreement between the delegates of the powers principally concerned that provides for the creation of an international regime and for the promotion of communications and trade.

"A bill will be introduced giving effect to the Lausanne Treaty with Turkey. As soon as it is passed, the treaty will be ratified and a new era of peaceful relations with Turkey will open.

### Liquor To U. S.

"My Ministers, in common with the Dominion representatives, have been anxious to remove the difficulty with regard to illicit importation of liquor into the United States and have made proposals for an agreement which is on the eve of conclusion and which should further strengthen the happy relations prevailing between the two countries and peoples."

"It will continue to be my object to support by every means in my power the steady growth in influence of the League of Nations.

### Murders In India

"The recent series of murders on the north-west frontier of India by criminals who sought refuge in Afghan territory, or who are Afghan subjects, caused much concern. My Government made vigorous representations to His Majesty, the Amir, and earnestly trust that these persons will be punished, and that more satisfactory relations on the frontier will be established at a very early date.

### Imperial Co-operation.

"The recent Imperial conference mark very definite progress in Imperial co-operation. More particularly was it found possible without departure from the existing fiscal system in this country to meet the wishes of the dominions by a substantial extension of the principle of Imperial preference established by the conference of 1917, and in force since 1919. Proposals to give effect to the conclusions of both conferences will be submitted to you.

"I welcome the opportunity that will be afforded by the British Empire Exhibition to increase the knowledge of the varied resources of the Empire, and to stimulate inter-Imperial trade.

"While I am glad to note that the schemes for providing employment now in operation had an appreciable effect during last year in reducing the number of those actually unemployed, the number still unable to find work causes me grave concern. My Ministers recently laid before the country proposals which in their judgment would have contributed materially to the solution of this problem by affording to industry a greater measure of security in the home market and and improved outlet for its products in my dominions overseas and in foreign countries, but these proposals were not accepted by the country.

"In these circumstances your assent would be invited to an extension and amendment of the trade facilities and export credit schemes, to the proposal of the Imperial Economic Conference for expediting and assisting in the execution of certain public enterprises throughout the Empire by the grant of financial aid from the public funds and to an extension of the contributions toward the cost of public utility work, whether undertaken by local authorities or promoted by statutory and private corporations."

## WORK FINISHED, RESIGNS

Belgrade, Jan. 15.—Gen. Pechitch, the minister of war, has resigned his portfolio, considering that the object with which he took office—the passage of a bill reorganizing the army—has been accomplished. If his resignation is accepted he will resume his duties as chief of the general staff.

**Take Salts If Stomach Isn't Acting Right**

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity, meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas; we eructate sour food or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescing, and furthermore, to continue this for a week. While relief often follows the first dose it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used for many stomach disorders with excellent results.

## CANADA RELIEVES SNOW SHORTAGE

Montreal, Que., Jan. 16.—United States winter sport resorts are apparently suffering a shortage of one important factor necessary to the commrammes. They have no snow, and naturally they are looking to Canada to supply the deficiency.

Lake Placid and one or two other resorts have had reason to complain in this respect. At Briar Cliff Lodge in New York State snow was needed to enable American ski runers who are to participate in the Olympic games to get some practice before they sail, and at one time it was thought snow would have to be hauled from the vicinity of Montreal or Quebec, but nature relented and a fall of the beautiful in the Adirondacks partly solved the difficulty.

The New York Central now have a contract to haul 10,000 tons to Briar Cliff for the benefit of the ski runners and special cars and shovelers have been sent for the needful. Thendara, near Old Forge, N. Y., will be the scene of their operations, but even here the shovellers will have to work hard, the snow being only about three inches in depth.

The shipment is to be insured against loss by rain or shrinkage, and if a very notable thaw comes along they may have to come to Canada yet. Fortunately this country has plenty and to spare.

## "THE SNOWBALL"

On Thursday evening, January 10, Mr. G. L. Clute of Stirling, presented his three act drama, "The Snowball" in the Town Hall, Ivanhoe, to a full house.

The drama was one of the best ever seen in these parts and while Mr. Clute and his company of actors are amateurs, they can scarcely be termed as such, so well did they each one do their part.

Mr. Clute is to be highly congratulated upon his achievement of having one of the best shows in these parts.

The Madoc six-piece orchestra was also present, also Mr. C. I. Ross each of which drove away dull care.

The play was acted under the auspices of Premier L. O. B. A. No. 531 and had a total door receipt of $125.00

BERTHA POTTER, 22 years old, is declared to have been held captive for five years in the home of William Lent, 62 years old. Lent's home, situated in the rear of the town of Bear River, N. S., is the second building from the left. The next building is a stable, while at the end of the street is the Grant Central Hotel.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffing. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.

## LONDON PASTOR DENOUNCES CARDS

London, Ont., January 15.—Hurling a scathing denunciation at gambling and all games of chance, Rev. J. Bruce Hunter, pastor of First Methodist Church, told his congregation in the course of a sermon Sunday night that the mother who offers a silver prize at a whist or bridge party in her own home was just as much a gambler as the race track and poker fan. She was on a par, he said, with the erring son who visited a downtown gambling den and played cards for the same silver money that she had used to purchase the trophy. The pastor also took occasion to give his views on entertainment generally and in the course of his remarks he declared with emphasis that any young man who will go to the theatre to be entertained by women in scanty attire were not one whit better than cannibals. They had lost all self-respect and were being entertained at the expense of a woman's modesty, he declared.

It was Mr. Hunter's second sermon of a series that he is delivering to young people each Sunday evening. His subject was "The Choice of Amusements." At the outset he stated that he did not intend to tell his congregation that this or that was right or wrong. He merely wanted to make a few suggestions; the right and wrong of the situation was left for the individual to decide when the time came.

"At the mention of the word 'amusement' there unconsciously comes to your mind, as it does to my own mind, the question that it always being asked. 'Is it wrong to do this? Is it wrong to do that?' I sincerely hope that you are not asking me to answer these questions. You must do that yourself, just as I must do it for myself," he declared in opening. "I merely want to make a few suggestions."

Mr. Hunter stated that if a man were given a rule he would inevitably become a pharisee. On the other hand, if we were given a principle he became a Christian. Into every life there came the element of chance or choice. He who chose a definite way laid the foundation of character, but the man who relied on chance opened up the flood-gates of failure. It was a case of choice and pluck or chance and luck.

He referred to an incident in the life of Charles Parnell, the famous Irish statesman, while in a theatre with a friend. They were watching the antics of a gayly painted clown. Parnell turned to his friend and asked how it was that he happened to be a statesman while this other man was a clown behind the footlights. His friend replied that it was all due to chance.

"That theory is absolutely false," Mr. Hunter declared. "The life of Charles Parnell is in itself a positive proof that it was purely a matter of choice as the of undamental principal of character.

"Character is the sky," he continued, "but chance is the cloud." Horace Greeley had stated that only one thing endured, and that was character, and there was not the slightest doubt but that his assertion was based on good, sound common sense.

Coming to the interesting problem of amusement, Mr. Hunter declared that it would be foolish to tell a boy that it was all right for him to play croquet on the lawn while it was wrong for him to play billiards on the green pool table. Likewise a man would be unreasonable to tell anyone that it was perfectly all right to play dominoes with ivory spotted boards, while to play with those same spots on cardboard was wrong. He then outlined the many games from the ancient tiddely-winks and he admitted that many of them lacked real entertainment.

## FIRST SNOW.

First snow is fine snow
Slanting down the wind;
Not a twig will hold it,
Not a shelter mold it,
You'd think to see the way they act
That purity had sinned.

First snow is thin snow.
The meadow's barely salted:
The brook is so pre-occupied
With brittle frost lace at its side,
It has no thought beyond itself
And cannot feel exalted.

First snow is lost snow!
Each flake a pioneer.
That dances down to certain death,
His span of life a frozen breath
That spins its seconds merrily
Between the infinite .. and Here.

—New Cork Sun and Globe.

## THIEVES MAKE RICH HAUL

Toronto, Jan. 15.—Thieves stole $2,000 worth of diamonds and $15 in cash Monday after they had forced their way into the premises of Philip Galitzsky, 1222 Bloor west.

Mr. and Mrs. Galitzsky were out and the diamonds, three rings, one valued at $1,000, a three and a half karat stone, was left behind in the bedroom. Some time between four and eight o'clock the thieves smashed a back window downstairs in the store, opened the door and ransacked the place.

"The diamonds cost me $1,400 when I bought them several years ago," stated Mr. Galitzsky. "They are easily worth $2,000 to-day.

Are you too thin?
Then take

## NATIONAL RAIL STRIKE TO PARALYZE BRITAIN; DEFINITE CALL ISSUED

### Walkout of Engineers and Firemen Definitely Set for Sunday Midnight Despite Attempts at Mediation

### SIDES PREPARING

### Sympathetic Strikes Seem Imminent as Parleys Fail—Labor Politicians Fear Effect on New Cabinet

**FIRST DEFINITE MOVE BY BRITISH LABOR**

**London, Jan. 17.—The first definite move to put a Labor Government in power in Britain will come at 4 p.m. to-day. At that hour J. R. Clines, veteran Labor leader in the House of Commons, is scheduled to introduce an amendment to the motion approving the King's address at the opening of Parliament, expressing lack of confidence in the Conservative government headed by Stanley Baldwin.**

London. Jan. 17.—J. Bromley, secretary of Union of Locomotive Engineers, announced today that a national rail strike of engineers and firemen had been called for Sunday midnight.

All the usual preparatory movements of a big industrial struggle have been taken today. The railroad companies have issued a manifesto setting forth their side of the dispute, and have warned their passengers how their services are likely to be curtailed.

**Sympathetic Strikes Threaten**

Bodies of railroaders not involved in the issue have been offering to strike in sympathy, and Arthur Henderson, Secretary of the National Joint Council, which represents both the political and industrial sides of the Labor movement, has been visiting the head quarters of the Associated Society of Locomotive Engineers and Firemen to gather information.

Not a word has been said to suggest that a stoppage on Sunday can be avoided, but, for all that, the feeling is strong that something will be done to preserve peace.

(Continued on Page 7.)

## THE WEATHER

Westerly winds, fair. Friday, strong south west winds, partly cloudy and cold, with light local snowfalls.

W. C. T. U. monthly meeting Friday, Jan. 18th, in the Y.M.C.A. at 3 o'clock. Mrs. Denyes of Milton, Provincial Superintendent of Scientific Temperance, will give an address. 17-1td

## DIABOLICAL BOYS

Kingston, Jan. 17.—James White, the 13-year-old son of Mr. and Mrs. Thomas White, 58 Chatham st., was the victim of a dastardly trick last night when two boys met him on Princess st., threw a quantity of oil in his mouth and then applied a match to the oil. His mouth and face were terribly burned. One youngster held him while the other put the oil in his mouth and set fire to him. The police are making investigations into the matter.

## PLEADS FOR JAIL TO CURE CRAVING

### Woman Leaves Babe With Husband As She Goes to Cells

Montreal, Jan. 17.—Telling the presiding judge at the police court this morning that the sentence to jail of one month just passed on her was not enough to effect permanent cure for her weakness, Mrs. Leontine Racicot begged for two months and her wish was granted. In the court at the time was her husband holding a baby. The husband and father, at the pleading of the mother prisoner, carried the baby to the dock and held the child up in his arms and the mother leaned forward for a parting kiss of her offspring.

"Good-bye," she called to the husband as she left the dock for the cell. The offence for which she pleaded guilty before Judge Monet was common assault on her husband. She told Judge Monet that she was a victim to paregoric drinking and that craving was so strong lately she was able to drink a bottle at a time. She asked the judge to send her down for two months to effect a cure. Her earnest appeal and apparent desire to quit the habit convinced the judge that justice lay in acceding to her wishes.

## INSTALL OFFICERS OF OXFORD LODGE No. 17

At the installation of officers for Oxford Lodge No. 17 Sons of England on Tuesday evening, Jan. 15th, District Deputy Bro. A. Strickland, of Picton, installed the following officers.

P. P.—Bro. H. A. Pulker.
W. P.—Bro. W. J. Savage
V. P.—Bro. S. Lennon.
Chap.—Bro. A. L. Geen.
Sec. Treas.—Bro. John Fenn.
Ass. Sec.—Bro. W. E. Armitage.
1st Com.—Bro. E. J. Follwell.
3rd Com.—Bro. T. V. Dark.
4th Com.—Bro. S. Dainton.
I. G.—Bro. A. Knight.
O. G.—Bro. W. J. Bennett.

P P. Bro. H. A. Lennox acted as Grand Guide. A number of members from Lodge Trent, Trenton, and Lodge Lydford, attended the installation.

After the business of the lodge was over the members adjourned to the dining room when full justice was done to the bountiful repast spread before them. The balance of the evening was taken up with singing.

The committee in charge of refreshments were Bros. Follwell, Armitage and Bennett.

## DR. SINCLAIR TO ADDRESS BOARD

At the inaugural meting of the Board of Education Dr. S. B. Sinclair o fthe Educational Department at Toronto will be present. He will speak upon educational matters making especial reference to the formation of auxiliary classes in the school. There will be considerable business to be transacted at the meeting.

### PICK UP S. O. S. SIGNALS

Boston. Jan. 17.—Faint S.O.S. signals from a vessel off Delaware break water were picked up by the naval radio station here early today. The name of the vessel and the nature of her distress could not be ascertained.

## LIQUOR SELLING PENALTY UPHELD

Lindsay, Jan., 17.— Judge Swayze has given judgment on the appeal of Allen Richardson, colored C. N. R. Pullman porter, who appeared before Magistrate Bradford a month ago on a charge of unlawfully selling liquor on a C. N. R. Pullman. At the trial in the police court, Magistrate Bradford found the accused guilty and imposed a fine of $50 and costs or three months in jail. The accused appealed with the County Judge, asking to have the conviction quashed or in his alternative to have the penalty reduced. The judge, however, refused to disturb the Magistrate's judgment and dismissed the appeal with costs.

## Woman Advertises Husband as Maid

Berlin, Jan. 17.—With a view to solving the servant problem, Fraulein Helena Schamburg, of Weimar, who has an independent income, has resorted to newspaper advertising to find herself a good husband who can also cook and act as housemaid.

Helena promises to provide a furnished apartment and everything. She alleges that women servants eat too much and that many of them are unreliable. Her advertisement reads in part:

"Up-to-date, good-looking woman acquaintance of a strong young man who is educated in domestic science and willing to do housework as well as look after the kitchen."

### ROYALTY TO WED

Sofia, Jan. 17.—The betrothal of Princess Madjeda, youngest sister of King Boris of Bulgaria to Duke Albert Von Wortemburg, was announced yesterday.

## FEW ARE LEFT OF MEMBERS OF FIRST COUNCIL

### W. J. Diamond, Jas. St. Charles, Sen., D. Price and A. L. Geen, Aldermen

### TWENTY-NINE MAYORS

### Sixteen Survive of City's Executives Since Incorporation In 1878

The 1st day of July 1878, forty-five years ago was a memorable one in the history of Belleville for on that day it took the rank of a city, after having been a town for a period of 28 years.

From records available to the compiler of this article only two persons are living who were members of the town council.

In 1872 Mr. J. J. B. Flint who at present is in California, was selected as Mayor after having served three years as a member of the Council from Baldwin Ward and Mr. W. J. Diamond, the present secretary-treasurer of the Board of Education. He was a member of the Town Council in 1874 being one of the three representatives of Samson Ward. Later Mr. Diamond was an Alderman of the city for two years and in the year 1899 was elected Mayor occupying that position for one year.

The late Mr. Alex Robertson was the first Mayor of the city and later became the representative of West Hastings in the House of Commons. Of the twenty-one Alderman in the Council that year but four are living, namely, Mr. W. J. Diamond, Mr. Jas. St. Charles Sr., Mr. D. Price, who for many years was city treasurer and Rev. A. L. Geen.

Since the incorporation of the city there have been twenty-nine mayors, sixteen of whom are living. The number includes the present Mayor W. C. Mikel K. C.. Thirteen have passed to the great beyond.

To the late Mr. J. W. Johnson was accorded the honor of being Mayor for four years in succession, namely 1897, 98, 99 and 1900. He was also for some time the able and energetic representative from West Hastings in the Ontario Legislature.

Ex-Mayor J. E. Walmsley presided over the deliberations of the Council for three years as did also Ex Mayor C. M. Sulman and Ex-Mayor R. J. Graham.

Two year terms were accorded to Alex Robertson, R. S. Patterson, Nelson Lingham, J. W. Dunnett, Col. L. W. Marsh, W. B. Riggs, Judge J. F. Wills, H. F. Ketcheson and C. Hanna.

Those occupying but one year term were H. McMinch, W. H. Beggar K.C., Dr. B. S. Wilson, W. J. Diamond, Geo. S. Tickell, E. G. Porter K.C. M.P., C. Bogart, F. S. Wallbridge, W. W. Chown, A. McFee, H. W. Ackerman and G. A. Bennett.

Continued on page seven.

## WAR VETERANS ANNUAL MEETING PROVES SUCCESS

### Inclement Weather Fails to Prevent Large Attendance at Memorial Hall

### MAKE PRESENTATIONS

### Mayor Mikel, K.C., Outlines Plan of U.E.L. Celebration in Brief Talk

A fine spirit of comradeship was exhibited by members of the local Great War Veterans Association at their annual meeting held last night at their headquarters Memorial Hall. Despite the inclement weather there was a large attendance and much interest was manifested in the election of officers for the year which resulted as follows:

President—Comrade G. W. Dawes.

First Vice President—Comrade Geo. Irvine.

Second Vice President—Comrade A. G. Angell.

Executive Committee — Comrades Major T. D. McManus, J. Varley, Ald. D. V. Ketcheson and P. H. Wills.

At the conclusion of the business meeting a banquet was held presided over by the President and it proved to be a most enjoyable function.

**Presentations**

Previous to speech making being the order of proceedings two presentations took place.

Mr. Robert Bogle, in a few well chosen remarks of an eulogistic nature towards President Dawes, presented him with a veterans jewel. The recipient replied in an appropriate manner.

Comrade George Irvine read an address to Comrade A. E. Baldwin and his wife, accompanying which was a handsome bouquet to Mrs. Baldwin and a set of cut glass consisting of a pitcher, glasses and other articles.

The address was as follows:

To Comrade A. E. Baldwin and wife:—

"Having been delegated by my comrades to make this presentation to you this evening I do so with feeling of greatest pleasure.

"The presents to each of you represent but a very small token in comparison to the great esteem in which you are held by all the comrades of this Association. We cannot forget the loyalty you have exhibited and the indefatigable way in which you have both worked for the interest and welfare of this Association at all times.

"Therefore it affords me much pleasure in making this presentation to you both this evening."

"Both recipients returned their thanks for the gifts.

**Financial Statements**

President Dawes in presenting a financial statement stated that the Association was in good shape. During the past year the membership had increased by 41 and the year had been successful in every respect.

The city was back of the veterans at all times, declared Mayor W. C. Mikel, K.C., in a brief address. This was a fine city and all should co-operate in endeavoring to make it prosperous and thriving.

His Worship referred to the coming U. E. L. celebration and asked the veterans to assist in making it the success it was anticipated it would be. The U. E. Loyalists were the first veterans in Canada and they made great sacrifices.

**Appropriate Addresses**

Appropriates addresses were given by Ex-Mayor C. Hanna and Rev. A. L. Geen, the latter being made an honorary member of the Association and was decorated with a veterans pin.

Major T. D. McManus was, with President Dawes, toastmaster of the event and filled that postion in an admirable manner.

Community singing was heartily concurred in. Mr. R. Wotten presided at the piano in a most capable manner.

## Aerial Disaster Averted By Return of Runaway

Lakehurst, N. J., Jan. 17.—Another terrible disaster of the air was averted to day when the Giant United States Naval Ditigible Shenandoah, with 22 officers and men abroad, torn from her mooring mast and swept into the night by a seventy mile gale, beat her way back against the storm and was nozed into the hangar at 3.53 a.m.

For more than an hour officials at the naval air station held out little hope that she ever would be brought back safely. Finally, however, wireless messages indicated that the ship was under control and would ride out the storm.

Every man and officer at the station was ordered to stand by ready to help with the landing should the ship return, while acres of land about the station were illuminated with huge searchlights.

**Injured in Breaking Loose**

That the great helium-inflated ship was damaged in breaking loose from the towering mast to which it had been moored in the open between test flights in preparation for its Polar expedition was admitted by naval air station officers here, but the extent of its damage could not be learned.

A heavy detonation, as of the release of helium gas from one of the chambers into which the big craft's shell is divided, brought officers and men from their quarters for a half-mile around, and many were able to distinguish the big ship being borne away on the gale.

A full emergency crew of 20 men was aboard the Shenandoah, in charge of Captain Anton Heinen, consulting engineer, and one of the world's greatest authorities on lighter-than-air craft, and Commander M. R. Pearce. The opinion was expressed by officers and men of the station that the Shenandosh would be able to ride out the gale and would return to Lakehurst when the weather calmed. From the manner in which the airship rode off on the wind it was thought it had not been seriously damaged.

## Rather Face Murder Than Fraud Charge

Montreal, Jan. 17.—Finger print and photograph methods of identification, in addition to detailed descriptions received, have proved to the satisfaction of the local police that John Barkan, arrested here on charges of passing worthless cheques in Montreal and Toronto, is not also James Patterson, alias Parks, who is wanted by the police of Detroit for the murder of James Brennan at Grosse Ile, near Detroit, on December 14. Barkin had stated he was the man wanted, and pleaded not guilty before Extradition Commissioner Choquet. He waived extradition proceedings, and was to have been sent to Detroit.

Local police believe Barkin wished to escape trial for passing worthless cheques by having the local charges withdrawn that he might be tried for the capital offence in the U.S.

## CREDIT BUREAU FOR BELLEVILLE DECIDED UPON

### New Move Made For Protection of Merchants Against Bad Debts

### HALF HOLIDAYS

### Merchants Association Decide on Afternoon Closing During Summer

A bureau of credit for the protection of merchants against contracting bad debts will be established in this city. This was decided upon last evening at a meeting of the retail merchants of this city, held for the purpose of forming a local branch of the retail Merchants Association. Such an Association was formed and officers appointed. It will no doubt prove to be a live organization.

The half holiday proposition was discussed at some length and it was decided that Wednesday afternoons during the months of June, July, August and September would be observed as half holidays excepting those weeks where a statutory holiday occurs. It was also decided that the stores in the city would remain open on the morning of June 3rd, the King's birthday, and close in the afternoon.

Committees were appointed to canvas for members, also to work out the bureau credit scheme.

Officers selected were as follows:
President,—C. Hanna.
Vice-President,—H. E. Fairfield.
Secretary Treasurer—F. B. Smith.

## GRANTS BRING ARMY TO CANADIAN SOIL

New York, Jan. 17.—Major-General S. C. Mewburn was interviewed here on board the "Empress of Scotland" just before the ship started on a 68 day cruise of the Mediterranean. He said that because Canada had granted lands to war veterans, she now had 30,000 of them serving in the army of the soil. General Mewburn was accompanied by Mrs. Mewburn. Among many prominent people on the cruise are W. C Nichol, Lieut-Governor of British Columbia and Mrs. Nichol.

## FORMER BELLEVILLE MAN STROKE VICTIM

Riverhead N. Y., Jan. 17.—In the death of William L. Hogg, who passed a way at his home on Griffing avenue Wednesday afternoon Jan. 9, Riverhead lost one of its best known business men, a fine type of citizen and a man held in the highest esteem. Mr. Hogg, who was about 61 years of age, was born in Belleville, Canada, was stricken with paralysis last fall, but he apparently was making a good recovery. Last Monday he was again stricken and he was in a comatose condition until he died.

Mr. Hogg came to Riverhead about 45 years ago as a cutter for the well known old clothing firm of J. R. & J. H. Perkins and in 1903, after the death of J. Henry Perkins, he became a member of the firm of Perkins & Co. The other two partners being George H. Perkins and James O. Hagen.

Mr. Hogg was a man of even temperament, extremely courteous, and always had a good word for everybody. His death is sincerely mourned by all who had the pleasure of his acquaintance. He is survived by his wife and a son, Harry Hogg of Detroit, Mich., and three sisters, Mrs. M. F. Hawley of Rensselaer Falls, N. Y., Mrs. A. G. Hall of Toronto, Canada, and Mrs. W. H. Irwin of Naramata, British Columbia.

Funeral services will be held at the Hogg residence this Friday afternoon at 2 o'clock, the Rev. Willis B. Holcombe, pastor of Grace Episcopal church, officiating, and the burial will be in the Riverhead cemetery.

Roanoke Lodge, I. O. O. F., of which Mr. Hogg was a member, will attend in a body.

## $20,000 IN FURS TAKEN FROM WOODLEY'S IN RAID BY NIGHT MAURAUDERS

### Belleville Placed on Crest of Crime Wave by Daring Robbery at Midnight Hour—Indications Show Clean-up Was Thoroughly Planned by Organized Gang—Work Believed That of Experts

### SHELVES AND RACKS CLEANED OUT; DOORS "JIMMIED" AND WINDOWS SMASHED

### Several Fur Stoles Found on Ground at Rear of Store, Evidently Dropped by Thieves in Their Hurry, Indicates Motor Truck Used to Carry Away Heavy Haul Without Detection—"Mystery" Man Hunted.

After a quiet week in police circles here, burglars last night placed this city on the crest of the crime wave, when they robbed Woodley's Fur Store at 273 Front Street of their stock of furs amounting to some $20,000.

Early this morning city police officers took charge of the investigation which is being pursued throughout the day, there being excellent clues to work with. Sergeant of Police D. Boyd and Detective J. Truaisch spent the morning in the Woodley store where they acquainted themselves with the facts in the case from every angle, took an inventory of the stolen goods and a description of a man who is now being sought.

First notified of the burglary at 1 a.m. to-day, Messrs. George T. Woodley, 15 Holloway street, and his two sons, Russel and Harold, proprietors of the store, rushed down to the store and found the best of their fine stock of furs and coats missing, their store, store room, and repair shop ransacked, and only the inexpensixe fur articles and coats left. Mr. G. Woodley was unable to definitely state what the total value of the loss would be but stated that in round figures it would be near the $20,000 mark.

**"JIMMIED" BACK DOORS**

The burglars entered the store by the back doors which lead into the repair shop at the rear, when they "jimmied" the double doors open with tools which they had taken from a motor truck, owned by the Stafford Hardware Company, which is stored in an open shed at the rear of the store, about twenty feet from the scene of operations.

The frame of the door is dented in two places, where the tools were inserted, and two large panes of glass, one in each section of the double doors, are shattered. Once through those doors the gang were confronted by two wooden, inner double doors which stood quite close to the outer doors. A stout scantling held in position by steel clamps held the inner doors closed and locked, and a long heavy crow bar, resting against a cleat on the floor, and under a stout screw in the door frame against which it leaned, held the doors in what was believed to be a very secure position. How the heavy bar was moved baffled the officers and proprietors to-day, for when placed in position this morning, it was impossible to move the doors. Once inside the thieves had plan sailing, there being but two unlocked doors between them and the store proper, where the rich expensive furs hung in racks along the north and south walls. One door leads from the repair room to the store room, and the second from the store room to the store proper.

**BREAK INTO McKEOWN'S**

That the culprits made a mistake in the door leading to the fur store was clearly indicated to-day, when it was discovered that the rear door of McKeown's Drug Store had also been forced. A large transom over the back door leading to the drug store, was broken out, and the door forced, the mistake of opening the wrong door having been evidently discovered. Nothing was disturbed in the drug store.

**LIKELY USED CAR**

Proprietors of the stolen goods to-day stated that it would be impossible for six men to carry away $20,000 worth of furs, and expressed their belief that a motor car or truck was used by the thieves who are believed to be members of a powerful and crafty, out-of-town ring, who have victimized many stores in Toronto and Montreal during last autumn. There is no alley leading out to Front street from the rear of the Woodley store, but there is a winding alley or laneway leading southwards and then eastwards to Pinnacle street, just north of the Salvation Army Hall.

It is almost certain that this is the laneway into which the gang drove their car, and quietly escaped to Pinnacle street without arousing suspicion. Several fur stoles were found on the ground at the rear of the store this morning by the proprietors, evidently dropped by the thieves in their hurry, and a fur cap was found on Bridge street.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### THOUGHT TALKS

Hon. Mr. Tolmie, M.P., and national Conservative organizer, in addressing the Conservative Business Men's Association in Toronto, set an example in regarding his audience as men of intelligence. He treated them to an instructive, thought-creating, simple, practical talk on Western farming and business conditions. He showed how Canada was losing millions to foreign exporters of farm and other products to the British market; how we had the trade and lost it, the reasons and the remedies.

Even when he dealt with the policies and progress of the Conservative party throughout Canada, he appealed to the good sense, not to past traditions of his party or to the petty shortcomings of the other side.

The ex-minister of agriculture might have gone further but it was a refreshing beginning. He left with a greatly enhanced reputation. Let us have more talks of this sort from our public men. Canadians are not wasting much thought in these strenuous times on academic discussions. Autonomy and Canada's right to sign treaties are interesting to a few but not to the agriculturists, business men or workers across the Dominion.

### PENSION AWARDS

The latest official report of the British Ministry of Pensions shows that since the armistice (but excluding the present fiscal year) £460,000,000 has been expended by the Ministry, all but about 5 per cent. of which went direct to beneficiaries or pensions and relief services. The highest expenditure of the Ministry in a single year was £106,645,516 in the year April 1, 1920—March 31, 1921.

The highest number receiving benefits in a single year was 3,500,000. Since the armistice more than 1,000,000 service men have been granted pension allowance or gratuity. The Ministry's work has included 5,000,000 medical examinations for the assessment of pension and provision was also made for 1,500,000 courses of medical treatment in institutions and otherwise. In the last fiscal year 5,590,000 Life Insurance certificates have been dealt with. New awards of pension numbered 18,876 compared to 39,937 in the preceding year and 680,923 in 1920. During the year disabled men were supplied with 7,589 artificial legs, 1,230 artificial arms, 17,758 pairs of surgical boots, 6,217 artificial eyes and 13,520 other surgical appliances. Since the establishment of the Ministry 3,912 bicycles, invalid chairs, hand-propelled tricycles, etc., have been furnished to men unable to go about without such conveyances.

### FACTS FIRST

Most of the religious difficulties of our day would disappear if everybody were to substitute careful, reverent study of the Scriptures for idle speculation. A newspaper reporter would be fired in a day who went about securing or writing an ordinary news story after the fashion that goes unrebuked in the approach to the all-important subject of religion. Facts first, and fearlessly, is the primary rule of journalism, as of all true scholarship. Before debating religion, why not read the documents carefully?

### EDITORIAL NOTES

There never was a time in Canada when governments of all kinds were held so closely to account for every detail of their financial administration, says the Manitoba Free Press.

• • •

It is a sure thing that this country cannot profitably continue to show a higher rate of taxation than the United States, declares the Ottawa Journal, which adds that "it is undoubtably up to our various governments if they wish to do well by this country to show a determination in the direction of reduction of taxation."

• • •

The public was recently electrified by the reports that young Lieut. Wood had made between $700,000 and $800,000 speculating in the New York market from Manila during little more than a year. Wall Street's unanimous comment was that "it couldn't be done"—and let it go at that.

• • •

A silver medal has been presented to Secretary Mellon by the Pennsylvania Society in New York City as the citizen who has during the year done the most for the nation. This is inditative of how the proposals to reduce taxation are regarded by the pepole in the United States. Citizens of Canada are not much on presenting medals, but they will rise up and bless the public man who will carry through a policy of tax reduction in this country.

• • •

Hon. J. A. Maharg, Saskatchewan's agrarian chief, recently came out with the statement, with which the Swift Current Herald agrees, that, despite the desire of all political parties to "please" the West by including the H.B.R. in their platforms, there should be a thorough investigation on the part of the three prairie provinces, acting conjointly, before any further outlays of the public money be expended upon the Hudson Bay route.

• • •

Investigations made by the U.S. National Bureau of Economic Research show that rent, or its equivalent, forms the largest item of living expense in the expenditures of persons with incomes $50,000 or more. Money spent for food amounts to 6.1 per cent. of such incomes, against 27.2 per cent. paid for food by persons with incomes of $5,000. The man with a $50,000 income also spends a smaller percentage of his income for clothing.

### MUST BE "SHOWN"

"Movie" audiences in China do not pay for admission until they have seen the start of the film and decided whether it is to their liking.

### THE LOVERS

(By John Gould Fletcher in The Lyric.)

Years passed like chinking organs in the street,
Grinding for coppers their eternal dance;
It seemed to him and her there was no chance
That they might ever meet:

A few words long ago had to say,
A look—a flower pressed into a hand—
And then, along the horison of the land
The light poured out and fiercely died the day.

Now, in the night, they sat, each one apart,
While the years, trundling their organs, ground together
A dreary riotous dance, that in grey weather
Wakened the same old ache within each heart.

Under the touch of time, thin wrinkles fell
And tightened round their eyes. Now they were old.
Dark, bitter ashes in a cup of gold
Was all the past. The present was slow hell.

Yet, ere they died, they were once more united
As two stars rushing to destroy each other;
The thickening crust of years no more could smother
Their hearts—the horison rose and was uplighted—

Grief faded out before their final bliss
That rose to birth out of the lonely places.
They had passed over an immense abyss
And the pale light of the dawn smote on their faces.

## PRESS OPINIONS

### SENSIBLE NORWAY

(Baltimore Sun)

Norway's anticipated abandonment of prohibition is not to be taken as an indication that the whole nation is planning to become drunk. The evils of intemperance are understood, and altho extreme prohibitionists of those parts may feel that the cause of righteousness is about to receive a mortal wound it is reasonable to suppose that those who are capable of looking facts in the face will take comfort from the knowledge that the corrupting influence of illegal liquor will no longer be felt as it has been under the prohibition regime.

### DISEASED MINDS

(Montreal Star)

While the Protestant churches can do much by exhortation and pulpit denunciation, it is regrettable that they have not the power to enforce their views in such matters as those dealt with by Cardinal Begin.

The sooner there is an authoritative condemnation of all sorts of such indecencies as are now anathematized the better for the health and morals of the people. The sooner there is a reversion to reasonable forms of amusement the better will it be for the well-being of the commonwealth.

The mind is subject to disease. The mind diseased is, to a large extent, neglected and generally speaking is ministered to by underpaid advisors, while the body diseased has myriads of well-paid physicians.

### EDUCATIONAL FILTH

(Dubuque Tribune)

The current number of an Eastern university magazine has been barred from sale by the police, declares a recent news dispatch. It is said that objection was expressed against an article which authorities described as "obscene and unfit for public reading."

When the youthful "journalists" of some of the nation's large educational institutions go so far that officials have to step in and bar their product from the sales counter, it seems that there is something radically wrong with both faculty and students of such schools.

Evidently objectionable articles of this type come from the pens of students who have had little or no religious or ethical training, but this does not explain why these one-track-mind young "intellectuals" are allowed to go to such lengths in the matter of presenting objectionable reading matter for public perusal; or why the police instead of university authorities became interested in curtailing such activities.

### UNWISE HASTE

(London Express)

No one disputes the debt of the United States. It was legitimately incurred, and Great Britain should be the last to repudiate it. But the settlement which Mr. Baldwin made at Washington last year when he was chancellor of the exchequer was one of the gravest errors that have been committed in the name of this country for many years.

It has bound us hand and foot, and will certainly have consequences most settlement should never have been made without a general European agreement.

### UNFORTUNATELY

Washington Post

The fruits of victory that the Allies won are apples of discord.

## GIVEN 2 YEARS IN REFORMATORY

Pleading guilty to charges of theft and housebreaking, Gordon Williams 17, of 2188 Danforth Avenue, Toronto, has been sentenced to two years less one day at the Reformatory of Ontario at Guelph. William Finton, 17, who lived on Young Street, Brighton, was given suspended sentence of 12 months, and Albert Palmer Ontario Street, Brighton was sent to the Childrens' Shelter at Port Hope. The two Brighton boys who were members of the trio led by Williams, pleaded guilty to the same charges, and all were sentenced at a session of police court at Cobourg yesterday by Magistrate Col. Floyd. W. F. Kerr K.C., conducted the prosecution.

Williams the leader though but a youth has seven previous convictions including theft of horses, automobiles and tampering with railway switches. The trio were arrested after clever investigation by Provincial Constable Cousens stationed at Cobourg and were charged with entering Grant Quick's summer hotel at Pres' Quelle recently.

Williams was arrested in Toronto after having been traced there, and valuable quantities of stolen goods, mostly tobacco, have been recovered. Officer Couseus, of Cobourg, is in the city today at headquarters.

### Take Lightning Photos

London, Jan. 17.—Photographs at the rate of 300,000 a minute—thirty-one times as fast as those reeled off by the slow motion picture camera—are being made at Shoeburyness under British Government auspices. The camera used in these lightning snapshots weighs two tons and is being used by ordnance experts to examine the behaviour of shells and armor plate. It has shown clearly what happens to a golf ball when struck by a club head. The ball is pressed flat on one side during the 1-120th part of a second that the driver is in contact with its hard surface.

### MEDICAL TRIUMPH

Paris Jan. 17.—Dr. Manuelin of Pasteur Institute has succeeded in isolating the rabies germ after years of experimenting.

MR. WALTER PRATT, General Manager Sleeping, Dining and Parlor Cars and Railway Restaurants, Canadian National Railways, whose duties have been extended to include hotels, following the resignation of Mr. D. B. Mulligan, formerly General Manager, Canadian National Railways Hotels.

### BREAKING IT GENTLY

John Meyers—"Ma, you remember that you promised me a dollar if I passed in school this term."

"Yes John."

"Well, I just thought I'd tell you that that's one expense you won't have to figure on this month."

### DEFIES TWO GUNMEN

Hamilton, Ont., Jan. 17.—Although covered with the revolvers of two motor bandits, Chung Hing, restauranteur, 207 James street north, locked the register and threw the key over partition when ordered to open the till. One of the bandits hit him over the head before they beat a retreat.

## Music & Drama

### GLADYS BROCKWELL A HIT AS NANCY SIKES

In 1915, Gladys Brockwell was one of the stellar queens of the stage. She played heroic roles of near-juvenile character and earning the proper reward for her gifts of acting and her zeal in her profession, she retired from professional life. Among her several directors in those days was Frank Lloyd, who, when he was secured for the directorial role of "Oliver Twist," starring Jackie Coogan, was puzzled as to who could properly play Nancy.

Those that witness the First National presentation of Jackie Coogan in the Charles Dickens masterpiece coming to the Griffin Theatre Friday and Saturday will learn that Gladys Brockwell was induced to forsake her domesticity and return to the screen; and she makes her return in one of the finest characterizations ever given to the silver sheet. Here is said to be nothing less than a superb impersonation. From the sordidness of her early scenes as Nancy to the moment when she makes her supreme sacrifice she carries the beholder captive. Her grace and beauty still remain with her, but there has been added a deeper, finer spirit that was not apparent in her younger days as one of the screen's most radiant stars.

### U. S. ELEVENTH TROOP IN GIBSON PICTURE

Hoot Gibson is the first film star who can boast a technical staff of army officers. During the filming of 'Blinky,' his comedy of army life filmed with cavalrymen at Camp Hearn, on the Mexican morder, Captain J. Conander and his staff acted as technical advisers. The entire personnel of Troop G. Eleventh Cavalry, aided in filming and appeared with the Universal cast, which included Esther Ralston, DeWitt Jennings, Elinor Field and others. "Blinky," adapted from the famous story by Gene Markey, now at the Regent Theatre—matinee daily.

## Greek Royalty Evacuates

First photo to reach this country showing departure of Queen Elisabeth and ing George of Greece, following their banishment by officers of the Army and Navy. Arrows point to the king and queen.

## AGREE TO FARMS

Harvesters Will Be Despatched in Three Classes

Toronto, Jan. 17.—At a conference Tuesday afternoon, with Mr. Hudson of the Government Employment Bureau, it was decided that the stranded British harvesters will accept the offer of the Government to place them in farms, single men, without trades single men with trades, and lastly, and dependents to go first; then married men.

"Until the men can be placed they are dependent upon the sympathy of the public," said Rev. D. N. Morden who, with Albert Chamberlain, has been active in their behalf. "They are taking no money or work away from any of the city's own unemployed, for they have made no demands on the fund for public charity raised by the Federation for Community Service. They are absolutely dependent upon the Christian charity of the citizens."

### HIGHWAY PROBLEM

Ottawa, Jan. 17.—In an effort to induce the minister of highways, Hon. G. S. Henry, to keep in mind the necessity of finishing this spring the Ottawa-Prescott highway from Ottawa to Kempville, Mayor Watters and Controller N. Champagne will go to Toronto as the city representatives on a big delegation which will interview the minister at the end of this month on the question.

## Prince Had No Need Of Canadian Guard

Montreal, Jan. 16—Among the many expressions of condolence to Mrs. Chamberlain was one from the Prince of Wales which read to Mrs. Chamberlain, care Press, of the C.P.R. Montreal:

"Please accept my deep sympathy in your great loss. 'Signed' Edward "P". The Prince of Wales was well known to the late Chief of the Investigation Department, Mr. Chamberlain having accompanied the Royal train throughout Canada. When in the west this year with the Prince he was asked by an acquaintance if he were out to guard the Prince and his reply was characteristic of his methods. 'Guard him', he said, "why no, that lad needs no guarding in this country. I just came along to see that everything ran smoothly."

### CERTAINTY.

North—Is it possible to meet everybody you know at one time,

South—Sure. Wear your oldest clothes, have a two-day beard and get into a dispute with a taxi driver; you'll meet them all.

### HUMAN NATURE AGAIN.

The first two or three pages of the new dairy are always the easiest to fill.

## Beats The Stenographers

This is a working model of the "logotype," a new machine which will write a whole word at a time and which can take dictation faster than any one can talk. It is the invention of Edna G. Roseson of Atlanta, Ga,

## OBITUARY

### ALBERTA TURNER

From the family residence, North Park street, College Hill, the funeral of the late Alberta Turner took place on Wednesday afternoon. Rev. L. M. Sharpe conducted an impressive service referring feelingly to the passing of a bright young girl. The floral tributes were many and beautiful in effect. At Belleville cemetery, interment took place. Bearers were A. MacIntosh, P. Mossman, W. Laughlin, and L. Pringle.

Floral tributes were as follows:

Spray—Mr. Harry Elvins, Mr. and Mrs. Harold Cummings, Mr. and Mrs. Fitzgerald, Mr. T. Darrah and Mr. W. Child of Toronto, W. Hogan and family, Mr. and Mrs. Varley, Mr. and Mrs. Tyrell, Miss Margaret Mason, Mrs. Andrew Grey, Mrs. Binney J and R. Doyle, Mr. and Mrs. Creeper, Mr. and Mrs. Wm. McDonald, University S. School, Mr. and Mrs. Scantlebury, Leo. Hamilton, L. Johns and family, W. Bamford and family Mrs. Armstrong.

Gates-a-jar.—Family.

Wreath—School mates., Poultry Association.

### WM. BEERE

Mr. William Beere, a well known resident of the city passed away this morning at his late home, 143 North Front Street. Deceased was in his 78th year and was born in England. For 55 years he had been residing in Canada. For some time deceased was a resident of Thurlow, but for the past seven years had lived in Belleville. He was a member of the Baptist Church. A son, George, of this city, and two daughters, Mrs. R. P. White, and Mrs. Wm. Fayer both of this city. One sister, Mrs. H. Langabeer, Sr., of this city is living.

## EVERGLADES MAN-HUNT!

During an all-day gun-fight in the Everglades of Florida, Deputy Sheriff Fred Baker, leader of a posse, and John Ashley, leader of a bandit gang, were killed. Several others were wounded, and some members of the alleged gang captured. The Everglades bandits have terrorized for years. Photo shows Sheriff Bob Baker, brother of the dead deputy, pointing to men of his posse the direction they should take.

Elmo Lincoln who appears in Mae Murray's new Metro picture, "Fashion Row," thinks that no one should worry about the supply of coal any more.

Recently he read in a newspaper that a large slate quarry of unlimited resources had been discoverd in Southern California. That solves it, he says.

### HE SELLS LIGHT HOUSES.

It usually pays to avoid meeting the hailfellow well meet.

### TIPPED CORRESPONDINGLY WELL?

Now be careful of that bag," cautioned the man who was going on a trip. "It contains—er—valuables." "I understands, boss," said the redcap. "I ain't dropped a bag since prohibition came in."

### $5 MORE FOR TALKING BACK

"You are fined $10 for contempt of court."

"I'm glad, Judge, that this is not a higher court."

# HIGH LIFE DOESN'T AGREE WITH DOG OR BIRD ANY MORE THAN IT DOES WITH REST OF US

**A dog and a pigeon disobey the laws of Nature and they pay for their mistakes, even as humans pay. Jiggs, the dog, couldn't stand prosperity. He ate what and as much as he pleased and now he repents of his folly. Carrier pigeon No. 6947-19-AA-20 flew far and wide from its humble coop to live in a large New York Hotel. Neither was satisfied with his old life, and now both are less satisfied with the new. In all of which there is a moral for us all, a preachment on contentment, if you will.**

BY BOB DORMAN
NEA Service Staff Writer

NEW YORK, Jan. 16.—New York hotel life is ruining the digestion of a carrier pigeon.

But what's the poor pigeon going to do if it strives to soar into the high life?

You see, it all happened this way: Carrier Pigeon, 6947-19-AA-20, full name and address unknown, dropped into the Hotel Pennsylvania the other evening. It didn't bother going into the lobby. It just flew in through an open window in Room 1497.

There is no telling how far it had flown, or why it had lost its direction—if it had. Perhaps he was just headed for the place.

At any rate the room was vacant and the bird decided to stay a while. There were two comfortable beds, a nice bath and all other conveniences that made the old pigeon coup a disagreeable memory.

The room clerk many floors below didn't know of the new tenancy. So when Mr. and Mrs. James Powers, all the way from Los Angeles, wanted a good room he assigned them to 1497.

The carrier pigeon meanwhile had perched on one of the twin beds and had gone to sleep. It refused to be disturbed by the newcomers. A heated discussion ensued, but the bird kept its temper. It said nothing, but merely blinked.

Room clerk, manager, bell hop and Powers didn't know what to do. After a long conference they decided to oust the pigeon for failing to register properly.

It was transferred to a place in the kennels. Sullenly it accepted the change.

In an effort to square itself with its disappointed guest, the management sent up a regular hotel meal. Corn was the entree. The pigeon just turned up its beak at it.

Wheat came next. Nothing doing. The maitre d'hotel was frantic. Nobody had ever spurned his offerings that way before. Nothing that was offered seemed to suit its fancy. Finally a bell hop, something of a pigeon fancier in his spare moments, remarked: "Aw feed him barley."

Barley it was, and barley the pigeon had.

But he is getting so much of it that serious disorders are reported.

However, it is expected that the unexpected guest will remain at the hotel until his owner calls for him.

BY STEVE HANNAGAN
NEA Service Staff Writer

BROOKLYN, N. Y., Jan. 16.—Automobiles and a year of easy living have made a dog's life miserable.

"Jiggs," seven-year-old Dalmatian fire fighters' mascot, is now in a dog hospital undergoing treatments for gout. Automobiles and rich food are the cause of it all.

As the masseur kneads the rolls of flesh off Jiggs' distinctively marked body, in a valiant attempt to return the sylph-like lines of yesteryear, the educated dog whines "Never again!"

• • •

Seven years ago, a pup, Jiggs was given to the smoke-eaters of Engine Company No. 205. Those were the days when prancing steeds lived in stalls instead of beneath a motor hood.

Jiggs was the constant companion of the horses. Whenever an alarm sounded, he barked a pathway for the charging fire horses as they speedily answered "hurry-up" calls.

He was in perfect physical condition. His diet was consistent. With his second, third and fourth winds in daily working order he could outrun the horses any day— and climb ladders for recreation, while the horses steamed and puffed after a long dash.

• • •

Then came the automobile. A press button to start the motor replaced the rigging that held the horses' harness ready for their hurried getaway. A gasoline tank was built when the stalls were torn out.

That was only a year ago—for No. 205 was the last company in Brooklyn to lose its horses.

Jiggs became slovenly in his habits. He couldn't keep pace with the new speed truck—and he soon gave up trying.

• • •

In his lonesomeness he deigned to associate with black cats, also quartered in the fire station. They showed him the way to the kitchen entrances of restaurants in the neighborhood.

Jiggs, the stalwart, sleek, athletic dog, soon began to bulge with laziness and rich food. In a single year his weight increased from 70 pounds to 115. He also developed a gouty right forepaw. He couldn't even hobble.

Remembering the days when Jiggs chased the kiddies from harm's way when there was a fire, and of the many times he guarded the station when no one was there and the errands he had run, "Smokey" McEwen and others of the engine company sent him to the hospital.

There he is being treated—and weaned from the companionship of the two black cats who led him astray.

In three weeks Jiggs has lost 30 pounds. The treatment is effective. After another week of torture for Jiggs, he will be welcomed back to his home, a sadder but wiser dog.

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been acting well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels get sore, water scalds and you are obliged to seek relief two or three times a night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia and has been used for years to help clean and stimulate sluggish kidneys also to neutralize acid in the system so they no longer irritate thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

### QUITE SO, QUITE SO.

Revenge may be sweet at first, but it gradually acquires a flavor that is anything but agreeable.

## That Body of Yours

By James W. Barton, M.D.

### THE COMMON COLD

If you were to ask your family doctor what was the most common ailment in the human family he would tell you that it was constipation.

And the next?

Well what people call "colds" would likely be the next most common ailment.

Your doctor would tell you another thing and that is that the ordinary common cold, is the first cause of many serious ailments of the chest, kidneys and other organs of the body.

Of course some colds are simply due to dust. For instance if you handle a number of books that have been put away for some time, the dust will irritate your nose and throat and you'll have a typical head cold.

However most colds are due to something lowering your resisting powers. The whole tone of your body becomes lowered. Sudden changes in temperature, wet weather, overeating, undereating, overwork, insufficient sleep, are factors.

Your common sense tells you that you can't be careless, can't "take a chance" and not expect to have to pay for it.

Many a draft has been blamed for causing a cold, because in a crowded room some one has opened a window.

If the people in that room have been sitting with their outer wraps on, or have allowed the temperature of the room to go away up, their bodies will be bathed in perspiration. The cold air striking that hot body may check the perspiration and start a little trouble.

Someone has well said "I's the indoor man that catches the cold, not the outdoor man, that is out in the cold all the time."

What's the point?

That bad air, air that has been used by too many people, air with the dust and organic particles from other people, breathed by someone who is not at par physically, is really the actual cause of the common cold. You know, as I've said before, most of the troubles you suffer from are always in you. They are in your intestine, your breath, your nose, or mouth, even in your lungs and liver. They do no harm as long as your blood is rich and pure.

If it falls below normal, due to above causes, then these harmful substances get busy and put you down.

### READY TO HELP

Mayor W. C. Mikel, K.C., wrote E. L. Ruddy Co., Ltd., for the use of their bill-boards throughout Canada free, to help the celebration, and in response he has received the following letter:—

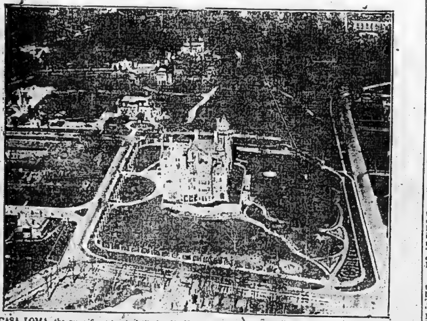
"You can rest assured that the E. L. Ruddy Company will do anything in their power to promote the success of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists. Belleville is to be congratulated on having been selected as the location for this celebration.

"You can either get in touch with our Belleville Manager, Mr. F. Mapes, 183 Church street, or you can write us telling us what your needs are, and we will do our best to help make the celebration a success."

"E. L. RUDDY Co., Ltd."

The bill-boards in Canada will soon be covered with posters calling the people to follow the crowds to Belleville.

## A Castle From The Air



CASA LOMA, the magnificent castle built by Sir Henry Pellatt at Toronto loses its tremendous bulk when viewed from the air. This big pile represents the dream of a country estate, commenced beyond the city limits, but well within the bounds of greater Toronto by the time it was finished.

New treatment tested in hundreds of Ontario homes for Spasmodic Croup and Children's Colds

Vicks Wins Most Enthusiastic Praise

Ontario Mothers Likes Vicks VapoRub

A CASE IN BELLEVILLE

Mrs. J. A. Rickett of 60 Everett St., Belleville, Ont., writes us: "I have found Vicks' VapoRub all and more than it is advertised to be. I have used it for bronchitis and colds in the chest on myself and daughter. Also for tonsilitis on the little girl I have here in my care, and it worked wonderfully."

REPORT FROM PICTON

Mrs. Sarah Hughes of R. R. No. 4 Picton, Ont., says: "I have used Vicks for colds in the head and chest and do not know anything to equal it."

WOLFE ISLAND SENDS FOLLOWING

Miss Lillian Marie Kenney of Wolfe Island, Ont., writes us: "I have never used anything better than Vicks' VapoRub for colds in head and chest. At one time we were all sick with influenza and we found Vicks most helpful. I would recommend it to everyone."

Never let a Cold get a start

Skeptical at first about external treatment for cold troubles, Ontario people have been completely won over by the remarkably quick action of Vicks' VapoRub.

For Vicks medication takes effect immediately it is applied, in two distinct ways. First, it is absorbed through and stimulates the skin like a liniment, poultice or plaster. Second, its ingredients are released by the body heat as vapors and are inhaled with each breath directly into the nose, throat and lungs. It is an obstinate cold that can resist this direct double action.

Vicks is composed of Camphor, Menthol, Eucalyptus, Thyme, Turpentine and other of the world's best remedies for congestion and inflammation—whether in the air passages, such as croup, colds, catarrh or bronchitis, or on the surface, like cuts, bruises, burns, sores and stings.

Vicks is a family standby in the States. Over 17 million jars are used yearly. During its introduction in Ontario last winter several hundred samples were given out by druggists to good, responsible families, to be tested out. Alongside are reports from some of these people who have kindly consented that their experiences be published.

VICKS VAPORUB
OVER 17 MILLION JARS USED YEARLY

Some Reports From Ontario Families

ANOTHER CASE IN BELLEVILLE

Mrs. George A. McCaw of 27 Wallbridge St., Belleville, Ont., says: "My little girl had a cold. I rubbed her chest with Vicks and in the morning she was a lot better. I did the same to the baby when he had a cold, and it relieved him."

KINGSTON "COMPLETELY RELIEVED

Mrs. Wm. J. Bourdeau of 96 Ragland Road, Kingston, Ont., writes us: "I used Vicks on my little three-year-old son, when he had two severe colds, and it completely relieved him. I would not be without Vicks in my home and highly recommend it."

REPORT FROM DEMORESTVILLE

Mr. J. W. Milligan of Demorestville, Ont., says: "My daughter came home from school with a sore throat and bronchitis. I tried Vicks on her chest and she was better next morning. I will always have a jar of Vicks in the house."

50c A JAR AT DRUG STORES
If you prefer to test Vicks before purchasing, clip this coupon, mail it to the Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q., and a free test size package will be sent you promptly. .. .. .. ..... ...

### NATIVE WINE MEN CONFER WITH NICKLE

Toronto, Ont. Jan. 17.—Growers of Ontario grapes and manufacturers of Ontario native wines, and their legal business representatives, were "on the carpet" in the office of Attorney-General Nickle Wednesday afternoon in what was stated to be a friendly discussion on native wine matters.

The conference was called by a letter issued by James Hales, K.C., chairman of the board of license commissioners for Ontario, and intimated that trouble had arisen over the issuing by manufacturers of circular letters and price lists advertising wines for sale. Other matters affecting the manufacture and sale of native wines were also under discussion after Mr. Nickle had outlined the attitude of the government.

It has long been contended that the section of the O.T.A. purporting to prohibit the sending of circulars or price lists, and advertisements in newspapers or otherwise, is ultra vires of the Ontario legislature. In fact this view of the law has not been seriously opposed by either the license board or the attorney-general's department. The practice among most manufacturers heretofore has been to send out such circulars by mail as they deemed necessary, at the same time taking care not to offend the license board by issuing advertising material of too glaring a nature. Recent business conditions not having been up to expectations it is thought that some manufacturers have now chosen "to take liberties."

### SCREEN WHISPERS

Robert Edeson, known to millions for his work on the stage as well as on the screen, is playing the part of the Commandante in Fred Niblo's newest Metro picture, "Thy Name Is Woman." Mr. Edeson's role is an important one—in fact, the entire story hinges around it.

If Harold Shaw should ever decide to film a picture in the Alps he will be eminently fitted for the job. Recently Mr. Shaw spent eight days climbing the mountains in Southern California shooting some big-thrill scenes for "The Fool's Awakening," which he is directing for Metro from William J. Locke's novel, "The Tale of Triona."

Nothing could be more fitting than the appearance of Pat O'Malley in the leading male role opposite Laurette Taylor in the Metro picture version of "Happiness," her great stage success. Mr. O'Malley portrays the character of Fermoy MacDonagh, who is as Irish as he is himself. Mr. O'Malley has reddish brown hair, piercing blue eyes, wide smile and a square jaw.

### BOY CONFESSES

Police Story at Inquest Clears Up Killing

St. John, N. B., Jan. 17.—That Stewart Godwin, the 16-year-old mentally deficient youth who has been held for investigation since the discovery on Christmas night of the murder of Mrs. Clara Whiteside at her little home in East St. John, had confessed that he struck the woman the blows on the head which caused her death, was the testimony given by Detective Patrick Biddiescombe and County Constable Howard Shortcliffe at the resumption if the coroner's inquest here.

The deed was committed on Dec. 17, according to the boy's story, as related by the detectives. He had gone to the house to get a picture which Mrs. Whiteside had promised to paint for him. The picture was not ready and she told him to go away and not come back again. This angered him and he struck her with a piece of iron pipe.

On a recent midnight visit to the house the boy re-enacted the tragedy for the detectives, Detective Biddiescombe said. The inquest is still in progress.

### GOING A BIT TOO FAR.

A couple married in Meriden, Connecticut, were quarantined for scarlet fever on the same day. However the traditional desire of young folks to get away from the crowd on their honeymoons will not lead many of them to adopt that method.

### DOUBTFUL.

It is to be hoped—fervently—that Hollywood will be so deeply stirred by "The Ten Commandments" that its denizens will take the trouble to look up the original story.

Genuine Used Motor Car .. Values ..

When you buy a used car from us you can know definitely that you are going to get the fairest, squarest business deal, the deal that will satisfy you and keep you satisfied.

The Following are Real Values

$160—Maxwell 1917, 5- passenger Touring. This car well worth the money.
$395—Chevrolet (Baby Grand), 5- passenger Touring, 1919 model, a real buy. In real good condition.
$725—McLaughlin-Buick, Master Six—5-passenger Touring car with a sedan top. Just the car for winter driving. A genuine bargain.
$100—McLaughlin-Buick, 4-cylinder 1915 model, 5-passenger Touring car, self starter, new battery.

We have a limited number of other real genuine buys. Ask abot the G.M.A.C. Plan of Deferred Payments.

## PADDOCK FIGHT BITTER

New York, Jan. 16 (United Press—Many wild and harsh words have been thrown back and forth by the two factions involved in the now famous "Paddock case".

But for the fact that a great athlete perhaps the greatest sprinter of all times, was in danger of being barred from running in the Olympic games the real cause of all the firework behind the Paddock case would not be worth mentioning.

Politics are of little interest to the followers of track and field athletics boxing or baseball. Battles for executive control of sports are not of interest except in cases where the public might be deprived of entertainment or amusement.

Baseball is not vitally interested in the fight between Commissioner Landis and Ban Johnson. As long as the fans see good baseball for their money, they are not concerned with the executive end of the business. But for instance, if the fight between Landis and Johnson should come to a point where Babe Ruth might be barred from the game, the fans would be vitally concerned.

The same point can be applied to the theatre business. Movie fans are not vitally interested in what company makes the money out of Rudolph Valentino, but when a battle between business interests keeps him off the screen, they naturally feel concerned.

As long as a boxing fan feels sure that he will get the seat for which he paid, that the contest will be satisfactorily staged and that the rules will be observed, he has no more than a casual interest in commissions that govern the sport. But when something might be done that would bar Jack Dempsey from fighting, the situation would be changed.

These examples can be applied to the Paddock case, which is nothing more than the crisis in a movement of a rival body to overthrow the jurisdiction of the Amateur Athletic Union.

Drawn up on one side in the political fight is the A. A. U. which, for more than thirty years, has been accepted as the governing body of amateur sports in the United States. In the other corner, waging the fight against the A. A. U. is the National Collegiate Athletic Association, in which Elwood S. Brown of the Y. M. C. A. is the dominating influence.

Brown, it is charged by the A. A. U. has been trying to get up a national revolt against the A. A. U., and some evidence has been secured that he has sought to get large numbers of prominent athletes to renounce their affiliation and join his organization.

The Paddock case came up when the California sprinter announced that he was going to Paris last summer to compete in the "University of Paris" games. The A. A. U. refused to give him permission to go on the grounds that it had been asked by the American Olympic Committee to discourage international competition last summer and devote all its efforts to preparation for the Olympic games this year.

Paddock claimed that he was going as a representative of the University of Southern California, with the permission of the National Collegiate Athletic Association and that the A. A. U. had no jurisdiction over college athletes.

The A. A. U. then suspended Paddock. It based its action on information obtained from Paris that the "University of Paris" games were being conducted by a club under the direction of a Y. M. C. A. man, and that it was not an inter-collegiate meet. The stand was also taken from statements given by the faculty at the University of Southern California that Paddock "was on leave." It was also held that Paddock was not a college athlete, in that he was not eligible to compete in any college meet where the rules of the governing body of collegiate athletics were strictly enforced.

The A. A. U. then notified the International Athletic Federation that Paddock was competing without the permission of the A. A. U., and all the athletes who competed against Paddock were suspended.

Then the fight started.

William C. Prout, president of the A. A. U., charged that Brown deliberately arranged the Paris meet to get up a test case against the A. A. U., and that he persuaded Paddock to volunteer for the test. Prout claims that Paddock said in an interview in Paris that he was only being used as a test case and that he later wrote the same thing in a magazine article.

The main point in the controversy hinges on the action of the National Collegiate A. A. that the A. A. U. has no supervision over the college field and that Paddock didn't need permission to go to Paris.

But—

The International Amateur Athletic Federation regards the A. A. U. as the ruling body of amateur athletics and its constitution provides that American athletes competing in foreign countries must bring with them the certification of approval by the A. A. U.

"Instead of waging a campaign of villification and misrepresentation against the A. A. U., it would be the manly thing for Brown to go to the International Federation and ask that the rule be changed and that the A. A. U. be relieved of its power," Prout said.

The A. A. U. had done a good job in running amateur athletics. It has made some mistakes, of course. The National Collegiate A. A. and Brown could not do the job as well and would make more mistakes because they don't know the business and haven't the organization.

This is all of little interest, however.

The point is—will Paddock be allowed to go to Paris with the Olympic team? It is our guess that he will.

### Heard Between Periods
### By 'The Information Kid'

Modest Stan Nurse—"Their goal minder is good, he is making some wonderful saves."

Green—"We'll get them this period won't we Mr. La Fayette?"

Frechette—"I'll say we will."

Finkle—"Where is the water pail?"

Weir—"Honest to goodness, I did not mean to trip that bird".

Hagerman (Combing back the sleek black hair). "Always keep up the appearances in the third period boys."

Whalen—"My man weighs about 155 or 160 pounds but I can upset him".

MacNeill—"No, no—I'll see my friends after the game."

Manager Thomas—"All lie down and shut up;—hey don't light that pipe".

Boss Adams—"Who's next?"

### HOCKEY NEWS

Campbellford hockey team journied to Keene on Tuesday evening and after a rather exciting game, which was decidedly rough in spots, the "Davidson Contingent" proved too much for the Keene organization, the final score being 9 to 3. No accomodation had been made for the visitors and the boys were forced to sleep in the rink. Campbellford plays Hastings at Campbellford on Friday and a good game is expected.

Ho, hum! Jack the Giant Killer Dempsey is at Miami Beach, Fla., doing his best to forget the northern blasts of winter. The picture might lead one to believe he is succeeding. The youngster with him is "Jackie" Ott, a prize baby, called by many "a perfect child."

## BRIEF SPORT COMMENT

Amateur golfers in the U. S. are to be barred from writing in the newspapers. This appears a little harsh as their writing was the only thing amateur about some of them.

Miss Gladys Robinson, lady speed skater, first decided to turn pro. and then, exercising a woman's privilege, changed her mind and decided to remain an amateur. All of which shows that although Gladys may be a champion skater she's still quite a womanly woman.

Dr. Carso, of Grimsby, former Varsity star, may sign with St. Pat's. Those Irishmen have looked on several occasions as if they needed the services of a doctor.

Ottawa have picked up another game at Hamilton. Surely they're now far enough in front to let the needy one have a look in.

And again high and clear comes the annual query: Which is goin to be the lucky team to play off with Ottawa?

Frank Nighbor of the Ottawas, is figured out as the greatest pro. hockey player on ice. Frank has most things that other players carry and an extra supply of grey matter. When things are close he figures out the finish, and that finish finds Ottawa on top as usual.

Bad judgment at Hamilton, and bad actors at Toronto account for the results of the two most recent pro hockey games. Of course good hockey played some part in each contest.

Having trimmed McGill 8 to 1 in Montreal and wiped the ice with such and sundry American teams as they could find in a fortnight's travel, Varsity can still get all the competition they really need in the O. H. A. All of which shows that all the good hockey in this neck of the woods was not shipped to France for use at Chamonix.

### The Turf

The merriest bunch of financial optimists who have happened along in some seasons are the philanthropic gents who are promoting a company to breed race horses. From the prospectus, you gather they intend to start right in producing Man o' Wars, Zevs and Exterminators. If they do put money into the venture it should be well spent.

Trouble is that horses like the above-mentioned only happen along one at a time. Neither do they all come from the same stable. They are as scarce as gold mines while the ordinary platers are as numerous as prospects.

The late Joseph Seagram who had some experience in race horse breeding, is reported to have said, "There are only two classes of people who should go into horse racing; those who have so much money they won't miss it, and those who have so little money they can't lose it."

Of course, those promoting the new company may have a new system. They may be able to guarantee a winner in every colt. If they do they will disprove the theory that is grounded in experience, viz., that breeding race horses is the sport of the wealthy and a mighty bad thing for a man of moderate means to monkey with.

### COBOURG TO APPEAR

Oshawa, Jan. 17.—The protest of the Oshawa Hockey Club over the rough play of the Cobourg juniors at Cobourg on Monday night was sent on to the O. H. A. Wednesday. It is understood that the governing body will have the Cobourg club on the carpet and explain matters. The Oshawa players, who were pretty well used up on Monday, are all ready for tonight's game with Bowmanville here, though some of them are feeling stiff and sore. Palmer, who was hurt badly, will be in uniform, but will not be used unless it is absolutely necessary.

### OCTOGENARIANS RACE ON BAY OF QUINTE

Kingston, Jan. 17.—Two octogenarians provided lots of fun when they donned skates and performed stunts and staged a race on the Bay of Quinte at Deseronto.

They were Wesley Post, aged 84, and Eli McCabe, aged 83. The latter who won the race, wore a pair of skates made 60 years ago by the village blacksmith, while Mr. Post glided about on automobile skates. A movement is on foot to have the two race again, and the event is being keenly anticipated.

NOTICE, BOWLERS!

We want to draw the attention of all lady bowlers that beginning January 14th every night ladies are welcomed to bowl and we are reserving two alleys for the ladies after the ladies' league game which finishes about 8.30. 15-6td

## Plans Prize Fight To Relieve Dull Tedium Of Big Convention

Washington, Jan. 17.—Tex Rickard was talking today about putting on a Dempsey-Gibbons fight at the Polo Grounds in New York for the entertainment of the delegates to the Democratic national convention in June.

Tex thinks the delegates ought to be amused someway.

Anybody who has to attend a national convention ought to have something to offset it. We can think of nothing better than a good fight carnival. Incidently, he expects it would show a good profit. Rickard said he expects to stage a fight between Harry Wills and Luis Firpo, probably on Decoration Day.

## Canadian National Won't Reduce Rates

Brockville, Jan. 17.—A solemn straightforward warning to the people of Canada that the Canadian National Railways cannot reduce freight rates without materially reducing the gross earnings and net receipts of the system to such an extent as to improve further burdens upon the taxpayers of the dominion, was delivered by Sir Henry Thornton, president of the National system in an address before the Brockville board of trade here. In addition, Sir Henry, in a manner which has added significance in view of the approaching session of the federal parliament, again reiterated his determination that the C.N.R. will not be permitted to be the sport of politicians or the football of politics as long as he is the executive head of the system.

### Thank Charlie Good

The Intelligencer is indebted to Charlie Good for his kindness in mailing a copy of Hockey year book 1924 free of charge. The Hockey Book, a large well printed magazine is a veritable fund of information, replete with the photographs of winning hockey aggregations in Canada from the earliest days of hockey, and it was from its historical references that the Intelligencer obtained data necessary for the preparation of a recent story of Belleville hockey since its inception, as it appeared on the sport page.

To hockey players and hockey lovers, this book should prove a boon.

Edith Roberts, who plays an important part in Fred Niblo's new Metro picture, "Thy Name Is Woman," was recently married to a Hollywood automobile dealer. Earle Snokes by name. The mariag was a culmination of an interest that began in school, years ago.

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

Professor Wheatley has received word from Dr. Illsey, F.R.C.O, head of the Dominion College of Music, that his pupil Miss Madeline Robinson, of the Bank of Montreal Staff, Trenton, has been awarded the Gold Medal for highest marks gained in Canada in the recent Associateship Examinations.

Miss Bertie VanAllen has returned to Foxboro after spending Xmas Day and since a holiday period with her cousin Mrs. Florence Vincent at the home of Mr. and Mrs. John Harris 25 Herchimer St.

Although Percy Marmont, who is appearing in the new Metro picture, "The Man Life Passed By," was formerly a great stage favorite in England, his screen appearances have been confined to America.

## SEEK LONGER LIVES

Chicago, Jan. 14 (United Press).—Better health and longevity is the slogan of the Illinois Association for the Promotion of Periodic Health Examinations recently organized here.

"Americans have the best teeth in the world," said Dr. Edward H. Ochsner, president of the Illinois State Medical Society and one of the organizers. "They have them because they have the best dentists and have been taught to have their teeth examined at regular intervals.

"Our new association will sponsor physical and dental examinations for every adult in Illinois, at least once a year. Sickness and contagion will be greatly decreased, we believe, and millions of dollars will be saved to the laboring man, the employers and casualty companies," he declared.

"If we can reduce the average day's illness three, two or even one year, millions of dollars will be saved," said Dr. Ochsner.

OUCH! LUMBAGO!
RUB BACKACHE AWAY

Kidneys cause backache! No! Your backache is caused by lumbago, rheumatism or a strain and the quickest relief is soothing, penetrating St. Jacob's Oil. Rub it on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a 35 cent bottle of St. Jacobs Oil from your druggist. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

In use for 65 years for lumbago, backache, sciatica, neuralgia, rheumatism or sprains. Absolutely harmless. Doesn't burn the skin.

MRS. MISENER'S ACHES AND PAINS
Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branchton, Ont.—"When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound Tablets and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' I worked on munitions, and, in the heavy lifting which my work called for, I strained myself, causing inflammation from which I suffered untold agony, and I often had to give up and go to bed. I had doctored for years without getting permanent relief, when I started to take your medicines." — Mrs. GOLDWIN MISENER, Branchton, Ont.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery. C

## She Does Not Tell You Why She Only Tells You How

Most of us can recall instances of students whose class work in English grammar caused their teachers real mental anguish. Yet, these same students whose knowledge—or rather lack of knowlege—of grammatical rules was painful in the extreme, frequently spoke the mother tongue with a correctness, beauty and fluency to which the winner of high marks did not attain. This was simply because they did not speak English by rule, but unconsciously modelled their manner of speech after that of their cultured parents. There have been university graduates, too, whose lapses in the spoken language have proved irritating in the extreme—not because they were ignorant of grammatical rules, but because in their childhood homes they had not become accustomed to hearing good English spoken as a matter of course.

The teaching of formal rules of grammar never did and never will train anyone to speak correct English. The way to learn to speak English correctly is to speak correct English, says Miss Rosamond M. Archibald, M.A., head of the English department in Acadia Ladies' Seminary, associated with Acadia University, who has been making an all too brief stay in Toronto in the interests of a Canada-wide movement for better English.

The eyes of one who has seen visions has Miss Archibald. Her enthusiasm is infectious. She has a mission, and that mission is the salvation of our mother tongue. Her eager hope is that Canada may lead in this work, and that she found the remedy she firmly believes. Not only does she believe it herself, but she has spread her gospel to good purpose, first, in the Maritime Provinces. As the Apostles of old on another mission set out from Jerusalem, so Miss Archibald has first spread her message in that part of the wide Dominion which is hers by birth. By next summer she hopes to have taken it all the way to the Pacific Coast.

Miss Archibald lives in picturesque Wolfville, Nova Scotia, which was named after her mother's family, the de Wolfes. Here in her lovely garden, where stately hollyhock bows courteously to fragrant sweet pea, Miss Archibald spends her brief leisure time. It is indeed but scant leisure that she has these days when, with her teaching work, she is called hither and thither to spread the knowledge of her revolutionizing system. Laughingly Miss Archibald tells of beans planted by light of the moon and lantern.

It was while watching soldiers at drill that Miss Archibald got her inspiration. The result is that complete little manual of 27 pages, condensed to the last degree, which Miss Archibald calls "The King's English Drill." It took six years to condense it as it has been given to the public.

The "setting-up" exercises of the system take but five minutes a day. There is the recitation of the motto, "To think clearly and speak the King's English"; then the creed, "We Believe in Our Flag, Our Country and Our Mother Tongue." Presently comes the unison drill.

Each child is equipped with a note book, too, in which to record corrections of errors which he hears made in daily conversation, in public speeches, and which he reads in the daily newspapers. None escape the keen student. The student never writes down the mistake, however. It is the correct phrase which must be impressed on his mind. Miss Archibald has some amusing stories to tell of errors into which the great and near-great are prone to fall in formal and informal speech alike. Each child gets so many points for errors discovered, and the game is to see who will get the highest number of points.

Miss Archibald never gives rules until the children beg them; then she sets them to discover the rule for themselves and, having digged for it, they treasure it when they eventually do discover it. Truly it is a fascinating game that Miss Archibald has evolved.

The system has been enthusiastically taken up by the educationists of the Maritime Provinces and from all over Canada came requests that Miss Archibald spread still further her message. Miss Archibald has had a thousand letters from parents, former pupils, prominent educationists and others—all enthusiastic in their praise and eager for more knowledge of her system. It is being taught in India and in West Africa. Miss Archibald, it is expected, will return to Toronto shortly, to address a large meeting, yet to be arranged.

In 1914 Miss Archibald accepted a post in Roberts College, Constantinople, but the war come just prior to her leaving.

## A Precedent

When Laurette Taylor and her author-husband J. Hartley Manners arrived in Los Angeles recently to start work on the Metro picturization of her great stage success, "Happiness," one member of their party that had accompanied them West when Miss Taylor came to make "Peg O' My Heart" for Metro was missing. That was Miss Taylor's famous dog Michael.

So Michael did not appear in "Happiness" as he might very well have done, though there is no part written in for him as there was in "Peg O' My Heart." When "Happiness" is released late in February the millions of people who will flock to see it will probably wonder why Michael isn't there.

During the time Michael was working in the motion picture production of "Peg O' My Heart" quite a sensation was created when one morning Miss Taylor found four puppies in Michael's dog house. It was then revealed that Michael had been masquerading all his life in order to play the part of Michael with Miss Taylor on the stage.

"Happiness' was adapted from Mr. Manners' play by Winnifred Dunn. It is being directed by King Vidor and photographed by Chet Lyons.

## EAST DISSATISFIED

Ottawa, Jan. 17.—Fifty-seven years in the Canadian confederation have not satisfied the maritime provinces or given them what they consider to be their rights, according to Premier Armstrong of Nova Scotia, who has just left for home.

He left behind him a memorandum to the government suggesting a commission to inquire into the whole situation and means to remedy it, according to the Citizen.

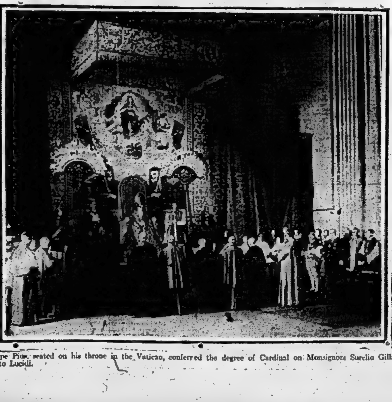
The Nova Scotia premier notes a predominant dissatisfaction in the lower provinces and he wants it and its underlying causes made the subject of investigation. He would include in the inquiry the suitability to maritime needs of the present fiscal policy, the constitutional relation to the rest of Canada, the intercolonial railway and whether its absorption into the Canadian National is in the best interests of the public and a number of other proposals.

The government has promised to consider the representation.

### THAT WOULD GET HIM.

Jones—"Are you going to pay me that account " Smith—"Not just yet." Jones—"If you don't, I'll tell all your other creditors that you paid me."

## When Cardinals Are Created In Vatican



Pope Pius seated on his throne in the Vatican, conferred the degree of Cardinal on Monsignors Surclio Gilli and Evaristo Lucidi.

If you have trouble with your eyes

TELL ME about it.
If we find some error of vision
Present the chances are
Ten to one that I could help
both you and your eyes greatly.
Your opinions about this,
Or mine, either, are only opinions
But an examination by my
Methods is final and
Authoritative. At your Command.

### THE USES OF NECESSITY

The fact that life is a grind is what sharpens many a man's wits.

### SWINDLER AT 18

Berlin, Jan. 14.—(United Press).—Wilhelm Wedemeyer, only 18, appeared in court at Halberstadt to answer to charges of embezzlement, perjury, swindling and bankruptcy irregularities, arising out of his banking business, founded when he was only 17. The court learned Wedemeyer tried to commit suicide in his cell upon learning that his fiancee had deserted him.

## Rita Is "Good Scout"

Nashville, Tenn., Jan. 17.—Rita is a good scout.

And Watkins Crockett Jr. always will swear by her. Why, she's even sending him through college!

Rita's right up among 'em in the "400". She's of aristocratic Teutonic stock. Even her name—Von Sercaynots—is quite highbrow.

But she isn't a stuckup. She's just as democratic as any other dog in Nashville. Yes, Rita's just a dog. To Crockett, though, she's almost human.

And oh, what a pal she is! Every morning she trots along beside him as he goes to school, doing an about-face toward home only when he tells her goodbye.

Rita has brought 27 sons and daughters into the canine world.

All her male puppies have sold for $100 apiece. The females have brought $50 each.

Every cent of the money goes into Watkins' bank account to the credit of his college expenses. Last year, the money not only paid his tuition, but likewise met all his tailor bills.

Rita's appetite isn't a bit delicate. She eats everything her master does—except potatoes. For some reason or other, she doesn't relish spuds.

She was brought over from Germany as a puppy by a friend of the Crockett family and presented to young Watkins then in high school here.

She's been a mighty important member of the family ever since.

### SCARLET CHAPTER.

The annual meeting of the Scarlet Chapter of District No. 3 South Hastings was held in Cannifton Orange Hall Jan. 1. There was a good attendance every lodge in the District was represented.

During the evening two candidates were received and instructed in the mysteries of the Degree after which the lodge was declared open for general business.

The True Blue and Orange Home at Toronto was not forgotten as a liberal donation was voted to that institution.

Sir Kt. Companion H. Harrison who has had charge of the Chapter for the past year declared all offices vacant and called upon Sir Kt. Comp. Wm. Reynolds, Past Co. Master of South Hastings to take the chair for the election and installation of the officers which resulted as follows:

Past Comp.—Sir Kt. H. Harrison.
Wor. Comp.—Sir Kt. F. Laugh.
Dept. Comp.— Sir. Kt. W. I. Cole.
Chap.—Sir Kt. R. White.
Fin. Scribe—Sir Kt. Geo. F. Reed.
Treas.—Sir Kt. J. R. Emerson.
Herald at Arms—Sir Kt. Geo. D. McCullough.
1 Lieut.—Sir Kt. M. C. Reynolds.
2 Lieut.—Sir Kt. P. R. Sullivan.
1 Cond.—Sir Kt. G. W. Henderson.
2 Cond.—Sir Kt. R. W. Empson.
Inside Guard—Sir Kt. F. Pound.
Outside Guard—Sir Kt. Jas. Elliott.

Glycerine Mixture Prevents Appendicitis

Simply glycerine, buckthorn bark, etc. as mixed in Adlerika is excellent to guard against appendicitis. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gasses and poisons. Brings out matter you never thought was in your system. Helps any case gas on the stomach in TEN minutes. J. S. McKeown, Druggist.

### AS A MATTER OF FACT.

Yes, Chlorinda, 50 years or more ago when women wore the old-fashioned hoopskirt it was generally regarded as the "outstanding garment of the time."

We have a liberal party in America, also. He is the gentleman who handles the expenditures of public money.

Bovril makes you feel a new man

A Health Secret

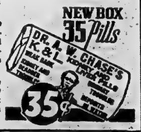
It is frequently claimed by physicians that nine-tenths of all human ills may be traced to neglect to keep the bowels regular and the liver and kidneys active.

The result is an accumulation of poisons in the system which cause pains and aches and give rise to such dreaded diseases as appendicitis, Bright's disease, diabetes, high blood pressure, etc.

Dr. Chase's Kidney-Liver Pills are the ideal regulators of these vital organs because they act directly on the liver, kidneys and bowels, and ensure a thorough cleansing of the system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.



### "CUCKOOING" DOVES.

"Well, honey, I hope you will come back to me. Feel your left side, and if you have a heart you will come back to your old pal as soon as possible. Go into a music store and hear "Pal o' My Dreams" and then imagine how you would be if you were in my case."

This is reported to be the manner in which the male species presses his suit in Hamilton Ontario.

### CHANGE THE NEEDLE.

By harping on one string you are apt to get out of tune with the world.

### JUST LIKE THAT.

Owner—"What will it cost me to have my car fixed?"

Garageman—"What's the matter with it?"

Owner—"I don't know."

Garageman — "Forty-eight dollars and 50 cents."

When the editor has a real opinion and desires to express it he is sensational. When he has no idea or fails to express any he is stupid and dull.—Timmins Free Press.

# CHURCH OFFICIAL HIGHLY HONORED BY COLLEAGUES

### Reports For Year of Victoria Baptist Church Are Particularly Gratifying

### PRESENTATION MADE

### C. A. Hart, Retiring Treasurer, Given Gold Watch Chain and Locket

The annual business meeting of the Victoria Avenue Baptist Church was held last evening when reports were received from the various departments of the church and officers were elected. The meeting disclosed the fact that the church is in excellen condition there being a net gain o 14 in membership and a net balanc in the treasury of $150.

This is regarded as being a partic ularly satisfactory report in view o the serious interruptions to the worl occasioned by the pastor's illness during the year.

In the year through the church and all organizations connected therewith there has been raised the sum of $6,761.16. of which amount more than $900 was contributed to missions Amounts raised by various organizations were as follows: church proper $5382.75; mission circle. $157; B. Y P. U., $118.43; S. S. $1102.98.

Four new deacons were elected as follows, W. B. Riggs, W. H. Merry A. L. Stilwell, B. A., and E. A. Hogle The church clerk, H. Hitchon was re-elected as were other office bearers.

One very interesting feature of the meeting was the presentation to Mr C. A. Hart of a solid gold watch chain and locket suitably engraved Mr. Hart after 41 years of continuous service as treasurer had asked to be relieved of office and the church acceding to his request, Mr. Albert Blackburn was appointed his successor while Mr. Hart was appointed Honorary Treasurer.

Mr. P. C. McLaurin in making the presentation referred in most appreciative terms to Mr. Hart's long years of service. The pastor, Rev. N. S. McKenchie referred to the fact that at one period of the church's history when the finances of the church were at so low an ebb that no credit could be obtained at the bank, Mr. Hart had stood behind the church and helped her through that trying time.

Mr. Hart who was deeply touched the occasion, in expressing his thanks for the gift stated that his services had been prompted by love for the church and the cause.

The meeting was then adjourned, all members feeling that the affairs of the church were in a very happy condition.

## Few Are Left

(Continued from page one)

The chief magistrates of the city since its incorporation and the years they served are as follows:

| MAYORS | Date of office |
|---|---|
| Alex Robertson | 1878-79 |
| R. S. Patterson | 1880-81 |
| Nelson Lingham | 1882-83 |
| J. W. Dunnett | 1884-85 |
| Henry McMinch | 1886 |
| W. H. Beggar | 1887 |
| Dr. B. S. Wilson | 1888 |
| W. J. Diamond | 1889 |
| Geo. S. Tickell | 1890 |
| E Gus Porter K.C. | 1891 |
| C. Bogart | 1892 |
| F. S. Wallbridge | 1893 |
| J. E. Walmsley | 1894, 95, 96 |
| J. W. Johnson | 1897, 98, 99, 1900 |
| R. J. Graham | 1901, 02, 03 |
| W. W. Chown | 1904 |
| C. N. Sulman | 1905, 06, 07 |
| A. McFee | 1908 |
| L. W. Marsh | 1909-10 |
| H. W. Ackerman | 1911 |
| A. G. Vermilyea | 1912 |
| J. F. Wills | 1913-14 |
| W. H. Panter | 1915 |
| H. F. Ketcheson | 1916-17 |
| Dr. O. E. Platt | 1918 |
| W. B. Riggs | 1919-20 |
| C. H. Hanna | 1921-22 |
| G. A. Bennett | 1923 |
| W. C. Mikel K.C. | 1924 |

## National Strike

(continued on page five)

The Associated Society is undoubtedly being subjected to very heavy pressure from other trade unions to call off the strike. This is not only because the Labor fear the effect on a new Labor Cabinet. There is also a feeling among the moderate trade union leaders that a stoppage would deal a severe blow at the system of adjusting wages by the National Wages Tribunal which they have learned to consider the most valuable methods of avoiding th disaster of industrial disputes.

### U. S. CRUISER AGROUND

Galveston, Texas, Jan. 17.—Lashed by storm-swept waves of western Gulf of Mexico, the United States cruiser Tacoma was still hard aground today on the rocks of Blanquilla Reef, off Vera Cruz Harbor, according to radiograms picked up by the Fort Brown wireless station at Point Isabell and relayed here.

### FRANC AFFESTS DEBTS

Washington, an. 17.—The falling franc is carrying down with it the last hope for settlement of the French war debt of four billion dollars, in the next few years or perhaps longer.

# GAS TANK LEAKS; FIREMEN CALLED

### Pungent Odor of Chlorine Gas Permeates Niagara St. District

Toronto, Jan. 17.—The air around Niagara and Clifford street usually pungent with the smell of brew from Cosgraves brewery, was "gassed" Wednesday afternoon. A cylinder containing 160 pounds of chlorine gas, standing in the yard of the laboratory of the provincial board of health station, Clifford street— across from the beer foundry—sprang a leak. The poisonous fumes circulated the neighborhood.

The staff at the experimental station, fearing someone passing by might be injured by inhaling the fumes, called up Mel Manning, the operator on the signal switchboard at fire headquarters and asked him to send down a fire squad with gas masks. Manning notified District Chief Pat Davidson at Portland, and the chief with some firemen rushed to the spot in his red "flier." But the gas masks were not needed. D. C. Davidson decided that the cylinder was a safe distance from any houses—and the fumes had practically been exhausted.

The chlorine gas is used at the experimental station for purifying water and is highly poisonous. The staff at the station smelt the fumes and opened the door to go into the yard, but the wind coming out of the south drove the fumes towards the men and they had to retreat. Chief Davidson with Lieut. Sweetman and Firemen Gray, had to approach from the south behind the wind. The fumes could be smelt on Queen street.

### DEMOCRACY SPREADS

Tokio, Jan. 17.—Spread of Democratic ideals in Japan has been demonstrated in a remarkable way by the announcement that ex-Premier Takahashi will renounce his title of Viscount and become a commoner.

## Wanted

### TOO HANDY WITH PEN

Windsor, Ont., an. 17.—"You are altogether too handy with the pen," Judge Gundy said in Windsor police court today, sentencing Vernon W. Cruce, 34 years old, to Kingston penitentiary for two years on a charge of passing a worthless cheque.

### 500 ROOM HOTEL

Toronto, Ont. Jan. 17.—Controller A. E. Hacker is authority for a report that a new 500-room hotel to cost nearly one million dollars will shortly be erected in Toronto. He says the site has already been selected several blocks west of Yonge street and the work will commence early in the spring.

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

## Kingston Woman Able To Eat Now

### Had Lost Her Appetite but found genuine relief from this and other ailments in Dreco. Two bottles proved beneficial.

When a woman reaches the age of 45 her health becomes precarious, unless the utmost care is taken. Mrs. Charles Cunningham, well-known to Kingston women as a hair dresser and masseuse, found herself in an unsettled state of health, suffering from stomach trouble, indigestion, biliousness, constipation and loss of appetite. She is one of the many who have responded to advertisements of Dreco which have told of the benefit this herb and root remedy has brought to others and now is loud in her praises of it.

Mrs. Cunningham says: "I have suffered a long time with my stomach. Food would sour and form gas, which made me so miserable I could hardly attend to my work. I would get headaches and bilious spells, my appetite was poor and I was continually troubled with constipation. I have taken two bottles of Dreco and am feeling fine. I can eat most anything now without any after effects. I am not troubled with headache or those awful bilious spells and feel that Dreco has done much good in every way. I have greater energy to do my work, my appetite is good and my bowels are regular.

"My daughter who is also taking Dreco, is having even better results than I had myself. She was in a badly run-down condition and it is building her up fine. I gladly recommend Dreco to anyone in need of a good digestive and system tonic."

Here are two members of a family who have found health and renewed energy in Dreco. The story of these two women is the same as that of thousands of others—the story you can tell if you try Dreco to tone up your digestion and general condition.

There are no habit forming drugs such as mercury or potash in Dreco. It consists entirely of herbs and roots of the health producing body building type.

DRECO IS BEING SPECIALLY INTRODUCED IN BELLEVILLE BY THE BELLEVILLE PHARMACY. IT IS ALSO SOLD IN STIRLING BY J. S. MORTON, AND BY A GOOD DRUGGIST EVERYWHERE.

Frank Keenan, who made a flying trip recently from coast to coast in "Peter Weston", a stage play, is back again on the screen as the old sea captain in Reginald Barker's new Metro picture "Women Who Wait." They say on the coast that the role suits Mr. Keenan like the proverbial glove.

## Bandits Loot Fur Store

(Continued from Page One)

### THE MYSTERY MAN

Police officers here are searching for a man who is believed to know about the robbery, and who is regarded as advance man for the ring. He is described as being a medium sized person, 5 feet 8 inches tall, weighing about 150 pounds, clean shaven and very dark, but not believed to be Hebrew. His hair is jet black, and he wore a dark cap, a coon skin coat which was worn down the front, and equipped with a notched collar. His suit coat was blue and his trousers grey. He carried a bag similar to those used by most commercial men, called a travellers' hold all.

This man entered the Woodley store yesterday, and approaching a saleslady in the store, enquired whether or not they could repair his coat. As is her usual precaution of safety not to leave a stranger alone, the saleslady called a second saleslady to come forward, while she went to the back of the shop for Mr. Russel Woodley. Immediately Mr. Woodley appeared, the man did not mention the repair job, but represented himself as a salesman for a firm which sold rulers, mentioned something about catching the noon train, and then inspected the fur coat racks at the back of the store, handling several coats and peering about the store continuously.

### IN STAFFORD STORE

Salesmen in the Stafford Hardware Store, 267 Front street, also state this morning that this man entered their store yesterday, and representing himself as a traveller, asked if he could get a packing case as he wished to ship some paper to his firm. Dave Waters, salesman in the Stafford store stating that they had no cases, referred the stranger to the Belleville Hardware and Lock Works, whose factory building abutts the laneway which must have been used by the burglar car. Going into the back yard, the man studied the situation for some four minutes, and it is believed he was there to secure his layout, and lay his plans. He returned through the Stafford store and walked out. The man was later seen in a local bank, by Russel Woodley, and on enquiring to-day, it was found that he was attempting to sell American money to the manager, as well as rulers.

### VALUABLE CLUES

Every fur article stolen, and every article in the store is stamped by what is known as the dresser's stamp which is a perforated stamp mark in the form of a 5-point "W". Not more than one half dozen of the stolen furs are stamped with the newly purchased up-to-date stamp hammer, however. The new hammer perforates a 16-point "W". Formerly the furs were stamped by hand.

### VISITED HYMAN STORE

A stranger answering the same description, visited the B. L. Hyman Fur Store, at 242 Front street yesterday and told of being a salesman for rulers, but did not press for sales. He was inquiring about the cost of altering the front of his fur coat. The man did not have the appearance of a traveller, those who saw him state, and was believed to be a bootlegger by many.

### MORE SUSPICIONS

This morning, it was stated that two young men entered Doyle's Drug Store, and had a flashlight repaired. Two suspicious characters were also seen standing in the Kellaway Grocery Store doorway, corner of Front street and Victoria avenue, at a late hour last night.

The furs are a total loss as no burglary insurance was carried, the premiums on burglary insurance being very high.

### OFFICER ON DUTY

P. C. William Evans was on duty on the beat in which the Woodley store is included. At 10.30 p.m. Evans was at the upper bridge and at the finish of the trip down, was due at the station for lunch. At 11 o'clock he was at the station, and after finishing the meal, he went out on the same beat, but on returning on the first trip up, he found the back door open at the Woodley store and immediately sent in the alarm to headquarters.

At 2 p.m. to-day after a careful inventory had been taken of the missing fur coats and fur skins, Mr. Russel Woodley stated that the total loss would be nearer $15,000 than $20,000. There were about thirty completed coats stolen including Hudson seal, Persian Lamb, Electric seal, Sealine and coon skin coats. Besides the finished coats, skins of all the above mentioned kinds were also stolen in numbers. The dressed window was not touched but a model on which a fine fur coat, worth nearly $400 was displayed and which was quite close to the window, was stripped.

## Additional Sports

## HEAVY HOCKEY PROGRAMME FOR LOCAL TEAMS, DURING WEEK-END

Belleville hockey teams are due for one of the busiest week ends possible commencing this evening. Tonight at 8.15 o'clock the Junior O. H. A. squad will open their game with their Picton rivals at Picton, where they will endeavour to keep up their string of wins and incidentally repeat the dose which they administered to the Prince Edward county youths when they played them here at the arena recently.

Tomorrow evening at the arena here the 34th Battery squad meet Kingstone in a scheduled Bay of Quinte league fixture, which is eagerly awaited by local fans. Kingston defeated Point Anne at Kingston, recently, and the soldier team defeated Point Anne easily on Tuesday evening last. Fans are eagerly anxious to know how the Limestone outfit will stack up against the fast battery boys. The story will be told in three chapters at the arena Friday night.

On Friday night the Intermediate O. H. A. squad will be seen in action at the Jock Harty arena at Kingston when they meet Frontenacs in the return engagement. There will be two games at Kingston Friday night, the first game being between Brockville and Queen's. The Belleville game commences at 9 p.m.

### "Safety-First" Year

London, Jan. 17.—There was only one railway accident in England involving loss of life during 1923, according to the Railway Gazette. This was at Diggle in July when two passengers were killed. Since the beginning of the present century there have been two years—1901 and 1908—without a single fatality to passengers. In only three years have more than five people been killed, and in 23 years the number of deaths totals only 73.

### SOCIAL AND PERSONAL

Mr. S. J. Fisher has returned to Belleville after a three days' business trip at Marmora and vicinity.

Mr. Charles Hanna is in Montreal attending a meeting of the Kiwanis Trustees Association.

## ON THE ALLEYS

Breezes and Ramblers were the two contesting quintettes in action at the Y Alleys last night, in the ladies league. The Ramblers rambled right along and the Breezes blew, more or less consistently, the result being that Ramblers won by quite a safe margin. Hurricane, she of the Breezes, was a tower of strength and not only lead her own team but also rolled the high score of the evening. Miss Ford (Skipper) also set her team-mates a worthy example which they attempted to follow with varying degrees of success.

The teams

| | | | 1695 |

Four league matches took place at the Recreation alleys last night between the different teams, in the ladies league the Lucky Strikes won from the Debutantes by 258 pins, Miss Nafin rolling a tidy score of 482. In the Junior league the K. of C. won from the Durants Motors the latter team being all new bowlers on the alleys, Rutherford leading the way with 245 and 537. The second junior game was between the Can. Nat. and O. B. C. this game being close all the way through the Can. Nat. winning out by 97 pins. In the "Big Six" league the Millionaires put the ball team asleep by 152 pins. The latter five staging a come back in the last game rolling 904 but were down over 200 pins in the second game. The highest single score of the evening was rolled by Gallaway with 261 and Dr. Haffner the high three strings.

## CANADIENS DOWN CHAMPIONS, 2-1

### Irish Pull 3-1 Victory in Snappy Game — Hams Lack Finish

Montreal, Jan. 17.—Canadiens reduced Ottawa Senators' lead in the National Hockey League race when they captured the overtime game from the champions at the Mount Royal Arena by a score of two to one. Sprague Cleghorn, captain of the local team, brought the six thousand enthusiastic supporters to their feet with resounding cheers as he skated down the left wing and sent a terrific drive at Benedict, which the latter stopped, but could not clear quickly enough, the Canadiens leader batting in the rebound to break the deadlock and give his team its first win of the season over the world's champions.

It was a stubbornly contested game, but not marked by any great deal of speed, due to the soft ice which resulted from the rise in temperature yesterday. For the first period the players of both teams maintained a fast clip, but the ice soon became spotted with water and it became impossible for the players to properly control the puck on the sticky surface and later to even properly maintain their balance on the deeply grooved ice.

## HOCKEY ENTHUSIASTS FORM AMATEUR CITY LEAGUE

At a meeting of hockey enthusiasts held at the arena on Tuesday night a city league was formed and officers selected also referees. Teams in the league will be notified three days in advance of the date and time of their game.

A schedule has been drawn up between the teams but dates of play have to be arranged. The schedule is as follows:

K. of C. vs. Veterans.
O.S.D. vs. C.N.R.
Granites vs. Springers.
Albert College vs. Wolves of the North.
Veterans vs. Granites.
C.N.R. vs. Albert College.
Springers vs. K. of C.
Wolves vs. O. S. D.
K. of C. vs. Granites.
O.S.D. vs. Albert College.
Veterans vs. Springers.
C.N.R. vs. Wolves.

The O.S.D., C.N.R., Albert College and Wolves of the North teams are in section "A" and the four remaining teams in section "B".

The officers of the league are as follows:

Hon. President—Mayor W. C. Mikel.
President—Ald. R. J. E. Graham.
Vice-President—Leo Barrett.
Secy.-Treas.—N. Thompson.
Referees—Sandy Burrows and Wm. Pepper.

It is contemplated forming a junior and midget league and a meeting for this purpose will be held in the arena on Friday night.

## Fortune Smiles Late!

Irony of fate has separated Henry de La Motte, 70, of Chicago, from a fortune left him in Chantilli, France. The aged man is reputed a lineal descendant of French nobility, and when found by his daughter after a 25-year search was peddling pencils in the Windy City.

### KINGSTON CURLERS WIN

Kingston, Ont., Jan. 17.—The Kingston curlers qualified to enter the play-off for the Ontario Tankard when they defeated both Napanee and Belleville curlers at the local rink on Tuesday. In the afternoon the Kingston curlers defeated Belleville by a score of 38 to 26, while Napanee curlers won from Rockwood by a score of 35 to 26. Kingston and Napanee played in the evening, and the former rinks, skipped by M. P. Reid and J. F. MacDonald, won by 33 to 26.

### Government Refuses Riordon Proposal

Ottawa, Jan. 17.—The government it is intiminated has turned down the proposal of the Riordon Company to take over extensive property formerly owned by the Edwards Company, in Ottawa, in lieu of taxes due by the Riordon concern to the government.

It is stated that the property is not needed, and if it were, tax payments in that way would open up a questionable precedent.

# COUNCIL DEADLOCKED ON INSURANCE ISSUE; VOTE ENDS IN 5-5 TIE

### Question of City Carrying Own Liability Scored by Alderman Present

### FOR TARIFF COMPANY

### Vote Splits on Bids Made by H. F. Ketcheson and S. J. Fisher

The City Council meeting last night resulted in a dead lock and as a consequence the business for which the special meeting was held was not transacted, five members voting one way and five opposite.

The important matter was the city's liability insurance which expires on the 23rd inst. Ten members were present namely Mayor Mikel, Aldermen W. R. McCreary, E. La Roche, G. E. Foster, H. A. Ketcheson, D. V. Ketcheson, R. J. E. Graham, H. W. Greenleaf, A. Robinson and R. Gardiner.

Applications for the insurance were received from six agents in the city who are representatives of insurance companies. The applicants were Messrs. Davison & Davison, J. L. R. Gorman, R. Thompson, H. F. Ketcheson, P. F. Brockel and S. J. Fisher. The figures submitted by the agents representing tariff companies were $3,500 for the premium whilst for insurance of non-tariff companies the figures were $3,150, $3,200 and $2,500.

The Council decided that it would insure in a tariff company after a motion made by Ald. Greenleaf that the city carry its own insurance was defeated.

Previous to the council considering the tenders submitted representatives of the various insurance companies tendering who were present were called upon to give their views.

Mr. S. J. Fisher stated that the business had for a number of years been placed with the H. F. Ketcheson Company and he considered it should be passed around. There was no doubt the city was paying too much for its liability insurance; not more than $1,230 should be paid according to population, and possibly another year it could be reduced. If the insurance was given to the company he represented next year it would be reduced and placed on a schedule rate.

Mr. P. F. Brockel's tender submitted was before the council and good companies were represented. "We are no doubt paying more than we should for insurance." He promised the best of service for the city.

Mr. H. F. Ketchseon—"It is true that for some years the city's liability insurance had been placed in companies represented by the H. F. Ketcheson Company. In the past he had protected the city when so to speak it was in a hole as to insurance as some insurance companies cancelled their insurance. Companies represented by him (the speaker) came to the city's assistance. We will give the city the best service if the insurance was renewed with his company.

## THE WEATHER

Westerly winds, fair. Friday, strong south west winds, partly cloudy and cold, with light local snowfalls.

## COMING EVENTS

The W. M. S. St. Andrew's Church are holding a tea and sale of home-cooking in the lecture room, Saturday afternoon, Dec. 19, from 3-6. 18-1t

DON'T MISS Hearing the big male choir Sunday night at the Tabernacle Church, when the music of two weeks ago will be repeated. J18-1td

Don't forget—Weekly Assembly, Moose Auditorium, Saturday night Al. Wilson's Society Serenaders, six pieces. Good time assured. Price per couple 75c. Extra lady 25c. J11-e 1As.

A meeting will be held on Friday, evening, January 18th, at 8 o'clock in the Lecture Room of the Y.M.C.A., for the purpose of forming a local branch of the Labrador Medical Mission, Canadian Branch of the International Grenfell Association. All those interested are invited to be present. 17-2t

"Handel's Messiah" will be sung here at Easter time. Ladies and gentlemen wishing to take part kindly communicate with Mr. V. P. Hunt. 'Phone 880. 17-3td

Sleighing Party—A. Y. P. A. of Christ Church on Friday evening at 8 o'clock sharp. Members please come prepared for the sleigh drive. 17-2t

St. Thomas' Church Sunday next 7 p.m. JOINT RECITAL Master Cyril Rice (Boy Soloist, "Little Church around the Corner", New York, and Ernest Wheatley Mus. Bac. A.R.C.O., solo organist. SILVER COLLECTION for Fuel Fund.

### GROUPS OF STEEL PLANES TO PROTECT GREAT BRITAIN

London, Jan. 18.—A group of all steel planes, said to be capable of attaining an altitute of 20,000 feet within eight minutes of leaving the ground, is being built for the defense of England.

The climbing speed of these planes is far in excess of any type in their class, and the group will consist of several squadron acting on coast defense, and mail service.

# PRICE SCORES LACK OF NEWS ON BANK STATE

### Thinks Ontario Government Might have been Advised by Dominion or Bankers

### TO TAKE NO BLAME

### Withdrawals For Educational Grants, and Banks Knew Were Coming

Toronto, Jan. 18.—"The next time that the dominion government and the Canadian Bankers' Association know that a bank is going to fail, they had better advise the Ontario government," said Hon. W. H. Price, provincial treasurer, when asked for an explanation with regard to the province's withdrawal of large deposits from the Home Bank of Canada a short while previous to its failure. In this connection the question has been asked, were the withdrawals a factor in causing the bank's collapse?

As far as the action of the Quebec government was concerned in connection with the merger of La Banque Nationale with the Banque d'Hochelega, Col. Price felt that the situation was entirely different. Everything went to show that the Quebec government was notified, either by the dominion government of the Canadian Bankers' Association, considerably in advance of the disruption, giving them plenty of time to deal with the matter in the most practicable way.

"But in the case of the Home Bank failure, we were absolutely in the dark, and so were unable to do anything whatsoever to alleviate the situation, even had it seemed advisable at the time.

"This province refuses to shoulder any responsibility whatsoever in connection with the Home Bank failure."

Intimating that he was very glad that the whole matter had been brought to the attention of the public, Col. Price went on to point out that the provincial government has no special connection whatever with any of the chartered banks.

"We merely deposit our money there like other business organizations do," he said.

**For Educational Grants**

"It is true that the business of the country must be carried on, and that it is from the deposits in the chartered banks that we must pay our bills."

## RAILWAY ADOPTS RADIO

The announcement by Mr. W. D. Robb, Vice-President, that the Canadian National Railways will equip all their hotels and transcontinental trains with radio receiving sets and broadcast to them messages, news and programs of entertainment, marks a distinct forward step in radio development. It is the first time that radio has been adopted as a part of the regular service of a rail transportation system. Mr. Robb, who is in charge of the radio department of the National System, is completing plans for the linking-up across Canada of a number of powerful broadcasting stations to be used by the railway in the regular distribution of its radio service. The photograph shows Mr. Robb in Montreal, delivering into the microphone, the instrument which broadcasts the voice by radio waves; a message to Canadian National Railways' employees and the general public. This message was heard as far south as Carolina, as far west as Chicago and as far east as Halifax.

# FIRST DEFINITE BID FOR POWER MADE BY LABOR

### Move Ramsay MacDonald For Chief Position—Asquith Opposes Gov't

### GET AID OF BUSINESS

### Big Interests to Assist Labor Ministry—Want Churchill to Head Coalition

London, Jan. 18.—Mrs. Asquith announced in the House of Commons Thursday that he would vote in favor of the Labor amendment expressing "No confidence" in the Baldwin government, and would advise all his friends to do the same.

The Labor amendment was introduced by John R. Clynes, deputy leader of the parliamentary Labor party, at the resumption of the debate on the address in reply to the speech from the throne.

The Prince of Wales and the Duke of York entered the press gallery as Mr. Clynes was speaking. The Laborites heartily cheered the reading of the proposed amendment.

"But it is our duty respectfully to submit to your majesty that your majesty's present advisers have not the confidence of the house."

Mr. Clynes, in moving the amendment, declared the phrases put into the king's speech were a mixture of make believe and contrition. He proceeded to criticize in detail what the government had done.

Mr. Asquith and Lloyd George were seated next to Ramsay Macdonald, parliamentary leader and prospective prime minister, on the front opposition benches.

**"Right to Assume Office"**

There was no sign of party feeling at the outset of this momentous debate.

After announcing his position the former premier said: "It is a clear, distinct and unencumbered vote of no confidence. The government invited

# APPEAL ENTERED BY K. K. HOMUTH IN ELECTION CASE

### Deposed Labor-U.F.O. Member From South Waterloo Deposits $100 Fee

### REASONS TO COME

### Start in Battle to retain Seat in the Provincial House

Toronto, Jan. 18.—Karl K. Homuth, Labor-U. F. O., unseated by Mr. Justice Kelly and Mr. Justice Masten for alleged irregularities at the last provincial elections, has deposited $100 with senior Registrar Hartley at Osgoode Hall and has entered his appeal fro mthe election judges. The formal notice and reasons will be filed later.

Mr. Homuth was accompanied by his solicitor, C. R. Widdifield, of Galt.

**Premier is Silent**

Ottawa, Jan. 18.—Premier Ferguson when asked what action would likely be taken with regard to the voiding of the election of Karl K. Homuth, U.F.O.-Labor candidate in South Waterloo replied that while he had seen the result of the announcement of the petition in the newspapers, as yet he had given no thought to the matter.

Reminded that a Toronto news despatch had stated that the opinion was general that the seat will be left vacant until after the first session of the new legislature when the government will contest the riding on its record, Premier Ferguson simply commented: "They have a lot of enterprising fellows in Toronto."

# BOY WAS BEATEN ON DAY OF DEATH

### Worked From Four in the Morning Until Ten at Night--Inquest adjourned

Goderich, Jan. 18.—When the inquest into the death of Charles Bullitt, an English home boy who was found hanging in his employer's barn, was continued, an undertaker told of finding marks on the boy's chest and abrasions on his wrists.

It had been testified that work started on the farm, which is owned by Benson Cox, of Colborne Township at four in the morning and continued until ten at night. Cox it was said had beaten the boy on the morning of his death.

William Lipatt told of working at Cox's place for some time and carrying boxes of oats with the dead boy. "Was that too heavy for a boy of 16 who weighed 90 pounds?" he was asked. "It was too heavy for a man" witness said. He added that he usually worked from 3.30 in the morning. "One morning," Lipatt said, "the boy ran two cows into the door and Mr. Cox seized him by the throat and shook him."

The inquest was adjourned until Friday evening, when Cox will be called to the stand.

Banks throughout the country have approximately $1,700,000,000 invested in public utilities.

More than 60 per cent. of the farmers in the state of Ohio have telephones.

# Rival Air Routes Battle For Patronage Of Public

Cleveland, O., Jan. 18.—Three years ago aerial passenger transportation was viewed by Americans in the light of a fantastic dream.

It is still considered so in many sections—

But in Cleveland and Detroit, it has developed to the point where there are even rival commercial airlines!

For two summers the Aeromarine Airways, Inc., has successfully operated daily service between Cleveland and Detroit. Now, no less a personage than Baron H. G. Fokker, famous Dutch airplane maker, has decided the time is ripe for another Cleveland-Detroit line.

**Not a Mishap**

Fokker is seriously considering an all-year service between the two cities—making the trip of 117 miles in less than an hour—according to H. A. Bruno, who is associated with the Fokker interests.

Aeromarine has maintained regular flying schedules for two summers, carrying several thousand passengers without a mishap more serious than a forced landing. In winter months, this air fleet moves south, and operates air ferry service between Florida ports, Cuba and the Bahamas.

Comfortable cabins are a feature of the Aeromarine ships. The same is true of the fleet Fokker plans to use.

**European Routes**

Since 1920, Fokker plans have been used on the following regular European air routes: Amsterdam-London, Amsterdam-Brussels-Paris, Amsterdam-Bremen-Hamburg, Berlin-Moscow, Dantzig-Riga, Vienna-Budapest.

More than 2,000,000 miles have been covered by these ships without one fatal accident. Mr. Bruno believes that an all-year-round air service between Cleveland and Detroit is practical and can be operated with the same standard of safety as are the European airways.

Two types of planes in all probability will be used: the Fokker amphibian flying boat, which has a capacity of five passengers, and the Fokker cabin seaplane, which carries six.

**Up To Date**

The passengers will be fully protected from inclement weather and during the winter season the luxurious cabins will be heated with electricity. The Netherlands Company, Fokker's American interest, is studying other routes which will connect Cleveland with the west through Detroit, Chicago and St. Louis.

Still further evidence of the development of air transportation in America is the acquisition of the Zeppelin patent rights by the Goodyear Tire & Rubber Co., of Akron, O., as part of a plan to construct and place in regular transportation work fleets of huge dirigible airships.

Eastern states are reminded of the old tow-path days by the disused canals. Is the development of commercial aviation to make the railroad tracks as much of a relic in the next half century?

# PRESS, RADIO, TELEGRAPH WIRES DRAWING WEB OF LAW CLOSER AROUND 'MYSTERY' BANDIT GANG

### News of Sensational Fur Robbery In Belleville sent To All Parts of Dominion and United States

### CIRCULARS PRINTED

### Police Officers Convinced That "Job" Was Pulled by Organized Out-of-Town Gang — Confederates Sought

With wires humming, radio broadcasting and circulars pertaining to Belleville's most sensational robbery, all being sent to every nook and corner of the Dominion and United States, the net being drawn by police authorities and various agencies is closing [illegible] day around the "mystery" bandits who invaded the city Wednesday night and made away with the most valuable haul in Belleville's history.

There are few people in Ontario today who have not heard of the most sensational burglary ever committed in the city of Belleville, the Woodley fur robbery, when between $15,000 and $20,000 worth of choice fur coats and skins were taken from the Front street furrier's between the hours of 10.30 p.m. on Wednesday night and 1 a.m. Thursday morning.

Broadcasted to the numerous newspapers throughout the Province and Dominion which use that service, the reading public will have heard the synopsized story of the robbery. Local news papers also carried detailed stories of the unusual "job".

As soon as the list was prepared by the proprietors and police officers, yesterday the complete list of stolen goods with description and identification marks were prepared and hundreds of copies printed. Yesterday copies of the circular were enroute to every city in Canada and United States, as well as each police department in every town and village in this Province.

**Provincial Officers Help**

District Inspector R. Bumpstead of Provincial Police, with headquarters here, although city work is not under his jurisdiction, took immediate action when he heard of the burglary and had copies of the list of stolen goods typed at his office. First however he notified his superior, General V. A. S. Williams, Commissioner of Provincial police, and the Deputy commissioner, that the burglary had occurred. Headquarters then notifies each District Inspector in the Province, and it is then the duty of the Inspector to notify each officer under his command throughout his district. All officers in this district have been duly notified by the officers in charge here.

**Outside Ring**

Police officers here are now convinced that the "job was pulled" by an organized, out of town gang, who specialize in this work, and also believe that confederates will receive the furs, and probably render identification impossible in their big city headquarters. The stamp marks on the inside of the furs, can be easily removed and the perforated stamp mark, which is usually put on the neck or rump of the skin, can be disposed of by cutting away a portion of the skin. Indeed there is more truth than poetry in the statement made by Mr. George Woodley, the proprietor of the victimized store, that he may in time be purchasing his own furs which will have been made up into coats.

## Scientist Predicts Huge Tidal Wave

Edinburgh Jan. 18.—An earthquake in the mid-Pacific resulting first in a recession and then arise of waters along the west coast of the United States is predicted by Milton Albert Nobles, spending a vacation here.

# CHAMBER SHOWS GOOD WORK FOR YEAR OF '22-'23

### Outline as Presented by J. O. Herity Indicates Progress Second To None

### GOOD INDUSTRIES

### Classes of New Manufacturers Obtained of Highest Surplus $4,884.37

The following report on the year's work of the Chamber of Commerce has just been issued by J. O. Herity, manager.

"After four years of successful effort the Chamber of Commerce as organized in the fall of '919 has become part of our civic life. No one feels that it is necessary any longer to apologise for its existence. The adverhe critics, who became exceedingly numerous, largely because of an unfortunate experience during the first year of its organization, have gradually disappeared and instead of fault-finding and destructive criticism the Chamber is now receiving unstinted praise from every citizen whose opinion really counts.

In presenting this report of another year's activities I would repectively call attention to the fact that it is neither possible nor practical in a report of this nature to discuss, or even mention briefly, all the different questions which came before the various meetings of directors and committees during the year.

It is difficult to state definitely in many cases, to what extent the Chamber of Commerce has been responsible for the success of the larger community progress, because it has been the policy of the Chamber not to seek popular credit but to securt the best possible results for the community as a whole, placing itself in the background an dthe City in the lead wherever possible.

Because of its very nature much of the work of the Chamber of Commerce is unrecognized. The cultivation of the spirit of co-operation, the promotion of team-thinking, the fostering and encouragement of local patriotism are not tangible or measurable but there are no movements of greater importance that could possibly engage our attention. This sort of promotional effort has been the aim and accomplishment of the Chamber since its first organization.

**Industrial Development**

There is a tendency in many quarters to assume that the bringing of more factories to the City is the sole duty of the Chamber of Commerce. No more foolish mistake could be made. Worth-while industries, organized or controlled by capable business men, will locate only in such centres as can provide favorable conditions. Any other policy would be business suicide. Make conditions right n your cty for the successful establishment and prosecution of the manufacturing industry and the factories will follow just as effect follows cause.

To make Belleville a suitable home for manufacturing enterprises as well

# MEIGHEN SHOWS FIGHTING SPIRIT IN OTTAWA TALK

### King Government's Failures Pointed Out at Ottawa Convention

### PRAISE FOR QUEBEC

### Mr. Ferguson Deprecates Friction Between Ontario and Sister Province

Ottawa, Jan. 18—The meeting last night of the Eastern Ontario Liberal-Conservative Association in numbers and enthusiasm far exceeded any similar political gathering ever convened in the capital. It was a striking illustration of the wonderful rehabilitation of the Conservative Party, and the fighting spirit displayed augurs well for the next Federal contest. In Eastern Ontario the Conservative Party is ready for the Federal fight, and it is claimed that there is not a safe Liberal seat in this part of the province.

Hundreds were unable to be accommodated at the banquet last evening, even after all the additional available space near the great dining room of the chateau was utilized. The gathering was most representative, and included among others, Sir George Foster, Lady Borden, Sir George Perley and other prominent Conservatives. Unfortunately Sir Robert Borden's temporary illness prevented his attendance, but he sent a letter of encouragement and confidence in the Conservative leaders and the Conservative party, urging a united effort and promising a glorious victory.

Premier Ferguson dealt almost exclusively with the proposed St. Lawrence-Hydro development. He also spoke strongly on the apparent effort of a certain Toronto journalist, who spoke here Wednesday, to create dissension between Ontario and Quebec.

**No Feeling Against Quebec**

He denounced this propaganda in the strongest terms, and, as an Ontario Conservative and Orangeman, denied there was any feeling in Ontario against Quebec, and also gave evidence from personal relations with the Quebec Government and people to their fairness and their desire for co-operative effort to make a united and progressive Canada.

Rt. Hon. Arthur Meighen after a caustic and exhaustive criticism of the Federal Government's failure, urged his audience to have faith in Canada—the faith shown by our grandfathers and fahers. He pointed out that Canada had come through the war financially sound and with its great resources unimpaired. In enumerating our problems, he spoke of the exodus of our people. "Emigration is the outward evidence of industrial stalemate," he said. "In point of national strength the exodus of last year alone has been more disastrous to Canada than the war. "This must be checked," he declared, and also that Canada must conserve to her own development her native born.

Continuing, he demanded relief from the taxation burdens, the conservation of the Canadian market to Canadian industry and agriculture. He defied either the Liberals or Progressives to give effect to their fiscal policies. "Surely," said Mr. Meighen, "we have gone far enough into our history now to say that to make progress toward our goal, under the circumstances which geographically and commercially surround us, our fiscal policy must be based on a pro

Continued on Page Eight.

# France Cuts Standing Army To Below Pre-War Figures

United Press

Paris, Jan. 18.—As the crowning piece news in connection with economies being made to restore the value on France, the French Government last night announced that the standing army of France was reduced to 350,000, which is 200,000 less than pre-war standard.

Premier Poincare, with an impassioned appeal to the patriotism of all Frenchmen, urging them to present the same solid and united front against the difficulties of peace as they did in war, carried the day n the preliminary encounter with the Legislative Assembly today in his efforts to improve France's impaired financial position and renovate the standing of the franc on international exchange.

First, the Cabinet adopted the final draft of the Government's program of vscal reform, including the measure providing for a 20 per cent. increase in taxation. Next the Minister of Finance, M. de Lasteyrie, introduced the measures in the Chamber, which was crowded with excited deputies. Then followed two votes of confidence in the Government, the Chamber supporting the Premier 394 to 180 in his refusal of immediate discussion of an interpellation on pensions, and by a vote of 360 to 215 his refusal to agree to a discussion of interpellations on the subject of exchange.

# WOMAN M.P. IS NEW PEACEMAKER

### Tugs at Coat-Tails of Fiery Laborite to Get Him to Sit Down

London, Jan. 18.—Shortly after Rt. Hon. J. R. Clynes had introduced the Labor party "no-confidence" motion today, the House of Commons witnessed the first radical outburst of the present session when David Kirkwood, Labor member for Dumbarton, led the left wing of Glasgow members in demanding from a government spokesman a more adequate answer to a purely routine question.

Kirkwood refused to sit down, despite loud cries of "order" and the efforts of Mrs. Wintringham, one of the newly-elected women M.P.'s, who tugged at his coat tails.

He shouted and gesticulated while the house was thrown into an uproar, and finally sat down when the speaker intimated that he would be ejected.

Clynes insisted that the opening paragraph of the King's speech declaring that Britain's relations with foreign powers continues friendly, was inaccurate.

"Are our relations with Russia friendly?" he asked.

"Moreover, our influence in foreign affairs has almost disappeared. Our prestige abroad has declined because a war spirit propelled our post war policy.

"The Baldwin government was lax in supporting the League of Nations."

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### ALWAYS TWO SIDES

The reported appointing of a Canadian ambassador to the United States by the King government in its efforts to form a policy capable of winning Western support, may in time bring an answer to some of the questions raised by Liberal members of the House of Commons when such an appointment was proposed by the Union Government nearly four years ago.

At that time Sir George Foster, as acting Prime Minister, told the House of the outcome of the negotiations between the governments of Canada, Great Britain and the United States, saying that provision had already been made for the appointment of a Canadian diplomatic representative in Washington. That representative was to have charge of Canadian interests in the United States and was to act for the British Ambassador in his absence from the Republic.

Members of the Union Government assured the House of Commons that arrangements for the appointing had been satisfactorily concluded both with Great Britain and the United States.

Mr. King, then leader of the Opposition, was insistent in his demand that all correspondence in the matter be made public. Other prominent Liberals favored the appointment of a commercial agent to the United States rather than a diplomatic representative, and Hon. W. S. Fielding was emphatically opposed to the scheme of the Government of the day.

Premier King has now the opportunity to give the situation the publicity he was so vociferous for in 1920. It would be interesting to know whether or not changes of opinion have been wrought in the time elapsed. The following from the Boston Transcdipt is somewhat enlightening.

"The discussion in Canada of the question of a Dominion Minister at Washington," it adds, "has apparently never taken into consideration whether the United States Government is likely to welcome the peculiar complications that may arise through the appointment of such a Minister, in our relations with the British Empire, of which Canada is a part. Perhaps it might be as well to take this question into consideration." It would, indeed, be as well for the Canadian people to know the attitude of the United States Government, which has a right to say whether or not it is willing to receive the ambassador of another country. The information is especially desirable since the Democratic Government, headed by Mr. Woodrow Wilson, which was a party to the negotiations prior to 1920, has been superceded by a Republican Government, headed by President Calvin Coolidge, and since the United States Senate indicated its views of the King Government's insistence upon having the Halibut Treaty signed only by a Canadian plenipotentiary by declining to ratify the compact unconditionally.

### SECURITY

Belleville, since it's incorporation as a city in July, 1878, has been remarkably free of crime, mob violence and banditry, and a feeling of security has grown to be a part of us; hence the easy manner in which thieves succeeded Thursday morning in carrying away, in wholesale lots, the valuable stock of one of our local merchants.

To the citizens in Belleville, accustomed as they were to full observance of the law, reports of banditry carried in the news columns, while interesting, seemed remote in their source, and the fact that our own city should fall prey to members of the underworld came as a rude awakening. It is to be hoped that the gang responsible for the robbery will soon meet just retribution and every support given police authorities to this end. Police officials of Belleville have always proven their efficiency, as years of security and safety denote, and working with Provincial and Dominion authorities, it is unlikely that the bandits can remain long at large.

### GOOD BUSINESS

In its summary of the iron, steel, metal and machinery markets, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its January 17th issue:

"Trade of the week in the metal working industry has advanced with confident step. Forecasts on all sides are cheerful and actual business placed indicates well sustained operations for the coming months.

"The iron and steel trade is active. Due to large contracts placed with factories, and demand for supplies on contract for first quarter operations, mills are very busy. The British Empire Steel Corporation will shortly commence work on the rolling of the 56,000 tons of rails they are under contract to supply.

"The Algoma Steel Corporation started on Monday of this week the rolling of 100 lb. rails for the Grand Trunk lines. There is a good supply of steel on hand as the steel-making division has been working for several days. Over six hundred men have been taken on during the past two weeks.

"It is understood that several locomotive orders have been placed, one with the Montreal Locomotive Works by the Canadian Pacific Railway.

"The National Steel Car Corporation have received this week orders from the Canadian National Railways for seven baggage cars and four combination baggage and smoking cars.

"Price trends of the week have been downward in the few cases where alterations have been made. Non-ferrous metals have been reduced, and mill prices on copper and brass are slightly lower.

"Pig iron quotations are firm at $29.15 Toronto, and $30.95 Montreal for No. 1 foundry iron. Sales have been small, but increased business is looked for shortly.

"Several structural steel jobs of importance have been completed recently and fabricators will shortly be in the market for supplies for the coming season. The building outlook is declared to be good.

"Old material sales are increasing, and prices are very firm at the levels quoted. Dealers find better tone in the market, with price cutting at a minimum and melters taking interest in supplies.

"Machinery and machine tool sales have greatly improved since the turn of the year. Buyers can see little chance of material reduction in present prices, and are purchasing much needed equipment."

## PRESS OPINIONS

### OBJECTORS FAILED TO VOTE
(Toronto Telegram)

Toronto electors have declared by a decisive vote that they are in favor of "daylight saving."

A determined effort was made to convince the people that it was an imposition on the mothers and pathetic pictures were shown of little Willie being hauled off to bed at seven o'clock while the sun was yet high in the heavens. But it didn't take.

If the mothers of Toronto were strongly opposed to the habit of pushing on the clock for an hour during the summer months they had an excellent opportunity on New Year's Day of giving concrete evidence of their opposition.

Fact that the by-law carried by such a large majority is ample proof that the objections to "daylight saving" are largely imaginary and that its popularity is by no means restricted to the male members of the community.

### NO OTHER COURSE
(Buffalo Echo)

In American Legion quarters and elsewhere some resentment has been expressed over the conviction in Germany of the American who tried to kidnap Grover C. Bergdoll, who evaded the army draft, during the war.

On this score the Springfield Republican makes the following sober reflection: "Displeasing as the conviction of the would-be kidnappers of Bergdoll must be to many Americans, no American court of justice could well have taken a different course in a similar case.

"Nor would those who most strongly sympathize with Griffis desire to see the legal principle established that patriotism is sufficient excuse for violating the laws of another country; that plea would receive scant consideration if advanced by an alien on trial in the United States."

### FUTILE QUARRELS
(Detroit News)

The life of Christ is the justification of Christianity. It is, so far as our begging endeavor goes, complete. When all the human kind has achieved that high moral standard, that lofty conception of humaneness, and that single-hearted devotion to the right, then let them dispute, if they still have heart for it, over whether miracles are legends.

But by then, the Christ in them will forbid such petty and futile quarrels. Of each group which lifts its voice anxiously to challenge faith, they will be able to say, as the wise Gamaliel said to the council of Sadduce who wished to oppress the apostle:

"Refrain from these men, and let them alone; for if this council or this work be of men, it will be overthrown: But if it be of God, ye will not be able to overthrow it."

### MORTGAGED EARNINGS
(Woodstock Sentinel Review)

It's a man's own business what he does with his own money, but it may also be a matter of considerable interest to other people. If, as is claimed, six million wage-earners in the United States have mortgaged their earnings for years to come in order to own automobiles, it as a matter of considerable interest to other people. The money that is tied up in automobiles cannot go to the clothier, the grocer, the butcher or the baker.

### THE LOGIC OF THE CASE

Free State Patrol—"Have ye yer permit on ye for dhriven the cyar?"

Motorist—"I have that. Are ye wantin' to see ut?"

Free State Patrol—"What for would I be wantin' to see ut if ye have ut? It's if we had ut not that I'd want to look at ut."

### RIDDLES

Why is a beehive like a bad potato?

Because a beehive is a bee-holder a beholder is a spectator and a specked tater is a bad potato.

What is it that has a head and cannot think, one leg and cannot walk?

A pin of course.

Why did they call his rooster "Robinson?"

Because it Crusoe (crew so).

What is the difference between a cat and a book?

One has claws at the end of the paws, and the other has a pause at the end of the clause.

Why is a nobleman like a book?

Because he has a title.

What does everybody give and few take?

Advice.

It is called common. It is common. But though common, it is not common enough. What is it?

Common sense.

Why are crows the most contented birds?

Because they never complain without cause (caws).

Keep me clean I'm everybody.
Turn my back I'm nobody.

Looking glass.

### GETTING BACK AT FATHER

Little Mary's father had denied her a pleasure which she had expected to enjoy. That night when she said her prayers at her mother's knee, she concluded with this petition: "And please don't give my papa any more children. He don't know how to treat those he's got now."

### WORKS BOTH WAYS

Many a man who has worked from the bottom has a son who is working down from the top.

## Music & Drama

### "HOOT" GIBSON AT REGENT TONIGHT

Desert pursuits, rides over dangerous passes and through equally-dangerous cactus, desperate battles with rum-runners and kidnapers and hair-breath escapes, all combine to supply sensations in "Blinky", new Universal action comedy starring Hoot Gibson, which opened last night at the Regent theatre. The play is something new to the cowboy star—for instead of being a swaggering hero in sombrero and chaps and wielding his trusty six-shooter, he's attired in the trim uniform of an army lieutenant, and a modern automatic and a cavalry horse instead of his old cayuse complete the new setting.

Gibson plays the part of the son of an old officer who through "pull" gets a commission. He is sent, without experience, to a cavalry camp on the Mexican border, where his tutelage in army duties is irresistibly funny. His "riding lesson" is one of the funniest affairs ever seen on the screen. One marvels at so good a rider as Gibson being able to imitate so perfectly the antics of a beginner.

The comedy situations are scattered with real dramatic skill between the thrilling bits that cram the rapid action of the play. A thread of love interest runs through it, too, and on the whole it is by far the most pretentious feature Gibson has never appeared in.

### A READER'S VIEWS ON TARIFF ISSUE

Mr. Editor,—

I beg to lay before your readers some facts glenmed from the day's reading.—During the twelve months ending November last Canada bought from other countries goods to the value of $908,000,000, being an increase of $156,000,000 over the previous year. And during the past ten months we bought woolens and worsteds from Great Britain alone to amount of 24,147,800 square yards, nearly 3 yards for every man, woman and child in Canada. The great U. S. A. only buy from G. B. but ¼ of a yard of woolens and worsteds, for they make their own. The amount Canada buys would give employment to 20,000 workers employed the year round. During the past two years or more Canada has granted reductions in the tariff on importations from Great Britain, whereas in the U.S.A. th efficacy of their tariff keeps down importations and gives employment to thousands of skilled workers.

The total investment of British and foreign capital in Canada totals over Canadians have to pay on these borrowings is nearly $300,000.00 per annum.

Since the war thousands of Canadians, unable to find work, have gone to the United States. And during that time our Canadian Tariff has been reduced four times. One wonders whether our Statesmen are working for the interest of Canadians or outside interests. Why not raise our tariff, keep our young Canadians at home by being employed upon some of the manufactured articles we are constantly importing? By so doing we would be retaining our own population, keep them employed, and in our own city and country. In no that would encourage immigration. As it is now our population does not grow other way than by adding to and retaining our population can city and country carry the staggering burdens that have been so cheerfully heaped upon us by the governing bodies.

Our Dominion Government have reduced the tariff four times, but, they have added another tax of 6% on the purchases of all manufactured products made and sold in Canada.

Canadians should get the habit of insisting upon buying only 'Made in Canada" goods. By so doing industry will thrive; people will have plenty of work, the farmers will be able to sell their products to the towns and cities, capital will be attracted by the hope of good returns, taxes can be paid and borrowings reduced.

One department of our Government are endeavoring to bring in immigrants at a tremendous cost to our burdened taxpayers and other department are permitting our sons to leave the country for lack of employment in industries.

Respectfully
FRED S. DEACON.

If Skin Breaks Out And Itches Apply Sulphur

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream gives such a quick relief even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples and roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

### ABSENT-MINDED

"There's a poor man at the door mum. He has a sign 'Deaf and Dumb.'"

"Tell him I haven't time to listen to him."

### HEADED FOR BOW WOWS

"Where to now?"

"You might say I am headed for the bow wows."

"That is?"

"I am going to the dog show."

### WANTS HIM IN A HURRY TOO

The man who informs you that life isn't worth living is the first to telephone for a doctor if a spider bites m.

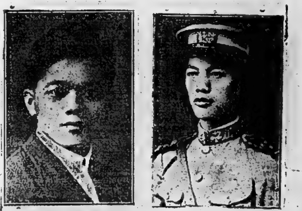
### CHINAMAN LEAVES RESTAURANT TO BECOME AIR FIGHTER IN CHINA



Henry Chew, who came to Canada as a poor immigrant lad, from China twenty years ago, is now on his way back to his native land to take service in the air force of Sun Yat Sen's army. Henry's brother is General Soo Hoo Wing, one of the officers in China's army and he has an aeroplane all ready for Henry as soon as he arrives. Henry has been flying in Toronto when he wasn't busy in his restaurant and he says he likes it fine. A number of well-known airmen of Toronto gave him a farewell dinner before he left.

## City And District

### EPIDEMIC OF DIPTHERIA

An epidemic of diptheria has broken out in Bailey's amp at Baptiste, North Hastings. Medical Health Officer, Dr. A. T. Embury, has quarantined the camp and hopes to have curtailed the spread of this dread disease.

### LUMBERING DELAYED

Lumbermen who are operating on an extensive scale are not as far advanced as they would like to be at this season of the year. The mild weather continues and very little frost in the swamps prevents hauling, especially across the lakes, the ice being very thin.

### INAUGURAL MEETING

The inaugural meeting of the Board of Education will take place this evening and the session will be one of interest. The chief business will be the selection of a chairman, the appointing of committees and chairmen of same. Dr. S. B. Sinclair, of the Educational Department at Toronto will be present and address the members of the Board relative to auxiliary classes being established in the schools.

### YOUTH ARRESTED

Arrested last night when found wandering the streets, Adrian Lavose, aged 17, who gave Montreal as his home, was this morning demanded to jail by Magistrate Masson. Chief Constable Kidd is communicating with the youth's parents at Montreal, and the youth is being held, pending the reply of his parents. Though fairly well dressed, Lavose was penniless when taken into custody by P. C. Morris.

### NOTICE

### PUT ASHES ON SIDEWALKS

Citizens are requested to assist the Public Works Department by spreading ashes or sand on all spots where ice has formed on sidewalks in front of or near their property.

The City By-Laws place the responsibility for removing snow or ice from sidewalks on occupants of property or placing ashes or sand on parts covered with ice.

Do it at once and possibly save some of your friends or fellow-citizens from injury and expense, by a fall.

CHAS. D. CAMPBELL,
City Engineer.

## OBITUARY

### MARGARET TROY

The funeral of the late Miss Margaret Troy, who died at Rochester, N.Y., took place this morning. At St. Michael's church Rev. Father Whalen conducted Mass. The body was placed in the vault at Belleville cemetery. Bearers were K. Blaind, J. Quinn, W. Sullivan, S. J. Garvin, Fred and Frank Meagher.

### MARIE A. GAUTHIER

Miss Marie Anita Gauthier, daughter of the late Joseph R. and Mrs. Gauthier, 64 St. Charles St., died at her home yesterday after a lingering illness. Deceased was in her 24th year and was born in this city. Surviving is one sister, Mrs. J. J. O'Connor and three brothers, Fred and Leo of Belleville and Harold of Toronto.

Miss Gauthier was a member of St. Michaels Church and the League of the Sacred Heart. She was a young lady much esteemed by all who knew her and her passing is sincerely regretted by her many friends.

### DIED.

GAUTHIER—Died in Belleville on January 17th, Mary Anita, daughter of the late Mr. Joseph R. and Mrs. Gauthier, in her 24th year.

Funeral will take place from her late residence, 64 St. Charles street, on Monday Janary 21st, at 8.30 a.m., thence to St. Michael's Church for mass at 9 o'clock. Interment in St. James Cemetery.

## KIDDIES PRESENT "YOU TELL HER"

### "Belleville Kiddies" Hold Forth at Griffin's Theatre With their Latest Edition

"You Tell Her" is the title of the newest two act musical farce which Belleville Kiddies and Concert Troupe presented at Griffin's Theatre last night, in which some thirty Belleville youths and maidens take an active part, together with some half dozen adult singers.

"You Tell Her" is a series of nineteen numbers through which a weak plot is threaded, and which gives way to the musical portion of the offering. The best number of the production is a clog shoo specialty by "The Two Rays," who should be featured in a longer turn with song and dance to bolster up the show. Other bright spots are a "pep" number in the first act by Miss Bernice Blaind who sings, "He's Got That Too," a Spanish Tango Novelty by Miss Lillian Marsh and Vladmire Vestoff, and a Hawaiian specialty in Act II led by Miss Marsh. Misses Marsh and B. Blaind are rightly given the lead for they are both nimble steppers, and in the tango offering Miss Marsh and Vestoff, in a prettily dressed setting certainly qualify as tango dancers. What the show lacks in action and finish is compensated for in dress and lighting effects.

Jack Scott, burnt cork comedian, under whose direction the show is presented, is responsible for what action there is in the production using the following members of the cast to assist, W. Reid, D. Carmicheal, Misses V. Morris and E. Whalen.

"You Tell Her" has a lame opening which could easily be made impressive. Singing a catchy introduction air, "We Are the Belleville Kiddies From the Best Town on Earth" behind scenes, the show really opens when Scott walks on with a monologue talk. With Scott singing a simple introduction air before the first drop, while the entire company formed behind the second drop, and were in position with all pomp and ceremony when the second drop went up, the audience would immediately be captivated by their appearance, and then impressed with their opening song about the "best town on earth." The pretty opening song goes flat behind scenes.

A four-piece orchestra associated with the concert troupe supplied the music.

Mongolia and Manchuria do an enormous trade in dog skins.

Imitation ivory is being made from the tagua nut.

The United States has one-sixth of the world's live stock.

# Automobiles as Necessity

There were approximately 4,000,000 motor cars and trucks produced in 1923. This exceeded the production of every previous year, including 1922. Present indications are that the figures for 1924 will be larger.

This view is based on the sound truth that transportation is a fundamental need—and the history of this country has proved that it is almost an insatiable hunger.

Except in periods of depression the demand for transportation has always kept ahead of fthe facilities. A major problem of the railroads at present is the inadequacy of lines and equipment to keep up with the growth of the needs of transportation. Even during the development of the automobile—the 20 years or so railroad traffic has been tripled. In the 20 years between 1900 and 1920, the population of this country increased less than 40 per cent, but movement of people and goods multiplied between five and ten times.

Yet there is really nothing surprising about these numbers—it is a matter of very simple mathematics. Four people will consume only twice as much of commodities as two people, and eight people only four times as much—but where two people only require one line of cummunication, four people require six lines and eight people 28 lines. And as the population increases the multiplication of lines of communication must increase in ever increasing ratio. The fundamental industries which provide the commodities, food, clothing and shelter grow only in proportion to the population and in some measure to the standard of living. But whereas the consumption of commodities depends on the numbers of the population, the demand for cummunication and transportation depends on the permutations and combinations possible among the population—or the complexity of relations. That is the basis for the growth of the railroad and telephone industries and the basis for the sound and sustained development of the automobile.

The automobile is a basic industry in the sense that it appears to basic human needs—to more of them, perhaps, than does any other product or service. Not only does it satisfy the necessity of transportation, but it symbolizes all the aspirations of the large mass of humanity for something beyond bread and butter. And it appeals also to pride, the love for comfort and convenience and celerity, desire for privacy, longing for possessions, and the hunger for power. In the sense, therefore, that it appeals to a larger number of needs, the appeal of the automobile is more basic than even clothing, as the clothing industry has discovered.

The future of transportation, so far as the relative development of the railroad, the trolley, the automobile and the aeroplane is concerned, will more and more depend on the respective economy and efficiency of these means. Each must establish definitely its field of usefulness and develop in that field, carrying any system of transportation Capital will not assume the burden of which is economically unsound or not practically best adapted to the needs of those it serves.

Neither will the public bear any burden of such a system—as has been proved by the development of utility regulation, public ownership and rapid growth of competing methods where existing systems have been felt to be costly.

The era of competitive railroad construction is absolutely over—the public cannot expect, because capital will not finance, a surplus of railroad facilities with which the public may play uneconomical lower rates. In fact, all indications are that the era of all railroad competition is largely over.

The same considerations apply to the trolley. In both cases no new trackage will be built unless there is a real need for it, unless it fits in with existing systems and unless it will provide the right kind of transportation at the right cost. This means that in the future, because of the inertia of capital and the slowness of construction, railroads and trolley lines will be underdeveloped rather than over-developed. There seems to be, therefore, no possibility of further substantial growth on the part of the steam railroads and electric street railways at the expense of automotive transportation because the latter is more flexible and because it does not require so heavy an investment in the first cost.

It is interesting to note that the significant developments in the railroad and the trolley are toward use of the automobile. In order to give the service needed and to get the full economy of the kind of service to which the railroad and the street railway are adapted, the more far-sighted managers of these are realizing the possibilities of the passenger and freight automobile as auxiliaries. The railroad executives see the necessity for proper feeders in the agricultural areas and for "door-to-door deliveries" in the industrial and mercantile areas—and both of these require automotive equipment.

The street railway men realize that they cannot serve economically and practically suburban areas and sparsely populated districts—and this means automobile buses. In general, those interested in rail transportation, whether intra or interurban, realize that provision for automotive transportation in conjunction with them is a valuable step toward giving the service of convenience which the public demands.

With such fundamental considerations in mind, the forecast of sustained growth of the automobile industry is the conservative view. What new mechanical developments and new progress in manufacturing will come or what new facilities and agencies for automotive transportation will have to be invented and built are only secondary concerns. The main reality is that the automobile industry must gain because it serves a basic need that will continue to be an evergrowing one.

## WHAT STARS THINK

### By Rex Ingram

"My next comedy I am sure will be the most screamingly funny thing I have ever done. You'll roar at the antics of Roman Novarro, and Alice Terry will simply rock you with laughter. They are the king and queen of slapstick! If I have done my bit to make the millions of America laugh, I am happy—but nothing I have ever done before is so uproarious as "The Pill that Phil Took—the Poor Pill!"

"Three months were consumed in the making. 20 cooks were employed to bake a thousand custard pies, and 9,000 dishes, imported from Europe some of the more elaborate scenes."

### By Mae Murray

"I love my screen work, because my temperament finds expression in the simple girlish roles I play. It really isn't work at all—it is just being myself. I love simple things—because the simple things are really the beautiful things of life, don't you think

"Dear me, no. I never have wished to play any other kind of role. There are enough actresses on the screen who delight in bizarre, exotic portrayals. My mission, I am sure is to bring to the world the message of beauty in simple things."

### By Buster Keaton.

"My forthcoming tragedy will be crowning achievement of my career, the realization of the exalted principles of our glorious art. All my life I have looked forward to the day when I could stand before the world a tragedian who belonged to the ages who had attained the ultimate in his art. Now, with my next production of "Hamlet", I feel that this lifelong ambition is to be fulfilled.

All my life I have worked for it, slayed to prepare myself for it. Critics called 'Oedipus Rex' my masterpiece; the public responded generously to my 'Macbeth' and 'Othello" but deep in my secret soul I felt that the great achievement of my career was yet to come. After my 'Hamlet' there can be nothing."

### By Viola Dana

"It has always been the passion of my life to portray truth. In my pictures I have sacrificed sentiment and everything that would veil he stark realities of the world. Real art should photograph life, and that is the highest mission of the screen—to show life as it really is, not as we might like it to be.

"My next picture, "The Sin of Susie," gives me the role of an orphan child, whose degradation is complete. Don't mention frivolous, foolish flappers. I should never portray them!"

## PAYS LODGE VISIT

Wor. Bro. T. E. Laycock, of Marmora, D. D. G. M. of this district of the Masonic Society last night paid an official visit to Moira Lodge No. 11 of this city. There was a large Society. After lodge business had been concluded a banquet was held in the banqueting hall in the Masonic Temple. Addresses were given by the D. D. G. M. and other prominent members of the fraternity.

## Cocoanut Oil Makes A Splendid Shampoo

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for it is pure and entirely greaseless. It is inexpensive and beats everything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

The Mohammedan population of the world is estimated at 227,000,000.

## Where Girl Captive Was Held

BERTHA POTTER, 22 years old, is declared to have been held captive for five years in the home of William Lent, 63 years old. Lent's home, situated in the heart of the town of Bear River, N. S. is the second building from the left. The next building is a stable, while at the end of the street is the Grant Central Hotel.

## SEE LITTLE BENEFIT LIFTING EMBARGO

### Increase of Canadian Cattle Imports Negligible, Say British Farmers

London, Jan. 18.—The comparatively small shipments of Canadian cattle to this country following the removal of the 30-year embargo was referred to at the annual meeting of the National Farmers' Union held in London. It came up in the report of the live stock committee, which stated that during the past year events had confirmed the contentions of the union, made before the royal commission which looked into the question of the importation of store cattle and reported in favor of the removal of the embargo, that the lifting of the embargo would not result in any great inflow of Canadian cattle.

During eight months, the report stated, store cattle imported from the dominion totaled 37,000, compared with 17,000 in the corresponding period of the previous year. This small increase, 20,000, had to be further discounted by a falling off of 9,000 in the number of cattle shipped from United States ports, so that the net results, as far as actually increasing the numbers of cattle coming from Canada was concerned, was negligible.

Over 100 different languages are spoken in India.

Cotton raising is making great headway in Africa.

The largest output of quicksilver on record was that of 1877.

## "Old Black Joe"

"Old Black Joe," composed by Stephen C. Foster nine years after his "Old Folks at Home," represents a transition in the creative tendencies of its composer.

Many of Foster's earlier songs were writtein for the use of minstrel troupes. For that purpose they were written largely in negro dialect. Foster's intention was to omit his name on his "Ethiopian" songs, as he called them, as he had omitted his name from "Old Folks at Home."

He concluded later, however, to reinstate his name on his songs and to "pursue the Ethiopian business without fear or shame, and lend my energies to making the business live."

Foster's intention to establish himself as the "best Ethiopian song writer" was never carried out. In 1860 he wrote three negro songs, which were the last of the type composed by him. Two of them were in the original style of minstrel jingle, but the third, "Old Black Joe", has taken its place among the beloved songs of the people.

In this song Foster has forsaken the crude dialect of the earlier songs. Although the words of "Old Black Joe" are supposed to be spoken by a negro, the language is that of the white man. Like the other great Foster favorites, the mood of this song is one of gentle melancholy and the music is of wistful tenderness.

## KNIGHTS HOLD CARD PARTY

### Interesting Musical Programme Follows Euchre Prize Contest

More than two hundred persons attended the Knights of Columbus euchre party at the club rooms last night, where the following prize winners were declared, Ladies First—Miss Cairoll, 2nd Miss Frances Wims consolation Mrs. P. Flagler, Gents first L. P. Hughes, 2nd Thomas Cushing and consolation Dr. O'Brien.

Following the card contest, lunch was served. The musical programme was presented by Harold Barrett who sang two solos, Mrs. Barrett playing the piano accompaniment; and Miss Katie Rawden, who also gave a pleasing solo Miss Bessie Dolan playing the accompaniment. Miss Anna Lafferty gave a recitation, which was well received.

Members of the committee which planned the successful event are: Messrs. John Fitzgerald, S. J. Garvin Terry Scanlon, John Murphy, Louis Howe and Edward O'Rourke.

## Chamber Shows

Continued From Page One

as a favorable environment for the employees and workingmen connected with industry has been the first aim of the Chamber of Commerce.

### The Only Quick Means To Promote Expansion

As industrial development is the only means open to old-established communities in Eastern Canada to promote rapid growth or expansion it need occasion no surprise that all wide-awake towns and cities regard the acquisition of manufacturing enterprises as of first importance.

But the extreme commercial depression that set in during the year 1920 still continues with undiminished intensty. In fact the situation in many lines is really more serious than at any previous time. Aside from those industries connected with the automotive and building trades extremely difficult condtions still persist. Manufacturers are therefore, except in a few favored lines, not thinking of expansion but of how to maintain the ground already taken or to stand off their creditors.

In view of these adverse facts and conditions is it not highly satisfactory that Belleville has, during the past two years, been able to secure the establishment here of no less than thirteen new industries.

### Six American Branches

Of the new arrivals no less than six are new branches of American industries, and four of them, the most important of their kind in the world. As these are the first American branches to be secured for Belleville it is extremely gratifying to know that all have come here without costing the public one dollar by way of free sites, bonuses, or guaranteed bonds.

Two other wealthy and very important American industries have practically decided upon Belleville for the home of their proposed Canadian branches and prospects are extremely bright for their establishment here within the next six months

The American branches already secured are The American Optical Co., Southbridge Mass, largest manufacturers in the world of spectacles and allied lines; The International Burr Company of Watertown, N.Y., manufacturers of burrs used in the pulp-making industry; The Alemite Products of Canada, Limited, a branch of the Bassick Mfg. Co., of Bridgeport, Conn. and Chicago, Ill., largest manufacturers of furniture casters and hardware; The Marvel Equipment Co., of Cleveland, Ohio, largest manufacturers of grease pumps, also gasoline and oil handling apparatus; J. & J. Cash, Inc., of South Norwalk, Conn. Los Angeles, Cal., Coventry, England and Melbourne, Australia, world's largest manufacturers of woven labels and kindred lines; The National Fire Extinguisher Co., of Gouverneur, N.Y., manufacturers of dry chemical fire extinguishers.

Such a record in the short space of two years is one of which every citizen of Belleville should feel exceedingly proud. It is a record which no city in Ontario, with less than 50,000 inhabitants has been able to equal in the same period of time.

## CANNIFTON

Mr. and Mrs. Graham, Marmora, spent Sunday at Mr. S. Bird's.

Mrs Allen Leslie, Brighton was at Mr. C. Mills over Sunday. She was here attending the funeral of her mother Mrs Geo. Mills.

Mr. Will Ibey, Peterboro, was a week end visitor in the village.

Mr. Robert Dunning had another bad attack of heart trouble but is able to be around again.

Who says we did not have a January thaw just take a walk along our streets.

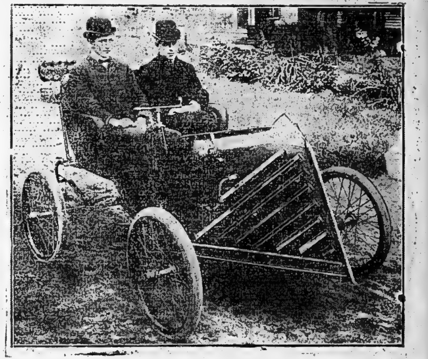
The Thurlow council for 1924 held their first meeting in the town hall Monday. There was a full attendance and much business on hand. Mr. G. Sills occupied the chair so long and ably filled by the late Mr. M. Vermilyea. Will it be U. F. O. or just plain farmer as all the members from Reeve to pound keeper are farmers.

### No Wonder She Kicked

Lawyer—I have succeeded in making a settlement with your husband that is eminently fair to both of you.

Mrs. Triplewed—Fair to both! I could have done that myself. What do you think I hired you for?—Boston Globe.

## ARRESTED FOR SPEEDING



YES SIR—They did twelve miles an hour on Spadina Avenue, Toronto, and were promptly arrested. That was in 1906, though. The car was imported from France, held three gallons of gasoline and was one of the first terrors of Toronto streets.

HERE, THERE AND EVERYWHERE

## 34th BATTERY SQUAD TO MEET KINGSTON TEAM HERE TONIGHT

If records count the two fastest teams in the Bay of Quinte Hockey League will clash at the arena here this evening at 8.15 o'clock. Kingston's team in this league have won both games which they have played to date, having defeated Napanee at Napanee and defeated Point Anne at Kingston. Belleville's team, the 34th battery boys, won their first game handily at Point Anne, where they defeated the Point six by a comfortable margin.

Tonight at the arena here, those two winning teams, Kingston and the 34th battery boys, clash for the first time this season and naturally the fans are very anxious to know which team will be supreme. Besides the worth of tonight's game is a feature not to be overlooked as a win for Kingston places them well out in front while a win for the locals pulls Kingston down to the "two apiece" basis which Belleville would possess in the event of their winning.

That is the attraction, and the situation and the price of admission to the intermediate league game is very reasonable, and should appeal to all lovers of the winter game.

Alderman R. J. Earl Graham who is naturally greatly interested in the soldier team stated this morning that the same lineup of players who disposed of Point Anne would be flung into the attack tonight, and also stated that the ice sheet at the arena is excellent. With keen ice, a fast hard game is anticipated.

## Gladys Robinson Breaks Record

**Pittsfield, Mass., Jan. 18.**—Two world's records were broken on Onota Lake yesterday by Everett McGowan of St. Paul, Minn., and Miss Gladys Robinson of Toronto, who set new marks for skating 100 yards.

McGowan, skating 100 yards paced, covered the distance in 5½ seconds. He was able to keep up with the automobile which paced him and which, the timers said, attained a maximum speed of 52 miles an hour.

The amateur women's record for 100 yards was broken, when Miss Robinson, skating unpaced, from a standing start, established a mark of 10 2-5 seconds.

### New Spring Styles

Wrestlers will wear non-refillable, hand-carved noodles of concrete with thought-proof attachments.

• • •

Chess players will wear long, owlish expressions with ingrown dispositions buttoning up the back.

• • •

Prize fighters will wear beautiful hand-ruffled ears pinned back and roaming noses caught in plaits in the French manner.

• • •

Olympic mermaids will wear heavy flannel [illegible] smiles with reversible cuffs, or nothing, if game.

• • •

Master minds will wear formfitting alibis with invisible brain stripes cut on the bias.

• • •

Indoor golfers will wear ruddy alcoholic glow with double-breasted pink camel delirums and bell bottom hangovers.

• • •

Squash players will adhere to a strict vegetarian choice in hair nets.

• • •

For formal affairs and other grudge battles, hockey players will carry gold-tipped canes, plush-lined lorgnettes and lotta insurance.

• • •

Mah Jongg addicts will wear 16-ounce gloves, elbow length, and will break at the command of the referee.

• • •

Duck hunters will find the new Elizabethan hip pockets amply big enough, and the popular ambidexterous corkscrew most satisfactory.

The particular matador will see that his bull is fashionably shod in the new, stylish four-brake goloshes.

• • •

Ritz and Campany are displaying a gorgeous line of boudoir caps and sleeping gowns, especially suitable for English heavyweights.

### From "GOING HOME"

"I tread each mountain waste austere,
I pass dark pinelands, hill by hill;
Each tardy sunrise brings me near,
Each lonely sunset nearer still.
"Sing low, my heart, of other lands
And suns we may have loved, or know;
This silet north, it understands,
And asks but little of its own!
"So where the homeland twilight broods
Above the slopes of dusky pine,
Teach me your silence, solitudes;
Your reticence, grey hill, be mine!
"Whether all lovliness it lies,
Or but a lone waste scarred and torn,
How shall I know? For 'neath these skies
And in this valley I was born."

—Arthur Stringer

## ON THE ALLEYS

The Printers bowled a tidy game at the Y Alleys last night coming within nine points of a 2600 score and winning from the Excelsiors by 225 points. Wannacott and Barlow were a strong combination for the Printers whilst Yerex and Herity helped to boost the Excelsiors stock.

## SPRING DATES FOR LEAFS MADE

### Leafs open up trip on March 19th at Macon—Play Ten Games With Tigers

Toronto, Jan. 18.—Manager Dan Howley of the Toronto club has not been wasting his time in Georgia, where he is wintering with Ty Cobb at Augusta. The leader of the Leafs sent along the complete training trip itinerary of the club. Twenty-two games are scheduled, ten of which are with the Detroit club. The first game will be played at Macon, with the Sally League club of that place on March 19, a little over eight weeks from today. Outside of the series with the Tigers the Leafs will not meet any clubs of better than Class A distinction. The trip will wind up with four games in the east, two with Springfield, Mass., and two with Waterbury, Conn., the club to which Esubelo Gonzales was sold. The training trip dates are as follows:

March 19—Macon, Sally League, at Macon, Ga.

March 20—Detroit Tigers, at Macon, Ga.

March 21—Macon, Sally League, at Macon, Ga.

March 22—Detroit Tigers at Augusta, Ga.

March 23—Sunday (no game).

March 24—Detroit Tigers, Greenville, South Carolina.

March 25—Detroit Tigers, Winston Salem, North Carolina.

March 26—Detroit Tigers, Greensboro, North Carolina.

March 27—Detroit Tigers, Raleigh, North Carolina.

March 28—Detroit Tigers, Charlotte North Carolina.

March 29—Detroit Tigers (second team), Anderson, South Carolina.

March 30—Sunday (no game).

March 31—Spartanburg, Sally League, Spartanburg, South Carolina.

April 1—Spartanburg, Sally League Spartanburg, South Carolina.

April 2—Detroit Tigers, Greenwood, South Carolina.

April 3—Off day.

April 4—Ashville, Sally League, Asheville, North Carolina.

April 5—Greenville, Sally League, Greenville, South Carolina.

April 6—Sunday (no game).

April 7—Charlotte, Sally League, Charlotte, North Carolina.

April 8—Charlotte, Sally League, Charlotte, North Carolina.

April 9—Richmond, Richmond, Va.

April 10—Norfolk, Norfolk, Va.

April 11—Springfield, Mass. Springfield, Mass.

April 12—Springfield, Mass., Springfield, Mass.

April 13—Waterbury, Conn., Waterbury, Conn.

April 14—Waterbury, Conn., Waterbury, Conn.

April 15—Off day.

April 16—Open season at Newark, N.J.

## Miners 5 to 1 in Favor Of a Strike in Spring

London, Jan. 18.—Miners federation headquarters here made public today the figures of the recent ballot taken throughout the coal fields. They show that the vote was 510,303 for the termination of the national wage agreement and 114,553 against the termination. As three months notice must be given by the miners' executive to the owners announcing the termination of the agreement, there is ample time for negotiation as to reconsideration of the miners' demands for more money before there is a resort to the strike weapon.

## QUEEN'S OPPOSED TO PRO SYSTEM

### Players in O.H.A. Intermediate Team Rebel Against Five man Defence

Kingston, Jan. 18.—For the past two years the hockey fans who have for years been in the habit of attending the games in which Queen's teams take part have been dissatisfied with the system of hockey which has been played, and during the past week some of the hockey players themselves claimed that they were "fed up" These students met and decided that they would present their case to the athletic board of control, which they did. Among the Queen's men who do not like the professional style of game are Jack B. McKelvey, "Chick" Mundell, "Doc" Campbell, Gratton, George Stewart, Ritchie, and many others. With the consent of the athletic board, these students, headed by McKelvey and Mundell, have been given permission to handle the intermediate hockey team, which will operate in the O.H.A. series. Regular practices are being held, and the students are keen.

The hockey fans and the players claim that under the professional system the fans do not get a chance to become enthused owing to the fact that there is no excitement in front of the nets, as there used to be in the old days. Under the professional system the players go down the ice and when they shoot on the nets and the puck does not enter they make no attempt whatever to follow their shot in, and in so doing lose chances of scoring many goals. The players are taught to skate back to centre ice and wait until their opponents come down the ice. In other words, it gives the opposing team a chance to get up speed and create a system of combination. It is a well-known fact that the attendance at the Queen's hockey games has dropped off since the professional system of play was introduced.

### JUNIORS BEAT PICTON

Belleville Junior O.H.A. squad continued their string of wins this season without interruption when they defeated the strong Picton team on Picton ice by the close score of 5-3. Locals have defeated all comers to date and are still going strong.

### FINED FOR INTOXICATION

Bruce Richardson, Thos. Bellas, Lionel Wilder, Edward and John Titterson yesterday afternoon before Magistrate Masson pleaded guilty to a charge of intoxication. A fine of $15 and costs was imposed upon all of them which fine was paid. The accused are all residents of the township of Thurlow. The charge was preferred by the Provincial Police. Mr. B. C. Donnan, Crown Attorney, represented the prosecution and Col. E. D. OFlynn appeared for two of the accused.

## RAILWAY TEAMS PLAY SATURDAY

The office staff of the C. N. R. terminal here have rounded out a fast moving hockey team, and have bought new uniforms in readiness for their opening game here tomorrow night at the arena. Tomorow night at 6.45 they will meet the Simcoe Freight shed six of Toronto in a friendly exhibition game, which will be free of charge to fans who wish to see them go.

## BRIEF SPORT COMMENT

The body of Charles Hackenschmidt former professional wrestler, who was killed by another man at Greenville Texas, last week, is unclaimed in the Greenville morgue. George Hackenschmidt, brother of Charles and former world's champion claimant, is reported to be in Europe.

Funny thing how the crowd takes this ragging in pro. hockey. When the visitors are short-handed and chase the puck up and down behind their own net or hoist it to the far end, the crowd boos, but when St. Pat's do it, they cheer. Beautifully consistent aren't they? They are not!

An event unprecedent in O. H. A. hockey history was the operation of an excursion by steamer for the match between Brockville and Kingston Frontenacs at Brockville Friday night The party was brought to Brockville from Morristown N. Y., by the steamer Victory, the River St. Lawrence being al free of ice between these ports.

St. Pats are now in second place in the N. H. L. race, but they are not sitting pretty. Canadiens are only one game behind them and they have St. Pats in Montreal Saturday night. Canadiens cannot afford to lose any more games and will be playing like madmen Saturday to beat St. Pats and tie them in second place. Second place is as good as first in the regular series. It means a play-off for the championship, and that is all Leo Dandurand wants for his Canadiens. A letter from a well-known Cobourg sportsman calls attention to the actions of a bunch of rowdies at hockey matches in that town. He writes: "I hate to say it, but the actions of about a dozen or twenty roughnecks who attend hockey matches in this town is disgusting decent local patrons and killing the attendance. Decent people will not go to the hockey matches and see these rowdies stand along the sides and blackguard and abuse visiting players. They all come armed with sticks and they not only use them to make an unearthly din pounding them along the sides, but I have seen more than one visiting player prodded by these cowards along the boards. Whenever there is an argument on the ice, these ruffians are over the fence and butting in. If our own police will not curb them then the O.H.A. should step in and make the rink people control them or close the rink to hockey." It is a fact that complaint has been made to the O. H. A. and a quiet investigation is in progress. Palmer, an Oshawa junior, who was injured in Cobourg Monday night, says that it was a spectator who injured him, and not a player. All the teams in the group agree that Cobourg players are a decent lot, but they complain about this same gang of rowdy spectators.

## LOCALS TO MEET FRONTENAC SQUAD

### Double Header at Kingston Arena To-night Should Attract Crowd

The Intermediate O.H.A. squad left this afternoon on the Ottawa flier for Kingston where they meet Frontenacs in the return engagement. There are two games at the Jock Harty arena tonight, for Brockville play Queen's there this evening also. Belleville figures in the second game which is slated to commence at 9 p.m.

Brockville are coming up to the Limestone city in a special train, and a large number are following the locals down, so that with the crowd that Kingston's two teams will draw, the arena should be well filled tonight.

Belleville lineup will in all probability be the same as the lineup used here on Tuesday evening last against Cornwall French men so successfully.

**Listen!**

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

While no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and healing commences.

**FREE TRIAL.** Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c box.

**Peps**

## No 'Flapper' Dictation

New York, Jan. 18.—"You who are past 40, look into your mirror and count 10 before following the fashion dictates of the girl of 16."

This is the advice given to women by Mrs. Albert H. Hildreth of Syracuse, N. Y., formerly president of the New York State Federation of Women's Clubs.

The sixteen-year-old is the arbiter of fashions to-day, she believes, and in spite of their experience and their accumulation of wisdom, women of middle age are easily wheedled into fashions by the flapper—just because they don't think.

Mrs. Hildreth believes that the beauty of the woman of 40 is as distinctive as that of the sub-deb, but the sartorial requirements of the bud and the blossom are different.

"The woman of 40 need only be as firm about what she wants as the girl of 16 is," she states, "to get a fair real from Fashion.

### Mind Set

"Youth doesn't compromise. The flapper flatly accepts or discards a fashion. She makes her demands so insistent that she hammers them into the consciousness of fashion designers.

"Older women know what they want just as well as the flapper does, but they accept substitutes."

Mature women may note the dictates of the young girl in dress, but they should use discretion in following them, Mrs. Hildreth thinks.

"But don't go to the other extreme," she cautions, "and say that every style dictated by the young girl is foolish. This is poor sportsmanship. Sales women tell me that the average young girl, allowed to select her own frock, will inevitably select a simple one. It is the mothers who want the frills and the furbelows.

"The young girl keeps a knowing eye on line and color effects. She knows how to give a certain individual touch to any frock.

### She's Right

"The flapper is nine-tenths right in her adoption of simplicity, but mother must remember that this can be overdone, particularly if the figure has lost its slenderness.

"New shades are very fascinating, but let they also call for discretion. Love-apple red, for instance, is not for mother.

"The rule of the young girl in dress is here," she concludes, "let us be good sports and face it, but let us not be too submissive.

"We can make ourselves a power, too, if we take our stand."

### STILL HUNTING TROTSKY

Moscow, Jan. 18.—Efforts to locate Leon Trotsky, Russian War Minister following publication of reports in Paris that he had been arrested, resulted in conflicting information from various sources.

### Million For a Meal!

A million for a meal! That was the price paid on the campus of Toronto University Thursday, but the currency was marks and rubles—in Canadian coin 25 cents—a quarter dollar.

Such a meal it was, soup to be consumed without that useful culinary article, a spoon, and black bread without butter.

This is one of the many stunts carried out this week by local students and coeds to raise funds for European student relief. The soup kitchen—a regulation army portable affair—was well patronized and in most cases the 25 cents was doubled or trebled.

Poor little bobbed haired waifs sat about in Hudson seal and coon and muskrat coats sharing their frugal meal with husky hockey players swathed in immaculate woolens and everyone seemed to enjoy the gastronomical adventure of Russian soup a la Varsity.

### MILLINER CLIMBS TO OPERA STARDOM

St. Louis, Jan. 18.—Grand opera plots have nothing on the true life story of Elda Vettori, who is singing her way to fame and fortune with the Can Carlo Opera Company.

Elda did not step from an easy chair to the stage. Long years filled with despair, ambition and hard work intervened. It was worth while—Elda Vettori to-day is being hailed as a successor to the renowned Fremstad.

Elda was 8 when the family came to America from Venice.

The family fortune had dwindled. Then Pietro Vettori, the father, died and the two eldest children became the family providers. Elda became a milliner's helper and her sister, Marina, a tailor's apprentice.

Suddenly it dawned on the family that Elda was gifted with a voice. Yet Marina, like a fairy grandmother, dispensed with her few pleasures and turned every cent she earned over the Elda in order that the voice might some day be heard.

Forsaking a milliner's career, Elda caught on with a local comic opera troupe. She studied grand opera.

One night the San Carlo company "Cavalleria Rusticana" was to be the production, but the principal who was to play Santuzza, was ill.

This was Elda's opportunity, she made good.

Elda went to New York to continue her operatic studies. Sister Marina followed and, through her work as designer, supplied the necessary funds for the vocal education.

When the San Carlo company made its debut in New York the role of Santuzza was enacted by Mme. Vettori.

Back in St. Louis an anxious mother fingered a telegram bringing the first news of her daughter's success.

**Good Health Secret Of Beauty**

Beauty lies in the care a woman bestows upon herself and in keeping at bay those dread ailments peculiar to her sex, which drag her down and leave telltale traces upon her countenance. Sparkling eyes, the elastic step and a clear complexion never accompany organic troubles. Distressed expressions, a sallow complexion, dark circles under the eyes, lassitude, headaches, and mental depression are the telltale symptoms of women's ailments. Women so troubled should not lose a day in taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, the most successful remedy known to overcome woman's ills and restore health and beauty.

**MOTHERS--**

### OLD RESIDENT DIES

Campbellford, Jan. 18.—The sad news of the death of Harry Burleigh, son of Mr. and Mrs. Saunders Burleigh, which occurred at Oconto, Wisconsin, came as a great shock to his many friends in Campbellford. Deceased was connected with the Trent Valley Woolen Mills here some years ago. The remains will be brought to Campbellford for burial. The funeral will be under Masonic auspices, announcements of which will be given later.

**Have Dark Hair And Look Young**

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this old-time recipe improved by the addition of other ingredients all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

## That Body of Yours

By James W. Barton, M.D.

### HOW MANY HOURS A DAY DO YOU WORK?

I heard a man say that he was working fourteen to sixteen hours a day, every day in the week.

I think he honestly believes that he works this long.

As a matter of fact, he is "on the go" from morning till night, but he has so many "rests," so many "changes" throughout that time, that I think ten hours would be nearer his exact working hours.

I don't think it possible to tell any person exactly how long he should work each day.

There are two points to be considered—the man and the job itself.

There are some men that can stand almost any amount of hard muscular work, that would be worn out in a few weeks if in addition to the hard work, they had to assume some responsibility along with that hard work. Others could take the responsibility without much wearing on the system.

Some folks point to the old days when a man worked from six in the morning to six at night. The same workman now would work from eight to five.

In addition to this he gets a weekly half holiday on Wednesday or Saturday.

Is this lessening of the hours the interest of the work and the man?

I think so.

In these days the machines travel faster, and there is more hustle about the factory than when hand word was in vogue.

Everything and everybody is "on the jump" and so fatigue comes on sooner.

These efficient fellows find that most of the accidents occur just before the noon hour, are not so frequent early in the afternoon, and then becomes more frequent as the working day nears its close.

Further, where a machine job has to be watched to the exact detail, and to the exact minute, the nervous tension brings on fatigue much sooner.

Where the machine "runs itself," requires no attention, unless due to accident, fatigue is much slower in its onset.

Now what was I trying to prove?

Well, you've only got the body that was given you, which you have either improved or impaired.

If you have a job that calls for exactness and attention to the very last detail, then you should not work more than your strength will stand.

Eight hours of this is harder than twelve hours of labor where the brain is not used. You need nourishing food and plenty of rest with an extra holiday occasionally. And during your rest periods be sure that it is really "rest" you are getting.

### RIGHT

Assistant—"Here' a woman writes that she doesn't know which way to turn."

**HAVE YOU A DAUGHTER? IF YOU HAVE, THIS ARTICLE WILL INTEREST YOU!**

Hamilton, Ont.—"Dr. Pierce's Favorite Prescription is the best medicine I have ever known for the building up of girls and women who are run-down in health. It has been taken by different members of my family with great success. My daughters have been wonderfully helped during motherhood by taking Favorite Prescription; it is the best medicine the expectant mother can take for health and strength. And after having the influenza my granddaughter was left in a very bad way and nothing in the way of medicine gave her any help until she began taking Doctor Pierce's Favorite Prescription, and thru the use of this medicine her health was completely restored, and she is as well as ever."—Mrs. Sarah Wilshaw, 405 Cannon St., E.

Go to your neighborhood drug store at once and obtain this Prescription of Dr. Pierce's, in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package.

### IT REACHED HIM.

A letter was received at a certain post office directed to the biggest fool in that city. The postmaster was absent and on his return one of the younger clerks informed him of the receipt of the letter.

"And what became of it?" inquired the postmaster.

"Why," replied the clerk, "I didn't know who the biggest fool here was, so I opened it myself."

"And what did you find in it?"

"Find? Why, nothing but the words: 'Thou art the man.'"

**Cold Completely Cured With Two Bottles**

Most colds are the result of a weakened condition of the system. Nothing will undermine your health so quickly as a cold. More consumption results from neglected colds than any other source. When you notice a cold developing build up your system. The most effective way to do this is to take a tonic—Carnol. Mr. Harry Heller, of Regina, cured a cold of two months' standing by taking Carnol. Read what he says:

"After having used two bottles of your Carnol, I find that it has completely removed my cold from which I have suffered since the first week of December last. All other remedies have been failures and I strongly recommend to others who have been suffering from a similar ailment to try a bottle of your Carnol and I am sure they will not regret such a purchase."—Harry Heller, 2126 Broad St., Regina, Sask.

Mr. Heller suggests trying a bottle, but to get the full benefit of this wonderful preparation, you should take a Course of Carnol. 4-9

*Carnol is sold by all good druggists everywhere.*

## Figures In Wedding That Surprised Gotham Society

This is the Count Ludwig Salm-von Hoogstraeten, former Austrian cavalryman, who married the country's greatest heiress, Millicent Rogers, daughter of Colonel and Mrs. Henry Huddleston Rogers.

### SPEAKING IN WAVE LENGTHS

"Les see," mused Claudine of the rapid fire restaurant. "How long has Yosabelle been keeping company with Scrappy?" "Aw, about two permanent waves," responded Heloise, the head waitress.

Millicent Rogers, "$40,000,000 heiress," gave New York society a shock Ludwig Salm-von Hoogstraeten, former Austrian cavalryman. Miss Rogers is a

## Price Scores

( continued from page one.)

He then explained that on August 13, the province was faced with the payment of the educational grants which came to a total of approximately $2,500,000.

"This sum had to be paid," he declared, "and we went about it in the regular way by withdrawing the necessary money from the various banks in which we had it deposited at the time. Naturally the larger amounts were taken from the banks containing the largest deposits."

In making withdrawals of large denominations it was the policy of the government to advise the various banks involved, ahead of time so that they would not be inconvenienced in any way. This was one of the duties of the assistant treasurer, and he had done it in this particular instance.

**Bank Was Notified**

"Was the Home Bank included among those that were notified?" asked The Star.

"It was," replied Col. Price, "and no objection of any sort was raised at the time."

As much as a million dollars was drawn from one of the chartered banks that week, and half a million was taken from several. In one instance half a million was withdrawn from an account which did not total more than a million.

## First Definite

Continued from page one.

the judgment and have got it. Whatever theories there may be on other questions, it is clear that the opposition parties were not sent back (in the recent elections) to maintain the present government in office."

Continuing, Mr. Asquith said: "The situation that confronts us—the situation of three independents and organized parties, more insignificant in numbers and none comanding a majority of votes—is unexampled. But under these conditions, unexampled as they are, the Labor party has the absolute and undoubted right and claim to assume office."

**No Fsion Possible**

"It is said this will mean that for the first time a socialist government will be in the seats of the mighty. During the last month I have been threatened, browbeaten and all but blackmailed to step in as the savior of society. I decline altogether to believe that the situation is going to set on the power and prosperity of Great Britain on the evening of the day when Ramsay Macdonald takes his seat.

"It is sufficient to say that the present government will be remembered for its vacillation and impotence, both at home and abroad. I have had prolonged experience in public life and have known administrations that I have disliked before but there is none which has done more actual mischief and I have never known any when it had to surrender its stewardship to the crown, which had a smaller balance to its credit.

"There can be no question of coalition or fusion between the Liberals and Labor because the difference that divides them on the fundamental issues of national policy cannot be bridged or voided by insincere accommodation, but on many social and national questions there is room for co-operation not only of the Liberals and Labor but, I believe, of many Conservatives."

The division of the House which will complete defeat of the present government is expected about 11 p.m. Monday.

Keen debate on the Clynes amendment is expected throughout the sessions until the vote Monday night.

It is predicted the government will be defeated by a majority of about 30, although reports are that 50 or 60 Liberals will condemn the policy of their leader, former Prime Minister H. H. Asquith in defeating the Conservatives to enable the Laborites to come into power.

**To Put Up Hard Fight**

About twelve Liberals have expressed their intention to support Baldwin. It is believed dissatisfaction in the Liberal party is likely to cause a limited abstention in voting, but the government would need at least 100 such abstentions to avert defeat.

Meanwhile, it is said that Labor may rely on benevolent treatment from another quarter. Prime Minister Baldwin has already undertaken to withhold "factious opposition" to Mr. Macdonald's government when it is established; and the support of Herbert Asquith and Lloyd George is assured him. Now, according to the political correspondent of the Westminster Gazette, the Federation of British Industries, a powerful association of the leaders of big business, is prepared "to do what is in their power to assist the Labor government, provided the latter do not govern the country in the interests of any one class."

HYDRO POWER

**LOOKING INTO THE FUTURE**

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which reduce all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

## BALKAN POWDER BARREL STARTS FUMING AGAIN

Athens, Jan. 18.—Macedonia, the powder barrel of the Balkans, has ominously started fuming again. The invisible Macedonian Government, having Tudor Alexandroff, supported by Bulgaria, is beginning to levy taxes throughout Old Macedonia, particularly in districts now belonging to Jugo-Slavia.

## Meighen Shows

(Continued from page one)

tective principle.'" He further reasoned that "the acceptance of the protective principle is basic; it must be recognized, and definitely recognized, as the continuous dependable policy of Canada."

He concluded with an arraignment of the Government's extravagance, and its failure to reduce either expenditure or taxation, showing where millions could be saved, and the people's burdens lessened. He also attacked the Canadian representatives at the Imperial Conference for their failure to join with the other Dominions in urging the acceptance of the principle of Imperial preference within the Empire.

### Too Many Going to U.S.

We don't worry over a certain amount of interchange of population; this is inevitable, but to-day the balance is sadly against us, and it ought to be strongly in our favor. The way things are going now a large share of the money spent on education, millions and millions a year, turns out really to have been spent for the benefit of the United States. The trained and cultured sons of Canada are attracted over there.

"Then, too, and last of all, a measure of discontent, greater than for many years gone by, exists in the Maritime Provinces and in the Prairie West. These great sections of our country feel, each of them, that they have not been treated as equal partners in Confederation. I am quite aware that some feeling of this kind has subsisted for many years, but it was never so acute as now. The Maritime Provinces believe that their access to the central markets of Canada is too burdensome, and, as well, they believe that a greater effort should be made by the rest of the Dominion to divert export traffic through their ports. The West has been taught, without the least sincerity, that the tariff was the cause of their trouble. Other grievances they complain of, too, Generally, the state of mind, both in the Atlantic provinces and in the Prairies, is far from being healthful and wholesome as reports the entire Dominion.

"These things demand the attention of the public man and they must be remedied."

### No Progress Towards Solution

The Government, declared, Mr. Meighen, had made absolutely no progress in the solution of a single one of these major problems. The weight of taxation, adding to the burden of the consumer, had increased the economic strain on agriculture. He demanded immediate action by the Government to bring relief. In some branches of agriculture the margin between the cost of production of farm products and their sale price had been wiped out altogether. Progressive and Liberal leaders declared that the cure was to be found in wiping out the tariff on foodstuffs, farm implements and other importan tclasses of commodities.

The Progressive leaders and the Liberal leaders now command more than two-thirds of the House of Commons, and on fiscal policy they cannot be defeated in the Senate. They have the situation in their hands. I defy them to put their program into effect,'" said Mr. Meighen. "The whole of Canada defies them. Their vaunted remedy of 1921 was a quack remedy. It was a false and perilous remedy, and every man knew it was. And to-day, though on this question they have absolute command and an overwhelming majority, they dare not apply that remedy.

"The country watches them to-day looking on in pallid helplessness, prostrate before the problem that they cannot cope with, wearing the uniform of office but without leadership, without command, without policy, feebly fumbling with the task they courted."

## COUNCIL DEADLOCKED

(Continued from page one)

Mr. R. Thompson stated that the two companies quoted in his tender were Canadian Companies and reliable.

### City Own Insurer

Ald. Greenleaf desired the view of the members of the council as to the advisability of the city carrying it own insurance. If we can use this insurance money, it is well."

He moved that the city carry its own insurance for this year.

Ald. Robinson—"We tried this a few years ago and the Council was sick of it and gave it up. It was two expensive."

Upon a vote being taken Ald. Greenleaf's motion was defeated.

At this stage of proceedings the council adjourned and went into committee to consider the tenders submitted.

Upon the council reassembling a motion was made to give the insurance to the H. F. Ketcheson Company and an amendment that it be given to Mr. S. J. Fisher. The vote was a tie, five voting for the motion and five for the amendment.

As there was not apparent indication of the dead lock being broken the council adjourned and a special meeting will be held on Tuesday evening next when it is anticipated all members will be present.

The absentees were Aldermen S. H. Treverton, R. P. White and W. H. Patterson.

### Recommendation

A recommendation was adopted that a small double lock safe be procured for the use of the City Treasurer.

## BELIEVE WILL CASE TO TOTAL $25,000

Toronto, Jan. 18.—With the prospect of the W. H. Hill will case continuing for three more weeks, the total fental expenses may amount go $25,000. The hearing has already occupied ten days, and figuring on a conservative estimate of $1,000 a day for the combined fees of all the counsel engaged; the prolongation of the case for another 15 days (three court weeks) would bring their total bill up to $25,000.

E. Nield, C. S. R., the official court reporter, has already taken down 350,000 words. The total record will probably contain 800,000 or 900,000 words. Eighteen witnesses have been heard to date.

## CUBA CANE DIVIDEND

New York, Jan. 17.—Prospects for the early resumption of dividends on Cuba Cane Sugar preferred stock are good, according to Alfred Jaretzki, a director of fthe company, who presided at annual stockholders' meeting yesterday.

## GOLDEN WEDDING HAPPY OCCASION

### Mr. and Mrs. William Portt of Tyendinaga Wed Fifty Years

Fifty years soon slipped by in the lives of two persons and have joined their plans of life together and have lived happy and contented with their family and have been an ornament to the community in which they live. This is not a too strong expression to use in speaking of Mr. and Mrs. William Portt who on the 14th of January 1874 were married in the Township of Tyendinaga and resided there ever since.

When the Golden Anniversary of their wedding arrived on the 14th day of January 1924 a jolly assembly of descendants of this fine old couple gathered at the homestead where now resides their son, Robert Arnold Portt and is following all his fathers and mothers ways, and no doubt will prove as good a citizen and as highly christian character, owing to the careful training of the parents. As a surprise to the old couple when the family arrived at Portt's Hill the old homestead, the two sons, Thomas Henry and Robert Arnold Portt and being joined with them William Martin and H. W. Galligher near relatives of fthe family, presented the old couple with a Grandfather's Clock.

After this little family presentation the aged bridegroom was called upon to make his maiden speech, and like all bridegrooms he blushingly and timidly expressed his thanks and happiness.

The party then spent the balance of the day and the evening very enjoyably. Many were the points remembered by the now adult children in their young days, when they met with accidents and experiences, corrections and rewards never to be forgotten. Every gate, building, tree, mount and field on the old farm had its family historical connection.

About mid-night the family having out grown the limit of the old homestead, it was necessary to break up the jolly party, which was done by singing in honour of the grandfather and grandmother "He is a Jolly Good Fellow" and also expressing the well-known loyalty of the family with "God Save the King."

## Propose Tax Increase

Paris, Jan. 18.—The French cabinet adopted without important changes the final draft of the government's program of fiscal reform, including the measure providing a 20 per cent. increase in taxation. The legislation will be presented to the chamber of deputies this afternon by Minister of Finance DeLasteyrie.

Contagious Disease AND Music

The nurse in charge of the Isolation Hospital has taken up a subscription and purchased an inexpensive phonograph to furnish a little amusement to the children, and grown-ups, who are separated from their family and friends for a month at a time. She has only six records to use, so we promised her we would send her fifty records in two days. We know that every phonograph owner has several old records that are seldom used, and that you would be glad to assist in this good work. Bring them in to-day and we will deliver them with your name attached.

Kindly think of the lonesome kiddies, and help us to keep our promise—TO-DAY.

# SERIOUS REBUFF GIVEN HOPES OF PREMIER KING BY PORTFOLIO REFUSAL

### Hon. Dodolphe Lemieux Emphatically Refuses to Enter Government

### OUTSIDERS FIGHT SHY

### Premier in Reorganizing Cabinet Must Now Look To House Supporters

Ottawa, an. 19.—In peddling portfolios Premier King has not been a conspicuous success. His attempt to bargain place for principle with Messrs. Dunning and Crerar was a failure and further irritated his present House supporters. Yesterday he met another serious rebuff when Hon. Rodolphe Lemieux turned a deaf ear to Premier King's pleadings, and definitaly and emphatically refused to associate himself with the Cabinet remnant.

After Premier King's treatment of Mr. Lemieux in 1921, he must be in a great dilemma to ask him to enter his Cabinet. In the Liberal party in 1921 Mr. Lemieux was by ability, experience and service easily the Liberal leader from Quebec; and in national service and experience superior to Premier King. When the Liberal Cabinet was to be formed Mr. Lemieux was ignored; he had opposed Premier King in the leadership fight in 1919.

Premier King had his innings in 1921 and humiliated the present Speaker, but now is it the turn of the Speaker, and he has not forgotten or forgiven his treatment two years ago.

With the failure to induce Messrs. Dunning, Crerar and Lemieux to come to his assistance, Premier King must now carry his portfolio offers to others. Hon. Ernest Lapointe will now become Minister of Justice, although Premier King offered this portfolio to Mr. Lemieux. Here again the Speaker scores by placing Mr. Lapointe in the position of accepting what was offered and refused by the Speaker. It is stated in some quarters that to avoid by-elections Hon. E. M. MacDonald will be transferred from the Defence Department to Marine and Fisheries and Hon. E. J. McMurray, Solicitor-General, will be given the portfolio of Defence, and a French-Canadian, Pierre Cardin or Fernand Reinfret, will le given the Marine Department and Messrs. MacDonald and McMurray remain where they are. So far little progress in Cabinet reorganization has been made and there appears little co-operation between the Prime Minister and his colleagues to accomplish anything in this directon.

### JURORS DIVIDE

St. John, N.B., Jan. 19.—The coroner's jury inquiring into the couse of the death of Mrs. Clara Whiteside, who was found murdered in her home in East St. John on Christmas night, after about two hours' deliberation last night, brought in a divided verdict. Five of the jurors favored holding Stewart Godwin, the mentally deficient 16-year-old boy from Little River, for trial for the murder of the woman, while the remaining jurors refused to endorse this finding, contending that the boy had not been cautioned by the detectives before they quizzed him. No charge has yet been laid against the boy.

## THE WEATHER

Cloudy with light falls of sleet and snow.

Sunday—Strong westerly winds and becoming colder.

## COMING EVENTS

Don't forget—Weekly Assembly, Moose Auditorium. Saturday night Al. Wilson's Society Serenaders, six pieces. Good time assured. Price per couple 75c. Extra lady 25c. [illegible]

A meeting will be held on Friday evening, January 18th, at 8 o'clock in the Lecture Room of the Y.M.C.A., for the purpose of forming a local branch of the Labrador Medical Mission, Canadian Branch of fthe International Grenfell Association. All those interested are invited to be present. 17-2t

"Handel's Messiah" will be sung here at Easter time. Ladies and gentlemen wishing to take part kindly communicate with Mr. V. P. Hunt. Phone 880. 17-3td

St. Thomas' Church Sunday next 7 p.m. JOINT RECITAL Master Cyril Rice (Boy Soloist, "Little Church around the Corner", New York, and Ernest Wheatley Mus. Bac. A.R.C.O., solo organist. SILVER COLLECTION for Fuel Fund.

Mr. and Mrs. Johnstone's Social Assemblies are held every Saturday evening 8.30 to 12. Private lessons given. Phone 750w or 892. 17 & 19

The annual Vestry meeting and meeting of the congregation of Christ Church will be held in Christ Church Parish Hall on Monday evening, January 21st, at 7.45 o'clock. All adult members of the congregation are invited to be present. 19-1td

### SANDING SIDEWALKS MADE COMPULSORY

Bellevillians will be summoned to court if they do not sand ice covered sidewalks adjoining their properties. Due notification has been given the public hrough the press and the Police Department has been asked to go ahead and take action with stubborn cases.

As many as three sleighs have been called out by City Engineer Campbell to sand the streets, and yesterday between $75 and $100 was spent in sanding streets. If citizens who desire to economize, would get busy with ashes and take care of their property sidewalks, considerable money would be saved.

# LOCAL POLICE DENY CAPTURE OF FUR THIEVES

### Rumored Apprehension of Bandit Gang Denied at Headquarters

### NOTHING TO SAY

### Chief Constable Kidd Refuses to Make Any Official Announcement

Dame Rumor was running rampant yesterday, when it was reported that the burglars who robbed Woodley's fur store had been captured by city police officers on Bridge street. The police department heard the rumor also, but today state that as yet no one has been arrested. City police officials are working night and day on the faint clues which were left by the burglars, but refused this morning to say one word for publication.

"We have absolutely nothing to say this morning," exclaimed Chief Constable Kidd when interrupted by the Inteligencer this morning, while he and two other officers evidently discussed the matter, and the representative of The Intelligencer was not allowed to hear th ediscusrion. All that could be learned was that every officer is working indefatiguably on the case in an effort to uncover the biggest burglary ever committed in this city, after a period during which very few robberies or burglares have been committed here.

# DUCHESS HOLDS BRITISH HOUSE

London, Jan. 19.—The Duchess of Athol, one of the newly elected women members of the House of Commons, made what was generally considered an auspicious debut as a debater on the floor of the house today. Her maiden speech referred mainly to the government's professed intention to amend the law relating to maintenance and separation orders in marital cases and other measures of special interest to women.

The duchess urged the need for accelerating the naval shipbuilding pragram, especially in view of the depression in the shipbuilding trade.

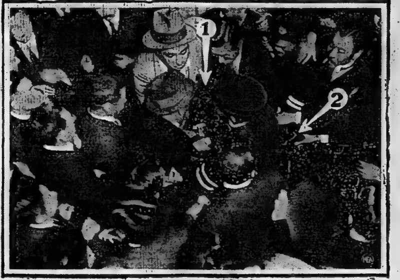
She said she longed, however, to see wars cease throughout the world and would infinitely rather see expenditures on merchant shipping than on ships of war.

The speech was well received by the house. Lady Astor and Mrs. Hilton Philipson, congratulated her, while Miss Susan Lawrence, the new Labor member from East Ham, crossed the floor of the house and gave her a hearty handshake.

### INSULIN GIVEN TO LONDON POOR

London, Jan. 19.—The price of insulin here has fallen to 15 pence per dose, with an additional discount of 20 per cent. to hospitals. The minister of health has ordered the poor law board of guardians to supply insulin free to all applicants sufferding from diabetes who are unable to pay for it.

## Catching The Would-Be Assassin



Over in Japan they don't waste time catching criminals. This picture shows how police and citizens trapped the man who is alleged to have tried to kill the Prince Regent. Arrows point to the prisoner. No. 1 points to his head, and No. 2 to his back. Fat chance for that lad to escape!

### PRINCESS IS FOUND IN DIRE POVERTY

Paris, Jan. 19.—Princess Louise, of Saxony, who twenty years ago eloped with the famous violinist Toselli, was discovered here to-day. Living in poverty, dressed as a peasant, doing her own house work and peddling embroidery for a living.

# CHILD CLASSES FOR DEFECTIVES IS GREAT NEED

### Auxiliary Branches In The Schools for Slow Pupils Are Advocated

### DR. SINCLAIR SPEAKS

### Address Given at Inaugural Meeting of Board of Education

Auxiliary classes established in schools for children who are to some extent defective was the subject spoken on last evening by Dr. S. B. Sinclair of Toronto who is connected with the Educational Department at Toront . The address was given at the inaugural meeting of the Board of Education. In his opening remarks Dr. Sinclar said that auxiliary classes are composed of children of sufficiently serious Visuah Auditory, Motor, Mental or other defect to render it impossible for them to keep pace with a graded class of normal children, but who are not so abnormal as to render it necessary for them to be confined at home or in an institution.

These classes are taught by specially trained teachers, are provided with special equipment and have a course of study fitted to prepare the child as well as may be, for happy and helpful citizenship.

There are now in Ontario 74 Auxiliary Classes conforming to regulation requirement. Twenty-five of these have been established during the last year in the following centres: Toronto, London, Windsor, Oshawa, Owen Sound, Peterborough and Stratford.

It has been the purpose and plan of the Department to assist in providing as rapidly as is practicable, special educational facilities (in Auxiliary Traning classes) for all very backward, psychopathic or mentally defective children in Ontario schools, who, with their present rate of progress, will be, when they reach twelve years of age, at least three years behind normal children of the same chronological age.

A Regulation has recently been approved, which makes provision for the formation of a Training class in any school area of which "the whole or part is rural and which contains more than 12 children who should be placed in a training class." Provision has also been made for the formation of Training classes composed of 23 pupils with two teachers.

The Department provides free surveys of all areas where School Boards

(continued on page three)

# BETTER GROUND FOR FAIR AIM OF ASSOCIATION

### Attendance at Annual Meeting of Agricultural Society Shows Interest

### HANNA PRESIDENT

### Proposition To Procure Suitable Site Already Under Way, Says Speaker

Despite the fact that no fair was held in Belleville last year and the prospects not bright for a fair this year, there was a large attendance at the annual meeting of the Belleville Agricultural Society held in the city yesterday afternoon.

Amongst those present were Messrs. C. Hanna, President; G. Jarrett, C. D. Reid, W. A. Woodley, H. A. Thompson, H. E. Fairfield, R. Colling, C. J. Symons, ex-Mayor G. A. Bennett, G. F. Reid, Ald. Greenleaf, C. Panter, Col. Ponton, T. P. Powers, W. Gray, C. H. Weese, H. B. Stock, J. Lafferty, W. Rogers, S. P. Hagerman, J. Osborne, A. Jones, F. B. Smith, Wm. Rogers, R. J. Garbutt and G. F. Ostrom.

A spirit of optimism prevailed amongst the members and there is no doubt that in the near future athletic grounds will be procured with suitable building erected thereon for the holding of a fair. Officers of the Society were selected who will do all in their power to bring about this result.

**President's Address**

Ex-Mayor Hanna as President said that no exhibition was held last year and the directors, he thought, were wise in not having one owing to the condition of the buildings on the grounds. All that is needed is co-operation to hold an exhibition second to none between Toronto and Ottawa. The Parks Board has been busy in securing options on athletic grounds to be combined with a fair ground.

**Financial Report**

Mr. G. F. Reid, treasurer, presented a financial statement which showed that the receipts during the past year were $375.18 and the expenditures were $31.50 leaving a balance on hand of $343.68.

**The Parks Board**

Mr. T. P. Power—The Parks Board were in hearty accord in having a fair in Belleville and the members of the Board are desirous of becoming members of the Agricultural Society to assist in making a fair possible. There is no reason why Belleville should not have one of the best fairs in this part of Ontario. Our lease on the present grounds would only be two years longer and it would not be advisable to consider these grounds. There is a proposition to procure grounds and it would be an asset that will take care of itself. We desire a bigger and better fair for Belleville.

The naming of two members of the Society to the annual meeting of the Fairs Association was left with the directors.

**Election of Officers**

The election of officers resulted as follows:

President—C. Hanna.
First Vice-President—T. P. J. Powers
Second Vice-President—C. J. Panter.
Directors—C. J. Symons, H. E. Fairfield, R. Colling, H. Saunders, F. B. Smith, C. T. Dolan, C. D. Reid, W. C. Springer, Wm. Rogers, W. W. Anderson, R. J. Garbutt, F. Denyes, Dr. R. Tennent, Ald. H. W. Greenleaf.
Secretary—H. B. Stock.
Treasurer—G. F. Reid.

Ex-Mayor G. A. Bennett moved, seconded by G. F. Reid, that the Society endorse the U. E. L. celebration and do everything in its power in making the same a success.

The resolution was unanimously adopted.

**Vote of Sympathy**

Col. W. N. Ponton moved, seconded by Mr. R. J. Garbutt, that the Association express their sincere sympathy

(continued on page eight)

### MEXICAN TROOPS ARE ALLOWED ON U.S. SOIL

Austin, Texas, Jan. 19.—Acting Governor T. W. Davidson to-day reversed his decision not to permit Mexican Federal troops to cross Texan territory and announced that 2,000 Mexican troops would be permitted to cross from New Mexico State line in El-Paso, distance of 19 miles.

# SCOTIA MINERS AWAITING WORD FROM LEWIS

### Meanwhile No Violence Marks Progress of Cape Breton Tie-up

### MAY BE EARLY PEACE

### Nova Scotia Government to Take Hand Unless Situation Clears

Sydney, N. S., Jan. 19.—The situation created through the tie-up of Cape Breton coal mines as a result of the British Empire Steel Corporation's twenty per cent cut in wages effective last Tuesday at midnight, pursued the same quiet course tonight that has marked the whole period of idleness. Maintenance men are being allowed to carry on as usual, but the executive of the United Mine Workers stand upon their first order to the men to remain away from work until definite instructions are received from the International President, John L. Lewis, at Indianapolis advising just what attitude the parent body will assume in the event of a real strike in Cape Breton.

Hon. Dr. A. C. Cameron, Provincial Secretary in the Nova Scotia Government is in Cape Breton as Premier Armstrong's personal representative, and while no Government [illegible] in the controversy has been announced this evening there is a current rumour that some steps will be taken unless the situation is otherwise cleared over the week-end.

In Cape Breton and in the mainland mines of the corporation at Stellarton Springhill and Thornburn the idle miners have been conducting themselves with extraordinary calmness and the situation bears none of the earmarks of the usual coal miners' strike.

### SEEK TO SAVE STEWART

Welland, Jan. 19.—The fate of Herschell Stewart, condemned to die on the gallows on February 7 for the murder of his wife, is in the hands of the minister of justice. His counsel, Harry Macoombs, is at present in Ottawa pleading that clemency be extended. Several largely signed petitions have also been forwarded. The plea for clemency is on the ground that Stewart was mentally deranged.

# LABORITES IN TURMOIL ON EVE OF SCHEDULED RAIL TIE-UP IN BRITAIN

### CREW REFUSE TO MAKE POLAR TRIP

New York, Jan. 19.—Crew of the dirigible Shenadoan which was almost wrecked in the recent storm at Lakehurst, N. J., are reported to be refusing considering trip to north pole under the present Commander.

Washington, Jan. 19.—The Shenandoah must conquer congress before she may attain the North Pole. As result of the mishap that might have meant disaster, the House Naval Committee today began probing the fitness of the Navy's huge dirigible for the Polar Expedition.

# GEORGE WOODLEY HEADS SCHOOL BOARD FOR '24

### Selection of Committees and Naming of Chairmen Occupies Evening

### SLIGHT CHANGES

### New Members Placed on Various Duties—Co-operation is Asked

Mr. George Woodley will for the year 1924 preside over the deliberation of the Board of Education, having been unanimously elected chairman at the inaugural meeting held last evening. The selection of committees and naming chairmen of the same was the only business transacted. The personnel of the Board is but slightly changed this year, the new members being Mrs. Florence Boyes, Col. E. D. O'Flynn and Mr. G. B Smith. Mr. A. B. Collins is the representative on the Board from the Separate School Board.

Members present were: Messrs. H. W. Ackerman, F. H. Chesher, J. Elliott, Wm. Harvey, P. Harrison, A Jones, Col. E. D. O'Flynn, Fred B Smith, Geo. T. Woodley, A. McGie, Mrs. Florence Boyes, Mrs. J. A. McFee, A. B. Collins, Col. W. N. Ponton, D. G. Bleecker and J. W. Cook.

**Chairmen Elected.**

Col. W. N. Ponton moved seconded by Mr. John Elliott, that Mr. George T. Woodley be selected as chairman of the Board for 1924.

Mr. Woodley was unanimously selected as chairman and was invited to the chair by Col. E. D. O'Flynn and Mr. A. B. Collins.

The chairman-elect thanked the members for the honor conferred upon him and promised to do what he could for the schools of the city. He asked the co-operation of the members to assist him in conducting the business of the Board.

Mr. A. C. Wilkins was reappointed as the Board's representative on the Public Library Board.

**Committees**

The committees of the board and chairmen of same are as follows:

FINANCE—J. Elliott, chairman; W. H. Gilbert, F. B. Smith, A. McGie, A. Jones, F. Potter, C. Hanna, J. G. Moffatt and P. Harrison.

SCHOOL MANAGEMENT—H. W. Ackerman, chairman; J. W. Cook, Col. E. D. O'Flynn, D. G. Bleecker, P. Harrison, F. H. Chesher, Col. Ponton, Wm. Harvey and Mrs. J. A. McFee.

SITES, BUILDING and REPAIRS—A. McGie, chairman; F. H. Chesher, F. B. Smith, A. Jones, F. Potter, C. Hanna, P. Harrison, G. B. Smith, and J. G. Moffatt.

PRINTING and SUPPLIES—F. B. Smith chairman; Col. E. D. O'Flynn, J. W. Cook, F. Potter, D. G. Bleecker, P. Harrison, J. G. Moffatt, W. H. Gilbert and Mrs. Florence Boyes.

HIGH SCHOOL—Wm. Harvey, chairman; J. Elliott, H. W. Ackerman, G. B. Smith, W. H. Gilbert, F. B. Smith, J. W. Cook, Col. Ponton, C. Hanna, P. Harrison, A. McGie, A. B. Collins and Mrs. Florence Boyes.

QUEEN VICTORIA SCHOOL— A.

(continued on page three.)

### Say That Executive Had No Alternative But to Carry On

### OTHERS DENOUNCE IT

### Could not Believe such a "Grave Blunder" Would Be Considered

London, Jan. 19.—What appeared to be a rift in the railway labor ranks appeared today when J. Bromley, the enginemen's leader, announced that his executive had no alternative but to carry on with the strike set for Sunday midnight, and simultaneously an important circular signed by J. H. Thomas and C. T. Cramp was issued from the headquarters of the National Union of Railwaymen to all its branches denouncing the strike.

The circular said that up to the present moment the leaders had refused to believe that such a "grave blunder" as a strike would be embarked upon. It added: "Any member of the N.U.R. ceasing to work or refusing to do any job he would have done had there been no strike is a blackleg to the signature of his accredited representatives who accepted the wages award, and is a traitor to the decision of the special general meeting, which is the democratic method whereby his views are expressed."

London, Jan. 19.—Liberals occupied the floor when the House of Commons resumed its debate on the King's speech yesterday, adding reiterations to the declaration of their leader, Mr. Asquith, that there is to be no compromise with Stanley Baldwin.

While a few Liberals may abstain from voting lack of confidence in the government on the roll call Monday night, a large majority will join with Labor in making the overthrow certain.

Whether the government of Stanley Baldwin or Ramsay Mcdonald will have to deal with the serious situation resulting from the strike of the railwaymen is being discussed today. The predominant opinion is that the present government will fall heir to the difficulties that may ensue because, although it undoubtedly will be defeated on Monday, it must, according to constitutional custom, carry on until its successor is ready to take over the reins.

Such a position could be averted should Mr. Macdonald nominate his chief ministers and start his administrative duties immediately, but whether he will do this is regardied as doubtful.

**No Need to Apologize**

In the resumption of the debate of the speech from the throne today J. H. Thomas, the railwaymen's secretary, alluded briefly to the international connections of the British Labor party.

He said that party did not regret and was not going to apologize for its association with internationalists.

Dealing with Great Britain's foreign policy Mr. Thomas said: "We have been asked how we are going to deal with France. God forbid that any of our words should be construed that we are anxious to break with France or talk about war." However, he added, real friendship did not consist in pretending that all was well when all was not. He condemned France's attitude on the reparation question and said that when France was following the wrong path and heading for disaster she ought to be told so. He declared that because of the British government's vacillating foreign policy France was treating the former with contempt.

# SEEK DOMINION AID FOR NAVY

London, Jan 19.—A trio of British admirals have given the cue to the forthcoming Labor government to approach the dominions through some channel or other with the suggestion that the dominions pays up a greater share of the cost of maintaining the empire and particularly that of naval defense.

In view of the fact that the Labor attitude toward the dominions is somewhat less affectionate than that of the other parties it seems fair to assume they will not neglect the opportunity pointed out by the naval experts especially when backed by somewhat starting figures. Sir Percy Grant told a meeting at the Royal United Services Institution, that the dominion navies were slipping back and he quoted figures showing that the United Kingdom was paying over fifty-eight per capita as compared with Australia's seventeen shillings and Canada's six shillings. Admirals Sturdee and Goodenough aproved Admiral Grant's appeal and all urged propaganda in the dominions to educate people to the necesity of doing their share in the matter of empire defense.

### Suggests Loan to Japan

Ottawa, Jan. 19.—A. E. Bryan, Canadian trade commissioner in Japan, who is now on a visit to Canada, suggests a loan to Japan of fifty millio ndollars to be spent in Canada to finance purchases of lumber, steel and other building materials.

# BABES PERISH IN FLAMES DESPITE HEROIC FATHER

Halifax, Jan. 19.—Three children of Louis Duncan, a small farmer, at Avonport, were burned to death in a fire which completely destroyed their small frame home early yesterday morning. The children were Marguerite, aged eight; Paul, six, and Perry, four.

Duncan rose at six yesterday morning and, after lighting the fire, went to the barn, where he spent half an hour. His eleven-year-old son accompanied him. Returning to the house, he found it in flames. Duncan secured a ladder and rescued his wife and baby. Efforts to rescue the three other children, who were sleeping in another room, were unavailing, and Duncan, suffering badly from burns, and his wife, nearly crazed by the scene, were forced to stand by and witness the collapse of the house without being able to help the imprisoned children.

Duncan is now in hospital and his wife, crazed by shock and grief, is being cared for by neighbors.

# BURGLARS GET RICH HAUL IN RAID ON 'OLD STOCK

Toronto, Jan. 19.—Burglars smashed their way into the home of Frederick Clements Clarke, 82 Binscarth road, Wednesday night, and carried away thirty cases of whiskey—of old stock—valued at $2,700, it became known today.

The robbery was carried out while the family slept. The burglars smashed a back window, forced a rear door and entered the cellar and carried out Mr. Clarke's complete stock. The robbery was not discovered till early today, the thieves getting a twenty-four hour start. Mr. Clarke's bedroom is directly above where the burglars worked, and he did not hear a sound.

Mr. Clarke is a former hotel man, and owned the Traders Hotel on Yonge street.

The police have had several large whiskey thefts reported to them in the past few months.

Last night Mr. and Mrs. Leonard P Train of 267 Willard avenue, with their daughter Ruth, went out for a motor car ride after supper. When they came home later in the evening the house looked as if a cyclone had swept through the place. Thieves had broken into the house by the back door and for their trouble got a gold watch and $1.75.

**Daily Intelligencer**

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Printed and published every afternoon (except Sundays and holidays) for The Intelligencer Printing and Publishing House (Limited), in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 327 Front Street.

The Daily Intelligencer has a larger circulation than any other paper published in Hastings or Prince Edward Counties. Sworn circulation statement furnished on request.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## "FIGHTING" SPIRIT

The Hon. Arthur Meighen, in striking out without fear or favor, demonstrated to his listeners that the Leader of the Opposition was thoroughly "on his toes" in regard to present and future policies for the betterment of the Dominion.

The following excerpts from his address show clearly the fighting spirit that is the slogan of the Conservative party and it's leader.

"We have, as well, railway obligations," he continued, "obligations incurred, most of them twenty years ago, and some of them thirteen years ago; obligations upon which we have been contributing in millions annually since, but obligations which for five years back have been on a footing that gives promise of their gradual reduction and redemption. We labor as well, partly as a consequence of our debt, but still more as a consequence of lax and impotent government, under a pyramid of taxation now so heavy as to be oppressive and almost crushing. This phase of present-day conditions is before everyone's mind. The undiscriminatory, confiscatory taxation of to-day is throttling business, discouraging industry, stifling enterprise and darkening the horizon of Canada. The causes of the excess burden are not hard to ascertain—they are known now—everybody knows them. Many of them are, I admit, hard to remove, but they can be removed, and they must be removed."

**Much Unemployment**

"The next matter that calls for attention is the subject of employment," declared Mr. Meighen. "The cold, unhappy truth is that we have less employment in Canada to-day than we have had for years back. Surely the duty of the estate and the object of public policy should be to foster productive occupations for our people, but instead of gaining ground in this direction, the fact is our productive occupations are contracting. Exports, it is true, as a matter of mere volume, are holding their own, but home consumption is decreasing, and as well the output of finished goods entailing labor, and thus inducing prosperity, is diminishing, too. The trouble with too much of the trade of to-day is that it is an unprofitable trade, and this applies to agriculture, to manufacturing and many other industries as well. Expansion of Canadian plants has ceased, and unless a change comes soon, I fear, we are going to lose some of the ground and we have gained."

"The third problem that calls for attention is really the product of the other two, but it is the most serious of all; it is the loss of our people," said the speaker. "Unless a country goes ahead it goes back. Emigration is the outward evidence of industrial stale-mate. In point of national strength the exodus of last year alone has been more disastrous to Canada than the war. The figures are distressing. If the drift of to-day is not to be checked the wave of discouragement will become serious indeed. There are those who cry aloud for immigration, and everyone knows good immigration is excellent, but it is excellent only if it stays. The sons and daughters of Canada are better than any immigration. Good British immigrants are the best immigrants, and good British immigrants we can get in plenty as soon as we are able to hold the people we have."

## NO INTERFERENCE

Plans for the development of Hydro power on the St. Lawrence were outlined by Premier Ferguson, of Ontario, in the course of this speech at the meeting Thursday in Toronto of the Conservative Association. He stated that plans had been prepared and would be submitted to the Federal Government in a few days, for the construction of a dam at Morrisburg. This would be the first step in a power development in which it was hoped to interest the State of New York. It would provide 350,000 horsepower for Ontario, and a like volume for New York State, at the cheapest rate in effect on the Continent.

Referring to opposition to this scheme which had been voiced from Quebec, Premier Ferguson declared that nothing was further from Ontario's intention than to interfere in any way with navigation on the St. Lawrence or the power resources of the sister province. The project would benefit the port of Montreal, he maintained. He made an earnest appeal for co-operation among the provinces of Canada, and deprecated friction between Quebec and Ontario.

The great need in Ontario at present is capital, because capital means industry, and industry provides the pay-rolls which produces general prosperity and which benefits the farmer, who needs an enlarged market for his products.

Cheap power, stable laws and natural wealth exists in Ontario, and this combination is bound to attract capital and lead to industrial development. The near future will see a return of prosperity, and of the Conservative party to power at Ottawa.

## EDIT NOTES

The powers want to reduce Germany's debt, which is the only way to keep her from owing so much.

• • •

Reducing Germany's debt makes that much less the allies lose.

• • •

France thinks Germany should pay in full. She wants to get madder when Germany doesn't pay.

• • •

How can Germany pay? The idea is foolish. She needs all her money to start internal trouble.

• • •

Less movies will be made. It is a good plan. Show the same films instead of just the same plots.

## PRESS OPINIONS

### BENEFITS OF SCIENCE

(Flint ournal)

The benefits of medical science are not distributed to only those of wealth, but to all classes. The many who would have died in early life from consumption, diabetes, smallpox and other dreadful diseases, have, as a result of medical progress and discovery, the chance to live out the normal span of life.

When we say that the span of life is longer than it used to be we do not mean that it has expanded beyond what was and still is a final limit, normal to the wear and tear to the human body. We mean that the average span of life is longer than it was formerly, or, in other words, that most persons have a chance to live longer and in better health.

### HEALTHIEST UNIT

(Contemporary Review)

Five years after the Armistice, war is still the dominant note in Europe, the condition of which is now rapidly becoming apparent to all. I have recently been all through Europe and what struck me most was the extraordinary power of recovery visible everywhere, one may even say the relative ease with which Europe could have been salved and restored and even now might be reconstituted and saved from general chaos and decline.

The test of that statement lies in Austria. There in perhaps the worst financial spot, in a country which is reduced to a city, and has lost all the props and pillars of its former greatness, health has been re-established; happiness has returned; actually a stable currency has been secured with a tendency to appreciate.

And this financial equipoise was brought about quite simply, namely, with goodwill. The victors took pity on the poor Austrians. They allowed the healing mechanics of credit to operate. Austria is to-day the healthiest unit in the body politics of Europe.

### POWERFUL TRUMPET

(Sunday Times)

Labor has attained to commanding power and to a new status. There is no need for alarm. The result of the general election may prove a blessing to us if it has awakened us to our neglect been slowly emerging for years past.

The old Conservative party had hardly awakened to it, and Liberals were, in point of fact, just a little soporific over the problem. Much more than middle class professions of an abstract faith are wanted. Labor may not know clearly what it is really summoning us to recognize, but at least it is using a powerful trumpet, and is calling us from our couches of repose.

### FRANKLY SOCIALIST

(London Standard)

Lord Birkenhead, in a remarkable article, has just expressed what we believe to be in the minds of many Conservatives. He sees deadly peril to the nation in the accession to office of a "frankly Socialist" party, and he protests against the assumption—"the most astonishing, the most irrational, and the most cowardly assumption"—that we must inevitably see a Socialist government in power in four weeks.

### QUOTA SYSTEM

(Detroit News)

The quota system is troublesome, unjust, and unrelated to American needs. It should be abolished in its entirety. We should lay down the condition under which we are willing to admit immigrants who desire citizenship, and bar out all others who do not come under one of the specially defined classifications.

Dear Marie,
Horrors! I'm most too scared to tell — but I guess I'll have to 'fess up sooner or later. And I was getting on so beautifully, too. That last jump was really professional, but — crickle, crackle — and your perfectly good skiis were broken! I nearly broke my ankle too. Oh Marie, it was agony. However, Jack had my little bottle of Campana's Italian Balm in his pocket, so I rubbed some of it on, and it relieved matters considerably. I always carry it in cold weather to rub on my face and hands at intervals, and so keep them looking smooth and soft all the time.
Peggy!

Have you a property for sale? If so place it with the BELLEVILLE LOCATORS

## BUY GUNBOATS IN U.S.

To Be Used Against Mexican Rebels at Tampico

Mexico City, Jan. 19.—Four gunboats purchased by Mexico from the United States will arrive in Tampico at the end of the week. Recruiting of marines to man the vessels has been carried on successfully. These boats are intended for use in guarding the ports against the threatened blockade of De-La Huerta revolutionists.

# Music & Drama

## NOTED DANCER SEEN IN NEW FILM

Frederick Ko'Vert, who has gained fame for his eccentric dancing on stage and screen, designed his one hundred and twenty-third costume for his appearance in "Your Friend and Mine," the Willard-Mack sketch which S-L (Sawyer-Lubin) pictures has produced for Metro under the direction of Clarence G. Badger, at the Regent theatre, Mon. Tues. and Wed.

Mr. Ko'Vert, although still a young man, has performed more eccentric dances before the motion picture camera than any other person. The remarkable thing about this young dancer is the fact that he was born a cripple, both feet being deformed. Surgeons told his mother that he would never be able to walk. But his mother thought differently. With her own hands she made a pair of tiny shoes for the baby. Each day she altered the shoes slightly and each day his feet became more nearly normal until at last they were so straight and strong as any boy's.

He showed in early years a remarkable aptitude for mimicry. When he was twelve he appeared in Broadway shows. In recent years he has devoted his entire time to motion pictures. His vocation and vacation are the same, dancing and designing costume. He has fifty dancers whom he trains for appearance in various films.

The "Japanese Death Dance" is the name of his specialty in "Your Friend and Mine". The costume, a beautiful yet wierd affair, consisted of 5,000 pieces, every stitch being the result of his own labor. On his face, arms and feet he wore a metal make-up making the flesh on which it was applied appear in silver.

The photoplay is based on Winnifred Dunn's adaption.

## WHO SAID "THRILLS."

"Thrills!" Poor, tortured mangled word! How many picturegoers have gone to sleep over a "thrilling" film!

But for once in a way a "thrilling" picture has been done which really does thrill. It is—well—a thriller, and no nonsense about it.

If there were justice in this world every previous user or misuser of that word would go on his knees and apologise to the authors of the "Ideal" super. "Out to win"—Roland Pertwee and Dion Clayton Calthrop—and the producer—Denison Clift.

He should also apologise to the English language....and to Dr. Johnson, the dictionary man.

Of course, there have been exciting moments in pictures before, dragged in just to force a gasp. But in "Out to Win" they are part of a clear plausible story, which begins with a "bang", and goes on in a crescendo of excitement till the last gasp.

Right from the start, when it shows the hero baulked by a rival gang of financiers in every attempt to get [illegible] of the country on his dangerous fortune bringing quest and on through the dramatic situation in which the hero and his "double" cross the enemy, it holds the spectator in a vice of interest.

Every fresh turn is unexpected—yet is its strength—and it is never far-fetched.

We cannot give more away at this moment. That would be to rob the reader of the pleasure in store for him.

But we may mention that the splendid American actress, Catherine Calvert, takes a leading part, as do Clive Brook and a host of extraordinary well-fitted 'stars'. At Griffin's, Mon. Tues. and Wed.

### A Wise Fellow

"You say Smithers is remarkable. What's remarkable about him?"

"Made a trip abroad, and when he returned he hadn't the slightest idea how to save Europe."—American Legion Weekly.

Trapper Finds Vicks Handy for A Host of Ills

ONTARIO MAN SAYS IT IS A MOST USEFUL REMEDY

Mr. C. Phoenix, of 755 Grey St., London, Ont., writes: "I am very pleased to recommend Vicks VapoRub. I am a hunter, trader and trapper, also a fisherman. I use Vicks VapoRub in place of liniments, because it is very handy to carry and always gives such quick relief for small animal and insect bites, and for chapped hands and lips. My boots would blister my feet and I rubbed it on them and it made them just right. When I go trapping next fall I will have plenty of Vicks VapoRub in my kit. I call it the 'Trapper's Friend.' I have not had a cold all winter and I go out all the time and sometimes stay out all night with my traps."

Vicks VapoRub, the discovery of a Southern druggist, is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme, Turpentine, etc.

Absorbed through the skin and at the same time inhaled as a vapor, Vicks reaches immediately inflamed, congested air passages.

It is the modern direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds, Vicks gives remarkably quick results and also avoids nauseating internal dosing. Just as good for cuts, burns, bruises, bites, stings.

At all drug stores, 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Says Red Pepper Heat Stops Pain In Few Minutes

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

Free to Asthma and Hay Fever Sufferers

Free Trial of Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a free Trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma or Hay Fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it Today—you even do not pay postage.

FREE TRIAL COUPON

## NEW YEAR'S THOUGHTS

Let us walk, friend;
For strange paths lie before us, all untrod,
The New Year, spotless from the hand of God.
Is thine and mine, O friend.

Let us walk straightly, friend;
Forget the crooked paths behind us now,
Press on with steadier purpose on our brow,
To better deeds, O friend.

Let us walk gladly, friend;
Perchance some greater good than we have known
Is waiting for us, or some fair hope flown
Shall yet return, O friend.

Let us walk humbly, friend;
Slight not the heart's-ease blooming round our feet;
The laurel blossoms are not half so sweet,
Or lightly gathered, friend.

Let us walk kindly, friend;
We cannot tell how long this life shall last,
How soon these precious years be overpast;
Let love walk with us, friend.

Let us walk quickly, friend;
Work with our might while lasts our little stay,
And help some halting comrade on the way;
And may God guide us, friend.

—Lillian Gray.

Have your letters typed and save time. All kinds of stenography work at the office of the BELLEVILLE LOCATORS.

LINIMENT FOUND TO BE POWERFUL GERMICIDE

Originally, Absorbine Jr. was sold only as a pain reliever and an embrocation. It was quickly discovered, that the liniment was positive death to all forms of germ life, and it is now used as a mouth wash, for wound dressing and for all disinfecting purposes.

Another surprise was yet in store. A Wm. Pratt of Springfield, Mass., applied Absorbine Jr. to a varicose vein, to relieve the intense pain. Not only did the pain leave, but he noticed every day the swollen vein becoming smaller. The treatment was kept up and, today, Mr. Pratt's legs, though he has never used anything else on them, are as smooth as when he was a boy. It has now been proved that Absorbine Jr. is an actual specific for varicose veins, leg ulcers, boils, pyorrhoea and a number of other ailments and injuries besides that for which it was first prepared. Nothing serves so many every day purposes and nothing is better entitled to its place in every home. When it is needed, it will be needed in a hurry. Don't wait for someone to be hurt. Get it at your druggist's today. $1.25 everywhere.

### MISSION MEETS

When the Grenfell Mission met at the Y. M. C. A. last evening, Miss Warren, corresponding secretary, gave an interesting talk on the mission, and the officers were elected. A full story of the meeting will appear in Monday's issue.

## LOCAL MARKETS

Prices realized for products offered for sale on the market to-day showed but slight changes over those of a week ago. Considerable quantities of dressed beef and pork was sold at a reasonable figure. Beef brought 6c. to 7c. for forequarters and 8c. and 9c. per pound for the hind quarters. Pork sold at 12c. to 14c. by the carcass and 16c. to 18c. cut up.

Dressed poultry especially chickens, was quite plentiful. Ducks sold at $1.40 to $1.50 each. Chickens from $1.25 to $2.50 a pair according to quality. One Turkey offered for sale brought 37½c. per pound.

Vegetables were readily disposed of at fair prices.

## FARMERS WOULD AID RETURNED SOLDIERS

Edmonton. Jan. 19.—Delegates to the United Farmers of Alberta convention yesterday went on record as strongly in favor of continuing the bonus paid to men who suffered amputations in the war.

Reduction in the indebtedness of returned soldiers to the soldiers' settlement board was urged by unanimous vote. It was advocated that they be given a cut of 25 per cent. in the valuation of their land, 65 per cent. in stock, and 10 per cent. in equipment to take effect on stock brought previous to and including 1921 and land bought previous to and including 1922.

The resolution was introduced at the request of returned men who were delegates to the convention.

## Special Meeting Of W.C.T.U. Held

The monthly meeting of the W. C. T. U. held on Friday of this week was of a somewhat special character. An invitation had been extended to the lady teachers of the city schools to be present to hear Mrs. Denyes, rincial Superintendent of Scientific Temperance and Hygiene. A large proportion of the teacher responded and with the regular members listened mosct appreciatively to the programme presented.

The devotional exercises were conducted by Mrs. Morrice after which many points regarding the activities of the society came up for discussion. Among these were the distribution of literature and the celebration of Frances Willard day. It was resolved to leave these in the hands of a committee.

An appropriate solo, "The Heart That Was Broken for Me" was given with fine expression by Mrs. Boyd. Another item on the programme was a recitation by Mrs. Alyea. entitled, "A Cup of Cold Water," which could not fail to touch the hearts of the hearers with its pathos and beauty of sentiment.

Mrs. Denyes began her address by congratulating the teachers upon the wonderful influence that their profession wielded today. It was a debatable point whether the teacher or the mother had the greater influence n rounding the character of the younger generation. The speaker told how the W. C. T. U. of the U. S. A. had first brought the study of health and hygiene into the school curriculum, and how this study naturally led to the teaching of temperance both in Canadian and American schools. It was the privilege of every child in these countries to know the action of alcohol upon the human body. Mrs. Denyes told of an interview with Premier of Ontario, and the Hon. W. F. Nickle in which permission was secured to place the leaflet, "Alcohol in Experience and Experiment" in every school in the Province. The headings of posters which had been placed upon the wall constituted the basis of a reminder of the address. These headings were "Alcohol Effect is a Drug Effect." "Doctors are Dropping Alcohol as a Medicine." "John Barleycorn is not a Good Sport." "Prohibition Brought Prosperity."

The speaker claimed high authority for the opinion that prohibition had been secured in America through the teaching of scientific temperance in schools, and this teaching must be continued. There should be a graduated progress in knowledge of the subject from the kindergarten to the college.

A point specialized by Mrs. Denyes was the anti-temperance sentiments and customs introduced by a large part of the immigrants coming into our land, and the necessity and responsibility of the teachers and others of teaching them the better way.

After the thanks of the ladies had been expressed in a few words by Miss Martin and Mrs. MacTavish, refrehments were served, and Mrs. Denyes was introduced to the teachers and the ladies of the Union.

* * *

The invalid pondered for a moment.

"Then," said she, "I shall marry very early."

### Courage

Naomi, the daughter of Enoch, is said to have been 580 years old when she married. Courage, ladies!

At the inaugural meeting this is the only business that can be transacted.

## NET REVENUES ARE $20,127,447

### Official Statement Issued by Sir Henry Thornton at Montreal

Montreal, Que., Jan. 19.—In an official statement issued by Sir Henry W. Thornton chairman and president, the net revenues of the Canadian National Railways for the year nineteen twenty-three are placed at $20,127,447, being an increase of $17,646,935 in net revenues over nineteen twenty-two. The statement says, "The following represents briefly the financial performance the year nineteen twenty-three as com- of the Canadian National Railway for pared with the year nineteen twenty-

| Operating Revenues | |
|---|---|
| 1923 | $254,662,447 |
| 1922 | 233,656,888 |
| Increase | $21,005,559 |
| **Operating expenses** | |
| 1923 | $234,535,000 |
| 1922 | $231,176,376 |
| Increase | $3,358,624. |
| Net Revenues, 1923 | $20,127,447 |
| Net Revenues, 1922 | $ 2,480,512 |
| Increase | $17,646,935 |

The figures for nineteen twenty three are subject to slight alterations as some of the items entering into both revenues and expenses are estimated but the adjustment will only slightly affect the above statement. The statement for itself and complete detailed information with respect to all matters of interest relating to the National Railway System will be published in the annual report which is now in preparation but the administration desired to acquaint the people of Canada with the general result. It is not possible to enter upon a detailed discussion of the companys affairs at this time but the directors and the chairman feel justified in taking advantage of this opportunity to express the hope that the service rendered in nineteen twenty four will merit the same generous support as has been received from the public during the past year. The board especially desires to acknowledge the fine and alert service rendered by officers and employees alike which has greatly contributed to the favorable results for the year end quote.

## Child Classes

(continued from page one)

desire to establish Training classes.

Dr. Sinclair said it is to speak of children in training classes as "very backward" than as "mentally defective." Such classes should not contain idiots or imbeciles with a mentality of less than fifty per cent., incorrigibles or dangerous psychopaths. They are composed mainly of children having I.Q.'s between 50 and 75 (technically termed "morons") and they also contain psychopathic children not of the anti-social type. It is often wise (if there is room) to transfer a pupil of over 75 I.Q., who is making no progress in the ordinary class, to the training class where usually with individual attention he quickly "finds himself," and at the conclusion of the term returns to the regular classes.

At the conclusion of the instructive address remarks were made by Principal P. C. McLaurin of the High School, Principal A. C. Wilkins of Queen Victoria School, Mrs. J.A. McFee, Mrs. Col. W. N. Ponton, Mr. H. J. Clarke, School Inspector, all of whom endorsed the idea of having auxiliary classes established.

A vote of thanks moved by Mr. J. Elliott and seconded by Mr. A. B. Collins, was tendered to Dr. Sinclair who acknowledged same.

## TO ENCIRCLE WORLD

### Argentine Aviators to Fly Around Earth Via Canada

Buenor Aires, Jan. 19.—Major Pedro Zanni and Ensign Nelson T. Page, aviators of the Argentine army and navy, sail for London on January 31 to obtain a plane and equipment for the round the world flight which they plan to start, probably in June, from Rome. They will fly eastward by way of Japan and Canada. The commission organized some time ago to further the project announces that the Argentine government has besought aid from Great Britain, Japan and other countries to facilitate the passage of the aviators.

## AUTOMOBILE FACTORY IS RUN ON PLAN OF BIG CITY

By E. F. Roberts
Vice President of Manufacturing, Packard Motor Car Company.

If every tenth person in the city of Belleville were a policeman wouldn't have much chance of breaking the law, a fact that is obvious to anyone. In an automobile factory there are laws that govern the quality of the finished car. These laws are laid down by scientists after years of study. There is a law for each piece of material made and each person working on each piece has the laws spread out before him in the form of blue prints every minute. Quality depends upon the proper enforcement of these laws and in the Packard factory there is a "policeman" for every tenth person.

In the "police force" are "patrolmen", "sergeants", "lieutenants", "captains", "inspectors", and, at the head, a "commissioner". The "patrolmen" patrol their "beats" constantly and the other officers up to and including the "commissioner" himself make constant rounds of the entire "city" of 7,000 persons who manufacture Packard cars to see that there is no lessening of vigilance for the enforcement of the "laws."

Added to this constant supervision on the part of the "police department" for the further protection against "law breaking" is a most wholesome appreciation of the entire community for the "law" and an honest desire to keep within its mandates at all times.

"Patrolmen". In the "police department" are inspectors who check every piece of material constantly as it passes through the various processes on who without warning makes almost its way into the car. Various department heads and executives make up the officer personnel of the "force" and the commissioner is the president daily "rounds" to check up on the work of the others. There is even a "flying squadron," quality engineers they are called, who have a complete organization of their own and who are on the move constantly.

Weapons for the "force" number many thousands and each is designed for a particular use. They are scientific "crime detectors", known commonly in the factory as gauges. If some person or some machine, for the "police" check as closely on the machinery as they do on the workmen, has strayed from the letter of the law by as little in some cases as one ten thousandth of an inch the "crime detectors" make it known immediately.

Each evening gauges are turned in to the tool department for inspection and a duplicate set that has passed inspection is issued. Instruments guaranteed to be within one millionth of an inch of perfect are used in checking the gauges.

Millions of drills, reamers and cutters are used in the factory. Some of them are made of the hardest steel known, costing $5.65 a pound. In some others the cutting is done by diamonds. That each shall do perfect work they are sent to the tool department as soon as there is the slightest indication that their cutting edges have begun to dull. No workman in the factory is permitted to sharpen a drill or cutter. Such work is done by special precision machines in the tool department.

Diamonds used for cutting and drilling run as high as five karats but fortunately blue white stones that sell at the jewelry stores for from $500 to $1000 a karat are not the best adapted for such work. Carbon spots, the bane of the jeweler, make diamonds used in manufacturing automobiles better fitted for their work and cheapen their cost although diamonds for larger sized drills or cutters cost some times as much as $200 each.

It is in the making of such parts as connecting rods, which must be made with the greatest possible precision if the bearings are to give no trouble, that diamonds are used. By their use the bearing which fits on the crankshaft and the bushing which takes the piston pin can be so made that the perfection gauges will pass them as suitable for use.

## Special Awards Made To Franklin Dealers

In connection with the luncheon given by H. H. Franklin, president of the Franklin Automobile Company, to 300 Franklin dealers, sub-dealers and salesmen in the Grand Ballroom of the Commodore Hotel, New York City, on January 9 announcement was made that complimentary full page advertisements had been awarded by the Company to each of eight Franklin dealers in various parts of the country. Eight other Franklin dealers were awarded one-half page advertisements. Each of the dealers who was awarded a full page advertisement led the particular group to which he had been assigned in the matter of retail deliveries during 1923; those who stood in second place received half-page advertisements. Ralph Hamlin of Los Angeles, Calif., leader of Group "A", delivered more cars into the hands of customers during 1923 than any other Franklin dealer, it was announced.

At the Franklin luncheon special recognition was given, also, to members of the Franklin Charmed Circle Club. Membership in this club is confined to those Franklin dealers who on December 31 had improved their relative positions in their respective groups, or who had maintained either first or second places in those groups, in either case as compared with their ranking on June 30, the number of retail deliveries governing the ranking throughout. Members of the Charmed Circle who maintained first or second places in their respective groups were given seats at the speakers' table, while the other club members were seated at a special circular table. Each one of the 72 members of the Charmed Circle was presented with an artistic button and a handsome calendar inscribed with his name, indicating his membership in the club.

**Have you a house to Let? If so tell Belleville Locators as we have many enquiries for desirable properties to let.**

## PROPER CARE OF YOUR AUTO IS MOST IMPORTANT ITEM

This is the time of the year when an automobile should receive its greatest care. No normal person would throw a roll of real currency into a blazing furnace but as far as ultimate effect on the pocketbook is concerned that is just what many are prone to do in the care they give their cars at this season.

Like humans a motor is susceptible to heat and cold. Plenty of ventilation for cooling in summer and heavier dress in severe weather are characteristically necessary for both. The normal temperature of the human body is 98 degrees while the gasoline motor functions best at approximately 180 degrees.

A person needs only to change to the proper weight of wearing apparel to suit varying degrees of temperature. The gasoline motor, operating at nearly twice the heat, requires but little more attention.

The secret of satisfactorily motor operation in cold weather lies in the proper regulation of the cold air drawn in through the radiator and the warm air that escapes through the louvers of the bonnet, together with the maintenance of a proper anti-freeze mixture in the radiator. A radiator cover or a winter-front that operates automatically will greatly improve the performance of the motor.

A fully charged storage battery, with clean, tight connecting terminals, contributes toward a quick start on frosty mornings. The generator should be adjusted to replace a greater amount of energy and to maintain the battery in a properly charged condition.

Sometimes a motor seems to consume very little cylinder oil in cold weather, especially when driven short distance with numerous stops. This condition is deceptive and should be regarded as a danger signal. A dilution of the crank case oil is taking place. An examination will disclose a thin, strong-smelling mixture, consisting chiefly of kerosene. As a motor lubricant this dilution is practically worthless and its continued use will damabe the bearing surface in the motor seriously.

It requires 10,363 cubic inches of air, or about a barrel full for each half wine glass full of gasoline in a motor to form a suitable mixture for a motor. When the choke is used the supply of air is cut off and raw gasoline is drawn into the cylinders. The quantity of gasoline so far exceeds the required volume of air that only the more highly inflammable portion is burned while the heavier, unburned gasoline is forced past the rings into the crankcase.

It can be readily seen that the sooner the choke is returned to its normal position of the choke there will be no will the motor receive the necessary quantity of air for a proper mixture, and the smaller will be the leakage of raw gasoline past the rings.

# Genuine Used Motor Car . . Values . .

When you buy a used car from us you can know definitely that you are going to get the fairest, squarest business deal, the deal that will satisfy you and keep you satisfied.

## The Following are Real Values

$160—Maxwell 1917, 5- passenger Touring. This car well worth the money.

$395—Chevrolet (Baby Grand), 5- passenger Touring, 1919 model, a real buy. In real good condition.

$725—McLaughlin-Buick, Master Six—5-passenger Touring car with a sedan top. Just the car for winter driving. A genuine bargain.

$100—McLaughlin-Buick, 4-cylinder 1915 model, 5-passenger Touring car, self starter, new battery.

We have a limited number of other real genuine buys. Ask abot the G.M.A.C. Plan of Deferred Payments.

## TRUCK OUTPUT OVER 217,000 FOR THE YEAR

### Big Jump in Popularity of This Type Shown in Production Figures.

Throughout the past year the production of the various types of Ford models may be listed as about forty-five per cent touring, fifteen per cent coupe, eleven per cent sedans, including four per cent Tudor types, fifteen per cent roadster types, eleven per cent truck and about three per cent model T chassis.

**Approximate Figures**

It is estimated that about 857,000 touring cars were built during the year, approximately 278,000 roadster models, about 76,000 Tudors, about 143,000 Four door sedans, about 291,000 coupes, about 217,000 trucks, and approximately 27,500 model T chassis.

Perhaps one of the biggest features of the year, as brimful of features as the year was, consisted in the phenomenal demand for the Ford one-ton truck.

Comparison tells the real story of how the dealers put across record truck sales.

**For 3 Years**

Here they are for three years:

| | |
|---|---|
| Truck output 1921 .. .. .. .. | 64,000 |
| Truck output 1922 .. .. .. .. | 133,000 |
| Approx. output 1923 .. .. .. | 217,000 |

The increase in demand for the Ford one-ton truck between 1921 and 1922 was approximately 69,000. The gain made between 1922 and 1923 amounted to approximately 84,000, or a fifteen thousand increase over the gain shown between 1921 and 1922.

---

Employer—"Miss Pounder, you have spelled 'lubricant' with a 'k'—that is wrong."
Steno—"Have I. It's such an easy word to slip up on."

### APPRECIABLY LIGHTER

Observations of oldest inhabitant—"Another thing that can be said for silk undies is that they make Monday morning wash very much lighter than it used to be when the whole family wore heavies all winter."

### THE LITTLE SNAG

Soothsayer—Your future husband is young and handsome. He comes from a southern land. He is rich and holds a high position. You will be vehy happy.

Client—Isn't that just splendid? But how shall I get rid of my present husband?

## BELLEVILLE'S INTERMEDIATES SECURE STRANGLE HOLD ON LEAD IN KINGSTON GAME

### Locals Drive Way to Victory Over Frontenacs To Tune of 5-2 Score—Heavy Ice Slows Both Teams

Belleville intermediates secured a strangle hold on first place in this district O. H. A. race last night when by the score of 5-2 at the Jock Harty arena.

The game was marked by fast and bad hockey combined and was rather on the slow side as neither team really hit their real stride.

A fair crowd of supporter accompanied the team and kept rooting for the boys throughout.

The game was late in starting owing to someone getting matters complicated at at 7.30 Belleville and Frontenacs were ordered to play the first game, but on looking up the schedule it was found Queen's and Brockville were billed for the curtain raiser and the two teams had to be rounded up.

The ice was very heavy and it was not long before it showed its effect on the locals and their opponents. Despite this fact both teams plugged away hard for the full time and there were two worn out teams at the finish.

**Belleville Press Hard**

Belleville had the east end net at the start and in less than a minute Weir and Joe Smith got a breathing spell on a ticket to the timekeeper's lair. Play was very fast at this stage with Belleville pressing hard. Weir and Smith came on and Weir missed by inches, but was not to be denied as he came right back with a wicked wing shot for the first tally of the game. Weir's goal caused much argument and a new goal judge was appointed.

Play had hardly continued again until Bill Green on an end to end rush scored making the old score board read 2-0. Belleville had all the play and were sure stepping on the gas, play being nearly all in enemy territory.

In a nice bit of stickhandling and good hockey, Hagerman on a wing shot scored Belleville's third counter and it looked like a runaway as Belleville had Kingston checked to a standstill. Whalen and Bellringer went to the cooler for a rest but soon returned and then Bennett gave V. Weir a heavy body check into the boards and also went to visit Father Time.

Bellringer on a nice rush popped one at Nurse who saved, but F. Brown was right in on the rebound, and netted Kingston's first counter.

Green came right back with a pretty rush but only for bad shooting he might have scored. Murray got a breathing spell for tripping.

**Nurse Is Good**

Nurse in goal sure made some lovely saves as he saved numbers of hair raisers. With another man in goal the score might have been different. Nurse sure is there and is turning in some lovely hockey right now.

Frontenac forced the play and Panet was right through but Nurse was the stumbling block. Panet was real good and worked hard throughout. The first period ended with Belleville leading 3-1.

**Second Period.**

Green and Brown both went for a rest at the start. V. Weir played great hockey and was easily Belleville's best man. His rushing and backchecking featured this period.

A number of nice end to end rushes featured with both goalies making some nice saves.

Nurse got a hot one from Panet and had to go down on his knees to save.

Kingston had the edge in the 2nd and kept Nurse busy but he was equal to the task.

Finkle caught McNeil asleep with a shot that never left the ice it hit into the old net making the score read 4-1, Belleville.

Play stopped for a few minutes as Bellringer got a Jack Dempsey somewhere, but he came back and went through the entire Belleville team only to have Nurse break his heart with a nice save.

Bellringer and Green both got another penalty, referee Cummings had a habit of banishing two men at a time much to the dissatisfactoin of the fans.

**Panet Play Strong**

Panet scored Kingston's second goal on a lone rush and he deserved it as it was a real pretty play. The score read 4-2 for Belleville at the end of the second.

Time and again Frontenacs were dangerous but Finkle and Green either took care of them or Stan Nurse did. Panet and Hagerman each got a minute for tripping.

Hagerman on returning scored on a perfect pass out from behind the by Weir. This ended the scoring except for one which Frontenacs claimed was a goal but which really hit the goal post and bounded over the net.

Their came nearly being a riot by the Kingston players and three or four even made threats at the referee, especially at one time as it looked as if some of the players come near hitting him. An officer standing near was called but he turned yellow and wormed his way out of the crowd.

Referee Cummings ordered Kingston to resume playing which they refused to do, so he ordered them all off and the game goes as a win for the locals.

There was only 2 minutes and 15 seconds to play when the trouble started. The line-up was as follows:

Belleville— Goal, Nurse, defence, Green and Finkle, centre Hagerman, r. wing Weir, l. wing Frechette, subs, Whalen and McNeil.

Frontenacs—Goal McNeil, defence Panet and Bennett, centre F. Brown, r. wing Smith, l. wing Bellringer, subs., Murray and Lawson.

Referee—W. Cummings Toronto.

Nurse, Weir and Hagerman were the best for Belleville, while Bellringer, Panet and Smith were the stars for Kingston.

### Druggists On Carpet; Alleged Liquor Sale

Toronto, Jan. 19.—A large number of druggists and drug store proprietors appeared in police court Friday charged with the illegal sale of liquor from their establishments. They were Earl H. Rodger and Harry Burnstein, store 70 Queen street east, adjourned till January 20; Clarence W. Bradley, Yonge street, 322, adjourned till 25th; Walter Cronk and Howard Bloom, 98 Queen street west, adjourned till 25th January; Eustace Kay and W. H. Moody, 751 Queen street east, adjourned till January 20; T. M. Bryson, 155 Markham street, adjourned till January 25; Jacob Grawbert, 155 Markham street and 22 Cecil street, remanded; Harry Fader and Robert Hudson, 123 Dundas street east, remanded; and Walter K. Weber and F. K. Witherspoon, 1842 Queen street east.

Harold E. MacDonald, of the Parkdale Hotel, 1302 Queen street west, pleaded not guilty to selling strong beer at his hotel. Frank Hughes, for the defense, urged that William A. Short, who handled the bar in the hotel was to blame, and was prepared to answer the charge. This was allowed and Short was fined $200 and costs after Inspector Elliott had stated that to the best of his knowledge the hotel was a first class institution and very well conducted.

### READY FOR A CHANGE

"I wish," said the little invalid, who was being washed in bed, "that I need never, never have to be washed again."

"I'm afraid," said mamma gently, "that as long as you have me to take care of you you'll have to reconcile yourself to be washed thoroughly every day."

That Hang-on Cough Must Go

HOME MADE COUGH MIXTURE BEST OF ALL FOR THE COUGH THAT STICKS.

Make It Yourself In Two Minutes

The coughing season is on and every home should have a supply of the best cough remedy to be head, and as you can make this supremely excellent cough mixture yourself why pay high prices for the common kind.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Then when any member of the family starts coughing or catches cold in chest or head, or has acute catarrh, you are prepared as you should be.

And the children love to take it.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing, healing poultice, and blessed relief comes at once.

And you should also bear in mind that any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

## Never To Admit Injury, The Essence Of Gameness, Says Edgren Gives Instances Of Unquenchable Courage In Amateur Sport

## BELLEVILLE GUNNERS SHOW HEELS TO KINGSTON SQUAD, TAKING LEAD IN LEAGUE

### Victory at Local Arena Due Largely to Superior Combination Play—Score Ends 4-2

The Belleville Gunners sent the Kingston team home last night with a 4-2 defeat and at the same time took the lead in the league with two wins and no losses. Kingston are trailing close with two to the good and one bad one. Kingston must beat Belleville at the Harty Arena next Saturday to stay in the race providing of course, that the locals win from Point Anne here on Wednesday night which is no mean job as Pat Boland, Goyer and gang always play better hockey here than they do at home so Wednesday's fixture will be well worth seeing as both teams must win to stay in the race.

Gilmour of Point Anne handled the game last night and received a lot of ragging from the fans. He certainly was not a whizz with the bell and as a result many glaring offsides by the Kingston team were not called. The play was clean in spite of unfavorable conditions. Kingston were inclined to carry their sticks rather high. The ice was not conducive to real good combination hockey as i twas quite rough in places but both teams combined well and displayed good team work.

**Combination Works**

The game was fast from the ring of the gong but close back checking by the forwards kept the play mostly in centre ice for the first few minutes but the Gunners broke away in a lovely combination play and carried the puck into the net, a few minutes later they pushed another one in making the score 2-0 for Belleville at the end of the first period.

The second period opened with a rush by Kingston, their shooting was weak but their follow-in was excellent was the source of much uneasiness on part of the fans but Scott in goal was blocking and clearing beautifully. Kingston scored their first when they combined through the defense and scored on a glancing shot off Scott's pads, both teams were now under full strain and showing a real brand of hockey. The puck was carried from end to end in whirl-wind fashion giving both defences plenty of opportunity to show their wares and keeping the goalies on their toes. Belleville defence appeared to have a little edge on their opposition. Kingston scored on a close-in shot into the corner of the net which Scott didn't have a chance to save, this resulted in a 2-2 tie. Kingston were playing a good combination game and apparently were getting the best of the play in this period, the period ended with both teams striving to break the tie.

**Locals Forge Ahead**

In the final period the soldiers went right after Kingston and sure gave them a good time, they showed their determination and by clever stick handling and combination broke through the defence and shoved the old puck into break the tie. Kingston came back with renewed energy but to no avail, the Gunners were not to be denied, by battery tactics and excellent gunnery for which the Battery are famous they gave McCarthy the time of his life. Jack Williams was bombarding the net from all angles and the other forwards following right in to get the rebound. Scott also made some pretty saves, making the hard ones look easy. The Gunners picked off another one and put the game on ice. Kingston tried hard but the score did not change before

Continued on Page Eight.

I've seen some "game" fighting in the ring in the past year, but there are other battlefields where far more gameness is required and where gameness is the common thing, not the exception.

In the ring, up their on a raised platform with only two to watch and every movement and action plainly seen, gameness shows up. But on the football field the spectators seldom know what is going on before their eyes.

The finest exhibition of gameness I've seen this season was in the last game—the Washington-Navy struggle on New Year's day at Rose bowl, Pasadena, the famous annual East-West event.

Visiting the Washington team the night before the game, with Coach Bagshaw, I was taken in to see Elmer Tesreau, Washington fullback and nephew of the great Jeff Tesreau, the ball player. Elmer Tesreau is a husky young giant, a slightly smaller edition of Jeff, only nineteen years of age. Tesreau and Wilson were the backbone of the Washington attack. Tesreau was fullback of the team.

We found Tesreau in bed, where he had been for a couple of days. He was under care of Dr. Palmer, who accompanied the team from Seattle, Dr. Palmer is the gentleman whose hobby is remodeling broken cartilages in knee joints, making cauli- the game. He had the trainer bandage his knee tight to dull the pain. He knew he was needed and refused to stay off the field. He limped, but he kept going. He was in every play. Knowing the condition of his knee, I watched him closely, wondering how on earth he could play the game. In the last quarter, when Washington had scored her second touchdown and flower ears as good as new, in ten days, and all that sort of thing, in plastic surgery. He accompanies the Washington team and fixes up busted knees, shoulders, legs and ribs just because he loves the sport. His services are without money and without price. In sport he is purely amateur.

The sheet was drawn over Tesreau's right knee, and a plain electric student lamp was under the sheet, shining on the knee, which was partly covered with an antiseptic powder. A glance at that knee rather startled me. Tesreau had been troubled with a boil above the knee, and infection had spread to an area of six inches below the knee. It surely was an ugly looking leg. Dr. Palmer said he was going to work on it all night and he hoped to have Tesreau at least fit to sit on the sidelines.

**Worth Three Broken Legs.**

Tesreau played in three periods of kicked the goal, tying the score, and had driven the Navy battlers well into their own territory. I saw that Tesreau was going slower and slower and that as he ran with the ball he had a new limp and seemed to be thrown back more easily when he hit the line. He had been down and time taken out on two or three occasions.

Tesreau was taken out. He hobbled toward the side lines and two Washington subs ran in and half carried him to the bench, and a moment later he hobbled between them to the exit tunnel and left the field. One leg dangled. But strangely it was the left leg, not the right that had the bad knee.

Later I found that Tesreau's left leg had been broken in two places below the knee. He had played for minutes, while fighting for that second touchdown, with a broken leg. They tell me that as he was taken off he laughingly called to the rest of the boys on the sidelines: "It's worth three broken legs to have seen Bryan make that touchdown."

If that isn't the real spirit of gameness I'd like to see something that is. You won't find it in professional sport. It belongs to the amateurs, and to the colleges, where college spirit and the unquenchable courage of well bred and well taught youth are stiffening the backbone of America. Everyone knows how the college boys all over the land were first to rush to volunteer in the late war. Some colleges had hardly an able-bodied male student left except those who were too young and whose parents refused them permission to enlist.

**Fighters Who Ignored Broken Bones**

There was another rather game fellow on the Washington team, Jim Bryan, guard, 21 years of age and weighing 120 pounds, has won his college letter twelve times in various sports. He is said to be the best basket ball player in the West, a great weight thrower and all around athlete, and he's undoubtedly a football star who had as good a claim to "All-American" position as any other guard in the country. Bryan scored the touchdown that tied the Navy on New Year's Day, after Petrie, the 200 pound tackle, had recovered the ball within striking distance of the Navy goal line.

(continued on page eight)

# OF INTEREST TO WOMEN

### HOLD SLEIGH PARTY

Last evening the Senior Fourth Class of Queen Alexander School held a very enjoyable sleigh drive. There were about forty pupils present. Mr. Moss, principal of the school and also teacher of the class was among the number, and entered into the spirit of the occasion with the young folks. Lunch was served at the school after the drive.

---

Steamship Latouche, via St. Paul Island, Alaska, Jan. 18.—The inhabitants of Belkofsky and vicinity reported that a severe earthquake had curred at 10.30 Tuesday morning. The southern edge of the Pavlof volcano blew off.

Belkofsky is on the Alaska peninsula. St. Paul Island is one of the Pribilof islands.

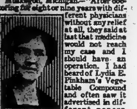
### PLANES SUCCOR SHIPS

Christiania, Jan. 19.—Airplanes are carrying supplies to fifty ships that are now wedged in the ice in the Cattegat and off the Danish coast. The aircraft drop sacks of food and other stores near the imprisoned vessels.

## DOCTORS WANTED TO OPERATE

### Mrs. Quillon Tells How Lydia E. Pinkham's Vegetable Compound Saved Her from an Operation

Muskegon, Michigan—"After doctoring for eight or nine years with different physicians without any relief at all, they said at last that medicine would not reach my case and I should have an operation. I had heard of Lydia E. Pinkham's Vegetable Compound and often saw it advertised in different papers where some women had suffered just as I did and got well and strong again by taking the Vegetable Compound. I decided to see what it would do for me, and before I had finished the fourth bottle I was much better, the weakness stopped and the severe pains in my sides left me. I am now much stronger and do my own work and work in the factory besides. I am still taking the Vegetable Compound and give it all the praise."—Mrs. NELLIE QUILLON, 17 Morris St., Muskegon, Mich.



Women should heed such warning symptoms as bearing-down pains and weakness, for they indicate some female trouble, and a persistent and faithful use of Lydia E. Pinkham's Vegetable Compound will seldom fail to help.

## TALE OF COUNT'S FORMER LOVES FAILS TO WORRY YOUNG BRIDE

New York, Jan. 19.—Count Ludwig Salm von Hoogstraeten and the Countess refused to be interviewed concerning their marriage or the stories told by Fern Andra, Betty Sherwood and Mme. Bobo concerning the count's former love adventures.

They also refused to comment on the visit to them last Saturday by Mme. Gineta Traini, a close friend of Mrs. Montgomery Coffin, the American widow, reported formerly engaged to the count. The former Miss Rogers, however sent a little note to the reporters, saying:

"I'm sorry that there is nothing for me to say to you. I have no attitude on any of the matters mentioned in the newspapers. In regard to Mme. Traini, she is a personal friend of mine. Sincerely.

"MILLICENT SALM."

It was the first intimation that Mme. Traini and the countess were friends.

**He Denies Engagement.**

According to Fern Andra, the motion picture actress, who said she was engaged to Baron von Barenkow the former Miss Rogers was at one time engaged to the baron. To a reporter the baron not only denied he ever had seen the former Miss Rogers, but also that he was engaged to Miss Andra.

"I am glad you have come to see me," he said, "because I have been very upset since reading Saturday that I was a former fiance of the Countess Salm, but I was more surprised when I read I was engaged. I never saw the former Miss Rogers. I have seen her husband on several occasions in Europe and may have been introduced to him, but I do not remember it."

"He is well known in sporting circles abroad and, naturally, one cannot travel much without hearing of such a well-know man.

"I met Miss Andra in 1919 in Europe. She was a member of several [illegible] at which I was also a guest, but I never knew her very well. I have been here a little over a year, on business connected with the chemical industry.

**She Insists It's True.**

"Personally, this notoriety is distasteful, but I know my folks in Germany, if they should hear of it, will understand, because they have faith in me. When I am engaged they will know it immediately."

Fern Andra, in her suite in the Great Northern, insisted she was engaged to the handsome baron, despite his denial. She said he lives at Pommern, Germany, in a castle at Alt Marrin, and declared further that their engagement had been announced a year ago in Berlin.

She said she had not seen the baron in several days, and when asked where he was staying, said she did not know, but was trying to get in touch with him.

Among the others mentioned as friends of the Count was Peggy Hopkins Joyce. Peggy was in New York yesterday and to a reporter who spoke with her as she caught the 5 o'clock train back to Philadelphia, she said: "I haven't time to discuss him now See me in Philadelphia."

### BETTER GROUNDS

CHAS. HANNA

Who was elected President of the Belleville Agricultural Society yesterday.

### HOPE.

He—Why the deuce do I struggle with this piffling job?

Fair Typist—Don't be discouraged, think of the mighty oak. It was once a nut like you.

### SHE PROBABLY WOULD

"Why, Charles," said a fond mother, "I'm surprised that you do not want to go to school."

"Huh!" exclaimed Charles. "I guess you'd be a whole lot more surprised if I did want to go."

If you have trouble with your eyes

TELL ME about it.
If we find some error of vision
Present the chances are
Ten to one that I could help
both you and your eyes greatly.
Your opinions about this,
Or mine, either, are only opinions
But an examination by my
Methods is final and
Authoritative. At your Command.

Each 15-cent packages of "Diamond Dyes" contains directions so simple any woman can dye or tint, any old worn, faded thing new, even if she has never dyed before. Drug stores sell all colors.

## That Body of Yours

By James W. Barton, M.D.

### THE CHILD BELOW PAR

I had the privilege of examining the boys of a reformatory school a couple of years ago.

They ranged in age from ten to eighteen years.

As I looked them over there were some well built boys in the group, but not very many.

I had not gone over many of the boys before I found an unusual number of physical defects, such as a school examiner finds in any city school—That is in regard to teeth, throat, and eyes.

However, the outstanding thing was their height, weight and chest development. They were much below par in these points.

I went into the matter of the family history of the boys with one of the officials of the school.

From him I learned that many of the boys came from homes where one of the parents was missing.

This might be due to the death of that parent, but more frequently due to dissensions and quarrellings between the parents.

I asked the official which was more frequently to blame, the mother or the father. "Well", he said, "I used to think it was the father, but the more I investigate matters the more I believe that it is fifty fifty, or equally divided between mothers and fathers."

Now I learned from the boys and likewise from this official that the parents of certain boys of poor physique, were themselves of good physique.

What is my point.

That given good surroundings, good, and regular hours, children will usually resemble their parents in build.

But with a household upset by domestic troubles, where the children go to school when they like, are on the street, or at the movies day and night, where well cooked nourishing food is an unknown or rare thing, these children show it in their bodies.

And the unfortunate thing about it all is that it occurs just when they need good food, proper hours, to say nothing about discipline.

This school was doing good work considering its inadequate equipment.

But I just wondered if as citizens we realize how much was being done for the next generation by pastors, priests, and social workers, who toil so hard and so patiently to keep husband and wife, father and mother together in the home.

Their work will show in the bodies of the children, to say nothing of their moral and spiritual development.

### Currency Honors Prince

Ottawa—A new issue of $2 bills bearing the likeness of the Prince of Wales has been issued by the Canadian government.

---

An annual rainfall of 452 inches was recorded on the summit of Mount Waialeale, Kaui, Hawaiian Islands, in 1922.

The Filipinos have the last public holiday in the year. It is Rizal Day, celebrated Dec. 30.

Handkerchiefs prior to 1781 were made in various shapes. They assumed their present style at the wish of Marie Antoinette, the tragic French queen.

### MUST BECOME "FED UP"

When a man gets tired of sinning he is ready to turn over a new leaf.

### AN INTERPRETATION

If a man is sure of his wife's love he is sure of being forgiven his faults.

### PUPILS ENJOY SLEIGH RIDE

A number of pupils of Queen Victoria Public School last evening enjoyed a sleigh ride about the city, being chaperoned by Mr. and Mrs. Youdale. After the drive the girls and boys were taken to the Y.M.C.A. buildings where refreshments were partaken of.

## CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

### AND BEFORE "MASKS OFF"

She—"Do you remember when you were first struck by my beauty?"

He—"I think so. Wasn't it at the masked ball?"

BELLEVILLE LOCATORS have numerous clients with money to loan on First Mortgages. Do you require a Loan? If so see BELLEVILLE LOCATORS.

Demand BAYER ASPIRIN

SAY "BAYER" when you buy—Genuine

Proved safe by millions and prescribed by physicians for

Colds Headache Neuralgia Lumbago
Pain Toothache Neuritis Rheumatism

Genuine — Accept only "Bayer" package which contains proven directions.
Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Health and Comfort

As age advances our wants are not many and with reasonably good health we can enjoy the peaceful period of life in comfort and happiness.

But unfortunately there are certain ills which conspire to destroy the pleasure of this time in life and they are usually of a decidedly painful nature.

The kidneys are often the first of the bodily organs to fail. Then the poisonous acids which should be eliminated by the kidneys circulate in the blood and cause backache, rheumatism, lumbago and the many ailments which make life so miserable.

There has, perhaps, never been a medicine so well suited for people of advancing years as Dr. Chase's Kidney-Liver Pills.

This statement is founded on the many thousands of cases reported to us from time to time.

The success of Dr. Chase's Kidney-Liver pills is due to their direct and specific action on the liver, kidneys and bowels whereby the accumulating poisons are quickly swept from the system and the cause of pains and aches promptly removed.

Dr. Chase's Kidney-Liver Pills do not lose their effect on the system as do so many medicines but can be depended on absolutely to bring about the desired results. Used one pill a dose at bedtime as often as is necessary to keep the bowels regular, they relieve indigestion, biliousness and constipation and keep the system in healthful condition.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise the price of Dr. Chase's Nerve Food is now 60 cents a box of 60 pills instead of 50 cents for 50 pills. Edmanson Bates & Co., Ltd., Toronto.

ONE CENT A DOSE

NEW BOX 35 Pills

## The Kidneys are the filters of your body

THE kidneys are two bean-shaped organs situated in the lumbar region of the upper part of the abdomen. Through them flows all the blood in your body every three minutes. After being cleansed by the kidneys of all impurities and waste matter, the purified blood is then returned to the circulation.

If these most important organs of your body, the kidneys, become inflamed or congested, they are unable to function correctly. Then your blood circulates through your body heavy with poisons and waste matter, setting up conditions that will cause a serious, and perhaps fatal illness.

### How are you to know the condition of your Kidneys?

If you have constant headaches, pains in the back, a frequent desire to urinate, accompanied by a burning sensation, swelling of the joints or black specks floating before your eyes—any one of these symptoms is Nature's warning that you have kidney trouble. You must heed such warnings immediately.

There is no better remedy in the world for kidney troubles than Gin Pills. These pills remove the obstructions and heal the inflamed condition of the kidneys, restoring them to full activity. Gin Pills are the recognized specific for all kidney troubles. They positively restore the kidneys to a normal condition.

HYDRO POWER

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and good aged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

# SICKENING HEADACHES ENDED BY "FRUIT-A-TIVES"

## Effect was splendid when she tried this Fruit Medicine

East Ship Harbour, N.S.

"For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me and I was almost discouraged.

Then I tried "Fruit-a-tives" and the effect was splendid; and after taking one box, I can safely say I am well. I feel like a new person in every way and I am deeply thankful to have relief from those sickening headaches."

Mrs. MARTHA DE WOLFE.

"Fruit-a-tives" will always relieve Headaches due to Constipation because they act directly on the liver and cause the bowels to move regularly and naturally. This rids the system of impurities and keeps the blood pure and rich. "Fruit-a-tives" are made of fruit juices combined with tonics, are pleasant to take and mild and gentle in action,

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent by

## HUBBY LOSES WOOLEN SOCKS

Toronto, Jan. 19.— Did you ever hear of a sock thief?

One has been detected in North Toronto but scurried away with his loot before he could be apprehended and brought before the proper authorities to be charged with the theft of one and one half pair of men's woolen socks.

A kind housewife told the story of the robbery.

She had just washed two pairs of husband's socks and had placed them on the window sill of the sunroom to dry. It seemed a perfectly safe place to leave them. Of course she neevr thought of thieves.

Several hours later she returned—a pair of the socks had disappeared' She looked carefully inside and on the ground below. They were no place to be seen.

There must be thieves, she thought and decided to wait.

It was not long until a little fellow with a bushy tail and sparkling eyes appeared with a chirp. With no formality he grabbed another sock by an end and scampered away with it. And right under the good housewife's eyes.

It was a squirrel.

Before she could stop him he had squirmed his little body through a hole in the evetrough the sock following after him.

"We probed the thief's lair," said the North Toronto lady and there we found the other pair of socks doing nicely as a soft warm padding for the robber's nest. They were left there for the little fellow and the one re the sunroom window waiting for him to take it also".

### PURSUED HIM

"How far do they trace their ancestry?"

"The grandfather, a bank director, was traced to China; there all traces were lost."

# PORT OF ONTARIO FARM CONDITIONS

The following is a summary of returns made by the Agricultural Representatives to the Ontario Department of Agriculture:—

There is a remarkable agreement in the reports regarding the present satisfactory condition of live stock, and the encouraging prospect for winter maintenance. Supplies of grain and roughage on hand assure full rations for all classes of farm animals, the quantity of hay in store being unusually large and of very good quality.

Leeds:—A great deal of grain is being fed in the sheaf, as many did not thresh much of their grain last year. Most everyone has some hay for sale.

Huron:—A good deal of hay is finding its way to market at present at $8 per ton. The dealers are very particular though, and will not take anything but No. 1 hay.

Middlesex—Some wheat has been sold during the past week, bringing 75c and $1 per bushel. Considerable hay has been marketed at around $13 and $14 per ton delivered.

Peel:—Alfalfa seed understood to be for the American Trade has been purchased recently at $10 to $10.50 a bushel in the rough. Inquiry for hardy alfalfa seed is very active. Re-cleaned variegated is moving out at from $12 to $15 a bushel depending on quality and record of performance.

Timiskaming:—A number of farmers are still complaining that they cannot find a market for farm produce, particularly hay. Many farmers have as high as 100 tons on hand, with no immediate prospect for getting rid of same. Farmers in the vicinity of Belle Vallee, and Pearson, in the White River Flats, next to the Quebec Boundary, have had their hay market cut off to some extent, by the extension of the C.P.R., to the Quinze Lake, in Northern Quebec. Quebec farmers are now shipping north on this extension to construction camps, lumper camps, etc., and I understand are landing hay at these different points at $14, per ton. Belle Vallee farmers would have to carry their hay a distance of 25 or 30 miles to reach the construction and lumber camps at the Quinze.

Huron:—A carload of honey is being shipped from Goderich to the Old Country this week. This is being sold through the Ontario Honey Producers' Association and is the second carload to find its way from this district to the Old Country market.

Carleton:—Considerable stove wood is being sold, running from $8, for light wood to $12, for hard wood per cord.

South Simcoe:—Moderately heavy shipments of live stock were made from the county during the past week. Considerably better roads of butcher cattle were sent out than has been the case for sometime, and for which as high as from $5.50 to $6, per cwt. was paid. Hogs brought $8, per cwt. on the thick smooth basis.

Huron:—After inspecting quite a large number of herds in the county, the past week, we have come to the conclusion that cattle are in fair to good condition. A large number of cattle have been marketed the past week, owing to the strength of prices of late. Considerable number of hogs have also been markketed, although considerable amount of dissatisfaction is heard as some shipped large numbers, securing $8.50 for select hogs and are being bid seven cents this week. Two decks of hogs shipped from the local station here this week graded around 50% select.

Bruce:—The shipment of hogs has increased. The grading for the various points varies all the way from 25 to 70%. We are informed that during the past five weeks the farmers in the vicinity of The Eden Grove who have shipped on graded basis have benefited to the extent of $180, over the amount which they would have received had they sold them on flat rate.

Wellington:—Two carloads of horses averaging 1,700 pounds were shipped out of Arthur recently at an average price of $175 each. All went north to the woods.

Lincoln:—There are not a large number of cattle going to market, but there are quite a few hogs being shipped. There have been four car loads of handy butcher weight cattle brought in for slaughter purposes the last month.

Hastings:—Live stock are wintering well. Dairy cattle in particular are in a more thrifty condition than last year. Some farmers are feeding considerable quantity of molasses.

Carleton:—The milk supply is above normal. The dairies in the City getting more than they require for their whole milk trade. Prices for January are $2.40 per cwt.

Prescott and Russell:—More farmers are getting rid of their surplus of live stock, there being as a consequence fewer wintered than usual.

Victoria:—The drop in price has considerably reduced the weekly run of hogs. About the usual number of cattle is being marketed, most of them in an unfinished condition.

South Simcoe:—A few applications for farm help are being filled for fully experienced men at $350 per year.

## Better Ground

the family of the late Mr. J. M. Hurley, who since the last meeting bad passed away, and record their grateful appreciation of years of faithful and efficient service by him as secretary-treasurer of the Association. That a copy of this resolution be forwarded to Miss Anna Hurley.

Resolution unanimously adopted.

### Winter Fair

Col. W. N. Ponton referred to the fact that Peterboro and other places held winter fairs which were a success. What other places are doing in respect Belleville could do and hold such a fair.

The matter was left in the hands of the officers of the Society, also the matter of holding a fair this year.

# Additional Sports

## Courage In Sport

(Continued from page five.

Bryan has been playing with a bad knee. Finally, a short time ago, he began falling down unexpectedly when his knee caved in under him while in action. He went to see Dr. Palmer, who found the cartilege in the knee joint broken into chunks. Palmer says the knee felt as if the joint was full of broken stones, and it must have been extremely painful at every step, and Bryan was still playing the game. He told Bryan an operation might cure him, but a slip of the knife might make him permanently lame.

"Go ahead," said Bryan, refusing an anesthetic. He didn't twitch a muscle for three hours, while Palmer took out seven pieces of broken cartilege and trimmed the remainder so that Nature could complete the job. In ten days Bryan was in action again, his knee as good as ever.

I have seen boxers quit even in world's championship battles with injuries that wouldn't make a college football player even call for time out. Jimmy Britt was as game as anybody, but he gave up the fight with Joe Gans when he broke a small bone in his wrist an extremely painful injury that crippled one hand, of course.

Old Bob Fitzsimmons was one fighter who didn't care for broken bones. When he smashed three knuckles of his right hand on Jeffries head he turned his hand up to land with the one remaining knuckle. Against Gardiner he fought seventeen rounds with his right hand broken in two places and the bones splintered so that the knuckles were driven back an inch.

I have seen a preliminary boxer, whose name, I have forgotten, fight through a round against Mike LaFontise with his jaw broken off on both sides, until the crowd rushed the ring and stopped the fight.

"Getting Fun Out of Dying"

Another old timer who didn't know how to quit was Tom Sharkey, who finished 25 rounds against Jeffries with three ribs broken on his left side. Tommy West had two ribs broken over his heart by Walcott, in the first round at the National Sporting Club in London, and fought out the fifteen rounds. The club doctor told me another blow on the same spot would have killed West, but he covered cleverly and wasn't hit there again, and not even Walcott knew he was hurt until after the fight. Jack Moffat, of Chicago, a great middleweight, had his left shoulder dislocated in a bout with Al Neil, and tried to go on but was stopped by the referee.

Ice hockey players are often injured, but keep on playing. Hobey Baker, the great Princeton football and hockey player who was killed in his airplane in the war, once told me that in the great excitement of the game a player doesn't feel any injury that fails to actually cripple him.

Sam Langford was game. I saw Jim Barry drop him with the first punch, a terrific swing on the jaw. Langford fell with his right leg doubled under him and injured his ankle so badly that he couldn't walk on it after the fight, but he went on fighting on one leg and beat Barry.

Dempsey once dropped Jack Brennan the same way, and Brennan's ankle was broken by the force with which he sat down on it. He tried to get up and stand on one leg, but the bout was stopped.

The case of Eddie Hart of Princeton, is well known. He had a vertebrae of his neck broken in prep school football, but played a wonderful game all through Princeton, his head held rigidly in a harness that supported his neck. When doctors told Hart that an unexpected twist might re-open the old break and kill him instantly he grinned and said: "Well, I don't know any way to get more fun out of dying."

Jockeys, and especially steeplechase jockeys, survive great injuries and keep on riding with unbroken nerve.

Never Admit it!

Jimmy Mara, a great old time steeplechase rider and champion of his day, once told me that he had broken almost every bone in his body in falls, and often wondered how he happened to be alive. Once when Highby fell with him at a waterjump he was kicked on the chin, had five stitches taken, and rode another race the same day. In another race he had his left shoulder dislocated and the ligaments torn out so that the shoulder never could be replaced afterward. He rode the next day. His right shoulder, another time, was dislocated and ligaments torn and his right arm paralyzer for two months. In the Champion Stakes, riding Van Ship, he was run into the fence and had his knee cap split, but stuck on his horse and won the race.

"I have seen many riders killed by slowing up at a jump," Mara told me. I make it a rule never to flinch. That's why I'm still alive?"

It takes grit "never to flinch."

It was once talking over this matter of gameness with Jim Hogan of Yale who had a remarkable football record. In four years at Yale he never had time taken out for an injury. "Oh yes," sair Hogan. "I've been hurt, but I never admitted it."

After all, that's the essence of gameness.

## Gunners Win

Continued From Page Five

the game ended 4-2 for Belleville.

Whalen, Symons and Armstrong played their position well, back-checked, stick handled and shot beautifully. Canning played his usual clever game and was ably assisted by Goyer who is splendid defensively and rushes well, Scott always can be relied on and we were not disappointed.

The Kingston teams all played well.

| BELLEVILLE | | KINGSTON |

## 'Sup' Exams Not Fair To Pupils, Is Belief

Toronto, Jan. 19—Following Premier Ferguson's speech in Ottawa announcing the abolition of supplementary examination, Dr. A. H. Colquhoun, deputy minister of education issued a statement to-day giving some of the details of the idea and explaining the reason for the change.

Commencing in 1920, he pointed out the September examinaitons have been conducted jointly by the department of education and the universities. In 1922, more than 6,200 candidates wrote these examinations, In 1923 over 4,200 wrote. Owing to the steadily increasing number of candidates it had not been possible to complete the work of examining answer papers as early as in former years.

Furthermore, the increasing number of candidates at the supplementary examinations, had made it necessary to begin them at an early date. As a result, the time between the earliest possible announcement of the mid-summer examination results and the commencement of the September examinations, is too brief to allow preparation by candidated.

"In addition," the statement points out, "there is difficulty in securing satisfactory examiners, and the work of examining the answer papers cannot be completed in time for the opening of the Normal school and the universities."

In explaining the system which is to be followed in the future, the department declares that a special board is to be appointed which will be charged with the responsibility of dealing with all such cases in order to determine which of the candidates can reasonably be considered to have reached the standard set by existing regulations.

# Head Stuffed By Catarrh Or Cold?

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

# FLAMES DRIVE FAMILY FROM HOME INTO ZERO WEATHER AT EARLY HOUR

### Fire Razes Residence of CharlesL. Smith —Is Total Loss

### DRIVEN BY WIND

### Fire Believed To Have Caught From Kitchen Stove—Partially Insured

With the temperature at 6 degrees below zero and a north west wind blowing hard it was a severe test for a family to be driven from home on account of fire.

This was the experience of Mr. Chas. L. Smith's family when their home located in the second Concession of Thurlow Township known as Stoney Lonesome, was destroyed by fire. At about 9 o'clock the fire broke out and in a few minutes the building, a frame one, was enveloped in flames. A piano and a few pieces of furniture were taken out. How the fire originated is not definitely known but is thought to have caught from the kitchen stove where wood was being used as fuel.

The loss sustained by Mr. Smith is partially covered by insurance upon the building and the contents.

### OVER-STRENGTH BEER CHARGED IN 2 CASES

**Cobourg, Jan. 21.—W. F. Strunger, proprietor of the Balmoral hotel here will appear in police court on Wednesday morning next, to answer to a charge of having overstrength beer. License Inspector Goderich and Provincial Constable Coulens seized several samples on Christmas Day, some samples having been found in the stable, the stable samples being under lease to Thomas Flesh. Samples when analyzed tested 9.97 and 9.45 per cent. proof spirits.**

**Both Strunger and Flesh are charged separately with having liquor under the O.T.A. and have retained James Haverson, K.C., of Toronto, former solicitor for the Licensed Victualers Association of Toronto, to defend them.**

### BELLEVILLE MAN PASSES IN TORONTO

Toronto, Jan. 21.—Harry Johnston, aged 57, proprietor of the Oriental Hotel, 77 Parliament street, died suddenly on Sunday afternoon while cleaning the snow off a walk in his backyard. Death was due of heart failure, and no inquest will be held.

The late Mr. Johnston had been in the hotel business for almost twenty years, the larger portion of this time as proprietor of the Oriental Hotel. He was born at Adolphustown, Ont. In politics he was a Conservative. He is survived by his widow and four daughters. A sister resides in Montreal.

The funeral service will be held at the Oriental Hotel on Tuesday evening at 8 o'clock, and interment will be at Owen Sound on Wednesday morning next.

Mr. Johnston was a former well-known resident of Belleville, where he resided for many years, and was deservedly popular with all who knew him.

### RIDE REFUSED HIM, LEAPS OVER BRIDGE

London, Jan. 21.—"Chum,"—said a sailor, warmly pressing the hand of a taxicab driver whom he and two friends stopped on Vauxhall Bridge at 3.30 in the small hours of the morning—"Chum," he repeated, with seasonable enthusiasm "I want to go home."

"Too bad," said the taxicab driver, "but owing to the slightly exhilarated condition of yourself and party, you cannot go home in my taxicab."

The sailor, pointing dramatically to the turgid waters of the Thames, replied: "If you won't drive me,

## THE WEATHER

Fresh to strong westerly winds, fair and decidedly cold.

Tuesday—Southwest winds, moderating.

# SAY CHURCHILL WOULD BECOME CONSERVATIVE

### His Open Letter Viewed as a Knocking for Re-admission to Party

### EYE ON LEADERSHIP?

### Labor Opinion Credits Him With Desire to Replace Baldwin

London, Jan. 21.—Winston Spencer Churchill has put himself in the limelight by the publication of his open letter deploring the advent of what he terms a "Socialist" Government, but so far nothing has developed from it to suggest that the manifesto is likely to produce the desired effect, namely the prevention of Liberal support in putting the Parliamentary Labor party into power.

The letter was criticized in the House of Commons and is being widely discussed in the lobbies, political clubs and the newspapers, but the general opinion is that it was launched too late—or perhaps too soon. This view is being taken even in quarters where the former Minister's excursion is most admired.

Mr. Churchill's suggestion that a further amendment to the address in reply to the Speech from the Throne should be moved — an amendment denouncing Socialism—has been adopted by that section of the Conservative Parliamentgriang known as the industrial group. These members have tabled an amendment along the lines proposed by Mr. Churchill which, if passed, would record its repudiation of Labor. But apparently there is not the least prospect that this resolution will be moved.

**Speculation Rife**

The three parties through their whips, it seems, have agreed that after the addition of Labor's condemnatory amendment on Monday evening, the reply to the King's speech shall be adopted forthwith: and consequently there will be no further opportunity to discus it.

The speculation that Mr. Churchill's letter was really a move looking to his reinstatement in the Conservative party has appeared as predicted, and there sems, indeed, a genuine conviction in some quarters that this is what th emanifesto really portends. The political correspondent of the Westminster Gazette describes the letter as constituting a definite break with the Liberal party and says Mr. Churchill's friends and others behind the scenes do not doubt that it represents his turning move towards the Conservatives.

The Laborites, who have no love for this permanent Liberal, opine that the letter is a distinct bid for the leadership of the Conservatives in anticipation that that party is like ly to throw voer Stanley Baldwin, The latter possibility is being discussed a good deal and the Conservatives, according to some political writers, are fixing their hopes of leadership on Sir William Joynson-Hicks, president of the Ministry of Health, whose able speech in Parliament on Thursday aroused their enthusiasm.

### FRANC DROPS AGAIN

Paris Jan. 21.—French franc was lower today, being quoted at 22.80 to the dollar at noon.

### NEW TREATY SIGNED

Rome, Jan. 21.—An Italo-Albanian treaty was signed here Sunday. Its announced Premier Pasitch of Jugo-Slavia wil arrive in Italy, Friday to hold final conversations with Mussolini before signing the Italo-Jugo-Clav accord.

## He'll Trap Some Rare Air

Prof. W. F. Swan (above) of the University of Chicago, hopes to learn more about the aurora borealis and other electric phenomena of the atmosphere through experiments in rarified air. He has perfected special instruments to be carried aloft by balloons to record atmospheric conditions, etc.

# FAMISHED WOLVES GIVE "MOVIE" MENREAL THRILL OF LIFETIME

### Camera Operators, Filming Winter Scenes, Became Principals in Real Life and Death Struggle

Rome, Jan. 21.—Haggard and exhausted, a party of motion picture operators have arrived at Schiavi, in Northern Italy, bringing a thrilling story of an all night battle with famished wolves.

The operators were filming winter scenes on Mount Macilla when they were overtaken by a snow-storm. Their automobile became stalled in the drifts and night settled on the party.

Soon foraging wolves attacked them, circling the car at first and then leaping up in an attempt to get into the machine. The men fought them off until dawn and then abandoned the car and fled.

The wolves followed them closely, but turned back when the men reached the outskirts of Schiavi.

# TO BRING BACK ABBE'S SERVANT

Montreal, Jan. 21.—Father Delorme's missing furnace man, Arthur Leclaire, is serving time, not in Sing Sing as the priest's lawyers thought, but in Vermont State prison at Windsor. Detective George Farah-Lajoie, who has taken a leading part in the investigation of the murder of Raoul Delorme, for which his half-brother, Rev. Adelard Delorme, faces trial for the third time, returned from Windsor, Vt., last night, bringing back proofs of the identity of the prisoner with the furnaceman at the priest's St. Hubert Street residence, who is considered the most important witness and who may provide the missing link which will free or convict his former master.

While officers of the Crown and others at the Court House this morning reserved a discreet silence regarding the result of the detective's trip to the Vermont prison, it became known that if negotiations at present on foot between the Departments of Justice of the Canadian and United States Governments are successful Leclaire will be brought to Montreal under guard to testify at the coming trial.

# Many Shivering In Frigid Blast

Many in the city were to-day shivering when the thermometer registered six to eight degrees below zero and a strong north wind prevailed driving the snow in all directions. On Sunday the temperature was 36-16, but in the early part of the evening the cold wave arrived and during the night eight degrees below zero was registered. The weather man promises that to-morrow there will be a rising temperature.

# FORM ONTARIO GRAND COUNCIL

### Order of United Commercial Travellers of America Establish Body

Toronto, Jan. 21.—Organization took place on Saturday at the Carls-Rite Hotel on the Ontario Grand Council of the Order of United Commercial Travellers of America, with representatives present from each of the seven sub-councils in this province. This order, which was inaugurated in the year 1880, now has a total membership of 110,000 spread throughout the United States and Canada.

At the formation of the Ontario Grand Council, which took place on Saturday, Frederick W. St. Lawrence, of London was elected as First Grand Councillor of Ontario. Other officers elected were: Second Grand Councillor, Gordon Bennett, Toronto; Third Grand Councillor, H. H. Shannon, Hamilton; Grand Secretary, R. A. Parish, London; Grand Treasurer, F. J. Vanater, Toronto; Grand Conductor, John Lockhart, Ottawa; Grand Page, A. L. Mason, Windsor; Grand Sentinel, D. Williamson, Brantford; Executive Committee, H. N. Carr, Hamilton; Jack Hughes, Peterboro; W. J. Wellwood, Ottawa, and A. E. Belyea, Toronto.

Representatives of the Hamilton, London, Ottawa, Windsor, Peterboro and Brantford sub-councils were on Saturday noon the guests of the Toronto sub-council at Foresters' Hall, where seventy new members were formally initiated into the order. Representatives from New York State councils also took part in the initiation ceremonies, and thus lent an international aspect to the occasion.

The establishment of the Ontario Grand Council was fittingly celebrated on Saturday night by a banquet, followed by a dance, which was held in the Carls-Rite Hotel and was attended by three hundred members of the order and their ladies.

# Broke and Hungry—Two Boys Shovel Snow in Dress Suits

Montreal, Jan. 21.—To be stranded in a strange city with no worldly assets but a suit of dress-clothes and yet to come out of the adventure victorious into achieve something. Such is the opinion of the Canadian Pacific officials who are chuckling over the experience of "Joe" and "Bill".

Joe and Bill arrived in Montreal a few nights ago, their baggage consisting of the clothes they wore, two dress suits, an adequat equantity of the needful and an enthusiastic determination to see Life with a capital L. Where they put up and where they went is not known—Bill and Joe don't know themselves—but the net result was that when they awoke in the morning someone had relievedthem of everything they had in the world except the dress suits they had slept in, and which they had worn for the affray of the night before.

In this predicament, being made of the stuff which builds Empires, they appealed to the authorities at Windsor Station for work whereby they might earn enough to take them out of the wicked city. Sympathetic officials put them on the snow-shovelling gang. And here these two stout fellows, in their dress suits, Joe with his feet wrapped in sacking to keep them warm labored heartily for four days, earning the price of their tickets back to the little old home town.

So once more, fiction and the movies are beaten and, incidentally, it is demonstrated that there is work for all who are up against it and ready to pocket their pride.

### SEVEN FIREMEN DIE IN REFINERY BLAZE

Pittsburg, Jan. 21.—(United Press).—Seven firemen are reported killed, fighting an oil fire in the plant of the Atlantic Refining Company, Lawrenceville, to-day. Score of others are reported injured. Many suffered from the intense cold.

### Many Young Women Interested in China

Victoria B. C., Jan. 21.—J. E. Featherstone, Canada's first commissioner of immigration to China sailed for Hong Kong on the Canadian Pacific S. S. Empress of Australia, accompanied by his wife and young daughter Edith. Indicative of the ever widening sphere of opportunity for women in the Far East was the large number of young women on board, who were en route to take up various duties in China.

# BRITISH RAIL WORKERS STRIKE VITAL BLOW AT ARTERIES OF COUNTRY

### Eighty Per Cent. of Engineers and Firemen of English Lines Call Men From Work—Executive Repulses all Efforts at Mediation Made by Labor Leaders

### 60,000 EMPLOYEES ARE AFFECTED BY GENERAL WALK-OUT PROCLAMATION

### Ranks of Strikers Are Steadily Increased—Preparation In Progress For Distribution of Food to Worst Stricken Areas by Motor Services—Morning Papers First Delayed

London, Monday, Jan. 21.—A strike of the railway enginemen, comprising engineers and firemen, started at midnight. The announcement of the strike was made at the headquarters of the organization.

The strike was called without the support of the national union of railwaymen and the railway clerks' organization, the members of which will continue at work unless coercion is employed to force them to take the strikers' places.

Despatches from the provinces report strike meetings at all the big railway centres, but it will be impossible to discover how far the strike has been effective for some hours.

Passengers who left last night on long distance journeys were warned by the railway officials that they might not reach their destinations, and most of the companies issued posters announcing a curtailment of the services and that goods and merchandise could only be handled at the sender's risk.

**Delays Morning Papers**

Among the first effects of the strike in London was the stoppage of the usual midnight trains to Scotland, North Wales and other points, and consequent inability to despatch early editions of the London morning papers by rail. The newspaper managers have made the best preparations possible beforehand to meet this contingency, and the streets around London's newspaper row were lined with motors of all kinds hired to carry papers into the country districts.

J. H. Thomas, general secretary, and C. T. Cramp, president, in behalf of the national union of railwaymen, have issued a statement declaring that the intervention meeting called yesterday by the Trades Union Congress reached a basis which the railway companies regarded as acceptable, but as it failed to meet the approval of the enginemen's union, there was no alternative but to adhere to their circular, issued Friday, denouncing the [illegible]

Preparations are in progress for motor services for the distribution of food supplies and other essentials while the strike lasts.

**May Be of Short Duration**

The general view is that the strike will not be of long duration, because there are already signs that the drivers and firemen in some places are not enthusiastic for a strike.

At Birmingham, for instance, where al arge number of enginemen are also members of the national union of railwaymen, the disapproval is pronounced, and it is believed that there may be some breakaways. Secretary Bromley, of the firemen and engineers, last night said the enginemen would not mind the Government carrying mails and food, but would take it ill if even a Labor Government helped to run private railways during a strike. Such a Government, he asserted, would be a blacklegging Government.

The strike affects all railways in England, Scotland and Wales, except the London Underground Railways and a few minor provincial lines.

Officials at strike headquarters say that the reports received Sunday from all parts of the country indicated that the men were determined to respond to a strike call. Present indications, however, are that the supporters of the strike are far too numerous to allow the attitude of the dissentients to affect the situation, and the country is faced with immediate dislocation of traffic which will increase, if, as strike officials predict, the members of the National Union of Railwaymen eventually decide to join.

# COUNTY COUNCIL TO NAME WARDEN AND COMMITTEES

### Meeting Planned Tuesday Afternoon for Selection of Various Officers

### PERSONNEL SHOWN

### C. S. Rollins, Reeve of Wollaston Township, is Likely Candidate

At the County Council chambers, shire hall, in this city, Hastings County County Council will assemble to-morrow afternoon to organize and transact business.

The first and foremost business to be transacted is the selection of a Warden, and the probabilities are that Mr. C. S. Rollins, of Coe Hill, Reeve of Wollaston Township will be selected for the position. It is understood that Mr. S. B. Rollins, Reeve of Tweed village, is also an aspirant for the position.

Various committees and chairmen of same will also be selected. The personnel of the County Council as as follows:

Thurlow—J. G. Sills, E. W. Brown, Sidney, W. A. Reid, Clem H. Ketcheson.

Tyendinaga—J. G. Campbell, J. A. McKinney; Hungerford, J. L. Newton, Jos. Taylor; Huntington, Jas. Haggetty; Elzivir, Jas Moore; Deloro Village, S. B. Wright; Faraday W. E. Wiggins; Wollaston, C. S. Rollins; Tudor & Cashel, W. A. McMurray; Bangor, Wicklow and McClure, Chas. Burlanyete; Mayor, F. White; Carlow, James Douglas; Limerick, Alex. McKenzie; Bancroft Village, Dr. A. T. Embury; Deseronto, E. T. Metcalfe; Stirling, C. B. McGuire; Madoc Township, C. W. Thompson; Madoc Village, Walter Whytock; Rawdon Township, W. W. Dracup, George A. Bailey; Marmora Village, G. B. Airhart; Marmora Township, Richard Bonter; Frankford Village, J. E. Finnegan; Monteagle & Herschel, E. A. Wooten; Dungannon, T. Turriff; Tweed Village, S. B. Rollins.

# OFFICER TRACES RECENT THEFTS

### Recovers $200 Worth of Stolen Property and Issues Warrants

Lindsay, Jan. 21.—Provincial Officer Storey, who has been investigating the recent thefts at Omemee, has been successful in recovering about $200.00 worth of the stolen property, and also in fixing the crime on two men, for whom warrants have been issued.

It appears that three places had been entered by the thieves. The articles stolen had been taken to Peterboro and disposed of at second han stores, where Officer Storey located them. The arrest of the suspects, who are well known in Omemee, is expected at any time. Up to the present, Provincial Officer Storey has not received any trace of the poultry stolen.

### BRAVE 'RED BREAST' FACES WINTER'S BLAST

The north wind doth blow, and we shall have snow,
And what will poor robin do then, poor thing.

The reference of course is to the brave robin red breast seen in this city Sunday, on West Bridge street. Doubtless the warm sunshine was misleading to the herald of Springtime, who is two months ahead of scheduled time.

Seeing a robin on January 21st in Belleville should be final proof that Bellevillians will enjoy an "open" winter.

### DIES IN HOSPITAL AFTER COLLAPSING ON STREET

Toronto, an. 21.—The young lady who collapsed at Carlton and Yonge streets on Friday night and died in the General Hospital on Saturday morning, identified as Miss Kathleen Morrison, aged 24, who had been employed as parlor maid at the home of John W. D. Forester, 27 Wellesley street. The unfortunate young lady came from England.

Miss Morrison was walking along the street, when she suddenly stumbled and fell. She was picked up by pedestrians, unconscious, and removed to the hospital where she died.

# NO MAKE-UP ON SWEDISH FACES

Rev. N. S. McKechnie told the Rotarians at luncheon to-day about his trip to Sweden last summer as a delegate to the Baptist World Alliance and when he was through the Rotarians asked for more. Mr. McKechnie is apparently a close observer as he displayed a wealth of knowledge of Sweden, gained in the short time at his disposal. He touched on a wide range of subjects from the electrical development of the country to the wonderful natural complexions of the Swedish ladies.

Some of Mr. McKechnie's statements were a trifle startling to Canadians: for example, that Sweden produces some millions of dollars a year more pulp than Canada; that they have, in a country less than half the size of Ontario, about half as much railway mileage as all of Canada and that it pays even though fifty per cent. of it is Government owned.

Swedish iron and Swedish electrical equipment ranks first in the world markets. At the time of Mr. McKechnie's visit one firm was turning out five hundred locomotives for Russia and getting paid for them, while Scotch and English firms were looking for contracts.

An interesting point from Canadians, is the extent to which Sweden practices re-forestation. Every year they replant an equal area to what is cut, thus making permanent their wonderful forest reserves.

Rotarian M. P. Duff gave an interesting three-minute educational talk on the principles of Rotary.

President Scott announced a ladies' night and appointed a strong committee to select the date and arrange the program.

Miss Helena Hunt, 81 Highland Ave. left for Buffalo this morning to accompany her aunt and uncle, Mrs. and Mr. L. B. Lazier, up the Mediterranean, visiting Spain, Egypt, Constantinople, Paris and London.

# Finds Gold Thought Buried Centuries Ago In Iron Age

London, Jan., 21.—A farmer, Sigurd Anderson, at Lyndike, on the Island of Funen, a few weeks ago noticed something yellow just peeping out from a big lump of earth in his field. He crushed the lump and found three short heavy bars of yellow metal, and taking them a few days after to the neighboring town of Odense was informed that the bars were gold and probably would have to be sent to the National Museum.

On his return home he dug at the place where he had found the bars and unearthed one more. The first three bars were 3 inches to 4 inches long and the fourth 2 inches. The total weight of the bars was 1,252 grammes, and the National Museum, after having examined the find, has now paid Mr. Anderson the metal value; $935.

The National Museum is of opinion that the bars, which are without marks of any kind, date from the Iron Age.

### TACK IS REMOVED FROM CHILD'S LUNG

Philadelphia, Jan. 21.—(United Press).—Baby Cletus Moore, of St. Louis, aged eight months, is on his way to recovery following an operation in which doctors at the University Hospital here removed a steel tack, quarter-inch long, from the infant's lung.

### RAILS ARE CLEARED IN SHORTEST TIME

When one car of a west bound freight train left the rails this morning at 8 a.m. just beyond Sidney crossing, between this city and Trenton, the line was tied up for a short time, and the car was damaged. The trouble was soon righted, however, without any tie up on the system.

## SYMPATHY MISPLACED

The Toronto Star's sob editor has been having the time of its life of late editing the sympathy letters for Red Ryan.

Another protesting against the applicaton of the strap to the beloved person of the bandit receives a warm welcome to the sob sympathy spot of the Star, but should a letter come heartily endorsing the strapping the sob man will hunt up all previously published letters and present a synopsis of passages from them of tender sympathy for the fellow who is due to receive his just deserts.

This Star sob person appears to have forgotten the faithful Bank messengers shot down while defending their employers' property and those too who were shot after they were down. Forgotten are the Bank men over the country who were shot and clubbed—not with a soft strap either, but with a sawed off gun or the butt of a pistol. Even the women and children and the public generally were not protected from danger and abuse of these fearless brutes.

Forgotten also are the dead from such hands and the weeks spent in suffering and weakness in the hospitals by those wounded doing their duty.

The Country's treasure lavishly spent and lives endangered in capturing these scoundrels was all wasted if this sob sympathy business is right.

What kind hearted and sound minded parent would hesitate to apply slipper or strap to correct a beloved child going wrong? "Spare the rod, spoil the child" has ancient origin, but it appears to have gone out of fashion. Some of that medicine applied to these fellows in their childhood might have taught them early the meaning of authority and valuable lives, much suffering and a mint of money would have been saved.

The increase of violent crimes is deplored by all, but is it any wonder? when influential and widely circulated papers like the Toronto Star send their special and best writers, hundreds of miles to interview the criminal and devote pages to describing him, his clothing, noting even the peculiar smile of the criminal, send a special writer along on the train to amuse the prisoner and even go so far as to see him undressed and the prison togs put on.

It need not cause surprise that crimes of this nature grow and flourish in Canada and the United States when the movies and big influential papers make notorious the bandit butchers. A brave deed or a glorious discovery that will benefit humanity the world over does not receive any notice by comparison.

The Intelligencer rejoices that Canada has some judges who have the courage to make the punishment fit the offence, to some extent at least and we only hope that Red Ryan can be "induced" to remain in "the pen" long enough to receive what he richly deserves and earned.

We haven't heard that The Star has applied to the Department of Justice for leave to extend their famous radio to the cell of Red Ryan, the poor fellow should be amused, if he cannot amuse himself by shooting people who oppose him or cannot be allowed out to occupy himself by robbing a Bank.

Stop the sob slush, everybody has had more than enough.

## EDITORIAL NOTES

Movie business is slacking up because people have seen them all.

—o—

Movie stars are going to the speaking stage. This is too bad. Many will have to learn English.

—o—

Other improvements are noticed. The derby hat is passing. Old ones will make nice flower pots.

—o—

The measles microbe has been discovered and will be fought. It brought this all on itself.

—o—

Governor of Pennsylvania will wear a Texas hat, which is much better than talking through it.

—o—

Plasterers in Chicago are receiving $25 a day. We think this is laying it on pretty thick .

—o—

Things are quite lively in Boston. A man was arrested there for claiming a razor beat four aces.

—o—

Idaho man wants divorce because his wife would cook nothing but eggs. She just egged him on.

—o—

Many sealskin coats are being sold for winter. Many of these coats were worn by rabbits.

—o—

A Georgia farmer who wondered if robbers would get $600 out of his coffee pot found they would.

## PRESS OPINIONS

### GAMES AND CULTURE

(London Chronicle)

History shows that the level of physical culture in any people reacts on their mental standards. Games moulded the Greek character, and contributed much towards the creation of that unique beauty which we see reflected in Greek art and literature.

In those days they were regarded together with dancing, as religious rites an were resorted to as part of funeral ceremonial, or as thanksgiving for a victory, or, again, as celebrities in honor of a god. When the games were temporarily abandoned, Greek culture fell into decay, and their revival was held to be a measure essential for its regeneration .

### DRIVEN NUTTY

(Los Angeles Times)

Cables mention that a Bulgarian suddenly went mad and killed an orchestra. We rather hoped that it was one of these big orchestras that reel out the jazz.

Is it assumed that the Bulgarian was crazy because he slew the orchestra? it may be that the musicians drove him nutty and in that case the orchestra was punished as particeps criminis or an accessory before the fact.

If Bulgarians are in the habit of going crazy and mangling saxophone players it might be a good idea for Uncle Sam to increase the quota of monthly admissions from their country. Not every man who kills an orchestra should be considered crazy. There is such a thing as self-defence.

### REAL UNION

(Atlantic Monthly)

Henry Ford has given the labor unions something they greatly needed—competition in well-doing. On a grand scale he has demonstrated that the way to beat unions is to do more for one's workers than the unions can win for them.

The Ford organization is today an industrial clan. Its members are widely scattered in space and social position, and subject to all the myriad difference that make against solidarity in the human family. Nevertheless they are with the company and with its boss, in spirit.

Critic, whether of high or low state have been sloughed off or shoved out sometimes ruthlessly. Those who remain seem to be Ford's men in the sense that the Gregara were The MacGregor's men—come weal, come woe.

### POLITICAL FLABBINESS

(Contemporary Review)

By evading our responsibilities in the peace, we have done historically what Cromwell did over Spain, only that Cromwell destroyed a great sea rival, whereas so far we have only destroyed a great land market, the loss of which has placed us in a very unpleasant economic situation. So far as reparations are concerned—they have almost ceased to be a concern. To France they were always purely a secondary interest.

We, in Britain, now know that transfer of value is not so easy as a politician's peroration, and that money is no longer the problem which to-day is the capitalist system now at stake, and the fear of the industrial output of Germany freed, on paper, of internal debt, whereas we are caught on gold with a dead-weight debt of $7,000,000,000.

Reparations today have come to be policy: first, as against our allies who owe us indemnities; secondly, as against German future trade. It is a trade war pure and simple. We are handicapped on gold. Germany, relieved of reparations, would be able to swamp

That is the position due entirely to our blindness at Versailles and almost inconceivable political flabbiness ever since. To France, the reparations present her with the treaty right to go in and break up Germany.

## WIT AND HUMOR

### HER CHOICE

"Dinah, I hear you are going to get married?"

"Yas'm I done found me a nice steady man."

"Has he a good job?"

"No'm, not now zactly—but he's fixing to study for the ministry. Ah's gwine suppo't him till he reads the Bible th'oo."

### SHINE MORE AND MORE

Missouri Exchange—"Our observation is that pants are a much stronger friend to man than shoes. It is an awful job to keep shoes shiny, but a faithful old pair of pants shine more the harder times get and the less a fellow rustles. Blessings on the bifurcated garment!"

### ESPECIALLY IF HE LIVES NEARBY

"What do you call a man who plays the saxophone?"

"Don't call him anything. Words fail."—Boston Transcript.

### SEE 'EM SMILE

And now we come to the January sales which makes the person who received a cash Christmas present smile a broad expansive smile.

### CARELESS

I greet my friends, "How do you do?"
When really I don't care
That they don't care that I don't care
That neither of us care.

Tenyson J. Daft in Kansas City Star.

### HANDY

Mae—Your husband walks in his sleep? How dreadful!

Rae—Not at all. I put the baby in his arms and he never knows it.—New York Sun and Globe.

### JUST LIKE REGGIE

"Father's named his new foxhound after you, Reggie."

"I wonder what put that idea into his head."

"He says the dog doesn't know enough to keep a scent when he's got it."—Boston Transcript.

### A BIT FOGGY

The old gentleman was lost in a London fog, so thick that he could not tell the hand held before his face. He became seriously alarmed when he found himself in a slimy alley. Then he heard footsteps approaching.

"Where am I going?" he asked anxiously.

A voice replied weirdly from the darkness: "Into the river. I've just come out."—Eevrybody's Magazine.

# Two Powers Of Germany

Dr. A. Hermes (left), former German minister of finance, is in this country, and the other day, in company with Dr. Weidfeldt, German ambassador, called to pay his respects to President Coolidge. It is believed Dr. Hermes is in this country primarily to test sentiment for a loan to his country.

# Music & Drama

### THERE ARE MANY WAYS INTO LONDON BUT—

It was the great German General Von Moltke, who said that he knew many ways of geting an army into London, but none of getting them out.

One is reminded of this saying by the thrilling new film drama, "Out to Win", which is now being shown at the Griffin Theatre. In it a man is endeavouring to make his way out of London in order to take up a valuable option abroad. A rival ring of adventurers is determined to hold him up till the option period expires. He puts out in a rowing boat on the Thames, but is pursued by his competitors and turned back. He tries to escape by aeroplane—in vain. He disguises himself as a taxi driver, to take himself to the railway station, but is again held up at the point of a revolver. There seems

NO WAY OUT OF LONDON

Of course you will say, Why did they not send for the police? The answer is, that the secret of the option would then have been out, and all the financiers in the world would have stampeded to the Continent to secure it.

These lively incidents are only just a few in what is a thoroughly exciting clean and entertaining picture.

### "YOUR FRIEND AND MINE" NOW AT REGENT

Teil Madison, a playwright, knows that the artist who loves his friend's wife means to destroy their happiness. He contrives a situation which will reveal to the blind husband the artist's real intentions. His play's the thing; for the situation which is depicted there is identical with the one in which they themselves are involved.

Whether his carefully-made plans will bring the results he expects, is told in the Metro-S.L. special production, "Your Friend and Mine," directed by Clarence C. Badger from Willard Mack's play. At the Regent Theatre today Tuesday and Wednesday.

# SOCIAL and PERSONAL

Miss Jennie Johnson, cor. Bridge and Albert streets, is spending a few days visiting friends at Campbellford.

Mr. Leroy Keane is spending the week-end in Toronto with his family.

Miss Margaret Dryden of Marysville is visiting her sister, Mrs. Thomas Callaghan, Patterson street.

Mrs. F. R. Elliot of Toronto is visiting relatives in this city for a few days.

A sleighing party was held Friday by the pupils of Mr. Uedales Class, Q. V. S. After a delightful ride, the party proceeded to the Y. M. C. A. by the kindness of the latter. Many games were indulged in, after which a light luncheon was served. The party broke up at ten-thirty.

### SIR WILLIAM MULOCK HAS 81 YEARS OF ACTIVE LIFE

Chief Justice Sir William Mulock reached his 81st birthday on Saturday, and his career as a prominent citizen is a tribute to the people of the farm. Sir William was born in York County and at an early age he was obliged to do work on the farm; but between his labors he laid that educational foundation which was to make of him the prominent figure he has become to-day.

## WEDDINGS

### SWEETING—HAUGHIAN

A very quiet but pretty wedding was solemnized in St. Michael's Church this morning when Rev. Father Killeen united in marriage Miss Rose May, only daughter of Mr. and Mrs. Stephen Haughian of Perth, Ont., to William Sweeting, son of Mrs. Mary Sweeting and the late John Sweeting of Hamilton, Ont.

The bride wore a dress of cinnamon brown canton crepe, with hat and shoes to match, coat of marvella cloth with beaver trimmings. The bridesmaid, Miss Rita Bean, wore a dress of navy canton crepe and hat to match.

Mr. Stephen Garvin assisted the groom. The groom's gift to the bride was a travelling club bag, to the bridesmaid a silver mesh vanity bag and to the groomsman a pair of white gold cuff buttons. Immediately after the ceremony the happy couple left on a honeymoon trip to Hamilton and Buffalo. On their return they will reside in Belleville.

Weak Anaemic Women

WHAT THEY NEED TO RESTORE GOOD HEALTH AND VITALITY

The woman who feels tired out, who aches all over when she rises in the morning, who feels depressed most of the time, needs the help that Dr. Williams' Pink Pills can give her—new, rich blood and stronger nerves. The number of disorders caused by poor blood is amazing, and most women are careless about the condition of their blood. Their nerves are quickly affected; they worry over trifles and do not obtain refreshing sleep. There may be stomach troubles and headaches; shortness of breath and a fluttering of the heart. This is a condition that calls for Dr. Williams' Pink Pills, the blood-improving, nerve-restoring tonic. Mrs. William Henry, Lovett street, London, Ont., has proved the value of these pills, and says: "I had a very severe attack of anaemia. I was always tired and the least thing would make me sick at the stomach. I could hardly go about and suffered terrible pains in my legs from cramps. I had no color in my face and was as white as a sheet. The doctor gave me several kinds of medicines, but could not understand why I did not get results from it. Then I went to a hospital and was there for three months, but came home no better than when I went. My friends were worried and feared consumption. While I was still in this condition a friend advised me to try Dr. Williams' Pink Pills. I tried them and after a time felt they were helping me, and I gladly continued their use, and am thankful to say that I am again a well woman, and I firmly believe that had it not been for Dr. Williams' Pink Pills I would not have got better."

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

SINCLAIR'S

COATS
of the Better Class
Radically Reduced

Just a few of our finest Coats are left for clearance, and prices have been much reduced in these to make wonderful values, before stock-taking. Coats of Marvella, Berona, and Duvetyn, in Black, Brown and Navy, luxuriously fur trimmed.

Prices have been reduced as follows—
$94.50 for $65.00; $85 for $59.50; $78.50 for $59.50; $65.00 for $52.50; $56.50 for $42.50.

FLANNELETTES 29c.
At 29c. yard, these Flannelettes are exceptional values, 36 inches wide in white or colors. Your last opportunity to purchase at this price. Regularly 35c. yard, on sale at 29c. yard.

### SCOTTISH DISTILLERIES ENTER ON BOOM PERIOD

London, Jan. 21.—There has been a big boom in Scotch whiskey during the past week or two, and every wholesale house in Scotland is working at full pressure.

Despite the threat of some of the fishing centres to go "dry," there has been no slackening off in the demands for the more famous blends of "mountain dew." Orders came in well, not only from both sides of the border but from the Dominions.

The Hogmanay rush was equal to anything in pre-war days, and no doubt it would have been even bigger but for the widespread depression in the industrial centres of the country.

The few dry spots in Scotland did not affect the demand in the slightest.

Manufacturers, too, are hustling. Every distillery in the north of Scotland is now working, and in several cases order books are already completely filled up.

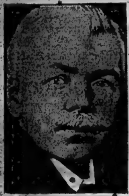
# They Figure As New British Cabinet Candidates



JOHN R. CLYNES

OSWALD MOLSEY

It is universally believed to be only a matter of days until Ramsay MacDonald, bulwark of the British Labor Party, will succeed Stanley Baldwin as premier of Great Britain. While the personnel of MacDonald's projected cabinet is still a matter for conjecture, it is expected the new premier will award portfolios to some of the men pictured here. All of them are staunch labor supporters and here's a word about each.

Arthur Ponsonby, former page to Queen Victoria, is related to many of England's noted families. Once a Liberal, he is now an ardent Laborite.

James Thomas is leader of the British railwaymen and the son of a Welsh laborer.

William Thorne is general secretary of the Union of General Workers.

John Hodge, former minister of pensions, is president of the Iron and Steel Trades Federation.

Sidney Webb, professor in the University of London, is considered Britain's ablest labor authority.

Tom Shaw is secretary of the International Congress of Textile Workers.

Philip Snowden, socialistic in his views, advocates public ownerahip of production and distribution.

John R. Clynes is president of the Union of General Workers.

Arthur Henderson was a member of Lloyd George's war cabinet, without portfolio.

E. D. Morel, well known labor leader is a newspaper man.

Oswald Mosley, son of Sir Oswald Mosley, forsook London social life to espouse the labor cause.

This sleeper may be occupied at Toronto at 9 p.m. and passengers may remain in the sleeper at Sudbury until 8.30 a.m.

Any Canadian Pacific Agent will arrange reservation. J7-10-14-17-21-24

Aunt Martha's

HOUSEWIVES COLUMN

I got a letter today—from a woman in Windsor.

She says—"What I like best about my Dominion Store is that I can send my very little boy there with an order for my groceries, and still be sure I am saving as much money as if I went out "shopping around" for bargains. I put the money and the order in an empty milk bottle and out the little fellow goes with it as proud as you please.

"He likes to go, too, for the Dominion Store man is just like an old friend to him."

I think that letter speaks for itself, but maybe I should explain a little that the reason her little boy can save as much on her groceries as she could herself, is that regular buying from a Dominion Store brings the *steady* savings that are the biggest economy in the long run. When you save on *everything* your savings easily mount up to five or ten dollars a month. That's better than saving something on one thing—and losing it again on the next thing, in searching around for bargains.

Don't you think so yourself?

# CROWDS THRONG TABERNACLE FOR FINE SERVICE

## Rev. H. B. Kenny Gives Timely Sermon on 'Absolom the Good Looking'

## SPECIAL MUSIC

## Men's Choir Have Charge of Complete Musical Service

Chairs which were temporarily placed in the Tabernacle church last night, were necessary to accomodate the large congregation which assembled to hear a powerful sermon by the pastor, Rev. H. B. Kenny and to hear the special musical service given entirely by men of this city.

Discussing the third of a series of sermons, Absalom the Good Looking" the pastor chose the text from 2 Sam. 14-25; and stated that the ancients, and in particular the Orientals were very fond of remarking upon a man's height. Their notion was the greater the stature the more fit the man was for the gods. The old testament is to a great extent a book which takes notice of outward features and praises physical excellence. But what an irony there is in such a case as Absalom. A miserable thing that we should hear nothing about a man but his beauty, his hair, little petty peculiarities. If we are to be known in a little circle or large one, let it be for some excellence, genuine kindness, bright charity brotherly helpfulness.

Absalom had a fine head of hair whether blonde or black or auburn I do not know; and it must have been one of his chief personal attractions. Such hair is the charm of a woman and wonder of a man.

### Perfected Youth

There was aother remarkable feature in Absalom's make-up. "From the sole of his foot to the crown of his head there was not a blemish in him." He was the perfect model of beautiful manhood, faultless in feature, symmetrical in figure and blameless in stature and style. Nature had almost exhausted herself in beautifying this young man.

He was ambitious and like Napolean he did not scruple at any measure to reach an end. He was a Caesar in genius with all his personal vanity. His artful genius worked until Israel was ripe for rebellion. O that beauty with such flowing hair! What abilities and possibilities were those which Absalom possessed. How great and glorious would religion and virtue have made such a young man. He turned all his powers to treason and villianary and he went suddenly to temporal and everlasting destruction.

### Beauty Is Dangerous

It is a dangerous and deadly thing to be beautiful and not be good. Unconsecrated and wicked beauty is a snare of the devil. A pretty man is seldom if ever of any account, and if he have abilities he but too often turns them to bad account.

"I haven't a brief for ugliness, but the church in the past seems to have had," exclaimed the speaker. "I know that most of the greatness and goodness of this world have been in rough and rugged caskets.

"Do not be captivated by superficial qualities, like those of Absalom," warned the pastor. "His fine hair proved his halter. Nothing is said of his wisdom and piety. In his body there were no blemishes, but in his mind and soul there were those he couldn't heal. We need to be fair within. "Create in me a clean heart oh, God, and renew a right spirit within."

### Sound Philosophy

In material emergencies, we have been content to look to men of physical or intellectual strength, but we learned that men who are only men in body and mind are never equal to any great emergency. For the simple reason that the great emergencies of life are always spiritual and a spiritual emergency can only be met by a spiritual force. We need a power beyond the physical to solve problems.

William Wilberforce, whose hands struck the shackles from the galled limbs of British slaves, was a hunchback. From his infancy he was a misshapen litle figure. We never think of him as a hunchback. He is remembered by what he did in the interest of humanity when pleading the cause of the slaves, he seemed like a man inspired, and his deformities magically vanished. Like Wolfe at Quebec and Nelson at Trafalgar, he died in the flush of triumph. I cannot but contrast the death of Absalom hanging by the hair, kiled by Joab and he a traitor, to that of Wilberforce, receiving while dying, the message that the Emancipation Bill had passed. It pays to do right.

The men's choir last evening, was at its best, the excellent choruses pleasing the large congregation greatly. Solos were rendered by Mr. Sandford Burrows and Dr. A.B. Haffner, and those two well known singers were never heard to better advantage than at last night's service, both soloists throwing their whole soul into their pleasing work. The work of the Quinte male quartette of the church, who are heard each Sunday at the Tabernacle, is also very hard to surpass.

The interesting subject which Captain Kenny has chosen for his sermon next Sunday evening is, "Spiritualism and the Ouija Board."

The sacred song so ably rendered by Mr. Burrows was "Were You There and Dr. Haffner's excellent number was, "Come Unto Me."

## OBITUARY

### WILLIAM C. WAY

At Lindsay on Thursday last, Mr. William Cecil Way, son of Mr. and Mrs. John R. Way passed away after being ill for some time. Deceased was born in Belleville in 1881 and was exceptionally clever. After receiving an education in Lindsay he attended Queen's University where he graduated in 1906. For some time he was a Professor in Queen's University being an assistant teacher as a mechanical engineer. Mr. Way was connected with two well known concerns in Canada and was latterly engaged in the topographical survey department at Ottawa. Deceased was highly esteemed by a large circle of frinds. He was a member of the Anglican church. A widow, and two children, Ronald and Margaret survive also his parents. Mrs. A. R. Symons of this city is a cousin of deceased.

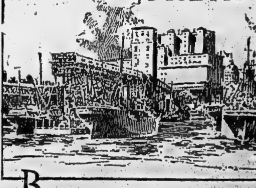
EARLE & COOK COMPANY

FIRST

of the series, dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere

IN MONTREAL



BEFORE any steamship had crossed the ocean, and before either the locomotive or the telegraph had been invented, nine merchants of Montreal signed articles for the formation of the "Montreal Bank," now the Bank of Montreal. That was on June 23, 1817—more than 106 years ago.

Since that time Montreal has grown from a town of less than 20,000 to a city of more than 800,000 population.

The Bank, in continuous and successful operation from those early days down to the present time, has steadily pioneered its way across Canada. Today, through its Head Office and more than 550 Branches, it offers complete banking service—local, national, and international—in every section of the Dominion.

BANK OF MONTREAL

Established over 100 years

Total Assets in excess of $650,000,000

## ON THE ALLEYS

[illegible] Recreation Alleys

It was a big night on the alleys Saturday night when Ladies League played a double header at the Recreation Parlors. The first game was between the Canucks and the Belmonts, the former winning out by a safe margin. Miss Rouhan carried off the high single with 201. The second game was between the Willowbanks and St. Pats, this game being in doubt until the last game, the Willowbanks finally winning out.

In the Men's Junior League the Mac's were engaged to play the Express team but as the Mac's only had two men out they played the Express an exhibition game and although they won out, the game goes to the Express. In the "Big Six" league between the Hardware and the Sprinklers, Bill Harris came within two pins of the alley record when he spilled them for 217. The Hardware rolling 2623 against the Sprinklers 1965. Although the Sprinklers rolled a low score they had hard breaks all the way through and with three of their regulars off made things hard on them. Scores and players.

Allstars and Reds staged an interesting contest and one in which the winners were not declared until the last ball found its mark. The Reds obtained a slight lead in the first game but lost this in the second when the Allstars were leading by 20 points. The Allstars increased their lead in the third string winning out by a margin of 47 points. Faulkner of the Allstars rolled the high total of the evening and Alexander the best single game score.

Two league games were played at the Recreation Alleys on Saturday night, one game in the ladies league between the J. & J. Cash and the C. I. A. Office staff, the latter team rolling up a tidy score of 1625, this is considered very good score for a team that has been playing slightly over a week. Miss Long who rolled the last two games for Miss Bonisteel set a new alley record for the ladies with 225, the previous high score was held by Miss Doran with 224. The second game was between the National Castings and a team representing the Baby Shoe. The National Castings taking this game by over 300 pins. Norm. Turner setting the pace with 232 and 542 respectively. Scores and players were as follows:

LADIES LEAGUE

| | | | |
|---|---|---|---|
| J. & J. Cash | | | |
| Miss McHugh | 73 | 66 | 78—217 |

## QUEEN'S INTERMEDIATES HERE FOR TOUGH BATTLE TONIGHT

### Manager W. A. Hewitt Says Team One of Greatest That Ever Played Together, Either Amateur or Professional

Determined as the Belleville Intermediate O. H. A. hockey team is, in their endeavour to continue the winning streak, and carry their group without a loss, Queen's Intermediates one of their stiffest opposition teams in this group is equally desirous of being the first team to take a fall out of the Thomas crew.

Those two teams have not met this season as yet, but lock horns for the first time this evening at the Arena here, when following the opening 8.15 gong, both teams will be striving for supremacy.

Belleville will be represented by its most formidable line-up, so there will likely be real "doings" at the Arnott ice palace.

Record Not "Dusty"

By trimming Frontenacs of Kingston in two games, locals has proven their superiority over that squad and by downing Brockville right in their own town, they started the blue shirts on their "cellarwards journey" with a push. Queen's gave them another jolt Friday night, and they should soon strike bottom, as they travel on "special" trains.

It is a hard blow for the "industrial" town, where "spare part" hockey players are "assembled" into a machine which misses more often than it hits. This machine will have power some time though. It may drive its Brockville inventor nuts. Though it looks good on exhibition, it "does not deliver" when pressed into service. The players have nice new uniforms 'n everything too. The team seems to run to frills rather than service.

Cornwall, in turn were defeated here in a hard game, and though they have speed, they lack "education." Another case of spilling the perfume on the desert sands. But Queen's—They are the team to beat, and there is no time like the present.

Opportunity will knock to-night and its up to the fans to assist the players with the reception.

## LOCAL C.N.R. TEAM, VICTORS

The 5-0 score indicates the relative merit of the local C. N. R. terminal team, and their rivals the Simcoes of Toronto, whom they defeated Saturday night at Arnott's Arena. The local line-up includes well-known players who have a little too much speed and experience for the team, which represents Simcoe Street Freight shed in the Industrial League at Toronto. The score by periods was 1-0, 3-0, 5-0. For Belleville Baker in goal took care of his work in fine style what he had to do, however, was not in the majority of cases very difficult as the Weir, Hagerman defence kept the Simcoe attackers well in hand. Sammy Symons, Armstrong, and Wardaugh on the forward line, also showed up well while Riggs and Buckley fitted in nicely for subs. Simcoes one defence man and centre player looked the best fo rtheir team. Stan Nurse handled the bell to satisfaction of both teams. It is expected that a return game will be played in Toronto, Feb. 2nd, when the local Red, White and Blue clad boys will again cross sticks with the Green and White uniformed Toronto crew.

Belleville teams lined-up as follows under the management of Geo. Savage, who thinks they are just about good enough to take on any of the different terminals at hockey.

Goal—Bker; defence, Weir and Hagerman; cetnre, Wardaugh; wings, Armstrong and Symons; subs, Buckley and Riggs.

## IVANHOE COUNCIL ELECT IN SESSION

Ivanhoe, Jan. 21.—The Council-elect met last week at which Reeve Jas. W. Haggerty and Councillors John D. Blue. A. L. Downey, Geo. Cooke and Wm. A. Morton took declaration of office and took their seats. Communications were received from the Municipal World Sick Children Hospital and Gool Roads Association.

It was moved by Downey, seconded by Morton that the Clerk be authorized to order six copies of the Municipal World.

On motion of Cook and Blue, $5.00 was granted to Sick Children's Hospital, but on motion, no action was taken regarding the Good Roads Association. John Douglas, R. S. Wood and A. L. Downey interviewed the Council regarding roads for colonization work.

By-laws were introduced and read a first and second time appointing the following:

Auditors, Harold Ashley and Albert Welsh. Members of Health Board, Anthony Herity. Sanitary Inspector, F. H. Rollins. Sheep Valuators, Leonard Keene, Richard Downey, G. H. Ashley, Benj. Brough, John Emerson Truant Officer, Chas. A. Mitts.

Moved by Cook, seconded by Blue that by-laws be read a third time, signed, sealed and numbered 460-61-62 63-64.

On motion, the following accounts were ordered paid:

| | |
|---|---|
| Tweed News ...... ........ | $102.25 |
| John Weese (gravel) ...... | 1.40 |
| Wm. Wright (gravel) ...... | 8.30 |
| Thos. Reid (gravel) ........ | .70 |
| Municipal World .......... | 6.00 |
| Sick Childrens Hospital .... | 5.00 |
| Councilors Pay ............ | 17.50 |
| Board of Health .......... | 12.00 |

The Council adjoudned till the first Monday in February.

## SPORTS THROUGH EDGREN'S EYES

SPORT THROUGH EDGREN'S EYES

(By Robert Edgren)

There is some talk of matching Gene Tunney against Dempsey. Tunney will need to harden his hands if he fights the heavyweight champ. Tunney is a fast and clever boxer, but he has to be careful in hitting because his hands were put out of commission in several of his early fights. Dempsey is very lucky. Hardest hitter in the world; he never has hurt either hand in a fight. He can use the heavy artillery any time. John L. Sullivan used to say that he could knock down a horse by hitting it on the head. Some of the old time sluggers didn't care where a blow landed, so long as something dropped. Dempsey picks his mark and seldom misses even by an inch. Perhaps that is why he has good hands.

Tex O'Rourke, who went to England several months ago to try out a lot of heavyweights and find a man to fight for the heavyweight title, has three men in raining. In England he first advertised for big men who wanted to become fighters, visited all the boxing clubs, and combed the country for material. Many applied. He selected the three who proved to be the best of the bunch. Price, son of an inn keeper, Ingleton, who resigned from a police force to take up fighting, and Prestage, a boiler maker, are his three "hopes". Tex says any of the lot could have whipped Beckett without a day's training. They all range between Firpo and Jess Willard in size. Tex, who never was a boxer but who boxed quite a little in an amateur way and has the theory of boxing, had coached them quietly. The three train together. The plan is to have them beat all the English heavyweights now fighting, including poor Beckett, and then come to America and start in here.

Several other American managers have hunted through Great Britain for heavyweights. Billy Madden held tournaments all over England and developed Charlie Mitchell, who was a wonder for a small man—never more than a middleweight. Peter Maher, of Ireland, was the best man brought over to try for the championship. Peter had the kick of a mule. He'd be a sensation in the ring today. Peter never was lucky. He knocked Bob Fitzsimmons nearly out once with his first punch, but let Bob get up and swing on him. No other heavyweights worth mentioning ever were "dug up" by visiting managers. Bombardier Wells came to America and might have made good if Al Palzer hadn't found the weak spot—his stomach—and Gunboat Smith clipped him on the neck. Wells was a wonderful boxer and a sharp hitter, but couldn't take punches. As a rule that has been the failing of English heavyweights.

The University of Illinois outfits its athletic student body with the following:

Three football fields, three soccer fields, eight outdoor and four indoor playground ball diamonds, 45 tennis courts, 3 volley ball courts, a 75 foot tank for swimming and water basketball, one outdoor and two indoor running tracks, six basketball courts, 16 baseball diamonds, 2 horseshoe courts and nine hole golf course.

And still there are some kickers who claim that college sport is indulged in only by the members of the varsity teams.

Jimmy Johnston, managing Johnny Dundee, sends out a letter about the featherweight champion. James has been known to speak enthusiastically about his fighters. Of Johnny he says: "The crowned champion of two classes has participated in over four hundred ring contests: in training for each he has taken off from ten to fifteen pounds in weight during each training period, or reduced a total of approximately four thousand pounds. He is as vigorous and full of energy after fifteen years of boxing as he ever was and expects to go on for five years more."

Failing to find any other charge against Charlie Paddock that would stick, the A.A.U. threatens to disqualify him because he is a newspaper writer. Paddock has been doing newspaper work for several years, and between writing and lecturing manages to earn his own living. Naturally this arouses the indignation of some people who thing a runner should run, wherever he is told to run, and live on his "expense allowances." An amateur athlete, to be entirely satisfactory, should have no ambition but to be an athlete, especially a boy like Paddock, whose name on the posters is such a great help to the gate receipts.

The hulabaloo about Tilden, who writes, and other athletes who make a living by writing, is silly. Tilden has written a lot of stuff that isn't tennis, and has sold it to magazines and papers.

I competed in amateur athletics for twenty-four years, and am likely to go into training and take another whirl at the discussor the hammer any time. I have also written sports, fiction and other things for a good many years, and the A.A.U. never made the slightest suggestion that it was improper and unamateur. Writing and drawing pictures is work—pleasing and interesting work, but often not as easy as it looks when a fellow must keep up with the latest news and find something fresh to write about every day. Editors don't pay a writer for writing because they admire his athletic ability.

When I was in active athletic competition around New York I was often offered money by club managers to compete in club games—always by the semi-advertising clubs that pay amateur athletes. Sometimes they told me how much they were paying other athletes. Never accepted a cent or even expenses. Paid my own way when I competed, had a lot of fun out of the sport—and wrote newspaper stories about sports and all sorts of things every day. My athletic sports cost me a lot of money. But I suppose that if I applied for new registration with the A.A.U., after criticizing the actions of the A.A.U. in trying to deprive the United States of Charlie Paddock as a member of the coming Olympic Team purely as a matter of A.A.U. politics, I'd be accused of black professionalism.

I don't know that I blame the amateur sport officials. With some of them promoting and controlling amateur athletics is a business proposition. If an amateur athletic trust could be perfected, with all athletes under control like hired men, it would be "good business". Naturally they work to bring about that condition.

Very few A.A.U. officials ever were athletes. Except in name and theory the A.A.U. is not an association of amateur athletes. It is an association of men to control amateur athletes. If the athletes controlled their own sport there'd be little real professionalism.

### MAKIN GUP TIME

Mother—I gave you a peny yesterday to be good, and today you are just as bad as you can be.

Willie—Yes. mother, I'm trying to show you that you got your money's worth yesterday.

### KISSING FORBIDDEN TO FRENCH BOXERS

Paris, Jan. 21.—The boxer's kiss has been placed under the ban. For some time it has been the fashion for fighters to exchange kisses—one on each cheek—at the conclusion of a ring battle, but the French boxing federation has decided that for hygienic reasons the practice must go, and has issued an official decree ordering its abolition.

Originating in southern France, the custom gradually spread to all French rings until it threatened to become a mania even among the professional fighters.

### OIL IN ENGLAND

London, Jan. 21.—What is believed to be the biggest oil-bearing shale beds ever discovered has been found in West Somerset, according to a statement in The Star, quoting the famous English Engineer Parkin.

NOTICE, BOWLERS!

We want to draw the attention of all lady bowlers that beginning January 14th every night ladies are welcomed to bowl and we are reserving two alleys for the ladies after the ladies' league game which finishes about 8.30. 18-6td

# That Body of Yours

By James W. Barton, M.D.

By Jas. W. Barton, M.D.

### DO YOU HAVE A DAILY TEMPERATURE

In a former article I spoke of the mistake that was made of carrying around a clinical thermometer, and then should it record a degree or two the frantic efforts to reduce the said temperature.

Temperature simply show you that something is wrong, and nature is trying to right it. So, if at any time you have a slight temperature don't worry about it, but see that intestine is clear, abstain from eating, and get off your feet. You can send for the physician if it persists.

But what about it, if every day of your life you find yourself with a temperature of one or two degrees?

Does this mean anything?

It most assuredly does, and should be investigated fully.

It means in plain language that something definite is wrong inside your body.

What is it likely to be?

Well, to take something simple it may be due to sluggishness of the liver, allowing the intestinal contents to set up a slight poisonous condition.

It might also be due to bad tonsils.

These may not be very sore, nor give much inconvenience, but there is just enough absorption from them by the blood to give the one degree of temperature.

One of the results left by the Flu is a chronic inflamed condition of the little cavern adjoining the nose.

They are in the forehead over the eyes and in both cheeks. This is a frequent cause of that daily temperature.

Of course there are severe troubles like tuberculosis that likewise give a daily temperature.

What is my point?

That while you should not allow a little temperature occasionly to worry you, the fact that you have a little temperature every day is a very significant thing. It means trouble.

Well, what are you going to do about it?

Why just begin looking for that trouble.

You are on your feet, you are not real sick, your body is putting up a good fight for you. Get busy and help it.

Don't think because you are not in bed that you shouldn't bother with it. That might mean that you'll get down for good.

Go to your family doctor, and to your dentist, and let him try and find out the cause of the temperature.

They will likely find it all right. In any case remember there is always a cause, and it will be found, if you look for it long enough.

### CARRIER PIGEONS USED TO SMUGGLE COCAINE

Paris Jan. 21.—Several arrests made in the past few months have done little to stope the wholesale traffic in cocaine between France and Germany, but the police believe they have hit on the right trail by accident.

A farmer found a pigeon dead in a field, and owing to the peculiar markings and the strange packet it was carrying he took it to the police.

The authorities claim to have discovered an organization with 50 carrier pigeons engaged on the contraband drug service.

### THE BANKRUPTCY ACT

IN THE ESTATE OF The Baby Shoe Company, Authorized Assignor.

NOTICE IS HEREBY GIVEN that William Wheelee of the City of Belleville, trading under the name of the Baby Shoe Company, did on the 18th day of January 1924 MAKE AN AUTHORIZED ASSIGNMENT of all his property for the benefit of his Creditors and that Thomas Milne Asseltine, Official Receiver, has appointed me to be custodian of the Estate of the Debtor until the creditors at their first meeting shall elect a trustee to administer the estate of the debtor.

NOTICE is further given that the first meeting of creditors in the above estate will be held at the Court House, City of Kingston, on the 30th day of January, 1924, at Two o'clock in the afternoon.

TO ENTITLE YOU to vote thereat, proof of your claim must be lodged with me before the meeting is held.

PROXIES to be used at the meeting must be lodged with me prior thereto.

AND FURTHER take notice that if you have any claim against the debtor for which you are entitled to rank, proof of such claim must be filed with me within thirty days from the date of this notice for, from and after expiration of the time fixed by subsection 8 of section 37, of the said Act, I shall distribute the proceeds of the debtor's estate among the parties entitled thereto, having regard only to the claims of which I have then notice.

Dated at Belleville this 18th day of January, 1924.

## RUB CHEST COLDS AWAY; STOP PAINS

Pain and congestion is gone. Quickly?—Yes. Almost instant relief from chest colds, sore throat, backache, lumbago follows a gentle rubbing with St. Jacobs Oil.

Rub this soothing, penetrating oil right on your chest and like magic relief comes. St. Jacobs Oil is a harmless liniment which quickly breaks chest colds, soothes the inflammation of sore throat and breaks up the congestion that causes pain. It never disappoints and does not burn the skin.

Get a 35 cent bottle of St. Jacobs Oil at any drug store. It has been recommended for 65 years.

# Deed Signed By "Poor Richard" In Possession of Local Dealer

W. B. Riggs, of Riggs Motor Sales, this city, possesses a document which he prizes highly, and which by reason of its historic importance is of public interest. The document is a copy of a deed dated June 23rd, 1785, and is signed by Benjamin Franklin. The deed is made out on stiff brown paper and the hand writing is excellent. The document is on exhibit at the Y.M.C.A. here where the officials will be glad to show it to anyone who calls.

Following is the wording of the deed:

The supreme executive council of the commonwealth of Pennsylvania. To all whom these presents shall come, Greetings—

"Know ye that in Consideration of the Monies paid by John M. Daniels into the Receivers General Office of this Commonwealth at the granting of the warrant therein after mentioned and of the sum of Three pounds five shillings and three pence lawful money paid by him unto the said office there, is granted by the said Commonwealth unto the said John M. Daniels A Certain Tract of Land called "Donaldson" Situate on waters of Peters Creek in Washington County, Beginning at an Hickory thence by land of James Parks North fifty four degrees at one hundred and eighteen perches to a black Oak thence by land of one Wilson North twenty-three degrees West fifty four perches to a Black Oak North sixty degrees East thirty three perches to a White Oak and North thirty one degrees West sixty perches to a Spanish Oak thence by Hildoorland North twenty one degrees West ninety two perches to a White Oak thence by land of Isaac Friend South forty seven degrees West two hundred and twenty nine perches to a Beech tree thence by land of Thomas Riglor North forty four degrees West fifty two perches and an half to a White Oak North twenty five degrees West two [illegible] an Hickory and South forty eight degrees East eighty six perches to a White Oak thence by land of Thomas Harris South fifty six degrees East Sixty five perches to the place of Beginning containing Two hundred and twenty four Acres & allowance of Six % for Roads With the appurtenances (which said tract was surveyed in pursuance of a warrant granted to the said John M. Daniels dated the [illegible] June 1784) To have and to hold the said Tract or parcel of land with the appurtenances unto the said John M. Daniel and his heirs to the use of him the said John M. Daniels his heirs and assigns forever free and clear of all Cestructions and Reservations as to Mines Royalties Quitcents or otherwise excepting and reserving only the Fifth part of all Gold and Silver for the use of the Commonwealth to be delivered at the Pits Mouth clear of all charges. In witness whereof His Excellency Benjamin Esquire Piendent of the Supreme Executive Council hath hereto set his hand and caused the State Seal to be hereto affixed in Council the twenty third day of May in the year of our Lord One Thousand seven hundred & eighty seven and of the Commonwealth the Eleventh—

Attest

James Trimble
for John Armstrong jun. Sec'ry

*Why* **Ford Predominates**

Proof that Ford predominates is to be found in the fact that 50 per cent of all cars in Canada are Fords.

Ford predominates because it supplies the essentials of adequate, economical transportation.

Ford has been the pioneer in the automotive industry; has blazed the trial in every fundamentally sound transportation principle.

Ford service is an outstanding example of Ford predominance. Authorized Ford service is to be found wherever motor cars are used—always capable, business-like and prompt.

More than 4,000 service stations in Canada are assurance of this.

# VALENTINO STILL HOLDS PUBLIC EYE

Vitagraph received 386 suggestions of actors best fitted to play the role of Peter Blood in "Captain Blood," the novel by Rafael Sabatini, world rights to which Albert E. Smith, president, purchased while in London last fall, in answer to a questionaire sent to the leading motion picture editors of newspapers in the United States.

The editors of motion picture news called upon the fans of the country to offer names of players suitable for this part and 2876 fans write to Vitagraph direct.

The suggestions ranged from Rudolph Valentino and Douglas Fairbanks, who led in the number of letters from editors and fans, to unknown extra men. The final count showed 113 suggestions for Valentino, 110 for Douglas Fairbanks, 94 for J. Warren Kerrigan and 100 scattered, in the answers from the editors.

Seven hundred and eighty-five fans suggested Valentino, 688 favored Douglas Fairbanks, 418 named J. Warren Kerrigan. Actors who were named in more than 50 letters were Lou Tellegen, Bert Lytell, Dustin Farnum, Raymond Navarro, Thomas Meighan, Lewis Stone, Richard Barthelmess, House Peters, Malcolm MacGregor, Conway Tearle, Jack Holt, James Kirkwood and Sidney Blackmer.

The publication of a note in the Newark Ledger that Vitagraph was to screen "Captain Blood" and were considering actors for the leading role prompted a dozen hopeful young Valentinos to apply for the job at Vitagraph Studios in Brooklyn, both in person and by telephone. All of them declared that they had seen the "ad" in their home town paper and they were willing to work at a small salary for the chance to appear before the camera.

### OPPOSITION AGAINST FASCISTI FLICKERS OUT

New York, an. 21.—The first spark of opposition against Mussolini has flickered and gone out. Ex Premier Giolitti, who attempted to create a personal national party to oppose the Fascisti in the coming election has given up his efforts. It is understood, however, he will support all minor parties which will place candidates in the field against the Fascisti.

### POSTER COMPETITION

Dear Sir:

The Poster Competition now being conducted in Canada for the benefit of Ex-Service Men appears to have attracted a good deal of attention, including that of the Law Officers of certain of the provinces.

In England, competitions of this kind requiring skill on the part of the competitors, have been held by the Law Courts to be legal.

The present competition has been organized in England by the British Charities Association in aid of the Hospitals, and in Canada by the Veterans' Association of Great Britain, working in conjunction with the G.W. V. A. of Canada, Army and Navy Veterans, and Imperial Veterans of Canada, for the joint benefit of these charities. The £30,000 prize money is being given by this Company in the hope that the scheme will greatly benefit the funds of the charities concerned, and the whole of the proceeds of the scheme go to these charities.

Prior to organizing the Canadian Section of the scheme, the Veterans' Association of Great Britain made careful enquiries regarding the Canadian Lottery Acts, and we understand they were advised that the Canadian law was similar to that obtaining in England.

Yours faithfully,
(Signed) Geo. Lawson Johnston, Chairman.
Erroll, Vice-Chairman.

# HERITY GIVES FINE ADDRESS ON JOURNALISM

Friday afternoon an instructive address on Journalism was given at Ontario Business College by Mr. J. O. Herity, City Industrial Commissioner and Manager of the Local Chamber of Commerce. Mr. Herity referred to prominent and successful O. B. C. graduates he has met in his travels through Canada and the United States, and spoke in complimentary terms of the high reputation of the College.

Mr. Herity traced the development of reference to the establishment of early the art of printing and made special reference to the establishment of early Canadian newspapers in Halifax, Montreal, Niagara Falls and Belleville. He showed copies of some very old newspapers which in size, contents and manner of production were in striking contrast to daily papers of the present.

Three modern developments which revolutionized the newspaper business were described; first, the making of paper from wood pulp instead of rags; second the invention of the linotype machine; and, third, the invention and use of the large rotary priting press.

Mr. Herity humorously explained the nature of "news" and combatted the prevalent idea that newspapers can be bought or bribed to suppress accounts of misdemeanours.

The present tendency in the publishing business is toward chain newspapers, as, for instance, the Beaverbrook group of papers in England, the Hearst publications in the United States, and the Southern papers in Canada. Amalgamation of newspapers is another modern tendency.

Mr. Herity is a clear, forceful speaker and his extremely interesting address was greatly appreciated by all who heard it.

### WHEAT TO BLOW UP ABANDONED FREIGHTER

Tacoma, Wash., Jan. 21.—A spectacular explosion that would be worth big money as an attraction to a fair will soon occur in mid-Pacific, unwatched and unheard. The foundered freighter Kyosei Maru, abandoned this week, is floating keel up. In her hold are 6,000 tons of northwest wheat.

Slowly swelling, each kernel is gradually increasing in size. The terrific growing pressure will burst the steel hull in a week or ten days, declare mariners. When last seen by the rescue ship President McKinley, large flocks of sea birds were resting on the mollusk encrusted keel, ignorant of their coming fate.

Dolan The Druggist

Drugs Excite The Kidneys, Drink Water

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to see relief two or three times during the night, if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

### AN APPRECIATION

The funeral services of the late Mrs. Hadrell who passed away after a long illness at the home of her daughter, Mrs. J. Jackson, Point Anne, were conducted at the home of her daughter Mrs. Walter Rush Bayside on December 21st ult, by Rev. Mr. Honey, assisted by Rev. Batstone.

Deceased had been a resident of Sidney Township for nearly eighty years, the last thirty year being spent at Sidney Crossing. She was a good woman and beloved by a large circle of friends. In her younger days sickness never entered a home but Mrs. Hadrell was always ready and willing to help in every way. She would cheerfully labor all day in her own home and spend night after night watching at the bedside of a sick and dying neighbor. Such are the loving memories that linger in the minds of the many friends among whom she lived so long. The remains were laid to rest in Whites Cemetery, beside the husband who passed on many years ago. She leaves to mourn her loss two sons, William of Trenton, and George in the old home. Two daughters, Mrs. W. Rush, Bayside and Mrs. Jackson, Point Anne.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels, and break up colds. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box, or by mail post paid from The Dr. Williams' Medicine Co., Brockville, Ont.

### STERLING SLUMPS

London Jan. 21.—The pound sterling slumped badly today, falling to $4.21. The decline was attributed to the national rail strike and unsettled political situation.

## FACTION OF SAFETY FIRST IS HEIGHTENED BY C.N.R. PROTECTION DEPARTMENT

### Announcement Is Made By W. D. Robb of Appointment of W. A. Booth as Director of Safety First and First Aid

### PLAN INSTRUCTION

### Classes In Protection Work For Benefit of Foreigners To Be Extended From Already Large Number —

Montreal, Que., Jan. 22.—The announcement is made by W. D. Robb, vice-president of the Canadian National Railways, of the appointment of W. A. Booth, chief draftsman, motive power department Montreal, to be director of safety first and first aid for the Canadian National Railways.

The appointment of Mr. Booth is a step in the work of eliminating as far as is possible preventable accidents on the National System, and in the instruction of large numbers of employees from coast to coast in first aid work.

**Direct Shop Work**

Mr. Booth who took over his new duties yesterday will direct the instruction of all employees in the proper use of tools and in the exercise of care in their work. Instruction will be given men working in the shops in various parts of the system and also those employed in operation of trains and in the maintenance of the right of way.

It has been found that many accidents have occurred to foreigners who have been unable to read and it is thought that many of these accidents may be prevented through the use of personal instruction.

Mr. Booth will also have the power to recommend such safeguarding on all parts of the system as he may consider of value in reducing the opportunities for accidents. His department will work in close co-operation with the Safety League throughout the Dominion.

**First Aid Instruction**

Instruction in first aid has always been a notable achievement with the Canadian National Railways, teams from the system having on various occasions won the championship of Canada. Teams comprising both men and women from various departments of the system have entered competition of the St. John Ambulance Association of Canada and have always taken high honors.

A conservative estimate of the number of employees of the system who have received instructions in first aid work would be 18,000.

At the present time more than sixty classes of men and women are receiving instruction in first aid work on the Canadian National Railways.

**Eliminate Accident**

While this showing is most satisfactory it is desire of the present management to extend that work so that eventually it will not be possible for an accident to occur on any part of the system from coast to coast without there being present some employee of the Canadian National Railways who is qualified to administer first aid.

Mr. Booth entered the service of the part of the Canadian National Railways as an apprentice in the drafting department July 1st 1888. He was successively thereafter draftsman, assistant Chief draftsman, acting chief draftsman, engineer, locomotive construction and on April 3rd, 1923, chief draftsman.

### POSTPONE BLOCKADE

### Is Plan of Mexican Rebels, Reports U. S. Admiral.

Washington, Jan. 22.—The rebel blockade on the port of Tampico has been "postponed" until the end of the present month, Rear-Admiral Magruder reported to the U. S. navy department today on his arrival off that port aboard his flagship, the cruiser Richmond.

### THE WEATHER

Strong southwest winds, moderating, light snowfalls.

Wednesday—Northwesterly winds, fair, much colder again by night.

### COMING EVENTS

Quinte Fortress No. 3, L. A. Patriarch's Militant affiliated with Canton No. 8 At Home, Wed. Jan. 23rd. in Oddfellows Temple, Front Street. Cards in upper hall until lunch. Dancing in lower hall, 8.30 to 1. Good prizes. Tickets 50c. Tax included. 19-3td

Don't forget concert auditorium Tabernacle Church, under auspices W. M. S. Thursday, Jan. 24, 8 p.m. Marion Wood Alyea, reader; vocal numbers, Quinte Male Quartette, Ladies' Trio, Mrs. Nicholson, Brown and Duff. Solo's, Mrs. Brown, Dr. Haffner and Mr. Stillman. Tickets 35cts. 21-3td

Come to Prince of Wales School Community Club concert, January 24th, 8 p.m., College Hill. Moving pictures. Everybody welcome. 22-3td

## COUNTY COUNCIL ELECTS ROLLINS TO WARDENSHIP

### All Members In Prompt Attendance at Opening of Hastings Council

### UNANIMOUS CHOICE

### Busy Year's Programme outlined By New Incumbent In Office

At the opening session of the County Council this afternoon all members were in attendance. Previous to the session the Conservative members met in caucus and selected Mr. C. S. Rollins, of Coe Hill, the popular Reeve, of Wollaston Township as their candidate for Warden of Hastings County for 1924.

Mr. Rollins was by the council as a whole elected Warden and in a few well chosen remarks thanked the members for the honorable position they had placed him in.

The Warden elect also referred to some matters which would be brought up for consideration.

## AUTO KILLS MAN, THEN SPEEDS AWAY

New Toronto, Jan. 22.—"We the jury, empanelled to inquire into the circumstances surrounding the death of Roy Wilson, who died in St. Joseph's Hospital, Toronto, following injuries received on Wednesday, January 16th, find that death was caused by deceased being struck by a passenger motor car proceeding westward and which was driven by some unknown person who did not return to the scene of the accident."

The above verdict was returned by a coroner's jury under Dr. Edmund J. Carleton which met in New Toronto on Saturday night to reach a verdict as to the cause of the death. Few witnesses were able to testify as to having seen the actual accident but one witness told of the death car putting on an approximate speed of about 25 miles an hour after hitting "something" which later proved to be the body of the dead man tossed up in the air about the height of the engine of the automobile. He saw the body between the headlight of the automobile and the light of an approaching radial car.

**Headlights Too Strong**

The majority of the witnesses stated that it was their opinion that the driver of the automobile which struck Wilson had been unable to see him, due to the intense glare from the headlights of the radial car, which he was meeting. A rider was added to the verdict by the jury to the effect that "headlights should be placed in some other positions of the radial cars, as they are by their glare a constant annoyance to motorists travelling in the opposite direction.

No clue as to the identity of the automobile which struck Wilson was obtained, except that it was a powerful car, and that the tail light was extinguished. Whether it was before or after the accident it was not known. At the conclusion of the inquest, the jury voted their fees to Wilson's widow, as she is in straightened circumstances.

## PHILLY'S FOUR MUSKETEERS

Here are the four men who are making the Quaker City mighty unhealthy for lawless elements. From left to right: Brig. Gen. Smedley S. Butler, on a year's leave of absence from the U. S. Marine Corps to take over the municipality's post of safety director; Mayor W. Freeland Kendrick; George Elliott, assistant director of public safety, and Superintendent Mills of the bureau of Philadelphia police.

## OLD MAN 'PROBS' PLAYS MAH JONG

### Sends Miscellaneous Shower of Weather Upon Unsuspecting But Tolerant Public

That old sage, the Weatherman, is playing Mah Jong with the public these days. Yesterday with a stiff biting north west wind, he sent everyone scurrying to their firesides, and caused every one to "run mostly to galoshes and furs". Then he fooled every body. He caused the cold nor'wester to "go to babyland with Old Sol", and down went the thermometer degree by degree until the lowest temperature yesterday was reported as 13 degrees below. This made the best of the thermometers "creak". Fast stepping, silent persons who hurried to their destinations last night, made music as they walked on the "screeching" snow, and various adjacent verandahs and wooden sidewalks answered "echo", as they periodically "cracked" with the extreme frost. The huge, full moon smiled upon the sparkling snow too, but not for long. During the night, the Weatherman again changed his offensive, and changing the wind to the other corner, south-west, moderated the atmosphere, but sent a snow storm for good measure, and that is what we are enjoying to-day. He did not do a thing but "Mah Jong" the long suffering public.

**No Serious Results**

Belleville was fortunate, however, that no threatening fires broke out during the cold snap, although regret is expressed for the Stoney Lonesome family who were driven into the street by an early morning fire which destroyed their home yesterday. Cold weather also caused the accidental burning of a valuable motor car on the outskirts of the city.

Manager E. T. Austin of the City Waterworks Department states this morning that very few cases of waterworks trouble were reported yesterday, and that everything in his department is working smoothly today.

Buses and cabs still keep up their runs without much difficulty, although the odd stop is necessary to adjust the carburetor to the weather conditions.

The lowest official temperature at the pump house here yesterday was 9 below, and the highest 13 above.

### GOES BACK TO STATES

Montreal, Jan 22.—Harry A. Grossberg, wanted in Cleveland Ohio, on two charges of forgery and one of perjury, was ordered surrendered to the United States authorities by Extradition Commissioner F. E. Choquette.

## TUMBLES FROM BLAZING AUTO IN RUSH TO ESCAPE FLAMES

### Local Man Has Narrow Escape From Death When Motor Bursts Into Flames While Seated in Car.

Hurriedly opening the front door of his car, which he was driving, and tumbling quickly into the roadway when the machine, a Baby Grand Chevrolet burst into flames, Robert J. Johnston, 76 Victoria avenue, narrowly escaped being badly burned, in an atmosphere which with a frigid blast, registered 12 degrees below zero at 6.40 p.m. Monday.

The fire brigade was summoned and both stations responded but were unable to find the burning car which was a smouldering ruin when the owner left it, everything having been burned, and the gasoline tank smouldering. The firemen made the run to Cemetery street at 6.50 p.m. where they understood the burning car stood.

**Narrates Story**

Johnstone told the unusual story this morning, of his startling experience. "I had just taken the car out, and had driven it about three quarters of a mile, when suddenly it burst into flames. Opening the door, and grabbing a sweater which lay on the front seat beside me, I rolled out to the ground, when I returned to the car to battle the flames with the sweater, the top was practically burned off the machine, and it was a mass of flames. It continued to burn until it was a total loss."

Garage mechanics who inspected the "skeleton" today state that they believe back fire through the carbureter, blew the cap of the vacuum tank, and caused the fire.

Johnston had the car insured for $1000, though it stood him almost double that amount.

### "IT PAYS TO ADVERTISE"

Everybody in Belleville should know this, but one enterprising merchant has proven it.

Last Friday, Dolan the Druggist inserted an "ad" in the Intelligencer asking that the people of Belleville send their discarded records to his store, as he had promised to collect at least fifty for use at the Isolation Hospital. The Matron had only six records to use on a cheap gramaphone at that institution.

Today when the Intelligencer "Ad" man called at Dolan's Drug Store he was advised that he had over fifty at present and had received promises for more than a dozen more. Mr. Dolan is delivering these free to the hospital as well as inserting the "ad" and handling the records.

## VICE-PRESIDENT OF C.N.R. PLANS RADIO CONCERT

### W. D. Robb To Deliver Speech in French on Immigration Policy

### MUSICAL NUMBERS

### Canadian National Railways Band and Vocalists on Programme

Montreal, Que., Jan. 22.—Mr. W. D. Robb, vice-president of the Canadian National Railways, will deliver a speech in French by radio on Thursday night at 8 o'clock. The message, which will deal largely with the immigration policy of the Canadian National Railways, will be broadcast from station CKAC.

Instrumental music will be furnished by the Canadian National Railways Band, Mr. J. Davidson, conductor, and vocal solos will be rendered by Mr. Lino Monte and Miss Blanche Gonthier. This is the second of the radio programs of the National system to be broadcast from Montreal. The programme is as follows:

March—"The Middy", (Kenneth J. Alford) Can. Nat. Ry. Band.
Tenor Solo—Mr. Lino Monte.
Selection on English Melodies, "Sounds from England" (Otto Langey) Can. Nat. Ry. Band.
Soprano Solo—Miss Blanche Gonthier
Address—Mr. W. D. Robb, vice-president Can. Nat. Rys.
Waltz—"Flower of Paris" Can. Nat. Rys. Band.
Tenor Solo—Mr. Lino Monte.
Cornet Solo—"Colima Polka"—Mr. J. Davidson, Bandsman, Can. Nat. Rys. Band.
Soprano Solo—Miss Blanche Gonthier
Overture on Popular French Melodies "a Belle France" (L. P. Laurendau) Can. Nat. Rys. Band.
"God Save the King."

### SHUT DOWN OIL STATION

### Oil Company To Meet Rebel Demands

New York, Jan. 22.—The Mexican Petroleum Co. has shut down its great oil pumping stations at Tampico, Mexico, rather than pay $400,000 demanded by the De La Huerta rebels for permission to continue operations. It was explained by spokesmen of the company that the rebels had done no damage to the oil plants. The company has 40,000,000 barrels of oil in storage upon which it is drawing now.

### DEATH WAS ACCIDENTAL

Sudbury, Jan. 21.—Verdict of accidental death has been returned at the inquest into death of Andre Marchuk whose body was found last Wednesday on the fourteenth level of Creighton Mine with his right side blasted and spine broken. No one saw how the accident occurred.

## MODERNIZE P.O. SAVINGS BANKS

### Proposes Use of Receiver-General's Office In Each Province

Unionville, Jan. 22.—Touching on the failure of the Home Bank and its relation to banking conditions generally throughout the province and the Dominion, W. F. Maclean, M.P. for South York, speaking at the annual meeting of the Markham Township Conservative Association in Unionville, strongly advocated making the Received-General's office in each of the provinces the banking centre for the receipt of Government deposits, and a clearing house for General Post Office Savings Banks. The members for South York paid a glowing tribute to the principle of public ownership, in which he said he was deeply interested, and incidentally Sir Adam Beck and his handling of public affairs generally.

**Something to Divulge**

Hon. George S. Henry, Minister of Public Works, one of the speakers of the afternoon, spoke at some length on the manner of financing the road improvements carried out by his predecessor, Hon. Mr. Biggs, and contrasted it more than six months Hon. Mr. Henry said that he had been looking into the manner in which the commitments had been made by the Drury Government in highway works, and he promised that when the House met he would have some startling statements to make concerning these.

Touching more fully on the recent failure of the Home Bank and the feeling of unrest engendered by this collapse, Mr. Maclean said that the success attending the inauguration of the Hydro-Electric and the Canadian National Railway warranted the belief that the same principle applied to the extension of the provincial banking system would prove equally effective and successful.

He pointed to the fact that the Hydro-Electric, after meeting all its fixed and operating charges, had a substantial surplus to the good.

**Can Meet All Expenses**

Dealing with the receipts of the Canadian National Railway for the year 1923, he said that after providing for all charges of upkeep and all other running expenses, the line showed a surplus of $21,000,000, and assuming the same ratio for improvement was maintained for two years more, the road would be able to meet the annual interest on some reasonable amount that Parliament ought to name as the capital investment of the whole system. This statement was greeted with applause.

The express and telegraph services he said were showing a like improvement, and he stated that at the coming season of the Federal Parliament he would like the Government to give a hearing of the Canadian Pacific or its friends, when this question of fixed investment of the National system came up for discussion. The Hydro Commission is meeting all its costs and sinking fund, said Mr. McLean, and spreading out to develop the water powers of the St. Lawrence.

## BRITISH SHIP OF STATE NOW GUIDED BY HANDS OF HOUSE LABOR GROUP

## FIVE FAMILIES BURNED OUT IN TORONTO BLAZE

### Five Homes Gutted by Fire In Residential District of City

### WOMAN CARRIED OUT

### Firemen Have Difficult task In High Wind and Smoke

Toronto, Jan. 22.—Five families were burned out this morning when fire gutted their homes 36, 38, 40, 42 and 44 Montrose ave., doing damage estimated at about $12,000. The blaze broke out in a cool-air box of the furnace in No. 38. The firemen battled for nearly two hours in danger of luminating gas fumes and in the cold biting wind and dense smoke.

Those rendered homeless and their losses are:

No. 36—Wm. McCormick and wife, $1,000 building, $1,000 content.

No. 38—W. Thompson, wife and roomer, building $2,000, contents $1,000; not insured.

No. 40—A. H. Lemesurier, $1,000 building, $800 contents.

No. 42—H. Applebaum and family, building $1,000, contents $900.

No. 44—Archibald Campbell and wife, $1,500 building, $1,000 contents.

Mrs. Lemesurier is a daughter of former fire captain Geo. Ford, and owns Nos. 38-40. Search was made after the fire for $300 which was in the house. Two or three water-soaked $50 bills were found, also a diamond ring. In all, over $200 was recovered.

Hose 8, College st., under Captain Gates, were fighting their way into No. 38. Fireman Charlie Brisbin opened the door. No sooner had he taken a step into the hallway, when a back draught, believed to have been aided by a gas explosion from the meter lifted him and three others off their feet and deposited them at the bottom of the verandah steps. They were uninjured, and immediately returned to the house. Other explosions were heard in the other houses. These are believed to have been due to gas pockets in meters and pipes. The first explosion occurred about 10.30 o'clock and they kept up intermittently, the last one in No. 44, almost blowing off the verandah roof.

**Woman Carried Out**

Warned by shouts and noise of the explosions which the blaze first broke out, the occupants of Nos. 36, 40 and

Continued on page seven.

### TWO MEN ARRESTED

### Detectives Drive Ten Miles Through Blizzards to Get Men

North Bay, Jan. 22.—Tennyson Taylor Steele, aged seventeen, of Toronto, and Ernest J. King, aged 24, of Gore Bay, were arrested today by detectives, who drove ten miles through a blizzard to a small shack in the woods where they found the men. Steele and King are alleged to have broken into a store here a week ago.

### W. P. DAILEY DEAD

Brockville, Ont., Jan. 22.—William P. Dailey, late bursar of the Ontario Hospital for the Insane here, and previously well-known in municipal life throughout the county of Leeds, died this morning after a long illness.

## ALLEGED "BOOTLEG KING" HAS $2,000 FINE REDUCED

### Appeal From Cobourg Decision In December Results in Reduction of $1,650 in Penalty Imposed.

Police Magistrate, Col. Floyd of Cobourg found Charles Sequire guilty of selling liquor on Saturday December 15th last, and fined him $2,000 and costs or six months in jail. Sequire was then alleged to be "King of Bootleggers at Warkworth and district". The judgment was immediately appealed by counsel for accused, C. A. Payne, of this city.

Yesterday at Cobourg the appeal was heard by His Honor Judge Ward, who dismissed it, but altered the judgment by reducing the fine from $2000 to $350 and costs.

Arrested late in November by a Provincial constable, Sequire was charged with selling two bottles of liquor for $16 to an operator. It was alleged that the operator negotiated for the purchase of the liquor, and driving to Sequire's home "whistled" for Sequire who is alleged to have come out of the house with two bottles, and received a $10, $5, and $1 bill in payment. He was told to place the bottles in the car, but was "grabbed" by officer who watched the proceedings. When arrested, his home was searched and three other bottles were found there. The marked money was also found on him, the Crown alleged and it is his second offence.

### First time in History—Baldwin Ministry Defeated by Majority of 72 Votes—584 Votes Recorded

### MACDONALD PREMIER

### Only Nine Liberals Support Baldwin Ministry—Resignation Presented to King —New Government to Have Confidence Vote

**London, Jan. 22.—Great Britain greatest of few remaining monarchies, placed it's affairs of state and industry today in the hands of a Government built of its laboring class.**

London, Jan. 22.—The Conservative Government, headed by Stanley Baldwin, met defeat in the House of Commons Monday night, and for the first time in the history of Britain a Labor Government will probably take office.

The Labor amendment to the address in reply to the speech from the Throne, introduced in the House by John Robert Clynes, deputy leader of the Parliamentary Labor party, on January 17, was adopted by a vote of 328 to 256, J. Ramsay MacDonald, the Labor leader, himself moving closure, which was agreed to.

The amendment reads:—

"But it is our duty respectfully to submit to Your Majesty that Your Majesty's present advisers have not the confidence of the House."

The Labor party had the support of Herbert H. Asquith, former Premier and leader of the United Liberals.

After the Labor amendment had been carried, a motion that the address in reply to the speech from the Throne with the amendment agreed to, was carried, 328 to 251.

Mr. Baldwin tried to get a motion voted that the House adjourn until February 2, but objections were raised, and, after renewed excitement, the Speaker said he was compelled to put the motion that the House adjourn until to-morrow, which was agreed to.

Premier Baldwin will present his resignation to the King and the King will summon J. Ramsay MacDonald to form a new Government.

The vote on the Labor amendment was about what was expected: it showed that the campaign to induce the Liberals to join with the Conservatives in keeping Labor out of office had fallen flat. Before the vote was taken, Mr. MacDonald moved closure, which passed without division. This swept aside the threatened complication that the discussion might go on tomorrow in defence to the wishes of some members who had not had a chance to expound their positions.

Seldom has a political event of foremost importance been enacted with so little excitement, the only tense moments being those when the tellers were counting the votes. There was a crowded house, with the galleries filled with peers, diplomats and ladies, but they had not come expecting any surprise or conflict, but merely to see the obsequies performed according to previous arrangements.

Both the Prime Minister and the prospective Prime Minister were cheered by their supporters. Mr. Baldwin, in his speech took the sole blame for the protectionist policy, which he believed would solve the unemployment problem. He paid his respects to former Premier Asquith, leader of the United Liberals, who had turned the support of that party to the Laborites, by comparing Mr. Asquith to "an obstetrician about to bring a child into the world with the intention to smother it should it fail to meet his expectations," and declared: "I think infanticide is worse than suicide."

His Government, he said had been accused of committing suicide, but, he exclaimed:—

"There are worse crimes than suicide."

**No Fear of Socialist State**

He reviewed briefly the work done by his Government and its achievements and expressed his advocacy of protection. He had little to say of the Laborites, because, as he expressed it, he did not know whether Jacobins or Girondins were coming in, but he was certain that Mr. MacDonald would not be able to build up a Socialist state on the shifting sands of about one-fifth of the national vote.

In conclusion the Prime Minister predicted that the future lay between the Conservatives and the Labor party, and to ringing Ministerial cheers, he added:—

"Do we look like a beaten party?—we are ready to take up the challenge from any party whensoever and by whomsoever it is thrown down."

### ROBBED BUTCHER

Montreal, Jan. 22.—Holding him up at the point of a revolver and locking him in the ice box before they fled, three masked and armed men robbed Joseph Beaudoin, butcher of this city of $265 today.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### ANYTHING FOR POWER

Six or seven weeks ago we learned from what we believe to be a reliable source that the present Government at Ottawa had made overtures to the Progressives of the West to support the Liberal Government at the coming session, with a view to helping the Government remain in power and in return the Liberal Government proposes to favor the Progressives with a further reduction in the tariff. We believe the Government at Ottawa realizes that it cannot remain in power in face of present conditions without being "bolstered up" by the Progressives. Hence the bargain. The Toronto Globe of January 4 has a large heading entitled "Premier may seek in filling Cabinet to win back West". The Toronto Star of the same date has a heading, "To invite Progressives to join the Government". Yet on January 7th, 1924, the Toronto Globe comes out with a heading "NO BARGAINING with Progressives is King's attitude." This was followed on the following day, viz. Jan. 8, by the Globe with a heading "Proposals made to the Hon. T. A. Crerar to join the Cabinet", and to the "bunk" (slang word) go on. Had the Bargain already been made?

To Manufacturers in Canada we say, what is the use in devoting your physical energy, time and resources in an endeavor to obtain results in the Dominion, which endeavors are nullified by the juggling of the tariff by politicians whose chief concern is to stay in power drawing big salaries and handling the funds we help provide. It is time to call a halt. We have very much in mind the interests of the agriculturalists of Canada. Manufacturing and agriculture are dependent upon each other.

### WHAT ABOUT CANADA?

Premier King told representatives of the Province that the Federal Government would not assist them by continuing the Federal Agricultural grant. Many hundreds of thousands of dollars, perhaps millions, are being spent upon a Canadian pavilion at Wimbly Park, England, which, we maintain, will be of no benefit and no use to Canada, but agriculture, upon which Canada is very largely dependent, must go without assistance.

### EDITORIAL NOTES

Nearly 2,700,000 persons of Canadian origin are living in the United States.

—o—

Hauling a loaded sled over 20 to 40 miles of snow and ice in a single day is nothing out of the ordinary for Eskimo dogs.

According to some authorities the surface of the human body is about 16 square feet.

Thrace was seized by the Turks in 1361 and made their capital for about 100 years.

## PRESS OPINIONS

### WHEAT AND COAL

(London Free Press)

The sooner Canada becomes independent of American sources for our fuel supply the better. No one wants to have the Canadian railways haul coal at a loss, but the public in Ontario has never been able to understand why wheat can be brought from Alberta to Ontario points at a much cheaper rate than coal.

It would even pay to subsidize the railways in order to get from Canadian sources a sure supply of fuel. That Alberta coal is satisfactory for Ontario has been demonstrated. The problem is now entirely a transportation one, and surely this is not insurmountable.

### A PUBLIC INSTITUTION

(Flint Journal)

The press of today is an institution. It is a public institution. It is no longer a publication reflecting the opinion of any one man, it is more influential than the old-time press, as it contains more news and more information, and its power is not limited to the thoughts of one person. Should the press be a news establishment offering the ideas of one writer? Or should it be an institution, giving news, information, entertainment and opinion from many writers? Should it be a one-man organ or a public organ

The public of today receives all the news and reads it, and it forms its own opinion from facts. Yet the public reads more and better editorials, and these editorials have great force because they are addressed to a public which is well acquainted, thru the news columns, with subjects discussed. The modern press is a public institution.

### LABOR'S LIMITS

(London Standard)

With a candor that occasionally approached cruelty, Mr Asquith shattered the visions of coalitionists, co-operators and fusionists. He made it clear that the Liberal party will take its own course, "uncompromised, unfettered and in complete and unassailable integrity."

He will move no finger to continue the "disastrous stewardship" of the present government; but, on the other hand, the party he leads is not going to become the wing or adjunct of any other party. The Liberals, if they understand their business, really control the situation, as they are the only party whose program has not been "decisively rejected by the electorate."

The price of Liberal toleration, in short, is the abandonment of those items of the Labor program which are typical of the party's political philosophy. The Liberals will do nothing wantonly to hamper or obstruct administration or foreign policy. But a Labor government will not be allowed to go beyond the limits assigned to it by the decision of the electorate.

### JUVENILE IMMIGRATION

(London Advertiser)

The inquiry into the case of the 16-year-old boy suicide at Goderich should be complete and fearless. An Old Country lad, making his way in Canada, is not very likely to go out in the barn and hang himself.

The case has a very important bearing on juvenile immigration into Canada, and for that reason, as well as for the cause of justice and humanity, those holding the inquiry must be prepared to probe to the limit.

### SPENDING MONEY

(Kansas City Times)

Directly or indirectly, every person who earns or spends money shares the general tax burden. That burden is reflected in the cost of living, in wages, in employment. Nobody escapes it. It is a first lien on every man's property, whether that property be a home, a piece of land, a shop, a business, or simply a daily wage.

## MANY HEAR RICE AT FINE SERVICE

During evening service at St. Thomas' church last evening, a musical programme of a very high order was presented by the choir, Professor Wheatley, the organist and a featured boy singer, Cyril Rice, soloist of "The little church around the corner," New York City. Rice, though a boy, possesses a fine voice and the ease with which he takes the highest notes is wonderful. A large congregation heard the musical programme last evening, which was presented as follows:

Programme

1. Part of a "Gothic Suite," by Boellman.
2. "O rest in the Lord from Mendelssohns "Elijah."
4 "God shall wipe away all tears" From Sullivan's "Light of the World."
5. "Song of India" by Korsakow.
6. "He was despised," from Handels' "Messiah"
7. "The Pilgrims' Song of Hope." Batiste.
8. "The Cry of Rachel" by Mary Turner-Salter
9. "Flute Concerto" Orchestra and Fluyte, by Rinck.
10. "Abide With Me." Liddle.

## Innocent Man Freed After Serving 45 Years

Paris, Jan. 21.—The Court of Revision has declared to the world the innocence of Louis Pierre Danval, chemist, originally sentenced to the guillotine and reprieved 45 years ago, charged with poisoning his pretty wife.

Now, a white-haired man of more than 80 years, Danval has been awarded $1,250 compensation and $750 a year for the remainder of his life.

Sentenced to death under the guillotine 45 years ago, Louis Pierre Danval has now been declared innocent of the murder of his pretty young wife. But what a dreadful waste of life-happiness meanwhile!

Here is the brief register of the existence of this amazingly patient old man:

Reprieved in 1878, and sentence commuted to life-long imprisonment.

Twenty-three years on Devil's Island.

Released from confinement for good conduct in 1901, but placed in the penal settlement.

Made first application for revision of his case in 1912.

Returned to France in 1923.

Declared innocent and compensated.

A world of suffering and a deep sense of injustice bravely borne lies in the story of Danval. His exact age is uncertain, but the records indicate that he is over 80, and probably nearer 90.

In 1878 he kept a small chemist's shop in the Vilette quarter of Paris. One day he met pretty Adele Moulin, a vivacious modiste, and fell in love with her. They were married soon after and lived happily together for several years.

But pretty little Adele, being nearly twenty-five years younger than her husband, loved life, and wanted to taste its pleasures rather than settle down to an humdrum existance amongst the pills and poison pots of the pharmacy.

Violent disputes arose, and the scenes of jealousy in the little household were the talk of the neighborhood, until one morning Adele was found dead in her bed.

A medical examination of the body disclosed the presence of arsenic, a very small amount only, but it was sufficient to convict Danval of the murder of his wife.

His solicitor worked on the theory of suicide, but failed to convince the jury, and Danval was promptly sentenced to the guillotine.

A week before the day set for the execution, his death sentence was commuted to a life-term in Cayenne, the most dreadful of all the penal settlements in the colonies of France.

This man suffered unspeakable horrors but endured them all, helped by a truly marvellous constitution and worked on always with the hope of establishing his innocence. He made it a point of honor never to deserve punishment, and he succeeded.

Eleven years ago he made his first application for a revision of his case on the ground that the latest discoveries in medical science admitted the possibility of arsenic being found in the human body without having been placed there by outside agencies. Five years passed before the case was considered by the Paris authorities. Eventually the Danval case was looked into by Government physicians. At last the final Revision Court in Paris heard all the evidence and found that, on the old medical evidence, now disproved by the advance of science, Danval was wrongly condemned—45 years ago.

He now lives in his little retreat outside the fortifications supremely happy in the thought that his innocence is clear to the world. His pension will bring many of the simple comforts he needs and at least his remaining few years will be brightened.

Hope has kept him alive, and he used to take that faded old photograph out of the leather bag he carried around his neck and say to his little Adele: "You know I did not do it, my little darling, and now they all know I am innocent. I can join you, Adele, where there is love and eternal goodness."

### TWO AND A HALF PER CENT

By "The Khan" in Toronto Telegram

I'm goin' to tell you somethin'
And you know right well what's meant,
There's too many folks in this country
Who are two and a half per cent.
'Tain't the beer I'm alluding to,
The good old beer has went,
But another whoop-de-dooden-do
Two and a half per cent.
Show me a man most anywheres,
That's forty over proof,
With fife and drum and bugle blares
I'll raise the good old roof.
What was it ailed our women when
They stormed our Parliament.
"No men avail!" cried Miss MacPhail,
"They're two and a half per cent."
What happened the good ole U. F. O.?
They're to oblivion sent.
Howard is pretty fair, but oh!
Yer two and a half per cent.
Oh, tell us, for the love of Mike,
My cry with yours is blent,
Show us a bunch of folks who like
Two and a half per cent.
This poor old world is full of folks,
They're two and a half per cent.,
The tragedies, also the jokes,
Are two and a half per cent.
Two and a half per cent.,
Two and a half per cent.,
It ain't the beer, it's the men I fear
That's two and a half per cent.
They've reached a wretched level,
And this is what is meant,
The world, the flesh, the devil,
Test two and a half per cent.

Ambition without pluck and energy is a useless possession.

## NEW VARIETIES OF PLANTS SEEN

The Canadian Horticultural Council has accepted for recording several new varieties of plants. These will be tested in the official trial plots and, if found to possess outstanding merits, will be registered and certificated, thus protecting the originator. The originations hitherto submitted and accepted for recording include three varieties of the gladiolus, two varieties of the chrysanthemum, one rose and a new strawberry.

In one instance the registration committee of the Council were confronted with the question of changing the name of one of the plants presented. This was the chrysanthemum registered as "J. R. Booth," an immense yellow originated at the Central Experimental Farm, Ottawa, and under test by a firm of growers in the United States. At the New York Flower Show this variety attracted the attention of the Japanese Ambassador, who asked that its name be changed to Princess Nagako". The registration committee could not see their way to agree because of the possible confusion that might arise, and in this they were upheld by the Board of Directors of the Council.

The committee has reached the decision to officially record the characteristics and origin of a number of standard varieties of fruit. These are the "Hilborn" black raspberry, the "Joscelyn" gooseberry, the "Herbert" raspberry, the "McIntosh" and "Fameuse" apples, "Saunders" black currant, the "Fitzgerald" peach, and the "Windsor" cherry, all of which originated in Canada.

## Cardinal On Mediterranean Cruise

His Eminence Cardinal O'Connell (in the center) photographed on board the Canadian Pacific Steamer "Empress of Scotland" in New York harbor last week just before the ship left on a tour of the Mediterranean. The Cardinal will visit the Holy Land and Rome during the course of his journey.

## Music & Drama

### TOWN UNDER MARTIAL LAW

An unusually peaceful Gap town of the Cumberland mountains of Kentucky is under martial law. What is the meaning of it? In the case of the Paramount picture, "The Trail of the Lonesome Pine," starring Mary Miles Minter, which comes to the Regent Theatre Thursday night, the event is the murder trial and subsequent attempt at hanging a certain "Bad" Rufe Tolliver, who has been arrested for the murder of a policeman. These scenes have been described as some of the most thrilling ever taken for motion picture purposes. In this case "Bad" Rufe happens to be none other than Edwin Brady, one of the foremost heavy actors on the screen to-day. Antonio Moreno and Ernest Torrence are featured in support of the star. Others in the cast are Frances Warner, J. S. Stembridge and Cullen Tate.

### NORMA MAKES DRAMATIC SCREEN SUICIDE ATTEMPT

Norma Talmadge makes a spectacular attempt to commit suicide by throwing herself into the river, in her latest National feature production, "Within the Law," which is said to be the most exciting and dramatic picture of the kind yet made by the popular star.

Miss Talmadge portrays Mary Turner, a shop girl sent to prison for a department store theft of which she is innocent. After serving her sentence she seeks employment in New York, but always she is turned down, with the police constantly hounding her. Discouraged, she tries drowning and is rescued by Joe Garson, a forger, who, with Aggie Lynch, a former prison companion, induces her to join a gang of blackmailers.

Always, however, does Mary keep "within the law" and this leads to one of the most amazingly dramatic romances ever brought to the screen.

Jack Mulhall appears opposite Miss Talmadge as Dick Gilder, selected as one of Mary Turner's "victims" in the exercise of her specialty—breach of promise suits. Griffin's Thur. Fri. and Sat.

## Gas Almost Smothered Her

Kingston lady relieved of terrible suffering by corrective powers of Dreco, the famous herbal remedy

"I don't suppose that anyone has suffered more with stomach trouble than I have in the past five years," says Mrs. J. Davis, of 320 Union street, Kingston, Ont. "There would be times when I couldn't even keep a glass of water on my stomach. Gas would form after eating, which would press against my heart and sometimes it would nearly take my breath away.

"I would get sick headaches and dizzy spells and spots would float before my eyes. My liver was sluggish, my appetite very poor and I hardly knew what it was to eat a good square meal. I felt tired and worn out all the time and had to be continually taking harsh laxatives.

"Two bottles of Dreco have done me more good than all the other medicines I ever tried, put together. It has gone right to the root of my trouble and I already feel better than I have for many years. I have a good appetite, eat what I want and scarcely have any trouble with my stomach. The headaches are all gone too, as are those awful dizzy spells. I feel much stronger and my bowels are regular every day. I gladly recommend Dreco to anyone suffering as I did."

Dreco is a reliable health builder made from the pure juices of herbs, roots, bark and leaves. It contains no mercury, potash or habit forming drugs and is pleasant to take and prompt in action.

**Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.**

### TRY OLD ONE FIRST

A magazine writer says we need a new religion. But let's not do anything rash until we try the old one, urges the New Britain Herald.

### MASSASSAGA

After having severe colds the past two weeks, Mrs. J. Howatson and sister are reported better.

Miss O. Ackerman was a New Years guest of friends at Stirling.

Mr. and Mrs. W. Osborne entertained at tea on Tuesday evening, Mr. and Mrs. Vallian and Arnold, Mr. and Mrs. Davidson, Mr. Davidson Jr., Miss Davidson and Mrs. McGibbon.

Miss Whiteman, Lonsdale, spent the week end at Mrs. Vallean.

Mr. McDavitt, Foxboro, was a guest of his son for a few days.

Congratulations to Messrs. John Weese and G. W. Walbridge.

The Ladies Aid met at the home of Miss Juby for the first meeting of the New Year owing to the disagreeable weather only 18 were present, much work was completed including the putting up and completing one large quilt. A dainty lunch was served by Miss Juby after the business part was disposed of. Next meeting, Jan. 24 at Mrs. Geo. Ackerman's.

Mr. and Mrs. J. Wilson, Belleville, were recent visitors of Mr. and Mrs. Howard Walbridge.

Mrs. Ormand Sr., Mr. Ormand Jr., and wife were Sunday guests of W. O. Osborne and family.

# MIZPAH LODGE EXEMPLIFY THE FIRST DEGREE

### Thirty-Five Members of Argyll Lodge No. 212 Are Entertained

Some thirty-five members of Argyll Lodge No. 212 I.O.O.F. of Napanee, including members of the degree team last evening paid a fraternal visit to Mizpah Lodge, No. 127 of this city. The object of the visit was to exemplify the first degree and it was put on in a faultless manner, in fact as some expressed it with perfection. The personnel of the team was as follows: Degree Capt. J. Douglas, E. Todd, H. Babcock, P. Wager, H. Garrett, B. M. Black, R. More, A. Pybus, F. J. Bradley, J. Burrell, H. Roe, E. Deline, A. Ford, G. Winters, G. Roote, R. B. Fair, F. S. Scott, W. Wilson, W. Sills, C. Loucks and T. P. Cook, pianist. A few members of Lodge No. 86 Napanee were also amongst the visitors.

After the degree work had been concluded and the lodge work completed the visitors were entertained at luncheon.

Bro. R. H. Ketcheson, occupied the chair, and as toastmaster filled the position most acceptably. He complimented the members of the visiting team upon the excellent manner in which they had exemplified the degree, which could not have been excelled by any team in Ontario.

To the toast of the Napanee degree team, Bros. H. Garrett, J. Douglas, R. Moore, and Geo. Walters responded, thanking the members of Mizpah Lodge for their kind references to the degree team, and extending a hearty invitation for a return visit to Napanee.

Bros. Rev. H. B. Kenny, Rev. Geo. Marshall, F. M. Clarke, G. G. Way, D.D.G.M. of this district and H. Ransom also spoke.

A vote of thanks extended to the members of Mizpah Lodge for their hospitality by Bro. Geo. Walters was appropriately responded to by the chairman.

The proceedings closed with the singing of the National Anthem.

LOUIS RUBENSTEIN, president of the Canadian Skating Association, has created a sensation by barring Miss Gladys Robinson from competing as an amateur in the association's events.

### Mayor Mikel Outlines Unusual Feature of Coming U.E.L. Celebration — To Invite President Coolidge

At Bridge St. Church Young Peoples League, Monday night, Mayor W. C. Mikel, K. C. gave and address on the "U. E. Loyalists" and the coming celebration. The Mayor quoted the statement of Frank Basil Tracey, the Historian, "There is no more interesting and absorbing tale in the annals of mankind that the story of the Canadian people, and said Canadians should know more of this country.

The early French Missionaries brot a strong Religion to this country, and the U. E. Loyalists brought a strong British sentiment and patriotism. These are the dominant characteristics of the Canadian people today. The U. E. Loyalists did not come to the wilderness of Upper Canada, the lonely unknown northland, for better wages or material advantages. They came knowing they would have to endure great hardships and make great sacrifices and they left comforts and opportunities for advancement. They stuck it out, and as a result we have the Canada of today.

Mr. Mikel related a number of interesting experiences in the lives of the early pioneers, both amusing and pathetic, and showed how this spirit of service and sacrifice had produced the great men of Canada. The celebration would do honor in a small way to the memory of those noble pioneers who put principle before profit.

Mr. Mikel announced that an invitation would be sent to President Coolidge at Washington to come to the celebration. Volunteers would be called for to carry the invitation on horseback as the old pioneer couriers delivered messages in the days of the first United Empire Loyalists. The volunteer courier may be a young or elderly person an male or female. Word would be sent ahead and the courier would call on the Mayor, Chief of Police and newspapers in each place through which the courier passed between Belleville and Washington, where the courier would deliver the invitation into the hands of the President of the United States of America. Moving pictures will be made of this interesting event.

## OBITUARY

### HARRY BURLEIGH

Campbellford, Jan. 21.—The funeral of the late Harry Burleigh, who died following an operation in Oconto, Wisconsin, took place on Sunday afternoon and was largely attended, being under Masonic auspices. The floral tributes were numerous and beautiful, showing the esteem in which the deceased was held. The remains were laid to rest in Mount Pleasant Cemetery.

### MARIE A. GAUTHIER

On Monday morning the funeral of the late Miss Marie Annetta Gauthier took place from her mother's residence, 64 St. Charles street, and many were in attendance. At St. Michael's Church Rev. Father Whalen conducted Mass. The body was placed in Belleville cemetery vault. Bearers were S. Garvin, L. Callaghan, J. V. C. Trulasch, L. Manley, R. Davison and John O'Connor.

The floral tributes and Mass cards were many, being as follows:

Floral Offerings

Mr. and Mrs. F. R. Gauthier, Mr. and Mrs. Melchoir, Lena Melchoir, Angela Melchoir, Mr. and Mrs. W. Thomas, Mr. and Mrs. Chas. Hanna, Mr. Don Bleecker, Mrs. E. Bleecker.

Spiritual Offerings

Mrs. Agnes Gauthier, Mr. and Mrs. Harold Gauthier, Mr. and Mrs. Leo Gauthier and family, Mr. and Mrs. Fred Gauthier, Veronica and Laurine Gauthier, Mrs. John O'Connor, John O'Connor, Mother M. Clement (5), Kingston H. of P., the Sisters of St. Michael's Convent, Mr. and Mrs. Wm. Angel, Mr. and Mrs. T. Manley and family, Miss Hilda Boyle, Miss Veronica Donahue, Mr. and Mrs. W. O'Leary, Miss Teresa Donaghue, Miss Bernice Foltz, Mr. Francis Donahue, Mr. and Mrs. Stan. Harris, Mr. and Mrs. R. Davison, Mr. and Mrs. A. J. Jordan, Mr. and Mrs. H. J. Sheridan, Mr. and Mrs. F. Fitzpatrick, Mr. and Mrs. Jas. English, Miss Mary Cavanagh, Helen and Bernice McDermott, Mrs. M. Malyea and family, Mr. Murray Black, Mr. and Mrs. B. J. Black, Miss Rita Bean, Miss Nellie Smith, Mr. and Mrs. M. J. Boyd, Mrs. J. Cummins, Mr. Stephen Garvin, Mr. and Mrs. A. Burgoyne, Mrs. Agnes Stevens, Mr. and Mrs. W. Ross, Mr. and Mrs. T. Ramsay, Mr. J. V. C. Trulasch, Mrs. C. Legault, Mrs. Margaret Fitzpatrick, Mr. and Mrs. J. Horm.

### KILLED BY FALL

North Sydney, N.S., Jan. 22.—Fred Doutlier, of Sydney Mines, fell on an icy pavement on Saturday night and died last evening.

## Civilization's Advance

This photograph records the first speech made over the radio by German Chancellor Wilhelm Marx. Left to right: Marx, Herr Scholz (People's Party), Herr Erkelens (Democrat), and Herr Fleischer (Center Party).

### PHOTOGRAPHERS RETAILERS

Ottawa, Jan. 21.—Changes in the sales tax regulations, announced by the minister of customs and excise, classify photographers as retailers and make it unnecessary for them to take out a sales tax license. In this ruling photographers who make and sell photographs to be used in connection with the manufacture of other goods are not included.

### PREPARE FOR CELEBRATION

Rome, Jan. 22.—A general committee has been formed of distinguished prelates and members of various Catholic organizations to prepare for the celebration of Holy year which commences next December.

BYNG OF VIMY
(L.S.)

CANADA

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas KING, Defender of the Faith Emperor of India.

Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to each and every one of you.—Greeting:—

A PROCLAMATION

Whereas Our Parliament of Canada stands prorogued to Saturday the twenty-third day of the month of February 1924, at which time at Our City of Ottawa, you were held and constrained to appear. Nevertheless, for certain causes and considerations We do Will, by and with the advice of Our Privy Council for Canada, that you and each of you be as Us, in this matter entirely exonerated. Commanding, and by the tenor of these Presents enjoining you, and each of you, and all others in this behalf interested, that on THURSDAY, the TWENTY-EIGHTH day of the month of FEBRUARY, 1924, at Our City of Ottawa, aforesaid, personally you be and appear, for the DESPATCH OF BUSINESS, to treat, do, act and conclude upon these things which in Our said Parliament of Canada, by the Common Council of Our said Dominion may byg the favour of God be ordained.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Right Trusty and Well-beloved Julian Hedworth George Baron Byng of Vimy, General on the Retired List and in the Reserve of Officers of Our Army, Knight Grand Cross of Our Most Honourable Order of the Bath, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, Member of Our Royal Victorian Order, Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of Ottawa, in Our said Dominion, the fifteenth day of January, in the year of Our Lord one thousand nine hundred and twenty-four, and in the fourteenth year of Our Reign.

By Command,
THOMAS MULVEY,
Under-Secretary of State

### GETS PRISON AND LASHES

Sudbury, Jan. 21.—Nine months in Burwash and twenty lashes was the sentence given Nick Zaitx, jitney driver, by Judge Hewason, on a conviction for robbery with violence.

### THE FAR HEIGHTS

Its a funny thing.
This fame,
Frank and I at school
Wove a hundred dreams;
The best of his came true,
Mine are dreams still,
Yesterday we met,
In a great city
Where he is feted daily
And I am unknown
The meeting to him
Was rather a bore,
To me the spice
Of many succeeding days.

### SOLVED THE MYSTERY OF MISSING HOUSE

Ottawa, Jan. 22.—The mystery of the missing house has been solved. The house left here by A. Tanner, a railway employee, when he was transferred to Montreal nine months ago, and which he found had disappeared when he returned here recently, did not fulfill the requirements of the city building by-law, according to police, and Mrs. Tanner had it removed.

### WATERFORD LADY DIES AT HOME OF DAUGHTER

Patchogue, Long Island, Jan. 22.—Mrs. Mary Malcolm 67 years old, of Waterford Ontario, was killed today when she fell down a flight of cellar steps, breaking her neck, in the home of her daughter, Mrs. Horatio Pope, whom she was visiting.

The body will be sent to Waterford tomorrow.

### MURDERED'S SENTENCE HAS BEEN COMMUTED

Ottawa Jan. 22.—The sentence of death imposed on John Kolton, West Sandwich murderer, who was to have been hanged on January 24, has been commuted by the cabinet council to life imprisonment. It was officially announced this morning.

PRESBYTERIANS!

Come to John Street Church at 8 p.m. Wednesday Evening to hear—

"THE CASE AGAINST UNION"

Speaker: Rev. Stuart C. Parker, of New St. Andrew's, Toronto.

### Not Alone in the Opinion

She—Are you takin part in the amateur theatricals this year?

He—No, I'm not. I always think I'm makin a fool of myself.

She (trying to say the right thing) —Oh, everybody thinks that.

### Kindly Intentioned, of Course

Miss Rouge—"I'm so sorry to hear of your motor accident."

Motoring Friend—"Oh, thanks, it's nothing. I expect to live through many more."

Miss Rouge—"Oh, I hope not."

### Noblesse Oblige

An impecunious tenant had not paid the rent of his room for several months.

"Look here," said the landlord, "I'll meet you halfway. I am ready to foret half of what you owe!"

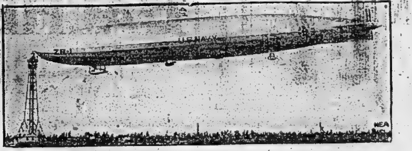
"Right. I'll meet you. I'll forget the other half."

## Founds "Super-Race" Foundation

Dr. Alzamon Ira Lucas, shown here with his son, will come to New York City from Rochester, N. Y., soon to conduct a "super-race convention". Lucas claims the sex and vocation of a child can be predetermined.

# HOW SHENANDOAH SIZED UP BEFORE BREAKING MOORINGS

**Steve Hannagan, Nea Service and Intelligencer staff writer, was atop the mooring mast of the Shenandoah at Lakehurst, N.J., only a few hours before the giant dirigble broke from its moorings with 22 men aboard. He is the only newspaper man to have gone to the top of the 172-foot mast. He was there to report on the state of preparedness attained for the proposed flight of the ship to the North Pole in June. His comments on the ship's condition were written before he knew that the Shenandoah had met with accident. Here is a story at firsthand of the manner in which the Shenandoah is manipulated.**



## HOW SHENANDOAH IS MOORED TO MAST

LINE is thrown to the ground from the tip-top of the tower—another attached to the nose of the ship tossed over the side. Men on the ground splice the cables together. Slowly and cautiously the dirigible is reeled in like a large fish and made fast.

It is a precarious climb to the top of the tower for a land-lubber—a climb right out in the open.

At the very peak is an arrangement that looks likek a "flower-pot." It is into this that the cable holding the nose of the dirigible is fitted.

The photo above shows the Shenandoah moored to the mast at Lakehurst, N. J., while on the right is a close-up of the nose of the giantdirigible attached to the mast.

BY STEVE HANNAGAN
NEA Service Staff Writer
(Copyrighted, 1924, by NEA Service).

LAKEHURST, N. J., Jan. 22.—Only a few hours before the Navy's Shenandoah was torn from its giant mooring mast here, the writer visited the scene to conduct an investigation for NEA Service and Intelligencer into what was being done to make the "queen of the air" fit for the proposed North Pole flight in June.

Nervously the ship was swinging from its "American Eiffel Tower" mooring station 172 feet above ground—as variable in its movements as a weather vane.

The water pipes on the ship were frozen—just as they might be this summer in the Arctic circle. Water is the modern ballast designed to keep this much-heralded ship in balance.

As the winds lifted or tipped the flying flagship of the Navy, the commanding officer aboard shuffled his men from station to station as human ballast—just as a juggler might toss rubber balls about.

During one of these essentric movements of the ship it nearly broke from its moorings. The stern became light and rose until the tail was pointing practically to the Zenith, with the nose strongly tugging to release itself-just as a giant fish might try to throw off the hook in its mouth.

There was a call to action. The writer was on the landing platform of the mooring mast—165 feet from the ground where he had a close-up view of operations. The crew was keyed to the emergency. It was feared the ship might break loose then.

"Four men start aft!" shouted the commander.

They did. Feet began to pound along the small keelway."

"Six men start aft!"

More pounding feet.

"Eight men—now ten!" rang out.

It sounded like the charge of the light brigade echoing within the recesses of the ship.

"Hold it!" blared forth from the commander's cabin.

The shuffling halted.

"Stand by for a stern line to make the ship fast below!" was the command flashed to the ground crew which mobilized in a jiffy from a lolling "at rest" position in the warming rays of the sun.

After a 20-minute fight the ship was again on an even keel.

It was the worst scare the crew experienced until it finally was blown away on the wings of a 60-mile-an-hour gale.

Yet the same juggling act was staged with each puff of wind.

"This is an unusual day for the ship," said Commander F. R. McCrary. "Don't think it's like this all the time."

"I'll bet I ran ten miles up and down that ship today helping to keep it in balance," spoke 175 pounds of the human ballast as he went off watch.

"Yea, and most of it was like mountain climbing," chirped his companion.

Rubber-soled shoes make the men as sure-footed as cats as they climb about the ship which is 680 feet long, 78 feet in diameter, 93 feet over all, with a gas capacity of 2,148,000 cubic feet, a total weight of 77,050 pounds and a cruising range of 4300 miles.

After riding about 140 feet up in an elevator then shinning a ladder I found myself on a landing platform, 165 feet above ground. It is from this floor that the members of the crew of the Shenandoah walk the gangplank into the big ship.

There were prospects of a trial flight when I arrived at the field. Naturally enough I wanted to take a ride in a lighter-than-air craft, a new experience.

But Commander McCrary flatly refused to carry me. Any additional weight might throw the ship off balance, he explained.

I watched the maneuvers—men going and coming as unconcernedly as if they were on the ground; saw the effort with which the ship was controlled as it shifted in the breeze; heard the comments of the men—it was then I decided the Shenandoah would be one type of aircraft on which I would never care to ride.

And riding on the waves of the air holds no terror for me. A summer ago I rode thousands of miles aloft with Captain Edward V. Rickenbacker, America's Ace. We experienced forced landings—and a crash.

Yet, if I were to ride the ZR-1 it would be with suicidal intent—and life is still sweet to me.

"Would you be willing to fly to the North Pole in the ZR-1?" I asked Patsy Mozier, who was born in Belfast, Ireland, and reared on Kelly street in Ohron, O.

He is only 18, has been in the Navy five years and is the lowest in rank on the dirigible. He is a second-class aviation mechanic.

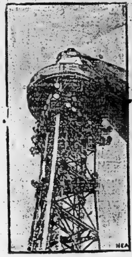
"Sure," said Patsy, "I'll fly any place in it."

Just to show the nerve of Patsy, who is champion pugilist of the station, his friends tell how he was knocked down 21 times in the first round of one of his encounters and then arose to knock out his opponent.

Standing beneath the ship was a woman with two small children. Their eyes were turned to one of the six power cars. They waved to a speck of a head aloft.

"Daddy—Oh, Daddy!" cheered the youngest.

It was Mrs. Thomas A. Knight, wife of a chief machinist's mate, and their two sons, Thomas, Jr., 3, and Charles, 2.



Mate Knight was aloft, peeking out to wave to his family.

"Do you sanction your husband's flying to the North Pole?" she was asked.

"Well, I don't know," she answered reflectively. "I haven't just made up my mind. You see we have two babies, and there wouldn't be enough to support them long in case anything happened to Tom. He has no people, and my mother is an invalid.

"But if Uncle Sam calls—and Tom decides to go, I would be the last person in the world to stand in his path."

Mrs. Knight is just one of the brave women who will serve by standing and waiting if the Shenandoah tries the North Pole flight.

# U. E.L. Programme of Forty Years Ago of Real Interest

Mr. J. B. Allison, of Adolphustown is the proud possessor of a copy of an advertisement of the celebration of the 100th anniversary of the settlement of Upper Canada by the United Empire Loyalists, held at Adolphustown in 1884. Mr. Allison was at that time secretary of the organization that carried on the celebration. The following was the programme, which may be of interest on account of the approaching celebration at Belleville.

FIRST DAY

10.30 a.m., National Anthem, vocal and instrumental. Military display and bands. Athletic games. Dinner at 12 m. 1.30 to 2 p.m. bands play at grand stand. President's address. Orations by vice-president A. L. Morden and Dr. Wm. Canniff. Procession, music Dead March to U. E. L. Cemetery. Laying foundation stone of monument with Masonic Honors. Return to grand stand, bands playing "Rule Britannia". Addresses by Rt. Hon. Sir John A. Macdonald, Sir Richard Cartwright, and other eminent public men. GRAND MILITARY SALUTE, in honor of the heroic landing on this spot 100 years ago. Lacrosse and base ball matches.

SECOND DAY

10. a.m., Bands play at grand stand. Cricket matches. Caledonian and other games. Regatta on Bay of Quinte. Dinner at 12 m. 1.30 to 2 p.m. Bands play at grand stand. Addresses by His Excellency the Lieutenant Governor of Ontario, Hon. John Beverly Robinson, Hon. Geo. A. Kirkpatrick, D. W. Allison, Esq., M. P., A. F. Wood, Esq., M. P.P., W. A. Reeve, Esq., J. S. McCuaig, Esq., and others. Indian Oration; Chief Sampson Green will deliver his oration, subject, "Union of the Six Nations," in full costume as he appeared before Her Majesty Queen Victoria. Cycle tournament for gold and silver medals. Grand Patriotic parade of Canadians of all classes, with banners, flags, mottoes, regalia and insignia, in honor of the settlement of our country, in which all societies and associations are cordially invited to take part. Torchlight procession and physiogs, etc.

THIRD DAY

11 a.m., Bands play at grand stand. Ladies' equestrian parade. Social games. Dinner at 12 m. 1.30 to 2 p.m. band at grand stand. One Hundred Years" Procession in the costumes of our ancestors of 1784. Addresses by Dr. J. H. Sangster, Dr. Platt, M.P., Benj. C. Lloyd, Esq., Warden of Lennox & Addington; Wm. Anderson, Esq., Wrden of Prince Edward, A. H. Roe, Esq., M.P.P., Robt. Clapp Esq., and others. Cricket, Lacrosse and Baseball Clubs will finish their matches. Distribution of prizes and medals to the winners in the games and regatta and to competing clubs etc.

15th Battalion under Col. Lazier, and Major White's and Capt. Griffith's Troops of Cavalry are expected to encamp on the grounds during the celebration.

Large provision is being made for supplying meals at all hours and lodgings at reduced rates. STEAMERS will ply continually between Adolphustown and other towns on the Bay of Quinte at reduced rates.

The Committee invoke the cordial cooperation and patronage of their fellow-countrymen in making this effort to do honor to those to whom honor is due worthy of the event which is commemorates.

L. L. Bogart, President.
J. B. Allison, Secretary.

### NOVEL FLATTERY

The philosopher David Hume had a ready tongue. A story is told of him crossing the Firth in a gale with Lady Wallace. The boat tossed dangerously and Hume remarked that they might soon be food for the fishes. "Will they eat you or me?" inquired the lady.

"Ah," was the gallant answer, "those that are gluttonous will undoubtedly fall foul of me, but the epicures will attack your ladyship."

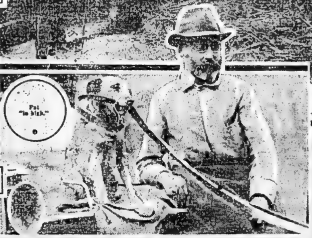
Probably none get less praise than those who are forever seeking it.

J. J. Forster, general agent, Canadian Pacific Railway, Vancouver, winner of the Round-the-World trip offered by the Company to its agents in business competition.

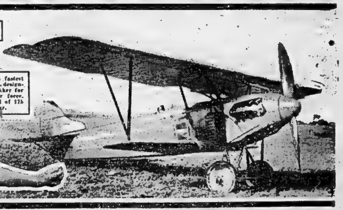
H.M. The King, inspects the champion Hereford heifer, at the Smithfield Club Fat Stock Show.

Lake Louise. Incomparable in Winter as when the warmer breezes blow.

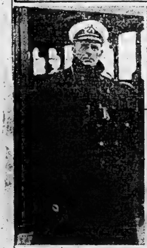
Winter Fax, National Champion at the December show of the Silver Cat Society, New York.



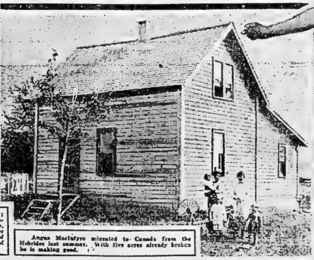
Fat "is high."



The world's fastest fighting scout, designed by Mr. Fokker for the Dutch air force. It has a speed of 175 miles per hour.



Captain E. Robinson, C.B.E., R.N.R.; Commander of the Canadian Pacific "Empress of Canada," now on world cruise, who was made a commander of the Order of the British Empire in recognition of his rescue and relief work at the time of the Japanese disaster.



Angus MacIntyre migrated to Canada from the Hebrides last summer. With five acres already broken he is making good.

A dancing girl of Taharoa Island.

# TRI-COLOR OF QUEENS DIPS AS LOCALS DRIVE THROUGH 3-2 WIN

**Persistent Attack and Never-say-die Spirit of Locals Proves Superior to Two-man Play of Collegians—Lack of Team-play by Queen's Squad Responsible for Defeat—Many Chances to Score Lost by Visitors.**

## WIZARDRY OF NURSE IN GOAL BREAKS RALLIES OF VISITORS

**Weir and Hagerman Prove Hornet's Nest to Queen's Attackers—Persistent Checking Baffles Heavy Forwards—Green and Finkle Block Path to Belleville Goal by Hard Checking—Whalen Brothers Star.**

Showing more finish to their attack the Belleville intermediates last night defeated the strong Queen's University team by 3 to 2 and practically made sure of winning the group championship. There may be a slip here and there, however, and the locals will have to be right on their mettle in the remaining games. They have now won five in succession—an impressive performance—and their supporters are confident that they will not falter in the games at Kingston against Queen's University next Friday and at Cornwall on Monday.

### Put Up Great Battle

The Tri-color players put up a great battle. Led by McKelvey, the great football player, they presented a stubborn defense which savored very much of that used so successfully by Ottawa, Stanley Cup holders and professional champions of the world. It had been stated that Queen's would do most of their checking in the Belleville end of the rink but they crossed the locals—or probably the locals crossed them—and either by choice or otherwise played a defensive game.

### Superior as Attackers

Belleville were superior as attackers and this won them the game. Too often for the piece of mind of Belleville fans the visitors broke away and showered down on the local net but selfishness or lack of teamplay spoiled most of these opportunities. Jack Bond, once a star with De la Salle C. I. of Toronto, was the worst offender. He was warned repeatedly for being offside and in the final period tossed away two grand chances to score by failing to team with McKelvey.

### Hard Battle Throughout

The locals had a hard battle of it throughout. At no time were they reasonably certain of victory until with six minutes to play they scored their final goal and were leading by 3 to 1 but the Presbyterians staged a "comeback" and with McKelvey in the starry role got that counter back. It was a heart breaker for the local players and a penalty to Green, the good defense man, did not help matters. Belleville, however, fought on doggedly and won on their merits. They were opposing a well-drilled aggregation, a team that never knew when it was beaten.

### Nurse is Big Star

The Belleville goalkeeper, Nurse, was never seen to better advantage. He had lots to do. Make no mistake about that. Those Tri-color players drilled that puck at him from all angles and many of the shots were labelled goals but somehow or other Nurse managed to get in front of the most of the drives. He was not to blame for the two which beat him. One was scored in a scramble in front of the net and Nurse claimed that a Queen's player shoved the rubber in with his hand. He was apparently in error however as it appeared that Queen's got the goal fairly enough. The last goal was secured on a wicked shot from close range. Nurse is a worthy successor to the veteran, Paddy Boland.

### Weir-Hagerman Combine

Weir and Hagerman were the most consistent of the forwards. They checked closely and well all evening and laid many swift shots on Mundell's pads. In fact had the visiting goalkeeper not been at the top of his form Queen's would have received a decisive defeat. Mundell bore a charmed existence. He picked them off from all angles and gave Nurse a great battle for the honors. How the Queen's seniors ever overlooked this fellow is a mystery. He has everything.

The Whalen brothers and Frechette also did their part. They were good going both ways and the visitors had a hard time stopping their clever rushes.

### Star On Defensive

It was on the defense however, that the locals made their strongest impression. Green and Finkle checked fairly, hard and well, and each proved a dangerous attacker. Green invariably picked mid-ice for his dashes and did not have any trouble navigating until he encountered the heavy and effective Queen's defense, Bill Campbell and Red McKelvey. These two made the road a rocky one to the Tri-color net.

For Queen's Mundell and McKelvey were the most effective. Campbell and Grimes also did good work. Bond was the fastest skater on the ice but as previously stated marred his good work by his failure to keep onside. He, however, did not do any damage by his interference tactics as the referee kept a close eye on him all evening and finally benched him twice.

### Game Played Clean

It was one of the cleanest games ever played here. This is not saying that it was not strenuous. With so much at stake the players were not inclined to be at all gentle but they did keep pretty well within the rules and every penalty was a minor one. Some of the fans were inclined to get excited every time Big John McKelvey touched the puck or checked a man but to McKelvey's credit it must be said that he played a gentlemanly game at all times, did not attempt to take advantage of his weight by body-checking and all in all showed Belleville fans that he is a thorough sportsman.

### Crowd Kept On Edge

The closeness of the score kept the large crowd on Anxious Street all evening. Queen's were in the running from the moment that the puck was faced to start the struggle and the fans and local players knew it. Incidentally it must be said that the local players were determined to stay on the ice. They knew that they could take no undue chances when facing such dangerous foemen. Considering that the game was so closely contested the players of both teams deserve every credit for remaining on the ice. When they did fall from grace the penalty limit was generally not more than a minute. The referee was evidently determined that the game would be decided on its merits. He played no favorites and ruled firmly but kindly.

### Combination Plays

Combination plays were conspicuous and effective each side often resorting to the passing game, but where Queen's fell down was that they forgot combination plays when attacking. They used them generously enough in mid-ice but that let them out. None of the locals showed any desire to hog the puck when nearing the Queen's net.

Lightning-fast play featured the opening period and this despite the fact that the ice was not in good condition. It was covered with lumps and the players found difficulty in remaining on their balance after hitting one of these while travelling at top speed. They skidded and fell with great regularity but they never slackened the pace. It was fast and there were plenty of thrills. Belleville got the only goal, Weir driving the puck past Mundell on a bullet-like drive from the twenty foot line.

### Queen's Tenacious

Queen's hung on tenaciously. They were very much in the hunt even if they were generally busy defending their own net. The checking of Weir and Hagerman broke up many of the Kingston rushes in mid-ice and these players came back with terrific drives at Mundell.

### Mundell Queens' Star

Had the Queen's goaler wavered at least three more counters would have been tacked on and the visitors might have broken under the incessant attack but Mundell turned them aside with rare skill. He stood manfully in front of those hard shots and came out with colors flying.

When Queen's entered the game they were under the impression that they would win and when they held the locals to that lone counter in the first twenty minutes they were even more certain that the final score would find them winners of a hard-fought game. They struck heavily in the next period and took more chances on the attack but Nurse was almost unbeatable. Then Hagerman pulled the best play of the game. He shot from outside the defense after relieving a dangerous rush and then followed in fast to bat the puck past the surprised Mundell. The Queen's defense were caught off stride and before they could do any rapid fire thinking Hagerman had counted and practically won the game.

### Far From Beaten

But the Presbyterians were far from beaten. They worked harder than ever. The goal was the signal for the onslaught to begin and they certainly came on with all they had. It was a grand struggle that these determined Scotsmen put up. The spirit of Queen's will never die as long as it has its McKelveys, Campbells and Mundells. Finally the break came. Campbell carried the rubber from end to end, drilled the puck at Nurse and then raced in to be the central player in a wild scramble in front of the net. The puck was lost sight of. Up went the umpires' hand. The referee ruled that it was a goal but Nurse claimed that the puck had been shoved in by use of the hand. His contention was not upheld. It was one of those breaks which so often result in confusion and arguments. But the locals took the reverse good-naturedly. It was Haggerman who calmed the storm. He set the pace thereafter.

### Cling to Narrow Lead

The intermission found the Belleville players clinging tenaciously to their narrow lead. Queen's had shown a reversal of form and none could tell what would happen. Each team commenced the last dash with plenty of reserve power and a world of confidence. It was to be a battle and they knew it. Then came the fastest hockey of the night. The pace was the fastest of the season and several times the Tri-color battlers almost tied up. They were going at top speed and their own lack of judgment and teamplay when in the scoring zone came to the relief of the locals. This does not mean that Belleville were lagging. They were not. Shots with force behind them were pelted at Mundell but the fact that Campbell and McKelvey were occasionally breaking away for dangerous sallies into Belleville territory kept the fans in a state of anxiety. They were fearful that Nurse would miss one of those rapidly driven pucks and they looked for the worst and breathed sighs of relief when Nurse managed to get in the way of the rubber. Some of his stops almost gave the fans heart-failure. Twice he lost the puck in his pads as the eager Queen's players swept in on his citadel, but the goddess of good fortune was with him and he managed to clear.

### Weir Relieves Fans

Then Weir relieved the tension. He took a perfect pass from Green after the latter had stick handled his way through a maze of sticks and cooly drove the puck past Mundell. The Queen's goalkeeper never had a chance on the play. Weir was right in front of him when he let drive and his shot, perfectly timed and accurate, crashed up against the twine. A mighty cheer of relief went up from the fans. It was the big break of the game and only six minutes remained to be played.

### Queen's Not Broken

Queen's spirit however was far from broken. With McKelvey bearing the burden they came on like a pack of hungry wolves and they literally crashed their way down the ice again and again. The locals wavered ever so slightly. They were feeling the effects of the hard battle and some of the front line men were unable to keep pace with the speed merchants from the Limestone City. Green, Finkle and Nurse did their best work of the game here however and their checking turned back the visitors. One shot did get past Nurse. It was a drive that would have beaten most goalers. It put Queen's back in the chase but got them no more results as despite their rally they could not get into position to score again.

Eddie Thomas handled the local team with rare skill. His wise substituting kept the locals going at top speed and it was his foresight in keeping fresh men for the final minutes which resulted in Belleville preventing Queen's from tying the score. Thomas has been through many a hard battle before. His experience, as much as anything else, saved the day for Belleville.

Belleville—Goal—Nurse; Defense—Green and Finkle; Centre—Hagerman Left Wing—Frechette; Right Wing—Weir; Subs—T. Whalen and D. Whalen.

Queen's—Goal—Mundell; Defense—Campbell and McKelvey; Centre—Grimes; Left Wing—Nickle; Right Wing—Taylor; Subs—Johnson and Bond.

Referee—Mike Rodden, Toronto.

## POINT ANNE QUINTE LEAGUERS MEET BATTERY HERE WEDNESDAY

To-morrow night at 8.15 the local gunners take on their old time rivals of the Point in a Bay of Quinte League fixture which promises to be full of excitement as the representatives from Point Ann are coming up with a host of ardent supporters just "rarin'" to go. After their conquest over Napanee and numerous practices they have a world of confidence and intend to trim the Artillery right in their own town, but on the other hand the Battery boys intend taking no chances and are going after them from the drop of the hat. The locals are playing a lovely brand of hockey which will take some stopping but Point Ann believe they can as they are right at home here and always play better away from home.

Belleville is leading with two wins, Kingston next with two wins and one loss and Point Ann is third with two losses and one win. If Point Ann win here and beat Kingston at home and Kingston beat Belleville at the Harty Arena there will be a three cornered tie. This can be upset to-morrow night if Belleville take another fall out of Point Ann.

Referee Walters, of Napanee, will handle the game so a clean game of hockey is assured as he is a first-class man with the bell.

Reserved seats are on sale at Ed. George tobacco store and the Arena. The Battery will make one or two changes in their line up but what they are is uncertain yet.

## BRIEF SPORT COMMENT

Sixty-minute Weir only went fifty-nine minutes last night—one minute penalty.

Hagerman switched signals on Queens. Instead of the customary combination, that lone rush "Put the wind up" in fine style.

Should any holes be found in the twine today, it won't be hard to find the guilty parties.

As Referee Rodden said after the game, it was clean, played like gentlemen, and fast as a streak. Incidently this referee, who knows the game from way back, and has refereed games played this year by the strong Western teams, declared Belleville should win the O.H.A. title.

Belleville fans seemed unanimous in their opinion that Mike Rodden lived up to advance notices as the "real goods". It is seldom that so close a game, with so much at stake, has been handled in a smoother manner. Penalties were few, and of short duration, the game being decided entirely on the merits of the two teams.

## BROCKVILLE TRIMS OTTAWA GUNNERS

Brockville, Ont., Jan. 22.—Ottawa Gunners lost to the Brockville intermediate O.H.A. team here last night in a hard fought, yet clean exhibition game which neded 7 to 6. Entering upon the last period leading by 5 to 3, the Gunners added another inside of two minutes' play. Then they adopted a defence game which the locals solved. Kinghorn scoring four goals to win the game. Bob Giddens, youthful centre for the Gunners was one of the best performers on the ice, while McMorrow in goal for the visitors, gave a finished exhibition despite the big score against him. The scorers for Ottawa were T. Oneil, H. Oneil, J. Smith, Giddins, A. Oneil, while Kinghorn scored six of Brockville's seven.

### TRENT VALLEY LEAGUE

Hastings defeated Campbellford in an exciting game on Friday night by 7 goals to 3.

### WHITE WOULD WIN LIGHTWEIGHT CROWN

Charley White has announced that he made but one New Year's resolution—to win the world's lightweight championship before another year skids off the calendar. He is to meet the winner of the Moran-Shugrue battle. It will be the second of a series of bouts he is planning to lead up to a fight with Benny Leonard for the title.

"Last year I fought eight times in New York City and the receipts totalled $294,397," said White. "When it is realized that not one of these fights was with a champion, the gross receipts indicate that I am a drawing card. The men I fought in New York were Barrett, Mitchell (twice), Jackson, Dundee, Marks, Moran and Kansas.

"I started my drive for the championship on December 18 by knocking out Bobby Barrett in six rounds at Philadelphia. I intend to take on all of the topnotchers and force Leonard into a match with me."

## ARNOTT HELPS TO TRIM KITCHENER

Prescott, Ont., Jan. 22.—Preston won the right to second place in the Big Four senior O.H.A. race, when the locals defeated the Green Shirts of Kitchener by four to three in one of the best games of hockey played at the local Arena this season. The visitors were without Zuber, their regular goalie, but Woods, who replaced him, turned in an excellent game, and it was no fault of his that Kitchener were defeated. Schmaltz was in goal for Preston, and turned in a great performance considering that he was defending the net against his old team-mates.

Kitchener, two goals down in the final period, and only six minutes to go, tried hard to even the count. They were successful in scoring one counter, but failed to win the game. The feature of the game was the back-checking for the local forwards. Molson of Kitchener got the first goal of the night, but before the first period ended Arnott scored twice for Preston.

## SOCIAL and PERSONAL

Mrs. [illegible] Stork entertained at bridge last evening.

Provincial Inspector Killing of the Provincial Police is in this city today at headquarters for this district.

Mr. Jack Mason, who underwent an operation yesterday morning at the General Hospital here, is to-day reported to be in a favorable condition.

Mr. George K. Graham left for New York City yesterday afternoon on a business tip.

Mrs. James McGuire, who fell on the icy sidewalk on Thursday last, was removed to the Hospital Sunday.

Mrs. W. E. Schuster was hostess at a miscellaneous shower yesterday afternoon at her home, corner George and Dundas Streets, to fifty guests in honor of Miss Georgina Springer, whose marriage takes place on Saturday to Mr. David Ross Dunham, of Augustine, Florida.

The guests were escorted to the dining room by Mrs. P. H. Wills. Mrs. E. D. O'Flynn poured tea. Assisting her were Misses Barbara Gillen, Jean Clinton, Amy Walbridge, Anna Schuster, Grace Cook and Mary Roberts.

Mrs. E. D. O'Flynn is entertaining in Miss Springer's honor this afternoon at her home corner Bridge and Bleecker Ave.

### WHY EX-PRESIDENT WILSON ALWAYS LIKED VAUDEVILLE

Montreal, Jan. 22.—Roland Robbins, manager of Keith's Theatre at Washington, has made public some interesting observations by Woodrow Wilson on vaudeville. The former President, according to Robbin's has been an addict to vaudeville for 10 years "I especially like a good vaudeville show," Mr. Wilson confesses, "when I am seeking perfect relaxation; for it is different from a play though I am intensely interested in the drama in all its phases. Still, if there is a bad act on a vaudeville programme, you can rest reasonably secure that the next one may not be so bad. From a bad play there is no escape."

### On Good Terms

Doctor—Now put your tongue out.

Slum Urchin—What for? I ain't mad at yer.

## EXCRUCIATING PAINS, CRAMPS

### Entirely Remedied by Lydia E. Pinkham's Vegetable Compound

Eberts, Ont. — "I started with cramps and bearing-down pains at the age of eleven years, and I would get so nervous I could hardly stay in bed, and I had such pains that I would scream, and my mother would call the doctor to give me something to take. At eighteen I married, and I have four healthy children, but I still have pains in my right side. I am a farmer's wife with more work than I am able to do. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and I feel that it is helping me every day. My sister-in-law, who has been taking your medicine for some time and uses your Sanative Wash, told me about it and I recommend it now, as I have received great relief from it."—Mrs. NELSON YOTT, R. R. 1, Eberts, Ont.

Lydia E. Pinkham's Vegetable Compound is a medicine for ailments common to women. It has been used for such troubles for nearly fifty years, and thousands of women have found relief as did Mrs. Yott, by taking this splendid medicine.

If you are suffering from irregularity, painful times, nervousness, headache, backache or melancholia, you should at once begin to take Lydia E. Pinkham's Vegetable Compound. It is excellent to strengthen the system and help to perform its functions with ease and regularity.

## Rheumatism Gone, Claims Mr. Merlinger

Rheumatism is said to be due to acid in the blood. Whatever its cause, only those who have it know the suffering it produces. While Carnol is not claimed as a specific for rheumatism, it did wonders for Mr. Merlinger. Sufferers from rheumatism may profit from his experience which follows:

"For the past two years I have been a martyr to rheumatism. It affected my muscles and joints which at times became quite swollen. I suffered excruciating pain. I tried several "sure cure" remedies for rheumatism. Some of them gave relief for a time. Others were of no use. At times the pain was more than I could stand. Some nights I only got a few hours sleep. I was completely run down. I felt that if the rheumatism continued I would have to quit work. I was becoming worried. In reading the Hanover Post one day I noticed an advertisement for Carnol. I started taking it and shortly afterwards got ease and relief from pain. It helped me wonderfully. I was able to sleep soundly, something I hadn't been able to do for months. I can recommend Carnol to everyone suffering from rheumatism."—G. Merlinger, Hanover, Ont. 3-9

*Carnol is sold by all good druggists everywhere.*

## Bon Voyage!

No wonder members of the crew of the Dollar liner President Harrison were so light-hearted when they left San Francisco on the first regular round-the-world passenger service. These four sailorettes are shown descending the ladder after wishing bon voyage to all aboard.

### ROPE BREAKS, MAN FALLS 300 FEET TO HIS DEATH

Niagara Falls, Ont., Jan. 22.—Anthony Stefano, of this city, was instantly killed at the Queenston power house when he fell a distance of three hundred feet. He was being lowered with a rope down the face of the cliff, which he was to have scaled preparatory to beginning work on a new penstock, when the rope broke. He was badly mangled and died instantly.

## Do You Keep

a close tab on your digestion? This is important. It will pay you well to do so. Digestion is complicated and its processes often become disordered. This brings immediate discomfort —often severe pain. Use

## BEECHAM'S PILLS

This valuable preparation has for years been found to relieve indigestion, billiousness, sick headache and constipation. Thousands of careful folks have learned to use Beecham's Pills, which have proved both corrective and preventive. Experience has taught them to always have a box handy. Profit by their example—always have Beecham's Pills

### KINGSTON ROAD NOTES

The Front road Ladies Aid held a social evening at the home of Mr. W. A. Clazler on Thursday evening Jan. 17. The earlier part of the evening consisted of a programme of recitations, readings and songs, followed by a presentation to Mr. W. D. Reid of a pair of gold cuff links for his much appreciated services in the social work of the Ladies Aid. Mr. Reid, though very much taken by surprise in a few well chosen words thanked the ladies for the gift. This was followed by impromptu speaking, community singing and a contest, after which a dainty lunch was served. The remainder of the evening was spent in playing games.

The address was as follows:

Mr. W. D. Reid.

Dear Friend:—

We, the members of the Ladies Aid of the Front Road have gathered here this social evening and we take this opportunity of expressing to you our appreciation of your help and willing services in our Ladies Aid Work.

Although much of your time is occupied with home labours and other social work, when called upon to take some part in our social program you never refuse but always willing to give of your time and talent. Like the man to whom God gave the talents of which he made use and doubled; so, since coming in our midst, you have used your talent in helping the cause of our work in the welfare of our community.

On behalf of the Front Road Ladies Aid, we ask you to accept this little gift as a tangible evidence of our appreciation of your services to our Aid.

Mrs. George Greatrix, Pres.
Mrs. A. M. Leavens Vice-Pres.
Leair Grass, Secretary.

Sorry to report Mr. D. Grass and Mr. Geo. Hall on the sick list.

The slippery condition of the road has caused several autos to come to grief.

Mr. and Mrs. Clarence Reid spent the week end with his brother Melville Reid.

Sunday Jan. 20th the Front Road Methodist Church celebrated their fiftieth anniversary. Special music was given by young men from Albert College. Rev. Prof. Maine delivered

### NO CONFIRMATION

Ottawa, Jan. 22.—No confirmation was obtainable here today of despatches from Montreal that George Gonthier, an accountant of Montreal, had been appointed Auditor General, a post which has been vacant for over a year since the death of the late E. D. Sutherland.

## Foot Saved in 4 Days!

"Nothing but Zam-Buk could have done it," says Mrs. A. Berryman, 190, John Street, North, Hamilton,—in describing how her right foot, crushed by a waggon wheel, was healed. "The flesh was terribly bruised, blackened and inflamed, and I fainted away with pain. When it was quite impossible for me to move about, my husband's mother got me to try Zam-Buk. It was surprising!

"Within TWO DAYS all swelling and discoloration had disappeared and pain was banished. In FOUR DAYS, through this timely use of Zam-Buk, I could get about as usual; the injured foot was thoroughly healed."

Zam-Buk is the powerful antiseptic healer which quickly frees the skin of corruption and disease and grows new healthy tissue. No common ointment or salve can possibly compare with Zam-Buk. Get a box to-day! 50c. all dealers or FREE SAMPLE for 1c. postage from Zam-Buk Co., Toronto.

ZAM-BUK For Healing!

### A.Y.P.A. Hold Meeting; Seventy-Five Present

The regular meeting of the A.Y.P.A. was held Friday evening, the 18th. There were about seventy-five members present. It being men's night, the vice president, Mr. Jack White, took the chair. The programme was in the form of a sleigh drive, which was enjoyed by all. At the conclusion of the drive Mr. James Varley took charge of the entertainment, all members taking part in the various games. About 10.15 a delicious lunch was served by the men of the club. The meeting came to a close by the singing of the National Anthem.

SPORT [illegible]

## Sleeplessness

Sleeplessness, like insanity, is greatly on the increase. Modern life, with its hurry and worry and noise, brings an enormous strain on the brain and nerves.

The temptation to depend on sleeping powders or tablets must be fought off if you would avoid catastrophe. Means of reconstructing the starved nerve cells must be sought. Since the digestive system fails to supply nourishment to the blood and nerves it is necessary to employ such treatment as DR. CHASE'S NERVE FOOD to instil new strength and energy into the tired nerves. This is Nature's way of affording lasting relief.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c, a box of 35 pills, instead of 25c. for 25 pills.

Edmanson, Bates & Co., Ltd., Toronto.

## STEEL SUBSCRIBERS GIVEN TILL FEB. 4

### Means Another Extension For Payment of Their Ten Per Cent.

Toronto, Jan. 21.—In view of the fact that the Protective Trust of the L. R. Steel Company was able last week to arrive at a satisfactory arrangement with the Canadian creditors, by which they paid ten per cent. of the claims and arranged a stay for another month, the time limit has again been extended for the payment of the ten per cent. funds of shareholders, who want to get in on the new company. The first extension of time limit expired on Saturday, but the limit has again been extended to February 4, and now it is stated that if the present plans carry, the new company will be in a position to take over the management of the L. R. Steel affairs on March 1. But there are a number of steps which must be taken in the meantime. For one thing the Buffalo Court, which has been delaying its decision with regard to the disposal of the assets of the company must arrive at some conclusion. Saturday was the day fixed for a decision on the application of the Protective Trust to have all the assets of the company turned over to them; but according to a message received at the Steel headquarters in Toronto, the decision has been held over until Monday. But the local management have every confidence that the decision of the Court will be in their favor and that the way will be cleared for the formation of the new company. The next step will be an application for the separation of the Canadian assets from the American, and if this application is received favorably by the courts, it will mean the operation of Canadian assets apart from the American. Money is still being received freely at the local headquarters and the sum paid in by Canadian shareholders on the ten per cent. basis has reached $250,000. That is more than enough to pay off all the Canadian creditors, whose claims are around $221,000.

## MAH JONG GETS MINISTERIAL RAP

### People Play Mah Jong all Night and Sleep all Day

Techny, Ills., Jan. 22 (United Press).—America is in danger of mah jonging itself into moral and civic corruption like that which prevails in portions of China, according to the Rev. George Stens, now at St. Mary's Mission House here, after thirty years as a Chinese missionary.

If people lose all interest in their duties, sit up all night and play mah jong and spend the day asleep and devising devious schemes to get their money back, blame it on the game, the missionary says.

"I know men and women in China who have lost their entire possessions playing this game," declared the priest. "In China there is a saying that the victim of mah jong habit no longer can be trusted.

"It is a great surprise to me to note how rapidly the game of mah jong has gained such popularity in the United States. There are few games so contagious, and I am sorry to see it getting

### COUPLE HONORED

On the evening of Jan. 7th a merry party of about 75 of the friends and neighbors of Mr. Wm. Patterson, gathered at his home on the 7th concession Thurlow, to pay honor to he and his family before their departure for their new home on the 4th concession of Tyendinaga. Miss Myrtle Harrison read and address and Mrs. J. Hamilton presented Mr. Patterson and family with a beautiful fumed oak library table.

Mr. and Mrs. Patterson thanked their friends for the beautiful gift afterwhich lunch was served and the remainder of the evening was spent in music and dancing. The party broke up about 2. a.m., each wishing Mr. and Mrs. Patterson much success in their new home.

## That Body of Yours

By James W. Barton, M.D.

### SLEEPING SICKNESS

Although I dislike talking about conditions that are rare, nevertheless there has been such a widespread public interest in this condition, that perhaps a few thoughts about it might be in order.

There are a number of symptoms, but the three outstanding points about it are the extreme sleepiness, the absolute weakness of all muscles, and paralysis of certain parts of the body, affecting the eyes and voice most frequently.

There are other symptoms often present including headache, dizziness and double vision.

It lasts from a few days to a number of weeks. The longer it lasts the better is the chance for recovery.

The outstanding symptom of course is the extreme drowsiness or sleepiness.

The patient can usually be awakened, will talk quite sensibly about his condition and symptoms for a while, but will drop off to sleep again at once.

Now what is the cause of this trouble?

It is not definitely known at present.

A number of theories have been set forth, including the idea that it might be a form of food poisoning or perhaps due to the same poison that causes infantile paralysis.

However, one thing has been noted by investigators. The extreme prostration of sleeping sickness is very much like that seen in influenza or grippe.

You've had the grippe or seen people with it, and you remember how weak and tired they appeared.

Another thing, when you were getting better from the grippe you will also remember how depressed you felt.

This depression lasted a long while considering the short time you were sick.

Also these cases of sleeping sickness come about the same time of year as grippe or flu, as it is called and the number of cases seems to be in direct proportion to the cases of flu.

What is my point?

That many investigators are forming the opinion that the cause of Flu and of sleeping sickness is the same thing.

However, absolute rest, clearing the intestine, and light nourishing food form the basis of the treatment.

## Vicks Is The Thing For Asthma

### ONTARIO MOTHER TELLS OF STUBBORN CASE RELIEVED

Mrs. Wilbert E. Collier, of Bowery Street, Picton, Ont., says: "My little girl had a terrible case of asthma. I read about Vicks and sent out for a sample. I rubbed my child's chest and throat with it and put a flannel on. Vicks did her so much good that I bought two jars. She now sleeps well, and is a different child. I would not be without Vicks Vapo-Rub in the house."

A good way to get relief from asthma is to rub Vicks over the spine from the shoulders to hips; then melt a little Vicks in a spoon and inhale the healing vapors. Also insert some in the nostrils snuffing well back. You will be delighted to see how it clears the head.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Treatment with Vicks is especially desirable for children as it avoids so much internal dosing. Just as good, too, for cuts, burns, bruises, sores and skin itchings.

At all drug stores, 50c a jar. For free test size package, write Vick Chemical Co., 344 St. Paul St. W., Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

### Doing His Duty

"Ticket, sir," said an inspector at a railway terminus in the city to a gentleman who, having been a season-ticket holder for some time, believed his face was so well known that there was no need for him to show his ticket. "My face is my ticket," replied the gentleman, a little annoyed.

"Indeed," said the inspector, rolling back his wristband and displaying a most powerful fist. "Well, my orders are to punch all tickets passing on to this platform."

## CHRIST CHURCH HOLDS ANNUAL VESTRY MEETING

### Severe Cold Weather Fails to Daunt Members Of Congregation

### REPORT ON FINANCES

### G. B. Smith Elected Rector's Warden—Other Officers Selected

The annual vestry meeting of Christ Church was held in the Parish Hall last evening and despite the severe cold weather there was a large attendance of members of the church.

Rev. C. E. Clarke, rector, presided over the meeting opening same with appropriate prayer.

Reports of the various societies were received each showing a decided increase in membership and finances raised, especially the Sunday Schools of both Christ Church and St. Georges. Christ Church Sunday School with 332 members and St. Georges with 86 members in attendance on Sunday last.

Finances

The Wardens report showed that during the year $5509.23 was raised through the envelope system. Special collections and societies of which $403.04 was sent to Missions.

Mr. John V. White was elected vestry clerk.

Mr. G. B. Smith was selected as the Rector's Warden for the ensuing year and Mr. R. A. Backus was elected by the vestry as the people's warden.

The following were elected by ballot to the executive committee for the ensuing year: J. V. White, Douglas Rowe, Dr. Edwards, Harry Soans, A Harman, F. G. Mills, Fred Chamberlain A. R. Symons, F. O. Diamond and Bruce Bottom.

Messrs. O. S. Scott, W. H. Nugent and G. B. Smith were selected as delegates to the synod.

While waiting for the results of the ballots Miss LaVoi and Mr. D. Bachelor Jr., rendered a piano duet. Mrs. W. Yateman a vocal solo and Miss Helen Sulman a reading, each selection was well received and appreciated by the gathering.

A hearty vote of thanks was tendered the retiring wardens, Mr. Douglas Rowe and Mr. Arthur Harman for their successful efforts during the past and very strenuous year owing to changing of rectors, also to Rev. C. E. Clarke and those in charge of the different societies, especially the choir and the ladies of the Parish Guild.

## Tells Life Story Of Mary Slesor

"The thirty-six years which she spent in mission work in the region of Calabar, West Africa," was the subject of Dr. McTavish's address last evening in the John Street church, when giving an address under the auspices of the Grenfell Mission Society on Mary Slesor, commonly known as "The White Queen of Okoyong". It was really wonderful that a girl reared in poverty as she was in Scotland, and obliged to work for a living in a factory from the time she was eleven years of age, should have qualified herself for mission work, and it was equally amazing that she should have been such a successful missionary and so highly honored, both at home and abroad. Almost everyone around Okoyong including the native chiefs and British officials called her mother or ma. Sir William Wallace declared that she was the most remarkable woman in West Africa, and Sir Claude MacDonald paid high tribute to her worth. Mary Slesor could have said as Francis Willard the founder of the W.C.T.U. said, "God has kept me single, that I might be a mother to thousands". Under her influence demon worship was almost entirely abolished. The murdering of twin children was given up and drunkenness was reduced to a minimum in the four stations in which she did her pioneer work.

She was appointed a Police Magistrate, the first woman to hold that office in the British realm, and she was given membership in the Order of the Hospital of St. John of Jerusalem. In the region where she labored there are now fifty churches and more than 1,500 members.

Rev. D. C. Ramsay presided at the meeting and a solo was rendered by Mr. James Bankier.

---

London, Jan. 22.—The Soviet delegation which is proceeding to Canada to begin negotiations with the Ottawa Government looking towards the resumption of trade relations with Russia has reached London this morning. They will sail on the steamer Montcalm next Friday, and they have hopes of signing huge contracts for agricultural machinery, railway equipment and other industrial products during their visit. If the contracts are completed it should result in a big boom of Canadian trade. Full guarantee of payment for all such contracts has already been arranged by the Soviet Government.

Chief J. Boyd,
W. Givens,
Chairman

### IT PAYS TO ADVERTISE IN THE INTELLIGENCER

## Five Families

(continued from page one)

42 quickly vacated their houses. They were unable to save their furniture but did put on their heavy outer clothing. They were quickly hustled into neighboring houses. So quickly did the flames spread that Mr. and Mrs. Archibald Campbell an elderly couple in No. 44, had no warning whatever. A number of constables, directed by Patrol-Sergeant Finch, hurried into the building and carried out Mrs. Campbell on a stretcher. Fire Chief Russell arrived from his home and did not take the time to change into his rubber coat or boots. With his cloth coat frozen and shoes wet he remained until the blaze was under control.

Firefighter Hurt.

Captain Sandy Deans of Portland st. aerial truck was badly cut about the hands while removing a pane of glass to let some air into one of the houses he had entered with others.

Collapse of the chimney at No. 40 sent bricks down upon the verandah upon which the firemen were working and they were forced to retreat. Water used quickly coated with ice the verandahs from which the men worked their ladders, clothing and the hose they were using. The street was flooded, and within half an hour of the first alarm was a sheet of ice almost over with the curb.

A parrot in a cage at No. 36 was raising a commotion while the excitement was on, and a fireman carried it out to a neighbour.

## Sulphur Clears A Pimply Skin

### APPLY SULPHUR AS TOLD WHEN YOUR SKIN BREAKS OUT

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a simple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho-Sulphur and use it like cold cream.

### TRIP COST NOTHING FLAT

Los Angeles, (United Press).—When Frank Smith, of Mena, Arkansas, decided that he wanted to come to Los Angeles. Loading his wife and five children into an old-style covered wagon he started west—with cash assets of 60 cents. The wagon was drawn by a pair of burros. It took him six months to make the trip, and he arrived with his original 60 cents intact, having supported himself and family as a painter and cartoonist.

### SAN PEDRO'S BIGGEST SHIP

San Pedro, Cal. (United Press.— The largest ship ever to enter Los Angeles harbor will touch port January 30, when the Cunard liner, "Laconia" stops here on a trip around the world. H. G. DeGolia, assistant manager of the Cunard lines, is here making arrangements for the provisioning of the liner.

SEVEN YEARS OF TORTURE

Headaches and Indigestion Ended By "Fruit-a-tives"

The Marvellous Fruit Medicine

Like thousands and thousands of other sufferers, Mr. Albert Varner of Buckingham, P.Q., tried many remedies and went to doctors and specialists, but nothing did him any good.

Finally a friend advised him to try "Fruit-a-tives"—now he is well. As he says in a letter:

"For seven years, I suffered terribly from Headaches and Indigestion. I had belching gas, bitter stuff would come up in my mouth, often vomiting, and was terribly constipated. I took Fruit-a-tives and this grand fruit medicine made me well."

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont.

MOTHERS! GIVE SICK CHILD "CALIFORNIA FIG SYRUP"

Harmless Laxative for a Bilious, Constipated Baby or Child.

Constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

### GOOD-BYE SENIORS

Kingston, Jan. 22.—Jack Bond has left the Queen's senior Intercollegiate hockey team and is definitely down on the list for the intermediate team, according to an announcement made at Queen's University yesterday and "Duke" Boucher is contemplating leaving the senior team for the intermediates.

### RURAL DOINGS

Connecticut paper—E. W. Lyon and wife at Crystal Lake have been avoiding the grip also Mr. and Mrs. Eddy at same place.

# ADDITIONAL SPORTS

## PORT HOPE DOWNS OSHAWA SQUAD

Oshawa, Ont., Jan. 22.—Port Hope defeated Oshawa squad by a score of 5 to 4, after 20 minutes' overtime here last night in their annual clash in the local O.H.A. intermediate group, before a crowd that packed the local rink, even the rafters holding their quota. On ice that suited both teams, Manager Ed. Donald, of the locals, trotted out a changed line-up to that which appeared against Bowmanville, in their first home game. Kip Rowden made his first local appearance for this season at righ wing, and Whinfield, the Owen Sound boy, worked with Hefferman, on the defence.

Port Hope—Goal, Micks; right defence, Catrer; left defence, Jex; centre, F. Hills; right wing, R. Ware; left wing, A. Hills; subs., Harwood, K. Ware.

Oshawa—Goal, D. Smith; right defence, Hefferman; left defence, Whinfield; centre, J. Smith; right wing, Rowden; left wing, Lowe; subs., Williams and Morris.

Referee—Dr. Jerry Laflamme, Toronto.

## ON THE ALLEYS

Notwithstanding the "Breezes" blow mildly and wildly the High School girls were able to withstand their onslaught at the Y Alleys yesterday afternoon and came out of the arguement 153 points to the good. "Hurricane" (Miss Chown) cut a wide swath when she rolled a total of 533, an alley record also her single game of 246 was a league record. The High School Girls had no outstanding performers but they all rolled a steady game getting better average results.

| BREEZES | | | |
|---|---|---|---|
| Miss Chown | 246 | 116 | 171—533 |
| Miss Snell | 115 | 104 | 73—269 |

## CHESS WONDER TO PLAY IN TORONTO

Toronto, Jan. 22.—Alexander Alekhine, Russian champion and challenger of Capablanca for the world's chess title, will give an exhibition of simultaneous play in Toronto next Wednesday. Queen City chess players are looking forward to a gala night.

Most brilliant of the world's great super-masters, Alekhine's appearance is keenly looked forward to in the city clubs, and the spectacle will undoubtedly be a visible indication of the wave of interest in the game here at the present time.

A line-up of 40 players will battle with the master, and he will under take two of the games without sight of the board, a difficult feat with a large batch of other games to attend.

Alekhine gave five exhibitions in Quebec province in November and has since been in New York and nearby fulfilling engagements. His visit here is a jump-off from a tour West through the northern states and returning by a more southernly route.

Alekhine was born in Moscow, October 19th, 1892, being nearly 4 years younger than Capablanca. During the Great War Alekhine had an adventurous career. In the subsequent reputation as a chess player saved him from sharing the fate of fellow prisoners, who were summarily shot following a success of the enemy. His visit to Toronto is the most important chess event in the city since the appearance of the great Pillsbury many years ago.

## SKATING BATTLE IN FULL FORCE

Toronto, Jan. 22.—The refusal of Gladys Robinson to skate at Pittsfield yesterday because of rumors that she is a professional goes deeper than would appear on the surface.

She competed the opening day of the meet, but a wire was received at Pittsfield following that from Louis Rubenstein of Montreal, chairman of the Canadian Skating Association to the effect that Miss Gladys was ineligible to skate as an amateur. That could mean only one thing, and that was that she had been declared a professional by the Canadian Skating Association following her avowed intention into effect. When she got there she thought better of it and did not skate as a professional.

### Amateur End

Further, Miss Robinson skated at St. John, as an amateur under the sanction from the Maritime Amateur Union.

On her return to Toronto she was accepted as an amateur by the Ontario Skating Association and also by the Ontario Amateur Union, and received her amateur card from the latter body this week.

No notification was sent to either of these latter bodies by Mr. Rubenstein and the first intimation of it came in a wire from Miss Robinson to the Ontario Skating Association today.

### Ontario Backs Gladys

The Ontario Skating Assn. and the Ontario Amateur Union committed to Miss Robinson's amateur standing have appealed to Pres. Findlay of Montreal, of the Amateur Athletic Union of Canada in the matter.

Meanwhile the Canadian Skating Association would appear to have the whip hand in that they govern skating in Canada as an affiliated body with the Amateur Union. The C.S.A. is also affiliated with the International Skating Association of the United States, which in turn is affiliated with the Amateur Union over there. That places the Canadian Skating Association supreme in matters of skating in this country.

### CURLING

Rinks representing Belleville, Oshawa, Port Hope, Cobourg and Colborne Curling Club this afternoon at the rink were in competition for the district cup. Play will be continued this evening.

## GREAT BATTLE N.H.L. CIRCLES

"Jack" Adams, St. Patrick's husky wing player, who has been subject to much undue criticism during the past few weeks, is close on the heels of "Cy" Dennenay, Ottawa, for the goal-getting honors in the National Hockey League. The Ottawa veteran has tallied nine, while Adams is second, with six. "Bert" Corbeau, the local's big defence man, is tied with Adams. The latter, if his present showing can be taken as a criterion, will finish among the "uppers" on the "sniping list" for the season of 1923-24. Joliat, Canadiens, has been holding down the second rung for the past several weeks; the Boucher Brothers and Nighbor, Ottawa, have also counted half a dozen. "Babe" Dye and Reg. Noble, St. Pats, ar enext in line, with five apiece. "Bill" Burch, the Hamilton star, by scoring twice against Ottawa last Saturday, and once here on Wednesday has crept into next position, and is tied with Randall (Hamilton), Morenz (Canadiens) and Broadbent (Ottawa) who have scored four.

### Ottawa Still Leads

During the past week the four teams have scored twenty goals, bringing the total for the season to date up to 99. The Senators lead with thirty, St. Pte's are next with 28, Hamilton 22 and anadians 19.

Sprague Cleghorn, Canadiens, broke into the scoring column last Saturday against St. Pats at Montreal, and on Wednesday tallied the winning goal in overtime against Ottawa.

Following arthe scorers:—

| Player. Team | Goals |
|---|---|
| "Cy" Dennenay, Ottawa | 9 |
| Adams, St. Pats | 6 |
| Corbeau, St. Pats | 6 |
| Joliat, anadiens | 6 |
| Nighbor, Ottawa | 6 |
| G. Boucher, Ottawa | 6 |
| W. Boucher, Candiens | 6 |
| Dye, St. Pats | 5 |
| Noble, St. Pats | 5 |
| Randall, Hamilton | 4 |
| Morenz, Canadiens | 4 |
| Broadbent, Ottawa | 4 |
| Burch, Hamilton | 4 |
| Roach, Hamilton | 3 |
| Spring, Hamilton | 3 |
| R. Green, Hamiltin | 3 |
| Stuart, St. Pats | 3 |
| Clancy, Ottawa | 2 |
| Prodger, Hamilton | 2 |
| Andrews, St. Pats | 2 |
| Darragh, Ottawa | 2 |
| Bouchard, Hamilton | 2 |
| S. Cleghorn, Canadiens | 2 |
| Arbour, St. Pats | 1 |
| Smylie, Ottawa | 1 |
| S. Green, Hamilton | 1 |
| O. Cleghorn, Canadiens | 1 |
| Total | 99 |

### SENTENCE HUNGRY WOMEN

Berlin, (United Press)—Five old women—all mothers—were sentenced to jail because they were hungry and stole some "wurst" from a profiteering market dealer. One of the women is fifty years old; another is about to bear a child. The court sentenced the leader of the plunderers to one year in prison; the others to nine months each. They will begin their sentences as soon as their is room in the jails.

### CARE FOR DRUG ADDICTS

Santiago Chile (United Press).—Because of the increase in the number of drug addicts, a public sanatorium is to be built in connection with the asylum for the mentally defective.

### COLLECTOR DROPPED DEAD

Cornwall, Jan. 22.—Fred J. MacLennan, aged 50, collector of customs, collapsed and died suddenly while talking to friends in the Cornwall Club on Saturday night.

Ottawa, Jan. 22.—Out of every 100 people in Canada 51 live on farms.

Montreal, Que.—Grain handled by the Port of Montreal in 1923 totaled 120.013,933 bushels.

## She's Some Real Shooter

## LIBERALS PRAISE TORIES AND COMPETENT LEADER; CRITICIZE EACH OTHER

### Toronto Organization's new Head Deplores Lack of Co-operation by Members—Only Thirteen Attend Annual Meeting

### KNOCKS COLLEAGUES

### Ramsden Declares Conservatives Rally to Support Party Leaders—Wonder at Virile Women's Organizations

Toronto, Jan. 23.—In the absence of the president, secretary, all Liberal members of Parliament and prominent politicians of the party, and in the presence of thirteen lay members of that party, the Toronto Liberal Men's Association opened its annual meeting in the Veteran's Club House, 41 Isabella street, last night. The president, Col. Kirkpatrick, and the secretary, Joe Singer, along with half a dozen other Liberals, later came in, and eventually there were sufficient members present to proceed with not only the mere election of officers, but also to increase the executive by about 30 members.

Liberals in Toronto, according to Mr. Ramsden, have not known that they have an executive in the city. They will be glad to have this report correct their misapprehension.

However, aside from the election of officers, the little family gathering devoted itself chiefly to heaping praise upon the Toronto Conservative Association and abuse upon their own organization. Said the new president, Chas. Collins:

Knocks His Colleagues.

"Nothing that could happen will hearten our Ministers at Ottawa so much as this meeting. Our estrangement with them in the past has been our own fault. Some individuals from here have gone there (to Ottawa) and tried to get everything for themselves and it is no wonder if members of the cabinet have got the impression that the party in Toronto has been run by a lot of riff-raff. This association should endeavor to raise the standard of Liberalism in Toronto to the level maintained in the rest of the province."

And that was the heart of the incoming president's inaugural address. Then just in case the above remarks were over the heads of other members elected to the extended, not to say voluminous, executive, Jas. E. Day supplemented them with a caution. "I would like the members elected that the executive to remember that they are executive members," he said "Weekly meetings are held at the Ontario Club and matters discussed there should not be repeated outside. It is sometimes necessary to discuss personalities, and outside discussions promite useless jealousies." This injunction to silent secrecy was repeated in so many forms and phrases that one got the impression that these executive sessions must be fearful and solemn occasions, that not

(Continued on Page Seven)

Keep in mind the old-fashioned supper at Christ Church Parish Hall on Friday, January 25th, from 5.30 p.m. to 7.30 p.m., under the auspices of the Girls Branch of the W. A. Admission 40c. Bon Ton Orchestra in attendance. 23-24

## COUNCIL VOTING SHOWS TRIBUTE TO NEW WARDEN

### Unanimous Selection of Chas. S. Rollins Adds To Honor

### POPULAR OFFICIAL

### New Incumbent Twelve Years Reeve of Wollaston Township

Mr. Charles Samuel Rollins of Coe Hill, Reeve of Wollaston Township will be Warden of Hastings County for 1924. He was, at the opening session of the County Council on Tuesday afternoon, unanimously voted to that position by his confreres in the Council.

Mr. W. H. Nugent, County Clerk at the opening of the Council, stated that the first duties of the Councillors would be to choose one of their members as Warden for the year 1924

Mr. S. B. Rollins, moved, seconded by Mr. G. T. Sills, that Mr. Charles S. Rollins, Reeve of Wollaston, be the Warden of Hastings County for 1924 Mr Rollins was unanimously elected to the position.

In accepting the position, the Warden elect thanked the members for the honor they had conferred upon him an honor he appreciated very much. He hoped to be able to fill the position as creditably as some of his predecessors had.

He welcomed all the old Councillors also the new members. All were privileged to take part in the Council's proceedings. This should be a year of economy, for various reasons, and especially for the farmers. Prices have not been as good as they might have been for farm products but possibly this year will be more prosperous and things strike their level.

The matter of reforestration was referred to by His Honor. We should not allow so many Christmas trees to be taken out of this country, the Warden stated. The resources of Hastings County should be placed before the people. He asked for the co-operation of all members of the Council in the discharge of his duties.

Council adjourned until Wednesday morning.

### WARDEN ROLLINS IS POPULAR MEMBER

Mr. Charles Samuel Rollins, Warden elect of Hastings County for the year 1924, is not only well and favorably known in the northern part of the County but throughout the whole jurisdiction.

He is the popular Reeve of Wollaston Township. In the year 1876 he was born in the village of Madoc, being a son of the late Mr. Robert Rollins.

In early life Mr. Rollins went to the vilage of Coe Hill, where he has resided for a number of years, conducting a general store and also engaging in lumbering operations.

Warden Rollins is this year entering upon his twelfth year as Reeve of Wollaston Township, one of the municipalities in the northern part of the County and as such has been for these years a member of the County Council.

Mr. Rollins is identified with a number of Societies being a member of the A. F. & A. M. Society and a Shriner, an Orangeman, a Forrester, and also the Chosen Friends. In politics he is a Conservative and in religion a Presbyterian. For some time he has been President of the Wollaston Agricultural Society and has always taken a deep interest in its welfare

This society holds annually one of the best fairs in the northern part of the County and much credit for same is due to the untiring efforts of the President.

Warden Rollins is married and has one son Clark Tiny Rollins who is associated with his father in his business relations,

There is no member of the County Council more popular than "Charlie" as he is familiarly called and there is not the slighest doubt but that he will fill the honorable position to which he has been elevated to with credit to himself and County alike. The Intelligencer joins with his many friends in congratulations.

### SAILORS GET MEDALS

St. John, N.B., Jan. 23.—Two sailors of the Canadian Government steamer Aberdeen, which was wrecked this winter in the Bay of Fundy, will receive medals from the Society for the Prevention of Cruelty to animals.

## SHIP CAPTAIN TO BE GIVEN HIGH HONORS FOR RESCUE WORK

### Commander of Canadian Pacific "Empress of Canada" To be Guest of New York City — Japanese Quake Hero

Montreal Que., Jan. 23.—Upon the arrival there on Friday of the Canadian Pacific S. S. Empress of Canada, Captain S. Robinson, commander of the vessel which is now on a world cruise, will become the guest of the City of New York and will leave the steamer for the City Hall with the usual police escort provided for distinguished visitors.

Arrived at the City Hall, Captain Robinson will be presented with the freedom of the City in recognition of his performances in connection with the rescue and relief work at the time of the disastrous Japanese earthquake. After the luncheon Sir Harry Armstrong, British Consul-general at New York, will read a letter received from Stanley Baldwin, announcing that His Majesty, The King, has been pleased to confer on Captain Robinson the honor of membership with the Commanders of the Order of the British Empire.

On Monday, Jan. 28th, Captain Robinson will be the guest of John W. Doty, President of the Foundation Company and one of the chairman of the Japanese Relief Commission who was one of the survivors taken on board the Empress of Austria, which was under the Captain's command at the time of the earthquake.

When the Empress of Canada returns to Yokohama next May., Lloyds will mark the occasion by a ceremony in which the Government of Japan will participate. On this occasion, a momento is to be presented to Captain Robinson on behalf of the underwriters, the same interests having already forwarded $10,062.10 for distribution to the officers and crew of the Empress of Australia.

W. Beatty, President of the Canadian Pacific Railway will leave Montreal on Thursday night in connection with the arrival of the Empress of Canada at New York.

## CITY INSURANCE CONTRACT GIVEN FOREIGN FIRM

### Council Adopts Resolution That Tender of Zurich Company be Accepted

### MEMBERS IN "TILT"

### Agree to Payment of One Hundred Dollars to John Penny

A rather vexed matter was settled by the County Council last night, when the recommendation from the Executive Committee relative to liability insurance was adopted. The recommendation was that the tender of the Zurich Accident and General Liability Company to insure the city for $3,150 be accepted. Messrs. Davison and Davison represent this company.

When the Council assembled it went into Committee of the whole to consider the recommendation. Ald. W. R. McCreary was in the chair.

Ald. Robinson considered it advisable to insure in a tariff company rather than a non-tariff company. He moved in amendment that the insurance of the city be placed with the Employers Liability Company. The company it is proposed to insure in is a foreign company.

Ald. G. E. Foster thought it rather strange that Ald. Robinson, "the watch dog of the treasury," should support an amendment that meant an expenditure of $350 more than the cheaper insurance. He (the speaker) understood that Ald. Robinson carried all his insurance in non-tariff companies.

The amendment was lost and the Committee recommendation prevailed.

The Committee rose and reported The report was received and adopted.

A recommendation was adopted that the Council pay to Mr. John Penny the sum of $100 in lieu of any claim he may have on the city relative to a drain being constructed across property owned by him. Mr. Penny has agreed to accept $100 and waive all other claims.

**Motions**

Moved by Ald. A. Robinson, seconded by Ald. R. P. White that His Honor the Lieutenant Governor of the Province of Ontario be invited to pay an official visit to the City of Belleville on June 16th or 17th of this year, during the celebration of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists and that the Mayor sign the invitation on behalf of the city and affix the seal of the corporation of the City of Belleville thereto and that the Lieutenant Governor be asked to present a medal to Miss Margaret L. Blaird given by the Royal Canadian Humane Association on the occasion of his visit—carried.

Members present were Mayor W. C. Mikel, Aldermen W. R. McCreary, S. H. Treverton, H. W. Greenleaf, A. Robinson, W. H. Patterson, F. La Roche, R. E. J. Graham, D. V. Ketcheson, A. H. Ketcheson, R. Gardiner G. E. Foster and R. P. White.

## COUNCILS PLAN JOINT BANQUET

On Friday evening at Hotel Quinte a get together banquet will be held for members of the county and city councils. The affair has been arranged between the Chamber of Commerce and the City Council with an object of members of the two municipalities getting better acquainted. Dr. Bruce Taylor, of Queen's University, has been invited to give an address.

## LABOR-POWER COMMITTEES ARE URGED BY MIKEL

### Adoption of Proposal would Add Two More Standing Committees

### CIVIC IMPORTANCE

### Power Needs of Consumers and Working Hours Are Cited in Brief

Mayor W. C. Mikel in his address at the inaugural meeting of this year's City Council, intimated that possibly two more standing committees might be added to those already created.

Two by-laws have been prepared for the consideration of the members of the council relative to the creating of a power committee, also a labor committee with a chairman for each and all members of the council to be on such committee.

The by-laws are as follows:—

The Power Committee shall consist of all the members of the said Municipal Council.

To chairman of the Power Committee for the year 1924 shall be appointed by the City Council immediately after the passing of this by-law or at such time as the council shall determine, and thereafter at the same time and in the same manner as the chairman of the other Standing Committees of the council are appointed.

It shall be the duty of the Power Committee to gather information from time to time as to the present and prospective power needs of the power consumers of the City of Belleville and as to the best means of supplying same, and consider and suggest ways and means for the production and distribution of an ample continuous supply of power for the power users in the city of Belleville, and for the improvement of the power condition of Belleville.

The Power Committee shall co-operate with the Hydro Electric Power commission of Ontario and with The Chamber of Commerce and power consumers in performing the above mentioned duties.

The Power Committee shall perform such other duties and serivecees as may be directed by the City Council.

That this by-law shall come into effect immediately on and after the final passing thereof.

That the chairman of the Labour Committee for the year 1924 shall be appointed by the City Council immediately after the passing of this by-law or at such time as the Council shall determine, and thereafter at the same time and in the same manner as the chairmen of the other standing committees of the Council are appointed.

That it shall be the duty of the Labour Committee to see that all by-laws and resolutions passed by the City Council as to wages, hours for work, and for the general benefit of Labour are complied with.

That it shall be the duty of the Labour Committee to see that persons residing in the City of Belleville have the preference in all work being carried on by the Corporation of the City of Belleville and also to promote and encourage the policy generally throughout the city of giving employment to Belleville Labour first, the object being so

(Continued on Page Soven)

### MAYOR MIKEL PLANS TO AID MERRYMAKERS

Mayor Mikel is at work in conjunction with the city engineer, on plans to set aside certain streets in the city suitable for tobagganing and sleighing. Barricades would be erected on these streets, shutting off traffic during certain hours. This would eliminate danger, and allow snow enthusiasts to enjoy theid favorite winter sports in ful.

## MACDONALD IS FORMALLY GIVEN ENSIGNIA OF POWER IN EXCHANGE; FIRST OFFICIAL ACT ON STRIKE

### Ramsay MacDonald In Frock Coat and Silk Hat Visits His Majesty—Baldwin Issues Formal Statement on Government Attitude

### SEEK PEACE BASIS

### Labor Chief, In Full Regalia Is Sworn Into Office as Privy Councillor and Prepares to "Go Into Action"

London, Jan. 23.—The Labor Government goes into action ahead of all expectations.

The exchange of seals between the Ministers of the old Cabinet and the new took place at the Premier's official residence in Downing Street at noon to-day. The names of the new Ministers were made public soon after Mr. MacDonald submitted them to the King.

Stanley Baldwin met his Cabinet for the last time as Prime Minister Tuesday morning. He then proceeded to the Palace for a last official audience. His final approach to the precincts of Royalty was made, like his first, in a humble taxicab. He started to walk through the park, but was compelled to hail a cab as a refuge from the people who pressed around him.

Soon after his departure, the Labor leader, Mr. MacDonald, descended in the Palace yard from a private motor car. The Scottish Prime Minister—as he now is—attired in frock coat and silk hat, neglected none of the conventialities of office. He might easily have been mistaken for a dour Scotch university professor, which he is in temperament and learning. With him went two of his colleagues, James Henry Thomas and John Robert Clynes, true to the proletariat; typified by Bowler hats and short jackets. They attended in their capacity of Privy Councillors, for a Privy Council was presided over by the King, at which Mr. MacDonald was sworn in as a Privy Councillor.

Mr. Baldwin spent half an hour in the Royal presence; his successor, as was natural, had a much longer audience.

Parliament finished its deliberations by adjournment of both Houses until February 12. Almost the only business of Parliament was to receive the King's reply to last night's address, in which the King said:

"I thank you for your loyal and dutiful address and will at once give it my careful consideration."

**Presents Names of Ministers**

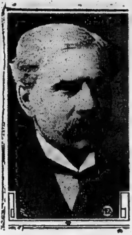
Later in the afternoon, Mr. MacDonald was again summoned from a meeting of the Labor Party to the Palace, when he presented to the King the names of his Ministers. His own people gave the new Premier a warm welcome, when he emerged from the Palace.

"Are you Prime Minister, Mac?" shouted an old man, Mr. MacDonald nodded.

"I congratulate you from the bottom of my heart," shouted his supporter.

In the House of Commons Mr. Baldwin, the retiring Premier, merely announced that the Government had tendered its resignation to the King and that its resignation had been accepted. The House adjourned until February 12, on the proposal of Mr. Baldwin, in agreement with the new Prime Minister.

TAKES NEW OFFICE



RAMSAY•MACDONALD

Who to-day at noon was given seals of office as Privy Councillor and leader of Britain.

## LADIES' NIGHT 'GOES OVER' BIG

### Eighty Kiwanians and their Wives are Present at Enjoyable Meeting

Ladies night at the Kiwanis Club banquet was a big occasion last night. The Club's new president, P. C. McLaurin, was chairman of the evening and acquitted himself in real peppy Kiwanian style, with the result that not one dull moment could be found from 7.30 until the gathering dispersed around the midnight hour. About eighty Kiwanians and their wives were present, the Kiwanians wearing their regulation headgear and the ladies decked out in ????? colored hats made it a gay looking scene among the decorations arranged by Kiwanian Tom Power and right here let it be said that the menu as served last evening by Tom was one of the very best. Al Wilson and his Society Serenaders were present and dispensed music that kept everybody happy. The other nu were of high order being solos by the the following local artists: Dr. Haffner, Miss V. Wrightmeyer, Fred Burke, Harold Barret.

It was indeed an evening of mirth and good fellowship that kept Sergeant-at-Arms Jack McIntosh busy collecting the numerous fines, those who came unattached being subject to extra heavy assessments.

Kiwanian Ernie Dickens acted very capably as song leader.

The toast to the ladies was proposed by Kiwanian F. E. Malott and responded to by Mr. Geo. Bonisteel. The toast to the new president was proposed by Bob Gorman.

Two new members had the unique experience of receiving their invitation on Ladies' Night. Frank Hinchey and Hugh Middlemiss. They were led aroun dthe table on the end of a huge rope by George Lee and Ginger Stewart and received into membership by Bill Lattimer and the president. One of the features of the happy evening was a short humorous talk by Bill Deacon. Ernie Finkle had his radio installed for the occasion and at the close of the regular programme the members enjoyed a radio programme from Pittsburg. All told it was one of the best evenings in record in the history of local Kiwanians and their wives.

## FINDS ROMANCE IN CUSTODY HERE

Adrian Larose, 17 year old French Canadian of Montreal, who has been in custody for several days on remand was taken to a Montreal bound train by police officers today having been discharged from custody by Magistrate Masson today.

Chief Kidd who communicated with the youth's parents, received the price of a railway ticket and then some for the "wandering boy," who will be in the "iold" tonight if anyone should ask where he is.

The question is, Why should a Montrealer forsake his home for a "dry" town like Belleville, especially when he does not understand English so well? The only answer is that Adrian seemed pleased to learn he was going home again.

### Leaders of Both Sides In Rail Controversy Are Requested to Call at Downing Street to Effect Immediate Settlement

### OUTLOOK HOPEFUL

### Railway Managers Declare Proposals Approved by Trades Union Congress Will be Accepted—Overtures are Made

**MACDONALD CONDOLES LOSS OF RUSS LEADER**

**One of the first acts of Ramsay MacDonald as premier was to send a telegram of condolence to the Russian people on the death of Lenine. Moscow, a city of black to-day, prepared to receive the remains of Nicolai Lenine. The dead premier's fellow leaders urged workers, peasants and the Red Army to stand firm.**

**London, Jan. 23.—The first act of Ramsay MacDonald as Britain's leader, was to take immediate steps to prevent a continuation of the rail strike that is tying up the arteries of the nation, and leaders of both sides have been requested to call at Downing Street to effect an immediate settlement.**

**The outlook at noon to-day presented a more hopeful appearance, and J. Bromley, secretary of the Associated Society of Engineers and Firemen has made overtures with the Railway managers prospective to a settlement. The railways have reiterated their stand that proposals approved by the Trades Union Congress will be accepted.**

London, Jan. 23.—A specific request by the executive committee of the associated society of locomotive engineers and firemen for a conference with the railway officials with a view of seeking a basis upon which the strike of the enginemen may be settled, has served to hearten the general public, which since Sunday, midnight, has been badly hampered by the walk-out.

The request for the conference is regarded as a hopeful sign for an ultimate settlement of the issues between the members of the associated society and their employers. In both trade union and railway circles tonight, the opinion prevailed that peace negotiations may be opened tomorrow. In these circles it was regarded as highly significant that although the railway officials had not wavered in their stand upon the strike, the associated society's request was unconditional inasmuch as it asked a conference "to secure an adjustment of existing differences." This was considered as providing a wide basis on which a discussion of the situation could be resumed.

The change in the attitude of the enginemen is believed to have been due to conciliatory influences coming from high quarters. Both sides to the controversy had been claiming progress today.

Railway officials said increased travelling facilities had been afforded the public, while J. Bromley, secretary of the associated society of locomotive engineers and firemen, claimed that the ranks of the strikers were gradually growing through men of the National Union of railway men joining the movement. He said 75,000 men were out.

Late tonight it was said on behalf of the associated society, that despite the request for a conference, it would stand by the strike.

Practically all the nine hundred passengers booked to sail on the steamer Majestic for New York were on board the vessel this afternoon.

## Albert College Head Addresses County Council

At the County Council session this morning Rev. Dr. E. N. Baker, Principal of Albert College, addressed the members and in his opening remarks congratulated Warden C. S. Rollins upon his elevation to that office. The Dr. invited the members of the Council to visit the new Albert College building. He felt certain that the members would be pleased to visit the buildings so far erected. Dr. Dyer spoke eulogistically of Hastings County and its vast wealth.

The members of the Council decided that at the June session it would be a much more suitable time to visit the College buildings and it was so decided.

### WILL JURY SYSTEM FAIL

The failure of a jury to render an adequate verdict has called forth from Mr. Justice Riddell of Toronto a very scathing criticism. The jury in question brought in a verdict of acquittal in a case where a motorist was charged with killing a man as he alighted from a street car. Gross carelessness on the part of the motorist was evident but at his second trial he was acquitted.

"It is a most deplorable verdict, gentlement. After this I think I shall not travel on a street car," said Justice Riddell. He further added, "See that they are not called for another jury. It is quite unsafe to have them on one."

This is but one instance of many that have occurred of late. Juries in cases of national interest have repeatedly failed to abide by the evidence submitted. Influenced by personal considerations rather than by facts offered for their enlightenment, they agree to disagree or bring in a verdict entirely at variance with common sense and sane judgment. They seem to regard themselves as in no way bound to abide by facts revealed at a trial and form conclusions of their own regardless of the evidence.

This is a dangerous outgrowth of modern times. Justice is not served when men refuse to be governed by incontrovertible proof. The system is bound to go if as in recent cases it proves to be opposed to the carrying out of the law.

Trial by jury has always been considered one of the fairest methods of legal procedure. The judgment of one's peers has been regarded as final. In most trials there is usually very definite testimony one way or another. Conflicting evidence is not common. And when a jury fails to recognize the evidence in coming to a decision, it is guilty of both dishonesty and injustice.

The system is on trial as it never was before in the history of jurisprudence, and if the laxity shown in several recent trials continues to make light of the laws of our land, then it is high time that some other method of procedure be adopted.

### "BOOTLEG" DANGER

The testimony of the police is that eighty per cent. of the Ontario bootlegger's stock is dangerous or deadly. Since bootleggers thrive in every town in the Province, this statement means that Ontario is lingering under a veritable plague of poisoners. The actual result of this visitation, if made public with its train of tragedies, would shock the community into immediate action, but there is a natural conspiracy of silence as regards the depredations committed. A small proportion only ever come to the public attention.

No supporter of the O.T.A. will contend that Ontario should be subjected to this deadly menace because of its deterrent influence upon those who may be tempted to break the law.

Prohibition demands no human sacrifice; indeed, it is quite plain that prohibition itself would be the gainer from the wiping out of a province-wide poison traffic which has appeared only since its advent and of which its enemies make constant use in striving for its abandonment.

On the conscience of the courts is laid the serious duty of setting the heel of Justice firmly and consistently upon this reptile traffic in deadly poison before it has recruited for the criminal class in Ontario a dangerously large contingent of the most ruthless characters.

### EDITORIAL NOTES

Rt. Hon. Mackenzie King is finding the occupation of cabinet making a difficult and delicate one.

—o—

The most cheering news for a long time is the announcement that the Canadian National Railway has a $17,000,000 surplus.

—o—

A woman in England has been fined for attempting to vote three times. Perhaps she was only exercising the prerogative of woman to change her mind.

—o—

If that $100,000,000 coal bill of Canada's in the United States could only be diverted to Alberta and Nova Scotia it would help solve some of the grievances of East and West.

—o—

The Western Progressives might read with interest this statement by Senator La Follette:

"The rates paid by Canadian farmers on their products are much lower than those paid by their competitors in the United States. The reductions are necessary to save farmers in the United States from appalling disaster."

## PRESS OPINIONS

### PROFESSIONAL SLANDERERS

(Manchester Guardian)

Litigation, at its best, has considerable terrors for the litigant or witness; the liberty of aspersion that is ordinarily allowed in cross-examination, and the witness's extremely small liberty to defend himself, render it easy for any clever counsel whose professional standards are not the highest to send almost any witness out of court besmirched with some foul suspicion.

If there were to be any further aggravation of this sort of forensic calumny, people of common prudence might well judge it better to ignore any sort of lay defamation whatever than to expose their characters to the more skilful attacks of some professional invectivist or innuendist in a place where the layman is like an unarmed man contending, in his shirt, with an armed man wearing a complete suit of mail.

### STRONG ARM DEMONSTRATIONS

(Boston Globe)

The Italian premier is troubled by charges, which are certainly well founded, that he has overthrown constitutional government. He now announces that he wants to prove that his regime can function within the Italian constitution.

In the outgoing chamber of deputies with but 38 Fascist members out of more than 502, he jammed through whatever he wished by the use of threats and strong arm demonstrations thruout the country. Among the measures thus ground into law was an electoral reform which promises to give him two-thirds of the seats in the incoming parliament.

### REASONABLE INDEBTEDNESS

(Louisville Courier Journal)

For a state, as well as for an individual one of the easiest things is to plunge into debt. Reasonable indebtedness, based on probable capacity to pay and in actual need for the expenditure, is no worse for a government than it is for one of its citizens. But the expenditure should be sanctioned by reason; the debt should be assumed with the certainty of faith that it can be, as well as will be, paid.

### NO HURRY

(Buffalo, Kan., Blade)

A certain young man in our town who dates with a popular flapper took his love to the movies recently. No mention was made of refreshments when the show was over. Back at her own doorway the girl, feeling his neglect, sarcastically handed him a quarter. "For the show ticket you bought me," she said meaningly. "Good gracious, girl," returned the young swain "there was no hurry. Saturday night would have been soon enough."

### ORGANIZED RESISTANCE

(Kingston Standard)

It is illuminating to see that 28 companies of London, Ont., have refused to pay the increased school tax ordered by the City Council. This is a hint as to reducing educational expenses which should be taken by other cities.

## Music & Drama

### SCENE OF WILD BEAUTY

"The Trail of the Lonsome Pine" Admirable Picture

A vivid touch of the wilds is to be seen in the Paramount picture, "The Trail of the Lonsome Pine,' starring Mary Miles Minter which will be the [illegible]re at the Regent theatre for 3 days, opening on Thursday. The scene is the log cabin in the Cumberland Mountains owned by "Devil" Judd Tolliver (Ernest Torrance), one of the principal characters in the story. A creek runs past the cabin, which stands in a beautiful glen. There are two or three outbuildings, a milk house of logs, a meat house, and a earth well. The cabin is in a good state of repair. It has a large stone chimney and a well built porch. A fence runs around the yard, and there is a vegetable garden on one side. Blue smoke, lazily rising from the chimney, completes a picture worthy to be recorded in oils. Antonio Moreno leading man, and Ernest Torrance are featured and lead a splendid supporting cast.

### FINE CAST WITH NORMA IN "WITHIN THE LAW"

Norma Talmadge has never been surrounded by a stronger cast than that which appears in her latest screen production, a picturization of Bayard Veiller's tremendously popular stage play, "Within The Law", on Thursday Friday and Saturday, with matinee Saturday at 2.30.

Miss Talmadge, of course, takes the stellar part made famous on the stage by Jane Cowl—that of Mary Turner, the little shop girl who is railroaded to jail for a department store theft she did not commit and who subsequently, through force of circumstances joins a gang of blackmailers, always keeping "within the law" and becomes the central figure of a stirring romance.

The glittering array that has been assembled for this production includes Jack Mulhall, a star in his own right, who, as Dick Gilder, one of the intended blackmail victims, is Miss Talmadge's leading man; and Eileen Percy as Aggie Lynch, head of the blackmail band.

Of particular interest is the fact that three members of the cast played with the original stage company of "Within the Law." They are De Witt Jennings Lincoln Plummer and Lew Cody.

### "JAZZ NIGHT" AT GRIFFINS

Thursday night is Jazz night at Griffins. An orchestra of twenty musicians will present new and novel Jazz numbers besides playing appropriate musical numbers for the pictures. So far these nights have been much appreciated by the patrons and Thursday night will be no exception. A treat is in store for those who attend this week.

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the 'Bayer Cross' on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

| | |
|---|---|
| Colds | Headache |
| Toothache | Lumbago |
| Neuritis | Rheumatism |
| Neuralgia | Pain, Pain |

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### CAN'T BE DONE

"I hear that there is only one picture of Rockefeller in existence and that is a water color."

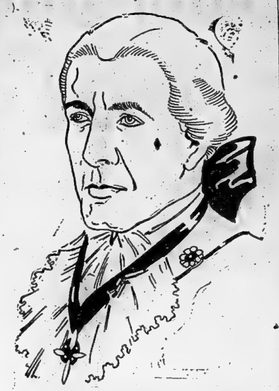
"Yes, you see they couldn't do him in oil."

### WILLING AND ABLE

Mistress (to new help)—Are you ever impudent?

Norah—Oi'm willing to learn, ma'am.

## LEWIS STONE, ARISTOCRAT



Lewis Stone, the gracious, the debonair, the aristocrat, as he appears in Rex Ingram's "Scaramouche" in the role of Marquis de la Tour d'Azyr—one of the three great pivotal roles in this truly magnificent Metro picture. Ramon Novarro and Alice Terry have the other two, heading a cast of more than thirty principals and ten thousand extras.

## STRANGE "GHOST" HAUNTS HOUSE

### Lamps and Chairs Float Through Air and Occupants of Place Flee

London, Jan. 23.—Monkton Healthfield, near Taunton, was favored by the appearance of a "ghost," who makes his presence felt in a novel manner. He differs from the normal spook by selecting a new house, instead of an old one, as his abode.

The house was built by a Mr. Gardiner, a jobbing builder, for himself and his son. They had not been living there long, however, when the uncanny incidents began. One Sunday evening, Mr. Gardiner and his son say, a curious noise was heard, and then an orange floated across the room and struck the older man on the neck.

Neighbors say they have seen other equally mysterious happenings, including the following:—

A chair jumped from the floor on to the table:

Match box, which was in a candlestick on the table in the kitchen, rose several feet in the air and fell to the ground:

Pair of boots emerged backwards from cupboard:

Tea-caddy hopped about and upset; pictures fell to the floor.

The climax was reached when, according to amazed witnesses, a lamp rose from the table, floated in the air, and gracefully volplaned to the kitchen floor.

These incidents are reported to have happened day and night at meals knives are said to have moved from one end of the table to the other, and a pepper-box has taken a walk.

The incidents take place only in the presence of the elder Mr. Gardiner who with his son, has ceased to stay in the house at night.

### NORTHBROOK

Mr. J. S. Sullivan, of Buffalo, arrived in town on Saturday enroute to the Ore Chimney Mine. Mr. Sullivan was manager there about ten years ago and has always shown great interest in the Ore Chimney as well as many mines in the Cobalt District.

Service was held in the Methodist Church on Sunday by Rev. Ogden, of Flinton.

Mr. and Mrs. Wm. Both spent the dinner hour on Sunday with Mr. and Mrs. Vogan.

Ervin Shire is on the sick list.

J. L. Lloyd is spending a few days up North.

The birthday party given by Mrs. Ed. Bosley in honor of Miss Hosenplot afforded a pleasant evening to a number of her many friends.

Miss Madaline Brouche, of Flinton, was a week end guest of Mrs. Moon.

Miss E. P. Dodd and Mrs. A. W. Perkins took tea with Mrs. Lloyd on Sunday.

### NIGHTFALLEN SNOW

These nights of snow are loving to the air
As the still mother of a grieving boy;
For so they fill the air with soft concern,
Imponderable, irresistible,
And draw the numbling hardness slowly out,
And slowly weave a gradual sweetness in;
So freely on its harsh and hungry gloom
They spend the last calm silver penny of love.

O perfect strength of soft unstrenuous snow!
O mouth of beauty whispering in the night!
Æolian snow, that thrills against the wind,
That drifts on hidden grace, and lights it up
With shreds of many rainbows blended white!
O wild and revolutionary snow
That tosses utter newness round the world,
And lays it on the nations in their sleep!

—Sarah N. Cleghorn.

Red Pepper For Colds in Chest

Ease your tight aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

### $8 A Week

William H. Vanderbilt (above), scion of one of America's wealthiest families, heir to about $20,000,000, is working in Boston as an office boy—for $8 a week. But he admits his salary doesn't pay his expenses. He wants to learn the brokerage business.

Be Pretty! Turn Gray Hair Dark

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly combined, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

SINCLAIR'S

COATS

of the Better Class

Radically Reduced

Just a few of our finest Coats are left for clearance, and prices have been much reduced in these to make wonderful values, before stock-taking. Coats of Marvella, Berona, and Duvetyn, in Black, Brown and Navy, luxuriously fur trimmed.

Are Women Overworked

Yes, hundreds of thousands of them are. This applies to the housewife and mother who struggles on a small income to make both ends meet by doing all the washing, ironing, cooking, making and mending for a large family. There are others who not only support themselves working in factories, shops, stores and offices, but often have an invalid father or mother to support, therefore do housework beside. These are the women who break down early and are afflicted with various forms of female weakness. Ninety-eight out of every 100 women who have tried Lydia E. Pinkham's Vegetable Compound have proved that it is a successful remedy for woman's ills. For nearly fifty years it has been restoring women to health, and it will pay every ailing woman to try it.

### THEY WILL HAVE BANANAS

Dawson City, Y.T., Jan. 23.—The Yukon is experiencing the mildest winter weather in the memory of the oldest inhabitant. This month the thermometer has hovered around zero daily as contrasted with previous Januarys, when it ran the scale between 40 and 70 below. Extreme high temperatures have prevailed in the Yukon and parts of Alaska since early last summer. The theory advanced by Toronto meteorologists that warmer weather in the Arctic and sub-Arctic is due to higher temperatures in Pacific coast ocean currents, possibly due to submarine disturbances and volcanic actions is being widely endorsed here.

"Cascarets" 10c
Best Laxative
for Bowels

"They Work While You Sleep."

If you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

### 6TH LINE SIDNEY

Miss Marjorie Pearson is visiting friends in Prince Edward.

Mr. and Mrs. Cecil Frost visited recently in Stirling guests of Mr. Claude Tuckers.

The little son of Mr. and Mrs. Wilmot Rose is very sick.

Mr. and Mrs. Lee Houlden, of the 5th line spent Sunday with Mr. M. Carr's.

Mr. and Mrs. M. B. Scott visited Mr. H. Shorey's, 4th Con. on Sunday.

Mr. and Mrs. Geo. Bell entertained company on Sunday.

Mr. and Mrs. Carman Frost and Miss Evelyn Dafoe spent a few days of last week in Rawdon.

Mrs. Florence Foster, of Picton, has returned home after spending a few days in this neighborhood.

Stubborn Coughs

Stop Quick With Home Made Cough Mixture

Not until you make your own cough mixture—a half pint of it for a small sum—will you know how easy it is to stop any bad persistent cough as if by magic.

It's pleasant tasting, but that don't stop it from knocking out a cough quicker than anything else in the world. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

This loosens the phlegm, stops the irritation, allays the inflammation, cleans out clogged nostrils, makes breathing easier, and causes sore throat and hoarseness to disappear.

With speed almost beyond belief, this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing healing poultice and blessed relief comes at once.

And it is always worth while to bear in mind that any remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

## City And District

**NOTICE**

The Angle Rifle Club will be practising in the Armouries every evening this week at 7.30. The first match will be shot off on Monday next. A good attendance is essential. 22-2td

**DIED**

ROSE—Died at her late residence, 4th Concession of Sidney, Mary E., Rose, beloved wife of E. J. Rose, in her 59th year.

Funeral will take place from her late residence, 4th con. of Sidney, on Thursday, January 24th, 1924. Interment at Frankford Cemetery.

**APPLICATION**

**CITY TAX COLLECTOR**

Applications for the position of Tax Collector for the City of Belleville will be received at the office of the City Clerk up to five o'clock, p.m. Thursday, January 24th, 1924.

J-19 & 23 J. Wilfred Holmes,
City Clerk.

**A PRESENTATION**

A most enjoyable and social evening was spent at the home of Mr. and Mrs. Henry Weese, Malone, (formerly of Belleville), on Monday, January 14th, when a number of their friends and neighbors met in honour of the marriage of their only daughter, Stella, to Mr. Harold Long, only son of Mr. and Mrs. W. K. Long. It was a great surprise to the young folks, but they did justice to the occasion. The address was read by Miss Annie Gawley and the presentation made by Mr. Morray Nickle. Mr. Long made a very suitable reply in a few well chosen words. Lunch being served, the remainder of the evening was spent in dancing.

The Address

To Mr. and Mrs. Harold Long:

Dear Friends: We, your many friends and neighbors have assembled here this evening in anticipation of enjoying a social and pleasant evening, on the event of your starting out on the long journey of your conjugial life together. We can assure you that our associations in the past have been the most congenial, and those of us who have known you longest, love and respect you most. We can also assure you, that if you decide to cast your lot amongst us in the future that we will have a friend and neighbor who will command our utmost confidence and respect, but, if you decide otherwise, we feel, that what is our loss will be others' gain.

We would ask you to accept the accompanying gift as a slight token of the high esteem and respect in which you are held, and when you are going down the Long, Long Trail, may it be a reminder of the many happy days spent long ago. Our most earnest wish to you, is that your life may be a long and prosperous one.

Signed on behalf of your friends and neighbors,

Morrey Nickle.
Perc. Derry.
Geo. McCrimmon.

The gift consisted of a beautiful set of silver knives and forks, teaspoons, in a very dainty pattern, with sugar shell and butter knife to match.

## WEDDINGS

**SILLS—COLEMAN**

On Monday, the 21st inst., the Rev. Mr. Knox united in marriage Mr. Truman Ashton Sills of Oshawa and Miss Annie Vera Jane Coleman, daughter of Mr. and Mrs. Irvine Coleman of Ameliasburg Township. The wedding took place at the home of the bride's parents, and the couple were unattended. The bride is known to many in this city, having been for some time ledger keeper in the Montreal Bank here. The groom is connected with the McLaughlin works at Oshawa.

## OBITUARY

**JOHN WINDOVER**

An aged resident of the village of Frankford, Sidney Township passed away yesterday in the person of Mr. John Windover who was 86 years, 11 months and 11 days old. His demise occurred at the home of his daughter, Mrs. Lorne Badgley. Deceased was born in Richmond Township near Napanee. Mr. Windover removed to Frankford when a young man and started a grocery and undertaking business which he carried on until his failing health a few years ago caused him to retire. When in health he was a very active member of the Methodist church board and a class leader. He leaves to mourn his loss five sons, one step-son, one daughter, and two step-daughters, namely I. Windover, Belleville, S. of the U.S.A.; W. H. and W. E., of Frankford; Mrs. Lorne Badgley, Frankford; F. A. Windover( of Frankford; C. Garrison, of Frankford; Mrs. K. Armstrong, Frankford; and Mrs. M. Smith, of Rochester, N. Y.; also two brothers and one sister, W. H., of Sarnia; James, of Napanee; and Mrs. Fox, of Alberta.

# Road Cost For County In '24 Totals $244,470

Members of Hastings County Council were this morning informed by the Provincial Department of Highways that the sum of $244,470 would be expended upon Provincial Highways this year in this county. Of this amount the county would be called upon to pay one-fifth or 20 per cent. of the total cost. This will, however, not have to be paid until 1925. Last year the County's proportion of costs for Provincial highways was $19,000.

## Trans-Canada Highway

### Deputation From Northern Ontario Waits on Premier Ferguson

Toronto, Jan. 23.—Urging that the development of the north would be better brought about by co-operation between the Provincial and Federal Governments in the building of a trans-Canada highway and requesting that the Federal Government take steps to lay out a route of such a road through the clay belt of Northern Ontario, a deputation of 45 representatives of the various towns and municipalities of the north country waited on Premier Ferguson, Hon. Chas. McCrea and Hon. James Lyon at the Parliament Buildings this afternoon.

The deputation also requested the Government to encourage the suggestion that a bounty be placed on iron ore to thereby encourage the production of that mineral. More colonization roads through that section of the country were also requested. The Premier promised serious consideration.

## VICTIM ABSOLVES WIFE FOR DEATH

Toronto, Jan. 23.—Frank Ferguson ,aged 34, of 1 Dentonia Park avenue, who was admitted to the General Hospital on January 2 suffering from a severe wound in the abdomen which he received while playfully scuffling with his wife in their home, succumbed to his injuries about 1 o'clock Tuesday morning. The body was removed to the Morgue, and an inquest will be held by Chief Coroner G. W. Graham.

In a statement to the police shortly after his admittance to the hospital, Ferguson absolved his wife from all blame in connection with the affair. He stated that he was in the habit of "flicking" the back of his wife's neck with a towel, and when, on the morning of the tragedy he grasped her by the shoulders from behind while she was making his lunch, she turned quickly and put out her hand to ward him off, forgetting momentarily that she had a butcher knife in it.

Cream Clears a Stuffed-up Head

INSTANTLY OPENS EVERY AIR PASSAGE—CLEARS THROAT

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or sniffling. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine.

# Belleville 'Y' Shows Progress For Past Year

At a meeting of the Board of Directors of the Y. M. C. A. held last night following a dinner in the Assembly Hall the folowing reports were submitted.

Membership—One of the tests of the verility of an organization is a growing membership. On December 31st our figures show 180 boys, 132 girls and ladies and 312 sustaining, business men and seniors a total of 624. Indications now are good for reaching the estimated membership receipt of $2,000 and with a real effort the goal of 750 members on May 1st could be attained.

Physical—"Safety First" is shown in that 15 members have learned to swim and largely by volunteer leaders Geo. Faulkner, A. Horwood and Gwen Lazier deserve great credit.

The discovery, recruiting and training for leadership is one of the paramount objectives of the Association and who can measure the future services of the 15 seniors and twelve juniors lined up in our two physical department leader corps, a training that not only includes special all around knowledge of physical gymnasium technique but physical education and bible study. Testimony has already come in the special help given as some of these men are serving groups in their churches. This to me is one of the bright spots in our work. Our class enrollment is 27 and with an attendance of 846 in November and 789 in December. Outside of class periods, the gymnasium has been in nearly constant use by various church, school and college groups: out of 160 available free hours during the past three months the gymnasium was used 111 hours by 34 different groups.

We have been favored by visits from Oshawa business men who lost to our men in volley-ball. We lost a game of basketball to Queens University team, won from Toronto Central Juniors and an intermediate class team won a game at Trenton.

The visit of J. H. Crocker our National Physical Director was worth while, he addressing Rotary on the Olympic games, Kiwanis, "Why men Should Exercise", to our Leader Corps on Physical Education as well as assisting in the initiation of the latter. He also was present at a staff conference.

Our Physical Director was elected Secretary of the Ontario Physical Directors Conference recently held. We shall watch with interest our basketball team which has entered the O. A. B. A. for which Mr. P. F. Brockel is the representative of this district.

Social—Twelve of our directors accepted the hospitality of the Kingston directors and spent a profitable evening.

The ladies have stormed our bowling alleys; an eight team league was organized which was won by the Excelsiors. Our friend Mr. W. B. Riggs furnished the bowling shield for the competition. The High School Team won the men's league. Both leagues are now on their winter schedule.

Religious—Seven sessions Leaders Corps Class with 98 in attendance. Eleven Staff Devotional Exercises, with 46 in attendance.

Boys—The father and Son Banquet was an unqualified success, not only from the point of attendance (157) but the programme and the spirit of fellowship was fine. Twenty-two fatherless boys were the guests of some of our senior members who were the daddies for the evening. This should be an annual feature.

A Sunday School Basketball League has been organized with twelve teams envolving 80 boys with junior and intermediate sections.

Special programme was carried out during the holidays.

Foreign Work—A new day is drawing for our local work because of the forward stride taken in the foreign work. This year a beginning has been made in an every member canvas and we were able to send our full quota of $250.00 which is the gift from ninety-one members and friends. $50.00 of this comes from the Boys' Department. This is the first time in the history of our Association and represents over $100 better than any previous year.

Constitutional Convention—You are called tonight to vote on No. 2 of the new proposed constitution of the National Council of the United States. We do not vote on No. 1 as it affects only our sister to the south. We should vote yes on No. 2 which is not more than keeping our present harmonious relationship with the U. S. A. and protecting our interests in funds and activities which we hold in common.

Finances—Our situation on January first is as follows: Total expenditures for eight months to Jan. 1st were $10,777.16. The estimated expenditures to May 1st were $5,221.22. Our total expenditures for the year were $15,998.38.

Total cash received up to January first, $9,526.74. Cash required by May first $6,472.64.

Estimated receipts from January first to April thirtieth were: Unpaid pledges, $1900.00. Bowling Dormitory Membership receipts $2640.00. Total $4,540.00. Total not covered by subscriptions $1,932.64.

There are one hundred and four working days between Jan. 1st and May 1st and we need to get in cash $63.00 per day.

Ladies Auxiliary—Six suppers and banquets have been served by the Auxiliary and three hundred dollars has been paid in, on current expenses as a net result of their tag-day.

Staff Conferences—Every Monday morning the Staff spend in reviewing the work and listening to a strong devotional message. These have been given by Revs. Kenny, McTavish, Jones, Ramsay, Dr. Baker and H. J. Crocker. An hour is given over to one of the staff giving a book review a biographical sketch of the outstanding Association leader, review of a technical book, a paper on some phase of Association work. Your Genedal Secretary and Physical Director have also attended the Provincial conference of their respective fields of work at Toronto and Burlington.

Crisis—Crises are always revealing and illuminating. They take no account of what we think we are or what others think we are. They simply ask us to show the stuff of which we are made and to be quick about it. Gentlemen, we cannot afford to close this year with a deficit and we need not if every director will set himself immediately to it. If this could be cleaned up by February 15th, your secretary could be released to give his time more freely to programme.

Respectfully submitted
RICHARD SIDENIUS
General Secretary.

It was decided that in the future the rental for lockers will be $1.00 for everyone.

JOE GORMAN, of St. John, N. B., Canada's white hope in the speed skating events at the Olympic games.

# REPORT OF ONTARIO FARM CONDITIONS

The following is a summary of returns made by the Agricultural Representatives to the Ontario Department of Agriculture:—

In a few countries there is at present but little demand for farm labor, but a majority of the representatives report some applications coming in from farmers for help. A number of fthe requests are for new comers from the old country. The wages offered for men with partial experience is from $200 to $300 a year, with board, etc. First-class farm laborers would command considerably more. The Peel Representative says he is placing experienced men weekly at $15, to $20 a month for winter; $350 to $375 for year.

Elgin—Cattle are not in the good condition they generally are at this time of year. Owing to the mild fall weather they were left out longer than usual, and had not gained in flesh as yet, few going to market. There was a fairly heavy run of hogs last week with a large percentage of light ones as the price was falling.

Lambton: Some farmers have taken in cattle to feed at rates of about $3 per month for two year olds, having the use of straw stack and feeding clover hay.

Bruce: Hogs which have been kept over the holiday season for an advanced price are still being held owing to the weak undertone of the market during the latter part of the week. Consequently when they are shipped a number will be graded in the heavy class which otherwise would probably have graded selects had the market remained steady. The farmer not realizing that he is making a mistake in holding pigs after they are ready for the market under the present grading system.

Oxford: There has been a good demand for good daily cattle since October. Good straight, strong cattle, either new milkers or in calf to purebred bull have been in ready demand. A majority of cattle going to outside points are being bought subject to T. B. test. The milk supply has passed the point of minimum production and now is well on the increase.

Dufferin: Lambs are practically all sold. Cattle not being shipped so freely.

Wentworth: There is an over supply of milk. The dairies are shutting off some of fthe farmers because of low test.

Lambton: Report from local creamery are that 20,000 more pounds butter manufactured in December 1923 than corresponding period of 1922; and 10000 lbs. more cream supplied in same period.

Peterboro: Milk supply is increasing slightly as more cows are freshening all the time. Shippers of whole milk are receiving $2 per cwt. while those who are selling cream are receiving 45c a lb. butter fat at the present time.

Manitoulin: The number of live stock was greatly reduced last fall due to scarcity of feed. A great many herds went into winter quarters in thin condition. The long open fall which we experienced meant a great deal to farmers in saving feed. Nevertheless, many men are going to be scarce of feed and cattle are likely to suffer before spring.

Oxford: Egg production now considerably on the increase. It would appear as though our demonstration in winter feeding is giving results.

Dufferin: A few auction sales have been held, but bidding has been slow with prices rather dull.

# HOW JEWS HAVE TURNED ZION'S DESERT INTO OASIS

By MILTON BRONNER

Nea Service Staff Correspondent.

London. Jan. 23.—Orange groves and vineyards and wheat fields where they have not been seen for centuries.

Up-to-date American roadmaking, farm-reaping and fruit-canning methods in a land where the primitive plow has been the rule.

Bare hills planted with forests, shifting sands held tight by the planting of th eoucalyptus, marshes drained, and metalled roads built.

A whole comprehensive school system, running from kindergartens clear up to a national university.

Tel-Aviv, a town of 15,000 inhabitants created as Gary, Ind., was, where onc ewere sand dunes.

These are the outstanding achievements of the Zionist movement which aims to make Palestine a national home for the Jews. It has been done by Jewish money and Jewish muscle under the aegis and protection of the British government which holds the mandate for the Holy Land. What has been accomplished is but a scratch on the surface, but it has fired the enthusiasts to do more

Impelled by this vision, undeterred by the prospect of hard, unremitting pioneer toil, unfrightened by heat, by drifting sands and by hostile Arabs, 25,000 Jews from all parts of the world have poured into Palestine since February, 1919.

There would have been five times that number had the Zionist organization and the British government been willing. But both have been insistent that there must be a job for every immigrant. Hence a checking system threefold as rigid as that applied by cur Uncle Sam at Ellis Island.

Most of the immigrants are young men ranging from 20 to 30 who leave with their young families. They are mainly men who have served in the armies of their country and who have already either worked as farmers or mechanics or at useful crafts. And all are idealists.

In one period of 18 months, 14,958 Jews were admitted to Palestine. They came from 43 different countries and spoke almost as many languages. The chief countries of origin were: Poland, 4459; Russia, 2988; Ukraine, 2452; Lithuania, 646; Rumania, 646; Turkey, 582 and Morocco 329. Only 278 came from America.

When these Jews land in Palestine the yare immediately taken care of at labor camps where the men are put to work as manual laborers. In this way 50 miles of roads, 10 miles of railway, a bridge over the Jordan and other things have been accomplished. Others are employed in house building. They are then gradually settled on the land.

The Zionists have 55 colonies comprising about 175,000 acres of arable land in such classical places as the vale of Sharon, Smaria, Gallice and the great plain where Armageddon was fought. The total population of Palestine is 757,890 of whom 83,794 are Jews and 73,02[illegible] Christians.

It is estimated the country could easily support 3,000,000 when properly cultivated. The arable area of Palestine is estimated at 12,000 square miles of which only 4,000 are in use. So it can be seen how little the Zionists own up to the present.

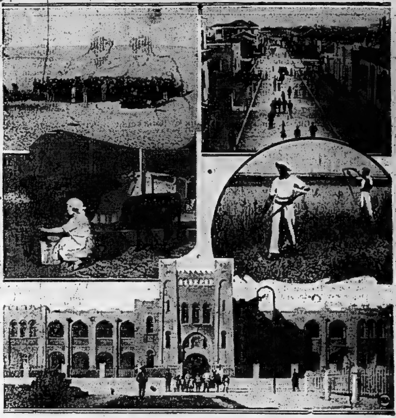
All their land has been purchased from the Arabs. It is not sold to the Jewish settlers. They get it on a system of permanent lease, the land, as a whole, being held as Jewish national land.

In some communities the workmen farmers have co-operative communities. It is the vision of the Zionists that their holdings shall once more be given over to the cultivation of oranges, olives, citron, grapes, wheat and barley. Professor Elwood Mead of University of California has surveyed their activities and is preparing an optimistic report.

The work of setting up farms, building homes and roads and establishing schools is something like the early pioneer story of Utah. Like our early settlers everywhere, these Palestinian Jews are strong on schools. They have today 131 of all kinds, with 574 teachers and 12,456 pupils.

Just as our job with our melting pot is to teach the children to speak English, so in this new melting pot of Jewry the kids are being taught Hebrew instead of the tongues of Europe Africa and Asia. In the towns Jews settle as artisans. Land has been bought and new working class suburbs planned for Jerusalem, Jaffa and Tiberians.

It's a common mistake to think that under the British mandate Jews rule the land. The administration is a British administration under a high commissioner. The present one, who is the first, is Sir Herbert Samuel, a Jew, but most of the other high offices are held by non-Jews. The British plan was for some sort of executive assembly composed mainly of Moslems, but containin galso Jews and Christians. Owing to Arab opposition, this has so far fallen through.



No. 7 of a Series.

# CHURCH UNION IN CANADA

## Unionist "Facts" Explained in Full from Basis of Union

**The Unionists tell us that:**—"Throughout the English-speaking world, there is evidence of a drawing together of the Christian Churches and of a growing confidence in the desirability of Church Union."

**THE ANSWER:—It is true there is a growing spirit of Christian Unity throughout the English-speaking world, UNITY:—But the Organic Union movement is dead or dying in the United States, and has recently been abandoned in Australia, and there is nothing like it in any other country.**

**The Unionists tell us that:**—"Canada is giving leadership, because our needs forced definite action."

**THE ANSWER:—Canada is being driven through poor leadership, where others are too wise to go.**

**The Unionists tell us that:**—"Parliamentary approval . . is designed to protect the rights of both Unionists and minorities.

**THE ANSWER:—More accurately it should be stated that Parliamentary approval is necessary to legalise the taking of the property and identity of the Presbyterian Church by a minority of that Church into the so-called Union Church of Canada.**

## The Unionists' So-called Facts are:

1. "Before a minister can be ordained, he must 'satisfy the examining body' that he is in essential agreement with 'The Statement of Doctrine' of the United Church."

   **THE REAL FACTS ARE:—That the Minister need not be so thoroughly in earnest about his "essential agreement" as to back it up with his signature, neither is he asked even to promise adherence by word of mouth. He makes no pledge whatsoever to teach even the Doctrines of the proposed Basis. He is only required to satisfy a so-called "Examining body" composed of men who themselves have taken no pledge to teach the proposed Basis, and whose examination therefore, may be expected to be a very cursory affair**

2. "The oversight of the Spiritual interests of each charge shall be entrusted to the Minister or Ministers and a body of men specially chosen or 'Set apart' or ordained for that work, who shall jointly constitute the Session."

   **THE REAL FACTS ARE:—They do not tell you that the men so set apart will be Elders in name only. The Session will no longer be a Court of the Church nor will the Elders anylonger have the RIGHT, BUT ONLY THE POSSIBILITY of sitting in Presbytery, for the Presbytery Member may be "any one on the roll of the Congregation." The ORDAINED ELDER as known to Presbyterians to-day, is shorn of its meaning.**

3. "Any pastoral charge, in view of a vacancy, MAY extend a Call to any properly qualified 'Minister or Ministers' subject to the approval of the SETTLEMENT COMMITTEE, as now to Presbytery, etc."

   **THE REAL FACTS ARE:—In the Presbyterian Church there is no MAY EXTEND A CALL. The Call is an INDEFEASIBLE RIGHT, fought for and won, and now to be changed from a RIGHT to a concession.**

   **THE SETTLEMENT COMMITTEE is supreme and its actions cannot be overturned by any court. It consults the people's desire ONLY so far as it shall see fit, and reports "for information only". Its authority is far above that of the Presbytery at present. The Presbytery is responsible to higher courts, the Settlement Committee is not. The Presbytery's sole consideration is the character and standing of the person called; but the Settlement Committee has power to refuse to allow a man to go to a Congregation that wants him, on the ground that they desire to put him elsewhere.**

## The Call as a Right of the People Disappears

4. "It shall be the duty of the Presbytery to induct or install Ministers . . to inquire each year, into the personal character, doctrinal beliefs and general fitness of candidates for the ministry . . to license them to preach and to recommend for the ordination of the conference."

   **THE REAL FACTS ARE:—as we say, that the Presbytery can do many things, but it CANNOT ORDAIN, and yet the right of the Presbytery to ordain is one of the foundations of Presbyterianism.**

**THE UNIONISTS STATE:**

**What we are asked to give up is nothing compared to the potential value of the proposed Union, and yet the Unionists will spend thousands of the Churches' money to make you believe you are giving up nothing at all.**

## Presbyterians Rally to Your Church, and Prevent its Destruction and Spoliation

**THE PRESBYTERIAN CHURCH ASSOCIATION**

73 SIMCOE STREET TORONTO, ONTARIO

# GRENFELL LABRADOR MISSON

Ever since the visit of Dr. Wilfred T. Grenfell, of Labrador, to Belleville, when its citizens presented him with a water turbine manufactured here, for use at St. Anthony Station, considerable interest has been exhibited in the hospital work carried on down there, quite a few individuals having forwarded their contribution annually to Canadian Headquarters, Ottawa, in the interim. It was now thought to be an opportune time to establish a branch here, in charge of a local committee.

Being non-denominational in character, the work is kept on a broad basis, so that any one wishing to alleviate human suffering or improve economic conditions in that remote part of the British Empire may have a share.

The Executive chosen at the organization meeting consists of: President, Mrs. O. A. Marshall; Vice-President, Miss Madeline Fraleck; Secretary-Treasurer, Miss Stewart Masson; Mrs. John Elliott representing the Anglicans; Mrs. Ronald Lewis representing the Baptists and Miss Hawley representing the Methodists. The Labrador Committee not only includes these but broadens to admit representatives from each Church or Association willing to co-operate, with an Advisory Men's Board consisting of Mr. John Elliott, Rev. D. C. Ramsay, Mr. G. B. Smith, Mr. H. W. Ackerman and Mr. J. O. Herity.

Memberships in the local Branch at $2.00 a year, which includes the quarterly publication, "Among the Deep Sea Fishers", are solicited, or donations of larger sums, where individual interest prompts to greater generosity.

The local Grenfell Committee will specialize on the support of a cot in Indian Harbour Hospital, Northern Labrador, at $60 a year, and the support of a child in the School Orphanage at Cartwright, at $100 a year. This Orphanage was erected after the "Flu" epidemic swept that coast, and provides a home and education for 43 children, who would otherwise have no chance, because deprived of both home and parents at the same time.

By means of education and training a higher standard of home and family life will result in future. Up to the present time Labrador has received scant attention or consideration, other than through humanitarian effort led by men of vision, skill and devotion, of which Dr. Grenfell is an outstanding example. Under his direction during the past thirty years, the deep sea fishers of the Atlantic Seaboard and their families have had provided for them many of the safe-guards and advantages for human life such as we enjoy in more favoured part of the British Empire.

The Secretary-Treasurer of the Belleville Branch of the Grenfell Association will gladly acknowledge any contributions sent for this worthy cause.

## Be Careful What You Wash Your Hair With

When you wash your hair, be careful what you use. Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces.

Simply moisten your hair with water and rub it in. Two or three teaspoonfuls of Mulsified will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly and it leaves it fine and silky, bright, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

### MUST HAVE TWO TALKS

Ottawa, Jan. 23.—Knowledge of both English and French languages will be one of the necessary qualifications for any Canadian representatives at European international conferences in the future, Hon. George P. Graham, Minister of Railways and Canals, told the Ottawa Women's Liberal Club today. Mr. Graham illustrated his point by saying that Chinese and Japanese as well as European delegates always replied to a French speech in French, or to an English speech in English, and thereby made more effective progress to the accomplishment of their object.

## Princess

Princess Zeineb, wife of the new minister from Egypt. His Excellency Yousry Pasha, is the newest member of Washington's fashionable set.

### IN CONFIDENCE

A man came in and asked if he could see the boss. They told him he would have to wait, that the boss was in conference.

"Very important," added the attendant.

"I know that," said the stranger. "I heard the cork pop."

## If Rheumatic Begin On Salts

SAYS WE MUST KEEP FEET DRY, AVOID EXPOSURES, EAT NO SWEETS

Stay off the damp ground, avoid exposure, keep feet dry, eat no sweets of any kind for a while, drink lots of water and above all take a spoonful of Jad Salts occasionally to help keep down uric and toxic acids.

Rheumatism is caused by poison toxins, called acids, which are generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this poison, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove body waste also to stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to

CHEVROLET

Springtime Club

The safest, easiest and most economical way to become the owner of a new Superior Chevrolet in the Spring, is to join the Chevrolet Springtime Club. Pay between now and May 1st and get 6% interest on your money, *plus* your new car delivered in time for the motoring season.

*Ask Us For Full Details:*

We will be glad to give you all particulars of the Springtime Club plan. Call around and let us talk it over, and at the same time, inspect the new Superior Chevrolet Models.

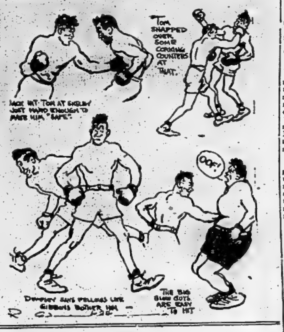
## SPORTS THROUGH EDGREN'S EYES



"TOM SNAPPED OVER SOME CORKING COUNTERS AT THAT."
JACK HIT TOM AT SHELBY JUST HARD ENOUGH TO MAKE HIM "SAFE".
OOF!
DEMPSEY SAYS FELLOWS LIKE GIBBONS BOTHER HIM —
THE BIG SLOW GUYS ARE EASY TO HIT

Dempsey and Gibbons again. An interesting boxing match. That's what it amounted to. Dempsey outstepped and outboxed Gibbons for fifteen rounds. There was no furious attack such as has characterised all of Dempsey's other fights, no effort to tear in and finish things with a punch in the first round. For two or three rounds Dempsey slipped in an occasional hard punch apparently just enough to hold Gibbons safe and keep him toned down a little. As the fight went on it was evident that Dempsey had lost some of his punching power, or that he was boxing and not putting everything into the punch. He showed later in the Firpo fight that he had as hard a punch as he ever carried. So he didn't lack the punch at Shelby either.

It is my personal opinion that Dempsey "carried" Gibbons in the Shelby fight not trying to knock him out but outfighting and outboxing him far enough all the way to make sure there could be no doubt about winning the decision on points. That was perfectly legitimate. Jim Jeffries and some of our other top notch fighting men have preferred winning decisions to a victory via the knockout route. Theoretically, that is the proper way to win, and a knockout is an accident.

There might have been reasons why Gibbons had signed on for a straight percentage and Dempsey for a guarantee of $300,000. The promoters fell down on their contract and Dempsey received the first two $100,000 installments and didn't get the third, and the mixup killed the ticket sale and reduced the gate so that Gibbons was fighting practically for nothing. Gibbons is a very decent fellow. It would have been tough to knock him out when he was fighting for nothing but what he could make after the fight. A knockout would kill even that.

Another good reason was that there were many threats of violence to Dempsey from people who had speculated in various enterprises depending on the expected crowd that never arrived at Shelby. Dempsey was blamed for everything because Kearns insisted on trying to make the promoters keep their contract; as it was he did make them live up to two thirds of it. Some bug might have taken a shot at Dempsey or the referee in case Gibbons was knocked out. It was a tough town—Shelby—nearly off the map anyway and being shoved further off by the financial fizzle.

A third reason was that Dempsey hadn't fought for a long time, had a fight with a more dangerous, bigger man in prospect, and needed a good long contest with a clever, tricky hard hitting fellow like Gibbons to find out his condition. He couldn't do that in the training quarters.

I have asked Dempsey if he tried to win from Gibbons by out-boxing him and not trying to knock him out and he hasn't admitted anything more than that. "Gibbons is a hard fellow to beat—much harder than the big slow fellows who can't get away from a punch."

And there may be something in that too. It's the reason for a return match, and if there is to be any. So far as the Shelby fight is concerned Gibbons landed many cleverly calculated and jarring counters on Dempsey's chin without shaking him much. It's unlikely he ever can do more to Dempsey than he did at Shelby. Dempsey had Tom in distress early in the fight and didn't push his attack at that time. He had Tom weary and stalling hard at the finish, lucky to be able to last out the fifteenth round. And Dempsey was still fresh and up on his toes. Gibbons showed fine courage and great boxing skill but nothing to indicate that he can ever beat Dempsey.

Another Dempsey-Gibbons match will be a great boxing exhibition, but there is very little chance that the title will change hands.

It will draw at that, or Tex Rickard wouldn't be making contracts. His judgment is pretty good.

The one great handicap to Tom Gibbons is his age. He was born in 1889—is over thirty-four years old now. He has lived cleanly, trained constantly, boxed often, and he is remarkably well preserved. But each year doesn't add to his fighting ability now. It takes something away. Thirty-four is pretty well along in ring years.

There has been only one exception to the rule that "Youth will be served" in ring affairs.

Bob Fitzsimmons won the world's heavyweight championship at thirty-four. But he didn't have a Jack Dempsey to beat. Jim Corbett at Carson was another old gentleman in ring age. He was in his thirty-first year.

Jack is a comparative youth. He was born June 24, 1896, so he isn't yet twenty-eight. There's a big difference between twety-seven and thirty-four, in the ring. Seven years counts in the amount of vitality a man can afford to spend as a fight goes along.

• • •

In attacking Charlie Paddock, the A. A. U. officials have stepped into a scrap with the American Legion. The Executive Committee, Pasadena Post No. 13, has unanimously adopted a resolution as follows:

Whereas there has recently appeared in the public press a statement purporting to have emanated from the A. A. U., referring to Chas. W. Paddock, world's champion sprinter, to wit:

"Good legs cannot take the place of a good head and a good heart. We cannot send to Paris any athlete who is not a real American gentleman," and whereas:

"Charles W. Paddock is a higly respected and loyal member of Pasadena Post No. 13, American Legion, having served as vice commander during the year just past, and whereas:

"The comrades of Mr. Paddock in this post know him to be a man of the highest integrity and honor and the embodiment of all that goes to make up a real American gentleman, therefore:

"Be it resolved, that Pasadena Post No. 13, American Legion, extends to Comrade Paddock a manifestation of its utmost confidence and expresses its resentment of the untruthfulness an unsportsmanlike reflection made upon his character by the Olympic Committee of the A. A. U."

### GEORGE SISLER'S EYES MAY NEVER BE RIGHT

According to Scout Bob Connery of the Yanks, there is ample reason for doubting recent reports that Manager George Sisler of the Browns expects to play first base for the Mound City next season.

"He hopes to play," says Connery, who winters in St. Louis and knows whereof he speaks, "but his right eye still is badly crossed, and, of course he cannot play while this condition continues.

"And no one knows, not even Sisler's physician, how long it may continue. It may be years before it is entirely corrected, and there is at least a possibility that he never will regain the use of this eye.

"I know a waiter in St. Louis who had the same trouble seven years ago—and his eyes are as badly crossed today as they ever were."

### BUILDERS IN SESSION

Windsor, Ont., Jan. 22.—Builders, contractors, building supply manufacturers, and representatives from various parts of the Dominion assembled at the Prince Edward Hotel for the sixth annual convention of the Association of Canadian Building and Construction Industries.

Representatives from virtually every building firm in western Ontario of importance were present when the registration of delegates to the convention was begun.

An elaborate display of building materials is on exhibition in the ballroom of the hotel.

The public has been invited to view these exhibits.

The president, Joseph M. Piggott, Secretary Reilly and Treasurer McFarren submitted their annual reports.

### BEST TRACK ON PACIFIC

Victoria, B.C., Jan. 23.—With a view to establishing at Colwood, near Victoria, the best-equipped race track on the Pacific coast, Hon. S. T. G. Coventry, son of the Earl of Coventry, announced last night that contracts will be awarded for $125,000 worth of material as a preliminary to construction this spring.

The Victoria Park Racing Association has been incorporated to operate the track.

### GOLF COURSE ON ROOF

Los Angeles, Jan. 23 (United Press)—Many things have been said about the ancient game of golf, not all of which were in the nature of praise. But golf at the Hotel Biltmore has been elevated to a plane that should make it above reproach. A course has been laid out on the roof of the great hostelry, where addicts to the game may satiate their golf appetites. The course consists of a "fairway" bounded on three sides by walls of heavy canvas. At the far end is a miniature green, cup and hazards.

## TO HEAR FRONTENAC PROTEST AT TORONTO ON THURSDAY

Making their decision at the last moment, Kingston Frontenacs, one of the five teams in this group of Intermediate O.H.A. hockey, notified O. H. A. headquarters at Toronto on Monday that they had protested the Belleville-Frontenac game played at Kingston on Friday January 18th.

Manager Ed. Thomas, of the locals, received word yesterday afternoon of the action, from O.H.A. headquarters and notification to attend the protest meeting at Telegram building, Toronto, on Thursday (to-morrow) afternoon.

"I cannot see where they can get anywhere with the protest," opined Manager Thomas last night, "If they tell the whole truth, and the Association stand behind their officials."

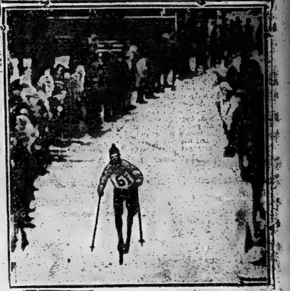
"Aces Caused Trouble

The protest arises out of the Kingston game which was called some ten minutes before full time by referee Cummins, of Toronto, when the fans crowded on the ice, and a miniature riot threatened. With difficulty Cummins reached the dressing room, and had it not been for goaler Stan Nurse and his trusty "defence" stick with which he mowed a path for Cummins, the officials would likely have been mobbed. When Nurse called for help from a nearby policeman, the cop is alleged to have moved off in the opposite direction.

After this disgusting procedure, Cummins gave the players an opportunity to finish the game but one team refused and that team has now entered the protest.

Frontenacs have shown that they are a crowd of "cheap skate" sports, and should lose the protest. Two or three of their toreador "bull fighting" players should also be ousted from organized "shinney" for the remained of the winter season.

The REAL motive for the protest, cropped up when Frontenacs surprised themselves as well as hockey fandom, when they tied Cornwall Frenchmen Monday night, and they suddenly saw on the horizon of their career, a mirage of possible victory and ultimate supremacy in this group, which the local sharpshooters have almost cinched.



EDMUND GORDON, of Ottawa, won the winter sports competition for the President Harding Trophy at Lake Placid. He is shown in the finish of the seven-mile ski event.

## FANNING WITH FARRELL

## LIMITING AMATEURS TO MILLIONAIRES

By HENRY L. FARRELL

(United Press Sports Editor)

New York, Jan 23 (United Press).—Resuming the offensive in the old crusade against professionalism, some of the American amateur sport governing bodies are attaching almost a penalty to a star athlete's name.

To live up to the strict interpretation of the amateur rule, as it is being revised and restricted from time to time, a champion tennis player, or a champion quarter-miler must almost apologize for himself.

The United States Lawn Tennis Association has ruled that, after January 1, 1925, no amateur tennis players can accept any substantial compensation for literary contributions to the press.

Rules passed previously made it an offense, with a penalty of disbarment for any tennis player to engage in the sports goods business.

It is the theory of the tennis governing body that a tennis player should never in any way seek ways of capitalizing on the name that he acquired on the court.

Perhaps it would be wrong for the tennis champion to call up the box office and say:

"This is Bill Tilden talking. I would like to have two seats in the first row."

The B. O. wouldn't have the seats and he would reply:

"Being as it is you, Mr. Tilden, that wants 'em, I'll certainly send out and pull in a few from the specs."

This is an extreme case, but in restricting the actions of players, the association also approaches extremes.

Writing newspaper articles and selling sporting goods are not the only occupations in which a player might be accused of getting cash on his name.

It would seem that the name of a player over a piece of literature or on the window of a shop is no more a gesture to invite business than the name of a player on a card that gets him by office boys who would not permit an ordinary insurance agent or bond salesman into the sacred precincts of the big and busy boss.

• • •

If the amateur sports governing bodies insist that an amateur athlete positively must not make use of his name in business, these bodies will have to import the English ideas and establish British classes, in which no athlete, but an "idle gentleman," can be accepted as a pure amateur.

Considering the subject from the strict standpoint that the Americans would like to bring about in their definition of an amateur, only a millionaire gentleman, who did nothing else, could qualify.

Several years ago American oarsmen were barred from rowing for the Diamond Sculls trophy in England, because they were tradesmen. Jack Kelly, the Philadelphia sculler, could not row in the classic because he worked for a living.

This did not apply to British tennis or golf, but tennis and golf was not looked upon as strict amateur sport, like rowing and polo.

If America is to follow the radical principle of pure amateurism perhaps there is only one champion in the United States who could qualify as an amateur above reproach and he is Jay Gould, the court tennis champion and a multi-millionire.

As far as the actual writing of newspaper articles is concerned, the tennis association and the A.A.U., which will not permit the American Olympic athletes to turn journalists, is commendable and no violent protest will be raised by the reading public because most of the material from the typewriters of athletes is only ordinary.

But it is the principle back of the rule that seems to be stretched too much.

• • •

James O. Anderson, captain of the Australian Davis Cup team, threatened to retire from the game last year when the tennis association of Australia refused to make good $2,520 that he said he spent out of his own funds to keep the team going in this country. Anderson claimed that the appropriation given him to pay the expenses of the team was not sufficient and he had to dig down in his own pockets.

• • •

In South Africa the question "What is an amateur?" was also raised recently when the Cricket Association announced it would consider a suggestion that players on touring teams should be allowed 20 per cent of the profits to cover their out-of-pocket expenses.

The South African Association argued that some Australian cricket players pocketed 800 pounds each after a tour and that they were still considered as amateurs by their association.

South African officials announced recently that if a good team was to be sent to the Olympic games it would be necessary to "give help to many fine athletes, who unless assisted, will have to remain at home."

Sweden caused some hysterics among the International Olympic Committeemen last summer when it was announced that athletes would be allowed to list on their expense accounts a charge for the time they lost from their business while they were competing, based upon the actual scale of pay they would have received had they not been competing.

The Olympic committee probably would be helpless to do anything to prevent Sweden from paying athletes for going to the Olympic games, because the international committee is forced to accept the entries of athletes that are certified by the accepted sports governing body of their respective countries.

## SOCIAL and PERSONAL

Mr. Leonard Sly, 60 Albion St., who has been undergoing treatment at the Hotel Dieu, Kingston, left on Friday last for further treatment at Christie St. Hospital, Toronto.

Miss Stewart Masson is entertaining at her home Alexander Street, this afternoon.

Miss Ella McGinnis, George Street was hostess at a bridge party last evening.

Mrs. A. Y. Snider, Bridge Street East gave a smart bridge yesterday afternoon.

Mrs. E. D. O'Flynn, corner Bridge and Bleecker Avenue was hostess at a seven bridge party yesterday afternoon in honor of Miss Georgina Springer, whose marriage takes place Saturday to Mr. David Ross Dunham, of St. Augustine, Florida. Mrs. D. M. Waters poured tea; assisting her were the Misses Thelma Vermilyea, Doris Vermilyea, Alice Lazier and Helen Springer. A number who were not present for the bridge came in for tea.

Mrs. O'Flynn is giving another bridge party this afternoon.

Mr. Vernon G. Allison is spending a few days in Toronto visiting his parents there.

Thought for a Child's Welfare Always includes SCOTT'S EMULSION

Do You Need Help? This Advice is Well Worth Reading!

Kirkton, Ont.—"I have found Doctor Pierce's Anuric Tablets to be an excellent medicine. I have been troubled with inflammation in the neck of my bladder for about eight years. I doctored but failed to get cured, so I decided to try Doctor Pierce's Anuric (anti-uric-acid) Tablets and they have relieved me greatly.

"I also can recommend Dr. Pierce's Favorite Prescription for expectant mothers. I have a fine, big baby boy. My nurse asked me what I ate to make him so strong. He looked like a child four or five months old when only three. I certainly would advise every prospective mother to use Dr. Pierce's Favorite Prescription."—Mrs. John Simpson, R.R. 1.

Send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg. of any of Doctor Pierce's remedies and write Doctor Pierce, President Invalids Hotel, Buffalo, N. Y., for free, confidential medical advice.

## Short Skirts Again Girls And 'Nude' Stockings Also

By HEDDA HOYT
(Fashion Editor of the United Press)

Paris, France, Jan. 24. (United Press).—Kill (or see) the fatted calf! The prodigal short skirt has returned! And girls, it's time to diet, for by the time Spring is here there will be nothing between our lower limbs and the wide world but a "nude" stocking!

It gives one a chuckle to think that the little Broadway girls back home have at last put it over on the ladies of Fifth Avenue. For a long time there was a tussle between the ladies of the chorus and the ladies of the Avenue over this skirt question and it looked as though the ladies whose names shine on social calendars rather than those whose names glitter on Broadway, held the victory.

For Broadway weakened! Sullenly it covered up its shapely ankles and followed the vogue set by ladies of fashion. Not having the time or the inclination to adopt the grace assumed by their wealthier sisters, they went "stumbling along" with the tune "it's a long, long way to Tip-arary" in their hearts. And now they can trip lithely as they please, for Paris is again going

Women Rebelled

Not only the girls of the Great White Way, but American women in general rebelled at the return of the long skirt last season. They simply refused to be sidewalk sweepers. Whether an added foot of skirt or a foot of shin was best, left no question in their minds. But in spite of one's comfort, fashions must be followed.

The new tube-shaped silhouette is largely responsible for our return to the shorter hem. Also, if you take away a woman's freedom, she eventually rebels. Comfort is the mainstay of the American woman and the sensible short skirt is comfortable, practical and necessary to the business girl as well as to the gad-about of to-day.

There are limits, however, to all good things and it is to be hoped that Spring will not devulge too many fatted calves, bandy legs or knock-kneed effects under the guise of the short hem.

Remember that short skirts are youthful, but only those who are really youthful can afford to appear ridiculous—and even youth should not attempt the knee-length atrocities that were responsible for the death of the short skirt a year ago.

There is a slogan in the fashion world which should be followed—"If you want to kill a thing just over-do it!" So here's to the short skirt, long may she wave, but keep her at half-mast!

The Manhattan Lassies claim to be the girls championship basketball team of New York.

### ACCOUNTANT DEAD; COLLAPSED AT WORK

Kitchener, Ont., Jan. 23.—August Rathman for past twenty years accountant at Wolfhard's hardware store, dropped dead while at work at the store this morning. He was born in this city 54 years ago and leaves a wife and family.

### METCALF IN BUFFALO

Mr. E. C. Metcalf, Reeve of Deseronto, will not be in attendance at the present session of the County Council, owing to the fact that he is in Buffalo attending a convention. A communication was read by Mr. W. H. Nugent, County Clerk, at the council session yesterday afternoon.

To Stop A Cold in One Day

Take

### THE MODERN NOVEL

Seated one day at the typewriter,
I was weary and ill at ease,
My fingers wandered idly
Over the noisy keys.

Disconsolate, weary and petulant,
A complex decidedly blue,
Provoked vapidity and I
Had nothing else to do.

So I pounded my rheumy Remington
Five precious hours and a half,
Injecting, when I thought it wise,
A smile, a tear, a laugh.

A song, a sigh, a beautiful girl,
A desert and charming sheik—
A storm at sea, a love affair
That lasted for a week.

Inconsequential nothingness,
Thin sophistry, tarnished wit—
A bottle or two of gin and
A flapper went into it.

At last the manuscript was done,
My hands ceased rattling the keys.
But gathered up the stuff—then I
rushed out—

The publisher fell on his knees
In ecstasy. He cried aloud with joy.
"This novel is a glist'ning star!"
Well, I cant kick—it's netted me
Just thirty thousand bucks so far.

### MISS BOOTH WEDS PRINCE ERIC FEB. 11

Ottawa, Jan. 23.—The wedding of Miss Lois Frances Booth, daughter of Mr, and Mrs. J. Fred Booth, of Ottawa to Prince Eric of Denmark, will be held on Monday afternoon, February 11, at All Saints Church, Ottawa, it was announced here today.

## ICE BATHED CARP MAKE FIT FOOD

McGregor, Ia., Jan. 23 (United Press).—Dieting—the cause of worry to many a woman—changes the lowly carp to a fine fleshed table delicacy.

From Lansing, Ia., and Genoa, Wis. come the reports of carp farming as extensive as cattle ranches. Commercial fishermen are engaged in the newest enterprise in the age old endeavor to make of the "leather-back" a fish food comparable to bass, trout, salmon, and others well known.

At Lansing a farm of fish dealers manage an extensive carp "farm." In a bay-like inlet of the Mississippi river they have formed a deep pool fed constantly by ice cold artesian wells. Carp are seined from their mud wallows in the Mississippi and placed in the ice baths of the farm.

In the cold waters they begin to live anew. Their food consists of corn and barley—for this strictly cereal diet holds them at their weight and combines with the cold waters in making the flesh firm and tender, at the same time giving it a new flavor.

Three or four months after they made their initial plunge into the ice water, men with huge nets dip them out and place them aboard specially constructed tank cars, to keep them alive while they are shipped to eastern markets.

Extremely large carp are not taken the general average being three to four pounds. Some extra large ones weigh 10 pounds.

Eating a "dieted carp" or "corn-fed carp" is easy, for they have only a few large bones. In the east, the demand for the slick, clean "corn feds" is great, fisherman report.

### Kingston Merchant Dead

James R. Henderson Passes After a Long Illness

Kingston, Jan. 23.—Jas. R. Henderson, merchant, died during the night from heart disease after an illness of some months, aged 65 years. He was a Congregationalist and for years a school trustee and an ex-chairman of the board of education.

## That Body of Yours

By James W. Barton, M.D.

### A SIMPLE METHOD OF BUILDING AND REDUCING

A health writer during the war made a very significant statement.

In effect it was this "If the people of the United States and Canada would go to bed one hour earlier, and get up at their usual time, the food they would save would feed all the American and Canadian soldiers underarms".

Now there is not any war on at present and plain food can be obtained by almost everybody, so there is no need for this early to bed advice from the saving of food standpoint.

But what is the significance of an extra hour in bed?

Simply that when we are at rest, there is very little call for maintaining the work of the body, as compared to the need when we are about on our feet.

It has been estimated that one lying in complete repose uses only one fifth of the energy that is required by the body when walking about.

And thus many thin folks wonder why they remain thin, notwithstanding the fair amount of food they eat every day.

They seem to forget that they are more or less on the move all the time.

Their friends tell them that they don't know what it means to sit down and rest themselves. They are often late to bed and up early in the morning.

Active minded people who just have to hustle to be happy.

It is just here that they should think of the words of the health writer, and the saving of food by the extra hour's sleep. This extra hour would perhaps see some of their food made into flesh.

And so whenever the opportunity comes throughout the day, they should try and get a few minutes complete repose, even a few minutes sleep. Gladstone could go off to sleep for a few minutes whenever he wished to do so, and it is said that President Coolidge actually takes a little nap before he makes a speech.

To the other type, the heavy individual the advice is even more timely. The person who is overweight usually—not always—likes to take a full night's sleep, and to get to a chair as often as possible throughout the day.

It can readily be seen that if such a hour at night, and the frequent rests one is willing to do without the extra during the day, he is going to use up a considerable quantity of his surplus flesh.

### ABSENT

As one, who walks in winter woods
and longs
For scent of violets and birds' sweet
songs;
As one, who visits old accustomed
places,
And misses there the once familiar
faces;
As one, who, in the desert, dreams
of dew,
Upon the bloom of clover—I miss
you!

—Chicago Tribune.

Aunt Martha's HOUSEWIVES COLUMN

It makes a big difference whether food is fresh or not. A difference in taste and a difference in healthfulness.

One thing I like about the Dominion Stores is that every single article on their shelves is surely fresh. It has to be, for the scientific Dominion selling system cleans those shelves right down to the boards so often it would surprise you.

No old canned goods in any Dominion Store, no old fruit or vegetables—or old anything at all.

Dominion Store stocks are measured by the experts here at the main office, as carefully as you measure the ingredients you put in your favorite cake when you expect important company. Then our skillful store managers see that their stock is sold out long before it could possibly get stale.

It is a real comfort to the particular woman, to look around the shelves of a neat, well-kept Dominion Store and know that everything there is clean, new goods that taste fresh and are fresh.

Yet the certain freshness of Dominion foods costs you no more. Indeed it costs you less, for this largest Canadian retail grocery organization buys and sells in huge quantities—at the low prices its vast business makes possible.

If you keep track of Dominion prices you will find the wisest plan is to buy regularly at one of the 300 Dominion Stores, because in that way you are sure of steady savings.

Aunt Martha

DOMINION STORES

### 1923-1924

We greet the year with song and
laughter;
Although the old is dead,
The new comes shouting, running
after,
A bay leaf on its head.

We hail it with triumphal cheer,
But oh, record the shame:
Although we honor so the year,
We oft forget its name.

On cheques and letters often we,
As in the year before,
Will write 1-4-23"
Instead of "24."

### FELT IT

"That doctor is a regular human dynamo."

"Yes; when I came in contact with him I was highly charged."

Resist Winter Ailments

FORTIFY yourself against coughs, colds, influenza and grippe by keeping your body well nourished and strong to resist the attacks of these diseases. Their germs cannot live in a vigorous healthy system.

"Ovaltine" is the ideal Winter beverage. It is made from Nature's tonic foods—ripe barley malt, creamy milk and fresh eggs, and supplies in highly concentrated form the nutriment that keeps your body warm, vigorous and healthy. It is super-nourishment prepared in a form which can be assimilated without taxing the digestive system. A single cup contains more than twelve times as much nourishment as an equal quantity of beef extract, three eggs or seven cups of cocoa.

(continued from page one)

far as possible to have Belleville money applied to building up Belleville.

That it shall be the duty of the Labour Committee to consider and devise ways and means for providing employment for citizens of Belleville during the season when work is scarce, and so far as possible arrange that public money be paid in wages for labour instead of expended in charity.

That when by reason of circumstances of unforeseen misfortune, calamity or other cause a citizen is in distress and difficulty, the Labour Committee may give consideration to the condition and position of such citizen and render aid by way of suggestion and friendly service.

That the Labour Committee shall cooperate with the Indigent Committee of the Women's Christian Association of Belleville and with the Belleville Branch of the Provincial Labor Bureau, and perform such other duties as may be directed by the City Council.

That this by-law shall come into force and take effect immediately on and after the final passing thereof.

## Liberals

Continued from page one.

even the two-dollar members of the association may learn of their deliberations!

### Heartfelt Praise!

Mr. Ramsden chose as his text "Co-operation." "The Conservatives," he said, "will support any Tory who is put up as a candidate. We have no head. There is a head to the Conservative party. We have no one to lead us." Mr. Ramsden put it forth that everyone who calls himself a Liberal should be induced to join the organization. He did not take occasion to tell his select audience of how he and son, "Our Jack," "unified" the S. W. Toronto Liberal convention iwth the effect that H. H. Dewart was sequeezed out of the nomination prior to the June elections and with the further result that Liberalism lost two seats in the Legislature.

Mr. McGuire also paid a heartfelt tribute to the efficiency of the Conservative organization in Toronto, noting with wonder that they even had virile women's organizations.

## NEW DRUG CURES SLEEPING SICKNESS

London, Jan. 23.—A great specialist attached to the London Hospital of Tropical Diseases, interviewed to-day on sleeping sickness, said to me:

"I am not at liberty to tell how many patients we have recently cured of sleeping sickness with the new drug, but I may say that the 'Bayer 205' has been most successful. It is a discovery as important as the discovery of '606 (salvarsan, in the treatment of syphilis). It is especially important to the British Empire. There is a huge belt of Central Africa where sleeping sickness reigns, reaching from south of the Sudan— the upper waters of the Nile— right down to Lake Bangwrolo in Northern Rhodesia. A tremendous tract of Africa is thus beyond the reach of human effort owing to this disease. There are many stretches of riverside land in the Congo, for instance hundreds of miles in extent, covered with depopulated villages and abandoned plantations.

"You see, therefore, the terrific importance of this discovery. Any new drug like this also opens up great possibilities of further discoveries. Other drugs will be manufactured from this one.

"What is 'Bayer 205?' As far as I know, it is an aniline dye, because it turns pink when exposed to the air. The chemical company at Leverkusen is keeping the secret, of course, because the drug will be a great commercial product. Why should they not keep the secret? The French do not give away their synthetic drugs.

"But a lot of nonsense has appeared in the press about the discovery. It is said that Germany intends to use it in order to reclaim her colonies. Please contradict these silly and harmful statements. There is no politics among scientists. As a matter of fact the two Germans who have been working on the drug, Kleine and Fischer, were on the medical staff with Von Leto in Central Africa during the war and were thus under the aegis of the British Colonial Office.

"There is another popular confusion on this subject which I would like you to correct," the scientist concluded. "Sleeping sickness is not the same as 'sleep sickness' or encephalitus lethargica, which is a disease allied to, or following, infantile paralysis and appears in Europe and America. It was discovered in 1911, and it is a terrible thing, for which there is no cure yet. The 'Bayer 205' does not touch it."

## No Pay For Inspector

Toronto, Jan. 23.—The appeal of Inspector Chapman from the decision of Mr. Justice Mowat dismissing his claim for $815 from the Board of Police Commissioners for Brantford and the City of Brantford, has been dismissed by the Appellate Division. Inspector Chapman was suspended by the Board on November 4th, 1921, and an investigation of the police force by W. D. Gregory followed.

## Fire and Zero Weather

Buffalo, N. Y., Jan. 22.—Fire in the tenements of Dante Place early to-day drove 27 families comprising about 300 persons into the streets where the temperature was at zero.

Dante Place, 20 years ago was Canal street, one of the most notorious sections of the city. Recent years have brought a complete evolution, saloons and dance hall giving way to store and the living quarters have filled up with hard-working foreigners.

Philadelphia, Jan. 23.—Two persons were burned to death early to-day in a fire that destroyed an apartment house at 673-77 North 52nd St. The victims have not been identified.

## Serious Charge Fails In Court

### Herbert Holtom Found Not Guilty of Indecent Assault Charge

"Some one is at the bottom of it, and I believe this girl has been put up to this," exclaimed Magistrate Masson, in discharging Herbert Holtom, against whom, his 15 year old daughter had laid a charge of indecent assault one week ago.

There was such faint evidence of the assault that it was necessary for C. A. Payne, counsel for accused to introduce any evidence for the defence.

Telling a seeming coherent story, which was disgusting for decent living folk to hear, the girl laid her case before the court, but the co-oberative evidence given by Mrs. Mattice, who lives in the front apartment of the same house did not coincide. Following the alleged assault, complainant told of going to Mrs. Mattice, crying, and telling her the story. Dates on which the story is alleged to have been told however were conflicting.

In discharging the prisoner, Magistrate Masson issued a strict warning.

"It is the duty of a father to protect his daughter to the extent of giving his life, not to lead her into the downward paths," he said, "Any man found guilty of this offence receives a penitentiary sentence as well as lashes, as was the case in a neighboring city recently where the convicted man was sent to Kingston penitentiary where 30 lashes will also be administered and any person who abides by their conscience should not object to the sentence."

### Worse Than Murder.

"This offence I believe is worse than murder," continued the Bench. "Murder deprives one of life, but this offence deprives the victim of her honor, and leads her through the life of besmearch."

"On the other hand, whoever put this girl up to this, has committed a very serious act."

New York, Jan. 23.—James Cramer, 50 years of age, and an unmarried sister, died of suffocation last night when smoke from a fire that destroyed their Brooklyn home, crept into their sleeping rooms.

Greenville, R. I., Jan. 23.—Fire, of underdetermined origin, starting at 8 o'clock this morning, burned through the centre of the town, destroying the post office, general store, a garage, and two frame dwelling.

New York, Jan. 23.—Fire Lieut. Donovan dropped dead last night from cold while fighting a three-alarm fire which destroyed a garment factory in Queens.

Boston, Jan. 23.—Seven persons were rescued from a burning apartment house in Back Bay district early to-day.

Philadelphia, Jan. 23.—Fire of undetermined origin badly damaged the plant of the A. C. Krum & Son Macaroni Co., early to-day.

Oyster Bay, Jan. 23.—Fire last night destroyed the greenhouse and a cottage at Plating Field, the summer residence of William R. Coe, sportsman and son-in-law of the late H. H. Rogers. Loss is $250,000.

Lyndonville, Vt., Jan. 23.—One woman was killed and a number of persons were injured in a fire which virtually wiped out the business section of this village to-day. The loss is estimated at about $500,000.

### NOTICE!

NOTICE is hereby given that a bylaw was passed by the Municipal Council of the Township of Huntingdon on the 26 day of December, 1923, providing for the issue of debentures to the amount of $10,000 for the purpose of building a school house at Moira and that such bylaw was registered in the registry office of Belleville in the County of Hastings on the 2nd day of January, 1924. Any motion to quash or set aside the same or any part thereof must be made within three months after publication of this notice and cannot be made hereafter.

Dated the 2nd day of January, 1924. j9,16

D. L. FLEMING,
Township Clerk.

2nd Jan. 1924.

## Make New Tail For 'Spark Plug'

Chicago, Jan. 23 (United Press).—A three toed horse, three feet high and between 2,000,000 and 20,000,000 years old, soon will be on exhibit at the University of Chicago museum. Prof. Paul C. Miller excavated the specimen in the "badlands" of Nebraska. The only thing missing from the aged anatomy was a tail. One is being constructed at the museum.

The first known horse was about the size of a rabbit and had five toes, according to Prof. Miller. During the process of evolution the toes disappeared, the horse's size increased and to-day "Dobbin" walks on the "nail of his middle finger."

LOOKING INTO THE FUTURE

We live for to-day and plan for to-morrow, but few of us seriously consider the wisdom of looking into the future very far, when buying household commodities.

Take electric lamps as an example—Looking into the future when buying this commodity means considering the economy of the purchase of good lamps, and satisfaction derived from their use through their ultimate long life and prolonged efficiency.

Hydro Lamps scientifically combine the qualities which radiate all these vital characteristics.

Hydro Lamps are produced for Hydro customers and guaranteed for long life.

Look for this label on the lamps you buy.

### JUDGE HINTS AT CONSPIRACY

Los Angeles, Jan. 23.—That there "appears to be a conspiracy" to suppress evidence in the hearing of Horace A. Greer, chauffeur for Mabel Normand, film actress, charged with shooting Courtland S. Dines, was the statement made from the bench today by Judge J. Walter Hanby, hearing the case. Judge Hanby said: "I am not at all satisfied with the testimony that has been given in this case. There appears to be a conspiracy on the part of the witnesses who have already testified to keep from the court many things that the court should know about this case.

Satisfaction!

This is a Meat Store—but we sell "satisfaction" with every order.

## ON THE ALLEYS

Demenice's Recreation Alleys

Three league games were played at the Recreation Alleys last night in the ladies league. The Ramblers rolled up a tidy score of 1769 against the Debutantes 1572, both teams showing some wonderful improvement from last week. Miss Reid was high single and three strings with 175 and 448.

In the junior league there was a double header, the Aristocrats rolling the best score to date when they rolled 2515, Lent rolling up a nice single of 274 and 615 for the three strings. Their opponents, the Lucky Strikes also rolled a good score but Lent's 274 was enough to win the game. The second game was between the Natural Tread and O.B.C., the former taking this game by 59 pins. It was a hard game for the O. B. to lose as they won the first game by 66 pins, but weakened bad the last two games. Scores and players:

In the account of the Bowling games at the Recreation Alleys on Friday night, it was stated that the ladies record was held by Miss Long. This was incorrect—it should have read Miss Bonisteel of the C.I.A. team.

## POINT ANNE SIX HERE TONIGHT

### Meet 34th Battery Squad in Quinte League Fixture at Arena

At the arena tonight an interesting game of hockey will be played when the 34th Battery boys this city will cross sticks with the Point Anne team. There is considerable rivalry between these teams and there is no doubt but that it will b a good game. Members of both teams have since the former game practiced hard and it will be a game well worth witnessing. The ice is in first class condition for the game and the Battery boys feel confident that they will again be able to score a victory. It is anticipated that many spectators will be present to witness the game which will start at 8.15 sharp. Walters of Napanee will handle the bell.

### CLEAN SIDEWALKS OR ANSWER SUMMONS

The city engineers department is preparing to clean sidewalks in the city of snow left through negligence and other causes. Owners of property fronting on these walks will be assessed the cost.

The police department is working with the city and following out the walks not cleaned after twenty-four hours may be the cause of a summons.

### AMELIASBURG

Our school was closed last week owing to the illness of our teacher, Miss Mason.

A number from this vicinity attended the dance held at Allisonville on Friday night.

## CANIFTON DOMESTIC BATTLE ADDS TO WORLD DISCONTENT

According to the story of Lillian Rosevear, and judging by the appearance of her arms and face, she received a strapping from her husband George Rosevear and a general pummelling yesterday afternoon. George was this morning charged with assault, occasioning actual bodily harm, in police court, and after hearing the story of the wife, the case was laid over for one week by Magistrate Masson, to see if some amicable arrangement cannot be drafted.

"No I will not go back with him, persisted the woman, though counsel for accused, E. D. O'Flynn and Crown Attorney Donnan pleaded that she agree for the sake of the two children. "No I am afraid of him, he will beat me for having him in court, and after the beating he gave me yesterday, I am through living with him", she continued. Drink makes Rosevear crazy according to wife's story, and he beats her every time he gets liquor. "All the Canifton men are afraid of him", further explained the spouse, automatically crowning hubby, "The Canifton Terror."

Woman Roughly Treated

Coming home drunk yesterday, accused is alleged to have slapped her in the face, then taking his belt off, attached a strap and gave her a real strapping. Then he got a shoe and applied that. "Then got a knife," she said.

The woman's left arm is swollen and marked, the left side of her face is swollen, and she states that her left leg is almost useless. She visited a physician to-day as a result of the "banging" she received.

"Was the shoe that he used on his foot?" enquired Crown Attorney Donnan.

"No, he picked it up, but he kicked me too," wife answered.

"I ran into the street, calling for help, and George's sister came to my rescue", continued the complainant.

Is War Bride

Married to Rosevear while he was in England with the Canadians, the unfortunate woman is an English war bride.

"Did he drink in England?" queried the Bench.

"Oh no", was the reassuring answer.

"Very few soldiers did," further explained Mr. O'Flynn.

"Are you a member of the Sons of Temperance?" asked Mr. O'Flynn in examination.

"Daughters of Temperance?" corrected the Crown.

Wife's answer to a charge of 'gadding' inferred by counsel for accused, was "O dear no, ask anyone in Canifton about my character."

Complainant described hubby as a useless mortal who never looked after the children, despite the fact that he works hard and earns good money.

Much discussion resulted from a certain Sunday dinner which Rosevear, wife and family were to have attended at the home of her brother-in-law. It was brought out that Rosevear was so drunk that he shaved himself in preparation for the dinner, and that wife washed his neck.

"I am telling the truth, and I hope to be struck dead if I am not," exclaimed complainant by way of explanation.

"Unfortunately they do not do that now," commented counsel for accused, who enquired whether she was "all sweetness" to hubby when he came home "dim eyed" or whether she "gave him the dickens."

Mrs. Rosevear is a regular wife. She opens George's pay envelope, and when she burst into tears on the stand today George gave her his handkerchief.

"I do not remember laying a hand on her," exclaimed the accused who was sober to-day, though he was charged with hauling her from hiding in a clothes closet, sitting on her chest and choking her off. Some people like to see everyone live when they get a few "shots" of liquor, but Rosevear is evidently not this type of man.

### Y. W. C. T. U. MEETS

In spite of adverse weather conditions, the Y.W.C.T.U. and some of their friends met at the home of Miss McClatchie, Queen street, last evening. Miss Maud Reeves presided. A vocal solo was given by Miss Marjory Bird and a piano solo by Miss Sidenius, both of which were much appreciated. Mrs. Booth gave an impressive reading in which the responsibility for the liquor traffic was placed upon the voter. An able and comprehensive paper prepared by Miss Grace Tucker was full of information bearing upon the present temperance situation.

The social hour conducted by Mrs. Youdale was a decided success. Coffee and cake brought a pleasant and profitable evening to a close.

# ORGANIC CHURCH UNION IS DECLARED AGAINST ALL PRINCIPLES OF UNITY

### Rev. Stuart Parker of Toronto, Denounces Lack of Co-ordination in Allowing Strong Minority to be Overruled on Question—Declared Against Constitutional Right of Members

### LARGE CONGREGATION IS HELD BY FIERY ELOQUENCE OF SPEAKER

### Loss of Westminster Confession of Faith Declared Blow at Heart of Presbyterianism—Church in Canada Heading for Cleavage Says Dr. Parker During Two-Hour Address

Iniquitous, coercive, creedless save for a patchwork of pen and scissors from various creeds, a barrier for years to larger church union, were some of the phrases used by Rev. Stuart Parker of Toronto in his address against Church Union given last evening at John Street Presbyterian Church. There was a good attendance and although the Rev. speaker spoke for over two hours, he was attentively listened to.

Rev. D. C. Ramsay, Pastor of the Church presided and conducted the devotional exercises. Rev. A. D. Kerr of St. Andrews Church, in a few well chosen remarks introduced the speaker.

**Most Important Item**

In his opening remarks Rev. Stuart Parker stated that this was the most important thing in our church life at present.

It has been an experience to have the refusal of a church to deliver an address against church union. We plead for the retention of the Presbyterian church. He appreciated the courtesy extended to him in Belleville. Prejudices we desire to be excluded from this important matter. The Presbyterian Church in Canada today is heading for a cleavage.

**Union "Not all Right"**

This union will not be all right and there will still be a Presbyterian church in Canada, even if union takes place.

Those who are striving to promote union are no doubt sincere, but sincerity may be blinded to some extent. He was in favor of union as promulgated in Scotland, but was against the union proposed in Canada. The arguments of the unionists do not appeal to him. It was not a pleasant task for him, but he considered it his duty to speak and work against union. The unionists he claimed, were in a groove of thought which appeals to many.

**Promise of Harm?**

The Church has committed itself in this matter. What about a promise that means harm? There are pledges that are more honored in the breach rather than being preserved. Even though the church had pledged itself to union it may mean harm to many.

Twenty-two per cent of the membership of the church is against the union

(Continued on Page Seven)

# NORTH HASTINGS SCHOOL REPORT GIVEN COUNCIL

### J. Colling School Inspector Outlines Progress Made In Inspectorate

### BETTER QUALIFIED

### Average Salaries Shown to Be $949—Frequent Changes a Deterrent

At the County Council meeting, Wednesday afternoon, Mr. J. Collings school inspector for North Hastings, presented a report relative to the schools in his inspectorate. During the year a new school was erected at Maynooth for S. S. No. 1 Monteagle, at a cost of $7,000. It is a two-room building and commodious. The old school at S. S. No. 3, Wicklow, has been remodelled and is now a more modern building.

There has been a slight improvement in the qualifications of the teachers, the record being as follows:

| | |
|---|---|
| Second Class | 18 |
| Third class | 33 |
| District | 20 |
| Temporary | 2 |

The salaries in the inspectorate are better, the average being $949.

The frequent change of teachers has been a great detriment to the schools but this is being improved. The average length of service in North Hastings at present is three years.

It is a matter of regret that the new school attendance regulations have not produced the desired improvement in attendance. There are 14 attendance officers and one man for the whole inspectorate would be a much better arrangement. This arrangement would probably cost the municipalities about $25 each.

### REPEAT PERFORMANCE

On January 31st and February 1st at the Grand Opera House, Peterboro, the Peterboro Kiwanis Club will repeat the revue which they staged a few months ago, the proceeds for the double performance to be devoted to the Young Men's Christian Association funds.

## THE WEATHER

Easterly winds; snow tonight.

Friday—Snow or rain followed before night by strong northwest winds and a change to colder.

## COMING EVENTS

Fourth Annual Get-Together Banquet at which the City Council and Chamber of Commerce complimentarily entertain the Hastings County Council Hotel Quinte, Fri. Jan. 25, 7.30 p.m. Dr. Bruce Taylor, principal Queen's University, speaker of the evening Vocal solos—Sandy Burrows, Jimmy Bankier, Dr. Haffner, Fred Burke Harold Barrett and Al. Stillman. Readings from Dr. Drummond's poems by F. J. Lugdin, of Toronto. All male citizens invited. Reservations accepted until capacity of dining room is reached Tickets $1.50. Telephone Chamber of Commerce for reservations. Make this the big event of the season. W. C. Mikel, John Elliott, J. O. Herity, Committee. 24-2td

Mr. and Mrs. Johnstone's Social Assemblies are held every Saturday evening 8.30 to 12.—Private lessons given Phone 750w or 892. 24 & 26

Come to Prince of Wales School Community Club concert, January 24th, 8 p.m., College Hill. Moving pictures. Everybody welcome. 22-3td

Presbyterians—Organization meeting Presbyterian Church Association. Thursday evening at Y.M.C.A. at 8 p.m. It is important that all officers and all Presbyterians who can come will be there. 23-2td

Come to the Ladies Society B. L. F. & E. Euchre and Dance at Johnstone's Academy on Wednesday, Jan. 30th, at 8 o'clock. Good prizes. Refreshments. Admission 50c. J-23, 28 29, 30

Keep in mind the old-fashioned supper at Christ Church Parish Hall on Friday, January 25th, from 5.30 p.m. to 7.30 p.m., under the auspices of the Girls Branch of the W. A. Admission 40c. Bon Ton Orchestra in attendance. 23-24

# JAIL UNIFORMS PROVIDE SORE ISSUE FOR COUNTY OFFICIALS

### Dr. A. T. Embury Declares He Would Not Insult Jail Officials by Asking Them to Wear Such Clothes as Provided

At the County Council session this morning a communication was read from the Provincial Secretary relative to uniforms being provided for jail officials. The statutes provided that uniforms shall be worn by officials.

Dr. A. T. Embury was opposed to the County paying for these uniforms. Let the Government pay for them, he said. He would not insult our jail officials by asking them to wear the uniforms prescribed.

Mr. W. E. Wiggins—We have to pay for those sent here last year.

Mr. C. B. McGuire thought the resolution passed at the December session of the Council authorizing the payment of the uniforms sent, but that no more be sent or paid for should be adhered to.

It was decided that the Council would refuse to pay for any more uniforms and the clerk was authorized to send to the Provincial Secretary the motion passed by the Council, at the December session.

The composition of the various committees of the County Council is as follows:

Finance—C. B. McGuire, chairman; S. B. Rollins, C. Ketcheson, Chas. Thompson, W. Draycup, J. Taylor and the Warden.

Suburban Commissioner—Jas. Haggerty.

Roads and Bridges—W. A. Reid.

Bridges—Jas. Moore, chairman; R. K. Bonter, W. Whylock, Jas. Douglas, Jno. Newton and the Warden.

Provincial Highway—Thos. Tariff, chairman; Alex. McKenzie, F. White, J. G. Sills, A. McMurray, Geo. Bailey and the Warden.

House of Refuge—Jas. Campbell, chairman; G. B. Airhart, the Warden and County Clerk.

Purchasing Committee—Jas. Haggerty, chairman; J. A. McKenney, J. E. Finnegan, Jas. Moore, W. A. Reid, A. E. Wooten and the Warden.

Auditor administration of Justice—W. E. Wiggins.

# RED RYAN'S 'PALS' IN OLD COUNTRY

### Officials of Portsmouth Penitentiary Believe Escaped Convicts are Overseas

Kingston, Ont., Jan. 24.—It is understood that officials of the Portsmouth penitentiary have strong suspicions that Thomas Bryans and Gordon Simpson, the two convicts who escaped from the Portsmouth penitentiary at the same time as Red Ryan, are in Europe.

It is thought that after the robbery of the Bank of Nova Scotia in Toronto Bryans and Simpson made their way east and went overseas. It is stated that Simpson would have little trouble in making his way around England on account of having served with the Canadian Expeditionary Forces, and being familiar with the layout of the country.

Deputy Warden Tucker and Detective Duncan, who were responsible for the arrest of "Red" Ryan, have been working on the case, but neither will tell anything about their movements. A few days after Red Ryan was returned to the Portsmouth institution both Inspector Duncan and Deputy Warden Tucker left the city for parts unknown.

The deputy warden is now back on duty at the penitentiary.

## COMRADES RESPECT RUSSIAN LEADER

(United Press Despatch)

Moscow, Jan. 24.—In the great banquetting hall of what was once the Nobles' Club, the rendezvous of Russia's nobility, the body of Lenine reposed in a simple coffin upon a simple couch to-day, which comrades of the Revolution paid his last honors as they passed slowly in single file.

## SAYS CONFESSION IS FABRICATION

(United Press Despatch)

Aurora, Ills, Jan. 24.—Warren J. Lincoln, who several weeks ago confessed that he had killed his wife after she had murdered Byron Shoup, her brother, now says his confession was a fabrication and that his wife is alive, Shroup is dead though, he declares.

# HASTINGS JOINS RANKS AGAINST HIGHWAY COST

### County Council Concurs in Memorial Sent From Other Counties

### HOSPITAL DEFICIT

### Financial Statement to be Presented After Auditor Makes Report

**HASTINGS JOINS HIGHWAY PROTEST**

Hastings County Council, has by a motion which prevailed, concurred in a memorial from other County Councils to be presented to the Ontario Government relative to Provincial highways. The memorial sets forth that in the opinion of County Councils the entire cost of construction and maintenance of Provincial highways should be borne by the Highway department of the Government, rather than a portion by municipalities.

At the County Council meeting on Wednesday afternoon, Mr. W. H. Nugent, County Clerk, stated that he had no written report in regard to the operations of the Belleville hospital, which he had been requested to look into.

There is a deficit in regard to the operations of the institution on a financial statement would be presented when auditors have reported. There is due to the hospital at present $1,148 for County patients which were in the institution of late.

Mr. C. Burlanyette, Reeve of Bangor, Wicklow and McClure Township asked for a special grant of $800 on a road in the northern part of the county.

This road is a connecting link with the Provincial highway running through the county. It was a worthy cause and Mr. Burianyette asked the Council to make the grant. The request was referred to the ways and means committee for consideration.

# ALLIED BANKS MAY MAKE LOAN TO SAVE REPARATIONS TANGLE

By A. L. BRADFORD
(United Press Staff Correspondent)

Washington, Jan. 24 (United Press).—An eventual settlement of the German reparations problem will result from the American-Allied inquiry of private experts into Germany's financial condition, it is hoped in official Washington.

The unsolved reparations problem has been held by Secretary of State Hughes as the key to European economic and political disorder, which has increased, according to the opinion of many, with each year that has elapsed since the armistice. Therefore, Hughes' deep interest in bringing about the expert investigation now being held.

All the German government records and documents pertaining to the tortuous financial path that Germany has trod since the war are to be thrown open to the inspection of the American and Allied experts. Much time is expected to be passed by the experts in Germany as they pursue their studies. It is believed here that the inquiry will consume about six months.

The American Government believes that the first of the two committees of experts is the more important. This body will study the questions of the stabilization of Germany's currency and the balancing of the German budget. The American representatives on this committee are Brig. Gen. Charles G. Dawes of Chicago, who is the president of the committee, and Owen D. Young of New York. Both of these men are able business executives.

**Germany's Power to Pay**

All the influence and efforts of the American experts on this committee are expected to be directed towards many's capacity to pay reparations.

While the agreement between the different Powers on the inquiry did not specifically provide for an investigation into Germany's capacity to pay total reparations, still it is held here that the breadth of the formula for the inquiry was very great and will permit such a study.

An important factor that will augur well for success of the expert inquiry, it is believed here, is that an agreement that will inspire the confidence of the bankers of the United States and other great financial countries undoubtedly will result in a huge rehabilitation loan to Germany, with which the former enemy country can resume reparation payments and thereby aid the financial condition of the Allies.

Before Germany can get to her feet economically and resume the payment of reparations she must be granted a loan, it is admitted. But American and other bankers will not grant such a loan until there is an agreement among the Powers on reparations, the amount that Germany can pay, and on a satisfactory financial plan under which reparations are to be paid.

**Insist on Action**

That is another argument for the experts being allowed to examine finally into Germany's capacity to pay total reparations. If the expert conference is not permitted to proceed along these lines, it would cause no surprise here if the American representatives withdrew, on the ground that it would be useless to continue their efforts.

A final argument for the success of the inquiry is held to be that there seems to be no other hope of bringing about a settlement of the reparations problem.

## Means Bigger Wage Bill

### Board of Control Proposed Survey of Civic Service

Toronto, Jan. 24.—An independent survey of civic salaries could only result in an increased wage bill for the city, contended Mayor Hiltz, when the Bureau of Municipal Research's letter advising a study of civic service by an independent committee before the adoption of any pensions scheme or increased salaries, came before the Board of Control.

"I don't believe that Council could be induced to carry out any salary reductions that might be recommended," said the Mayor. "The result would be that we might boost a number of salaries without any compensating reductions."

"The independent committee might advise us to cut down the staff of civic employees," said Con. Cameron.

Con. Cameron was the only supporter of the Bureau's proposal. The remainder of the board rejected it.

### ANOTHER GOES

Havre, Mont., Jan. 24.—The Farmers' State Bank of Cremlin, has closed its doors. It was capitalized at $20,000. Kremlin is twenty miles west of Havre, where the Security State Bank closed Monday night.

## MEXICAN GENERAL WOUNDED IN BRAWL

(United Press Despatch)

Laredo, Texas, Jan. 24.—General Guadalupe Sanchez, leading revolutionary general, has been taken to Orizaba for treatment of serious wounds received in a personal encounter with one of his aides, according to word received at the Mexican Consulate here. Both had been drinking and quarrelled. The nature of the wounds were not disclosed.

# SHAKE-UP IN ONTARIO'S POLICE FORCE IS FORECASTED BY PROBE INTO O.T.A. ENFORCEMENT ACT

# EXPRESS HAULS MADE BY TRUCK OVER BRITAIN

### Dominion Express Company's Own Trucks used to Deliver On Time

### OVER LARGE AREA

### No Interruption Is Anticipated in Through Service From Continent

Montreal, Que., Jan. 24.—As one result of the railway strike in Great Britain intercity express traffic is now being moved by motor truck.

J. R. Martin, manager of the foreign department of the Dominion Express Company, stated here to-day that the express traffic now moves from London to Liverpool and South Ampton by the company's own trucks and that the service is proving quite satisfactory.

The London motor trucks are also picking up express shipments at the more important intermediate points beyond Southampton and Liverpool and a special motor service has been established from Manchester and vicinity, a heavy exporting district, to Liverpool.

No interruption is anticipated in the through express service from the continent. While in the interest of speed, a large proportion of this traffic is routed to connect with mail steamers from Southampton, no rail haul is necessary, the goods merely have to be trucked from the cross channel steamer docks to the trans Atlantic dock. The Dominion Express London office cabled that everything is running as smoothly as could be expected under the circumstances.

# Pays $50.00 Fine On O.T.A. Charge

W. F. Strunger, proprietor of the Balmoral hotel at Cobourg was found guilty of illegally purchasing liquor, when he appeared for trial before Police Magistrate Col. Floyd at Cobourg on Wednesday and was fined $50 and costs.

Strunger was first charged with illegally having liquor in a place other than a private dwelling, and Thomas Flesh was also similarly charged, as a consignment of over-strength beer found in the stables at the rear of the Balmoral hotel, were in his name. The case against Flesh was dismissed, and the charge reduced in the case of Strunger. James Haverson, K.C. of Toronto defended the accused men, and Crown Attorney W. F. Kerr, K.C., conducted the prosecution.

Inspector of Provincial Police, in this district was present at the trial.

**"BOOTLEGGER-ESS"**

Eight hundred and forty bottles of Corby's best! Eva Greenbaum of Toronto had that much. The Government has it now, plus $200 and costs. Defence counsel Frank Callaghan estimated the actual penalty of $6,920, figuring the selling price at $8 per bottle.

"You pay to advertise."

# GERMAN HOARDERS RELEASE FOOD WITH DAWN OF STABLE CURRENCY

By CARL D. GROAT
(United Press Staff Correspondent)

Berlin, Jan. 24.—(By mail to United Press).—Germany's junkers have stopped hoarding their bountiful harvest and meat supplies.

The flood of meats now swamping Berlin and other big cities offers ample proof of earlier charges that they were holding back their treasurers, regardless of the fate of their suffering fellow countrymen.

The Rentenmark—at this writing stable and quoted even higher than the English shilling or the American quarter—was responsible for unlocking barred granaries and turning herds toward the city abattoirs.

The whole absence of bread and meats about three months ago was due to the reluctance of the big landowners to take papermarks for their products.

In some cases, the big farmers also saw a chance that, by withholding from the cities, they could influence political affairs—getting capital for the reactionaries later by opening their granaries should the reactionaries come into power.

**Supplies Come Out.**

But stabilization of the mark—be it permanent or otherwise—drove out these hoarded supplies.

Now every meat shop and bakery in Berlin is loaded to overflowing with choice viands. Some people think they are cheap. Compared to world prices, they are double or treble what they should be

But for the average man, the main thing is that with whatever money he earns he can still buy something the next day or the next week. Previously he got his paper marks one day only to find that by night or at least by the next day they had often literally lost half or more of the original purchasing power through a new mark slump.

**U. S. Misinformed**

America is largely misinformed about conditions in Germany. Misery and starvation are prevalent enough—all too prevalent. But there is not the self-help that there should be. Chancellor Marx made it clear in his Christmas message that the nation must learn to rely more on itself, if it is to expect outside aid. This is a much-needed note in the nation's life it is admitted everywhere by foreign observers and clear-minded Germans.

When dealers ask—and get—$1 a pound for fruit; 60 to 90 cents or more per pound for meat and laugh at customers who complain at the prices, then there is something radically wrong in the psychology as well as the financial situation of the country.

And, especially, is there something radically wrong with the situation when in the midst of this, there is much wretched poverty which for the most part is relieved by foreign help, rather than by greater efforts at home on the part of those who pay unthinkingly the prices asked in German shops.

**Bad Management.**

Germany has no difficulty now with its transportation except that bad management leaves the railroads with constant deficit.

A food loan from America will help tide over the two or three months between the exhaustion of this year's crop and the coming of another harvest. The food situation is, all in all, vastly better than in other years since the war. The shortage above mentioned is nothing new. Germany has always had to cover a food shortage by imports.

### Provincial Police Inquiry Is Now On—Inspector Under Fire Tenders Resignation Which is Refused Pending Results of Investigation—Attorney-General, W. F. Nickle Makes Announcement In Toronto

### SENSATIONAL DEVELOPMENTS ARE EXPECTED TO FOLLOW CASE

### Conducting of Probe By Hales and Attorney-General To Exclusion of Commissioner Williams Peculiar Feature of Situation—Investigation Into Affair of Paxton May be Materially Enlarged

Toronto, Jan. 24.—Possibility of a thorough shake-up of the Provincial Police and License Board administration is forecasted by the investigation which has been conducted into certain phases of O.T.A. enforcement by these bodies, as a result of which Inspector Arthur Paxton of the police, but on temporary loan to the License Board, has asked permission to resign. This resignation is in the hands of Attorney-General W. F. Nickle, who announced that it would not be accepted pending the conclusion of an official investigation, which will be held at once.

License Inspector McCready, of Hamilton, was in Toronto and appeared before Mr. Nickle and Mr. Hales in connection with the investigation. It is stated that some of the matter to be sifted has to do with telephone calls between Paxton's home at Mimico and an alleged liquor dealer at Hamilton. Paxton is said to have blamed a relative living in the house, for these, and to have claimed that when he learned about them, he made him leave the place.

The inquiry, it is intimated, will result in somewhat sensational revelations, providing, of course, allegations made should prove true.

Matters under view in preliminary inquiry hark back to the Lennox charge before the Public Accounts Committee of a couple of years ago. The raid upon the Sutton Hotel and debate between Hon. Mr. Ferguson and Hon. Mr. Raney at Fergus, are also involved. In both instances, "frame-ups," in which provincial police were made use of, are alleged to have been attempted.

**Allegations Talked About**

Although having enjoyed the confidence of Police Commissioner Gen. Williams and Chairman Jas. Hales, of the License Board, Inspector Paxton has been the subject of comment in provincial police circles for some time. Representations that he has had improper relations with O.T.A. violators have been made to the Attorney-General. One case of a Hamilton dealer is understood to be involved in the coming investigation.

Inspector Paxton was formerly in the criminal investigation branch, and was some time ago transferred, against his own desire, to the O.T.A. squad, of which he was placed in charge under the License Board.

Mr. Paxton stated that his house has a mortgage encumbrance of $4,000 and that the automobile which he drives is not his own. Mr. Paxton was formerly with the R.N.W.M.P. and the Royal Air Force, having been on a special mission for the Imperial Government to various points in the United States as an officer in that service.

**Commissioner Overlooked**

One peculiar feature of the investigation to date has been that whereas police regulations require Commissioner Williams and Chairman Hales to investigate conduct of police officers, this probe has been conducted by Mr. Hales and the Attorney-General. Commissioner Williams not having been a party to it. Deputy Commissioner Alf Cuddy and Inspector Miller, along with former Supt. Jos. Rogers are also understood to have been associated with the probe. It is possible that the probe into Mr. Paxton's affairs may be materially enlarged so that a general survey of conditions will be made, from which several official changes may result.

# HIGHWAY MOVE GAINS HEADWAY

### Mayor Mikel Reports on Results of Deputation to Toronto

At the City Council meeting Tuesday evening, Mayor W. C. Mikel, verbally reported that he, in company with Ald. Patterson, Mr. W. H. Ireland and Mr. J. Bone had an interview with the Minister of Highways relative to Belleville being the Eastern headquarters of the Provincial highway.

His Worship said that there was nothing definite to report at present but the claims of this city had been presented and the matter appeared to be favorable to the same.

Other members of the Legislature in this section will be asked to cooperate in securing for Belleville the headquarters.

On motion the mater was left in the hands of the Mayor and Ald. Patterson to continue in their endeavors to secure the headquarters for this city.

## ARRESTED IN TORONTO CHARGED WITH THEFT

Provincial Constable Cousens, stationed at Cobourg, arrested a man named McBrien at Toronto yesterday, who is wanted at Bowmanville on a theft charge, and who had cleared out. Three men were sought, but the officer found that one man was already in jail, a second out on bail of $2,000, and he arrested the third.

McBrien will face trial at Bowmanville on January 31st and was yesterday admitted to freedom on bail of $2,000.

Kingston, Ont., Jan. 24.—Searching parties were out yesterday looking for Miss Ada Strachan, an aged resident, who wandered away from her home during the severe snowstorm Tuesday afternoon and has not been seen since. It is feared that she has perished.

# STRIKE A FIASCO DECLARES THOMAS

### Rival Railway Leaders are Both Confident of Victory

London, Jan. 23.—In an interview with the United Press on the railway strike J. H. Thomas, head of the N.U.R., said: "The strike is a complete fiasco. The best proof is the fact that a number of trains were running this morning."

Thomas sent urgent telegrams to all branches of his union, urging the men to stand firm.

J Bromley, secretary of the Associated Society of Engineers and Firemen, was equally confident the strike was a success.

"The men's response exceeded expectations," he declared. "Our position becomes stronger daily and ought to reach its full strength by Thursday. Financial assistance is being offered from many unexpected quarters."

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## THE FUTURE OF DAIRYING

A large increase in dairy production in some parts of the world is noted by J. A. Ruddick, dairy commissionery for Canada, who addressed the Western Ontario association here. In particular, there has been a reversal of the relative standing of "north" and "south", in that South Africa, New Zealand and other countries below the equator furnished last year 56 per cent. of butter imported by the United Kingdom and 59 per cent. of cheese. Ten years ago the Southern Hemisphere contributed only 21 per cent. of the butter for the British market and 40 per cent. of the cheese. It happens, however, that increase in consumption of dairy products seems to be keeping pace with enlarged supply, Great Britain, the world's greatest market, imported during the 11 months ending last November 533,869,280 pounds of butter, as against 409,577,056 for the corresponding period in 1914, and the increase in cheese imports is similarly large, though allowance must be made for the fact that Irish shipments are now shown as imports.

While complete figures for 1923 are not yet available. Canadian exports, with storage holdings at the end of October, show an increase of 6,000,000 pounds of cheese over the same period in 1922. In the case of butter, there a decrease of between four and five million pounds, but the cheese total will likely be increased by full returns, and there were large increases in export of cream, milk powder and condensed milk. In terms of butterfat, Commissioner Ruddick estimates the net increase in export at about 2,500,000 pounds of butterfat, to the end of October.

Total value of exports from Canada during this period shows an increase of $7,139,424. As exports are under 25 per cent. of total production. It is safe to say that the value of the total dairy production in Canada in 1923 will prove fully $30,000,000 greater than in 1922. Here is an industry which provides 250,000 farmers of the Dominion with prompt and usually satisfactory cash returns, and because of the large surplus production for export markets insures a reasonable price to consumers at home.

Much has been said in recent years about the necessity of high-grade dairy products for the overseas market, and yet, in view of increasingly keen competition abroad, it has been necessary to make "quality" chief point of emphasis at the Western Ontario convention, and George A. Putnam, dairy director for Ontario, thought it his duty to ask if those concerned proposed to wait until the industry received "a hard crack" before taking the steps which all agree must be taken.

Systematic grading of butter and cheese for export was inaugurated last year, and will soon be working with perfect smoothness, it is anticipated. It has now been arranged to require registration of all factories and creameries from May 1 next, and the marking of packages to permit of identification at the grading station. General cream-grading legislation is still opposed in some quarters. The Western Ontario convention adopted a resolution promising co-operation in carrying out the regulations should the Government decide to make cream-grading compulsory. The recent Dominion dairy conference adopted standards, which the Government is asked to lay down in due course. Manitoba inaugurated a provincial system at request of those in the industry, and through force of necessity, because the local market was limited and Manitoba dairy products did not stand high elsewhere. Alex McKay, of Winnipeg, told the convention here how the system is working, and said that, subject to certain modifications as to expense of the grading staff, creamery men appeared to be strong for the plan. From right at home came "Mac" Waddell, of Stratchroy, who from last year's experience gave exceedingly clear and emphatic testimony in favor of grading. The annual report of John H. Scott, official grader at Toronto, shows only a 10 per cent. increase in the number of creameries making use of the grading service. Even now, only 37 per cent. of Ontario creameries are having their butter graded. Grading of eggs has been inaugurated with scarcely a ripple of disturbance to trade, yet dairymen continue to refrain from that which at their own gatherings they invariably concede must be done.

The skill of Ontario's best cheesemakers and buttermakers is not excelled anywhere. Yet the standing of our products, even among those of the other provinces, leaves much to be desired. Experiment, such as that of Mr. Waddell, shows how cream-grading and a price differential greatly enlarges the proportion of first grade stuff turned out, and yet it seems that compulsory legislation is going to be necessary, unless Ontario is prepared to take chances on the "hard blow" to which Mr. Putnam is apprehensive in the overseas market. New Zealand, whose competition Great Britain and Canada has to meet, has had grading in force since 1894.

## EDITORIAL NOTES

The powers want to reduce Germany's debt, which is the only way to keep her from owing so much.

—o—

A policeman shot a burglar in New York. Perhaps he will claim he didn't know it was loaded.

—o—

Chicago barber attacked a man with a spade. Wash your head before getting a haircut.

—o—

Trouble with electing the wrong man to office is you can't get your money back if not satisfied.

## WIT AND HUMOR

### OLD SCHOOL

May June met her friend Agnes in the street. They stood talking for a while, when a friend of theirs, Doris by name, passed them on the other side of the street. In animated conversation with her was Col. Mitkin.

"Were not Doris and the colonel schoolmates?" asked May as she caught sight of the pair.

"Yes," answered her friend, "and they are yet."

"Where?" asked May in surprise.

"Oh, don't you know?" said Agnes. "In the school for scandal."

### THE SUPER-OPTIMIST

Mrs. Elizabeth Edwards of the Molly Pitcher Club said in Albany: "I object to prohibition because it allows the bootlegger to flourish. To look on prohibition optimistically is—well, it is like the story.

"An optimistic man bought a pair of shoes and when he got them home he found a nail sticking up through each heel.

"Of course you'll return them," said the wife.

"No, I don't think so," said he. 'The nails were probably put there to keep the foot from sliding forward in the shoes.'"

### SOUTHERN SERVICE

Lord Burnham, the English newspaper proprietor, said on his return to New York after a tour of the south:

"I like the south, the southern cooking is excellent, but the service leaves something to be desired.

"In a Georgia hotel one day I heard a lady say to a waiter as he came towards her balancing his tray above his head:

" 'No use serving me that turtle soup, waiter. It isn't hot enough.'

" 'But, lady, how do you know it isnt?' gasped the waiter.

" 'By the way,' said the lady, 'you can keep your thumb in it.' "

## NEW TORONTO MANAGER HARRIS, FORBES & CO. LTD.

W. H. WATSON
Who has been appointed Manager of the Toronto Office of Harris, Forbes & Co., Ltd.

Announcement is made by the international banking house of Harris, Forbes & Company, Limited, that W. H. Watson has been appointed manager of the Toronto Office of the Company.

Mr. Watson is a graduate of the University of Toronto. Since his return from overseas service with the Canadian Forces, he has been associated with Harris, Forbes & Company, being one of the organizers of their Toronto Office.

Mr. Watson, who is a Torontonian, is the son of W. S. Watson, Assistant General Manager of the Toronto General Trusts Corporation.

## PRESS OPINIONS

### CROSS-EXAMINATION

(Montreal Star)

Cross-examination is often brutal and counsel too often press charges for which they know there is no real foundation. For public men particularly, exposed as they are to constant misrepresentation and slander, there is an obligation upon judges to prevent the courts from becoming agencies of defamation.

In the wanton abuse of public men lies one of the great evils of free government, for it keeps many good citizens out of politics and makes life something of a torture to many of those who give themselves with zeal and fidelity to the service of the state.

### GOODS FOR GOODS

(New York Exchange)

It should not be forgotten that the basis of commerce, its very life, does not consist in exchanging goods for money, but in trading goods for goods. Money is nothing but tokens, marks or counters of trade. If we kept this in mind we would see that the enormous debts of one nation to another can eventually be settled only as countries can exchange goods with each other.

### UNIONS MISTAKEN

(New York American)

It would be hard to find cause for gloom as regards this country's prosperity. If our lawmakers would allow enough immigrants of the kind that this country needs to come in to develop unused acres, and consume surplus products, conditions would be even better.

The worker who thinks that immigrants would reduce wages should remember that the average man makes today, with 110,000,000 people in the country, from six to ten times as much as he made when there were only 4,000,000 people here.

### INSTALLMENT SYSTEM

(Flint Journal)

Most forms of debt are obligations for easy living. Nowadays we have exceptional opportunities to buy on credit whatever we desire, almost regardless of cost, and make installment payments to wipe out the debt. The installment system is good in itself. It not only increases the volume of business and to some extent, lowers prices of goods and enables all persons to have extra conveniences, but is also, in some respects, a method of saving.

As long as a family or individual does not enter into excessively severe obligations, or buys too many things on credit, the installment plan should work out to general satisfaction. The load should not be heavy, nor should too many articles be purchased at once.

### THE FORD COMPLEX

(Atlantic Monthly)

Finally, "this man Ford," as the first families of Detroit used to speak of him when he was on his way up, is scornful of many things, worthy and unworthy, that the common man worships and to which the well-to-do defer at least in attitude. He scoffs at learning that has no earning power, at influence that is based only on affluence, at history, art, and many of those finer graces of life which, even in a democracy, as yet mean little to the masses.

This plutocrat, sprung from the people, remains a rebel, conscious that much is wrong with the times, the world, and the country. In his own town he played a lone hand, refusing to sit in with the business oligarchy which, there as elsewhere in industrial communities, is the real seat of power. Bankers continued to be his pet aversion long after he became a banker himself.

The American people could keep hold of such a man in spirit; could even, brooding upon him mystically, make him the central figure of a myth. In a world that daily became more of a puzzle for simple minds, here was a man of the people who could beat the big game." Better than any man of his generation Henry Ford came to personify the dynamic democracy of native America.

# CO-ORDINATION POLICY FOR EUROPE AND UNITED STATES

## President Coolidge Seeks Point Where Old World Can be Helped Without Entanglements

By A. L. BRADFORD
(United Press Staff Correspondent)

Washington, Jan. 24 (United Press)—The American Allied inquiry of private experts into Germany's financial situation—now meeting in Paris and elsewhere in Europe—may result in a new basis for relations between the United States and the Old World observers here believe.

The basis of such relationship, in the opinion of students of the situation may be as follows:

A readiness on the part of the United States to have American brain and influence made available in the interest of bringing about and maintaining peace in Europe, but refusal to allow this government and country to be involved in European politics generally, or to pledge American prestige and power in advance in any situation.

Such a policy would be neither cold isolation nor involvement in European politics and intrigue. When President Coolidge announced some time ago in a statement from the White House that the United States had accepted an invitation to have private American experts participate in the German reparations investigation, a howl went up from the "irreconcilable" element in American politics that the Administration was taking the United States back into European embroilments.

### Opposition Quieted

However, with repeated insistence by President Coolidge that this is not the case, members of the Cabinet here now believe that this opposition has been quieted, at least to a considerable degree. The President in several statements to the press at the White House has emphasized that the participation of the private American experts in the reparations inquiry does not mean that the United States has taken the first step looking to entrance into European affairs.

High officials of this Government believe that there is a good deal of the ridicule in connection with the constant agitation over the question "Shall or shall not the United States enter European affairs."

The traditions of the country is well known, they say, that America shall not become involved in European politics. But this well-defined policy did not prevent the United States from taking a full part in the Algeciras Conference on Tangier in 1906, for instance.

However, it is stated that there is a great difference between the traditional American foreign policy of abstenance from European affairs and the policy of former President Wilson or full participation of the United States in the problems of the Old World.

Therefore, it is expected here, the private status of the American experts in the reparations inquiry now going on may very well bring about a new American policy towards Europe—a policy of "non-involvement, but co-operation when helpful and practicable."

## Music&Drama

### FAIRBANKS NEW PHOTOPLAY A LITERATURE OF SCREEN

To the character Robin Hood in Douglas Fairbanks' newest photoplay sensation for United Artists release, entitled "Douglas Fairbanks in Robin Hood," the star and producer has given of his best. As Robin Hood he is the embodiment in all ways of that notable personality of eight hundred years ago as we of this ultra-modern day would understand and appraise him, while the production itself, coming to the Griffin Theatre next Monday, Tuesday and Wednesday, realistically presents the vivid color and stirring atmosphere of that romantically aventuresome past.

"Douglas Fairbanks in Robin Hood" represents a real literature of the screen, genuine and historically accurate in costume and setting, and truthful in every small detail as well as in important basis.

It blends facts and fantasy, history and legend, and combines the glories of poetic and artistic beauty with an authoritative interpretation of the spirit of romance and adventure prevailing in the Twelfth Century.

It gives a vividly real impression of the romance, the conflict of emotions and the aspirations which made so memorable the period in which "Richard the Lion-hearted" ruled.

fundamentals that actuated the leaders of thought and action of a time when the spirit of chivalry dominated as never before or since.

It visualizes the drama of life and its living when Robin Hood was confronted by supreme tests of his admirable valor in behalf of the Maid Marian, and the downtrodden, unfortunate victims of a feudal age.

It gives, above all, the utmost in entertainment deplete with all those qualities of enthralling drama, breathtaking suspense, and wholesome relieving, diverting humor.

It is a scenic replica as nearly accurate as humanly possible, presenting a re-creation of life and its environments in those days of knighthood.

It presents an historical background [illegible] ned with deftness from all available records in months of the most exhaustive research, both in this country and abroad, that never has been devoted to any cause.

**Two Bottles Worked Wonders**

Mr. Jackson More Than Pleased With Remarkable Benefits DRECO Gave Him and Feels 100% Better Already

"For sometime I have suffered from stomach trouble and a general rundown condition of my entire system," says Mr. Benjamin Jackson, of 30 Nelson street, Kingston. "Gas would form in my stomach after eating and my food would sour and come up in my throat until it nearly choked me. I had a very poor appetite, especially in the mornings, when I never cared whether I ate any breakfast or not. I had a dull, tired feeling all the time and didn't seem to have any energy to do my work, this, no doubt, due to lack of proper nourishment.

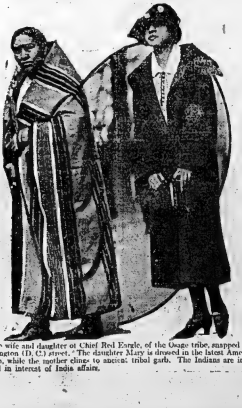
"I tried several different kinds of medicines and although I persevered with them, nothing did me any good. Dreco, however, was different. Although I have only taken two bottles of this grand remedy, I feel 100% better than I did before. I scarcely have any trouble with my digestion now and my appetite is better than for many months. I have gained in strength because I am now getting the proper nourishment from my food and feel far more energetic, that old, tired, worn-out feeling having practically disappeared.

"Constipation, which was also a source of great annoyance to me is a thing of the past, thanks to Dreco, which is certainly a great tonic and healthbuilder, one that it is a pleasure to recommend to anyone who suffers as I did."

No man can work properly with his digestive system out of order. He feels weak, tired, worn-out and listless conditions which are easily overcome, however, by the use of Dreco. This Mr. Jackson proved and you can just as easily prove it too. Get a bottle today and note the improvement in your condition that follows from the very outset. Dreco contains no mercury, potash or habit forming drugs. It is prepared from Nature's own herbs, roots, bark and leaves and has proved its value to thousands of sufferers.

Dreco is being specilly introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.

## Old And The New



The wife and daughter of Chief Red Eargle, of the Osage tribe, snapped on a Washington (D. C.) street. The daughter Mary is dressed in the latest American fashion, while the mother clings to ancient tribal garb. The Indians are in the capital in interest of India affairs.

## 2ND OF THURLOW

The snow fall on Saturday has improved the sleighing.

The farmers are busy these days hauling wood.

Much sympathy is expressed to Mr. and Mrs. Clayton Houston in the loss of their baby daughter, Dorothy.

Mr. and Mrs. Archie Greatrix's baby Ralph is somewhat better.

Rev. Totten is holding revival meetings at Spencers Ch.

Miss Nora Leverton spent a few days with her friend, Miss Audrey Horden.

Mrs. Andy Reid is on the sick list.

Mr. and Mrs. H. Shetler took Sunday dinner with Mr. and Mrs. James Hill.

Mrs. Stanley Irvine is visiting her parents, Wellman's Corners.

Mr. and Mrs. Harry Hulin spent Sunday at Mr. H. Rosebush's.

Mr. and Mrs. Willie Bush and Kenneth visited relatives here on Thursday and Friday.

Mrs. Jared Hanna and Everette spent a few days last week in this vicinity.

Mr. G. W. Bush has returned to Melbourne after spending a couple of weeks with relatives here.

Mr. and Mrs. W. H. Hanna and children spent Saturday night at Mr. Alex. Bush's.

Mr. and Mrs. Percy Utman entertained company on Friday night.

## RIVER VALLEY

Mrs. S. Dix has returned home after spending a few days visiting relatives in Stirling.

### THE MODERN MAID

"Mary, Mary, quite contrary
How does your garden grow?"
"That's the gardener's work," said
Marie with a smirk,
"Ask him if you want to know."

## WEDDINGS

### CARR—WADDELL

A quiet wedding was solemnized in Christ Church on Wednesday afternoon, when Norma C., only daughter of Mr. and Mrs. David Waddell, was united in marriage to Mr. Fred J. Carr eldest son of Mr. and Mrs. Dennis Carr of Sidney Township.

The bride, who was unattended wore her travelling costume of racquet shade poiret twill, with hat and shoes to match, and wore the gift of the groom, a white gold bar pin set with diamonds.

Mr. and Mrs. Carr left immediately after the ceremony for Toronto, St. Catharines and Buffalo. On their return they will reside in Sidney.

### MARRIAGE

CARR—WADDELL—On Jan. 23rd, 1924, at Christ Church, by Rev. C. E. Clarke, M.A., Norma C., only daughter of Mr. and Mrs. D. Waddell, of Belleville, to Fred J. Carr, of Sydney.

## Claim $48,000 on Mortgage

### Action Entered in Respect of One Hundred and Thirty-five Acres

Toronto, Jan. 24.—Louisa Allen is plaintiff in an action which has been entered at Osgoode Hall against the Globe Land Co., Ltd., and the York Land Co. to recover $46,610 alleged due upon principal and $1,816.38 alleged due as interest under a mortgage upon 135 acres in the second concession east of Yonge street.

## IN MEMORIAM

### LUELLA STAPLEY

In sad and ever loving memory of our dear Luella, who departed this life January 24, 1918, aged 18 years.

Gone home to be with Jesus,
'Mid all that's bright and fair,
Gone home; now resting calmly
Amid the angels there.
Gone: just a crossing over
To yonder Heavenly Land,
Safe guided by a lamp of love
Held by a Father's hand.
Sleep on, dear Luella, and
Take thy rest. God calls them
Home that He loves best.
You suffered long and in patience
you bore,
Till God called you Home, to suffer no
more.

Sadly missed by mother, father, sisters and brothers. 1td

## FALLS ON SIDEWALK AND BREAKS HER ARM

Mrs. John Lloyd, who lives at 62 Everett street, had the misfortune to fall on the sidewalk almost directly in front of Christ Church last evening, and break her arm. The unfortunate woman was removed to the General Hospital where she is reported to be resting satisfactorily today.

## MAKE ARRESTS ON SMUGGLING CHARGE

(United Press Despatch)

La Paz, Bolivia, Jan. 24.—Many persons have been arrested in connection with the discovery of a plot to smuggle arms across the border, from the Argentine. Arms were destined for use in the movement against the Government, the police statement said.

## Kingston Team Elects Baseball Officials

Kingston, Ont., Jan. 24.—There was a meeting of the Kingston Amateur Baseball Association (the Central Ontario League club) last night. The following officers were elected for 1924: President, B. Noble Steacy, Vice-President, Ald. Howard Kelly; Secretary, A. Murray; Treasurer, W. L. Kennedy Manager of Team, J. J. Daley; Business Manager, Bert Booth; Grounds Manager, W. J. Arnell; Publicity Manager and Official Scorer, J. J. O'Neill.

The Bradden Telephone Company, which operates in Thurlow and other townships, made a request of the County Council to be alowed to trim trees which interfere with their lines. The trees in question are upon County roads and some in front of private residences. After some discussion the Council decided to take no action in the matter.

## Canada's Coal Problem

### Time Has Come When Substitutes Must Be Provided for Anthracite

Ottawa, Jan. 24.—Delay in obtaining substitutes for anthracite importations into Canada is dangerous because of the certainty of ultimate exhaustion of supplies, rising prices and the possibility of an embargo against export, declared Dr. Charles Camsell, Deputy Minister of Mines, in outlining before the Engineering Institute of Canada here today the steps that have been taken and the most important plans being carried out to arrive at a solution of the fuel problem.

As new sources of domestic fuel cannot be developed at a moment's notice, we must make preparations several years ahead for the time when Pennsylvania anthracite will not be available," Dr. Camsell said.

## MARK HARRIS CITED

### Buffalo Judge Orders Suspension of Brokerage Business

Buffalo, N.Y., Jan. 24.—Justice A. B. Emery, in special term of Supreme Court today, issued a restraining order against Mark Harris, ordering suspension of an extensive brokerage business, and citing Harris to appear before him on January 29 to show cause why the order should not be made permanent.

Harris was said to have many clients in Canada.

## Charged in Montreal

### Alleged Bookmaking and Gambling Transactions Involving $75,000

Montreal, Jan. 24.—Frank Knight appeared before Judge Cusson this morning charged with conspiring with another party to infringe the provisions of the criminal code as regards bookmaking. The accused was released on bail to appear for preliminary investigation set for January 30.

The complaint as laid by Herbert Blurton Gadsden, of Toronto, superintendent for a bonding company having an office in Montreal, is that from April 1923 to January, 1924, Knight was custodian of money and valuable securities aggregating 75,000 which he staked wagered and pledged.

## CANNIFTON

According to the story of Lillian Rosevear, and judging by the appearance of her arms and face, she received a strapping from her husband, George Rosevear, and a general pummelling yesterday afternoon. George was this morning charged with assault, occasioning actual bodily harm, in police court, and after hearing the story of the wife, the case was laid over for one week by Magistrate Masson, to see if some amicable arrangement cannot be drafted.

"No I will not go back with him," persisted the woman, though counsel for accused, E. D. O'Flynn, and Crown Attorney Donnan pleaded that she agree for the sake of the two children. "No I am afraid of him. He will beat me for having him in court, and after the beating he gave me yesterday, I am through living with him" she continued. Drink makes Rosevear crazy according to the wife's story, and he beats her every time he gets liquor. "All the Canifton men are afraid of him."

## Year of the Big Flood

### Rain Fell on 271 Days in Ireland Last Year

Omagh, Ireland, Jan. 24.—The year 1923 was the wettest in a century, according to records kept at Edenfel, the residence of Colonel J. B. Buchanan. It is estimated that more than 56,000 tons of water (56.11 inches) fell on each statute acre. The number of rainy days in the year was 271.

Castletownshend (Cork) records show that the precipitation thereabouts was 8.9 inches above that for 1922 and 10.1 inches higher than the average for the preceding ten years.

In Most Homes

In these days of sedentary habits it becomes necessary for nearly all the members of the family to use some treatment to arouse the sluggish liver and ensure regularity of the action of the bowels.

Because Dr. Chase's Kidney-Liver Pills can be depended upon to produce the desired results under all conditions they are the most popular of family regulators and are found in the great majority of homes as a safeguard against the scores of ailments which have their beginning in constipation, biliousness and a deranged digestive system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.

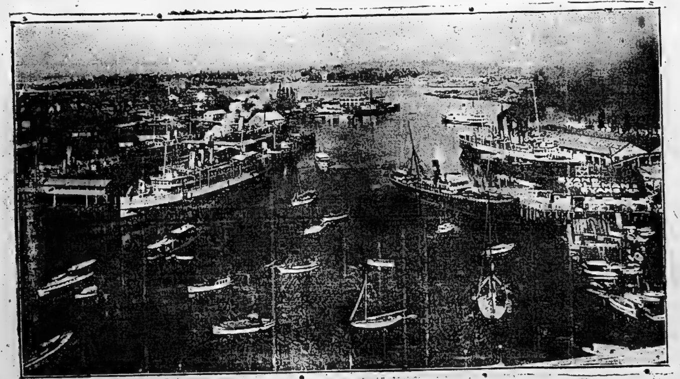
## CANADA'S FLORIDA ON PACIFIC COAST



SO LOUD ARE CALIFORNIA AND FLORIDA PRESS AGENTS in their praises of their native States that there are many Canadians who do not know that Victoria, B. C., almost rivals those States as a winter resort. Here, the temperature is even and fairly warm throughout the winter and many pleasure craft may be seen darting in and out of the bay. This view shows the southern end of the harbor, with the C. P. R. docks on the left, and the wharves of the Grand Trunk Pacific on the right.

Contrary to the usual experience at a christening, the infant was as quiet as a lamb. Instead of yelling when it felt the water, it smiled cheerfully in the canon's face. Afterwards he said to the mother, "Madam, I must congratulate on the little one's behavior. I have never before christened a child that has behaved as well as well as yours."

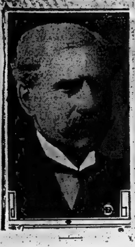
"Well, you see, sir," came the unexpected answer, "is father an' me have been practisin' on 'im with a pail of water for the past week."

IT PAYS TO ADVERTISE IN THE INTELLIGENCER

# MacDONALD-BRITISH LABOR LEADER

## He Is A Scot Who Is Canny And Wise

RAMSAY MACDONALD



London, Jan. 24 (United Press).—What manner of man is James Ramsay MacDonald, leader of the great British Labor Party, head of the opposition in the British Parliament, prospective premier who knows what after that, with many crowns askew and throne tottering?

MacDonald is a professional politician. Men in England make honest politics a profession. In the United States only men like Charlie Murphy, head of Tammany Hall, can afford to proudly bear the title of "Professional Politician." They put themselves in the congressional directory as lawyers, farmers, doctors, etc., even if they make their entire living from office holding and office hunting.

Then, too, MacDonald is a real labor leader and at the same time never learned a trade and outside of labor politics would probably earn his living as a farmer or writer. Samuel Gompers, A. F. of L. leader, old as he is, could go out and earn a living rolling cigars—his old trade.

MacDonald is a professional political-labor leader. That is no discredit in the English labor movement. That's the different point of view.

### A Poor Man

MacDonald is a poor man. He has known bitter, grinding personal poverty. He has ever been far from it. He owns a small house in the Hampstead section of London and a little farm house up among the Scotch moors. He never went in for money making. Apparently it doesn't appeal to him. Anyhow, he never got it. He is a Scotsman with simple tastes and appetites. Strange to say, he is both a Scotsman and teetotaler. He smokes, as his daughter says, "whatever he has."

On the platform MacDonald is a real orator. He plays on his audience as an artist does on a pipe organ. He can run the whole gamut of human emotions. Off the platform he is a secret as an oyster. A kind of shyness seems to be second nature. Another thing, as a good politician—and never forgets he is a good one, he knows that a man who says little has little to deny. It might be said that he is a kind of Scotch "Coolidge."

And MacDonald is a fighter, make no mistake about that either. He selected the Labor-Socialist party when he might have gone into the Liberal party with more profit and less battle.

### A Real Scot

MacDonald is a real Scot. He was born at Lossiemouth in 1866. High up in the hills of Scotland his family lived for generations, farmers, fishermen, village blacksmith. Early in his life young MacDonald came under the influence of one of the old village "dominies," still to be found in Scotland, who were and still are aki to the old-fashioned clergymen in the smaller American towns, who had learned alike the good and evil of the big world and were "guide, philosopher and friend" to the younger generation. Anyhow, the friendship between dominie and young Scotsman endured until death parted them and MacDonald still carries the watch that once ticked off the heart beats of the Scotch village.

When 19 years of age, McDonald left for London to seek his fortune, as penniless young Scotsmen, Irish men and Welshmen have been doing since before Columbus sighted the shores of the New World. Young MacDonald didn't know a soul. He tramped the streets for days, looking enviously at the bus drivers. He ate when and what he could buy with his meager stock of shillings. Finally he got a job—it wasn't a position—with a firm, making out invoices in an underground cellar. He got $7.50 a week and he now admits he earned it. He bought his food in markets and from pushcarts, drank water because it was cheaper than tea, coffee or beer. He spent the $7.50 per week so carefully that he managed to clothe himself and buy books and pay college fees. He graduated out of the cellar into a clerkship. He worked all day and studied nearly all night. With the candle burning at both ends, he paid the penalty, a physicial breakdown.

### Wanted To Study

He went back to the Scotch craigs to collect a store of health for another effort. He came back with it and little else, seeking a job that would enable him to keep on with his search for knowledge.

He went back to the Scotch craigs to collect a store of health for another effort. He came back with it and little else, seeking a job that would enable him to keep on with his search for knowledge.

The young, keen-eyed, eager Scot fell under the eyes of Tom Lough, a liberal member of Parliament, well-known in his generation. To a man ambitious to rise in politics, the acquaintance was a God-send. Lough made him his secretary. Henceforth youn MacDonald was in politics.

During his early days in London, MacDonald was forced by necessity to mix with the very poor and found that he had an appetite for what one in America would call "uplift" work. It turned his political trend toward championship of the under dog. He made up his mind that the two great parties of England—Liberals and Conservatives—carried no message of hope to the English masses. He became an avowed Socialist-Laborite.

### Also Won a Wife

Not only did he gain his politics from his early association with social work, but also his wife. As a member of the Woman's Industrial Council, he met Miss Margaret Gladstone, foreign secretary of the organization. She is said to have been a distant relative of the great Gladstone, premier and statesman, who first championed home rule. He maried her in 1896. She died in 1911. The following year the canny Scott wrote and published her obituary—a beautiful tribute to a woman of rare character, sweetness and devotion to her fellowmen. She worked from early youth among the very poor, after having been reared in a home of comfort.

In 1900 MacDonald was made secretary of the Labor party, a position he held for 11 years. In the meantime, also, an organization known as the Independent Labor party—famous in British politics as the "I. L. P."—was formed, and MacDonald was made its chairman from 1906 to 1909 inclusive. He was made the leader of the Labor party from 1911 to 1914. During these years, McDonald read widely and well and his books on social and socialistic problems were and are standard on these subjects.

When the currents of the World War began to sweep the shores of the British Islands, MacDonald didn't follow the socialists of some other countries and join the bay of the war pack. He was against the war and said so, in season and out. The sign "Pacifist" was pinned on him. In those early war days, he was about as popular as a dog with a "rabies" sign. He was twice defeated for his parliamentary seat from the city of Leicester, which he had held since 1906. He wasn't Scotch for nothing, however, and went serenely on his way.

It wasn't until a little over a year ago that he came back, as far as the voting population was concerned. He was selected from a Welsh constituency and triumphantly re-elected on December 6 last. Upon his reappearance in Parliament about a year ago he was made the leader of his party, which made him the formal leader of "His Majesty's Opposition."

### The Real Leader

MacDonald has long been recognized as the labor leader in Great Britain. When he became titular head of the party in the House of Commons a Tory paper of London, to whose editor the Labor Party was as a red rag to a bull, said: "MacDonald has always been the real head of the Labor party, whoever may have nominally, for the time being, held the office. MacDonald, in fact, when the Labor party is concerned, is IT. He is also the Limit."

Make no mistake about it! Whether you agree with him or not, MacDonald is a big man. He's got a big job ahead and may lose. But if he does, his party will go down fighting, and he will be at the head of the fighters. He's canny, has poise, grimness and earnestness. He has nothing of the loud-mouthed, soap-box type about him. He isn't humorous and doesn't want to be. Englishmen take their politics seriously and while a man like J. Hamilton Lewis might laugh himself through the United States Senate, a maker of smiles would soon smile himself into oblivioun in England. Politics in England is nothing to laugh about, unless you are out of it and want to stay out.

Personally, MacDonald is one of the handsomest men in British politics. He has rather long waving gray hair, piercing eyes, a deep-toned voice slightly tinged with a Scotch burr. His walrus moustache, while it doesn't cost him anything in the British Isles, he would probably have many a cartoon hung on it in the United States.

All in all, James Ramsay MacDonald is a pretty big man, and the United States is likely to hear a good deal more about him in the next ten years, if he lives.

## ISHBEL AND JOAN MACDONALD DAUGHTERS OF NEW LABOR PREMIER

## TEACHER KISSED HER, SAYS GIRL

### College Girl, When Expelled by President, Charges He Grew Affectionate

Albion, Mich., Jan., 23.—While trustees, faculty members and students of Albion College today mustered forces for Monday's meeting of the board in Detroit to investigate disorders at chapel yesterday morning, when 550 students booed and hissed President John W. Laird from the room, newspapermen sought vainly to locate Laird, against whom student charges of "gross incompetency" have been made.

Dr. Laird, one of the youngest college executives in the country, has not been seen. His home is dark and his telephone and doorbell ring unanswered.

Dr. Laird said the chapel riot in which hymn books were thrown and general disorder prevailed until he left the room, was precipitated by his expulsion of "a certain young woman" who he said had confessed to smoking cigarettes and going on an automobile drinking party. A few dissatisfied students, Dr. Laird said, brought on the chapel uproar because of friendship for the girl.

Countering this statement, student leaders said the girl had been expelled without proper action by the disciplinary committee. They said the girl had filed a statement at Detroit with Theodore Henderson, bishop of the Michigan area of the Methodist Episcopal Church, which supports Albion College, in which she charged President Laird had put his arms around her and attempted to kiss her.

To this, Dr. Laird replied yesterday admitting the filing of the girl's statement, but saying that Bishop Henderson had exonerated him and upheld his action in expelling her.

### CLOTHING WORKERS LOCKED OUT

Montreal, Jan. 24.—A lockout of 1500 men's clothing workers in Montreal by the Clothing Contractor's Association, folowing the refusal of the workers to accept a reduction in rates of pay, has closed down since Monday, ninety contract shops and some thirty-five to forty of the smaller inside shops in the industry.

## Drink Water To Help Wash Out Kidney Poison

### IF YOUR BACK HURTS OR BLADDER BOTHERS YOU, BEGIN TAKING SALTS

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

## Alive And Well

Rumors of the arrest and execution of Russia's patriarch, Tikhon (top photo), are proved groundless by the photo herewith. It was snapped on Christmas Eve last at Tikhon's home in Don Monastery. Tikhon is orthodox and remains steadfast to old customs. The bottom photo is that of Tikhon's opponent, Judokin, whom Tikhon calls "a general without soldiers." This also is a late picture.

### SECRETARY TO MINISTER

London, Jan. 24.—Miss Margaret Bondfield, the new woman Labor member for Northampton, was appointed as Parliamentary Secretary for the Ministry of Labor—the first woman to serve in such a capacity.

CHARLES EDWARD DAVIES

Formerly Assistant General Manager, whose appointment as Acting General Manager of the Canadian National Telegraphs has been announced, following the sudden death of Mr. George C. Jones, late General Manager, December 31st, 1923.

Mr. Davies received his first telegraph experience with the Western Union Company at Helena, Montana. On January 1, 1906, he commenced his career with the Great North Western Telegraph Company, starting at Ottawa as Chief Operator. On September 20, 1909, he was made Manager at Ottawa, and two years later was given charge of the electrical equipment in addition to his other duties as Manager at the Capital city.

On January 1 of this year he was made Assistant General Manager, in charge of electrical engineering, plant work and railway service. Owing to the sudden death of Mr. Jones, however, he only held this position for one day, when he was made Acting General Manager.

Mr. Davies is a Fellow of the American Institute of Electrical Engineers, and a member of the Committee of Direction of the American Railway Association. He is also an active member of the Association of Professional Engineers of Ontario.

## Made Fortune In Dusty Little Shop

St. Louis, Mo., Jan. 21. (United Press)—Dust is fast collecting in the narrow window of a little store down on Biddle street.

Residents of the ghetto district passing by stare at the rudely-pencilled sign on the door: "Closed on account of death."

Jefferson Wall, the storekeeper, is dead. Behind him he left the dusty little shop and a fortune of $600,000.

At the age of 12, Wall started business here with a peddler's pack. That was 55 years ago. He bought a small shop, made money, and invested it in tenements, apartmenthouses, and other real estate.

They say of Wall down at Thirteenth and Biddle streets that he never raised his rents a dollar, and that he sold goods at cost from his shop during the last 15 years. He never gave to charity, holding it made people lazy, until his later years. He worked from 8 to 6 every day, and transacted all his dealings from his dusty little shop. Few knew of his large fortune.

Wall cared little for surroundings. His dress was careless. His goods were packed indiscriminately into bins. But Wall knew where they were and prices are the important things down on Biddle street.

## DUCHESS HUNTS FOX FROM HER TRACTOR

Paris, Jan. 24.—(United Press)—The Duchess d'Urez is the ultra modern Diana the Huntress. Instead of a spirited horse, she rides a tractor when hunting deer and fox. With old age she could no longer manage a galloping jumper. So she bought a specially equipped tractor like the baby tanks of war time. Attired in crimson coat, boots, spurs and other traditional garb, the duchess follows the hounds up hill and down dale with keen enthusiasm. A veteran of the French tank corps pilots the hunting tractor.

## GUNNERS DEFEAT POINT IN CLOSE LOCAL GAME; MAINTAIN CLEAN RECORD

**Stellar Work of Scott, Net Guardian, Largely Responsible For Victory of 34th Battery Sextette—Many Spills and Thrills.**

Maintaining their splendid record in the Bay of Quinte hockey league race this season, the 34th battery hockey squad of this city, defeated Point Anne six in a schedule game at the arena here last night, it being their fourth successive winning game of four played. The final score was 3-2 and the game was not absolutely sure until the final gong.

Though not fast at any stage, there were flashes of good hockey, and pretty combination play toward the end of the game. Some of the visiting players were not sure of their feet on the keen ice, and spills were not uncommon.

### Scott a Wonder

Probably the soldier boys owe their victory as much as anything else to the stellar performance of their net guardian, Scott, for without a word of doubt he was the smoothest, most agile and finished hockey player in uniform. He deflected shots and then more shots off his pads with apparent ease and grace.

Scott is out of his class as a goal minder in the Quinte league. That he had a busy evening anyone who saw the game will agree, for the boys from the Point had half the play and possibly just a bit more, on the evening's exhibition and they sure bombarded the enemy citadel. Invariably they passed the puck to Frank "Soup" Goyer, and let him pack them at Scott. Goyer has a terrific hot, and he laid them on Scott's pads to the "heart rending" point, without avail. Veteran Pat Boland in the Point citadel, turned in a nice game too, and though beaten three times during the sixty minute go, it was no disgrace.

### Frank Goyer Good.

"Soup" Goyer was the most effective man for the Point, although he was bottled up safely by the Battery boys who knew the 'wise' moves. Repeated rushes by Goyer, appeared dangerous, and he was successful in scoring one of the two tallies. The wing men for the point, B. Green and Martin Brant are also active on a rush, and carried the play into enemy territory time and again, Brant scoring the second and last goal for his team. Tompkins, right defence is a good skater too, but did not have many opportunities to display his wares last night.

For the Battery boys of course Scott stands out prominently. Bill Canning is their most finished attacker, Symons being useful also. Peculiar enough two of the three goals were scored by subs, both Gar Arnott and 'Lefty' Jack Williams each bulging the twine once. Arnott was one of the best men on the ice and should have been used more by the soldiers, and Williams played a useful game too, using his weight with good effect.

### Referee "Hobbles" anning

Referee Walters of Napanee, who handled the bell, is not a smart official, and never appeared to have the game under control if anything started. He gave the Battery boys a raw deal, and it is a marvel that he alone did not beat them. Repeatedly he penalized the locals in many cases for no obvious reason. If a Point Anne player fell, some battery player was waved to the "rest house." Bill Caninng's evening was spoiled by Walters' tactics, and it is little wonder that Canning hotly protested on two occasions. At one time in the last frame three battery players were in the "Coop" at once. The peculiar feature was that Point Anne rarely drew a penalty, though Green on right wing was hooking and tripping all evening. Walters evidently loves the Point Anne players. He must be their "father".

### Arnott Scores First

Gar Arnott notched the first counter in the first twenty minute go, when he was thrown in the attack as a sub. Grabbing the disc near centre ice, he easily stick handled through the whole team, and unassisted sent a swift one past Boland for the cheers. That is the way the period ended, Battery 1, Point Anne 0.

### Penalties Galore

The second frame was featured by penalties, and the locals were the sufferers playing under that handicap throughout the period "Nap" Goyer, with a snappy shot, neted number two for the Battery in this period, and that was all the scoring which occurred until old number three.

### Point Anne Tally

Brant tallied the Point's first when he picked the rubber from a scramble, and beat Scott. Jack Henry, Williams scored the nicest and most unexpected tally of the evening, however, when he took a pot shot at Boland from the left wing boards and away out. It sailed up to Boland breast high, to his right side and with plenty of velocity. Boland put out his right hand and all but stopped it, but it got away from him, flopped over his mitt and dropped into the net. "Soup" Goyer netted number two for the Point aboout one half minute before full time, with one of his wicked shots from close range, after the point team had pressed hard for several minutes with three quarters of the play in their favor.

Point Anne—Goal, P. Boland; left defence, J. Maracle; right defence, R. Tompkin; centre, F. Goyer; left wing, B. Brant; right wing, B. Green; subs., H. Genereaux and P. Goulin.

34th Battery—Goal, Scott; left defence, W. Canning; right defence, 'Nap' Goyer; centre, T. Whalen; left wing, A. Armstrong; right wing, S. Symons; subs., G. Arnott and J. H. Williams.

Walters of Napanee, Referee.

## ON THE ALLEYS

The Excelsiors again demonstrated their apparent inability to lost even the odd game when they won from the Originals last night by 153 pins. Although not by any means as strong a game as they are capable of playing, it proved good enough for a win. The Originals are coming right along with an ever increasing total and before the League closes they should be well up around the top of the ladder.

| EXCELSIORS | | | |

Four more league games were on the programme at the Recreation Alleys last night between the different leagues. In the ladies fixture St. Pats lost to the Canucks, the first game fairly even only 28 pins separating them, but the second and third the Canucks won with ease. Miss Murphy rolled the high single and three strings. In the junior league the boys from the Baby Shoe lost to the Express by over 200 pins both teams rolling low scores. In the "Big Six" group the Wanderers nosed the Hardware out by 23 pins, twas a hard game for the Hardware to lose as the Wanderers were leading by 120 pins, in the first two games. Harris was high man for the Hardware with a grand single of 280 and 623. Harris has rolled close to 1300 in the last two league games. The last game was between the Ball team and the K. of C., the former team rolling up a total score of 2811 against the K. of C. 2387. It was an off night for the Knights with the Ball Team in their best form, three members going well over the 500 mark and Meagher 610 for the three strings. Scores and players.

## Howley Is After "Lefty" Williams

Toronto, Jan. 24.—Jackie "Lefty" Williams, the Indian pitcher who turned down offers from the Toronto and Chicago Americans a year ago after a most successful season with the Belleville club and who pitched the same club into the Ontario semi-finals last fall, is wanted by the Toronto Club, and Dan Howley, manager of the Leafs, is down that way trying to get his signature to a contract. Williams is a smooth worker and has all the ear-marks of a fine prospect. Two or three amateurs of promise outside of the Belleville boy may also be asked for their terms by the local club.

### To-day's Prize "Crack"

Much has been heard about the modern girl and her ideas of various plays on a baseball field, as related to her boy friend who accompanies her and attempts to explain the plays.

The modern hockey girl eclipses the baseball girl, however, when she enquires, "Do substitute amateur hockey players receive as much pay as the regular players?"

And it was a difficult question to answer at that, even for the hockey fan of experience.

## Lindsay Game

Lindsay, Ont., Jan. 24.—So intense was the rivalry between Peterboro and Lindsay intermediates, and fans, in Tuesday night's game that it took very little to provoke the fracas which did actually take place three minutes before the final gong sounded.

Peterboro had the edge on the play all the way and 250 followers kept Lindsay fans uneasy with their megaphones and war whoops. Collins, of Peterboro, who had been playing tricky hockey, finally cross-checked W. Killen when the play was yards away. Jack Killen, a brother, rushed from the penalty box and landed a hook to Collins' jaw and the mix-up started. In two minutes there were 100 people scrambling over the boards and a melee took place, the slippery ice sending many to their knees.

In the mix-up was Les Richman of Lindsay, was tackled by McMartin, of Peterboro, and both crashed to the ice in a clinch, Richman's forehead striking the ice with a bang. The mix-up was soon over and play resumed. Richman walked off the ice, but swooned into semiconsciousness as he reached a nearby doctor's office. He was rushed home and spent a bad night, but is reported today as recovering nicely.

### LOOKING FOR "FISH"

Kingston, Jan. 24.—Yesterday the management of Queen's senior Intercollegiate hockey team received requests from the Shamrock hockey team of Ottawa and the St. Thomas hockey team of St. Paul, Minn., for exhibition matches to be played in Kingston.

## Senators Trounce Irish Easily, 5-1

Toronto, Jan. 24.—The largest crowd that has attended a professional game in this city saw the Ottawa Senators win their tenth game of the N.H.L. annual scramble last night at the Arena when they closed the first half of the season by defeating St. Patrick's, the present occupants of second position, by 5 goals to 1 and the visitors proved conclusively why they are the world's champions, why they have lost only two games since the N.H.L. season opened on December 15, and why they will likely win the league title again this year. Although they came down without Punch Broadbent and Cyril Dennenay, their regular wing men who were replaced by King Clancy and Spiff Campbell, late of Edmonton, they turned in the best game that has been provided by any team at the local hockey headquarters this year and had things pretty well their own way throughout, although the locals gave them a good argument until the second period was under way, but from then on it was a case of how big the margin would be when Timekeepr Jim Bailey decided the fans had had enough.

While the Senators, individually and collectively, played the best game they have shown on local ice for a long time the locals were away off color and with the exception of Roach, Stuart and Noble, failed to live up to past performances. Not that they didn't try but they simply could not get going and practically everything they tried went wrong. Jackson was perhaps the best of the remainder and he was subjected to a rough ride towards the end and was all for inaugurating a litte feud with Boucher but Referee Art Ross cooled him off. Adams, Dye, Loughlin, Arbour and Corbeau were all used in the game, but none of them encounterd much success, although up to the second Ottawa goal, there was always a chance that the Irish might pull out a win by the assistance of the breaks but the champions kept on with their brilliant work and increased their margin.

## Hams Dispose Of Frenchmen Easily

Hamilton, Jan. 24.—Hamilton had rather an easy time disposing of the Canadiens in an N.H.L. fixture here last night, the final count reading 4 to 1, and only the good work of Vezina saved the Frenchmen from a worse licking. Injuries have weakened the Montreal team. Boucher experienced much trouble with his bad knee and could not get going. His failure to keep up with the play had an effect on the rest of the forward line, and at no time during the sixty minutes of play did they measure up. Tigers showed punch to their attack. In the opening session they went in on Vezina three abreast and continued such an attack until they appeared to have things clinched. Then they played a three-man defence and the few rushes that Montreal started generally ended before getting near Forbes.

### Shorty Green Stars

"Shorty" Green got his chance as a regular and made good with a vengeance. His performance was the best on the ice and he along with his brother "Red" gave Vezina a heap of trouble in keeping the score down. "Red" had a dozen chances to add to the Hamilton total, but it was not until the dying moments of the game that he succeeded in breaking into the run column. "Shorty" started the Hams off on the right foot by scoring after six minutes of play and before the period ended Goldie Prodger added another which proved enough.

There was an improvement in the Hams play. On the attack they showed a wonderful passing game and the Cleghorn Brothers on the defence could not keep them out. Defensively they were just as good. The forward line checked back to the defence and the ones they missed fell into the hands of Prodger and Randall. Forbes had little or nothing to do. It was only at times that Montreal showed flashes of their old time form, but only once did they succeed in bulging the Hamilton net and that was a rebound which Morenz picked up and pushed past Forbes before he could get set.

FANNING WITH FARRELL

## SHOOING OLD BOYS FROM GOLF CLASSICS

By HENRY L. FARRELL

(United Press Sports EEditor)

New York, Jan. 24 (United Press).—are always featured more than the socks Smacks that Age takes against Youth that Youth lands on Age.

Perhaps that is the reason why a subtle but potent punch taken at Age in a speech made recently by Wynant D. Vanderpool, president of the United States Golf Association, slipped by almost unnoticed.

In addressing the annual meeting of the association here early in the month, Vanderpool said in part:

"In spite of the efforts of the eligibility committee, the number of players entering the amateur championship is still large. It is very desirable that this event should be played in one week and that the tournament should start on Monday morning. This can be accomplished only by reducing the list of those eligible to compete. It seems fortunate that players having no possible chance of going through should continue to enter. I do not wish to discourage the younger players whose game is constantly improving. MY THOUGHT IS THAT THERE ARE A NUMBER OF OLDER PLAYERS, WHO, EVEN THOUGH THEY QUALIFY, CANNOT POSSIBLY GO THROUGH THE TOURNAMENT. THESE, I THINK, WE SHOULD TRY TO DISSUADE FROM ENTEERING BECAUSE IT HARDLY SEEMS FAIR TO THOSE WHO REALLY HAVE A CHANCE TO BE CALLED UPON FOR AN EXTRA DAY'S PLAY."

Might that be a move against those who maintain golf is an old man's game?

* * *

Walter Kelly, the noted "Virginia Judge" and the proudest man in the world of his young brother, Jack, the champ oarsman, tell this one:

An Englishman, pacing up and down the tow path of the Brussels canal, had been worn to the point of collapse watching the Navy eight win from the famed Leander crew of England in the last 100 yards. He was further reduced when Kelly pulled up from behind and beat Beresford in the last 75 yards and he was about floored when Kelly and Costello did the same thing in the doubles.

"Might I ask you," he said to Kelly after the race, "is it the custom in America to let the other fellow win until the last few yards."

Kelly replied that it was considered advantageous to make the opponent set the pace and then "take him."

"Mighty effective, it is," the Englishman replied, "but damnably annoying."

* * *

The "judge", who is the world's open story telling champion, also has this one:

Beresford, son of a lord, wasn't keen about competing against Kelly, a "trades person," and he made several remarks about it.

He was forced by courtesy to say something after Kelly had beaten him in the finals and he walked up to him and forced out:

"Congratulations."

Young Kelly replied:

"Sympathy to you, sir!"

* * *

While some disturbances are being caused by the two rival bodies that are fighting for the control of the American Olympic team, no false notions should be assumed that everything is tranquil among the foreign nations.

This from South African papers:

"We are preparing for the Olympic games, but there is not a great deal of enthusiasm. As a matter of fact, the country does not trust the selectors, who, having shown favoritism in the past, with the result that mediocre performers were picked and better men left at home, are again doubtful.

"For instance, in H. C. McMaster, the Transvaller, we have the fastest three-mile walker in the world today, yet it is noted that because he is not in favor with the selectors, he will be ignored. Incidentally the Olympic trip is costing 50,000 pounds."

The South Africans are banking on some points in the sprints to be won by S. B. Betts, a Natal school boy, who has done a hundred yards in 9 4-5 seconds.

## BOWMANVILLE WINS IN OVERTIME GAME

Port Hope, Ont., Jan. 24.—Bowmanville defeated Port Hope in a junior O. H. A. fixture here in ten minutes' overtime, by a score of 7 to 5. Port Hope had the better of the play in the first period, but Bowmanville came back strong in the second and last periods, in the last period, Port Hope led by 3 to 2, and later got two more, making the score 5 to 2, but shortly after seemed to go to pieces, while the visitors came back with a rush and soon evened up the score, scoring two in the ten minutes overtime and winning the game..

### RENAULT WINS

Providence, R. I., Jan. 24.—Jack Renault, Canadian heavyweight, knocked out Tom Roper of Roanoke, Va., in the second round of a twelve round bout at Marievil's last night.

## PICTON GOALER DEFEATS TRENTON

Trenton, Ont., Jan. 24.—In a fast of hockey, that at times threatened to develop into old time shinny, Trenton juniors lost to Picton in an O.H.A. fixture here last night by the score of 6 to 3. The work of Boyle Picton's centre, and the extraordinary work of Yanover in goal, were what defeated the locals.

### BASKETBALL

St. Andrew's Apex and the Qui Vives of Bridge St., played the final game of the Sunday School Basketball League last night, completing the schedule of the junior league. Due to the fact that the Voyageurs have already won the championship of the junior division, last nights game had no bearing on the standing other than to complete the schedule. Nevertheless the players on both teams went into the game just as if the championship hinged on the issue. The Qui Vives were at a disadvantage playing without spares for relief and this quickly told on them. Considering the handicap they did well but were in no way able to bottle up the sharp shooting of Boyes and Kinnear. This pair accounted twenty of the teams twenty-eight points. The full time score was 28-4.

St. Andrews Apex—Boyes, Greenwood, Kinnear, White, Mills and Moffat.

Bridge St. Qui Vives—Allen, Dudley, Dalrymple and VanTassel.

The Intermediate game was a good effort on the part of both teams. Close checking kept the score low during the first half with concluded with the count 8-4 for Holloway. The second half opened briskly with the Holloway Boys pulling away from their opponents, Henry and Walters finding the basket frequently. The Tabernacle Five kept plugging away but were having hard luck on their shots. The game concluded with the score board reading Tabernacle 8, Holloway 28.

Last nights victory gives Holloway Intermediates the Championship for which they will be awarded individual shields.

Holloway—Walters, Hibbard, Henry, Marshall, Andrews, Wills and Woodley.

Tabernacle—H. Palmer, R. Palmer, Redfern, Clare, Redfern.

LOREN MURCHISON, U. S. Olympic hope, and CHARLIE PADDOCK'S greatest rival. He has defeated a quintet of the country's best sprinters.

Miss Bessie Rosebush spent Wednesday night with Mr. and Mrs. W. H. Hanna.

Mr. John Bush of Unionville is spending a few days with his relatives here.

Mr. and Mrs. Albert Irvin have been spending a week with their friends here.

Mrs. S. Dix spent a few days recently with Mr. and Mrs. W. F. Hannie.

Mr. and Mrs. W. H. Hanna and children spent Saturday evening with Mr. and Mrs. Alex. Bush.

Mr. George Bush has returned to Melbourne after spending a couple of weeks here.

Miss Isabel Park and Mr. Sheldon McIntosh were married in Stirling on Wednesday morning.

Mrs. Stanley Irvin is spending a few days with her parents at Wellman's Corners.

RUB PAIN OUT OF RHEUMATIC JOINTS

For 65 years millions have rubbed soothing penetrating St. Jacobs Oil right on the tender spot, and by the time they say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism and pain liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.

## RED CROSS MUST TAKE ON PATRIOTIC RELIEF NEXT MAY

### Ontario's Attorney-General Warns Provincial Meeting of Further Work fo Soldiers and Dependents—Splendid Year's Work

After next May there will be no further money available for the work now carried on for the soldiers and their dependents by the Patriotic Fund. That work will then have to be largely undertaken by the Red Cross. For neither a soldier or his family should have to look in their distress to charity.

Such was the response of the Hon. W. F. Nickle when at the close of his chairmanship of yesterday's annual meeting of the Ontario Red Cross, the Attorney-General was called on for some remarks. He added his tribute to the splendid Red Cross work throughout the province and voiced his belief that a further appeal to the people for funds would receive the response which so great a cause deserved. The Government of Ontario by a substantial vote had decided to assist the work of the Red Cross.

Col. Noel Marshall, when called on for his treasurer's report, stated that the Ontario Red Cross had spent $49,000 of its capital on the work during the year. Sooner or later the people of Canada will have to respond to another campaign, for not since the war had the Red Cross asked them for any money save for some specific purpose.

Col. Marshall presented no figures for his financial statement, but concluded his report with:

"I am going to ask my audience to take my word that all the money received by us has been honestly expended."

After his Honor the Lieutenant-Governor had made an introductory speech, complimenting the Red Cross on the importance of their work in the province, Dr. F. W. Routley gave a review of the year's activities. He spoke chiefly of the work for returned soldiers and the voluntary service of the Red Cross in co-operation with the Government and municipalities in advancing public health.

Hundreds of points in Ontario were in need of nursing help, declared Dr. Routley, who believed the day would come when each place would have its own nursing station. Even greater than their work for the sick was the value of the nurses' instruction to health laws, etc.

Dr. Routley, in referring proudly to the training of public health nurses through the Red Cross courses at the University, declared the best thing about it was that it had meant that such a subject had been put on the regular curriculum. Another valuable innovation was the introduction of nursing classes which graduates throughout rural centres in Ontario had given gratis. Lectures by leading medical men on latest methods had also been invaluable for isolated doctors.

Mrs. H. P. Plumptre, president, urged upon the members the necessity of continuing all the activities enumerated in the annual report, at the same time warning them that some concentrated effort for increasing the society's financial resources would have to be made. In thanking all those who had aided the Red Cross, Mrs. Plumptre praised the I.O.D.E. who had donated the $6,000 hospital in Haileybury and had given such splendid co-operation under Miss Church.

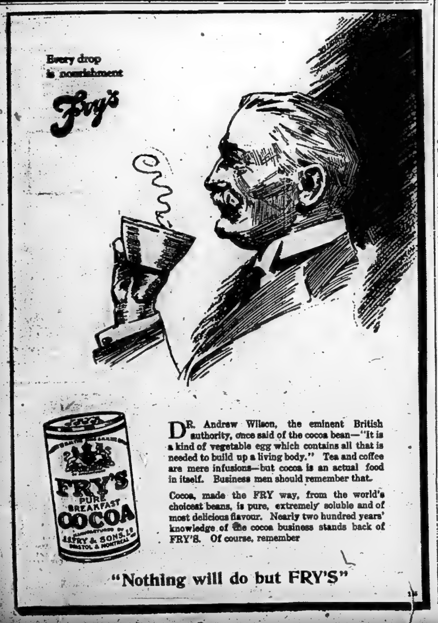
Officers for the ensuing year are as follows:—President Mrs. H. P. Plumptre; vice-presidents, Miss Jean I. Gunn, Prof. J. A. Dale, Mr. George E. Smith; hon. treasurer, Noel G. Marshall; hon. secretary, Prof. Geo. M. Wrong; hon. solicitor, Thomas Gibson (all returned by acclamation). Executive committe—W. H. Alderson, A. H. Campbell, Lyman Henderson and Mrs. John Turnbull, all of Toronto; Mrs. F. W. Cowan, Oshawa; Mrs. C. R. Crowe, Guelph; J. M. Deacon, North Bay; Mrs. Ronald Harris, London; Mrs. George Watt, Brantford; Dr. R. E. Wodehouse, Ottawa; Dr. John Phair, Dr. Grant Fleming, Toronto, and a representative to be appointed from Kingston.

## Cards and Dancing Brighten Evening

The card and dancing programmes presented by the Oddfellows in their Temple periodically, attract large crowds, and last night's evening of fun was no exception, for there was a most gratifying attendance. On the first floor of the Temple, dancing was the featured attraction, while on the second floor, progressive euchre competitions for prizes were held. Many experienced card players patronize these gatherings, and some real clever playing invariably results.

Music for the dancing was supplied by Sills orchestra, the feature dance being a Leap Year number when every "Jill" present was required to select her "Jack", and personally ask him "for the pleasure of the next dance." Young men who encouraged shyness and independence among the "queer" sex by asking them to dance, during this number, were assessed 50 cents.

A dainty lunch was served at midnight, and the dance which commenced at 8.30 o'clock, concluded at 1 a.m.



Every drop is nourishment

DR. Andrew Wilson, the eminent British authority, once said of the cocoa bean—"It is a kind of vegetable egg which contains all that is needed to build up a living body." Tea and coffee are mere infusions—but cocoa is an actual food in itself. Business men should remember that.

Cocoa, made the FRY way, from the world's choicest beans, is pure, extremely soluble and of most delicious flavour. Nearly two hundred years' knowledge of the cocoa business stands back of FRY'S. Of course, remember

## That Body of Yours

By James W. Barton, M.D.

### THE SENSITIVE HEART

Your heart has been beating rapidly and violently.

You have thought you had some form of heart disease and have gone hurriedly to your physician for an examination.

After the examination, he assures you that your heart is absolutely sound, and suggests that you forget about it.

You are satisfied for a short time, and then soon again your heart seems to be beating very rapidly. You count your pulse and find that your heart is running a hundred beats to the minute instead of seventy or eighty.

You become quite excited, and when you try it again you find it beating about one hundred and twenty.

There must be something wrong.

Well, a heart beating that fast is not normal, but it doesn't necessarily mean that there is anything wrong with the heart itself.

You may have what is called a sensitive heart. Sensitive to various alcoholic drinks. I do not place here those hearts affected by the pressure of gas from the stomach.

It may be just excitement of a caller on the telephone.

Just an ordinary slight exertion performed suddenly, such as getting up fom a reclining position, and going to the door or telephone.

Now the first thing to remember is that the cases of imaginary heart disease greatly out number the cases of actual heart disease.

It is not unusual for nervous or hysterical people to have these rapid hearts. Also in very thin people whose blood is not rich enough, there is often a tendency toward this sensitiveness of the heart.

The condition is disagreeable but is not dangerous.

Now what to do about it?

If the rapidity is due entirely to the feeling that there is something actually wrong with the heart, then the only sensible thing to do is to see your family doctor, and get the matter cleared up.

Do these sensitive hearts need drugs? No!

The usual treatment during one of these spells when the heart is beating rapidly, is to give it absolute rest.

This is beneficial very often, but as a matter of fact most of these rapid hearts are slowed down—not by rest—but by actual work, exercise.

Regular outdoor walking or slow running will usually bring these hearts down to a normal number of beats per minute.

### A Love Story Of The Theatre

AND I said to him: 'My deah boy don't imagine you're the only twin six in town.' And we settled it right then and there." The pink and white cheeks dimpled. "And then he went out an bought me a big—"

Miss Mariette Mallard halted as a girl slid into the chair next to hers and stretched out a hand to dust a film of power from the face of her mirror. Mirrors were propped against both sides of the rack that ran down the long make-up table.

Above them was suspended a row of electric lights in a tin reflector. Into them gazed as many types as there are flowers of the field, with just two traits in common—all were slender, all young.

At the moment there were some sixteen in various stages of prepasing for the costume which the prettiest chorus on Broadway wore in Scene 1 of "Good Night Cap."

Miss Mariette Mallard scanned the girl who had just come in. Then she winked at her black-eyed chum.

"Well," she observed, "how is mama's sparkler tonight?"

The girl turned with a grin that was not in her eyes and flashed under Miss Mariettes little nose the hand that had dusted the mirror. On its third finger blinked a diamond, the size and brilliance of which was breath taking.

Miss Mallard turned to the black-eyed one. "Gracie deah, suppose you had a block of ice like that—wouldn't you try and make your clothes live up to it?"

The black-eyed one giggled: "And I wouldn't be so upstage about it until I did."

The object of their amusement, Sallie McMahon billed as Zara May turned back to the mirror. "I pay cash for my clothes. That's more than some people can say."

"They look it," the black-eyed one murmured sweetly.

"You don't know how to manage him, my deah," Miss Mallard commented, baby blue eyes fastened on the radiant stone.

The girl's lips opened, then shut tight. Ripping open her one-piece serge dress, she tossed it on the hook in the wall where hung a plain brown ulster and imitation seal turban—alley cat caught in the rain, Miss Mariette had christened it. Then she pulled the chair into place and slashed on make-up.

Sallie was one of those who merited the splashing announcements of the posters. Perhaps it was her long mermaid hair with its glisten of sunset on the sea; perhaps the fact that the lashes shading her deep blue eyes were the same gold; perhaps the transparent quality of her skin with the swift play of young blood under the surface; but whatever it was, Sallie's beauty held a luminous quality Sallie herself did not possess. Sallie was just a girl with a faculty for doing what she was told. The daughter of a Scotch father with somber eyes and an Irish mother with laughing ones, both of whom had sailed the misty river into unknown lands after a stormy sojourn together in this one she had been left at fifteen to take care of herself, with the love of the beautiful on one hand warring against a sense of economy on the other.

Speeding across the stone floor under the stage, she tried to bring a smile to her lips. They merely trembled.

There came the march of a military air and the girls filed up the wobbly wooden steps and through a trap door Sallie fluffed up her abbreviated skirt brought the smile to her lips, fixed it as if it had been glued there. Her young elastic body rippled through the number under the changing lights She loved the jazz, loved the stir of rhythm. She was nineteen. Music was in her blood.

She danced through the varying scenes with swift changes of costume and hurried dabs of powder. A number toward the end of Act II was her favorite. It was one in which the girls trooped down the runway and trilled to some male occupant of an aisle seat:—

"Oh-oh-oh-oh-h-h-h——
Won't you—smile at me?"

Tonight, as she syncopated down the aisle, a light like blue fire darted from her deep eyes. Kindled by the smouldering defiance of earlier evening it was utterly unconscious of seeking an object. But the gentleman in the particular seat that was her territory could scarcely have been expected to know that. To him it constituted challenge.

"Oh-oh-oh-oh-h-h-h——
Won't you—smile at me?"

urged Sallie.

The man's lips parted. "You just bet I will!" came in a flash of white teeth, and Sallie suddenly realized that she had been singing to the same pleasant grin every night that week.

She was still wondering about him as she made her way up the stairs to the stage entrance.

Someone called "Good-evening," but she passed on without noticing.

"I say," pleaded the voice, "won't you smile at me again?"

Sallie turned then. Descending from a big yellow car was the man of the aisle seat

He came nearer.

"Wait please," he begged and his teeth gleamed as they had in the theatre. She hesitated.

He reached her lifted his hat.

"Come for a ride, won't you?" he asked.

"Oh, I couldn't," she answered promptly.

"Why not?"

"I—I just couldn't, that's all."

He gave her a curious, somewhat puzzled look. "Round the park—once?"

"I—I—no, thank you. I couldn't."

"Then let me drive you home."

"I—I don't live very far. I always walk it."

"Well, ride it tonight. Please!" Again that disarming gleam.

Sallie looked up with eyes clouded "It's nice of you to want to take me but—"

"But I've been coming here every night this week and until tonight you never even knew I was alive. Don't you think you ought to be a little kind to a fellow who's as devoted as that?"

"Please—I—thanks just the same," she brought out finally.

She took a step toward the curb, away from him.

And just then Miss Mariette Mallard and Grace issued from the stage door.

Swift as a bird, Sallie veered back to him.

"You can take me home"—it was breathless—"I'll let you do that."

Eagerly he helped her in, took his place at the wheel. Sallie turned with the sweetest of smiles, her head inclined in the direction of the two girls.

The man in the yellow touring car was amazed to find that Sallie actually did permit him to drive her home and no farther. He had anticipated that run round the park at least once—probably twice—possibly three times He had even anticipated a cozy supper. But Sallie gave him her address, ten blocks from the theatre, and though he urged with all the masculine dominance of which he was capable, she got out of the car in front of a brownstone house sagging as if with the weight of its own years.

The man looked up the steep steps to where a flicker of gaslight sifted on the broken mosaics of the vestibule.

"Is this where you live " he queried still holding the hand by which he had helped her.

Sallie nodded as she withdrew the hand.

"Thanks ever so much," she said.

"Here—just a minute! You haven't told me your name yet!"

"Zara May."

"On-the-level name, I mean."

"Oh"—she flashed with a smile—"that one's good enough. Good-night, Mr.—Mr.—"

"Patterson. Jimmie Fowler Patterson. You'll notice I'm not so stingy as somebody else."

He sprang into the car. "Well, I can wait! See you tomorrow, Miss Zara May."

Tomorrow and every other night found the yellow car waiting at the stage entrance.

In the chorus dressing-room Miss Mariette restrained her inclination to persiflage for a time. Then Sallie came in one evening after the final act and caught her hunched on the floor, meowing with all her might while the alley cat reposed over one ear.

Sallie grabbed the hat and slapped Miss Mariette's face leaving the latter too startled to retaliate in kind. And when Mr. Patterson begged her to drive out to supper, she stepped into the car.

"I'd just rather ride if you don't mind."

They spun up Broadway, through Seventy-second Street and into the enveloping shadows of Riverside

Sallie was lost in the intoxication of tearing motor and racing March wind. She closed her eyes.

When they opened it was to meet a swift turn of the road, the houses mounted to a higher level, and before them, far into the star-eyed night, a stretch of wooded walk through which the Hudson shimmered.

"What's this?" she asked, hard grasping his coat sleeve as if to stop the onward rush.

"Lafayette Boulevard. You've been up here—haven't you?"

"Never!"

He stared at her.

"How long have you been in the show business?"

"About a year."

"Well, what have you been doing all that time?"

"Working, most of it."

"But after working hours?"

"Oh, home right after the show. I'm pretty tired then."

He still regarded her curiously.

"And Sundays?"

"I visit the girls I used to work with."

"Where?"

"You mean where did I work?"

He nodded.

"In Brooklyn—in a department store. I was at the perfumery. And one day Miss Barton, Bessie Barton—ever hear of her?"

"Rather! Peach of a voice."

"Yes. She was playing over there last year and she came in to buy some French extract. I waited on her And she asked me if I'd ever wanted to go on the stage. She said I was—" Sallie paused.

"She said you were a beauty who didn't belong behind a counter."

"How did you know?" came wonderingly.

"I can see," he remarked succinctly.

(To be Continued.)

### THE OLD SALT'S JOKE

"Good morning, Mr. Salt!" said the sweet young thing as she tripped down to the beach and finally came to rest on the side of a rowing boat. "Do tell me some more about your adventures at sea."

"Would you like me to, miss?" asked the old chap, rather flattered to find someone interested in his stories of his youth—which, to do him justice were, at any rate, founded on fact.

The narrative proceeded until the old man came to the part where he was wrecked for about the four hundredth time.

"And then," he said, "our ship, with its cargo of soap, went to the bottom."

"Oh, do tell me at once!" broke in his hearer. "Were you saved?"

"Yes, miss," was the reply. "I got a cake of soap and was washed ashore."

WOMAN SUFFERED FOR MONTHS

Weak and Nervous. Made Well by Lydia E. Pinkham's Vegetable Compound

Webbwood, Ont.—"I was in a very weak and run-down nervous condition, always tired from the time I got up until I went to bed. Sleep did not rest me at all. My sister recommended Lydia E. Pinkham's Vegetable Compound to me and others told me about it, but it was from my sister's advice that I took it. It did not take long until I felt stronger, headaches left me and my appetite came back to me. I am a farmer's wife and have many things to do outside the house, such as milking, looking after the poultry, and other chores. I heartily recommend the Vegetable Compound to all who have the same trouble I had, for it is a fine medicine for women."—Mrs. LOUIS F. ELSASSER, Hillcrest Farm, Webbwood, Ont.

Another Nervous Woman Finds Relief

Port Huron, Mich.—"I suffered for two years with pains in my side, and if I worked very much I was nervous and just as tired in the morning as when I went to bed. I was sleepy all the day and didn't feel like doing anything, and was so nervous I would bite my finger nails. One of my friends told me about Lydia E. Pinkham's Vegetable Compound, and it helped me so much that I soon felt fine."—Mrs. CHARLES BEELER, 501-14th St., Port Huron, Mich.

Women who suffer from any feminine ailment should try Lydia E. Pinkham's Vegetable Compound.

Clothes a Good Color

To have Clothes perfectly cleansed and good color, the Soap must remove all the visible and invisible impurities. SURPRISE will do this thoroughly.

ADVERTISE IN THE INTELLIGENCER

## A VIEW BEHIND THE SCENES

You will not find this scene in Mae Murray's newest Metro picture, "Fashion Row." It was snapped during the noonday intermission. There was no time to change costumes to go out—just enough for a snack. The costumes are Russian, the player on the left being dressed in the picturesque Cossack dress of the Russian military.

## Organic Church

(continued from page one)

Do those who have pledged themselves represent the whole church? The welfare of the Presbyterian Church is at stake. The unionists in the Presbyterian church say the movement has been done constitutionally.

"Even though legally right is it morally right. Where is the olive branch It has not been held out to those opposed to union. There are higher rights than constitutional rights, and those rights should prevail.

To the constitution of the Presbyterian Church governed by the majority Final authority is not in any Assembly. The supreme authority of the Presbyterian Church is the Lord Jesus Christ. The word of an assembly must prove itself. We are acting in close conformity to the truth in this matter. Not one cent of the trust fund left to the Presbyterian Church or to a college of the church, can be used for any other purpose or for any other church or college.

**Questions Majority.**

Has a bare majority in the General Assembly a right to change the identity of the Presbyterian Church The unionists say the old Presbyterian church will be the same but will develop materially. The unionists in the Presbyterian church do not state or show the true facts in the case or the opposition in the church there is to the union to be known as the united church.

The Presbyterian church will be recognized as a church by those who remain in the church as Presbyterian What makes people sympathetic to the union movement? Is it the will of the Lord? No. He was for christian unity which is entirely different. Our Lord left this entirely with His followers.

This union is by no means the will of the Lord. Church union in Scotland is with Presbyterians, not any other religious organization. A union of the latter will never take place in Scotland.

**No Organic Church**

Read the Bible and you will know the Lord never had an idea of organic church union. Unity is in the air but union is not in the air. Unity is one of the requirements for union, and there is not unity in the proposed union. We get on well with our Methodist and Congregationa brethren.

We like our Methodist brethren but we are not prepared to marry them and the time is not ripe for the union and to set across the same table with them. The church is founded on fact that Christ died for the sins of men.

The man who knows nothing of the doctrines of the church cares but little whether there is union or not It is the principles in life that matter The unionist state that religious work will be done cheaper when union is consummated. Amalgamation will do better. How is economy to be expected by union. Look through the basis of union and see if economy can be effected.

There will be a multiplicity of officers and this will cost more money

**Wants Denominationalism**

All progress in Mission work has been accomplished by denominationalism. A healthy rivalry was established and good has been the result China is not holding out its hand and pleading for union in Canada.

Very few Chinamen know anything about Canada. Why are we against this union? We are not onto unionists, but against organic union of this nature.

It is no union when so many are opposed to it. We read our Bible too closely to believe in this proposed union. Denominalism is the true spirit. We do not believe that this union is free from peril. Why cannot we have fellowship without having union

In concluding his address Dr. Parker referred to the eliminating of the Westminster confession of faith as the doctrine of the Presbyterian church in this union, which he was opposed to.

This is the most important matter in this whole matter. The confession of faith has ever withstood the storm of the past and when the storm has abated we find the church was secure

The preacher in the union church does not have to place his name to any doctrine. There will be many changes and many grievous changes if union is accomplished.

The settlement committee of the union church has the right and power to say who is to be the minister of a charge. The decision of the settlement is final. The congregations will lose their power of selecting their ministers. Be not deceived in this matter. The right of a minister to appear before the committee if he desires to appeal, cannot be recognized as the door is closed against him.

Rev. Mr. Parker referred to personal opinions from prominent Presbyterians of other countries read at a Union meeting in Massey Hall. The men had sent their personal opinions and Mr. Parker read a letter from Prof. Patterson, of the United Free Church of Scotland, whose letter was read in Toronto, but who later wrote: "I think it would be the part of wisdom to postpone for some years the consummation of Union, as it appears to be associated with schism and persecution."

He also quoted Principal Gandier in the Quarterly Review of the Pan-American Presbyterian Alliance, in which the latter wrote that the United Church would be a Presbyterian Church. The speaker added that Principal Gandier must have overlooked the Methodists and Congregationalists

The unionists are applying to Parliament for a bill to legalize what has been done. Never before has a man been compelled to belong to a church by legislation declared the Rev. speaker.

Such legislation should not be passed and possibly may not be.

At the close a hearty vote of thanks proposed by Mr. W. J. Campbell and seconded by Mr. J. W. Cook was extended to the Rev. speaker, which he acknowledged.

# OLD GLORIES OF CARTHAGE ARE REVIVED

## Excavations Reveal Many Treasures of Rare Value

Toronto, Jan. 23.—"A thousand years scarce serve to build a State. An hour may lay it in the dust."

Perhaps Byron was thinking of Carthage when he penned these lines. At any rate they describe fairly accurately the fate of this great city of the ancient world, sometimes known as the "Cruel Queen of the Seas." For centuries the power of Carthage grew and ex-tended until the city finally had a population of from 700,000 to 1,000,000 inhabitants, and then the Roman legionaries broke its power and the city was ruthlessly destroyed by Scipio in 146 B.C., at the end of the Punic Wars. For many centuries the city was lost to view and became little more than a legend—recalled as the city where proud Dido reigned, and associated by schoolboys with "Arma virumque cano," and the Aeneid. Until a century ago even its site was not known but lately, chiefly through the persistent work of Pere Delattre over a period of fifty years, much excavation has been accomplished and some has been accomplished and some of the glories of the old capital revived.

**Glimpse of Ancient Splendor**

Associated with Pere Delattre in this work has been Count Byron K. de Prorok, a gentleman of English-Polish descent, and on Saturday evening, under the auspices of the Royal Canadian Institute, the Count, with the aid of splendid moving pictures and informative narrative, reconstructed some of the ancient splendor of Carthage before a large audience in Convocation Hall. The films showed, amongst other things, the sunken submarine ruins as seen from an airplaine, the excavations of Dougga Bulla Regia, the evidences of early Christian occupation and Arab life and architecture.

With Carthage is linked up the names of Hannibal, St. Augustine, Belsarius and St. Cyprian, in addition to Dido and Scipio, and the lecture therefore held much interest for students of Christianity. Carthage was rebuilt by the Romans, and altogether six civilizations have existed above the ancient ruins. Christianity spread to the city and it was here, in 411 A.D., that St. Augustine won his brilliant oratorical victory over the schismatic Donatists. The excavators have unearthed many Christian tablets and have also discovered seven of the earliest known statues of the Virgin Mary.

Chief interest, however, centres in the discoveries relating to the older civilization and views of the famous, or rather infamous, Temple of Tanit where human sacrifices were made to propitiate the gods received much attention Votive groves of the Goddess Tanit and the God Baal were discovered and the lecturer explained that everywhere the excavators met with the Triangle of Tanit, the mystic sign of the Carthaginians. Many jewels were unearthed, including emeralds, rubies and lapis lazuli, whilst during four months of excavation five thousand coins, some of gold and some of silver, but mostly of bronze, were found. Children's milk bottles, supposed to date from 700 B.C., and ladies toilet articles were also among the things discovered, whilst a find of particular interest was a rich mosaic floor in splended preservation.

Large tracts of Carthage still remain to be explored and the object of Count de Prorok's lectures is to interest scientists and students in the work, for which funds and equipment have been so far inadequate.

---

Oh, dont you remember Sweet Alice, Ben Bolt,
Sweet Alice whose hair was so brown,
Who wept with delight when you gave her a smile,
And trembled with fear at your frown,
Well, Alice has changed from those days, Ben Bolt,
Her hair isn't brown, I declare
She's peroxided that, she is a blonde now and fat,
And gosh! how Sweet Alice can swear!

H. D. C.

### TEL-AVIV

Ever hear of Tel-Aviv?

No, it is not a new dentifrice, digestion cure or patent medicine of any kind. It's the name of a town.

It's the Gary of Palestine.

Just as the directors of the United States Steel Corporation said—"Let's build a city on these flat plains of Indiana near Lake Michigan"—and it was done, so the Zionist Jews decreed a new town on the shores of the Mediterranean and it duly came to life.

The cornerstone was laid with Jewish rites and prayers 13 years ago in what appeared to be a hopeless waste of shifting sand dunes. Today it is a thriving, bustling Jewish city of 15,000.

## Cattle Trade Increases In Argentine Republic

(United Press Despatch)

Buenos Aires, Jan. 24.—Statistics by the Ministry of Agriculture today show that 4,400,000 cattle were slaughtered by packing plants in the Argentine Republic during 1923, an increase of 1,000,000 over 1922.

### THE NEGLECT OF ART

Augustus John, the noted British painter, said at a New York reception:

"The general public takes less interest in pictures year by year. Everything nowadays is sport, dancing, dissipation and all that sort of thing.

"To my astonishment at the Royal Academy one day, I perceived a very dashing London girl. Meeting her a short time afterwards at Claridge's, I said:

" 'Hello! Awfully glad to see you. And so you're interested in art, eh ?'

She looked startled.

"Art who?' " she asked.

### CANADIAN PACIFIC NEW TORONTO-SUDBURY SLEEPER

Travellers to Sudbury will appreciate the new Sudbury sleeper which leaves Toronto Union Station at 10 p.m. daily, in Canadian Pacific Train No. 3.

This sleeper may be occupied at Toronto at 9 p.m. and passengers may remain in the sleeper at Sudbury until 8.30 a.m.

Any Canadian Pacific Agent will arrange reservation. 17-10-14-17-21-24

### PETERBORO RINK AFIRE

Peterboro, Jan. 24.—The Brock street skating rink was attacked by fire at noon yesterday, and damages to the extent of $40, resulted to the refreshment booth.

The flames were discovered by W. J. McFarlane, who had been working on the ice surface. When he opened the front door to leave for lunch the flames were fanned by the wind and burst from the west side of the refreshment booth, apparently coming from the neighborhood of the electric stove. Mr. McFarlane closed the door and called the fire department.

**If Ruptured Try This Free**

Apply it to Any Rupture, Old or Recent, Large or Small, and You are on the Road That Has Convinced Thousands

**Sent Free to Prove This**

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 501-c Main St., Adams, N.Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance. Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Free for Rupture

W. S. Rice, Inc.,
501-c Main St., Adams, N. Y.
You may send me entirely free a Sample Treatment of your stimulating application for Rupture.

## Health In Winter

How To Avoid Colds, Influenza and Like Troubles.

Have you noticed that some people enjoy good health through the most trying weather, while others succumb to colds or influenza at every touch of wintry conditions, or are attacked by rheumatism or sciatica? The reason is to be found in the condition of the blood. If it is rich and pure the system is able to resist disease. But let the blood become impoverished and the way is made clear for disease to enter the system.

The common-sense way to avoid colds and influenza is to keep a plentiful supply of rich, red blood in your veins. Dr. Williams' Pink Pills have achieved world-wide fame for their remarkable blood-enriching powers. The new blood which comes with the use of Dr. Williams' Pink Pills tones up the whole system, and so helps the body to resist winter ills.

If your system has already been weakened by colds or influenza, or if you are enduring the agonies of sciatica or rheumatism, then Dr. Williams' Pink Pills are even more valuable for restoring your health and building up your strength so as to render you immune from further attacks. Give these pills a fair trial and they will not disappoint you.

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

### PROTEST PORT HOPE GOALER

Oshawa, Jan. 24.—Oshawa yesterday notified the secretary of the Ontario Hockey Association that they are protesting Goalkeepr Micks of Port Hope on the ground that he is not eligible under the residence rule of August 1.

## NAPANEE RINKS WIN DISTRICT CUP

Kington, Ont., Jan. 24.—The two Napanee rinks skipped by F. Bell and M. Taylor won the District Cup at the Kingston Curling Rink on Tuesday night, when they defeated the two Rockwood rinks in the finals by a score of 31 to 27. In the afternon Kingston curlers were defeated by Napanee by a score of 29 to 27. Rockwood curlers won from Brockville by a score of 36 to 30 and qualified to meet Napanee in the finals. The Kingston Curling Club has held the District Cup for some years.

## The Letter Box

Hamilton, Jan. 21, 1924

To the Editor,—

Dear Sir,—

Sir Henry Thornton's after dinner speeches at Brockville, and Sundry other places, sem to me to indicate, quite a serious misunderstanding betwen the people, the C.N. Ry. administration and the Government

He seems to feel instructed to manage the C. N. Rys. so the annual deficits will disappear, and be replaced at an early date by a surplus, and while succeeding nicely, he feels unable to reduce rates and continue that success, but if his employer the Government direct him to reduce rates in the face of his advice to the contrary, their wishes should be carried out. The people have the matter in their own hands, and the right to say.

I believe a great majority of the people of Canada want the rates on Alberta and Nova Scotia coal to Ontario reduced, and should make their wishes definitely known to the Government at once, asking that instructions to do so, be passed on to Sir Henry.

I differ with Sir Henry as to reduced rates i nall cases resulting in a reduced net income.

I believe a rate of $4.00 per ton on Alberta coal in train lod lots during slack seasons, would result in such an increased volume of business that the net receipts would be increased, as demonstrated by the Laurier-Mullock Penny Postage, and a more nearly parallel comparison is the Glasgow Street Railway, endeavoring to eat up their surplus by reducing rates fro 3c., 4c and 5c to 2c which induced such increased traffic, that it greatly increased the surplus

The rate on Nova Scotia coal from Montreal to Hamilton 372 miles is $3.00 per ton, and the rate on U.S. coal from Detroit to Montreal 563 miles, is only $2.90 or 10c less for 190 miles (50%) greater distance, which is most illogical. Many other similar cases should be corrected.

People! make your wants in these respects known to the Government at once, and get results.

Yours truly,
W. O. SEALEY,
61 Hunter St., West.

### 2ND LINE SIDNEY

## Ice-Bound

The city of Hambourg, Germany, is ice-bound these days. Vessels have little or no chance to get away once these powerful ice blocks wedge them in. Shipping has almost come to a standstill, so far as this port is concerned.

## LODGE INSTALLS OFFICERS-ELECT

### Eureka Lodge No. 28 A. F. and A. M. Holds Impressive Ceremony

Last night the officers-elect of Eureka Lodge No. 28 A. F. & A. M. were duly installed in office. A most beautiful and impressive ceremony was featured with R. W. Bro. Lt.-Col. S. S. Lazier as chief installing officer, assisted by Rt. W. Bro. F. E. O'Flynn and F. O. Diamond and R. W. Bro. C. J. Symons as Junior Warden and V.W. Bro. J. O. Herity as Senior Warden, V. W. Bro. R. McCrudden, Director of Ceremonies and W. Bro. Geo. Dawkins as Inner Guard.

The following were the installed officers.

Wor. Master, W. Bro. Harry Thompson.
I. P. M. W. Bro. S. F. McGuire.
Sr. Warden, Bro. W. B. Doolittle.
Jr. Warden, Bro. R. D. Adams.
Chaplain, Rev. Dr. E. N. Baker.
Treasurer, Wor. Bro. H. W. Ackerman
Secretary, Bro. W. Jeffers Diamond.
Sr. Deacon, Bro. A. L. Burke.
Jr. Deacon, F. W. D. Wiggins.
Organist, Wor. Bro. Dr. M. A. Day.
D. of C., V. W. Bro. Richard McCrudden.
Inner Guard, Bro. E. Liddle.
Sen. Steward, Bro. F. R. Wotten.
Jr. Steward, Bro. Geo. A. Irvine.
Tyler, Henry G. Thompson.
Auditors, R. W. Bro. F. Davey Diamond and Bro. W. B. Deacon.
Trustee Masonic Property, Wor. Bro Chas. N. Sulman.

At the completion of the ceremony Bro. Dr. E. N. Baker, chaplain of the lodge, proposed a vote of thanks to the installing officers in which he paid eloquent tribute to R. W. Bro. Lazier, because of the masterly and impressive manner in which he had exemplified the work. The vote was seconded by W. Bro. Leo Walmsley and heartily endorsed by the members.

Another exceedingly pleasing feature was the presentation of a bouquet of beauty roses to R. W. Bro. Lazier by another Masonic veteran, Bro. W. J. Diamond, who feelingly referred to the long and devoted service rendered to the good work of Masonry by his senior colleague. The gift was graciously acknowledged by the chief installing officer.

Another pleasant event was the presentation to the retiring Master, W. Bro. S. A. McGuire, of a handsome Past Master's apron by R. W. Bro. Lazier. W. Bro. McGuire, who has been one of the most faithful and enthusiastic Masters that has ever presided over the destinies of Eureka Lodge modestly expressed his appreciation and gratitude.

A company that filled the capacious dining hall to the utmost bounds remained to hear the post-prandial program, which was of a high order.

It was veteran's night and the company was largely composed of the men who saw active service on the fields of France and Belgium.

The toast to the Veterans was proposed by W. Bro. J. O. Herity and the response by W. Bro. Lt.-Col. Roscoe Vanderwater was most enthusiastically received. Though couched in modest terms it was deeply impressive because of its every restraint and its plain exposition of the present position of the Veterans and of their immortal services and sacrifices to the cause of human liberty.

At the close of Col. Vanderwater's splendid address he was tendered a most appreciative vote of thanks moved by his former comrade in arms, Major D. T. McManus and seconded by Bro. Geo. Irvine.

The gathering was honored also by the presence of the new County Warden, Bro. C. S. Rollins, reeve of Wollaston, who eloquently voiced his patriotic sentiments in regard to the County municipality that had shown him such signal honor. W. Bro. Walter Wiggins, reeve of Faraday, W. Bro Finnegan, reeve of Frankford, W. Bro Noyes and Stephenson of Belleville and Bro. Goodwin of Maynooth responded most appropriately, to the toast to the "Visitors" fittingly proposed by W. Bro. C. J. Symons.

The toast to the "Newly Installed Officers" was terms by R. W. Bro F. D. Diamond and the Master-elect W. Bro. H. A. Thompson, gave a most attractive outline of his aims and proposed program for the year's activities. The other officers also made brief responses.

Vocal solos by Harry Mackay and Bro. Thompon of Ottawa, were the other features of a program in which profit and pure enjoyment were prominently featured.

### WHAT PARIS AND LONDON CAR EXHIBITION SHOWED

Cabled reports of the eighteenth Paris Salon were exasperatingly brief and uninformative. Indeed, it was not until the mails brought the "Salon" issues of the British and French automotive publications, that comprehensive reports of Europe's greatest motor show came to hand. The Salon did not reveal many innovations or radical departures in design. Painstaking development of post-war design features were conspicuous. Four-wheel brakes have become well-nigh universal equipment in Europe. This confirmation of the well-defined trend of the Salons of the past two or three years, with the growing popularity of four speed gears, and overhead valves were the salient features, it seems,, of the recent Salon.

While the Salon is the world's largest motor show, it is far from being as comprehensive or interesting as the Seventeenth International Motor Exhibition that opened November 2 and runs through next week in the enlarged Olympia, London, England, at which, by the way, the **four-wheel brake trend is also an outstanding feature. Lanchester, Sunbeam, Vauxhall and some other leading English makes having adopted them as equipment on some, or all models..**

Lanchester has been recognized for many years as one of the world's greatest automotive engineers. His patents—to mention but a few—such as the vibration damper, cantilever springs, worm drive and harmonic balancer, are bringing him royalties from many of the world's finest, as well as more popular makes of cars. Locomobile, Packard, Rolls Royce, Vauxhall are but a few of the better known de luxe makes that pay tribute to his genius, both figuratively and tangibly. Much interest, therefore, attaches to the new Lanchester "21" six, which does not supplant, but supplements the famous six "40".

There are so many interesting features in this new car that one scarcely knows with which to begin. Let's start at the front. The "rad" has a flush type around gauge, a glass window, if you will, which reveals the water level at a glance. The front axle is tubular. The front **wheel brakes** are internal expanding on heavily ribbed (for cooling and to prevent distortion) aluminum drums cast-iron lined. The transverse frame members are of massive tubular steel. Overhead valves are actuated through rocker arms, with cam rollers turning in individual oil baths by an overhead camshaft. Towards the end of this shaft a multiple cam turns against a spring loaded plunger, which dampens out any "snatch" in the camshaft drive. Cooling is thermostatically controlled. The timing gears are mounted at the rear of the engine, driven by a gear on the crankshaft, on either side of which are main bearings, as there are also between each throw of the crankshaft—8 in all. Pistons are of aluminum alloy and oiling by full pressure feed. The hood reaches from the radiator to the instrument board. Meerly lifting the hood exposes the wiring and other instrument breakages for inspection or repair—a real advantage. From the bottom of the instrument board, sloping down to the "dash" is an aluminum casting. Thus, the dash is only a few inches high, that is from the floor boards to the juncture with sloping skirting. The cowl is a development of the scuttle dash. At its inception, and for some time afterwards, there was no such thing as an instrument board, all instruments—speedometer, switches, clock, etc.—being mounted on or in the dash. Then came the instrument board, and the hood continued to have its rear terminus as of yore, at the dash. Lanchester has rectified that universal let-well-enough-alone blunder, probably because he has a bit more than the average ability to see the obvious.

One of the most surprising features of the car is that it is equipped with a sliding gear set (4 speeds) for Lanchester's epicyclip (planatory) gear set on the Lanchester 40 is world famed for its quietness and efficiency. **The four wheel brakes,** and interbalanced by differentials for both front and rear.

The Sunbeam's Grand Prix victory and consistent performance with design consistent with advanced conventional practice( just two valves per cylinder, one carburetor per engine and no supercharger) brought much lustre to the Sunbeam company's name in particular and British automotive engineering in general, for it was a performance that for consistency is unmatched in racing annals. Consequently it is not surprising that much interest at Olympia is centreing in the new "20" Sunbeam Six—a car of remarkably clean cut chassis, unusually low slung, speedy and attractive in appearance. As in the Lanchester "21" the cylinders are cast monobloc with separate and detachable heads. **The four wheel brakes are on the Perrot principle.** The front axle, as in the racing Sunbeams, is "I" beam in the central section and tubular from the springs out. Cooling is thermostatically controlled, and of high efficiency pump circulating type without fan. Engine lubrication is of the full force type. The crankshaft is carried in seven main bearings. The frame is very sturdy with unusually generous transverse members.

The new Sizaire is reminiscent of the illfated Birmingham of Peterboro fame, for its front and rear axles are flexible the weight carrying members being transverse springs. Each wheel thus rises and falls independently and unsprung weight is reduced to a minimum. It will be recalled that the Lancia "frameless", introduced last year, has a front axle of this type. Crossley is another of the leading English makes that is showing a model, the famous 20, (with one of which the R.A.C. supervised 25,000 mile world's record test was made) **equipped with four wheel brakes.** In this instance equipment is optional although announced as perfect and efficient. **The brakes are of the Perret type, servo actuated.**

**Essentially a Practical Display**

It was not at all surprising to find that technically the show revealed comparatively few novelties. The French industry, considered as a whole, is in a very healthy condition; sales have been good during he past year, ad promise to be even better in 1924; the new designs embodying the accumulated experience of the war period are now in full production, and undoubtedly purchasers are getting better value for their money than ever before. It was essentially a practical show, as distinct from some other post-war exhibitions, which might be termed sample shows. Even when entirely new models are presented, they are types which the makers have tried out and are in a position to offer to the public at very brief interval.

It would be very elemental to state that front-wheel brakes were a feature of th eshow. The Autocar declares: "Continental makers in general, and French motorists in particular, are so convinced of the utility o fthe brakes on all the wheels that to argue against them would be as futile as to object to high tension ignition. French motorists have seen so many races, endurance tests and competitions in which front-wheel brakes have proved their value that the questions so often heard in Canada and the United States and England regardig safety and necessity for careful adjustment are never asked. It is a significant fact, that there has never been a race or open competition on the Continent marked by a frontwheel accident, or one which has been lost bacause frontwhee brakes were fitted.

### KEEPING WARM WITH ICE CREAM

With the thermometer near zero one early morning, a Chicago man who directs the operation of a score of newsboys considered it a good idea to give the boys some food to help them combat the cold. So he invited them all into a restaurant.

"Now order what you want," he told them, "so you'll be able to keep warm when you go out on the street."

And every mother's son of them ordered ice cream.

# SUBURBAN AREA ROADS COMPROMISE IS BROUGHT NEARER TO A SOLUTION

### W. H. Nugent, County Clerk Presents Report on Investigation Into Where most of Cost Should Be Borne

### ENGINEERS GIVE AID

### Best Men on Staff Department of Highways at Service of Commission in Working Out Problems on Cast and Maintenance

Management of the City Hospital and the suburban area roads were maters referred to by Mayor W. C. Mikel, K. C., when this morning he addressed the County Council. His Worship stated that the ladies of the city hadfor years managed the hospital and were desirous of being relieved of their duties which had become ardous.

The suburban area roads was also important to the city and County. The Mayor referred especially to the road leading to Corbyville, which should be made a permanent thorough'are. It was desirable that the two councils cooperate on these maters.

After some discussion the matter of the hospital was referred to the Finance Committee of the County Council and a committee composed of Messrs, J. Haggerty S. Fox, P. McLaren and W. H. Nugent County Clerk was appointed to confer with the City Council on the suburban area roads proposition.

At the County Council meeting yesterday, W. H. Nugent, County Clerk, presented the following report in reference to suburban area roads.

To His Honor the Warden and members of the County Council:

Gentlemen:—

In accordance with the resolution passed at the last meeting of the County Council, authorising the Warden and myself to take up the matter of Suburban Area roads with the City of Belleville and the Town of Trenton requesting that a small committee be appointed from their council to meet and discuss with our Council the matter of Suburban Roads and ascertain if some compromise could not be agreed upon that would avoid any misunderstanding between the two Municipalities and expedite the appointment of a Commission to control the Suburban Area in the vicinity of Belleville.

I was not sure as to the meaning of section 12, Chapter 17, 5—Geo. V, so I wrote the Deputy Minister of Highways for a ruling as to whether Trenton would come within the Act. He replied in the affirmative and shortly after receiving same I wrote the Mayor of Trenton a similar letter to the one sent to the Clerk of Belleville.

On account of the Municipal election there was some difficulty in arranging a meeting as the old. Councils were reluctant to undertake anew proposition in the closing hours of their term. During the time of waiting for a meeting I got in touch with the Chief Engineer of Municipal Roads, Mr. R. C. Muir, and District Engineer, Mr. MacVicar. Both were anxious to assist in every way and furnished valuable information as to the cost of the different type of roads.

In the five counties quoted using waterbound Macadam, the average cost per mile was $11,200; in three countries using Bituminous Penetration the costs averaged $18,600.00. Asphalt on concrete varied considerable and was as

B. H. S. Literary meeting to-night in City Hall, 7.45. Hear a good debate also special musical and miscellaneous programme. Silver collection 1td

# LABOR MEMBERS FOR THE ROYAL HOUSEHOLD NOW

### Tom Griffiths and J. A. Parinson Are Likely to Get the Posts

### PARMOOR TO ACT

### Full Recognition of Soviet Russia Likely Action of Govt. at Early Date

London, Jan. 25.—The conduct of British foreign affairs under Prime Minister MacDonald will be watched with interest by observers of international political events, especially in view of the number of complicated issues that are awaiting adjustment.

Mr. MacDonald's recent denunciation of the "pompous folly" of withholding full recognition of Soviet Russia has prepared everybody for early action by the new Government in that direction, and it is stated unofficially that James O'Grady, M. P., is already being considered for the position of British ambassador to Moscow, Mr. O'Grady, who holds one of the Leeds seats in the House of Commons, has made a study of Russian affairs. He visited Moscow officially in 1917 and again in 1922 in connection with the trade union famine relief movement.

**Interested In League**

The new Prime Minister's interest in the League of Nations is well known, and, according to the diplomatic correspondent of the Daily Telegraph, he contemplates an expansion of the league section of the Foreign Office in order to use it to the utmost as an instrument of general pacification. For this reason, according to the writer, Mr. MacDonald means to devote every effort toward the early inclusion of Germany and Russion in the league.

The Daily Telegraph also asserts that, the Premier has invited Lord Parmoor, the Lord President of the Council, to represent Great Britain on the league council, replacing Viscount Cecil, of Chelwood—until recently Lord Robert Cecil—who is retiring.

**For Royal Household**

Contrary to the general belief and toe what is supposed to have been his own intention originally, Mr. MacDonald, says the Daily Mail, has decided to fill the appointments to the royal household with members of his own party, and Tom Griffiths, member of Parliament for Pontypool, and J. A. Parkinston, representing Wigan, probably will receive the posts of treasurer and controller of the household, respectively.

The indulgent comment which Mr. MacDonald's major ministerial appointments called forth is renewed by the press in its review of the supplementary officials whose names were made public yesterday.

"It is generally recognized," says the Times, "that Mr. MacDonald has shown a most successful cleverness in dovetailing the various elements of his following into a composite whole."

## Their Hour of Triumph

J. Ramsay Macdonald, standing left) is the big man in England to-day. Photo taken at a recent labor demonstration in London. Those seated left to right are: Miss Margaret Bondfield, M. P.; J. H. Thomas, M. P.; and Robert Smillie, M. P. The gentlemen on the right was unidentified on the picture received in New York. Macdonald's appointment as premier to succeed Baldwin came after the latter himself had recommended the Laborites appointment to the king.

# HYDRO-ELECTRIC AND SHIP CANAL EXPERTS TAKE ISSUE ON PRACTICABILITY OF WATERWAY SCHEME

### Dominion Government Engineers and Ontario Hydro Experts At Issue In Ottawa Meeting—Fragile Ice on St. Lawrence Presents Problem on Project to Open Lake-to-the-Sea Waterway Project —Believe Ice Could Be Combatted

Ottawa, Jan. 25.—Gentle words and mutual admiration softened an otherwise keen debate proceeding before the Engineering Institute of Canada in annual session in Ottawa as to the relative merits and possibilities of the International Joint Commission Deep Waterway scheme for the St. Lawrence River and the Ontario Hydro-Electric power development project. On the side of the deep waterway scheme are representatives of the Department of Railways and Canada, headed by Mr. D. W. McLachian, who conducted extensive investigations at the St. Lawrence last year, and on the other side are Mr. F.A. Gaby, chief engineer of the Ontario Hydro Commission, and some of his assistants.

This morning, before almost the entire attendance at the annual meeting, Mr. McLachian presented what he regarded as the superior advantages of the International Joint Commission scheme and the difficulties in the way of the Hydro project. After showing the estimated saving in grain transportation to the ocean by be carrying out of the deep waterway proposal he went into the question of frazile ice and by extensive charts and an exhaustive array of figures presented what he claimed were obstacles, some of them insurmountable, which would be met with from frazile ice under the Hydro plan with a double development construction.

**Could Combat Ice**

At the conclusion of Mr. McLachlan's discourse Dr. Howard T. Barnes of McGill, an authority on ice, offered the opinion, based on extensive study that ice difficulties could be combated. There were three interests to be considered in the St. Lawrence question, he maintained: First, the safeguarding of navigation to Montreal and the problem of extending it into the winter; second, the development of a waterway to the lakes, and third, power development. He held that the river must eventually be converted into a big ship canal.

Mr. H. G. Acres, hydraulic engineer of the Ontario Hydro, disputed some of Mr. McLachlan's contentions. He held that the temperature of the water at certain depths in the St Lawrence would prevent the formation of frazile ice which the Dominion Government engineer so much dreaded. The essential to success in any scheme for the St. Lawrence was harmony with nature, he declared.

This afternoon Mr. Gaby and Mr. Acres will continue the Hydro argument.

**The Saving on Wheat**

Mr. McLachlan held that a saving of from 50 cents to $2.50 a long ton or a saving of from $1.15 to 7 cents on the transport of a bushel of wheat would be effected by the construction of the St. Lawrence deep waterways project.

Mr. McLachlan summarized briefly the report of the International Joint Commission and described the official plans of the Board of International Engineers who reported to the commission two years ago. Unit prices and other data were exhibited to show that estimates submitted were in accordance with prices on contracts now in force on similar work. Tables were exhibited which showed the rapid growth of the traffic on the Panama and Sault canals, as well as

# STRICKEN YOUTH FOUND ON STREET

### Boys Sent Here by Department In Toronto Given First Aid

Found lying in the doorway of the Ritchie store on Wednesday night at 10.50 o'clock, Sidney Millstead, 21 who came here from Toronto, was rushed to the police station by two citizens. The youth was placed on the couch in the Constables' room, and Dr. J. Robertson was summoned. After having administerd a hypodermic, Dr. Robertson waited until the boy regained consciouness, and told his story.

# SIX POLICE CAPTURE FARMER AFTER DESPERATE STRUGGLE

### Arrest is Made by Posse of Provincial Police After Battle With Raging Man in Farmhouse—Culmination of Case That has Rocked Oxford County For Two Years

Woodstock, Jan. 25.—After assaulting a bailiff, living with his wife and seven children in isolation and depravity, threatening bodily harm to any who stepped upon his farm or who attempted to take his children from him, Peter Robertson, middle-aged farmer living near Ratho, 14 miles from here, was taken into custody at 9.30 this morning by a posse of six provincial police inspectors and officers under Inspector W. M. Stringer, of Toronto.

Robertson did not give in without a fight. On the approach of the officers, all heavily armed, one carrying an axe, beat a retreat into his house, barricaded the two doors and shouted to the officers that he would kill every one of them.

**Broke Down Doors**

Breaking the doors open with the axe the officers entered the house. Inspector Stringer, the first into the room, was met with a wild swing of a huge piece of cedar that struck him upon the arm, causing a slight fracture, but followed this terrific blow with a right swing to Robertson's jaw, which felled the man. On attempting to again attack the officers Robertson was dealt a blow on the head with a billy in the hands of Constable Jorgenson and the arrest followed.

Robertson's arrest is the culmination of a case that has rocked Oxford county for over two years. Believed to be mentally unsound, Robertson has kept his family in isolation and violence was resorted to by him on everyone who went to his farm. After the arrest the mother with her seven children, ranging in age from the eldest boy of fifteen to the baby of two years, were brought here by the police, where they will be cared for. Robertson received medical attention for his head, which was split by the billy.

**Startling Phases**

The arrest of Robertson and the fight he put up against the police has many startling phases.Headed by Inspectors Stringer, Ward and Airey and including Constables Jorgenson, McKay and Baugh, the posse left here at six o'clock this morning and drove 14 miles through a biting wind to the farm adjoining the Robertson acres. Previous reports in the hands of Inspector Airey of Niagara Falls, who, with a number of other officers was driven from the farm last month when they attempted to arrest Robertson for the assault upon Bailiff Payne, informed the officers that Robertson would not leave the farm without a fight and if an attempt was make to take the children he would kill his entire family.

A dog which had been set upon all visitors to the farm commenced barking and running along beside the house. Inspector Stringer carried a shotgun and it had been planned that the dog would be shot should it approach the officers.

## "SMOKE PEACE PIPE" SAYS CITY COUNCIL

Members of the City Council evdently desires that Mayor W. C. Mikel, K. C. should smoke the pipe of peace. At the committee meeting last night they presented him with a Sacieni English brier pipe. Ald. S. H. Treverton made the presentation on behalf of the Aldermen, to which Mayor Mikel replied in an appropriate manner, thanking the members for their kind remembrance of him.

# DAMAGED BY FIRE ON FRONT STREET

### Blaze Discovered In Barber Shop and Cigar Store at Early Hour

While walking his Front street beat at 1.35 a.m. to-day, P. C. Morris noticed smoke puffing out from the two chair barber shop and cigar store at 356 Front street. He immediately sent in a fire alarm, and the reels were soon on the scene of the trouble, which is but a short distance from No. 2 fire station.

Before this time, the night clerk of Hotel Belvidere next door north of the barber shop, had smelled smoke, which had aroused his fears that the hotel was a-fire, and he was investigating when the alarm was sent in.

**Shop is Damaged**

The fire which is supposed to have started from an overheated stove pipe, caused much damage to the interior of the shop and to the furnishings. Smoke and water being great contributing factors. The whole interior of the place is charred as though the hot fire smouldered in the room where no draught could fan it into flames, and litterally roasted everything. The window blind which was tightly drawn appeared normal but was a mere shell when examined. Plaster which tumbled off the walls and ceiling added to the general muss.

**Lives in Danger**

To the south of the shop is the Jonas Bargman clothing store and to the north, Hotel Belvidere. Over the shop, are the living apartments of the Bargman family and rooms of the hotel, so that the lives of several sleeping persons were jeopardized. No loss was sustained by the hotel, and the damages to Bargman's store are slight, dense volumes of smoke being the only disagreeable feature.

# MEIGHEN PLANS BIG PROGRAMME

### To Spend Two Days in Quebec Next Week—Busy Time Seen

Ottawa, Jan. 25.—A crowded programme faces Rt. Hon. Arthur Meighen, leader of the Conservative party, when he visits Quebec City next week for a two-day stay. Mr. Meighen, in addition to delivering a number of addresses, will make official visits to dignitaries of the city and province. Mrs. Meighen will accompany the Conservative leader.

Quebec visit for January 29 and 30 follows:

Tuesday, Jan. 29, 2 p.m.—Arrive Quebec, C.P.R. Reception and address of welcome at the station. 3.30 p.m.—Official visit to Cardinal Begin, the Bishops, the Mayor and His Honor the Lieutenant-Governor. From 4 to 6 p.m.—Reception in honor of Mrs. Meighen by Madame Belley. 6.30 p.m. —Dinner at the Garrison Club. 8 p.m. —Public meeting in the Drill Hall.

Wednesday Jan. 30, 11.30 a.m.—Official reception by Chief Justice Lemieux at the Court House. 12.30 a. m.—Luncheon at Chateau Frontenac by business men of the city. Address by Mr. Meighen. After the luncheon Mr. Meighen is invited to meet all persons interested in leather. 4 p.m.—Address by Mr. Meighen before the Women's Canadian club. During the afternoon Mrs. Meighen will hold a reception at the Chateau Frontenac for the ladies of Quebec. 8 p.m.—Public meeting at Levis in the Drill Hall.

# HER ROMANCE SHATTERED; NURSE TAKES OWN LIFE

### Miss Cecile Mamelin, Graduate of Notre Dame Hospital, Commits Suicide, Following Refusal of Her Lover to Marry Her—Was Discovered Asphyxiated in Bathroom By Brother

Montreal, Jan. 25.—Faced with the bitter realization that her love for a man with whom she had been keeping company was not returned and shocked by the man's point blank refusal to marry, Cecile Hamelin, thirty-one-year-old graduate nurse of the Notre Dame Hospital and member of a prominent French Canadian family of Montreal, lost her senses and in a fit of suicidal grief yesterday afternoon ended her life.

The tragedy was revealed at nine o'clock last night, when her brother, Dr. J. R. Hamelin, of 1240 St. Denis street, entered the gas filled apartment at 308 Sherbrooke St., East, and found her lying dead on the floor of the bath room.

Details of the shattered romance were told at the inquest this morning, and showed that the girl, once a clever nurse and fun loving young woman had become morose and dejected after her love affair had withered and died.

In a letter written to her brother at noon yesterday which was received by the latter at four o'clock, the girl had stated that she could no longer bear life and that she was going to leave the world. "I have gone to confession," read the note, "and have been absolved of all my sins. I hope that God will pardon me for this last act of mine. "She explained how her great love for the man whose name was not mentioned, had been turned aside by him and how her appeals had fallen on deaf ears. She could face life no longer without him and therefore death was the only alternative.

When the letter was received, Dr. Hamelin was just leaving his home to visit a patient and thinking that his sister did not mean what she said and that it was only another of her spells of dejection which she had been subject to lately, he did not go to her apartment until eight-thirty last night. He received no response to his ringing and fearing the worst called the janitor. The latter opened the door and the men were nearly asphyxiated by the fumes of gas which rushed into the hall.

They found the young woman lying on the bathroom floor, fully dressed, with a pillow under her head and a kimona over her body. She had been dead for some time, apparently having committed the act immediately after sending the letter which was mailed at noon yesterday. The gas came from a stove which was found with all the keys turned on. Miss Hamelin was well-known in nursing circles and in the medical profession and was also prominent socially. Coroner McMahon disposed of the case as "suicide in a moment of mental aberration."

# EDNA FARLEY RE-NAMED CITY TAX COLLECTOR

### Present Incumbent in Office Since Death of Father, Is Appointed

### SALARY OF $1,500

### Many Accounts are Recommended to Council by Civic Committees

Miss Edna Farley, who has been tax collector of the city since the death of her father last year, has been appointed to the position at a salary of $1,500 per annum. This was recommended by the Executive Committee at a meeting held last evening.

At the meeting of the various civic committees many accounts were passed and the following recommendation was passed on to the council.

Recommended, that the payment of $15 to Mrs. B. Burgess and $50 to Mrs. Johanna Brintnell for right of ways across their properties for a storm drain construction and maintenance be authorized as per the city engineers letter of December 10th, 1923.

Recommended, that the Engineer accept the Ponton and Benjamin streets sewer on behalf of the city from the Patterson construction company limited subject to road repairs in the spring time, and the usual one year guarantee of the contractor on this clearance work.

Recommended that the City Clerk be authorized to purchase 500 sheets of carbon paper from the Pelican Carbon Company of Toronto.

Recommended that Aldermen W. R. McCreary and Ald. R. E. J. Graham be suggested by this Council for appointment on the Hospital Board.

Recommended that the application of Miss Edna Farley for the position of tax collector be accepted at a salary same as at present namely $1,500 per annum.

Recommended that a monthly grant of $150 be made for the year 1924 to the Old Folks Home.

Recommended that the amount of $97.67 to Mrs. H. Corby and $54.11 to Miss Corby be remitted for income for the year 1923, and that theTreasurer be authorized to pay same.

Recommended that a grant of $25 be made to the Sick Children's Hospital.

Recommended that a grant of $3,000 be made to the Indigent Committee of the W. C. A. for the year 1924.

# STEPS TO GUARD HEALTH OF NORTHERN DISTRICTS URGED BY MEDICAL MEN

### Delegation of Physicians Calls on County Council To Promote Medical Survey of Hastings and Other Counties in Province

### INFANT MORTALITY

### Ontario Government to be Requested to Make an Investigation Preparatory to Improving Medical Conditions In the More Sparsely Settled Communities

A very important matter, namely the guarding of the health of the residents of Ontario was brought before the County Council westerday afternoon. A delegation of medical men were present urging the Council to impress upon the Provincial Government the necessity of a medical survey of Hasting and other counties and especially in the sparsely parts of Counties where medical attention is difficult to procure.

Dr. J. Routley, of Toronto, was the first speaker and he said his object in appearing before the Council was to present a problem that is confronting the entire country. The greatest national asset of this country is the health of the people; the first duty of the state is to guard zealously the health of the people. The health of this Province is not what it should be.

The medical profession of this Province is second to none in any country. Has Hastings County the proper medical attetion, he asked. "Are you willing to co-operate with the medical Association in seeing that all have proper medical attention?" "We desire to have a survey of this and other counties. We are not asking for money but desire the co-operation of the Council in having maps prepared and a proper survey."

Dr. F. J. Farley, of Trenton, spoke sympathetically, referring to the fact that in portions of Hastings County the infant mortality was high owing to the fact that many mothers did not have medical attention at childbirth.

It was, he considered, the duty of the Provincial Government to make the survey asked for.

Dr. J. A. Faulkner endorsed the remarks of his fellow practitioners. In the northern part of Hastings County there were some fifteen Townships where only 3 doctors were attending to the inhabitants whilst there are 40 to 50 physicians in nine southern municipalities. He suggested that an emergency hospital be established in the northern part of the county where emergency cases can be attended with proper nursing.

This hospital might contain 10 or 12 beds and the expenses to be borne by the Provincial Government. This is a national question.

Dr. A. T. Embury said he endorsed all that has been said by the previous speakers. There will be a great mortality in isolated municipalities unless something is done as has been suggested, he declared.

Warden C. S. Rollins assured the deputation that the matter would be carefully considered by the Council.

The following resolution was adopted by the Council.

"Moved by Dr. A. F. Embury, seconded by W. A. McMurray; whereas it has been brought to the attention of the Hastings County Council that adequate medical ad nursing attention is not available for some sections of our County and—

"Whereas it is the belief of this Council that it is the duty of constituted authorities to ascertain the true conditions relative to the provisions which exist in this County for the prevention and care of sickness and

"Whereas it is our belief that it is the duty of the Provicial Government to give all possible co-operation in their investigation and consideration of this important problem—

"Be it resolved that this County Council of Hastings respectfully request the Provincial Government that it undertake a study of the medical condition of this county.

## LABOR GOVERNMENT RECOGNIZES RUSSIA

(United Press Despatch)

London, Jan. 25.—Recognition of Russia by the new Labor Government probably will not be effected immediately it was learned authoritatively to-day, but steps have been decided upon and James E. O'Grady of South Leeds, has agreed to accept the post of Ambassador.

London, Jan. 25.—Many members of Ramsay MacDonald's cabinet which includes six former miners and a barber, were shocked to-day to discover that they will receive no salaries as ministers until the end of the first quarter.

## ITALY PREPARES FOR BIG ELECTION

Rome, Jan. 25.—Coincident with King Emanuel's signing of a decree yesterday dissolving Parliament and opening the way for a seventy-day election campaign, when a big majority of Parliament will be elected, comes a movement to combine all radical movements in Italy to put up a big fight at the polls.

## MASONRY AND U.E.L.

Belleville has reason to be proud of the traditions that caused this city to be selected as the site for the big U.E.L. celebration here in June.

The attitude of Canadian Masonry is aptly expressed in the following article:

**OUR DEBT TO U.E. LOYALISTS**

St. John's Day marks another mile post in the progress of Masonry and invites Masons to review the efforts of our early Brethren to plant the Craft in the native forests of Upper Canada.

Free Masonry in this country owes a debt to the United Empire Loyalists. Many of those hardy pioneers were members of the Masonic Fraternity before their arrival in the territory which now forms Ontario.

On the 8th of September 1783 seven ships, laden with Loyalists set sail from New York City for the Bay of Quinte District where they arrived on the 16th of June, 1784.

Gradually after their arrival here and there a few faithful brethren assembled and formed Lodges.

In those days the Lodges were few and far apart. The noble efforts of those pioneer members to establish and keep alive the Craft may be judged from the fact that many of them had to paddle from where Belleville is now situated, to Cataraqui, now Kingston, a distance of sixty miles, and sometimes had to walk, to attend Lodge. Others travelled long lonely forest trails to York. When they arrived there were no orante comfortable Lodge Rooms. The meetings were usually held in a room in a little hotel or a private house. The fundamental principles and tenets of the Order were appreciated by the men who went to the trouble, endured those hardships and spent the time to attend these gatherings. Their fidelity and zeal should be commemorated by the Masons of today who enjoy the privilege of taking part in the proceedings of lodge meetings, at convenient locations, in beautiful and comfortable Temples.

In 1792 William Jarvis, a U. E. Loyalist, was appointed the first Provincial Grand Master of Upper Canada by the Athol Grand Lodge of England, with his Grand East at Niagara, which in 1797 was moved to York. Up to 1804 he had issued twenty warants for lodges in various parts of the province.

On the death of Provincial Grand Master Jarvis, 1817, a Masonic Convention assembled at Kingston which met from time to time till 1822, when Right Wor. Bro. Simon McGillivray re-organized the Craft under the authority of the Grand Lodge and has continued to grow till there are now 100,000 Masons in Ontario.

Next June the United Empire Loyalists will celebrate the 140th anniversary of the settlement of the Province. The City of Belleville in the Old Bay of Quinte District has been selected as the place for the celebration. This will afford the Masonic Fraternity an opportunity to show their appreciation of the strenuous efforts put forth by these early U. E. L. Masonic Brethren to plant Masonry in this jurisdiction. Plans are being made to hold the largest Masonic parade ever held in the Province at this celebration.

## THE TRAGEDY NEAR GODERICH

An English "home" boy, Charles Bulpitt, of good education and more fitted as well as more anxious for office work, was instead placed on a farm near Goderich.

He had long hours of hard work, no friends, no recreation, and finally his farmer employer thrashed him for "telling lies".

The poor, lonely youngster ended it all by hanging himself.

The tragedy calls attention to the fact that the system of inspection of homes where children from British charitable institutions are placed in Canada is at best but a superficial one that does not begin to get at the real conditions.

How Many Charles Bulpitts are there on Ontario farms at the present time?

Nobody can authoritatively say how many lonely, low-spirited lads there are, unfitted for farm work, working among strangers and under circumstances that make life merely drudgery for them.

It has been suggested, and the proposal seems a satisfactory solution, that the machinery of the Children's Aid Society should be called into service.

Their inspectors know the conditions in their own district, and as the coroner's jury in the Goderich case pointed out, "can visit the children more frequently and make an inspection which is not perfunctory as has been the case frequently in the past."

The tragedy of this poor, lonely English boy must not be repeated; it is a reproach upon our civilization.

Boys physically unfit for farm work should not be sent to a farm, as it is to be feared too many of them have been sent under the present haphazard system.

## EDITORIAL NOTES

Our oil output is increasing. And since school opened the cartor oil intake has increased.

The man who does his best seldom has to look for a job.

### HIS MEAL TICKET

"What is Hunter doing for a living now?"

"Oh, anything his rich wife tells him."—Boston Transcript.

## Only Those In Declining Years Realize What It Means

As people pass middle age, their strength and vitality usually begin to wane. They are easily tired. They notice that they are not as active as they were. They need something to tone up their system — something which will put new strength, life and vitality into them—a tonic. But such a tonic must contain no harsh ingredients. Old age was Mr. Snider's trouble. Read what he says:

"It is only those who are in the declining years of their life who can understand the many troubles which old people have to endure. The slightest over-exertion brings on weakness, which affects the whole system, resulting in indigestion, sleeplessness, depression, loss of strength and vitality. This was my trouble. I was suffering from old age. I needed something to renew my strength and vitality. I told my druggist about my trouble and he recommended Carnol. A short time after I started taking it I felt better. I noticed my strength and vitality returning. I had more energy. I felt better than I had felt for twenty-five years. My appetite has returned. My friends all say how well I look. I have no hesitation in recommending Carnol to old people. I conscientiously believe that it will help them as it has helped me." — Mendel Snider, Hanover, Ont. 6-9

*Carnol is sold by all good druggists everywhere.*

## PRESS OPINIONS

### POPULAR DELUSION

(Buffalo Express)

The more or less popular delusion, directly encouraged by Police-Commissioner Enright of New York, that the crime wave is to be attributed in great part to returned soldiers, is vigorously challenged from Indianapolis and the reply is based on investigation, not supposition. The country prosecutor at Indianapolis says that most of the criminals who are being captured now are boys who were too young to go to war.

Buffalo can offer a little data on this subject, somewhat different in character, but pointing to the same principal conclusion. Here the most conspicuous group of young men who have been arrested and convicted for a major crime was madeup, not of former soldiers, but of fellows who, about the time the draft was ordered, committed crimes sufficient to send them to prisons or reformatories for the period that the war lasted. The slacker sentiment appears to be much more heavily represented in the crime wave than the soldier element. And that accords with natural psychological processes.

### NO MARGIN OF SAFETY

(Chicago Herald and Examiner).

Here is an item of bad financial judgment that unfortunately is not uncommon. It concerns the case of a man who borrowed on his life insurance to buy stocks on a margin. To borrow on life insurance for any purpose is a mighty unwise thing.

Insurance is not meant as investment for profit; it is meant as investment for protection. A man should not borrow on it except in an emergency against which protection is absolutely needed. To borrow for speculation is practically to put up the future of your wife and children at auction. There is no excuse for it, and no margin of safety.

### PUBLIC SUPPORT

(Kansis City Times)

Every time public sympathy, thisdirected in the interest of a criminal, interferes to defeat justice, the machine of the law labors with one more handicap to its working. The law is brought into disrepute, criminals are encouraged and society pays the bills.

Justice, like every other agency of government, must depend for its successful operation upon public support. Failing that, justice must fail.

The breakdown of law comes back finally to the American people themselves, to their irresponsible, thoughtless, indifferent neglect of their social and political obligations. That attitude is reflected in their public officials, in their lawmaking bodies, in the inefficiency and deadlock of government itself.

## Music&Drama

### BOYS START FEUD

Thrilling Incident Shown in "Trail of the Lonesome Pine."

A rough and tumble fight of two lads, resulting in one of the bloodiest feuds ever waged in the Cumberland Mountains of Kentucky, is a feature of Mary Miles Minter's latest Paramount picture, "The Trail of the Lonesome Pine," which is playing at the Regent now. The fathers of the boy fighters appear on the scene and separate the lads with some difficulty. Then the better halves of both families arrive. The fathers start a warm argument over the cause of the boys' fighting, and the mothers begin to take up the quarrel. What ensues constitutes one of the most thrilling bits of drama of the current season. Antonio Moreno, featured as leading man, and Ernest Torrence head an unusually strong supporting cast of players.

### ROBIN HOOD ROBBED RICH TO FEED POOR

Famed Twelfth Century Character Lives Again in Douglas Fairbanks' New Photoplay

According to legend Robin Hood, he of infinite exploits of matchless valor in the days of chivalry eight hundred years gone, hit upon a clever method of avoiding the odium of robbery when he audaciously dedicated himself to the occupation of "robbing the rich to feed the poor."

He made a practice of inviting wealthy men to dine with him and he played the part of a most hospitable host, affording his guests feasts on the best of highclass edibles, including rare venison and choice fowls. Then at the conclusion of each such repast, he would appear suddenly armed with his trusty bow-and-arrow, and using this to impress his seriousness, would demand that each guest pay for his dinner. Invariably the daring adventurer would specify the sum each must pay, and pay it he did rather than suffer the consequences of coming in contact with a deadly arrow.

It is claimed that following each of these incursions on purse and pelf there would be an era of plenty in whatever district Robin Hood happened to be, because he would always divide the spoils with the needy, his generosity and charity being without parallel. Naturally, he was much beloved by the poor and just as naturally he was feared and hated by those better blessed financially.

But his idea of making the fiddlers pay when they assembled around his festive board was unique to say the least, and if it did lack in legality, it did not fail to do good in quarters most needing a little of the good of a sincere helping hand.

As played by Douglas Fairbanks in his elaborate screen production, "Douglas Fairbanks in Robin Hood," a United Artists release coming to the Griffin Theatre this Monday to Wednesday, this character compels unstinted admiration, his charmingly romantic penchant being especially stressed in this notable characterization, which bids fair to live in cinema history as one of the most conspicucus triumphs ever attained by any star in any histrionic effort.

## Continental Life Achieves New Records

### 1923 is Biggest Year in History of Company

The annual meeting of the Continental Life Insurance Company, disclosed some remarkable figures for 1923. Although the previous year had been a good one breaking al former records, the figures for 1923, submitted at the annual meeting, showed a marked increase in the business of the Company.

Here are a few items taken from the Company's Annual Report, just issued, showing the increase:

Insurances issued and revived $5,328,128, an increase over 1922 of $274,907.00: Total income $935,699.24, an increase over 1922 of $58,109.07: Surplus earned, $161,057.29, an increase over 1922 of $52,057.39: Dividends paid or alloted to policy holders, $60,967.75, an increase over 1923 of $15,854.36: Reserves, $3,377,343.00, an increase over 1923 of $229,909.00: Assets, $3,969,383.49, an increase over 1922 of $313,136.98: Surplus including paid up capital stock ($200,000.) $469,284.53, an increase over 1922 of $81,739.68.

The increase in the business of the Continental Life Company is all the more remarkable in view of the general business conditions which have obtained throughout Canada during 1923.

The Company is to be congratulated on its remarkable showing. The record established in 1922 was a high mark at which to aim and the fact that the objective was not only attained but passed, and a new goal was reached, augurs well for the future success of the Company.

The Directors of the Company expressed their appreciation of the splendid work of the staff.

## Try Sulphur On An Eczema Skin

COSTS LITTLE AND OVERCOMES TROUBLE ALMOST OVER NIGHT

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

### UNSETTLED.

Anxious Old Lady (on river steamer): "I say, my good man, is this boat going up or down?"

Surly Deck-hand—"Well she's a leaky old tub, ma'am, so I shouldn't wonder if she was going down. Then again her b'ilers ain't none too good so she might go up."—National Magazine of the Hardware Trade.

### NOT IN THE CONCRETE

The professor was putting the finishing touches on the sidewalk he was laying down. Tommy aged six, deeming it time for trial started to dry. The professor displayed slight pique. A passer-by observed: "Why Professor, I thought you liked children." "I like 'em all right in the abstract," the professor replied, "but not in the concrete."

### WITH SLICES OF SUNSHINE

Waiter (to regular patron): We hae beautiful weather today, professor.

Professor (absent mindedly): Yes, you might brig me a portion—Kansas City Star.

### DID HIS BEST, ANYWAY.

Infant Terrible: "A lady came while you were out and I entertained her." Mother: "Good gracious!" Infant Terrible: "Oh, don't worry, mom; I made believe I was well brought up."

## The Letter Box

TO THE EDITOR—

Sir:—

Anti-Unionist writers and speakers are now calling for another vote of the Presbyterian people on the question of Church Union and asking, "Why not trust the people?" thereby suggesting that the Committee on Church Union are afraid to trust the people. I feel it necessary that the Moderator of the Assembly should make a clear statement as to the present situation and speak with complete "frankness on the whole question of another vote"

1. The people have been trusted and trusted fully. By their own direct vote and through their representatives in Presbyteries and General Assembly the people have clearly indicated their will. They voted directly at the only time when according to our Constitution they could vote, namely, before action was taken by Presbyteries under the Barrier Act. Before the Presbyteries and Assembly took final action under the Barrier Act, not only were all the people invited to vote for or against Union on the present basis, they were distinctly told that this was the final vote and that the matter was now to be settled. Thus challenged to express their mind twenty-two per cent of the church members voted against Union, while of those voting there was a majority of 40,000 in favor of Union. More than 100,000 did not vote and thereby declared their willingness to accept the decision of the majority of those who did vote.

In the light of that vote of the people, the Presbyteries by a majority of 53 to 13 voted in favor of Union on the present basis, and the General Assembly, by a similar vote of 4 to 1 passed the Union proposals into a permanent enactment of the Church. Since that decision the Assembly itself could not change the Church's policy on Union without referring the matter to the Presbyteries under the Barrier Act. That the Presbyteries wou'd not entertain such a proposal for one moment is evidenced by the fact that last spring out of 56 Presbyteries considering the question, 53 overtured the Assembly to proceed forthwith to the consummation of Union. Let it be remembered that Presbyteries are thoroughly representative, every Congregation in the land being represented in Presbytery by its Minister and one representative Elder.

2. The question of Church Union having been finally decided by the Presbyterian Church in Canada through a vote of her members and adherents, followed by the constitutional action of the Presbyteries under the Barrier Act and the General Assembly as the supreme court of the Church, the Assembly of 1923 gave final instruction to the Union Committee and the time is past to ask anyone to vote on this matter.

3. The Assembly having decided to proceed with to the consummation of Union instructed its Union Committee in co-operation with similar Committees from other negotiating Churches to put the Bills in final shape, secure their enactment and take all other steps necessary to carry out the decision of the Church.

Do Anti-Unionists believe that the Union Committee could ignore the instruction of Assembly, take matters into its own hands and instead of going forward as instructed, turn aside on a tack of its own and call for another vote? That would be not only a divisive but a subversive course such as has never even been thought of in the whole history of our Church and would leave us without Church Government or Church order giving the whole situation over to chaos.

Even were it possible, another vote would do no good. There would still be a majority and a minority, and prominent Anti-Unionists have declared that no matter what the majority they would not enter the United Church. No one could give pledges that another vote whatever the majority, would prevent a split, and no pledges given by any organization could be held to be binding.

5. A fair vote could not now be taken. Thousands of our Presbyterian people, the very ones most interested and whose rights are most concerned in the verdict, are now in Union Churches and would be disfranchised.

6. The Presbyterian Church in Canada, having decided her policy, formally declared that decision to the other negotiating churches an encouraged local Union among Congregations wherever it was thought desirable, providing them with a Constitution "until the Organic Union of the three negotiating churches is consumated."

More than twelve hundred pastoral charges with some three thousand Congregations have taken our Church at her word and have entered into Union in all good faith. To go to the people now for another vote would be to ask whether our Church is to be untrue to covenants solemnly made with others after long and careful consideration, and believed to be necessary to the most effective service on the part of our Canadian Churches. There are some things the Presbyterian Church in Canada does not do and one of them is to ask questions of herself or of anyone else as to whether she is to keep faith or not.

Some have recently suggested that Parliament should order another vote. Do they know what they are suggesting. Nothing less than that Parliament should dictate the policy and procedure of a particular Church. The duty of Parliament is to see that the Churches applying for legislation acted in accordance with their own constitution and that the rights of all parties have been conserved; but no go beyond that and attempt to dictate the policy and procedure of any Church would raise a far bigger question than that of the present Church Union and one in which all the Churches are equally concerned, namely the whole question of spiritual freedom and of State control in religion. If Parliament can decide the policy and procedure of the Presbyterian Church and demand that it be other than Presbyterian, then Parliament can do the same with the Anglican and Baptist and Methodist and Roman Catholic and all other Churches in Canada. That would be Erastianism unheard of in modern times, and the spiritual freedom for which the Scottish Churches hae contended since the Reformation and which they have now fuly attained would be at an end n Canada. No one imagines that any Legislature would assume such responsibility if it could.

Let me say further, that I deprecate the tendency to magnify the difficulties in the way, and to overestimate the oposition that exists to the policy of the Church. At the Union of 1875 the feeling was just as strong as it is today and the oposition relatively as great. At that time there was an appeal to the Courts for an injuction to preent the negotiating Churches aplying for legislation, the legislation was opposed in Parliament and in the Provincial Legislature, the case was taken to the Privy Council, there were many and dire forebodings of evil; but the legislation was secured and the Union effected. Ultimately al the non-concurring Congregations came into the Union, the fears of the Ati-Unionists of that day were discredited and the highest hopes of the Unionists far more than realized.

Every great forward movement is an adventure of faith, and were the counsels of the faint-hearted to prevail the Church would be permanently static and her new needs never met.

ALFRED GANDIER,
Moderator of the General Assembly.

## PEASANTS THRONG TO LENINE'S BIER

(United Press Despatch)

Moscow, Jan. 25.—So many thousand of peasants are pouring toward Moscow from all parts of Russia, to pay honor to their dead leader, Lenine, that roads and railways are blocked for miles. It became necessary to postpone the funeral from Saturday to Sunday.

## ITALY'S IMMIGRANTS FAVOR UNITED STATES

(United Press Despatch)

Rome, Jan. 25.—A total of nearly 400,000 Italians who emigrated last year, more than 58,000 went to the the United States, according to the official statistics just issued here.

## Sage Tea Dandy To Darken Hair

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well-known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriously dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

## OBITUARY

MRS. ETHEL MCCOURT

After being ill for some time, Mrs. Ethel McCourt, widow of the late Mr. Patrick McCourt passed away yesterday afternoon at her home 61 South John Street. Deceased was born in Foxboro, 63 years ago and had resided in Belleville 40 years. Mrs. McCourt was a member of St. Michael's Church and a lady who had many friends in the city. Her husband predeceased her 8 years ago. Surviving is one son an five daughters. The son, James, resides at Chicago and the daughters are Mrs. John Irvine and Mrs. Albert Bunton of Belleville, Kathleen of California. Misses Annie and Evelyn at home.

CARD OF THANKS

Mrs. Wm. Beer and family wish to thank their friends and neighbors for their kindness and loving sympathy extended them in their sad bereavement, also for floral tributes received.

## Hydro and Ships

(continued from page one)

the great increase in the movement of whet from Canada to Europe. That for the year 1922 the lake rate from Fort William to Buffalo was much higher than ocean rates, was demonstrated by a number of tables which showed the rates charged for the transportation of wheat on all the main highways of the world.

A geographical system of dividing the cost of navigation works as demanded by some sections of the country is quite feasible, Mr. McLachlan said, but in that case the proposed side canals at Cornwall should be moved to the U. S. side so as to relieve Canada of this part of the work.

### Ice Conditions

As he held that ice conditions are a determining factor in navigation and the development of power on the St. Lawrence, this matter was gone into very thoroughly by Mr. McLachlan both by diagrams and photographs. The official plan of the Board of International Engineers was designed to meet these ice conditions. At present Lake St. Francis is called upon to stow away in the form of hanging dams about five billion cubic feet of frazil every winter. This deposit of frazil under the ice cover is the cause of the great rise in water level which occurs above Cornwall in severe winters, he said. The single stage scheme of power development proposed to let an ice cover form over a large part of what is now open water, and to reduce the amount formed to about two billion cubic feet, which will be stowed away under the ice cover not at Cornwall, but in the upper end of the pool to be created along the Long Sault Rapids.

Mr. McLachlan maintained that frazile ice would pack up to a much greater extent under the double power dam scheme than under the single power dam scheme of the International Joint Commission. This would considerably reduce the head of water for power purposes. He admitted, however, that the double dam scheme was feasible. But the power supply at Lake St. Francis would not be available in winter. Serious objections would be present in the cost, the lowering of the water level at Morrisburg, and the inundating of a large area.

## Get-Together Meet At Hotel Quinte

At Hotel Quinte this evening the members of the County Council will be tendered a banquet by the City Council and Chamber of Commerce.

An interesting programme has been arranged for this get-together occasion. Dr. Bruce Taylor, Principal of Queen's University, Kingston will be present to give an address. Mr. F. J. Lugsdin of Toronto, will also assist in the entertaining part of the programme.

### DRIVER IS CHARGED

J. C. Acton, Bleecker avenue, is charged with reckless driving as a result of an accident in which a car driven by him, but owned by another citizen, crashed with the new sedan taxi cab owned by C. A. Cronk, 6 Bellevue Terrace. The accident occurred recently on Front street.

The case which was to have been heard this morning was laid over until February 1st. C. A. Payne will represent Cronk, and R. J. E. Graham will defend accused.

### SLEIGH RIDE PARTY

Members of Miss M. Barnum's class, called "Beacon Lights," in connection with Holloway street Methodist Church Sunday School last evening enjoyed a sleigh ride. After driving about the city for an hour and half the party repaired to the residence of Mrs. P. A. Twiddy, west Moira street, where games and music was indulged in until 11-30 when a dainty lunch was served. It was a most enjoyable affair and before departing the company "For He's a Jolly Good Fellow" and voted Mrs. Twiddy an ideal hostess.

### X-RAY INSTALLED IN BELLEVILLE HOSPITAL

The Belleville General Hospital has added to its equipment an up-to-date X-ray machine. Not only will this new department increase the efficiency of the hospital to a marked degree, but it is the last step necessary to meet the requirements of hospital standardization. The physicians of the County as well as of Belleville will find the hospital X-ray of great value in their work.

## NATIVES IN CLASH WITH AMERICANS

(United Press Despatch)

Manila, Jan. 25.—Attempting to oust the American staff, 250 Phillipines armed with bolds and other weapons invaded the Binalbagan Sugar Plantation in the central part of Gegros Island. The Americans are standing pat.

## WOMAN SAYS SHE IS PRINCESS OLGA

United Press Despatch

Riode Caneiro, Jan. 25.—The arrival of a woman who says she is Princess Olga, daughter of the late Czar of Russia, is arousing interest throughout Brazil. The woman bears strong resemblance of photographs of the Princess long believed dead and tells a plausible story.

# ELECTRICITY TOO CHEAP FOR METERS IS DREAM OF 'SUPER-POWER' LEADERS

By NEA Service

Chicago, Jan. 25.—Light your home, cook your meals, wash and iron your clothes, run your sewing machine and clean your house—

All by electricity, for less than a dollar a month!

Get electrically the equivalent of 120 hired men on your farm, for 60 cents a day!

With electricity so cheap that it will not pay to install meters and keep accounts!

Coupling a moderate play of imagination with engineering facts, Carl D. Thompson presents this as the outcome of the "super-power project."

Thompson is secretary of the Public Ownership League of America. One of its goals is mobilization of all available electric power in the United States and Canada into one public owned system.

"Is it practical?" Thompson counters that question. "It is demonstrated reality already. The rates of the Hydro-Electric Power Commission of Ontario, Canada, is proof. More than a million customers of this system use current at an average cost of 2⅓ cents per kilowatt hour. In American cities, we average three times that much.

"Sir Adam Beck, chairman of the Ontario system, fought until this became a reality. He is active now as president of the Public Ownership League, in [illegible] a [illegible] of power production in the two countries."

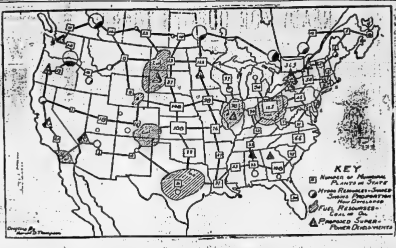
Super-power means simply more and cheaper electricity supplied from a unified system which generates by both horsepower and steam plants.

Nearly 20,000,000 horsepower now running away down the stream beds would be harnessed into the system. Coal, instead of being hauled in bulk, would turn dynamos at the mine mouth and send out its energy by wire.

A federal superpower commission to direct and control this development is the first step to realize the dream, says Thompson. It would not only develop generating plants but lay out main trunk lines for distribution of current. The 2318 municipally owned electric plants, some of them in every American state, would be the starting points to be linked into the new system.

For hydro-electric production, attention would center upon the Colorado, Columbia and Mississippi River systems, and Niagara Falls and St. Lawrence River. Muscle Shoals would be kept under public control, completed and placed in service.

Next would be the Boulder Canyon dam on the Colorado River, for which a bill already has been introduced in Congress. That dam would be 600 feet high, cost $40,000,000, furnish 750 continuous horse-power and irrigate 1,000,000 acres.



KEY

# BELIEVE HUN HID WEALTH FROM ALLIES, IN NEUTRAL COUNTRIES

## Material Benefit Not Hope in Washington From Second Committee of Experts From Allies

By A. L. BRADFORD

(United Press Staff Correspondent)

Washington, Jan. 25 (United Press)—Little hope is held out by the United States for any material benefits towards a reparations settlement resulting from the labors of the second committee of the American-Allied inquiry of private experts into German finances.

The participation of a private American expert, Henry M. Robinson, president of the First National Bank of Los Angeles, in this committee, can be explained by saying that it is a concession to the position of France.

The second committee of experts has as its task a study of the so called flight, or removal, of capital from Germany and means of bringing about its return so that it can be applied to reparations payments.

France has believed for a long time that Germany has escaped a major part of her reparations obligations through taking of great sums of capital out of the country and to neutral nations, where the Allies could not lay hands upon it. The French consider the work of this committee as the most important phase of the expert inquiry, or, at least, say so officially.

### Smuggled Capital

But how can the amount of capital smuggled out of Germany be estimated at all accurately? The word "smuggled" is used, because Germany claims that she has employed all methods of law to prevent the flight of capital.

The answer according to the views of officials here, is that the amount of this "flown capital" cannot be fixed with any great degree of accuracy. The only hope for the second committee is that its labors may be able to form approximate estimates of the amount of this German capital and that public opinion on these results may aid to some extent a reparations settlement.

Capital is probably the most timid thing in the world. Members of President Coolidge's Cabinet here have stated privately that, if they were Germans and had been in Germany during the last few years the first thing they would have tried to do would have been to get their money out of the country to some neutral and safe spot.

The second committee of experts probably will do more travelling than the first. There is hardly a country in the world, neutral so far as reparations is concerned, that German capital may not have flown to. America has been said to be one of the principal nations within whose borders German money has been smuggled.

There are two great obstacles facing the work of the second committee, means of estimating the amounts of German gold abroad and means of taking action on the basis of their findings.

### Bank Accounts Secret

For instance, it is a tradition at least in the United States, that a man's bank account is sacred to outsiders. Processes of law can reach the sums, but there is no law that permits the throwing open of the books of financial institutions to determine how much gold rests within that belongs to German citizens.

Then, even if the experts of the second committee will be able to place approximate estimates on the amounts of German capital abroad, there are known to the Government here no processes of law by which this money can be returned to Germany. Allied pressure on the German Government to try and effect its return is the only method thought of here.

### REACHING SUMMIT OF MOUNT EVEREST

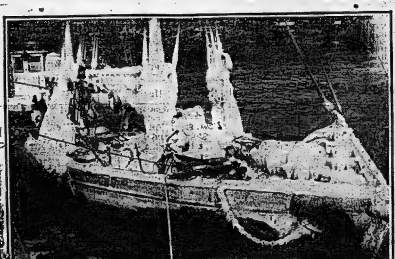
London, Jan. 25.—The summit of Mount Everest will probably be reached this year, in the opinion of Dr. T. G. Longstaff, a member of the last expedition. "It all depends on the weather," he told an interviewer. "If the climbing party reach the same altitude they did last time (27,800 ft.) before the eve of the blizzard accomplish, they should successfully accomplish the final 2,000, but at that altitude a blizzard would just kill you."

### CAN'T MAKE HOME BREW

Rochester, N. Y., Jan. 25.—When Rochester's city fathers adopted the European-discovered method of treating city water with iodine at the source of supply in an attempt to eliminate goitre, they spelled the doom of the home-brew industry locally.

The statement of a retired commercial brewer that the iodine in the water makes it next to impossible to obtain a satisfactory "head" on beer, or near-beer, is endorsed by many other citizens. The effect of the iodine on the yeast in the fermentation process it is said prevents the brew from rising.

## This Will Make You Appreciate a Slice of Fish



Supplying the country's demand for fish isn't exactly a bed of roses. The good ship Margaret Hathaway heaved into New York port looking like the picture above shows. Yep—ice from tip to tip. Brrr.

# HEIRS OF JAPAN WILL MARRY SATURDAY, SIMPLE CEREMONIES

## Owing to Recent Disaster, Marriage of the Crown Prince Lacks Expected Brilliancy, But Public Rejoices

By CLARENCE DUBOSE

(United Press Staff Correspondent)

Tokyo, Jan. 25 (United Press).—Crown Prince Regent, Hirohito, future emperor of Japan, and the Princess Nagako Kuni, future empress, will be married here tomorrow.

It is to be an "earthquake wedding." The ceremonies, within the forbidden precincts of the Imperial Palace will be very simple. The festivities and celebrations of the people will be toned down and without pomp and ostentation. All Japan is rejoicing. But all Japan will obey the instructions of the Crown Prince—that both in the imperial palace and through the empire economy and simplicity must be practised in connection with this wedding, in order that all available money and effort shall go to reconstruction.

Vast throngs will line the streets to watch the Crown Prince and his bride drive from the Imperial palace—where with the simplest of ceremonies Shinto Priests of the Imperial Shrine are to marry them—to the Akasaka detached palace, where they will live. Throughout the empire simple celebrations will be held in villages and towns and cities. Even in torn Tokyo and Yokohama, there are to be celebrations, of course, but celebrations subdued, in accordance with the expressed wishes of the Regent.

### Few Spectators

The actual wedding ceremony will be witnessed only by the Imperial family and some of the highest court dignitaries. It will be performed within the Imperial Shrine of the Imperial Palace. Outsiders are never allowed behind the great, grey, moated walls of the Imperial Palace grounds—save when diplomats, and, occasionally, a distinguished foreigner are formally received in the audience chamber.

Shinto priests of the highest rank, who officiate at the Imperial Shrine, will perform the ceremony. The rites are simple. The bride and groom exchange offerings of food and drink, the act having a spiritual significance and the priests makes formal announcement to the spirits of the ancestors and these, their descendants, have been married. Formal entries are made in the "family book" and this is what the western world would call the civil part of the ceremony.

It will just be a very quiet and simple home wedding, with nobody there except the folks from the two families to put it in terms of the U.S.A.

### Wedding Tour to Shrines

The "wedding tour" of the imperial couple will consist of a journey to the Grand Shrines of Ise, to worship before the graves of the former emperors of Japan and ask their benedictions. The palace in Tokyo where they expected to live was destroyed by the earthquake. So they will live at another palace, even a more beautiful one, which was but slightly damaged—the palace where the Prince of Wales lived when he visited Japan.

### Both Are Popular

Hirohito, 22, is studious, athletic, hard-working, of democratic disposition, fond of sports, a "good fellow," and tremendously popular with his people.

Princess Nagako, 20, daughter of one of the bluest-blooded families of the Japanese aristocracy, answers to exactly the same description. She is regarded as rarely beautiful. Like the Crown Prince she is very fond of outdoor sports—tennis, golf, riding, swimming and hiking. She is an assiduous student as he is—and as almost every Japanese is—versed in several languages, with an all-around classical education, as well as carefully trained in actual, everyday household management. The Japanese system doesn't neglect that—even in the future empress.

The people are exceedingly fond of both the Crown Prince and the Princess Nagako. They say it is an ideal match. They like the democratic spirit, the fondness of sport, the good-fellowship and the actual hard-working ability of their future emperor and empress.

Before the earthquake Japan was making preparations for unprecedented celebrations, in observance of the imperial wedding. The spirit of simple joy, manifested without lavish display—the spirit of determination, of perseverance, of subordinating everything to the one big job of "coming back"—that spirit will be shown at the "earthquake wedding" of the imperial couple, more impressive and more significant than the most colorful and brilliant display.

### NEW FREIGHT SERVICE

Duluth, Minn.—Purchase of three vessels by the Minnesota Trans-Atlantic Co. was announced today. Following this purchase a new packet freight service will be established on the Great Lakes by the company.

FEBRUARY RELEASE — NOW ON SALE

"When Lights are Low"

## FANNING WITH FARRELL

## GIBBONS WILL MAKE DEMPSEY STEP

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 25 (United Press).—Because there may be some reasons to be suspicious over what happened in Shelby last summer and because Tom Gibbons never has been able to get credit he deserves as a great fighter, there is a disposition in boxing circles to figure that Dempsey wants to give Gibbons a return battle merely to get into real fighting shape for Firpo or Wills.

It is not impossible that Gibbons will give Dempsey more trouble than Firpo will when they meet again and it is almost a conviction that Dempsey will beat Wills quicker and with more ease than he will take Gibbons the next time.

Gibbons certainly learned something in his first contest with the champion and if he was not softened up by some of the hard punches he took in the body, it would be only logical to figure that Gibbons would do as well the second time in the ring as he did the first time.

Gibbons insists that he was not hurt by any body punches in the Shelby fight and that he was dazed once in the first round by a right hand punch to the head and once again in the late round when Dempsey hit him in the groin.

Perhaps it would be safe to assume taken out of him in that fight, as every fighter who has gone against Dempsey came out of it with a few permanent injuries.

Granting this point, it must be assumed for the same reasons, that Dempsey might have been softened a little, or more, perhaps, in his last fight with Firpo. Dempsey stopped a lot of solid punches to the head and the body and everyone knows that the South American could hit.

Ever since Dempsey and Gibbons fought fifteen rounds in Montana last summer it has been argued, chiefly by those who did not see the fight, that it was a "carry" and that Dempsey has reasons to restrain him from knocking out Gibbons and gambling on a decision. It is quite silly to suggest that Dempsey at any time "gambled" on the decision, because he had one of the best friends in the ring as the referee and Gibbons would have been forced to floor Dempsey three or four times a round to get the title on a decision.

Dempsey ought to be ashamed of himself when he tells that he was afraid he would be shot if he knocked out Gibbons. If there were all the dangerous gat-bearing cowboys there ready to drop him for hurting their idol, he would have been shot every time he fouled Gibbons and he did that a dozen times.

If he's the game fellow he seems to be and has given evidence of being, he would not have been intimidated by all the guns in the state, if there were any guns there. That's his part of the country. He should know that it isn't "bad country" out there and that there are no cases on record where a champion has been killed for knocking out a popular contender.

• • •

Down in his heart, Dempsey knows that he tried his best to bring Gibbons down and that he couldn't get him with a solid punch. The champion looked invincible against Firpo but it must be remembered that every time he led, he landed on Firpo and Firpo went down. Gibbons would have gone down the same way and he would not have been physically able to get up off the floor as many times as the South American did. Dempsey, however, did not land on Gibbons with a good punch in the entire fifteen rounds and if Gibbons was fast enough then and clever enough to stay away from him then, there is no reason to believe that he has forgotten all his science in less than a year, and has suffered a great physical decline.

Dempsey was not in shape for his fight with Gibbons because he didn't like his training camp and because in a few months training he found it impossible to get back the keen edge and the fine feeling that had been partially removed by an absence of more than a year from his business.

Against Firpo, Dempsey was as finely trained an athletic as any that has ever been seen in the ring and he was at the supreme height of his form. He would not have been in such superb shape if it had not been for Gibbons' fight and if he had not been so physically perfect and so mentally alert, he most certainly would have been knocked out by Firpo.

Dempsey, no doubt, feels that he can beat Gibbons. He has the confidence of a champion and perhaps he feels certain that he will knock Tom out the next time he fights him. His self-reliance and his confidence certainly should not have been reduced by the experience he acquired in the Firpo fight, when he learned he could outslug the heaviest hitter in the business.

Dempsey is a smart fighter and perhaps he did figure that he could consider an early summer fight with Gibbons as a part of his training for a later fight against either Firpo or Wills.

• • •

If Gibbons was not softened up by Dempsey, he should put up a better fight because he really gained a lot of confidence by lasting fifteen rounds. It would be only natural for any fighter to think better of himself by the accomplishment of something that no other fighter of his time had done.

Around New York, Gibbons perhaps will get a better break on the rules, although the referee here last summer let Dempsey do anything he wanted to do in the ring. It is hardly probable, however, that Dempsey ever will resort to the same unfair tactics he did in beating Firpo and it is unlikely that he ever will get away with them, if he should happen to try them.

Gibbons certainly would not allow himself to be fouled when he had a chance to appeal and he had no such opportunity in Shelby. The New York commission would have to do something about it. There was no one in Shelby but a cowboy mayor, who couldn't be found an hour before the fight.

### STRIBLING VS. McTIGUE

Macon, Ga., Jan. 25.—After a long distance conversation between "Pa" Stribing and Babe Collins, Newark, N.J., promoter, last night, it was announced that Young Stribling might get another chance at Mike McTigue, light heavyweight title holder, in March.

The bout with Mike Burke, scheduled for February 18, in Newark, has been called off, it was said, so Stribling would have more time to train for the fight with McTigue.

## NUGENT NAMED ON HOSPITAL BOARD

A request was made to the County Council by the Hospital Board of this city that a representative from the County be appointed upon the Board of Management for this year.

A report presented showed that 505 County patients were treated at the hospital during last year. On motion Mr. W. H. Nugent, County Clerk, was selected as the County's representative upon the Board.

### TO ROW AROUND FLORIDA COAST

Duluth, Minn., Jan. 25.—Walter Hoover, former world's sculling champion, plans to row himself and his training equipment 350 miles around the Florida coast from Jacksonville to Miami before starting his regular conditioning exercises preliminary to the Olympic try outs.

The Duluth sculler leaves here tomorrow accompanied by Al. Rodin, his understudy, who is training to row with Hoover in the doubles sculling event. They expect to make 35 miles a day on their excursion.

As long as the harbor here remains frozen over, Hoover and Rodin will stay in the south. The former champion believes he will be in top form by spring.

### REAL SNOWBALLS FELL IN KINGSTON

Kingston, Jan. 25.— After the big storm of yesterday, dozens of snowballs, some of them as big as a man's head, were noticed by citizens. They looked as if they had been left by snowballers, but it was found that the city had been treated to a strange phenomenon. Prof. A. B. Klugh states that the snowballs were formed as a result of the soft damp snow being driven into lumps in the air by the strong wind, and that they fell in this form. The wind then rolled the lumps along until they became balls. Photographs have been taken of the big snowballs.

## LEAVE FOR KINGSTON TODAY READY FOR QUEEN'S TONIGHT

Justly jubilant over the fact that Frontenacs lost their protest on last Friday's game at Kingston, at the meeting in Toronto yesterday, Belleville intermediates, led by their busy manager, Ed Thomas, left this afternoon on the 3.03 C. N. R. train for Kingston, where they will take on Queen's intermediates in the second last away-from-home game in this group.

**Promise Battle Royal**

No one knows better than the local puck chasers, what a hard battle lies before them tonight for though they defeated Queen's here on Monday night last, Queen's gave them a merry chase all the way, and at home on the Jock Harty arena, backed by their rabid fans, they are liable to make the contest just that much more interesting.

**Fight For Record**

The locals are justly proud of their record so far this season, for they have not yet been defeated, although have had two or three "humdinger" games. The fans are proud of this record and wish the players and management to know that their moral support, prayers 'neverything go with them in the old hockey bag to the Limestone City this evening and Belleville fans will eagerly await the results period by period for the outcome.

The motto of the locals, is, "They shall not pass," and that means something after the game in Brockville. Whether Bill Green is feeding the boys on Buffalo meat or not will remain a mystery for the time being but they sure behave like a group of inspired cannibals when they cut loose on the ice this winter.

Big "Red" McKelvey, who is engineering the Queen's team, is a determined fighter as every one knows, and there is no gamer player on the team than himself and that is saying a "saucerful". He will be determined to win tonight at home and wipe out the bad mark. Can it be done? Here is the line-up which will do or die in their efforts to make victory for Queen's impossible.

Goal, Stan Nurse; Defence, Bill Finkle and Bil Green; Centre, Stan Hagerman; Wings, Clayton Frechette ad Vern Weir; Subs., Al Wardhaugh and Douglas Whalen.

Dr. Jerry LaFlamme of Toronto, will handle the game as well as the Cornwall-Frontenac game which will make the double header attraction at Kingston tonight. Belleville game is first and it commences at 7.15 p.m.

## ON THE ALLEYS

### "Y" LADIES' LEAGUE

Granites and the Hit and Missites played a lively fixture on the Alleys last night. The Granites got away to a much better start than their opponents and obtained quite a nice lead in the first game. They increased this in the second and when the teams started in on the third and final game Granites were leading by 116 points. At this stage of the game the Hit and Miss Quintette got real busy, bowled their best game of the evening and incidently cut down the opposition's lead to forty-one pins.

Granites—

| | | | |
|---|---|---|---|
| Miss Goyer | 88 | 132 | 117—337 |
| Miss Sprague | 125 | 143 | 171—439 |

| Miss McKeown | 116 | 114 | 172—402 |
| Miss Moreen | 92 | 149 | 120—361 |
| | | | 1698 |

The Belmonts won from Cashs at the Recreation alleys last night in the ladies league fixture, the Belmonts taking the three strings, both these teams showing up better than last week. Miss Barrett had the high single and Miss Brooks the three strings.

In the junior league the Mac's and the National Castings put up one of the best games to date. The Mac's were 146 pins down in the first game but came back strong in the last two games and won out by 16 pins. Saylor was high single and three strings for the Mac's with 215 and 508. This is Saylors second time inside a bowling alley. The second junior game was between the Cyclists and K. of C. the latter winning out by a safe margin. Goodwin being high single and three strings. Scores and players.

## Frontenacs Lose Protest Over Game In Kingston; Referee's Decision Final

At a meeting of the executive of the Ontario Hockey Association held yesterday in Telegram building, Toronto, the protest entered by the Frontenac Hockey Club, Kingston, of the game with Belleville played in Kingston on Friday, January 18, was thrown out. Frontenacs claimed a goal which was not allowed by the referee and also protested that the game was not finished. They had no redress in the matter of the disallowed goal, as the referee's decision in such a case is final. But as to the full sixty minutes not being played as required by the rules, the protest failed, the evidence showing that Frontenacs refused to accede to the referee's request to continue the game.

Jim Sutherland of Kingston mailed a long letter to O. H. A. headquarters which was read at the meeting by Manager Ed Thomas of the local intermediates.

Harry McNeill, secretary of the Frontenac Hockey Club was present on behalf of the team, while Belleville was represented by Manager Thomas and Robert Burke, who was timekeeper at the disputed game.

Holding that no referee had a right to order the teams of the ice, as was the case, 2 minutes and 8 seconds before full time, Kingston Frontenacs rested their case. The executive, however, found that at such time as a referee is subjected to continued insulting and obscene language or any physical abuse, he has a perfect right to call the game. Furthermore Referee Cummins returned to the ice with the Belleville team within five minutes according to regulations and offered to finish the game. Frontenacs would not return.

The protest was thrown out.

**Finish Much Business**

It was a rousing meeting, all but two members of the executive were present. President W. A. Fry, of Dunnville, occupied the chair, and the following were present: William Easson, Stratford, first vice-president; George McKay, Kitchener, second vice-president; W. W. Davidson, Toronto, A.A.U. of C. governor; Sheriff J. F. Paxton, Whitby, treasurer and acting secretary; Frank Hyde, Woodstock; H. E. Wettlaufer, Kitchener; J. Percy Bond, Peterboro; Angus Campbell, Cobalt; R. Wylie Wilkinson, Galt, and W. H. Tackaberry, Toronto, assistant secretary.

**Carson Still Amateur**

The protest entered by the Beaver Hockey Club, of Hamilton, questioning the amateur status of Dr. William Carson, of the Grimsby Hockey Club, was withdrawn prior to the opening of the meeting of the executive of the Ontario Hockey Association. However, Dr. Carson was called, and after hearing his statement as to the offer made to him by the St. Patrick's Hockey Club, of Toronto, the executive decided that his amateur standing has not been affected.

**Alter Certificate**

Mansell Hamilton, of Lindsay juniors, was suspended and an investigation will be made by the association as to who was responsible for the altering of the player's birth certificate. Hamilton does not qualify under the age limit to play in the junior series, and if the result of Peterboro at Lindsay game, played on January 15, and won by Lindsay, has any bearing on the group winner it will be replayed. That was the only junior game Hamilton played in this season.

Walter Lockridge, of Wingham, was refused a certificate to play with Clinton juniors; Jack Armstrong, of Barrie, does not qualify to play with Collingwood, and the application of the Hamilton Tigers for a certificate for Art Evans, last season with Paris, was denied.

**Other Business**

The Stratford A. A. A. put in a claim against the Elmira Club for $2.50 and it was allowed.

Harry Gray and H. Riseborough, of Blenheim, were again refused permission to play with Glencoe.

Charles Lynch, of Brockville, made another application for reinstatement, but it was denied.

The protest by the Oshawa Club of Player Micks, of Port Hope, will be taken up by the sub-committee next week. The evidence bearing in the case was not received in time for yesterday's meeting.

The Burlington Club will be asked to explain why a team was not sent to Milton for the game scheduled for January 23.

### Harvey Sproule Injured But Not Seriously

St. Paul, Minn., Jan. 25.—Referee Harvey Sproule of Toronto was hit by a puck and knocked unconscious during a U. S. Amateur Hockey League game here last night between Cleveland and Minneapolis. Sproule was not seriously hurt. Cleveland won the game 3 goals to 1.

### OSHAWA JUNIORS TRIM WHITBY, 8-2

Oshawa, Jan. 25.—Oshawa juniors evened it up with Sheriff Paxton's County Town Kids in the O.H.A. junior fixture here last night, leading in all three periods and by winning 8-2, kept themselves in the running for group honors. The line-ups were:

Whitby—Goal, Hawes; right defence, Smith; left defence, Rogers; centre, S'eighholm; right wing, Maw; left wing, Forester; subs., Hall and Watts.

Oshawa—Goal, Garrison; right defence, Clark; left defence, Palmer; centre, Moore; right wing, Stevens; left wing, Lott; subs., Bouckley and Corbeau. Referee, Dr. Jerry LaFlamme.

### PILGRIMS TO SHRINE INJURED IN WRECK

(United Press Despatch)

Paris, Jan. 25.—Fifteen pilgrims reported enroute to the miraculous shrine of the virgin at Lourdes, whither thousands of believers come every year to be healed, were badly injured in a collision and derailment of street cars on Thursday, it was first reported nine had been killed and 20 injured. But later it was said the report was exaggerated.

### DEADLOCK NOW, IN RAIL-MINE STRIKE

(United Press Despatch)

London, Jan. 25.—Following further communications between railway managers and the Association of Locomotive Engineers and Firemen, both sides admitted yesterday that negotiations for the ending of the strike are dead-locked, and the union adopted the resolution to continue the strike which is now in its fifth day.

## SOCIAL and PERSONAL

Mrs. George K. Graham left on Wednesday to join her husband in New York City.

## THINK STEAMER HAS FOUNDERED

Marseilles, France, Jan. 25.—The cargo steamer Montrose, which left Oran, Algeria, for Dunkirk, on Jan. 3, has not been heard from and it is believed that he has foundered in the recent tidal wave off the Atlantic Coast. The vessel is owned here.

**Ninety-Eight Out Of Every Hundred Women**

who have tried Lydia E. Pinkham's Vegetable Compound for ailments peculiar to their sex, have been benefited by it. What a marvelous record for any medicine to hold! Over 50,000 women replied to a questionnaire recently sent out by the Lydia E. Pinkham Medicine Co. of Cobourg, 18 per cent. of whom definitely stated that they had been benefited or restored to health by this old-fashioned root and herb medicine. This is a most wonderful record for efficiency, and should induce every woman who suffers from any ailment peculiar to her sex to give it a fair trial.

## CALIFORNIA IS MISCELLANEOUS

### Has More Varied Climate Than any Other State in the Union

San Francisco, Jan. 25 (United Press).—California, according to the records of the United States weather bureau here, has a more varied climate than any state in the Union.

The highest temperature ever recorded was registered by a thermometer in California. In the high Sierras, in Alpine county, the heaviest snowfall ever measured in the United States occurred in the winter of 1906-1907.

Death Valley, California, has the distinction of going over the top with the thermometer, the mercury rising to 134 degrees in the shade July 10, 1913. How hot it was in the sun was not recorded, because down in Death Valley they don't hang thermometers in the sun.

That cold winter of 1906 in Alpine county, seventy-three feet of snow descended upon the Sierras. The tops of the tallest trees barely protruded through the heavy blanket.

California east of the Sierras has the least rain of any section of the United States. This is where Death Valley lies 178 feet below sea level with an annual precipitation of 1.76 inches. In San Bernardino county the sun works more constantly than in any other part of the United States, according to official record.

Point Reyes on the coast above San Francisco enjoys the coolest summers of any place in the United States, with a mean temperature of 54 degrees. It is also one of the windiest sea level places in the United States.

Bodie, in Mono county claims the coldest record, the mercury dropping to 36 degrees below zero about 20 years ago.

### HIT BAD WEATHER

St. John, N. B.—The Canadian Ranger is expected to reach port Sunday. She has been more than 25 days coming from Antwerp, owing to her encountering mountainous seas, hurricanes and thick weather and having been driven backwards hundreds of miles.

### SCHOOL MEETING

A special school meeting was held on Saturday, January 14th, at Best School, S.S. 14, Eldorado, Madoc Township to consider building a new school. The attendance was 26, 21 being in favour of a new school by the regular motion. Mr. Simeon Fox, chairman, read some reports on Consolidated and Public School costs and after some discussions by ratepayers a motion put by Nicholas Blackburn for a new school which was moved by Edmund Sandford, seconded by H. Shaw. A motion was then put by John White for a committee to look into costs, etc. It was also decided to pay on 20 year debenture which was moved by Wm. Holmes, seconded by Wm. Sandford.

Committee—S. Fox, N. Blackburn, J. White and L. Wright.

for Invalid Cookery

Oxo Beef Cubes are the easiest way to take nourishment and the easiest way to make nourishment.

Delicious, strengthening beef tea, and other nourishing dishes for invalids and convalescents may be prepared at a moment's notice.

And Oxo Cubes have a thousand and one general cooking uses for all the household, adding variety, flavor and nourishment to the meals you serve.

Oxo Scrambled Eggs

Scramble one or more eggs as required and put them on toast, over which has been spread a layer of chipped Oxo, mixed with a little butter. (Poached eggs may be served in the same way.)

OXO CUBES

In tins of 4, 10, 50 and 100 Cubes.

## REDNERSVILLE

Mr. and Mrs. W. H. Wood, Mr. and Mrs. F. Wood, Mr. and Mrs. M. Lont of Roblin's Mills, also Mr. and Mrs. M. Wood and son Earl of Centre, also Mr. and Mrs. E. Rhssell spent Tuesday at G. McMurter's.

Mr. John Hall and Delbert Roblin took dinner on Thursday at C. Peck's.

## That Body of Yours

By James W. Barton, M.D.

### ARE YOU PROUD OF YOUR BODY

You have been at the bathing beech and have had the opportunity of seeing the human body just as it is, hidden only in part by the bathing suit.

You have seen the strong rugged bodies of the men, and the shapely beauty of the women.

As you looked at them you have made a mental picture of yourself as compared with them.

You were not as strong looking as some, nor yet as weak as others.

If a woman, you have seen some whom you admitted to yourself were more beautifully built than you. You have seen others who were less shapely.

What is my point?

That strong men and the shapely beauty, either by inheritance, or by the simple care and thought about the body.

There was a time in the world's history when strength and beauty of body were actually worshipped.

To the Christian man the body is the temple of the soul. I sometimes think that he has forgotten that, when I see the manner in which he neglects his body.

How is a strong and beautiful body attained?

The first need is good buoyant health. That desire to actually live. All that is necessary to attain health is to use the same sense that you use in other things.

Health is obtained and retained by the simple eating of food, and the proper using up of same by your body.

How?

By exercise or work. Nothing could be simpler.

And to attain strength and beauty in addition to health, you add to your daily work, simple all round exercises that will develop all parts of the body.

You perhaps dislike, almost hate, the name exercise.

Do you know that with four or five minutes exercise twice a day you can change the contour of your body, so that your own discontented eye will notice the change in less than three months.

You are lying in bed in the morning. You dislike the thought of taking that four minutes exercise. Jump out of bed and try it. One minute after you start you will be wide awake, you will feel the reaction throughout your entire body, will be figuratively patting yourself on the back to think that you had sufficient "get" in you to do this little bit of exercise.

Run No Risks

when symptoms of indigestion occur. Act quickly before these become obstinate.

Take

Beecham's Pills at once. In many cases a few doses will bring relief. Their success in stomach, liver and bowel disorders proves the worth of

BEECHAM'S PILLS

Sold everywhere in Canada.

### RESOURCEFUL JOHNNY.

Mother: Johnny, what do you mean by feeding the baby with yeast?

Johnny: She's swallowed my nickel, and I'm trying to raise the dough. —Pathfinder.

When little Percival arrived at school on the opening day, he carried the following note to the teacher "Dear Teacher, our sweet little Percival is a very delicate, nervous child and if he is naughty—and he is likely to be naughty at times— just punish the boy next to him, and that will frighten him so he'll be good."

# UPSTAGE

By Rita Weiman

Illustrated By H. J. Lee

A Love Story Of The Theatre

She gave an embarrassed laugh. "Well, that's what she did say—and she'd have her manager give me a job if I wanted it. So I went with them—twenty-five a week. It was a lot more than I was getting at the store. And when she closed, they took me on at the Summer Garden."

"And you still go around with the Brooklyn crowd?"

Some note in his voice put her on the defensive.

"They're my old friends— why shouldn't I?"

They dashed up a hill.

"I guess we'd better be going back" she sighed regretfully.

"What's the matter? Don't you like this?"

"It—it's wonderful."

"I've been jitneying you from the theatre for two solid weeks! Be a little sympathetic, won't you?"

She laughed, a ringing laugh free as the March wind. "You must think I'm an awful grafter."

"I think you're a sweetness."

The laugh died down. "I guess we'd better be going back."

They swung around. "All right. But we'll stop at Arrowhead first."

"What's Arrowhead?"

His head went back with a long chuckle.

"What's so funny about my asking?"

"It's called Arrowhead Inn, sweetness—and we're going there for supper."

"Oh!"

"Now I guess you think you're not hungry?"

"No—I am hungry."

Her prompt and unexpected reply pleased him hugely.

"Right! There you are."

They were flying up a drive round a grass plot and under a porte-cochere. Sallie saw a house girdled with glass that glowed warm and alluring.

She went into the hall while her host parked the car.

She proceeded to powder her nose critically and straighten the alley cat on the shining curls and was still engaged in the process when Mr. James Patterson came in and bore her off. He selected a table close against the window, and for the first time Sallie saw him under revealing electricity.

His hair gave evidence of having been in boyhood the color effectionately known as "carrots." Gray eyes, not so young as they might have been searched a world with which they were well acquainted.

Sallie's gaze settled not on his features but on his clothes. The correctness, the perfection of detail were to Sallie positively thrilling. As he picked up the menu she noticed that his hands were wide and muscular.

Sallie pulled off her gloves, and his glance fell on her hand. It riveted there, then slowly traveled upward.

"Whew, what a stone!"

"Yes," replied Sallie. "It used to be my mother's."

His stare probed her. "Your mother owned a stone like that and you had to work in a department store?"

"It does sound funny. But it's true! We never had any money after my father died. Nor before, either. He just saved and saved, and then when he was gone mother just spent and spent. She went crazy spending. So she went to the savings bank and took out every cent and had a wonderful time for a while. Hats and dresses and movies every night. She was awful pretty—"

"I believe it," came vehemently.

"Then one day she came home with this ring. 'Baby' she said—she always called me her baby—"there's not much left and I want to be sure you're fixed. If I put it in the bank I'll take it out again, so this way we'll always have something we can hock if we need to."

"And did you ever need to?"

"Often."

Unwittingly perhaps, his gaze shifted from the diamond to her dress and hat. She needed no intuition to interpret that look. Experience had taught her exactly what it meant. And where defiance had met the girls in the dressing-room a wave of shame now swept over her.

Gazing at him in his immaculate perfection, her fingers twitched to toss the alley cat out of the window. Yet she could not apologize for it. She couldn't explain that, being her father's daughter, she was banking such of her earnings as against the day when the sapphire sparkle would fade from her eyes.

As the busboy shook out the glistening white napkin, placing it across her knees, she felt an absurd inclination to slide under the table.

Mr. Patterson's attention however, had turned to the silver dish of frog legs submitted for approval. He regarded them critically, nodded to the waiter, and Sallie's discomfort vanished in the thrill of a new experience though she wished she had ordered a nice thick steak.

When they were once more gliding down the Drive he leaned over, and gave her hand a squeeze.

"You're an adorable infant!" he whispered. "Don't know just what to make of you, but you've got me going."

Sallie looked up uncertainly. "My right name's Sallie MacMahon," she stammered.

"I dont' care what it is," came tenderly. "My name for you is the same as your mother's—Baby."

"Gracie deah—will you gaze!"

Gracie's eyes turned toward the door Sallie MacMahon had just entered. Above slim ankles billowed a skirt of silk the color of her eyes. The ankles ended in slippers mounted with buckles of cut steel. Her arms gleamed white through transparent clinging sleeves. A necklace of pearls clasped her throat and over the golden head brimmed a wide hat weighted with roses.

She pretended not to see the nudges of the girls, but her heart sang a paean of triumph.

Now they would stop laughing at her!

That very morning she had gone to the bank and wantonly depleted her little horde. There had followed a wild debauch of spending such as her own mother had indulged in years before.

Ridicule she might have endured indefinitely, but nightly to sit opposite to Mr. James Fowler Patterson in his perfectly tailored clothes, that had been the straw that broke the backbone of resistance.

Once and only once had Mr. Jimmie essayed the role of godfather. One evening after a long drive in the moonlight, he had clasped quickly round her wrist a narrow glistening bracelet.

"To match the ring," he had whispered.

"Oh—I—couldn't!" she breathed at last.

"But if I ask you? I'm crazy about you Baby."

Sallie gulped hard and unclasped the clinging circlet.

"Please," he protested as she handed it back. "Please—dear!"

She shook her head decisively.

"But I want to see you in pretty things. I want you to have them."

"Thanks, Jimmie—for wanting to give it to me. But you mustn't— ever do that again."

That phrase of his, however,—"I want to see you in pretty things"—clung to her Consciousness.

"Well," observed Miss Mallard, I'm glad you're learning how to handle him. May we inspect the dog collar, my deah?" she pursued.

With large indifference Sallie handed over the necklace. Not hers to inform the lady that it had been purchased at a near-pearl establishment.

Miss Mariette fingered it lovingly. "Atta boy!" she breathed and let fall upon its possessor a look approaching homage.

"Oh, that's nothing," Sallie found herself saying, "I'm going to get a car of my own soon."

Feminine imagination took the bit between its teeth and galloped beyond Sallie's control. She tasted the sweets of seeing baby blue eyes and impudent black ones dilate with envy as the other girls gathered round.

At the curb that night she found a gray roadster barking its haste to be off. Mr. J. F. Patterson stepped out then stopped short with a gasp as he took in the glory of her. She gave him her hand—and waited. He said not a word, merely helped her into the car. It snorted and raced up Broadway. She turned to look up at him. He was frowning.

"What's the matter, Jimmie?"

"Nothing."

"Something is."

"Nothing, I tell you." The frown settled deeper, bringing brows together.

Sallie's eyes filled. She had pictured something so different—Jimmie bounding with delight when he saw her—Jimmie covering her with admiration.

Throughout the ride he brooded, silent, absorbed, though she tried desperately to make conservation.

"Is this a new car, Jimmie?"

"No."

"Why didn't you ever come in it before?"

"In the repair shop."

"Oh!"

Silence.

"I like it, Jimmie."

"Do you?"

Silence.

"Montgomery's laid up, Jimmie. And the new lead's made a big hit."

"Has he?"

Silence—a long one.

"Jimmie—I—I don't want any supper."

"Why?"

"I—I think I want to go home."

"Just as you say."

"Jimmie—what—what's wrong?"

His eyes scanned the beauty of her steel buckles, silken dress, rose-laden hat. They ended on the glossy pearls and his lips which had opened for speech snapped shut.

He drove her home, without a word lifted his cap.

"Jimmie—please—please don't act that way."

"What way."

"So—so queer."

He gave a short laugh.

She stared at him, then fled up the steps.

The following night Mr. Patterson was late for the first time. He swung round the corner just as Sallie appeared. She was wearing a violet suit, fluffy lace collar and cuffs, and a hat of violets. During a night of tearful and bewildered groping she had arrived at a conclusion. Jimmie hadn't liked the way she looked! After which she stole a few hours' sleep, and later embarked on another shopping tour.

But Jimmie handed her almost roughly into the car. They shot like a cannon ball into the darkness.

Sallie groped for a fitting subject and finally burst out:

"Jimmie, tell me about yourself. You never told me much."

"Nothing to tell."

"How does it feel to have so much money?" she proceeded for want of something better to say.

### WOULD UNSEAT LEGAULT

Ottawa.—Ratepayers have instituted legal proceedings to have Felix Legault, elected Alderman to the Hull City Council by acclamation, unseated, stating that he is not qualified to take his seat. The action is based on Ald. Legault having ordered repairs to a sidewalk some months ago when the Council had not sanctioned the expenditure.

### HON. G. R. COLDWELL, DEAD

Brandon, Man., Jan. 25.—Hon. Geo. Robson Coldwell, Minister of Education for Manitoba during the Roblin administration, died here today. He was born in Durham Ont. in 1858.

MRS. HENRY McDONALD

**This Article Will Interest Every Mother!**

Toronto, Ont.—"Dr. Pierce's Favorite Prescription is the greatest help in motherhood of any medicine I have ever known. I am the mother of six children and I suffered greatly each time except the last one, when I was advised to take Dr. Pierce's Favorite Prescription, which I did, and I got along just fine; felt well and strong and had practically no suffering, and had a grand baby, that has always been very healthy. I regained my strength very quickly afterward. I was so thankful to have been advised of this medicine, it gave me such wonderful help."—Mrs. Henry McDonald, 3 Wilmot Avenue.

Health is of vital importance to every mother. Do not neglect the most valuable asset you have. Get this Prescription of Dr. Pierce's from your neighborhood druggist, in tablets or liquid, or send 10 cents for trial package to Dr. Pierce's Laboratory in Bridgeburg, Ont.

PEPS

the real breatheable tablets, make the throat, chest, and lungs cold-resisting. When a nasty cold or a coughing bout foretells the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and

PROTECT

the chest. When a Peps tablet is taken from its preserving silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air-passages, and destroy any germs that have got into

YOUR

nostrils and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchials, breathing is made easy, and that distressing cough and throat soreness disappear.

By this direct treatment Peps keep trouble off the

CHEST

and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

## WILL SHARE IN LIQUOR PROFITS

Edmonton, Jan. 25—The urban and rural municipalities of the province will likely be given 35 per cent. of the liquor profits under the new liquor act which is now in course of preparation, according to the announcement made by Premier Greenfield last night.

No definite information was given as to how the division of the 35 per cent would be made.

## HANGED IN STABLE

Toronto, Jan. 25—Enos Spring, aged 65, well known farmer and life-long resident of Scarboro ended his life in the barn of his nephew, Archie Smith of Highland Creek, yesterday, by hanging.

Mr. Spring had dinner with his brother who resides at the home where the tragedy occurred. Following dinner he went to the stable. His nephew entered the barn about three o'clock and found the body suspended by a rope from a beam near a manger. The body, still warm, was cut down and carried to the house.

## ASKS FOR REASON AND GOODWILL

Bombay, British India, Jan. 25.—A Madras newspaper prints a message from Ramsay MacDonald in which the new British Premier pleads for reason and goodwill between India and Britain and asserts that "no party in Britain will be cowed by threats of force or by policies designed to bring the Government to a standstill."

"If any Indian sections," continues the message, "are under the delusion that that is not so, events will sadly disappoint them."

The appointment of Sir Sidney Olivier as head of the Indian Office is received with great satisfaction by

The Continental Life's Most Successful Year

The outstanding features of the Report of the Continental Life Insurance Company, presented at the Annual Meeting held at the Head Office, Toronto, on Wednesday, January 23rd, 1924, were a record amount of insurance written, largest increase in surplus earned, large increase in dividends to policyholders, a reduction in expense ratio, reduction in mortality ratio.

| | | Increase over 1922 |
|---|---|---|
| Insurances issued and revived | $5,328,136.00 | $274,807.00 |
| Total Income | 935,699.24 | 58,109.07 |
| Surplus earned | 161,057.20 | 52,057.39 |
| Dividends paid or allotted to policyholders | 60,967.75 | 15,854.36 |
| Reserves | 3,377,343.00 | 229,909.00 |
| Assets | 3,969,383.49 | 313,136.98 |
| Surplus (including paid-up Capital Stock $200,000) | 468,284.53 | 81,739.88 |

Ration of actual to expected claims, 36.2%

Amount of Insurance in Force, $21,486,357.00.

The scale of profits to be paid to policyholders whose policies fall due for dividends in 1924, has been increased by 33 ⅓ per cent. over last year's scale.

## Suburban Area

(continued from page one)

follows:—Victoria, $32,000 to $40,000 per mile, 20 ft. wide; Essex, $28,400 for 18 ft. road; Wentworth for concrete road 10ft. wide-paid $23,000 per mile; Essex Road 18 ft. wide $27,450; Kent, concrete road, 18 ft. wide, $31,120 per mile. The Standing Paving Company claim to have evolved a composition that can be laid over the old base of Macadam Road which will cost completed about $23,000 per mile for 20 ft. road.

From the foregoing it will be noticed that even the same type of road varies due to local conditions such as material and cost in different localities. This is and it's nearness to the job or again it may be labor conditions. It will be also noticed that there is not so great a difference in the cost between waterbound Macadam and Concrete or Asphalt as might at first thought be expected. All parties to whom I applied for information were unanimous in the opinion that if the specifications called for specific design a certain class of material and workmanship of number one quality, it is a foregone conclusion it is going to cost a certain minimum sum. If on the other hand you attempt to cheapen the cost of these types of road by proceeding without proper design or with no definite class of material specified or the kind of workmanship to be employed, the cost will be more in the long run, as maintenance charges will soon amount to more than the original cost of the road.

The first thing to determine is the number of rigs, their weight and speed, passing over the road, then compare with the life of each type of pavement under that traffic and it should not be difficult to say which is the cheapest road. Economy and service is what is required and if the Commission proceeds carefully it will be in position to secure the greatest service at the least cost.

I am assured by the Department of Highways that their best engineers are at our service to assist in working out any problem that may confront the commission.

On January the 17th, Mr. Muir, Chief Engineer of Municipal Roads in accordance with previous arrangements met the Joint Committee and gave valuable information as to the formation and general work of the Commission.

The Joint Committee decided that if the County so desired, that the County should go ahead and appoint their representative at this meeting and that the City would give the matter their consideration at the first opportunity, and would endeavour to advise the County Council of their decision, before the close of the present Session.

There is another matter in reference to this question worthy of your consideration. Chapter 22, Section 5, Clause 5, Ontario Amendments 1920, provides as follows:—

"Any Surburban Road or any portion of a suburban road may be designated as a provincial county road, as provided by section 28 of the Highway Improvement Act, and when so designated expenditure there on for construction and for maintenance and repair shall be borne by the County, City or Town, and the Province in the proportion of 20 per cent. by the County, 20 per cent by the City or Town, and 60 per cent by the Province.

It would perhaps be premature for me to say that the Corbyville road could be so designated, but with proper representation I believe it would be accomplished and would relieve the County and City of a considerable amount of the cost.

The Mayor of Trenton could not attend our meeting on January 17th, but has met our proposals in a most friendly manner and signified his willingness to have a committee appointed from his Council to discuss the suburban question with the County representatives.

We are indebted to the Hon. J. R. Cook, M.P.P. North Hastings, for his valuable assistance in our work, also to Mr. Jas. F. Hill, M.P.P., East Hastings, Mr. R. Muir, Chief Engineer of Municipal Roads, Mr. J. MacVicar, District Engineer, Mar. S. L. Squires, Deputy Minister of Highways and Mr. John Stuart, Clerk of Middlesex County, all of whom have extended every courtesy.

## Elocutionist Is Warmly Received

Marion Wood Alyea, one of Belleville's leading elocutionists, delighted a large and representative audience last evening at the Tabernacle Church, where she acted as the principal entertainer in the concert given by the Women's Missionary Society of the Church. Other artists assisting Marion Wood Alyea were the Ladies Trio, consisting of Mrs. Nicholson, Mrs. Brown and Mrs. Duff and the Quinte Male Quartette, Dr. Haffner, Messrs. Stillman, Moorman and Burke.

Mrs. Alyea opened the programme by reciting the 121st Psalm. Her reading were 1st, Soul of a Violin; 2nd, How Grandma Got Grandpa Ready For Church; 3rd, Lady in the Street Car With Her Little Boy; 4th The Last Word, from Henry Van Dyke's work; 5th, The Little Pink Fan, with music, from Spring Song; 6th, Our Neighbor's Automobile. The final number was from Lilliam Loveridge writings, "Twilight Poem" Miss Loveridge is a native of Carrying Place and had written a number of poems which are eagerly sought after by lovers of poetry. Mrs. Duff accompanied Marion Wood Alyea on the pipe organ during the recitation of this passage.

Mrs. Alyea has a wonderful memory. Not once during the whole evening did she have to be prompted in any of her lines and the reader could easily be heard throughout the whole auditorium of the church. It is to be hoped that Bellevillians in the near future will again have the pleasure of hearing Marion Wood Alyea.

# BELLEVILLE AND COUNTY AFFIRM CLOSER SPIRIT AT GET-TOGETHER MEET

### Clasped Hands of Fellowship Fittingly Symbolized At Banquet Held at Hotel Quinte under Auspices of Chamber of Commerce—Cordial Relations Shown

### SHARE PROSPERITY

### Dr. Bruce Taylor, as Guest of Honor and Speaker of the Evening, Gives Address on Hope of Accomplishment for Better Education for Canadian Students

The clasped hands of good fellowship fittingly symbolized the spirit which pencilled as County and City ate, laughed and sang together last night at a great "Get-Together" banquet in the Quinte Hotel. If the Belleville Chamber of Commerce had nothing else to its credit than the inauguration of this annual function, with the resultant flow of cordial relations between the rural and urban citizens of Hastings, it would have amply justified its existence. Again and again during the evening this sentiment was expressed; that whatever benefits Hastings benefits Belleville and Belleville cannot prosper without the County sharing in her success.

**Guest of Honor**

Dr. R. Bruce Taylor, Principal of Queen's University, the guest of honor and special speaker of the evening, is no stranger to Belleville, and the crowded tables were, no doubt, in part a tribute to his ability. In his talk on education, and more particularly University training, he gave his ideals of what he hoped to accomplish at Queens for Canadian students.

Dr. Taylor does not believe that a University exists primarily to teach men, and women to make more money. He admitted that a boy of sixteen, of average ability, entering a business for which he was adapted would probably make a bigger financial success than the college trained man. But he laid stress on what the University could do for its students in giving them broader sympathies, a keener understanding and higher standards of character.

**Values That Count**

"The purchasing power of money is extremely limited," declared the speaker, "it will not buy health or happiness or the respect of your community. In the final analysis it will not purchase any of the things which really count in life."

Dr. Taylor's address was not all serious—he evidently knows Belleville and drew rounds of laughter and applause with his keen play of wit on this city's baseball and hockey teams and our great export trade. The laugh was turned on him when the final hockey score from Kingston was announced, but the Doctor's ready comeback was that "before now he had seen the unrighteous flourish for a time."

**Only One Toast**

There was only one toast, that of the County Council of Hastings, proposed by Mr. H. A. Ackerman, President of the Chamber of Commerce. Mr. Ackerman was brief in his remarks, but referred to the many things which the County of Hastings and the City of Belleville have in common. In this connection he brought up the proposed new Technical School and suggested that the County Council appoint a committee to work with the Belleville Board of Education in considering plans.

Mr. Chas. S. Rollins, newly-elected warden, responded for the County, thanking the City Council and the

(Continued on Page 3)

## THE WEATHER

Strong westerly winds; fair and decidedly cold.

The sun rises at 7.43 a.m. and sets at 5.19 p.m.

## COMING EVENTS

# 15 YEAR-OLD BOY OF SOUTH EMILY DIES SUDDENLY

### Youth Admits Taking Paris Green, Dies After Few Hours' Illness

### A LIKEABLE CHAP

### Had Been Employed on Farm Four Years—Investigation to be made

Lindsay, Ont., Jan. 26.—The death occurred Thursday evening at Omemee under peculiar circumstances of John Page, a home boy, aged 15 years, in employ of William Fee of South Emily.

The youth took sick about 3 p.m. When he was questioned concerning the cause of his illness he finally admitted that he had taken paris green, a portion of which was afterwards found on his from Omemee. Lindsay, Peterboro and Millbrook but a doctor could not be procured, it is understood.

The youth was brought to Omemee at five o'clock for treatment by Dr. Earle. He suffered intense agony until midnight when he passed away.

Page had been in the employ of Mr. Fee for four years and was a likable boy. The body was moved to the village undertaking parlors and Country Crown Attorney Anderson, of Lindsay, was notified of the death. He left on the noon train for the village.

# Rum Runners Are Rum "Skaters" Now

Detroit, Jan. 26.—Rum runners who ply their trade across the frozen Detroit river now are wearing skates to facilitate their escape.

Prohibition agents observed several runners near the U. S. shore off Wyandotte early Friday pushing what appeared to be a rowboat. Attaching "ice creepers," a spike shoe attachment, they gave pursuit. The rum runners, noticing the agents, straightened up and glided away on their skates leaving the boat and liquor to satisfy the liquor agents.

The boat, the agents discovered, had two keen sled runners attached to aid its progress over the ice.

# Name's "Tifft," Nothing More

New York, Jan. 26.—Tifft—just Tifft, of Brooklyn.

That's the only name of the scion of one of Brooklyn's oldest families.

It isn't proper to call him Mr. Tifft. It's just Tifft.

The owner of that name has been living in Brooklyn since his birth, 45 years ago. His parents didn't give him any other name and it's the only one he ever had.

His friends call him Tifft; his wife calls him Tifft—even the children call him Tifft.

No—it wasn't a case of forgetfulness or neglect. In fact, the parents considered the matter of their son's first name very seriously.

John and James and Henry were common—and they didn't want their son to be common. If they saddled him to a name like Percival or Algernon he might not be pleased when he grew older. So they pondered and pondered, while well-meaning friends contributed lists of names.

At last—the great idea. Why not let him pick his own name?

This was satisfactory. They decided to allow the infant to settle the question for himself.

That's how Tifft received the one name. He never chose another.

Tifft grew up and married. Then there was another question to be settled. Should he name the little Tiffts? He finally settled the question by naming them Robert Lincoln Tifft and Alason H. Tifft.

To this day however, Tifft regrets that he named the boys.

"I would have liked to call them Tifft II and Tifft III. But we finally decided to give them ordinary names" he said.

The single name caused him some trouble during the early days of his business career, Tifft says. When he signed his name to an application for an insurance policy, the clerk looked him over questioningly and asked him why he was so stingy with ink. The case was finally compromised when the applicant signed his name "A Tifft, but without any period after the "A."

**MISSED THE POINT**

"I hear that Badger told you to your face that you were swollen-headed and stuck up and you let him get away with it." "Yes, confound him. He said I was 'orgulous to an extreme degree,' and I thought he meant something flattering."

## Canada's Ellis Island

Although Ellis Island, New York, is well known to most Canadians, even though they have never visited the American metropolis, very few are aware that the immigration station at Halifax is nearly as picturesque.

# CANADIAN HERO OF YOKOHAMA DISASTER GIVEN HIGHEST HONORS IN NEW YORK CITY

### Captain Samuel Robinson, C.B.K., R.N.R., Commander of Empress of Canada, Is Paid Tribute by Thousands on Arrival In American Metropolis—Filipino Band Sends Jazz Strain as Figure of all Eyes Brings Ship Into Dock—First Word of Greeting From Proud Old Mother

New York, N.Y., Jan. 26.—With brilliant sunlight and the accompanyment of Jazz music, played by a Filipino band, the Empress of Canada docked at noon Friday, after a cruise around America. Newspaper and camera men were the order of the day as the arrival of the ship signified the greeting to Captain Samuel Robinson, C.B.K.R.N.R., the hero of the Yokohama disaster credited with saving the lives o fmany thousands.

Long before the ship came to her pier eager eyes were watching the staunch little naval figure on the bridge and among the most anxious were four members of the Skipper's immediate family.

Representatives from many important organizations were on the scene to present requests for the Captain's appearance at formal and informal banquets to be held here during the five-day stay of the Pacific Empress which starts on the thirtieth January on a round the world cruise.

Captain Robinson's aged mother, who is in New York, sent a message to the ship, "Please save Sunday for me," a message which visibly impressed the hero skipper.

Among the Canadians present at the reception were Mr. Grant Hall, vice-president of the Canadian Pacific, Capt. Walsh, manager, with numerous officials of the company.

E. W. Beatty, President of the Canadian Pacific, will make an inspection of the blue-ribbon ship of the Company's Pacific fleet. Four couples are taking the world cruise as a honeymoon trip.

They are Mr. and Mrs. John Wolfe, of Vulcan, Alta, Mr. and Mrs. W. J. Swaisian, of Brandon, Man., Mr. and Mrs. Henry C. Canlier of Chicago, and Mr. and Mrs. Walter Shafer of Vancouver.

# 'LITS' ARE GIVEN SPLENDID TREAT

### Literary Society of Belleville High School Meets in City Hall

Last evening in the City Hall the Literary Society of the B. H. S. staged another of their splendid open meetings. A good crowd was present and fully appreciated and enjoyed the evenings entertainment. The feature of the programme was a debate 'Resolved that a young person in Ontario has as good an opportunity as one in Western Canada." The affirmative was taken by Form 2B represented by Milne Oakes and Harry Redfern while the negative was championed by Mildred Hudgins and Lawrence Wray.

The debate was a fine one, showing great talent and preparation by all four speakers. It was a closely contested argument but the 3B debaters finally proved, after citing the splendid resources of the 'Golden west' that a young person out there has a better opportunity in life.

Miss Hudgins, supporter of the negative was especially good as was Milne Oakes, leader of the affirmative.

The judges were Judge Deroche, Mr. Sidenius, Mr. Farrell, critic, Miss MacTavish.

In addition to the debate an exceedingly good musical program was carried out. Mr. Charles Coile rendered a piano solo in fine style. A chorus was sung by a number of the scool's "songsters" which showed great preparation, and was greatly enjoyed by all. Fine vocal solo's were given by Misses Helen Pattie and Hilda Countryman and Mr. Jack Deacon. Another musical treat was the piano trio by Alex Gordon, William Connor and Dorothy Connor. It was something new along musical lines and so finished was the work of these young artists that they were encored several times. The meeting closed with the national anthem.

# Cold Weather Affects Market

### Farm and Garden Produce Not as Plentiful as Usual

Owing to the severe cold weather, the market was rather slimly attended in consequence of which farm and garden products were not as plentiful as is usual on Saturday.

A number of dressed chickens were offered for sale and good prices were realized, for same, namely $1.25 to $2.50 a pair.

Fresh eggs were sold at 45c to 48c per dozen, the farmers price being for basket lots. This is a slight reduction over the price paid a week ago.

Dairy butter was quite plentiful and prices for same were good, namely 42c to 45c per pound.

A few meat vendors were on the outside of the market. Prices showed no change over those of a week ago. Beef by the quarter sold from 7c to 9c and dressed pork $13 and $14 per hundred weight.

# Stop That Horse Hold 'er Sheriff

Evidently rehearsing for the "ice races" at the Olympiad, a Trenton owned equine supplied a real thrill to Bellevillians, when she finished her run of twelve miles from Trenton to Belleville, only when George Atkins, 165 Charles street, rushed out and grabbed her by the head. Atkins' action terminated the wild race, which may have been "from Post office to Post office," on Highland Avenue at 8 p.m. yesterday.

P. C. David P. Morris, who witnessed the escapade and capture states that the horse was fully harnessed, but was not attached to a vehicle. The horse is owned by T. Kimmerley of Trenton.

## FOUR POLICEMEN GET TRIAL SOON

Toronto, Jan. 26.—No more criminal cases are expected in the jury sitting of the supreme court of Ontario until the first week of February. Mr. Justice Riddell has been hearing criminal cases in this court for last week and this week and has temporarily completed the docket. It is expected that civil cases only will occupy the court the remainder of this week and all of next week.

Charges of man-slaughter against the four members of the Toronto police force, who are alleged to have shot John Gogo on the launch Hattie C., will be heard some time during the week of February 4. A jury disagreed in this case at the fall assize. The four charged with man-slaughter are Patrol Sergt. William Kerr, Constables William Henry Mitchell, George Fraser and J. A. Rooney.

**INJURED COASTING**

Helen Shoniker daughter of Mr. George Shoniker of Trenton, yesterday sustained painful injuries whilst coasting down Princess Hill in that town. The sleigh she was operating became unmanageable and ran into a fence with the result that Miss Shoniker was injured.

# QUINTE FORTRESS INSTAL OFFICERS

### Lieut.-Col. Lindstrom is Installing Officer — Kingston Ladies Assist With Fortress Installation

With all the dignity and ceremony appertaining to Patriarch Militant Oddfellowship the annual installation of officers of Quinte Fortress, No. 3 L.A.P.M. and Canton Belleville No. 8 took place last night at the Oddfellows Temple. Lieut. Col. H. A. Lindstrom was the installing officer and Col. R. H. Ketcheson was A.A.G. The following ladies from Kingston assisted in the installation of the Fortress, Mrs. G. L. Davy, Mrs. W. Hinson, Mrs. Watts and Miss Pollett.

The officers of the Fortress are:

Lady President—Lettie Naylor.
Lady P.P.—A. Cornish.
Lady V.P.—S. Johnston.
Lady Secretary—L. Cole.
Lady Treasurer—J. Rowsome.
Lady Chap.—M.J. Bennett Smith.
Officer of Day—Lieut. R.L. Johnston.
Guard—Capt. A. E. Cole.
Sentinel—W. Haslip.
Aides to Pres.—H. West and A. Lindstrom.
Aides to V.P.—I. Aman and E. Youker.
Aides to P.P.—P. Smith and A. Storms.
Aides to Chap.—E. Cooper and M. Haslip.

The following were then installed as officers of Canton Belleville, No. 8:

Capt.—G. F. Youker.
Lieut.—R. L. Johnston.
Ensign—G. Cornish.
Clerk—G. G. Way.
Accountant—C. F. Frost.

After the ceremony the Ladies of Quinte Fortress invited all to the Banquet room where they provided a splendid repast. Short addresses were given by the visitors and newly installed officers.

# FRANCE HIDES HEAD IN SAND; NEARER BANKRUPTCY BELIEF

By J. W. T. MASON.
(Written for the United Press)

New York, Jan. 26 (United Press).—The French parliamentary elections to be held this spring will compel the voters to accept a socialistic government, if they want reconciliation with Germany. The parties forming the present national bloc, of which Premier Poincare is the leader, will not appeal to the electorate on a platform of Franco-German amity. If the socialists are returned in sufficient numbers to hold the balance of power in the Chamber of Deputies, they will be able to force a radical change in France's reparations program.

But, despite the fall of the franc and the approaching demoralization of French credit, the group surrounding Premier Poincare wants to hang on to Germany's throat, wasting strength and energy in that inutile pastime. The realities of the present situation, which are terrifying French financiers are passed over by the politicians. The present situation would have been avoided in part if Finance Minister de Lasteyrie had been allowed last year to increase the French taxes as he desired.

**They Hate Taxes**

But the Chamber of Deputies overruled him, thus taking one more step toward bankruptcy. A general increase in taxes of 2 per cent is now proposed by the government, though avoidances will be urged again by members of the Chamber, who do not like standing for reelection on any such platform. Eventually far more than 20 per cent increase will have to be found by French taxpayers. The full amount will not be known until the reparations sum is definitely fixed. Whatever the deficit may be, France will have to make it up, or will have to repudiate her obligations.

The gravest element in the situation is that the prolongation of the present uncertainty is piling up this deficit with appalling speed If allowed to continue much longer, no amount of taxation will be able to overcome the deficits within any reasonable period of time.

This issue, which should be the paramount one at the coming elections is being ignored through the native reluctance of the French people to pay taxes. Preference is always given by the peasants and bourgeoisie to loan to make up deficits. That has been France's consistent policy since the war, even though for her own militaristic policy, French francs were being reloaned to the small continental countries to hold them in an anti-German union.

**A Futile Issue**

The French voters will be asked to decide at the polls whether they wish France to dominate Germany, or Germany to dominate France. This is meaningless talk at the present crisis. Neither country has ever been able permanently to dominate the other and doubtless never will be. But it is a political phrase which has held Premier Poincare in office and has won for him empty victories and empty coffers.

The chance of a new leader coming forth during the elections to tell the French people the truth is remote. The truth is known, but isn't admitted. The only people admitting it are the financiers who are hurrying their funds out of the country to escape disaster. The French peasants and small shopkeepers aren't ending their own savings abroad because they are not students of high finance. These are the savings that eventually will have to be used to save France. There are enough of them to do it.

But it is strange to see the big Frenchmen being allowed to hide their money abroad, away from the tax gatherers while the rest of France closes its eyes to the realities. The awakening will be a rude on for the little people.

# HIGH SCHOOL TRUSTEES FOR COUNTY APPOINTED AT MEETING OF COUNCIL

### School Trustees of Madoc, Stirling, Tweed, Trenton and Deseronto Selected For Year of 1924

### HOUSE OF REFUGE

### Report Made by J. E. Finnegan, Chairman of Committee, Declared One of Best Ever Presented

At the County Council session Friday afternoon, High School trustees for the various High Schools in the County were appointed as follows:

Madoc—Dr. Eagleson.
Stirling—R. A. Elliott.
Tweed—W. S. Gordon and D. H. Morrison.
Trenton—W. W. Miller.
Deseronto—Wm. Mallow.

Mr. J. E. Finnegan, chairman of the House of Refuge Committee presented to the County Council a comprehensive report of the operations of the institution for the year 1923. It was as some of the members stated, one of the best reports ever presented. A summary of the report is as follows:

Deaths during year—11 average age 76.
Commitments during year—21, men 12, women 9.
Discharged during year—4.
Absconded during year—4.
Total number of inmates, 1923—37.
Number of visitors during year—986
Provisions consumed on table during the year, $4,288.86, a decrease of $96.91 from 1923.
Value of produce from farm to house $2,156.75.
Supplies on hand valued at $1,649.
Total value of live stock $1,487.
Value of farm products for 1923 was $3,942.54.
Cash received from pay inmates $445.79.
Quantity of products raised last year was as follows: Hay, 40 tons; potatoes, 270 bus.; from 9 cows, milk and butter, $1,215; from 130 hens, $456.
Expenditure as per treasurers books $11,936.57.
Total cost of house for 1923 was $11,822.
Average cost per inmate for 1923 was $137.46.
Average cost per inmate
1921—$3.74 per wk.
1920—$3.23 per wk.
1919—$2.62 per wk.
1918—$3.26 per wk.
1917—$2.45 per wk.

# DO NOT FAVOR IMMIGRATION

### National Director of Americanization Commission Phophesies Suspension

Indianapolis, Jan. 25 (United Press).—Drastic restriction, if not complete suspension, of all immigration to the United States by the present congress was prophesied today by Garland W. Powell, national director of the Americanization Commission of the American Legion, following a poll of both houses. Among about 250 replies, a great majority favor some sort of restriction, Powell said.

In a few instances, senators and representatives favor closer restriction than is provided in existing laws, and a large number of the nation's law-makers indicate a friendly sentiment toward complete exclusion of immigrants over a period of years, Powell declared.

At the fifth National Legion convention resolutions aimed at shutting the doors of America to immigrants, in order to assimilate those now in the nation.

A further resolution adopted by the veterans looks to the raising of standards of citizenship.

Among the senators favoring the Legion's attitude without qualifications are both senators from Oklahoma, R. W. Owen and J. W. Harold; both from Arizona, Henry F. Ashhurst and Ralph Cameron; both from Texas, Morris Sheppard and E. B. Mayfield.

Others who expressed unqualified support of the veterans' program were Senators Willis, Ohio; Green, Vermont; Jones, Washington; Heflin, Alabama, and Harrison, of Georgia.

Approval was also given to the Legion stand, with certain qualifications, by Senators Overman, North Carolina, Watson, Indiana; Weller, Maryland; Smith, South Carolina; Sterling, South Dakota; George, Georgia; Ferris, Michigan; Lodge, Massachusetts.

From Senator Couzens, of Michigan came the only absolute dissent from the Legion's proposals. He said he felt it would be unwise to stop all entrance to this nation, but declared he was willing to hear the arguments of the Legion.

Sentiment in the house is equally strong for stringent restriction or exclusion, Powell said.

# STILL NO TRACE OF MISSING GIRL DESPITE SEARCH

### $100 Reward is Offered by Her Solicitor—Boy Scouts on Trail

### TELEPHONE MESSAGE

### Clue Found Was Baseless—Sand Sleigh Driver Tells of her Actions

Kingston, Jan 26.—Up till a late hour this afternoon no trace of the missing Miss Ada Strachan has been reported by those who have been so vigorously searching since Tuesday night a few hours since she was last seen.

This morning a reward of $100 was posted for the finding of Miss Strachan. This was authorized by Mr. W. Mundell, who has been solicitor for Miss Strachan for many years.

Shortly after two o'clock this afternoon a party of Boy Scouts, under the direction of Scoutmaster Perc Doll, started out from the city to take up the trail where Miss Strachan left the sleigh. This party will work in conjunction with the searchers who have been "carrying on."

Shortly after five o'clock yesterday evening The Standard received a telephone message from Mrs. Hooper who lives near the Perth Road at a distance of about a mile north of the point where Miss Strachan, stating that a strange woman had called at several houses in that vicinity asking for something to eat, giving different names to each one, and acting strangely. The Standard immediately investigated, compared the description given of that strange woman with that recorded of Miss Strachan and then took the safe course of notifying those friends of Mis Strachan who had been active in carying on the search. A number of those left last night by auto for the point from where the strange woman was reported and found at once that she was not Miss Strachan. This development about dashed any hopes that were held of Mis Strachan's safety, for the feeling grows that she has not been sheltered at any of the houses in the immediate vicinity of where she was last seen, and was not able to get any very considerable distance farther on.

**CAPTURE THIRD BANDIT**

Edmonton Alta., Jan. 26.—Nick Auloff, alleged to be the only surviving member of a trio of hold-up men who robbed a train near Calgary three years ago, killing the conductor and two police officers and who was arrested at Butte Mont., early this week, has waived extradition, and left for Lethbridge yesterday. One of the bandits was killed at the time of the robbery, and the other was convicted of murder and hanged.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## OUTLOOK IN 1924

Forecasts of conditions in Canada during 1924 contributed by several hundred manufacturers to the Annual Review Number of "Industrial Canada" are in the main optimistic. Some 60 per cent. of the reports received express the opinion that business in 1924 will be better than it was in 1923. The remaining 40 per cent. are less hopeful, ranging from those who expect business to be about the same as it was last year to those who are frankly pessimistic regarding the outlook.

Reviewing conditions during 1923, it is found that in a good many lines business was spotty, some months showing favorable returns and others falling back in a discouraging way. Disturbed world conditions continued to exert an unfavorable influence and many of the manufacturers reporting contend that, until these conditions right themselves, there cannot be a genuine revival in business in Canada. Low prices of agricultural products, due to the state of International markets, are preventing the farmer from again becoming a strong factor in the market for manufactured goods, and this condition is affecting particularly the manufacturers of agricultural implements.

On the other hand there have been in Canada certain developments which have tended to offset these unfavorable conditions. Activity in the automobile industry with its various ramifications, continued expansion in the pulp and paper industry, further developments in mining, the extension on a large scale of hydro-electric works, the construction of canals and docks, the building of considerable new railway equipment, the good roads programme, and the fairly active year in general construction have all contributed to keep the wheels of industry turning in Canada.

Conditions have therefore varied largely with the type of industry. Thus, while the agricultural implement manufacturer has been experiencing dull times, the manufacturer of automobiles has had a busy year. All those industres which are dependent upon the automobile industry have shared in its activity. Again, industries like the woollen textile industry and the boot and shoe industry have been finding that the low tariff on British goods has permitted large quantities of these goods to enter Canada, and this has so cut into their business that operations have had to be curtailed. Against this condition may be placed the activity in the pulp and paper industry, where newsprint mills in particular have been breaking records in production and export.

## CANADIANS RESENT YELLOW JOURNALISM

Canada is not in favor of yellow journalism, judging from the number of protests against the publicity given to the personality and the doings of various criminals. Certain papers in Toronto seem to take a morbid delight in exploiting intimate details concerning such desperadoes as Frank McCullough, murderer; Leo Rogers, the North Bay killer; Red Ryan, violent yeggman, and a number of others.

These papers play the sob stuff to the last act and inflict a long-suffering public with close-ups of desperate characters who are not in the least deserving of such attention. Sympathy with misguided and erring youth is one thing, but maudlin sentimentality is another.

To invest unmoral criminals with all the trappings of romantic enterprise is to place a premium upon crime, and the elevation of cutthroats and robbers into heroes and gallant adventurers is a sorry example to the youth of our country.

As a contemporary remarks, more space was devoted by certain papers to the journey of Red Ryan from Minneapolis than to the coming of Lloyd George to Toronto. In large type one newspaper announced that its representatives had had the "privilege" of spending several hours in the company of the criminal while on the train. One wonders just wherein lies the privilege of consorting with murderers and people of the underworld.

Not only are the ends of justice defeated in making heroes of criminals, but it is a well-known fact that this glorification of crime is what makes criminals and stimulates disrespect for the law. Malefactors are characterized by over-weening vanityand an intense desire for news paper publicity. They like nothing better than to be exploited by the press. This is a compensation which comes to them when the game is played and a career of crime ended by imprisonment. It is a salve to their wounded pride.

To the impressionable youth and one who is inclined to run wild, these tales of adventure are little short of high romance. They appeal to the imagination and stir sleeping fires of ambition into flames of social revolt and unrest. Whole pages given over to the story of criminal achievement are productive of nothing but harm and the editors who pretend to cater to a public demand in furnishing such details are guilty of a breach of trust.

The Canadian public do not want such trash served up to them in the guise of news. The average reader wants wholesome items of interest as daily diet. Those who want closer insight into the life of the criminal class can find itin periodicals devoted to that phase of existence.

## WIT AND HUMOR

### ABSURD

"It is believed that the bomb was thrown at Kemal in an attempt to assassinate him." "How absurd! Probably some friend was trying to cure Kemal's fit of hiccoughs with a little scare."

### SATISFACTORY

"So you want to marry my daughter? What is your financial standing?"

"Well, sir, I've figured out every exemption possible; I've had the best legal advice that money would secure; I've done everything I could to dodge it—and I still find that I cannot escape paying an income tax."

"Take her. She's yours."

### DODGING THEM

Ted—There must be lots of excitement in those high-speed cars. I wish I owned one.

Ned—Don't feel that way, old man. They furnish you more excitement when you don't own one.

### THE IRISH OF IT

Kelly—"If yez force me to pay that note now, I can't pay it."

O'Brien—"But if I wait till yez pay it, I'll niver get it!"

### FRIENDLY WORDS

Flora—I'm going to be married next week and I'm so nervous.

Dora—No doubt. There's always a chance of the man getting away at the last moment.

### SECRET SOCIETY

A woman's secret society has been formed in America. It sounds impossible.

### HER OTHER LOVE

Young Wife—Darling! Darling!

Husband—Yes, my love, what is it?

Young Wife—Don't be silly, Jack. I was calling Toto.

### DID A THOROUGH JOB

Reggie—I was out with Peggy last night, and she fell down and sprained her ankle.

Oswald—Did you have to carry her back home?

Reggie—Yes; I carried all of her home.

## PRESS OPINIONS

### MERCIFUL CREAM PUFFS, MILDRED!

(Detroit News)

After several feverish weeks of considering by day and pondering by night, of study and perspiration and weighing pro and con, a committee of three dry workers in Boston has picked a manufactured noun calculated to stun the violator of prohibition laws into instant and utter shame.

From entries said to have originated in every American state, the judges have selected as the devastating epithet best calculating to wring dry this more or less mushy land, the word—"Scofflaw."

Merciful cream puffs, Mildred! Can of terror, of disgrace and remorse in the stricken soul of the case-hardened rum runner or bootlegger when this burning braid is pressed against his hide? In this connection, neither can a lot of us.

### HIGHWAYS AND BYWAYS

(Stratford Beacon-Herald)

Hon. G. S. Henry in his address here pointed out that county councils themselves are now spending some four million dollars a year less on improving county roads than they did three years ago. Mr. Henry said that this is not a healthy condition and illustrated his assertion with the remark that a farmer living somewhat isolated on a sideroad is fully as much entitled to good roads as are the people in the centres who operate automobiles.

The isolated farmer is contributing probably more than his more pleasantly situated urban fellow men to the welfare of the province and is deserving of consideration. Mr. Henry says his ambition is to keep the boys and girls on the farm. This worthy end can be achieved just as much by perfecting the county and township roads as by building hard-surfaced highways.

### SOCIAL WORKERS

(Montreal Star)

Many of the young people who come to Canada posses ideals and ideas that are different from, if they do not actually clash with, our own. It is part of the task of the social worker to reconcile the two, to explain the reason for the differences, and to win the newcomer to a recognition of the necessity for bringing his own viewpoint and his own ideals into line with those that prevail here.

This sort of thing requires an infinite amount of tact, but above all a wealth of human sympathy. Given the latter endowment, and the ability to see sunshine thru dark clouds, the social workers can accomplish a great deal of good and help materially in the steady upbuilding of a sound Canadian citizenshood.

### IMPOSSIBLE TASK

(Detroit News)

Therefore, unless the federal government can eradicate from the inclinations of all the citizens the taste or desire for alcoholic beverages, there will be an immoral profit for the least desirable members of the community who choose to risk death or jail—as they do—in catering to that desire for a drink.

## Music & Drama

### ATHLETIC FAIRBANKS A POPULAR MAGNET

Famous Athletes Take Every Opportunity for "Impromptu Events" With Celebrated

Just as great minds run in the same channel, great athletes are prone to get together not only to chat socially but to match prowess for the fun of it. Douglas Fairbanks, because famously athletic, always has been a magnet for attracting those of athletic skill to him and just about the first thing a celebrity of the sports field does upon arriving in Southern California is to regale himself in the thrills of a visit with Douglas at the Pickford-Fairbanks Studios at Hollywood.

Scarcely a week went by during the filming of the new Fairbanks photoplay, "Douglas Fairbanks in Robin Hood," that at least one noted master of some physical speriority did not call on this popular artist of the screen. Among the more recent of these visitors was Fred Thompson, fomerly world's all-around champion athletic. Thompson won this high and enviable honor at the Olympic contests of 1915. On the same day Alma Richards, holder of several outdoor records, vied with Douglas on the athletic field he has had laid out at his studio.

Among the many other winners of national fame, who have seen Mr. Fairbanks' work "Douglas Fairbanks in Robin Hood", a United Artists release coming Monday to the Griffin Theatre was Brutus Hamilton, considered the best all-around track and field man in America and who distinguished himself as captain of the track team of the American decathlon record in the Olympiad tryouts at New York in 1920.

"Bob" Simpson, holder of the 220-yard low hurdles record, was also among the late guests and he put on a special hurdling performance which compelled admiration, Fairbanks being the leader in applauding his brilliant feats. Kranzlien, of Pennsylvania, and Wendell, coholders of the 110-meter high hurdles and numerous indoor records, also participated in these "impromptu events" and added a good measure of thrills to the occasion. Later Douglas duplicated their best efforts and received his share of the applause of a crowd of more than a hundred enthusiastic spectators.

One of the very last acts of Jack Dempsey, champion heavyweight of the world, before departing from Los Angeles for Europe, was to go far out of his way to call on Mr. Fairbanks for a farewell sparring match, a sport this celebrated cinema artist always enters into with a zest. A right lively and altogether jolly title ensued with Douglas doing well in the manly art of self-defense, despite the superior weight and science of the man whom many experts regard as the greatest human fighting machine ever known.

# OLD COMRADES ARE VISITED BY BYNG OF VIMY

## Governor-General Pays Visit to C.N.R. Shops at Point St. Charles

## 600 VETERANS IN LINE

## Anecdotes and Memories revived—Old Commander Warmly Greeted

Montreal, Que., Jan. 24.—During the war the Point St. Charles shop of the Canadian National Railways at Montreal sent overseas more volunteers than any one industrial plant in Canada. The vast majority of these men served in the Canadian corps under General Byng and today they had the plaesure of meeting their old corps commander when His Excellency the Governor General, paid a visit of inspection to the shops.

Six hundred returned veterans, flanked by the brass and pipe bands of the C. N. Railways were drawn up in four lines almost the whole length of the erecting shops when the Governor General entered the building. Among those returned men were many who were meritorious service menals and for those, His Excellency had a special word of praise and of encouragement.

All of the men wore their service medals or ribbons. Some of them for campaigns in South Africa and Egypt as well as in Europe and the Governor General spent many minutes of his time chatting with these veterans, recalling old battles and brigade and infantry commanders.

One of the men he met, a man well over 60, had seen service with the British Forces before the Government General himself had commenced his military career, a fact which drew an exclamation of astonishment from the distinguished visitor and an extra handshake.

Among those to meet the Governor-General was Mr. Phil White, an oiler in one of the shops. All of Mr. White's four sons went overseas at the beginning of the war and of the four, three were killed.

To him, Lord Byng expressed his sympathy and also commented upon the pride he must feel in being the head of a family with such a splendid record in the service of the Empire.

The inspection lacked all of that stiffness usually common to official ceremonies. It was rather a meeting of old friends after many years absence. The Governor General insisted in shaking hands with and in speaking to everyone of the six hundred returned men. On his entrance to the shop the brass band played the National Anthem, and during the inspection rendered waltz music, thereby lending to the affair and atmosphere pregnant with memories of battalion inspections overseas.

At the conclusion of the inspection three resounding cheers were given for the Governor General who promptly asked for and received a half holiday for the returned men. Before leaving His Excellency inspected the car department, the power house and the first aid station and he expressed himself to Mr. W. D. Robb, vice-president of the Canadian National Railways, as having spent one of the happiest mornings since the war.

The Governor-General was accompanied by his private secretary Major P. K. Hodgson and by the following officers of the Canadian National Railways, Mr. W. D. Robb, vice-president; Mr. T. M. Hyman, D. C., supt. of shops; Mr. F. C. Wilson, supt of notive power; Mr. J. C. Garden, general supt. of motive power; Mr. J. Coolman, supt. of car equipment, and Mr. W. R. Davidson, general supt.

## CANNIFTON

On Saturday Mr. Fred Putman had the misfortune to lose one of his horses. The horse had been kicked by its mate which resulted in its death.

Mrs. Way received word Sunday of the death of her sister, Mrs. Taft at Gardenville. On account of the bad storm she was unable to attend the funeral.

Two new assessors have been appointed by the Council owing to illness of the former assessors.

Saturday afternoon Mrs. J. Archbald fell on the icy road and broke her arm near the wrist.

Mrs. G. N. Phillips has had a bad attack of quinsy but is better again.

Some property exchanges recently in our village; Mr. Juby of Mountain View having bought Mrs. A. Kellar's place and Mr. Allie Mather has bought Mr. T. Farnham's brick house.

We have lots of the "beautiful" especially where our paths should be.

## VIOLA DANA'S NEW PICTURE HER BEST

"A Noise in Newboro" Provides Fine Opportunities For Dainty Little Star

Aided by the best screen vehicle she has ever had, dainty little Viola Dana provides the most delightful entertainment in many a day in her new Metro picture, "A Noise in Newboro", at the Regent Monday to Wednesday. This new comedy-drama proves a happy laughs, and excellent acting, with just enough fine pathos to spice it.

Miss Dana is more winsome and delightful than ever. She moves through the picture with lovely grace, interpreting each situation with incomparable skill. And she has untold opportunities to reveal her versatility. This talented little star interprets both pathos and light comedy with deep sincerity.

She plays the role of a girl who was neglected in her home town because she was poor. Martha resents the littleness of Newboro and resolves that someday she is going to rouse these worthy citizens from their smalltown complacency. After she becomes a famous artist in New York, she goes back to Newboro and she is more than successful in making a noise. What a wonderful big noise it is! And Newboro won't forget it soon.

# SHRUBS FINE FOR HOME DECORATION

## Ideal for Beautifying those Noticeable Bare Places

There are a few general rules governing the arrangement of shrubs, which if kept in mind will enable almost anyone to place their plants so that the effect will be pleasing.

Shrubbery is necessary to take away the bare appearance so very often noticeable around buildings. They branch low and gracefully and blend naturally into the lawn surface. They can be made into dense and massive groups to close out undesirable views of out buildings, drying yards, and other places it is not necessary to have in views, or they can be arranged in light and graceful groups so as not to conceal beautiful adjacent features. An over-use of shrubbery should be avoided, as the house should not look as though it were built in a thicket.

Group planting is more attractive than single specimen planting. Three specimens planted to form a group are more pleasing than the same three plants set singly at different points. The plants in a group are set three or four feet apart, and with no mathematical precision as to location within the group. Five plants of a kind make a good group, and three may be sufficient for many places. A group made up of one kind of plant is usually more attractive than a group with each plant different. It is allowable of course to have variety by introducing a specimen or two of another kind. If, for example, a group is made up of five plants of bush honey-suckle, one or two plants of Japanese barberry may be used in the front of the group to advantage, but in such planting one kind should predominate. A group consisting of three spruce trees and three pine is not so effective as a group consisting of five spruce and one pine or of five pine and one spruce.

The group should be arranged so that as much open lawn as possible remains unbroken by the planting. They should be placed at the sides and corners of the house near the entrance, and around the edge of the lawn. Irregular border planting can be had by grouping plants of different character and height along the border. In such planting care should be taken not to shut out desirable views

The following are suggested as among the most satisfactory:

Bridal Wreath (Spiroea Van Houttei)—Bloom middle to last of June, height 6 to 7 feet.

Tartarian Bush Honeysuckle (Lonicera tatarica speciosa).—Bloom middle to last of June. Large pink blossoms, height 6 to 8 feet.

Mock Orange, Syringa (Philadelphus coronarius).—Bloom second week in July, height 6 to 8 feet.

Japanese Barberry (Berberis Thunbergii).—Height 3 to 4 feet.

Japanese Rose (Rosa rugosa).—Bloom first half of July, height 5 feet.

Japanese Hydrangea (Hydrangea paniculata grandiflora).—Bloom during the latter part of August and early September.

Snowberry (Symphoricarpus racemosus).—Height 5 to 6 feet.

Dwarf Late-flowering Japanese Spirea (Spiroea japonica Bumalda.) The variety Anthony Waterer is the best Height 2 feet. Bloom early in August.

Weigela Eva Rathke (Diervilla hybrida Eva Rathke).—This with its red bloom is one of the best of the weigelas.

For taller groups and for screen planting the Lilac (Syringa vulgaris), of which there are many fine varieties, is the best. The Siberian Pea Tree (Caragana arborescens) is also satisfactory. For evergreens the Pyramidal Arborvitae (Thuya occidentalis pyramidalis) Thread-leaved Rentinospora (Cupressus pisifera filifera), Savin Juniper (Juniperus Sabina) and Dwarf Mountain Pine (Pinus montana Mughus) will be found to be among the best.

# SO NERVOUS SHE COULD NOT SLEEP

## A QUEBEC WOMAN FOUND RELIEF AND WANTS OTHERS TO KNOW.

Mrs. Donald M. McLeod, Springhill, Que.' was a victim of great nervousness until she found the right remedy, and is now anxious that others shall profit by her experience. Mrs. McLeod says:—"Some years ago I became run down and grew so nervous that my life was a burden to my self and all around me. Every night I would wake up with a choking feeling, numb all over and my heart beating at an alarming rate. I would jump up and walk the floor and declare I was dying. Then I would have sinking spells, and all day long would be so dizzy that I would stagger like a drunken person. I was afraid to be left alone, and my condition was terrible. I was then taken to the Sherbrooke hospital, but the treatment there did me no good and I came back home so weak that I could hardly cross the floor. I could not take care of my children, and my mother did so. Everybody thought I was dying, and I was just waiting and wondering when the end would come. At this stage my attention was directed to Dr. Williams' Pink Pills, and I got a supply at once. By the time I have used five boxes I felt much better, and felt almost like a new woman. I continued the pills for some time further, and am now strong and healthy woman. I advise all run-down women to try Dr. Williams' Pink Pills as I am sure they will do for others what they have done for me."

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co.' Brockville, Ont.

## GOLDEN DAYS FOR MOTORS

"Such a time may come, at that," mused Brown. "Just what time are you speaking of?" inquired Black. "The time when it will be as easy to change a tire as it is now for a woman to change her mind," replied Brown.

The Popularity of "SALADA" TEA H359 has been earned on merit only. One trial will convince you.

SINCLAIR'S

Fur-trimmed COATS

There will be plenty of time to get good service from these fine Coats this winter, and they will be ready to serve you next winter too. Some wonderfully good values are offered in best qualities of Marvella, Gerona and Duvetyn, trimmed with beautiful furs. Prices which were from $56.50 to $94.50 have been reduced to **$42.50 to $65.00.**

New Sweaters

Chappie Coats in several qualities and a good range of colorings are included in our showing of Sweaters. Ranging in price from $6.75 for the usual Sweater weave to $15.00 for one of Camel's Hair.

**DRESSES $6.95**

A number of Dresses that have had prices much reduced Dresses of Tricotine, Serge, Jersey, and Flannel in Navy, Brown, Copen and Red; sizes 14 to 18 only at $6.95.

**BATH ROBES**

Bath Robes that will be found warm and comfortable are made from cotton eiderdown in conventional patterns. Formerly $7.50, $8.00 and $8.50 for $6.75.

# Whooping Cough Stopped By Vicks

## TORONTO MOTHER SAYS NEW VAPORIZING SALVE "WORKED WONDERS."

The quick direct treatment for colds of children and grown-ups too, is an application of Vicks over throat and chest at bed time.

Not only is Vicks absorbed through the skin, but its healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc., are breathed all night directly into the affected air passages.

Relief usually comes by morning. Just as good, too, for cuts, bruises, burns and itching skin troubles.

Mrs. William Morrison of 114 Sheridan avenue, Toronto, says: "Last fall our baby had whooping cough so bad that we were afraid of losing her. I heard about Vicks VapoRub from my neighbors and decided to try it. Every morning and night I applied it as directed, and it worked wonders. It seemed to break up the cough and ease her, especially through the night when it was most troublesome. I have also used Vicks for colds with good results and would not be without it."

At all drug stores, 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States.

## FEARS PHRASE MAY LEAD TO TROUBLE

London, Jan. 25.—Althought the Times comments very favorably on the signature of the liquor convention between great Britain and the United States, it regrets the vagueness of the phrase "an hour's sailing distance."

Under the treaty the United States would be permitted to search British vessels within this distance of United States shore. The newspaper fears difficulties may arise over this point. While it does not assume there will be any intentional abuse of the right search, the Times affirms that United States officials "have been known to be over-zealous and impulsive."

BEST LAXATIVE FOR BOWELS

If Headachy, Bilious, Sick, Constipated

10¢

CANDY CATHARTIC
Cascarets
10¢
CCC
WORK WHILE YOU SLEEP

No griping or inconvenience follows a gentle liver and bowel cleansing with "Cascarets." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. Most harmless laxative for Men, Women and Children—10c boxes, also 25 and 50c sizes, any drug store.

## OBITUARY

### ALFRED WANNAMAKER

Mr. Alfred Wannamaker, a well-known and much respected resident of Ameliasburg Township, passed away on Friday. Deceased was in his 83rd year and was born in Prince Edward County where he had resided all his life. For many years Mr. Wannamaker had been a member of the Methodist Church. A widow and four daughters survive. The daughters are Mrs. Alfred Reddick of this city, Mrs. Peter Caverley, of Fort Stewart, Mrs. J. W. Loney of Ameliasburg and Mrs. A. J. Gough of Foxboro. One brother, Samuel, resides at Madoc.

### MRS. D. IRVINE ROSE.

On Monday, January 21st, 1924, at her home in the 4th Con. of Sidney, Mary E. Rose, beloved wife of D. I. Rose, passed away from the scenes of this life, after an illness of several months which was borne with cheerful resignation. The remains were interred in Frankford cemetery.

She was born in the year 1865, and early in life accepted through faith the Lord Jesus as her personal Saviour and Redeemer. Of late years she has been identified with the International Bible Students. At her request Mr. H. Perrin of Cameron, representative of the Bible Students, conducted the service.

Briefly from the Scriptures he pointed out the hope that our dear sister had and what she understood the Scripture to teach. Through careful Bible study she learned of "The Divine Plan of the Ages" which Jehovah is carrying out, and that the great oath-bound Covenant which God made with Abraham, "In thee and in thy seed shall all the nations of the earth be blessed," had not yet been fulfilled that Christ Jesus and the elect Church of this Gospel Age were to compose that "Seed that is to bless the world. Her hope was to so follow in the footsteps of her Master as to be accounted worthy of being one of their elect class who will be "priests of God and of Christ and reign with him a thousand years."

He proved from the Scriptures that this class is about selected and that very soon our Lord and King with His elect Church will take possession of this earth, establish His righteous Kingdom (the Kingdom for which we have long been praying "Thy Kingdom Come") and that then all the obedient ones will gradually be restored to perfect life and happiness, Edenic perfection world-wide.

The speaker pointed out from the Scriptures that this great blessing would be offered to the living nations first, but that eventually "all that are in their graves would hear His voice and come forth," and on the Authority of the Scriptures he had no hesitation in declaring the glorious message that the King and the Kingdom are very near that "Millions Now Living Will Never Die."

This briefly stated was our dear sister's glorious hope, and may we follow her even as she followed Christ.

She leaves to mourn her loss, her sorrowing husband, one son, Gerald, one married daughter, Mrs. Harry McCallum, of Fenlon Falls, Miss Eva, High School teacher of Frankford, and Miss Helen at home.

O, that glorious heav'nly City
O, that New Jerusalem,
How 'twill shine in all its beauty
'Twill be glorious as a gem.
We shall meet in that fair city,
In the new Jerusalem.

### NOTICE

Regular meeting Court Moira 33 Independent Order Foresters to be held Monday, January 28 at 8 o'clock. SPECIAL. Installation of officers by Bro. McCullough of Ottawa. All brethren requested to attend.

A. HARROW,
Chief Ranger.

### DIED.

WANNAMAKER—In Ameliasburg Township, 1st concession, on Friday, January 25th, 1924, Alfred Wannamaker in his 83rd year.

The funeral will take place from his late residence, in Ameliasburg on Monday, 27th inst. at 2.30 p.m. Services at the house at 2 o'clock. Interment Albury cemetery.

### BORN

On Thursday, January 24th at Grace Hospital, Toronto, to Mr. and Mrs. Bert Woodington, nee Maude Foxton, a daughter.

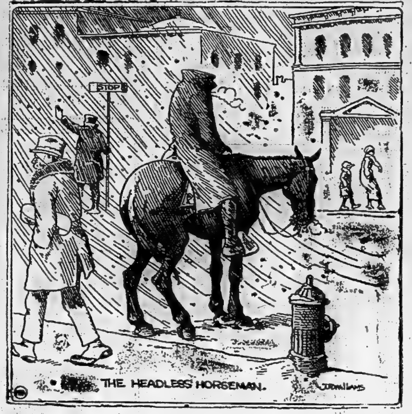
## OUT OUR WAY



### MARRIED

CROUTER — KENNEDY — At the Thomasburg parsonage on Tuesday, Jan. 22nd, at 11 o'clock, William Ferey Crouter, of Prince Edward County, was united in matrimony to Cora May Kennedy, of Thomasburg. Rev. Alfred Poulter officiated.

### IN MEMORIAM

BROOKER—In sad and loving memory of our dearly loved daughter and sister, Vada Lillian Brooker, who passed from this earth Jan. 24th, 1922.

Rapid and swift the moments glide,
Two years to-day since Vada died.
The sudden call, and now she's blest
With perfect peace and heavenly rest.

In thoughts we see her dear sweet face
And kiss her tender brow,
But in our aching hearts we know
We have no Vada now.

We loved her, yes, no tongue can tell,
How deep, how dearly and how well,
Christ loved her too and thought it best
To take her home with him to rest.

The heavenly gates were open,
A loving voice said, "Come",
And with farewell unspoken
She gently entered home.
From Father, Mother, Sisters, Brother.

SLEEP COMES AT LAST

HOME MADE COUGH MIXTURE BEST OF ALL

The cough that hangs on and hangs on—the cough you've taken everything for with no results, is just the cough that your own home made cough mixture will end speedily.

Make a supply yourself in a few minutes and keep it on hand this Winter—a half pint doesn't cost much; it's better than any you can buy, and the kiddies love it.

It's a fine remedy for chest colds and acute nasal catarrh.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrup) that immediately covers the membrane like a soothing, healing poultice and blessed relief comes at once.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Any remedy that overcomes catarrh partially, or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

## Robert Burns
### Poet and Man

(By P. L. B., of Port Hope

On January 25th wherever Scotsmen gather the world over, they celebrate the birthday of their National Bard—Robert Burns. There must have been some mighty attribute possessed by the son of so humble parents to have kept his name green in the memories of his countrymen, and called forth the respect, the love, the reverence, which are shown to his memory to this day. He was a man of sincere sympathies, straight forwardness, honesty of purpose and who opposed all overbearing, scant, spleen and spite. Looking back across the vista of years he can be seen standing forth as a bright star in the midst of a dark night. We see him casting his radiance over the country round, and bringing light and liberty and love in his path. His brethren at that time were a poor bedraggled, down-trodden race under the cliquism of the clergy their manhood beginning already to be swallowed up by the more powerful sister country. their manners, their laws and even their native tongue being threatened. But the coming of Burns changed all that. Through his work, the bonds that were shackling his countrymen were burst asunder. He planted in the breasts of his countrymen the love of liberty, the feeling that they were men. Some people claim that Burns scoffed at religion. Yes, he scoffed at that religion which was a mere pretence, and the propounders of it the sheerest hypocrites. If he had not done so, we would have lost forever that great Calvinistic doctrine of Election—"Holy Willie's Prayer". That satire did more to cleanse the Church than thousands of sermons and lectures ever could do. Burns believed in the only true religion, the religion of God in man and man in God. Burns showed his religious nature by the qualities he displayed to all the world. Look at the man and see if he could be any other than a true religious man. He was a man brimming over with love for all things which were truly great and noble a man whose great sympathies went out to the most lowly and humble, and who raised such a pre-eminence they never before had reached. He believed that religion should be love, love which showed itself in the care of the weak, the uplifting of the fallen, in the sympathy which flowed towards his fellow men. How could an irreligious man pity the condition of a poor wee mouse whose house was wrecked? How could an irreligious man see any beauty in the daisy rearing its tender form in the stubble field? No, it was the great love he had in his heart for nature that made him take notice of such lowly subjects. And that love is indeed God in man.

### Walked in Fairyland

But that love which he showed for true religion was found in every phase of his life, especially in his love for human nature. His love singing is in the heart of it life singing. Love and friendship were to him life's richest treasures and he praised them without tint or fear. That is why all his music touched as no other has done in any age or tongue. From the moment in which love's early passion made him aware of his power of song, Burns walked in an enchanted fairy-land. Life became glorified, and then the grand ideal that are still our wonder hope and despair were revealed. All his love lyrics are life lyrics in the best and truest sense appealing to humanity everywhere and always. For even the simplest of them lift us to the ideal of what the first phase of human passion ought to be. They glorify the actual, open wide the doors of the future and bid us gaze upon the wonders that shall yet spring from the natural harmony and sympathy of human hearts. For in the ordinance of God the love that has its root in sex passion and devotion has as its goal the social affection that will yet triumph over all injustice and discord and inhumanity, and teach man the duties and joys of a divine brotherhood.

Aspersions have been made by certain people on the patriotism of Burns. But the man who wrote for his country the greatest war song in existence, a war song that has fired and always will fire the blood of all true Scotsmen, the man who wrote such words as "Scots wha hae, wae Wallace bled." How in all the world could that man be any other than the highest of patriots? Yes, Scotland has a triumvirate of patriots unsurpassed by any other nation in the world, a triumvirate who worked and gained the freedom of their Country. They have the names of Wallace and Bruce to conjure with, to stir their blood to heroic action, to let the world know that they are Scotsmen still. Burns, a name that will live for time immemorial wherever freedom is known, the highest freedom of all the freedom of the mind.

Scotsmen today should not follow this little clique or that little clique. They should have a conscience above all cliquism, and the one person who was the instigator and the propagator of that freedom of conscience was the man whose memory will be honoured by all true Scotsmen the world over on January 25th

The best way to honour Burns is to follow the highest teaching which he gave us. Let us cast aside all petty spites and jealousies let us cast aside all meanness and vanities and let us be what he has given everyone the opportunity of being the opportunity of being MEN true not only to ourselves, but true to all the world, and true to the love of liberty that has been implanted in our breasts.

## Get-together Meet

Continued from page one.

Chamber of Commerce for their entertainment and spoke of the fine feeling of co-operation which was steadily growing between city and county. The warden promised that his term of office would see this cordial spirit strengthened'

### Other Speakers

Other members of the County Council added a few words of appreciation and all spoke enthusiastically of the good which would come from the "Get-Together" movement so happily inaugurated. Ex-Wardens Dr. Embury of Bancroft and J. V. Walshe ——and County Clerk W. H. Nugent were among those called on.

Mr. John Elliott closed the speaking in moving a vote of thanks to Dr. Taylor for his splendid address and took occasion to congratulate the new Warden on his occasion to office and the various members of the County Council on their election.

Mayor W. C. Mikel made an ideal toastmaster, keeping the program moving and confining his remarks to brief congratulations to his old personal friend Warden Rollins. Dr. D. E. Ramsay had the honor of introducing Dr. Taylor. As the distinguished Doctor rose to speak the Queen's graduates present gave the Queen's yell for his benefit.

### The Program

Not the least enjoyable feature of the evening was the program provided. Mr. A. F. Stillman, Dr. A. B. Haffner, Mr. Fred Burke and Mr. J. D. Bankier sang solos and a sextette composed of Messrs. Burrows, Burke, Bankier, Barrett, Haffner and Stillman, delighted the audience with a fine rendering of the old English song "Brown October Ale."

Mr. L. J. Lingsdin of Toronto captured his hearers with his reading of three of Dr. Drummond's poems. Mr. Lingsdin was particularly good in his interpretation of "Johnnie Corteau."

The big dining room of the Quinte was scarcely large enough to accommodate the crowd attending, and the banquet was voted to be the most successful of the series. It was not far from midnight when God Save the King and Auld Lang Syne were sung.

## GROWING SUDAN GRASS

### Experimental Results at Ontario Agricultural College.

**Average Yields for Five Years For Green Crop and for Hay—How It Compares With Millet and Sorghum—A Good Emergency Crop—About Alfalfa.**

(Contributed by Ontario Department of Agriculture, Toronto.)

This forage plant, which belongs to the sorghum family, and is one of the finest in leaf and stalk of this group of plants, was introduced into the United States from Africa in 1909. During the last ten years it has obtained considerable prominence in the South-western States, and more recently has been advertised and sold by seedsmen in Ontario, and also grown by a few farmers in the Province.

Sudan Grass has been under test in the experiments at Guelph for the past eight years. During this time it has been grown for its total green fodder yield, for hay, for seed and for pasture.

**Average Yields for Five Years.**

The following table gives the average yield for five years of green fodder and of hay per acre of this crop, and of three types of Millett, Mand's Wonder Forage Plant and Early Amber Sugar Sorghum:

| Varieties | Green Crop Tons | Hay Tons |
|---|---|---|
| Early Amber Sugar Sorghum ...... | 16.92 | 8.19 |
| Mand's Wonder Forage Plant... | 13.15 | 5.22 |
| Japanese Panicle Millet ........ | 10.43 | 4.41 |
| Japanese Barnyard Millet ........ | 11.23 | 4.33 |
| Sudan Grass ..... | 8.90 | 3.69 |
| Siberian Millet No. 71 ........... | 8.52 | 3.55 |

For the results of this experiment the plots were all sown broadcast.

It will be seen that in yield of green fodder and of hay per acre the Sudan Grass was surpassed by five of the six crops included in the test. The quality of hay made from Sudan Grass was superior to that made from Early Amber Sugar Sorghum and Mand's Wonder Forage Plant, and slightly inferior to that made from the three Millets. This and other experiments indicate that Sudan Grass, although it yields somewhat less per acre, makes a better quality of hay than any of the other eight classes of sorghums which we have had under test.

In the average of two years' tests in which Sudan Grass was grown for seed production in comparison with three varieties of millet, teff grass and early amber sugar sorghum, the Sudan Grass weighed 38.1 pounds per measured bushel, yielded 4.52 tons of straw and 96.7 pounds of grain per acre. This was a smaller yield of grain than that produced by the early amber sugar sorghum and three different varieties of millet.

In pasture experiments at Guelph, Sudan Grass has stood the hot, dry summers very well. Sowing a mixture of six pecks of O.A.C. No. 72 Oats and 15 pounds of Sudan Grass seed per acre produced a greater amount of pasture than when Sudan Grass was sown alone.

**Must Be Sown on Warm Soil.**

Our experience with Sudan Grass leads us to believe that the plant is more subject to injury by late frosts in the spring than the average variety of dent corn. In drouth resistance it is the equal, if not the superior, of Indian corn. It is essential in sowing Sudan Grass that it be not sown until the soil is warm. We have had the best results from sowing this crop just after the corn has been seeded. When sown for hay or pasture, Sudan Grass is usually sown broadcast or in close drills. 25 to 30 pounds per acre should be sown when Sudan Grass is sown alone, and when used in mixtures for pasture about 15 pounds per acre is sown. Sudan Grass should be cut for hay when the heads are in full bloom, and may be cured in much the same manner as timothy. This crop has been little grown for silage either in the United States or Canada. The reasons for this being that it is a better hay and pasture than a silage plant and that Indian corn is a larger yielder of silage than Sudan Grass.

We have had different classes of sorghum under experiment at Guelph for twenty-eight years, and Sudan Grass for the past eight years. Up to the present time we have had no trouble from sorghum poisoning in the feeding of Sudan Grass or the other sorghums to stock.

**Worth Trying as a Pasture Crop.**

From the experimental evidence at hand, it would seem that Sudan Grass has shown sufficient promise to warrant its trial in a limited way for pasture, and as an emergency hay crop on the warmer soil of Southern and South-western Ontario, and in favored areas even farther north. Sudan Grass has been included in the co-operative experimental tests in each of the past four years, and will be distributed again in the spring of 1924. Any farmer in Ontario, therefore, who desires to test this plant under his own conditions may have an opportunity of doing so.—W. J. Squirrell, O.A. College, Guelph.

### Ontario Variegated and Grimm Alfalfas.

Ontario Variegated is not a Grimm alfalfa. The seed of the former was obtained from Lorraine in 1871 and has been grown in Welland County for the last half century. The Grimm variety was brought from Baden, Germany, by Kulsheim Grimm and was sown in Carver County, Minnesota, in 1858, where this type of alfalfa has been grown since that time. Both varieties have variegated flowers and are similar in some characteristics.

Beautiful home surroundings not only increase the value of a farm property, but have a valuable influence on the community in which the home is situated.

THE BEEHIVE
CHAS. N. SULMAN

For the peace that is the sweetest
isn't born of minted gold,
And the joy that lasts the longest and
still lingers when we are old,
Is no dim and distant pleasure—it is
not to-morrow's prize,
It is not the end of toiling—or the
rainbow of our sighs,
It is every day within us—all the rest
is hippodrome—
And the soul that is the gladdest is
the soul that builds a home.
—Edgar A. Guest.

# AND NOW IT'S STANDARDIZATION OF HUMANS; FOR EAST OR WEST THEY'RE ALL THE SAME

By Josephine Van de Grift

NEA Service Staff Writer

NEW YORK, Jan. 26.—Civilization's a wonderful thing and if it keeps on at the present rate it's going to leave a lot of us folks with about as much individuality as a row of cough drops.

We'll all become as standardized as phonograph records or the parts of a flivver.

As witness Miss Lydia Hutchison

Lydia lives out in Ashton, Idaho, where the thousand or so inhabitants get a lot of excitement out of staging down to 15 below zero. Lydia's no slouch at excitement herself, being the only lady ever to race a dog team, and when she rolled into New York the other day to give the big town the once over, a lot of inhabitants wandered down to the station to see what she looked like.

They sort of expected she'd stick her head out of one those fur hoods which, according to the movies, is the only thing a northern lady thinks of wearing in cold weather.

But say, Lydia's earrings were just as large and resplendent as any that ever gleamed between 34th and 42nd streets. Her suit was just the "com me au fait" distance from the curb, and her hat was one of those little cloche affairs with a flummy diddle on the side that might have been put there by the practiced hand of a Fifth Avenue modiste.

You could see at a glance that Lydia'd been raised on corn flakes, that she ate cream puffs out of canned milk, that she'd ridden in Ford cars, read the Saturday Evening Post and chewed spearmint gum because she likes nice things.

Lydia looked at the New Yorkers and the New Yorkers looked at Lydia. The disappointment was mutual.

WHEN MISS LYDIA HUTCHISON HITS BROADWAY (LEFT) SHE IS ONE OF THE REGULARS FROM HAT TO SHOES, EVEN THOUGH SHE MAY LOOK LIKE THIS (RIGHT) AT HOME.

"It was the same way in Salt Lake City and Detroit and Chicago," complained Lydia. "They told me I'd like this trip here because I'd see so many strange things. When I got to Chicago I thought maybe I'd get a tip on a new way to do my hair, but say, we were doing our hair that way out in Ashton six months ago."

"Never mind," said the New Yorkers. "We'll take you to a cabaret and show you a wild time."

So they took Lydia to a cabaret where a lot of people were sitting around at little tables. "Look Lydia," said the New Yorkers," "see what fun."

"If you call that fun," said Lydia, "you must come out to Tud Kent's place in Ashton some time."

"But that fat fellow," plead the New Yorkers, "ain't he a scream?"

Lydia yawned. "You," she said, "should see Togo Manning on Pioneer Day."

"The girls, though," said the New Yorkers, "pretty nifty, eh?"

"There's not a one of 'em," said Lydia, "that could hold a candle to Mrs. 'Butch' Stone."

One of the New Yorkers asked Lydia if she wouldn't like to dance. Lydia would and pretty soon everybody else stopped dancing to watch Lydia teach the New York chap the steps she'd just learned over the radio.

"Yes" said Lydia morosely, "I'm going down to Washington to see the president and then I'm going up to gonng down to Washington to see the president and then I'm goingup to Montreal to get the team that Canada has entered in the races. But I don't expect it'll be any different. Everywhere you go the people talk the same and look the same and act the same. I'm terribly disappointed. I'm going back to Ashton."

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Hurry Mother. Even constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

## FINE POULTRY DRAWS MANY

On Wednesday at Picton the annual poultry show of Prince Edward County was opened in the armouries. The number of entries were 975, many being from outside the County and is an increase over last year.

Among the notworthy exhibits are White Leghorns by R. L. Zufelt of Belleville, Black Orpingtons by Col. E. D. O'Flynn of Belleville and White Wyandottes by Jos. White of Portsmouth. Messrs. Zufelt and White have shown birds winning ribbons at the Ottawa Fair this year. More outside exhibitors are represented at the Picton Show than in 1923, and also more Prince Edward County poultry raisers are represented.

Messrs. R. Oake of London and Fraser of the O.A.C. at Guelph are the competent judges.

An exhibit by the Dominion Experimental Farms is especially good, depicting proper methods in raising poultry. Another exhibit by the Dominion Live Stock Branch shows marketing methods.

Red Peppers End Rheumatic Pain In Few Minutes

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

## Markets Not Upset As Was Predicted

London, Jan. 25.—The falsity of the predictions that the advent of the Labor Government would demoralize stock markets and financial business generally, is commented on to-day by the Morning Post's financial editor. He remarks that the establishment of the new ministry had a peculiar effect, for while stock exchange securities have risen materially in the past two days, foreign exchanges have been depressed.

The writer explains these apparently conflicting developments by asserting that the depression of sterling is closely connected with the fact that the advent of the Labor Government caused some foreign centres to exchange sterling into dollar balances. This movement, the editor says, is quite unjustified, and if the Government rises to a sense of its responsibilities such withdrawals are likely to cease in short order.

In explanation of the firmness of the stock market, the writer says the change in ministry had so long been expected that nervous participants in the market hold speculatively in advance. The recovery of the past two days, he adds, has been due mainly to repurchases by these operators.

### HOME BUILDERS

The world is filled with bustle and
with selfishness and greed,
It is filled with restless people that
dreaming of a deed.
You can read it in their faces; they
are dreaming of the day,
When they'll come to fame and fortune and put all their cares away.
And I think, as I behold them, tho' it's
far indeed they roam;
They will never find contentment save
they seek for it at home.

## SIDNEY COUNCIL HOLDS INAUGURAL

The inaugural meeting of the Sidney Council for 1924 was held at Wallbridge, January 14 inst. with the personnel of the Council unchanged. A report of the financial standing of Sidney Township School Fair prepared by our District Representative was received and filed on motion of C. H. Ketcheson, seconded by W. L. Vandervoort.

W. A. Reid and E. J. Pyear

That Col. Vanderwater be a delegate to the Good Roads Convention to be held in Toronto, February 27th, 28th and 29th.—Carried.

C. H. Ketcheson and E. J. Pyear

That Sidney Council pay its membership fee to the Good Roads Association.—Carried.

Col. Vanderwater and C. H. Ketcheson

That the Municipal World be subscribed for and sent to the members of the Council and its officials as in former years.—Carried.

Col. Vanderwater and E. J. Pyear

That as the municipality is liable for the support of children sent to the Sick Children's Hospital, Toronto, no action be taken re appeal for aid from that Institution.—Carried.

E. J. Pyear and Col. Vanderwater

That the account of Alfred Wilson for plank used in repairing culvert on the Town Line be paid and Rawdon Township be billed for their portion.—Carried.

E. J. Pyear and W. L. Vandervoort

That the full accounts be paid: S. Masson, $17; H. C. Armstrong, sheep valuator, $4; Municipal World, $18.42 Alfred Wilson, $1; Wm. K. Weston, sheep account, $30; Fred Carr, sheep account, $32.—Carried.

E. J. Pyear and W. L. Vandervoort

That the following accounts be paid S. Masson, solicitor, $17; H. C. Armstrong, sheep valuator, $4; Municipal World, $18.42; Alfred Wilson, $1; Wm. K. Weston, sheep account, $30; Fred Carr, sheep accountant, $32.—Carried.

The clerk was instructed by the Council to notify Thurlow Council, and the Boards of S. S. No. 6 Thurlow and Union S.S. No. 23 Sidney of a proposed bylaw to alter the boundary of the latter section, at the March meeting of the Sidney Council.

E. J. Pyear and W. L. Vandervoort

That W. H. Nobes be re-appointed School Attendance Officer for 1924.—Carried.

E. J. Pyear and Col. Vanderwater

That S. H. Wright be appointed caretaker of the Town Hall on the same terms as in previous years.—Carried.

C. H. Ketcheson and E. J. Pyear

That Mrs. Thos. Mills be paid $150 due on the account of our late collector.—Carried.

C. H. Ketcheson and W. A. Reid

That the clerk be instructed to write a letter of condolence to the widow of our late esteemed collector, Thos. C. Mills.—Carried.

W. A. Reid and C. H. Ketcheson

That as the late Thos. C. Mills, collector of taxes for the Township of Sidney, had an account for tax money in the Union Bank, Stirling; the Molsons Bank, Frankford and the Standard Bank, Belleville, we hereby authorize these several Banks to pay over to H. R. Hunt, Esq., Treasurer of the Township of Sidney, at the Molsons Bank, Frankford, any monies that may be to the credit of the said Thos. C. Mills as taxes, or paid into the said Banks as taxes for the said Township of Sidney.—Carried.

Bylaws appointing assessors, auditors, a sanitary inspector and a member of the Local Board of Health, and a Collector of Taxes were duly executed and numbered 812, 813, 814 and 815 respectively. The appointies were as follows:

Assessors—T. H. Ketcheson and S. M. Nicholson.

Auditors—Clayton Morisette and J. W. Bayley.

Sanitary Inspector—Oden Fenn.

Member of Board of Health—Chas. H. Vanderwater.

Collector of Taxes—Edgar D. Morrow.

The Council was adjourned to meet Monday, March 24th at 10 o'clock a.m.

PRESBYTERIANS

Rev. Dr. G. C. Pidgeon of Bloor Street Presbyterian Church, Toronto and Chairman of the Church Union Committee of the Presbyterian Church in Canada, will present

"THE CASE FOR UNION"

In John Street Presbyterian Church
MONDAY, JANUARY 28th 8 P.M.
EVERYBODY WELCOME

Independent Order of Foresters

1874 FIFTY YEARS OLD 1924

Total Benefits Paid $82,000,000.00
Total Admitted Assets Over $40,000,000.00
NOW SELLS
20 Pay Life 20 Years' Endowment
One Hundred Per Cent. Protection Policies

All policies have cash withdrawal, and automatic non-forfeiture features after only two annual premiums have been paid.

In event of total and permanent disability from any cause, at any time, all payments cease, and the insured draws in cash 70% of the face of the policy, balance at death, or the end of endowment period.

Age limit 16 to 55 for men or women.
Premiums may be paid monthly.
Annual rates at a few ages for $1,000.00:

| Age | 100 Per Cent. Plan | 20 Yr. Endowment | 20 Pay Life |
|---|---|---|---|
| 20 | 14.16 | 39.19 | 20.80 |
| 30 | 19.41 | 39.88 | 25.14 |
| 40 | 29.52 | [illegible] | 32.84 |
| 50 | 50.77 | 50.77 | 47.13 |

Members are entitled to full fraternal benefits, also to the protection of our Sanitorium and our Orphan's Home.

### FREE TRIP TO JAVA

Los Angeles, Jan. 25.—A trip of several thousand miles through the Malay Archipelago as guests of the Dutch Colonial government of Java will be the lot of ten prominent Americans.

Richard A. Kaak, of Batavia, the capital of Java was in Los Angeles recently to make arrangements for extending the invitation of his government to representative American business men, in various parts of the country.

### SAD BUT TRUE

As one grows older one realizes that the way of all flesh is to stay right where it is despite all efforts to dislodge it.

MOTHER OF TWIN BOYS

Tells How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter." —Mrs. ELMER A. RITCHIE, 82 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them.

You might be interested in reading Mrs. Pinkham's Private Text-Book. You can get a copy free by writing the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. C

## SOW THE BEST BARLEY

### The World Had Been Searched For the Finest Variety.

**The O. A. C. No. 21 Was Then Developed From the Mandscheuri, From Russia—Started From a Single Seed at Guelph in 1903—Feeding for Bacon.**

(Contributed by Ontario Department of Agriculture, Toronto.)

The O.A.C. No. 21 barley has been such a marked success in Canada that a few words regarding its origin and development may be of interest to the many farmers growing that grain.

**A World Search for the Best Barley.**

During the year 1888 the Field Husbandry Department of the Ontario Agricultural College made a world search for the best variety of barley in existence. In the spring of 1889, fifty-seven different kinds of barley were grown under test. A variety from Russia, under the name of Mandscheuri, gave such good results in the first and following tests, surpassing all other varieties in a five year average by five bushels per acre per annum, that it was multiplied for distribution. In 1892 this variety, Mandscheuri, was distributed in pound lots to co-operative experimenters throughout Ontario and was continued in co-operative test for each of eighteen years. It gave such good returns that from the pound lots sent to the farmers this barley was rapidly increased until it became the most extensively grown barley of the province.

**The Mandscheuri a Great Mother Variety.**

In the spring of 1903 between nine and ten thousand selected grains of the Mandscheuri barley were planted by hand, at equal distances apart in the experimental grounds. This method gave an opportunity for each plant to show its individuality. At different stages of growth and when ripe the plants were carefully examined, and the most promising ones were selected and threshed, after which the grain from the individual plants was examined. A definite number of grains from each of the selected plants were sown separately in the spring of 1904. The best performers, in decreasing numbers, were continued in the tests from year to year. The plant selected by the writer in 1903 as probably the most outstanding individual was included in the seeding list as number 21, and the progeny gave such excellent results that it was introduced into the co-operative experiments in the spring of 1906 where it has been included continually since that date under the name of O.A.C. No. 21. It gave such good satisfaction throughout Ontario that the farmers increased it rapidly and for the last few years there has been scarcely a field of any other variety of barley grown in the province.

**Started From a Single Seed in 1903.**

The O.A.C. No. 21 barley, which was started from a single seed in 1903 is a six-rowed, bearded barley with stiff straw and white grain of good quality. In the experiments at the College the common six-rowed variety of barley has been surpassed by the Mandscheuri in a period of thirty-three years by an average yield per acre per annum of ten bushels, and by the O.A.C. No. 21, in a period of seventeen years by eleven bushels. According to reports of the Statistics Branch of the Ontario Department of Agriculture, the barley crop of Ontario has made an actual increase in yield per acre for the last twenty-one years, in comparison with the two previous decades of 17.33 per cent., or an average yield per acre per annum of four and one-half bushels.—Department of Extension, O.A.College, Guelph.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapepsin" Corrects Sick, Sour, Upset Stomachs At Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

Mother's Advice

No mother ever taught her children a more valuable lesson than the necessity of keeping the bowels regular.

Health, happiness and success are more dependent on this simple rule than most of us ever realize.

This mother advises the use of Dr. Chase's Kidney-Liver Pills because she has found this medicine to be absolutely dependable as a regulator of the liver, kidneys and bowels.

Physicians have estimated that nine-tenths of all human ills have their beginnings in the sluggish action of these eliminating organs and the consequent poisoning of the system.

Not only such ills as indigestion, constipation and biliousness but also appendicitis, Bright's disease, diabetes and high blood pressure arise from this cause.

Prevention is so much easier than relief after the disease has become settled that the value of mother's lesson is at once apparent.

In many homes the rule is one pill at the week-end as a regulator and preventative and more frequent doses when required.

The strong points for Dr. Chase's Kidney-Liver Pills are their dependability to produce the desired results and their direct and combined action on liver, kidneys and bowels.

It is worth remembering that colds and other contagious diseases are quickly checked by the use of Dr. Chase's Kidney-Liver Pills to rid the system of the accumulating poisons.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box for 50 pills. Edmanson Bates & Co., Ltd., Toronto.

# LOCAL SQUAD FIGHTS WAY TO VICTORY

## GAMENESS OF LOCAL BOYS IS LARGELY RESPONSIBLE FOR WIN IN ROUGH GAME

### Stan Nurse Stops Attack When Goal is Threatened—Termed "Goal Wizard" By Kingston Fans—Hagerman Hurt in Collision With McKelvy

### MANY PENALTIES ARE ISSUED IN LAST PERIOD OF GAME

### Entire Team Stars in Turning Back Heavy Queens Team—Hagerman Plays Entire Last Period With Badly Wrenched Shoulder—Daw Whalen Stars in Lone Rushes

The local team upset all the "dope" and incidentally all of the Queen's heavyweights, when they stepped into their heavy team last night in Kingston and swamped them to the tune of 8 to 3. It was a case of the most aggressive team, determined to win, fighting against big odds on foreign ice and never letting up on the attack even when far in the lead.

Stan Hagerman, who is rapidly becoming known in hockey circles as one of the gamest, cleverest centre players in amateur hockey, led the attack from the time the gong sounded and played the entire last period with a shoulder so badly wrenched that he was warned to stay off the ice by Dr. Connell of Kingston.

Daw Whelan, with his lone rushes and beautiful stickhandling, ran rings around the Queen's stars, and scored twice after going the length of the ice. Daw certainly has come into his own during the last two games and work his has given the team such confidence that they will be unbeatable in their present spirit.

Queen's again, through their failure to combine play and long shooting from outside of the defense, can blame their decisive defeat on lack of team play and selfishness on the rushes. Many times during the game they swept down the ice, three abreast, with perfect openings for a combination to work, but the man carrying invariably tried to go through lone-handed, and the way Finkle and Green are working these days, such tactics are doomed to failure. Queen's have a fast team and one that with team-play injected, would go a long way in any league, but last night proved that speed must have something else behind it to win games.

From the first tap of the gong it was a battle-royal. Every man on the ice and the spectators realized that a real game was in progress, and numerous penalties handed out for tripping and rough play showed that the teams had "blood in their eyes".

Campbell, for Queens, was the worst offender in roughness, knocking out Weir and Hagerman in collisions, and his heavy body checks were prominent. However, it was a very much battered Campbell who answered the bell for the last period, and it can be believed that he now has a very wholesome respect for "those little men from Belleville."

Stan Nurse is the best. There is no other term that could be applied to the way he tends the Belleville net. Time and again the puck would be volleyed at him from all angles, drives that seemed unbeatable, but Stan was always in the way. The cool way he turned Queens back last night nearly made the Kingston rooters frantic, and he left an impression on th efans present that will be remembered for a long time.

Vern Weir was the "hornet" on the ice. In fact, he was a whole nest of hornets, as the Queens forward line can testify. His poke check was always in evidence and many times a Queen's forward scooting along with what seemed a clear field, was suddenly robbed of the puck by his stick which seemed to come from nowhere. "Sixty-minute" was certainly on the job last night and was a big factor in the final wrecking of Queens morale.

The game was a rough one, there can be no other term attached to it. The teams were determined to win, regardless of odds, and Referee Jerry Laflamme had a hard row to hoe. At times two men of both teams were off the ice, and Queens may blame their tactics in a large way, for their defeat.

The first period was all Belleville. They were over, under and every way the best. In the first minute of play, Green and Hagerman carried the puck zig-zagging through the entire Quens line for the first goal, Hagerman taking the final pass from ten feet out and dropping it neatly into the net.

A minute later, Whalen combined with Hagerman on a perfect pass, drove through the defense, and tallied before the Queens goalie realized what was happening. Whalen pushed the puck in when Hagerman drew Mundell out.

Then Green pulled his prize play. Stickhandling his way from the defense, he spilled players right and left the length of the ice, drew Mundell out to meet him, then whirled completely around and back-handed the puck into the net. It was a pretty piece of work and drew a hand from the fans.

Little Al Wardhaugh went on the ice at this stage, and his first official act was to step into big "Red" McKelvey with all he had and sent the big fellow sprawling. This semeed to wake Queens up to the fact that a lighter team was about to make their heavy line look "out of order", and they stepped out to do their best. Johnson and Nickel, effecting one of the few perfectly timed combinations of the night, went through the defense and Johnson beat Nurse on a side shot that would have beat anybody. The score at the end of the first period was Belleville 4, Queens 1.

Queens must have absorbed some extra pep during the intermission, for from the tap of the gong they started to carry the fight into Belleville teritory, and it was in this period that Stan Nurse proved to what heights he can rise when his goal is in danger. The entire Belleville lineup was in position in front of the net for a few minutes, with the Queens line driving from all angles. Suddenly, when it seemed that Queens were having things their own way, Hagerman slipped the puck way, nd darted down the ice, with the Queens fast men in a nip and tuck race. He drilled the puck at Mundell, who fell on it, preventing a goal. Big McKelvey was given a two minute penalty for roughing Weir.

Stopping his goal-labelled shot the minute before seemed to "rile" Hagerman and slipping and stepping his way from the Belleville goal, he scored on one of the prettiest lone rushes of the night.

McKelvey, back on the ice, announced his presence by carrying the puck to the Belleville defense, falling down on the ice and snapping the puck into the net while lying there. It was a pretty play and took Nurse completely by surprise.

It was immediately following this that McKelvey and Hagerman collided Hagerman receiving a check while going at full speed, and was forced to leave the ice.

The score at the end of the second period was Belleville 6, Queens 2.

Starting the third period Campbell started to rough matters, and Finkle was forced to retire for a time to get some of his wind. Finkle gave as good as he got however, and Campbell was shown that two can play at the same game.

Johnson again went the length of the ice and scored on a pretty play from behind the defense.

Queen's began to realize as the period progressed that despite the roughness, checking and fast pace set by their fleet forwards, the Belleville team instead of slowing up was getting even better, and then the milling started. First Finkle was put off for triping. Then Johnson was put off a second later. The usually quiet Hagerman, despite his injury, was put back into the game and he stepped into the heavy line as though he had not been on the ice that night. "Game" is Hagerman's first name and he proved it. Hagerman and Bond mixed it on centre ice and both were give a two-minute rest.

Weir, some of his checking duty taken off his hands, proceeded to make sure of the game by stepping through the remaining Queens men, lined up in front of their goal, and driving one past Mundell, who was pulled from the position by Weir.

Frechette at this time decided he might as well join the ranks of the tally makers, and took a pass from Weir, drilling a high fast one into the exact corner of the net. Mundell never had a chance to save.

To wind the game up in good style," Daw" Whalen showed the fans some real stickhandling, and ripping past Campbell, who was a much battered defense man by this time, lifted one dead centre into the goal.

The score at the end of the final period was Belleville 8, Queens 3.

The line-ups were:

Queens—Bond, left wing; Johnson, right wing; Campbell, left defense; McKelvey, right defense; Grimes, centre; Mundell, goal. Subs, Taylor.

Belleville—Nurse, goal; Finkle, right defense; Green, left defense; Hagerman, centre; Frechette, left wing; Weir, right wing. Subs.—Whalon and Wardhaugh.

EAGAN HAS BOXED WITH DEMPSEY AND THINKS HE MIGHT SLIP JACK'S OWN FAVORITE PUNCH OVER ON HIM
EDDIE EAGAN. YALE GRADUATE AND RHODES SCHOLAR AT OXFORD. WORLD'S AND OLYMPIC CHAMPION BOXER, WHO MAY GO AFTER PROFESSIONAL TITLES AND A RING FORTUNE
RECENTLY HE HAS BEEN KNOCKING OUT ENGLISH AMATEUR CHAMPIONS — WHO AT LEAST ARE BETTER THAN BECKETT.
R. Edgren 1-27

## SPORTS THROUGH EDGREN'S EYES

By Robert Edgren

### EAGAN, YALE AND OXFORD SCHOLAR, LOOMS UP AS POTENTIAL CHAMP IN HEAVYWEIGHT CLASS

A Denver boy, Edward Patrick Eagen, already a world's amateur ring champion, may be challenging Dempsey for the highest prize in the professional class within a year or two.

At present Eddie Eagen is strictly an amateur, and possibly he may forget his desire to try out with Dempsey and start practicing law a couple of years from now. But if he does become a professional boxer he's likely to be one of the most sensational figures in the ring within a few months.

Eagan would be a highly cultured boxer and what Jim Buckley calls "a credit to the game." At present he is a Rhodes scholar at Oxford, preparing for a law career. He graduated from Yale with high honors, winning the Rhodes Scholarship. He distinguished himself at Yale in many ways. Entering without money or influence, he was soon taken into the exclusive DKE fraternity, and later became its presdent. His ability as a student won him recognition from the start

He is a fine orator, and was a member of the Yale debating team. He ranked as one of the best students in his class. When the war started he enlisted at once, like many college boys, and became a First Lieutenant in the Field Artillery. At Camp Zachary Taylor he was a chum of Charlie Paddock, also a lieutenant in the Field Artillery. Some of this information I have from Paddock, who says Eddie Eagan in one of the most intelligent men he ever knew, and one of the finest gentlemen as well.

If Eagan becomes a professional boxer no one can call him a "low-brow." He will be the first to ever pile up all the honors of higher education and scientifically develop his brain to apply its power to the problem of winning a world's championship worth a million dollars to any man who can take and hold it for a couple of years. He may start a new fashion in ring affairs, and boxers of the future may consider a college education necessary to success.

But there is something beside brain power in Eagan's favor. Aristotle held that the perfect man was the man who combined a perfect brain and a perfect physique. Eddie Egan has the physique of a champion as well as the brain of a scholar.

Born in Denver, he began to box while a small boy. When he went to Yale he didn't say anything about his boxing ability. He quietly worked for a place on the Yale boxing team, and then scientifically thumped his way to the Intercollegiate Championship as a light-heavyweight. He showed such remarkable hitting ability—usually knocking his opponent out early in the first round—that several professional promoters and managers tried to induce him to box professionally. They offered him purses that would have paid for his college education in a couple of bouts, but he turned them down. He had other athletic ambitions. He was an amateur at heart and went into everything for the sport of it. He tried for a position on the Yale football team and made it—at end—but was put out by injuries. He made good as a swimmer and became a first class fencer. He played a good game of tennis. He made the wrestling team. He could do anything in athletics, but boxing was his hobby. He boxed with Jack Dempsey two or three times when Dempsey was training for fights, and Dempsey thought pretty well of him. He boxed with Dempsey before Dempsey was champion and afterward. He has an idea that he can beat Dempsey and is willing to try it.

In Army training at Camp Zachary Taylor, Eagan did a great deal of boxing. Packey McFarland was instructor at that camp. He told me at the time that there was an officer there who could whip any professional light heavyweight in the country if he cared to turn profession. Eagan, probably.

When the Inter-Allied games were held at Pershing Stadium in Paris after the war Eagan won in the light-heavyweight class. Later he went back as a member of the American Olympic team and won the Olympic light-heavyweight championship. He outclassed his men so completely that when the final bout came along the judges asked him to ease up a little and not win in a punch. Two other American boxers won championships, Frankie Genaro the flyweight and Sam Mosberg the lightweight.

Eddie Eagan intends to return from England this coming Spring and go through the tryouts for the American boxing team. He wants to win the Olympic championship a second time.

He has continued boxing at Oxford. Recently he won the English amateur boxing title, in the final bout knocking out A. W. Jefferies in one and a half minutes, knocking him down twice. He won the English title the year before too.

Charlie Paddock tells me he saw Eagan, in France, box with Georges Carpentier. "Of course Carpentier had been through a lot of hardship in the war and may not have come back to his best condition," Paddock said, "and Eagan was in fine shape from his boxing in the army camps. Eagan handled Carpentier easily—fairly outclassed him."

Eagan liked Carpentier. Last year when Battling Siki knocked out Carpentier, Eagan, at Oxford, sent Siki a unique challenge. He offered to fight Siki for the light heavyweight championship, Siki to be paid and Eagan to remain strictly amateur, any money that might be offered for his "end" to be turned directly over to charity and not touched by Eagan. Figure that out—an amateur champion fighting the world's professional champion and still remaining an amateur. It would have been a puzzle for the amateur sport lawyers. Luckily Siki ignored the proposal.

If Eddie Eagan does turn profession he will give Gene Tunney or Mike McTigue a good run for the light-heavyweight honors, and may mix with Paul Berlenbach, the latest phenom in that class. This would make a hot competition. Berlenbach and Eagan are both hard hitters. Eagan has had more experience and is a more finished boxer. Getting up among the heavyweights would come later.

Eagan is five feet eleven and weighs 175 pounds. He is 23 years of age. His model in boxing is Jack Dempsey and like Dempsey he hits equally hard with either hand. He is a slugger, but combines slugging with unusual skill and remarkable speed. He is stockily and powerfully built, with thick arms and wide shoulders, a square jaw, good strong neck, body and legs. Paddock says he is the most terrific hitter he ever saw, but of course Charlie has been more interested in sprinting than boxing. Paddock statement that Eagan is on of the fastest men he ever saw can be taken as expert testimony. Paddock knows speed when he sees it. Paddock also says that Eagan is "very pleasant company."

Going after a boxing championship is a new way of applying the higher education. But why not? A ring champion can make a fortune in a couple of years—and if he is intelligent and a Rhodes scholar he'd probably have sense enough to make good use of it afterwards. Many college men graduate into professional baseball, where it is easily possible for a successful player to pull down $5,000 for seven months a year of enjoyable exercise in the open air. Big league managers are looking more to the colleges than to the sand professionals and find it lucrative. Bobby Cruikshank, runner-up to Bobby Jones in the Open Championship at Inwood last July is a graduate of a leading Scotch university and was an amateur until after leaving the British Army at the end of the world war. If Eagan can win a professional boxing championship he'll earn more, professionally, in a year than a professional in any other line is likely to earn in a lifetime. Boxing is a much more reputable profession than it was a few years ago, and better men go in for boxing. It may look very tempting, even for an honor man at Yale and at Oxford.

## SOCIAL and PERSONAL

The condition of Mrs. Garn E. Dobbs who was taken suddenly ill about two weeks ago is reported as very critical.

Mrs. (Dr.) Gerald A. Morton, formerly Freeda Myles, of Hamilton, will receive for the first time since her marriage, on Wednesday, January 30, from 4 to 6 o'clock at 138 Victoria Ave. 26&29

### JUNK SHOPS LOSE

Los Angeles, Calif., Jan. 25.—The junk shops received a hard blow when the Southern Pacific adopted the policy of revitalizing old engines and putting them back to work. The wornout engines are overhauled from tender to cow-catcher, and various new appliances are grafted on.

The company's oldest engine, No. 2025, is said to have been refitted and is now pulling a San Francisco Los Angeles train with entire satisfaction.

**Guard The Baby Against Colds**

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will thrive and be happy. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from The Dr. Williams' Medicine Co. Brockville, Ont.

## Americans Have Troubles While Shopping In Paris

By HEDDA HOYT,
Fashion Editor of the United Press
(Written for the United Press)

Paris, France, January 26 (United Press).—

To Paris, To Paris,
To buy a new rig,
Home again, home again,
Jig a jig-jig!

American tourists have a mighty hard time shopping in Paris, accustomed as they are to our large American department stores, where one can buy anything from a hair net to a five-hundred dollar imported frock; our numerous gown shops where saleswomen meet one with a glad eye and a "what d'ye want, Dearie" quiz.

One need not have one's name listed on the social or financial register to get into the American establishments. But try and get into one of the really smart gown houses of Paris!

Of course, there are the department stores such as the Layfayette Galleries, the Au Printemps and the Bon Marche, but all of these fall far below the mark set by department stores in towns like Seattle, Dallas, Cleveland, Detroit, Denver and St. Louis, to say nothing of the Chicago and New York department stores, which are the largest in the world.

One rarely finds a truly stunning frock in the Parisian department stores. As for the large gown shops whose names reach to the far ends of the globe, I am always reminded of "fools rush in where angels fear to tread" when entering them. The austerity and swank of these places appalls me. One feels like one is intruding into a sanctum, when being scrutinized by the doormen and sales-persons placed about the entrance for the purpose of shooing off style thieves, folks with meagre purses.

### French English

To pass the barriers of these door lizards three things are essential; a phamphlet dealing on etiquette and airs necessary for passing the doorman, a pocketbook filled with the necessary coin and a sufficient line of French so that one can converse with the lady who is paid to represent the "Ici on Parle Anglaise" sign that appears in the window.

If there is anyone around there that speaks English it is yourself. Should you say: "I should like to look at gowns, please," the English-speaking lady will respond: "Quelle sorte des robes voudriez vous?" Which may mean nothing to you.

Should you like a bonnet that smirks distinctly of Paris—again try and get one! Someone will tell you of a string of shops beyond the Galleries Lafayette where there are adorable hats, but they are hats such as we find in our cheapest shops at home. One wouldn't dare face the dock photographers in one of them. The higher class millinery shops for which Paris is famous usually have three or four good-looking models in their windows which run into more francs than you are paying for your week's lodging at the hotel. Their assortment is never large, as they prefer a "make to order" business.

### Don't Know Knickers

Not only does the tourist find it difficult to get into the best shops of Paris but she finds that Paris with its lovely frocks and bonnets lacks many thing essential in the average woman's wardrobe. A friend of mine who is familiar with the Parisian shops searched in vain for two months for a pair of riding knickers. Parisians don't wear 'em.

Of course, one must admit that after one has eventually assured the salespeople of the Parisian shops that ou is not a style "swiper," a pauper or a snooper for the home gownmaker, one is a veritable gown heaven. But remember that "faint heart nee'r won fai frock" when entering these shops. Sneak in on them, pad out your hand bag until it looks like a young suitcase, place your nose up in the air, give a subway rush through the door and pretend you're the wife of an American millionaire!

## That Body of Yours

By James W. Barton, M.D.

### AN UNUSUAL CAUSE

A chap consulted a specialist regarding a severe earache.

The specialist made a careful examination during which he was unable to discover any inflammation of the middle ear—the usual cause of ear ache.

There was no foreign body in the ear. Nor could any ulcer or other trouble be found with the tongue.

The teeth were sound and an X-Ray taken a week previous showed no decayed teeth. There were no boils or abscesses in the canal, and the physician was puzzled.

As the man talked to the physician, the actual speaking seemed to hurt him.

The physician took hold of the lower jaw and moved it up and down.

The patient nearly cried with the pain.

Does it hurt you to eat?

"Yes".

Does it hurt you to talk?

"Yes."

"Your trouble is rheumatism".

"Rheumatism of the ear?", questioned the man.

"No! Your rheumatism is in the joint between your lower and upper jaw just under the ear."

And this proved to be the case, as the measures taken to remove the cause of the rheumatism—got rid also of the pain in the ear.

You are apt to forget this point when thinking of ear pain, but it is a more common cause than is suspected.

The mouth of modern man is not as large as it was some years back.

It would seem that Nature intends to grow our full number of teeth—thirty-two—irrespective of the size of the mouth.

And so the last molar—the wisdom-tooth—the one that comes last and goes first, is often greatly crowded for room when it tries to make a place for itself in your mouth.

And this also is a frequent cause of pain in the ear, as these four wisdom teeth try to meet one another on each side right at the joint, between the upper and lower jaws.

And so if you have pain in the ear and there does not seem to be any temperature, nor any local cause in the ear itself, take a look at the spot where your wisdom teeth are located, right at the back of the mouth. If you are young they may be trying to come through. If you are a bit older they may be decaying. However don't overlook the fact that the joint itself—the hinge that swings your lower jaw may have a touch of rheumatism just as any other joint.

In that case look for the cause. It is always there.

## Head of Havergal Passes In Toronto

Toronto, Jan. 25.—Miss Ellen Mary Knox principal since 1894 of Havergal Hall Ladies' College, died here yesterday morning. Miss Knox, who had been ill since last week with bronchitis, was in a critical condition yesterday and died this morning. She was 66 years of age. Under her direction Havergal Hall has become one of the foremost ladies' colleges in Canada, there now being four branches in addition to the main school.

Not only as a teacher of note was Miss Knox known, but her books for girls have evoked widespread approval "The Girl of the New Day," published in 1920.

Miss Knox was born at Waddon, Surrey, England, October 4, 1858, the daughter of the Rev. George Knox, of Exton Vicarage, Oakham. After attending Cheltenham Ladies' College, she proceeded to Oxford University where she had a distinguished career graduating with first class honors in English and taking second class honors in the history finals.

Miss Knox's loss will be seriously felt in the educational life of the Dominion. Her passing will be regretted also in England for she had kept closely in touch with educational life of the old land

### THE POET'S RELATIONS

Who ever knew a poet
Who was free from discontent—
Who didn't have a temper
In his lovely temperament?

There's always something thrilling
In a busy poet's life,
But it's a little wearing
On poet's busy wife.

The days when all must leave him,
For he wants to be alone—
The days when he is grieving
For the friendships that have flown

The days when you can love him
Are the days he gets a check,
But on the days he doesn't
You would like to wring his neck.

There must be compensations
Up among the heavenly spheres
For a poet's near relations
Who have suffered through the years.

Your eyes may need attention

And you may know nothing about it. I claim it is my duty to find out. If you have been wondering about your eyes, don't do it any longer. A visit here, a short examination, and both you and I would know all about your eyes. If glasses are needed, you can be supplied, if not you will be told so.

# UPSTAGE

By Rita Weiman

Illustrated By H. J. Lee

A Love Story Of The Theatre

The effect was electric. He turned on her. "You ought to know!"

"I?"

"Look as if you'd come into a Rockefeller income!"

"Well I haven't."

"No?"

"You know it."

"I don't know anything about women."

"Well you ought to know all about me."

"Yes—I ought to." He gave an ugly laugh. "But who knows what to expect of a chorus queen."

"Jimmie!"

"Oh what's the use?" came in husky desperation. "Let's be merry."

Sallie stared, bewildered, into the darkness.

For three nights they followed the same program—Sallie bewitching in a new costume—he taciturn, unresponsive. Twice during those three days it drizzled and instead of suggesting supper in the neighborhood he drove the short ten blocks to the weary brownstone house where she boarded and left her there.

"As if he was anxious to get rid of me," sobbed Sallie into her pillow.

By Friday she felt she couldn't stand it another minute. Under the glimmering stars she gazed up first in mute pleading then—

"Jimmie," she echoed, "take me home. I—I guess I'd better—"

The roadster snarled at the tug that sent it round the corner.

"Oh—another date!"

"Maybe!" His tone had brought defiance into hers.

"Well—can't blame you! What chance has a cheap little bracelet against a string of oyster tears like that? Gad, what an ass I've been!"

"Don't talk like that—don't!"

"I mean it,—a saphead! Swallowed that diamond yarn whole—hook, line and sinker."

"It wasn't a yarn."

"You'll tell me next your mother bought the pearls too."

"No—I did—they're imitation."

He flung back his head. His laugh frightened her.

"And I put you above them—way on top. But you're like the rest of them: Price—a string of pearls— a diamond Sit down! Sit down, I say! I'll get you home quick enough."

White and terrified, she subsided. He crashed on.

"But you did put it over! Got me with the baby stare stuff. 'Baby'—huh!"

"Jimmie," the voice struggled to keep steady—"I swear to you—!"

"Down on your luck—thought you had an easy mark! Then something better—pearls!—came along. It's tough though, when the first time a man really—cares—more than he ever thought—" The words halted painfully.

"Oh, won't you listen? Jimmie—you—you had so much—"

"But the other fellow's got more!" made the roadster snort with protest

"You—you don't understand." The sobs clamored to her lips.

She sprang out of the car and up the steps

"My deah—what's become of the orange motah?" Miss Mariette turned her round stare on Sallie

"What—d-do you mean?"

"Well, the yellow peril doesn't seem to be on duty any more."

"Oh! He—he's out of town."

"M'm! Been 'out' some time I take it."

"F-four weeks."

"H'm! Merciless blue eyes took in the small white face. "And the cobbles, my deah?"

"What "

"Pearls! The dog collar?"

"Oh! I—I p-put it away."

Miss Mariette cast her eyes heavenward. "You were a wise child not to let him get back the diamond, too," she drawled. "It's plain he's gone his merry way tra-la."

Like a whip Sallie snapped round at her. "He hasn't."

"Then where's the car, the car he was giving you?"

Grace entered, tittered.

"Poor little car skidded on the way Gracie deah," announced Miss Mallard.

Sallie's throat closed in a hard knot. Her head almost dropped on the table. But not quite. Pride kept it up. Pride and the determination never to let them know how right they were.

Yet Miss Mallard, having resumed her tactics of warfare, allowed to slip an opportunity for attack. She teased and tormented and tra-la'd with purring delight sharp little talons inflicting new wounds.

Sallie began to slink into the dress-room as if to hide from insinuating smiles. And coming out of the stage door, she fairly ran round the corner to escape the torturing vision of that line at the curb.

The pearls she had recklessly let go. After what he had said, she could not bear to touch them. She even hated the money—something more than half the amount she had paid—which was finally refunded her.

One thing, though, she did determine. There must be a car! Never must they be certain that Jimmie had gone for good! Sallie suffered and waited lived on bread and milk, and hopelessly priced the cheaper makes.

Other lips, mustached, clean-shaven answered Sallie's plea of "Won't you smile at me?" Sallie did not hear them. Other eyes sought hers from motors at the curb. Sallie did not know they were there.

Then one June day she saw a second-hand runabout painted a beautiful blue for bly two hundred and fifty dollars, with a week's trial before buying. Her diamond! She could get enough for that! A few months in which to tear up to the stage entrance and spring out; to display the shining blue body to startled eyes; to make them believe he had come back! Jimmie—who never would!

When the chorus assembled for the Wednesday matinee, a ring dropped tinkling to the dressing room floor. Sallie picked it up, proclaimed that the stone had come loose and wore it no more.

Later, behind a window barred like a prison, Sallie MacMahon's most precious possession passed into other hands—probably for all time

The night arrived when the girls sighted at the curb a little car blue as the heavens One of them fetched a key from her bag, bent down, then though running a motor were a daily pastime.

Miss Mallard stopped in the center of the pavement.

"I'll tell the world!" she breathed "She wasn't lying, Grace—she wasn't"

Sallie MacMahon smiled upon them and, with terror chasing down her spine, spun round the corner.

Up Broadway, eyes starting with fear, heart pounding, went Sallie And every instant's progress petrified her.

Never had she travelled a distance to equal those ten blocks. A century later she reached her own street, turned in. Then something snapped The blue runabout stood stock still.

Sallie fled in the direction of a passing policeman. "Please, would you mind? Something's happened. It—it's stuck."

He grinned. "Better go and phone your garage, Miss. I'll take care of it till you get back."

Sallie dropped his arm.

"Why, I—I haven't any—"

"What do you do with it at night?"

"N-nothing. It—it's new. I—I never thought—"

"Then find some place to put it—quick. They'll send you a man—"

Sallie turned on her heel and dashed in the direction of the brownstone house. On the top step she dropped.

Helplessly she gazed at the point far down the block where the policeman stood guard. From time to time his glance roved impatiently—and when at last he swung on his way, leaving the blue mite unprotected, Sallie knew there was nothing left but to sit there and watch it all through the night.

Huddled in a corner of the stoop she fastened her wilted gaze on a spot of blue parked close to Broadway.

She came to drowsily as something heavy descended on her shoulder. It pulled her upright, shook the sleep from her eyes and a cry came from her lips.

"What are you doing out here?"

"Jimmie—is it—is it—you?"

"Answer me!"

"I—oh, I can't believe it! You,—you! !" Then panic seized her. "Jimmie—don't—don't go again! I did buy all those things myself. I did—I did! I was afraid you'd be ashamed of me."

When his voice did come it was thick and tense.

Didn't you know it was just those old clothes of yours that convinced me the story you gave me was straight?"

"But the girls always made fun of them—and I took all my money out of the bank to look nice just for you."

He gripped her shoulders until they ached.

"What are you doing out here this time of night?" Answer me that!"

"I—I hocked my diamond, Jimmie and bought a car. I made the girls think you were going to give me one and I didn't want them to know that you—you" She turned away. "So I hocked the ring—and—and got—that"

He followed her eyes to where a spot of blue reposed near the corner.

"And now it won't go and I haven't any money to put it anywhere. So—so when it broke down I just had to sit here and watch it all night."

The rushing words halted. Mr. James Fowler Patterson stood and gazed down into the small tired face lifted with such desperate appeal.

"I—"

"Jimmie, won't you believe me this time—please?"

He bent closer. "If I tell you I could take a gun this minute and blow out what little brains I've got, wil you believe me? Will you " He did not give her time to answer. "I deserve it. Sweetheart—I do love you."

She closed her eyes as the words came.

"Why," he plunged on, "my dad had given me up as a bad job—said he was through! And I went to him and told him I'd found the girl who could make a man of me—asked him to take me on at the Patterson Iron Works. I put on overalls and rolled up my sleeves. That was just about the time you showed up in all that gorgeousness. And I let the idea get hold of me—Don't cry honey—I can't stand it!"

There was an instant of potent silence, then

"How did you happen to come past here tonight—Jimmie?" came smothered.

"I've been coming past here every night."

"Then why—why did you stay away from the theatre?"

"I didn't—for long. Wanted to—but couldn't! I've watched you come out from around the corner—" He broke off. "Sweetness—you've been looking awfully sick."

"I've been awfully lonesome."

He lifted her chin.

"Baby—"

"Yes, Jimmie —dear."

"Will you forgive me?"

"Jimmie—"

"Yes, Baby—dear—"

"Will you wait here till I get into my old rig, then take me for a ride in my new car?"

(THE END)

OXO CUBES

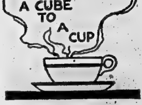
Men have trained on OXO, run and jumped, played ball, hockey and lacrosse on OXO.

Women have endured on OXO, nursed on IT built up on IT.

Children have thrived on OXO, grown big and sturdy on IT.

OXO Cubes are warmth and strength.

A CUBE TO A CUP



## SAYS TASCHEREAU WAS COURAGEOUS

Ottawa, Jan. 25.—"Premier Taschereau has done the courageous thing in coming to the aid of the Banque Nationale," said Hon. J. A. Robb, acting Minister of Finance, today, commenting on the passage of the Bank Merger Bill in the Quebec Legislature. "So far as the Federal Government is concerned, of course, it is bound by the four corners of the Bank Act," Mr. Robb said. "We are not authorized to do more than loan a bank money in an emergency on negotiable securities. I believe La Banque Nationale was loaned money some time ago in this way. The Federal Government, under the act, could do no more."

This was the Minister's only comment on the reference made by Premier Taschereau yesterday in the Quebec Legislature to his efforts to secure aid for the bank from Ottawa.

Why you have Rheumatism

RHEUMATISM is largely due to weakened and deranged kidneys. When the kidneys fail to properly fulfil their duty of carrying away the poisonous impurities in the blood stream, uric acid accumulates, and rheumatism, lumbago, sciatica and other serious ailments follow.

If you suffer from headaches, pains in the back, dizzy spells, or specks floating before the eyes, painful, suppressed or scalding urination let Gin Pills set your kidneys right, and restore you to the glory of good health. A few doses will bring relief. A few boxes will make you entirely well.

50 cents a box, at your druggists.

National Drug & Chemical Co. of Canada, Limited

Gino Pills in U.S.A. are the same as Gin Pills in Canada. 20

GIN PILLS FOR THE KIDNEYS
THE WORLD'S BEST REMEDY FOR ALL KIDNEY AND BLADDER TROUBLE

A SAFE RELIEF FOR WOMEN'S DISORDERS
10 DAYS' TREATMENT FREE.

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A free trial treatment, enough for 10 days, worth 75c., will be sent free to any suffering woman who will send me her address. Enclose three stamps and address:

## GRAPE POLLENIZATION

### Many Varieties Self-sterile and Need Cross-Pollination.

**What Investigational Work Has Shown—Varieties of Self-fertile Sorts Recommended—Eradication of Bladder Campion or Cow Bell.**

(Contributed by Ontario Department of Agriculture, Toronto.)

For years it has been observed by grape growers that certain varieties, typically represented by the Rogers' Hybrids, usually produce straggly, loose bunches, especially where planted in blocks. In the same season and under similar conditions other varieties as Concord and Niagara produce well filled, large bunches. The Rogers' varieties with one exception are self-sterile. Our other commercial varieties are all more or less self-fertile.

**Result of Investigational Work.**

Considerable investigational work has been done in New York State, in Minnesota, and at Vineland on this problem of self-sterility, with the result that the reason why certain varieties are self-sterile has been established. In our own work, as a result of three years' investigations, we have established the degree of self-fertility and self-sterility of fifty-two varieties of grapes and have ascertained the best pollinators for such self-sterile varieties as Lindley, Salem, Brighton, etc. Our experiments have shown:

1. That insects are the chief agents in the distribution of pollen, wind being a negligible factor.

2. That cross-pollination is absolutely necessary in the case of self-sterile varieties, including Barry, Herbert, Lindley, Massasoit, Salem, Wilder, and Brighton. The Agawam is the only one of the commercially planted Rogers' Hybrids which is self-fertile.

3. That the majority of self-fertile varieties such as Concord, Campbell, Niagara, Worden would produce larger crops of fruit if they were cross-pollinated, though good crops are produced under self-pollination conditions. Campbell often has straggly bunches due to imperfect pollination. Cross-pollination would help.

4. That the self-sterile varieties (Barry, Lindley, etc.) pollinated by any one of the self-fertile varieties (Concord, Niagara, etc.) will set crops of marketable fruit, but that for maximum crops certain self-fertile varieties are better suited as pollenizers for certain self-sterile varieties than others. For Agawam and Brighton, the Worden is the best pollenizer; for Massassoit and Wilder, the Niagara is the best pollenizer; for Salem, the Concord; and for Herbert and Lindley, any of the varieties, Concord, Worden, Niagara, Campbell.

### Christian Science Meeting

Held Every Sunday 11 a.m.
IN ODD FELLOWS' TEMPLE
Subject—"TRUTH"
Front St.—Opposite the Footbridge

George Gonthier, L. I. A., whose appointment has just been made by the Government to the high position of Auditor-General of Canada. Mrs. Gonthier is a member of the Montreal firm of Gonthier and Midgeley, licentiate accountants and auditors, and St. Cyr, Gonthier and Frigon, bankers and brokers. He is also a member, Board of Censors of the Credit Franco-Canadien; Auditor, Banque d' Hochelaga and other large companies and institutions. He was born in Montreal, November 21st, 1869, son of Louis and Adeline (Charbonneau) Gonthier, and educated at commercial schools, Montreal and private tuition.

He began the practice of his profession as Accountant, 1893, and continued alone until 1911, when present partnership formed with H. E. Midgeley, C. A., entered into partnership with Alfred St. Cyr, and Albert P. Frigon, bankers and brokers, 1907; one of the organizers and members of the first Executive of the Bond Dealers Association of Canada; Ex-Treasurer and member of the Council, Chamber of Commerce since 1902; founder of the Institute of Accountants and Auditors of the Province of Quebec, and elected its first President; it was mainly through his efforts that a law was passed through the Dominion Parliament, 1904, making compulsory the keeping of regular books of accounts by all persons engaged in business; member of Committee on Legislature of the Dominion Chartered Accountants Assn. He has lectured and written freely on financial and accounting subjects; is well known abroad and has very influential connections both in Belgium and France; has promoted many measures of commercial and public utility, and was a great assistance in preparing the way for the foundation of the commercial High School, Montreal, which was affiliated since with the University of Montreal.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature of

Chas. H. Fletcher.

# ADDITIONAL SPORTS

## GORMAN SKATES JEWTRAW TODAY IN OPENING OLYMPIAD EVENT

Chamonix, Jan. 26.—The weather Thursday was colder, but there was no skating for the members of the Canadian Olympic hockey team. The fog has lifted and a real snap is on its way. That should provide good ice for the formal opening of the Olympiade Friday afternoon. Count Clery and other celebrities are here for the occasion.

Canada will appear in the parade of nations with Ernie Collett carrying the flag, "Hooley" Smith as standard-bearer, and Captain Duncan Munro as marshal. The stadium is gaily decorated with flags of all nations.

The first Olympic competition takes place Saturday, when two speed-skating races are billed. There are thirty on the entries. All races are against time, with two new in each heat. Charles Gorman, the Canadian champion, is drawn with the American champion, Charles Jewtraw, in the five hundred and fifteen hundred metre races, and with Leon Quaglia, French champion in the five and ten thousand metre races.

The Olympic curling congress has elected Colonel Robertson Aikman chairman, and has decided that the Royal Caledonian Curling Club rules should govern the Olympic curling. Col. Aikman is well known in Canada as the captain of the Scottish curlers who visited Canada last year. His Olympic rink consists of Major Ashley, W. K. Jackson (who won 43 matches in Canada on their last visit) and T. B. Murray, with J. MacLeod, R. Welsh, M. Brown and L. Jackson reserves.

The Olympic curling competition is confined to one rink from each nation. Canada was under a wrong impression that four rinks were necessary. That prevented Canada being represented here. Great Britain, France, Sweden, and Switzerland are entered. They play twelve matches of eighteen ends. The Canadian hockey team volunteered a post entry, but withdrew because the curling confined with hockey. The first games will be played Saturday with Britain meeting Switzerland, and France playing Sweden.

## ON THE ALLEYS

The Printers bowling team were "pied" last night and the Bowlers team did the trick. It was a league game in the Y.M.C.A. winter schedule. In the first two frames the score was even, but in the third the Bowlers had a decided lead. Hill for the Printers lead his team with a total score of 616. Scott had the three string record for Bowlers, his score being 616. The teams and scores were as follows:

PRINTERS

| | | | |
|---|---|---|---|
| Hill | 218 | 177 | 221—616 |
| Wannacott | 189 | 220 | 176—585 |
| Harrison | 184 | 194 | 122—500 |
| Mason | 135 | 151 | 126—412 |
| Barlow | 129 | 149 | 140—433 |
| | | | 2546 |

BOWLERS

| | | | |
|---|---|---|---|
| McLean | 184 | 216 | 207—607 |
| Scott | 205 | 186 | 225—616 |
| Boyd | 162 | 175 | 136—473 |
| Symons | 125 | 128 | 231—484 |
| Walsh | 223 | 178 | 188—589 |
| | | | 2769 |

### ON THE "Y" ALLEYS

The second game between the Reds and Upstreamers was not close enough to be in any way exciting but from point of high scoring on the part of the "Y" Reds the game was of considerable interest. When they piled up a total of 2942 the Reds broke the league record made earlier in the evening by the Bowlers and also established a new Alley record.

"Y" REDS—

| | | | |
|---|---|---|---|
| Phillips | 156 | 162 | 206—524 |
| Cornell | 135 | 247 | 132—514 |

| [illegible] Miles | 149 | 146 | 104—399 |
| | | | 2145 |

### Belleville Motors Win From Durant Motors

One junior league game took place at the Recreation Alleys last night between the Belleville Motors and the Durant Motors, the former winning out by over 200 pins. F. Barrett and Smith being the leading performers.

Belleville Motors—

| | | | |
|---|---|---|---|
| Mackion | 137 | 93 | 162—392 |
| Lloyd | 172 | 98 | 123—393 |
| F. Barrett | 154 | 114 | 193—461 |
| Drew | 160 | 103 | 151—414 |
| McMullen | 96 | 155 | 137—388 |
| | | | 2048 |

Durant Motors—

| | | | |
|---|---|---|---|
| Rutherford | 135 | 128 | 137—400 |
| Wickett | 95 | 78 | 89—262 |
| Smith | 124 | 175 | 134—433 |
| Corrigan | 159 | 98 | 104—361 |
| Moher | 141 | 112 | 120—373 |
| | | | 1920 |

Mrs. Mackion set a new alley record at the Recreation Alleys last night when she rolled 236 or one pin more than Miss Bonisteel.

## REFUTES ROUGH PLAYING CHARGE

### Leo Dandurand Dumfounded by Senators' Charges

Montreal, Jan. 26.—Manager Dandurand of the Canadian team in the National Hockey League when seen yesterday morning declared that he was dumfounded at the charges made against his club and players by the Ottawa club.

"It is the most preposterous charge that I ever heard and the old time hockey players that attend the Canadian's games regularly must have shuddered when they read the letter of the Ottawa Hockey Club president. These men, the newspaper critics and the fans can always be relied on to give the visiting team fair play that we manhandled the Ottawa team here Monday.

"Last Monday's game was strenuous and hard fought but was very mild compared to many games that I have seen in other days. My players will play as well in Ottawa as in Montreal. I for a long time have considered these wails and whines from Ottawa as farcial and childish but now they have to be checked before they disrupt professional hockey. The Canadian Hockey Club handed Ottawa the championship last season by suspending two of our best players in the play-off. It was a hard thing for us to do to suspend and fine two of our best players."

## THE RAISING OF NUTS

### Some Practical Observations as to Tree Planting.

**Why Nut Trees Are Desirable—Where They May Best be Grown—The Kind to Plant—The Trees May be Top-grafted.**

(Contributed by Ontario Department of Agriculture, Toronto.)

The conservation and improvement of our native nut trees and the introduction of suitable varieties from foreign lands have not occupied a prominent place in horticultural activities in North America until just recently, except in the Southern and Western United States, where a great deal of interest has been shown during the last twenty years in this place of horticulture.

In the northern and eastern States and in Canada there is a growing interest in this useful but much neglected branch of horticulture. An example of this commendable movement is seen in the organization and activities of the Northern Nut Growers Association. This organization was formed in 1909, and is composed of men and women from almost every station in life who are interested in the culture of nut trees and the extension of the use of nuts as articles of human food. At the suggestion of members of this association, the State of Michigan has undertaken an extensive program of nut tree planting along the state highways, and in other northern states good work has been done to encourage people to plant more and better nut trees.

In Ontario comparatively little has been tried to improve and plant our valuable nut trees, and unless something is done to interest the public in this movement we shall lose a golden opportunity to save for ourselves and posterity the remant of the fine nut trees which formerly grew so abundantly in some parts of this Province.

**Why Nut Trees Should be Planted.**

Most people who are interested in the welfare of the country realize that trees generally should be planted in much greater numbers, and some believe that it would be desirable to plant trees that serve a threefold purpose of food, shelter and beauty.

Nut trees yield a valuable food, provide shelter and beautify the landscape, and thus combine beauty with utility. Large quantities of nuts are imported every year from foreign countries, for which a great deal of money has to be sent out of the country. It is believed that a portion of this demand for nuts could be met by growing a greater number of the best types of native and introduced species.

**Where Nut Trees Might be Used to Advantage.**

(1) As Roadside and Street Trees: Where the soil and the site are suitable, nut trees should form a part of the scheme of beautifying our highways and streets.

(2) Trees for the Home Grounds: The grounds surrounding many of our homes, both rural and urban, would be more beautiful and productive if planted with some of the best types of native and exotic nut trees.

(3) Steep Hillsides or Other Places: Areas not easily or profitably cultivated could be very well devoted to nut trees provided the soil was suitable.

(4) As Park Trees: City and rural parks should certainly have a collection of native nut trees and some of the hardiest and best exotic species.

(5) As a Commercial Venture: In the warmest part of the Province of Ontario it might pay to establish, on a small scale, commercial plantations of the best varieties of black walnut, Japanese walnuts, hickories, blight-resistant chestnuts, and filberts.

**Kind of Nut Trees to Plant.**

Nut trees, like fruit trees, are difficult to grow true to type from seed, and hence have to be propagated by budding or grafting. While it is quite true that one may get a very good tree by planting nuts from a desirable tree, it is also true that a considerable proportion of the trees so produced will not be any better or as good as their parent. Because of this uncertainty it is much better to plant budded or grafted trees of superior named varieties.

Inasmuch as nut growing is a comparatively recent development, our Ontario nurserymen have not devoted much attention to the propagation of named varieties of nut trees. There is some interest being shown at present, however, and it is hoped that before long there will be a fair supply of the best varieties of native and foreign nut trees available. In the meantime those who desire to secure named varieties of nut trees will have to place their orders with nut nurserymen in the United States.

**Nut Trees May be Top-grafted.**

Should the prospective nut culturist not be able to obtain at a moderate figure budded or grafted stock of improved varieties of nuts then, of course, the only thing to do is to grow seedling trees. As previously stated, some of these may produce very good nuts. If superior trees are found in any lot grown from seed, or if an exceptional fine native tree is known to exist, such trees are useful as a source of scions for improving trees that are not so desirable. It is a fact, though not generally known, that nut trees may be top-grafted like fruit trees. This task is not as easy to accomplish as is the case in fruit trees, but if proper methods are followed, very good results may be obtained.—Jas. A. Neilson, Hort. Exp. Station, Vineland Station.

### Cow Arithmetic.

"I am not strong on arithmetic," said the cow, "but I can add to the bank account of the man who owns me; I can subtract from the principal of his mortgage; I can multiply his chances for success; I can divide his cares and worries; I can give more interest to his work; and I can discount his chances for loss."—Neillsville Cow Testing Association.

## CORNWALL TRIMS FRONTENAC TEAM

Adding insult to injury, the Cornwall Frenchmen defeated Kingston Frontenacs in the second game of the Intermediate O. H. A. double header at Jock Harty arena last night, by the score of 7-2.

Cornwall had easy picking all the way, having no particular trouble downing the weakened and sub-less Indians. Cornwall players were the fastest of the four teams seen in action last night, and skated rings around their opposition. E. Contant on the defense and brother A. Contat on the line were stars, the former scoring two goals and the latter three.

IT PAYS TO ADVERTISE
IN THE INTELLIGENCER

Do as Mr. Gard

Mr. Amos A. Gard, the well known Litterateur of Ottawa, called the Wandering Yankee, says in an unsolicited testimonial for ZUTOO Tablets:

"Zutoo Tablets stop my headaches so completely that I do not mind having them any more."

No need for any one to suffer from headache if they do as Mr. Gard does

and take Zutoo

DODGE BROTHERS
TYPE-B SEDAN

To the admirable sturdiness and all-year protection of this Sedan, Dodge Brothers have added refinements which further enhance its value and desirability.

The car is long and low, with deep seats and abundant leg room. New springs—underslung in the rear—add immeasurably to the comfort of riding.

With these and other notable improvements, the Type-B Sedan will distinctly appeal to those who demand beauty as well as utility in the car they drive.

## 'HAVE A DRINK" PROVES LESSON TO THIRSTY ONE

### Unfortunate Son of Scotia "Tells Court" How It All Happened

### GLAD HE IS ALIVE

### Declares Liquor Offered by Two Companionable Men was Drugged

An unfortunate son of Scotia, who has been in Canada but four months, was rudely introduced to a Canadian method which is not recognized in best Canadian circles however, on Saturday night last, and is thankful to-day that he is alive and "tolerably well again.

Walking out of a Front street pool room Saturday night the man was greeted by two young men, one of whom explained that he was a farmer. "Hullo Scotty, how is everything?" was the greeting, following which the two men informed the Scotchman that they had a bottle of liquor and if he wanted a drink to accompany them.

According to "Scotty's" police court story this morning, all three walked down to the brink of the river, and Scotty had two drinks. There the curtain rung down:

**Liquor Likely Drugged**

When he revived after the effects of the liquor, which he believes was drugged, the Scotchman was in the police station, in a bad condition, and all that remained of his $8 or $9 was thirty-five cents. Lying prostrate on Coleman street in away below zero weather, the man was found by a police officer Saturday night.

"I am thankful to the officer for taking me in" said the Caledonian to-day, "otherwise I would have perished."

"If I ever see those two men, and I will know them to see them, I will certainly have them arrested", he added with emphasis.

**Pleads Guilty**

Charged with being drunk in a public place, accused pleaded guilty before Magistrate Masson to-day, and the case was laid over for one week in order to allow the "stranger in the strange land" to collect $19 which is the total cost of the experience. Accused who is a brick layer by trade is working here while a wife and four dependents live in his native 'hame', Glasgow, Scotland.

Enroute through Canada, the man tarried for a time in Montreal "the home of the free", but chose rather to push forward into Ontario, "The land of the fee" and the home of the O.T.A.

Magistrate Masson's only comment was that the "stuff" must have been very bad, as two drinks of good liquor should not upset a "Scotch" stomach, and should be just enough to start an Irishman singing.

## PONTON ADDRESSES OLD ALMA MATER

Colonel W. N. Ponton, K.C., was in Toronto Saturday attending the meeting of the Canadian Bar Association Executive, of which he is Registrar. Representatives from all parts of Canada from Vancouver to Halifax were in attendance. Preparatory arrangements are also being made for the visit of the Chambers of Commerce and Bar Associations to London, England, in June and July next.

Colonel Ponton addressed the students of Upper Canada College (his old school) on Sunday the 27th, upon the ideal text for boys—"He grew in wisdom and in stature and in favor with God and man," with historical illustrations.

## COUNCIL HOLDS SESSION TONIGHT

The first regular meeting of the City will be held this evening.

There are several matters of more or less importance to be considered. Two by-laws will be introduced. One to create a labor committee and another to create a power committee with chairmen for each. There are also a number of recommendations from the civic committee to be considered. Altogether the session will be one of interest.

Brandon—Hon. George Robson Coldwell, Minister of Education for Manitoba, during the Roblin Administration, died here Thursday. He was born in Durham, Ont., in 1858.

## THE WEATHER

Southeasterly winds; fair; becoming milder.

## COMING EVENTS

Come to the Ladies Society B. L. F. & E. Euchre and Dance at Johnstone's Academy on Wednesday, Jan. 30th. at 8 o'clock. Good prizes. Refreshments. Admission 50c. J-23, 28 29, 30

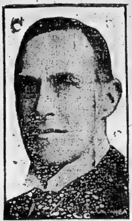
Valentine Supper at John St. Church. Thursday, February 14th from 5.30 to 7. Keep this date open. Further announcement later.

Presbyterians—To-night in John St. Presbyterian Church, Rev. Dr. G. C. Pidgeon, chairman of the church Union Committee of the Presbyterian Church in Canada and minister of Bloor St. Church, Toronto, will speak on the subject of Church Union. Everybody welcome. 1td

## LABORITES WHO NOW CONTROL BRITISH GOVERNMENT

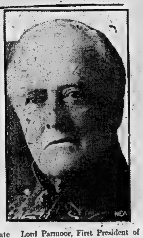
Viscount Chelmsford, First Lord of the Admiralty.

Viscount Haldane, Lord Chancellor.



Colonel Josiah Wedgwood, Chancellor for the Duchy of Lancaster.

Stephen Walsh, Secretary of State for War.



Lord Parmoor, First President of the Council.

As shown by the above photos, the Labor cabinet selected by Ramsay MacDonald is composed of men of the highest calibre, and appear in real life as utterly contrary to cartooned impressions of Socialists and 'red' leaders. A detailed account of the qualifications of each member of the cabinet is given on page two, this issue. Recent advices have linked the Labor cabinet with future plans of the Russian Soviet, and their first official act was to lay plans for the early resumption of trade with the country formerly ruled by the Czar.

## SPIRITUALISM AND OUIJA BOARD ARE SYNONYMOUS WITH HOPES FOR ETERNAL FLAME OF LIFE

### Rev. H. B. Kenny Outlines Continual Striving for Knowledge In Sermon at Tabernacle Methodist Church--Sir Oliver Lodge Quoted

### PLANS OF EDISON

### Disappearance of Millions of Soldiers During Great War Revives Interest in Spiritualism — Bereaved Ones Seeking Messages From the Departed

In spite of the severe weather there was a large attendance at the Tabernacle Methodist Church to hear the pastor, Rev. H. B. Kenny discuss "Spiritualism and the Ouija Board", and to enjoy the splendid singing. Mr. Kennyy took as his text Deuteronomy, 18: 9-14, and opened up his discussion by giving Socrates observations of the relation between soul and body.

From Socrates and Paul to Emerson and Webster men of genius have held the universality of immortal hope.

Sir Oliver Lodge and other competent men have sifted some wheat out of much chaff, and are finally convinced that death does not end all, that the veil. Separating the living from the departed is a very thin veil, and that the present mechanisms are very clumsy and course. The time may come when it will be possible to communicate with our departed. Edison plans a mechanism, so delicate and etherial that he hopes to find the place where the etherial vanishes and the invisible begins. The instillation of a wireless pre-

(Continued on Page 3)

## ISSUES WRIT AGAINST JONES

### Damages for alleged Slander is Sought by Police Officer

Toronto, Jan. 28.—William Wallace inspector of detectives, issued a writ at Osgoode Hall Saturday against James Edmund Jones, police magistrate.

The writ is endorsed as follows:

"The plaintiff's claim is for damages for slander. The slander complained of was spoken in these words: 'Be very careful of what inspector Wallace tells you. He is a dangerous man and an unmitigated liar.' These slanderous words were uttered by the defendant on or about the 21st of June, 1923, and were spoken of, and concerning the plaintiff in regard to his office and position as a police officer, he then being inspector of detectives on the Toronto police force."

The writ issued by H. H. Dewart, K.C., acting for Wallace.

### CAMPBELLFORD WOMAN SUCCUMBS TO ILLNESS

Mary J. Horsman, wife of John Horsman, Campbellford, passed away on Sunday at her late residence, The Intelligencer was informed today. Death resulted from illness which extended over a period of one year. Funeral will be held from the late residence on Tuesday afternoon at 2.30 o'clock. Interment Mount Pleasant cemetery. Rev. Elliott of Campbellford, and formerly of this city will have charge of the funeral service.

## BUDAPEST PROFESSOR CORRECT IN MANY RECENT PROPHECIES

By GUS M. OEHM
(United Press Staff Correspondent)

Berlin, Jan. 28. (United Press).—The man who, a year ago, accurately predicted for 1923:

The Ruhr occupation,

Volcanoes in Italy,

Earthquakes in Japan.

Erection of a dictator in Germany.

Change in Presidents in the United States.

Stablization of the Austrian crown.

Today has a word to say about 1924.

He is certain Professor Raymond of Budapest. Last year his sensational predictions, all of which have come to pass, were widely printed. He has just consented to tell to a waiting world just what 1924—and even later years—has in store for us. He predicts:

Germany will begin payments in kind and in cash on her reparations debt, which will be entirely cleared up in at least 25 years.

Complete evacuation of the Ruhr by the French.

Establishment of a self-governing Rhenish republic.

German dictator will bring better times to Germany.

Energetic finance reforms carried out in Germany.

Several foreign countries will assist Germany financially.

Even France will offer a loan in 1925 to Germany.

Bavaria will separate itself from the Reich—in 1925.

The Wittelbach house will regain the Bavarian throne before 1930.

Bavaria will be friendly with Austria but will not join her.

The ex-kaiser will never regain his throne.

The ex-crown prince will not leave any political future.

No need for fear of a new Franco-German war,

In 1934, especially in 1938 Germany and France will come closer and closer together,

Poland protected by France and Czecho-Slovakia has a bright future.

The little Entente will continue.

Masaryk will remain at his post until his death.

Musolini will bring about an understanding between the Catholic church and the Italian state.

Musolini to Vanish.

Musolini will vanish as a public character within three years.

Revolution in Spain will threaten the throne, and Alfonso will flee to England and are public will be proclaimed.

In the United States, either in 1928 or 1929, the Democrats will return to power.

In 1925 the United States interventionists will prevail to the benefit of Germany, Austria, Hungary, Italy and Greece.

Russia, in 1924, will ask for admission to the League of Nations;

The Bolsheviks will make treaties with Germany and England.

An unexpected change in the conditions of Russia will bring the bourgeois into control again.

The Franco-British entente will not be threatened but 1924 will see the relations between Germany and England knit more and more closely.

In 1924 Lloyd George will play a leading role again.

With a few years a combined French-Italian and Italian-Russian-German bloc will defeat England and she will lose all her colonies.

Between 1942 and 1946 the, United States will fight and lose.

Poincare will remain at the head of the French government at least during 1924.

Between 1928 and 1932 Briant will regain the premiership.

In 1924 will come earthquakes, the death of two well-known French statesmen, the murder of two Russian Bolshevik leaders and the sudden death of a foreign minister who has harmed France

### SNAKES WHEREVER YOUTH MAY GO

Sydney, Jan. 26.—Clifford Scholes on January 23 was bitten by a snake which makes the fifth time in two months.

The boy is recovering but his susceptibility to snake bites is puzzling doctors. After the fourth bite, his parents blocked every hole in the house and the boy was continually clad in leggings. The last bite was received in his arm while handling chaff.

Scholes was first bitten harvesting on November 26. After a week in hospital, he returned home and on December 3 stepped out of doors and was again bitten. Returning from the hospital he was again assisting harvesting and while getting a drink from a waterbag he was aagin bitten.

The youth remained in hospital for some time and then returned home. One night he was walking in his pyjamas on the verandah when he was bitten on the right leg.

Scholes was bitten the fourth time while walking in his pyjamas on the verandah of his parents residence.

## TRAIN SHOPMEN FOR RADIO WORK ON C.N.R. LINES

### Apprentices In Railway Shops to be Instructed In care of Radio

### BIG PROGRAMME

### Radio Equipment on Transcontinental Proves of Benefit

Montreal, Que., Jan. 28.—In connection with the Radio plans for Canadian National Railways, the announcement is made by Mr. S. J. Hungerford, vice-president in charge of operation and construction, that apprentices in the shops of the system will be trained in the installation and operation of Radio apparatus.

According to Mr. Hungerford this training will be confined, for the present, to apprentices in the shops at Point St. Charles, Montreal, but that as requirements necessitate it will be extended to include apprentices in all other shops of the system. From these apprentices it is expected that a number of skilled operators will be secured to take charge of the receiving sets that are to be placed on all transcontinental trains of National Railways. Up to the present, Radio equipment has been placed on one of the compartment observation cars of the Continental Limited, running between Montreal and Vancouver and highly successful results have been obtained. Passengers on board the train when interviewed at Winnipeg expressed appreciation of the novel entertainment which has been furnished them enroute.

Under the plans made by Vice-President W. D. Robb, who is in charge of Radio development on the Canadian National Railways, the work of extending receiving sets to all transcontinental trains is proceeding.

### RADIO TALK WITH LONDON, ENGLAND

A radio amateur, Harry Linke, of Wellington street, Kitchener, has established what is probably the Canadian record for long distance radio work. Last night he succeeded in establishing two way communication with an amateur in London, England. The two "hams" exchanged message for some time when the signals gradually faded and became indistinguishable, probably due to some weather condition somewhere in that immense stretch of land and water.

The time is almost here when regular communication will be held all over the world by boys in every town with homemade sets.

## LOCAL THERMOMETERS DROOP AS "OLD MAN WINTER" SENDS MERCURY TRAILS TO LOW EBB

### Piercing Blast Out of Northwest Sends Mercury to Fifteen Below Zero—Front Street Reading Six Below in "Heat" of the Day

### ALL OVER PROVINCE

### White River Reports Thirty-eight Below — Toronto Shivers during Noon hour in Five Below Zero—No Decided Rise is Predicted By Forecasters

Old Man Winter showed local citizens Sunday and to-day that he had by no means exhausted the stock of cold weather, and unleashed his whole bag of tricks. A piercing blast out of the northwest struck Belleville Saturday night and left a trail of drooping thermometers, the mercury registering fifteen below at eight o'clock Sunday morning.

Thermometers on Front street, in the "heat" of the day on Sunday, showed ranging reachings of four delow to eight below. A strong wind did not add any to the comfort of the situation, and with the setting of the sun, the mercury trails again "headed South" registering eleven degrees below zero at six o'clock Monday morning.

Probs promises continued cold weather throughout the day and night, but it will not be so cold tomororw, according to the weather bureau.

Reports from all over the province indicate that the first extended cold snap has been general, and White River, in the north, lays claim to thirty-eight below the blank mark. Toronto, wide open to a piercing northwest blast, shivered in general when the thermometer showed five below at noon Saturday.

Indications point to a busy season for the ice-cutters, and thick ice, ranging from eighteen inches in thickness, is reported from all points.

According to weather forecasts, broadcasted from the Drake Hotel, Chicago, last night by the Chicago Board of Trade, the cold belt extends from coast to coast, and as far south as Mississippi. Warmer weather is predicted in the West, but while several degrees milder temperature is predicted for the lower Lakes region, no decided rise is forecasted.

The mean temperature for Sunday was minus two, or twenty-three degrees below the average and twenty-one degrees below the same day last year.

### GRANTS FOR EXHIBITIONS

Victoria County Council granted $1000 to the Lindsay Central Exhibition at its last session, and Peterboro County Council voted a like amount to the Peterboro Industrial Exhibition.

### WARDEN GIVES BANQUET

Campbellford, Jan. 28.—Warden elect Fowlds is host to his friends at a banquet which he is tendering to-night at his native town of Hastings.

## LEAP YEAR AND MARRIAGE RATE

### Scottish Parliament, In 1228 Passed Act Allowing Women to Propose

There is no known explanation of the popular belief that leap year confers the right to "propose" upon the sex which is generally supposed not to exercise that privilege in other years. But an interesting act of the Scottish parliament has been unearthed which was passed in 1228, a leap year, and the belief may perhaps be traceable to that source. The Scottish act; however, was not limited to the year in which it was passed. It runs thus:

"Ordonit (ordained) that during ye reign of her maist blessed majestic Margaret, like maiden, ladee of baith high and lowe estait, shall hae libertie to speak ye man she likes. Gif he refuses to tak hir to bee his wyf, he shale be mulet, in the sum of an hundridty pundes, or less, as his estait may bee, except and alwais gif he can make it appeare that he is betrothit to anither woman, then he schal be free."

A few years later a similar act was passed in France, and in the fifteenth century proposals by the fair sex were legalized in Geneva and Florence.

But does leap year really "work"—are there more marriage on account of the privilege which is supposedly bestows? The statistics of Ontario do not indicate that it makes any difference. In both 1904 and 1908 the marriage rate was lower than in the years preceding and following. In 1912 the opposite was the case, and the century's record rate of 11.2 marriages per thousand was recorded. But that was due to the general prosperity, which was then at its height, and which was very much on the wane when the Great War broke out two years later. Leap year 1920 was also a good twelve month for marriages, with a record of 10 per thousand. But that also is explainable on other than leap year grounds for many returned men were becoming established in civil life and were taking brides unto themselves.

Leap year really makes no difference, except that there is one more day in the Kincardine Review remarks. Every year is leap year for pedestrians now that the motorists monopolize the roads.

## TO GIVE ADDRESS ON CHURCH UNION

At John Street Presbyterian Church this evening, Rev. Dr. G. C. Pidgeon, of Toronto, will give an address, the subject being "The case for Union."

Dr. Pidgeon is chairman of the Church Union Committee of the Presbyterian Church in Canada and is well versed in the subject he is to speak upon.

### FIREMEN KEPT BUSY

Overheated pipes gave the firemen a run to the residence of Harold Petherick on Frank street on Friday afternoon, the blaze was quickly extinguished and the loss will be slight.

Th enew motor chemical fire truck has been giving splendid service and Chief Davidson has a clean slate as regards losses so far this year.

## Serious Mill Accident Occurs At Campbellford Cereal Plant

When his coat sleeve caught in the rollers of machinery in the Campbellford branch of the Peterboro Cereal Company mill at Campbellford yesterday, Jesse Evans, boss miller, whose home is at Norville, Ont., was drawn into the machinery and seriously injured. Only the prompt action of employees who heard the calls for help, and rushed to Evans' rescue, saved him from death. They stopped the machinery and pulled him out of the rollers, but not before he had suffered a compound fracture of the left arm, and severe cuts about the head. Evans was alone in the department when the accident occurred.

Dr Andrew Haig, who was hurriedly summoned, set the fracture and removed the man to O'Sullivan's Hospital where he is resting favourably today.

## HOLD SUSPECT AS SLAYER OF MRS. CROOKS

### Parkdale Crime Similar to Assault with which Prisoner is Charged

### SERVED PRISON TERMS

### Identified by Miss Duncan as Man Who Attacked Her on Jan. 18.

Toronto, Jan. 28.—With the arrest yesterday noon of Harold Godard, single, aged 25, Ridley Gardens, at his home, the police believe they have the man responsible for the death of Mrs. Martha Crooks, 184 Jameson Avenue, and they are positive that they have the criminal who struck Miss M. Duncan over the head with a lead-filled iron pipe in her apartments at 33 Ridout Avenue, on the morning of January 18 last. Miss Duncan is still in bed suffering from a bad wound in the head and the shock caused by the attack made upon her. The arrest of Godard was made by Detective-Sergts. Nicholls and Hazlewood, who were placed on the cast last Saturday morning. Following his arrest, Godard was taken to the bedside of Miss Duncan, who positively identified him as the man who had called on her at 10 o'clock on the morning of the 18th, ostensibly to look through a room she had advertised for rent, and suddenly assaulted her with a blunt instrument. Godard was taken to Cowan Avenue Station and locked up on a charge of attempted murder.

It is the similarity of the Duncan attack and the Crooks' murder, coupled with the fact that Godard is a convicted housebreaker and burglar, which led the police to Godard's abode. Godard lives with his stepfather and mother.

Ever since the attack on Miss Duncan, the police have been searching for the man who answered the description she gave of her attacker. Sergt. of Detectives Mitchell has had charge of the case since its inception, but it remained with Nicholls and Hazlewood to directly focus suspicion upon Godard, by their remembrance of the fact that they had arrested him some years ago on a charge of burglary and housebreaking. He served three years in the Penitentiary for the offence, being released on December 24, 1923.

The first work of the police following the Duncan assault was to get together the police photographs of local criminals and ask Miss Duncan to look them over. She quickly picked out Godard as her assailant. Search was accordingly made for Godard, but without result.

The brutal murder of Mrs. Crooks, following the attack on Miss Duncan, and the similarity of the two crimes, threw the suspicion more directly upon Godard. The search for Godard was more vigorously prosecuted with the result he was landed in the toils yesterday.

## FAIR ASSOCIATION MEETS TOMORROW

The annual meeting of the Central Ontario Fair Association will be held in this city to-morrow afternoon.

At the meeting officers will be elected and dates of fall fairs in Central Ontario will be arranged. The Association includes the Counties of, Hastings, Prince Edward and Northumberland.

### EARLY MORNING BLAZE AT CAMPBELLFORD

Campbellford, Jan. 28.—Overheated stove pipes caused a fire in the residence of Mrs. Jane Gibson, Canrobert street at 8 a.m. today which resulted in slight damages. The fire department quickly extinguished the blaze upon their arrival.

## ROTARIANS HEAR JUDGE McCAULEY

His Lordship Mr. Justice McCauley gave many interesting glimpses into the early history and present development of the Yukon Territory at the Rotary luncheon today. His Lordship has spent the past twenty-four years in that district and told, from personal observation, stories of the pioneers and their struggles for gold.

What was such a terrific journey in the '90's is now a wonderful tourist trip, taken by thousands of holiday seekers every summer. The scenery, Mr. Justice McCauley said, matches and surpasses that of Switzerland and the journey is now made in comparative luxury.

Although the gold output of the Yukon has been gradually diminishing of late years, new discoveries of rich silver ore have been made.

Judge McCauley was a Belleville resident for many years first as a law student and later practising here. He was born in Sidney township and married a Belleville girl.

Rotarian Fred Smith gave the educational talk on the individual responsibilities of Rotarians to carry out the ideals of the club.

Ladies night was announced for Friday evening, February 8th, when a group of Toronto Rotarians will be present to assist in the program.

Mr. James McCourt of Chicago, Ill., is in the city, having been called here owing to the death of his mother, the late Mrs. Ellen McCourt.

Daily Intelligencer

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Printed and published every afternoon (except Sundays and holidays) for The Intelligencer Printing and Publishing House (Limited), in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 12 Front Street.

The Daily Intelligencer has a larger circulation than any other paper published in Hastings or Prince Edward Counties. Sworn circulation statement furnished on request.

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

### WHO'S WHO IN LABOR CABINET

The most timid reactionary can hardly be affrighted over Mr. Ramsay MacDonald's Cabinet. For not only have the "wild men" been rigidly excluded; the Ministry contains a goodly sprinkling of the sanest minds of Labor as well as a wealth of ability bred in municipal and trades-union experience. There is Mr. Ramsay MacDonald, perhaps unsurpassed as a parliamentarian and with constitutionalism in the marrow of his bones. There is John Robert Clynes, bordering upon conservatism, and who was the Herbert Hoover of Britain during the war. There is Arthur Henderson ("Uncle Arthur") imposing and oracular, and who was good enough for the War Cabinet of Lloyd George. And there is J. H. Thomas, who always turns up at Nancy Astor's dinners, and who is a crafty Welshman like Lloyd George.

Stephen Walsh, an Irishman, is Minister of War (how Mr. L. J. Maxse will rage). The cables say that he is practically unknown; but that isn't true. He has been in Parliament since 1906—when Labor was in its infancy—and he was a patriot in the war. He was such a patriot that he became on bad terms with Ramsay MacDonald; and he made an excellent job of the tasks of being Parliamentary Under Secretary of National Service and Parliamentary Secretary to the Local Government Board.

Viscount Chelmsford is First Lord of the Admiralty. He has never been to sea; but neither was Mr. Winston Churchill nor Lord Lee of Fareham nor Mr. Leopold Amery. Chelmsford is really a Liberal. He was such a good Liberal that Mr. Asquith made him Viceroy for India; and it is not on record that he made any worse mess of that exacting job than any of his predecessors. He is a comparatively young man; the Ottawa Canadian Club, which once had him as an orator, will remember his eloquence.

Brigadier-General Christopher Thomson, at the Air Ministry, is a soldier of the non-fire eating variety. He is a magnificent specimen of manhood, a born soldier, and had a good record in the war. What he saw of fighting made him a sort of Pacifist (just as it made a Pacifist of Ian Hamilton and Phillip Gibbs) and in 1919 and 1920 he came into prominence as a Labor sympathizer and as one of the strongest opponents of the Black and Tans in Ireland. Recently he has been in the Near East; and the London Observer has been carrying most interesting sketches from his pen.

Sir Sydney Oliver, who goes to the India Office, is an Oxford man who has had 44 years of the most distinguished service in numerous high posts. He was a Liberal and became a Fabian, writing for Fabian reviews and tracts, and sandwiching in an occasional treatise on economics the while. He has written poetry, too, and in his own biography he tells us that his recreation consists of "the normal forms of loafing and dilettantism."

Lord Haldane, who is Lord Chancellor, has been called the greatest administrator that England has had since Cardwell. In the old days he was a Roseberry Imperialist, and used to intrigue against Campbell-Bannerman. Then he went to the War Office and organized the Territorials. Then he said something about Germany being his "spiritual home" and when the war came along he passed into eclipse. He is a great lawyer, a philosopher and mathematician, and is as much at home discussing Einstein as debating the merits of roast beef.

Patrick Hastings, the Attorney-General is a brilliant lawyer who has been a journalist and a soldier. He fought as a private in South Africa; is of Irish origin; is noted for his eloquence; and next to Sir John Simon makes perhaps the largest income before the British bar. He has been in the House since last year, and while he has not yet developed the parliamentary manner, his ability is undoubted.

Sydney Webb is an encyclopedia of statistics in breeches. With his wife, Beatrice, he has read, digested, compiled, and published more statistics probably than any living human. He has a suggestive mind and unique knowledge, and despite his seeming pedanty, has a gift for practical politics. He will be completely at home in the Board of Trade.

Philip Snowden is perhaps the most extreme Socialist in the Ministry. He is a frail, pale, thin-lipped, merciless little man, with a mind like a diamond an da vocabulary that lacerates and sears. He is an impressive and compelling figure in Westminster; he states the case against capitalism with persuasiveness and power; he is heard by all sections with attention and respect. As Chancellor of the Exchequer, he will be watched with interest, if not with anxiety.

The balance of the Ministry is either good or indifferent. John Wheatley, Minister of Health, publishes a Socialist paper on the Clyde. William Adamson, Secretary for Scotland, is an orthodox Laborman with considerable parliamentary experience. Noel Buxton, who is Minister of Agriculture, is brother of Sydney Buxton, who was Asquith's President of the Board of Trade. Lord Parmoor, who is President of the Council, is a distinguished lawyer and layman of the Anglican Church; and Vernon Hartshorn won the O.B.E. for helping organize the coal industry during the war.

Taken all in all, it is a Cabinet of talents. It is clearly taking office in an attitude of soberness rather than of exhilaration. An the worst that can be said against it is that it is probably as good a Ministry as either Lloyd George or Mr. Asquith could improvise.

### EDITORIAL NOTES

Labor completes its first week on the job to-day. So far nobody has smashed the windows or shattered the china.

—o—

Election of Mr. J. B. Challies to the Vice-presidency of the Engineering Institute of Canada is an honor well deserved. Mr. Challies is a public servant of rare value and distinction.

—o—

Mr. J. H. Thomas as Colonial Secretary ought to be perfectly satisfactory to the Dominions. He is a Privy Councillor, has cabinet and administrative experience, and is noted for the moderation of his views.

—o—

Mr. MacDonald's Under Secretaries, often the greatest driving force in a Government, are yet to come. He has a wealth of material from which to choose, and his selections will be both significant and interesting.

—o—

If, as it reported, New York financial men are after the coming Canadian National Railway loan, they ought to be allowed to take it. Canadian dollars are needed for other forms of commercial and industrial development.

## PRESS OPINIONS

### MORAL DISARMAMENT

(Flint Journal)

Can business men succeed where politicians have failed in untangling Europe's snarled skein of conditions? That question may well be asked now as representative financiers, industrial and commercial leaders of the greatest nations in the world gather around the counsel table in Paris to deliberate upon ways and means of saving Germany from utter dissolution.

These business men intimately represent the common welfare and directly speak for the hunger of multitudes out of work, and because of this fact they take up the task of helping Germany and humanity with grim determination. The peace of the world hinges on saving Germany and bringing about a settlement of conditions in Europe.

Nothing but what the old Puritans called "a change of heart" in the sons of men can ensure this peace. Material disarmament will never be certain or complete until "moral disarmement" has made it unnecessary. Business men, and not politicians, are the world's hope of peace.

### THE STRANGLE HOLD

(Contemporary Review)

What about the future? Of one thing we can be certain and that is that if France is permitted to cut out the Ruhr, Germany will break up and Europe will become for many years an economic madhouse.

The German position is simple. Germany is today a bankrupt State, defeated, broken, and rudderless. Her Socialists are impotent because their main function is to checkmate the growing communism.

The Germans as a people are quite unsuited for democratic or mob politics, and they have no leaders and can have none as defeated nation except through some organization of force, such as Hitler in Bavaria, who is a kind of Mussolini without the facses, or the shirt.

If Germany had an army of 300,000 men the problem of reparations could be settled in twenty-four hours, and it is because Germany has no army that France can throttle her as she pleases and so long as she pleases, thereby holding up the recovery and stabilization of Europe.

### SPEED KING

(Worchester Post)

The world's speed typewriting championship goes to Albert Pangora. He wrote 9,120 words in an hour, making only 21 errors.

The average word has at least six letters, so Pangora hit the keys accurately nearly 60,000 times in an hour—or 1000 times a minute, about 17 a second. Each letter had to be carried to the eye, on to the brain, then telegraphed to the fingertips and allied muscles.

Thought is the fastest thing in the universe.

### JOB HAD A CINCH

Job, the Good Book tells us, had
A million boils or so;
But Job was fortunate, egad—
He really didn't know
His lot was soft sublime,
To that I the colyum duffer,
Who must write a daily rhyme.

Another way to make time pass quickly for jail inmates would be to install taxi meters in the cells.

One reason why the gas bill runs up so rapidly is because it has thousands of feet.

### BUT IT DO

My parents taught me not to paint,
But I do.
Nor make my face up like I ain't
But I do.
They told me that I should not wink
At nifty boys, not even think
Of any trouzers-wearing gink,
But I do.
I paint my lips and powder my nose,
And flirt with my sister's beaux;
My folks say, "don't," and I say,
"I won't."
But I do.

GILLETT'S 100% PURE FLAKE LYE

This famous household cleaner and disinfectant is now made in *Crystal Flakes* instead of powder. It is the *best* household lye on the market. Use it for cleaning and disinfecting sinks, closets, drains, etc.; destroying vermin; softening water; making soap; cleaning floors, greasy pots and pans, etc.; removing paint, etc.

Avoid inferior and dangerous substitutes. Get the genuine article in cans as reproduced below.

GILLETT'S
LYE

The work of the eyes

THE HUMAN EYE is a miracle of efficiency, if normal. And the sad truth is that most eyes are abnormal to some extent. Abnormal eyes mean strained eyes, and strained eyes mean headaches and a dozen other troubles. Nothing but glasses can make abnormal eyes function normally. Give your eyes proper attention by having them looked after here.

## Music & Drama

### TODAY'S MODERNISM GOES BACK 800 YEARS

Modernism does not mean so very much after all when one gets right down to the matter of considering details. Explicitly, what might be given credit as a modern mode or luxury generally can be traced back to origins in centuries long bygone. Thus is all the more credence gained by the old saying anent there being nothing new under the sun. All this was among the many interesting discoveries of the corps of researchers. Douglas Fairbanks put the work when he decided to make his new screen production, "Douglas Fairbanks in Robin Hood," which has proved to be his most notable cinema triumph, and which under a United Artists release is now at the Theatre Griffin.

For instance, if the present-day members of the gentler sex imagine for one minute that they are up-to-date simply because they use cosmetics, they are mistaken inasmuch as they are very old-fashioned! The ladies who charmed men back in the Twelfth Century, when Robin Hood had his romantic fling at setting high examples in chivalry, used ungents, powders and eyebrow darkeners and "made up" adeptly with the aid of burnished metal mirrors.

Nor is the fondness of the girls of today for fancy handkerchiefs original with them. Most all of King Richard's fair subjects had a weakness for dainty creations of thin lino and they embroidered them, too. They also wore veils of styles far in advance of those in vogue nowadays and just now modern style creators are decreeing the return of knitted hose such as the women of eight hundred years ago invariably wore.

Women of all classes sewed, knitted and embroidered those centuries ago. Embroidery was done on frames but knitting was done almost exactly as at present. Tapestry-making and mending were common.

### GIRLS TAKE HOME A THRILL TO TACOMA

Gustava Malstrom and Naomi Wall are the two most popular girls in Tacoma, Wash., as decided by a recent popularity contest in that city. As a prize, Tacoma sent them to Los Angeles for a week's pleasure trip. During their stay they were the guests of Viola Dana for a day at the Metro studios. Miss Dana had them before the camera to participate in a scene in her new Metro starring vehicle, "A Noise in Newboro," from Edgar Franklin's story, produced by Harry Beaumont. The photoplay is now at the Regent Theatre.

"We certainly are going to take home a thrill to Tacoma," the girls told Miss Dana.

### BRANSBY WILLIAMS RETURNING NEXT MONDAY

Bransby Williams, the great English character actor who is now making a tour of Canada with his London company in Dicken's "David Copperfield" and the old fashioned drama "Vidocq" has received many requests from theatregoers in this country to appear in some of the characters that they remember in the Old Country. In deference to these requests Bransby Williams has presented his One Man Entertainment at special matinees in several of the large cities, and, at the conclusion of his present tour in Montreal, will return to some of the Ontario cities and present the entertainment that he gave by Royal Command before the late King Edward and members of the Royal Family. He will appear at the Griffin Theatre in Belleville next Monday evening in a selection of monologues, recitations, grave and gay, character sketches from Dickens, a Chinese drama, and impersonations of well-known actors, past and present, whose names the audience is invited to call, when Mr. Williams, if he has seen the actor of whom an impersonation is requested, will give an imitation. Needless to say, such well-known names as Dan Leno, Sir Herbert Tree, Sir Johnston Forbes-Robertson and Sir Henry Irving are special favourites. The prices of the seats for this special entertainment will be from 50 cents to $1.50 and the sale opens on Saturday. Mail orders now.

## That Body of Yours

By James W. Barton, M.D.

### DOES THE CARRIAGE TELL THE STORY?

A magazine story two or three years ago, narrated the experiences of a young married couple who were attempting to get into the social swim. The young husband had in mind also, the advantages that might come to him in his profession, as he was a recent graduate in engineering.

The story told of the moving out to the suburbs, the bridge and the other parties that were given, the expenditure on pretty furniture and so forth.

Good clothes were also indulged in both by wife and husband.

Among the visitors to the home was an old college chum of the husband, who had done unusually well in the general contracting business. Nothing came of his visit however, as far as engineering jobs were.

The husband finally got interested in an engineering scheme, and worked very hard until he had mastered it.

During this time he forgot all about entertainments, and went back and forth to his office in one of his old suits.

Finally by this engineering problem he had solved, which saved his firm hundreds of thousands of dollars on a contract, he was taken into the firm and his entire future assured.

The former college friend came back to town and coming up behind him gave him a slap on the back and said:

"Congratulations old man!"

"On what?"

"Oh I don't know, but I do know you've made good".

"Why how do you know that? No one knows about it yet."

"I knew right away by the change in the way you were walking. Your head was up, your chest out, and you looked like the old college athlete of a few years back. Why success was stamped all over your body. I didn't really notice your clothes.

I know that good clothes count all right, but it was your carriage that told me the story."

Now what about this?

There is no question about it but that speaking generally the carriage reflects the body and mind.

I know there are exceptions. Men with actual defects such as blindness, lameness, and deafness, have done big things for the world.

But generally speaking of the normal person, his carriage gives you an indication of his actual outlook on life, whether it is hopeful and courageous, or the reverse.

You will remember that the simple bending exercises that develop the waist muscles will give you an erect carriage.

## SOCIAL and PERSONAL

Mr. and Mrs. James Domenico and son, of Los Angeles, Cal., are visiting at Mr. Domenico's uncle, Mr. S. Domenico, Church street.

Mrs. E. Myles, of Hamilton, and Mrs. (Dr). F. M. Richardson, of Toronto, are visiting Dr. and Mrs. G. A. Morton, Victoria Ave.

### YOUNG PEOPLE'S ASSOCIATION MEETS

On Friday evening the regular meeting of Christ Church Anglican Young Peoples Association was held at the Parish Hall. After prayer by the rector Rev. C. E. Clarke, the Literary Committee took charge of the evening. After games and recitations by Misses Robinson and Barber, a debate was given, the subject being "Resolved that moving pictures are more injurious than beneficial". Dr. Edwards and Mr. Bonneycastle affirmative and C. Gillispie and A. Lennox, negative; the judges giving their decision in favor of the negative. While awaiting the judges decision the members enjoyed very much a solo by Miss Chapman after which a very pleasant evening was brought to a close by the singing of the national anthem.

### THE WORLD WAITS WHILE INGRAM EXPLORES SAHARA

Somewhere in Africa, trudging the sands of the Sahara is Rex Ingram, famous Metro director, and his staff. From time to time equipment has left this country consigned to Mr. Ingram in various African cities; from time to time various noted players have sailed to join him and the Metro studios in Hollywood have been depleted of technical experts who rushed across the seas to him. The rest is a secret.

Rumors are that Mr. Ingram is conducting researches there which he will use later for a Metro picture. When that is finally disclosed it should prove to be one of the most important and interesting developments of the screen. After his "Scaramouche," anything Ingram undertakes is sure to arouse great expectancy. The world waits.

### DIDN'T MARRY ONE

"It is said by animal trainers that the giraffe has never been known to utter a sound of any kind," he said. "Well, what of it " "Nothing, only I did not marry a giraffe."

Large time company in Ohio had an anniversary the other day and gave all the employes a blowout.

Correct this sentence: "And after we are married," he promised, "I will shave just as frequently as I do now."

Nervous Hacking—

Cannot be relieved by a glass of water, but will disappear under the healing and soothing effect of

CHAMBERLAIN'S COUGH REMEDY

Every user a friend

Cheerfulness is the art of concealing your real feelings.

OUCH! BACKACHE! RUB LUMBAGO AWAY

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of old, honest St. Jacobs Oil at any drug store, pour a little in your hand and rub it right on your aching back, and the soreness and lameness is gone.

In use for 65 years, this soothing, penetrating oil takes the ache right out, and ends the misery. It is absolutely harmless and doesn't burn the skin.

### Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contain too much free alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is Mulsified cocoanut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

Aunt Martha's
HOUSEWIVES' COLUMN

Settled down in my comfy chair last night, cozily contented—and what do you think I read? Our little red instruction book for Dominion Store managers.

Maybe you think that a strange thing to do. But, truly, it was most interesting. I read all about how the store must be swept out every night, so as to be ready, spic-and-span the next morning. Windows washed clean and bright. Refrigerator scrubbed spotlessly clean so as to be always fresh and sweet.

Other things, too. Scales inspected regularly to make sure Dominion Store weights are always honest weights. Clean white coats and aprons, clean hands—everything as invitingly clean and fresh as Dominion Store foods themselves.

But best of all I like the instructions about treatment of Dominion Store customers. If you, too, could read them you would see why each Dominion Store is a friendly store where you always get real service and satisfaction. The book tells our managers—"The customer is the BIG BOSS. He or she must be pleased, every time."

No wonder we have more than a million customers a week at our stores. Each one of the million knows she will get good clean food, in a clean, efficient store—as well as lower prices that mean steady savings. 11

## Spiritualism

(continued from page one)

supposes the prior existence of another wireless mechanism, keyed to the other. Here rises innumerable doubts.

War Revives Mystery

The disappearance of millions of Allied soldiers, has revived man's interest in spiritualism. This partly explains the sale of thousands of Ouija Boards and the sudden appearance of multitudes of mediums, and crowds of bereaved ones, who tell their stories of messages spoken to them by voices falling through the air, or messages through automatic writing. Many a father, and many a mother, whose sons sleep under a little mound in France cries out with cheers, "is there a meeting place of the dead." Do they love us still? Will they be recognized by us? With these enquiries the living torture themselves, and beat their foreheads against the cliffs of mystery. They turn to the Ouija Board. Few would seek entrance with evil spirits and so they approach those familiar to them. The form of divination is called nicromancy. Modern philosophy may partly account for the distress many have. It deprives itself of obtaining any knowledge beyond the province of sensual experience. This leaves a void in the heart of men and they look for other ways that will lead them into the regions of the mysterious beyond. They resort to spiritistic experiments. This spiritistic phenomena is frivolous. In most cases it appears that these spirits have nothing worth while to say. They can make tables dance about the room. They can give gossip and childish twaddle. One of the writers Mr. Rupert says, "There is scarcely an investigation of the phenomena who, if he were to speak the whole truth, has not a story to tell of cunning and crafty deception, of the exhibition of deliberate falsehood."

Explains Ouija Board

Mr. Kenny explained the Ouija Board giving its methods of operation. He said psychologists agree that there are certain abnormal functions of the human mind, which exist beneath the threshold of our ordinary consciousness. The subjective realm may account for some things. This seems evident to us for the knowledge conveyed does not transcend the minds of the sitters. When the general character of the communication is found to correspond with the mental attainments, one naturally contributes it to the sub-conscious action.

The hypnotist exerts his will on a subject through the pasivity of the one operated upon. Actions performed by him at the suggestion of the hypnotist have the characteristics of objective reality. This mind pasivity is frought with dangers both physical and neutral.

Need More Faith

Dr. Fords Winslow writes that many unfortunate people are at the present time confined in lunatic asylums on account of having tampered with hypnotism. The word of God forbids us to consult soothsayers, enchanters, or familiar spirits, wizards or nicro mancers. Spiritistic phenomena are due either to fraud, or the action of evil spirits, whether devil or lost souls. Man goes through the valley not to be called up at the will of a medium. He speaks not through Ouija Boards. In Laides they abide until the trumpet of Gabriel wakes them, and God robes them for eternity. Do not try to pry into Divine providence Trust God and obey Him. The subject for next Sunday evening is "A Man who had a chance." During the service Dr. A. H. Haffner was heard in his usual good tenor voice, when he rendered a solo, the Quinte Male Quartette favoured the congregation with a number, and the anthem by the church choir was also well presented.

## CAMPBELLFORD

Lyman Weaver, Sydney Township farmer met with a painful accident while engaged in loading logs in the woods near his home. The chain attached to the binding pole broke and he received the full force in the face, breaking his nose and severely injuring his head, he was immediately rushed to his home, medical aid summoned, and last reports state that he is doing as well as could be expected.

## Obituary

The grim reaper of death has been busy in this city and vicinity since Saturday claiming no less than five persons.

### MRS. D. CUNNINGHAM

There passed away at the family residence, 39 Yeomans Street, on Saturday evening, one of Belleville's oldest and most highly respected residents in the person of Margaret Campbell, widow of the late Mr. Daniel Cunningham who was for many years on the staff of the School for the Deaf here. Mrs. Cunningham had been ill only a few months and her passing away so suddenly will come as a complete shock to her many friends. Since coming to Belleville many years ago Mrs. Cunningham has made a wide circle of friends by her kind and loving disposition.

Mrs. Cunningham was one of the oldest members of the Victoria Avenue Baptist Church.

To mourn the loss of a loving and kind mother are left five daughters, Mrs. Grace Luscombe, and Mrs. H. W. Void, of Hamilton; Mrs. D. S. McBurnie, of Winnipeg; and Misses Bessie and Evelyn at home. Also one step-daughter, Mrs. Wm. Nurse, of this city, beside six grandsons and one granddaughter. Mr. Jack and Ernest Elliott, of Hamilton, are two grandsons who have made their home with their grandmother since the death of their mother some years ago.

### ABRAHAM BARRIAGE

From an attack of pleura pneumonia Mr. Abraham Barriage passed away on Saturday night at the Belleville Hospital. Deceased was an engineer by trade and had worked for the Public Works Department of the city for many years. He was an honest and trusted employee. On Wednesday last Mr. Charles Campbell, City Engineer, found Mr. Barriage in a state of collapse whilst at his work and he was taken to his home 19 St. Charles street and later to the hospital. His demise will be regretted by all who knew him. A widow, one son, James, of Kingston; and two daughters, Mrs. John Baker, of this city and Mrs. George Haywood, of Toronto, survive. Two brothers, Richard, of Oshawa, and Edward, of this city, and one sister, Miss E. Barriage of this city are living. Mr. Barriage was born at Milltown in 1951, being 73 years of age.

### MARY SWEENEY

One of Belleville's oldest residents in the person of Mrs. Mary Sweeney, widow of the late Mr. Thos. Sweeney, passed away on Sunday at her late home, 12 Chatham street. Deceased was born at Marysville, Tyendinaga Township in 1830, being thus in her 94 year. She was a daughter of the late Mr. and Mrs. James Darcy. For the past 12 years Mrs. Sweeney had resided in Belleville. She was a member of St. Michael's Church. Her illness extended over the past two weeks. One son, Thomas, of Chicago; and two daughters, Mrs. J. M. McMullen, of Sidney; and Miss Mary Sweeney, at home, survive. Mrs. Sweeney was a lady much respected by all who knew her.

### HUGH MANAHAN

Mr. Hugh Manahan a well-known and much respected citizen passed away Sunday night at the family residence 16 Pope street. Deceased was born here 68 years ago and had resided here all his life. He was by occupation a machinist being in the employ of the Fruit Machinery Company. Mr. Manahan was a member of St. Michael's Church. An attack of pneumonia was the cause of death. A widow and five sons survive. The sons are Roy and Gordon, of this city; Leo, of New York; William, of Rochester; and Frank, of Wayland, N. Y. Two sisters, Mrs. Anna Cox, of Toronto, and Mrs. John Russell, of Toronto, are living, also two brothers, Wm., of Trenton, and Charles of Foxboro.

### MARGARET CARTER

Mrs. Margaret Carter wife of Mr. Wm. Carter, of the 9th Concession of Thurlow Township died on Sunday, in her 72nd year. Deceased had been ill for two months from heart trouble.

Mrs. Carter was a daughter of the late Mr. Thomas Vance and was born in Elzevir Township. Mrs. Carter was a member of the Methodist Church and a lady highly esteemed by all who knew her. In addition to the husband, two sons and two daughters survive. The sons are Charles, of Prince Edward County and Wm. at Home. The daughters are Mrs. Hattie Pearsall, of Thurlow, and Mrs. Glen Lb. of Roslin. The body will be taken to Thomasburg for interment.

### MRS. ELLEN McCOURT

On Sunday afternoon the funeral of the late Mrs. Ellen McCourt took place from the family residence, South John street, and was attended by many. At St. Michael's Church, Rev. Father Killeen officiated, and Rev. Father Whalen had charge of the grave service at St. James cemetery. Bearers were John Irvine, Jas. Connolly, A. Luscombe, A. Bunton, F. Vannorman and L. Either. The floral and spiritual offerings were many, being as follows:

Floral Offerings

Pillow—Mr. and Mrs. J. Irvine.

Cross—Mr. and Mrs. F. Quick; Mr. George and Jennie Irvine.

Wreath—Mr. Clarke and Mr. Cook, Napanee.

Sheafs—Mr. and Mrs. Armstrong; Mrs. U. E. Thompson and Miss Thompson; Mr. and Mrs. Baldwin; Miss G. Foxton; Mr. George M. Allen, Calif.

Spiritual Offerings

Mr. J. V. Truiasch; Mr. C. Mullins; Mr. and Mrs. A. B. Collins; Mr. and Mrs. A. P. Luscombe; Mr. and Mrs. E. O'Rourke; Mr. and Mrs. J. Lynch; Mrs. T. Morrell; Miss M. Tardy; Miss Nellie Smith; Mr. and Mrs. J. Ethier; Mr. and Mrs. Capt. H. Smith and family; Mrs. S. Woods and family; Mr. J. Brosseau; Mr. and Mrs. M. Connell and family; Mr. and Mrs. F. Ethier Mr. and Mrs. J. Connolly; Mr. and Mrs. F. Fitzpatrick; Mr. and Mrs. J. Lapalm and family; Misses Violet and Ethel Deacon; Miss M. McCutcheon; Miss Madeline Sullivan; Miss Helen Cote; Miss Catharine Quinn; Mrs. J. Hunter and family; Mrs. A. Smith and Mrs. May Shorey; Mr. Murray Black; Mrs. Effie Cummins; Mr. and Mrs. F. Lapalm; Miss F. Quick; Miss K. McCourt; Miss E. McCourt; Miss A. McCourt; Mr. and Mrs. A. E. Bunton Baby Bunton; Mr. and Mrs. E. Ethier; Mr. and Mrs. F. VanNorman and family; Mr. and Mrs. Bawden; Mrs. Kenneth Gerow; Mr. and Mrs. T. E. Sullivan; Mrs. Edward Quinn and family; Mr. and Mrs. John Cornell and family; Mr. Stanley LaPalm Mr. R. S. Meek; Mrs. H. O'Rourke; Mr. Robert Blaind and family; Mr. and Mrs. J. Callaghan; Mr. and Mrs. M. Callaghan; Mr. and Mrs. Jules Ethier and family Sr.; Mrs. and Mrs. Geo. Lee; Mrs. Tuttle and family; Mr. and Mrs. A. Goyer; Mrs. Austin O'Malyea, Chicago; Misses Teresa and Agnes Ethier; Mr. and Mrs. P. Coty.

### CAMPBELLFORD

Belleville friends of Mr. L. F. Gould of Campbellford will regret to learn that he is ill at his Campbellford home, suffering from a slight paralytic stroke, which he suffered Saturday and that his condition is serious today. Mr. Gould has for many years been identified with the Ferris Dry-goods establishment at Campbellford.

HERE, THERE AND EVERYWHERE

## SPORTS THROUGH EDGREN'S EYES

Whenever boxing decisions are given in limited bouts the judges and the referee always come in for a lot of criticism. As long as bouts are closely contested this can't be avoided, for there is generally difference of opinion among spectators. Differences of opinion lead to charges of crookedness, incompetence and prejudice, not often deserved, and are used by "reform" fakers to attack the legality of a useful sport. A sport "reformer" is invariably a person who longs to get his name into the newspapers and finds attacking some popular sport or habit the easiest way to obtain cheap publicity.

During the war we had boxing as the major sport in every army camp. Boxing was our most useful training to teach men how to move quickly and with decision, and to attack or defend themselves affectively. It was good moral training too, encouraging care in keeping in good condition, fair play and balanced temper, courage and confidence. The army had boxing rules, and in the army camps nobody could boo the referee and judges—which was a fine thing.

There have been accidents in boxing, as well as in baseball, golf, basketball, football, auto racing and driving, flying, riding horses, and all other forms of exercise. Where there is action, occasional accidents are unavoidable. It's more dangerous to walk from Fifth Avenue and 42nd Street to Park Row in New York than to box ten rounds.

So far as referees and judges are concerned, they all make mistakes. A good judge or good referee is one whose mistakes are few. As a rule, judges and referees have had some boxing experience, and their judgment is better than that of the average spectator. A referee in the ring can see more clearly than anyone farther away, and should have the best chance to judge correctly in picking a winner "on points."

**Aggressiveness Should Count**

In some places points are supposed to be counted very exactly. In England, Freddy Walsh was given the world's lightweight championship and the title taken from Willie Ritchie on a margin of half a point. With a possible five points credited in each of twenty rounds, that's drawing it rather fine.

Points in boxing should be given for everthing that develops the highest efficiency in the sport. Aggressiveness without ability to lead and land blows doesn't amount to much, but aggressiveness deserves because without aggressiveness there's no contest, and an aggressive boxer must learn how to land his blows effectively.

I saw a case in point last week, an amateur club boxer whose elephantine legs, thick body and general awkwardness have given me many a laugh in the past few months. At the start he was probably the most awkward human being I ever saw in action. His legs were so bulky in proportion that he was about as active on his feet as a pyramid. He was hard to push over and never was knocked out, but he took a beating at every boxing show. He was strong, but anybody could beat him to the punch. He was built for anything in the world but boxing. He was aggressive and persistent. No matter how badly he was being beaten, he never looked worried or stopped trying.

Last week I saw him again. He was fighting a taller, stronger, faster, more skillful boxer and harder hitter by far, a man perfectly built for boxing, with wide shoulders, trim body and light legs. It looked like another joke. To my astonishment the thick legged clown of former fights had developed something through sheer aggressiveness and grit. He was diving straight in and hitting straight at his target, not losing motion with clumsy sidesteps and wild swings. He had gained a little speed, but nothing to compare with the speed and punch of the man he was fighting. For two rounds he dived straight into his man, hitting persistently and now and again getting a good punch through. He took twice the punishment he gave but that didn't discourage him. In the third round the better boxer wilted under that persistent attack, caved in from the body blows, took the count a couple of times and quit. His perfect fighting machine of a body could not stand up opposed to a clumsy lump of a body driven by an aggressive spirit.

Aggressiveness in boxing deserves its share of points.

**Only Work Done Can Effect Score**

A good point system is to allow three standard points in each round with possible points for special features, as follows:

One point to the man doing the best work on offence; one for the best defence; one for aggressiveness. Where both are equal, points are split, each taking ½ point.

Additional points are: For each knockdown, 1 point; where a boxer is a close second in aggressiveness, effective offence or effective defence, ½ point.

Effective offence would not necessarily mean the heaviest blows struck. Clean hitting, timing and strategy in making openings would count. Effective defence would include blocking, sidestepping, avoiding blows and countering. Running away would not score credits. That isn't defence, and is excusable only a strategy to draw an opponent into a surprise attack, and to escape from extreme danger.

Officials would not make an actual count of blows struck, blocked, ducked, etc. That would be impossible. But at the end of each round a quick mental estimate of the work of each man noted down in points, would give a fair average decision when all points were added at the end of the contest.

Sometimes officials lose their judgment and give altogether too much credit for a knockdown, or rule against a boxer because he is apparently weak at the end of a bout. A man's physical condition at the end of a bout should not count at all—ONLY THE WORK HE HAS DONE CAN AFFECT A POINT SCORE. The only exception to this is a knockout, when a man loses because he can't finish, or when a bout is stopped to save an outclassed boxer from injury. A boxer who fights himself nearly out in an effort to win, finishing weak, deserves more credit than one who stalls along and is fresh and strong at the last bell.

A boxer might hold a lead through nine rounds, then be knocked down in the tenth and be weak at the finish. He would deserve the decision, as nothing but a knockout could offset his lead. But I've often seen officials give a draw or a decision against a man with a big lead, because of a single knockdown.

**Can't Please Everybody.**

Apply the above point system to the first round of the Dempsey-Firpo fight.

They were equally aggressive in that round. Dempsey more effective on offense, using both hands equally well hitting clean punches, perfectly timed.

Firpo close to Dempsey in effectiveness, although hitting chiefly with one hand, and pushing rather than snapping punches.

Dempsey perfect in defence when driven to it.

Firpo lacking defence entirely.

Dempsey knocked Firpo down seven times, Firpo knocked Dempsey down three times.

Points: Dempsey—Aggressiveness ½ offense 1, defence 1, knockdowns delivered, 7—total points, 9½.

Firpo—Aggressiveness ½, offense ½ defence 0, knockdown delivered, 3—total points 4.

These points show fairly well the comparative fighting effectiveness of Dempsey and Firpo in that first round, verified when Firpo came up dazed and spent for the second round, and Dempsey refreshed and strong, knocked Firpo out without any more trouble.

A simple point allotment by rounds added for a total score, gives a referee or a judge something better than a guess to go on.

Still, no matter how scientifically exact decision-making may become, no judges and referee will ever satisfy all the spectators. It can't be done.

In any close bout there always is a divided opinion from ringside to galleries. And nobody can decide both ways. That may be why so many referees weaken at the last moment, listen to the crowd and ease their way out by holding up the hands of both men.

## ON THE ALLEYS

**Domenico's Recreation Alleys**

Three league games were played at the Recreation Alleys on Saturday—two in the Ladies League and one senior game. In the afternoon the Wanderers won from the C.I.A. girls, Mrs. Lee and Miss Cavanagh leading for their respective teams. The evening game was between the Lucky Strikes and the Willowbanks, the former winning out by a safe margin. Miss Nafin had the high single and three strings, namely 200 and 466. In the "Big Six" league the Sprinklers threw a wrench in the machinery and tied up all the teams in the senior league when they won from the Millionaires by 3 pins, this being the closest game ever played at the Recreation Alleys. It was a case of the Millionaires being sure of the game, but playing with one man short made a big difference in the total score. This puts all the teams on an even footing again with one loss and one win each. Scores and players:

## CANADIENS FIGHT "ROUGH" CHARGES

### President Frank Calder will Impose stiff fine for Clubs Giving Out News to Stir Up Trouble

Toronto, Jan. 28.—The National Hockey League was in session Saturday at the King Edward Hotel, and after five hours of "hot talk" in which curt personal remarks were bandied with frequency, the Ottawa Club went to the mat with President Frank Calder, of Montreal, swinging the count of ten over Tommy Gorman, Frank Ahearn and Major MacDowell. The meeting was the "hottest" the league has had in some time, and the Ottawa Club found Canadiens, St. Patrick's and Hamilton lined up against them, and while Frank Calder as head of the organization, was of course not supposed to take any definite sides, it could easily be seen that he wasn't using the Ottawa Club as any leaning post.

**Protest Rough Play**

It was all over the protest of Ottawa against the rough play of the Canadien players in Montreal. They not only accused Sprague Cleghorn of being deliberately rough, but they also said that Coutu, Boucher, Morenz and Joliat were not far removed from Leghorn. The other clubs did not agree with these remarks. And the upshot of the whole thing was the passing of a resolution that there was entirely too much propaganda being sent out by certain clubs—and no names were mentioned—in which rough play talk was being fed to the public in order to attract crowds.

The meeting felt this was wrong and the resolution went on further to say that President Calder was empowered to clamp on a fine—and it may be $500 or more—to any club sending out propaganda of this sort in the future. President Calder is about disgusted with the actions of some clubs in this respect, and with the new resolution giving him drastic power he intends to use it.

The entire meeting was taken up with talk of the rough play only. Several trades were discussed during lunch hour, but none were made. Leo Dandurand said he was after some new players and would remain over in Toronto and Western Ontario for a few days in quest of some material. Those at the meeting were: President Calder, Tommy Gorman, Frank Ahearn and Major MacDowell of Ottawa; Percy Thompson and Andy Ross of Hamilton; Leo Dandurand and Cecil Harte of Montreal, and Percy Ciceri and Charlie Querrie of Toronto. Sprague Cleghorn, the player over whom much of the discussion took place, attended, and gave his side of the argument. He was brought up by Manager Dandurand especially for this purpose.

## Local Squad Is "On Edge" For Important Game With Brockville Puck Chasers

### Win To-night Will Give Belleville Intermediate Squad Seventh Straight Win This Year and Cinch Group Title

### NEVER KNOW DEFEAT

### Recent Games Show Versatility of Locals—Combination Plays and Lone Rushes Equally Effective with Entire Team Working Together and to Win

Those who see the game to-night had best prepare their throats to give all the vocal aid possible to our intermediate squad when they go up against the Brockville puck chasers to-night. The Brockville team, smarting under the defeat administered them on their own ice, will be eager and anxious to get revenge, and also hold on to their slim chance of being in the running for group honors.

A win for Belleville will give them their seventh straight for this season and their nineteenth straight in three years in the group. It will also give them the undisputed right to call themselves the best team in this district. The local squad, working under handicaps since the start of the season, has forgotten hockey troubles, lack of practice ice and from the tap of the opening gong buckled down to play the game clean and to win. Their impressive showing so far this season is a credit to Eddie Thomas and the members of the team, and outside observers have impressed their opinion that the locals are the team to beat for O.H.A. honors.

The boys are in great shape for to-night's battle despite injuries sustained in the Kingston game, and it should be fast and furious play from the face-off. With "sixty-minute" Weir and "Bunny" Frechette on the forward line, ready to go at their usual top speed; Stan Hagerman in centre, the best always in his class; Finkle and Green, barring the way to the goal in their own effective way, and Stan Nurse, best goal tender in the league and one of the best in O.H.A. circles, guarding the net, Brockville will have a "hard row to hoe" in getting anywhere. "Daw" Whalen has been going so good in the last few games, that he can fill any position on the ice to satisfaction, and he will be ready to deliver when goals are needed.

The game in Kingston was a revelation to fans there. The Belleville squad had been thought to depend entirely on their perfectly timed combinations to get counters, but they showed some real artistry in lone carrying of the puck the length of the ice, drawing out the defense and goalie and —zip. Going down three men abreast, faking passes and stick-handling all of the way, made a combination that kept the other team guessing and resulted in their total rout. The same plays will likely be pulled again to-night and should make the Brockville men wish they had eyes in the back of their heads.

Carrying out their usualy policy of the best defense being an attack, the locals should win but it will be a real battle from all advance notices.

## Hams Win From Leaders Easily

Hamilton, Jan. 28.—Ottawa, minus Broadbent and Denenay, were outplayed and outclassed from the goal-mouth in an N.H.L. fixture here on Saturday night, finishing on the short end of a 5 to 1 count. At no time durin gthe sixty minutes of play were the league leading Ottawa in the picture, and they have Benedict to thank for not being beaten by a much larger margin. Tigers, with Burch and Green brothers on the forward line, made Nighbor, Campbell and Clancy look foolish.

"Red" Green ran wild on Campbell, and made life for Benedict real miserable. The red-thatched youth was in on top of the Ottawa goalie repeatedly, and had Cliff sprawled all over the goal-mouth in an attempt to stop his shots. The exhibition of stick-handling given by "Red" Green was one of the many features dished up. Time after time he walked right through Boucher and Hitchman, only to find Benedict his stumbling-block. "Shorty" on the other wing, was almost as good. His one goal came after a pretty piece of play. After circling the Ottawa defence, he pulled Benedict away from his post and lobbed the rubber int oan open net.

Billy Burch worked in well with the Green brothers, and the short, snappy passing of the Hamilton forward line had the Ottawa team at sea. Their efforts to break up the Hamilton play looked ridiculous, and before play had been in progress very long Frank Nighbor gave it up as a bad job and fell back on the defense in an effort to keep Hitchman and George Boucher company in keeping the Hams out.

Nighbor could not get going properly with Campbell and Clancy, and it was only in spots that he showed any of his old-time form. Finding the passing game with his wings was a failure. Nighbor attempted repeatedly to beat the Hamilton defence single-handed, but the repulse he received from Prodger and Randall soon cured him of this idea.

## QUEBEC MECCA OF WINTER SPORTSMEN

Quebec, Que., Jan. 28.—Quebec City is now the Mecca of many prominent individuals and parties participating in the winter sports. Guy Danker, the president of International Rotary Clubs, is one of the enthusiastic visitors. The famous Appalachian Mountain Club are here eighty strong, and have conquered Mount Ste. Anne on snow shoes. Many are returning to participate in the big winter carnival on February 21st to 24th, when it is expected the difficult ascent of Cape Tourment will be made.

**TRENT VALLEY LEAGUE**

Tweed plays Campbellford in return match Friday night at the Arena, both teams are evenly matched and a real battle is expected.

Why Ford Predominates

Proof that Ford predominates is to be found in the fact that 50 per cent of all cars in Canada are Fords.

Ford predominates because it supplies the essentials of adequate, economical transportation.

Ford has been the pioneer in the automotive industry; has blazed the trial in every fundamentally sound transportation principle.

Ford service is an outstanding example of Ford predominance. Authorized Ford service is to be found wherever motor cars are used—always capable, business-like and prompt.

More than 4,000 service stations in Canada are assurance of this.

## Have Kidneys Examined By Your Doctor

### TAKE SALTS TO WASH KIDNEYS IF BACK PAINS YOU OR BLADDER BOTHERS

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts, from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

Many of us should cultivate the faculty of taking hints.

ARTHUR H. SYDERE,
Clerk of the Legislative Assembly.
Toronto, January 7th, 1924.

Nobody pays any attention to a man when he stops to fix his garter on the street. But there is liable to be a riot if a girl tries it.

### "The Least Noise or Excitement Made Me Tremble," says Mrs. Beaulieu

Never before in the world's history have there been so many cases of nervous collapse, with "jumpy" nerves, accompanied by fits of depression, as since the Great War. This condition applies not only to men and women but to children. These rundown conditions affect every part of the human system, bringing indigestion, headaches, weakness, insomnia, anemia and finally, if not checked, that most insidious and dreaded disease, consumption. To protect the system, there is only one thing to do, tone and build up the body with Carnol. Carnol helped Mrs. Beaulieu She says:

"I don't know how to express my gratitude to you for all that Carnol has done for me. I was terribly depressed. I had no appetite. The least exertion tired me. I couldn't sleep. The slightest noise or excitement made me tremble. My nerves were "jumpy". I was losing weight. Finally I consulted my doctor and he told me that I was completely run down and I needed a tonic. 'The best tonic for your case,' said he, 'is Carnol.' I took Carnol for a month and I feel so well today that it is hard to realize that six weeks ago I was in such poor health."—Mrs. Frs. Beaulieu, Rivière du Loup. 3-9

*Carnol is sold by all good druggists everywhere.*

## FILM STAR HOLDS FOR BRAINY LOVE

### Anna Q. Nilsson Says Successful Wife Must Use Head, Too, to be Happy

"Loving takes brains," declares Anna Q. Nilsson, who plays one of the leading roles in "Half-A-Dollar Bill," the new Metro picture. "A successful wife uses her head as well as her heart. A good mother is not just a loving mother—mothering takes brains."

Miss Nilsson admits that she married a Los Angeles business man about six months ago. She has faith in her marriage. "I hope we have brains enough not to add our names to the divorce calendar," she said at that time.

According to Miss Nilsson's theory, a husband and wife must not expect perfection from one another and each must assume the responsibility of either their happiness or their misery. Love alone often ends in misery, but love combined with brains make for real happiness.

"I cannot help but wonder just what I should do were I placed in the position of the poor woman I am interpreting in 'Half-A-Dollar Bill,'" Miss Nilsson continued.

"Married to a brute of a husband, that is worse than hopeless; forced to give up her only child in order to save its life, and utterly unable to survive the storms of life. She is one of the most pathetic characters I have ever interpreted, yet there is something so human and noble about her that at times I look upon her with admiration."

Curtis Benton wrote "Half-A Dollar Bill" and W. S. Van Dyck directed. It was adapted and personally supervised by Max Graf.

## PROCURES DRUG FROM PHYSICIANS' OFFICES

Orillia, Jan. 28.—An unprepossessing-looking individual called at several doctors' officers recently, and when informed that the doctor was not in said he would wait. The Orillia doctors do their own dispensing and the dispensary is usually adjoining the waiting-room. Watching his opportunity, the man entered the dispensary and abstracted all the morphine he could lay his hands on. He escaped without being apprehended. It is expected he will try the trick at doctors' offices in other towns.

1923

The best year in the history of The London Life Insurance Company

| | |
|---|---|
| Highest showing ever made in New Business written | $44,749,707 |
| Income for year | 6,569,819 |
| Assets | 23,074,169 |
| Total Insurance in Force | 151,780,810 |

Mortality Rate (Ordinary Branch) 37.2% Cost of doing business reduced.

Sound Assets

The Company holds no speculative securities. All investments made in Real Estate Mortgages and Government and Municipal Debentures. Rate of interest earned 6.84%. Overdue interest only *one-tenth of one per cent* of investments.

Ample Reserves

On the Company's own basis of valuation, larger reserves are set up for the security of policyholders than is the case with *any similar class of business on this continent.* Full provision is also included for all profits accruing, although not due for years to come. Large Contingency Funds maintained for emergencies.

Increased Surplus

The Surplus on the Company's stringent basis is $918,966 *an increase in the year of 60%.* Were liabilities computed according to the less stringent Government standard, the Surplus, in addition to the sum (approximately half million dollars) by which the market values of securities exceed the book values, would be $3,210,160.

Dividend Scale Maintained

The Scale of Dividends to Policyholders has always been noted for its liberality. This scale was actually increased in 1916 in the midst of war conditions. The Company's financial position was such as to enable it to continue this scale throughout and since the war and epidemic periods—*an unparalleled record in North America.*

Estimates and Actual Results

When present rates were adopted in 1900, estimates were issued which have since been greatly exceeded. The Company's dividends to-day are *from 50% to 100% in excess of original estimates.* It is doubtful if this record has been equalled in any part of the world during the past twenty years.

A copy of the Annual Report for the year will be mailed on request.

## Additional Sports

## Irishmen Trim Canadiens, 2-1

Toronto, Jan. 28.—With the National Hockey League season past the half-way mark every club in the circuit is alleged to be below its regular strength owing to injuries or sickness, and while Canadiens have shown that the injuries have lessened their strength, all four clubs have discovered that there has been unknown strength on their substitute benches as a result of having to use players that were not considered up to the mark. Last Wednesday Ottawa had to use Campbell and Clancy for Broadbent and Dennenay, and the subs made good in their first start as regulars, on the same night Hamilton used the Green brothers for Roach and Spring and the ex-Sudbury players were prominent in the victory over Canadiens.

On Saturday night at the local Arena Canadiens and St. Patrick's also joined the ranks of noted discoverers, when they found that in Mantha, Bobby Boucher and Loughlin they had capable players if they were permitted to get going early in the game instead of being kept on the bench for long periods and then interjected in the game for a brief sojourn which did not give them time to get their bearings. All in all the halfway mark seems to be the scene of a number of useful finds by the various clubs in the Calder loop.

Canadiens opened the last half of the schedule against the Irish on Saturday night, and they started it the same way as they did the first half on December 15, losing the game by one goal, but the seventh home game of the local season was much better than several of its predecessors, and the 2 to 1 score which prevailed at the end just about shows the difference between the two teams. The locals deserved to win, but they did not have much of a margin on the Habitants who at times threatened to jeopardize the St. Pats' hold on second place in the league standings.

## FINLAND WINS SKATING EVENTS

### With But Three Men Entered, Total 49½ Points, Winning Handily

Chamonix, Jan. 28—Finland, with only three men entered, won first honors in the speed skating events of the 1924 Winter Olympic games, which were concluded Sunday, with a total of 49½ points. Norway was second with 39½ points, and the United States third with 11 points. Sweden got one point. Charles Gorman, of St. John, N.B., sole Canadian representative, had been considered a dangerous contender, but he was unable to get a place in any of the vents.

Finns and Norwegians shut out other skaters in the 1,500 and 100,000 metres races Sunday with ease. United States skaters failed to add to their score of 11 points, which accrued from Jewtraw's victory and the capture of sixth place by Valentine Bialis, Saranac Lake, in the 5,000 metres.

**Thunburg Wins Two**

Thunberg, the Finnish world champion, was easily the star of the meet. He showed ease of motion and smooth action, reeling off lap after lap, apparently without exertion, in 42 seconds in the distance races, the laps being 400 metres around. His two victories came without him having to extend himself to the limit of his speed, and seemingly he finished second in the 10-000 metres only out of courtesy to the compatriot Skutnabb. Thunberg has received an invitation from the International Skating Union to participate in the United States championship in February and he may leave for the United States to-day.

## On the Alleys

At the Y.M.C.A. bowling alleys on Saturday evening the lady Amateur team as they call themselves proved that they were not altogether amateurs in the art of bowling. By a fair margin they defeated the Veronas. Miss Mcoll for the losing team scored 435 points, while Miss Donohue for the Amateurs was high for the three string namely 419, but was closely followed by Miss A. Lafferty who scored 413 points. The score and players were as follows:

| | | | |
|---|---|---|---|
| VERONAS | | | |
| Miss McColl | 147 | 100 | 188—435 |
| Miss M. Lafferty | 99 | 89 | 100—288 |
| Miss J. Bell | 82 | 124 | 94—300 |
| Miss Fredette | 76 | 61 | 93—230 |
| Miss Canning | 80 | 78 | 81—239 |
| | | | 1492 |
| AMATEURS | | | |
| Miss Wray | 132 | 111 | 133—376 |
| Miss Chesher | 85 | 116 | 85—286 |
| Miss O'Rourke | 114 | 106 | 96—316 |
| Miss A. Lafferty | 101 | 147 | 165—413 |
| Miss Donohue | 98 | 158 | 163—419 |
| | | | 1810 |

## CRESCENT YACHT CLUB ANSWERS KINGSTON

Kingston, Ont., Jan. 28.—The challenge of the Kingston Yacht Club for the George Cup has been accepted formally by the Crescent Yacht Club, Watertown, N.Y., according to advices received by officials of the local body Saturday. It is also learned that the Crescent Yacht Club is buying a fleet of dinghys similar to those of the Kingston fleet, and will enter the inter-city races next year. Those prominent in local yacht circles look for a big season in 1924.

RITCHIE'S

The Benefits of CASH BUSINESS

In order to keep retail prices down to the lowest possible point, it is necessary for a merchant to do business on a Cash Basis.

First of all he must have the cash to buy his goods with at the right prices and to avail himself of all discounts. Manufacturers are looking for the merchants who can pay cash when they have special lines to offer.

If prices are to be kept right, no allowance can be made for the extra expenses that always accompany an extensive credit business, in the looking after and collecting of accounts. The only way a merchant can sell reliable merchandise at a close margin of profit is by purchasing his goods for cash and selling for cash. We believe this to be greatly to the advantage of the customer as well as to the merchant.

ACCOUNTS PAID ONCE A MONTH THE SAME AS CASH

Many of our customers find it a convenience to run a monthly account and settle once a month. Any responsible family or individual may make arrangements at our office for a monthly account if they so desire. The bill will be rendered the first of each month and is due for settlement when rendered. We consider this the same as cash over the counter, and it allows customers to telephone us for goods or in other ways make purchases and settle monthly. We have no longer term of credit than this and we expect settlement of accounts when they are rendered.

A WORD ABOUT PRICES

In every case we guarantee our prices to be the lowest, the same quality goods can be bought for in Canada. We are in a position to buy in the best markets of the world and are satisfied with modest profits. If, after making a purchase, any customer is not thoroughly satisfied as to value, the goods may be brought back and the money will be returned. What more can we offer?

FOR SIXTY-EIGHT YEARS

We have been serving the people of this district. Many customers come regularly long distances to trade with us which is a splendid assurance that our efforts at service have been appreciated. We have several customers who have dealt with us for over half a century.

ALTERATIONS IN PROGRESS

We are at present making extensive alterations to our store and we intend to do even bigger and better things than we have ever done before. Our aim is to serve the Public with thoroughly reliable goods at moderate prices, and we extend the courtesies and conveniences of our store to all, whether their purchases be large or small.

The RITCHIE Co. LTD.

"Miss America" Declares Tanlac Wonderful Health Giving Tonic

Miss Campbell in "Miss America" crown which she has won on two occasions.

Photograph by Atlantic Foto Service

Miss Mary Katherine Campbell, twice proclaimed 'Miss America,' has taken TANLAC and endorses it in a statement recently given to the women of America through International Proprietaries, Inc., distributors of this great tonis. In this statement, Miss America declares that Good Health is the basis of all beauty, and advises women who would be beautiful to "first find good health."

Her complete statement as given is as follows: "I consider it a great privilege to be able to tell the thousands of women everywhere what a great tonis TANLAC is. Health is the basis of all beauty. Without good health, one is apt to be run down, nervous, underweight, high-strung, anemic. Indigestion drives the roses from a woman's cheeks and robs her of that radiant quality of womanhood that is real beauty.

"I have taken TANLAC and I do not hesitate to say that it is a wonderful health-giving tonic. It has brought relief and good health to many women, and with good health one may have a measure of beauty that will overcome shortcomings in face and figure.

"Rosy cheeks, sparkling eyes, a well-rounded figure, a lovable disposition, go hand in hand with good health. To those searching for beauty, I would say —'First of all, Find Good Health.' The TANLAC treatment has proven itself a boon to womankind, and I recommend it."

Miss Campbell has written a booklet on Health and Beauty which may be secured by filling out the coupon below.

VOL. LVI. BELLEVILLE, ONTARIO, TUESDAY, JANUARY 29, 1924

# CHURCH HONOR PLEDGED TO AID CHURCH UNION, DECLARES DR. PIDGEON

### "We Cannot Go Back on Our Pledge" Asserts Chairman of Church Union Committee in Powerful Address at John Street Presbyterian Church Last Night—Troth Plighted to Support Plan as Never Before

### UNITY OF PURPOSE ESSENTIAL TO FURTHERANCE OF WORD OF CHRIST

### Religious Ancestry Shows Union Has Been Theme in all Denominations—Cites Methodist and Congregational Formation to Picture Truth of Assertions—Union "Holy Will of God."

"We cannot, in honor go back on Church Union now, for the honor of the church is now pledged, as it has never before been plighted," vehemently exclaimed Rev. Dr. G. C. Pidgeon, Chairman of the Church Union Committee of the Presbyterian Church in Canada and minister of Bloor Street Presbyterian Church, Toronto, at the climax of his powerful and enlightening talk in favor of this all important subject at John Street Presbyterian Church last evening, before a large congregation.

Choosing his reasons for Union primarily from passages of Scripture, and showing that unity of purpose was essential for the successful furtherance of the word of Christ, Dr. Pidgeon outlined the history of the Presbyterian church, showing that it was the result of nine different unions and eighteen separate organizations. Then showing that the honour of the Presbyterian church was at stake, the honour of a church whose peoples' word has ever been regarded as their bond in and apart from the church, a most convincing conclusion was drawn from an excellently prepared address.

**Union Not New**

"Religious ancestory, like other ancestories," explained the speaker, "is very much mixed, the present Methodist church being the result of seven different unions and eighteen separate organization, the Presbyterian church being the result of nine unions and eighteen separate organization and the Congregational church the result of two unions and three distinct bodies, making a total of eighteen unions and some forty separate organizations, which in past history in the name of God practiced Christianity in Canada."

Similarly it was shown that the Secession church of Scotland was divided into two separate groups in the nineteenth century, there being the Burgho and the Anti-Burgo church, one of which demanded the allegiance of all adherents to the realm and religion, and required an oath renouncing Papistry. It was twenty years before these churches came together in Canada, it being finally agreed that the differences in the new and larger country justified the merging.

**Union Is Holy Will**

It is the will of God, and the result of His action and purpose that all His children should be one in His Son, as the drawing together of brethren manifests itself in action," further explained the divine.

"Christ explained the situation when he said, 'As Thou, Father art in Me, and I in Thee, that they also may be one in us.' Paul was also a martyr to the matter of Christian unity, in the church body of Jesus Christ, and realized that while the left hand is a part of the human body, it was made to work in conjunction with the right hand and without the right hand loses half its usefulness.

"The soaring conceptions of unity as expressed by Paul, compared to the divisions in religion now existing, are as war is to the Peace of the Father," asserted Dr. Pidgeon in comparison. For only by our union shall we be supplied with the medium by which we may turn the world to the Son of God."

Methodism, it was shown, was the result of a revival, and the Methodist church has ever been allied with the Presbyterian church in any moral reform work such as temperance, so much indeed that the same "togetherness" has made Presbyterians realize that they and the Methodists belong to one another, and has caused Presbyterians to resent what keeps them apart.

Speaking as to how union may be consumated the speaker pointed out that it was merely necessary for both churches to agree upon a statement of the central doctrines of Christianity. A statement of the doctrine has been brought out and has been surprisingly successful.

**Very Slight Differences**

"The great trouble is that the rea-

(continued on page three.)

# CONCISE REPORT GIVEN COUNCIL BY FIRE CHIEF

### Property Loss in 1923 Heightened by Increase in Use of Soft Coal

### 111 CALLS ANSWERED

### Sixty-six Fire Alarms Caused by Overheated Furnaces—Need Hose Expander

Fire Chief, W. J. Brown, last evening at the Council meeting presented his report for the year 1923 which was referred to the Fire Committee

The report was as follows:

To His Worship Mayor Mikel and Aldermen of the City of Belleville."

Gentlemen:—

"I beg to submit herewith my report of the Fire Department for the year ending December 31st, 1923.

"During the year the Department responded to one hundred and eleven (111) falarms, which were classified as follows:—

| | |
|---|---|
| Dwellings | 5 |
| Garages | [illegible] |
| Autos | [illegible] |
| Stores | [illegible] |
| Barns and Sheds | [illegible] |
| Factories | 1 |
| Offices | 4 |
| Grass | 7 |
| False Alarms | 3 |
| Outside City Limits | [illegible] |
| Hen House | 1 |
| Store House | 3 |
| Bank Buildings | 2 |
| Armouries | 1 |
| Fire Inspection | 1 |
| Miscellaneous | 8 |
| | 111 |

**Number of Alarms**

"For your information I beg to give you the total number of alarms responded to, and the property losses for the years 1920 to 1923 inclusive, as follows: —

Total fire losses for 1920—40 calls—$41,728.00 loss.

Total fire losses for 1921—48 calls—$18,554.50 loss.

Total fire losses for 1922—64 calls—$17,609.15 loss.

Total fire losses for 1923—111 calls—$30,764.75 loss.

"You will note by comparison with the property loss of previous years that 1923 is considerable in excess of what it was for the years 1921 and 1922. Owing to the large amount of wood, soft coal, etc., that was used as fuel, I find that the increased fire loss is general all over the Province. I sincerely trust that this year will show a big improvement and that our fire losses will be back somewhere near normal.

**Over-Heated Furnaces.**

"During the year sixty-six fire alarms which the Fire Department responded to were caused by over-heat-

## On Trial for Life in Far-Off Japan

The above is one of very few photographs ever made in a Japanese courtroom during a murder trial. Captain Amahasir (standing) is being tried for the killing of Socialists during the big earthquake. His defense is that the Socialists were trying to plunder and kill during the confusion.

### LIVELY RUNAWAY ON FRONT STREET

A lively runaway occurred on Front street this morning but fortunately no person was injured and no particular damage resulted.

A team of horses attached to the Trenton stage became frightened near the Upper bridge and off they started at a lively gait down Front street. At the corner of Front street and Victoria Avenue one of the animals fell, which stopped their wild career. Some portion of the harness was broken.

# OFFICERS ARE INSTALLED AT I.O.F. MEETING

### Ceremony and Subsequent Programme One of Most Successful on Record

### OFFICIALS PRESENT

### Occasion Honored by Presence of Vice-High Chief Ranger McCullough

The annual installation of officers of Court Moira No. 33, of the Independent Order of Foresters took place at the Court room, Front St., last night and the ceremony and subsequent program were undoubtedly the most interesting and successful held by the Court for years.

**Install Fifteen Officers**

The occasion was honored by the presence of Br. McCullough, vice-high chief ranger of the High Court of Eastern Ontario who acted as chief installing officer.

Following are the officers installed:

Chief Ranger—A. Tapp.
Past C. P.—A. H. Harrow, D.G.C.R.
Vice C. R.—L. Kirkland.
Orator—J. Banfield.
Fin. Secy.—C. L. Walters.
Rec. Secy.—S. S. Finkle.
Court Deputy—J. O. Herity.
Sr. Woodward—W. T. Taylor.
Jr. Woodward—Mr. Turlong.
Sr. Beadle—Leo Rees.
Jr. Beadle—D. McKinnon.
Trustees—R. Clarke and B. Sanford.
Auditors—P. Skinner and S. S. Finkle.

After the completion of the ceremony, Bro. McCullough was tendered an enthusiastically endorsed vote of thanks for the able manner in which he had carried out the work. In response the Vice-high Chief Ranger gave a brief but inspiring message to the Court

**Receives Veteran's Jewels.**

Other interesting features of the meeting were the presentation of Veteran's jewels to Bros. Chas. L. Walters and A. H. Harrow and the gift to Bro. Percy Skinner of a past chief rangers' badge.

Bro. Lauder, who has been doing splendid work as organizer and canvaser for new business the past two months at Belleville, gave a brief address showing the desolute financial stability of the order and giving an account of his success in bringing in new recruits for Court Moira. His work was

### NEW COMMITTEES

### Two By-laws Creating Power and Labor Committees Given First Reading

At the Council meeting last night a by-law was introduced by Ald. W. R. McCreary and passed through its various stages confirming the assessment of 1923 as the assessment for 1924.

The effect of this by-law will be that the estimates for the year can be prepared in the near future and the collecting of taxes take place in the spring rather than late in the summer or early in the fall. A considerable saving in interest will be effected.

**Two New By-laws**

The two by-laws creating power and labor committees of the City Council were given their first reading and then referred back for further consideration by the members.

The by-laws will no doubt pass the council at the next meeting as the members are favorably impressed with their importance.

**Endorse Edna Fatley**

The recommendation from the Executive Committee of the City Council that Miss Edna Fatley be appointed tax collector of the city unanimously endorsed by the Council.

Her salary will be $1,500 per annum.

A by-law was also passed authorizing her to collect taxes this year for all municipal purposes. Miss Fatley succeeds her father the late Mr. J. M. Fatley who was tax collector for some time.

**Resolution of Sympathy**

Ald. A. E. LaRoche moved, seconded by Ald. W. R. McCreary that the Council regrets the loss of one of its oldest employees in the death of Mr. Abraham Barriage and expresses its condolence to his widow and family.

# MOVE IN SIGHT FOR CORBY BATHS

It is just possible that something will be accomplished this year in regard to the establishing of the Corby baths off Victoria Park.

Since the death of the Late Hon. H. Corby some years ago, $3,000 and interest thereon has lain in the bank this amount being one of the late Senator's bequests.

At the City Council meeting last night the following motion was unanimously adopted:

Moved by Alderman W. R. McCreary, seconded by Ald. S. H. Treverton, that the City Engineer be instructed to prepare a plan for the Corby baths at Victoria Park, making provision for children for persons desiring to learn to swim, and for swimmers also plans for dressing rooms and prepare estimates of the costs thereof and submit same at the next meeting of the Council

### ICE HARVEST GOOD AFTER COLD SNAP

A few days ago the indications were that the ice crop in this locality would not be up to the usual standard, but this has been dispelled owing to the severe cold which was experienced on Saturday and Sunday.

Ice is now being harvested on the bay and it is of excellent quality averaging fifteen inches in thickness and clear as crystal.

# WHEELS AGAIN REVOLVING ON BRITISH RAILS

### Railway Strike Settled As Enginemen Resume Work on all Lines

### JOINT CONFERENCE

### Acceptance of Mediation Committee's Plan Follows Apparent Deadlock

London, Jan. 29.—The railroad strike has been settled and the men have decided to resume work immediately.

Late last night when there had appeared to be a hopeless deadlock in the railway strike situation, there came an announcement that a joint conference had begun at 10 o'clock between the railway managers, the Mediation Committee of the Trades Union Congress and J. Bromley, secretary of the Associated Society of Locomotive Engineers and Firemen, and three members of the executive committee of the associated society. The conference lasted until 4.30 o'clock this (Tuesday) morning.

The details of the agreement embody concessions on both sides in allowing for wage rates and full reinstatement of the strikers as regards seniority and position.

The outline as laid down by the Trades Union Congress several weeks was altered in several ways, the principal one being the submitting of future strike plans to a mediating committee before any serious steps are taken to tie up the country's transportation system.

Credit to a large extent for the happy termination of the strike may be given to the efforts of the newly-assumed party in power, headed by Ramsay MacDonald.

Today the transportation system of Britain is rapidly resuming it's normal appearance, and supplies are being rushed to those areas that have been cut off by the tie-up.

### ENGLAND DEFEATS FRENCH HOCKEYISTS

United Press Despatch)

Chamonix, France, Jan. 29.—England joined United States, Canada and Sweden on the list of undefeated hockey teams by defeating France 15 to 2 here this morning in the second day of Olympic Hockey competition.

# BOY DEAD, ANOTHER DYING IS TOLL OF FATAL CRASH NEAR COLBORNE STATION

### Melbourne Hodge, Aged Fifteen Years, of Colborne, Is Instantly Killed When Ottawa Flyer Crashes Into Ford Truck Driven by Clifford Alyea, His Companion—Caught on Level Crossing Just East of Village

### TRUCK REDUCED TO MATCHWOOD; DEAD YOUTH IS DECAPITATED

### Ex-Alderman Harry Thompson, Is Eye-Witness to Fatal Accident—Declares Train Made Remarkable Stop, Coming to Halt in Own Length—Alyea Carried to Cobourg Hospital—Not Expected to Live

Melbourne Hodge, aged 15, of Colborne was instantly killed, and Clifford Alyea, 18, of Colborne was probably fatally injured when train No. 6, on the C.N.R. known here as the Ottawa flyer, crashed into the Ford truck driven by Alyea, yesterday afternoon at 2-30 o'clock, at the level crossing just east of the village.

Young Alyea, who is a son of Dr. Alyea of Colborne, veterinary surgeon and butcher, was hauling ice with the truck, and with Hodge was enroute for a load when struck. The truck was reduced to matchwood.

**Belleville Man Witness**

Ex-Alderman Harry Thompson of this city was an eye witness of the tragedy, which occurred but a short distance east of the depot there. Number 6 was travelling at a fair rate of speed as she is a fast train, and the truck shot up on the tracks without warning. The train made a remarkable stop however, according to Mr. Thompson, who states that it was brought to a standstill in its length, and the crew returned to the scene of the fatality.

Hodge was decapitated and died immediately. Alyea was terribly injured, and bled profusely when carried into the station. He was rushed to Cobourg hospital.

**Snowstorm Probable Cause**

When the accident occurred a snow storm was in progress and this is believed to be partially the cause of the boys' failure to notice the fast approaching train. Just south of the crossing a high board fence looms up, and possibly this also obscures the view of motorists.

Young Hodge was the sole support of his widowed mother, his father having died from war injuries after his return from overseas.

# GIRL WIFE OF OUSTED PASTOR STANDS BY HIM

### Rev. Thomas J. Logan, formerly of Belleville, Resigns in Binghampton

### CONGREGATION LOYAL

### Jealousy Alleged by Mrs. Logan as Cause of Charges—Disclaims Guilt

Binghampton, Jan. 29.—"I'll stand with him until death parts us. No matter what has happened in the past, my husband is a man of God now, and we're going to fight this thing down and live it down."

With eyes glowing and a voice earnest and strained, Mrs. Thomas J. Logan, wife of the Rev. Thomas J. Logan, pastor of the West Endicott Baptist Church, who resigned as the result of charges brought against him last week, told of her faith in her husband of the loyalty of his congregation despite the fact that some members sought to oust him.

Logan resigned after it was charged that he had a love affair with Miss Cora Beatrice Huyck of Oshawa Canada, before he came here a few months ago. The girl accused him of being the father of her baby.

**Charges Jealousy**

"But that was in the past," Mrs. Logan said, in an exclusive interview. "A certain small faction has brought this out because of jealousy. Nearly every member in our church wants Mr. Logan to stay.

"They've pleaded with him to reconsider and remain here as their pastor. They have confidence in him, and, so far as I am concerned, he is everything to me. I know he is good, and that we have been happy, and that's all that counts."

The black scandal which arose this week to enguif the enthusiastic minister, who is a reformed dancing master and prize-ring boxer, came as a result of investigation by another clergyman and by members of Mr. Logan's church.

**Tried to Convert Her**

They allege that Mr. Logan carried on an affair with Miss Huyck, and that ever since he came to Binghampton he has not comported himself in a way proper for a Baptist clergyman.

"But this is the truth of the matter," Mr. Logan told the press. "This girl in Canada was one that I was laboring to convert. I wanted to save her. I tried in every way I knew to put the light of God into that girl's heart. But she was too much. She managed somehow to lead me instead of my being able to lead her. And four days after her baby was born she was married to another man. That shows what sort of a girl she was, and it shows, I'm sure, that it was not I who was the great influence in her life."

(Continued on Page Seven)

# STATIONERY BUYING BEFORE COUNCIL

### B. F. Jennings Requests Appropriation be Divided Among City Dealers

At the City Council meeting last night. Mr. B. F. Jennings addressed the members relative to the dealers in the city in stationery being given an equal share of the business in regard to the purchasing of stationery for the city's use.

The busines, he contended, should not all go to one firm. He (the speaker) was not speaking for the firm he was a member of, but all dealers.

Ald. Greenleaf said he had been approached in regard to this matter by other stationers in the city.

Ald. S. H. Treverton stated that he would see that the purchasing was divided between the dealers in the city.

Ald. Robinson had no objection to other dealers supplying stationery, if the prices were all right. On behalf of the Scantlebury limited he had sold some stationery to the city.

The matter was left in the hands of the Printing and Stationery Committee.

### Turkeys Eat Pearls Then Walk to Market

Madrid, Jan. 29.—Count Romanoes had riches to feed to the birds!

At least his little four-year-old grandson thought so.

The result is that Count Romanoes, who is an ex-premier of Spain, has bought several thousand turkeys in the hope of recovering three hunder pearls. His grandson fed these pearls to a flock of turkeys as they passed beneath his palace window on their way to the Christmas market.

count placed them in an onyx dish on his library writing desk and left the room.

His little grand son was sitting by the window. A flock of turkeys passed the palace. The little boy looked out and saw the owner scattering dried peas and lentils in front of them. He wanted to join the game. So he threw the pearls to the birds.

That night the count had the palace turned upside down. The child failed to understand.

But the next day the little boy again heard turkeys passing. He seized the onyx dish and asked for more of the "little round things" to feed the fowl. The mysterious disappearance of the jewels was explained.

The price of turkeys rose as a result of the count's efforts to get a corner on the market. He purchased thousands of them, had them killed and carefully searched. About a hundred pears were recovered.

## THE WEATHER

Fresh south-westerly winds, mostly cloudy and mild today and on Wednesday.

## COMING EVENTS

Come to the Ladies Society B. L. F. & E. Euchre and Dance at Johnstone's Academy on Wednesday, Jan. 30th, at 8 o'clock. Good prizes. Refreshments. Admission 50c. J-23, 28 29, 30

Bon Ton Orchestra will play to-night at Simpson's Rink. Everybody welcome. Admission 25c.

## Mayor Plans Inquiry Into Methods of Police "Husher"

Toronto, Jan. 29.—Asked to-day regarding his attitude toward the police "husher" on news of crime in the city, Mayor Hiltz, chairman of the Police Commission, stated that he itended inquiring into the situation at the next meeting of the commission.

The case of Miss May Duncan, who was attacked while showing an applicant a room she had advertised for rent; news of which was suppressed at the time, and the murder of Mrs. Martha Crooks, a few days ago, was drawn to the Mayor's attention, and it was pointed out to him that publicity in the first instance might have served to warn others and enable them to be on their guard.

"I am in favor of publicity in connection with matters of public concern, but there may be exceptions in the case of the Police Department," he said. "However, I intend to take up the question at the meeting of the Police Commission on Thursday."

### REFUSE TO PROTECT SLEIGH-RIDING HILLS

The boys and girls of the city who desire to use the hills for sleigh riding will not be protected by having certain streets blocked off for this purpose. A motion was introduced in the City Council last night that at a certain period of the day Catherine street hill, Church street, Stone street and Langham street be blocked for the use of riding down hill, but it was defeated, as the majority of the Aldermen present did not seem favorable to the project

## Dead Cannot Speak to Him, Asserts Minister of Labor

Toronto, Jan. 29.—Hon. Dr. Godfrey, Minister of Health and Labor, declines to take the criticism of W. E. Raney seriously, as expounded in a signed article in the Star Weekly relevant to the doctor's attitude to the O.T.A. and prescriptions.

Interviewed upon the matter the Minister of Health said, laughingly: "I lately visited a political cemetery. There was one small stone there inscribed, 'Sacred to the memory of W. E. Raney, ex-Attorney-General, R.I.P.' I shall not speak ill of the dead, and I do not propose to be alarmed by any spirit message he may give the world. I have not much faith in messages from the Twentieth Plane, and no interest in its inhabitants."

**Daily Intelligencer.**

### BRITISH RAILWAY STRIKE

The prospects for a settlement of the British railway strike are said to be much brighter. Mr. Bromley secretary of the strikers' association, is reported to have approved of the proposals of the emergency committee of the Trades Union congress, and to have personally discussed them with the railway managers. What the terms ar has not yet been announced, but it is highly improbable that anything has been gained by the recalcitrant faction. It is one of those types of strike which not only fail to bring about material improvement, but sacrifice also the sympathy and support of the public, which are worth a great deal. It was staged as a protest against a ruling of the National Wages Board, which has ben accepted by the National Union of Railwaymen as a fair compromise. The Associated Society of Locomotive Engineers and Firemen, with Mr. Bromley at its head, decided to reject the award, and has done its best, or worst, to reduce loyal members of the National Union from their allegiance.

The history of the Engineers' society is interesting. It has always been at loggerheads with the National Union, and has been specially bitter in its opposition to the policies of the executive chief, Mr. J. H. Thomas, now made colonial secretary in the MacDonald cabinet. The strike really is a personal affair, by which Mr. Bromley sees an opportunity of doing injury to the rival chieftain and union. It is likely to prove a boomerang, however, which will result in weakening, rather than strengthening, the Engineers' society.

### RELIEF WITHHELD

The government is being bombarded from all quarters with preemptory demands for relief from oppressive taxation. It would seem as if public endurance has reached the limit, and that all classes, with one accord, are combining in indignant protest. It is not surprising that this should be so. The national debt grows bigger and bigger year by year and the taxation more and more onerous. The war was won over five years ago, but the anticipated relief from the strain of war financing still hangs fire. In fact, things have got worse instead of better, so far as our national indebtedness is concerned. Canada's population is small, and the burden is correspondingly heavy. Other countries, somehow or other, have contrived to reduce their debts and lower their taxation at the same time. The miracle has been accomplished by the old-fashioned method of practicing greater economy. What other countries have done, Canada can do, and the public is wondering when a start will be made.

The gross debt of Canada is close to three billion dollars, costing the taxpayers just $118,183,567 last year in interest charges. This has to be paid before any money is appropriated for running the business of the country. And these administrative costs are staggering. All authorities are agreed as to the main essentials for bringing about an improvement in the economic position of the Dominion. In the first place comes the call for greater economy; secondly, the need for a larger population, and thirdly, the duty of developing our natural resources. The way to attract capital and enterprise, and as a consequence increased population, to this country is to ease the burdens under which industry is struggling. The contrary policy of piling on the taxes to meet increasing indebtedness may serve for a time, but obviously has its limits. Those limits would appear to have been reached. Something different must be tried.

### EDITORIAL NOTES

Two extremes have been brought in cordial unison of late—the ice and coal interests.

—o—

One gratifying feature of the late cold snap is the statement that no damage has resulted to the fruit trees. Yet it may be as well to "touch wood."

—o—

When a man professes personal friendship for another, and at the same time opposes his holding of public office, the latter would not be unreasonable in exclaiming, "Save me from my friends!"

—o—

Allowing Mexican troops to pass through United States territory is an exhibition of a much kindlier spirit than that shown by Uncle Sam toward Canada in its suppression of the Riel rebellion over fifty years ago.

—o—

Sir George Foster, speaking in Toronto the other day, said that liquor cannot be banned by moral suasion. But it must be honestly admitted that there has been a tremendous reduction in its use through that agency during the past generation.

—o—

Recurring instances of cruelty to helpless British waifs placed on Canadian farms, though fortunately infrequent, are utterly abhorrent to all of humane principles; and no punishment should be too severe for any employer found guilty of such conduct where nothing but kindness should prevail.

### WIT AND HUMOR

#### TRY THIS ON YOUR DOC

A printer received an inquiry from a surgeon who wanted bids on several thousand letter-heads, different sizes grades and colors, and he wanted the form held standing.

The printer wrote back: "Am in the market for one operation for appendicitis, one, two, or five-inch incision with or without ether; also with or without nurse. Quotations must include putting the appendix back and cancelling the order if found sound. Successful bidder is expected to hold the incision open for sixty days as I expect to be in the market for an operation for gallstones, and I want to save the extra cost of cutting."

#### IT PAYS TO ADVERTISE—BUT!

A lion met a tiger
As they drank beside a pool,
Said the tiger, "Tell me why
You're roaring like a fool."
"That's not foolish," said the lion,
With a twinkle in his eyes,
"They call me king of all the beasts
Because I advertise!"
A rabbit heard them talking
And ran home like a streak;
He thought he'd try the lion's plan,
But his roar was a squeak.
A fox came to investigate—
Had luncheon in the woods.
So when you advertise, my friend,
Be sure you have the goods.

#### TRAVELLING INCOG.

"John," screamed Mrs. Peckmoore, in the stillness of the night as somebody stumbled over a lower stair, "is that you?"

"No, m'dear," called back Mr. Peckmoore, a trifle unsteadily, "I'm a burglar. Call the police."

#### AS HE WERE

The supply sergeant had just issued the last batch of shoes to the colored outfit. There were plenty of kicks but the loudest and most prolonged came from Private Indigo Snow, who, failing to receive satisfaction elsewhere, betook himself to the captain.

"Cap'n suh," he announced, "mah shoes am too big fo' me."

"You'll have to make the best of it," answered the captain. "Plenty of men have shoes that don't quite fit."

"Don't quite fit!" ejaculated Indigo. "If yo' says 'tenshun, cap'n, Ah comes to 'tenshun. Den if yo' says to right about face Ah right about faces, but mah shoes stays at 'tenshun. Don' quite fit. Huh!"

#### INDEFINITE

Caller—"I want to see Mr. Brindle"
Office Boy—"He's in conference."
Caller—"Hum. When will the conference be over?
Office Boy—"Right after you leave sir?"

## PRESS OPINIONS

### GOVERNMENT CANNOT APPOINT

(MacLean's Magazine)

The old truth is that the civil service is growing steadily and will continue to grow steadily while the present system lasts. Under that system merit in the civil service does not operate. In a private business an executive head can hire, fire and promote his employes. In the government service a deputy head or chief of a department has no actual power to do any of these things. His employes are engaged for him by an outside body; their salaries are fixed by statute; they can only be fired by a government order in council.

And that is the fundemental defect of the civil service. That is why civil service numbers mount into a gigantic, unwieldly, cumbersome, incompetent machine. That is why Canadian taxpayers are gouged of $60,000,000 a year for civil service salaries. That is one of the cardinal reasons for a condition which with allied evils, is at the root of some of the economic ills of this Dominion.

### HOCUS! POCUS! DOMINOCUS!

(Christian Science Monitor)

Perchance it is a good omen that Massachusetts—known far and wide as a stronghold of the anti-prohibitionists—should have been the state to furnish both of the individuals who thought of the winning term "scofflaw", in the contest to invent a term to describe one who drinks liquor made or obtained illegally.

The world fulfils all that specifications which Mr. Delcevare King, the originator of the contest had in mind in offerring it, and on the surface seems a fitting one to add to the English vocabulary—provided it catches the proper imagination.

There will be jokes and jibes a plenty at its expense, but so much the better. If it contains within it will be strengthened and advertised thereby; if it does not, its elimination from the language is simply a matter of time anyhow.

### DELIGHTFULLY UNCERTAIN

Money in the stock market was cheap yesterday. You could borrow it at 4 per cent if you wanted to speculate in stocks. It cost a little more if you wanted it for slower, duller business.

The stock market went up and down like the pulse of a nervous lady expecting a proposal. Gentlemen that are gambling (or as they would prefer to put it, 'investing") don't quite know what is going to happen with General Dawes in Paris and the Labor party in the House of Parliament.

There was some comfort for the farmers, corn and oats going to new prices for the season. Of course, the new high prices come, as usual, after nearly all the farmers have sold their corn and oats.

### NATIONAL RAILWAYS

(Toronto Star)

Announcement is made that the operating revenues of the Canadian National Railways exceeded operating expenses by more than $20,000,000 in 1923. The showing made in the previous year is bettered by $17,500,000. The net returns from operation is increased eight times. The figures are encouraging—as encouraging as any one could expect.

But it must not be forgotten that operating expenses do not include debt charges. To "come clean," the Nationals would have to show a profit from operation which would meet the annual payments on their inflated capitalization. And $20,000,000 only goes part way to do so.

If the publicly-owned system continues to be burdened with the whole debt which was piled up in the old days of exploitation and reckless railway building, it will be many a year, even under the most efficient management, before profits from operation approach in magnitude the charges upon the so-called capital investment.

---

Ottawa.—An increase in the exports of animals from Canada for 1923 is noted in a report from the Bureau of Statistics. During 1923 animals to the value of $12,658,826 were exported, as compared with $10,516,552 in 1922.

HELP FOR YOUNG WOMEN

Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles." — ODELIA HOLMBERG, Box 93, Viking, Alberta.

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

## Music & Drama

### BEARDED FAIRBANKS IN HIS NEW PICTURE

Heavens! Douglas Fairbanks wearing a beard! Honest! In his new picture, "Douglas Fairbanks in Robin Hood," now at Griffin's Theatre. It's a United Artist release, too. It happens while he is being Robin Hood in Sherwood forest, England.

"You can't expect a bandit to shave every day,' said Fairbanks, in discussing cussing the new Fairbanks, in discussing the new hirsute ornamentation. "Villa, even didn't do that. Whenever he had a battle scheduled, he avoided shaving purposely. And think of the advantages Villa had, as compared to Robin Hood. In those days they had no safety razors. Imagine a modern bandit dashing out for a raid without his trusty safety razor. Impossible! Absurd, in fact. Why, he might be away several days!

"Besides, in the good old days of Robin Hood, shaving was a bit of a task. The razors they used were about the size of a butcher's cleaver, and it took a good two-handed man to wield one. So shaving, like bathing, was done on Saturday nights—that is, sometimes.'

In addition to the whiskers, Fairbanks also sports a mustache. It is cut along lines a little different from the one he wore in "The Three Musketeers". The mustache accompanies him all through the production, but like the men who go fishing and hunting, he wears the beard only while he is in the woods.

### Wants Cox Prosecuted

Department of Immigration Recommends Action Taken Against Farmer

Ottawa, Jan. 28.—Prosecution of Henson Cox the Huron country farmer accused of ill-treating an immigrant boy, Charles Bulpitt, who committed suicide, has been recommended to the Huron county authorities by the department of immigration.

### Red Plot is Alleged To Oust Government

Berlin, Jan. 28.—An alleged communist plot for the overthrow of the government was brought to light in the debate of the finance committee of the Wurtemburg parliament, according to advices from Stuttgart. Large quantities of exposives are said to have been seized.

---

The mere fact that a retired farmer is entitled to a rest, won't keep him from getting up before daylight.

Bronchitis Yields To Vicks

DUNEDIN MAN TELLS OF PROMPT RELIEF

Mr. Leo Berrigan, Dunedin, Prince Edward Island, says: "During the winter months I was always troubled with bronchitis and tried many preparations to relieve the trouble. None were successful until I tried Vicks VapoRub. It gives relief in a very short time after application and I can honestly advise sufferers from bronchitis to use this salve."

By invitation of the manufacturers, fifty thousand families in Canada tried Vicks for cold troubles, the only condition being that they would report results. The above is just one of the many enthusiastic reports received.

Vicks VapoRub comes in salve form, and for chest colds, you just apply it over throat and chest and cover with a warm flannel cloth. The body heat releases vapors that are inhaled all night long into the throat and lungs—Menthol, Camphor, Thyme Eucalyptus and Turpentine.

Vicks is also absorbed through and stimulates the skin, aiding the vapors to relieve congestion. Usually colds go in one night and croup is commonly relieved in 15 minutes.

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## CONFIDENCE IN LABOR GAINING

### Course of British Stock Market Held Ample Proof of Stability

London, Jan. 28.—Premier Ramsay MacDonald's Labor Government is winning the confidence of the nation. Friends of the new order point out that the course of the British Stock Market since Tuesday when MacDonald took office is the best answer to those panic mongers who thought the end of the country's prosperity would come with the Labor Government.

### DON'T TAKE THINGS TOO LITERALLY

A man saw the line. "Ink makes men think," in an advertisement and came around, saying he wanted enough to fill a bathtub.

"What's the big idea?" we asked.

"It's for my son-in-law," he answered. 'I'm either going to make him think or drown him."

### COLOR BLIND

"You will have trouble with a dark lady," predicted the fortune teller.

"Think hard, sister and be sure you are right," replied the wise wisdom seeker. "I'm married to a blonde."

### MELVILLE

A very enjoyable time was spent at the dance at Allisonville in Orange Hall on Friday evening. The Bon Ton orchestra Belleville furnished delightful music. Among those present were Mr. and Mrs. A. Ferguson, Mr. and Mrs. Gerald Ferguson, Mr. Geo. Young and Luella, Miss Davidson, Mr. Harry Chase and Frank Vogleang.

Miss Helen McCreary, of Latta, is spending a few days with Miss May Brooks.

Mr. and Mrs. Freeman French and Mrs. J. R. French spent Saturday in Belleville.

Rev. Captain Harston, of Woodville, Ont., a former pastor here spent last week in Cobourg as president of the Bay of Quinte Winter School. Ross Bush of Consecon, was among the delegates.

Rev. D. G. Gardiner exchanged pulpits with Rev. Wolfrain, of Consecon, on Sunday. Rev. Wolfrain preached a most inspiring sermon at the morning service here.

Miss Eleanor Cook, Belleville, visited Rev. and Mrs. Gardiner at the Parsonage a few days last week.

Mr. and Mrs. Will Zufelt and Vera spent a recent Sunday evening guests of Mr. and Mrs. W. H. Anderson.

Mr. and Mrs. Ernest Carley and baby spent an evening last week at Mr. and Mrs. Bride Hough's Burr's, when the bride, Mrs. Harry Hubbs (nee Gladys Hough), was presented with a beautiful wedding gift by the Girls' Club.

Mrs. Will Davern spent the week end at R. Anderson's, of Mountain View.

Mr. W. H. Morton, reeve of Hillier, attended the County Council at Picton this week.

Mr. and Mrs. D. H. Young entertained on Wednesday evening of last week a party of young people in celebration of the twenty-first birthday anniversary of their son George. A most enjoyable time was reported.

Jesse Millar entertained a party of young friends on Tuesday evening. A very enjoyable time was spent in music and games.

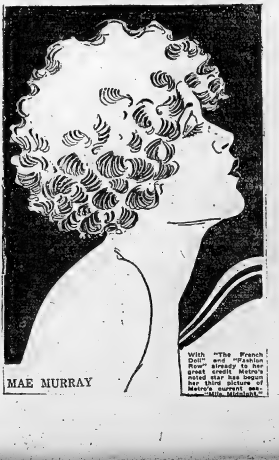
Mr. and Mrs. Percy Chase and Marie spent Monday evening with Mr. and Mrs. W. H. Anderson.

Mr. John Morton spent Saturday evening at John Root's.

Mr. and Mrs. Fred Morton and children spent Tuesday evening with Mr. and Mrs. Will Davern.

Mr. Ernest Chase, of O.B.C., Belleville, spent the week end with Mrs. Harriet Chase.

The many friends here of Mr. and Mrs. Morris Huff, Mount Pleasant, formerly (Miss Florence Johnson, of Melville) were shocked to hear that on Saturday afternoon their eldest son Harry was accidentally shot while hunting pigeons. He was removed on Sunday morning to Picton hospital where the bullet was located by X-ray. It is thought that he will recover.



With "The French Doll" and "Fashion Row" already to her great credit Metro's noted star has begun her third picture of Metro's current season "Mlle. Midnight."

### KEEN COMPETITION HERE

A young matron in whom the shopping instinct was strong asked a German butcher the price of a Hamburger steak.

"Twenty-five cents a poundt," he replied.

"But," she said, "the price at the corner store is only twelve cents."

"Vel," asked Otto "vy don't you buy it down there?"

"They haven't any," she exclaimed.

"Oh. I see," replied the butcher. "Ven I don't have it I sell it for ten cents."

### A CORRECTION

In the obituary notice of Mr. Hugh Manahan, which appeared in yesterday's issue it was stated that deceased was in the employ of the Fruit Machinery Co. It shou'd have said that he was an employee of the Belleville Hardware Company.

## Grand Sacred Concert

A grand sacred coleert will be given in the Griffin Theatre on Sunday evaning next, Feb. 3rd under the auspices of the Belleville G. W. V. A. the proceeds from which will be devoted to the relief fund, on which there is a heavy demand at present. An exceptionally attractive and appropriate program has been arranged in which the best local talent will take part, and the 15th Regimental Band, under the able direction of Lieut. Reg. Hinchey, will offer one of their excellent musical programs so popular with Belleville citizens. Ex-Mayor Charles Hanna has kindly consented to act as chairman and Capt. W. G. Ferguson, returned soldier and well known speaker, will deliver a brief address. The program will begin at the close of the various church services. Silver collection.

## COMES FROM INDIA TO STUDY INSULIN

Toronto, Jan. 29.—Capt. S. S. Sokhey, off the staff of the Indian Army Medical Corps, has come to Toronto to investigate insulin at its source. He called on Dr. Banting and Prof. MacLeod. Rather than to clinical methods, proved in case without end, Capt. Sokhey will devote his attentions to problems of manufacture. It is more than probable that in the near future, instead of depending upon a meagre supply of insulin from England, India will possess her own plants.

Diabetes is quite prevalent in India. Use of insulin in the government hospitals is proving a success.

### BIRTH NOTICE

CLARKE—AT Belleville General Hospital on January 29th to Mr. and Mrs. R. Cliff Clarke, a daughter J29-1td

### DIED

VINCENT—In Belleville, on Monday January 28th, 1924, Florence Vincent, beloved wife of William Vincent, aged 47 years.

The funeral will take place from the residence of her parents Mr. and Mrs. John Harris 29 Herchimer street, tomorrow, Wednesday at 2.30 p.m. Service at the house at 2 o'clock. Interment Belleville Cemetery vault.

### CARD OF THANKS

Mrs. Joseph Gauthier and family wish to express their thanks for the many acts of kindness and sympathy shown them by kind friends and neighbors in their sad bereavement.

## Obituary

### FLORENCE VINCENT

Mrs. Florence Vincent, beloved wife of Mr. Wm. Vincent, passed away on Monday afternoon, Jan. 28th, at the residence of her parents, Mr. and Mrs. John Harris, 29 Herchimer St. Deceased had been ill for the past 15 years with valvular heart trouble and although the most part of the last three years was spent in bed, she bore her sufferings with great fortitude and was always of a bright and cheerful disposition. She was born in the City of Belleville 47 years ago and had lived here all her life.

Besides the sorrowing husband she leaves to mourn her loss her aged parents, also one brother, George of this city, and a wide circle of friends who will deeply regret to learn of her demise.

### ALFRED WANNAMAKER

The funeral of the late Alfred Wannamaker was held on Monday afternoon from the late residence, First Concession of Ameliasburg.

Service was conducted at the house at 2 p.m. by Mr. John Rea, Evangelist, assisted by Rev. Seymour of Rednersville.

There was a large attendance of relatives and neighbors, who congregated to pay their last sad respects.

Pall bearers were Messrs. M. Weese, C. Loveless, W. Hubbs, Lorne Brickman, H. Lamb and E. Brickman.

Interment was made at Albury cemetery.

### OSHAWA WIN 6-5

Bowmanville, Ont., Jan. 29.—Taylor's rink was filled to the rafters last night with enthusiastic rooters to witness the Intermediate O. H. A. game between Oshawa and Bowmanville. It was a close game from start to finish and was the fastest played here this season, and ended in a victory for Oshawa by 6 to 5.

After 12 minutes of play Hefferman scored for Oshawa on a brilliant individual rush and Howe made it two for the visitors three minutes later as a result of combination. Before the period ended Avery scored for the home team after passing the whole defence.

## FIRPO VS. WILLS JULY 4TH, REPORT

Buenos Aires, Jan. 29.—Luis Firpo the Argentine heavyweight said last night that he had accepted and signed headed by Lewis Raymond, to fight Harry Wills on July 4, in a gigantic stadium to be built in the vicinity of capacity of 125,000 spectators.

Firpo says he is to receive $250,000 of which sum he has already received $50,000 as a guarantee. It is understood here that the syndicate which will build the stadium for the Firpo-Wills fight has a capital of $2,000,000 Hugh Gartland, Firpo's representative in the United States is said to have brought the contract to Buenos Aires for Firpo to sign.

A carload of chairs arrived yesterday for the new Belle Theatre and another carload is expected in a day or two. It is expected that the theatre will be opened for business within the next two months.

## Church Union

(Continued From Page One)

sons for the existence of doctrines are too often for secondary considerations," continued the speaker. "The only differences between Presbyterian, Congregational and Episcopal churches is that the Presbyterian church is ruled by the Presbytery, the Congregationals by the congregation and the Episcopal church by a Bishop. The Baptist church though a great church, is not central, for Jesus did not baptize, and Paul baptized but a few, so that they do not present a central saving doctrine of Christian faith.

In the matter of the attitude of the church towards the doctrine, the Presbyterians pledge their ministers to the doctrine by asking them a series of formal questions at their ordination or induction which they must answer before their congregation, and which are invariably answered by their personal interpretation. In this way, the answers given by the narrowest traditionalists may be the same as those given by the broadest materialists, according to their traditions. The heresy trials faced by Rev. D. J. MacDonald and Rev. John Campbell during the life of the Presbyterian church in Canada, and their rightful acquittal were glaring examples of the weakness of this method, and reasons for the subsequent changes of ordination, where the minister who was being ordained, met a group of fellow ministers in an informal talk where his interpretation of the church's doctrine was secured, and not until it was secured was he ordained.

As a result of a period of strife between the Free church and the Presbyterian church in Scotland extending from 1843 until 1905, an act was passed in 1905 whereby the church was proclaimed the sole interpreter of her own belief, wherein the church may state the form in which She accepts her faith, and where She is free to amalgamate with any other church without losing Her identity.

#### Methodists Agreeable

The Methodists have agreed to have no time limit in the pastorate of the United church, as practiced in the Presbyterian church now, but not in the Methodist church, as in many cases it is an injury to separate preacher and congregation. The people will also be given the right to call their own minister. In the United church, provision will be made whereby stations will be supplied for ministers who, after having spent seven years of their lives in preparation for the ministry, find it impossible to secure a charge, and suffer from poverty in silence. Likewise, clever and accomplished ministers who may be misfits in an equally excellent congregation will also be changed before their hearts have been broken by the congregation, to a charge where they will be a real benefit. Where the call system fails, the settlement committee will make the appointment.

#### Second Vote Impossible

In speaking to those Presbyterians who desire another vote on the subject, Dr. Pidgeon stated that there was no place in Presbyterianism for government by referendum. The government, teaching and administration of the Presbyterian church is done by chosen officials, and their decision should be as final as the decision of the Dominion parliament was in 1914 when they decided that Canada would go to war. There was no referendum then, to attempt to upset the courts. Presbyterianism is government by constitutional rights.

When the vote was taken in 1915, 52 per cent. of the people voted and by tens of thousands, declared union to be their will. At the same time 96 per cent. of the elders of the Presbyterian church voted and by a still larger majority voted a similar will. The General assembly consequently accepted Union as a policy of the churches.

#### Honour is at Stake

"We cannot reconsider any decision after action has been taken on it," said Dr. Pidgeon, "For Methodists and Congregationalists have based their attitudes on this basis." They have done and left undone things, while figuring on union which would cause them irrepairable losses if Union were not consumated. They have given up denominational identity in thousands of cases especially in western Canada. Presbyterians have taken it as final also, and throughout Canada in 1245 instances, one congregation has withdrawn its identity for the other and vice versa, but only on the condition that Grand Union was ultimately coming, and only and until it was consumated. In Haileybury alone, the Methodists have handled over $20,000 to the Presbyterian church, on those conditions.

"Can the people of the Presbyterian church, whose word is recognized throughout the world to be their bond in church and business can they now practice a policy of repudiation?"

"We owe much to the Motherland, and we owe much to the republic to the south of us," exclaimed the speaker in closing, "for they have supplied the United Empire Loyalists, but Canadians are different, our problems are different."

Rev. D. C. Ramsay officiated as chairman, and Dr. Pidgeon was introduced by Rev. A. S. Kerr. Mr. James Bankier rendered a solo during the evening, in fine voice, and a vote of thanks was extended to the speaker by Mr. Templeton and Mr. I. L. Moore.

## Hammer Murder Victim Is Buried at Dundas

Dundas, Jan. 29.—Mrs. Martha Crooks, the Parkdale woman who was murdered on Friday, was laid to rest in the family plot in Grove Cemetery here yesterday afternoon.

The body was brought here from Toronto yesterday morning. Relatives who had attended the funeral service in Toronto came to pay their last tributes. They were Mrs. Jennie Smith and Mrs. Nellie Ashton, sisters of the deceased, Mrs. Gladys Fowler and Mrs. G. Delaney, nieces, Mrs. Gladys Gentle, grand-niece, Lawrence and Allen Gentle, grand-nephews, W H Davis and J Urquhart, cousins.

At the Anglican church, Rev. Archdeacon McIntosh conducted the Anglican funeral service. Then the casket was removed to Grove cemetery where he took the service at the graveside.

# Marines On Job At Tokyo Yet

By CLARENCE DUBOSE
(United Press Staff Correspondent)

Tokyo, Jan. 29.—The "Devil Dogs," as the U. S. Marines were christened by the enemy during the World War, are certainly running true to form in Tokyo.

They were among the first in with relief after the earthquake, they're still on the job after almost everybody else has gone, and its a mortal cinch they'll be the last to leave.

They're holding forth at "Camp Cyrus E. Woods"—named after the American Ambassador. "Camp Cyrus E. Woods" used to be the American Embassy. What the fire left of the embassy was a yard full of ashes and a bunch of bricks. A bunch of U. S. marines, sailors and soldiers, in from Manilla and the China Coast on the first relief ships, cleaned away the debris, put up tents and beban to feed folks.

That's "Camp Cyrus E. Woods"—a big yard full of army tents, where used to be the American Embassy. American soldiers, sailors and marines, in uniform, quartered there—the first uniformed foreign forces, whether upon a fighting or a peaceful mission, ever to be encamped in the Japanese capitol—or, even, ever to land here as a unit since Perry's time.

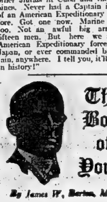
### Driving Trucks

The job of this outfit has been, is, and for some months will continue to be to drive trucks carrying food, clothing and relief supplies—just to deliver all the assistance and relief possible. Which has been considerable.

"Sully" is in command—or, if you want to be formal about it, Captain W. B. Sullivan, U. S. Marine Corps, lately stationed at Quantico, Va., originally hailing from Indianapolis, and in between, having a whirl almost everything from the Philippines to the Argonne.

We were sitting around one night, and one of the leathernecks was talking.

"The C. O. will go down in history," he told his audience of seven marines, six sailors, four soldiers, a flock of Japanese refugee children and myself. "For this reason", he elucidated. "Look at the U.S.A. How many times have we sent expeditorary forces into foreign countries? Well, I'll tell you. We sent 'em to Mexico and Cuba and the Philippines and France—that's all. Always we had a Jinral in command. Had Jinral Pershing once in Mexico and again over with the frogs. Had some other Jinrals in Cuba and the Philippines. Never had a Captain in charge of an American Expeditionary force before. Got one now. Marine Captain, too. Not an awful big army. Just fifteen men. But here we are, only American Expeditionary force ever in Japan, or ever commanded by a captain, anywhere. I tell you, it'll go down in history!"



# That Body of Yours

By James W. Barton, M.D.

### WHY INVITE TROUBLE?

The civilized world to day is honoring Dr. Banting the Toronto physician who discovered Insulin. He has been awarded the Nobel pride because of his aid to suffering humanity.

Insulin is the animal extract that enables the body to utilize the starches and sugars taken in as food, so that the body can be built up.

It means the saving of thousands of lives daily from that formerly incurable disease—Diabetes.

And yet one wonders why more thought is not placed on the prevention of this trouble.

Why should thousands of people yearly be thus afflicted?

What is my thought?

Well, there is no question but that the majority of the cases are caused by overeating. Overeating of starches and sugars.

It is generally acknowledged that certain glands in the body are actually regulators of the quantity of sugar, or other food stuff, that the blood can hold.

For instance, if you eat a great deal of sugar or starch you might naturally think that your blood would be that much richer in sugar. Such is not the case, however. These glands allow the blood to take up so much, and the rest is discharged from the body.

Now these glands do their best, but like the last straw breaking the camel's back, so overeating puts such a tax on them that they are unable to properly regulate the amount of sugar to be taken up by the blood, and the blood does not contain its proper amount.

Thus sugar that should be building up the body, is thrown out as waste by the kidneys, and is found in the urine.

What is my point?

Should we eat less of sugar, flour, and starchy foods?

As a matter of fact if we lived the life our body was meant to live we could indulge in these things without injury.

What's the trouble?

Simply that we don't give the body a chance to use up this great amount of sugar forming food.

It was meant to use it up. It has organs and muscles capable of taking care of almost all we can eat.

You were meant to use your body by work, by exercise. By doing this, these glands would have a normal call on them in maintaining the sugar balance of the blood. They don't mind legitimate needs.

But for you to take on board enormous quantities of starch and sugar and then ask them to maintain the balance is just like flooding your carbureter with gasolene and expecting it to maintain the proper mixture of gas and air.

Now what are you going to do about it?

It can't do it.

It's very simple, but I wonder just whether or not you will do it.

One of two things. If you enjoy eating and have no inclination to cut down on your appetite, then it is up to you to work your body so as to use up the excess food. If you dislike exercise, then it is up to you to cut down on your food.

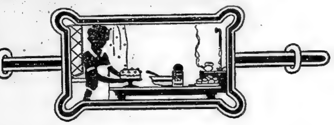
# JAPANESE ROYALTY FIGURE IN WEDDING

Tokio, Jan. 28.—The wedding of the Princess Nagako Kuni and Crown Prince Regent Hirohito, future Emperor of Japan, marked by simplicity and quietude was solemnized Saturday.

# OSHAWA MOTORIST GETS FOURTEEN DAYS

Oshawa, Jan. 28.—Fourteen days in jail together with fines and costs aggregating $24.75 was the portion received by J. A. Faulkner who appeared before Police Magistrate Hind Saturday morning on two charges of driving an automobile while intoxicated, and one charge of reckless driving. On driving while intoxicated charges, two sentences of seven days each were imposed, to run consecutively.

Faulkner had been before the court on several occasions on one charge of driving while intoxicated and only Friday morning his counsel, D.A.J. Swanson, obtained a remand in the case until Thursday of this week.



# Carnation—For Baking

YOU will find Carnation Milk a wonderful aid to good baking. Use it in your fillings and icings as well as for creaming vegetables, making soups and gravies. Serve the coffee with Carnation. Use it diluted in tea (one part Carnation, three parts water.) Use it undiluted with fruits and cereals.

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

Cook with Carnation Milk. Write for our Recipe Book containing over 100 tested recipes.

GINGERBREAD: 6 tablespoons water, 2¼ cups flour, 1 cup molasses, 2 tablespoons Carnation Milk, ¼ teaspoon salt, ¾ teaspoon soda, 1¼ teaspoon ginger, ¼ cup butter or lard. Sift dry ingredients together. Add liquids to molasses. Combine mixtures, add shortening and beat well. Pour into greased shallow pan and bake in moderately hot oven about 25 minutes.

# THIS MOONSHINER IS "IMMOVABLE"

El Reno, Okla, Jan. 29.—Somewhere in the hilly, wooded section of east Texas there is a moonshiner that can't be budged.

Cam Galt, appraiser for the Dallas Federal Land bank, butted into the moonshiner's immibility while doing some work for a Dallas bank.

Driving up to the cabin in the back country Galt found a dirty urchin sitting on the porch.

"Where's pour pa, son?" asked Galt.

"Huntin' squirrels," was the reply. "He'll be back soon."

When Galt returned the original of the youth was sitting on the porch with a double-barreled shotgun across his knees.

"You are aware," said Galt, "that the loan company has foreclosed on this land some time ago and ordered you to vacate."

The grizzled owner admitted it.

"You have refused to obey orders and I am here to give you final orders to get off," added Galt.

The old man rose, leaned his gun against his side, and spoke positively:

"I ain't moved and what's more, I ain't figgerin' on mo'vin.'"

Galt applied to the sheriff for advice "Yes, sir," said the official, "the old man can be moved, but it would probably take half a dozen men to do it and then somebody would probably get shot up. I'll tell you what you do. I am going out of office pretty soon and don't care to see anyone killed. Talk to my successor about it. Maybe he can give you some encouragement."

Galt indicated the old moonshiner was still "hunting squirrels."

Campbellford, Jan. 29.—J. S. Stewart, manager of the Standard Bank, Campbellford branch, is at Pasedena, California, on vacation.

# Here and There

A new record has been established by the Department of Marine and Fisheries in the number of white fish eggs collected for hatchery purposes in the Great Lakes and the Lake of the Woods. A total of 464,560,000 eggs were obtained, which exceeds all previous collections in the province of Ontario.

A new deposit of soapstone has been discovered on Trap Lake, a small lake south of Wabigoon Lake, in northwestern Ontario. The quality of the stone has been reported as excellent for various industrial uses, and practical trials are under way. Water transportation is available direct from the deposits to Wabigoon and Dryden, on the main line of the Canadian Pacific Railway.

It is announced by the Canadian Pacific Railway that two free scholarships covering four years' tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University, are offered, subject to competitive examinations, to apprentices and other employees enrolled on the permanent staff of the company and under 21 years of age, and to minor sons of employees.

Canada's fisheries' production during 1923 is estimated to be worth $40,000,000. At the beginning of the year it was not thought that anything like this mark would be reached, for the Fordney tariff had cut deeply into exports to the United States. But as the year wore on the demand and prices generally improved, thus giving fishermen along the Atlantic coast especially a much better market.

Approximately $5,000,000 will be spent by the Dominion Coal Company to open up a new mine and colliery at Lingan, Nova Scotia, and construction of a branch line of railway to the new site has already been started. The new colliery will be equipped with every modern device, and a model town will be planned in its vicinity. It will have a capacity of some 2,000 tons daily.

The tenth annual Ski Tournament will be held at Revelstoke, February 5th and 6th, in connection with which ski-joring, tobogganing, snowshoeing, skating, etc., will be featured An endeavor is being made to secure the attendance of Uno Hilstrom Sweden's champion ski-jumper, as well as other famous ski-jumpers from both Canada and the United States.

Canada in 1923 produced more coal, lead, cobalt and asbestos than during any other year since mining records have been kept. The output of coal was in the neighborhood of 17,300,000 tons, or 635,000 tons better than the best previous record and 2,000,000 tons over that in 1922. The output of copper, nickel, cement and asbestos was also much above that for the preceding years. Gold production was down somewhat, but this was due more to a power shortage than anything else.

As a result of efforts on the part of Hon. J. A. Robb, Minister of Immigration and Colonization, a 20 per cent. preference rate on Atlantic passages for all British immigrants settling in Canada has been arranged to come into effect on March 1 and continue until the end of the main immigration season at the end of November. It will apply only to British immigrants coming direct to Canada from the British Isles, and will affect all lines coming to Canadian Atlantic ports.

Three delightful cruises have been awarded to agents of the Canadian Pacific Railway for services rendered the company during the past year. One of them, J. J. Forster, general agent at Vancouver, will sail on a round-the-world cruise on the "Empress of Canada"; W. C. Casey, general agent at Winnipeg, will spend sixty-eight days cruising the Mediterranean on the "Empress of Scotland," while D. R. Kennedy, general agent at Buffalo, will enjoy a twenty-nine-day cruise in the West Indies on the "Empress of Britain." The trips were awarded by the company in recognition of last year's work in connection with cruise bookings.

"Wonder what an idle Telephone thinks about?"

"FUNNY, how people calling us by Long Distance always ask for the chief!

"So unnecessary! If they asked for '*Anyone*' at this number, they would save almost 20 per cent and accomplish the same result. The boss is always within call anyway—it's so easy to ask him to speak if he is needed when a call comes in!

"For myself, I like *Station-to-Station* service. It's so quick and effective that every one is pleased; no waiting for someone who can't be located. And they say it's 20 per cent cheaper too!"

# COULD HARDLY DO HER WORK

**Well-Known Kingston Lady Tries Dreco as a Last Resort and Finds Its Benefits Truly Wonderful. Distressing Symptoms are Rapidly Disappearing Before the Corrective Influence of This Sterling Remedy.**

Mrs. C. Dafnas, of 286 Princess street, Kingston, who is well-known to patrons of her husband's fruit and confectionery store on Princess street was a great sufferer from digestive complaints till Dreco came to Kingston. Her statement, which follows, shows the beneficial effect of Dreco's pure herb, root, bark and leaf juices on her run-down system.

"My stomach and liver have been out of order for about a year and while I had taken all kinds of medicines, I kept getting worse instead of better until I got Dreco, which has done me more good than anything I have ever taken.

"No matter what I ate, gas would form on my stomach and make me so miserable that I could hardly do my work. I had a dull, tired feeling all the time and everything I did was an effort to me. My nerves were bad and the least sound would startle me.

"I was also troubled with bad dizzy spells which I knew meant that my liver was out of order. I kept worrying so much about my condition that my whole system became run-down.

"I have only taken three bottles of Dreco, but the good it has done me is wonderful. My appetite is much better and I hardly ever have any more dizzy spells. My nerves are steady too and I feel much better in every way. I am so thankful for what Dreco has done for me that I gladly recommend it to anyone suffering as I did."

Time and again does Dreco prove its reliability as a corrective for ailing stomachs, weak kidneys, sluggish livers and inactive bowels. It tones and regulates each one of these important organs and purifies the blood. Dreco contains no mercury, potash or habit forming drugs and is safe and pleasant to take and prompt in action.

**Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.**

## CONSECON

School re-opened on Monday after being closed the previous week on account of diphtheria.

Mrs. Roy Taylor and Margaret spent Wednesday at Mr. and Mrs. W. W. Ward's.

Miss Marion Bush spent several days with her aunties, the Misses Bush, Northlakeside.

Mr. Kenneth Damford from near Belleville is employed in the Bank of Nova Scotia here. Mr. Damford is boarding with Mr. and Mrs. Harry Chase.

Mr. Gerald Land of Oshawa spent the week end at Mrs. Ward's and called on Miss A. Booth.

Miss Era Hickerson, Little Kingston, spent the week end with her grandparents, Mr. and Mrs. Ben Hickerson.

Mr. and Mrs. Rufus Howe are visiting friends in Bloomfield.

Mr. and Mrs. Frank Jones and Kathleen spent Sunday at W. W. Miller's.

Miss Mavis Kenny was tea hour guest of Miss Marjorie Thompson on Sunday.

Miss Rora Burris of Hillier spent Sunday afternoon and evening in Consecon.

Miss Irene Reddick of Oshawa is visiting at Mr. and Mrs. W. W. Miller.

Johnston City, Ill., Jan. 28.—Thirty workers were known dead today in Little Egypts latest mine horror. Twenty-eight identified bodies, two unidentified, two missing and eight badly injured were the toll of an explosion of mine gas Friday afternoon in the east side mine of the Crerar-Clinch Coal Co.

## MOSCOW DEMANDS ITALY STAND PAT

Rome, Jan. 28.—Moscow has sent a note to Rome declaring Italy must decide immediately whether or not it recognizes the Soviet.

# Chateau Frontenac Team Leader's Long Journey

Mountie, veteran husky, leading the team, outside Chateau Frontenac. Inset, Mountie.

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long trails are embodied in Mountie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Mountie is a husky, in other words, part wolf and his wolf strain shows itself in his handsome head, with its sharp ears and nose, its steel-hard, flaming eyes, its gleaming fangs and its great ruff of fur. He is a dark grey giant, almost one hundred weight of muscle, bone and sinew, ferocity, grim determination and unwavering fidelity. He was born away up within the Arctic Circle, at Lac-du-Brochet, bought in 1919, when very young, by Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force, running patrols on His Majesty's Service with the red-coated heroes of the waste.

The journey from Le Pas, in Northern Manitoba, where he was purchased, to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience for Mountie. He spent Christmas Day at Winnipeg, where the kind-hearted officials of the Canadian Pacific offered him seasonal fare, which he did not like much, except as a dessert following a meal of his accustomed fish and biscuits. He made friends with the baggage men, who were more than sorry to part with him. At Montreal, he had a day's rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughnawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and will no doubt shine brilliantly at the forthcoming carnival

# BELLEVILLE SQUAD GROUP CHAMPIONS

## Locals Come From Behind To Win Great Game From Brockville Squad; Finkle's Shooting Brings Victory

### Belleville Team, Trailing 2-0 at End of First Period, Stage Rally in Second and Rush Heavy Line of Visitors Completely Off Their Feet—Final Score Reads 3-2 in Locals' Favor

### ENTIRE TEAM STARS ON ICE; FIFTEEN PENALTIES HANDED OUT

### Kinghorn, Holloway Brothers and Murray Star for Brockville—Goal Tending of Murray Prevents lop-sided Score—Belleville Had Visitors Worn Out by Dazzling Speed at End of Second Period

Pitted against the strongest opposition they have met this season and fighting an uphill battle until near the close of the second period, the local intermediate squad showed the fans last night why they have reached the top rung in their group without a defeat, and made their nineteenth straight win in three years.

**Score No Indication**

The final score was 3-2, in Belleville's favor, but the score does not indicate in any way how the locals smothered the visitors for two periods. With the exception of the first twenty minutes, the puck was in Brockville's territory and only Murrays' wizardry in goal kept the score down. The thin red line was always attacking and checking, and Finkle went down in the local hall of fame as the champion long distance goal getter when with the score two to one for Brockville, he lifted one from center ice and rifled it into the net, tying the score. A moment later he duplicated the feat to show that there was no question of luck in it, and scored the winning goal.

**Hard Team to Beat**

Brockville was a hard team to beat. From the tap of the gong they showed that they wereout there to win and the Holloway brothers, with Belleville last year, were easily the stars for the visitors. These two boys are a hard checking, fast skating pair and were mainly responsible in putting Brockville in the tally column. Higgins, sub, played any position on the ice with equal ability and his poke check was deadly in stopping the Belleville attack. Many times a Belleville player would be robbed of the puck by this player coming from nowhere and he was the freshest man on the squad when the final gong sounded.

**Kinghorn Injured**

Kinghorn, before his injury near the close of the second period, kept the locals busy trying to keep pace with him, and his loss was keenly felt by Brockville in the last period. Colliding with Green before the open net after stick-handling his way through the defense, he was heavily thrown on the ice and his shoulder dislocated by the fall. The collision was entirely accidental, both boys traveling at top speed and unable to stop.

**Fifteen Penalties**

Fifteen penalties were handed out during the game, Belleville getting six free rests and Brockville nine. The game was no pink tea, and the checks handed out were hard and often. 'Soup' Goyer, when playing center ice while subbing for Hagerman, and defense when Green was temporarily indisposed by a hard tumble, gave as good as was sent, after the first few attempts to check him, Brockville evidently decided it was safer to 'go easy' with him.

**Offsides Frequent**

Offsides were frequent, and Referee Jerry Laflamme let very little get by him in this line. It was a hard game to handle, but Dr. Laflamme did it in good style. Rodden and Laflamme both old hockey stars themselves, have given good accounts of their ability on their appearance here.

**Motto For Local Club**

After a size-up of the Brockville squad, following two hard games with Queens heavyweights, the motto of the local club might well be "The bigger they are the harder they fall". That light forward line don't recognize weight, and are in there all the time mixing it with a free good will toward all the sundry. The secret of success with the local squad seems to lie in their co-ordination when carrying the puck, and working together to get goals and not the penalty bench. Finkle, with his two goals, was the star of the game last night, but every man on the Belleville squad was in there working, and in reality there were six real stars on the ice all of the time. It was no disgrace for the visitors to go down to defeat; they were simply up against a combination of ability, pluck and attack that couldn't lose anywhere.

**Bill Green Good**

Bill Green never played a more brilliant game than he did last night. He was all over the ice, and when the Brockville bombardment started in the first period he was the big man in keeping Nurse clear. Only the hardest kind of luck and Murray's unbeatable goal tending prevented him from getting on the score sheet, and his stick-handling when carrying the puck was pretty to watch.

**Frechette Starts Rush**

"Bunny" Frechette's long rush at the start of the second period, resulting in Belleville's first goal, was the prettiest play of the night, and the fans nearly lifted the roof from the arena when the puck hit the net. Frechette, lone-handed, slipped the puck away from Kinghorn in center ice and weaved his way through the entire Brockville line to reach the goal. Murray never had a chance to get near the rubber.

**Trio Are Active**

Weir, Hagerman and Whalen, with their poke checking and fast skating, were a big factor in holding down the Holloway brothers. With this line always in evidence, the big fellows had little chance to get set for any kind of a star play, and many times the puck was taken from them before they could get any headway.

Nurse played his usual perfect game. Both tallies made by Brockville were earned, and during the first period he guarded the net in the way that has earned him the right to be called the best in the group.

**Brockville Scores**

Brockville started the scoring in the first minute of the play when Kinghorn and Holloway combined in scramble in front of the net to get the puck past Nurse. From the start of play offsides were frequent, and referee Laflamme was close in checking them up. Whalen made a pretty rush immediately after the tally, and missed knotting the count by the smallest fraction. For a while the players and fans alike thought he had scored, but it was ruled the puck had struck the post instead of the net.

At this stage 'Toots' Holloway combined with Kinghorn in a pretty play, Kinghorn shooting the puck across in front of the defense, leaving Holloway a clear shot for the corner.

The score at the end of the first period was Brockville 2, Belleville 0.

**Frechette "Goes Over"**

The second period was ushered in with a bang by Frechette, when right after the face off he wriggled through the Brockville line and drove one true into the corner. It marked the beginning of the end for Brockville, and earned a great hand from the crowd.

Goyer relieved Hagerman at this stage, and immediately announced his presence by stepping into the visitors with a free good will, and stick-handling his way to the Brockville goal, only to lose the puck in a wild scramble in front of the net.

**Finkle Registers**

Finkle then started his sharp-shooting. Picking up the rubber from his position in defense, got as far as center ice, when he saw a likely opening and letfly. It was a hard shot, dead center, and was in the net before the visitors knew what had happened.

**Penalties Given**

Holloway and Whalen were given a free rest at this time and were interested spectators a moment late when Finkle again let the puck go in center ice for a rifle shot at the goal. The drive was so hard that the disk bounced twenty feet out of the net before touching the ice. This tally put Belleville one to the good and proved the shot that gave them the group title for 1924.! The rafters quivered when the fans let loose then.

Brockville seeming to realize that the 'little men from Belleville' were going to make a runaway of the game unless stopped, tried to stage a rally, and it was when near the goal that Green and Kinghorn collided, Kinghorn receiving his injury which may put him out of the game for the rest of the season.

**More Penalties**

Penalties began to be the order of the day, Whalen and Burt taking a two-minute siesta, then Holloway and Finkle. Five minutes later Finkle was again warming the penalty seat in company with Higgins.

The score at the end of the second period was Belleville 3, Brockville 2.

The third period found the Brockville squad a very tired sexfette, and barring a few flashes, the play was all Belleville. Twice in the first minute of play Murray was called on to stop shots that were labelled goals, and during the period was bombarded from all angles.

**Green Takes Count**

Green collided with T. Holloway in a scramble for the puck in front of the net, Green going down for the count. A few minutes later he was back on the ice, however, and stepping into them as hard as ever.

Finkle turned loose another long shot at the Brockville net, but Holloway's head caught the puck, knocking him dizzy for a while.

The gong rang with Hagerman and Holloway in the penalty box for tripping.

The final score read Belleville 3, Brockville 2.

**The Line-Up**

The line-ups were:

Belleville—Nurse, goal; Finkle, r.d.; Green, l.d.; Frechette, r.w.; Weir, l.w.; Hagerman, center; Whalen, Goyer, subs.

Brockville—Murray, goal; B. Holloway, r.d.; Burt, l.d.; Guest, r.w.; Kinghorn, l.w.; T. Holloway, center; Higgins, Miller, Ellis, subs.

## CANUCK OLYMPICS SMOTHER SLOVAKS

### Dunc. Munroe's Hockey Team Blank Opponents 30-0

Chamonix, Jan. 29.—Canada defeated Czecho-Slovakia 30 to 0 in their Olympic hockey game yesterday.

Canada led by 8 goals to nothing at the end of the first period.

**Yanks Win Too**

The American team made an auspicious and impressive start in the hockey matches by beating the Belgian team 19 to 0.

"It was a set up" match for the Americans but even against poor opposition they showed form to justify the complimentary things that the experts have been saying about the team.

The United States simply toyed with the Belgians and after the first period Manager Haddock sent on several substitutes.

**Sweden Winner Too**

Sweden won the first of the Olympic hockey matches here yesterday, defeating Switzerland 9 to 0.

There was a little enthusiasm here about any of the matches excepting those in which the American and Canadian teams play, as it is considered almost certain that they will get through to the finals.

## ON THE ALLEYS

Yesterday afternoon at the Y alleys the O. S. D. and the Breezes met in a league fixture but the wind did not blow very hard as the Breezes were down 242 pins at the end of the three games. The typhoon and zephyr were very mild while the O. S. D. rolled their steady game all the way. Miss Aitcheson of the O. S. D. was the high single and three string of the day, with 189 and 437 respectively.

| O. S. D. | | | |
|---|---|---|---|
| Miss Gillanders | 96 | 108 | 135—339 |
| Miss Sinnott | 100 | 144 | 120—364 |
| Miss Blakley | 117 | 140 | 75—332 |
| Miss Aitcheson | 166 | 82 | 189—437 |
| Miss Churchill | 127 | 108 | 133—368 |
| | | | 1840 |
| **Breezes.** | | | |
| Hurricane | 96 | 139 | 162—397 |

FANNING WITH FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 28 (United Press).—Information obtained recently from the Pacific Coast supports the private opinion expressed some time ago that the annual New Year's Day football game at Pasadena will be abolished.

Promoters of the Tournament of Roses Committee, who stage the annual game, have not gone cold on football as a drawing card, but the difficulty in getting teams to play in the game is becoming increasingly great.

Pacific Coast teams are opposing the idea of being exploited for the profit of a private enterprise and in this opposition they are beginning to take the stand that was adopted several years ago by the real reputable and high standing eastern universities.

The big eastern universities and the members of the western conference feared that in accepting expenses and a certain guarantee, as a share of the gate receipts they were stepping dangerously close to the professional classification and that they were guilty at least of commercialization of their name.

Trainers and coaches of the big teams opposed the idea, after some of them had had the experience of making the trip because it was too much of a physical strain on the team and that nothing was to be accomplished by keeping a team in training more than a month after the close of the regular season.

The University of California, with a championship team, has twice declined an invitation to represent the west in the tournament of roses game and conditions are said to have become such that the Pacific Coast conference may "outlaw" the game.

According to newspaper reports, Commander Byron McCandless insisted so strongly in having some concessions made that some of the officials of the committee threatened to go to Washington to "get him."

As far as the east is concerned, the Pasadena game is definitely dead. The Navy-Washington game this year was practically ignored in the east through the general belief that the game meant nothing.

It a game on the regular schedule could be arranged between eastern and far western teams and could be played under the auspices of college authorities, something could be accomplished.

It is probable that such games will be arranged in the future. Many of the big eastern teams arrange an open date on their schedule just preceding their last and biggest game of the season. This arrangement might be made so as to provide for a trip to the Pacific Coast.

The eastern team, for instance, could arrange a game on the coast for the last Saturday of November and leave the preceding Saturday an open date. Some time would be lost from students however but plenty of time is lost under the present conditions.

• • •

Think of all the words that would be wasted, the time that would be lost and the hot air that would be gone if Charley Paddock is declared eligible for the American Olympic team and—doesn't make the team.

One American Legion post asked that the A.A.U. be boycotted because it had insulted an American soldier and another American Legion post in California praised the A.A.U. for trying to discipline Paddock, a "prima donna amateur."

The Legion ought to get one story and stick to it.

The executive committee acted wisely in suggesting that if something should be done to penalize a team for being strong in the field events, that more events should be staged on the track.

Since the hammer and discus throws are major events on the program for the Olympic games, it would not be wise to discourage American college stars from developing efficiency in those events just to annoy California.

• • •

Several benefit shows are being suggested to raise money for the relief of the widow and three small children of the late Billy Misko, the St. Paul heavyweight. Miske, once well to do left an estate of less than $3,000 to his family.

The big thing is that while he was once well equipped financially, Miske didn't dissipate his funds away. He tried to get himself established in the automobile business so that he could retire from the ring and conserve his failing health. He lost every cent he had in business and he sacrificed his life by going back into the fight game in the desperate attempt to get a stake for his family after he had gone.

Miske was a credit to boxing and his memory is deserving of something very substantial. There is a heart in boxing, a big heart under a homely surface, and the game can show its heart by promoting and contributing to some substantial benefits for the cause.

The heavyweight champion of the world is duty bound to contribute at least his services in a benefit performance some place, because it was he who dealt out the punishment to Miske at Benton Harbor which hastened his end.

• • •

The nice things that John McGraw said about Frank Frisch being the best ball player in the National League and a bigger asset than Rogers Hornsby weren't half as nice to Frisch as the proof that McGraw presented to support his opinion.

Frisch was working on a $12,500 contract that expired at the end of the 1923 season. When he visited McGraw recently to look at a new paper his boss handed him one that called for $18,500.

Did he sign

You would, too!

• • •

McGraw said recently he had figured up by placing a fair estimate on the value of the players demanded for Rogers Hornsby that the Cardinals considered him as being worth more than a half-million dollars.

If Hornsby, good ball player that he may be, is worth $500,000 what in the name of common sense would Babe Ruth command if the Yankees should put him on the block?

The Babe is not only a more valuable man as a player, but draws more customers in one month on the road than Hornsby would in a season. Hornsby is a great ball player, but he has a rather drab personality.

Count the times you have heard it said: "Let's go out and see Ruth," and then recall if you ever heard of anyone taking an afternoon off to see Hornsby.

### BELLEVILLE HIGH SCHOOL DEFEAT KINGSTON COLLEGIATE

The High School Basketeers journeyed to Kingston Saturday last, and in a hard clean game defeated their Kingston rivals by one basket. The final score was 19-17. Kingston were three points up at half time, but Belleville came back strong and held the lead after that. The return game will be played in Belleville in the near future.

Lineup:

Forwards, Crawford (6); Brunke, (4); contre, Jenkins (2); defence, Graves (2); Kendrick (1); sub, H. Smith.

B.H.S.—Forwards, Barlow, (6); Faulkner (4); center, Cole (4); defence, Weir, (3); Deroche; Sub, Moffat (2). Referee—Mr. Bews.

### TRENT VALLEY LEAGUE

Campbellford will meet Hastings at Hastings on Friday evening and as both teams are fairly evenly matched, a real game is expected. Perry Saunders will be in goal for Campbellford.

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

Mrs. (Dr.) Gerald A. Morton, formerly Freeda Myles, of Hamilton, will receive for the first time since her marriage, on Wednesday, January 30, from 4 to 6 o'clock at 138 Victoria Ave. 26&29

Mr. and Mrs. Alf Gillen and Mr. Fred Foster of Chicago are guests at the Waldorf-Astoria New York.

Mr. S. H. Alyea, West Moira street left today on an extended visit to Bay City, Mich.

Mr. Charles Dolan is in Toronto today on business.

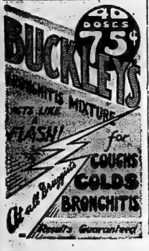
Calgary—The termination of 50 years of activities in Western Canada, with the clearing up of all indebtedness and with a cash balance in hand, was the gist of the report of the Executive Board of the Baptist Union of Western Canada in session here.

Winnipeg—Urging Western Canada lumber men to become propagandists for the Dominion, E. W. Stacey of Medicine Hat, Alta., made a strong plea for increased immigration at the Western Canada Lumber Men's Association convention.

Capetown South Africa, Jan. 29.—The British Government is being urged to construct a huge trading and naval base at Capetown, in place of the projected base of Singapore.

It is pointed out that with the rapid development of Africa particularly South Africa, Capetown is likely to become one of the most important points of the Empire communication line.

The Cape Times says that construction at Capetown would be cheaper than at Singapore.



## Whispers From the Silver Sheet

Mae Murray, whose latest Metro picture is "Fashion Row," was on a shopping tour in Los Angeles last week when a young bride, who was apparently, unaccustomed to buying men's wear, rushed into the men and women's wear store and went up to the salesman who had finished waiting on Miss Murray.

The young woman told the salesman what she wanted, but when he asked what sizes, she answered, "I don't remember what size his socks are, but he wears a number fifteen collar."

And Miss Murray says the young lady could not understand why the clerk and all other people about her burst out laughing!

"Fashion Row" was written by Sada Cowan and Howard Higgin. It is a Robert Z. Leonard presentation through Metro and is sponsored by Tiffany Productions of which Mr. Leonard is director-general and M. H. Hoffman, general manager.

The story is that Barbara La Marr was on location with Ramon Novarro and others of the company filming scenes for Fred Niblo's new Metro production, "Thy Name is Woman." Lunch was served the company in a cabin near where the scenes were being taken.

Miss La Marr observed a well-executed portrait on the wall of a dark room in the cabin, and asked whose picture it was.

"That's my husband," said the woman of the house, carelessly.

"But it is hung with fatal effect," urged Miss La Marr, whose artistic sense rebelled.

"So was my husband," snapped the woman. And no more was said about the portrait.

"They Name is Woman," was adopted by Bess Meredyth from the famous Broadway success. It was photographed by Victor Milner. It is a Fred Niblo production under Metro-Louis B. Mayer auspices. Ben Carre, noted art director, designed and erected the sets.

Jackie Coogan's Dad tells an amusing story of his young son whose first starring picture for Metro is "Long Live the King." When Jackie was younger he was once told that polite people did not talk about their ailments in company or outside the family.

So one day when a visitor asked Jackie if he was well. Jackie answered her, "Well, in the family I have a stomach ache, but in company I'm quite well, thank you."

"Long Live the King" was directed by Victor Schertzinger. It was adapted by C. Gardner Sullivan and Eve Unsell. J. J. Hughes was art director and William Van Brincken was director of research. It was photographed by Frank Good and Robert Martin. It was produced under the personal supervision of Jack Coogan, Senior.

## THESE ACTORS ARE OVER REALISTIC

Toronto, Jan. 29.—D. H. Smith, one of the Cameron Matthews players, while enacting a fall on a flight of stairs Saturday night, during the performance, rather overdid the fall with the result that later he was taken to the General hospital with a serious injured hip.

Walter Kingsford, another member of the company, who took the part of Dr. Lakington in the third act also had a mishap during a scuffle. He cut his thumb on a broken bottle, the cut necessitating three stitches.

Indigestion

The most discouraging feature of nervous indigestion is the fact that it does not tend to right itself.

The nerves continue to grow weaker and weaker because the digestive system is not supplying proper nourishment and the digestive system fails for lack of nerve force.

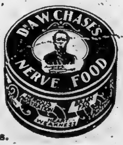
The nerves must be restored by some other means and this is where DR. CHASE'S NERVE FOOD comes to the rescue.

It revitalizes the wasted nerves and builds up the nervous energy which is essential to the healthful working of the digestive system.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills.

Edmanson, Bates & Co., Ltd., Toronto.



New Box 60 Pills 60 cts.

## Here and There

That the average weight of Alberta's 1923 wheat was 64 pounds to the bushel, or four pounds more than the standard, is the statement of George Hill, Dominion Grain Inspector at Calgary.

The season of navigation for the year 1923 is the longest since the year 1814, or 109 years ago, according to a statement made at Quebec by Captain J. E. Bernier, Arctic explorer.

Two-thirds of Canada's exhibits for the British Empire Exhibition are now in England, most of these being already at Webley. Among them is a monster silver nugget, weighing nearly three tons, the biggest ever unearthed, which was dug up in Canada.

Twenty-nine million pounds of halibut were landed at Prince Rupert, B.C., during the past year, with figures for the month of December incomplete. This total is considerably in excess of the previous year. Several large shipments were made to Chicago and other middle Western States' points.

E. W. Beatty, President of the Canadian Pacific Railway, has accepted the honorary presidency of the Province of Quebec Safety League, succeeding the late Lord Shaughnessy, who was its first honorary president. The object of the League is to institute safeguards for the protection of life, especially children, providing protected playgrounds and streets.

It is estimated by the provincial tourist bureau of the Province of Quebec that 125,000 American automobiles visited the province in 1923. Of this number 40,000 travelled over the King Edward Highway, the principal route of automobilists from across the border motoring to Montreal and a record in the annals of that thoroughfare as regards American cars.

The Canadian Independent Oil Company, of St. John, New Brunswick, has closed a contract to supply lubricating oils of all kinds to all Canadian Pacific steamships plying to Atlantic ports. This is said to be the biggest contract for lubricating oils ever closed in Canada. This company means a new industry for St. John, for its compounding plant will be located in East St. John.

The Klondyke is in the throes of another gold and silver rush. At the head of the Beaver River, 50 miles west of Keno Hill, a silver and gold discovery of unusual proportions has started a stampede from Mayo, the major mining settlement of the Yukon, to the new country, where it is said assays reveal pay dirt running 1,100 ounces of silver to the ton.

Rapid progress is being made in preparing the Canadian section of the British Empire Exhibition. The giant pavilion was roofed in and ready for exhibits in sixty days from its commencement and will be ready for opening on March 1st. Two million feet of Canadian lumber, 7 miles of roofing and 200 tons of nails, nuts and bolts have already been used in the building.

It is reported that the Rothermere interests of England, which recently acquired a large block of timber land in the Manicouagan River Basin, have headed a syndicate which will spend $16,000,000 in erecting pulp and newsprint manufacturing plants near Quebec city. With this news comes the announcement that the St. Regis Paper Company will build a $4,000,000 plant near the parish of St. Augustin, a suburb of Quebec.

Records compiled by the Bureau of Railway Statistics in Chicago show how greatly the cost of railroad equipment in North America has increased in the past sixteen years. Since 1907, these figures show, the cost of heavy freight locomotives has risen from $16,248 to $53,550 each; passenger locomotives from $16,057 to $66,200 each; passenger coaches from $7,330 to $28,990 each; freight cars from $700 to $2,301 each; and steel rails from $28 to $43 per ton.

The Indians of the three prairie provinces in the 1923 season harvested the greatest crop in their history, according to the annual report of the Department of Indian Affairs. In the three provinces, the Indians harvested 638,561 bushels of wheat, 574,282 bushels of oats and 62,304 bushels of barley. The report shows they raised 58,264 bushels of potatoes and 10,000 bushels of other vegetables. They summerfallowed 20,000 acres of land, broke 6,808 acres, put up 57,000 tons of hay and 9,516 of green feed.

## FOUR DIE WHEN AUTO IS STRUCK BY TRAIN

Ravena, Ohio, Jan. 28.—Four were killed early Saturday when a fast Baltimore and Ohio passenger train crashed into their automobile at a crossing. All were residents of Alliance, Ohio.

Ottawa, Ont., Jan. 29.—Customs and Excise revenue of the Dominion was nearly forty millions greater in 1923 than in 1922.

The work of the eyes

THE HUMAN EYE is a miracle of efficiency, if normal. And the sad truth is that most eyes are abnormal to some extent. Abnormal eyes mean strained eyes, and strained eyes mean headaches and a dozen other troubles. Nothing but glasses can make abnormal eyes function normally. Give your eyes proper attention by having them looked after here.

## President Must Retire At Seventy Years

Philadelphia, Jan. 29.—Samuel Rea, president of the Pennsylvania Railroad, must retire from the presidency in the fall of 1925 in pursuance of a retirement rule of the company which effects every employee of the system, from the head to the humblest trackwalker.

Rea will be 70 years old on September 21, 1925. He will then, under the retirement and pensioning system of the company, automatically relinquish the post to which he rose from chainman and rodman on the Harrison Cove Williamsburg and Cloomfied branches of the Pennsylvania Railroad.

Rea entered the employment of the Pennsylvania Railroad when he was 16 years old. He rose rapidly up the ranks and on January 1, 1913, he was made president of the company.

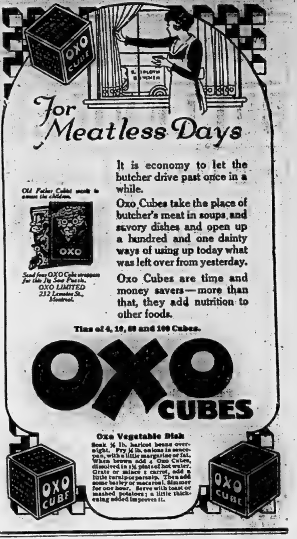
"The retirement age rule, which I was largely instrumental in having adopted by the Board of Directors, applies to the president as much as to any other employee," Rea said.

"It is too far ahead to discuss the subject and I have therefore made no plans nor given thought to what I will do after retirement."

The retirement rule will apply to the tenure of office in subsidiary companies of the Pennsylvania Railroad, including the Long Island road.

General W. W. Atterbury, vice president of the Pennsylvania in charge of operation, is likely to succeed Rea in 1925.

Toronto, Jan. 29.—Rev. W. G. Sunter, curate of the Church of the Epiphany, Parkdale, had a narrow escape from death recently, when a bullet crushed through his room window at 24 Ridley gardens and whizzed by him within an inch of his head, burying itself in a cupboard.



It is economy to let the butcher drive past once in a while.

Oxo Cubes take the place of butcher's meat in soups and savory dishes and open up a hundred and one dainty ways of using up today what was left over from yesterday.

Oxo Cubes are time and money savers—more than that, they add nutrition to other foods.

*Old Father Cubit wants to amuse the children.*

Tins of 4, 10, 50 and 100 Cubes.

OXO CUBES

Oxo Vegetable Dish

Soak ½ lb. haricot beans overnight. Fry ½ lb. onions in saucepan, with a little margarine or fat. When brown add 4 Oxo Cubes, dissolved in 1½ pints of hot water. Grate or mince 1 carrot, add a little turnip or parsnip. Then add some barley or macaroni. Simmer for one hour. Serve with toast or mashed potatoes; a little thickening added improves it.

### QUITE SO

"Did St. Patrick really drive the snakes out of Ireland?" inquired the young hopeful.

"Yes, my son," replied his father wearily, for it was question No. 244 of the evening.

"And where did he drive them to, daddy?"

"Into prohibition gin bottles."

### WHAT COULD SHE MEAN?

"Well! What are you stopping for?" asked the young man as the taxi came to a halt in front of the post office.

"I heard the lady say, 'STOP', said the taxi driver.

"Well, she wasn't talking to you, was she?"

### HOUSEHOLD HINTS FOR HOUSEWIVES

(How to drive a nail without effort)
Ask your husband to drive a nail.
He will enquire: "Where's the hammer?"
Tell him it's where he left it the last time.
He will enquire: "Where's that?"
Ask him how should you know.
He will reply, "Well you should."
Ask him if he married you so that you might keep track of hammers.
He will answer. "Darned if I know what I married you for."
State that neither do you.
This will hit the nail on the head.
If necessary, repeat.

# Girl Wife

(continued from page one)

### Voted Confidence

As evidence of his congregation's affection for him, the members, in spite of the charges made against Mr. Logan, voted to give him a recommendation at the time they accepted his resignation a few days ago.

They knew that he had been arrested in Canada; that shortly after his affair with Miss Huyck he had married the wife who to-day stands, fighting and loving, by his side; they knew that the other girl had told the whole tragic story of the pastor's struggle to win her soul, which had ended in such disaster for both. But the church members believed that Mr. Logan was a remade man, and they gave him the vote of recommendation.

"We would stay here, even yet, but it is for the good of the cause that we are going," Mrs. Logan said. 'Sometimes', though, I wish we might stay, anyway, and show them that we can fight it out."

### Wanted to Stay

Her eyes moved wistfully toward her husband. The brave little woman wanted to stay. One could see it. But, as she said, "for the good of the cause" she was willing to "follow her husband to the end of the world."

"Whither thou goest, I will go"
—there was that look in her eyes.
"Where thou lodgest, I will lodge.
Thy people shall be my people,
and thy God my God."

But against the courage of this brave wife and the confidence of the congregation which supports her and her husband are the scathing charges. Information prepared and signed by the Rev. Alan Douglas, pastor of the Union Baptist Church, and by members of Mr. Logan's church, includes the following statements and letters, the sense of which has been presented to a representative of the State Baptist Conference:

### Facts Are Bared

"It is deemed advisable to make known the facts of the case showing the true reasons for his (Mr. Logan's) resignation. This is done not from any spirit of bitterness, but for the protection of other communities.

"The Baptist State Convention has had information for several weeks in regard to some of Logan's activities in Canada previous to his coming to West Endicott to labor in the new Baptist work there. This information was to the effect that he was convicted of a serious statutory offense on June 22, 1923, before Judge G. E. Deroche in Belleville, Ontario, Canada.

"The following letter to Mr. W. G. Phipps of West Franklin street, West Endicott, was placed before the Baptist State Convention, and they were asked to take action immediately. Logan was advised to resign by officials of the Baptist State Convention after they were further urged by the undersigned.

"City of Belleville,
"Police Department,
"Dec. 12, 1923.

### Was Found Guilty

"W. G. Phipps, Esq.,
No. 596 West Franklin street,
West Endicott, N.Y.

"Dear Sir:

"In reply to your letter of recent date, wish to inform you that T. J. Logan was tried here before Judge Deroche, under the Unmarried Parents' Act, and was found guilty of being the father of the child born to Coar Beatrice Huyck of the town of Oshawa, and was ordered to pay so much money into court and to pay so much every month, which I may say he has failed to do.

On July 22 he was conducting a service in a hall here, of which he was pastor. At the finish of the service things looked so bad for him that they telephoned for the police, who, after a good deal of trouble got Logan into our motor car and conveyed him out of the city, where he was met by another motor car that took charge of him.

"He returned to the city afterward, but only stayed a short time. I believe he went to the city of Peterborough, and was married there. Since then we have not heard anything about him. Yours truly,

"ALEX KIDD,
"Chief Constable."

The statement of Mr. Douglas and others continues:

### Douglas' Statement

"For the benefit of the community and to safeguard other communities to which he may go endeavoring to do religious work, we believe it is necessary that his true character be made known, and that he be kept out of the ministery. Misrepresentations and false pretenses since coming to this town have proved that he is not sincere.

"Logan is not officially connected with any denomination, but will work with any who will take him. He was not recognized, and had no fellowship with the Belleville Ministerial Association, as he was not of their kind."

The statement is signed by "Alan Douglas, Walter G. Phipps, W. Lawrence Walker, Earl Millard and Benjamin F. King."

But in the face of it the great majority of Mr. Logan's congregation remains staunchly true to him, and he has the undying, trusting love of a beautiful and cultured wife.

---

Vancouver, B.C., Jan. 29.—With the close of 1923 Vancouver shipped more than 280,000,000 feet of lumber to foreign markets.

# Install Officers

Continued from page one.

heartily endorsed by the members.

### Banquet Follows

After the close of the Court a fine feast was partaken of and then a brief program of toasts was duly honored.

The toast to the High Court of Eastern Ontario' was graciously responded to by the Vice High Chief Ranger who contributed greatly to the gaiety of the occasion by his stories inimitably told

### Toast List

The toast to the "Newly Initiated Candidate" was happily responded to by Bro. Austin Walters, son of the financial secretary and the youngest member both in time of entrance as well as in years.

The toast to the "Newly Installed Officers" brought optimistic replies from Bros. Harrow, Cooke, Skinner, Walters, Finkle, Sanford and a number of others.

"Auld Lang Syne" and the National Anthem closed an evening in which entertainment was happily mixed with profitable effort.

# Chiefs Report

(continued from page one)

ed furnaces and stove-pipes or chimneys being on fire and which occasioned no loss. I feel quite confident that if we had been depending upon the use of horse-drawn hose wagons, that our fire losses would have been far in excess of what they were for the year.

FIRE CHIEF W. J. BROWN,

During the year I made some two hundred inspections, and principally in the business section of the City, and I find that on the whole, property owners and tenants are keeping their premises in better shape than they have in years past.

### Account of Expenses

"I have kept a strict account of the expenses in connection with the running of the two motor hose wagons, and have found that since they were purchased, the Department can show a decreased expenditure. From August 1921 to August 1922 the actual expense for gasoline, oil, recharging batteries, etc., was eighty-four dollars and thirty-four cents, ($84.34) From August 1922 to August 1923, the actual expenditure was fifty-eight dollars and sixty-four cents, ($58.64).

In order to keep our supply of fire hose up to the requirements of the Fire Underwriters, we should have about two hundred and fifty (250) feet of new hose, but I would suggest that this be left until about July or August for purchasing.

### Need Hose Expander

"One thing that is absolutely necessary and needed badly by the Department at the present time, is a new hose expander. The one in use at the present has been in service for about twenty-five years. It has been repaired several times and I find now that it has been completely worn out.

"Another matter that possibly might be considered would be the motorizing of the hose and ladder wagon. At the time the motor hose wagons were purchased it was thoukht adviseable to leave this matter in abeyance until it was proved that they would be successful during the stormy winter months. Up to the present time these motors have never refused to go through any kind of a storm to a fire.

"Another matter that will have to be considered is the purchase of spring suits and caps for the members of the Department."

# American Farmer as a Big Business Man

Washington Jan 29.—Farmers' business organizations did a business involving a turnover of more than $2,[illegible]-000 during 1923, according to an estimate made by the United States Department of Agriculture. Of the total of more than 10,000 farmers' organizations engaged in various forms of business grain marketing associations comprised 30 per cent, dairy product 22 per cent, live stock 14 per cent and fruit and vegetables 11 per cent.

# First College Club For Coolidge Formed

Burlington, Vt., Jan. 29.—What is for-President" club to be formed in the country has been organized by students at the University of Vermont here.

The club telegraphed its greetings to the wife of the President, who, as Miss Grace Goodhue, was graduated from Vermont in the class of 1902.

The temporary president is J. Harvey Macomber, last year's varsity football manager. The vice president is Miss Mabel R. Goodwin, member of the Pi Beta Phi sorority of which Mrs. Coolidge is a member.

After mid-year examinations the club will put on a campaign to increase its membership, and next fall it plans a big rally with prominent speakers to address the students.

# LIMBS AND BODY ALL SWOLLEN

## "Fruit-a-tives" Relieved Both Dropsy and Sick Kidneys

### The Wonder of Fruit Medicine

Those who know they have Kidney Trouble—who suffer with pain in the back—who are up frequently at night—will welcome the news that "Fruit-a-tives", the wonderful medicine made from fruit juices and tonics, will positively relieve Kidney and Bladder Trouble—as proven by this letter.

"Our little girl had Kidney Trouble and Dropsy—her limbs and body were all swollen. We decided to try "Fruit-a-tives". In a short time, the swelling went down. Now, she is the healthiest one of the family".

WM. WARREN,
Port Robinson, Ont.

# "The Least Exertion Tired Me," Writes Mr. Benoit

Lack of the proper constituents in the blood is the cause of anemia. This may result from disease or run down condition of the system. The symptoms are, pallor of the skin and mucous membrane, palpitation, weakness, languor, etc. Anemia is sometimes the forerunner of consumption. Everything should be done to build and tone up the system. Carnol relieved Mr. Benoit of anemia. He says:

"I had been feeling weak and depressed. The least exertion tired me. I had no appetite. If I got a few hours sleep at night I was lucky. I wanted to rest all the time. My nerves were on edge. The slightest thing irritated me. In fact, I was suffering from anemia. Finally I decided I would ask my friend, Mr. H. H. Page, the druggist, and see if he could do something for me. He recommended me to take a Course of Carnol (six bottles). After I had taken the fourth bottle I was a different man. I could eat, sleep and do a heavy day's work without feeling tired. I also bought some bottles of Carnol for my mother-in-law and she was greatly benefited."—Rudolph Aristides Benoit, St. Ludger de Rivière du Loup. 7-9

*Carnol is sold by all good druggists everywhere.*

SOLD BY DOLAN THE DRUGGIST

# Naturalist Pleas For Birds' Lives

Portland, Ore., Jan. 29.—Unless the practice of slaughtering migratory birds when lakes and rivers are frozen is not stopped, the future supply of these fowls will rapidly be diminished, according to W. L. Finley, nationally known naturalist.

Finley is a member of the national advisory board appointed to assist in enforcing the terms of the United States—Canadian migratory bird treaty.

He urged duck hunters to refrain from shooting the legal limit during freezing weather, when birds are helpless and unable to care for themselves.

"It is a practice among hunters to break ice around blinds. The birds have no other place to go. They are attracted to the open water by the hundreds, Finley declared, describing some of the common practices.

### Merely Bird Murder

"There is no sport in killing them under such conditions," Finley said. "All a man has to do is to aim into the air and shoot. The birds are absolutely helpless. No matter how bad the slaughter may be, they must keep coming in wherever the ice is broken.

"Of course any man has the right to kill the limit just the same," he said, "but I have been informed that so many men are doing this there is certain to be an over supply of ducks for eating and the result will be a shortage next season unless the hunters realise how serious the situation is.

"Hunters should kill only what they actually need, and should be good enough sportsmen not to attempt to make a record under these conditions, for really no matter how many they kill, it could hardly be called a record."

Finley said the Canadian government was eager to co-operate with the American government to prevent the extinction of migratory game birds.

## DEATH OF OLDEST RESIDENT

Campbellford, Jan. 28.—In the passing of Mrs. Isabella Clarke Thompson at the age of 94 years and 5 months, Campbellford lose one of its oldest and most highly respected citizens. The funeral will be held on Sunday afternoon at 2-30 from the residence of her son, Mr. Neil Thompson, Bridge street. Rev. C. F. McIntosh of the Presbyterian Church conducting the services. Interment in Mount Pleasant cemetery.

## REFUSE EXTRA WORK

Cambridge, Eng., Jan. 28.—Cambridge professors crowded University Senate Friday afternoon and defeated by overwhelming vote a proposal that they be required to give forty lectures a year.

# Revue on Old Broadway Typifies British Humor

By ALICE ROHE

(Written for the United Press)

New York, Jan. 28 (Unite Press).—In addition to exhiliarating Broadway with one of the most entertaining shows of late memory whose object is to amuse— Andre Chariot's London Revue at the Times Square Theatre—provides some mighty good lessons for American producers.

This importation by the Selwyns illustrates one point we hope American producers will note—and that is, all that glitters is not talent. You can't compete with genuine genius by gorgeous productions! You can't camouflage dullness with brilliant costuming!

People who go to revues and get blind staggers just blinking at diamond studded settings and billion dollar show girl costumes, will go away from the Andre Charlot Revue saying. "What costumes! What a plain production!" Well it may be when compared with our knock-your-eye-out spectacles—but oh—they've got the talent. The principals in this delectable Revue are so clever you just don't care what they have on. Yes, just that!

The proof of it all is the sensational reception given these Londoners. Their joyous evening of travesty, dance and song is a tremendous hit. It introduces to America one of the funniest women on the stage of any country, Beatrice Lillie, and it also introduces a "cantatrice," who sings a "naughty" song with such deftness and in so delectable a manner that it is placed at once in that category of artistic classics. This charming young woman is Gertrude Lawrence. Jack Buchannan, handsome, capable satirist is the third featured principal.

### Clever Skits

Beatrice Lillie is that rare creature, a pretty woman who doesn't care what she does to her pulchritude so long as she achieves humor. And what subtlety she gives to her comedy! She achieves side splitting laughter, but her achievement is along legitimate lines which escape that broad burlesque which often offends the intelligence, while exciting laughter. Her "There's Life in the Old Girl Yet" and her patriotic number are two of the funniest things seen in New York and her waitress skit is not far behind. There are other clever skits in which the other principals appear. The travesty, showing a company's performance after being knocked by critics for inaudibility, is extremely funny. Indeed all of the sketches introduce a pleasing quality. They are short, even though several of them are not snappy.

An interesting lesson this English revue teaches us is that, while we are completely right in the use of the rather patronizing term "English sense of humor," we are also altogether wrong. The revue contains several rather deadly numbers of fthe traditional English brand. But the rest—a new measure of delicious humor has been established.

The chorus girls, of course, can't compare with our American beauties, but nothing really matters so long as we have an evening of 100 per cent talent.

• • •

Lynn Harding is always a definite attraction in himself. He is such a good actor! Cosmos Hamilton's "The New Poor" at the Playhouse, although built on a clever idea, isn't half good enough for him. It is burlesque on the Russian nobility craze here in America and often leaves the path of comedy for the too broad fields of burlesque.

# RITCHIE'S

## The Benefits of CASH BUSINESS

In order to keep retail prices down to the lowest possible point, it is necessary for a merchant to do business on a Cash Basis.

First of all he must have the cash to buy his goods with at the right prices and to avail himself of all discounts. Manufacturers are looking for the merchants who can pay cash when they have special lines to offer.

If prices are to be kept right, no allowance can be made for the extra expenses that always accompany an extensive credit business, in the looking after and collecting of accounts. The only way a merchant can sell reliable merchandise at a close margin of profit is by purchasing his goods for cash and selling for cash. We believe this to be greatly to the advantage of the customer as well as to the merchant.

## ACCOUNTS PAID ONCE A MONTH THE SAME AS CASH

Many of our customers find it a convenience to run a monthly account and settle once a month. Any responsible family or individual may make arrangements at our office for a monthly account if they so desire. The bill will be rendered the first of each month and is due for settlement when rendered. We consider this the same as cash over the counter, and it allows customers to telephone us for goods or in other ways make purchases and settle monthly. We have no longer term of credit than this and we expect settlement of accounts when they are rendered.

## A WORD ABOUT PRICES

In every case we guarantee our prices to be the lowest, the same quality goods can be bought for in Canada. We are in a position to buy in the best markets of the world and are satisfied with modest profits. If, after making a purchase, any customer is not thoroughly satisfied as to value, the goods may be brought back and the money will be returned. What more can we offer?

## FOR SIXTY-EIGHT YEARS

We have been serving the people of this district. Many customers come regularly long distances to trade with us which is a splendid assurance that our efforts at service have been appreciated. We have several customers who have dealt with us for over half a century.

## ALTERATIONS IN PROGRESS

We are at present making extensive alterations to our store and we intend to do even bigger and better things than we have ever done before. Our aim is to serve the Public with thoroughly reliable goods at moderate prices, and we extend the courtesies and conveniences of our store to all, whether their purchases be large or small.

# FAMOUS VEGETABLE SYRUP USED BY DR. THACHER TO BE GIVEN AWAY

**Numbers of tests show that cleansing of Liver Gives Quick Relief from Indigestion, Sour Stomach, Constipation and Stuffy Colds—**

## BUILDS UP SYSTEM; INCREASES STRENGTH

DR. H. S. THACHER, A.B., Ph.G., M.D.

*Celebrated American Physician who Proved that Symptoms such as those described in this article can be relieved quickly with purely vegetable ingredients and without the treacherous use of dangerous or habit forming drugs.*

Announcement is made by leading druggists throughout this sections that they have made arrangements with the Dr. Thacher laboratories whereby their customers may now obtain the vegetable syrup perfected by Dr. H. S. Thacher, celebrated American Physician. And, in order to demonstrate the superior merits of this syrup, druggists state that they will give away liberal trial size bottles so long as the limited supply for free distribution lasts.

### Gives Quick Relief!

Dr. Thacher first came into public notice by reason of his frequent demonstrations that indigestion, gas on an acid stomach, constipation, colds that hang on and a general run-down, tired out feeling are often the result of a sluggish Liver—and that relief in such cases comes quickly when the liver is properly cleansed and toned and the system functions once more as Nature intended.

### How Nature Helps

There is a scientific reason for this quick relief!

When working as Nature intended the Liver does three things necessary to keep you feeling your best. First, it purifies your Blood, every drip of which filters through your liver every fifteen minutes. Second, your liver furnishes the essences essential to perfect digestion. Third, your liver supplies the secretions Nature furnishes to lubricate the intestines so that your bowels can move gently, thoroughly and regularly every day.

### Why You Feel Badly

Your liver cannot do these things when it becomes sluggish, consequently you often wake up mornings feeling dull and tired. Perhaps your digestion is not as it used to be; gases may bloat you after meals and your heart may palputate. Often you may become constipated, your blood gets in an unhealthy condition or you may become nervous and too "run-down" to throw off a cold. The minute your tongue becomes coated, or you feel any one of these symptoms, give your liver intelligent help so that you may quickly feel your best again.

### Use Dr. Thacher's Syrup

Science has now come to the aid of Nature in offering quick relief. Dr. Thacher perfected a tonic of vegetable ingredients, known for their corrective and health-giving properties. This vegetable preparation is now known as Dr. Thacher's Liver & Blood Syrup. In numerous cases those who have used it report that it quickly corrected the various symptoms of a sluggish liver and builds up strength, vigor and energy. Many of them have gained speedy relief through its use, even after other preparations have failed.

### How It Gives Relief

Each ingredient has a definite work to perform. This is why Dr. Thacher's Liver & Blood Syrup helps Nature to cleanse and tone the liver properly—to quickly improve digestion—to increase appetite, nourish and build up the system—to throw off stuffy colds—to soothe the tired and over-tired nerves—to gently correct constipation, strengthen your body and send pure, healthier blood coursing through your veins.

Clip the coupon below and get a free trial size bottle to-day. Act quickly, before the supply for free distribution is exhausted.

# NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

There are many people in Belleville who suffer from symptoms like those described in the article above because they have tried many treatments and have failed to get results. And these are the people we want Dr. Thacher's Liver & Blood Syrup to help.

Now is your opportunity to get rid of that tired, run-down feeling, to have fine digestion again, to end constipation, to throw off that stuffy cold, to win back your strength, energy and vigor and feel your very best again.

We want you to realise that these symptoms are often the result of a sluggish liver, and that relief comes quickly when the liver is properly cleansed and toned.

Take just a spoonful of Dr. Thacher's Liver & Blood Syrup after the next few meals. Notice the quick difference in the way you eat, sleep, look and feel. It will cost you nothing to try it! All we ask in return is that you do not stop the minute you begin to feel better. Keep up this helpful treatment after the trial sample has demonstrated its superior merits to you—keep it up until you have fully regained your health and your liver and whole system are working normally again. Then tell your relatives and friends what it has actually done for you. They will be completely satisfied with the regular dollar twenty size; otherwise druggists are authorized to refund the purchase price.

**FREE!** This Coupon is Good for One Sample Bottle of **DR. THACHER'S LIVER & BLOOD SYRUP**

If presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size NOW by presenting this coupon to Dolan, The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

## CARNEGIE MEDAL FOR OSHAWA MAN

Oshawa, Jan. 28.—E. S. Holland, has been awarded a Carnegie Life Saving medal for the rescue of two boys, Howard and Stephen Saywell, from drowning on March 23, 1923. One of the boys had fallen into the Oshawa creek and drifted under the ice. His brother, in an attempt to save him, suffered a similar fate. Mr. Holland, who was passing nearby, driving a bread wagon, effected the rescue by breaking a hole in the ice and pulling the two boys out.

## BIG INCREASE SHOWN IN GRAIN SHIPMENTS

Winnipeg, Man., Jan. 28.—Approximately forty per cent increase in the number of cars of grain loaded by the Canadian Pacific Railway during the past week over figures for the corresponding period of the previous seasons, was announced this morning at offices of the company's transportation department, while an increase was also shown in the quality of grain leaving the hands of farmers during the period this year over last.

## GET ACQUAINTED

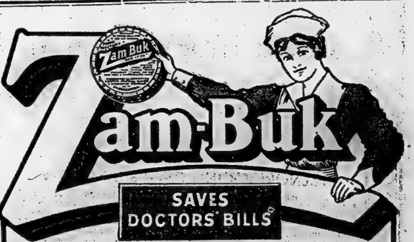
The father of success is work.
The mother of success is ambition.
The oldest son is common sense.
Some of the boys are perseverance,
enthusiasm, co-operation.
The oldest daughter is character.
Some of the sisters are cheerfulness,
loyalty, courtesy, care, economy,
sincerity and harmony.
The baby is opportunity.
Get acquainted with the "old man"
and you will be able to get along
pretty well with the rest of the
family.

Quebec—Charged with breach of trust, P.E.E. Bolanger, notary, has been placed under arrest. He appeared before Judge Choquette, and was released on $15,000 bail.

## MOTHER! GIVE SICK BABY "CALIFORNIA FIG SYRUP"

**Harmless Laxative to Clean Liver and Bowels of Baby or Child.**

Even constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.



**ECZEMA ENDED**

Madame A. Lariviere of Fall River, Mass., suffered with eczema for three years, and had treatment from several doctors, all of whom gave up the case. "Finally," she says, "I went to a specialist, which cost me another $20, but I was no better.

"A friend advised me to try Zam-Buk, which I did, and for which I have ever since been thankful. I very soon felt some relief, and perseverance with Zam-Buk completely rid me of the disease."

**SEVERE CUT HEALED**

Mr. C. Oakley of Saskatoon, who sustained a terrible cut on his leg, says: "Had I known of Zam-Buk when the accident occurred, I could have saved myself a $40 doctor's bill! A doctor sewed up the cut and attended me for five weeks, but the wound did not heal, and he advised me to go into a hospital.

"I objected, however, and used Zam-Buk instead, and in two weeks' time was back at work."

**SAVED OPERATION**

"Father developed a painful sore on his face," writes Miss N. Lewis of Silver Lake, Oregon. "Numerous remedies and treatment from several doctors failed to heal it, and the doctor advised an operation. Someone advised him to first try Zam-Buk. A few applications brought relief, and continued use of Zam-Buk entirely healed the sore, saving father from an operation."

Zam-Buk is best for eczema, ringworm, salt rheum, boils, pimples, ulcers, abscesses, blood-poisoning, piles, cuts, bruises, burns and scalds. All dealers 50c box.

**FREE** Send this advert, name of paper and 1c. stamp (for return postage) to Zam-Buk Co., Toronto, for free trial box.

# AGRICULTURAL SOCIETIES SET DATES FOR HOLDING FALL FAIRS IN HASTINGS

### Central Ontario Association Holds Annual Meeting in Belleville Tuesday Evening—A. Nicholson, of Madoc, Chairman, Occupies Chair

### MORE PRODUCTION

### A. R. G. Smith, of New Hamburg Impresses Need of Greater Production on the Farms—Only Edge of Possibilities Touched in Output, Declares Speaker

Many representatives from various agricultural societies were yesterday afternoon in attendance at the annual meeting of the Central Ontario Fair Association held in this city. The object of the meeting was to elect officers and to arrange dates of fall fairs in Central Ontario.

Mr. A. Nicholson, of Madoc, President of the association occupied the chair.

The auditor's report presented showed a balance on hand of $15.30.

**More Production**

Previous to business being conducted Mr. A. R. G. Smith of New Hamburg, vice president of the Ontario Fairs Association, gave an instructive and valuable address relative to fairs and fair work, also the necessity there was for greater production upon the farm.

For many years he said he had been associated with fair work.

His sympathy was with the secretaries of fall fairs. We have as yet only touched the edge of our possibilities in production in this the banner Province of the Dominion. There are some 365 fair associations in Ontario and these associations are doing much to help increase production. The prize list has always been a conundrum to many and a standard for same should be established. He suggested that a hand-book be prepared in order to acquaint fair boards with a standard prize list. The Province of New Brunswick has done this and it has proved valne.

It has the effect of standardizing all products and even animals shown at fairs. This is the only way that claims at fairs will be properly classed.

Mr. Smith spoke strongly in favor of school fairs being held as in the rising generation is to be those who in the future will be members and officers of agricultural societies. The judges should be those who are well qualified and do their duties in a fearless manner. There should be a hearty co-operation with all fair boards to bring before the public the possibilities of having the best products produced.

A vote of thanks was tendered Mr. Smith for his address.

Some discussion ensued relative to the Association sending a delegate to the Ontario Fair Association, and later it was decided to do so, the newly elected President, Mr. B. R. Leavens of Picton, being appointed a delegate.

**Dates of Fairs**

Dates of fairs in the district were selected as follows:

| | |
|---|---|
| Belleville | Sept. 10, 11, 12 |
| Campbellford | Sept. 25, 26 |
| Bancroft | Sept. 24, 25. |
| Castleton | Sept. 16, 17. |
| Colborne | Sept. 23, 24. |
| Frankford | Sept. 18, 19. |
| Madoc | Sept. 30, Oct. 1. |
| Harmora | Sept. 29, 30 |
| Napanee | Sept. 8, 9, 10, 11. |
| Picton | Sept. 16 to 20. |
| Roblins Mills | Oct 4. |
| Roseneath | Oct. 9, 10. |
| Stirling | Sept. 16, 17. |
| Shannonville | Sept. 27. |
| Tweed | Oct. 2, 3. |
| Wooler | Sept. 4, 5. |
| Warkworth | Oct. 1, 2, 3. |

**Election of Officers**

The officers elected for the ensuing year were as follows:

President—B. R. Leavens, Picton.
First Vice-President—C. Tucker, Stirling.
Second Vice-President—F. Brintnell, Colborne.
Secretary-Treasurer—G. A. Hay, V.S., Campbellford.
Auditors—W. J. Hall and J. L. Boyes.

(continued on page eight)

## THE WEATHER

# NEW AVENUES ARE OPENED IN LEASE SCANDAL

### Secretary of U.S. Navy Department and Naval Officers Summoned To Court

### ATTACK ON CRITICS

### Asks Why Democrats didn't Call Before for Lease Annulment

Washington, Jan. 30.—A new sensation involving the navy department appeared Tuesday afternoon when Chairman Butler, of the house naval affairs committee, summoned Secretary Denby and several naval officers to appear today for questioning in connecting with charges of alleged illegal expenditure of some seventeen million dollars in oil royalties.

The oil leasing scandal today began to swing rapidly towards an open and undisguised partisan political encounter between Republicans and Democrats when debate in the senate opened.

Senator Lenroot, Wisconsin, regular Republican, who is chairman of the senate public lands committee, investigating the leasing scandal, delivered a violent attack on critics of President Coolidge.

"Attempt to attach some stigma of blame in this matter to the present president of the United States," said Lenroot, "is politics and nothing else. If Democratic senators had doubts concerning the legality of these leases—and I know they had—why did not some of them at any time during the past two years introduce a resolution calling on the president to begin suit to annul the leases?"

**Reply to Robinson**

Lenroot's speech was a direct reply to a bitter political oration delivered late yesterday by Senator Robinson, Democractic leader, who said the Teapot Dome scandal would be an issue in the campaign and President Coolidge would be held responsible if he did not fire Denby and Daugherty.

Indications were that Lenroot would occupy a couple of hours analyzing the testimony in the senate investigation of the leases and that it probably would be late this afternoon before the senate got around to action on either the Walsh resolution for cancellation of the leases, or the Robinson resolution intended to force Denby to resign.

**Backs Up Coolidge**

Lenroot, in opening his discussion, revealed that he went to President Coolidge after Archie Roosevelt had testified, and said that since that time "Mr. Coolidge has taken every possible step to clear up this matter."

Senator Ashurst, Arizona Democrat, asked Lenroot: "Doesn't the senator know that the country will judge the sincerity of the president by the length of time he permits Edwin Denby to remain in his cabinet?"

Lenroot answered, "That's another matter."

## ARREST LOCAL MAN ON SERIOUS CHARGE

Sergeant of city police D. Boyd and Provincial Constable N. Maker arrested Allen Chester Morton about 11 a.m. today on a serious charge, and he will remain in custody for the arrival of a Hamilton officer who will take him to that city for trial.

Chief Constable A. Kidd received word from that city to arrest Morton who was believed to be living here, as a warrant had been sworn out for his arrest charging him with an offence against a young girl in Hamilton.

(United Press Despatch)

New York, Jan. 30.—Eight rum pirates armed with stilettoes boarded the North German Lloyd liner "Stuttgart" as she lay docked at a Hoboken pier and escaped with 91 bottles of champagne.

## Their Engagement Is Expected!

His Royal Highness, Prince George of England, is shown above walking with Lady Alexandra Curzon, daughter of Lord Curzon. British people expect soon to hear of their engagement.

# 100,000 CASES OF BEER HELD AT BORDER BY OTTAWA ORDER

### Rum-Running on Detroit River Checked by Government—Petite Cote Closed as Shipping Port—Clearance at Sandwich—No Announcement Made by Canadian Customs Authorities on Prohibiting of Exports of Alcoholic Spirits

Detroit, Jan. 30.—A Canadian Government order, issued from Ottawa four days ago, as corked the flow of beer across the Detroit river into the United States, and has resulted in the accumulation of more than 100,000 cases of Canadian beer in Petite Cote, Ont., warehouses. This was revealed today when a lawyer representing Canadian liquor interests departed for Ottawa in an effort to obtain modification of the order which in effect prohibits future liquor shipments from Petite Cote.

Virtually all the beer and whiskey run across the river at this point has come from Petite Cote, which because of its position on the river partially concealed by bays and inlets, has served as an ideal base for the smugglers. The place is difficult in surveillance from the United States shore and from prohibition navy craft.

The new order which is said to have resulted from the recent conference between Canadian and United States officials at Ottawa, stipulates that inasmuch as Petite Cote, about eight miles west of Windsor, is not recognized officially as a port, all further export shipments of beer and liquor must clear from Sandwich. Traffic from Sandwich, it is pointed out, will be much more difficult, inasmuch as it is in full view of the United States shore.

Windsor customs officers said today that they believed that not a case of beer has gone across the river here since the order was made effective. The Petite Cote warehouses are choked with cases awaiting shipment."

**Maintain Secrecy Here**

Ottawa, Jan. 30.—No announcement has been made up to a late hour last night by Canadian customs authorities of an order prohibiting the export of alcoholic beverages from Petite Cote, Ont., which is said to have had the effect of stemming the shipment of Canadian beer and whiskey across the Detroit river. The Minister of Customs was absent from his home and other customs authorities declined to make any comment on the matter.

It has been understood for some time that Canadian authorities would take any steps consistent with constitutional procedure to prevent the outflow of intoxicants from Canada to the United States, and such enforcement of points of law as is involved in the designation of a small port as an illegal port for the purpose of customs clearance will probably be made from time to time. A good deal of secrecy is being maintained in such matters to prevent the forestalling of Government action by those interested in the liquor traffic into the United States.

## PREMIER FERGUSON

### Capacity Audiences Expected to Greet Him Wednesday

Hamilton, an. 29.—A capacity audience will greet the premier next Wednesday night at the banquet and reception being tendered to him by the Young Men's Liberal-Conservative club. The requests for tickets are coming from citizens in all walks of life, and the Hon. Mr. Ferguson's wish to personally meet the citizens of Hamilton will be amply gratified.

Dinner will ne served at 6.15, and the premier's address and reception will follow. At 9 o'clock dancing will commence in the large ballroom.

## Buried Under Carload of Ties; Narrowly Escapes Smothering

When George Markell, aged 68, and married, foreman of the Bridge and building working party, now at work near Madoc, pulled a stake from the side of a railway flat car, loaded with railway ties, the load of heavy ties slid off and seriously injured him. The accident occurred late Monday night, but news did not reach this city until Tuesday night.

Markell is so badly bruised and lacing the ties, and believing that it would facilitate matters to remove the stake, he drew it out, with the result that one tie slid off striking him on the head and dazing him. He fell in the soft snow which had been banked high against the side of the car to make skidding operations more easy. Before he could arise, or be assisted, the load skidded off and buried him, punching him deep into the snow.

**Effect Quick Rescue**

Workman hurriedly threw the heavy ties aside and had to shovel the man out of the snow bank. First aid was rendered him, and Madoc physicians summoned. Yesterday the man was taken to his home at Aultsville.

Markel is so badly bruised and lacerated that he can scarcely move, and owes his life to the fact that there was a deep bank of snow to relieve the pressure exerted by the load of timber, when it catapulted on him. Luckily no bones were broken, and attending physicians state that he will likely be confined to his home for the remainder of the winter.

# KIWANIS CLUB IS GIVEN 'TREAT'

### Address by J. O. Herity is Enjoyed by Members at Noon-day Luncheon

At yesterday's noon day luncheon of the Kiwanis Club the members were treated to what was generally concided to be the "Best talk yet" by E. O. Herity, Managing Director of the Chamber of Commerce.

Mr. Herity spoke on the "Efficient City" and traced the progress of various neighboring cities and Belleville for a period dating back over the past half century.

Showing where some cities had in some ways been more efficient than Belleville in the past and again where Belleville had been more efficient in other phases of city life

**Progress Made**

He noted the progress that Belleville had made in the past ten years. More particularly in regard to housing—schools, and streets and in closing his address he stressed the fact that the two most needed things to-day in Belleville were a new Collegiate Institute and a Filteration Plant.

**Favorite Songs**

P. C. MacLaurin the clubs president occupied the chair and song leader Ernie Dickens kept the songsters busy. Harold Barret was present and rendered a favorite song from the Kiwanis Jolly, "Not in a Thousand Years."

All told it was an unstructive and harmonious hour and a half with the exception of the usual young battle between Bob Gorman and Ed. O'Flynn.

Davy Davison also got out the bad grace of the song leader and was obliged to tender a solo.

# RUSSIAN VERACITY AND AUTHORITY MUST BE GUARANTEED TO BRITAIN BEFORE COMPROMISE, SAYS PREMIER

### Ramsay MacDonald Gives Inkling of Plans in regard to Recognition of Soviet—In Edinburgh to Select Scottish Law Officers in New Government

### PAST TREATIES CITED

### General European Congress For Settlement of Debts to Foreign Nations Incurred by Czarist and Soviet Governments—Must Pass on Application of Present Regime

(United Press Despatch)

London, Jan. 30.—It is learned on highest authority that Premier MacDonald has sent a personal letter to Premier Poincare, through Lord Crewe, British Ambassador to Paris, in which he informs M. Poincare of the formation of his Government and his desire to come to a full and clear understanding with France on all points at present disputed.

Paris—Premier Poincare and Premier MacDonald crossed swords for the first time yesterday in highly important correspondence which the Quai D'orsay announces will be published in the near future.

Edinburgh, Jan. 30.—Premier Ramsay McDonald, on his arrival here yesterday afternoon, for the purpose of appointing Scottish law officers of the new Government, gave an inkling of what the Labor plans to do in the way of reaching a compromise in the Russian situation.

Past Anglo-Russian treaties have been regarded as mere "scraps of paper", and this question of veracity and authority must be cleared before any compromise can be made. A general European Congress for the settlement of debts to foreign nations by the former Russian government and those incurred under the Soviet regime, is needed to clear the way for a conclusion of the Russian tangle, the Premier declared.

**Boundary Question**

A conference for the consideration of the boundary question between the Irish Free State and Northern Ireland has been summoned by Premier MacDonald for the latter part of the week. Both the Free State and Ulster Governments have accepted the invitation and will be represented by Premier Sir James Craig and the Marquis of Londonderry.

London, Jan. 30.—Premier MacDonald left London this morning for Edinburgh. Addressing a number of people who awaited his train at Carlisle, Mr. MacDonald said:

"We are going to do everything we possibly can do to make the Labor party a greater power than ever, not only in this country, but in the whole of Europe. We have inherited a great mess, and our duty is to clear up that mess, and we are going to do it in accordance with Labor principles.

**Pleads for Time**

"I hope you will be generous to us; I hope you will give us a little time. Rome was not built in a day. But I hope you will believe this: that day by day and week by week we will faithfully, quietly and patiently do our best to give the country confidence in the Labor Government.

"I hear securities have gone up; I do not know. I have nothing of this world's goods to turn into securities, but you were told that when we came back into office the whole of Britain would go to wrack and ruin. The more on the wrack and ruin we have experienced during the last seven days the better it will be for Britain."

# TOILS CLOSING AROUND SLAYER OF MRS. CROOKS

### One Person Believes he Saw Man Leaving Mrs. Crooks' Home on Friday

### PAYS GODARD VISIT

### Mitchell has Conference at Jail with Man Charged With Crime

Toronto, Jan. 30.—Within another day there is an excellent possibility that the police will be able to identify the man who entered the home of Mrs. Martha Crooks, 184 Jameson avenue, last Friday morning, and killed her with a hammer.

Two important clues have come into the hands of the police overnight that may fasten the identity of the slayer.

The police have located a person who, it is stated, actually saw a man hurrying down the steps from Mrs. Crooks' home on Friday morning. This person was passing Mrs. Crooks' home about the hour Mrs. Crooks was slain. It is said this party saw a man leaving the house with his head hanging down and the side of his face obscured from view by the collar of his overcoat.

**Telephone Calls**

Another important feature is that several telephone calls were received at the Crooks' home, Thursday night, relative to the advertisement in the paper for a room to rent. It will be recalled that on Thursday night a man called up and made appointment with Mrs. Crooks to see the room that evening. Later, another person called, stating they were speaking for the man who made the appointment, and that he could not come up that evening, but would come in the morning. Shortly afterwards, the man rang again, explained he was in his office and could not leave and would see Mrs. Crooks at 9-30 Friday morning. These telephone conversations, was learned from the school teachers in the house, were commented on by Mrs. Crooks, and on two occasions the teachers answered the telephone, and then called Mrs. Crooks. The police are tracing down these calls.

The question being asked is: "Who called up and cancelled the engagement, Thursday afternoon?"

Whether the man who made the phone calls had anything to do with the slaying of Mrs. Crooks is another conjecture. But the fact that an engagement was made for Thursday evening and then cancelled gives the inference the party may have thought that when another party answered the telephone at first instead of Mrs. Crooks, that there were a number of people in the house and it would be useless to come up that night. Later the man who made the first call, called again and stated he would come Friday morning, explaining he could not leave his office till then.

Was the man who called up Thursday night the man who was in the house when Mrs. Fowler telephoned Friday morning?

**Tracing Godard's Movements**

The police are now trying to trace the movements of Harry Godard, held on a charge of attempted murder of Miss Mary Duncan.

In his admission to the police, Godard states he was at home on Ridley Gardens all day Friday.

Godard stoutly denies that he knows anything about Mrs. Crooks' death. He says his mind is a blank as to what he did last Friday except that he was at home.

Sergeant of Detectives Mitchell visited the jail alone yesterday and had an interview with Godard, but what transpired was not divulged.

A coat check, No. 53, found on Godard has been traced. It belongs to a club on College street that operates a dance hall, and Godard may have received it while attending a euchre. On Sunday he first stated he had sold his overcoat for $4 but later claimed he had burned it in the furnace in his home.

## SOVIET LEADER

KALININ

The above is a recent photo of A. Kalinin, new Soviet leader, who assumed the reins of power following the death of Lenine. He will figure prominently in the negotiations between England and Russia on recognition of the latter country.

# PROHI LEADERS PLAN BATTLE AGAINST BOOZE

### Friends of Prohibition Confer With Aim of Uniting Their Forces

### ALL SOLID, SAYS R. J.

### Differences of the Past Forgotten—Joy Over Customs Order

Toronto, Jan. 30.—Dry leaders were in session at King Edward hotel yesterday, planning defensive action against the assaults of the alcohol armies and offensive measures to make Ontario drier still.

R. J. Fleming presided over the conference, for such it was announced to be. "Just a talk among ourselves as to the present situation," said Mr. Fleming. "This is not a formal convention or anything of that sort. We have no announcement to make at the present time as to our plans. We are just talking things over."

"And preparing to meet a demand for a referendum on beer and wine or government control?"

"To meet anything," said Mr. Fleming.

**Forces Now United**

"Are the temperance forces united now? No divisions as there were some time ago?"

"Solidly united, assured the chairman. "The past is gone and forgotten. We have put the past aside and are pressing forward to the things that are before—the good things before."

Among the prominent temperance leaders present were Hon. E. C. Drury, Hon. W. E. Raney, Chancellor W. F. Whidden, of MacMaster University, J. D. Flavelle, George A. Warburton, Rev. W. T. Gunn, who acted as secretary, Rev. Ernest Thomas, Rev. T. H. Cotton, Rev. Dr. W. B. Creighton.

The announcement which was sent out, bidding dry leaders to the conference, stated that "the way is open for the complete unity of all the temperance workers of the province." The main purpose of the parley is to make sure of this unity and to lay the basis of a provincial organization in case a campaign is necessary to retain the O.T.A.

**Pleased at Action**

There was plain evidence of satisfaction among the drys at the announcement that the customs authorities had barred shipment of beer from Petite Cote, the sheltered cove a few miles from Windsor, which has

(continued on page three.)

## Indian Squaw Fights Blizzard To Bring Husband To Doctor

Regina, Sask., Jan. 30.—Unsuccessful efforts of a squaw against a driving blizzard and bitter cold to save her husband from freezing are described in a report by Corporal Wm. M. Jennings Turtleford Sask., received at provincial police headquarters today.

The report dealt with the death of John Metsoowin, bush Indian, on a trail near Bright Sand January 15. With the squaw unable to speak English, the police had to turn to Rudolf Hansen, a Bright Sand settler for details. Metsoowin, Hansen said, with his squaw and Peter Scarlet, another Indian, arrived at Hansen's house late in the afternoon of January 1. Shortly after sundown they continued on their way to the reservation in the face of a blizzard. Scarlet returned after a few minutes.

At four o'clock the folowing morning the squaw pounded on the door and entering fell senseless. Later, she recovered and directed Scarlet and Hansen where to find her husband. His body was located on the trail three-quarters of a mile distant Beside the body were a few green sticks, the woman's effort to light a fire after she was unable to carry her husband any further.

## LONDON BOY SKATES THROUGH HOLE IN ICE

London, Ont, Jan. 30.—John Edward Challis, eight-year-old son of Mr. and Mrs. Albert Challis, 374 Hill street, was drowned in the river Thames, at the rear of Victoria Hospital Monday morning. Though dragging has been going on all day, the firemen have as yet failed to locate the body.

Young Challis, with two companions, was playing on the ice when one of them threw a bottle over the smooth surface toward a hole. Challis ran after the bottle and disappeared in the water. Arnold Tuffield, aged eight, gave the alarm, and ten firemen were rushed to the scene of the drowning, but they were too late to do anything other than endeavor to recover the remains.

Two months ago young Challis almost lost his life in the river, having been rescued by firemen from a perilous position.

Paris, Jan. 30.—(United Press)—Prohibition of any payments of dollars or other foreign money except the franc on principle articles is Minister of Finance Lastyrics new project for preventing the depreciation of the franc.

## MORRISBURG PROJECT

The Morrisburg power project has reached the stage of argument between engineers over the rival schemes of development. While the discussion at the Ottawa meeting of the Engineering Institute of Canada is somewhat too technical for lay appreciation, the Hydro representatives seem to have had all the better of the argument, judging from the reports sent out ot the press. Engineers Gaby and Acres are able to point to the shining success of the Niagara system, and Mr. Acres regards the ice problems of Niagara as presenting greater difficulties than those to be expected from the St. Lawrence undertaking.

One criticism of the Hydro proposal advanced by the backers of the single-stage Bowden-Wooten project was promptly answered by Engineer Gaby, and shows how little knowledge the rival faction have of Ontario's requirements and how small is their faith in the future of this province. It was to the effect that the power to be developed from the contemplated Morrisburg development, as provided for in the Hydro plan, would not be needed for forty years to come. By the time the work is completed, Mr. Gaby assured his hearers, there will be a ready market for all the electricity available. It will take about five years to finish the undertaking, and in that time, under the most conservative estimate, the demand for power will be amply sufficient to absorb the 350,000 horsepower to be developed. Finding a market is one of the least of the worries; in fact, the real worry consists in finding new sources of electric energy to meet the demands.

## CAPE BRETON MINERS

Negotiations between the representatives of the British Empire Steel Corporation and the miners of Cape Breton may possibly patch up the differences, for the time being, at all events. If there is truth in the assertions made on behalf of the miners, however, it is not to be supposed that they will remain content with any temporary adjustment of their grievances. The conditions described by Canon Scott and others are such as no reasonable or humane person can expect to be tolerated without protest on the part of those required to put up with them. A decent standard of living should be secured for these Canadian citizens, for it is a mistake to suppose that the majority of them are aliens. According to one writer, a native of Cape Breton and a former employee of the company, "the great majority are descendants of the original settlers of Cape Breton, who were largely Highland Scotch. It is said that, at one time, foreigners were largely employed, because they would be content with low wages and a consequent low standard of living, but, although many foreigners came in, they have not replaced the old-timers, who are still greatly in the majority."

Whatever the nationality of these miners may be, they are entitled to be treated as self-respecting human beings. If it is true that the houses set aside for their habitation are unsanitary, as alleged, and that it is not possible for the family man to maintain a proper degree of comfort for himself and dependants, it is easy to account for the continual outbreaks of the mines. The miners have been badly lead, their leadership was repudiated some time ago by the international president of their union, and there is no doubt that the two men most prominently figuring as their champions have done much more harm than good to their cause. But that does not do away with the necessity for getting at the rights of the case and seeing that justice is done.

## EDITORIAL NOTES

Investigation by the United States senate into the Teapot Dome oil lease scandal promises to reveal much more than a "tempest in a teapot."

—o—

Toronto's surplus on last year's school board appropriation amounted to over $150,000. Even pro rata as to population, this makes Hamilton's surplus recently announced look like rather small change.

—o—

German comedians stoutly aver that it is impossible to be funny on twelve cents a month. Allowing for the present value of the mark, our lowest estimate would be at least half a dollar.

—o—

The epithet "scofflaw," chosen in the United States, "to stak awake the conscience of the lawless drinker," will have about the same effect as the minstrel's traditional bar of soap used for the same purpose.

—o—

As Sir Bertram Windle has predicted cold and damp for the next fifteen years, "Pussyfoot" Johnson, who expects to live to see a "dry" world, should expect a further lease of life for at least a year or two beyond that period.

—o—

In view of prevailing influenza, 20,000 British troops at Aldershot have been warned to beware of comrades when they sneeze. The evident antidote for this state of affairs, on signs of the first nose wrinkle, is to promptly "right about face."

## GOMPERS' BIRTHDAY

Washington, Jan. 29.—Samuel Gompers, who labors for the workers, was 74 years old yesterday, but he didn't realize it until messages of congratulation began to pour in from all parts of the continent.

During the last four months the President of the American Federation of Labor has travelled more than 15,000 miles, delivered 210 addresses, presided at 300 conferences, and written thousands of letters and statements, but his birthday found him as busy as ever at his desk and in the best of health.

**Outside Aid**

Hi—Did the doctor use a local anaesthetic?

Si—No, by heck; he sent all the way to New York for it.

**Her Choice**

Maud—Jack Richley is pretty easy. I just wind him around my finger.

Irene—I'd rather have a diamond ring on mine.

# STOP IT!

## Why Cough Your Head Off

Make Your Own Cough Mixture For the Whole Family and Save Money. It's Easy.

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrance of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

# PRESS OPINIONS

## APPALLING FIGURES

(Atlantic Monthly)

Few of us realise even now the magnitude of the strike evil. In the twenty months of America's actual participation in the war, the total number of labor strikers in this country was 2,386,255; the number of men sent to France was only 2,053,347.

An incomplete computation shows for the year 1919 strike losses in wages of $723,478,200 and additional industrial losses of $1,266,357,450—an average of $100 for each American family.

From 1881 to 1905 the United States had 38,303 strikes and lockouts, an average of 1532 a year. The total for 1916 to 1918 was 11,430, or 3,510 a year. There has been some reduction since, but the average is still high.

## MATTER OF CONSISTENCY

(New York Evening Post)

The basic reason for refusing to recognize the political regime in Moscow is the belief that, not too long hence, the Bolshevist government will be overthrown. If the days of the dictatorship are really numbered, the policy is the only sound one. If we shake hands, politically, with the Bolshevists, we could not, consistently, shake hands with their successors.

But international usage forbids Secretary Hughes from formally voicing this fundamental point. He can urge reform in the existent Russian government, but he cannot, even by implication, urge the Russian people to arise and smite it down. That would be doing just what he accuses Tchitcherin of; he would be propaganding for the raising above the Kremlin of a white flag—or at least one that is not red.

## LACKING IN INTEREST

(Stratford Beacon-Herald)

If some modern readers are shocked by what some modern writers put in books, the fault may be partly at least with the readers. Our forefathers were not so easily shocked, judged by many of the books that have come to be regarded as masterpiece of literature.

Here and there are books to be found today which set one asking why they were written; but, after all, the criticism to which most of the modern works of fiction are open is that they are lacking in interest.

## WANDERLUST

(London Express)

To follow the ribbon of high road that beckons with all the magic of unknown adventure and unknowable romance, to go on and on past all the humdrum marks we know, to cross the deserts and go over the mountains and past the lakes and over the seas until we come to an enchanted goal or at last stand "silent upon a peak in Darien"—that is the lure that tugs at human heartstrings. Most of us stay prudently at home.

## SAFETY FIRST

(Flint Journal)

There is only one sure way to procure a little capital. This is by working and saving. There is only one sure means of increasing capital. This is by investing it. Speculation is gambling, and it never, in the long run pays.

## COOKSTOVES TO CORONETS

(Atlantic Monthly)

The Ford fortune and the Ford policies have important social bearings. Are the Fords to become merely another rich American family, following the usual course of our plutocracy from shirt sleeves to polo, and from cookstoves to coronets, in three generations?

Is the Ford business destined to be merely another big business which, founded by an original individual with spirited if somewhat narrow ideas of public service, is destined to degenerate into an impersonal, profit-taking machine, amid the growing indifference of its employees and the waning regard of a disillusioned public?

## COME GENTLE SPRING

By "The Khan"

Me heart is heavy in me and I'm longing for the spring,
Not exactly 'cause I want to hear the dicky birds sing;
'Tis something that would cheer me, 'would drive away my woe,
A garden where the onions grow!

Grannie useta fry them with the taters an' the pork;
We et them with a knife if we didn't have a fork.
To-night I know my weary feet would dearly love to go
To a garden where some onions grow.

Everybody et them and no one thought of blame,
What difference did it make when our breaths all smelled the same?
She couldn't smell your breath if you kissed her—this I know,
In a garden where some onions grow.

Grannie died long years ago; I closed her weary eyes;
She went to claim a mansion up yonder in the skies.
And all day long with happiness and glee she is aglow
In a garden where her onions grow.

I'll turn a leaf to-morrow—an angel put me wise—
If I would join my grannie in that heavenly paradise;
And she will bid me welcome and send me out to hoe
In her garden where her onions grow.

I'm lonely here to-night, my world is drab and dree,
And yet I know, I'm sure I know, the medicine for me;
Some buttered bread, a pinch of salt and then away I'd go
To a garden where the onions grow!

**Wouldn't It Be**

"Prehistoric Leg Bones With Spurs Shown."—Headline.

What a joke on Darwin and Bryan, too, if the missing link turns out to be a rooster.

## To Russia?

James O'Graddy, Laborite in the British Parliament, will in all probability be named British envoy to Soviet Russia, if the Macdonald government recognizes Russia.

**The Wrong Sister**

Mrs. Grump—Emily Smith of the flat upstairs fell on the icy sidewalk and sprained her wrist.

Grump—What infernal luck! Why wasn't it Geraldine, who pounds the piano?

**Keeping Pace**

Big smokestack on a St. Louis hotel collapsed, perhaps because it wasn't as high as the rates.

# Music & Drama

## HERB RAWLINSON IN LATEST ROLE CONQUERS A TOWN

Supported by a notable cast, Herbert Rawlinson comes to the Regent Theatre commencing Thursday in his latest starring vehicle, "The Clean Up," a whimsical comedy marked by startling adventures and many thrills; a combination new to the picture screen.

"The Clean Up," is the screen adaptation of a story by H. H. Van Loan, author of several photoplay hits. It tells the adventures of the grandson of an eccentric millionaire, who to teach the youth the value of money, leaves every inhabitant of the village a fortune, but nothing to his grandson. The town goes on a spending spree, and all its normal aspect disappears. To save it, he has to battle crooks who have invaded the new rich places, faces attempts at assassination and other obstacles, battling his way to success. Incidentally, he finds the road to happiness and then, when his education is completed, learns that his gandfather left him a fortune after all.

In the cast are such players as Claire Farrington, Herbert Fortier, Claire Anderson and others of equal prominence. William Parke, who directed Milton Sills in "Legally Dead", also directed this picture.

## BIG SEA PICTURE IS "HOMEWARD BOUND"

A story of the sea, packed with drama and every scene having a distinct thrill of its own, Thomas Meighan's latest Paramount picture, "Homeward Bound," based on the story "The Light to Leeward," by Peter B. Kyne, and superbly directed by Ralph Ince, will be the feature at the Griffin theatre for 3 days beginning Thursday next. Lila Lee, beautiful and popular, plays opposite the star.

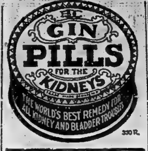
In this captivating photoplay, Mr. Meighan is seen as Jim Bedford, a sailor who saves a ship from foundering after Captain Svenson, the cowardly skipper, quits the bridge and gives up the struggle. When the ship reaches port, Svenson is given an ovation and Rufus Brent, the owner, unaware of the facts, makes him skipper of his yacht which Brent aims to present to his daughter, Mary.

Bedford, who loves Mary, refuses to permit Svenson to command the yacht and thus imperil Mary's life. When the yacht is about to sail, Bedford forces Svenson off the vessel and himself takes command. Brent threatens to have Bedford arrested for piracy and after a severe time abroad Bedford takes the yacht back to port. He then takes command of an unseaworthy schooner and before sailing quietly marries Mary. Events follow in quick succession, all of which combine to make the picture tremendously interesting and appealing.

The supporting company is exceptionally strong. In the cast are Charles Abbe, William T. Carleton, Hugh Cameron, Gus Weinberg, Maude Turner Gordon and other noted players.

## GREAT ENGLISH CHARACTER ACTOR RETURNING NEXT MONDAY

When the noted English character actor, Bransby Williams, who caused considerable comment in Belleville when he visited the Griffin Theatre with Dickens' "David Copperfield" last September, returns here next Monday, he will occupy the stage alone for about two and a half hours in a selection of the monologues, recitations, character sketches from Dickens, a Chinese drama, and impersonations of famous actors that have made his name a household word in the Old Country for the last twenty-five years. During his tour of the Dominion to Vancouver and back, the eminent actor has received many requests to present some of the music hall turns that are so well-known on the other side of the Atlantic, and at the conclusion of his present tour in Montreal he will return alone to a few of the Ontario cities and present the entertainment that he gave by Royal Command before the late King Edward and members of his family. This entertainment has already been presented at special matinees in some of the Canadian cities like Vancouver, Winnipeg, and Montreal, and the enthusiastic reception accorded Mr. Williams has induced him to accede to requests to present his One Man Entertainment in some of the Eastern cities before sailing for England on Feb. 8th. He will appear at the Griffin Theatre, Belleville, next Monday. The prices of the seats for this attraction will be from 50cts to $1.50. The seat sale opens on Saturday. Mail orders now.



# Pen Sketches By a Local Bard

## "A LITTLE SNUG"

The word's were our tailor's as he circum-taped us yesterday. Prudent man, before re-entering our pristine girth, he tugged tentatively at the top of our trousers. The slack was imperceptible. We were prepared for harsher comment such as we have endured of late from candid acquaintances. He might have said, "A bit portly," or "You are putting on flesh, sir." But his words were, like his tweeds, well chosen—"A little snug."

It was manifestly one of those moments when an irrevocable decision has to be made and quickly. We had but to say the word and the old measurement would stand. The moving finger would write. "and having writ" during the lifetime of those trousers at least we should be compelled to live and move within the compass thereof. Our dimensions would, perforce, have to be kept stationary by sitting down exercises, setting up exercises, handball or the salaaming of the gym class. Was it worth the cost?

Now, we are not yet, we hope, in the sere and yellow, but the Olympic palm does not stir us as of yore. Clear frosty nights succeed each other but our skates rust in the bottom of our trunk. The sleigh bells tinkle imperiously, but we prefer pondering how to get over to Dummy. The enthusiasm of friends who prattle of "keeping in condition" leaves us unmoved and unashamed.

For in our youth we did sometimes foot it with the fleet and "wrestle with the strong". It sufficeth us now when old urges knock to view the trophies of our modest achievement. We still treasure certain bits of ribbon that certify to our prowess, a medal and eke a crested letter, purchased by many bruises, that will make a fine cushion cover ere long. Let us who are fat and grow old leave to clean-limbed youth the gymnasium floor and amuse them not with solemn antics.

We sigh for ridges of muscle to replace the more comfortable tissue that girdles our frame. Such are essential in Mr. Dempsey's business but we know of no one who harbours sinister designs upon our solar plexus. Moreover, the only person toward whom we entertain any pugilistic yearning is in worse condition than ourselves.

"Snug" is a comfortable word after all and why should life all callisthenics be? We have done our stint. We have forward bended and backward stretched; we have on toes raised and on heels squatted. Certain tunes, sprightly enough in themselves are forever hideous in our ears by reason of their association with grotesque grovellings and dumb-bell clashings. Enough of the futile effort to stave off the advancing years. We have accepted the leaden foils which signify our retirement from the field.

Another inch, Master Tailor? Nay, chalk us twain. Yet another year and these too will be "a little snug."

## THE DOOR WAS OPEN

Jerushabel Jopping, the uncrowned poet laureate of Ameliasburg, came in here by mistake this morning. He was looking for the editor of the "Elevator" with a rondeau for the poetry competition. We could not let him escape with this gem. Jerush, for so his readers affectionately call him, says he has a lot more "pomes" back to home.

It was only yesterday (hearken hearken to my lay)
That three maids I saw most witchingly attired
And I wouldn't like to say, for the present anyway,
Why their costume I most thoroughly admired.

But no blushes stained my cheeks for their jaunty riding breeks;
I liked their heather-mixture golfing hose;
Their garb I thought, bespeaks the lure of ponds and creeks
And the spaces of our Lady of the Snows.
They are bound, of course, said I, for the fields of frost and sky
Where toboggans speed for acres more or less.
Valiant snowshoes they will ply, or some skiing surely try
As is plainly indicated by their dress.
Still their moccasin-shod feet pattered up and down the street—
And you really mustn't ask me how I know,
That their sporting togs complete were a feminine conceit,
Only donned for the purpose of show.

# LOVE MATCH IS MURDER CAUSE IN TORONTO STREET

Emma Gordon, aged about 25 years was shot through the head, opposite 18 Christopher Street about 10.30 last night by an automatic in the hands of Benjamin Gottlieb, alias Gordon, aged 30, who formerly lived on Gerrard Street east. The woman died instantly. Gottlieb then turned the weapon on himself and sent a bullet into his skull He was removed to the General Hospital, where the bullet was extracted. His recovery is doubtful. The body of the woman was removed to the Morgue, where an inquest was opened to-day by Coroner McConnell.

### Wrecked Love Match.

Little is known about Gottlieb. He and the dead woman had been living together for some time at the Gerrard Street address. Last summer they were to have been married, but, at the last moment, the match was broken off, and the two went their separate ways, the woman to some friends in the north, the man to his parents in Rochester N. Y.

Gottlieb returned to the city recently after a short stay in Rochester While walking along University Ave. last night, he met the woman. There was an altercation. probably over the separation of last year during which Gottlieb drew the automatic from his pocket and shot the woman. The bullet entered the left temple. The woman fell dead on the street and a moment later. Gottlieb turned the weapon on himself and fell beside her.

Officials of the General Hospital staff, and residents on Christopher Street were attracted by the sounds of the two shots. They found the dead woman and Gotlieb laying side by side on the sidewalk. Gottlieb was carried into the hospital, and the body of the woman was removed to the Morgue.

### Witness the Tragedy

Thomas C Arkill, 186 Mutual Street and Andrew Yousseff, 129 Chestnut Street were within a short distance at the time the tragedy occurred. They overheard the loud voices of the disputants. When they heard the shots they ran to the scene, and helped with the removal of the victims.

The police were notified and Detective-Sergts. Koster and Thomson, Inspector Bond and Detectives Johns and Williams investigated. Arkill and Youseff were questioned, after which they were allowed to go.

Papers found on Gottlieb and his victim showed that both had recently been out-patients at the General Hospital and St. Michael's Hospital, respectively. Gottlieb, it is understood, was suffering from tuberculosis. and was shortly to have gone to a sanitarium.

The police believe that the true name of the dead woman is Emma Foubert and that her home had been in Smoky Hill, Ont. A letter was found on her body addressed to Miss E. Foubert Smoky Hill, Ont.. while in Gottlieb's purse was discovered a photograph of the woman with "to Emma Foubert from Ben Gordon" (the name by which he had been commonly known) written on the back.

## Obituary

### ABRAHAM BARRIAGE

That the late Mr. Abraham Barriage of this city had many friends was evidenced by the numbers who attended the obsequies. At Christ Church the Rector, Rev. C. E. Clarke conducted the burial services of the Anglican church. At Belleville cemetery vault the interment took place. A number of beautiful floral offerings were tokens of sympathy. Bearers were Messrs. D. Post, T. Carter, J. S. Henderson, J. Frauley, S. McFee and G. Belcher.

### MRS. M. SWEENEY.

On Tuesday afternoon the funeral of the late Mrs. Mary Sweeney took place at St. Michael's Church, Rev. Father Killeen conducted services. The body was placed in Belleville cemetery vault. The bearers were D. Cotter, H. Rowe, P. O'Neill, H. Reid, P. and Geo. Johnson.

### MRS. HELEN A. COOK

At an early hour this morning Mrs. Helen Amelia Cook, relict of the late Mr. Charles Cook passed away at the family residence 113½ North Front street. Deceased who was in her 85th year having been born in England in 1839. For half a century Mrs. Cook had been a resident of Belleville. She was a member of the Tabernacle Methodist Church. Mrs. Cook was a lady possessed of a quiet and retiring disposition and made many friends. Her husband predeceased her some time ago. Two sons, Henry, of this city and George of Cascant, Pa., and two daughters, Mrs. John A. Judd, of Grimsby, and Miss Mary J., at home.

## Prohi Leaders

(Continued From Page One)

served at a refuge for the rum runners on the border. There are said to be 100,000 cases of beer held there awaiting "export" and now the customs office has ordered that as Petite Cote is not a port, liquor may not be shipped from there. It must be shipped from Sandwich, which is directly under the eyes of the enforcement officers of Uncle Sam. This makes the going a lot harder for the rum-runner.

"Fine," said Mr. Fleming, when he read the news. "That's one step in advance. Perhaps we will have others to follow it."

Which might be taken to mean that the drys hope to have the customs department end the alleged farce of issuing clearance papers for trips to Mexico and Cuba for a craft that can do no more than cross the river.

# That Body of Yours

By James W. Barton, M.D.

Someone has described health as the perfect working of all parts of the body.

That is, every part doing exactly what it was meant to do, and doing it properly.

One asked further—How is this attained?

The answer is by living a hygenic life. Hygiene is just the science of living properly.

Now how can one live properly?

Well, if you are young, on the up journey of life, that is the first half of life, say up to thirty-five or even forty, you should be doing all in your power to permit Nature to give you your natural growth physically.

That means that while Nature is doing everything to ensure your growth, you should be helping her in every possible way.

If you are very young, that you are playing outdoors, eating good food and geting a great deal of sleep.

If you are in your early twenties, then you are likewise playing some outdoors, getting good food, and plenty of sleep.

Between thirty and forty, some outdoor walking, or golfing, a little less food, and perhaps a little less sleep would be wise.

And what happens after the first half of the ordinary life?

Well growth ceases and decay sets in.

What is your object then?

Simply that instead of trying to help Nature in assuring your growth you do all you can to delay decay.

How is it done?

Just exactly in the same manner as you assisted growth.

Exercise, if slight in the outdoors proper food, and sufficient sleep.

The problem should be easy because Nature now demands less exercise, less food, and less sleep.

It is really harder for you because you dislike exercise it sounds like work, you like food ,and you like sleep.

You have acquired your position in life, are not struggling quite so hard, you enjoy food and rest. This very inactivity on your part in regard to exercise, combined with the unnecessary food, and the unnecessary rest really hurries the decay of your body.

Think it over.

# Big Tree Planting Program for 1924 Now Under Way

Washington, Jan. 30 (United Press).—Following a great tree planting week in which everybody turned out in the city of Sacramento, the American Tree Association to-day called on the people of the country to make the year 1924 the biggest tree planting year the nation ever had.

Under the direction of Irvin Engler of the Chamber of Commerce, and a committee made up of M. B. Pratt, state forester, F. N. Evans, park superintendent, Geneva Watson, of the McWilliams, county forester, Sacramento opened on January 20 the year's campaign. The week had its climax Saturday when, reports to the American Tree Association say, ten thousand school children turned out and planted trees, shrubs and flowers. The campaign had been launched in the churches on the previous Sunday.

"Thousands have heard our call to celebrate the centennial of Arbor Day in 1972 by planting the trees now and 1924 will be a record breaker," says Charles Lathrop Pack, president of the Tree Association. "We register 69-890 tree planters in the tree planting army during 1923. The first report in 1924 on roadside planting comes from Mrs. E. M. Savage of Eustis, Florida, where an entire school planted trees along the Dixie Highway. The old Spanish Trails with headquarters in San Antonio, Tex., has big plans under way as has the Lee Highway particularly in Tennessee.

"Most important of all planting perhaps, scheduled for 1924 is the planting of 26 miles of the Harding Highway starting at Lima, Ohio, and plainting toward Marion. Mrs. Florence Kling Harding, her health permitting, will inaugurate this planting in co-operation with Lynn B. Timmerman, the Boy Scouts, J. Earl Miller of Lima; Carl J. Gugler, of Galion, the president of the Harding Highway Association and myself. This planting will be in April."

# "PUSSYFOOT" JOHNSON CLAIMS PROHIBITION SPREADING FAST

By WM. E. 'PUSSYFOOT' JOHNSON

Copyrihted, 1924.

In all history, no social movement has ever made such rapid progress throughout the world as has the prohibition idea since the adoption of the Eighteenth Amendment. Since America, the strongest and most influential nation in the world, took this high stand, projects looking to the elimination of the drink menace began springing up at nearly every corner of the world. Movements already initiated took on a new life, all so threatening the alcoholic overlords that an international organization was recently effected to combat the spread of the prohibition movement.

Since America went dry, practically every parliament or law-making body on the face of the earth has been grappling with this question. Without a single exception, every one of them has been seeking to find some way to lessen, restrict, discourage or prohibit this degrading traffic. Not for twenty years has any civilized parliament looked upon the drink traffic as a business that should be encouraged or promoted as any useful business is ordinarily encouraged or promoted. Every one of them has been trying to get rid of the business, either in whole or in part.

To co-ordinate these dry activities, the World League Against Alcoholism was formed four years ago, an organization made up of the Anti-Saloon League of America and similar organizations in more than thirty of the leading nations of the world. This organization is already achieving marked success because the various national dry bodies, instead of shooting at random at a menace that has become an international one, now work together just the numerous wet national concerns work together, inspired by appetite, greed and the cohesive power of public plunder.

### Alarming to Liquor Men

It is by no means strange that the international liquor interests are more or less in a panic when they look out of their cyclone cellars, for so many things alarming to them have happened since the American decision.

Iceland, Turkey and Finland have gone completely dry. Norway and Belgium have gone dry so far as distilled spirits are concerned. Japan, Italy, England, Northern Ireland and many of the Central European states have enacted laws to restrict the traffic.

Four of the independent Indian states have adopted prohibition. Several of the South American and Mexican states have adopted legislation greatly restraining the traffic.

Zanzibar protectorate has adopted prohibition applying to everybody except Christians and there are mighty few Christians there. Egypt, where the drink traffic is licensed under the law governing "inconvenient, dangerous and undesirable institutions," has already quit issuing any new licenses and is planning to eliminate the whole traffic.

Practically the only obstacle to be overcome in the tangle of existing capitulations with so called "Christian governments." In France, where the great fight is being waged against distilled spirits, the drys have nearly 80 members in the Chamber of Deputies.

Recently a petition signed by 460,006 German citizens was presented to the German government asking the right to vote on the licensing question.

In Holland, a little more than a year ago, a great dry demonstration was held at the Hague in which 30,000 drys marched in a procession carrying 700 banners demanding the right to vote on the liquor question.

### Started 60 Years Ago

Why this movement has spread so widely throughout the world is worth considering with care and without heat. The wets would like to make the world believe that the prohibition idea spread all over creation because it was a failure. The people in the United States began trying out the dry policy more than sixty years ago, slowly at first, but finally increasing with great rapidity, until 32 of our states and 12,000 municipalities had adopted the prohibition idea.

The American people are not fond of failures. If an American has a piece of machinery that won't work, the people repeal it. If it is a horse or mule that won't work, the owner swaps it off for another. Many people even scrap their wives and get rid of them when they won't work.

The American people scrapped the licensing system because, after trying it out for a century, it proved a failure. They adopted the prohibition system because, after trying it out in 12,000 municipalities and in 32 states, it proved so much more satisfactory than the licensing system that it was written into the Constitution itself. This was done, as Chief Justice Taft has so well said, "by the most overwhelming demonstration of public approval that ever attended the adoption of any national policy."

Plenty of flaws and defects can naturally be found in the enforcement of prohibition or any other new law, but the prohibition law defects appear to be unsatisfactory to the wets that they are led to the necessity of enormously exaggerating these shortcomings in order to attract attention. If one tenth of the allegations made by the wets against prohibition were true the prohibition law would be repealed within a year's tme, and I would do what I could to hasten such repeal.

# PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gases, Indigestion or Sour, Upset Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

### FARMS IN CANADA

Edmonton, Alta., Jan. 29.—Occupied farms of one acre or over in Alberta increased by 73,475 between 1901 and 1921, according to census figures prepared by the dominion bureau of statistics. Exclusive of Indian reserves, the report shows, farms in the province numbered 82,954 in 1921, compared with 9,749 in 1901 and 60,559 in 1911. Farm acreage in 1921 was 29,293,053, as against 17,359,332 in 1911 and 2,735,630 in 1901. This was a gain of 534.6 per cent. between 1901 and 1911 and 68.7 per cent. from 1911 to 1921.

# To Darken Hair Apply Sage Tea

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common gardens sage browed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

### Seasoning Tapoo

Due to a food shortage Canadian bears are eating porcupines, without even salt or pepper.

# TAXI INVADES THE HOLY LAND

Jerusalem (By mail to United Press).—Pilgrims to Palestine must be prepared to find the Holy Land a little less of a shrine and more of a tourist resort than it used to be.

The days of slow and laborious travel by caravan, sleeping in tents by night and sharing something of the rude and primitive life of the people are gone.

Before the war there was only one motor car in the country—one harmless Ford. Now Jerusalem is crowded with taxis, parked in front of historic gates.

Automobiles have almost altogether replaced the camel and mule. Nonstop tourists dash about from Damascus to Jerusalem, from Bethlehem to the Sea of Gallilee, dining and occasionally sleeping, in modern hotels, and returning to boast that they have "done Palestine completely in 48 hours."

Nevertheless, travel by automobile is full of adventure. For the roads in many places run into deep ruts, pools and bogs. One such place is that near the part of the Jordan associated with the Baptism of Christ. A distinguished traveller, Sir Martin Conway, describes his experiences at this spot as follows:

"We were driven by an Arab chauffeur, an individual easily excitable and liable to become reckless in adversity. His method was simple: When in doubt bang ahead and put your faith in Allah."

Allah was good to Sir Martin and his party, for they got through, much to the chagrin of a band of "local spectators who stood by ready to dig us out for a consideration."

An aerial cable railway is under construction at Chamonix, France, where the Olympic games are being held this month.

# WORMS BOTHER HORSES

## Some Are Long, Some Are Short, All Are Annoying.

They Range From Two to Fifteen Inches In Length—Symptoms Described—Practical Treatment Suggested.

(Contributed by Ontario Department of Agriculture, Toronto.)

### The Oxyurides or Pin Worms.

The Oxyurides are popularly known as "Pin Worms," and are among the most common parasites affecting the large intestine of horses.

Characteristics: Two varieties of this class of pin worms are said to occur in horses, termed respectively the Oxyuris Curvula and the Oxyuris Mastigodes. The Oxyuris Curvula is probably the more common, and some authorities appear to consider the Oxyuris Mastigodes to be but a variation of an abnormal form of the Curvula. In general appearance and form they closely resemble each other, the chief difference noticeable being their length. The average length of the Oxyuris Curvula is about two inches, while the Oxyuris Mastigodes is about four inches in length. They are both distinctly curved in shape, and made up of a body and tail. The body is the curved and thickest part and forms the anterior half. Posteriorly the body becomes attenuated and is prolonged by a whip-like, long tail which tapers to a thin point. They inhabit the large intestine, more especially the colon and rectum, and are sometimes present in large numbers. The eggs are deposited around the outer margin of the anus and become noticeable as a yellow incrustation. The life history and cycle of these parasites has not been fully determined, but it is probable that infection takes place direct by ingestion of food and water contaminated with eggs, which later become hatched in the stomach and intestines.

Symptoms: If present in small numbers they may not cause any inconvenience. When present in large numbers they cause considerable irritation of the bowel and rectum, and the animal is noticed to be frequently rubbing the anus and tail against any convenient object. Owing to the continued irritation to which they give rise they may greatly impair the general health of the animal, causing unthriftiness and loss of condition. A characteristic symptom of the presence of pin worms is the appearance of a greyish fur and yellow incrustation around the margin of the anus, resulting from the eggs deposited and dried mucus accumulating. The worms themselves are also often observed hanging out of the anus or in the dung being passed.

Treatment: Medicinal treatment and injections are usually successful in expelling and eradicating pin worms from horses. A useful remedy consists in two ounces of turpentine given in a pint of raw linseed oil, as a drench, repeated once a week as may be required. In addition, injections into the rectum should be given each morning consisting of warm, salt water containing about four tablespoonsful of salt to each quart of water. Salt should also be given in mashes or placed within reach of the animal. The skin around the margin of the anus should be washed to remove the incrustation of eggs.

The prevention of infestation by pin worms consists of avoiding food and water which are contaminated by the droppings from horses.

### Ascaris Megalocephala.

This is a large worm which is very common among horses. It is so named on account of its comparatively large head.

Characteristics: In form it is a long, round worm tapering towards both ends. They are of a whitish or yellowish color and are easily distinguished by their large-sized and expanded heads, provided with three papillae or lips. The females are the larger, being from six to fifteen inches in length, while the males are from five to ten inches. They are the largest and most common of the round worms infesting horses, and inhabit the small intestines of horses of all ages, and are sometimes present in large numbers. The ova or eggs have great power of resistance and vitality, and after being expelled from an animal may remain alive for a period of over a year in manure, moist earth or ponds. The eggs and larvae are in turn taken into the system with the food and water, and, on reaching the intestines develope into the mature worms.

Symptoms: As a rule this worm is only present in small numbers and does not give rise to much inconvenience or harm. When present in considerable numbers they are frequently noticeable in the dung, and may cause the usual symptoms of worms in general.

Treatment: Medicinal treatment is usually effective in expelling this parasite, as they live chiefly in the contents of the small intestines, and vermifuge medicines dissolving in the bowels kill them rapidly. The following remedies have proved to be effective:—Sulphate of iron given in two dram doses in the feed every morning for a week followed up on the seventh day by a purgative, such as an ounce of aloes given as a ball, or a pint of raw linseed oil. The iron may be continued longer, if necessary. Two ounces of turpentine given in a pint of milk or raw linseed oil is also useful. The most effective agent, however, is probably tartar emetic given in doses of from one to two drams daily for four or five days, followed by a dose of physic.—C. D. McGilvray, M.D.V., Ont. Vet. College, Guelph.

The success a man has in the production of lambs depends on the kind of ewes he selects, and the care he gives them.

### Fresh Thief Caught

Cops in St. Louis caught an egg thief. Guess he was a hard-boiled egg. May have been a bad yegg.

### Mean Advantage

Drive carefully. Blow your horn. In Omah, Neb., a wreck victim was robbed while unconscious.

# LORD BYNG MEETS SIX HUNDRED OLD COMRADES

The Point St. Charles (Montreal) shops of the Canadian National Railways hold the honor of having sent more men overseas than any one industrial firm in Canada. Six hundred of these veterans were inspected recently by Lord Byng during a visit to the shops, the Governor-General shaking hands with and talking to each man individually. The men were drawn up in four ranks the length of the erecting shop. The photograph shows Lord Byng shaking hands with one of the veterans. In the central group from left to right are: Major P. K. Hodgson, Private Secretary to the Governor-General; Mr. S. C. Wilson, Superintendent of Motive Power, Canadian National Railways; Mr. T.M. Hyman, D.C.M., Superintendent of Shops, Canadian National Railways, and His Excellency Lord Byng of Vimy.

# How and How Not to Wield That Weapon 'Table Fork'

Let us have a chat today about what some of our friends may consider a frivolous topic, namely the new and horrible method of eating, or rather, failing to use, one's knife at dinner. The new way, a way which has swept like a pestilence across the land, is to use the knife to cut up the food—meat or whatever it may be, that will not succumb to the blandishments of the fork, and then to lay it across the rim of the plate, or slant it against the edge, with the handle sprawling over the tablecloth. Whence came the fashion—advocated, we have noticed, by some writers whose own table manners will admit of a great deal of revulsion—it is difficult to say. In our pleasant little way we are inclined to blame the Americans, but then well-mannered Americans don't do it; they use their knife and fork as well mannered people in other civilized countries do. We have a strong suspicion that it came by way of the poorer class of American restaurant, where the table manners are governed, largely, by German influence, and if you had once seen even the better class of German consume his food you would understand just what sort of influence that would be. Then again, the ridiculous demands made upon the fork—we actually saw a very highly qualified university graduate trying to dismember a mutton chop with her fork not long ago—are, no doubt due to the mistaken zeal of those who very recently used their knife for most purposes. They have learned that the knife is not to be used as they used it, and have now rushed to the other extreme and don't use it when absolutely necessary. Dinner knives are made to be held in the right hand, to cut the meat, which is held steady, by the fork; to press meat, vegetables, etc., on to the prongs of the fork, and it is never to be laid aside and the fork transferred to the right hand, and fork side by side, on the plate, as close together as you can place them, with the handles towards you. This is a sign to whoever is waiting on the table that you have finished. If you go out into really good society, and use your fork with your right hand, as many misguided people are doing now, you will have said of you as we have heard said of several people lately (people who thought they were being very fine indeed). "Oh, they're impossible—they're the sort who chop up their dinner, you know, and eat it with the fork in their right hand!" Remember, you will see a great many people that you think ought to know using their forks in the wrong way, but they belong to that class of persons who always seem anxious to forsake their own way of doing things for someone else's. They are always the people who fall victims to the latest fad. Don't be led by them. Don't be like the girl who really knows the proper way to use her knife and fork, but who said she hadn't moral courage to do it—the other girls in her year at college all stared so when she kept to the way in which she had been trained in her home.—(Kingston Whig).

## BABOONS TO ENTER "GLAND" BUSINESS

Long Beach, Calif. Jan. 29.—Long Beach will become the center of the gland industry if Captain Thomas W. Kemp and a number of Los Angeles and Long Beach medical men do not change their minds.

A number of doctors have proposed sending Captain Kemp to Africa to secure baboon glands, said to be far superior to those of goats, which are now used to make the old young.

Captain Kemp is not greatly in favor of robbing the jungle inhabitants of their glands.

"Those bally baboons are such human chaps," says the captain. "They stand nearly five feet in height and are really very intelligent."

## 40,000 YOUNG MEN TRAIN IN CAMPS

Washington, Jan. 29. (United Press)—The War Department plans for the 1924 summer military training camps will take care of 40,000 students, between the ages of 17 and 24. They will open in all army corps areas August 1.

These camps are an extension of the Plattsburg idea of 1915, favorite Americanization plan of Theodore Roosevelt. They offer a thirty-day course in outdoor training to volunteer candidates who can measure up to the standards set by the War Department. All expense is borne by the Government.

Instruction is divided into four groups, designated as the basic, red, white and blue courses. In the basic course only the elementary drills are to be taught, athletics and citizenship studies receiving the principal attention. But students in the advanced classes may specialize in infantry, cavalry, engineers or other branches of the service.

# Acid In Stomach Sours the Food

SAYS EXCESS OF HYDROCHLORIC ACID IS CAUSE OF INDIGESTION

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation; then our meals sour like garbage in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive acids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast, while it is effervescing, and furthermore, to continue this for one week. While relief often follows the first dose, it's effervescing and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of stomach sufferers with excellent results.

## BARRIERS DOWN

New Premier Does Not Want Protection.

London, Jan. 28.—The wooden barriers which were erected at the entrance to the Downing street residence of the premier two years ago as a protection against possible damage resulting from demonstrations by anti-Sinn Feiners and the unemployed are to be removed by order of the new government. This is a reversal of a decision of the former government.

Snow-shoeing and other winter sports are the order of the day throughout Canada.

# Head Stuffed By Catarrh? Use A Healing Cream

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

FANNING WITH FARRELL

## RAILROAD PLAYERS OUT OF MAJORS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Jan. 30.—Major league managers and club owners deny that they have among themselves a gentleman's agreement not to interfere with each other's trading activities by claiming useful players upon whom waivers have been asked.

From time to time, the fans, who have not access to the inside of baseball, find evidence that points to such an agreement. The players, who certainly are in a good position to hear back-stage talk, accused the club owners so directly with being willing to slide players out of the big leagues that they started to form a union a year ago to fight it.

When fifteen major league clubs recently allowed Elmer Smith, a .300 hitter, the champion pinch hitter of the American League and a fair fielding outfielder, to be slipped out to the American Association without a claim being made for him, it seemed strange, to say the least.

It was hard to understand why in need of a reliable fielder and a hard hitter would offer big money to gamble on a minor league player when they would not accept for the waiver price a player of known ability.

Perhaps it was natural to figure that the Yankees wanted him to complete a deal with Louisville for young Combs, a rookie with two season's experience and that the other clubs acted on the agreement—"I'll not claim yours, if you'll not claim mine."

Beyond an abstract denial of charges that the old "railroad" was still working, only one club official would take the trouble to explain how such things could happen regularly as a part of routine business.

John McGraw, vice president and manager of the Giants, suggests that in the case of Smith several rival managers might have wanted to take him away from the Yankees, but they might not have been able to do it.

"Major league clubs are allowed to have only forty players on their list at any one time and just before the training season starts, it is seldom that a manager has a place on his team at a moment's notice," McGraw said.

It is a well known fact that the "forty player limit rule" is one of those rules that looks good on the books and that is respected only as a good looking rule by the baseball people. It is also believed generally that the rule never will prevent a club owner from taking on a player that he really wants.

There is more to another argument presented by McGraw, however, that frequently a fancy contract prevents one club from taking a player from another club, for even the low price of the waiver.

If Smith had a three or four year contract at a salary of $7,000 or $8,000 it is not likely that one of the club owners not in the wealthy class would care to assume the obligations of a contract—if they would consider a baseball contract as placing any obligations on the club owner.

With a lot of sound wisdom behind the point, McGraw also calls to mind that major league managers may know a lot more about the ability of players than the fans and the writers.

He points out that all managers are not in such a position financially that they can impose a burden on the payroll just to have a pinch hitter on the bench and that the title of "champion pinch hitter" is not as high meaning as it sounds.

A pinch hitter, it must be admitted might finish the season with an average of .999 and yet he might not win a single game.

• • •

Just a couple of years ago George Burns was being peddled around the American League for the Daiver price and was used at odd jobs in the outfield and around first baseman.

From the sacrifice in playing strength that Tris Speaker had to make in getting Burns back from the Red Sox to the Cleveland Indians, he is the most valuable first baseman in the league.

Rather strange, because low surroundings usually drag a player down. Burns developed into a brilliant player with the lowly Red Sox. He had a chance to work regularly and hit all kinds of pitching and it is possible that the coaching of Frank Chance may have enabled him to find himself last season.

At the age of thirty-one, the average baseball player is far past his prime, but Burns seems to be just arriving, at that rather "advanced" age.

• • •

This Speaker has been one of the greatest of all players and is still a fine performer in the field and at the bat. He is a capable manager and a brilliant leader, but from the results of two big trades he has made he is the worst peddler in the business.

In giving O'Neil, Wamby, Connolly and Boone to the Red Sox for Burns, Fewster and Walters, the Indians, however, may have been forced by the hand of Ban Johnson.

Johnson is out to rebuild the club that Frazee wrecked in Boston and it is probable that Johnson has not sold the stock in the Cleveland club that he was shown to be in possession of during the Carl Mays litigation.

## Canuck Olympics Swamp Sweden

Chamonix, Jan. 30.—The hockey teams of Great Britain and Canada triumphed over the representatives of France and Sweden in the Olympic games yesterday. The Canadians added to their brilliant reputation by fairly smothering the Swedes considered the strongest European team, winning by a score of 22 to 0. The English team defeated the Frenchmen, 15 to 2. Canada's victory over Sweden has made the Canadians big favorites for the Olympic hockey championship. The Swedes never had a chance in the face of skill and speed, the like of which is said never to have been seen before in the old world. Canadian Olympic representative P. J. Mulqueen said after the game the Canadian team in its present form equalled any sextette that ever took the ice, either in Canada or the United States, in the history of the game.

### PRIZES FOR SPORTING MEN

Paris, Jan. 29.—Alain Gerbault, who sailed his 30-foot yacht across the Atlantic single handed, is the leading candidate so far for the prize of the French Academy of Sports to the French athlete who accomplishes the most sensational sporting exploit during the year The prize is for 10,000 francs, and will be announced early this year. Another candidate is Sadi Lecointe, the aviator, while Henri Pelissier, national cycling champion, has many boosters.

## ON THE ALLEYS

The Canucks lost there first game of the season at the Recreation Parlors last night when the Debutantes came back strong after losing there first two games played. Miss Ryan had the high single and Miss Burke the three strings In the Junior league the Aristocrats won there third straight game when they won from the Natural Tread by 26 pins. The Natural Tread were leading by 45 pins in the first game the second game was tie both teams rolling 813 and third and last game the Aristocrats were up 71 pins. Lent rolling 237 and 602. The second junior game was between the Express and O. B. C. the latter team going into the win column for the first time and the Express losing there first game. Valledand rolled a tidy single of 241. In the "Big Six" group the Millionaires lost there second straight game when the Knights made a whirlwind finish winning out by 63 pins after being down 73 pins in the second game. It was one of the breaks that generally go into a game the Millionaires weakening and the K. of C. taking advantage. But enough is said on this, wait until they meet the second round. Scores and players.

## Whitby Intermediates "Fade-out" At Home

Whitby, Ont., Jan. 30.—After having the best of the play for 50 minutes, and leading by one goal in the game here last night, the Whitby intermediates went all to pieces and allowed the Port Hope Ontarios to score three goals in five minutes, and then add another four minutes later, wininng 4—1. For three-quarters of the game it looked as if the Port Hope team, who are leading the race in Group 3, would be shoved off their perch, but their last-minute rally allowed them to retain their position. The ice was choppy and prevented any real hockey, but the game was fairly

Last night at the Y Alleys two games took place the first was a ladys game between the Veronas and the High School girls which was a lively contest right until the last frame, the Veronas winning by 72 pins. This is the Veronas first win but look out for them from now on. Miss McArthur carried off the high single with 149 and the three string with 384. The second game of the evening was in the men's league between the Bowlers and the Y Reds which the former won by 23 pins. The reds tried hard to break the winning streak of the Bowlers but were unable to over come the lead that the Bowlers piled up in the first game. It looked as if the Reds were going to overcome this lead in the last frame but with McLean striking out this put an end to it. Phillips of the Reds carried off the single with 236 and McLean of Bowlers the three string with 591.

## BROCKVILLE FANS GIVEN GARBLED ACCOUNT OF GAME

### Injuries to Kinghorn and Guest Laid to "Rough Tactics" of Belleville—Referee Laflamme Scored Despite Exhibition of Clean and Fair Play

The following extract from the Brockville Times and Recorder gives a rather mangled account of the game here between Belleville and Brockville. "Those fans who were present will appreciate the fact that such an account is in wide variance from the actual play, and only the superb condition of the local athletes prevented similar accidents on their side.

Bill Green who was on his toes and playing clean all the while, cannot be blamed for Kinghorn's injury, and as matter of fact, took checks and bumps throughout the game that would have laid away many another player. None of the spectators, viewing the game from an impartial standpoint, can give him anything but praise for his playing. Accidental injuries will occur in every sport, and hockey more than others, and Brockville's mishaps were entirely accidental and players on both teams gave all they had to win. Brockville gave an exhibition of gameness here that every fan appreciated, and as a consequence were "razzed" but very little by the fans. Local enthusiasts appreciate good playing on any team and visiting squads are always given a "square deal".

Through an error, "Bunny" Frechette was credited with a goal in yesterday's account of the game that should have gone to Green. "Bunny" failed to get a goal, but he certainly made sure that the other team had an equally hard time.

**What Brockville Saw**

"From the accounts of Brockville spectators at the game, some 35 in number, the management and players of the local team are rightfully up in arms at the treatment handed out to them by the Belleville players, officials and spectators, and it is not unlikely that Brockville is through with the O.H.A. forever.

"The Belleville despatch does not add that Guest and Kinghorn, Brockville's wing men, are patients in the General Hospital here, the former with three broken ribs and the latter with his left shoulder dislocated as the result of unsportsman-like attacks in the second period when Brockville was leading by 2 goals to 0. "Bouncer" Holway, defence player, is under a physician's care with a cut over the right eye as well as injuries in the abdomen, received at the end of the first period, which kept him out of the game for the second 20 minutes of play; Higgins has a cut in the jaw and is badly battered up, and Miller is hardly able to walk with a dislocated knee.

"Every Brockville player had it over the Belleville exponents of the game like a tent in the first period. Kinghorn went through alone for the first counter and Guest scored the next on a pass from Kinghorn. To the credit of the Belleville players it must be said that they tried to play hockey in the first period, but when it was seen by players and spectators alike that they were facing defeat they quit playing hockey and started in to cut the Brockville players down. "Bouncer" Holway was the first to fall, being prodded in the stomach by a stick in the hands of "Bill" Green behind the Belleville nets and after being sandwiched by Greer and Finkle Holway had to be carried from the ice. He was unable to return during the second period. The loss of Holway necessitated the return of his brother "Toots," to the defence with Burt. Kinghorn went to centre to replace "Toots" Holway, Guest to right wing and Higgins to left wing for the start of the second period.

"The second period had only been in progress five minutes and Brockville was showing the best form when Green cross-checked Kinghorn, dislocating the latter's shoulder and leaving the marks of his stick on the flesh. Dr. Robinson, Belleville, who gave Kinghorn attention there stated to Brockville officials that he never saw such a brutal attack in hockey. Miller went on for Kinghorn and still Belleville could not win, so Dr. "Jerry" Laflamme, Toronto, the referee, took a hand in the game and started to impose penalties on the Brockvilles. With Higgins and Guest off, Belleville scored twice and shot again, the puck striking the goal post. The Toronto official, who, according to Herbert Dillon, Brockville goal judge, had to skate into a corner of the Belleville rink, in order to get the puck declared that a goal had been scored and made the teams face off in centre ice. And by the way the O.H.A. countenances such actions, as spectators at the Belleville-Frontenac game in Kingston a few days ago will bear witness when "Bill" Cummings, another Queen City referee, gave Belleville that game.

"Bouncer" Holway returned to the ice for the last period in which there was no score made by either teams. The hickory was wielded in great shape by all of the Belleville players, spurred on by the frenzied spectators who feared their hockey team was about to be defeated.

"Belleville need never fear defeat so long as the O.H.A. allows such tactics as the Belleville team adopted Monday night. Teams can win championships in more ways than by playing clean hockey and the sooner such teams as Cornwall, Queen's, Frontenacs and Brockville, all of whom have suffered bodily injuries while trying to play hockey as it should be played endeavoring to defeat Belleville legitimately, cut away from the O.H.A. the better for hockey in this part of Ontario.

"Brockville, Kingston and Cornwall would welcome a championship won by fair means, but Belleville apparently wants championships won in any manner and are welcome to them."

## BROWNSCOMBE TO PLAY IN TORONTO

### Former Trunk Outfielder to Play in His Home City

Oshawa, Jan. 29—Harold Brownscombe, the good outfielder with Belleville in the Central Ontario Baseball League last year, has sidestepped the Bay of Quinte City and returned to his home city, Toronto, having applied through the registration committee of the Amateur Athletic Union of Canada for an amateur card to play in Toronto. Central League fans will anxiously await the opening of the coming season to see what uniform the dark-haired boy will don in the Queen City.

**Kingston Anxious**

J. J. O'Neil, secretary of the Kingston Amateur Baseball Association, has written the secretary of Central Ontario League for Kingston's status in regards to same. Kingston wired the secretary at the annual meeting in Lindsay that they would carry on and had forwarded the annual fee, but as the wherewithal was never received they have been notified that they are not at present on the league register.

**Murray Still Here**

The dispatches going around the Central Ontario Circuit that one Mickey Murray, the former Peterboro third sacker, who the last two years donned a Leaside ball uniform in the Summer and hockey goalkeeper's outfit for North Toronto intermediates in the Winter months, and arrived in Oshawa shortly after the close of the Central League last year, had gone West, has no foundation, for he was prominent at Bradley's Arena here last evening making his debut as a Church League hockey referee.

Good news was handed out for Oshawa baseball fans yesterday when the contract for the building of the new grand stand at Alexandra Park had been let, with the time for completing same fixed for May 15th, which guarantees that all will be ready for the opening of the Central League season on May 24th.

Campbellford, Jan. 29.—Two rinks will represent the Campbellford Club at the Peterboro Bonspiel which commenced Tuesday morning. Members from here include Messrs. Smith, Tait, Palliser, Adams, Kelly, Wiggins, Lowery and Rondeau, and some tight contests are expected.

SPECIAL
FOR THIS WEEK
Dark Grey Worsted
SUITS for Men
Only $25.50

They are just in for Spring and we hurry to tell you about them as they are the best value we have known in years.

They are Pure Wool, nice dark Grey shades, all wool serge lining in Coat; made in the Conservative 3-Button model.

# OF INTEREST TO WOMEN

## SOCIAL and PERSONAL

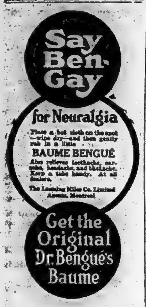
Mr. and Mrs. C. Chilver of Walkerville are visiting Mrs. Chilver's sister, Mrs. H. H. Holland, 78 Queen St.

Mrs. C. E. Hay of Stirling, who underwent a very serious operation in Kingston General hospital has recovered so far as to be able to return to her parental home at Belleville, 284 Foster Ave.

On the day a Vancouver (B.C.) man was 103 he worked 13 hours, so when he gets old he can rest.

## Tired Nervous Mothers

are the direct cause of much unhappiness in our homes; their condition irritates and wears upon the husband and often ruins a child's disposition. This condition of the mother is often due to some weakness which makes her entirely unfit to perform her household duties and bear the strain upon her nerves that governing children involves. Every woman who finds herself in this condition should remember that statistics prove that 98 out of every 100 women who suffer from female ills are helped by Lydia E. Pinkham's Vegetable Compound, and lose no time in giving it a fair trial.



Say Ben-Gay for Neuralgia

## Mah Jong Parisians Appear Like "Link of Sausage"

By HEDDA HOYT
Fashion Editor of the United Press

Paris, France, Jan. 30.—To look like a link of sausage is the whim of the Parisian at present. One can hardly call this tube-like silhouette the ruling one, however, as there are really three distinct silhouettes in Paris at the present writing.

But for morning and street wear, the unbelted, sausage-shaped frocks and tube-like coats rule supreme. Afternoon sees the more feminine silhouette with frocks shirred, tiered, flounced or draped, and made of luxuriously beaded velvets and tinsel embroidered crepes. For evening we have still another silhouette, or rather, we have two distinct silhouettes; the short full skirted dance frock, made of flimsy materials, such as tulle, net or chiffon, and the sophisticated formal gown, which uses brocade, velvet and beaded crepe in sinuous slender lines.

### Morning Silhouette

The little morning silhouette is by far the most amusing one of the moment. We see girls in double-breasted suits of mannish materials with pockets and lapels exactly like brother's.

A slight hint of the feminine is left to the blouse which is open at the throat with turned back collar.

Again there may be a brilliant flower in one's buttonhole, to relieve the too mannish effect. Often the blouse worn with such a suit has a tucked shirt-front like that of a man's dress shirt. Skirts of these boyish suits are always rather short and scant.

### Afternoon Silhouette

If Milady wishes to look like Peck's bad boy in the morning, she must show her chameleon qualities by appearing like a former Russian Princess, a seven-veiled sylph, or a Chinese Manchu lady in the afternoon.

Gown of Russian tendencies are made of gold-embroidered velvets or lovely brocades with long basques, wind-about sashes, full-flaring tunics and narrow underskirts.

I saw a lovely gown of this sort at the Cafe de Paris one afternoon at tea-time. The blouse and tunic was of brown velvet embroidered in gold in peasant design. A six-inch band of Kolinsky bordered the tunic. A wide sash of velvet, more heavily embroidered than the rest of the gown was wrapped carelessly about the hips. The sleeves joined the gown just above the elbow and were of finely pleated brown chiffon, gathered in at the wrists. The underskirt was unembroidered and scant as to line. A stunning Russian turban of Kolinsky completed the Russian effect.

The more youthful frocks for afternoon, use soft silk crepes and chiffons with flounces, tiers or circular hems. Often these are made over a fountain of gold or silvercloth. Sleeves are usually short and necklines rounding.

### Chinese Frocks

Chinese embroidered frocks, with brilliant colorings, Mandarin sleeves and necklines, are extremely chic on the dark Parisian. One of these is made with a veritable blue coolie jacket embroidered in gold dragons with a skirt of plain blue satin, made with straight side-panels, to resemble trousers. For teatime, in one's own home this frock would be lovely, although I should not care for so eccentric a style in a public rendezvous. However, the little Mah Jong gowns are the latest hit in Paris.

Many of the smartest velvet afternoon frocks have three-quarter or hip length coats to match. Jenny is particularly partial to these. Sometimes she uses sleeve of contrasting color to the coat, as in the case of a brown coat with burnt orange sleeves encrusted with bronze embroidery. Again her sleeves are cut wide and banded in narrow rows o fur. Sleeves it would seem, play the most important role of the frock. Nearly all coats are fur-trimmed these days, the fur being used on collars, sleeves and as a border to the coat bottom. Many of the more dressy suits vary the tube effect by showing a slightly fitted, low waistline and slight fullness at the hips. Frocks worn with coats of this line use a slight flare at the hem to carry out the lines of the coat.

## Bobbed Hair Still Popular Among the Parisian Queens

By HEDDA HOYT
Fashion Editor of the United Press

Paris, France, Jan. 30 (United Press)—A woman with a chignon is about as popular as a man with a wart on his nose—in Paris!

In spite of pictures in fashion magazines of Parisians with sleek, long hair drawn severely back from the forehead and twisted in buns, Greek rolls, chignons, etc., one doesn't see this sort of thing in Paris, except on women of mature years who have long since lost the gist of the styles.

Bobbed heads are still very prevalent. Glancing over the crowd of gayly gowned women in the theatres, one can truthfully say that over 50 per cent of the women have short locks. The wild, curled "bob" of last season, however, is seldom seen.

Straight hair often so straight that it looks as thought it were plastered to the head, is quite the rage of the moment and on the dark haired Parisian it is extremely chic. The back of the head is always boyishly "bobbed", with what little marcelle there is concentrated at the front and sides.

Blonds, while following the boyish cut, usually have the whole head waved and brilliantined in place, as the too severe head dress is not as becoming to the blond as to the brunette. We can say at least this for the new back clip; it certainly saves a lot of elbow strength to say nothing of burnt necks.

### Parisian Make Up

White velvet textured faces, carmined lips and natural eyebrows are the mode for 1924. By white faces, I do not refer to the chalk like masks seen on girls in America, for Parisian women prefer a natural creamy shade rather than a dead white one. Eccentric yellowish powders of last year are not being used at all. In fact, make-up this season seems to be concentrated on the mouth, the lashes and the brows. I have never seen lips of such brilliant coloring or lips that are made up with such deftness. The making up of the mouth has always been an art with the Parisian. If her mouth is too small she reddened it to the ends with a waterproof lip rouge and accentuates the cupid's bow by means of an orange stick, rather than the finger. Large mouths are never colored entirely to the ends, though by deepening the cupid's bow they can be made to appear smaller.

Plucking of the eyebrows is being done away with to a great extent, and now the idea is to train the brow to form a natural arch by brushing it each day with a small brush and brilliantine. Unruly hairs that form an ugly line are shaved rather than plucked away, as constant plucking tends to weaken the lid of the eye. The Parisian always will make up her eyes more or less. Usually she darkens the lid a bit to give depth to the eye and mascaros her lashes.

Blonds continue to use a light rouge on the cheeks in spite of the prevalent pallor assumed by brunettes. Women whose locks are red or auburn also look their best with a little color on their cheeks.

### Nails Are Red.

The Parisian spends as much time on her hands as she does on her make-up. At present the highly colored fingernail polish is being used and sometimes the nails are a brilliant red. American women have never considered this high polishing of the nail in good taste, though I must say a white hand with reddish nails looks alluring under the night lights. One sees women now and then with dimples on the back of their hands accentuated with touches of rouge.

Hair dyes, peroxide and henna seem to have vanished completely. Perhaps it is because of the simplicity of the bobbed head dress. One can hide poorly touched-up locks under switches and fastidious hair-does, but with short fast growing locks it is a difficult matter.

As to the figure, the uncorseted one continues to rule. That girdles are worn are extremely simple and leave it (au nature). There are a few frocks which carry their own corset, having a combination brassiere and hip confining arrangement made in the lining of the frock.

## CAMPBELLFORD

Mr. Roy W. Bell has returned from Frankford where he was visiting his father, Mr. W. H. Bell, who has been seriously ill.

The many friends of Mr. W. H. Bell of Frankford, who has been seriously ill, will be glad to hear that his condition has improved.

### ST. MARY'S DANCE

The young people of St. Mary's Church held their annual dance at the Music Hall on Monday evening. Leonard's orchestra supplied the music and the affair was a genuine success. Many out of town visitors being present.

### LADIES' HOCKEY MATCH

The first league game between the Ladies of Lakefield and Campbellford will take place on Thursday, January 31st, at Covert's Arena, Campbellford starting at 8.30 sharp; the game will be interesting as both teams are in fine form and a big time is expected. Reeve Charles Davidson is manager of the local team.

## Flapper

Lucy Williams, member of a midget theatrical troop, photographed on a Washington (D. C.) street. Lucy claims to be the smallest flapper and doesn't care who knows that she smokes. P. S. She's a Coolidge booster and belongs to the smallest Coolidge Club, composed entirely of midgets.

Are your eyes 100 p.c. efficient?
We don't expect you to answer yes or no to that, because we realize no one knows the answer to this question until his eyes have had a thorough examination. The well-informed person makes it a point to KNOW about his eyes, the knowledge is very valuable to him. I can tell you about your eyes and give you the help they need.

The Nerve-Tired Business and Professional Man Gets New Vigor from Dr Chase's Nerve Food

### WINTER DISEASES, LIKE FLU, LARGELY DUE TO FOOD HABITS

Everyone remembers the dread flu following the war. Few recall the absence of flu and most diseases during the war, or know that neither before, during, nor after the war, were flu, pneumonia, etc., prevalent among races not following civilization's food habits. Why was this?

Blood must be kept alkaline by eating alkaline foods, yet civilized races refine out of their most important foods—the grains—the alkaline salts, just to make flour white, cereals dainty. The result is acid blood. Acids leave the blood by the skin, linings of nose, throat, lungs, etc., irritating these surfaces and lowering body vitality, enabling disease germs to attack the body.

During the war acid forming white flour, refined cereals, meats, sweets were controlled. Alkaline whole grains, milk, nuts, beans, vegetables and fruits were increased. There was no flu. After the war people glutted themselves upon acid-forming white flour, refined cereals, fats, etc., resulting in millions of deaths through flu. Flu will continue its ravages while stupid food habits prevail.

Roman Meal is richly alkaline, 400 parts in each 1,000 "Excess Alkali." It corrects the acids of white flour, other cereals, meats, fats and sweets, keeping the blood alkaline, Nature's own immunizer against disease, which protects the savage who lives upon natural foods. Use Roman Meal some way every day. It relieves constipation, prevents indigestion, alkalinizes the blood, keeps you well. It was designed by a physician dietitian, aware of the "Deficiencies" of modern refined foods, for this very purpose. Delicious, easily prepared, economical. Roman Meal is an unmixed blessing to the modern child fed so largely upon deficient white flour and refined cereals.

## ARGENTINE GIRL MAY SWIM CHANNEL

By A. M. Easterling

Buenos Aires, Jan. 30.—Miss Lillian G. Harrison, the 19-year-old Argentine girl, who swam the River Plate, will leave in the spring for England and will make an attempt to swim the English channel. Her friends here believe she will achieve the transchannel swim.

Miss Harrison, who is a vegetarian, did not train especially for the swim from Uruguay to Argentina, during which she was in the water 24 hours and traversed 42½ kilometers—26½ miles—of muddy water. And most of what training she did was in a gymnasium, where, she declared, she "hardened her muscles," so that she had to cease training for a month before she attempted the swim to allow her muscles to soften.

Three years ago Miss Harrison did not know how to swim. Her chief swimming was in a club pool, but one day she ventured to swim in the Plate for half and hour. Later she increased this time.

During her 24 hours' swim across the Plate, Miss Harrison was fed by means of a "baby feeder." She had six lumps of sugar, two of them soaked in brandy, black coffee without sugar, orange juice and some specially made sweets, containing butter, eggs, sugar and lemon juice.

### And They Do Not Talk

Why be ashamed of a long neck? Giraffes sell for $12,000 apiece.

MRS. GERTRUDE WHITE
IF YOU ARE NOT WELL HERE IS YOUR KEY TO HEALTH!
Hattonford, Alta.—"Being run-down after the 'flu' I was in a weakened condition, had dizzy spells and shortness of breath, followed by faintness. The middle age period made things seem as though I'd never feel well again, but I was determined not to give up. Hearing of Dr. Pierce's famous Golden Medical Discovery I sent for a bottle, followed the directions, and soon felt less tired and faint, and finally I got back to my normal state. I have thanked God many times for the restoration of my health so I could remain with my family, and I gladly recommend this Discovery of Dr. Pierce's, for it is so pure, and worth a trial to any one who is run-down."—Mrs. Gertrude White, Crystal Springs Farm.
Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists in both tablets and liquid. Send Dr. Pierce 10c for trial package of tablets.
Write Dr. Pierce, Prest. Invalids Hotel, Buffalo, N. Y., for free medical advice.

"Cascarets" 10c if Sick, Bilious, Constipated
"They work while you sleep."
When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

### WHEN THE GIRL THAT I LOOK FOR COMES

By "The Khan" in Toronto Telegram.

There shall not be alloy,
In my golden gift of joy,
And I'll thunder on my bullhide drums;
I will build a lofty shrine,
Where my candles they shall shine,
When the girl that I look for comes.

I will strew her path with flowers,
That I'll gather in the bowers,
Where the great gold-vested bumble bee hums;
And her startled eyes will gaze
On my bonfires all ablaze,
When the girl whom I hope for comes.

I have never seen her face,
Nor have looked upon her grace,
But I'll need no prints of finger tips or thumbs;
A voice will whisper me,
"Behold her, this is she!"
When the girl that I look for comes!

I'll heap a groaning board
With the best my lands afford,
And the world shall come to gather up the crumbs;
I'll fill that hall divine
With corn and oil and wine,
When the girl that I hope for comes!

I will meet her on a hill,
When the evening star sits still,
And a cedar, a great cedar, on her wild harp thrums;
And in a blissful madness
I will welcome her with gladness,
When the maiden that I sigh for,
When the maiden that I cry for,
When the maiden that I'd die for comes!

### MARRIED OVER 4,000 PEOPLE

Kingston, N.C., (United Press)—Jan. 29.—Kenneth F. Foscue, justice of the peace here, believes he holds a record. For 40 years he has been justice and in that time he has married over 2,000 couples.

## DEFERRED ACTION

### Saskatchewan Farmers to Keep to Themselves

Moosejaw, Jan. 28.—The organized farmers of Saskatchewan, having abandoned in the afternoon their direct provincial political action, decided last night against taking any action at this time for the formation of a provincial Progressive party outside of the association.

### GIRL MISTAKEN FOR MOOSE

Athabasca, Jan. 27.—Miss Gertie Whitely, while riding horseback over a trapline through the woods near Meanook, was mistaken for a moose and fatally shot by a Meanook farmer named Baker. Miss Whitely was visiting a sister at Meanook.

Aunt Martha's
HOUSEWIVES' COLUMN
In food matters you can't do better than to follow the example of food experts. Where they buy you may be sure that quality and price are both highly satisfactory.
The 300 Dominion Store managers are experts on foods and food prices. You will be interested in knowing their real, deep-down, honest-to-goodness opinion of the groceries they sell. The best proof of this is—Where do their close relatives and friends buy their groceries?
I can tell you the real facts. Every single one of these Dominion Store managers believes so thoroughly in his own stock of goods that he recommends them to his own circle of friends and relatives. Of course he uses them himself, but he trusts Dominion quality and price so completely that he urges those whose opinion he values most to buy at the red front Dominion Stores.
You, too, want to make steady savings on your food bill, without sacrificing quality to price. The best way to do this is to follow the man who knows most about this important question—the Dominion Store manager in your neighborhood.
If you keep a record of your food costs, and all of us ought to, you will soon prove to yourself that the surest way to feed your family for less is to buy regularly at your Dominion Store. When you save money on every article you buy you soon see surprising savings.

### Who Wants to Be a Camel

A man has brought 58 camels to this country from Australia, perhaps for bootlegging mascots.

Years ago getting arrested was considered strictly masculine.

The Strain of Housework
A WIFE'S first duty is the efficient management of her home. And what a task it is! Meals must be served on time—the children must be cared for—social duties must be performed—a thousand and one unexpected details keep cropping up, demanding immediate attention!
Only a strong, healthy body can stand up to the strain! Only if the system is supplied with adequate nourishment can the wife keep up to the mark from day to day.
"Ovaltine" is the ideal beverage for the busy housewife. It supplies her with the concentrated nourishment she needs, in a form that her system can assimilate easily and quickly, and without undue digestive effort.
"Ovaltine" is prepared from ripe barley malt, creamy milk and fresh eggs, and retains all the health-giving, body-building essentials of these natural, tonic foods. It is super-nourishment, palatable and easy to prepare. One cup contains more nutriment than three eggs, seven cups of cocoa or twelve cups of beef extract.
Make "Ovaltine" your daily beverage. Drink it at every meal, and before retiring. Taken between meals, too, whenever you feel tired and worn out, it will relieve all fatigue and give you new zest for your work. There's vitality and health in every cupful.

Only thing you can say for having a girl in your lap is she goes through the windshield first.

## PERSIA SELLS GEMS, BUILD RAILROADS

London, Jan. 30 (United Press)—According to a message from Teheran the Persian government has decided to sell some of her age-old gems of fabulous worth, to provide money for the building of modern railroads.

Years ago the royal treasures of Persia were valued at more than $50,000,000. There is a jeweled globe which is alone worth more than $5,000,000.

A list of some of the gems sounds like a page taken from the Arabian Nights. Here are some of them:

Darya-i-Noor (Ocean of Light), one of the world's famous diamonds, weighing 186 carats.

"Mountain of Light" diamond, weighing 135 carats.

Largest turquoise in the world.

Golden globe of the world, 20 inches in diameter, in which emeralds are inlaid for the seas and other precious stones for the countries.

Glass case two feet long and one and one-half feet high and wide, half full of pearls of all sizes.

Kaianian crown, surmounted by a ruby as large as a hen's egg.

Kaianian Belt, a foot deep, and one mass of pearls, diamonds, emeralds and rubies.

Costume covered with pearls.

Trays heaped high with pearls and Lambskin caps, ornamented with priceless aigrettes of diamonds.

Georgeous jeweled carpets.

Diamond studded epaulettes.

St. John. N. B. Jan. 30.—To be unanimously proclaimed one of the most able navigators in the Atlantic, was the distinction accorded Captain N. Gibbons of the Canadian Pacific steamship Minnedosa, by the passengers upon their arrival here from Antwerp and Southampton.

In addition to voicing their appreciation they took up a collection and arranged to have a gold watch purchased and presented to him as a token of their admiration for his skilful seamanship during the exceptionally rough voyage.

There were 456 souls on board and one and all felt that the able manner in which he guided his craft during a hurricane while being buffeted by mountaineous seas and raining combers was worthy of recognition.

An address was presented to the Captain prior to the steamer's arrival and he was loudly cheered by all who appreciated his zeal and devotion to duty and his skill while pitted against the forces of Nature. The Minnedosa left Southampton on January 17th and brought to Canada, 13 passengers. In addition to a large passengers in addition to a large mail and general cargo.

The passengers left in two special Canadian Pacific Trains, the first carrying the cabin passengers, getting away at 9.30.

## TRENTON MINISTER ANSWERS LAST CALL

For thirty-five years minister at Trenton Presbyterian church and living in retirement for the past seven or eight years, Rev. William Thomas Wilkins, one of the oldest Prebyterian ministers in the country, passed to his eternal reward at his late home in Trenton, at 10 o'clock Tuesday morning, after a lingering illness which extended over a period of one year.

The late Rev. Wilkins moved from Stratford to Trenton, and was at one time clerk of the Presbytery of Kingston. He was educated in New Brunswick.

Funeral service will be held on Thursday afternoon at 2 o'clock.

The late W. T. Wilkins, B.A., was in his 81st year, had been superannuated in 1914. Born in St. John, N.B., Mr. Wilkins graduated from the University of New Brunswick in 1863, later studying theology at Queen's, Kingston, and Princeton, N. J. After his ordination in 1866 he was for several years minister of St. Paul's Church, Truro, N.S., and afterwards at St. Andrew's Church, Stratford, prior to his appointment at Trenton.

The deceased was grand chaplain for Canada of the Masonic Order and Moderator of the Synod of Kingston and Toronto. He leaves a widow, three sons and two daughters.

## WARNING

WARNING—THE PARTIES WHO took the blow torch from the garage at Allisonville Friday night, Jan. 18th, return same by Feb. 15th, as persons trespassing in this place, this night, are known and will be prosecuted. 1td

### HIGH WATER CAUSES TROUBLE

With the exception of the teamsters hauling sand for the cement work, the regular gang on the new power house jobs are out of luck these days. High water caused by anchor ice being cause of trouble and with exception of a few drillers most of the men wil be laid off until conditions are more favorable. Sinclair Bros. who have the contract for dam 8 have been most unfortunate, having been held up only a short time ago by fire which destroyed the compressor dam 9 and have made fair headway until the water backed up. Both firms employ large gangs of men who live and board on the job, the scene resembling the old fashioned lumber camps.

### Honeymooning

Baroness Popper, a Metropolitan Opera star, is back from Europe looking more like a sweet mama.

### FISH DAY STORY

Salmon weghing 18 pounds caught in Oregon. Big enough to feed two cats or 50 boarders.

### No; Not English

News from dear old London. Man bit of his wife's nose. Probably a quaint old English custom.

**Cold Completely Cured With Two Bottles**

Most colds are the result of a weakened condition of the system. Nothing will undermine your health so quickly as a cold. More consumption results from neglected colds than any other source. When you notice a cold developing build up your system. The most effective way to do this is to take a tonic—Carnol. Mr. Harry Heller, of Regina, cured a cold of two months' standing by taking Carnol. Read what he says:

"After having used two bottles of your Carnol, I find that it has completely removed my cold from which I have suffered since the first week of December last. All other remedies have been failures and I strongly recommend to others who have been suffering from a similar ailment to try a bottle of your Carnol and I am sure they will not regret such a purchase."—Harry Heller, 2126 Broad St., Regina, Sask.

Mr. Heller suggests trying a bottle, but to get the full benefit of this wonderful preparation, you should take a Course of Carnol. 4-9

*Carnol is sold by all good druggists everywhere.*

SOLD BY DOLAN THE DRUGGIST

The Gonzales brothers, Ramon, left, and Eusebio, right, alias Pat and Mike, will probably be playing each other in the International League this season. Pat is with the Toronto Leafs; Mike, last year with Waterbury in the Eastern League, is likely to play for Rochester.

# Annual Report Of London Life Shows Results

The forty-ninth annual report of the London Life Insurance Company just issued, shows the results of an unusually good year's operation.

The volume of new business written during 1923 sets a new high mark in London Life history, being almost $45,000,000, and bringing the total insurance in force up to $151,780,810.

Consistent with the Company's long record of conservative management the surplus was increased to $918,968 taking the Company's own stringent basis of computing liabilities. Were those latter calculated according to the less exacting Government standard the London Life's Surplus would be over $3,750,000.

The London Life has its own high standard of security and sets aside annually larger reserves for the protection of policy-holders than are provided for any similar class of business in America. In its provision for liabilities all profits accruing although not due for years to come, are included and Suspended Mortality, Investment Reserve, and other Emergency Funds are constantly maintained as provision against even remote contingencies.

The assets of the Company are of the highest order, consisting of Road and Municipal Debentures. No speculative securities are ever purchased or held.

The liberal scale of dividends to policy-holders was maintained and they are today from 50 per cent to 100 per cent greater than original estimates.

The Company's Mortality Rate for the year was only 37.2 in the Ordinary Branch and the Expense Rate showed an appreciable reduction.

Altogether the report shows a remarkable combination of well directed enterprise and rapid, though sound growth, constantly increasing security due to competent conservative management, and a story of results to policyholders that cannot help but write the name of The London Life higher and higher in insurance annals each year.

To mark its "Fifty Years of Public Service," the Company is issuing a new "Jubilee" policy which is pronounced to be the most advantageous to policyholders ever issued and one which it is confidently expected will materially assist in reaching a new high record for new business written by the end of 1924.

### FOX HUNTING YARN

Saranac Lake, N.Y., Jan. 29.—Herbert Shampino of Brasher Falls went fox hunting. His hound ran a fox directly at him. So close were dog and fox that the hunter dared not fire. For a time the bewildered hunter was in the center of a merry whirl, with Reynard rushing round and round him and the dog a few inches behind. The fox suddenly made a leap to one side. The bewildered hunter fired. The fox streaked away.

### SPORTS AT ASHEVILLE

Asheville, N.C., Jan. 29—Two southern athletic events have been scheduled for this city during 1924. The southern tennis tournament will be played on courts of the Baltimore Forest Country Club in August, and the southern amateur golf tournament will take place at the Biltmore Club during the early summer.

## Additional Sports

# BOSTON IS AFTER CONACHER, REPORT

Boston, Mass., Jan. 30.—Lionel Conacher, star defence man of the Pittsburgh hockey team, can appropriately be called "a Jack of all sports," according to Mayor James M. Curley, who is endeavoring to secure the former Canadian as athletic instructor of the Boston Public schools. "Frequently," declared Mayor Curley, "this title is bestowed on athletes in various parts of the country, but in many cases it proves to be a misfit."

"Boston is seeking an all round director for the Public schools," declared the Mayor. "Why look further or in other words what's the matter with Conacher?" queried his Honor. He is Canada's most accomplished amateur athlete, the wonder of Dominion sports. Hockey fans have already seen him in action as a member of the Aura Lees three years ago, and as an important cog in the smooth working machine from Smoky City known as the "yellow jackets." His performances, considering the fact that he plays defence, and bears a ranking of second best scorer in the outfit, stamps him as quite some elevated above the usual run of knight of the runners.

"Now meet him as a football star, boxer, wrestler, baseballist and sprinter. But before going into his ability along these lines it is apropos to mention that 'Conny' is above the average in build. He give the appearance in football togs that must cause a lot of sidestepping by the tender-hearted who oppose him. For he tips the beam at 194, and lifts the height bar to an even 6 feet 1½ inches.

# Finnish Skier Is Saved From Death

Chamonix, Jan. 30.—While competing in the skiing events Tuesday, the Finnish military skier Mattila, narrowly escaped serious injury shooting down a sharp 200 foot declivity at the bottom of which he was buried in snow for several minutes before being rescued by comrades. Mattila was unhurt, but the incident caused a protest to be lodged with the officials by the Czecho-Slovakia team because of other members of his team taking off their skis in order to assist him which is against the rules of the competition.

In connection with Czecho-Slovakia's protest in the ski competition after the Finnish competitor, Mattila had fallen, the jury ruled that a skier falling 200 feet down a precipice without having his neck broken was entitled to have the Olympic rules stretched in his favor it therefore refused to entertain the Czech protest and confirmed the result of the military ski race, placing Finland second.

Mattila broke a ski in his fall and then secured a new one instead of repairing the damage as specified in the rules governing the competition.

### HAS ENOUGH OF AUTOS

Fruchtman, 50, wants nothing more to do with automobiles. She was struck by one driven by Isadore Gross put in another to go to a hospital and rammed a third en route.

### Mayor's Welcome

Mayor W. C. Mikel, K.C., extended to the members of the Association a hearty welcome, and the freedom of the city whilst here. He desired them to feel at home and hoped their deliberations would be beneficial. His Worship in referring to the city generally said it had many advantages and possibly some disadvantages. It was proposed to have new fair grounds in the city which would be a credit to the city.

A winter fair might possibly be held here in the future. Such a fair could be made a success, also attractive and beneficial. Mayor Mikel referred to the U.E.L. celebration which would take place in Belleville on June 16th and 17th of this year, and extended a hearty welcome to all to attend.

It would be a most memorable event. The sacrifices made by the United Empire Loyalists were spoken of by the Mayor who stated that today we enjoy many privileges made possible by the sacrifices of those settlers in Canada.

Ex-Mayor C. Hanna spoke briefly endorsing what Mayor Mikel had said. He hoped the Central Ontario Fairs Association would prove beneficial in the future as in the past.

Ex-President A. Nicholson thanked the members for the honor they had conferred upon him by electing him President of the Association for two years.

President-elect Mr. B. R. Leavens returned his thanks to the members of the Association for electing him President.

It was decided to hold the next annual meeting in this city on the second Tuesday of January 1925.

### APPEALS SENTENCE

Toronto, Jan. 30.—Alfred de Bruge, found guilty by a sessions jury at Brockville of stealing two horses from a neighbor, and shooting them, and sentenced to seven years has been given leave at Osgoode Hall to appeal. His counsel, Waldon Lawyr, says the sentence is harsh and excessive and he will appeal, too, on the law.

De Bruge and a son were tried; the son was acquitted.

# EXPECT BAD JAM ON NIAGARA RIVER

## Hummocks Cover Steamboat Wharves and Reach a Dangerous Height

Niagara Falls, Ont., Jan. 30.—A big ice jam, similar to that of April, 1909, when an enormous amount of damage was done including the destruction of the Gorge railway tracks is expected.

There are only slight changes in conditions in the lower Niagara river. The entire mouth of the river has been cleared out, but the blockage in the river still remains unmoved. The ice maintains a dangerous height being eight feet above the normal level. It was announced by H. G. Acres, chief engineer of the Ontario Hydro-Electric power commission, that a backwater, due to the ice-jam was causing a slight reduction in the power.

The jam started on the sand bars about a mile out in Lake Ontario and gradually worked its way up the river. In its journey it wrecked fishing shacks and boats and when the ice reached a dangerous level, property owners, on both shores, were forced to raise fishing traps, boats and shacks to higher levels. The docks of the Canadian Steamship Company, at Lewiston and Queenston, are covered with huge hummocks of ice.

### An 'Also Ran'

Lloyd George had a better run in this country than Papyrus.

**ASPIRIN**

Beware of Imitations!

BAYER

*Demand*

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### MEDICOS FIND FAULT

Ottawa, Jan. 30.—A deputation of medical men from Montreal and St. Anne de Belvue waited upon Hon. Dr. Beland, minister of soldiers' civil re-establishment yesterday morning to discuss certain reorganization in connection with the neuro-psychiatric hospital at the latter place. Recently Dr. McGibbon, head of the hospital was retired and a day superintendent in the person of Capt. Boyd appointed in his place, the change being made. It is claimed in the interest of economy and efficiency.

The apointment of lay superintendents to have charge of such institutions is an innovation and, in the opinion of some medical men, a somewhat dangerous one. The hospital at St. Anne is one in which insane persons to the number of some 500 are kept and where in addition active treatment for tuberculosis, etc., is given. It is regarded, therefore, as presenting unusual difficulties.

Other questions of D. S. C. R. reorganization were discussed by the delegation.

### RELEASE OF M'LACHLAN UNDER CONSIDERATION

James B. McLachlan, who was sentenced to two years in Dorchester penitentiary for seditious libel in connection with the Cape Breton strike is demanded by various labor bodies. The demands are insistent and the question is under consideration by the department of justice. Already five of the other men arrested during the strike have been released on parole and it is regarded here as quite probable that McLachlan will not serve his full term. The demands in his case, however, are not for parole but for unconditional release on the grounds that his arrest and sentence were contrary to the rights of free speech and that McLachlan committed no criminal act.

### CANADA METAL CO. PLANT DESTROYED

Montreal, Que., Jan. 30.—Fire starting early today at the premises of the Canada Metal Manufacturers, totally destroyed the building and caused damage in the neighborhood of $40,000 before the flames were finally subdued by firemen summoned by two alarms. The brigade arrived and a one storey building was a mass of flames; a second alarm was turned in immediately. The only part of the property not damaged was the garage which stood a short distance away from the factory.

### RIVER VALLEY

Mr. J. R. Bush, of Unionville, has been visiting relatives here.

Mr. and Mrs. Percy Utman and Dorothy visited at Mr. Robert Bush's, Frankford, on Sunday.

Miss Flossie Rosebush spent a few days with Mrs. W. H. Hanna.

Miss Gertrude Heasman and Miss Bessie Rosebush spent Sunday at Mrs. A. Bush's.

Mrs. Walter Barker, of Stirling, visited her sister, Mrs. A. Park, a few days last week.

Miss Isabel Park and Mr. Sheldon McIntosh were married on Wednesday by the Rev. Mr. Barrett at the parsonage.

Miss Gertrude Heasman spent a few days at the home of Mr. A. Park.

Mr. and Mrs. Albert Irvine, of Brighton, have returned after visiting friends here for a few days.

# DRASTIC GRANT CHANGES ANNOUNCED BY FERGUSON IN TALK AT HAMILTON

### Well-to-do Must Help to Pay for Education of the Poorer Classes, Declares Premier at Meeting of Young Men's Conservative Association

### EDUCATIONAL MOVE

### Announces Drastic Changes in Grants—Weak School to be Aided—Curriculum To be Made Simpler, and Congestion of Brain Power to be Avoided

Hamilton, Ont., Jan. 31.—Educational matters were dealt with by Premier G. Howard Ferguson, who addressed one of the largest gatherings for many years at a banquet last night in the Royal Connaught Hotel, held under the auspices of the Young Men's Liberal-Conservative Association. Frank Fearman, president, occupied the chair, and welcomed the 500 guests. Alderman Peter Whitney led in community singing, and a short musical programe was also rendered. The Premier's address was brief, and a public reception followed, when Hon. Mr. Ferguson shook hands and conversed with several hundred citizens. Dancing was the concluding number of the program.

**Features Address**

Featuring the address of the Premier were the announcements that the present school curriculum would undergo drastic changes, and that a new scheme of financial assistance would be introduced for the benefit of ratepayers in certain school sections who were now shouldering a burdensome taxation. There would be no more supplementary examinations, the speaker announced, and he outlined the policy under which a pupil would be promoted on his year's standing, after a board of trained educationalists, the teacher, and school inspector had reported.

Reference was made to the number of women present, and Premier Ferguson congratulated them on their interest in public affairs. The women saved Canada, he said, when they sacrificed their sons, husbands and sweethearts during the war. It was advisable that they should take an interest in public matters that they might exercise their rights intelligently. The women assisted in sending two fine representatives from the Hamilto seats. Economy would be the Government policy. "You made a right start in Hamilton when the nomination of A. C. Garden, West Hamilton, was made by a Scotsman and seconded by a Jew."

"It is usual to have a subject suggested for consideration, but this has not been done to-night. There are a number of topics I might mention, and some of them you could easily guess", continued the Premier. Members of the gathering who expected reference to Ontario Temperance Act appreciated the Premier's statement, but no mention was made of this question during the address.

Premier Ferguson spoke on the present conditions found within Ontario. The difficulties being experienced here were world-wide, he said. The well organized machinery of governments had been dislocated and chaos and uncertainty was the result. It was the duty of everyone to adopt a course which would stabilize conditions. "This is what we are trying to do at Toronto. Ontarios needs an inflow of capital and large industrial development. Industries are payrolls, and payrolls means power in the markets, which, in turn means prosperity to the farmers. Conditions must be stabilized so as to invite and induce capital into this coun-

## ACTORS DREAM AGAIN STARTS SMALL SEARCH

### Director at Toronto Opera House Declares Body Buried Under Stage

### CHANGE COUNSEL

### Sisters of Missing Theatre Magnate Serve Notice of Changeof Solicitors

Toronto, Jan. 31.—A notice of change of solicitors has today been served on Messrs. Slaght and Cowan, solicitors for the Misses Small it was learned this afternon. The sisters of the missing millionaire are now represented by the firm of Johnson, Grant Dods and Grant.

The change is with the sanction of the solicitors who have been looking after the sisters' interests. There will be the fullest cooperation between the two firms of solicitors. A. G. Slaght, K.C., has been solicitor for the Small sisters for the past year. It was he who prepared the caveat to prevent probate of the will which Mrs. Theresa Small holds, being issued. Judge Coatsworth required an issue to be tried before him with evidence given by witnesses.

**Seven Year Period**

After hearing the case, Judge Coatsworth came to the conclusion that there was no reason why the seven-year period should not be allowed to run, and refused the application of Mrs. Small to file an affidavit to probate proceedings that Ambrose J. Small was dead.

Mrs. Small appealed to the Second Appelate Division, and although this court allowed Mrs. Small to file an affidavit that Small was dead, the court required a bond be filed by the person or persons who might finally succeed in obtaining probate in this estate, which means that the estate will be protected until the expiration of the seven-year period.

**Solicitors Active**

It is also understood that already the firms of solicitors representing the institutions which are said to benefit under wills which the sisters state, they have evidence of being executed in 1917 and 1919, have communicated with the sisters, who last week notified them of the bequests said to have been made in their favor. A round table conference will be held in the near future.

**Dream Didn't Pan Out**

Excavation work was again done in the cellar of the Grand Opera House last week, it was said today. One of the actors in "The Fool," playing there dreamed that Small was buried under the stage. He communicated with Mrs. Small, who turned him over to Detective Mitchell. The officer accompanied him to the basement of the Opera House. After digging for some hours the work was stopped, but that same night the same individual entered the spirit world and was assured that by another effort the body of Small would be discovered. After hours more of laborious work the effort was suspended as the actor director was too exhausted to do any more.

### ESKIMOS TO BE HANGED ON FRIDAY, FEBRUARY 1.

Ottawa, Jan. 31.—Next Friday is the day set for the execution of the two Eskimo murderers at Herschell Island. Sergeant Thorne, who carried the message that there would be no interference with the death sentence is now at Herschell Island. The two Eskimos were sentenced to death for the murder of Corporal Doak of the Royal Canadian Mounted Police, and Otto Binder, a Hudson's Bay Company factor.

## THE WEATHER

Northeast and east winds, cloudy with a little lower temperature today and Friday, light local snowfalls.

## COMING EVENTS

(United Press Despatch)

Franklin, Pa., Jan. 31.—Three were killed and six injured when the Pennsylvania's Buffalo-Pittsburgh Express left the rails at St. George, 22 miles south of here late yesterday.

### MANNING DOHERTY HEAD OF FARMERS

(United Press Despatch)

Toronto, Jan. 31.—Manning Doherty announces acceptance of the position as leader of the United Farmers Provincial Legislature during the session opening, February 6th.

## Canadian Captain Honored

From left to right Sir Harry Armstrong, British Consul General at New York Captain S. Robinson, C.B.E., R.N.R., E. W. Beatty, President of the Canadian Pacific Railway. Photograph shown Captain Robinson, Commander of the Canadian Pacific S. S. "Empress of Canada" now on World Cruise, receiving the insignia of Commander of the Order of the British Empire, which was presented to him at New York on the completion of the "Canada's" Round America cruise, in recognition of his heroic work at the time of the Japanese earthquake when the "Empress of Australia" which be then commanded was the base of rescue and relief work in Yokohama.

# BODY FOUND NEAR WIRE FENCE ON PERTH ROAD IS IDENTIFIED THAT OF LOST KINGSTON WOMAN

### Henry McGrane Found It Near Wire Fence, About Three-Quarters of a Mile North-east of the Point Where She Left the Sand Sleigh a Week Ago Yesterday—Fur Coat Was Caught in the Fence.

Kingston, Jan. 31.—Shortly after two o'clock Wednesday afternoon as Henry McGane and his brother, Christopher, were crossing the farm of James W. Bell, which is situated a short distance north of the city on the Perth Road, the former found the dead body of a woman beside a wire fence, which they immediately concluded was that of the missing Miss Strachan. Word was sent to the city immediately and the body was left in the position in which it was found.

Her fur coat was caught on one of the top wires of the fence.

The exact spot where it was found is about one half to three-quarters of a mile from the concession road which branches from the Perth Road at the spot where Miss Strachan left the sand sleigh on the day of her disappearance and is about the same distance from the Perth Road. It is also about three-quarters of a mile north-east of where the side road branches off—the point where she got off the sand sleigh. To get to the point from where Miss Strachan left the sand sleigh means crossing two fences and crossing a large open field. One might easily do this on a day like that on which Miss Strachan disappeared without attracting the attention of any of the residents in the vicinity.

It will be remembered that Miss Strachan was last seen on the afternoon of Tuesday, Jan. 22nd, when she left a sleigh driven by a man in the employ of Mr. McKendry, that she left the sleigh at the point where a side road branches off the Perth Road a short distance north of where the railway tracks cross Division street, and that from there searchers the next day followed her tracks for a short distance up the side road and then lost them in the drifts formed by the terrific storm which was blowing at the time she left the sleigh. From that time, despite a vigorous search kept up incessantly, no trace was found of her till Henry McGrane found her body beside the fence on the Bell farm.

### PRINCE UNABLE TO SAY IF ENGAGED

New York, Jan. 31.—Prince Viggo of Denmark, cousin of King Christian, whose engagement to Miss Eleanor Green, daughter of J. O. Green, of New York, was reported from Copenhagen and later was denied by Mr. Green, does not know whether he is engaged or not, he said today on his arrival on the Majestic. The prince is on his way to Ottawa, where he will attend the wedding February 11th of his brother, Prince Eric, and Miss Lois Frances Booth.

The Prince, a tall, slender young fellow, seemed extremely nervous as the big liner warped into her dock and he anxously scanned the crowd gathered on the pier. Miss Green was not there to greet him, but he was met by Prince Christian of Hesse, a close friend.

Paris, Jan. 30.—The most valuable airplane cargo ever carried reached Lebourga from Croyden Tuesday comprising 100 pounds of platinum valued at 5,000,000 francs or $250,000.

## Catches Foot In Car Door; Toronto Nurse Awarded $1,500

Toronto, Jan. 31.—Fifteen hundred dollars damages was the verdict brought in by the jury in the case of McKenzie vs. T. T. C., which was heard yesterday in the jury sittings of the Supreme Court of Ontario before Mr. Justice Mowat. Miss Marguerite McKenzie, a nurse, claimed damages for an injured foot which she said was hurt as she was getting on a street car. She stated that she slipped and her foot was caught in the step, which was closed too soon.

In addressing the jury Mr. Justice Mowat said: "If you take her side of the case, I do not think that's the law, that with a new device such as this that a person is considered inside the car until the door is closed. If you're the last person getting into a car, I doubt if you're not nearly nipped. On the other hand," said the judge, "the cars could not very well be held up by people being slow in getting on."

## POLICE ARREST ALL LOITERERS

### Four Youths Taken in Charge by Local Authorities at Late Hour

The police department is determined to clear the city streets of suspicious youths who loiter about at all hours of the night and early morning and last night constables arrested two youths on vagrancy charges, besides sending two others home.

Carl Venn was arrested at the lower C.N.R. depot at 3 a.m. today as he walked back and forth on the platform. He was unable to satisfy the constable as to his presence there at that hour of the morning. Venn has a record.

Ernest Cook, was arrested at 1.45 a.m. in the office of the Essex Garage and Livery, Campbell street. A. Johnson, proprietor of the Essex Garage had gone home but had not locked his office door. Cook is alleged to have entered the office, turned on the lights and prepared to sleep there for the remainder of the night. Johnson, it is believed has missed automobile tools from the garage and desires to keep night prowlers away from his premises.

The third boy, about 14 years of age who recently completed a term at the Industrial School, was chased home from the C.N.R. depot, and the fourth youth who was able to satisfy the officer about his presence at the depot, was ordered to go home.

Venn pleaded not guilty to a charge of vagrancy before Magistrate Masson this morning, and was discharged with a warning. Cook, who asked for the services of a lawyer, was remanded to jail for one week on a charge of breaking and entering Essex garage office. He pleaded not guilty to the charge.

### U. S. TEAM TIED WITH OLYMPICS

(United Press Despatch)

Chamonix, Jan. 31.—Showing improved form, the United States hockey team entered into a tie with Canada in the Olympic Championship here this morning by defeating and eliminating the English team. The score was 11 to 0.

## HOLSTEIN CLUB PLANS PROGRAM FOR YEAR 1924

### Local Holstein Friesian Organization Would Make Live Club

### J. ELLIOT SPEAKS

### Gathering of Farmers at Government House, Toronto, Cited by Banker

In presenting his annual report as Secretary-Treasurer of the Belleville District Holstein-Friesian Club at the annual meeting held here yesterday. Mr. F. R. Mallory said the object in forming the club was to do more than it was now doing.

The time had come when the club has to resolve itself into a sale association or become a live community club. We should try to make it a better club than it is at present. His report showed that there was a balance of $22.70 in the hands of the treasurer.

**Sales Manager's Report**

Mr. J. A. Cashey, sale manager, presented his report. The 1923 sale was much better than at first it seemed to be. Some of the consignors of cattle were not favorable to the cattle being sold subject to the tuberculosis test. Certain restriction were thrown off and a good sale was the result.

The total expenses of the sale was $699.82, which meant a little over $82 per head for the cattle offered for sale. After some discussion the membership fee was fixed at $1 per annum.

**Election of Officers**

President—P. B. Nelson, Campbellford.

First Vice-President—A. T. Sirett, Brighton.

Second Vice-President—W. C. Dempsey, Ameliasburg.

Secretary-Treasurer—F. R. Mallory, Frankford.

Sales Manager—J. A. Caskey, Madoc.

**Field Day**

It was proposed by some of the members that the club hold a field day, the object being to have cattle judged as to their type and qualities.

A motion prevailed that a field day be held in the summer, same to be under the auspices of the club, and the President and Secretary, and Mr. J. A. Caskey were appointed to make arrangements for the event.

**Sale Day**

Wednesday; April 9th was selected as the day for the Annual Sale to be held in Belleville and not more than 75 head of cattle are to be consigned.

All cattle offered for sale are to be subject to the T.B. test and the consignors are to pay for same.

Mr. J. A. Caskey was unanimously selected as sale manager and his remuneration was fixed at $100.

**Banker Speaks**

Mr. J. Elliott who was present was called upon and spoke briefly. His remarks were of an encouraging nature. He referred to the large gathering of farmers at Government House, Toronto, on Tuesday, when they were entertained by Lieutenant-Governor Cockshutt. The Hon. J. S. Martin, Minister of Agriculture for the Province, who was present at the function, gave an address which showed that he was alive to his duties and was prepared to do all he could to assist the farmers of this Province. Although the Dominion Government had withdrawn its appropriation of over $200,000 for agriculutral purposes, the Provincial Government woud see that grants to agricultural societies and other societies were not interfered with. Mr. Elliott spoke eulogistically of Hon. J. S. Martin, who as Minister of Agriculture was alive to the interest of farmers.

He (the speaker), would do all he could for the club.

A vote of thanks was tendered to Mr. Elliott for his address.

## Restoration of Colonies Price Of Sleeping Sickness Remedy

Bremen, Jan. 31.—Unconditional restoration of Germany's colonies and pre-war rights is the price demanded by the German colonial society for a new remedy for the prevention of sleeping sickness.

"Germany holds the key to Central Africa in the remedy," says Dr. Zache, well known as a colonial expert. He expresses the belief that the remedy for sleeping sickness and tsetse fever is destined to convert Central Africa into a prosperous, fertile country, inhabited by an industrious people. "No colonies no remedy" is the defi hurled by Edouard Achelis, chairman of the Bremen section of the German colonial society.

# LOCAL MAN STRANGLES SELF IN OWN GARAGE; NO MOTIVE IS DISCOVERED

### George Alfred Harry, 27 Highland Avenue, Is Found Dead by Neighbor After Several Hours of Search—Family Became Alarmed at Continued Absence

### NO KNOWN REASON

### Deceased Was Retired Farmer In Good Circumstances—Formerly Conducted Livery Business in Belleville in Partnership With Brother—Act Seems Carefully Planned

Doubling a length of clothesline rope, attaching it to a cross piece which extended from beam to beam, and placing the noose at the other end about his neck, George Alfred Harry, aged 55, who lived at 27 Highland avenue, climbed to the radiator hood of his automobile, it is believed, which stood in the garage and jumping to the floor, was strangled to death.

Just when the act was committed is not known, as the man disappeared at 3 p.m. yesterday and his body was not discovered in the garage until 10-15 p.m. Leaving his home at 3 p.m. to bring a pail of water for his wife, Harry was never seen afterwards. When he failed to return for supper, the family became alarmed, and Mrs. Harry phoned Mr. Lee Ketcheson, who lives at 8 Wareham street, and is a neighbor. Mr. Ketcheson received the call at 8-30 p.m. and he then went outside and looked in his barn and around the immediate district, but was unsuccessful in locating his neighbor.

**Son Leads Search**

About 10 p.m. Carl Harry, the only son, and his chum, Clinton Brickman, 184 Front street, came up to the house, and commenced a search in company with Ketcheson. Ketcheson and Brickman first went to the garage owned by Harry which is situated some fifty yards north-east of the house. Ketcheson carried a lighted lantern and when he came to the door remarked that the door did not appear to be securely closed. Then he noticed foot prints. "When I opened the doors", explained Ketcheson to The Intelligencer this morning, "I first peered into the rear seat of the automobile, which almost fills the small garage. I noticed the robes and saw that he was not there. Then I raised the lantern and saw the man hanging."

The two men immediately left the garage, and called the police, and today, Ketcheson states that the moment of the discovery gave him the most peculiar feeling of his lifetime.

**Police Cut Man Down**

It was 10-25 p.m. when Sergeant of Police Arthur Harman received the call from Ketcheson, stating that a man had hanged himself and the Police were wanted immediately. Sergeant Harman and P. C. William Evans immediately left for the scene and upon arrival examined the man, and cut him down. Coroner W. W. Boyce was summoned, and after examination, and a talk with Crown Attorney B. C. Donnan, deemed an inquest unnecessary.

**Evidently Carefully Planned**

The scene of the sad act is a small frame garage with the complete east end in the form of a double door. With the Harry car standing in the garage, there is but room to walk about the machine, and about two feet of space between the front of the car and the west wall. A window faces the west in the west end wall.

Placing a one-inch board across from side to side of the garage just in front of the car, and resting on the two-by-four strappings, the clothesline was tied with a slip-knot directly in front of the radiator of the car. It is believed that Harry jumped from the radiator hood or possibly the thin rod which carries the license plate, to his death. When found, his feet were some three inches off the ground and he was directly in front of the window, but the blind had been closely drawn. The doors of the garage had been carefully closed, and the keys with which the door had been opened, were lying on the floor.

A 3 p.m, Harry left the house to get a pail of water, and duly returned with the water, but was not seen by Mrs. Harry who was upstairs, but

(continued on page eight)

## DOMINION BANK REPORT SHOWS BETTER TIMES

### Strongest Statement in History of Organization Presented in Toronto

### ANNUAL MEETING

### Profits For Year of 1923 Shown to be $1,129,370 —Strong Position

At the annual meeting of the Dominion Bank held at the Head Office in the City of Toronto on Wednesday January 30th, the fifty-third Annual Statement was presented to the Shareholders.

The Directors' report showed that the business of the Bank had received careful supervision during the year and that the statement was one of the most outstanding in the Bank's history.

The Annual Statement of the Dominion Bank has always been notable for the strong liquid position shown and this year's statement is no exception. In fact, the figures make clear that the Bank's position has been still further strengthened in this regard during the past 12 months.

**Profits Well Maintained**

While 1923 was a difficult year in Canadian business, it is satisfactory to note that the profits have been well maintained.

After deducting charges of management and making full provision for bad and doubtful debts, the profits are shown to be $1,129,370 somewhat less than in 1922 but $4,000 better than 1921. To this amount is added $758,163, available from the previous year, giving a total of $1,887,533, distributed as follows:—

Dividends at the rate of [illegible] per cent. and a bonus of 1 per cent.—Government taxation—$102,158; contributed to Officers' Pension Fund—$45,000; written off Bank Premises Account—$75,000; leaving a balance of $825,374, carried forward to Profit and Loss Account

**Profit and Loss**

In no previous year in the Bank's history has it been able to carry forward such a large sum to Profit and Loss, in fact the figures this year are $67,000 greater than in 1922 and $110,000 more than in 1921.

Dominion, Provincial, Municipal and public securities appearing in the Bank's statement show an increase of some $8,000,000 over the same character of securities held last year; they now stand at $21,500,000 as compared with $13,700,000 on December 31st, 1922.

As has been indicated above, strength and liquidity have always been features in the Dominion Bank's statements. This year the liquid asset stand at a higher figure than eve before. The cash assets are $26,260,00 or a fraction under 25 per cent of the Bank's total liabilities to the public whereas liquid assets have reached the large figure of $68,800,000 or 63 per cent of the Bank's liabilities to the public.

**Remains the Same**

Capital and Reserve Fund remain the same as in the previous year's statement Capital at $6,000,000 and Reserve at $7,000,000 or $1,000,000 in excess of the Paid Up Capital.

A careful survey of the Bank's statement shows very clearly that the policy of its founders is being continued and that careful and pruden handling of the Bank's business is from year to year increasing its always strong position.

### PRISONER ARRIVES AT JAIL DOOR ALONE

Simcoe, Jan. 31.—Oliver Robertson, keeper of Castle Robertson, Norfolk county's jail, got the shock of his life when a respectable appearing citizen presented himself at the jail, and, armed with letters of commitment from the Police Magistrate at Dunville demanded admission to serve a seven days' sentence. The man explained that he had been convicted for running an automobile when under the influence of liquor, but that, being sick at the time the Magistrate had allowed him to stay at home until cured, on condition that he went to jail when he felt fit to stand imprisonment. The man carried out his part of the bargain. This is the first time in the memory of the keeper of the county jail that he had been called on to receive a guest unaccompanied by any officer of the law.

Daily Intelligencer

*Let there be harmony in things essential—liberty in things not essential—charity in all.*

## A SAD CASE

The Winnipeg Branch of the Royal Society of St. George has passed a resolution requesting the Winnipeg members of the federal parliament to press of an immediate and searching investigation into the circumstances touching on the death of Charles Bulpitt, the English lad who committed suicide near Goderich recently. Bulpitt, who was in his sixteenth year, was brought to Canada by a charitable institution—he was what is called a Home boy—and placed on a farm.

He seems to have gone on the farm against his will; his inclination was for clerical work, and for that he had been trained. For some reason he and the farmer did not get along very well. On one occasion the farmer thrashed him; on another occasion the farmer threatened to have him sent back to England in disgrace. Finally the boy went out and hanged himself. The jury found that he had been driven to suicide by his loneliness among strangers, unaccustomed and uncongenial work and the unwarranted punishment he had received.

That boy seems to have been the victim of mistake from the beginning. The first one was when he was born into a world for which he was not fitted. He was too sensitive for a boy in his position in life. Another mistake seems to have been made when he was sent to work on a farm. Perhaps a mistake was also made in the choice of the farm; but nobody who has ever known what it is to be heartsick, homesick and utterly lonely, can appreciate how that boy suffered.

It is easy to blame the farmer for hard-hearted cruelty; but no doubt there were trials on his patience. The real lesson of the sad affair is the impropriety of bringing people to this country who are not fitted for the life they are to lead here. People are brought here and given work on farms for which they have no taste and which will never satisfy them. Naturally they drift into the towns and cities where, often enough, it is difficult to find room for them.

## WHAT WAS MEANT

The statement by Secretary Denby of the U.S. navy that the Shenandoah, the big American dirigible, could do exploration work of great value in the polar regions in view of America's interest in the polar area of this continent, was probably not intended as an intimation of a desire to contest the claims of Canada. It is more likely that it was intended for Congress, which is asking questions. The Shenandoah cost a million and a half. All this money would be risked, and not only the money, but the lives of the officers and men on board. And for what? That is what Congress wants to know, and naturally Secretary Denby wants to have something to show to justify the risk. Congress might not be able to see the wisdom of spending all the money an expedition would cost, and taking all the risk, just for the sake of finding out how the thermometer stands, or falls, and how the winds blow in the Arctic regions.

## THE MAN WAS SOUGHT

Viscount Chelmsford, who has been appointed first lord of the admiralty, says that the offer of the post was a big surprise to him. He had been out of politics for over twenty years, and out of the country for most of the time. He admits that he has no special knowledge of admiralty affairs, and he had to inquire what the Labor policy was likely to be.

His appointment was clearly a case of the office seeking the man; but it also shows how far afield MacDonald had to go, and was prepared to go.

Phillip Snowden, who is said to be the most extreme Socialist in the Labor cabinet, is described as a frail, pale, thin-lipped, merciless man. It often happens that the weaker a man is physically, the stronger his views are. It seems to be nature's way of working out the compensation problem.

Lady Astor has given Premier MacDonald a bit of her mind for having failed to provide a full cabinet post for Miss Bondfield. The failure shows, according to Lady Astor, that there are prejudices against women even in the Labor ranks. But there are other explanations. Naturally the new premier was trying to get together as much political experience as possible.

## EDITORIAL NOTES

Lower taxes? It's unanimous!

—o—

We should worry about the ice crop.

—o—

As we understand it the complaint of the Labor leaders is that the Minister of Labor does not minister to Labor.

—o—

Recent political history shows that the group system of government affords material for excitement, but hat the old two-party plan is more steady and reliable.

—o—

Just wait and see how British official recognition of the Soviet Government of Russia will be used by international revolutionists the world over as proof that the British Government endorses the Russian revolution and the Soviet system.

—o—

It is because the existence of mineral oil in the Arctic regions is suspected that the U.S. Government is planning to annex a huge tract of territory up there. Well, it may be possible to arrange that Uncle Sam shall get all the oil and Canada shall keep the ice and snow.

—o—

The Buffalo Express is puzzled over the fact that American millers purchased 20,000,000 bushels of Canadian wheat, paying the 30 per cent. duty in order to get. But the reason is plain. American millers must have some of the best to mix with inferior American wheat in the making of passable flour.

## JANUARY HONOUR ROLL —KING GEORGE SCHOOL

SR. PRIMER—Howard Fitzgerald, Gertrude Cretney, Edna Wardhaugh, Clifford Bennett.

JR. PRIMER—Class 1, Gordon Hill, Beatrice Hedger, Edith Tracey, Maxwell Peters, Hugh Thomson, David Hector, George Hammett.

SENIOR FIRST—Mary Gerow, Norman Meldrum, Evelyn Hanna, Kenneth Smith, Edward Pulker, Robert Green, Nora Hales, Doris Carter, Douglas Flindall.

N. Wedden.

## PRESS OPINIONS

### ENTIRELY DIFFERENT

(London Times)

Mr. Lloyd George did his utmost last year to bring Soviet Russia into the community of European nations, first at Genoa and then at The Hague. The result was complete failure. The Bolshevists would not accept the only conditions under which they could be recognized by civilized Powers. The Germans took advantage of the confusion of that time and concluded during the Genoa conference the Treaty of Rapallo, which has brought them little benefit and did not prevent the Russian Bolshevists from fomenting communist risings in Germany three months ago.

Russia is unquestionably important and closer intercourse with Russia is one of the great needs of the world. But that country is at the mercy of the Soviet government, and no sophistry can disguise the fact that the Soviet government is different in its nature and in its aims from every other government in the world. By its own confession it is not a national government, but an organization working internationally with a subversive purpose.

### PIONEER STOCK

(Edmonton Journal)

There died recently at Elmira, Ont., a woman in her hundredth year who emigrated from Scotland in 1843. Not long before her death she recalled experiences of pioneer life in Ontario, and among these were frequent seven-mile walks to the store near Elmira, carrying a basket of eggs on one arm and a basket of butter on the other. She received seven cents a dozen for the eggs and 11 cents a pound for the butter in trade.

### UNHAPPY CONTRAST

(Acton Free Press)

The people of England have evidently imbibed a much more earnest spirit of "Safety First" than we of this North American continent. There was only one railway accident on all the lines of that country involving loss of life last year. Since the beginning of the Century two years have passed without a single fatality. Would that the same might be said of Canada, but our multitudes of level crossings make a menace here which is unknown in England.

### CHEAP RAILROAD STOCKS

(American Exchange)

The cheap railroad stocks were active again yesterday. That is caused by belief that many railroads will be combined in one system, reducing overhead cost of getting business, shifting expense hauling for cheap hauling. Such combinations should be encouraged and permitted under proper supervision and protection of public rights. Some of the savings should go to the people, not all to the stockholders.

### IRRECONCILABLES

(New York World)

The irreconcilables who have succeeded in making a miserable mess of our international affairs are enraged over the recommendations of the plan awarded to Bok prize. This was inevitable.

But it was a tactical blunder to admit that any plan for the preservation of peace is propoganda for the League of Nations. No great cause was ever driven from the arena where men's minds are active. And no aspiration of mankind has been sneered or laughed into oblivion.

The response of hundreds of thousands of the thinking men and women of the land to the invitation to produce a plan for peace, measures the contempt with which the wreckers will be treated in the ultimate verdict of history.

### CAN IT BE DONE?

(Providence Journal)

The problem for Britain—and for the world at large—is not whether the impending new society will try to eat caviar with a spoon, but whether its ministerial members will undertake to make a Roman holiday at the expense of the existing order.

### ESTABLISH RELATIONS

(United Press Despatch)

Washington, Jan. 30.—Official relations have been established between United States and the new Greek Government.

## Jazz Band Showered, But Not With Flowers

Muskogee, Okla., Jan. 31 (United Press).—Peru is a good place for an inspiring jazz artist to keep away from, according to Mrs. J. B. Schoenfeldt, who recently returned from a trip of several months through the sister continent on the south.

Strange as it may seem to thousands of American flappers and jellies Peruvians do not care for the syncopating tantalizing moan of the saxaphone or the shrill harmony of the clarinet.

Mrs. Schoenfeldt based her estimation upon treatment accorded a nondescript band equipped with latest jazz instruments in a Lima showhouse.

The act was billed as the first appearance of its kind in the capitol city. The manager explained the innovation and stepped out of range.

Hisses greeted the opening of the program and the players fled from the stage amid a shower of canes and other missiles thrown by the apparently outraged audience.

The management placated the audience by posting a notice, amounting to "Jazz music barred here," Mrs. Schoenfeldt said.

### THE MODERN BABY

It is said that fewer baby rattles are being sold now because you can't rattle a modern baby.

## Music & Drama

### "THE CLEAN UP" AT REGENT

"The Clean Up," whimsical story of a town turned wild with money, is audaciously delightful. H.H. Van Loan, noted screen writer, wrote it. Herbert Rawlinson plays the hilarious comedy, which has a few thrills in it, too. This new Universal attraction is at the Regent Theatre now.

### PICTURE IS COLORFUL

Thomas Meighan's Latest Picture "Homeward Bound" Has Action

Said to be a most colorful photoplay and rare entertainment, from the standpoints of fine direction, skilled portrayal, artistic photography and beauty of investiture, Thomas Meighan's latest Paramount star vehicle, "Homeward Bound" will be on view at the Griffin Theatre for three days beginning tonight. Lila Lee, one of the screen's most popular leading women, plays opposite the star in this delightful sea picture which is based on Peter B. Kyne's story, "The Light to Leeward." The story deals with the love romance of a sailor and the daughter of a ship owner. The supporting cast is one of exceptional excellence and includes among others, Charles Abbe, William T. Carleton, Hugh Cameron, Gus Weinberg, Maude Turner Gordon, Cyril Ring and Katherine Spencer. Ralph Ince directed. Don't forget "Jazz Night" tonight. Orchestra of 20 musicians. Hear Al Wilson sing "Deese, Dose and Dem."

### DISTINGUISHED ACTOR BRANSBY WILLIAMS HERE MONDAY

Next Monday evening the Griffin Theatre will offer a special attraction in the person of Bransby Williams, the greatest of living character actors in his entertainment that he has presented at special matinees in some of the larger Canadian cities in request from theatregoers to see him in some of the music hall turns that they remembered seeing in the Old Country. Mr. Williams "At Home" consists of a selection of recitations and monilogues, including "Is Pipe," "The Student," "The Difference," "The Shooting of Dan McGrew." His character sketches from Dickens' novels will include "Sergt. Buzfuz addressing the fury," "Uriah Heep" and "Grandfather Smallweed"—one of the most humorous characters ever created by Dickens. The piece de resistance will be the Chinese drama "Orange Blossom," by a well-known English writer, Sax Rohmer. Bransby Williams finishes his entertainment with imitations of well-known actors and comedians whose names the audience is invited to call. The entertainment lasts two and a half hours and playgoers who wish to spend an enjoyable evening should not miss seeing this great interpreter of character acting.

Seat sale opens Saturday Mail orders now.

## EIGHTH CON. OF SIDNEY

Mr. and Mrs. Percy Utman and Dorothy spent Sunday at the home of Mr. Robert Bush, 4th Concession Sidney.

Mr. and Mrs. W. H. Hanna and children spent Tuesday evening at the home of Mr. Hiram Rosebush.

Miss Bessie Rosebush and Miss Gertrude Heasman took tea with Mrs. Mary Vandervoort on Sunday evening.

There was a good attendance at Sunday School owing to the cold weather.

Mr. and Mrs. Ross Bush spent a few days recently with relatives on the 4th Concession Sidney.

Miss Flossie Rosebush spent last week with Mr. and Mrs. W. H. Hanna.

Dreco Astonishes Her

Mrs. Gibson enjoys better health than for years, after taking two bottles of new herbal remedy. Had spent hundreds of dollars in vain before finding Dreco

"For three years I had suffered from stomach trouble and indigestion," says Mrs. J. B. Gibson, of Alfred St., Kingston, Ont. "Gas would form on my stomach after eating and make me miserable and my food would sour, causing belching, which was so bad sometimes that I thought it would choke me. My appetite was very poor and I was restless and would lie awake for hours after going to bed. My kidneys were bad too and gave me pains across the back. Constipation was chronic with me and I was continually forced to take harsh laxatives. I tried everything and spent hundreds of dollars seeking relief, but nothing did me any good.

About a month ago I heard of Dreco and decided to give it a trial. I have only taken two bottles, but it is astounding what this wonderful medicine has done for me. I feel like a new woman and can eat just about anything now without feeling the least bit distressed. My appetite is splendid and I sleep like a child all night long. My kidneys are also much stronger and I no longer have pains in the back nor am I troubled with constipation.

"Dreco is certainly a grand medicine and nobody could think higher of it than I do."

Here is relief for every sufferer in Kingston—a thoroughly reliable herbal remedy that aids digestion, relieves constipation, strengthens weak kidneys, arouses a sluggish liver and purifies the blood. Put your digestive system in proper working order by taking Dreco. It is made from herbs, roots, bark and leaves and contains no mercury.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.

## Pen Sketches By a Local Bard

### THE WRITING ON THE WALL

The subject of this sketch was a paperhanger. We regret that we cannot dub him an interior decorator. But truth compells us to admit that in the days when Jim slapped a prodigal pastebrush he and his trade rivals were not troubled about elevating the dignity of their profession. Paperhanger he called himself, just as the funeral directors of the time were plain undertakers, and purveyors blushed not to paint "Butcher" on their windows.

Our bachelor existence has denied us the acquaintance of interior decorators. We gather, however, that great strides have been made in the profession. Little Mary can practise on the piano in the living room while the ceiling pattern changes overhead. It is unnecessary to cover, much less remove, the Chesterfield. Transfer the scene of activities and the family may sit down to dinner in the tranquil assurance that never a gob of paste will fall into the soup. It is like rubbing Aladdin's lamp.

Such are the fugitive impressions we have gleaned. It may all be true. We do not know. But Jim we know. His transformations were not wrought like the work of faeries nor any genie. You sensed his presence. He was not one to pass like a ship in the night. A man, you would say, who left his mark on all he came in contact with.

The household routine was not altered by Jim's coming. It was suspended. Carpets were uprooted, the newspapers beneath collected, and every piece of furniture in the line of fire removed. Clear the decks for action, my hearties. There will be dirty work at the crossroads to-day.

True artist that he was, Jim could not express himself in cramped surroundings. His genius required elbow room. Consequently, the sphere of his operations were not confined to the immediate room undergoing alterations. The kitchen was his base. Here boilers of water hissed over upon the stove to be employed in sluicing off the old paper or filling his insatiable paste buckets. The rolls of new paper were stored in the parlor. He mixed the paste in the woodshed.

Jim revelled in paste. There was music in the slop-slop of his brush. He had all of the craftsman's pride in his dexterity. Indeed, it must be owned that sometimes he was too ambitious. He could not be satisfied with handling one or even two slabs of paper at a time. So that not infrequently he became involved in all three. Jim never permitted so trivial an annoyance to ruffle his equanimity. He would simply crumple the offending rolls into a ball and hurl it through the window out to the lawn.

The soul of an artist, you would say, sir, nothing niggardly or pinchbeck about Jim. He did not hoard the odd fathoms that remained of a roll when it had been stretched from ceiling to floor. Lesser spirits would have saved such for work around stove-pipe holes or under the windows. But Jim would work with virgin rolls or not at all. Such, indeed, were his scruples on that score that he was thought to throw away more paper than he hung.

There was something of the mystic in Jim. After he had scraped the plaster white and bare, he would while away happy hours drawing angels with haloes about their heads and scrolls containing scriptural legends. Perhaps some premonition of the perishable nature of his handiwork oppressed him. Certainly, it was with palpable regret that he drew the new paper over these admonitions.

So we like to think that some day, when the interior decorators transform that room they may, as those who discover an old master beneath lesser daubs, peal away the layers of wallpaper and decipher, not without profit, the message to posterity of Jim, the paperhanger with the artist soul.

### At It Again

Jerushabel Jopping, known to thousands of readers as the uncrowned poet laureate of Ameliasburg, has yielded to the request of an avid public for further evidence of his sympathetic genius. Jerush modestly declines to explain how he writes his poems. They just come to him, he says.

I have sighed me in vain for an old time confection,  
In vain have I haunted each grocery store,  
And my quest needs must drive home this bitter reflection  
That the pail of mixed candy shall greet us no more.

Let these new bonbons swank in lead foil isolation—  
And it's very hygienic and modern I'm sure—  
But sweeter to me was the fused glomeration  
Of gumdrops and lickrish and peppermint lure.

Not a fragment so hard but would melt in your pocket,  
In friendly alliance its sweetness to merge  
With the brown paper sack. Who refuses to stock it,  
The pail of mixed candy, the theme of my dirge?

Oh, the succulent bliss that one copper could purchase!  
What maiden too proud such an offering to share?  
No wonder the object of this poor bard's search is  
Mixed candies mingled with impartial care.

Banker's Wife Advises Belleville People

"I had stomach trouble so bad everything I ate soured and formed gas. Was miserable until I tried Adlerika. This helped the first day." Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gasses and poisons. Brings out matter you never thought was in your system. Helps any case gas on the stomach in TEN minutes. J. S. McKeown, druggist.

SINCLAIR'S

Beautiful COATS

$49.75

FORMERLY $56.50 to $94.50

The balance of our finest Coats, 7 in all, made from excellent quality of Marvella, Gerona and Bolivia and beautifully fur trimmed have been grouped at one price for final clearance. These include all of our best Coats which were formerly priced from $56.50 to $94.50. They are wonderful values and very low in price at $49.75

See these before they are picked up.

COATS $4.95

SIZE 14 YEARS

Just a few Coats in this group in size 14 years only. They are made from good material and are marked away below regular prices. To clear at $4.95.

## Science

(With an apology to "Man and this Monkey Business".)

When the friends of your youth have grown cold, dear,
And the dreams of your youth fled away,
And the hopes of your youth have been buried
'Neath the grave-stones of dim yesterday,
When what once seemed great efforts and deeds, dear,
Like seeds buried 'neath ice and snow,
Wait long for new springtime and growth, dear,
Like martyrs of long years ago.

Who will come with a message of hope, dear,
And speak to your dead heart again,
But one and the only can speak it
God's Son, the great Saviour of men.
O away with your fictions of science!
O away with your bombastic pride!
Can they quicken our dead soul's to life, dear,
Like the Spirit of Christ, who has died?

O away with your wild, foolish guesses!
O away with your wild "Apeish Wake"!
True Science is modest, her maxim:—
Go slow, and prove each step you take.
For the grave of dead Theories groweth
Both deeper, and broader each year,
And already the new grave is yawning
For the theories our dear boys hold dear.

Toronto, Jan. 28th, 1924

## Alleged "Pigeon" Is Attacked on Roadway

Peterboro, Ont., Jan. 30.—Believing that Gerald Dunsford had tipped off the police to the location of a still which was seized at Young's Point, Arthur King attacked Dunsford on a dark night on the Lakefield Road. Dunsford beat off King with the crank of his car and laid a charge of assault.

This morning King pleaded guilty and entered on one month jail sentence in lieu of paying the $10 fine imposed by Magistrate Langley.

### YOUNG WIFE OF GREEK PREMIER SUMMONED

(United Press Despatch)

Athens, Jan. 31.—The young wife of Venizelos, and an expert specialist were hurriedly summoned from Paris today by telegraph.

Official anouncement was made today that Venizelos has definitely resigned the Premiership. It was added he hopes to be sufficiently recovered to return to Paris by mid-February. M. Cafantaris most likely will succeed. The Cabinet will not be changed for the present.

### SAVE $225,000,000

(United Press Despatch)

Washington. Jan. 31.—Republicans on the Ways and Means Committee propose legislation reducing the income tax as much as 25 per cent. This would apply to 1923 incomes and mean a saving to tax payers of $225,000,000.

### WOODROW WILSON ILL

(United Press Despatch)

Washington, Jan. 31.—Woodrow Wilson is ill and under the care of a physician who was called at noon yesterday to attend the former President. The doctor says he does not consider his condition serious, but does not feel at liberty to state the nature of the illness.

(United Press Despatch)

Stockholm, Jan. 30.—An attack on the Swedish steamer Salen by Chinese pirates near Hong Kong was reported in a cable received here yesterday. Salen was boarded by Chinese pirates from junks and after gun battle the captain and crew were imprisoned.

### OH, QUITE SO

(Moorehead, Minn., Independent)

Nich Diede had a bad luck last Saturday while he went to hitch a purverizer on and hitched two horses on and wanted to tie the others on them while he had tied one on and wanted to tie the other on that side turned over the hind side and came under the pulverizer and cut his hind legs till in the bones so the animal had to be killed as soon as possible while the others cut themselves barely.

Clear, perfectly clear.

### A GOOD GUESS

Caller—"Is that your office boy I hear whistling at his work?"

Merchant—"Yes, and I'll bet that's all he's doing at it."

## HEAD OF McGILL FOR U.S. POST

### Understood That Sir Lomer Gouin Has Declined the Appointment

Montreal, Jan. 31.—A special despatch from Ottawa says: If Major General Sir Arthur Currie, president of McGill University, will accept the position of Canadian plenipotentiary to Washington, the appointment will be made, so it is learned here to-day. The matter has been discussed in the cabinet and Sir Arthur, it is understood, has been sounded out on the situation, but so far has not indicated his acceptance.

Many representations have been made to the government emphasizing the need of Canadian representation at Washington and the position will be filled just as soon as a suitable man can be found. If Sir Arthur would accept, the government would be pleased.

Sir Lomer Gouin, it is understood, declined the post.

Ottawa is Sceptical

Ottawa, Ont., Jan. 31.—Ottawa does not take seriously the Montreal report that Sir Arthur Curie may be Canadian Ambassador at Washington. He may be offered the appointment, but no one here thinks that he would even seriously consider acceptance. Sir Arthur Currie is not a man of wealth, and has no private future to assistance in maintenance of a Washington establishment. No salary the government might grant would be sufficient for the liquidation of all the necessary expenses attached to such an embassy as would have to be maintained at Washington. It is further pointed out that Sir Arthur would hesitate to severe his connection with McGill University, where the plans for its development were made in consideration of him being at the head of that institution for many years.

## Journalist ends Life's Journey

### Sandy Lockington, Editor of Port Hope Guide Succumbs to Pernicious Anaemia

Port Hope. Jan. 31.—Sandy Lockington, editor of the Port Hope Guide and one of the best known baseball authorities and fans in Ontario, particularly throughtout the Central Ontario League, died yesterday afternoon of pernicious anaemia at his home here.

Past president of the Central Ontario Amateur Baseball League, the late Sandy Lockington was one of the best known personalities in sporting circles around Eastern Ontario. As editor of the Port Hope Guide, deceased was fearless with his pen in criticisms of sport, especially in regards to mock amateurism. In the first year of the Central Ontario Baseball League organization, he was elected to its presidency and was again chosen to officiate the following year. After two years of service he was elected as a member of its executive, where his ability was highly appreciated and his death will be learned of with genuine regret among a wide circle of friends not only around Central Ontario, but throughout the east.

Deceased occupied the position of secretary of Port Hope's First of July celebration for many years and much of the success of this undertaking has been due to his untiring efforts.

## Graft Shinbone On "Chinless" Girl

St. Louis, Mo., Jan. 31.—She didn't have a chin.

She had pretty flaxen hair, and pleasant features, except for that chin.

She didn't have much of a chin when she was born, and when she became a young woman the deformity became more marked.

She was referred to Dr. William T. Coughlin, professor of surgery at St. Louis University and one of the chiefs of staff at St. John's Hospital.

Dr. Coughlin transplanted bone from her shinbone to a point where her jaw should have been. The results surpassed hopes. The girl could eat and talk like normal persons. A second grafting in the same manner made her jaw normal in appearance. There were no scars. Her shin was all right, too.

Dr. Coughlin has exhibited his work in the person of the very attractive young woman, to the St. Louis Medical Society. Dr. Coughlin was on the staff of the Red Cross hospital at Nauilly, France.

### JAPANESE PLANES CRASH IN MID-AIR

(United Press Despatch)

Tokio, Jan. 30.—Three Japanese airplanes collided in mid-day air above the Kasumigura aviation field on Tuesday. Two crashed at once, their occupants being killed, but the pilot of the third plane managed to BURIED BENEATH

## Obituary

### DOUGLAS WARRINGTON

Campbellford, Jan. 31.—The death of Douglas, 2-year-old son of Mr. and Mrs. Warrington Hay occurred early Wednesday morning after a brief illness with scarlet fever. Mr. and Mrs. Hay have the sympathy of the entire community, having lost two other children only a few years ago.

### MRS. MARY CARTER

On Wednesday afternoon the funeral of the late Mrs. Mary Carter took place from the family residence, 9th concession of Thurlow Township, interment being at Thomasburg. Rev. Mr. Thompson conducted the services. Floral tributes were many and beautiful in design. Bearers were Messrs. F. Ketcheson, J. Johnson, D. Chambers, J. Orr, B. and W. Sayers.

### MRS. WM. VINCENT

Many relatives and friends were on Wednesday afternoon present at the funeral of the late Mrs. Wm. Vincent which was a mark of esteem in which deceased was held. At the home of the deceased's parents, Mr. and Mrs. John Harris, 29 Herchimer street, an impressive service was conducted by Rev. N.S. McKechnie, pastor of the Baptist church, who also officiated at the interment, the body being placed in Belleville cemetery vault. Bearers were R. Orr, G. Ballantyne, F. Diamond, W. Luscombe, T. Vanallen and A. Blackburn.

The floral tributes of sympathy were numerous and beautiful in effect, being as follows:

Pillow—Husband.

Heart—Father and mother.

Cross—Brother George and family.

Star—Mr. and Mrs. J. Biggs and Mr. and Mrs. L. Weese.

Sheafs—Mr. and Mrs. W. Coon, Frankford, and Mr. and Mrs. F. Bartlett, Foxboro; Mr. and Mrs. Jas. Hudgins; Dr. and Mrs. Blakslee; Mr. and Mrs. Bert Robinson; Miss Helen Williams, Toronto; Mr. and Mrs. C. Smith; Mr. and Mrs. J. Anderson and Mr. F. W. Rathman; Mr. and Mrs. Quincey.

Sprays—Mr. and Mrs. R. McCormick; Mrs. T. Mills, Wallbridge; Mr. and Mrs. Jesse Harris and family; Mr. and Mrs. W. Vallance; Miss Ruth Vincent and Mildred Stewart; Mr. and Mrs. F. Davey Diamond; Mr. and Mrs. E. Farrow, Oshawa; Miss Emma Sullivan; Mr. and Mrs. P. Vanallen and Miss Bertie; Mr. and Mrs. H. O. Stewart; Mr. and Mrs. Delisle and Helen; Mr. and Mrs. H. Row; Mrs. Orr and Margaret; Mr. and Mrs. R. Orr; Mr. G. Ballantyne; Mr. and Mrs. W. Gilbert; Mr. and Mrs. W. Reid, Mildred and Kenneth; Mr. R. C. Andrews and Myrtle; Mr. and Mrs. Geo. Hale; Mr. Leigh Smith; Mr. and Mrs. Geo. Reid; Mr. T. Givins and Mr. and Mrs. W. Givins; Mr. and Mrs. W. E. McCormick, Mr. and Mrs. Burns; Miss Grace Foxton.

### HUGH MANAHAN

The funeral of the late Mr. Hugh Manahan took place yesterday morning from his late residence, 16 Pope street. At St. Michael's Church Rev. Father Killeen conducted Mass. The body was placed in Belleville cemetery vault. The bearers were J. Whalen, J. Kelly, M. Lynch, C. Donovan, W. Harris and T. Wims. The spiritual and floral offerings were as follows:

**Floral Offerings**

Sprays—Mr. and Mrs. Geo. Kelly; Garn E. Dolbe and staff.

Wreath—Belleville Hardware.

**Spiritual Offerings**

Lawrence Burke; Mr. and Mrs. J. Penny; Mr. and Mrs. Wm. Manahan, Rochester; Mr. J. Rouan; Francis Manahan; John Manahan, Toronto; Mrs. B. Wims; Mr. R. Brown; Mrs. E. Manahan, wife; Mr. Wm. Manahan, Trenton; Mr. and Mrs. D. Hayes, Toronto; Gordon Manahan; Mrs. W. Sumers; Mr. W.P. Cox and mother of Toronto; Miss K. Nichols; Mr. and Mrs. Matthews; Mr. P. Rouan; Mr. and Mrs. Burd; Mr. and Mrs. J. Brockman of Toronto; Mrs. J. E. Russell, Toronto; Mr. and Mrs. T. Manley; Roy Manahan; Mrs. M. Donoghue; Mr. and Mrs. J. Lapalm; Mr. and Mrs. R. Burd.

### MRS. REV. R. M. POPE

Word has been received in the city of the death of Mrs. Rev. R. M. Pope which occurred on Wednesday at Mission, Tex. Deceased is well known in Belleville, having lived her four years, when Rev. R. M. Pope was Pastor of Holloway street Methodist Church. Mrs. Pope was a lady much esteemed by a large circle of relatives and friends. Her husband predeceased her some years ago. A son Claude survives. The body will be brought here for interment.

### TAKES LONG WALK

Evidently preferring his Montreal home to Belleville, where he has been visiting for three days, a twelve-year-old boy who has been living with a Station street Italian family, left for the east on foot last night. Found loitering at the C.N.R. depot last night, he was sent "home" by a constable. This morning Chief Constable Barrett of Napanee phoned the local police, stating that he had a young boy in custody who was picked up there and who claimed to have walked from Belleville.

The family with whom the boy has been visiting, was immediately notified and the "head of the house" left on the noon train for Napanee to get the boy, Frank.

The young boy, though an Italian, speaks French very well, but is not familiar with English, and gave the officers much trouble in attempting to explain his story.

### ISSUES WARNING TO ANTIQUE DEALERS

(United Press Despatch)

Paris, Jan. 30.—Aroused by the despoliation of the Roman Catholic churches throughout France, by foreign antique dealers who have denounced religious edificies of most of their valuable art works, Archbishop Dubos of Paris has issued a solemn warning against all these depredations.

# NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

**Now Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy—Feel Your Very Best Again!**

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick-Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

**Why This Gives Relief**

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the Symptoms described above.

**Share It With Family!**

Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physician's for their CORRECTIVE and HEALTHBUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver—to correct the cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Overtaxed Nerves, and to send purer, Healthier Blood coursing through your veins.

**Clip the Coupon Below!**

It will cost you nothing to try this health-building vegetable syrup. All we ask in return is that you tell others what a few spoonfuls did for you. Keep up this helpful treatment after the sample bottle has demonstrated its merits in your case. Show your friends and relatives that the regular dollar-twenty size bottle is sold under the guarantee that every penny will be refunded if for any reason they are not completely satisfied.

**FREE!** This Coupon is Good for One Sample Bottle of **DR. THACHER'S LIVER & BLOOD SYRUP**

If presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size NOW by presenting this coupon to Dolan, The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists everywhere.

## RE-ARRANGE BIBLE FOR THE CHILDREN

London, Jan. 31.—Three wise men of Cambridge University are hard at work editing "The Children's Bible." They declare they are not trying to expurgate Holy Writ, but merely to adjust its contents to the different ages. Thus:

For child of five: Simple story of Christmas, of the Wise Men of the East, of the Flight into Egypt, and of "the love of Christ for Mankind."

For child of seven: Story of the Flood, stories of forgiveness, stories of the kind deeds of Christ.

For child of eleven: Stories revealing God's love for mankind.

For children from twelve to seventeen: Stories of religious history, carefully chosen.

For young person of eighteen: The whole Bible, with emphasis "upon the great love and mercy of the Almighty";

"We shall not tamper with the matchless language of the Bible," said Dr. H. Morris, one of the three volunteer editors. "It is the best training children could possibly have. But we shall steer our young readers past the old Hebrew stories of hatred of vengeance of the spilling of blood until they are sufficiently advanced not to be misled or over impressed by them."

### DEAD BOY'S EMPLOYER SUMMONED FOR ASSAULT

Goderich, Ont., Jan. 31.—A summons has been sworn out by Deputy Sheriff Gundry before Magistrate Reid charging J. Benson Cox with assault. This action follows upon the finding of the jury last week, who investigated the death of Chas. Bulpitt, a home boy employed upon the farm of Cox, and who hanged himself on December 22. The jury in its verdict laid among the causes of hanging, the unwarranted punishments. A summons was sworn out last week by Provincial Constable Whitesides, but was not served.

Crown Attorney Seager, K.C., has had considerable correspondence with the AttorneyGeneral's Department at Toronto.

The case will be heard before Police Magistrate Reid on Friday, February 1st.

### USED AS A STRANGER ONLY

She—"It must be awkward to eat soup with a mustache."

He—"I should think so. I invariably use a spoon."

# If Back Hurts Begin On Salts

### FLUSH YOUR KIDNEYS OCCASIONALLY BY DRINKING QUARTS OF GOOD WATER

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity; also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

## New York Fire Chief Has Appropriate Name

New York, Jan. 31.—"Smoky Joe" Martin, baptised "Joseph B." Martin, chief of the New York Fire Department, recently celebrated his 40th year in the New York Fire Department. There's how he got his name.

There was a fire in West street when the late Richard Croker was chief. Twenty or thirty firemen entered the blazing building, which was filled with smoke. One after another they collapsed and were dragged to safety. One man was missing. It was Martin.

Croker himself entered the building. He heard water splashing in the cellar and crept down the stairs. There he found Martin in the thick of the smoke, sneezing and coughing, propped in a corner behind some crates and playing his hose on the heart of the fire.

Croker yanked the enthusiast to the sidewalk and gasping panted to others who stood by:

"Here's a boy who is a regular fire eater. He likes smoke so much he eats it. He's the original Smoky Joe."

And from then on "Smoky Joe" it was.

## 'Nother

William Adamson (above) is the new secretary of state for Scotland in Premier Macdonald's cabinet.

## RUM RUNNERS ON QUEBEC BORDER

### Liquor Commission Inspectors To Co-operate With Americans

Quebec, Jan. 30.—The industry commonly known as rum running carried on between this province and the border states is to be checked and the responsibility of this province being a source of supply of liquor for the United States may no longer be imputed to the province of Quebec if pourparlers now on between the Quebec Liquor Commission inspectors with the assent of the province, and the border states authorities are successful in evolving a satisfactory plan of campaign.

A few weeks ago a revival of activities was reported again on the border states, especially at points south of Temiscouata county, near Escourt where forest fires had ravaged the country. Investigations were conducted and the commission advised the American authorities that unless co-operation was arranged the task of preventing illegal exportation of liquor from this province would be very difficult. As a result negotiations were again opened and are now on the eve of being successfully completed.

The Quebec Liquor Commission inspectors will be supported by the American revenue men across the border and on the other hand bootleggers entering Canada to escape the United States revenue will be dealt with by the Quebec Liquor Commission inspectors.

## MORE OATS MORE CASH

### Growing More Oats By Sowing the O. A. C. No. 72.

**Larger Yields and Better Quality—A Great Prize Winner—A Triumph for the Agricultural College—A New Hybrid Field Pea.**

(Contributed by Ontario Department of Agriculture, Toronto.)

The O.A.C. No. 72 oat has, during the short period of its existence, added greatly to the total grain production of Canada. Its multiplication during future years will undoubtedly add many millions to the agricultural wealth of the province.

**Derived From the Siberian.**

The O.A.C. No. 72 was derived from the Siberian. In 1903 a large nursery plot in the experimental grounds at the Ontario Agricultural College, containing 10,000 seeds planted by hand at equal distances apart, produced several plants of remarkable vigor. One of these selected plants was the parent of the O.A.C. No. 72.

The success of the O.A.C. No. 72 has been measured side by side with that of the Banner, which, previous to the general distribution of the O.A.C. No. 72, was the most popular oat grown in Ontario.

**Yield and Quality Compared.**

For sixteen years in succession the O.A.C. No. 72 and the Banner varieties of oats, have been included in the experiments at the College, and the following table gives the average results in maturity, in percentage of hull and in yield of both straw and grain per acre:

| | O.A.C. No. 72 | Banner |
|---|---|---|
| Percentage of hull.. | 28.6 | 30.3 |
| Tons of straw per acre | 2.2 | 2.1 |
| Bushels grain " " | 88.23 | 73.68 |

In these experiments the O. A. C. No. 72 in comparison with the Banner has a thinner hull in each of fourteen and a greater yield per acre in each of twelve out of sixteen years. Each variety required on an average one hundred and ten days to mature.

**Remarkable Growth in Popularity.**

In 1911 the O.A.C. No. 72 variety of oats was distributed throughout Ontario in connection with co-operative experiments which were being carried out through the medium of the Experimental Union. Without a single exception this new variety of oat has given a higher average yield per acre than any other variety used in co-operative tests conducted by farmers in each of the past eleven years. The O.A.C. No. 72 soon made a record for itself, and was increased rapidly from the pound lots used in the tests conducted on the individual farms. In the last seven years, of the 990 first prizes which were awarded to fields of standing oats in connection with the Field Crop Competitions throughout Ontario, the O.A.C. No. 72 received 521, the Banner 220, and all other varieties combined 249.

**A Consistent Prize Winner.**

In the competitions of threshed grain at the Canadian National Exhibition, Toronto; at the Central Canada Exhibition, Ottawa; at the Provincial Winter Fair, Guelph; and at the Ottawa Winter Fair, the O.A.C. No. 72 received 72 and the Banner 41 prizes in the last four years, the O.A.C. No. 72 surpassing the Banner in awards from fifty to one hundred per cent. at each of these exhibitions. This is a remarkable record, twenty years from single seed to the present day millions. The benefit that Ontario is deriving from the development of the O.A.C. No. 72 will pay many times the entire cost of the Agricultural College.—Dept. of Extension, O.A. College, Guelph.

### A New Hybrid Field Pea.

The market value of Ontario's field peas amounts to about four million dollars annually.

The O.A.C. No. 181 variety of field peas was originated at Guelph by crossing the Prussian Blue and the White Wonder. It is a small, smooth, white pea of good quality and appearance.

Of all the leading varieties of field peas tested at the Ontario Agricultural College, the O.A.C. No. 181 has given the highest average yield of grain per acre. In the past five years' results, the first, second, third and fifth highest yields were produced by new varieties originated at the College through cross-fertilization. In the tests with other varieties, the O.A.C. No. 181 was early, reaching maturity in 99 days, and the straw was the freest from blight and grew to an average length of 45 inches. The peas gave an average weight of 62.8 pounds per measured bushel.

This new variety of field peas was successfully tested in the co-operative experiments on fifty farms throughout Ontario in the past two years. The following was the average yield in bushels per acre per annum of each of the four varieties tested in this way by the practical growers: O.A.C. No. 181, 26.9; Early Britain, 24.4; Potter, 24.3; and Canadian Beauty, 23-1.—Dept. of Extension, O.A. College, Guelph.

### Eradication of Bladder Campion or Cow Bell.

Badly infested fields should be plowed deeply, and then thoroughly cultivated and cross-cultivated with a broad-shared cultivator in order to break up and weaken the underground rootstocks. This cultivation should be given frequently enough to prevent the plants making any growth above ground until it is time to put in a hoed crop, which must be kept thoroughly clean in order to be effective. A well cared-for hoed crop of corn has been found to give excellent results. Special attention must be given to hoeing out any patches of Bladder Campion which may appear in the corn crop, and which are not destroyed by cultivation. If in the fall there is any Bladder Campion in the field, it will be necessary to plow fairly deeply and cultivate thoroughly and the following spring repeat the frequent cultivation until it is time to put in a hoed crop. This second hoed crop should not be necessary under ordinary conditions. One spring's thorough cultivation, followed by a well cared-for hoed crop should destroy practically all the Bladder Campion. —J. E. [illegible]

## Movies Expect Hundred Million Year In 1924

By HAROLD E. SWISHER

(United Press Staff Correspondent)

Hollywood, Jan. 31 (United Press).—The new year finds Hollywood rejoicing. Nineteen twenty-four will be a $100,000,000 year in motion picture production, according to the estimate placed on the proposed film output by those closest to the office books.

Picture making, according to heads of a score of Hollywood producing companies, never stood on a sounder basis than it does now. With inflated salaries and huge expenditures with little results eliminated by the recent shut-down, film canneries are again reopening, assured of reasonable profits from their labors.

The Famous Players-Lasky Corporation shut down completely during the latter part of 1923, was one of the first big studios to swing into active production again. Work was started at Lasky's the second week of January, and new companies will get busy every few days, it is expected.

Warner Brothers, Joseph M. Schenck, Universal, Metro, Ince, Goldwyn, Robertson-Cole, First National and other big producers joined in the prosperity chorus with the assurance that the depression is over and big programs for the year are planned.

Lasky's will make 60 pictures during the season, 45 of which will be filed at the Hollywood studio. Joseph Schenck, who produces for Norma and Constance Talmadge and Buster Keaton, is authority for the statement that this trio will make ten new films.

"It is our intention to spend $4,000,000 during the year," Schenck said. "By the first of February I expect to see all Hollywood studios moving along at full blast."

### Spend Six Millions

"We have eight pictures that must be completed by May 1", said J. L. Warner, of Warner Brothers. "Our year's production schedule calls for an expenditure of $6,000,000. We will start two new productions every four weeks, leading off with 'Babbitt,' Sinclair Lewis' famous novel."

Samuel Goldwyn, head of the studio which bears his name, thinks that "the present year will see greater production activities in Los Angeles than ever before. There is solid foundation for this optimism. Despite the recent cry of 'wolf' in motion picture production circles, every producer with whom I have talked is planning ambitious schedules."

Mr. C. Levee, president of the United Studios, asserted that his plant was "running full blast shortly after New Year's. Three new companies started work before the 15th, while others will get busy within a short time."

Out at Universal City, William Koenig, general production manager, and Julius Bernheim, general manager, are wondering if they didn't miss a good publicity opportunity when they failed to shut Universal down during the holidays.

Since the studio didn't shut down, it failed to gain mention in a "shut-down" story to be followed by a resumption of activities" yarn later. Universal has never fallen below an average of six to eight companies working, except right after the recent disastrous fire, which destroyed one of the big stages and many sets.

It is declared probable that one or two big names will be added to the list of Universal feature stars, which at present includes Virginia Valli, Mary Philbin, Reginald Denny, Hoot Gibson, and Laura La Plante, Herbert Rawlinson and Jack Hoxie.

• • •

Francis X. Bushman, once one of the most popular actors of the screen, has returned to the silver sheet at Messala in "Ben Hur", which Goldwyn will make in Europe. William S. Hart played the part on the stage for several years before he went into pictures. Five of the important parts in the big production have now been cast. George Walsh is to play the title role, Gertrude Olmstead will be Esther, Carmel Myers will impersonate Iris, the Egyption siren. Kathleen Key will be Tirzah, sister of Ben Hur, and gush will play Messala.

• • •

Attired in the first costume he ever wore for a motion picture, Hobard Bosworth, veteran stage and screen star, rode his famous white horse Parada at Pasadena New York day. Bosworth was tendered a special invitation to take part in the celebration. He was one of the real pioneers in the films, and made some of the first pictures ever produced in Los Angeles.

Baby Peggy, famous screen starlet, has joined the list of picture players who carry heavy insurance. The youngster has had her face insured for $250,000. The policy covers Baby Peggy's face only, and includes blindness, scarred features, or in fact any facial disfigurement that might prevent the little actress from starring before the camera.

## Interests Now Unite To Clean Quebec Of Pest Of Auto Thieves

**Joint Meeting of Associations Decides that Drastic Action Is Necessary—Strong Representations To Be Made In Quebec—Many Public Bodies Likely to Join in the General Man Hunt**

Montreal, Jan. 31.—Definite progress is now being made towards curbing and halting the present portentious traffic in stolen automobiles. This has reference particularly to autos stolen in the United States and sold in Quebec Province; and the signs of the times point to a radical change being enforced that will take away from these traffickers in stolen cars their present unique chances of driving a big trade under cover of an antiquated remnant of the Napoleonic Code still operative in this Province.

The Montreal Automobile Trade Association; the Merchants' Association of Montreal and representatives of the insurance companies here held a joint meeting yesterday afternoon to go over the general situation, coordinate their efforts and form a common plan of action. They are also making representations to the Canadian Manufacturers' Association; the Board of Trade, the Chambre de Commerce and other representative bodies who will doubtless be leagued with them in their campaign against those wholesale frauds which are not only causing innumerable losses to car owners, the legitimate trade and insurance companies, but are hurting the good name of Canada.

It was pointed out to the press today that scarcely a day passed but some citizen of the United States comes to this Province to locate his stolen car and finds it. True, he finds it, BUT even after the completest identification he cannot recover it without "buying" it from the present illegal possessor owing to the loopholes offered by Article 1489 of the Civil Code of the Province, previously referred to in these columns which reads:

"If a thing lost or stolen be bought in good faith in a fair or market, or at a public sale, or from a trader dealing in similar articles, the owner cannot reclaim it, without reimbursing to the purchaser the price he has paid for it."

### What is "Good Faith?"

The trouble is to disprove the pretense of good faith even in those glaring instances where it was obviously absent; for there are only too many cases where none but a hardened liar could possibly advance the excuse of good faith. The auto thief, however, knows how easy it is to dodge this restraint. He uses this knowledge as a prime selling point when talking up his prospect. For long he has taken shelter under it and his tribe has increased and flourished; but the trade here is determined to flush these birds from cover, and the first step taken will almost certainly be a petition to the Provincial Government to amend Article 1489 or at least to make it non applicable to automobiles.

It is likely that when representations are made at the Ancient Capital they will be of a strength and nature difficult to resist.

### FEEDING FOR BACON.

**Leave Litters With Sows for Eight Weeks—Selection as Important as Breed—Procure Sod for Feed in Winter.**

At the Ontario Agriculture College all litters are left with the sows until they are eight weeks old. Skim milk and middlings are the most satisfactory feeds on which to start the newly weaned pigs. Rations are made up with the idea of promoting growth during the first four months by using growth promoting rather than fattening feeds until the pigs are five months old. Middlings, oats, milk, whey, tankage and clover are protein feeds and capable of building bone and muscle. When the pigs are well grown at five months old the ration is changed for the finishing or fattening period. Two-thirds barley and one-third finely ground oats along with skim milk has been highly satisfactory. Tankage up to 8 or 10 per cent. has been successfully and profitably used when skim milk was not available.

In the experimental feeding with swine at the Ontario Agricultural College it has been found that there is but very little difference in the cost of gains with the various breeds, but there is a difference in the grade of product, which means more money for the kind that grade "select." Four hundred pounds of meal or its equivalent produced one hundred pounds of gain in weight for four breeds in the test. In cheapness of gain the bacon breeds fully held their own.

Before it freezes up store a waggon load or two of good, tough, green sods away in the barn cellar, pit or shed. Such will be very useful to toss into the pig pens now and again during the winter months. The pigs need mineral matter and this is an easy, cheap and efficient way to give it to them.—Department of Extension, O.A. College, Guelph.

In packing meat, put it in the brine skin side down, except the top layer, which should be turned flesh side down.

**Replace Poor Sorts With Good Varieties.**

In established vineyards where there are large blocks of the self-sterile Rogers' varieties and consequent poor crops, every third or fourth row should be removed and replaced with Concord, Niagara or similar self-fertile varieties. Further information will gladly be given to those requesting same.—Hort. Exp. Station, Vineland Station.

## THE DOMINION BANK

At the Fifty-third Annual General Meeting of the Shareholders of The Dominion Bank, held at the Head Office, in Toronto, on 30th January, 1924, the following statement of the affairs of the Bank as on 31st December, 1923, was submitted:

### GENERAL STATEMENT

**LIABILITIES**

| | | | |
|---|---|---|---|
| Capital Stock paid in | | | $ 6,000,000 00 |
| Reserve Fund | | $ 7,000,000 00 | |
| Balance of Profit and Loss Account carried forward | | 825,374 98 | |
| Dividend No. 165, payable 2nd January, 1924 | | 180,000 00 | |
| Bonus, one per cent., payable 2nd January, 1924 | | 60,000 00 | |
| Former Dividends unclaimed | | 219 00 | |
| | | | 8,065,593 98 |
| Total Liabilities to the Shareholders | | | $14,065,593 98 |
| Notes of the Bank in Circulation | | [illegible]366,384 00 | |
| Deposits not bearing interest | $19,992,610 53 | | |
| Deposits bearing interest, including interest accrued to date | 68,916,644 57 | | |
| | | 83,906,255 10 | |
| Advances under the Finance Act | | 4,000,000 00 | |
| Balances due to other Banks in Canada | | 2,977,068 76 | |
| Balances due to Banks and Banking Correspondents elsewhere than in Canada | | 2,135,444 86 | |
| Bills Payable | | 12,404 00 | |
| Letters of Credit Outstanding | | 2,259,008 25 | |
| Liabilities not included in the foregoing | | 328,593 75 | |
| Total Public Liabilities | | | 107,995,158 72 |
| | | | $122,060,752 70 |

**ASSETS**

| | | |
|---|---|---|
| Gold and Silver Coin, current | $ 2,048,850 22 | |
| Dominion Government Notes | 10,505,844 50 | |
| Deposit in the Central Gold Reserves | 600,000 00 | |
| Notes of other Banks | 888,169 00 | |
| United States and other Foreign Currencies | 75,885 41 | |
| Cheques on other Banks | 9,296,435 24 | |
| Balances due by other Banks in Canada | 1 85 | |
| Balances due by Banks and Banking Correspondents elsewhere than in Canada | 2,842,921 01 | |
| | 26,260,107 23 | |
| Dominion and Provincial Government Securities, not exceeding market value | 17,409,251 23 | |
| Canadian Municipal Securities, and British, Foreign and Colonial Public Securities other than Canadian, not exceeding market value | 4,084,226 16 | |
| Railway and other Bonds, Debentures and Stocks, not exceeding market value | 2,503,881 72 | |
| Call and Short (not exceeding thirty days) Loans in Canada on Stocks, Debentures and Bonds and other Securities of a sufficient marketable value to cover | 5,278,336 44 | |
| Call and Short (not exceeding thirty days) Loans elsewhere than in Canada on Stocks, Debentures and Bonds and other Securities of a sufficient marketable value to cover | 2,397,406 51 | |
| | 57,963,307 29 | |
| Demand Loans in Canada against the security of grain and flour | 10,811,227 30 | |
| | | 68,774,434 59 |
| Other Current Loans and Discounts in Canada (less rebate of interest) after making full provision for all bad and doubtful debts | 43,010,221 78 | |
| Other Current Loans and Discounts elsewhere than in Canada (less rebate of interest) after making full provision for all bad and doubtful debts | 728,930 45 | |
| Liabilities of Customers under Letters of Credit, as per contra | 2,259,008 23 | |
| Real Estate other than Bank Premises | 93,243 30 | |
| Non-Current Loans, estimated loss provided for | 314,354 46 | |
| Bank Premises, at not more than cost, less amounts written off | 6,123,472 00 | |
| Deposit with the Minister of Finance for the purposes of the Circulation Fund | 304,500 00 | |
| Mortgages on Real Estate sold | 19,442 19 | |
| Other Assets not included in the foregoing | 433,125 68 | |
| | | 53,286,318 11 |
| | | $122,060,752 70 |

E. B. OSLER,
President.

C. A. BOGERT,
General Manager.

**AUDITORS' REPORT TO SHAREHOLDERS**

We certify that the above Balance Sheet is in accord with the books of The Dominion Bank, and that, in our opinion, it discloses the true condition of the Bank as at 31st December, 1923. We have received all the information and explanations we have required and all transactions of the Bank which have come under our notice have been within the powers of the Bank.

G. T. CLARKSON, F.C.A.
R. J. DILWORTH, F.C.A.
Auditors for the Shareholders.

Toronto, January 21st, 1924.

## Argentine to Have Record Wheat Yield

By GEORGE W. HAYWARD

(United Press Staff Correspondent)

Buenos Aires, Jan. 31.—Everything points to the coming season in the Argentine being a busy one.

The Argentine Department of Agriculture reports that the coming shipment of wheat from the Argentine will be a record one in every respect. Both the quality of the grain and the quantity of the exportable surplus are likely to be higher than was ever known before, the latter being estimated at as high as 5,500,000 tons. There are also about 1,500,000 tons of linseed to send overseas at about the same time.

The prospects of the fresh fruit trade are excellent, and an increased export trade may be expected.

The dairy industry has shown a continual improvement during the past year and it is expected that the butter exports during the coming season will be exceptionally heavy, especially to Great Britain.

The smaller wool crop coming to the market is due not only to the decrease in the number of animals owing to the storms which destroyed over 25 per cent of the herds, but also because the product per animal was considerably lower, due to the lack of pasturage.

The exports of frozen and chilled beef during the past year marked a record one in meat exports, especially after the settlement of the packing house price difficulty.

The unsold stocks of hides are fairly low, but prices have dropped, due to the withdrawal of American buyers.

# Efficiency Impaired

### WHY MANY MEN AND WOMEN ARE BADLY HANDICAPPED

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. If you do not, a serious breakdown is almost sure to result sooner or later. In nearly all cases this condition, which doctors usually describe as general debility, is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and red by taking Dr. Williams' Pink Pills. You will soon notice the difference in your health by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity, and so the system gains nourishment and strength. If you are weak or out of sorts begin gaining new strength today by taking Dr. Williams' Pink Pills.

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

The Japanese call telephone girls "moshi moshi," sounding to us exactly like "mushy mushy."

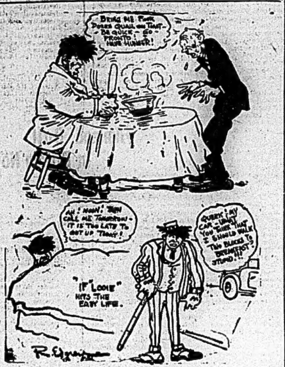
## SPORTS THROUGH EDGREN'S EYES



BRING ME FOUR POTTED QUAIL ON TOAST— BE QUICK— GO PRONTO! I HAVE HUNGER!
AH! MANANA! THEN CALL ME TOMORROW— IT IS TOO LATE TO GET UP TODAY!
QUICK! MY CAR— WHAT! YOU THINK THAT I SHOULD WALK TWO BLOCKS TO BREAKFAST? STUPID!!!
"IF "LOOIE" HITS THE EASY LIFE.
R. Edgren

The chief question about Firpo is how well he can stand prosperity. That's the thing that gets them. Hard, lean years, and then a long bank roll and everything they want—from fancy fodder to silk hats and automobiles. A back hall room—then hotel suites. Tenth Avenue—then Palm Beach. The brick kiln and the porter's job in a drug store—then the idol of Buenos Aires.

Luis landed in America with hardly enough to buy his meals a week ahead. He lived like a longshoreman out of a job. Now he can order Long Island duck in Buenos Aires, drink wine instead of water, wear a diamond pin to decorate his tie instead of a cotton tie to decorate a celluloid collar. He can ride where he used to walk. Firpo used to devour a tough plain steak with gusto. Now he probably roars at the waiter if the quail isn't tender enough.

Hard, lean years make hard, lean fighters. Soft, easy years make soft, fat fighters.

The sooner Firpo comes back to New York and starts hard work the better chance he'll have to win a couple of fights. Firpo has no skill, no great speed. He had strength, toughness and a punch. Firpo, a little soft, a little fat, and grown sluggish would look funny in the ring.

Paul Berlenbach is making good in great shape. His twentieth straight knockout was delivered in the Garden the night Greb beat Wilson in their return match. Paul knocked out Lew Chester in the second round. Two weeks before that he knocked out K. O. Jaffre in seven rounds at the Lenox A. C.

Berlenbach doesn't seem to be handicapped by "boosting". He was such a terror among the amateurs that everyone said he'd go on knocking out professionals when he left the amateur class. He did. There have been many cases where much touted amateurs trid the professional game and dropped out of sight. Leach Cross had a brother Sam, and Sam was a better and faster boxer and a harder hitter than Leach, who was then at the top of his professional career and reckoned close to the lightweight championship. I went to see Sam's start in an amateur tournament. In the first twenty seconds of boxing it looked as if Sam would massacre his man in about half a round. Leachie never looked half as much like a fighter as brother Sam did. In the next five seconds the other bird hit Sam just once, and the referee counted about seventeen over Sam and gave up. They carried Sam out, and the next day he said he'd decide to give up boxing and be a lawyer.

Benny Leonard had a brother Charlie, a wonderful amateur champion who knocked out all opponents in a punch and travelled around the country collecting amateur titles. Everybody admitted that Charlie was twice as good as Benny, so Charlie tried fighting professionally. A week later he was selling shirts and neckties in a store and said he'd found a real profession. It usually works out that way.

But not with Berlenbach. That bird seems to be on his way to the top. He'll get there if he isn't rushed along too fast and his manager, Dan Hickey, isn't rushing him. When Jaffre hit him on the chin with his hardest swing, and Berlenbach ducked his head and sent back a left hook that knocked Jaffre for a loop, he showed that he can take it and fight.

Of course Berlenbach is only half developed as a boxer. He still has traces of awkwardness and much to learn. Nobody can make a champion in a month or two. But he learns rapidly, and has every natural qualification of a fighter—endurance, speed, coolness, courage, and a natural knockout punch with either hand. Dempsey didn't start with anything more

All attempts to boost Harry Wills into a position of "only logical contender"—whatever that means—have flivvered. Wills made them flivver. For a couple of years he has carefully dodged every possible ring risk. The public has no use for a champion who won't take a chance. An alleged "contender" who won't take a chance is hardly even a joke. Will turned down several immense offers from Rickard and refused matches with Firpo and others, pretending that he stands next in line for a fight with Dempsey and that the public want the match. In fact Wills doesn't stand next in line to Dempsey. He might have, several years ago, but he has gone back too far to excite much interest as a championship threat. If Wills hadn't gone back enough to make matching him against any fairly good heavyweight a risky proceeding, soft marks wouldn't be picked for him so carefully. If he was able to fight his way up to the championship the way Dempsey did, he'd be hustled through match after match the way Dempsey was for a year before he met Willard at Toledo. He could grab a lot of easy money that way and have some good training before meeting the champion. But they don't match Wills around recklessly. Somebody might slap him over and ruin him. And if some second rater showed Harry up, all possibility of a big purse for being massacred by Dempsey would flivver.

For years after John L. Sullivan had lost the championship to Corbett, John, rather fat and old and white haired, used to wind up his show by roaring "I think I've got one good fight left in me yet—yours truly John L. Sullivan."

Wills probably thinks he hasn't more than one "left in him yet," and he doesn't want to waste that one by using it where he won't get the highest market price. But why should the public pay the highest market price to see a second rate fight? I haven't seen Wills put up any other kind in several years.

Rickard wants to see Wills get into the ring with Firpo. Rickard has handled Firpo's ring fortunes in his fights with Brennan, McAuliffe, Willard and Dempsey. He is enthusiastic over Firpo. If he thought Wills could beat Firpo he'd never make the match for he knows Firpo is a sure draw for one more fight with Dempsey. Rickard's judgment is usually fairly good.

Almost any match with the Dempsey-Firpo-Wills-Gibbons combination may be announced in the coming week or two, but the Dempsey-Gibbons bout just now looks more like a fixture than any of the others. Dempsey and Kearns have mentioned that bout first all through the winter, in talking over possible events for 1924, and Gibbons naturally wants a whirl at the big money. He has the world to win and little to lose.

## ON THE ALLEYS

The first game of a double header at the Y Alleys last night was an interesting contest between the Originals and the Hit and Miss Quintette. The former five, won by 193 points taking each gagme by a safe margin. Miss Pauley, with the Originals displayed the most perfect marksmanship of the members of either team obtaining both the single and high three string score.

| ORIGINALS | | | |
|---|---|---|---|
| Miss Rainbird | 139 | 124 | 77—340 |
| Miss Pauley | 157 | 103 | 163—423 |
| Miss McTavish | 131 | 101 | 98—320 |
| Miss Horton | 94 | 56 | 79—229 |
| Miss Blaind | 129 | 148 | 120—397 |
| | | | 1709 |

| HIT AND MISS | | | |
|---|---|---|---|
| Miss Tucker | 105 | 74 | 37—216 |
| Miss Morden | 134 | 124 | 123—381 |
| Miss Madden | 102 | 118 | 108—328 |
| Miss McKeown | 127 | 113 | 126—366 |
| Miss Sinc | 71 | 61 | 93—225 |
| | | | 1510 |

The Ramblers were just 141 points up when they finished their game with the Amateurs, in time to catch the last car home or a little beter. Both these teams are showing an improvement in their scores, the totals gradually mounting. Present indications point to the scores made by the ladies teams being on a par with those of the men. As a matter of fact there are a number of lady teams in the city right now who could furnish an object lesson to many of the entrants in the various mens leagues.

| RAMBLERS | | | |
|---|---|---|---|
| Miss Ford | 141 | 127 | 182—450 |
| Miss Brown | 99 | 139 | 136—374 |
| Miss Ross | 98 | 117 | 116—331 |
| Miss Rowson | 138 | 115 | 91—344 |
| Miss Kemp | 123 | 107 | 140—370 |
| | | | 1869 |

| AMATEURS | | | |
|---|---|---|---|
| Miss Wray | 96 | 178 | 66—340 |
| Miss Sayers | 139 | 72 | 121—332 |
| Miss Lafferty | 107 | 137 | 94—338 |
| Miss O'Rouke | 91 | 137 | 174—402 |
| Miss Donahue | 133 | 115 | 68—316 |
| | | | 1728 |

One junior and one senior league games were played at the Recreation alleys last night. The junior contest between the Lucky Strikes and the National Castings, the former won with ease rolling 2441 against 1979, Soule and Eithier leading for there respectie teams. The second tilt was between the Sprinklers and the Wanderers, the latter team rolling up a total score of 2810. Hill being high man with 251 for the single and 611 for the three strings. Scores and players:

### JUNIOR LEAGUE

| Lucky Strikes | | | |
|---|---|---|---|
| Soule | 134 | 175 | 209—523 |
| Dennis | 158 | 184 | 157—499 |
| Seeny | 186 | 138 | 173—497 |
| Jordan | 125 | 141 | 157—423 |
| Wilbur | 176 | 166 | 157—499 |
| | | | 2441 |

| National Castings | | | |
|---|---|---|---|
| Turner | 134 | 129 | 151—414 |
| Eithier | 183 | 161 | 178—472 |
| Higgs | 119 | 150 | 105—374 |
| Hall | 99 | 128 | 121—348 |
| Clarke | 124 | 106 | 136—371 |
| | | | 1979 |

### SENIOR LEAGUE

| Sprinklers | | | |
|---|---|---|---|
| Denis | 184 | 137 | 153—474 |
| Legault | 99 | 145 | 114—397 |
| Deslaurier | 146 | 181 | 98—425 |
| Roy | 133 | 160 | 148—441 |
| Patry | 149 | 155 | 174—428 |
| | | | 2125 |

| Wanderers | | | |
|---|---|---|---|
| Phillips | 221 | 192 | 178—591 |
| Lynch | 185 | 227 | 135—547 |
| Hill | 168 | 192 | 251—611 |
| Walshe | 174 | 204 | 190—568 |
| Yerex | 162 | 169 | 162—493 |
| | | | 2810 |

## BIG SPORTS TODAY AT HAMILTON

### Entry Forms out for Field and Track Championship Events

Entry blank are now out for the Ontario Indoor Track and Field Championships which are being held at Hamilton armouries on Saturday March 8th, under the auspices of the 91st Battalion Princess Louise's Argyle and Sutherland Highlanders. Prospective Belleville entrants may receive the necessary forms from The Intelligencer.

The events include 60, 300, 600 and 1000 yard dashes for men, girls and boys; one mile walk, relay races, running high jump, pole vault and other events too numerous to mention.

Gold, silver and bronze medals are supplied for all championship events and the last day on which entry may be made is Monday March 3rd.

### NOT TO BE LED ASTRAY

They were dining in Paris. "I think this is horse meat," said one. "Guess not." "I'll bet you." "No, I never won a bet on a horse in my life."

### Both Air and Water Races at Miami Meet

Miami, Fla., Jan. 31. (United Press)—Entries of naval planes in the races and stunt flying exhibitions at the two meets which are to take place in Miami March 7 and 8, are assured by the National Aeronautic Association, under whose auspices the 1924 Curtiss Marine Trophy races are to be given.

The races will be run at the same time that the annual water regatta is being conducted under the auspices of the National Power Boat Association and in which the country's latest craft will be entered.

Among the contestants who will fly in the races will be Lieutenants Brow and Williams, who recently startled aviation by flying at a rate in excess of 265 miles an hour.

## NEW JUNIOR TEAM TO FACE TRENTON

### Play Last Game of Junior Group at Arena To-night

When Belleville Juniors skate on the ice tonight at 8.15 o'clock to face the fast going Trenton Junior O. H. A. six, three new players will wear Belleville uniforms, so Manager Ed. Thomas stated early this afternoon. In the goal, a new boy named Laporte will wear the pads, and on the forward line two Albert College boys who were recently discovered, will be seen in action. The two new forwards are Atchieson, a Midland boy and Delahey who hails from Pembroke.

All three are reputed to be nifty hickory wielders and it is reported that their presence on the lineup will greatly strengthen the locals in their "onward race for power."

This is the last game in this group and Belleville practically have the honors cinched now. Their every thought is of their opposition in other groups, in the elimination series which commences very soon. After the January thaw King Frost has made the game possible and it is believed that a surprisingly good sheet of ice will await the players.

### JUNIOR BASKET-BALL

Last night at the Y. M. C. A. Gymnasium the last game of the Sunday School Basket-ball League was played between the Christ Church Trail Rangers and the Bridge St. Voyageurs. This was a replayed game from the first of the season, the former game having been thrown out on account of the Bridge St. players not fulfilling the league requirements as to the registrations of players upon the occasion of the two teams first meeting. Had Christ Church been able to pull out with a win it would have left the St. Andrews Boys tied for first place, with the Voyageurs. However, when the game was called, the boys from the West Hill could not muster a full team and on suggestion of their management they proceeded with the game with the assistance of outside players after defaulting the scheduled fixture to Bridge St. team. The resultant game turned out to be a very fair exhibition of the greatest of indoor games and as a railbird remarked, the players who took part in last night's game certainly play a creditable brand of ball when one considers that only a few weeks ago many of their number had their first introduction to the game. The full time score was 24-23 for the Voyageurs.

Bridge St—Holway, Ketcheson, Sills Blakley, Robertson, Wells.

Christ Church—Brown, Rodbourne, Kerr, Wells, Blaker, Dickson, Allen.

Now it is a Vermont man who wants a divorce because when he said the weather chilled him to the bone his wife suggested that he wear a heavy fur cap.

FANNING WITH FARRELL

## BOXERS SAY THAT DUNDEE IS THROUGH

By HENRY L. FARRELL
(United Press Sports Editor)

New York, January, 31 (United Press).—Johnny Dundee, the wise boys believe, is all through as a fighter and is just waiting to be taken.

The Broadway dope was put in words by Gene Belmont, one of its best known members, who told his home folks in Memphis recently:

"Dundee is through. Too much training has told on him. His old time pep is gone. Trying to take off too much weight has slowed him up. The first good man to fight him will beat him easily, as he is only the shell of himself."

Belmont is no authority, but he's a pretty good judge of fighters and his opinion is shared by a large number of good judges.

If there is anything in the dope that Dundee is to be taken by the first good fighter that gets him, Johnny is going to get it tomorrow night in Madison square Garden, when he fights Pal Moran, the New Orleans lightweight.

There is no doubt that Moran is a good fighter. He is even better than that and perhaps he is the outstanding fighter in the lightweight class now. Certainly he seems to be the only one able to give Benny Leonard any kind of a fight.

Dundee never did hesitate to take any one and in signing to fight Moran he gave no indication of having the doubts in himself that some of his friends have about him.

Even if he should lose to Moran he would lose neither his world's featherlightweight title.

Like Jack Britton, Dundee may be able to go on for years after his legs are slow and his arms weak, because he has a good fighting head on him, but even a great head can't carry him forever.

Dundee hasn't given a good fight since he won the featherweight championship from Eugene Criqui, but it may have been that he has been saving himself.

Moran is a young fellow. He can punch and box and he has a good level head. If Dundee can't outstep him, Johnny is in great danger of being knocked out.

• • •

Dundee cannot be accused of going out of his own class in meeting Moran, because he has been fighting for years as a lightweight. However, it may be lucky for him that the New York commission does not force him to defend his junior lightweight championship.

Sammy Mandell, the handsome Rockford boy, is a good bet to take the 130-pound championship away from Dundee, if he is able to get a fight with him.

Against Jack Bernstein in Madison Square Garden several weeks ago, Mandell looked like a sure champion. The judges called the bout a draw and while it was a fair decision, Mandell was given none the best of it. Perhaps if there hadn't been such a howl made about the decision against Bernstein in his fight with Dundee, the judges would have called Mandell the winner.

Mandell hasn't a punch yet, but he has everything else. He is not yet of age and his muscles haven't had time to set. He is a strong youngster and perhaps he will grow into a puncher like Benny Leonard did.

He hurt his hand badly in the early part of the Bernstein fight, and with his right hand gone he did wonders in holding off the rugged, strong Bernstein.

• • •

Mandell is being handled perfectly by Eddit Long and Eddie Kane. He could have made more money and advanced quicker in the featherweight class, but his managers knew he would injure himself by making the weight and they decided to let him fight at his natural poundage, even if he had to grow up into competition with the welterweights.

He is a smart youngster and he practically makes his own matches. He asked Long to get him a match with Bernstein, and, although he felt himself that the match was a big task for Mandell, Long went ahead and got it for him.

He now wants Dundee and if he gets the match he ought to win the junior lightweight title.

Right now Mandell is a legitimate 130-pounder, but he is filling out rapidly and he will be full fledged lightweight in another season.

• • •

Zev, champion American three-year-old and his illustrious stable mate, Gray Lag, were entered in the Ascot Gold up race to be run in England next June, but according to reliable information, neither one of them will be sent to the other side. When Gray Lag put in the stud this winter it seemed that his trainer, Sam Hildreth, did not have any serious intentions to send him to England for the classic.

• • •

As far as American competition is concerned, Harry Greb is perfectly safe in the possession of his middleweight champion. Among four worthy English middleweights now fighting in this country there is one, however, who may give Greb some trouble. He is Ted Moore.

Moore recently won a decision from Larry Estridge, a colored fighter who has been going a mile a minute. Estridge, a graduate of the amateur ranks, never had been beaten until Moore took him.

### VEILING THE THREAT

"What if I were one of those husbands, my dear, who get up cross in the morning and bang things around, and kick like everything just because the coffee is cold?"

"John," responded his wife, "I would make it hot for you."

### GERMAN WORKERS SHOT FOR TREASON

United Press Despatch

Berlin, Jan. 30.—Two German workers named Hols and Drebner, arrested by Separatist police in Schifderstadt as suspects were shot yesterday in their village. The men were accused of treason against the Separatist Government.

### LOTS OF FOXES

Campbellford, Jan. 31.—Some of the finest samples of fox skins ever seen have been offered on the market this season, the price hovering from $10 to $15 according to quality. Trappers report these sly animals particularly numerous this year.

### WANTED—LIQUOR TESTER

Los Angeles, Cal., Jan. 30.—The police are looking for a single man with a cast iron stomach, a strong constitution and an acid proof throat. He will be offered a job as liquor "taster" for the department, and the job will consist of trying all seizures made under the prohibition act to determine what percentage of muriatic acid or vitrol they contain.

### 110 CHILDREN FATHERLESS

Shanktown, Pa., Jan. 29.—With the removal of five bodies from the workings, all the men who were in the Lancashire Mine here of the Barnes & Tucker Coal Company at the time of the explosion Saturday afternoon were accounted for. The death list totals 36. Twelve men were saved. Of the 36 victims, 31 were married and the children made fatherless total 110.

## "THE LIVING MASK" PROVES TO BE HIGHLY SUCCESSFUL PLAY

By ALICE ROHE

(Written for the United Press)

New York, Jan. 31— The coldest night of the theatrical season might be considered no time at all to put forth the tender shoots of a new experiment in the "commercial" theatre. Yet Brock Pemberton did it without having his idea nipped in the bud. His affirmative answer to the age old query "Will a theatre audience think?" was answered with a wildly applauding crowd.

It was a gala night when this Pirandello cycle was opened, and Luigi Pirandello, the Italian dramatist, was dragged from a stage box onto the stage.

The devastating winds which blew with more than symbolical force over the wild moors of the commercial roaring Forties didn't even penetrate the Forty-fourth Street Theatre, where "Henry IV" Pirandello's study of madness, was presented under the changed title of "The Living Mask."

The only spot affected by the cold was the voice of the leading man, the much heralded Arnold Korff, of the Irving Place Theatre, essaying his first English spoken role. Despite this misfortune, Arnold Korff made a decidedly favorable impression upon a critical audience, who called him with the Italian playwright, so many times before the curtain that everybody knew that Brock Pemberton had "put it over."

As added proof to Pemberton's belief in "thinking plays," he had produced his second Pirandello drama in the big Forty-fourth Street Theatre. Last year his famous "Six Character's in Search of the Author," which introduced Pirandello to America, was housed in the tiny Princess. Opening of the cycle of "cerebal dramas" brought out the most discriminating audience. Stage boxes were occupied by important Italians, like Don Gelasia Gaetani, the ambassador; Princess Santa Borghese and Arturo Noce artist.

As for Pirandello's renamed play it is really an Italian Hamlet. It is an amazing study of madness.

Twenty years earlier a young man was thrown from his horse when he was portraying "Henry IV" in an historical pageant. The injury causes him to imagine himself to be that character and he has retired to a twelfth century mode of life surrounded by his vassals. Here arrives one day the woman who was Mathilde of Tuscany in the pageant—the woman he loved. With her is her daughter, now the replica of the portrait of the mother as Mathilde which hangs in Henry's throne room. With her, too, is an alienist and her lover.

Their plan of restoring Henry to reason is by substituting the daughter for the portrait. But Henry has not been mad for six years. He has been hiding in feigned madness from a cruel world he considers madder than himself. When the voice calls to him from the portrait, however, his mental poise is almost shattered. The cruel test precipitates the great dramatic crisis. He reveals the treacherous lover as the cause of his horse throwing him. He slays him. Then, horror stricken at what he has done and with the vision of what the outside world of these same people offers, he returns forever to his madness of living the unreal life of Henry IV, which he declares more real than their reality.

Robert Edmond Jones has designed beautiful stage sets and Arthur Livingston has made a fine translation from the Italian.

Gives you lasting uplift—Bovril

A Health Secret

It is frequently claimed by physicians that nine-tenths of all human ills may be traced to neglect to keep the bowels regular and the liver and kidneys active.

The result is an accumulation of poisons in the system which cause pains and aches and give rise to such dreaded diseases as appendicitis, Bright's disease, diabetes, high blood pressure, etc.

Dr. Chase's Kidney-Liver Pills are the ideal regulators of these vital organs because they act directly on the liver, kidneys and bowels, and ensure a thorough cleansing of the system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.

## That Body of Yours

By James W. Barton, M.D.

### A LONG SEARCH

A man consulted his physician one day and after describing his symptoms he said "Have I got Rheumatism?"

The physician said "Yes" I believe you can call it that."

"Well that means that I'll have to do without meat until I get better. Isn't that so?

"No! replied the physician", but it does mean that I'll have to look you over and try and find the cause, because there is a cause always".

Accordingly he begin in a systematic manner to go over the patient from head to foot.

First the mouth was examined, and the condition of teeth, gums, and tonsils were noted. Everything looked normal, and an X Ray of the teeth a month before by his dentist, had been negative.

There was no obstruction in the nose, nor was there any history of pain above the eyes or in the cheeks, where the caverns connecting with the nose are located.

There were no symptoms about the stomach that would suggest cancer or ulcer.

The urine was also examined and showed nothing abnormal.

The physician was not discouraged however.

Turning to the patient he said "We find that the clearing up of abnormal conditions in the teeth gums, tonsils and nose, clears up many cases of rheumatism, but one of the main causes I haven't touched on yet "Are you constipated?"

"Yes! answered the patient."

"I notice also that you are allowing your body to sag. That means that the abdominal organs are sagging also, and this interferes with the natural movement of material along the intestine.

Now you are a young man, so I'm going to suggest a few bending exercises to tighten up your waist, and stimulate action of intestinal contents.

If you were an older person I would put on an abdominal belt and give you purgatives.

Now there is a certain amount of danger already done with stiffness of joints, so that means plenty of hot applications and massage should be your treatment.

It may take time to get the trouble out of your system, and to overcome the stiffness of the body and joints, but if by your exercise you are preventing the further manufacture of the cause, then your complete recovery is only a matter of months.

### SENTENCED FOR THEFT GIVEN GOODS AS GIFT

St. Catharines, Jan. 30.—John Duval, a French-Canadian, claiming to be homeless was today sentenced to ten days in jail for walking off with 71 cents worth of tobacco from a Polish store on Geneva street. The storekeeper Tilley Rosalinsky, afterwards presented the prisoner with the stolen good as they had been opened. His brother Joseph, when ordered out of town, said he had no place to go.

Are your eyes 100 p.c. efficient?

We don't expect you to answer yes or no to that, because we realize no one knows the answer to this question until his eyes have had a thorough examination. The well-informed person makes it a point to KNOW about his eyes, the knowledge is very valuable to him. I can tell you about your eyes and give you the help they need.

YOUNG DAUGHTER. MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B. C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have." —Mrs. J. McDonald, 2947 26th Ave. East, Vancouver, B.C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time.

If she complains of headaches, pains in the back and lower limbs, or or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her.

## SEE NEW ROSES AT MID-WINTER SHOW

Philadelphia, Jan. 31 (United Press).—The thirty-third annual convention and exhibition of the American Carnation Society and the midwinter exhibition of the American Rose Society opened today in the exhibition hall of the Commercial Museum.

This is the largest mid-winter flower show to be held in the country this year, as all the large rose and carnation growers of the western and eastern states are displaying new and standard varieties grown especially for the occasion.

Among the novelties in the new pink rose "American," said to be one of the most beautifully formed roses ever grown; the novelty rose, "Scuv de Claudius Porost," a real sunflower yellow in color with bright glossy green foliage; "Sensation," a new red rose the color of the old Jacque, but borne on long stem; "Templar," a fine new red, and "Silver Pink Columbia" never before exhibited.

The display of carnations includes entries for over 200 vases of from 50 to 100 bowers each, among them a number of seedlings shown for the first time.

Although requiring an expenditure of more than $20,000, the show, which continues tomorrow, is free to the public.

## ENGLAND POSSESSES FASTEST SUBMARINE

London (By mail to United Press). —In the new submarine X-1 Britain has not only the largest undersea craft in the world, but also the fastest.

The new giant's qualifications for supremacy include:

A surface speed of 32 knots, enabling her to accompany the ships of the Battle Fleet, even when they are steaming at full speed;

A crew of 100 men, including 20 engine room artificers;

A canteen, this being an innovation on submarines.

The X-1 is designed as a commerce raider with the speed of a destroyer. The X-1 recently underwent a 38-hour secret test at sea.

Many a man's pessimistic views of life are due to his acquaintance with himself.

## Jackie Coogan's Ma Tells How Film land 'Found Him'

By HAROLD E. SWISHER
(United Press Staff Correspondent)

Hollywood, Jan. 31.—The number of film struck maidens and aspiring Valentinos who flock into Hollywood from all points of the compass is exceeded only by the startling influx of ambitious mothers with embryo Jackie Coogans or Baby Peggys.

Recently the Hollywood Chamber of Commerce and the Will Hays organization joined hands in an educational campaign in an attempt to discourage film struck persons, most of whom having no dramatic ability, and to establish once and for all the fact that Hollywood is not a mecca for mediocracy.

More recently there have appeared in Hollywood, and their numbers are legion, ambitious mothers, with no business experience, small bank rolls and cute children, seeking to entice the elusive goddess of the silver sheet. They come from Gopher Prairie, seeking fame and fortune for their offsprings, chiefly on the advice of doting neighbors, who were just "willing to bet" that if they were in Hollywood their children would make a big hit in the movies.

Mrs. Jack Coogan, mother of the screen's most famous youngster, offers some words of wisdom to mothers of precocious boys and girls.

### Jackie's Mother Talks

"In our case," Jackie's mother told the United Press, "we had no idea when we came to Los Angeles that our son would develop as he has. Jackie has been around stage folk all his life. Mr. Coogan and I have both been identified with theatricals since childhood, and when Jackie was very young he exhibited a talent for pantomime. We did not come to Hollywood five years ago with the intention of putting Jackie in pictures. Opportunity presented itself, as it has with others, and Jackie made good.

"Patience and perseverence, fortified with a stout heart and a full pocket book and some profession to fall back upon in case of need, are a mother's passport to Hollywood.

"If your child shows a tendency towards pantomime, make a screen test. There are cameramen in practically every community. This first step may save you from disillusionment, or may be the means of opening the doors of opportunity for your child. A boy or girl may have unusual dramatic qualifications, but no manner of histrionic ability will register on the camera eye unless one has that undefinable screen personality.

"Don't depend upon friendship for some one in a studio to place your child in pictures—pull and influence does not register on the screen.

"Don't let your next door neighbor persuade you with persistent assurances that if your little one were in Hollywood, he or she would be an instantaneous hit.

"Don't attempt to make your child act—it can't be done. Unless a child is allowed to develop under his own initiative, the case is hopeless.

"The highways of California are lined with roses and palm trees, but the paths that lead to screen achievement are narrow and uninviting. One in a thousand makes good—maybe your child is that one. If you are prepared to bear all that comes before success, then Hollywood invites you. Otherwise it would be better to remain by your fireside."

* * *

The next few weeks will see a return of directors to the Goldwyn fold. Marshall Neilan, who was loaned to Mary Pickford as director of "Dorothy Vernon," will come back to make more Goldwyn pictures and King Vidor is almost through his work in Laurette Taylor's "Happiness," which he has been directing for Metro.

* * *

Pat O'Malley will spend a month in Ireland next summer. Accompanied by Mrs. O'Malley and his two daughters, "Sheila" and "Little Lady Eileen." Pat will visit the home of his parents and take his first rest in years among his countrymen.

* * *

Blanche Sweet's "California Top" hairdress is becoming popular among the fanettes throughout the country. The frizz-top effect which Miss Sweet originated has come into vogue among many of her followers, according to letters she has received.

* * *

Alice Lake, a star in her own right right in the part and more recently a player in big all star features has been selected by Universal for the important feminine role opposite Herbert Rawlinson in his next feature, "Clay of Ca'lina."

## Filmland Doll In Britain Now

[illegible]n, Jan. 31. (United Press).—"Seventy-five per cent. of the members of the British film industry are at present unemployed; thousands of artists are down and out; and good men and women are being broken by the strain."

Edward Doran, secretary of the British Film Artists' Association, made the above statement.

Unless something is done and that quickly." Doran continued, "the industry will be completely crushed out. Under present conditions we simply cannot compete with the American producers and of the total films now being shown in Great Britain only 4 per cent. are British."

Victor McLagen, film actor, believes that more than 75 per cent of those connected with the industry are unemployed.

"I should say 25 per cent. is an under-statement. The condition of things is really heart-rending Hardly a day passes but I meet someone, whether a super or a mechanic, who is quite destitute and has no prospect of employment

"Among the 'stars' there is not much actual hardship but even with them good parts are very difficult to get."

"The root of the trouble is that the American producers, having secured their profits in their own markets, can sell the surplus here at prices with which we cannot compete."

There is a movement on foot now in England to place the importation of films upon a sort of quota system similar to that in operation in Australia. A condition of every license granted to an exhibitor wil show 25 per cent of Australian films.

Members of the industry in the British Isles contend that if such a practice were adopted here millions of capital would be invested in the industry within a few months.

### QUITE APROPOS

A famous actor who repeatedly made farewell appearances announced another final tour. "What will you play?" asked a friend.

"Something of Shakespeare," said the actor.

"Much Adieu About Nothing, I suppose," said the friend.

## Criticized

Lady Torrington, recent addition to British Parliament, is shown above in the low-necked dress and informal-looking hat, both of which evoked criticism in London.

Rheumatism Gone, Claims Mr. Merlinger

Rheumatism is said to be due to acid in the blood. Whatever its cause, only those who have it know the suffering it produces. While Carnol is not claimed as a specific for rheumatism, it did wonders for Mr. Merlinger. Sufferers from rheumatism may profit from his experience which follows:

"For the past two years I have been a martyr to rheumatism. It affected my muscles and joints which at times became quite swollen. I suffered excruciating pain. I tried several "sure cure" remedies for rheumatism. Some of them gave relief for a time. Others were of no use. At times the pain was more than I could stand. Some nights I only got a few hours sleep. I was completely run down. I felt that if the rheumatism continued I would have to quit work. I was becoming worried. In reading the Hanover Post one day I noticed an advertisement for Carnol. I started taking it and shortly afterwards got ease and relief from pain. It helped me wonderfully. I was able to sleep soundly, something I hadn't been able to do for months. I can recommend Carnol to everyone suffering from rheumatism."—C. Merlinger, Hanover, Ont. 1-9

*Carnol is sold by all good druggists everywhere.*

SOLD BY DOLAN THE DRUGGIST

### MATHEMATICS OF MATRIMONY

Ephraim Jackson—What you all call it when a girl gets married t'ree times—bigotry?

Rastus Johnson—Lawsy boy, you sittinly is ignoramus. Why, when a gal gits married two times, dat am bigotry, but when she marries de third time, dat am trogonometry.

AN ORANGE GROVE IN CALIFORNIA

The Fruit Treatment

One of the Wonder Discoveries of the Past Hundred Years

Greatest Advance in Medical Science is the Knowledge Gained of the Healing, Curative Value of Fruit Juices

FRUIT is Nature's medicine. In the sweet juices of fresh fruits, Nature places some of her most valuable medicinal principles. Apple juice acts on the Kidneys. Orange juice is a skin tonic, that clears the complexion. The juices of apples, oranges, figs and prunes tone up the liver, increase the flow of bile and correct constipation. But the fresh fruit juices contain only a small amount of the medicinal principle. By a wonderful process, discovered by an eminent physician, it is possible to extract these principles of the fruit juices, and so intensify them, that a small tablet will contain the healing properties of a very large quantity of expensive fruit. "Fruit-a-tives" are concentrated and intensified juices of apples, oranges, figs and prunes, combined with tonics. "Fruit-a-tives" relieve constipation, biliousness, stomach trouble, kidney and bladder troubles, rheumatism, headaches, backache, eczema and other skin troubles, because they are a complete fruit treatment. 25c and 50c a box—at all dealers, or sent post paid by Fruit-a-tives Limited, Ottawa, Ont.

*Mrs. Martha De Wolfe*, East Ship Harbour, N.S., says: "For years I was a dreadful sufferer from Constipation and Headaches. I tried 'Fruit-a-tives' and I feel like a new person in every way."

*Alexander Munro*, of Lorne, Ont., says: "For over three years I was confined to bed with Rheumatism. I tried nearly everything without receiving any benefit. [illegible] I tried 'Fruit-a-tives' —half a box brought improvement and continued treatment made me well. Now I can walk several miles and do chores around the place."

*Mr. Jas. S. Deigaty*, of Gilbert Plains, Man., says: "I had Nervous Prostration in its worst form. The doctors had no hope of my recovery. A friend induced me to take 'Fruit-a-tives.' After using this fruit treatment for three months, I was back to my normal health."

*Mrs. M. J. Gorie*, 3928 Union Street, Vancouver, B. C., says: "I suffered with all symptoms of Female Trouble, with chronic Constipation and constant Headache. Doctors advised an operation. Then I tried 'Fruit-a-tives' and this fruit treatment has completely relieved me of all my misery and suffering."

### Affirmitive Argument

Only thing you can say for having a girl in your lap is she goes through the windshield first.

## NORTHERN LIFE CHANGES HAND:

### Tweed and Doherty Resel to Gairdner and Clark at an Advance

Toronto. Jan. 31.—The control of th stock of the Northern Life Assuranc Company—a Pundom Company at London—has again changed hands. Gairdner and Clarke and Company, Toront brokers having bought it from Sydne C. Tweed and Hon. Manning Dohert on Monday last.

The policyholders are not affecte by the change. The dominion insurance department keeps insurance companies under inspection and supervision and not one policy of a straigh line company in all the history o Canada has failed to be paid on ma turity.

A prolonged struggle went on fo control of the Northern Life stock bu finally Tweed and Doherty gathere in more than 5,000 shares, giving then control. The stock had been at a lov figure, having regard to the company' assets and offered a fine prospect t investors. The Sun Life offered to tak over the business on favorable term but the dominion superintendent of insurance vetoed the plan on the groun that there were few enough companies

Some weeks ago Tweed and Dohert definitely won the race for control I is understood that they re-sold at considerable advance, something lik half a million dollars being involve Mr. Tweed is president and genera manager of the Ontario Equitable Lif and Accident Insurance Company an Mr. Doherty is one of the directors But they were acting in their privat capacity and not as insurance com ny officials in putting through th deal.

Recently the dominion superintendent of insurance vouched for the fac that the affairs of the Northern Lif were in good shape.

Spoken to today about the lates transfer of stock control, Gairdner Clarke and Company said they woul issue a statement in a week or two.

### COLLINGWOOD WINS GROUP

Midland, Ont., Jan. 31.—In the las of the four-game series played her last night on soft ice, the score was Midland 3, Collingwood 0. Thougl Collingwood lost this game, they wir the group by five goals.

### NOT SO LOVELY

Jack—"Suppose I teach you to play cards now, and then you'll know al about it after we're married."

Marie—"Won't that be lovely! What game will you teach me?"

Jack—"Solitaire."

Washington, Jan. 31.—The senate public lands committee today decided to appoint three medical experts to determine the actual condition of former Secretary of the Interior Fal central figure in the naval oil reserve scandal.

### ON WORLD CRUISE

New York, Jan. 31.—On the schedule hour, five o'clock p.m. the Canadian Empress of Canada left her pier on North River passing the statue of Liberty at sunset with aproximately three hundred passengers to cruise the world. As the palatial liner of the Pacific Ocean pulled out the band played popular dance music and those on the dock as well as those on dock danced to the airs.

As thousands of Americans visited the ship during her five-day stay, the departure was altered by a great throng. The departure signified a farewell to Commander Robinson, C.B.E.R.N.B. who has been in the metropolis during his visit as the hero of the Japanese disaster.

## MISS COLLETT WINS

### Canadian Champion Defeats Mrs. Caleb Fox

Belle Air Heights, Fla., Jan. 31.—Miss Glenna Collett, of Providence, former woman national champion. and Canadian champion for 1923, defeated Mrs. Caleb Fox of Huntingdon Valley, 5 and 3, in the first round of the woman's annual January golf tournament here. Miss Collett took 75 strokes, equalling the women's record for the course.

## BRASS' LOSS BY FIRE IS TO EXCEED $9,000

Toronto, Jan. 31.—Further investigation by Mr. John Brass, proprietor of the haberdashery and men's furnishing store, at Yonge and Adelaide streets, that suffered loss by fire, has disclosed the fact that the damage is much more heavy than at first expected.

"While I cannot place the exact figures," said the proprietor, it will certainly be far in excess of $9,000. We will have to dispose of our entire stock, some of which suffered loss by fire, some by water and some by smoke.

## Two Women Take Poison

### One Victim Despondent Because of Domestic Troubles

Chicago, Jan. 31.—Mrs. Marie Osborne Block, 21, bride of a month and Miss Bernice Hinman, 20, bride-to-be, swallowed poison in a motion picture theatre late yesterday and died last night. Despondency, brought on by separation from her husband, caused Mrs. Block to take poison, police believe. Miss Hinman either took poison on a dare or also was despondent of her chum's misfortune, police hold.

## ADVERTISE IN THE INTELLIGENCER

## Annual Meeting Of St. Andrews

The annual meeting of St. Andrew's Church which took place last evening was one of the most successful the congregation ever held. The members and adherents, in large numbers, gathered in the Sunday School room a t6-30 p.m. and sat down to a fine supper provided by the ladies of the congregation. A programme of music and readings was provided by Mrs. Knapp, Mr. Allan Kerr, Mr. E. Mouck, Miss Aitcheson and Miss Edith Fenn. The spirit of harmony and good fellowship prevailed throughout the evening among all present.

About eight o'clock the minister called the meeting to order and opened the business of the evening with the reading of Scripture and prayer. The meting appointed Mr. Newton Thompson, secretary. Mr, W. J. Campbell presented the statement of session outlining the spiritual activities of the church also showing the present membership of the church to be 395. Col. S. S. Lazier, one of the oldest and most respected members of the church and Chairman of the Board of Managers, presented the financial statement showing the total revenue for the year to be $10,800. The church having no standing debt. An endowment fund recently commenced amounts to over $2,000. The yearly budget of the chruch was explained in a black board talk and the responsibility of members and adherents in respect to it was clearly set forth by Mr. W. J. Campbell and Mr. Newton Thompson. Dr. Kinnear, treasurer of the church also spoke on the encouraging features of the church's finances.

Mr. Robt. Templeton in his report on missions, stated that approximately $1,200 had been raised for benevolences. He read from an old record the interesting statement that the land on which the church property stands had been donated by the Crown 1[illegible] years ago.

Reports of the various organisations were presented by the officers of each. These included thte Ladies' Aid, the Girl's Club, the Woman's Missionary Auxiliary, the Sunday School, the Young People's Guild, the Mission Band, the Choral Society and the Mae Carruther's Sororirity. Each society showed a fine record of Christian activity and a substantial sum of money raised for church support and missionary work.

Mr. Edgar Rutherford was elected to the Board of Managers.

Mrs. John Fenn(, Mrs. Homes and Mrs. Wm. McIntosh were especially mentioned in a vote of thanks for the preparation of the excellent supper. They were ably assisted by a number of ladies of the congregation

The meeting concluded with the singing og "Auld Lang Syne."

U.V. 201-a, Tubes $7.50. At Doyle's Drug Store

## Will Spend Millions

All plant facilities of the Ford Motor Company are being expanded to repare for another year of sensational production, according to remarks recently attributed to Mr. Ford.

'c..She ge'aq..nr.l qp ..;r etat

This of course is essential if production is to be stepped up to ten housand cars a day, which has been rognosticated.

### Discussed Last Year.

Last year about this time, the possibilities of seven thousand cars daily were discussed by many as being improbable. But the Ford Plants went ight ahead with the preparing and adding machinery to permit such an tput.

In the early months of the year he seven thousand mark was easily eached.

But building ten thousand cars ally is the greatest task ever faced an automotive manufacturer. Indications are that the Ford dealers, ho have a smaller stock of cars on and at this season of the year than hey have ever had before, will require a production of ten thousand ars.

### Spring Rush Soon.

The annual early spring rush for ars will face a shortage of unequalled proportions in the spring unless production can meet the demand and this the production experts of the Company are now planning to do.

For instance, the Ford Motor Comny is said to be spending on this expansion program approximately one hundred and ten millions of dollars. Of this sum, not a cent will be borrowed from anyone, declared Mr. Ford recently. All improvements new facilities will be made solely from profits.

### No Price Change.

Mr. Ford was recently asked if the production of ten thousand cars daily would have any effect in the price of he car. To which the automobile maker responded that little effect would be noticed inasmuch as profits were not as large last year as on me other years, although sales were unprecedently large. He said that the margin on the car now was already quite small.

### How to Control Root Maggots.

The cabbage maggot can be controlled by treatment, early in the season, with a solution of an ounce of corrosive sublimate in 10 gallons of water, applied to the stems and roots of each plant twice or three times at intervals of a week, using an ordinary watering can with the rose removed and the spout reduced to a convenient form to make the application. Onion maggots can be controlled by the use of a poisoned bait, consisting of one-quarter to one-half an ounce of sodium arsenate dissolved in a gallon of boiling water, with a pint of molasses added.

Crop rotation and diversification are sound forms of insurance for the farmer.

The United States Department of Agriculture has recently issued a leaflet on clean milk. The gist of the leaflet is expressed in its concluding sentence: "Keep milk clean, covered, cold."

Name your farm. A good name adds something to it, both as a home and as a place of business.

### EX-PRESIDENT DEAD

Lisbon, Jan. 29.—Treophile Braga, former President of Portugal was found dead in his residence today.

One of the leaders in the Republican movement which resulted in the revolution of 1910 and the dethronement of King Manuel, Dr. Braga was the first man to head the Portuguese Republican Government. He served as Provisional President from October 5, 1910, to August 4 of the next year, and was also the second duly elected President, succeeding Dr. Mamoel de Arriaga in May, 1915.

Dr. Braga was widely known as an educator, and wrote more than one hundred books.

I once got back some tools I lent,
But that was just an accident.

# BURIED BENEATH TONS OF STONE

### Montreal Workman Met Shocking Death at Cement Plant

Montreal, Jan. 31.—Buried beneath tons of rock just at the moment when he was about to be hauled to safety from a stone pit at the Canada Cement Works, in Montreal East, Albert Desormeaux, 41 years of age, of 4692 [illegible] street, a laborer, was suffocated before fellow workmen could remove the mass of stone shortly after midnight last night. Though the victim was caught beneath the rocks, he was only slightly bruised and would have [illegible] before the rescuers reached him.

According to evidence given at the inquest this morning, Desormeaux was employed in superintending the unloading of rocks into a huge tank which was connected with a crushing machine. It was his duty when the outlet of the tank was blocked to descend into it and loosen the rocks with a crowbar so that the crusher would be fed continually. Early this morning he had descended, according to the testimony, but was caught when a number of stones fell in on him and pinned him down.

Desormeaux had a rope about his waist and was about to be hauled from his perilous position when the rocks about the sides of the tank crashed in on him and buried him from sight. A gang of men worked frantically to lift the stones away, only to find that the victim was dead when they reached him. A verdict of accidental death was returned by Coroner McMahon in the case.

## Local Man

(Continued from page one)

heard him enter the house and then leave again. He was not seen afterwards and is believed to have committed the act almost immediately afterwards.

No Known Reasons

Relatives and neighbors are at a loss to know what would cause Harry's action, and are horribly surprised to-day. "He was one fine man" was the manner in which one neighbor described him. "And he was a good neighbor," he added.

The family are in excellent financial circumstances it is believed, as they have a fine home on Highland avenue, and own a two hundred acre farm. Whether or not it was worries about the farm which caused the final act is uncertain. Harry is a retired farmer.

George Alfred Harry was born in the 3rd Concession of Sidney Township, and was a son of the late Mr. and Mrs. John Harry. He was born in 1869. For a number of years deceased was a farmer in Sidney, retiring from active farm work seven years ago. With a brother, deceased conducted a livery business in this city for one year. Since that time, he has been living in retirement, but in season purchased and shipped farm produce. Deceased was a member of the Methodist Church and was much respected by all who knew him. A widow, and one son, J. Carl, survive, also two brothers and two sisters.

# MURDER CHARGE LAID AGAINST HAROLD GODARD

### Appears in Police Court, and Is Remanded Without Plea or Election

### CLAIMS HE SAW MAN

### Henry Peacock, Mute, avers He Met a Man leaving the Jamieson Ave. House

Toronto, Jan. 31.—Harold Myler Godard, held by the police on a charge of attempting to murder Miss Mary Duncan, was yesterday charged with murdering Mrs. Martha Crooks, in her home at 184 Jameson avenue, last Friday morning.

The charge of murder was laid against Godard following a statement made to the police by Henry Peacock, a deaf mute, of 137 Springhurst avenue, that he met a man coming out of Mrs. Crooks' home last Friday morning at 10 o'clock, as he went to the door to deliver a hand bill. To-day at police headquarters Peacock was closeted in the same room with Godard and police officials.

The information which was first laid at the time of Mrs. Crooks' death read, "an unknown man." To-day it was amended to read "Harold Myler Godard did on the 25th of January, 1924, murder one Martha Crooks." The information was signed by William H. Nicholls, detective-sergeant. Godard was brought into court by Detective Nicholls and placed in the dock alongside another prisoner and after a few minutes was ordered by the court attendant to stand up. Magistrate Jones then read out the charge, the prisoner sitting next to Godard took a startled look at him ,while the spectators in the seats behind the prisoners' dock leaned over to see his face. Godard looked weary and worn. He took no interest in the proceedings when Assistant Crown Attorney Edward Murphy asked the case be remanded till Frebruary 5. Godard walked restlessly up and down the dock waiting for the constable to open the door leading to the cells below.

Told Police Yesterday

Peacock called at police headquarters yesterday and stated he had seen a man leaving Mrs. Crooks' home, Friday morning at ten. Peacock with the aid of an interpreter stated he was delivering hand bills for a shoe repair firm, King street west, on Jameson avenue. As he come to Mrs. Crooks' door he met a man coming out. He offered him one of the bills—but the man refused, shook his head, brushed by him, and walked down the steps. Peacock put the bill through the letter box. It was found by the police in the vestibule when they reached the house at noon that day.

Peacock stated the man had his face hidden partially in his overcoat collar and his hands were smeared with blood.

Friday night, Peacock stated he read in the papers of Mrs. Crooks being slain on Saturday—the next day—Peacock, related through the interpreter that he met the same man on King street west in Parkdale, and made an effort to have passing pedestrians stop the man. Being unable to speak, Peacock was helpless and he made gestures. He made several motions for pedestrians to follow the man but no one could understand Peacock. In his efforts to make himself understand, Peacock pounded his head with his clenched fists and pointed at the man who had walked along the street a block.

Corroborates Story

The pedestrian who was stopped by Peacock on King street, Saturday, has also come forward and corroborated Peacock's story of his effort to make him understand. To-day Peacock was brought to headquarters, and Godard was brought from jail. In the back room at headquarters, Godard and Peacock met, face to face.

Godard denied that he knows anything of the slaying of Mrs. Crooks. He also says he never met Peacock in his life, and never was in Mrs. Crooks' home.

"Why have the police laid a charge of murder against Godard?" The Star asked Chief of Detectives George Guthrie. "Because we shall try to produce enough to warrant his committal for trial."

The chief of detectives refused to deny or admit that the deaf mute had seen Godard.

(continued from page one)

try.—We should take full advantage of our resources and see that they are developed. Here we have in quality and quantity resources unequalled anywhere. We have the raw material and the citizenship to handle it. What we need is more money and new capital with increased industrial activity, that we might find employment for our own people. We should handle our gifts to the best possible advantage, and make best citizenship you will find anyw- the most of our opportunities. The best citizenship you will find anywhere is produced here in Ontario. The opportunity is ours and we have the educational organisation to train and develop the younger generations of men and women. Our country can be made a very paradise of comfort and prosperity for our own people. In the Ontario Government rests the responsibility of seeing that legislation is shaped to bring about this result.

Education Discussed

Ontario's financial position was discussed.The annual interest charges amounted to fourteen million dollars a year, and on education alone ten millions is spent annually. "Education is the very rot of progress and as our hope for the future."

"Are we pursuing the course which will bring about the best possible results?" asked Premier Ferguson. "We are apt to say that Ontario has the best educational system in the world. I find no fault with the system, but it is the application of it that must be taken care of, what phases must we emphasise? We must adopt the type which is best adapted to the people of this Province. We must have an educational system which meets conditions as we find them in Ontario. We are through educating people for the United States. We have reached the stage where we must put a premium on our ability to keep our own people at home."

Technical training and vocational schools were advocated by the speaker. A different atmosphere must also be created in the Primary schools, he said. In the rural schools there should be suitable subjects taught instead of the white collar method now adopted. The best possible way to assist agriculturalists was to train the boys and girls to remain on the farms. "There is no calling I know of which will respond as rapidly and as readily as the industry of agriculture. "We must, therefore, change our methods.

Must Overhaul System

"We have grown so rapidly that our whole educational system must be overhauled so far as the distribution of educational grants is concerned, not only in the rural districts, but in the urban centres. A variety of conditions are found, which must be considered. In some rural sections there is a burden of taxation. The public funds are not distributed equally among the weak and the strong. Those able to pay should pay for the education of their own children and bear a share also of educating their neighbor's children. From the money apportioned to public schools a flat grant will be made to every school and over and above that the effort put into the work will be the first consideration.

"Urban centres will be treated the same and every assistance given the weak school. The working man and the poor man will be helped. His children will be given a chance along side those of the more fortunate citizens. The change, I know, will be attacked as somewhat of a radical one. Educational experts will be at me, but I have had others at me before."

Will Abolish Frills

Discussing the curriculum, it was announced by the speaker that an attempt would be made to stimulate interest among the children and not congest their brain power with intellectual food. "We can carefully select as we did in the old days a standard course for the public schools. A rugged specimen might be turned out, but he will be a mighty capable one." There were enough necessary subjects to teach, the Premier added, without adding frills. "If pupils desire further knowledge they shall have the opportunity, but they must not interfere with rights of the student who desires only practical knowledge. I have been told that this schedule is not feasible. In answer, I would like to say that the program is about completed, and by next year we well have a simpler curriculum in the schools."

It was also announced that supplementary examinations would soon be wiped out of existence. A Board of trained educationalists is to be appointed by the Government, and when a student fails, the papers will be reread. The teacher will be required to submit a statement of the pupil's record and application during the last term, and the inspector will report on his proficiency. It is the intention to decide on these three elements, whether or not the scholar should be promoted.

Attention was drawn to the fact that this scheme will place the re sponsibility of success or failure on the shoulders of the pupil. "It will not be possible to loaf five-sixths of thetime and put on a spurt in the last month. Is will stimulate the scholar to greater effort."

Appeals for Support of Program

Concluding, Premier Ferguson appeapled for support of his program 'If this Province is to maintain its position as the leader of the provinces of anada there must be united effort and co-operation, with the closest linking up of the urban and rural sections of the country. There must be a determination to offer to the future generations greater opportunities than we have had.'

That the cost of education with the proposed changes, would be con siderably lower than for many years past was the message of Mr. Ferguson. "I pledge myself to the support of the best possible at the lowest possible cost, for the people of Ontario."

Mr. Ferguson was given three rousing cheers at the conclusion of his interesting address. A vote of thanks, moved by B. W. Hop-kins and seconded by Orville Walsh, was tendered the distinguished guest. Members of the Dominion and Provincial Parliaments for Hamilton and Wentworth occupied positions at the head table, and representatives of the City Council, County Council and Board of Education, were in attendance.

## Frenchmen Trim Ham Tigers 5-2

Montreal, Jan. 31.—Any doubt as to the ability of the Canadiens to overcome the handicaps under which they have been playing lately were set at rest last night when the Montreal club downed Hamilton Tigers 5 to 2. The game was played on heavy ice, the mild weather resulting in the smallest crowd of two seasons attending, there being but 2,500 paid admissions.

The victory brought the team back to even terms with the Tigers at the foot of the standing, and with St. Pat's loss at Ottawa to a formidable position to again bid for second place and a chance for the play-off. It was not a brilliant game, due largely to the heavy condition of the ice. The local team took advantage of the fair surface offered in the first period. Morenz, Billy Boucher and Joliat continually peppered Forbes, and followed up drives to bat in rebounds, with the result that they led 4 to 1 at the first rest period.

Only One Penalty

Not before this season has such a cleanly-played game been witnessed in the National Hockey League. It was well on in the final period before Referee Mike Roddan was called upon to issue a penalty to Corbett Denenay of the Tigers, who was given a minor for attempting to rough it up with Morenz. To Red Green and Billy Burch goes the credit for the opposition put up by the Tigers. These two rushed incessantly and back-checked with untiring efforts.

## Senators Find The Irish Easy

Ottawa, Jan. 31.—Toronto St. Patrick's were completely outplayed and decisively outscored in last night's N.H.L. fixture. It was only a question of time, even with the visitors leading two goals to nothing at the end of the first period. This score was not a fair indication of the play, and when the locals got things going rightly in the second and third periods they made life miserable for John Ross Roach, who with Reg. Noble bore the lion's share of the St. Pat's work.

The two goals secured by the Green Shirts in the opening session were the results of straggling offensives, the first started by Dye and the second by Noble himself. Ottawa had more than an even share of the play, but the brilliant work of Roach kept them at bay. In the second period they took the lead with three well-earned goals, and in the closing stanza ran in four more. It was a strong finish, and the local attack in the finaltwenty minutes earned more than four goals.

St. Patrick's seemed disorganized. Their combination rarely worked, the individual rushes almost invariably ending at the Ottawa defence, and their shooting was ragged. On the whole they made a sorry showing, and only the bright work of Roach and the tireless perseverance of Noble kept them anywhere within striking distance of the world's champions.

## KINGSTON SELECTS BASEBALL OFFICERS

Kingston, Ont., Jan. 31.—It is anticipated that the Kingston baseball team will again operate in the Central Ontrio League. The local officers are Past President, T. A. McGinnes; President, B. N. Steacy; Vice-President, Howard Kelley; Treasurer W. L. Kennedy; Secretary, A. Murray; Manager, J. Daley; Business Manager, B. Shea; Grounds Manager, W. Arnell. The Executive Committee consists of the foregoing officials and Messrs. Leo Millan and Edwin Elliott. J.J. O'Neil has been appointed publicity agent and official scorer. Prospects for the coming season are found to be exceptionally bright. Practically all of last season's players will be available, and in addition some very promising players attending Queen's University will turn out.

### GAME CALLED OFF

Oshawa, Ont, Jan. 31.—The Port Hope O.H.A. game, scheduled here for last night was called off owing to the eastern team defaulting. This leaves Oshawa with one more game to play, the postponed fixture with Bowmanville that was scheduled for January 2 and in which the local kids have a chance to tie-up the group, as both teams have only one loss back.

RITCHIE'S

The Benefits of
CASH BUSINESS

In order to keep retail prices down to the lowest possible point, it is necessary for a merchant to do business on a Cash Basis.

First of all he must have the cash to buy his goods with at the right prices and to avail himself of all discounts. Manufacturers are looking for the merchants who can pay cash when they have special lines to offer.

If prices are to be kept right, no allowance can be made for the extra expenses that always accompany an extensive credit business, in the looking after and collecting of accounts. The only way a merchant can sell reliable merchandise at a close margin of profit is by purchasing his goods for cash and selling for cash. We believe this to be greatly to the advantage of the customer as well as to the merchant.

ACCOUNTS PAID ONCE A MONTH
THE SAME AS CASH

Many of our customers find it a convenience to run a monthly account and settle once a month. Any responsible family or individual may make arrangements at our office for a monthly account if they so desire. The bill will be rendered the first of each month and is due for settlement when rendered. We consider this the same as cash over the counter, and it allows customers to telephone us for goods or in other ways make purchases and settle monthly. We have no longer term of credit than this and we expect settlement of accounts when they are rendered.

A WORD ABOUT PRICES

In every case we guarantee our prices to be the lowest, the same quality goods can be bought for in Canada. We are in a position to buy in the best markets of the world and are satisfied with modest profits. If, after making a purchase, any customer is not thoroughly satisfied as to value, the goods may be brought back and the money will be returned. What more can we offer?

FOR SIXTY-EIGHT YEARS

We have been serving the people of this district. Many customers come regularly long distances to trade with us which is a splendid assurance that our efforts at service have been appreciated. We have several customers who have dealt with us for over half a century.

ALTERATIONS IN PROGRESS

We are at present making extensive alterations to our store and we intend to do even bigger and better things than we have ever done before. Our aim is to serve the Public with thoroughly reliable goods at moderate prices, and we extend the courtesies and conveniences of our store to all, whether their purchases be large or small.

## CANUCKS BLANK SWITZERLAND, 33-0

### Yank Olympics Also Win From France 22-0

Chamonix, France, Jan. 31.—Defeating Switzerland by 33 goals to nothing yesterday, Canada's hockey representatives at the Winter sports of the Olympic games brought their string of victories over European teams to three. The overseas players have scored 85 goals, while their opponents have failed to find the net on one occasion.

Having defeated all the opponents in Section A., the Canadian team will meet the winner of the second place in Section B., in the semi-finals, with the leading team in Section B. meeting the second team in Section A. Little doubt exists here that the Canadian and United States team will meet with any serious opposition in the semi-finals, and that these two teams will meet in the finals for the hockey championship of the 1924 Olympiad.

French Fight Hard

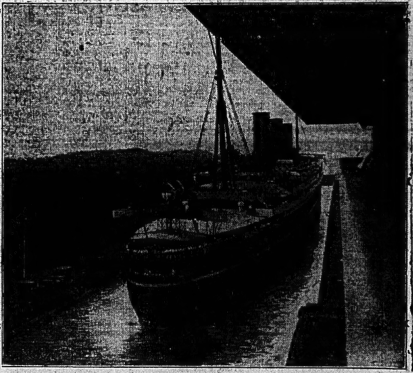
The United States team also continued its winning stride, defeating France 22 to 0. The United States scored 12 goals in the first period, one in the second, and nine in the third in its victory over France.

In the interval between the first and second periods, Quaglia, the French captain, delivered a fighting speech to the members of his team in their dressing room, telling them to take the ice resolved to do or die. Then Frenchmen took the ice in the second period and played the United States team to a standstill, Drury being the only one able to score. At the end of the period there was gloom on the United States bench and Manager Haddock could be heard lecturing his men.

The American team line-up was as follows: Goalkeeper, Alphonse Lacroix, Boston; left defence, Clarence Abel of St. Paul; right defence, Irving Small, of Boston (captain); centre, Harry Drury, Pittsburg; left wing Willard Rice of Boston; right wing, Justin McCarthy of Boston.

### TIME FOR EXTRAS

Two newsboys went to see a performance of "Hamlet." In the last scenes, after Hamlet had killed Laertes and the king and the queen had died of poison, and Hamlet of a poisoned wound one of the newsboys exclaimed: "Golly Jim, what a time that must have been for extras."



A recent and interesting photograph of the Panama Canal, showing the locking and hauling facilities of the system. The Canadian Pacific S.S. Empress of Canada is seen entering a lock chamber, on her way through the Panama on the Round-America cruise which preceded her cruise round the world.
